Members of Cisco High School senior class were "passing the bucket" to motorists in Cisco Monday. They were raising funds for Project Graduation. And they raised \$500 Monday. The seniors expressed their appreciation to everyone who gave to the Project Graduation fund.

Cisco Softball Association is selling candy as a fund raiser. The candy is delicious chocolate and contains lots of roasted almonds. It sells for only \$1 a bar. When you see a member of the softball association, buy some candy-- buy several bars!

Looking for a super graduation gift? The book store at Cisco Junior College has lots of t-shirts with the CJC logo, and several other

items that would make ideal gifts, according to Bettye McGinness, book store manager. Why not check it out?

Doesn't Lake Cisco look wonderful? Boat docks that haven't been in water for a long time are now floating. Several boaters were out over the weekend taking advantage of the lake and the beautiful weather.

Hospital Auxiliary To Meet Monday

The board of E.G. Graham Memorial Hospital Auxiliary will meet at 2 p.m. Monday, May 14, in the hospital's conference room, according to a report.

All board members are urged to attend.

H-SU Basketball Camp Scheduled

The Hardin-Simmons University Big Country basketball camp is ready to roll for the week June 4 through the 8th. The camp is open to boys and girls ages 6-10 and above from 1:30 to 4:30 in the afternoon. You may register on Monday June 4th at the Mabce Complex. The camp director is Dennis Harp who have current college players assisting with the camp. HSU is also offering a Sharp Shooter camp for boys and girls 6 and above June 25-29th from 1:30 to 4:30. Cisco Scout Troop 287 Wins At Scout-O-Rama

Troop 287 brought home a red ribbon from the Scout-O-Rama held recently in Early at the Heartland Mall, where they participated. They demonstrated the proper use and care of wood tools. This is one of the Totin' Chip requirements, which Boy Scouts must learn in order to use the ax, knife and saw on camping trips. If a boy is caught using these tools incorrectly or carelessly this card can be taken

away from him by other Scouts or their leaders. And they must earn this requirement again before the scout is allowed to use the tools again on campouts. The troop sold tickets and participated in the Scout-O-Rama which made the Troop eligible for a 35 percent commission on all tickets which they sold. Troop 287 is sponsored by the American Legion Post 123 of Cisco.

Four Elections Determined Saturday

Four elections were determined by Cisco voters Saturday, May 5.

In the Cisco City Council election, voters re-elected Bural Chambers to Place V with 497 votes. His opponent, Edd McGough, received 98 votes. In the Place VI race, incumbent John Muller received 424 votes to defeat his challenger, Jimmy Griffin, who received 151 votes.

The city council will canvass the election results and Tuesday night's meeting and the two winners were to be sworn in.

Cisco Independent School Board Incumbent Yolanda Anderson was unopposed for Place 4. She received 733 votes. In the contest for Place 5, Ron Patton received 240 votes to win over the other four candidates. Rena Autrey Midkiff received 208 votes; Randy Taylor, 114; Danny Schaefer, 196; and Yvonne McFadin, 78.

The election will be canvassed at the regular school board meeting Thursday night and the winners will be sworn in at the next regular board meeting.

For the first time, Cisco Junior College Board of Regents will have women serving on the board. Prior to 1957, the school board served Cisco Public School and Cisco Junior College jointly. Two women had served during the 1940s on the joint board, but no women had served on the CJC board since 1957 when the board split so each school could be served by individual boards.

In Saturday's election, Cisco voters chose Carolyn

Page and Davene Jeffcoat as new members of the CJC board, and re-elected Gary W. Harris to his position. In the contest for Place 4, Mrs. Page received 480 votes to defeat Ronnie Ledbetter who received 363 votes. In Place 6, Mrs. Jeffcoat received 431 votes to defeat Dean Madison who received 393 votes. Gary W. Harris was re-elected to Place 5 with 450 votes. Bobby Rains received 233 votes, and Wayne Brock garnered 140 votes.

The returns will be canvassed at the May 10 board meeting.

Three at-large members were named to the Board of Directors of Cisco Hospital District. There were six candidates for the three positions. Elected were W.B. (Bill) Philpott, 479 votes; Dan Dixon, 481; and Ervin E. Addy, Jr., 474 votes. Defeated were Emmett Rich, 345 votes; Newt A. Hagan, 303; and Carrol W. Stansell, 290.

Election returns were to be canvassed at the Wednesday, May 8, board meeting.

Plans Being Made For Exciting Fourth of July Fireworks Show

Plans are now underway for an exciting Fourth of July fireworks display in Cisco, according to Ivan Webb, Chamber of Commerce committee chairman.

Ciscoans are being asked to purchase a display shell to help make this the best fireworks display ever. "It will take 120 3, 4 and 5 inch shots to have a professional first quality show," Mr. Webb said. Sixty 3-inch shells, costing \$14 each; 30 4-inch shells at \$20 each; and 30 5-inch shells at \$27 each are needed. These prices include shell and insurance cost, he added.

"You may purchase one or more shells from any chamber board member for

the annual Fourth of July fireworks display. Purchases may also be made at the Chamber of Commerce office," Mr. Webb said.

According to Mr. Webb, "We will not settle for less than a first class professional show. If we should not reach our goal of 120 shots we will not have a fireworks show and a refund for all

First Christian Church To Have Mother-Daughter Banquet

There will be a Mother-Daughter Banquet at First Christian Church Fellowships Hall on Friday, May 11, 1990, at 7 p.m.

Clean Properties To Help Control Mosquito Problem

As you know the "mosquito season" is upon us and the much needed rain Cisco has received will result in an infestation of mosquitoes.

There are several things that can be done to reduce the mosquito infestation. Some of the things that can be done around your home and community are keeping the weeds and grass cut and properly disposing of all trash, litter and debris.

Everyone needs to look at their property and see how they can clean it up to make a safe, clean and attractive community in which to live and work.

The City has already started a program of regularly "fogging" to help control mosquitoes, and plans to continue

the program as long as possible throughout the summer. Also, the City is now in the process of sending out letters to people with high grass, weeds, trash, junk and debris. If these conditions exist, thereby creating health and safety hazards, the City is asking the property owner/occupant to be responsible for cleaning it up. Those failing to comply will be cited to Municipal Court, which, upon conviction, could result in a fine of up to \$1,000 per day of violation.

Please help keep Cisco a clean and attractive community by mowing regularly and cleaning up and disposing of unsightly and unsanitary debris.

MORAN NEWS

By Mrs. Luke Huskey

The people in Moran and community are enjoying the sunshine, now, after the wonderful rains. No flooding was had during the rain, just water standing in places. The creeks had plenty of water, but did not get out of banks. The water did get across highway 576, by the Simpson Hole in Deep Creek and across Highway 6, just south of town, but no real high water. Now people are thinking about the grass in harvest and cutting grass and weeds. The rains were wonderful and no one is really quarreling about the rains.

CLASS MEETING

The Dorcas Sunday School Class of the Baptist Church met on Thursday, May 3, for a noon salad luncheon, in the Fellowship Hall of the Church.

Mrs. Elaine Shelton gave the Blessing.

The tables were decorated with yellow and white Daisies. The centerpiece for the table was a candelabra entwined with flowers in cups decorated with daisies.

Following the salad luncheon, Mrs. Dale Phippen

brought a devotional entitled, "The Canary and the \$3.98 dress" by Doris Crandall.

The president, Mrs. Boyd Tabor, presided over the business meeting.

This was the last class meeting until in the fall.

Twelve class members were present and four visitors. Visitors were Mrs. Harvey Wagley, Joe Moore, G.L. Cleere and L.L. Walker.

Mrs. Kenneth McKinney gave the dismissal prayer.

Steve Haines, (L) President of the Eastland Fine Arts Association, and Ed Allcorn, Manager of the Majestic, discuss purchase of Rawson property adjacent to the Theatre.

Eastland Fine Arts Association Purchases Rawson Building

Steve Haines, Eastland Fine Arts Association President, announces the purchase of the three-story brick building (Rawson Building), on the north side of the Majestic Theatre facing Lamar St. Plans are to turn this historic structure into a Community Center and use it in conjunction with the Majestic.

Haines says that members of the Fine Arts Group are "happy and excited" about the purchase. Ed Allcorn, Manager of the Majestic, is also enthusiastic about the project.

He reports that the old Hotel is structurally sound, although a lot of work is needed internally. Constructed in 1918, one year before the Majestic, the building has architectural features which are compatible with the restored Theatre. It has had several names in the 72 years since construction - The Stanley Hotel, the Maverick, the Johnson, and then the Rawson Building.

Final papers on the purchase were signed with owners Kenneth and Vaeue Rawson. On May 3, the Rawsons purchased the property in 1970 and lived in the building until the fall of 1988. At one time they had a cafe downstairs on the north side, (White St.), and rented rooms and apartments upstairs. The last tenant in the building was Maverick Printing Co., and this business moved around April 1.

"Purchasing this property

has been a dream of the Fine Arts Association for some time," Haines says. "We believe the additional space will give the Theatre more flexibility, and be a true Community Center."

"Before we begin restoration on the building there's a lot of planning to be done," Haines adds. "We want to open this project up to the community for ideas, to be sure that what we do will truly represent what the people want in a Center."

He says that Ed Allcorn has recommended experienced consultants to look over the building and make recommendations. Several different grants will be applied for. But this is only part of what is needed, Haines remarks. This kind of investment in the future needs the same kind of dedication that impressed the public to give money, talent and labor to the restoration of the Majestic in 1987.

The ground floor of the Rawson building is expected to be renovated first, then the other two floors restored later. The Rawsons have 60 days or more to move their personal property from the building. They plan to hold an auction to clear out all items.

Possible uses of the first floor of the property are already under discussion.

"This extra space can provide a kitchen and banquet room facility, which should help to bring in regional meetings and Conventions," Haines says. "We can have a common opening with the Theatre, so that the auditorium can be used for large crowds. There can also be more dressing room space, restrooms and storage areas for the Theatre."

"It's actually the success of the Majestic that encouraged the Eastland Fine Arts Association to go ahead on this purchase," Haines says. "We hope this new project will enhance the Theatre, Eastland, and the whole area."

A Thought For The Day.....

When is a person old? A person is old when his fire of learning has died; when he refuses to take a chance and hides behind a cloak of security. when he refuses to accept a challenge: when his vitality runs dry; when he resigns himself to passive thoughts; when meeting new people is 'just too much trouble'...That's when a person is old (and it may be at 30 or it may be at 80+)

Routine, uninspired living, lack of challenge, laziness, noncreative thinking...these are some of the robbers of growth, maturity and longevity. Without them, one dies prematurely at 90. With them one lives a full life, REGARDLESS of the calendar. As long as a person is changing and enjoying, he is not old.

Emerson said: "We do not count a man's years until he has nothing else to count!"

Annual Air Show In Breckenridge

Each year on Memorial Day weekend the skies of Stephens County around Breckenridge are filled with aircraft that if one didn't know better they would be sure that World War II was on again.

Warbirds restored by members of the Confederate Air Force gather each year on Memorial Day weekend in Breckenridge at Stephens County Airport to present a very special program and honor to all veterans.

The Memorial Day weekend show began in 1978 when a small group assembled as a "weekend get-together" and has grown into a two-day event with Saturday featuring the static display of Warbirds and other aircraft. The Annual Breckenridge Air Show has grown from an event when a "few old flyboys" got together for a weekend of fun and fellowship into one of the outstanding Air Shows of the nation. The Air Show annually features over 130 restored Warbirds from all over the United States and Canada. In addition there will be up to 500 other aircraft including several experimental models.

As the Air Show has grown the Department of Defense has provided a number of special aircraft on display for the crowds to view. In addition current members of the Army, Navy, Air Force and Marines have provided displays of new equipment that is currently in use by the different units of the military.

The Saturday before Memorial Day features static displays of the Warbirds and other aircraft. Stephens County Airport, located approximately two miles south of Breckenridge on U.S. Highway 183, opens at 9 a.m. on Saturday. Crowds are always on hand to view the aircraft on display as well as watch the late arrivals put on a "special show" as they arrive for the big event. Admission to the Saturday static display is \$3.00 per person.

On Sunday the airport opens at 9 a.m. for viewing the aircraft. Special Fly-overs of current military aircraft begin at approximately 1 p.m., with the Air Show beginning at 2 p.m. the Air Show will feature a reenactment of the air battle depicted in the movie "Tora, Tora, Tora". The program will exhibit a very wide range of special aerobatics and flying exhibitions by nu-

merous individuals and teams of aircraft making up the four hour aerial extravaganza. Admission to the Air Show on Sunday is \$5.00 for all over 12 years old, and \$3.00 for those from 6 through 11 years of age. Children under six are admitted free. There's no charge for parking.

Warbirds participating in the Annual Air Show are all absolutely beautifully restored to their original glory. Their owners and flyers are indeed a rare breed. Many of the Warbirds in the Air Show every year are usually one or two of only a few left of their type that are still flyable. It would be difficult to list all of the Warbirds and their owners who are almost a ways on hand for the annual Breckenridge Air Show. Those who are on hand for the show may be assured they will thrill in their recognition of the uniqueness of seeing many of these very special aircraft.

Among the types of aircraft exhibited and participating in the Annual Air Show are these:

F-8F Bearcat F-4U Corsair
F-6F Hellcat AT-6 Texas (Navy designation SNJ)
B-25 Mitchell FM-2 Wildcat
B-17 Flying Fortress TBM-Avenger
PBV T-28
P-40 Flying Tiger A-26 Invader
BT-13 T-34
P-63 King Cobra —and possibly other types.

Breckenridge extends everyone a most cordial invitation to make this a family outing to the Annual Breckenridge Air Show. Come on Saturday and see all the aircraft in static display, or come early on Sunday to view the planes.

Bring your camera, take pictures, visit with the owners and pilots of the Warbirds and other aircraft. Tour the Breckenridge Aviation Museum, select your favorite souvenirs from the many booths at the Air Show. There will be a variety of food and soft drink booths. Bring your lawn chairs since there is no seating provided. Also, it can be pretty warm on Memorial day. It is suggested you have your sun protection materials.

It is also suggested you plan to arrive as early as pos-

sible before the start of the fly-over segment of the Air Show on Sunday in order to avoid having to possibly wait in lines to get into the parking area signs on U.S. 183 in the vicinity of the airport.

The Annual Breckenridge Air Show is sponsored by the Breckenridge Aviation Mu-

seum, The Big Iron Squadron of the West Texas Wing of the Confederate Air Force and the Breckenridge Chamber of Commerce.

For additional information contact: Breckenridge Chamber of Commerce, P.O. Box 1466, Breckenridge, TX 76024.

9th Annual Lonestar Dulcimer Championship & 23rd Annual Gem & Mineral Show

Two exciting events sharing the spotlight in Oakdale Park, May 11, 12, and 13, 1990 are the Lone Star Dulcimer Festival and a Gem & Mineral Show.

For the 9th consecutive year, dulcimer enthusiasts will hold the State Dulcimer Championship in this Glen Rose resort. Events throughout the weekend include a daily stage program, contests in both Mountain and Hammer dulcimers, a musical instruments show, workshops for beginning and advanced musicians, and an Old Fashioned Dance to be held outdoors both Friday and Saturday nights. This years show promises to be the best yet, with musicians expected from all parts of the United States, according to Dana Hamilton of the Lone Star State Dulcimer Society which sponsors the weekend.

An Arts & Crafts Fair will be held outdoors during the three days. Booths will feature a variety of mediums including woodwork, crochet,

soft sculpture, paintings, leather work, and other hand-crafts. Booths selling all types of dulcimer instruments will also be available.

The 23rd Annual Gem & Mineral Show will be held on Saturday and Sunday, the 12th and 13th in Oakdale Park's convention center. For the fourth year, the show is sponsored by Brazos Gem & Mineral Club of Granbury. Dealers from over the state will exhibit gems for show and sale. These dealers will feature western jewelry, gem trees, oriental carvings, palm wood, and bead making. Show hours, according to Show Chairperson, are Saturday 9 a.m. - 9 p.m. and Sunday 10 a.m. - 5 p.m.

Oakdale Park offers RV and tent camping, a snack bar and swimming pool, planned activities, and facilities for family reunions, and is located on Highway 144 South in Glen Rose. For more information, write or call P. O. Box 548, Glen Rose, TX 817-897-2321.

Adventure Film To Be Shown At First Baptist, Eastland

"Cry From The Mountain," a World Wide Pictures Production, will be shown this Sunday night, May 13, at 7:00 p.m. at First Baptist Church, 405 Seaman, Eastland.

Cry From The Mountain,

is an adventure film set in the majestic wilderness of Alaska by screenwriter Daniel L. Quick. Scene after scene portrays the beauty and wild-life of this "last frontier" state.

The story centers around

the Sanders family. Larry Sanders takes his 10-year-old son Cal on a camping trip where he is to break the news that he and his wife Carolyn are getting a divorce. Meanwhile Carolyn, filled with bitterness and unable to forgive her husband for an affair he has had with a woman in his office, considers the option of having an abortion. Through a life-threatening accident and an old hermit living in a deserted mining camp, the course of events is changed for the Sanders.

The principal roles in "Cry From The Mountain" are played by four outstanding performers.

James Cavan plays Jonathan, the old hermit who is the caretaker of a deserted mining camp, and who lives alone with his dog Jake. The old man resents the intrusion

of Larry and Cal Sanders, but eventually comes to share his Christian faith.

Wes Parker plays Larry Sanders whose marriage is on the brink of disaster because of his unfaithfulness and his wife's unwillingness to forgive.

Rita Walter is Carolyn Sanders who is unable to forgive her husband and contemplates having an abortion.

Chris Kidd plays 10-year-old Cal Sanders. When his father is seriously injured in a kayaking accident, Cal seeks the help of the old hermit, Jonathan.

Billy Graham appears as himself with a message of hope.

Notable in the supporting cast is Colleen Gray, who plays the mother of Carolyn Sanders.

Civil War Film 'Glory' To Show At Majestic May 11-14

A different sort of war film - "Glory" will show at the Majestic in Eastland Friday, May 11 through Monday, May 14. Show time will be 7:30 each evening, with tickets \$3 at the box office. This picture is rated R, with graphic and authentic recreations of the Civil War.

Matthew Broderick plays the role of Colonel Robert Gould Shaw, an interesting historical character who took command of the North during the Civil War.

Shaw, white and born to wealth, grew up in elite and cultivated company. The story of his leadership of the 54th Massachusetts Regi-

ment, as dramatized in "Glory," brings to light an early struggle for equality for blacks.

Denzel Washington plays the leading character of Trip, a proud, unyielding runaway slave who joins the 54th Regiment. Morgan Freeman plays Rawlins, a natural leader who rises to the rank of Sergeant Major. The tremendous photography in scenes of the battle for Fort Wagner are the climax of the film.

There are many issues in this stunning, controversial, Award-winning picture. Its showing at the Majestic saves the public a chance to see this outstanding new film.

Hearne Wins At Starlight Pageant

Mandi Hearne

Mandi Hearne, daughter of Darrell and Sally Hearne, participated in the "Starlight" beauty pageant, held at the Majestic Theater, April 28, 1990. Mandi won 1st runner up for modeling, and first place for Miss Photogenic. This win qualifies Mandi to participate in the national pageant, which will be held at the Dallas, Hilton Hotel, June 20-23.

Matthew Broderick (R) stars in "Glory" as Col. Robert Gould Shaw (Historical Photograph, L) the young officer who took command of the first black fighting unit to be raised in the North during the Civil War. "Glory" is presented by Tri-Star Pictures.

Property Tax Protest and Appeals Procedures

The law gives property owners the right to protest actions concerning their property tax appraisals. You may follow these procedures if you have a concern about:

- the value placed on your property
- exemptions that may apply to you
- cancellation of agricultural appraisal
- whether your property is taxable
- which local governments should be taxing your property; or
- you think the appraisal district has done something else that adversely affected you.

Informal Review: Contact the appraisal district staff at 817/629-8597 in Eastland, Texas for an informal review.

Review by the Appraisal Review Board: If you can't resolve your problem informally with the appraisal district staff, you may have your case heard by the appraisal review board.

The appraisal review board (ARB) is an independent board of citizens that reviews problems with appraisals and other concerns listed above. They have the power to order the appraisal district to make the necessary changes to solve problems. If you file a written request for an ARB hearing (called a notice of protest) before the deadline, the ARB will set your case for a hearing. You'll receive written notification of the time, date, and place of the hearing. The hearing will be informal. You and the appraisal district representative will be asked to present evidence about your case. The ARB will make its decision based on the evidence presented. You can get a copy of a protest form from the appraisal district office located on the second floor of the Eastland County Courthouse, Eastland, Texas. NOTE: You should not try to contact ARB members outside of the hearing. The law requires you to sign an affidavit saying that you haven't done so before the ARB hears your case.

Review by the District Court: After it decides your case, the ARB must send you a copy of its order by certified mail. If you're not satisfied with the decision you have the right to appeal to district court. If you choose to go to court, you must start the process by filing a petition within 45 days of the date you receive the ARB's order. If the appraisal district has appraised your property at \$1,000,000 or more, you must file a notice of appeal with the chief appraiser within 15 days of the date you receive the ARB's order.

More Information: You can get more information by contacting your appraisal district at 817/629-8597 in Eastland, Texas or visiting the office which is located on the second floor of the Eastland County Courthouse, Eastland, Texas. You can also get a pamphlet describing how to prepare a protest from the appraisal district or from the State Property Tax Board, 4301 Westbank Drive, Building B, Suite 100, Austin, Texas 78746.

Deadline for filing protests with the ARB

(the deadline is postponed to the next business day if it falls on a weekend or holiday)

Usual deadline: On or before May 31 (or 30 days after a notice of appraisal value was mailed to you, whichever is later).

Late protests: (If you miss the usual deadline for good cause. Good cause is some reason beyond your control like a medical emergency. The ARB decides whether you have good cause.

Special deadlines:

Change of use (if the appraisal district has informed you that you are losing agricultural appraisal because you changed the use of your land) Before the 30th day after the notice of the determination was mailed to you.

ARB changes (if the ARB has informed you of a change that increases your tax liability and the change didn't result from a protest you filed) Before the 10th day after the notice of the determination was mailed to you.

If you believe the appraisal district or ARB should have sent you a notice and did not, you may file a protest until the day before taxes become delinquent (usually February 1). The ARB decides whether it will hear your case based on evidence about whether a required notice was mailed to you.

Safe Driving Tips from Rhonda

Effects of drugs on driving: Alcohol is classified as a "Legal" Drug, but it is illegal to drink and drive. Even one or two drinks affect a person's ability to drive. Alcohol affects coordination. It is difficult to coordinate what your eyes are seeing with what your hands should be doing. Judgement is impaired. It is difficult to choose the proper alternatives that are so often presented while driving. (To be continued in next week's article)

County Extension Agents LREP Study Group Meeting

Eastland County must find ways to enhance economic opportunities for its citizens, many of whom live below poverty-level incomes.

This was one of several key recommendations made Thursday night, April 26, by a group of 40 county citizens charged with identifying the critical issues facing Eastland County.

The group of selected citizens representing all communities of Eastland County met at the Eastland Siebert Elementary School. The purpose of the meeting was to assist in the development of educational programs by the Texas Agricultural Extension Service.

The program began with a panel of three who gave status reports on the economic, social and environmental conditions of the county.

Joe Taylor, Vice-President, Eastland National Bank, said the beef production industry alone has pumped a five year annual average of \$15.9 million into our economy and the outlook remains good for the next two years. Peanuts continue to be significant player in our economic game plan. The recent five year average has added \$9.7 million per

year to our economy. Taylor added that the oil and gas industry, local business, and industry teams have not fared so well.

Taylor reported unemployment in Eastland County, as reported in January, was 5.8%, while recent reports showed the Abilene unemployment rate at 5% and the metropolitan area at 4.5%. The sales tax rebate was \$307,947 in 1989, compared to \$337,647 in 1985.

This weakened activity is further emphasized by the fact that statistics tell us the effective purchasing power of the family's income is dropping and increasing numbers of families are slipping below the poverty level.

Taylor predicted that it will be necessary to employ external development programs along with a strong and dedicated commitment to internal development for the county to rebound economically.

Nannette Keith, social worker for the Texas Department of Human Services, told the group that over one half of the population of Eastland County is over the age of 55 and the trend to an older population continues. Short term and long term care of senior citizens is becoming

more important.

Keith said that the youth was one of our most valued commodities. Texas is, according to Keith, second in the nation in teen pregnancy. (Eastland County ranks highest in teen pregnancies with a 43 county region.) The school dropout rate is 25% in Texas. Eastland County also ranks high in drug abuse. Childcare for working mothers is a real problem in Eastland County according to Keith.

Don Shepard, Manager of Cisco Chamber of Commerce, said the county has real problems with solid waste disposal and lack of adequate amounts of quality water.

He said that 99% of the private sewage systems in Eastland County would not meet the standards set by the government. Cities in the county have the same problems.

After the panel of status reports the group divided into four task forces, Agriculture and Natural Resources, Home Economics, Youth, and Community Development.

The groups identified the most critical issues facing the county. These issues will be studied and grouped into categories. A long range program will then be developed to reach objectives within each issue. Every county in Texas is developing the long range

programs. They will all be considered in the development of the Extension state-wide program plan.

The major critical issues identified in Eastland County included: Agricultural Profitability, Alternate Crops, Vertical Integration, Integrated Pest Management, Rural-Town Relations, Water Conservation and Quality, Waste Disposal and Pollution, Insurance For Farm Workers, Rural Health Care, Weather Information, Animal Welfare, Development of Home Business, Leadership, Vocational Education, Money Management, Positive Parenting Skills, Parental Education (in drug abuse, cult and satanic influences), Motivation and Self-Esteem, Youth Employment, Life Skills for Youth, Environmental Awareness, Parental Involvement, Family Stress, Personal/Household Hygiene, Nutritional Needs, Elderly Needs (income, transportation, telephone reassurance, Health) and Healthy Life Styles.

The members of the Agriculture and Natural Resources Task Force were Charles Walker, discussion leader; Truet Hart, recorder; Franklin Cox, Mark Harris, Ronnie Ledbetter, Leo Williams, Mary Webb, John Rodgers, John Dyer, Bill Walton, and

John Gerhardt. The members for the Home Economics Task Force were Gary Montgomery, discussion leader; Marcia Hale, recorder; Celia Shackelford, Dr. Sandy Hazelp, Paula Collins, Janice Williams, Peggy Roberts, Anna Barnes, and Rev. Eddie Gonzales. The Youth Task Force members were Donald Hughes, discussion leader; Shelly Bailey, recorder; Tommy Claborn, Rev. Ronnie Shackelford, Toni Hart, Susan Crozier, Rev. Ken Diehm, Loys Allmand, and Tammy Lyerla. The Community Development Task Force members were Benny Hagan, discussion leader; Dr. Charles Barnes, recorder; Don Shepard, John Berry, Peggy Hagan, Don Hazelp, Baylis Pope, Joe Taylor, Brad Stephenson, and Emma Watts.

very important for a Christian to become what he needs to be. But all your time cannot be spent soul-winning.

In becoming a well-balanced Christian, one needs to pray, read the Bible, go soul-winning, attend Church services and do many other things to please God. When you mix all these things together, seeking to find the will of God in your life, you will become a strong Christian. In being a Christian, we need to become Christ like.

Let's ask ourselves is my Christian life balanced or am I just doing a few things?

"Balance In Life"
God has given every Christian the command to grow in grace and knowledge of the Lord. But to open, it takes the proper balance of foods for every Christian.

Prayer is very important for the spirited growth of a Christian. Yet, if a person spent all his time in prayer, he would die spiritually, for he would not have the proper balance for growth. Soul-winning is

Ruth Stewart, M.Ed.

Q. Lately I have been having some interpersonal relation problems. I'm sure there must be some things I need to change. Could you give me some clues?

A. In general there are some characteristics that can cause interpersonal relation problems. You might like to check this list to see if any would apply to your situation. According to Dr. George Brazell some causes of such problems can be as follows:

1. Lack of Dependability - some people are not dependable in words or actions.
2. Tendency to Exaggerate - everything is bigger and better.
3. Always Grouchy - nothing good to say about anything or anybody.
4. Sarcasm - "Yeah, but..."
5. Sense of Inferiority - "Everybody is better than I am."

More of these characteristics will be given next time. Do you see self-centeredness being at the root of many of these things? If you see anything in this list to work on try to have a friend help you to change to better habits. (to be continued) Questions should be addressed to:

Emergency Response – Because Your Life May Depend on It

EMS _____

Police _____

Fire _____

Poison Control _____

RECOGNIZING MEDICAL EMERGENCIES

Serious bleeding, unconsciousness, choking and signs of a heart attack are all obvious reasons to call EMS. Broken bones and head, chest, abdominal, or neck/spine injuries present less obvious injuries, but should be treated by EMS for transport to the hospital. Trauma is the leading killer of people age 44 and younger and must be treated promptly.

CALLING EMS

Try to be calm or have a calmer person make the call – give whatever information the dispatcher asks for. That will probably include the address, a nearby cross street, your name, a call back number, the name of the victim, and what is wrong with the victim. **STAY ON THE LINE** until the dispatcher tells you to hang up – this is important! Then have someone wait out near the street or in the parking lot to direct the emergency medical technicians to the victim. And teach your children how to call EMS. They may need to make the call for you someday.

FURTHER TRAINING

EMS training and certification has four levels – First Responder Emergency Care Attendant (ECA), Emergency Medical Technician (EMT), EMT-Special Skills, and Paramedic. Contact your local EMS or your Texas Department of Health Public Health Region office for more information on EMS training. Phone numbers and addresses are listed on the back of this brochure.

EMERGENCY CARE

This is a guide to management of common emergencies in the home, workplace and streets of your community. Using the simple guidelines in this pamphlet may enable you to save the life of an ill or injured person. Your intervention, before EMS arrives, may mean the difference between life and death for a friend, relative or fellow citizen.

GENERAL EMERGENCY CARE RULES

1. Do not move the person unless they are in a burning car or other immediate danger.
2. Call EMS immediately. Send someone else to call for help if you can, so that you can stay with the person.
3. Do not give the person anything to eat or drink and do not allow them to smoke.
4. Keep the person calm and still.
5. Apply the following emergency care measures until the ambulance arrives.

HOW TO CHECK BREATHING AND HEART BEAT

If someone is not breathing or their heart is not beating, they may die or suffer permanent damage before EMS arrives. Always check for breathing and heartbeat (pulse) in a medical emergency, and be sure to give that information to EMS when you call.

1. If the person has collapsed, try to wake them up by shaking their shoulder and shouting at them.
 - If they do not respond, gently lay them flat on their back, on a firm surface.
 - Call for help or send someone for help.
 - Gently lift the person's chin with one hand while pushing down on the forehead to tilt the head back.
 2. Put your ear to the person's face and listen for breathing sounds; feel for warm breath on your cheek. Also, watch for rise and fall of chest.
 - If the person is breathing, their heart is beating.
 - If the person is not breathing, begin rescue breathing.
 - Pinch the nose, cover the entire mouth area with your mouth, and blow 2 deep breaths into the mouth. After checking pulse, continue giving two breaths every five to ten seconds.
 3. Check for pulse. Put two fingers on the person's neck in the groove just to the side of the Adam's apple; feel for a pulse for 10 seconds.
 - If you are sure there is no pulse, begin CPR if you are trained.
 - If there is a pulse, but still no breathing, continue rescue breathing.
- Remember: Your care may make the difference between life and death.

Bites or Stings

- Insects – remove stinger if possible. Apply cold compresses. If there is any reaction, such as breathing problems, call EMS immediately.
- Snakes – keep the person calm, have them sit quietly, avoid excessive movement, call EMS immediately. Try to identify or describe the snake without endangering yourself.

Bleeding

- Call EMS immediately for serious or spurting bleeding.
- Have the person lie down.
- Apply firm, direct pressure over the wound to stop bleeding. Use the cleanest available pad. Use cloth, handkerchief, clothing, or bare hand if necessary. If pad becomes blood soaked, leave it on and put another one on top of it.
- Maintain the pressure until EMS arrives. Elevate the injured limb.
- Raise the person's feet higher than the head.
- DO NOT use tourniquets.

Broken Bones

- Keep the injured limb from moving. DO NOT move the person unless they are in immediate danger.
- Apply ice packs to minimize swelling.
- If a broken bone protrudes through the skin, cover it with a dry dressing, but DO NOT try to push it back in. If there is excessive bleeding, use direct pressure over the area to try to stop the bleeding.
- If there is reason to suspect multiple broken bones, or when the neck, back, pelvis, or thigh might be broken, DO NOT attempt to move the person. Call EMS immediately.

Burns

- Remove the person from danger.
- Extinguish and remove burned clothing.
- Keep the burned person in a comfortable position.
- Raise burned arms or legs higher than the person's heart.
- Cover burned area with a cool, wet cloth, but do not over cool.
- DO NOT break blisters or remove burned skin or clothing.
- DO NOT use butter, ointments, or other home remedies.
- For small or minor burns, immerse in cool water.
- For serious burns, do not treat, but call EMS immediately.
- Keep the patient covered lightly to preserve normal body temperature.

Choking

If the person can speak or cough, then they are able to breathe, and the airway is not totally blocked.

- Encourage the person to cough out the object. DO NOT interfere with efforts to do so.

If the person cannot speak or breathe, but is still conscious, you must quickly dislodge the object that is blocking the airway by using the Heimlich maneuver if you are trained.

If the person cannot breathe or has already collapsed:

- Call EMS immediately.
- Place the person on their back, turn the head to one side, open the mouth and look for and remove any visible foreign material.
- Use the Heimlich maneuver to dislodge the object if you are trained.

If an infant chokes:

- Place the child face down over your arm; with the baby's head down, rest your arm over your thigh; with the heel of your hand give four quick, hard blows between the shoulders.
- If the object does not dislodge, turn child over, support with your arm resting on your thigh, and with the baby's head down use two fingers to press its breastbone four times.
- Repeat the procedure as often as necessary until EMS arrives.

Convulsions/Seizures

- Call EMS immediately.
- Protect the person from further injury-remove obstacles.
- Turn the person onto one side.
- If the person has fallen or shows evidence of head injury, they should be assumed to have a broken neck and should be treated accordingly (see Neck or Back Injuries).
- DO NOT force anything into the person's mouth.
- DO NOT try to restrain the convulsive movements.

Eyes

- For an object in the eye, try to wash it out by flushing the eye with lots of clear water.
- If the object cannot be easily washed out, call EMS.
- If either eye is injured, cover both eyes with a cloth, keep the person quiet, and call EMS immediately.
- DO NOT use drops or ointments.
- For exposure to chemicals, gently flush eyes with clear water. Continue flushing until EMS arrives.

Fainting/Dizziness

- If a person reports "feeling faint," have the person lie down on their back until feeling better. Raise the person's feet higher than the head.
- Check breathing and heartbeat.
- Apply cold compresses to the person's forehead.
- If fainting is associated with chest pains, convulsions, or severe headache, or if it lasts more than one or two minutes, call EMS immediately.

Fainting is a relatively common problem, but it may be caused by a serious condition.

Head Injuries

- Call EMS immediately.
 - DO NOT move the person until EMS arrives.
 - Severe, deep cuts should not be cleaned, cover with a clean cloth.
- DO NOT apply heavy pressure to bleeding areas.

Heart Attack

The person may have pain or feel very heavy pressure in the chest area or in the jaw, shoulder and arms. The person may have a feeling of indigestion. They may sweat, vomit, or have trouble breathing.

- DO NOT wait to see if the pain/discomfort goes away.
- Call EMS immediately. Assure them that help is on the way, and do not leave them.
- Have the person sit or recline, whatever is most comfortable for them.
- Make the person as comfortable as possible.
- Loosen the clothing at neck, chest and waist. Keep the person warm, but not hot.
- If the person suddenly collapses and loses consciousness, try to awaken them. If the person cannot be awakened, and if there is no breathing and no pulse in the neck, begin CPR if you are trained.

Neck or Back Injuries

- Call EMS immediately.
- DO NOT move the person at all unless absolutely necessary to save their life.
- DO NOT prop up the person's head.

Poisoning/overdose

- Call EMS immediately.
- Then call the Poison Control Center and describe the product, the amount swallowed, and the time it was taken.
- Give water or milk to someone who has ingested a poison, unless the person is unconscious or having convulsions.
- Look inside the person's mouth for burns that might indicate the ingestion of an acid or alkali. Also, smell the person's breath to see if it smells like a petroleum product (gasoline or kerosene). If either sign is present, DO NOT induce vomiting.
- Loosen clothing at the person's neck and waist.
- Keep the person quiet and warm.
- Take the container of the suspected poison with you on the ambulance. Every household should have syrup of ipecac on hand. The poison center will tell you when to use it.

Unconsciousness

- Call EMS immediately.
- Check for breathing and a heartbeat.
- If the person cannot be roused, but is breathing well and has a good pulse, they should be placed on their side unless you suspect a neck injury.
- If there is no breathing and no pulse in the neck, begin CPR if you are trained.
- If drug overdose or poison is suspected, the container of the suspected toxin should be taken with the patient on the ambulance.
- DO NOT give the person anything to drink.

We apologize to each of the above persons. Congratulations to you and congratulations again to the 1990 Team: Chance Bush, Brody Honea, and Dena Rodgers.

Homemaking Hints

From Janet Thomas, County Agent—
The Tufts University Diet and Nutrition letter supplies the following information:
*Bananas that are beginning to turn brown before you are ready to eat them should be put in the refrigerator. That's because the ripening process slows down considerably at temperatures below 55 degrees, according to the United Fresh Fruit and Veget-

able Association. The cold will kill cells in the banana's skin, resulting in an unappealing black peel, but the fruit itself will remain fresh for several days. If you want to hasten a still-green banana's ripening, store it in a paper bag. Ethylene gas that is needed for ripening is produced naturally by fruit and will be concentrated in those closed quarters to speed up the process.
*A half cup of boiled cauliflower contains more than half the recommended dietary allowance for Vitamin C — and just 15 calories.
*Newborns fed water to which sugar has been added appear to have a greater preference for sweets later in infancy. Sugared water as well

as sugary beverages should not be given to infants because they contribute calories without providing any of the other vital nutrients that young babies need for proper growth and development. They can also cause gas as well as exacerbate a case of diarrhea.
*A swallowed bay leaf can potentially cause great pain by perforating the intestine or becoming embedded in the rectum. The best way to avoid that risk if you use bay leaves in marinara sauce, for example, is to remove them before pouring the sauce over pasta.
CLOTHING COSTS UP!
Clothing costs more this spring than ever before, particularly clothing for women

and young children. Prices for children's clothes were up by 10.3 percent in February, while women's clothing prices increased by 5.0 percent.
Men's and boy's clothing, footwear, and other apparel increased less, but the increase in price for all clothing averaged 3.6 percent, the largest monthly increase since 1947.
All the other categories of spending, such as food and beverages, housing, and medical care, that are used to determine the Consumer Price Index rose less than 1.0 percent in February.
Clothing costs soared because of higher priced spring fashions and economists expect that prices may drop later in the year. However, the styles being shown for fall, 1990, are expected to be costly, too.

RECIPE FOR THE WEEK

To lower fat in fried fish, here is a good suggestion. Buy fish plain and make your own fish sticks:
Cut white fish (pollock, cod, haddock) into 4" x 1 1/2" finger-shaped strips. Dip into low-fat yogurt, then roll in seasoned crumbs (1 cup crushed cornflakes, 4 tablespoons grated Parmesan, 1/2 teaspoon grated lemon rind, 1/2 teaspoon paprika, 1/4 teaspoon salt).
Place on cookie sheet sprayed with vegetable oil cooking spray.
Bake in preheated 400 degree oven 10-15 minutes or until fish flakes.
Yield per 3 ounce serving (approximately 2 fish sticks) 99 calories, 1 gram fat, and 150 milligrams sodium.
(This compares to 3 ounce serving of commercially prepared frozen fish sticks, on the other hand, can be as high as 255 calories, 16 times as much fat, and twice the sodium).
Eat healthy and enjoy!!

NOTICE OF PETITION FOR WAIVER

Notice is hereby given that Brazos Electric Power Cooperative, Inc. ("Brazos Electric"), a wholesale generation and transmission electric utility, and the following Brazos Electric member retail distribution electric utilities ("Members"), Bartlett Electric Cooperative, Inc., Bellfalls Electric Cooperative, Inc., B-K Electric Cooperative, Inc., Comanche County Electric Cooperative Assn., Denton County Electric Cooperative, Inc., Dickens Electric Cooperative, Inc., Erath County Electric Cooperative Assn., Fort Belknap Electric Cooperative, Inc., Gate City Electric Cooperative, Inc., Hamilton County Electric Cooperative Assn., Hill County Electric Cooperative, Inc., J-A-C Electric Cooperative, Inc., Johnson County Electric Cooperative Assn., McLennan County Electric Cooperative, Inc., Mid-South Electric Cooperative Assn., Navarro County Electric Cooperative, Inc., Navasota Valley Electric Cooperative, Inc., Tri-County Electric Cooperative, Inc., and Wise Electric Cooperative, Inc., have filed a Petition for Waiver with the Public Utility Commission of Texas ("PUC"). In the petition, assigned Docket No. 9453, Brazos Electric requests waiver of the obligation to sell retail power to qualifying cogeneration and small power production facilities ("QFs") and the Members seek a waiver of their obligations to purchase power directly from QFs. These obligations are contained in PUC Substantive Rule 23.66(d)(1)(A) and 23.66(d)(2), as well as 18 C.F.R. 292.303(a) and (b).

The proposed waivers will not impair the ability of QFs to sell electric capacity and energy or to purchase electric capacity and energy. In the territory served by Brazos Electric and its above-listed Members (63 counties throughout Texas), Brazos Electric will assume the obligation for all purchases of QF generated electricity and the Members will assume all obligations for sales to QFs of capacity and energy. Only duplicate obligations which would otherwise be applicable to both Brazos Electric and its above-listed Members are proposed to be eliminated.

Reciprocal waivers of the type requested by Brazos Electric and its above-listed Members have recently been granted by the Federal Energy Regulatory Commission. The proposed waivers will not discourage cogeneration and small power production. Members avoided cost can never be more than Brazos Electric's avoided cost because the Members purchase all of their wholesale power requirements from Brazos Electric.

The proposed waivers are subject to approval by the PUC. An Original Petition for Waiver specifying in detail each proposed waiver, the reasons waivers are being requested, and the effect of waiver is available at the general offices of Brazos Electric in Waco, Texas, and at an office of each of its above-listed Members.

Persons who wish to intervene or otherwise participate in these proceedings should notify the PUC as soon as possible. The deadline for intervention is June 18, 1990. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information may also be obtained by calling the PUC Consumer Affairs Division at (512) 458-0223 OR (512) 458-0227, or (512) 458-0221 teletypewriter for the deaf.

THANK YOU

The family of Edna Morgan wish to extend their thanks of appreciation to all our friends and neighbors for helping ease the pain of losing our loved one. A special thanks to Bro. Sherl Taylor and Bro. George Weeks, the pall bearers and the ones that brought the special music. To everyone who sent food, flowers, cards and a word of sympathy. May God Bless each of you in our prayers.

Ethel Lovell, R. Lee McDaniel & family, Ione Bounds, Charles Morgan & Family, Archie Crowe, Pearl Greenwood T37

THANK YOU

We want to express our heartfelt gratitude to everyone for the cards, flowers, food and other expressions of sympathy during the death of our loved one. To Rev. Wesley Howard, your comforting words and the beautiful poem made our loss much easier to bear. To Edwards Funeral Home, thank you for the beautiful service.

The family of Leamon A. Kile

Carbon News

By Dorothy Jackson

May 7:
We still have lakes where lakes were not, til a few weeks ago. The water needs to run some where but where does it run? I do not think there is a dry spot in the state of Texas. So many people have really been hard hit by so much water. Even though water is necessary for life, we can get too much of a good thing. I have tried not to complain but had I been in some shoes, I might have. My, oh, my how nice the sun was when we got to see it again. This past week received 4.20 inches of rain and for the year thus far have had almost 24 inches. That is more than we get most years.

When I was young I thought when people reached 70 years old they were ancient, but as I get older that seems young. When people reach 90 and past that is really a mile stone.

May 1st May McDaniel Fleming, 93, and her sister Margie Fleming, 73, celebrate their birthdays. There were eleven taking part in helping to bring joy to these two ladies on this their special day. I wish these two ladies a belated birthday and may they each have another good year.

Mrs. Billy Stacy and Ina Brown of Gorman were in Gatesville one day this past week to attend a funeral for their uncle Earnest Timmons.

Mr. and Mrs. Royce McGaha have returned home from visiting their son Mike McGaha and wife Kathy. The McGaha enjoyed their trip to Maryland.

Mr. and Mrs. J.E. Jackson spent the week end with their daughter, Debbie and family of Arlington, they all took in the Canton Trades day.

Dale, Nancy, Danell, Michael, and Joshua Jackson spent a couple of days with me, Dale had a funeral in Brownwood on Monday.

Terry Hardin with 79 votes, Dee Dee Bledsoe with 75 votes and Deborah Gourley with 69 votes were elected to the Carbon School Board for a three year term each. Steven Forbus received 22 votes.

Sherry Daskevich defeated Kenneth Knowles Sr. 62-24 for a one year unexpired term.

In the city election, Kenneth Halford was elected Mayor with 20 votes to James McDaniel's 16. Dale Walker and Truman Bryant were unopposed for re-election to the city council.

Graduation for Carbon Kindergarten students will be May 23rd at 1:30 p.m. in the school auditorium.

The Eighth grade will graduate Thursday May 24 at 7 p.m. in the auditorium.

Baccalaureate for the Seniors of Carbon High School will be Friday night, May 18th at the First Baptist Church at 7 p.m.

Graduation for the Seniors will be Friday, May 25, 7 p.m. at the Football Field.

Angie Girtz is the Valedictorian, she is the daughter of Mr. and Mrs. Floyd Girtz.

Jennifer Stacy is the Salutatorian, she is the daughter of Mr. and Mrs. Terry Stacy.

It seems this will be the last class to graduate from Carbon. I suppose it would take an act of Congress to continue with High School at Carbon.

Notice

V.F.W. Mounted Volunteers would like to invite all interested riders to join us for a trail ride on Saturday, May 19, 1990. We will be leaving the Cisco Arena at twelve noon, and return around five o'clock p.m. After the trail ride there will be a barbecue hamburger supper.

This is an open invitation to the public to join us in either the trail ride, or supper, or both. You need not attend

the trail ride to attend the supper.

Also keep in mind we are planning a two day trail ride for the middle of June.

For more information contact Walt Wilkerson at 442-1369; or Bob Turner at 442-2102; after five p.m. We will appreciate your participation.

Aid Available For Nursing Students

Nursing students and licensed nurses may qualify for

help with their education expenses as a result of a major expansion in financial aid options offered by the State of Texas.

The Texas Higher Education Coordinating Board has announced nine new financial aid programs, including two loan repayment, five scholarship and two matching fund employment programs, all to begin operations in the next 12 months.

For each year of full-time employment in Texas, eligible registered nurses can have up to \$2,000 in student loans repaid and eligible licensed vocational nurses can have up to \$1,000 in loans repaid.

Student nurses may qualify for scholarships ranging from \$1,500 to \$3,000 if they are enrolled at least half-time in an accredited program leading to licensure as a vocational or registered nurse or to a graduate degree in nursing. Two of the scholarship programs target minority students and two target students from rural communities who attend school in rural communities.

Scholarships of \$1,500 to \$2,000 also will be available for licensed vocational nurses

enrolled in programs leading to associate, baccalaureate or graduate degrees in nursing.

The Coordinating Board expects to award close to 100 nursing scholarships for the 1990-91 academic year.

The Matching Fund Employment Programs will offer loans of \$1,500 to \$3,000 to 190 nursing students this fall. Loans will be cancelled for students who work for participating for-profit and non-profit employers while enrolled in school and for a minimum of 12 months after completing their studies. Students who fail to complete their nursing education or to fulfill their employment obligations will be required to repay the loan, plus interest and other charges.

These financial aid programs were enacted by the 71st Legislature.

To apply for the nursing scholarship and employment programs, nurses and students should contact the financial aid office of the school attended. Participating institutions will have scholarship applications available by the end of May and employment program applications by the end of June.

Loan repayment applications will be available from the Texas Higher Education Coordinating Board, Division of Student Services, beginning this fall. For more information, contact the Coordinating Board's Division of Student Services, (512) 462-6325.

Fishing Outdoors

By Terry Wilson

Maynard and Wilson Take

Second At Twin Buttes

Area anglers are invited to attend the Wednesday evening Open Jackpot at Lake Leon May 9, 1990. Everyone will meet at Chock-O-Block before 6:00 p.m. to sign up. The past events have been a two fish stringer weight, with a \$10.00 entry fee. For more information on this tournament contact Tommy Maynard at 629-3550.

The Anglers Choice Team Circuit was forced to move its May event from Lake Brownwood to Twin Buttes Lake at San Angelo. Thirty teams attended and were faced with low lake levels. Saturday was the official practice day and all anglers were having great success with numerous fish over five pounds reported and two over seven.

Sunday morning the two person teams were started out at 6:30 a.m. in two flights for what proved to be a whole new ball game. Apparently the heavy pressure Saturday from 3 tournaments and the teams pre-fishing coupled with Saturdays high winds staining the water had changed to a tough day.

The bass had felt the pressure and moved from the 5-7 foot depth up to 1-2 feet of water and took a case of lock jaw. At the 3:15 weigh-in Ben Villalpound and Lupe Cisneroz of Brownwood met the challenge head on with 5 fish 17.85. And finishing a close second were Bobby Maynard of Ballinger and Terry Wilson of Eastland with 5 fish weighing 17.35. After 4 events Bobby and myself are lead-

ing this region but 3 events still remain; Brownwood, Possum Kingdom, and Lake Leon.

Team fishing can be some of the most rewarding competitive and fun fishing there is. When one of the members might be having an off day hopefully the other is in time with what is working. As the old saying goes "Two heads are better than one," it certainly applies to team fishing.

Members of the Eastland County Bass Club will be traveling to Lake Ballinger Saturday May 12 for their monthly club event. Fishing hours will be 7-4 and contestants will be allowed to fish the old lake only unless voted otherwise at the boat ramp. The reason for the possible change to the new lake is the muddy, muddy water conditions present at the old lake. All contestants must be signed up prior to fishing, so leave in time to arrive prior to 7:00 a.m. For more information you may contact Tom Maynard at 629-3550.

Currently in the Eastland County Bass Club the top six leaders and their weights are: 1st-Tom Maynard, 25.02, 2nd-Gary Horton, 22.22, 3rd-Gary Crew 16.99, 4th Butch Willingham, 16.55, 5th-Terry Wilson, 14.81, and 6th Steve Pennington 14.11. Less than half way through the year the race for the Honey Hole top six team is wide open as is this years angler of the year title. And don't forget this will be a short year ending in September. Lets everyone make plans to attend the remaining events.

Unofficial word from Lake Proctor is that all camping facilities could remain closed until the fall due to the severe flooding. It is expected that

the impoundment will be open for recreation (boating and fishing) by June.

May 19 and 20 Hubbard Creek Lake Area Breckenridge will play host to another Big Bass Bonanza tournament. For more information you may call (915) 676-7711.

The recent event at Twin Buttes once again demonstrated the quality of line manufactured by the folks at Berkley. Bobby Maynard hit a home run catching all five of the fish we weighed in for a 17.35 pound string. And his choice of bait and line was somewhat different for shallow water in heavy cover.

With the heavy fishing pressure Bobby dropped to 12 pound XT Trilene fished in the 1 foot cover. And the size of fish being caught from this heavy cover exemplifies the real strength and dependability of Berkley products. And the bait was the Western Wennie Worm, a finess bait normally associated with deep clear lakes. Congratulations to Bobby for his personal best stringer of 5 fish, and for his versatility.

Ainsworth-Bernard

Mr. Ronnie Ainsworth and Mrs. Marlinda Jimenez wish to announce the engagement and approaching marriage of their daughter Tammy to Jason M. Bernard, son of Mrs. Judy Dean of Ranger.

Tammy will be a 1990 graduate of Ranger High School.

Jason is a 1989 graduate of Ranger High School.

The wedding will take place at Eastside Baptist Church, 4th and Young St., Ranger on July 21, 1990 at 6:30 p.m.

All friends and relatives are invited.

McGrew-Smith

Mr. and Mrs. Lloyd D. McGrew of Cisco, announce the engagement and approaching marriage of their daughter, Mary Elizabeth McGrew, of Fort Worth, to

Davis Campbell Smith, of Fort Worth, son of Mr. and Mrs. Lee D. Smith, Jr. of Houston.

The wedding is set for June 9, 1990, at 3 p.m., at the First

United Methodist Church, Cisco.

The bride-elect graduated from Cisco High School, she is a graduate of Cisco Jr. College and Southwest Texas State University with a BFA certification in theater and English. She is presently employed by the Boys and Girls Club of greater Ft. Worth and the Ft. Worth Adolescent Pregnancy Board as the Teen Drama coordina-

tor.

The future bridegroom graduated from Ft. Madison High School in Ft. Madison, Iowa, he is a graduate from Texas Christian University with a BS in Speech Communication. He is employed by Lakewood Health Systems of Dallas as Sales representative and Public Relations Coordinator.

All friends of the couple are invited to attend.

Wedding Bells Smith-Thompson

Julie Kay Smith and John Rex Thompson, both of Dallas, were united in marriage at Marvin United Methodist Church in Tyler.

The Rev. Dr. James Garrett of Tyler was the officiant.

The bride, daughter of Dr. and Mrs. Homer Don Smith of Tyler, is a graduate of Robert E. Lee High School, University of Texas at Austin and The National Center for Paralegal Training.

The bridegroom, son of Mr. and Mrs. Marvin Leroy Thompson of Tyler, is a graduate of Robert E. Lee High School, Baylor University and Baylor University School of Law.

Matron of honor was Karen Truitt of Fort Worth, sister of the bride.

Father of the bridegroom served as best man.

Bridesmaids were Anne Bass of Lubbock; Ann Bass of Lubbock; Ann Bickle of Costa Mesa, Calif., sister of the bridegroom; Catharine Clark of Houston; Dianne Dobbs and Laura Merryman, both of Dallas; Susan Smith of Houston, sister-in-law of the bride; Patty Thompson of Richardson, sister-in-law of the bridegroom; Nancy Truitt

of Dallas and Emily Waltmon of Houston.

Groomsmen were David Bickle of Costa Mesa, brother-in-law of the bridegroom; Gregg Eppler and Brian Nelson, both of Tyler; Phillip Philbin of Brownsville; Kyle Smith of Tyler and Steven Smith of Houston, both brothers of the bride; Steven Thompson of Richardson, brother of the bridegroom; Richard Truitt of Fort Worth, brother-in-law of the bride; and Ron Walker of Edna.

Ring bearer was Steven Jacob Thompson of Richardson, nephew of the bridegroom.

Others in the wedding ceremony were Randy Elkins of Tyler, organist; Diane Daniels of Dallas, soloist; and the Tyler String Quartet.

Ushers were Douglas Lee of Arlington and Woodrow Huffman of Tyler.

The reception was held at Willow Brook Country Club. After a wedding trip to Maui and Oahu, Hawaii, the couple will reside in Dallas.

Julie is the granddaughter of Mr. and Mrs. Homer Smith of Eastland and Mrs. Howard Willman of Tyler.

Drs. Robert Deluca (L) and Sandy Hazelip welcome Dr. Bill Oswalt (R) to practice at their medical clinic on South Daugherty St., Eastland.

Dr. Bill Oswalt Returns To Eastland

Dr. William (Bill) Oswalt is now back in Eastland, after practicing in Waco since last July. His office is located in the Medical Clinic at 203 South Daugherty Street.

"We welcome Dr. Oswalt, and know that the community does too," says Dr. Sandy Hazelip and Dr. Robert Deluca, who have offices at the Clinic. These Doctors, like Oswalt, engage in Family Practice. Dr. Oswalt, in addition, practices Obstetrics.

Dr. Oswalt's wife, Lesa, a Registered Nurse, will be his office nurse for the present time. The Oswalts have two sons - B. J., age 5, and Patrick, 3.

Drs. Hazelip, Deluca and Oswalt will rotate shifts with two on duty at a time. Hours the facility is open include Mondays and Tuesdays - 8 a.m. - 8 p.m., Wednesday through Fridays, 8 a.m. - 5 p.m., and Saturdays, 9 a.m. through noon.

The Doctors will be moving to another location within a few months. Plans are to construct a new two-story clinic on the corner of Plummer and Daugherty, where the Christian Service Center

is now located. The Christian Center will be moved to a new location.

Groundbreaking will be soon, with Gary Rabel of Cisco in charge of construction. The brick building will be Victorian in style, with a porch all around. It will contain 12 examining rooms and the latest in equipment.

Dr. Bill Oswalt first opened a practice in Eastland in July, 1985, straight from his Residency at John Pedersmith Hospital in Fort Worth. He and Lesa and the sons left Eastland for Waco last summer.

"In a way we never really left," Dr. Oswalt remarks. "We come back often for our friends and Church were here and we missed the community. Our boys were unhappy about leaving, and we were too."

Dr. Oswalt says the financial part of practicing in a City was "great," but he did not like living there. The Oswalts sold their Eastland home after moving, but never could bring themselves to buy a house in Waco.

Upon returning they bought a house back in their Eastland

neighborhood, and have settled in. The Doctor even has a garden planted.

"You can say that the lifestyle and people here in Eastland made us want to come back," he says. "It's really good to be home again."

Daughter Of Ciscoans Is Honored By TSTA

KRBC-TV of Abilene is proud to announce that Margie Schumacher, public service director, and Kevin Brown, production manager, have been awarded the 1989 School Bell Award for excellence by the Texas State Teachers Association (TSTA) for the second consecutive year.

The School Bell Award is presented in ten categories. Schumacher and Brown were recognized for their series of Public Service Announcements in the category of Special Consideration. They were nominated by the Abilene Educators Association and selected by a judging panel of three independent journalists.

Mrs. Schumacher is the daughter of Bill and Neeta Jacobs of Cisco. She has been with KRBC for three years.

Mr. Brown is the son of Robert and Dorilyn Brown of Minot, N.D. He has been with KRBC for four and a half years.

Now serving from District 9 are: Jim and John Dudley, Comanche; L.C. Howard, Jr., Meridian; and A.V. Freeman Jr., Gatesville. John Dudley is District 9 chairman.

Now serving from District 10 are: Jon V. Cecil, Nocona;

20th Century Club Members And Guests Hear Nancy Robinson

The Twentieth Century Club was hostess to members of the Writers Club. The Industrial Arts Club and interested citizens of Cisco in honor of their guest, Nancy Robinson Masters. Nancy Robinson Masters is a free lance reporter and her aviation column "Ups and Downs" appears not only in the Abilene Reporter News but also in 50 other syndicated newspapers and magazines throughout the country.

In developing her theme "Are you singing the song you were sent here to sing", Nancy Masters used an analogy our present very wet weather to that of Stamford's very dry weather during 1933. Taking a quantum jump to Stamford, when Nancy was 4 years of age, we pictured a drought stricken area, cracked dry earth, when 3 plantings of cotton failed and Jones County was given disaster aid. Pleasure was restricted to mostly free entertainment, which was imaginative and home-grown. It was at that very early age that Nancy Robinson, looking up to planes seeding clouds to bring rain decided that, that was the life for her! In her very exuberant way Nancy Masters proceeded to entertain her listeners with her determination to reach that goal

as well as that of her writing career. Most of us have a talent, she went on to say, and it is up to each individual to develop it with faith in the Lord to help us. West Texas people, Nancy told her avid listeners, have a special flair. Although she traveled extensively within and without the United States, she has never found that very special feeling and outward friendliness that exists here. She urged all those present to make this "The Song We Would Sing" and pass it on to future generations. In Thanking her for her presentation, Mrs. Marshall Allison, stated that Nancy Masters' new book will be published this year.

Due to an unexpected engagement, Durene McCracken, the hostess, was unable to attend, but planned the refreshments. The refreshment table was beautifully decorated with a motif of Lilac and Pink. In the middle of the lilac and pink cushioned centerpiece. Made by Frances Hathaway, was a small basket of purple African Violets. A silver coffee service and silver trays holding petite fours, decorated with pink and blue roses carried out the table theme. Ms. Louise Allison, Dorothy Donovan and Rose Kknowlden assisted with the serving.

Wester Students Present Recital In Eastland

Pianists and singers from Susan Wester's Studio of Cisco highlighted a program for the Eastland Music Club on April 18. Family members and friends of the young musicians joined Club members for this enjoyable Recital in the Women's Clubhouse.

Inez Cogburn was Leader for the event, and other hostesses were Beulah Smith and Frances Bishop. Before the music began Mrs. Cogburn introduced Linda Horn and Susan Wester as new members of the Eastland Music Club.

Mrs. Wester began her Recital by saying that she had encouraged her students to learn Schubert numbers this year, especially since the Music Club had been studying Schubert.

The program opened with Holly Greenwood playing a Schubert "Waltz in B Flat," followed by Mark Whitsel playing a Schubert "Waltz in A Minor."

These beautiful pieces were followed by two vocal numbers by Cross Plains students. Laura Rankin sang "Castle On A Cloud," and Julie Smith sang "I Dreamed A Dream." Mrs. Wester accompanied both these numbers.

Next Jacob Davidson played "Botany Bay," and Charlotte Matthews performed "The Shepherd Plays."

Linda Groce gave "Hayride," Hillary Shelton followed with "Irish Washerwoman," and Dana Manning played "Chipmunk Lullaby."

Kristen Stroebel gave a Beethoven number called "Eccossaisi." Shana Truett played "Sonatina In C," and Hannah Nix played a Brahms "Lullaby."

Treva Webb continued the Recital by playing "Chocolate Soldiers," and Todd Hunt played "Gadabout Grasshopper." Next on the program was Ann Hounshell with several numbers: "The Hunting Horn," "Echo," and "I Dance With A Mosquito."

Kristi Manning played a Bach "Minuet in G Minor," and Janeka Stroebel played "Barn Dance Shuffle."

Toward the end of the program Holly Greenwood played "Sonatina" by Kuhlalu, and Mark Whitsel performed Chopin's "Prelude in E Minor."

Mrs. Wester then called on a singing group, the "Folk Life Festival Kids," to give a preview of their weekend performance scheduled for the Cisco Folk Life Festival. This lively group sang "Baby Face," making a good finale for the Recital.

Mrs. Wester said that all her piano students would be involved in National Piano Guild Auditions in about a month, giving them an op-

portunity to learn their ratings. Music Club members stated they felt the ratings. Music Club members stated they felt the ratings would be high ones indeed.

After the Recital Mark Whitsel was presented the Anna Barbara Kinniard Scholarship Award from the Eastland Music Club. Virginia Russell, Club President, presented the honor. This Annual Scholarship recognizes outstanding young musicians.

As the program concluded, Viola Payne, local Chairman for National Music Week, reminded the crowd that this event will be celebrated her May 6-13. The motto for 1990 is "Music - It's Place In The World."
