

C. H. Day to Lead County Farmers in Talking Problems

Vice President of State Group to Speak Here Wednesday at 2:30 in Courthouse.

Major farm problems will be discussed in the district court room next Wednesday afternoon, May 5, by C. H. Day of Plainview, vice president of the Texas Agricultural Association.

Day will be remembered as the leader of the Texas delegation to Washington in 1935—"Thank you!" tribute from the farmers to President Roosevelt.

Day believes that it is vital for farmers to form a compact, workable organization, since all industries and practically all other branches of American activity are organized for their own protection and advancement.

Farce Comedy Will Be Given at Bison

A full evening of fun is guaranteed by the Bison home talent players to those who see their production, "Aunt Samantha Rules the Roost," a farce comedy in three acts, which will be presented at Bison Wednesday night, May 5, at 8:00 o'clock.

Those taking parts are Mr. and Mrs. Hoyte Cary, Mr. and Mrs. Keyes, Doodle Berryhill, Ma Mae Huddleston, Jack Clark, Mrs. Wright Huddleston, Jessie Screeble, Mrs. Roy Barrier and Mrs. Elma Cummings. Music and readings will be provided for between-acts entertainment. An admission charge of five cents for school children and 10 cents for adults will be made.

\$2,694 State Money For County Schools

Warrants totaling \$2,694 and representing \$2 per capita of the state available school fund apportionment for this school year, were received last week for use in payment of rural teachers salaries.

The payment brings to \$13 the total per capita scholastic apportionment of \$19. County Superintendent Frank Farmer expects the \$6 balance to be received before August 31, ending of the fiscal school year.

Sponsor Benefit Party. Woman's Culture Club is sponsoring a benefit forty-two party next Tuesday night in the National Guard armory to raise funds for the city library being planned. Admission will be 25 cents per couple, and the club urges local people to attend.

Human Being

Being only was a blessing in disguise for Norman Grusky, who, by popular vote, was named the ugliest man on the North Texas State Teachers College campus. He was awarded an all expense date with the college's favorite co-ed.

Rotan Water

The Rotan water works plant and pumps, located one and one-half miles south of Camp Springs, are pumping 65,000 gallons of Scurry County water through the six-inch main line per day, says Chief Pumper Frank Aaron.

From the 105,000 gallon reservoir on the Simpson hill, which is three-fourths of a mile north-west of the pumps, the water runs 16 miles east by gravity to Retan, making the Rotan water works in Scurry County one of the most interesting systems in West Texas.

The east pump house has been torn down, a tractor replacing the "hot spot" engine in use. Plans are underway to up water volume to 75,000 gallons per day, since spring and summer needs for the city of Retan always increase in the water business.

18 BLOCKS OF LOCAL PAVING

Snyder's residential paving has been increased this week to 18 blocks under the project now underway, jointly sponsored by WPA and the city.

Finishing touches are being put on the south end of Avenue U, and this southwest side street may be ready for traffic by Saturday night. City Engineer Buddy Johnson says definite plans have not been made for the next lap of the project.

Avenue U is being paved from its intersection with Highway 15 (25th Street) to the city limits, a distance of seven and one-half blocks. Other streets that have been completed under the program are: Avenue V, three blocks; Avenue W, three blocks; 27th Street, three and one-half blocks; 26th Street, one block.

SENIORS GO TO HS ANNUAL DAY

Annual senior day at Hardin-Simmons University, Abilene, was attended Saturday by prospective graduates of three Scurry County high schools—Fluvanna, Hermleigh and Pyron. Snyder High School usually sends representatives, but its seniors trekked to Carlsbad Caverns last week-end.

Two thousand high school seniors swarmed the Abilene campus Saturday. They came from 79 West Texas towns. A full day of speaking, athletics and other entertainment was prepared for the visitors, plus a barbecue served at noon.

Chief speakers of the day were Governor R. C. Stanford of Arizona and J. G. Hardin, Burk Burnett philanthropist.

National Tire Store Opened by Pollard

T. W. Pollard at Snyder Garage announces that he has opened a National Tire Store in connection with his Conoco service station and Studebaker agency a half block west of the square on 25th Street.

Pollard points out that National originated the road hazard guarantee for tires, and is one of the few companies that continue to feature this guarantee.

In 1929 National had 197 dealers in five states near Denver, where its factory and general offices are maintained. The company has expanded to become the seventh largest tire concern in the country, with more than 7,000 dealers in 46 states.

Tommy Makes Good As Pro Baseballer

"One of the best young outfield prospects you'll ever see on an out there is Tommy Snyder." Thus wrote the sports writer of the Monahan News a few days ago.

"I believe he's got all it takes," said the scribe. "He hasn't had pro experience, and he has faults, but they can be ironed. Fast, a ball-hawk, a good throwing arm, well-built and smart, you can keep your eye on this youngster."

Tommy, son of Mr. and Mrs. H. C. Winter of the Pleasant Hill community, attended Snyder High School until recently. He has played baseball and softball most of his spare time in recent years.

Those who go to the top do not enter upon all-down strikes.

MUCH COUNTY SEED DELINTED AT LEVELLAND

Talk of Installing Delinting Plant in Snyder Boomed by Reports Of Kemgas Results.

By Leon Guinn, Times Staff Writer. A number of Scurry County farmers are vitally interested in the new Smallwood delinting plant at Levelled, which has delinted almost 100 tons of cotton seed to date. J. L. Smallwood is the owner of this new plant that is gaining the attention of scientists at Texas Tech and other institutions interested in agricultural advancement.

Local interest has become so noticeable in the "Kemgas" system, which delints, grades and seeds, that talk of installing a delinting plant in Snyder has been manifest in several quarters. Big Batch Delinted.

Probably the largest single batch of seed delinted from this trade territory went from Von Roeder Seed Farms in Borden County Monday. Forty-five bushels of planting seed were delinted by the Von Roeders and Edd Murphy, who consider the new system to be highly successful. Using "Kemgas" in the delinting process, this method of taking lint off of cotton seed is brought about by 25 pounds per square inch air pressure. Seed germinate within a period of 48 hours after "Kemgas" delinting; come up in a third less moisture.

New Mexico Seed. The Smallwood plant has delinted 60 tons of cotton seed from Roswell, New Mexico, and 25 tons from the South Plains area. The use of this dry chemical gas sterilizes the seed of all cotton diseases.

Dr. A. W. Young, department of plant industry, Texas Tech, reports average germination of all cotton seed tested in their laboratory during 1937 is only 60 per cent. This indicates Plains cotton seed is of poor quality, requiring more planting seed per acre. Germination of seed in Scurry County rates 85 per cent.

Young People To Be Honored With Revival Service

Young people of the community will be honored in a special service at the First Presbyterian Church revival at the regular preaching hour Friday night, according to Rev. James E. Spivey, pastor. The choir Friday night will be composed of members of the Junior High School Church Club, under direction of Miss Margaret Williams. Dr. E. B. King of Fort Worth, evangelist for the meeting, will bring a special sermon of interest to young people, "Filling Your Place in Life."

Rev. L. R. Hogan, song leader for the revival, features a junior choir, composed of a number of youngsters who meet for practice 30 minutes before each evening service.

Services this week have been well attended, report church leaders. Capacity was taxed Sunday night, when most other congregations of the town were dismissed. More chairs and benches are being added in preparation for next Sunday night's service, the last of the revival, and at least 100 more persons can be comfortably seated than attended last Sunday, says Rev. Spivey.

Melba Clark Takes Position at Lubbock

After a year's service as operator in the local telephone exchange, Miss Melba Clark was transferred yesterday to Lubbock, where she has accepted a similar position.

Miss Clark's work in Lubbock is in the district headquarters office. She is a daughter of Mr. and Mrs. James A. Clark of Snyder.

Scurry County Pensions.

There are 116 old people in Scurry County whose plea for old age assistance has been denied, according to the Texas Old Age Assistance Commission's analysis of applications, grants and denials for March 31. In order to pay every person in the state who has applied for old age assistance \$15 per month, 12 months of the year, tax experts estimate that an outlay of forty million dollars would be required annually.

Visits Heinzmanns.

First Lieutenant Clanton Austin of the United States Navy has been a visitor for several days in the home of Mr. and Mrs. G. M. Heinzmann. He was a boyhood friend in Danbury, Connecticut, of the local oil operator. Lieutenant Austin is en route to New Haven, Connecticut, where he is being transferred after several years at the San Diego, California, naval base.

Organization of Snyder Wool Pool Stresses Growth of Sheep Business

Methodists Banquet To Help in Wiping Out Church Debts

As a part of the campaign to take care of back indebtedness of the church missionary board, Snyder, Union and Dunn Methodists joined those all over Southern Methodism in sponsoring banquets Friday night.

About 60 church members were in attendance at the local affair, according to the pastor, Rev. H. C. Gordon, who was in charge of general arrangements. Rev. M. W. Clark, pastor of the Fluvanna charge, also reports good attendance and interest at Union.

Missionary messages and music were combined to offer a splendid program for the Snyder meeting. Mrs. D. P. Yoder and Herman Darby gave talks on missionary work of the church, and a mixed quartet gave a group of vocal selections.

Pyron Prexy

This picture introduces Quincy Richburg, president of the junior class, Pyron High School. The fact that Quincy was snatched while wearing overalls reflects one of his outstanding traits—that he is one of the busiest persons in the South Scurry school. He was president of the sophomore class, is a favorite character in school plays, is a leading Pyron athlete, is a pianist, and his classmates declare, he has "that old personality smile."

The church building has recently been repainted and otherwise given a spring tonic, and the grounds have been cleared for the occasion.

Greenwood And Other Teachers Named At Pyron

Pyron school board, in session several days ago, elected H. H. Greenwood to serve a second year as superintendent of the Pyron consolidated school district.

At the same time, the entire eight-teacher faculty was re-elected for the 1937-38 school year. The faculty includes J. R. Blackwell, high school principal, third year; Mrs. Marvin Hanback, high school English, fourth year; W. P. Tatum, seventh grade and commercial teacher, third year; Robert Taylor, grammar school principal, sixth year; Mrs. Greenwood, language arts in the grades, second year; Mrs. N. E. Simmons, second and third grades, fifth year; Miss Mattie Beth Payne, primary, second year.

FISHERMEN OF COUNTY READY

Scurry County fishermen are printing the red tackle for opening of the game fishing season Saturday. They are far from alone in this pursuit, for reports from practically all parts of Texas indicate that fish and fishermen will probably be more plentiful than in any recent year.

The spot that will attract more local fishermen than any other is Lake Sweetwater, and Lake Trammell will probably be next in line.

Mayor L. M. Watson of Sweetwater has issued a proclamation making April 28-May 2 "Recreational Week" in that vicinity. Not only fishing, boating, camping and picnicking assets of the lakes are being stressed, but the many other facilities of the city are being featured.

Watson reports an unprecedented demand for fishing privileges at the two lakes, and predicts a new first day bass and crappie record.

Pete Improved, But Daughter Is Worse

Condition of Pete Bridgeman, who has been ill in a Lubbock hospital for some time with pneumonia and heart complications, is reported to be considerably improved since last week, but his daughter, Mrs. Ben Tefkin, is said to be in critical condition in the same hospital.

Mrs. Tefkin, the former Miss Ione Bridgeman, became ill with double pneumonia Monday of last week, while she was attending her father. Her home is in Los Angeles, California. Mrs. Bridgeman is at the bedside of her husband and daughter.

T. B. Bownds Visits.

T. B. Bownds, former superintendent at Pyron, was a visitor here and in the Pyron community last week-end. He was accompanied by other members of the family. Bownds was recently re-elected as superintendent of the Withthair consolidated school in Hockley County, which next year will have 15 teachers, one more than this year.

HOME COMING DAY SLATED BY LOCAL CHURCH

Abilene and Sweetwater Speakers To Feature Fellowship Program At Church of Christ.

Annual Homecoming Day at the local Church of Christ will be celebrated Sunday with a full program of speaking and fellowship, according to J. Porter Sanders, minister.

The day's speaking program will feature the Highland congregation in Abilene, and J. P. Crenshaw, Sweetwater minister. Both will preach during the afternoon.

Several good singers will also be present, according to church leaders, and these will be heard during the afternoon program.

The minister will preach at 11:00 o'clock on "Divine Authority." There will be no evening service.

The day's program will begin with Bible school in the morning. After the minister preaches at 11:00 o'clock, lunch will be spread on the grounds.

Members and the general public are invited to take part in the all-day program. "You are extended a most hearty invitation to be present for lunch and enjoy yourself," says the minister.

The church building has recently been repainted and otherwise given a spring tonic, and the grounds have been cleared for the occasion.

WHEAT SIGN-UP DEADLINE SOON

Since Saturday, May 1, is the final date set for wheat growers to sign up under the government program, farmers who wish to take advantage of this opportunity are urged to contact the county agent's office at once.

The government sign-up applies to farmers who wish to plow up their wheat.

The sign-up deadline for Uncle Sam's full 1937 agricultural conservation program was set last week at Saturday, May 13.

Snyder Elevator to Be Completed Soon

With the pit and building completed, construction of the local grain elevator in South Snyder is nearing an end this week.

D. P. Yoder, and Ely, Arnold & Ely, builders of the project, say machinery is being procured in addition to that constructed in the Yoder Chevrolet Company shop here, and that it will be installed soon.

Dr. R. A. Stewart, Aged Pastor, Dies

Dr. R. A. Stewart of Shamrock, former pastor of the First Methodist Church here and presiding elder of Sweetwater District for four years, died at his home last Wednesday from a paralysis stroke.

Entering the Northwest Texas conference in 1908, Dr. Stewart first served as pastor at Spur, remaining until 1913, when he was appointed to the local church. Following pastorates at Canyon, Miami and Sweetwater, he was made presiding elder of Sweetwater District, a place which he held for four years. He had been head of several other Northwest Texas districts before being transferred to Shamrock.

Dr. Stewart is known to the local Methodist pastor, Rev. H. C. Gordon, and to members of long-time residents of the community. Funeral services were held at Spur last week, and burial was in the cemetery there.

Henderson Well Is Drilling Below 800; Two Tests Possible

After a minor fishing job yesterday, the Goos-Henderson No. 1, spudded in two weeks ago northwest of Ira, is drilling today beyond 800 feet.

The Goos-Murphy No. 1, feeling its way slowly, is down to 2,925. The Bristow & Cantrill Tomlinson No. 1 advanced from 2,575 last Wednesday to 2,651 at the same time this week. Both wells are just south-west of Ira.

Reports from the block of leases that has just been completed with Ennis Creek as the center, indicate that a test will be sunk in that territory, northeast and north of Snyder, within the next two months.

Plans for a new test west or northwest of Snyder are also rumored on the heels of seismograph tests.

Outstanding

Ruby Lee Odum, Fluvanna, has been judged the outstanding member of the grammar school choir. She was presented a prize by Miss Margaret Miller, sponsor of the singing group.

Sheiriff Clyde Thomas, "Pop" Galvayan and H. L. Wren arrived at the ranch at dusk, but found no trace of the convict. Later, several officers, city and county, with a few helpers, surrounded the ranch, but came away empty-handed after a lengthy search through the underbrush and gullies of the rough ranch country.

A new lead developed about 10:00 p. m., when Night Watchman Tom DeShazo saw, from a distance, a man board an east-bound work truck a block east of the square. When DeShazo caught the truck six blocks east of the square, the man had disappeared. Glen Kennard of Cisco, driver of the truck, discovered when the night watchman stopped him that a suitcase was missing. The suitcase handle was left dangling on the truck.

ENDEAVOR SET FOR MAY MEET

Christian Endeavor members from Snyder are making plans to attend the annual mid-west district convention to be held in Abilene Saturday and Sunday, May 1 and 2.

Several hundred delegates are expected from an area that includes Sweetwater, Colorado, Roscoe, Merkel, Miles, San Angelo, Ranger, Eastland, Cisco, Baird, Brady, Coleman, Ballinger, Winters, Cross Plains, and many, Breckinridge, Moran, Haskell, Stamford and Big Spring.

The convention, theme of which is "Follow Me," will open Saturday morning at 10:00 o'clock. Main addresses will be by Rev. W. H. Woodard of Coleman, Rev. Mix of Albany and Rev. G. C. Schurman of Big Spring. A highlight of the two-day meeting will be the fellowship banquet on Saturday evening.

Had Burglarized Here.

It was Lamb who broke a plate glass and stole a cash register from the Wade Service Station here last year. When Lamb was later caught at Guthrie, where he was given a 99-year sentence, he admitted theft of the register, and told officers where he hid it. The register, belonging to Gay McCallum, was brought back to Snyder, and is now in use here.

Approaches to the elevator will then be built. "After that," say the sponsors, "all we ask is plenty of wheat to 'elevate'."

It was Lamb, also, who stole Sterling Taylor's car here shortly after the Wade burglary. The car was found wrecked at Big Spring several hours later. Lamb was known to have been in and around this county for some time last year, officers declare.

Townsend Backers Will Meet Saturday

Members of the local Townsend old age pension plan organization will gather in the district court room Saturday afternoon, 2:30 o'clock, in their first meeting since re-organization two weeks ago. They invite everyone who wishes to hear a factual explanation of the plan to be present.

Principal speaker of the afternoon will be Dr. C. P. Tate, Lubbock, district organizer for the movement. The Lubbock man, a minister of the Christian Church, preached to the local congregation after he was here two weeks ago in the interest of the Townsend plan.

CONVICT TRAIL STARTS, STOPS IN FEW HOURS

Ed Darby, who has been raising sheep on the outskirts of Snyder for several years, is taking the lead in creating a local wool market.

With shearing beginning late this month and continuing probably until May 20, plans for the pool are virtually complete, and backers of the movement hope to begin concentrating wool here within a short time.

Ed Darby, who has been raising sheep on the outskirts of Snyder for several years, is taking the lead in creating a local wool market. Any sheep raiser who has not been contacted by Darby should get in touch with the local man at once if he is interested in making the pool profitable.

Colorado Artists Will Present Voice Program Friday Morning At 11:15

Feature of Snyder's annual observance of National Music Week, May 3-8, will come Friday morning, May 7, with the appearance of Mrs. W. R. Martin and Gloria Martin of Colorado in a joint voice program in the school auditorium at 11:15 o'clock. The music-loving public is cordially invited to attend.

Appearance of Mrs. Martin, Colorado voice teacher, and her daughter, who recently won state junior voice contests, is being sponsored by the local Musical Coterie, which cooperates with the school each year in leading the town to further appreciation of good music.

Mrs. W. C. Hooks of Dunn, member of both Snyder and Colorado music clubs, will be the accompanist. Mrs. Martin is president of the Colorado Music Club, and both she and her daughter are well known in music circles of West Texas. The artists will be honored at a luncheon at the Manhattan Hotel Friday, following their program in the school auditorium. Members of the sponsoring club will be hostesses at the affair.

Other musical programs of importance are being planned for next week, including several other chapel programs. Monday morning will feature a combined May day and cold health program, the background for which will be musical. The Wednesday morning assembly program will feature the Boys' Glee Club, both senior and junior high students, with special numbers from each group, directed by Miss Maude Kise Tomlinson.

Friday morning at 9:00 o'clock, a Mothers' Day observance will be featured in connection with National Music Week numbers, and students will attend classes before hearing the visiting artists at 11:15 o'clock.

An amateur hour, sponsored by the local Band Parents Club, will be held in the school auditorium. This program will be the contribution of the local Tiger Band to celebrate Music Week.

Superintendent C. Wedgworth and Principals King Sides and Hadley Reeve repeat the invitation issued each year to county people to be present for these programs. They urge that school patrons be present for the programs, to enjoy them with the students.

Local Women Are Present for Wedding.

Mmes. Inez Brown and B. L. Beze were in Lamesa Saturday to attend the wedding of their niece, LaVada Dace, and Hayes Holman of Post. The bride, a former resident of Snyder, is the daughter of Mr. and Mrs. John R. Bate of Colorado.

The wedding took place at the First Methodist Church at 10:00 o'clock Saturday morning, with Rev. M. M. Beavers, a life-long friend of the Beze family, reading an impressive prayer ceremony. Wedding guests, which numbered about 50, included members of the two families and close friends.

Preceding the ceremony, the bride's sister, Mrs. Riggs Sheppard of Stanton, sang "At Dawning," with organ accompaniment by Mrs. Murray McWhorter of Lamesa, who also played the wedding march from Mendelssohn and "The Flower Song." The bride was attired in a gray woolen costume suit worn with pink and gray accessories. She carried a bridal bouquet of sunburst roses and ferns.

The couple will be at home in Post, where Holman is superintendent of city schools, until the end of this school term. They will spend the summer in Boulder, Colorado, and return to Post in September. Mrs. Holman is a graduate of Texas Technological College, Lubbock, and has been teaching at Ralls this year.

Four girls, winners in their divisions in the local home economics department in clothing and foods, accompanied by Miss Vera Periman, head of the department, left Snyder Wednesday morning for Fort Worth, to attend the state home making rally, being held Thursday, Friday and Saturday of this week at the Texas Hotel.

Contestants are the following first place winners in the local department: Ruth Lino, second year clothing; Geraldine Chapman, first year clothing; Jonisue Cogdell, second year foods; and Evelyn Terry, first year foods.

Miss Periman points out that her students will compete with girls from such larger schools as Abilene, Dallas, Fort Worth, El Paso and others. "Even if the girls do not win," she said, "we shall make the trip educational as well as enjoyable."

In the group of contestants listed "Clothing and Posture" the girls will enter these contests: Ruth Lino, street costume, second year; Geraldine Chapman, school girl costume, first year; Jonisue Cogdell, judgment for selection and purchasing foods suitable for family meals, second year; Evelyn Terry, planning lunch or supper, first year.

Besides these individual contests, the local department will have a group exhibit in clothing, consisting of three tailored dresses, three children's dresses and three wash dresses. A song and play written by local girls are also among the entries in contests.

Miss Ruth Huey of Austin, state director of home making education, will be in charge of the rally at Fort Worth this week. The annual contests started in 1919 with 49 girls competing, and has grown in number until in 1936 there were 1,150 contestants. The numbers from each school have been limited this year, and total attendance will be slightly lower, the local teacher says.

Style shows will be Thursday and Friday, with finals coming Saturday morning, and the Snyder students will return home Saturday night. Expenses for the trip are being shared by the entire department and the entries.

MRS. WILMETH ATTENDS 50TH ANNIVERSARY

"Golden times, golden friends and golden memories" described the 50th wedding anniversary of Mr. and Mrs. W. H. Luckham, parents of Mrs. Lex Wilmeth of Snyder, when they were at home to their friends last Tuesday for their celebration at Warwick, Ontario, Canada.

Mrs. Wilmeth and daughter, Alice Meryl, left Snyder in March for Canada, so that they might be present for the memorable golden wedding anniversary held at the Luckham's spacious country home, "Maple Shade," near Warwick. Alice Meryl welcomed the 200 tea guests at the door in the afternoon, and Mrs. Wilmeth was a member of the house party, which assisted with entertainment of guests during calling hours.

Appropriate gifts were presented the aged couple at the celebration last Tuesday. Gold and white were combined with pastel colors of spring flowers in a pretty color scheme at the tea. Gold candelabra with white tapers flanked a dining table centerpiece of yellow roses placed on a beautiful lace cover. Centering the buffet was a four-tiered wedding cake decorated in gold and white.

Mr. and Mrs. Luckham have been active in church and community affairs at Warwick since their marriage in St. Louis, Michigan, then the home of Mrs. Luckham's parents, 50 years ago. Both are members of pioneer Canadian families.

In a clever song, the words of which were composed for the occasion by Mrs. Luckham, she describes many of the changes in the last half century. The last line of the song, she said, best tells what is in the hearts of her and her husband on their 50th wedding anniversary—"Golden times, golden friends and golden memories."

Mrs. Wilmeth sends greetings from Canada to her many friends in Snyder.

A variety of lovely spring flowers decorated the home of Mr. and Mrs. W. R. Bell for the last meeting of Friendly Fellows Party-two Club, held there last week. Fourteen members and several guests enjoyed the evening's entertainment, which consisted of forty-two games.

Flying Start For Seniors As They Trek To Carlsbad

Activities for the senior class of the local high school got off to a flying start last week-end, when 37 members of the class, with their sponsor, Coach W. W. Hill, 14 other teachers and the bus driver, Hardy Hulse, made the traditional trek to Carlsbad Caverns.

Leaving Snyder in a school bus Friday morning at 9:30 o'clock, the students, Hill and Hulse headed the caravan of several automobiles to the New Mexico city. The trip through the Caverns was made Saturday, after a night spent in Carlsbad. The crowd spent Saturday night at Pecos, returning to Snyder Sunday afternoon.

The caverns trip, which followed the tradition started by Coach Red Moore and his class four years ago, replaces the old "senior day" picnics held here for many years.

Teachers in the local school making the trip with the students were: High School Principal King Sides, Mrs. Sides, Junior High School Principal Hadley Reeve, Lillian Abney, Annie F. Sewell, Margaret Henderson, Dorothy Strayhorn, Margaret Williams, Wanda Newman, Mattie Rose Cunningham, Mrs. Herman Darby, Dorothy Egerton, Alta Bowers, Mattie Mae Tomlinson and Coach Hill.

The following students composed the list of seniors: Lon Adams, Geneva Allen, Jim Barrett, Ralph Bates, Johnnie Ruth Baze, Imogene Birdwell, Nell Carlton, Harry Chapman, Vivian Ghensault, Dollie Clements, Gladys Crowder, Marvanel Curtis, Doris Davis, Mary Davis, Ruth Davis, Virginia Egerien, Hortense Ely, Bertha Fowler, J. SECOND WOLF TRAPPER PLEA TURNED DOWN

Commissioners Court Votes to Delay Action Until Present Trapping Agreement Expires.

Appointment of J. C. Helms and A. R. Church for another wolf trapper in Scurry County, to be placed in the northeast area, was temporarily denied Monday by the Commissioners Court, in regular session.

The court indicated that the application would be heard again upon expiration of the present agreement with the U. S. biological survey for predatory animal control. A trapper financed jointly by the federal government, the county, and individual donations is now working in the county.

Application of Frank Farmer, county superintendent, for transfer from the sinking funds to the local maintenance funds of the Arah and Lloyd Mountain districts of \$227.10, was approved by the court. The superintendent indicated that the transfer was necessary for completion of the present school terms in the common school districts. Of the total amount transferred, \$157.21 is for Arah, District 30, and \$129.89 is for Lloyd Mountain, District 33.

The court also granted Farmer's application for distribution out of the county treasury of \$949 for the benefit of the available school fund. The distribution is made on the per capita basis of the county's scholastic population of 3,158.

At a session held several days earlier, the court authorized W. R. Larc, county agent, to make one experiment with explosives in connection with destroying raven roosts, and to report results of the experiment at an early session of the court.

Pioneer of County Honored Last Week With Birthday Fete

The Dermott-Martin Home Demonstration Club members and other friends honored Mrs. Warren Scrivner, county pioneer, with a birthday fete last Wednesday at the home of Mrs. Warner Flippa.

The party was held in the old Scrivner home place, which revived many memories for the 78-year-old pioneer, resident of Scurry County more than 40 years.

A "friendship" quilt was completed during the day for Mrs. Scrivner, and a birthday dinner was a highlight of the day.

Members of the club who took part in the celebration were: Mmes. L. N. Periman, T. C. Davis, G. O. Gibson, Bill Boss, Elvie Greenfield, Milton Greenfield, Leonard Greenfield, Maud Merritt, W. F. Leon Guinn Invited To Speak May 8 to Westex Historians

According to the program of the West Texas Historical Association, Times Writer Leon Guinn will address the historical body at its May 8 meeting in Anson on "Legends and Folklore in West Texas."

Judge R. C. Crane of Sweetwater, president of the association, says "our May meeting at Anson promises to be one of our outstanding historical gatherings. We wanted Guinn to address us on legends and folklore, because his connection with 'The American Guide' has qualified him for preparation of a paper on historical subjects."

B. N. Richardson of Hardin-Simmons University, Abilene, who is on the historical association's publication committee, also "looks forward to a great day at Anson May 8."

These Hollywood Stars Follow Their Eyes

The girl next door has made good! Maybe she's private secretary to the head of the firm. Maybe she married the boy down the block. Maybe she is starring in the movies. At any rate more and more American women are learning how to dramatize their appearance and personality in a way that steal

thunder from glamorous overseas beauties. Four Hollywood stars, questioned by Eve Borst, confessed to the same beauty secret: They match their make-up to their eyes! Hazel-eyed Doris Nolan, left, and brown-eyed Ella Logan, inset, save the same story. So do Gertrude Niesen, blue-eyed beauty,

and gray-eyed Janice Jarratt, San Antonio beauty who went to Hollywood after she was crowned "Miss Texas Centennial" at this state's celebration.

County Does Not Place In Region Meet At Abilene

Scurry County's literary and athletic entries in the regional meet at Abilene Friday and Saturday did not place high, but they helped make many of the winners go strong to win the most highly competitive meet in the region's history.

Fuvanna's one-act play, "Clipped," placed third in the region, losing Friday night to San Angelo and Brownwood entries. Coleman placed fourth. A large delegation of Fuvanna fans accompanied the play cast to the school's first one-act regional entry.

Hermleigh's team of girl tennis players, Frances Patterson and Vera Early, lost to Breckenridge in the first round, 6-4, 6-2.

Represented by one of the weakest track and field teams in her history, Scurry County failed to place an entry as high as fourth.

Abilene won all-round honors with ease, although she placed fourth in track. Brady was first, Brownwood and San Angelo tied for second in the outdoor events. Both Abilene debate teams, conquerors of Fuvanna teams in the district, won first places. Abilene's total points was 91; San Angelo and Breckenridge, 35 points each; Menard, 29; Brownwood, 27; Ballinger, 25; Comanche, 22, and Coleman, 22.

Seven of the existing 14 records were wiped off the books by the crack track and field teams. Harry Hays of San Angelo lowered the low hurdles mark set up by Fred Wolcott of Snyder in 1934, by 4 seconds.

Some Things the Farmer Can Do

- 1.—Keep cream clean. Use small top or covered milk pails, and strain milk before separating.
- 2.—Cool cream promptly. Never mix warm cream with cold cream.
- 3.—Keep cream covered. Stir twice daily.
- 4.—Separators and other dairy utensils should be thoroughly washed, rinsed and scalded after each use.
- 5.—Protect cream can during delivery by wrapping with a wet sack or blanket.
- 6.—Deliver cream to your market two or three times each week especially during the summer months.
- 7.—Sell the year-round at your home market. It pays!

Triple Change Made At Snyder National

A change in the Snyder National Bank personnel, directly involving three persons, was completed last week.

J. D. Mitchell, teller at the bank for several years, has left his place in order to take charge of the Mitchell ranch in Borden County. Tim Cook, also an employee for several years, advances from bookkeeper to teller.

The vacancy growing out of these two changes is being filled by Bruce Murphy, son of Mr. and Mrs. Ed Murphy, who reside 25 miles southwest of Snyder. Bruce recently returned to his home from Annapolis, Maryland, where he was forced to leave the naval academy because of defective eyes. He is a graduate of Ranger Junior College.

Special Abilene Rate.
Were you short on cash when your daily papers had their main bargain rates? If so, you will perhaps be interested in the new rate of the Abilene Reporter-News—\$2.95 from now until October 1, 1937. If you subscribe after May 1, the rate is five full months for \$2.95. Get The Times in this trade territory and the Abilene Reporter-News, five months, for a total of \$3.50.

Several Highway Improvements of County Interest

Several improvements to Texas highways, listed by the State Highway Commission after its Saturday session, will prove of direct interest to Scurry County. They are listed as follows:

Mitchell, Shackelford and Nolan—For 4.4 miles of 8.8 miles of single asphalt surface treatment and 32.6 miles of seal coat on Highways 101, 1-A and 1 from Colorado to Scurry County line, from Jones County line to Highway 15 and from Mitchell County line to Sweetwater.

Lamb—For 16.16 miles of seal coat on Highway 7 from Hockley County line to Amherst.

Dawson—For 28.1 miles of seal coat of 18.8 miles of single asphalt surface treatment on Highways 9 and 15 from Lamesa to Martin County line and from Borden County line to 5.5 miles east of Highway 9.

The above are state projects, a majority of which will probably be offered for bidding at the May 14 meeting. Following are federal jobs:

Hamilton—For Lampasas River bridge and approaches on Highway 7 between Evant and Star.

Cleman—For 4.5 miles of grading, drainage structures and double asphalt surfacing on Highway 7 from Gull, Colorado & Santa Fe underpass to Santa Anna.

Keep him at least three paces distant who hates bread, music and the laugh of a child.—Lavater.

MATERIAL FOR BRIDGE ON 101 ROAD ARRIVES

Highway Department Submits WPA Proposal for Extension of No. 15 Completion.

Two developments in the Scurry County highway picture this week are encouraging to road enthusiasts:

First, material is arriving for construction of the bridge on the new routing of Highway 101 on the W. T. Murphree place, just south of its intersection with No. 7.

Second, the State Highway Department has submitted a proposal to WPA for completion of five more miles of Highway 15 in Fisher County.

Safety Bridge Feature.
The new bridge on Highway 101 will be 34 feet in width—10 feet wider than the standard bridges on Highway 7 through Scurry County. This extension is a recently added feature for the sake of safety. The bridge will be 32 feet in length.

The entire Highway 101 cutoff road, veering from Highway 7, two miles southeast of Snyder, to a quarter mile beyond the R. S. & P. crossing, will probably be ready for traffic—completed with the exception of surfacing—by the time the bridge is finished.

Work on the bridge is expected to begin immediately. Workmen are to begin in a few days on modernization of the route from the cutoff to the end of the present project, just south of the Donaldson Ranch.

No. 15 Work Underway.
Completion of five miles of the No. 15 route in Fisher County, immediately west of Roby, is underway now, and will probably be completed about June 15. The five-mile proposal recently submitted for WPA approval would join the first five-mile route, bringing the completed highway within seven miles of the Scurry County line.

The entire Fisher County rerouting job was completed months ago, and paving has been complete from Roby east for a number of months.

As work continues on these Highway 15 and Highway 101 projects, widespread efforts looking toward federalization of Highway 15 continue. County officials and others believe last week's appearance in Austin, before the State Highway Commission, of representatives from most counties along the East-West route, including four from Snyder, will weigh heavily toward federalization of the route.

Reagan, who died from a spinal infection after a brief illness. Mrs. Reagan is the local man's sister. Mr. and Mrs. Willard Jones, Mr. and Mrs. Fred Jones, cousins of Mrs. Reagan, attended final rites Sunday afternoon.

MAN ONCE FRIGHTENED BY OIL ADS

CHANGES TO OIL-PLATING

In spite of everything, it paid him to take ads seriously, you see, else he might never have tried Oil-Plating. First of all he was impressed by the explanation of Oil-Plating.

Simple enough, if you'll think what happens as Johnny's dirty little hands touch the wallpaper. Anything greasy or oily on his hands becomes quite a permanent part of the paper. You'll say permanent!

In much the same way—forgetting technicalities—Conoco Germ Processed oil forms a lasting attachment for every working part of your engine. A genuine, enduring Oil-Plating is brought about by the Germ Process—patented.

Thus the Germ Process not only multiplies the strength of the usual flowing type of oil-film, but creates Oil-Plating besides. And once Oil-Plating goes on, Conoco Germ Processed oil does not let it come off in minutes, hours, days... or miles.

Thus Oil-Plating kills the old fear of starting "dry." Likewise Oil-Plating refuses to let go in all the fury of 5,000 revolutions per minute. That's why your "good old car" or the latest model will stay more like new, with its engine Oil-Plated. And your whole Summer's driving will take less Conoco Germ Processed oil. IRION ELECTED NEW CHIEF OF SINGING GROUP

1,000 People Attend Spring Session Of County Convention at Union Sunday.

A total of 1,000 people packed the Union church house Sunday, as the Scurry County singing convention got underway for a spring singing. An old-fashioned dinner on the grounds at noon was the day's highlight, blending material with song feasting.

At the Saturday night business session, L. M. Irion was elected president of the Scurry County singing convention, Rupe Walton was re-elected vice president, and Mrs. Rupe Walton was re-elected secretary. Rev. Jimmie Fields was elected as convention chaplain.

Dr. King's address followed a singing directed by Rev. L. R. Hogan, also of Fort Worth, who is conducting song services for the revival. Rev. Hogan led the club in singing "The Eyes of Texas" and the chorus of "The Cowboy's Dream," after he gave introductory solos to both songs.

Other guests of the day were Mrs. Armor McFarland, accompanist, and Rev. James E. Spivey, pastor of the First Presbyterian Church. John E. Sentell, chairman of the April program committee, introduced Rev. Spivey, who, in turn, introduced the other guests.

W. T. Hanes was elected as one of three delegates to the District 2-T convention. The club voted to send its delegation, composed also of President Frank Farmer and Vice President A. C. Preull, instructed to the meeting at Big Spring Sunday afternoon, Monday and Tuesday. Next week's regular Tuesday meeting will be dismissed here. The president expresses the hope that a number of local Lions will be able to attend at least a part of the district sessions at Big Spring.

Dr. King Talks Good Samaritan "Plus" To Lions

The Good Samaritan "plus" was recommended by Dr. E. B. King at the Lions Club Tuesday as a worthy example for individual and group service.

Declaring that the man who helps prevent such tragedies as that made necessary by the Good Samaritan ministrations is to be commended as well as the Good Samaritan himself, the Fort Worth man, who is conducting a revival at the First Presbyterian Church, called on the club to consider prevention as well as cure for society's and individuals' maladies.

Dr. King's address followed a singing directed by Rev. L. R. Hogan, also of Fort Worth, who is conducting song services for the revival. Rev. Hogan led the club in singing "The Eyes of Texas" and the chorus of "The Cowboy's Dream," after he gave introductory solos to both songs.

Other guests of the day were Mrs. Armor McFarland, accompanist, and Rev. James E. Spivey, pastor of the First Presbyterian Church. John E. Sentell, chairman of the April program committee, introduced Rev. Spivey, who, in turn, introduced the other guests.

STUDEBAKER DICTATOR

A FEW CENTS A DAY MORE THAN A LOWEST PRICED CAR!

America's finest 6-cylinder car!

STUDEBAKER has no criticism to make of any other 6-cylinder car. Studebaker simply makes the unqualified assertion that no other six built in America, regardless of price, compares with the 1937 Dictator in money's worth!

That Studebaker challenge includes sixes that cost more than the Dictator as well as sixes that cost the same or less!

Put no money down on any six until you see and drive the Dictator... world's first six to offer the triple safety of a steel-reinforced-by-steel body, automatic hill holder and hydraulic brakes... world's first six offering the dual economy insurance of the gas-saving automatic overdrive plus the Fram oil cleaner... world's only six with non-slim doors that close tightly, tightly and silently! Studebaker's C.I.T. Budget Plan offers low time payments.

Not Much Sympathy.

The Times, a proverbial optimist in workaday clothing, has little sympathy for the steady stream of abuse that is heaped on local civic, governmental and business leaders.

Almost every day we hear a man in business or in a profession complain that Snyder is behind the times, that she has little civic pride, that she sleeps while her neighboring towns are accomplishing. Not that the complaints are often not justified. But our optimistic contention is that such complaints are only slaps in the complainer's face unless he is doing something to remedy the situation he does not like.

Constructive criticism builds cities, counties and communities. Destructive criticism tears them down. There you have two truisms that should be hammered into the heads of a hefty percentage of our population. In other words, what are you doing to remedy the conditions you do not like . . . and if you are not willing to help carry the load, why in eternal sin don't you move?

Just to emphasize the fact that all is not cloudy on the Scurry County horizon of accomplishment, have a brief glance at this line-up of recent advances:

A hospital now valued at almost \$35,000 was promoted, built and paid for with local capital.

Snyder two years ago was recognized as the most active town in West Texas in the year-round program of the West Texas Chamber of Commerce.

Scurry County is moving along, perhaps more slowly than some of us might wish, toward a triple system of state-federal highways that will have few equals in West Texas. Witness the huge delegation to the Lamesa Highway 15 session not long ago.

Scurry County's consolidated school system has few equals in the state. The county pioneered in the movement looking toward greater opportunity for rural children.

The new street improvement and local school campus improvement programs have few if any equals in West Texas, sidewalk critics to the contrary notwithstanding.

But the thing that recommends Scurry County most of all is the fact that most of her citizens—business men, farmers and ranchers—are plunging forward in spite of a siege of depression and drought that would have fazed more timid souls.

Maybe next week or next month The Times will have occasion to concern itself with some things that Snyder and Scurry County might do to better their people. But when we do so it will be in a spirit of upbuilding, not in the spirit of downpulling criticism that the street corner howler or the unthinking business man chooses to flaunt in loud mouthed wordiness.

Clean-Up Time Again.

Winter is usually a season of general neglect. So it is that we turn in springtime to become victims of clean-up, paint-up, spruce-up fever. Snyder so far has not taken too strongly to the new fever. When a movement to paint up, clean up and beautify sweeps a community, it leaves in its wake a healthier, happier town. From the standpoint of fire safety alone, the movement pays big dividends, for records show many a disastrous fire has been caused by rubbish and litter.

Wet Propaganda.

The Times editorial desk, littered daily with publicity releases of various hues and views, seemed not at all surprised when a picture arrived from the United Brewers Industrial Foundation. The picture showed James W. Gerard, special ambassador for the United States to the coronation of King George VI, as he greeted Col. Jacob Ruppert, owner of the New York Yankees and chairman of the brewers' foundation. The luncheon at which the two men shook hands for the picture was staged at the Waldorf-Astoria, New York, a luncheon "which launched the brewers' program to align the industry with law enforcement, moderation and a recognition of the social welfare." In other words, the wets realize that their life-seeping and money-craving industry is due to be outlawed again if it does not get in line with a few of the more publicized American moral standards . . . that their industry is taking the whole-hog-or-none attitude, which breeds severe regulation. The picture, we judge, is intended to convey the impression that liquor patrons, after all, are fit to co-mingle with the friends of royalty!

Convention Season.

Now is the season for all good tradesmen, artisans, professional men, chamber of commerce leaders, service club members, and all other active individuals and organizations to go a-conventioning. And now is the time for us to learn over again that conventions are largely what we make them. Practically all convention programs these days are good. But will the delegates be good? That is the question!

Another Bible Scholar.

"Just when we were getting ready to brag about Snyder street-corner loafers having the jump on industrial sit-down strikes by 40 or 50 years, an enterprising reporter-historian comes along with the information that the Romans originated the anti-stand-up scheme," notes The Scurry County Times. "Just to get even with that reporter, we quote the Bible as authority that Lazarus of the sores was no mean sit-downer in his day." (And, how about the wife of Jacob, who stole her father's idol and sat down to hide it when dad came along in search of it?)—Lubbock Avalanche-Journal.

The Real Men.

If you will allow this editorial column to wax slightly philosophical for two minutes of your time, this clipping on "The Real Men" will prove worthy of your reading:

"A real man never talks about what the world owes him, the happiness he deserves and the chances he ought by right to have, and all that."

"A real man is just as honest in the dark in his own room as he is in public."

"A real man does not want something for nothing, so the get-rich-people cannot use him."

"A real man does a little more than he promises."

"A real man has excuses for others, never for himself. He is patient and charitable to others; to himself he is strict."

Current Comment.

By LEON GUINN.

Last week the Home Owners Loan Corporation (HOLC) sent carpenters, chimney sweepers and plumbers to a Scranton, Pennsylvania, house to do a thorough job of renovating a certain residence. . . . Blue prints called for repairing the chimney, redecorating the bathroom, and repapering the walls with "the best grade of wall paper." . . . Surprised, the man of the house nevertheless went about his daily work, amid the noise and din of rejuvenating his private domicile. . . . Orders were orders; the foreman insisting the "boys" repair any and every leak or crack.

Neighbors' caty gossip had it everything was scrubbed and repainted, including an old "purred to death" house cat. . . . Some wondered how Mr. A. Citizen could afford so complete a spring spruce up, when his grocery bill was since in arrears. . . . Snooping onlookers only added to the general melee of the job, since "time was wasting," with other houses to get to during the week's work. . . . But at last the chimney had its "innards" cleaned and brushed, the bathroom sparkled and shone with new fixtures, and the repapered home looked as sweet as a chaste maiden in a new spring frock. . . . Glee! beyond words, A. Citizen thanked the foreman "thrice" for so complete and costly a renovating job on his home. . . . District HOLC men pulled their thinning locks, cussed carpenters, paper hangers and plumbers, along with "brilliant, job pushing foremen!" . . . For the foreman's report showed HOLC workers had repaired the wrong home!

In our fast clipped pace of haste and waste, when today's incident is tomorrow's event, and a straw in the wind becomes the tides of trade overnight, one can glean from the straws in the wind the tides of empire that reach us tomorrow. . . . Wall Street experts expect the pagan nation of Russia to burden the U. S. during the next year with boatloads of gold amounting to a probable \$500,000,000, since Russia is now the world's second biggest gold producer. . . . The Soviet union has been putting millions of rubles into an already glutted war chest. . . . With the war chest now overinflated, Russia financiers believe bank balances in dollars in New York banks will be of greater aid in an "emergency," since dollars and cents are more quickly available. . . . Shrewd street speculators are "hedging" against the expected gold rush to America.

Increased prosperity in Canada, South Africa, Australia, and India is due to our American New Deal, according to the very English commercial councillor, H. O. Chalkley. . . . The pegging of gold by the U. S. has stemmed the downward tide abroad, and revived the lagging life lines of the far-flung British Empire, not to mention Germany (who has profited by \$250,000,000), and other foreign powers. . . . For \$35 an ounce-gold has not only put foreign industry up the recovery ladder, but has enabled American car and truck manufacturers to export more units for the first quarter of 1937, than at any time since 1934. . . . This New Deal is certainly clicking abroad; and if our Washington boys can get around to the matter, we feel a little of the prosperity would be a fine thing if scattered over America!

Editorial of the Week.

WASTE.

Eighteen years ago all the scrap iron was shipped out of this community and new stuff was bought and now it is worn out. That is a whole lot of waste per year. Just rusted out, worn out and thrown away. No wonder we are a bankrupt country. We don't take care of what we buy in the machinery line. Just pull it out in the corner of the field and let it rust out from year to year and crop to crop—Lockney Beacon.

Yes, and we are all guilty. There is none innocent, no not one. Visit any junk yard and take a "once-over" at the automobiles that have been wrecked or junked. Once they were valuable pieces of machinery—and it was not so long ago. An automobile that ought to last most of its ten years lasts about two or three. We run 'em to death. We abuse 'em. We are a wasteful people.—Lynn County News.

The Tiger's Tale.

When the Tiger's Tale, Snyder High School's tabloid size newspaper, was recognized as one of the two best school papers in its district and one of the 24 best in the state, an earned honor was bestowed. This year's editorial staff has worked hard at the job, has studied the art of preparing copy for publication, and has produced a worthy paper. Congratulations from everyone who likes to see our schools teach something aside from the three R's.

Colorado Scores Non-Interest In Broadway Towns

From Colorado Record.

Charge that Colorado and several other communities in this section of Texas were lax in support of the Broadway of America Association to an "alarming degree" was issued Wednesday afternoon from the chamber of commerce. Continuation of such a policy might result in re-routing the international road around these communities was the charge hurled by Jim Greene, manager of the chamber of commerce.

"I have just discussed the annual convention to be held in Memphis next month with chamber of commerce officials in important communities, both west and east of Colorado, through which the Broadway of America passes, and find that these, like our own citizenship, entertain little interest in the road organization and the meeting in May," Greene declared.

"I have no authoritative source on which to base my prediction, but I am going to say, nevertheless, that we are inviting inauguration of a move to reroute the Broadway around us," Greene continued. "Motion was offered before the state highway commission in Austin this week seeking to have state highway No. 15 federalized. It is a matter of common knowledge that this route, extending from Dallas west through Snyder, Hobbs and Carlsbad to El Paso, is shorter than Highway One and that strong, organized effort is being made to improve the road from one side of Texas to the other. It is possible that officials of the Broadway of America might be influenced to consider that route for designation should communities in West Texas now being served by the road continue their aloofness."

"The Supreme Court of the United States has been the savior of the South. In times of sectional bitterness born of the Civil War, when the constitutional rights and liberties and privileges of southern people were marked for destruction by men who held the legislative power of the federal government in their hands, the Supreme Court stood firm against partisan passion and inflexible against vengeance."

"It was to those times and to laws passed by Congress whose masters were Thaddeus Stevens and men who joined him to treat the Southern states as 'conquered provinces' that Senator Carter Glass referred when he said the Supreme Court 'saved the civilization of the South,' and saved the people of the South from anarchy and ruin during a period of 'unpeakable outrages.' . . ."

"In such a Congress, where the South had no real representation, the various reconstruction and enforcement laws were passed. If those laws had worked as their authors intended them to work, no man identified as a former 'rebel' would have been safe from summary arrest and trial by a military court, or from confiscation of his property at the point of the bayonet. . . . But by a great series of decisions beginning in 1866 the Supreme Court gave the South the protection of the Constitution."

"First, check your pattern to see that all pieces are in the envelope. Then measure the person for whom the pattern was intended, and see if it fits," said Miss Joelle Vannoy, the county demonstration agent of Fisher County, to the Pylon Junior 4-H Club girls at their last meeting, on April 20.

Miss Vannoy showed the club how to shorten patterns, or lengthen them. She placed a pattern on the material and cut out a slip to demonstrate to the girls just how to do their own. She also showed them how to straighten material.

There were 28 members present. At the next meeting, which will be May 4, the girls are to have their slips cut out and the sponsor will show them how to finish the seams.

After the club adjourned, Miss Vannoy visited the clothing demonstrator, Katherine McGlothlin, to help her plan a clothes closet.

Letters from the People

Our Readers Speak

(Note: The Times has published several rather lengthy discussions of the Supreme Court issue, pro and con, in an effort to present both sides of the question. Most of the material would not otherwise have been available to Times readers. It is in this spirit of fairness that the following paragraphs are reprinted at the request of a farmer-subscriber. Titled "The Supreme Court and the South," the full text came originally from an editorial in the Arkansas Gazette, published in the Congressional Record at the request of Bennett Champ Clark, Missouri.)

"The Supreme Court of the United States has been the savior of the South. In times of sectional bitterness born of the Civil War, when the constitutional rights and liberties and privileges of southern people were marked for destruction by men who held the legislative power of the federal government in their hands, the Supreme Court stood firm against partisan passion and inflexible against vengeance."

"It was to those times and to laws passed by Congress whose masters were Thaddeus Stevens and men who joined him to treat the Southern states as 'conquered provinces' that Senator Carter Glass referred when he said the Supreme Court 'saved the civilization of the South,' and saved the people of the South from anarchy and ruin during a period of 'unpeakable outrages.' . . ."

"In such a Congress, where the South had no real representation, the various reconstruction and enforcement laws were passed. If those laws had worked as their authors intended them to work, no man identified as a former 'rebel' would have been safe from summary arrest and trial by a military court, or from confiscation of his property at the point of the bayonet. . . . But by a great series of decisions beginning in 1866 the Supreme Court gave the South the protection of the Constitution."

"First, check your pattern to see that all pieces are in the envelope. Then measure the person for whom the pattern was intended, and see if it fits," said Miss Joelle Vannoy, the county demonstration agent of Fisher County, to the Pylon Junior 4-H Club girls at their last meeting, on April 20.

Miss Vannoy showed the club how to shorten patterns, or lengthen them. She placed a pattern on the material and cut out a slip to demonstrate to the girls just how to do their own. She also showed them how to straighten material.

There were 28 members present. At the next meeting, which will be May 4, the girls are to have their slips cut out and the sponsor will show them how to finish the seams.

After the club adjourned, Miss Vannoy visited the clothing demonstrator, Katherine McGlothlin, to help her plan a clothes closet.
