

Back to SCHOOL

SCHOOL DAYS are here again! And with them comes the task of getting your children—from the tiny tot entering into public school for the very first time, to the grown young lady or young man going off to college—ready for those School Days. Your Snyder merchants are ready to help you.

ARE YOU READY with the proper clothing, the best possible health, and the correct supplies for your child? These things make for the best school work the students in your home are capable of doing, and it is so easy for you to have these things right here in your home county. Check up.

LET THE PAGES OF THIS "BACK TO SCHOOL" SECTION GUIDE YOU AS YOU MAKE PLANS TO GET YOUR STUDENTS READY FOR THE BEST YEAR'S WORK THEY HAVE EVER DONE

School Brings Varied Reactions

BUSY ERA FOR MANY MOTHERS

"Back to school!" It's something to get excited about—this "Back to School!" business. It calls for preparation, and, at the same time it is preparation. The burden of getting ready for school falls on the mothers of the county, as usual. But sharing the spotlight with them is a host of teachers, school leaders, boards of trustees, and others who are interested in the future welfare of the young generation.

This special section intends to offer mothers, primarily, an easy method of studying the needs of their children and going to the best possible places to fill these needs. But it also carries a sizeable amount of school news that should prove of interest to patrons and students throughout the county.

The Times is proud of the amount of space it devotes to school activities. Week after week, month after month, year after year, this paper strives to tell what schools of Scurry County and adjoining communities are doing for the upbuilding of their young life and of their entire community citizenship.

The publishers feel that this special section, featuring pre-school and during-school news, is a sort of early climax to its recording of 1937-38 school activities.

"Do you think there is any truth in the theory that big creatures are better natured than small ones?" asked the intellectual young woman.

"Surely!" returned the young man addressed. "Just look at the difference between the Jersey mosquito and the Jersey cow!"

Many Attend School Openings This Year

That patrons are showing an increasing interest in their schools is manifest in the large number of mothers and dads, older brothers and sisters that have been attending school opening programs this year.

The large consolidated schools, especially, report that patrons crowded their auditoriums for initial exercises. Ira, Dunn and Hermleigh opened Monday of this week, Fluvanna opened the previous Monday, and Pyron has been functioning since early August.

Speaking of Harvests.

Four million dollars worth of peanuts! That's a lot of money to connect with the often-scorned "gober," but the 134,550,000 pounds of peanuts produced in Texas in 1935 are valued at that figure. The peanut crop is centered in Eastland, Brown and Comanche Counties, and branches out into the East Texas and west cross timber belts.

Pick Any Climate.

Rainfall in Texas varies from more than 50 inches in some parts of Southeast Texas to less than 10 inches in the west toward El Paso. Maximum snowfall is over 25 inches in the Panhandle, but snow has never been seen by some people in the Valley and other Southern points.

"Oh, John," exclaimed the young mother happily, "the baby can walk." "Good for him!" returned the father. "Now he can walk the floor with himself at night."

"One swallow can't make a summer, you know." "No, but one frog can make a spring!"

On the Look-out.

One of the largest telescopes in the world will be included in the McDonald Observatory which is being built on Mount Locke. The million-dollar project is expected to be completed in 1938. Mount Locke is 6,790 feet above sea level, and is located northwest of Fort Davis.

Complicating Matters.

More than 500 types of Texas soils have been discovered and studied by the Texas agricultural experiment station at College Station, even though all counties have not yet been surveyed. The diversity of resources has brought newly-recognized problems to farmers, and according to W. T. Carter in a Texas soils bulletin, "The success of agriculture in Texas depends upon the appropriate use of the soils, which constitute the most valuable resource in the state."

Two-toned lighting effects, amber and blue, will be used in the flood lights illuminating the palace of house and gardens on treasure island, San Francisco bay site of the 1939 Golden Gate International Exposition.

"What are you doing in the pantry, Willie?" "Fighting temptation, mother."

FARMER SAYS FINANCE GOOD

Scurry County schools as a whole are in the best financial condition of recent years, according to County Superintendent Frank Farmer.

Despite a half crop last year, payment of taxes within the past 12 months has been fair, reveals a check-up in the office of Bernard Longbotham, assessor-collector, who receives most of the county school taxes. Independent district collectors report the same condition.

With a good crop year in the offing, tax payments are expected to take a considerable rise, and payment of delinquent taxes is also destined to increase.

Add to these facts the new state per capita of \$22 per scholastic for the new fiscal year, and you have a picture of "better financial times ahead" for practically all schools of the county.

Mr. Meeker—"But, darling, cooking will be the disagreeable part of a camping trip for our vacation."

Her—"Oh, no, we're going to take mother with us. She needs a vacation, too!"

BACK TO SCHOOL . . .

With Bangs or Bow!

The younger miss appreciates the careful attention she's accorded here, and her mother likes it, too! Try us this week.

Snyder's School Budget Accepted New Fiscal Year

Snyder independent school district budget for the fiscal year beginning September 1 was accepted at the public hearing held Wednesday afternoon, 2:00 to 4:00 o'clock, at the secretary's office, R. S. & P. Railway station.

Secretary A. C. Preuitt says little interest was shown in checking the proposed budget.

The budget contemplates that receipts will increase, about \$1,500 additional being expected from the state available fund, and about \$1,000 additional in current and delinquent taxes. This increase will be more than offset by the lack of a balance, however, a balance of \$8,243.77 having been reported last September 1 and a deficit being reported for this September 1.

Administration, instructional service and operation of school plant will show little change under the proposed budget. Last year's expenditures show for "fixed charges" these figures where none are shown in the new budget: School building sites (grounds), \$400; new buildings, \$2,000; industrial equipment, \$849.37; preparing bond transcript, \$1,026.25.

Added to these proposed savings will be a reduction from \$5,750 to \$1,750 on redemption of serial bonds maturing this year. Total expenditures for the past year are listed at \$59,001.16; for the new fiscal year, \$59,935.

Tree Planting Program.

Highway beautification has resulted in more than 3,000 trees and shrubs being planted or transplanted on the public highways of Lubbock, Hale and Swisher Counties. The project has been under way more than a year.

Two County School Heads Get Degrees

Two county school leaders Tuesday night received degrees at annual summer closing exercises at Texas Tech, Lubbock.

M. H. Greenwood, who is superintendent at Pyron for the second school year, received his master's degree, and A. C. Bishop, Hermleigh principal and coach, was awarded his bachelor of arts degree.

Greenwood virtually completed work for his master's several years ago, but circumstances prevented completion of the final short lap until this summer.

Texas Growing Up.

The Lone Star State's white open spaces are closing up. Although Texas still ranks low on amount of population per square mile, it shows a greater per cent of increase since 1930 than all but five of the 48 states. The total population by this census was 5,824,715, which placed Texas as the fifth largest state in the United States.

Turkey Producers Organize.

Southwestern turkey producers have formed an organization with a capital cost of \$200,000. Roy B. Davis, Plainview, is president of the new organization, and C. E. Clark, San Angelo, is vice president. The organization expects to market four million pounds of turkeys next season.

A man was buying a dog, and the shop assistant was very anxious to sell him a dachshund. But the prospective dog-owner was evidently not very keen on this type of animal.

"What is it about a dachshund that you don't like?" asked the assistant.

"They make such a draught when they come into a room. They always keep the door open so long."

Typing students: Get your paper in 500-sheet lots at The Times.

Registration Will Start Next Week At Local School

High school registration for the local system will begin Thursday morning, September 2, reports Superintendent C. Wedgeworth.

Seniors will be registered Thursday morning, juniors will sign up Thursday afternoon. Sophomores are slated to register Friday morning, September 3, and freshmen will register that afternoon.

The local grammar and high school terms will begin Monday, September 6.

First faculty meeting is scheduled for Saturday morning, September 4.

Superintendent Wedgeworth reports that few changes are being made in the faculty this year.

A feature of the high school registration questionnaire will be this query: "Do you expect to go to college?" Principal King Sides says it will be well for students to decide the answer to this question in advance, as the information will be used in helping to formulate the year's work.

Cotton and Oil Country.

Almost half the total population of Texas earns a part of its living from cotton. It is grown in 223 of Texas' 254 counties. Another one-sixth of the population is employed directly or indirectly by the petroleum industry. This means that a little more than one-third of the people are left for other occupations.

"Say," said the woman customer over the telephone, "the next time I order chicken, don't send me any more airplane fowls."

"What do you mean—airplane fowls?" asked the butcher.

"You know what I mean: All wings and machinery and no body."

BACKS NAMED BY COACH HILL

Coach Red Hill this week offers a tentative backfield for the 1937 edition of the Snyder Tigers. It lines up like this:

Weldon Strayhorn, quarterback; J. P. Tate, fullback; Ardath Head and Wallace Smith, halfbacks.

This line-up features three men—Strayhorn, Head and Smith—who weigh between 150 and 160 pounds each, and the 190-pound bruiser named Tate. Not one of the men is really slow, and taken together they are probably slightly above the average speed of a Class B backfield.

All of them have lettered at least one year, and Tate will be playing his fourth year.

In front of this capable backfield will be a line of at least average weight, with two or three slots yet very much undecided.

Scrimmage sessions have started in earnest out at Tiger Stadium, where Hill and his assistant, Glen Berry, are putting between 20 and 30 boys through every-morning practice sessions.

County Assigned 17 Students With NYA

Scurry County has been assigned only 17 NYA students for the new school year, County Superintendent Frank Farmer has been advised.

This figure contrasts with 42 that were given work in the various schools last year.

Assignments are made to the larger schools on the basis of scholastic population, as follows: Snyder, 1,097, six; Hermleigh, 345, three; Pyron, 283, two; Ira, 282, two; Dunn, 266, two; Fluvanna, 254, two.

Old Age Regulation.

Persons who have reached 65 years of age cannot collect old age benefits, but if they are working for an employer who is subject to the unemployment compensation act, they are eligible for unemployment benefits and should obtain social security account numbers in order that wages received by them can be properly credited to their individual accounts by the unemployment compensation commission.

"An experimenter extinguished a candle flame by playing a high note on the violin."

"Hum! Then it may develop that Nero has been unjustly censured!"

Mother (to small son)—"Your cousin Harry has a little baby now."

Small son (who frequents the cinema)—"What is it, sheik or vamp?"

FUN with FACTS

THE FUN

1. In a room darkened so that you can barely distinguish articles, stand over or near an unlit light. Pick out some picture or object across the room. Turn on the light for 3 or 10 seconds, then turn it off. Try to distinguish the object on which your eyes were focused.

2. Place a match box or other small article on the edge of a mantelpiece or have someone hold a pencil vertically at eye level. Walk

away six or eight feet. Close one eye tightly. Walk forward and try to place the tip of your finger on the object.

THE FACTS

1. Notice that there is quite an appreciable interval before the object becomes visible again. This nearly duplicates driving conditions at night with headlights of an approaching car. During the several seconds which may elapse before maximum vision returns, your car may travel more than 100 feet. (40 M.P.H. = 60 feet per sec.)

2. Without the unobstructed vision of both eyes, it is difficult to judge distances accurately.

"So he's a mechanical genius?"

"I'll say! He can walk into a hotel bathroom and within 30 minutes he can regulate the shower."

Unemployment Pay.

When unemployment compensation benefits become payable on January 1, 1938, the payments will amount to one-half the normal weekly pay of the unemployed worker, but not more than \$15 a week, for not more than 16 weeks in a year.

Rare Rock Formation.

Emmett Trevey recently found a rare rock formation in the bed of Bull Creek, not far above the mouth. It is a bracelet shaped mass of large and small gravel, welded together as if with concrete. The find is being sent to Texas Tech for an explanation as to its age and manner of coming into being.

St. Louis Star-Times: Times change, but if we change with them we don't notice it so much.

Detroit Free Press: Fame is really worth while. It prompts the newspapers to print pictures of the fish you catch.

Punch: At certain times of the year natives of Central Africa perform a frenzied dance round holes they have dug in the ground. Golf, in fact, is spreading everywhere.

Thomaston (Ga.) Times: The Library of Congress is one of the most complete libraries in the country. It contains almost any text- and reference-book available—except an arithmetic.

FOUR ELEVENS HOIST PIGSKIN

Taking a cue from last year, the 1937-38 school session will feature four Scurry County football teams.

Snyder's Class B Tigers are looking forward to a good season. They have been working out two weeks.

Hermleigh's first team, which lost no games and tied only one game in its class last season, is back under A. C. Bishop with virtually the same strength.

C. B. Connally's Dunn eleven, which has seen two years of experience, will probably be slightly stronger this year. And somewhat brighter prospects are also in store for Gilbert Mize at Fluvanna, who faced a dearth of material last fall.

The four schools report increasing football interest among students and outside fans.

Commission Employees.

One hundred and fifty persons are now employed by the Texas unemployment compensation commission. Included in this number are three members of the commission, who direct the policies of the organization, accountants, field men, file clerks, stenographers, legal representatives, and mail clerks.

Keep up with the times, but don't get ahead of yourself.

Style-Right Clothes for the Miss and Mrs.

STINSON'S

Two NYAL-REXALL Stores

Improvement of School Grounds Being Completed

While students and faculty members have been vacationing and otherwise spending the warm months, steady improvements have been completed on the extensive campus of the Snyder school system.

The garage and workshop on the east side of the gymnasium was recently finished, with a concrete drive-in on the south.

Just to the north of the garage, one of the old tennis courts has been given a heavy caliche base, and is just about ready for topping similar to the type that is being placed on Snyder streets. The west court was absorbed by the garage.

Steady improvement has been made on the Bermuda grass lawn and the flower gardens immediately west of the high school building. The plot has been kept green and attractive throughout the summer, and many picnics have been held there.

To Grissom's, Abilene.

Mrs. Violet McKnight, daughter of Mr. and Mrs. Fred A. Grayum of Snyder, recently accepted a position with the Ernest Grissom department store in Abilene. She has taught public school music for several years in West Texas schools, including Snyder. Last year she taught at Ballinger.

A certain amount of opposition is a great help to a man. Kites rise against the wind. Even a head wind is better than none. No man ever worked his passage into a dead calm. Let no man, therefore, wax pale because of opposition.—Anon.

Childhood often holds a truth in its feeble fingers which the grasp of manhood cannot retain, and which it is the pride of utmost age to recover.—Ruskin.

Salina (Kan.) Journal: "A good name is rather to be chosen than great riches." And there's no tax on a good name, either.

Pavement Complete Since Term Closed

Pavement has been completed on the north side of the school grounds, 26th Street, since the spring term closed.

Before the paving program is finished in Snyder, the east side and the south side of the grounds will be paved—provided present plans are carried through.

Efforts will be made, as they were last year, to have all cars parked in the large "runaround" just southwest of the buildings, instead of the streets running on the north and east sides of the grounds. Accident prevention is the main purpose of this plan.

Brother of Snyder Woman Is Grid Star

Jim Neill of Brownfield, that hard plunging, heady back up at Texas Tech last year who made the "little" All-American football eleven, is destined to star this year as a member of the New York Giants, professional grid squad.

Mrs. C. T. Burnett of Snyder, Neill's sister, discovered the star's picture on a full page of the current issue of the Sunday Mirror, New York paper.

Neill co-starred on the Red Raider eleven with Jesse and Leslie Browning of Scurry County.

The man who has vision and no task is a dreamer. The man who has a task and no vision is a drudge. The man who has a task and a vision is a hero.—Dr. Pool.

Gradually we must learn . . . that to do well and suffer for it, instead of returning evil for evil, and railing for railing, is to show forth the spirit of Christ, and to enter into the joy of our Lord.—Charles Kingsley.

Memphis Commercial Appeal: We hear checks in riotous profusion will feature the new spring styles. It is, we suppose, the natural influence of the New Deal motif.

A good flight is better than a bad fight.

Advertisers Are Responsible For Special Section

Without the liberal support of advertisers, this "Back to School" special section of The Times would be impossible.

Snyder merchants are anxious not only that parents and students of Snyder may find what they want and need before school opens, but they are also anxious to make new students and incoming rural students feel at home when they come into local stores.

Merchants' messages in this special section may therefore be read with full confidence that they offer the best that is available in pre-school and during-school needs.

Following are the merchants and music teachers who are cooperating to make this section possible:

- J. C. Penney Company.
- The Economy Store.
- Bryant-Link Company.
- The Fair Store.
- Stinson Drug Company.
- Ben Franklin Store.
- Graham & Martin.
- The Hollywood Shop.
- Patterson's Barber Shop.
- Mrs. L. A. Chapman.
- Ware's Bakery.
- Every Woman's Beauty Shop.
- Dr. H. G. Towle.
- Pete Bennek.
- Miles Studio.
- Boren-Grayum Insurance Agency.
- Myrl's Beauty Shop.

Mrs. Rhoades Receives B. A.
Mrs. Travis Rhoades, primary teacher of Bethel who has been attending Texas Tech all summer, receives her bachelor's degree at the end of this semester. Out of a class of 200, Mrs. Rhoades has done exceptional work in the school. Her husband went Tuesday evening to be at the graduation exercises. Mrs. Rhoades plans to return to Bethel shortly, and continue her teaching.

"Is your wife a good housekeeper?"
"I'll say she is! Why, in five minutes she can clean up my room so well it takes me five days to find everything again."

Prospective buyer—"The rooms seem to be very small."
House agent—"But you can always use thinner wallpaper, sir."

Gushing visitor—"And has your baby learned to talk yet?"

Proud parent—"Oh, my, yes—we are teaching him to keep quiet now."

Young poet (boastfully)—"I've never had a poem returned."

Experienced writer—"Hum—better enclose a self-addressed, stamped envelope hereafter."

Only Once In a Lifetime . . .

can you take a picture of your child on the first day of his or her school life. Let us help you to record this memorable day in picture.

NOBODY'S BUSINESS

By Julian Capers Jr.

Can We Prevent War?

Down every highway and byroad in Texas that leads to gulf ports Texans have for months seen trucks hauling scrap iron and steel, destined for European and Far Eastern nations, to be converted into bombs and shrapnel. This week, in Shanghai, aerial bombs ripped apart the bodies of hundreds of men, women and children, as Japan and China began fighting again. Many believed the "next" war had begun.

But Ernest O. Thompson, Texas railroad commissioner and chairman of the interstate oil compact commission, who recently returned from the world petroleum congress in Paris, quoted significant figures concerning oil without which no nation can make war. Texas has about one-fourth of the world's potential supply of oil, Thompson reported; the Conroe field, for instance, has reserves comparable to the whole of Rumania, and Rumanian crude fixes the prices of European oil, where gasoline sells for 90 cents a gallon, 26 cents being tax.

"We have got something here in Texas that the world is going to come after," Thompson declared. "It looks like they are going to have a war in Europe within a couple of years. They have not got the money to pay for the oil, and we can probably prevent war by not letting them have this crude."

Signing this week by President Roosevelt of a two-year extension of the compact will enable Texas and other states to retain full authority over their own oil production.

The automobile was a thing unheard of in an unfrequented mountain community, and a native was astonished one day when he saw one go by without any visible means of locomotion. His eyes bulged, however, when a motorcycle followed closely in its wake and disappeared like a flash around a bend in the road.

"Great guns!" he said, turning to his son. "Who'd 'a' sposed that thing had a colt?"

There was a young lady named Kate Who was learning on rollers to skate. Her friends, for a game, Quickly gave her the name Of "Niagara"—her falls were so great!

Are the Kiddies Physically Ready For Schooling?

Now is the time, according to State Health Officer George W. Cox, for every parent to ask himself if his child is physically ready for school. A visit to the family physician will answer this question and give time for correction of minor defects before school bells ring out this September.

School children are exposed to so much infection that where a definite preventive against disease is known, parents should take advantage of it.

Vaccination against typhoid, diphtheria and smallpox should be done at once. These vaccinations may save many days out of school, doctor fees and perhaps life itself. More than 300 children die each year in Texas from diphtheria.

A child with defective vision cannot be expected to do the required work in school, until this handicap is removed. Inflamed, watery eyes, granulated lids, chronic styes, nervous actions and habitual winking may be caused by defective vision and should be attended to immediately.

The far reaching effect of infected tonsils on the system has

Dermott School Will Begin Work Monday

Dermott school will open its doors next Monday, August 30. M. K. Maples and Mrs. Edgar Shuler are teachers in the school.

Most county schools have already opened, and will dismiss for the cotton picking season.

To Teach at Morgan.

Lola Mae, daughter of Mr. and Mrs. S. J. Littlepage, was elected last week as teacher of third and fourth grades at the Morgan school, near Wilson. The three-teacher school began classes Monday of this week. The local girl, a graduate of Snyder High School, has been attending Texas Tech at Lubbock this summer.

Chartographers now have a brand new island to place on their maps—Treasure Island, 400 acres in area and the San Francisco bay site of the 1939 Golden Gate International Exposition.

been recognized by health workers for many years.

Dental defects are found in more children than any other imperfection, estimates the Texas State Department of Health, urging that children should be taken regularly to the dentist for examination and cleaning of the teeth.

Let Us Fix Their School Shoes

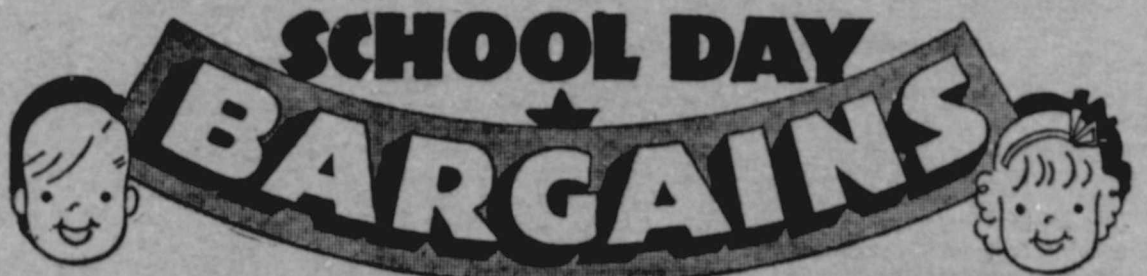

Soles that are worn through and heels that are worn off don't mean that shoes are ready to discard. It merely means that they are ready for our repair service.

BENBENEK Shoe Shop

"Remember the Alamo"

The Times handles office supplies.

As heretofore, The Fair Store is ready to supply the needs of those ready-to-go-to-school youngsters from head to heel. If it be ready-made clothes that will make the grade with thrifty mothers, or the materials with which to make their school togs, The Fair Store can help you with appropriate selections. And prices are attractive.

New Prints..... 10c to 39c yard
Gay colors, attractive new patterns, crisp, new shipments

Boys' Pants..... 98c Up
Most of them in long pants—Khakis, worsteds, serges, woolens

Boys' Shirts..... 39c Up
Sun and tub-fast colors, in patterns and solids

Children's Panties... 15c and 25c
Every style for the little school girl

Boys' Overalls..... 59c Up
Blue denim and stripes—Several styles to choose from

Children's Dresses... 49c to \$1.95
Wide selection of pretty colors and styles

Piece Goods in all the new materials and colors for Fall and Winter are here. . . . Suitings, Prints, Tweeds, Woolens and Silks.

And what a picture the new Shoes for Fall are painting! Every member of the family can find what he or she wants at The Fair Store. May we show you—before you decide to buy elsewhere.

Reschar Leading Pre-School Band Practices Daily

The Tiger Band has begun pre-school rehearsals, and is meeting daily in preparation for the coming school year. The first meeting was held Monday, with Director R. L. Reschar conducting.

Reschar has just returned from the summer session of the Indiana School of Music, Bloomington, Indiana, where he is taking his master degree in music.

Prospects look good for the best season the band has seen in recent years, with nearly every member of last year's band present and with several valuable musicians from other schools who will be enrolled at Snyder this year, says Reschar.

A large class of beginners is anticipated to begin study at the beginning of the fall semester, and quite a few have already consulted with the director concerning the type of instrument most suitable for the particular individual.

Children and parents are urged to see Reschar before school registration in order that sufficient classes will be provided for all beginners and advanced students. Parents are warned by the director not to buy instruments before consulting him, because many children cannot play all kinds of instruments, and the wrong type may be purchased.

Snyder High School is now allowed to give two credits in band and orchestra, which is the maximum allowed any school in the state.

"This opportunity for a free musical education should be taken advantage of by all those interested, and a mutual benefit will come to the community and the individual," declares Reschar.

Four thousand trees, 70,000 shrubs and 700,000 flowering plants will be planted on Treasure Island in San Francisco bay for the 1939 World's Fair.

Two Teachers Get Degrees at Canyon

Miss Lois L. Allen, daughter of Mr. and Mrs. Jess Allen of Hermleigh, received her bachelor of science degree at West Texas State Teachers College, Canyon, Monday night, August 23, along with 179 other graduates. Miss Allen was a 1930 graduate of Hermleigh High School and has taught four terms in county schools.

Mrs. O'Dell Ryan, teacher in the Snyder schools, was another to receive her degree at Canyon. Her husband, Dr. O'Dell Ryan, went to Canyon to be at the Monday services.

If Cards Are Lost.

Requests for duplicate social security account numbers by applicants who have lost their cards should be accompanied by a new application marked "Duplicate requested," with a supplementary statement as to the reason, such as "card lost," and the place and approximate date of filing the original application.

"Young man," said the city merchant severely, "I notice that you are almost invariably from 10 to 20 minutes late in getting to the office!"

"I know, sir," replied the youth, "but you seem to set such a small value on my time that I didn't think it mattered much."

Mistress—"If you break another dish, Norah, we'll have to get another maid."

Norah—"Well, ma'am, there's certainly work enough for two of us."

"So you had to discharge that clerk for inefficiency?"

"Yes; he couldn't even sell a can opener to a June bride."

Twenty million cubic yards of sand were used in building of Treasure Island, San Francisco bay site of the 1939 World's Fair.

Education is often found but never lost.

Watch Out...

Hundreds of Children Are Going To School—Drive Carefully!

Schools will be open soon, and hundreds of children will be going and coming every day—your children and our children—and it is the duty of every motorist to have his or her car under control.

The 1937 accident toll is already appalling, and now with the added danger . . . drive carefully.

We Recommend These Rules

- 1.—Drive with extreme care during school days and near school.
- 2.—Have your brakes, tires and steering apparatus checked by a reputable garage for safety's sake.
- 3.—Have LIABILITY INSURANCE.

"YOUR HOME COUNTY PAPER"

VOLUME 50
NUMBER 50

SNYDER, TEXAS, AUGUST 26 NINETEEN HUNDRED
THURSDAY AFTERNOON 26 AND THIRTY-SEVEN

ISSUE 12
NUMBER 12

One of Best Crop Yields Now Seen

Week-End Rains Soak Practically All of Trade Territory Two To Five Inches.

Scurry County is breezing into one of her best recent crop years as a result of the rains that visited her from Wednesday night of last week through Sunday.

Cotton totals for the season are ranging in the imagination as high as 55,000 bales, comparable to the record crop of 1932. But the more conservative guessers, who measure county-wide acreage and other cold facts, can see no better than 35,000 to 40,000, unless every condition reacts favorably within the next month.

Barring an insect invasion or some other disaster, the county will assuredly break by several thousand bales any of the marks she has set since 1932.

Feed Crop Excellent.

Thousands of tons of feed are already made, and tens of thousands are in the making.

Pastures, burning in most cases beside fields that were still looking good, are also perking up after the rains.

Snyder's total for the five-day siege of water was 1.96 inches. Several communities received three to five inches during the spell, while a few, including a strip below Herleigh, received only light showers. The county average was probably about two inches.

Ped by Wednesday night and Thursday downpours toward Derricks, Deep Creek traveled just about bankful down its weed-infested channel for a number of hours.

August Total Is 2.38.

The August total for Snyder, according to the government gauge kept by Mrs. B. G. Johnson, is 2.38 inches to date. July registered 1.45 inches.

Borden County as a whole received an average of probably three inches, while the official gauge at Gall told of downpours during the wet spell of more than five inches. The sandy southeast section averaged below two inches.

The heaviest local rains, last Friday, dropped the mercury to a maximum of 87 degrees from 8:00 a. m. that day until 8:00 a. m. Saturday. This was the lowest maximum recording for that period since July 10, when an 85-degree maximum was registered.

West Texas Dental Society Plans 28th Session Next Week

Dr. Sed A. Harris of Snyder, secretary-treasurer of the West Texas Dental Society, this week mailed programs to members, featuring the twenty-eighth annual session, to be held in Lubbock Friday and Saturday, September 3-4.

Snyder almost has a monopoly on the society's leadership this year, for Dr. J. G. Hicks is 1936-37 president of the group.

Speakers on the two-day program will include: L. F. Megaw of San Antonio, Dr. A. L. Nygard of Dallas, H. R. Partney of New York, Dr. L. A. Niel of El Paso, Dr. B. A. Maddox of Abilene, Dr. W. B. May of Colorado, Dr. E. A. Durham of Tahoka, Dr. W. M. Curl of Amarillo, Dr. Roy F. McCasland of Tulsa. Entertainment features will be golf tournament, gun shooting, Friday night banquet and dance.

Weatherbee to Tour.

E. E. Weatherbee, manager of Bryant-Link Company, was in Spur Wednesday night for a meeting of all managers of the West Texas Bryant-Link group. He and his family left this morning for Carlsbad Caverns, El Paso and other western points. They will enjoy a 10-day vacation.

ALMANAC

BTU Program to Be Given Sunday In Local Church

Members of the Baptist Training Union in the Mitchell-Scurry Association will gather at the First Baptist Church here Sunday afternoon, 2:30 o'clock, for the annual business session and the regular fifth Sunday program.

Featuring the program will be an inspirational address by Rev. T. A. Patterson, new Colorado pastor, formerly of Roscoe, who will speak on "Young People in the World of Today."

Snyder will provide a varied program, including a sword drill by juniors, under direction of Mrs. D. V. Merritt; vocal solo, Earl Patrick; musical program, led by Jack Inman; demonstration of record taking, Bible drill, and other BTU activities.

At the business session, a president will be named to succeed J. C. Smyth of Snyder. Delegates for three cars to a district BTU rally at Abilene, September 14-15, will be selected. Plans will also be outlined for associational activity in the various contests to be conducted at the state convention at Beaumont November 25-27.

People of all ages are invited to the meeting, no matter their church affiliation, say local BTU leaders. The BTU includes all age groups.

Disinfection of Wheat for Seed Urged by Agent

Last spring many Scurry County farmers found that their wheat yields had been materially reduced by smut. This heavy loss as a result of smut or stinking smut can be largely prevented by the proper disinfection of seed wheat, according to County Agent W. R. Lacey.

In this connection he points out that farmers lose on their wheat crops not only from the reduced yields but pay an additional penalty in dockage for smutty grain.

More or less effective control has resulted from the use of copper carbonate and the cost has been rather low. However, a new compound has been developed which has ethyl-mercury-phosphate as the toxic ingredient. It bears the trade name of improved Ceresan. This was developed through the research work of a staff of scientists specializing in plant disease control and has been found to be highly effective in preventing damage from stinking smut and a number of other cereal diseases.

It has been found to be more effective than the older copper carbonate treatment and the cost possibly a little less, being only about two cents a bushel for the treatment.

Under soil conditions favorable to their development, the smut spores sprout, much as does the wheat seed and the fungus penetrates the wheat seedling, just as the young and tender sprout emerges from the wheat kernel or shortly thereafter. The result is smutty heads or kernels and a loss in yield and profits.

The county agent plans to hold a series of meetings over the county to explain and demonstrate this smut control treatment, the first being at Pivanna next Tuesday afternoon, August 31, at 2:30 o'clock, at the gin lot. All farmers in the area interested in smut control are urged to be present.

It is planned to hold meetings in other communities as there is a demand for them and those interested in such treatment and a demonstration thereof are urged to see the county agent, and a date will be arranged for such a meeting.

Gas Customers Get Protection by Smell

Protection by smell is the latest innovation of the Community Natural Gas Company.

Odorization of natural gas consumed in this and surrounding areas will be started this week, according to cards mailed to all gas customers. The entire Lone Star Gas Company system in Texas is being odorized.

The gas company requests that all customers report any leaks on their premises that are made known by the odor.

Olds Station Change. Mickey Carroll, local service station employee for several years, left a few days ago for Carlsbad, New Mexico, where he is working in a station. His place at Olds Service Station has been taken by Elmer Rhoades.

Head Over Heels in - The Dirt

The four-legged animal in this picture is trying to earn his daily hay, and the head-first two-legged critter is evidently trying to do a hook slide with his cybrows and nose. This will be just one of the typical acts when the Lions Club and firemen meet Tuesday night, September 14, on the lighted Tiger Field. Players will be mounted on donkeys trained for the purpose. Proceeds will go to the blind fund of the Lions Club and to the firemen's charity fund. The game will be staged under Lions Club sponsorship, the firemen recently accepting a fiery challenge from the service group.

WOMEN SEE HOPES REALIZED AS COUNTY VOTES FOR AGENT

A group of county women that has been seeking a home demonstration agent for several years won its point Monday, when the Commissioners Court voted to include \$600 for this purpose in the 1938 budget. The action was by unanimous vote.

The court went a step farther when it voted to pay an agent \$50 monthly from now until January 1, 1938, provided the person assigned to the county would accept general fund script.

Remainder of the home demonstration agent's salary would be paid by the Extension Service, as in the past when this county had a home agent.

County Judge H. J. Brice said yesterday that he has written the district agent in regard to assigning a home demonstration agent to Scurry County in the near future.

Representing county women before the court Monday were Mrs. J. L. Carrell, Mrs. J. C. Witherspoon and Mrs. J. B. Adams.

SINGERS GO TO PLEASANT HILL FAIR INTEREST ON ALL HANDS

Pleasant Hill community will be host Sunday afternoon, beginning at 2:00 o'clock, to the regular Scurry County fifth Sunday singing.

Earl Shepherd, president of the host singing class, thinks the meeting house will be crowded to the brim if the weather is favorable. "Come on and help us make this the best singing of the year," he says. Singers are requested to bring their books.

D. C. Howell's Son Dies in New Mexico After Long Illness

Joe A. Howell, 49, son of D. C. Howell of Snyder, died Monday, August 16, in a government hospital at Albuquerque, New Mexico, where he had been confined since March 1. His death followed an operation.

The local man reached the bedside of his son Monday morning. The only other immediate survivor is the wife of the deceased man. The family home was in Muleshoe. Final rites were held at St. Jo, and burial was in the cemetery there, beside the grave of the World War veteran's mother.

Mr. Howell saw two years of service in the World War. He was in France when the Armistice was signed. He visited his father here last December.

ANOTHER SILO SEEN BY MANY

One hundred farmers went out to Harrison Durham's place last Wednesday afternoon to witness the filling of the Dunn farmer's new 45-ton trench silo.

The county agent, W. R. Lacey, was in charge of the demonstration. This was the third similar trench silo display held in the county this month. Previous ones were held at the Ben Brooks place east of Snyder and the Cornelius Davis place northeast.

Others who are digging new silos include Dr. W. H. Ward of Herleigh, who is placing one of the storage systems on his place adjoining the Brooks place, and Hoyt Murphy of the Big Sulphur community. With an unusually good feed crop in the offing for most of the county, Lacey expects the digging and filling of a number of new silos this month and in September.

PTA SPONSORS DRAMA FRIDAY IN AUDITORIUM

Local Talent to Present Play and Between-Acts Entertainment Beginning at 8:00 p. m.

The Snyder Parent-Teacher Association presents this Friday night a clever little comedy-drama, "Black Eyed Susan," in the Snyder High School auditorium. The curtain goes up at 8:00 o'clock.

Besides the comedy and romance found in the main attraction, a number of choruses and vaudeville numbers will add color to the evening's entertainment. Admission prices to the home talent performance will be 20 cents for adults, 10 cents for children.

Proceeds will be used for room beautification and for other P-T-A projects.

Characters in the play are: Black Eyed Susan—Mrs. Mildred Stokes.

Phil Langdon—Hugh Taylor Jr. Letty Pennyfeather—Dorothy Strayhorn.

Folly Prim—Charline Ely. Miranda Herringbone—Vesta Green.

Lotta Neighborhews—Mrs. Phil Griffin.

Prudence Bodkins—Mrs. Anna Lou Rosenberg.

Rosee Sampson—Fickas Bell. Jimmie Sinkins—Hardy Mitchell. Prof. Hiram Catchbug—Woodrow Hairston.

Abner Sniggles—Victor Baze. Uncle Ed—Clyde Boren Jr. Mandy (negro)—Virginia Will.

Varied Frontier Round-up Slated By Colorado City

Three big rodeo shows, a mammoth street parade, street dance, agricultural exhibits, a horse and mule and jack show, an old settlers barbecue and similar attractions will make the Colorado City Frontier Roundup on September 10 and 11 one of the most colorful celebrations ever staged in this section.

The two-day celebration will be opened at 3:30 p. m. on September 10, with a street parade in which beautiful floats will vie for prizes with frontier vehicles and cowboys and cowgirls depicting the historical background of Colorado and Mitchell County. Chuckwagons, old-time buggies, antiquated automobiles and similar frontier-day paraphernalia, reviving memories of the bygone days, will be entered in this parade.

Calf roping, wild cow milking, break-away events and wild steer riding will be the main attractions in the three rodeo shows in which the best cowboys of West Texas will contest for \$30, \$20 and \$10 in prize money to be awarded in each event to the three highest winners.

In addition to the daily money, the Colorado City Frontier Roundup will award a \$95 hand-made saddle to the cowboy making the best average in the roping events of the three rodeo shows, the second winner will receive a \$25 pair of hand-made boots, and the third prize winner a beautiful hand-made bride.

The best all around steer rider in the three shows will receive a pair of hand-made spurs.

The rodeo performances will be staged in the athletic stadium of the Colorado High School on the afternoon and night of September 11, with sufficient seating capacity available to accommodate a large crowd.

The Mitchell County horse and mule and jack show, which will be held in the Colorado High School athletic stadium on Saturday forenoon, September 11, is attracting much attention. A large number of animals representing the best horse flesh in this section have already been entered in this show.

Mitchell County old settlers will be honored with a free barbecue on Friday afternoon, September 10, at Ruidick Park. Celebration officials anticipate an attendance of approximately 4,000 persons, including the families of old settlers.

As a pre-celebration event, a gigantic free street dance will be staged on the night of Thursday, September 9, to which every citizen of this section is invited. Colorado City Frontier Rodeo officials.

Felix Jarratt Goes To Midland Position

Felix Jarratt and his family left several days ago for Midland, where the local man is associated with the parts department of the Ford agency.

Jarratt has been head of the parts department of Louder Motor Company here for some time. Ted Pitner has taken Jarratt's place with Louder.

Oil Activity Picks Up In Two County Areas

Company G Returns Sunday From Its "Biggest and Best" Camp Hulen Trip

Members of Company G, 142nd Infantry, Texas National Guard, returned Sunday from their 1937 summer encampment, described by Captain John E. Sentell as the biggest and best of the camps the local unit has attended.

Heretofore Snyder's unit has participated in musketry competition, having in former years won two out of five contests and been runner up two other times. But this enticing sport was rained out during this session. Company G, however, entered for the first time a team of five men in the rifle marksmanship competition. While these men won no outstanding laurels, their rating was good.

Special honor went to one man of Company G, Sergeant Howard Franks, who, along with 10 others, was chosen from among the 800 officers and enlisted men to represent the camp.

One of the richest and most indelible impressions the boys received during the whole course of their trip was the bivouac they were a part of. The bivouac was formed 15 miles from camp, the boys pitching their "pup tents," and using ground for blanket and bed.

Accompanying the Snyder division as visitors were Mrs. John E. Sentell and children, Mary Sue and John Sears. Reports are that John Sears became quite a favorite with Colonel Ernest O. Thompson, regimental commander, and got the biggest thrill of anybody there.

Captain Sentell sent the troop back under the supervision of Tim O. Cook, local man, and returned with his family. The troop arrived in Snyder Sunday morning, with only two missing members, Privates Calvin T. Hayes and Frank O. Pinkerton, who were left in the base hospital at Fort Sam Houston, recuperating from slight injuries. They will return to Snyder upon their release from the hospital.

J. M. STEWART CHOSEN RODEO HEAD TUESDAY

Joe York is Arena Director, George Parks Named Secretary for September Event.

At a meeting of 25 rodeo enthusiasts in the county court room Tuesday night, J. M. Stewart was named as president and general manager of the Scurry County Rodeo Association.

Joe York, who has been pushing advance plans for the holding of a 1937 show and the formation of an association, was made arena director, and George Parks was chosen as secretary-treasurer.

This group of three officers and a committee of five other men to be named by Stewart will compose the directorate of the new organization.

Rodeo September 17-18. A rodeo that is slated to be an annual affair will be staged at Wolf Park September 17-18, it was decided 10 days ago. Four shows will be held, two afternoon and two night.

It was announced at the Tuesday night meeting that more than \$1,000 worth of stock in the association has been sold, and that most of the checks are in hand. The list of stockholders, to be issued \$25 shares, includes a number of the best known ranchmen, cowhands and businessmen in Scurry County.

Plans were made to incorporate the association. Sterling Williams, county attorney, who presided at the meeting, is handling this phase of the advance work.

Good Stock and Pens.

Three points were emphasized in discussions concerning the rodeo: First, the best stock available will be secured. This includes horses, steers, cows and calves.

Second, new pens, chutes and corals will be built in order to make the show fast and attractive.

Third, every effort will be made to make every feature of the event clean and wholesome.

Wide publicity is to be given the rodeo, it was decided. The majority of the men present Tuesday night expressed the opinion that the show is destined to be successful from the start.

WORMS FOUND IN FEW FIELDS

A few scattered cotton fields in Scurry County are being visited by worms, and the owners are planning to poison, in most cases.

Although County Agent W. R. Lacey expects no sizeable worm invasion, he warns farmers to be in readiness to cope with the invaders if they do come in dangerous numbers.

The poison is being handled by local stores at a low figure, and the county does not contemplate handling the worm fighting necessity.

Sixteen million dollars will be spent for construction of the 1939 Golden Gate International Exposition.

ANOTHER NEW TEST NEAR IRA

Oklahoma Drilling Concern Has Contract for Test on A. C. Martin Place.

Oil activity in the county was stepped up two notches this week. Announcement was made by Oble Bristow and Jim Cantrill that a well is to be spudded in soon on the A. C. Martin place, five miles northwest of Ira.

At the same time, Scurry began to receive an overflow from the new Rotan field. Acreage is being blocked in the northeastern part of the county at a reported rate of \$1 per acre, and even more aggressive activity is reported at Hobbs and Binkerton.

Local oil enthusiasts believe the Fisher County play will gradually work toward Scurry County.

Good Spudder Outfit. Slush pit for the new well near Ira is being dug this week, and a good spudder outfit and other equipment is being moved in.

Known as the Martin No. 1 Robinson Bros., the latest county test is located in the center of the northwest one-fourth of the southwest quarter of Section 147, Block 97.

Robinson Bros., drilling contractors, come out of Miami, Oklahoma, with a good reputation as speedy drillers with a first rate outfit. They are making their headquarters in Snyder.

Contract Depth 3,200. The contract depth is 3,200 feet, just as it is on the Shaw Oil Company-First National Bank No. 1, which was spudded in Tuesday of last week on the northwest quarter of Section 112, Joe Wishart place.

The Martin-Robinson test is about four miles due south of the Shaw location, and one and one-fourth miles west of the recently abandoned Henderson well.

The Shaw well, with Coffield & Guthrie doing the drilling, was well 200 feet late yesterday.

South Side Building Is Being Remodeled. Every Woman's Beauty Shop will more than double its capacity, and the Hollywood Shop will offer remodeled quarters, when work is completed on the south side building they occupy.

The beauty shop, operated by Mrs. Woodie Scarborough, will occupy not only its old space in the rear but also the front space formerly used by Western Union.

The women's wear shop, of which Mrs. John Keller is manager, is being repainted, rearranged and slightly remodeled.

H. T. Sefton Made Agent for Santa Fe

Newly established citizens of Snyder are Mr. and Mrs. H. T. Sefton, Santa Fe railroad passenger agent and wife.

Sefton takes the place of the late F. W. Wolcott. Mr. and Mrs. Sefton, before coming to Snyder, made their home in Tulsa, then Seagraves, and last, Big Lake.

44 Stockholders

Forty-four stockholders in the Scurry County Rodeo Association have subscribed a \$25 share each, or a total of \$1,100, Secretary-Treasurer George Parks said late yesterday. The stockholders are as follows:

Stinson Drug Company, Economy Dry Goods Company, J. C. Dawson, Snyder Transfer Company, Weldon Johnson, Times Publishing Company, Snyder Bakery, Bell's Flower Shop, J. B. York, R. L. Gray, G. E. Parks, J. M. Stewart, Sterling Williams, Rainbow Market Place.

Walter Weathers, R. C. Miller Jr., Hugh Taylor & Company, M. A. Fuller, Odum Funeral Home, Jesse Jones, Allan Stephens, N. R. Clements, Winston Brothers, R. D. Parks, Dr. H. G. Towle, A. L. Martin, Scurry County Motor Company, Jones & Chapman, Joe Parks, Aubrey Stokes, Steve Parks, Raymond Berryhill, Stinson Camp Ground, Tom Wolf, Cochran Brothers, W. B. Willingham, Irwin's Drug Store, Walton's Cafe, Ely, Arnold & Ely, Lois Adams, Garrett Harrell, Dr. Grady Shyles, J. J. Koonsman, Ware's Bakery.

The WOMAN'S Page

Announcement Tea Honors Recent Bride.

Mrs. W. A. Grayham, the former Miss Pauline Boren, was honored at an announcement tea given last Saturday afternoon in the home of her mother, Mrs. I. W. Boren, where she has been visiting the past week.

The guests, arriving at 3:30 o'clock, were greeted by Mrs. Boren, who presented her daughter. Also in the receiving line were Mrs. Joe Nipper, the former Ruth Bell Boren, of Turkey, Zona May of Lubbock, Mrs. Clyde Boren of Snyder, Mrs. Ruth Boren of Ennis, Mrs. Burton Moore of Snyder, and Mrs. W. E. Boren of Ennis, several of whom are out-of-town relatives of the Boren family.

Assisting Mrs. Boren with hostess duties were Mrs. Dock Polk, the former Miss Faye Joyce, of San Angelo, and Zona May of Lubbock, who ladled punch. Mrs. Hugh Boren presided at the register.

Lovely asters in deep shades of pink and purple decorated the living room, making it an ideal setting for such an occasion. A fragrant bouquet of garden flowers adorned the dining table, which was covered with an exquisite lace cloth. Suggestive of the occasion was the buffet, which was centered with miniature brides and grooms under arch ferns.

Refreshments of iced punch and cookies were served, accompanied with clever plate favors consisting of silver wedding bells with sprigs of fern and the announcements tied to the tops.

The program was as follows: Vocal solo, Dorothy Strayhorn, accompanied by Mrs. Novis Rodgers; vocal solos by Meses. Hugh Boren and W. W. Smith, accompanied by Mrs. Rodgers; readings by Elaine Rosser Lambert and Virginia Wills; and a vocal solo by Mrs. Billie Boren of Ennis.

Mrs. Grayham plans to leave for her home in Van Nuys, California, the latter part of this week.

Lola Jo Rogers, Daughter of Mr. and Mrs. Abe Rogers, is Visiting in Abilene with her Uncle and Aunt, Mr. and Mrs. Ernest Rogers, and Cousins, Harriet and Peggy Doris Rogers, who came for the local girl Sunday.

Misses Hattie and Gertrude Hern, accompanied by their mother, Mrs. R. C. Hern, returned from Denton last Friday evening. The two local teachers have been attending the summer session of North Texas State Teachers College, Denton.

Towle's Jewelry Company offers a delightful new array of novel costume jewelry at delightful new prices that will fit your purse.

Wynona Keller, having completed her sixth year at Camp Waldemar, near Kerrville, is to return home this week-end. She is leaving shortly for her second year in The Hockaday School at Dallas.

Mr. and Mrs. Roy Stewart and daughters Helen, Marjorie and Louroy, with Mr. and Mrs. J. C. Conrad of Hotan and Lulline Thomas of Luling, spent the week-end on the Concho River. They report not too many fish, but plenty of fun.

Miss Alma Spears, daughter of Mr. and Mrs. J. O. Spears of Snyder, and formerly a resident of this city, has recently returned from San Francisco, where she is a nurse in a San Francisco hospital.

Those who in any way assist the new writer to gather society and personal news will be rendering The Times and its readers an appreciated service.

Refreshments of angel food cake and home-made grape juice were served to the ten members: Meses. J. E. Hardy, superintendent; H. C. Gordon, junior superintendent; King Sides, primary superintendent; Homer Snyder, beginners superintendent; E. D. Curry, cradle roll superintendent; Winnie Winston, Alien Warren, secretary; W. F. Cox, A. M. Curry and W. R. West, teachers.

Mrs. Jean Smith and baby daughter, Pat, are spending several days in Haskell, visiting relatives.

Brent Anderson of Hollywood, California, arrived late Tuesday for a two-week visit with her parents, Mr. and Mrs. E. J. Anderson. The former Snyder girl has a secretarial position with the Bank of America.

Mrs. C. R. Goodnough of Gorman arrived several days ago for an extended visit with her son, D. H. Goodnough, and family.

Miss Dorothy Jean Wilson, daughter of Mr. and Mrs. Ben F. Wilson, is in Amarillo this week, visiting her grandparents.

Why not drop into Towle's during an off moment and see for yourself the splendid values in all that's new in jewelry?

Mr. and Mrs. M. C. Higgins of Las Cruces, New Mexico, are visiting here in the home of Mr. and Mrs. W. W. Hamilton.

Mrs. John A. Roberts and daughters, Margaret Sue and Doris Jane, of Hamlin are visitors in the Joe Graham home this week.

Mable Frazier of Odessa spent the week-end here visiting her sister, Mrs. J. R. Gilmore.

Society Editor On Summer Jaunt.

Allene Curry, Times society editor, left late last week for Dallas, Fort Worth, Waxahachie and other points. She is just summer vacationing—visiting friends and relatives, viewing the Exposition and the Frontier Fiesta, and enjoying freedom from toil for a season.

During Allene's two-week vacation, her typewriter is being managed by Frances E. Jones of Fluvanna, who has an ambition and a flair to become a newspaper woman.

Those who in any way assist the new writer to gather society and personal news will be rendering The Times and its readers an appreciated service.

Frances Stinson Is Duce Club Hostess.

Miss Frances Stinson was hostess at the Thursday evening meeting of Duce Club last week. A course of ice cream and cake was served following the bridge games.

Mrs. R. C. Miller came out victorious with the high score prize, and Mavis Webb won the traveling prize. Following members of the club were present: Ruby Lee, Margaret Deakins, Johannie Mathison, Mrs. R. C. Miller, Mavis Webb, Gwen Gray, Mrs. R. E. Boyer, Bonnie Miller, Mrs. Willard Lewis, and Frances Stinson. Guest for the evening was Evanelle Arnold.

Alta Bowers will be next hostess to the group.

Miss Peggy Curry of San Angelo visited the past week with Allene Curry.

Mrs. R. H. Odum and children returned Wednesday night from Fort Worth, where they have been visiting her brother, Henry Bell.

Mrs. Billie Lee and small daughter, Dawn, are visiting for a week in Corpus Christi with their husband and father, who is buying cotton there.

Mrs. Max Brownfield and children and Mrs. J. W. Scott and son are at Ruidoso, New Mexico, spending a short vacation.

Towle's new shipment of costume jewelry consists of clips, pins, and gold belts, all appropriate with the new fall outfits.

Mr. and Mrs. J. R. Covey are visiting friends and relatives here from their farm home between Fort Worth and Cleburne, Johnson County. He was formerly associated with the Snyder school system.

Wynona Keller, having completed her sixth year at Camp Waldemar, near Kerrville, is to return home this week-end. She is leaving shortly for her second year in The Hockaday School at Dallas.

Mr. and Mrs. Roy Stewart and daughters Helen, Marjorie and Louroy, with Mr. and Mrs. J. C. Conrad of Hotan and Lulline Thomas of Luling, spent the week-end on the Concho River. They report not too many fish, but plenty of fun.

Miss Alma Spears, daughter of Mr. and Mrs. J. O. Spears of Snyder, and formerly a resident of this city, has recently returned from San Francisco, where she is a nurse in a San Francisco hospital.

Wednesday Club Meets at Hill's.

The Wednesday Afternoon Bridge Club met last week in the home of Mrs. W. W. Hill. Practically all of the members were present.

Dorothy Strayhorn emerged high score winner. An interesting afternoon of bridge stimulated the optimism of the Wednesday Bridge Club to a great extent. Directly following the games, the hostess served a salad course to her guests.

Teachers' Council of M. E. Church Meets.

Teachers' council of the children's division of the First Methodist Church met in business sessions last Wednesday afternoon at 4:00 o'clock in the home of Mrs. Homer Snyder, with Mrs. King Sides as assistant hostess. Mrs. J. E. Hardy, superintendent, presided. Plans for promotion were discussed, and the question studied was "What did we gain through the Bible school?"

Refreshments of angel food cake and home-made grape juice were served to the ten members: Meses. J. E. Hardy, superintendent; H. C. Gordon, junior superintendent; King Sides, primary superintendent; Homer Snyder, beginners superintendent; E. D. Curry, cradle roll superintendent; Winnie Winston, Alien Warren, secretary; W. F. Cox, A. M. Curry and W. R. West, teachers.

Mrs. Jean Smith and baby daughter, Pat, are spending several days in Haskell, visiting relatives.

Brent Anderson of Hollywood, California, arrived late Tuesday for a two-week visit with her parents, Mr. and Mrs. E. J. Anderson. The former Snyder girl has a secretarial position with the Bank of America.

Mrs. C. R. Goodnough of Gorman arrived several days ago for an extended visit with her son, D. H. Goodnough, and family.

Miss Dorothy Jean Wilson, daughter of Mr. and Mrs. Ben F. Wilson, is in Amarillo this week, visiting her grandparents.

Why not drop into Towle's during an off moment and see for yourself the splendid values in all that's new in jewelry?

Mr. and Mrs. M. C. Higgins of Las Cruces, New Mexico, are visiting here in the home of Mr. and Mrs. W. W. Hamilton.

Mrs. John A. Roberts and daughters, Margaret Sue and Doris Jane, of Hamlin are visitors in the Joe Graham home this week.

Mable Frazier of Odessa spent the week-end here visiting her sister, Mrs. J. R. Gilmore.

Members of the three circles of the First Baptist Church Missionary Societies met in regular sessions Monday afternoon.

One circle met in the home of Mrs. A. P. Morris, the West Side circle carried their missionary work to the colored section of Snyder, and the East Side circle met in the home of Mrs. Arthur Forkner.

BLEEDING SORE GUMS

LET'S TALK ABOUT CLOTHES

BY A YOUNG MODERN

Since designers realized that the knitting bug administered more than a temporary bite, autumn needles are being directed into bigger and better channels. Novelty and smartness are watchwords in today's knitting circles.

Most outstanding among the yarns presented are the nubby tweeds, which can hardly be distinguished from the woven tweed which has always held the center of the winter suit whirl. One can now get the suavity and grace of a well-fitting knit suit along with the rich colors and texture of British tweed.

Simple awester and skirt combinations now give way before a fashion expert's paradise of two-third body coats, trim jackets with velvet bows, and smart looking three-piece suits. On the dresses, which feature slightly squared shoulders and slightly swing skirts, contrasting stitching is making a bit with girls at Texas State College for Women, Denton. This stitching is used sometimes to outline gored set in the skirts.

One typical suit is in black flecked with bright colors, which incidentally is the favorite mixture this fall. The jacket has four patch pockets and zips up the front. A cape tops the outfit, with full shoulders and plain back, hanging hip length. Other favored colors are bottle and reseda greens, browns, dark blues and rusts.

Dressy knit clothes are being shown in a crepe fine gauge lightweight wool, with crocheted waist and lace collars are in the picture too.

Designers have worked out patterns which guide the knitter stitch by stitch to sure success, so the more complicated designs this season will not be as painful as they sound.

Missionary Society Circles in Meetings.

Members of the three circles of the First Baptist Church Missionary Societies met in regular sessions Monday afternoon.

One circle met in the home of Mrs. A. P. Morris, the West Side circle carried their missionary work to the colored section of Snyder, and the East Side circle met in the home of Mrs. Arthur Forkner.

Louise Gibson Takes Part in School Play.

Miss Louise Gibson, daughter of Mr. and Mrs. G. D. Gibson of Snyder, who has been attending West Texas State Teachers College at Canyon this summer, was selected by the dramatic club of the college to play an important part in the play, "The Dressing of Hamlet," which was presented recently in the college auditorium.

Miss Gibson, who is a primary major, will receive her degree next summer. She plans to teach her second term of school at Boyd Chapel school in Jones County this winter.

Miss Gibson, with another Scurry County girl, Miss Vera Periman, now of Amarillo, will return to Snyder the first part of September.

Morgans Move Here.

Mr. and Mrs. A. M. Morgan moved several days ago from Colorado to Snyder, and are located in the J. C. Whately home in East Snyder. He recently sold his Gem Theatre in Colorado, and has come here to take full charge of his local Gem Theatre.

Mr. and Mrs. J. D. Scott are at Ruidoso, New Mexico, where they are spending their vacation. Mrs. Walter Scott of San Angelo, J. D.'s mother, will probably return to Snyder with them.

Mrs. George W. Polk of Fort Worth is here with her daughter, Mrs. William Fuller, who is a patient in Snyder General Hospital.

Mr. and Mrs. N. G. Bell and Mrs. W. W. Hill left Sunday for the Davis Mountains, where they plan to vacation for about 10 days.

Mrs. E. E. Spears spent last weekend in Gordon, where she visited her parents. She was called back Tuesday to the bedside of her mother, who is seriously ill.

Mr. and Mrs. Horace Leath and children have returned from Alabama, where they visited relatives of the local business man.

Health-Wrecking Functional PAINS

Severe functional pains of menstruation, cramping spells and jangled nerves soon rob a woman of her natural, youthful freshness. PAIN lines in a woman's face too often grow into AGE lines!

Thousands of women have found it helpful to take Cardui. They say it seemed to ease their pains, and they noticed an increase in their appetites and finally a strengthened resistance to the discomfort of monthly periods.

Try Cardui. Of course if it doesn't help you, see your doctor.

Snyder General Hospital

Mrs. Buford Browning of Fluvanna and baby daughter are patients in Snyder General Hospital. The baby, born at 6:34 o'clock Wednesday morning, weighs seven pounds.

Josephine Wagner of Post is a surgical patient of the hospital. Aubrey Huddleston of Snyder is a surgical patient, operated August 17. Mrs. L. W. Miller from Abilene, a surgical patient, underwent an operation last Thursday, August 19. Wayne Pezell of Snyder was operated August 23. Mrs. Forest Huffman, local woman, underwent an operation August 24.

Mrs. C. P. Johnston of Eskota is a medical patient.

Arthur Daude and daughter, Dola Mae, of Killeen, and Mr. and Mrs. Alvin Daude and daughter, Frances, of Copperas Cove are still in the hospital recovering from their tragic automobile accident last week. Mrs. William Fuller is still in the hospital, after an appendix operation week before last. Mrs. J. B. Linecum, who suffered a broken limb as a result of a fall, is still recuperating.

Eva Smith of Snyder, medical patient, went home this week. L. J. Bennett of Colorado, a medical patient, was able to leave this week. Jonell Dean of Post, who was operated August 21 for tonsillitis, returned to her home this week.

Visitors From Kentucky.

Mrs. T. J. Roper was surprised Sunday afternoon with a visit by Misses Lora and Lucile Goodwin, daughters of Fannie Hartigan Goodwin, childhood friend of the local woman. The visitors, who have been teaching in San Antonio schools 18 years, were en route to their work from their home in Walonia, Kentucky, where Mrs. Roper and their mother attended school together.

J. D. Scotts Are Hosts at Bridge.

The Thursday Night Bridge Club met last week in the home of Mr. and Mrs. J. D. Scott. High score prize went to Mrs. Melvin Blackard and G. B. Clark Jr.

Following the bridge games, the hostess served an ice cream course. Members present were: Meses. and Meses. J. P. Strayhorn, Raymond Sims, G. B. Clark Jr., Herman Darby, J. G. Hicks, Wayne Williams, J. P. Nelson and Melvin Blackard.

Mary Ellen Brown On Colorado Program.

Miss Mary Ellen Brown, accomplished acrobat, added another triumph to her list of spectacular performances last Sunday, when she performed at Colorado before the Texas Retail and Credit Men's Association.

Attending the noon banquet with Mary Ellen, and later the program, were Mrs. Hilton Lambert, Mary Ellen's teacher, T. J. Teter, accompanist, and Mr. Lambert.

Mary Ellen's stunts were greeted with enthusiastic applause. The Texas Retail and Credit Men's Association meets annually.

Farm Legislation Present Session Most in History

The session of the Congress which is nearing its close has enacted more major farm legislation than any other session of Congress in the history of the government, according to Marvin Jones of Amarillo, 18th District congressman. He formerly represented Scurry County.

Among the more important enactments are:

- 1.—Extending the operation of the present soil conservation act to 1942.
- 2.—Agricultural marketing agreement act. This probably affects more farm products, in value, than any other measure that has been passed.
- 3.—Farm tenant act.
- 4.—Reduction of interest on land bank loans.
- 5.—Perishable agricultural commodities act.
- 6.—Great Plains drought act.
- 7.—Farm credit act of 1937.
- 8.—Crop loans for 1937.
- 9.—Cotton classification.
- 10.—Provision to destroy grasshoppers.
- 11.—Extension of Commodity Credit Corporation.

"The agricultural production of America is vast and far-reaching," says Jones. "More than 200 different agricultural commodities are produced in this country. The total income from the sale of these commodities is about \$9,500,000,000 per year."

"We are now endeavoring to work out general farm legislation. It is difficult for this to be done in a way that is fair to all sections."

NOBODY'S BUSINESS

By Julian Capers Jr.

Austin.—Two highly controversial special sessions of the 45th Texas Legislature, which will have important effects not only upon the state's financial situation, but also upon the 1938 political campaigns, were seen by observers here as the September 20 date set by Governor Allred for the first session nears. The governor has indicated that he will submit taxation first, and public utility regulation second, and other matters "if there is time for them." There probably won't be any time for these "other matters," because both taxation and utility regulation are expected, as they always have in the past, to stir plenty of time-consuming controversy.

A drive by members of the Legislature, led by a senate investigating committee which has been studying the problem, to balance the budget by lopping off unnecessary expense of state government by eliminating duplicating departments and unnecessary employes, has gained considerable pre-session support among members.

Governor Allred has indicated he will stick to his original tax recommendations—higher natural resources taxes—but the governor's taxation record makes it extremely hazardous to predict in advance just what he may recommend. Best early indications are that the resources folks will oppose bitterly any new taxes, on the ground that they are unnecessary and that a large state deficit acts as a "brake" upon public expenditures; but they will centralize their efforts toward keeping

New Santa Fe Coach "For Women and Children Only"

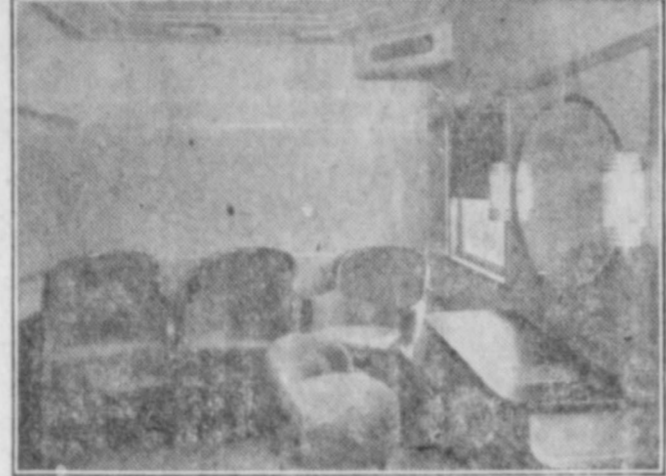

The latest development in new, lightweight stainless steel chair cars now being placed in service on the Santa Fe's Scout — for exclusive use of women and

children passengers. Of the same size as the 80-seat standard chair cars, the new cars are roomier, the seating capacity being limited to only 52 passen-

gers, and air-conditioned and spotlessly clean. A uniformed registered courier-nurse assists mothers traveling with babies and children on this train.

Interior, showing restful reclining chairs, broader windows, individual lights, and new type

baggage racks. In the picture to the right are shown dressing rooms and lounges of the new

chair cars which are comparable in size and decoration to those in pullman cars.

Enrollment Records Set Up at Hermleigh

Hermleigh schools set up a new attendance record for the first week when 294 students registered Monday and Tuesday, says Superintendent W. T. Hanes. With 12 teachers, Hermleigh has the largest school in the county outside of Snyder. One hundred ten of the enrollees are in the high school.

One teacher's place remains to be filled, since Morgan Layfield, elected to handle music, could not leave his place at Littlefield.

Chapman With Jones.

Charlie Jones, who has been operating a service station for some time a block east of the square on 28th Street, announces this week that he has formed a partnership with L. A. Chapman. The firm, which will continue to handle Texaco products, will be known as Jones-Chapman.

New increases in taxes on oil, gas and sulphur as low as possible, with the reasonable expectation that they will get some increases. Some reduction in unwieldy bureaus, centering on old age assistance and the liquor control board, may be achieved, and some of the extremely liberal appropriations voted by the regular session may be trimmed downward, in an effort to balance the budget.

Politics Opens Up.

The special session, of course, will mark the jumpoff of the 1938 political season, with the usual scrambling for advantage which may affect legislation as much as any other factor. Governor Allred has not elaborated upon his third term ambition.

Jim Ferguson has been trying desperately to work up sufficient enthusiasm to nominate his wife for a third term, on a sales tax and pensions for everybody platform.

The McCraw candidacy, which reached its peak ahead of the primaries, appears to have eased off considerably during the past 30 days, while that of Colonel Ernest O. Thompson is slowly gaining headway as his friends have begun active work.

In the attorney general's race, the apparently wide field has narrowed down considerably, with Lieutenant General Walter Woodul, District Judge Yarborough of Austin, and Gerald C. Mann of Dallas all extremely active, and Woodul obviously holding a wide advantage at this early date.

Social Security Question Box

Editors' Note: The Times is publishing a series of questions and answers concerning the federal old-age benefits provision of the Social Security Act. Employers who wish to have further questions answered should write to the Social Security Board office, 1536 Allen Building, Dallas.

Question: Who administers the Social Security Act?

Answer: Various parts of the act are administered by various governmental agencies. The federal old-age benefits portion of the act is administered entirely by the Social Security board and its federal old-age benefits field offices. These offices assist the public by supplying general information about the act, aid employers and employees with account number problems, and receive applications for claims for old-age benefits.

Taxes under the Social Security Act are collected by the bureau of internal revenue. In Texas, contributions for unemployment compensation are collected from employers of eight or more by the Texas Unemployment Compensation Commission. Employers may credit against the tax required under Title IX of the Social Security Act their contributions to the state unemployment compensation fund, up to 90 per cent of the federal tax.

All other parts of the act, such as old-age assistance, aid to the blind, aid to dependent children, child health and welfare service, and vocational rehabilitation are administered directly by the several state agencies in Texas which work

in cooperation with the Social Security board and other federal government agencies in Washington, D. C.

Question: Is it necessary for an employee to have his account number card with him at all times or should the employer keep it?

Answer: The employer should make a record of the employee's account number, but in no case should the employer keep the account number card of the employee. Employers holding cards of their ex-employees should try to find these workers and return their cards to them. If employers are unable to return such cards, they should be forwarded to the nearest field office of the Social Security board.

It is not necessary that the employee keep his account number card with him at all times. After he tells his employer his number, he should then place the card in a safe place and in addition should make a record of his number in case the card is lost. An employee should have only one number all his lifetime and need not apply for a new card if he changes employers. If he loses his card, he may apply to the nearest field office of the Social Security board for a duplicate, but in no case should he make application for another card until instructed to do so.

"Propaganda" is an unpleasant cold-blooded word; it has a cynical bought-and-paid-for sound.—J. B. Priestley.

Garden Success Formula for Fall Given by Expert

"Fresh vegetables, as supplied by fall gardens, are necessary to supply variety in the fall and winter diet," says J. F. Rosborough, horticulturist of the Texas Extension Service, who gives a series of suggestions which will make the fall garden more successful.

Rosborough divides vegetables into three groups on a basis of maturity. South Texas gardens may contain all three groups, early, medium and slow maturing plants. Central and North Texas gardens may carry the medium and early maturing plants. Only the early group can reasonably be expected to mature in the Panhandle and Plains section.

Included in the early group, which can reasonably be expected to mature here, are mustard, radishes, turnips, leafy lettuce, and similar vegetables which will be ready for harvest in around 45 days. The medium group is made up of Irish potatoes, beets, onions from sets, Swiss chard, collards and the like, which will mature in 60 to 70 days. The slow maturing group includes spinach, cabbage, carrots, beans and similar types, which require about 100 days to reach maturity.

Summer weeds should be cut and removed from the garden site, Rosborough said, as they will dry out the soil through heat generated by decay. From three to four wagon loads of well rotted manure per half acre of garden will hold moisture and help growth.

Rosborough warned that fall gardens should not be planted until rains had provided plentiful subsoil moisture. To insure a fair stand of fall vegetables under favorable fall conditions, fall sown seed should be planted at a much thicker rate than is necessary in the spring.

Church-Going Texans.

With the highest percentage of church-goers per capita of any state in the nation, Texas claims 2,380,365 church members. There are 63 denominations in the state and 15,062 churches, according to the U. S. religious census in 1926. Leading denominations are the Baptist, Roman Catholic and Methodist.

Fisher Farmers in Silo Demonstration

Approximately 100 farmers of Fisher County attended the trench silo demonstration on Tom H. Parker's place two miles east of Roby Monday, August 16, sponsored by County Agent T. H. Roensch.

The trench, which held approximately 50 tons, was only half filled with cane, which was cut by a Letz mill, demonstrated by Lon Adams, a representative of Bryant-Link Company of Rotan. The mill cut the feed at a rate of 12 to 15 tons per hour. Parker plans to fill the other half at a later date when the feed is ready.

Roensch said the pleasing thing of the whole demonstration was that many of the farmers attending the demonstration are planning to dig and fill trench silos, as they expressed themselves as being satisfied the silo idea a good one.

A freight train 200 miles long would be required to transport material required in building of the 1939 Golden Gate International Exposition.

AMENDMENTS FORGOTTEN BY MOST OF AREA

Scurry County Votes for Three and Against Three Proposals in Light Balloting

Most of Scurry County's thin parcel of eligible voters evidently forgot that Monday was election day, and that their ballots at that time might decide the fate of six proposed amendments to the state constitution.

Fifty-Fifty Ballot.

Returns from 20 out of the county's 23 boxes indicate that Scurry was for three proposals, against three.

Amendments proposing bank stock liability, tax discounts, and aid for the blind were accepted by county folks who decided to cast their ballots.

Aid for indigent children, return to the fee system, and the Harris County road plan were defeated.

In the state as a whole, all amendments were approved except the proposal to return to the fee system in many counties. Scurry County is not affected in either case by this proposal.

Fee System Knocked.

If Scurry County had decided, the fee system return proposal would have been knocked higher than a kite. The vote was 109 for, 142 against.

Heartiest approval was given proposed aid for the blind, 146 for, 129 against.

Other returns follow: Bank, 140 for, 123 against; children's aid, 124 for, 147 against; Harris County, 109 for, 142 against; taxes, 136 for, 135 against.

The three outstanding boxes are Cottonwood, Blanton and Lone Wolf. Combined, they would probably not bring the total vote for any amendment beyond 300.

Early returns, from five boxes only, revealed that Scurry approved only the tax amendment.

Marcel Josephson was in Colorado last Sunday, visiting relatives.

Miss Fay Nell Speers is in Austin, where she is enjoying a two-week visit.

"I never feed tramps," the housewife informed Weary Willie.

"I ain't askin' yer to, lady," he replied. "Just gimme the grub an' I'll feed myself."

Son—"Did you go to Sunday school every Sunday when you were my age, Dad?"

O'Jawish—"Of course I did, my boy. That's why I want you to be a good boy and go every Sunday."

Son—"Aw, gee, Dad, I'll bet it won't do me any good either."

Peck—"I took first prize at school today, Dad."

Pa Popples—"Did you? Where is it?"

Peck—"Teacher saw me and I had to put it back."

With a pair of skates slung over her arm a young woman entered the crowded street car. A man rose to give her his seat.

"Thank you," she said, "but I have been skating all afternoon."

Jock—"You still take your morning bath, I suppose?"

Bill—"Never miss it. Sometimes I take it hot, sometimes cold, and when I'm in a hurry I take it for granted."

"Daddy, do they raise political plums from seeds?"

"No; political plums are sometimes the result of a clever bit of grafting."

Park Policeman—"Hey you, don't wash your clothes in that reservoir. Don't you know that people have to drink that water?"

Hobo—"That's all right, officer, I ain't usin' soap."

Mr. Tyle—"My dear, I told you that we simply have to economize, and here you are wearing a new fur coat."

Mrs. T.—"I know, honey, but I have put mothballs in all the pockets so everyone will think it's an old one."

Belle—"How silly men are when they propose. Why, my husband acted like a fool."

Nell—"That's just what everybody thought."

Uncle Jim Says

"There won't be much left for the children if land keeps disappearing as fast as it does now on some farms."

It is estimated by M. R. Bentley, agricultural engineer of the Texas Extension Service, that 75 per cent of the cultivated hilly land of Texas slopes two and one-half feet or more per 100 feet and is subject to erosion; 60 per cent of the total area is subject to erosion.

In the entire United States, 100 million acres have been damaged by erosion; 35 million acres have been abandoned. It is estimated that the total annual loss to farms is not less than two billion dollars.

Texas farmers have terraced and contoured more than 12 million acres of land since 1916. Reports from county agricultural agents indicate that even more land will be terraced and contoured this year than in 1936, when more than two million Texas acres were protected against loss of soil and rainfall.

The agricultural conservation program carried provisions for benefit payments which help farmers by refunding part of the cost of terracing their farms. County agricultural agents can give details of the program as it affects individual farms.

Uncle Jim Says

"Terraces are one way to keep good land where it belongs."

Texas farmers have long realized the need for constructing terraces to prevent erosion. As early as 1882, Duke Howell, Newton County farmer, terraced part of his field.

By 1916, officials of the Extension Service realized that agricultural conservation must be one of the principal jobs of the organization. A long time soil and water conservation program was started which resulted in Texas farmers, through the supervision of county agricultural agents, terracing a total of more than 10 million acres in the next 20-year period.

During 1936, when the agricultural conservation program carried provisions for partially reimbursing farmers for the expense of building terraces, Texas broke all terracing records by terracing and contouring 3,976,244 acres, of which 2,338,418 acres were treated under the direction and supervision of county agricultural agents.

County road machinery was used by commissioners' courtes to aid in the terracing work in 170 counties and 356,794 acres were protected against soil losses through this medium.

With the 1937 agricultural conservation program again carrying provisions for aid in the terracing program, Texas farmers are terracing more land than ever before.

Senator Collie Will Present Series of State Crime Bills

Senator Wilbourne B. Collie of Eastland, who represents the 24th District, of which Scurry County is a member, is preparing a series of bills for introduction in Texas, to harmonize Texas activities with those of other states.

Four bills of the uniform series on crime, designed for a working interrelation of law agencies of adjoining states, will be offered, Senator Collie said.

The crime commission is part of the national council of state governments, on which Texas has been represented for four years by Senator Ben G. Oneal of Wichita Falls, and for two years by a house committee.

Senator Collie said the bills now being shaped for Texas submission include:

A uniform code on extradition of accused persons from one state to another.

A system of providing for out-of-state witnesses in each state in criminal cases.

Parole system, including the return of parole violators from other states.

A system for the pursuit of criminals across state lines.

A compact of neighbor states, such as to permit officers of one to carry on and assist the pursuit of criminals crossing into another supplementing the series of uniform laws will be sought, Senator Collie said. The compacts between states, like the existing oil states treaty, will require approval of Congress.

Mr. and Mrs. Bernard Longbotham, accompanied by their daughter, Geraldine Longbotham of Abilene, returned recently from a trip covering several points of interest in Texas. While gone they took in Texas City, Galveston, Teague, San Antonio and Austin.

Mr. and Mrs. W. W. Nelson Jr. of San Angelo spent the week-end here, visiting Mrs. W. W. Nelson of Snyder. Their son remained here, and will visit until the school which he attends in Los Angeles, California, begins its year's work.

Mr. and Mrs. Erton Tate are visiting their families and friends from Lubbock, where the former Scurry County man will teach political science in the high school this year. He has been attending Texas Tech during the summer term.

Guests in the Ixon Joyce home are Mr. and Mrs. Speck Caswell of Spanish Fort and Miss Lillian Pratt of Sweetwater. Mrs. Caswell and Miss Pratt are Mrs. Joyce's sisters. The local woman's father, Luther Pratt of Lamesa, is also her guest.

Miss Myrtle Woodfin, daughter of Mr. and Mrs. J. A. Woodfin, will visit at home until the school term begins September 6 at Littlefield, where she teaches. She has been attending summer classes at Texas Tech.

Mr. and Mrs. Marshall Higgins of Las Cruces, New Mexico, are visiting friends here this week. Their daughter remained at De Leon for a visit with Higgins' mother, Mrs. A. W. Waddell.

Mrs. A. J. Young of Coleman was here Sunday, visiting Mr. and Mrs. J. E. Falls.

Guy Eiland of Stanton has been in Snyder the past few days visiting relatives.

Turner News

Mildred Bates, Correspondent
T. M. Scott of Yuma, Arizona, has been visiting Mr. and Mrs. L. M. Irion and children.

Who Buys Farm Products?

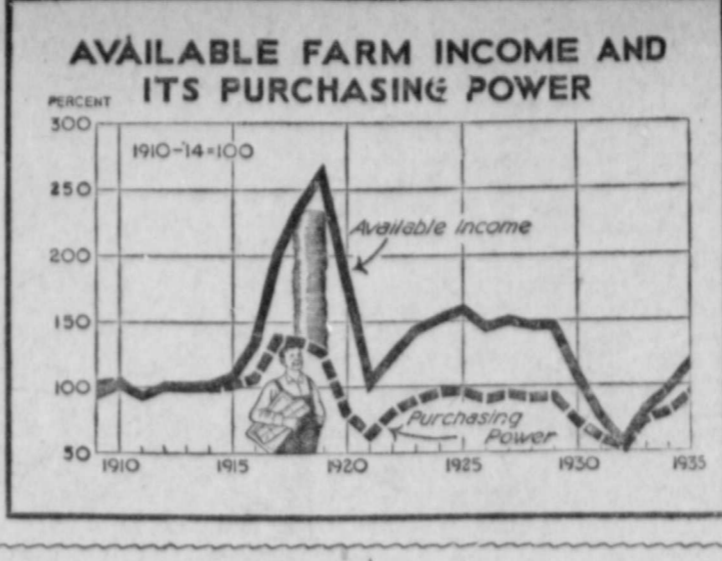

A recent study of agricultural income by the federal trade commission revealed many interesting facts relating to the handling of many leading farm products.

Large marketing concerns buy more than 50 per cent of the U. S. production, total milk purchased by a dozen large dairy firms is only about 10 per cent of the country's annual 47 billion quart "crop."

Lloyd Mountain

Erdice L. Reynolds, Correspondent
Thurman Allen and wife spent Saturday night and Sunday with her parents, the John Morrays of Snyder.

Bell News

Mrs. Will Caffey, Correspondent
Our community received a fine rain Friday afternoon. The rainfall over the community measured from an inch and one-half to three inches.

Lone Star News

Mrs. E. N. Smiley, Correspondent
Our revival meeting closed Sunday, with good attendance all the week. There were five convocations, with two additions to the church.

Big Sulphur News

Ann Mahoney, Correspondent

This community was proud to see the nice rain. The crops are all beginning to look better now. Those visiting in the C. B. Short home Sunday were: Mr. Short's mother, Mrs. Short of Trenton, Mrs. Beulah Grimes and son, Charles, and Mrs. Gertrude Short, all of Austin, and Mr. and Mrs. Odell Campbell and little daughter, Shirley Ann.

Pleasant Ridge

Anna Ruth Wells, Correspondent

Mr. and Mrs. Cleve Forbus spent Sunday with friends and relatives of South Champlain. Those visiting Mrs. T. H. Prescott Sunday were: Misses Verla Mae Green, Juanice Faulkenberry, Mrs. H. Wells and children, Calvin and Melvina Forbus.

The Baptist meeting closed at Ira Sunday night. Eight were baptized Sunday afternoon at the Giddens tank. Our school opened Monday morning. Four buses are running this year, and all are full.

Our sympathy goes out to Mrs. Wayne Eubanks and her mother and family, in the loss of their father and husband. May God's richest blessings comfort you in this sad hour.

Our school opened Monday morning of this week, with every teacher and pupil in their places. We are looking forward to the best school year we have ever had.

We welcome into our community the following new people: Mr. and Mrs. E. W. Baldwin, Mr. and Mrs. Earl Horton and Miss Thelma Payne. Miss Payne will keep house for Mrs. Elmer Taylor.

Mr. and Mrs. Frank Bryant of Wink had the misfortune of having a car wreck while coming here Saturday night. Only a few minor cuts and bruises were received, but a badly smashed up car. Frances Bryant and Eugenia Fae Carille were also with them.

Mr. and Mrs. Wiley Eubanks brought Quam and Ralph Bryant home and visited with their parents, Mr. and Mrs. M. J. Bryant and Mr. and Mrs. L. E. Eubanks. Mr. Eubanks returned home with them for an extended visit.

We are sorry to report T. F. Bryce in a critical condition with his eyes. He has been under treatment of doctors several days. Butler Barnett took him to Lubbock first of the week to an eye specialist.

Mr. and Mrs. M. J. Sims and children of Happy spent last week with their parents, Mr. and Mrs. W. R. Sterling. W. R. Jr. returned home with them for a week's visit.

Mr. and Mrs. Ellis House of Tahoka spent part of last week with their parents, Mr. and Mrs. E. E. House and Mr. and Mrs. J. P. Jordan.

Mr. and Mrs. Fred Price and son, J. B., of California are here on an extended visit with relatives. Mrs. R. J. Reynolds of South Texas is here on an extended visit with her son, Toss Newman, and family.

Mrs. A. J. Young of Burkett is here for an extended visit with her parents, Mr. and Mrs. J. E. Falls. Mr. and Mrs. T. J. Clark of Pecos are entertaining a new baby boy.

The little man has been named Charles Glynn. Mr. and Mrs. Clark were former residents of this place. Mrs. Will Clark and daughters returned Saturday from an extended visit with their son and brother, T. J. Clark of Pecos.

The P.-T. A. met Monday, August 23, with 20 mothers and two visitors present. They planned a social for Thursday night.

Mr. and Mrs. Seward Lloyd and son of Big Spring are here visiting their parents, Mr. and Mrs. M. L. Lloyd.

Mr. and Mrs. T. C. Davenport were called to the bedside of his niece, Mrs. Lincicum, who had the misfortune of breaking her leg. She is reported much better.

We are glad to report Mrs. Madge Holley is improving. Mrs. A. L. Barnett and Harold Barnett returned Saturday from a visit with their daughter and aunt, Mrs. Clara Newman of Big Spring.

The W. M. S. ladies of the Baptist church met Monday, August 23, in regular session. There were 20 ladies present and enjoyed a good program. The musical in the Roy Chapman home Monday night was enjoyed by a large crowd.

Mrs. Lois Kruse was called to the bedside of her sister, Mrs. Dowden DeLoach, last Sunday. She returned Wednesday, reporting Mrs. DeLoach some better.

Mr. and Mrs. Madra Burrow of Round Top attended church here Sunday and visited Mrs. Andy McWilliams.

Mr. and Mrs. Roy Hargroves of Rotan visited with Mr. and Mrs. David Williams and son, Dave, Sunday. Opening date of the Hobbs school is indefinite.

Mr. and Mrs. S. T. Minor and Mr. and Mrs. Clyde Black and son of New Mexico are visiting in this community. Herman and Velford Lipham and Preston Horton have returned home from El Paso, after several weeks work there.

Mr. Harrison and family had relatives from Fort Worth visiting with them. Two men from Rotan were in a wreck about one-half mile east of the Fisher and Scurry County line Wednesday evening. One of the men is in a Sweetwater hospital.

Milton Joyce of Snyder is visiting with Mr. and Mrs. Wilmet Wade and daughter.

Mr. and Mrs. Howard Hogue of Brownfield were week-end visitors in the Marvin Lemons home. Mrs. Ruth Greenfield of Dermott was hostess to the Dermott-Martin Club last Wednesday. The day was spent in quilting her friendship quilt, which was pieced by each member. A lunch was served at the noon hour. Nine members and one guest, Grandmother Scriver, attended the meeting. The club will meet with Mrs. Allen Stephens on Wednesday afternoon, September 1.

The farmers are all very thankful for the rain that this community has received. The crops were all badly in need of rain. Jerry Slovacsek of Snyder spent Sunday night with Donald Armstrong.

Mr. and Mrs. Marvin Lemons were Colorado visitors last week. Mr. and Mrs. Arthur G. Smith of Fort Worth visited in the Allen Armstrong home last week.

Punch: "A little novel which once picked up, cannot be laid down," runs a publisher's advertisement. This will be at all events a change from those 900-page ones which once laid down can hardly be picked up.

LETTER OF CONDOLENCE May I take the liberty in expressing our deep sympathy, as pastor of the Zion Baptist Church, toward Mrs. C. C. Tate and children? We the church do take this means of extending our most heartfelt sympathy in so great a loss and with our grief of such a loss. We share with this good family in their deep sorrow. No more will one ever be missed in a home, in community and in church activities than the going away of Bro. C. C. Tate, who was one of the most faithful deacons and Sunday school superintendents that served in the most efficient way. The writer having been closely associated with this man for four years, we know of no one whose life to be more noble in citizenship, in the circle of Christian religion, and as a homemaker than this man was.—The Zion Baptist Church, R. E. Bratton. 1tp

CARD OF THANKS We wish to express our heartfelt thanks to each and every one, in all the words and deeds of kindness, that were shown us in the death of our little son and brother, Lynn. Especially do we thank Mrs. Cravely, the night nurse, and Mrs. and Mrs. W. A. Perry, May God's richest blessings rest on you all.—Mr. and Mrs. R. N. Flowers and Joe Bob. 1tp

CARD OF THANKS We wish to express our sincere thanks and appreciation for the many acts of kindness and words of comfort during our sad hours. The floral offerings were beautiful, and made our sorrow much easier to bear.—Mrs. J. L. Bowen and children, W. A. Bowen. 1tp

Rodeo and Fair.

The Times has been writing editorials for several years on the need for a good fair in Scurry County. We pulled for a good rodeo, too, but that idea had just about cooled off because recent rodeos here have not been too satisfactory.

But it turns out that strong groups are behind a rodeo and a fair—separate events, but events working together to bring folks to Snyder for plenty of cheap entertainment and helpfulness.

Coming at least a month apart, the two attractions will be mutually helpful. If they were staged together, it is probable that neither would be very successful. As it is, both promise to be entirely worth while.

Broadly speaking, the rodeo is a typical "cow country" event, but it attracts people in all walks of life. The fair is primarily a farm event, but it appeals to all sorts of folks.

Congratulations to the sponsors of the two events. And more power to the men whose resourcefulness and energy are beginning to get the rodeo and fair jobs done!

Who's a Sucker?

If the Chamber of Commerce wants to do a good job that will not be forgotten by most Snyderites, let the organization name a secret committee to investigate every peddler who comes to town. Not that all peddlers are bad. Some of them should be allowed to operate in the town. But if the merchants and housewives would band themselves together and decide not to patronize any peddlers who are not recommended by such a committee, we would save ourselves plenty of money and grief this promising fall and winter.

No Read, No Hear.

Pessimism Pete has decided most of the town's bicycle riders, male and female, do not read The Times and have not ears to hear the warnings of local officers concerning riding at night without lights—and obeying traffic laws night and day. Wouldn't it be a frightful climax to these warnings if a fatal accident were required to wake folks up to the danger of careless bicycle riding?

Ho Hum! Again.

Ho hum! And a couple of so whats. Governor Allred has sent some members of the safety department up to Dallas to help clear up a situation with which the Dallas County officials evidently did not have the intestinal fortitude to cope. Complaints of Dallas officials to the contrary notwithstanding, Dallas is getting to be a rotten hole, along with Houston and some of the other Texas cities with growing pains. Just another penalty for getting big in a hurry.

Scurry Swats 'Em.

Scurry County did not follow the state in accepting most of the six amendments that were submitted in Monday's election. And we'll lay a wager that if the voting had been held on Saturday instead of Monday, at least one or two more amendments would have been defeated in the state. Legislators did not set the voting for Monday instead of Saturday as a so-called "experiment." They set it Monday because they knew the farm vote, which does not believe too strongly in amendments, would not turn out very heavy.

Procrastination.

"The man who said procrastination is the thief of time made an understatement. Procrastination is a confirmed criminal. He steals opportunity and character, as well as time. He makes hope fade, he dulls enthusiasm, and he dissipates energy."—Anon.

No Idleness.

David Porter was kidnapped in early boyhood and subjected to virtual slavery, finally becoming a chimney-sweeper in Yorkshire, England. But he was a boy of great energy, tact and perseverance, and at the age of 18 was able to set himself up in a small business. When wealth came, Porter did not forget the abject conditions in the world of chimney-sweepers, but freely employed both his money and his influence to better their situation. When asked the secret of his success, Porter answered, "I have succeeded by never having an idle hour or an idle guinea."

Courtesy.

"Courtesy is love in trifles, and where love is not, though its counterfeit may abound, courtesy itself is not. Let us, then, think no more of courtesy as a trifle; rather, let us believe that its true place is with the great forces of character that ennoble the world."—George Jackson.

Crop Control.

Crop control has its disadvantages and objectionable features, particularly if it should be administered on a political instead of an economic basis, as is always a tendency. But unless the farmer is willing to protect, by some reasonable stabilization of production, the security on which he is asking an advance, there is little reason for the government to make the loan. The same reasoning, of course, applies to grain growers as well as cotton growers.—Exchange.

Hammers and Paint.

Take a casual stroll around the Snyder square, observe from store to store how hammers and paint are taking the day.

At least twice as much remodeling, repairing and painting has been done within the past three months than has been done during the same time in any recent year.

Community pride takes a hop when prospects for a good crop at a fair price are in the offing. Snyder has never taken on that "raty" look of so many smaller cities, even during the depth of the depression. But certainly she was getting to the point where hammers and paint were needed.

It's a good omen, this hammers and paint business. It has spread into home building and home repairing, too . . . and that is an even better sign of good things ahead.

Current Comment.

By LEON GUINN.

Advance field reports from West Texas singing classes indicate the Four County Convention at Snyder September 11 and 12 will draw not only the good singers from far and near, but listening visitors as well. . . . The singers' creed just now is "On to Snyder," and we believe that is one of the best creeds conventioners could adopt.

Snyder, thanks to her enterprising citizens, will extend the welcome royal to visitors, for visiting singers really do appreciate it when they are warmly welcomed at a convention. It's a mighty good idea to adopt the slogan of "On to Snyder," for everyone that loves good gospel singing, or Christian association with others, or good people, will be found at Snyder for the Four County Convention.

Let's make it "On to Snyder" for every singing class in this and adjoining counties, for nothing makes a singing convention more successful than 100 per cent cooperation. . . . The critic has his say about singing conventions because he doesn't attend them; doesn't know what good singing is when he hears it—and since he doesn't know feels free to pass judgment on the people who do sing. . . . Let's make it "On to Snyder" so whole heartedly that visitors, experiencing that famous Snyder hospitality, will be proud to make Scurry County their visiting headquarters!

The Rotan oil boom is extending its acre leasing fingers into Scurry County as a result of recent activities looking forward to extension of the Rotan pool. . . . Most of the lease money that is finding its way into Scurry County pocketbooks will go to pay taxes, debts and grocery bills. . . . The average person soon realizes this lease money is the safest angle of the game, for speculation and wildcatting is a hard game to play—even for the veterans of the oil business.

Over at Rotan the ruffraff of humanity is already becoming a problem; in fact, this array of gamblers, crooks, wild women and roughnecks is found in every newly opened oil field. . . . The Good Master placed petroleum in the earth's bosom as a blessing to mankind; yet the gutter rats of the earth who make the rounds of new fields are as a blighting curse. . . . Rotan officials have their hands full; and if Rotan doesn't become a Breckenridge, Ranger or Borger it will be due to tried and true officers and "laws."

We wrote last week on mechanical cotton pickers. We find one of the most scientific approaches to this age-old problem of harvest has been made by Charles H. White, an Illinois inventor. . . . His patented mechanical cotton picker utilizes an electric eye that selects only full ripe bolls to pick. . . . Reflected light from white cotton falls on a super-sensitive photoelectric cell which controls the picking "fingers." . . . And since partly green bolls fail to activate the electric eye, only fully opened bolls are touched.

It is only reasonable to see the point in this development. . . . For if mechanical pickers are ever to bring the machine age revolution in cotton picking farseeing prophets foresee, it is imperative the robot picker have a mechanical "brain" that will allow only ripe bolls to be picked. . . . Despite widely circulated advertisements, the mechanical cotton picker has a long way to go before mechanical perfection is reached.

The Department of Commerce reports a rather unfavorable trade balance for the first half of 1937, since our exports increased only 23 per cent over the same period last year, while imports increased 28 per cent. . . . The difference amounts to \$147,321,000 in adverse trade balance; which means industry loses about \$400,000,000 in new trade and manufacturing. While our trade balances can't be favorable to the U. S. every month, a few months like the first half of 1937 can only mean more unemployed to worry over in America. . . . Shrewd industrialists see a favorable trade balance as the key to more employed on the public payrolls.

When President Roosevelt last week signed the appropriation bill for a federal cancer institute, with \$750,000 provided for construction and \$700,000 provided annually (for research), he could well be gladened with the news this will make the United States the world's greatest spender in the drive against cancer. . . . Congressmen brain fathers to the bill were: Homer Bone, Warren Magnuson, Alfred Bulwinkle, and our Texas Maury Maverick. . . . Starling W. Childs has given Yale \$10,000,000 as a gift to fight cancer. . . . This gift will provide \$400,000 a year interest income. . . . That, plus the federal appropriation, will make \$1,100,000 available yearly for research.

Canyon News

Luella Layne, Correspondent

This community received a nice rain last week. It was greatly appreciated.

Miss Geraldine Shackelford of Black spent last week with her aunt, Mrs. J. W. Layne.

Mr. and Mrs. Edwin Goolsby and little daughter, Newanna, visited with Mr. and Mrs. Cloyce Pierce Sunday afternoon.

Mrs. Ross Beeman accompanied her daughter, Nadean, to Dallas last Thursday, where Nadean will receive treatment. Mrs. Beeman returned Saturday.

Mr. and Mrs. J. S. Golden spent from Wednesday until Friday visiting relatives at Ralls. Mr. and Mrs. John Birdwell and children returned with them for a few days' visit.

Mr. and Mrs. Carlos Kirkbrough of Amherst and Mr. and Mrs. Ker- Leon, of Muleshoe spent the weekend in the J. W. Layne home.

Mr. and Mrs. Sam West and children and Mr. and Mrs. Calvin West, all of Dunn, visited with Mr. and Mrs. G. B. West Thursday evening.

Mr. and Mrs. Lowell Martin and little daughter, Patsy, of Odessa are visiting a few days with relatives here.

Fred Crumley spent last week with his brother, H. E. Crumley, and family.

Mr. and Mrs. R. T. Pippin and little daughter, Marilyn Rae, of Arah spent Sunday with her parents, Mr. and Mrs. T. C. Morrow.

Miss Doris Grant spent last week visiting friends in East Texas.

There will be no church here this week-end, as the preaching date has been changed until the first Saturday and Sunday.

Mr. and Mrs. L. D. Coleman and children and Mrs. Jo Ann Brake of Slaton spent the week-end with relatives here.

Mrs. L. R. Coleman and daughters, Beatrice and Marvorie, of San Angelo are visiting relatives here.

Mr. and Mrs. D. I. Rhodes spent Saturday night with their son, Charlie Rhodes, and family of Snyder.

Mr. and Mrs. S. E. McCowen and children spent last week in Louisiana.

Mrs. Florence Gilvin of Fort Worth spent last week with her brother, Lynn Henderson, and with friends.

W. J. Strickland and son and daughter, Fulton and Lora, are spending part of the week with Mrs. Jim Cade of Rotan.

Mr. and Mrs. Clarence Williamson are the proud parents of a baby boy, Morris Wayne, who arrived last Thursday night.

A Snaky Texas Story.
Down in the Valley is located probably the largest snake ranch in the world. "Snakeville" is operated by W. S. "Snake" King, one of the foremost collectors of reptiles in the United States. He supplies large museums and parks both here and in foreign countries with rare specimens. Most of his pets come from Mexico. He sells them by the pound, the price varying according to rarity and condition. In his lifetime he has handled nearly 300,000 snakes.

New Showcard Colors.
The Times is headquarters for showcard colors. Every bottle guaranteed. Brilliant colors. Plenty of paste instead of water. Fourteen colors from which to choose. Prompt delivery if you phone 47.

Troy (N. Y.) Record: A bill has been introduced in Congress to permit the mailing of manuscripts as third-class matter. And even this classification would be highly flattering to most of them.

Steel Filing Cabinets
The Times can supply your needs in Filing and Office Equipment. Let us discuss your filing problems with you.

4-Drawer Letter File \$14.50
All Steel Construction, with Easy Sliding Drawers.

27-Drawer All Purpose File \$15
Drawers 9 x 12 x 4 inches. Has 100 uses. Guides on front.

Letters from the People

Our Readers Speak

Editors, The Scurry County Times:

In your issue of July 22 there appeared in your paper an article written to The Dallas News by D. P. Yoder. It is not clear to me just how come it in your paper. I imagine that when that great paper, The Dallas News, in its abundant liberality, printed it that Mr. Yoder stuck the paper down in his hip pocket and made a bee-line to your office to also impose his drivel on a long suffering public. I don't want to believe that the editors of The Times would read The Dallas News with the many splendid things in it, discard them all, and then print a mess like that.

I am not, as a good citizen that believes in the right thing, the honest thing and a square deal and of course therefore the New Deal, letting it pass. I shall therefore make some observations on his article.

His first wall is prohibition. I am this kind of a prohibitionist in my home. I don't drink in my community, in Scurry County, in Texas, in the U. S. In fact, I would like to see the world with a prohibition fence around it and a sober people inside. Who was the father of prohibition? Was Herding? He was a United States senator at the time. Was old Hastings of Delaware? Was Andrew Mellon? No, it was none of these, but Morris Sheppard of Texas—a Democrat. And for eight years prohibition was as popular as any part of our Constitution until Hoover was elected president, and it was blackened and ruined like every other good institution in this country. After it had been made a farce by the Hoover administration, the people, not Roosevelt, repealed it.

Now in regard to the president serving liquor in the White House. The president's parties are made up of Democrats, the Supreme Court and rock-ribbed prohibition Republicans, and when it is of the last named boys, if you don't serve them hard liquor they won't come back any more.

Now Yoder says Roosevelt closed the banks without any authority of law. At the time he did that no person that had any intelligence at all said a word, for the banks were closing daily and they were crying,

"Save us, save us, or we perish!" I don't suspect there is any law to justify me in taking my ax and going to my neighbor's and chopping the door down, but if his house was on fire and he and his family trapped within I would do it and rescue him and say to hell with the law.

What about the banks now? They are on the surest footing they have ever been in the history of the nation and again the first time in the history of the country that an ordinary man ever had a look-in. Before this administration when an average citizen put money in a bank you got a little piece of paper showing they owed it. You had no assurance you would ever see it again, and many times you never did. But now the government guarantees your deposit, and also the government makes regular inspections so the banker cannot loan himself a lot of the depositors' money and never pay it back. Two-thirds of the banks that ever busted were stolen out from the inside.

Mr. Yoder says hundreds of thousands of voters were bought. Well, let us see about that. In the first place, I don't suppose that it was bought, but if I wanted to buy 25 cents worth of fence staples I would go to Lyman Wren's Hardware, and if I wanted a pair of socks I would go to a dry goods at re. If, therefore, I wanted to buy votes I would go to the Republicans. The Democrats are not for sale. But Bro. Yoder didn't mean it that way.

What he meant was the poor man with a wife and some babies was starving and the administration gave him work on a road somewhere and kept his wife and babies from starving, and the man had gratitude and principle enough to vote for him the last election.

I will admit some of the projects were of very doubtful importance, like that bridge west of Bro. Yoder's

place of business. Of course Roosevelt expected all the people to help in selecting these projects and if they deceived him, then cussed his administration afterwards, it cannot be helped.

This brings me to John Lewis. I hold no brief for the defense of Lewis. In fact, I don't think the old boy needs me or Bro. Yoder to defend him. He seems to be able to take care of himself. When he had his round with General Motors (the Chevrolet is one of its products; Bro. Yoder sells Chevrolets now, but he didn't during Hoover's time, nobody was able to buy), Albert Sloan announced he wouldn't even talk to the union. Four things Lewis asked for: Collective bargaining, more pay, safer working conditions, and shorter hours, and no human can name one thing he asked for that wasn't right. I think about all there is in the matter with John Lewis is that he wins some of his strikes.

Now that brings me to the Supreme Court. In the first place, I think they are just ordinary human beings, some of them very ordinary. In the next election that will be in my opinion the leading issue. No Democrat will fail to receive nomination in the primary because he was in favor of unpacking the Supreme Court.

Now let me close by this fair statement: Through three elections the people by increasing majorities

Polar News

Mrs. H. Randolph, Correspondent

This community was blessed with several good rains over the week-end. Some cotton is ready to pick.

Mr. and Mrs. Alvis Newson and children and Grace and Amos Newson returned to their home near O'Donnell Saturday. They were accompanied by Ernest Lee Newson.

Mr. and Mrs. Cecil Butts and children of San Angelo are visiting in the R. C. Hoyle home.

Elmer Davis and Bill Huckabee of the Plains visited friends and relatives here last week. Mrs. Reid accompanied Mr. Huckabee back to his home.

Mrs. Alma Surratt of Jayton is visiting Mrs. Lizzie Ford.

Mr. and Mrs. Clint Sellars spent last week in Rotan with Mr. and Mrs. Horace Crumley. The Crumleys accompanied the Sellars home Saturday and visited in the R. T. Ramage home.

Any news sent to this correspondent will be appreciated.

have said they wanted the New Deal. Therefore, regardless of what you may believe or what I may believe, it ought to be tried.
