### Nearly 20 miles of Padre beaches blackened by oil

CORPUS CHRISTI (AP) - History's worst oil spill has blackened almost 20 miles of scenic Texas beaches, and a top scientist said the situation will worsen and remain critical until winds shift to the north this fall.

"It's going to worsen in terms of its coverage of the beaches. There will be larger areas every day than we've had, at least for a while," said John Robinson, scientific coordinator of a government task force.

'The only thing coming up that will help us is the reversal of the currents and the northerly winds sometime in the fall," he added Thursday. The Ixtoc 1 offshore well near the Yucatan Peninsula blew out June 3 and has

since been spewing thousands of barrels of oil daily, producing a spill that covers thousands of square miles in the western Gulf of Mexico. The gooey crude oil began soiling the white resort beaches of southern Texas

Monday afternoon. More than 10 miles of beaches on the northern end of 100-mile-long Padre Island were fouled Tuesday and Wednesday More than six miles of beach in the plush resort area of South Padre Island were coated Thursday in what was the oil's hardest blow yet to that popular

vacation area The multi-million dollar tourist industry that feeds a major portion of the coastal economy is reeling from the oily onslaught.

'What we're looking at is the loss of several million dollars over the next few weeks if this trend continues," said Ralph Thompson, spokesman for the South Padre Island Chamber of Commerce. Since the spill approached, about 30 percent fewer tourists have visited the

glistening strip of luxury hotels and condominiums than for the same period a Meanwhile, giant patches of oil, some of them several miles long, are still

drifting off the Texas coast. Some were as close as 10 miles offshore One massive patch dozens of square miles in size lurked 25 miles southeast of Corpus Christi Thursday night, and Robinson said it could hit Matagorda Bay about 100 miles farther north - by next week.

Most of the oil remained south of Texas and Robinson said it threatens the entire Texas coast and perhaps Lousiaiana. Navy spotters located suspected Mexican oil Tuesday about 110 miles south

of Grand Isle, La., but flights Wednesday nearer that coast raised the possibility the surprise sighting was sargassum seaweed, or waste oil from Thursday's reflight at a lower altitude located seaweed in the middle of a

50-mile long latch of sheen 95 miles south of Louisiana, but was unable to connect the oil to the Mexican spill.

"They can't for sure say it isn't (Mexican oil), but nobody is saying it is. It would appear it's less likely it's Mexican oil," said Dick Newell of the Nationalal Oceanic and Atmospheric Administration. "Oil that far north seemed like a very unlikely occurrence," Robinson said before Thursday's reflight. "It may be weeks before we have any quantities of

oil near Louisiana, if it even gets that far." The oil's relentless advance forced Coast Guard officials Thursday to install anti-oil booms and skimmers in the 1,550-foot-wide Aransas Pass, the heavily traveled channel into the Port of Corpus Christi.

Rhonda Liles of the U.S. Department of Wildlife Damage Control, washes the oil off a Blue-faced booby which was washed ashore on Padre Island where oil from the runaway Mexican oil well continues to foul beaches. (AP Laserphoto)

# Young says U.N. debate 'good'

### Deposed ambassador says it will help shape policy

WASHINGTON (AP) - Andrew Young said today the debate sparked by his resignation as U.S. ambassador to the United Nations is "probably very good" for the United States in helping decide its relationship with both Israel and the Palestinians.

Young, in an interview on NBC-TV's "Today" program, said that without a "reasonable solution to our relationships both with Israel and with the Palestinians...United States foreign policy is going to be seriously hampered.

Again defending his unauthorized meeting with a representative of the Palestine Liberation Organization, Young said that if he made a mistake it was in telling "the whole truth to the Israeli ambassador" to the United

Nations, Yehuda Blum. "And I think the Israelis made a mistake by going public with their protest," he said. He added that he did not think the Israelis understood "the domestic political implications of making a protest over my involvement with the observer for the

But in a separate interview on NBC, Yigal Yadin, deputy prime minister of Israel, defended the Israeli action. "If an Israeli ambassador is being told that an American official has done something which is contrary to the American policy, it's obviously our duty to protest to the United

States," Yadin said. Yadin also said, "The real problem for us is whether the United States is going to talk, negotiate with the Pa-

He said the Palestinians "are moving toward saying they do recognize Israel's right to exist and want to talk with us about a similar recognition of their rights, and that those rights include statehood. We have not been able to agree to the question of a

"What blacks are saying is the survival and

integrity and security of Israel should not interfere with similar rights for Palestinians." — Andrew

lestine Liberation Organization or

Young, questioned about a possible schism between black and Jewish communities over his resignation, said he did not think there was "any question about the survival or the integrity and security of the nation of

"What blacks are saying is the survival and integrity and security of Israel should not interfere with similar rights for Palestinians.

According to Young, an upcoming resolution in the United Nations on the Middle East "did imply recognition" by the Palestinians of Israel's

Palestinian state."

In an interview on ABC-TV's "20-20" program Thursday night, Young was asked if U.S. policy toward the PLO was changing.

He replied: "I don't think so, but I think it should...because I think that here is a force that is not only creating difficulty in the Middle East, but it is creating difficulties in the Middle East which are having an impact on the lives of the American people." He

did not elaborate. "My remaining in the office would have created such a controversy about whether I was right or wrong, we would not have been able to deal with some of the important issues,'

he said. "The important issue really is how to find peace in the Middle

The outspoken Young, who made a number of verbal gaffes during his 21/2-year tenure as a U.N. diplomat, handed in his resignation to President Carter Wednesday, saying he felt he was "in some ways continuing to jeopardize the administration."

During the ABC interview, he noted: "The irony of this is I have known for 21/2 years that this is an extremely explosive issue. And I have always said this was not my issue."

Young's resignation met sharp reaction in the Middle East and at

-In Beirut, PLO spokesman Mahmoud Labadi said: "The ouster of an honest Andrew Young shows strongly that the American administration is shackled by Zionist influence" and "is still yielding to Zionist extortion

and pressure.' -In Israel, the government's foreign ministry spokesman Michael Shiloh said despite the resignation, "the concern existing two or three days ago is still with us.

-Democratic Party officials acknowledged Young's resignation would cause "considerable discussion and confusion in the black community.'

### on campaign for energy plan WASHINGTON (AP) - President Carter, seeking some solitude and relaxation amid a floating campaign for his energy program, embarks tonight on a seven-day trip down the Mississippi River on an old-fashioned He is flying to St. Paul, Minn., in the late afternoon to begin his week-long

Carter embarks

adventure aboard the Delta Queen, plying the upper reaches of the river along the Minnesota, Wisconsin, Iowa and Missouri shores to St. Louis.

Before boarding the 53-year-old steamboat, he will attend an energy briefing this evening in St. Paul, the first of several energy-related appearances he has planned along the river.

The president, who in the last year has taken advantage of some exotic forms of transportation - a raft on a wilderness river, a train through the Egyptian countryside - will be able to take advantage of what is advertised as "the pampered, good life." It is costing him about \$1,800, White House officials said. Brochures listing the Delta Queen's features note its "sumptuous dining,

exquisite cuisine." Should Carter, his wife and daughter choose, they can sample "riverboat ramblin' at its liveliest 'till the wee hours of the morn-Not to be overlooked, either, are the "burnished brass railings and trim .

rich mahogany ... ornate stained glass windows ... floors of rare Siamese ironbark. "She preserves in grand style the romance and pageantry of a bygone era," the boat's owners advertise. Indeed, she is listed in the Interior

Department's National Register of Historic Places. The boat's diversions include jogging on deck, checkers, cards and kite

Carter will go ashore at least four times, stopping in Prairie du Chien, Wis.; Davenport and Burlington, Iowa; and Hannibal, Mo., for a town meeting, a picnic, a radio call-in show and a factory tour to study its energy conservation program.

With two stops in Iowa, the trip is likely to carry some political overtones. Iowa, which holds its caucus to begin choosing Democratic Party convention delegates in January, played a key role in launching Carter's successful 1976 campaign.

White House press secretary Jody Powell acknowledged the campaign aspects of the trip, but said that the campaign would be to win public sup-

port for the president's energy program. In between, he said, the president plans to relax. Slowly, for that matter, because the boat's top speed is 10 miles an hour. Carter has had little time to relax this summer - a period when he has

in the past spent time camping or living by a light schedule at Camp So, the trip is seen as a brief vacation between the Cabinet and staff

shake-ups and the return of Congress to deliberate the arms limitation treaty and his energy program. Relaxing, according to Mark Twain, is something one can do on a Mississippi River steamboat.

At sunrise, he wrote, "there is the eloquence of silence, for a deep hush broods everywhere." "Next, there is the haunting sense of isolation, remoteness from the worry and bustle of the world ... the tranquillity is profound and infinitely

In Twain's early years, the boats were a prime source of transportation in the Midwest. This boat, however, has seen different service.

The Delta Queen, rebuilt after serving in the San Francisco Bay, was a ferry that transported troops and wounded GIs during World War II. Among the 188 passengers the boat can carry will be a number of Secret Service agents, communications experts, White House officials and reporters. Thirty-eight passengers holding complimentary passes were bumped from the voyage to make room for the presidential party, according to the boat

The 285-foot craft was built in Scotland in 1926, years after steamboat travel on the Mississippi went out of fashion. It has been given five exemptions by Congress excusing it from observing certain Safety at Sea laws that would condemn her because she has a wooden superstructure.

She has been remodeled to include air conditioning and other modern amenities and her safety equipment includes an automatic fire detection and alarm system.

### Two dead, one injured in separate bike mishaps

By MIKE SLATON

Two traffic accidents early today in north Midland resulted in the deaths of two men and in the critical condition of a 15-year-old Dallas girl.

The accidents occurred within 20 minutes of each other. Both involved motorcycles.

Richard Lee Pearson, 20, Route 5, was pronounced dead at the scene about 1:37 a.m. at the intersection of FM 868 and Whitmire Boulevard near Haystack Apartments, according to police reports.

Peace Justice Robert Pine pronounced Pearson dead.

Jerry Ray Woods, 2511 Seaboard Ave., a passenger on Pearson's motorcycle, died in Midland Memorial Hospital's emergency room shortly after the accident

Injured in the other accident was Lisa Luckey, 15, of Dallas.

According to reports, Miss Luckey was listed in critical condition at Mid-

land Memorial Hospital early today. She was injured in a motorcycle mishap about 1:14 a.m in the 3000 block of West Wadley Avenue, two blocks west of Wadley Avenue's intersection with Ward Street.

Driver of that motorcycle was Michael Rayburn, 21, 1800 N. H St., police said.

Rayburn was treated for cuts and bruises at Midland Memorial Hospital and was released, officials indi-

According to police officer Gary Painter, who investigated the FM 868 accident, the motorcycle Pearson and Woods were riding apparently was eastbound on FM 868.

Painter said a car driven by Gary James Reagan, 22, 1601 W. Pine Ave., was westbound on that roadway when the two vehicles collided. Both Pearson and Woods were

thrown from the motorcycle, and Pearson was struck by a second car, also westbound on FM 868, Painter

Driver of the second car was identified as Brent Dotson, 2438 Whitmire Blvd. An arrest has been made in connection with the FM 868 fatalities, officials said.

About 20 minutes earlier, officials said, Miss Luckey was critically injured when the motorcycle she and Rayburn were riding apparently struck a curb and went out of con-

No other vehicle was involved in that mishap, according to Robert Mosley, police officer who investigat-

ed the incident. Police said none of the riders in the two accidents was wearing a helmet.

### Pat Estes named to position on hospital board of trustees

Pat Estes was chosen to fill the unexpired term of Dr. Michael Burleson Thursday at the regular meeting of the Midland County Hospital District board of trustees. Burleson, an outspoken critic of the hospital management during his term

on the board, resigned last month to move his practice to California. Mrs. Estes, the runner-up in an at-large election for the hospital district board last April, will serve until the April 1980 election.

A public hearing on the proposed \$10.98 million budget drew no response from Midlanders. Directors approved the budget and set the tax rate at 15 cents per \$100 valuation - the same rate as last year - after they were assured the budget was "very good and very tight" by Tevis Hurd, president of the

hospital's board of directors. According to projections by the hospital trustees, no tax funds will be used to fund the operating expenses of the hospital, but \$756,000 in depreciation and capital improvements will be taken from district tax funds.

Warm weather is expected today through Saturday morning for most of the nation. Cooler weather is forecast for the central Pacific coast. Showers are forecast for the Southwest and for the Midwest and Great Lakes. (AP Laserphoto Map)

#### Texas area forecasts

ntains.... Mid 60s Panhandle to mid 70s Big

North Texas: Mostly clear nights and partly cloudy days. Warm through Saturday. Afternon highs in the 90s. Low tonight 69 to 76.

South Texas: Widely scattered showers and thunder-showers mainly along the Coast and southeast spreading over-most of south Texas Saturday. Little change in temperature. Highs through Saturday in the 90s except near 100 west. Lows tonight in the 70s except near 80 along the Coast.

Port Arthur to Port O'Connor: Easterly wines 5 to 10 knots through tonight becoming southeast near 10 knots Saturday. Seas 1 to 3 feet. Winds and seas briefly higher in and near isolated showers and thundershowers.

Port O'Connor to Brownsville: Southeast winds near 10 knots through Saturday. Seas 2 to 4 feet. Winds and seas briefly higher near isolated thundershowers.

### 63-year-old state hospital inmate charged with theft

BIG SPRING - A 63-year-old state hospital inmate Thursday was charged in the alleged theft July 25 of a suitcase containing payroll checks worth about \$96,000.

Johnny Earl Edwards of Big Spring was charged with theft in excess of \$10,000. Peace Justice Lewis Heflin set bond at \$20,000.

Edwards was in City-Jail here early today in lieu of bond.

He was arrested Thursday at the Big Spring State Hospital, where he was a patient, according to a Big Spring police spokesman.

At the time of the arrest, police said, Edwards did not have the suitcase containing the \$96,000 in checks. However, officers said he told them the suitcase might be somewhere in

On July 25, a suitcase containing payroll checks was en route to Midland from the F.W.A. Drilling Company in Wichita Falls. While in a Big Spring bus depot, the suitcase allegedly was stolen, police said. A man is known to have wanted to

sell the suitcase and its contents for a couple of dollars, the police spokesman said, when he discovered the suitcase's contents.

Another man, Roger Roy Lusk of Big Spring, was arrested Aug. 1 in connection with the suitcase and was released from jail on a \$5,000 personal recognizance bond.

### Service station operator to sue Exxon

A Midland service station operator claims his retail service station lease and sales agreement with Exxon Company, U.S.A., was unlawfully ter-

The operator filed a motion for a temporary restraining order Thursday in U.S. District Court here.

James H. Parrish, who operates Parrish Village Exxon Station, 301 Andrews Highway, filed the motion, asking temporarily to restrain Exxon from terminating its agreement with him and that he be allowed to continue to operate until the suit can be heard in its entirety.

The petition also asks that Exxon be ordered to continue allocating gasoine to Parrish pending a hearing on the temporary injunction.

The petition claims that Parrish has had a retail service station lease and sales agreement with Exxon since June 7, 1978.

On May 4, 1979, according to the petition, Parrish received a letter from the company stating that the agreement would not be renewed as of June 7, 1979.

That termination date later was extended to Aug. 21, 1979, the petition

Representatives of Exxon told Parrish the agreement would not be renewed "because of the alleged willful sale by the Plaintiff (Parrish) of non-Exxon gasoline under Exxon's

trademark . . . ," the petition states.
According to J.B. Montgomery,
Exxon's Midland district manager, "I am not aware that a lawsuit has been actually filed, but, as a matter of fact, a decision was made last week to offer to renew Mr. Parrish's lease. Mr. Parrish is aware of this deci-

No date for a hearing on the temporary restraining order had been set as of Thursday.

### Nation to get occasional rain storms

Thundershowers are to run from eastern portions of the northern Mississippi Valley across the Great Lakes and the lower Ohio Valley

There also will be scattered thundershowers in the central and southern Pleateau, the lower two-thirds of the Rockies, the central Plains and the western Gulf states and Florida. Early today, showers and occasion-

al thundershowers were scattered from inland portions of the Pacific Coast into Wyoming, Colorado and through South Texas. Showers also were reported in Wisconsin, Michigan, Florida and along the South Carolina coast.

Temperatures around the nation at 3 a.m. EDT ranged from 35 in Bradford, Pa., to 83 in Fort Lauderdale

and Key West, Fla. Here are some other temperatures

and weather conditions: Eastern U.S. - Atlanta 67 cloudy, Boston 62 clear, Cincinnati 54 clear, Cleveland 55 partly cloudy, Detroit 58 cloudy, Miami 81 clear, New York 63 clear, Philadelphia 58 clear, Pittsburgh 55 clear, Washington 63 clear.

Central U.S. - Chicago 65 partly cloudy, Denver 61 clear, Des Moines 71 cloudy, Fort Worth 75 clear, Indianapolis 59 clear, Kansas City 72 clear, Louisville 61 clear, Minneapolis-St. Paul 64 cloudy, Nashville 61 clear, New Orleans 75 hazy, St.Louis 68

Western U.S. - Anchorage 56 showers, Los Angeles 67 clear, Phoenix 79 partly cloudy, Salt Lake City 70 cloudy, San Diego 71 cloudy, Seattle

Canada - Montreal 52 clear, Toronto 50 partly cloudy. Rain-laden clouds lingered today

over West Texas, where heavy thunderstorms struck Thursday. The National Weather Service called for widely scattered showers and thunderstorms for eastern sections of the state also, with a few

Billie Sol Estes, right, is escorted into Dallas County jail by an unidentified U.S. marshal in Dallas Thursday. A shaken Estes was taken into

custody shortly after U.S. District Judge Robert Hill overruled a defense motion for a new trial. (AP

### Acting on secret order, judge revokes Billie Sol Estes' parole

DALLAS (AP) - Freedom's doors have slammed again for Billy Sol Estes, but the convicted con man's legal battles are not over.

Thursday after U.S. District Judge Robert Hill overruled a defense motion for a new trial: "I'm going to have to go with

Estes was taken into custody

them," Estes mumbled to his shocked wife, Patsy. "They've revoked my U.S. Marshal Clint Peoples, acting

on a warrant issued eight months ago by the U.S. Parole Commission, rushed Estes from the courtroom to the Dallas County Jail, where he will wait to be transferred to a federal instituion. 'We're going to move him out of

here pretty fast ... in a maximum of a week," Peoples said. Wayne Allgood, the commission's

acting administrative director, said a parole revokation hearing will be held within 90 days. Considered by his attorney to be the

'most notorious swindler in modern U.S. history," Estes gained national attention in the early 1960s when he was sentenced to a 15-year term for selling non-existent fertilizer tanks to the government and hundreds of West Texas farmers

Guvon's arrest.

"They made me think I was the only one in the country who didn't believe he (Estes) was guilty."
Hill denied the motion, saying he

was skeptical about Loggins' testimony and noting the juror had done nothing to prove he was influenced by the articles. Jurors, who convicted Estes on two

counts, deadlocked 10-2 in favor of acquittal on a third case and forced a mistrial.

The government may still retry Estes and co-defendant Raymnd K Horton on charges they bilked legitimate leasing companies out of \$600,-000 on a non-existent oil field steam cleaner deal.

Rolfe said earlier the government "probably" will seek a new trial. However, he declined comment on the prospects Thursday

### Showers could tiptoe through

A few thunderstorms and light showers like the ones enjoyed by some area residents Thursday night could wander through the Permian Basin area this weekend, the weatherman said.

Partly cloudy with a slight chance of thunderstorms through Saturday is the official word from the National Weather Service office at Midland Regional Airport.

While the probability of rain remains at only 20 percent through Saturday, the probability of warm temperatures is considerably higher. High Saturday should be near 90, with the low tonight expected to be near

Southerly winds should decrease to 5-10 mph tonight.

Thursday, one of those selective little showers dropped .01 inch on the weather service rain gauge, upping the monthly rainfall total to .42 inch and the annual accumulation to 10.45

High Thursday was recorded at 92 degrees, not even close to the record of 104 set in 1946. Overnight low was 70, degrees above the record low for today's date of 60 degrees set in Most area towns were enjoying a

cool morning today after an occassional overnight shower.

#### project on Cleveland's east side about 9:30, Czarnecki said. heavy storms in Southwest Texas. 'Windfall profit' tax just excise tax, warns Kreuz

By ED TODD Staff Writer

The so-called "windfall profits" tax President Jimmy Carter has proposed on major and independent oil companies is "nothing more than an excise tax," C.R. "Raleigh" Kreuz told the Downtown Midland Rotary Club at Thursday noon in The Midland Hilton.

"Don't let him fool you," cautioned Kruez, a former Midlander who is division environmental and regulatory manager for Mobil Oil Corp.'s Houston E&P (exploration and producing) Division.

The windfalls profits-tax proposal emerged last April, when President Carter announced he would permit "gradual decontrol" of domestic oil so its price would rise to the world price by 1981.

"But there was a hook in President Carter's proposal," Kreuz said. "...It was not decontrol at all. He wants to impose a tax on profits."

And in that regard, Kreuz said "profits" perhaps is not the best word to denote returns on investments.

"WE NEED TO PUT profits in per-

spective," he said. "We need to call

them earnings, because profits has almost become a four-letter word." He defined profits as a "percentage return on equity" and said that the oil

industry's return last year was 14.3 percent, while the average for all U.S. industries was 15.9 percent. The government's imposition of a "substantial (windfall) tax on the revenues from existing domestic oil

and on oil yet to be discovered...amounts to a windfall for the government." Kreuz said Mobil has offered a proposal to end debate over "wind-

falls" and to get the "debate back on the track of how to produce more oil for America.' That proposal would be for the oil

industry to "forgo higher prices on domestic crude oil already being produced, except for inflation adjustments, provided the oil industry is allowed to receive the world price for oil it discovers in the future with no special tax beyond the normal federal, state and local taxes the industry already pays.

"That way, there could not possibly be any 'windfall," he said. "This bogus issue would be removed from the scene, and we could get on with the job of finding more oil."

MOBIL'S PROPOSAL differs from the position taken by others in the oil industry, Kreuz said.

"The industry position calls for decontrol of all domestic oil and no 'windfall profits' tax." He said Mobil's position doesn't

mean that Mobil has "backed away from seeking decontrol "But in our mind, it was more important to give up an immediate

gain for the longer-term objective of finding more oil for America. And Kreuz, in his speech titled "Making Sense Out of the Gasoline Problem," outlined reasons behind the current energy crunch and the needs and means to find, produce and

refine more petroleum. He listed four common causes of the energy problem: -The revolution in Iran, which in-

terrupted oil production there and put the U.S. in a "bind." -America's refining capacity is insufficient to produce enough gasoline

and heating oil. -The fuel allocation and distribution system didn't work due to possible mismanagement by the oil companies or the government or both.

Kreuz implied that the fourth answer was most plausible:

-"This country has failed to buckle down and implement a sensible en-

confusion stirred up by high-level and often irresponsible and acrimonious talk about obscene profits, monopolies, conspiracies and so forth." Kreuz said the U.S. government has

"AND SO WE'RE IN a whirlwind of

done "nothing" to cope with the "potential future (fuel) shortage. Furthermore, he maintained, the

petroleum industry has "not had the proper incentives to drill for (additional) oil and gas.'

He pointed to complementary and alternative sources of energy: -Coal reserves. Kreuz said the U.S.

has enough coal to fuel the country for the next 300 years at the present use rate, yet coal supplies only 18 percent of the energy in use now. Holding the brakes on coal production are "regulatory red tape" and "environmental regulations."

Environmentalists object to the scars of strip-mining, and anti-pollution equipment is expensive.

-Nuclear power. "Nuclear power, which once looked like an important alternative to petroleum, has been severely set back by the accident at Three Mile Island.

"We need nuclear power, and we need it most during the coming years until some of the other alternatives solar energy, synthetic fuel and the rest - become commercial."

UNTIL SOLAR and alternative energy sources become widely implemented, the nation will have to depend on petroleum, said Kreuz. And the oil industry must have "price incentives" before taking on additional "costly exploration" in finding and producing more oil and gas.

The necessary and proper incentives needed to produce more petroleum and energy is not the only thing that should concern the nation, said Kreuz.

"It's not only a matter of energy important as that may be. It's also a matter of keeping our nation's economy growing, and it can be done only if the general climate remains conducive for the private sector to make the investment that create jobs.

Kreuz also noted the "anti-business rumblings these days.' "...(such)...sentiment (abroad and

at home) can become highly conta-

gious. And it is precisely the wrong medicine for what ails this nation.

"What this country needs is a broadening of its economic base in order to create employment and to redress our dismal balance of pay-

Broadening of that economic base, said Kreuz, requires "confidence in private enterprise and a secure energy supply.'

### U.S. envoy makes dramatic entrance

TEL AVIV, Israel (AP) - U.S. envoy Robert Strauss, flying here to soothe Israeli fears about a reputed shift in U.S. Mideast policy, made a dramatic entrance today when his plane made an emergency landing at Ben-Gurion Interna-

The pilot of the Boeing 707 from the White House fleet reported possible malfunctions in two hydraulic pumps linked to the plane's brakes, Israel radio said. The plane, carrying Strauss from Washington, landed safely on the airport's longest runway, stretching nearly two

Strauss, President Carter's special Mideast envoy, was sent to Israel as relations between the two nations plummeted over the Andrew Young resignation and what Jerusalem perceives as a pro-Palestinian tilt by the Carter administration.

#### Kurdish rebels shoot down jet

TEHRAN, Iran (AP) - Kurdish rebels fighting government troops in the embattled Kurdish town of Paveh in western Iran reportedly shot down a government Phantom jet as it attacked rebel positions, a Kurdish organization said

A statement issued by the Association of Kurdish Residents of Tehran said bloody house-tohouse fighting broke out in Paveh, 25 miles from the Iraqi border, Tuesday night and has been under way ever since. At least 16 revolution ary guardsmen and 4 Kurds have been killed and scores have been wounded on both sides, the statement said.

There was no immediate government comment on the report.

### Iran stages pro-PLO rally

TEHRAN, Iran (AP) - Hundreds of thousands of Iranians converged on Tehran University today chanting "Israel is dead, Palestine is victorious" in a mass show of solidarity with the Palestinian people.

Demonstrators carried posters of Palestine Liberation Organization chief Yasser Arafat and Ayatollah Ruhollah Khomeini, the Moslem patriarch and leader of Iran's revolution who

ordered the pro-Palestinian rally. Participants included women clad in the traditional black chadors, the head-to-toe veil worn as a mark of respect to the Moslem faith, and men who brought along their prayer mats for midday services. Many carried children in their

The crowd was so thick, that many were unable to approach the university campus where speakers attacked Israel and imperialism.

### Execution squad kills eight

SAN SALVADOR, El Salvador (AP) - An execution squad killed eight men in a mechanics shop Thursday after a police sweep throught the neighborhood looking for leftists. The police said the shop appeared to be a guerrilla armory.

Neighbors said at least eight men armed with submachine guns arrived in three vehicles, broke into the building, lined up those inside and

"They were men with wigs and with their faces spotted with lampblack," one neighbor

### U.S. ambassador not reprimanded for PLO contact

WASHINGTON (AP) — The State Department says it is closing the case of a second American ambassador who met with a PLO representative without explaining how the two men wound up together on the same airplane with Austrian Chancellor Bruno Kreisky.

Spokesman Thomas Reston said the ambassador to Austria, Milton Wolf, was not reprimanded for his contacts with the Palestine Liberation Organization and "we consider the matter to be closed.

Standing U.S. policy prohibits negotiations or even substantive contact with the PLO, an organization committed to the destruction of Israel. Reston said Wolf has been sent a reminder of that policy

Andrew Young, the U.S. ambassador to the United Nations, resigned Wednesday after disclosure that he met last month with Zehdi Labib Terzi of the PLO to discuss procedures for delaying Security Council debate on the Palestinian issue. Terzi is the PLO's observer at the United Nations.

In an NBC-TV interview today, Young was asked about charges by some black leaders that the State Department used a double standard in his case and

Young replied: "I really think that is a totally irrelevant question. I think that Ambassador Wolf has been a responsible diplomat.

"The situatuon in Austria is quite different from the situation in many other places, and a good diplomat in order to be informed of the kind of relationship that Austria is developing with the PLO ought to be involved and report back to the secretary of state what is going on.

Wolf, a former Cleveland businessman, met three times with Isa Sartawi, the PLO representative in Vienna, according to the State Department.

But department officials said Wolf did not discuss substantive issues with Sartawi at any of the three meetings, two of which were described as chance

On June 12, reporters were told, they flew from Paris to Vienna on a plane chartered by Kreisky. Reston called it a "chance encounter" and said he did not know why Wolf boarded the plane in Paris or how much time the ambassador and the PLO representative spent together.

Three weeks later, Yasser Arafat, head of the PLO, met in Vienna with Kreisky to assess prospects for Palestinian statehood and U.S. recognition.

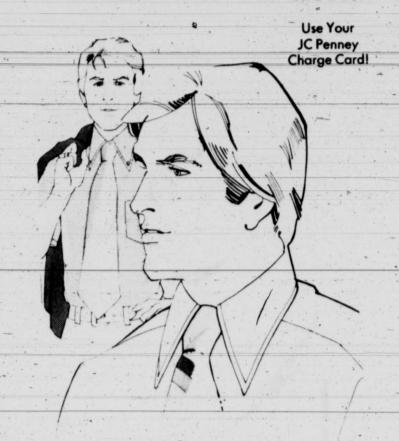

The next week, Wolf met with Sartawi again - this time, Reston said, in response to a telephone call from the PLO official - and they discussed the communique on the windup of the Kreisky-Arafat

In between the airplane encounter and the post-Arafat meeting, the State Department said there was another chance encounter between Wolf and Sartawi, but said it had no details of that meeting. Wolf telephoned a report to the State Department of his meeting with Sartawi after the Arafat visit to

Austria and cabled reports on his two earlier contacts with Sartawi, the spokesman said. Of the plane ride, Reston said, "The department does not regard this as contravening our policy with

regard to the PLO.' While Wolf and Sartawi were in touch, the Carter administration was trying to determine - through intermediaries, according to U.S. officials - whether the PLO was prepared to accept Israel's right to

### Tom M. Dempsey

ELDORADO — Graveside services for 70m Marshall Dempsey, 56, father of Dwain Dempsey of Midland, will be at 11 a.m. Saturday in Eldorado Cemetery directed by Kerbow Funeral Home

Dempsey died Thursday at his Christoval residence following an ill-

He was born March 27, 1923, in Tom Green County. He was a self-employed welder. He moved to Eldorado in 1950 and in 1976 to Christoval, where he attended school. He was a World War II veteran.

Other survivors include a son, Charles M. Dempsey of San Angelo; two daughters, Tommye Nance of Tahoka and Elaine Smith of Brownfield; his mother, Charlene Kirk of Christoval; a brother, Butch Kirk of Hereford; two sisters, Mary Necessary of Christoval and Sue Marion of San Antonio, and four grandchil-

### Alfred Walker

CRANE - Services for Alfred Elmo Walker, 66, father of Mrs. Don Smith and William F. Walker, both of Midland, will be at 2:30 p.m. Saturday in Sheppard Chapel of Memories in Crane

Burial will be in Crane Garden of Memories. Walker died early Thursday at his

residence following a brief illness. He was born June 4, 1913, in Gregg County. He was married to Georgia Corbell Sept. 15, 1967, in Midland.

Walker was a retired pipeline su-perintendent. He was a member of the First United Methodist Church, the Masonic Lodge and the Crane Noon Lions Club.

Other survivors include his wife; four daughters, Mrs. H.C. Marrell Jr. of Fort Knox, Ky., Mrs. Clifton Gayle of Abilene, Mrs. David Griffin of Crane and Mrs. John Sibley of Carlsbad, N.M.; a son, Pete W. Walker of Garland; a sister, Mrs. Raymond McHanney of Kilgore; a brother, John M. Walker of Longview, 10 grandchildren and a great-grand-

### V. Anderson

Virginia Anderson, 50, 2003 Douglas Ave., died Thursday in a Midland

Services will be at 10 a.m. Saturday in Newnie W. Ellis Funeral Home Chapel with the Rev. J.B. Stewart officiating. Burial will be in Resthaven Memorial Park.

Mrs. Anderson was born Aug. 18, 1928, in El Paso, where she was reared. She was graduated from college in Missouri She moved in the 1950s to Midland,

where she taught school for a number ten in her home.

Survivors include her mother, Bess Neil of Midland.

Pallbearers will be B.J. Littlejohn, N.E. Webernick, Joe Gieb, Gary Aker, John Whitmore and Maurice

### Othell Meeks

TAHOKA - Services for Othell Wilburn Meeks, 54, of Tahoka, brother of Hazel Love of Midland, were to be at 10:30 a.m. today in the First Baptist Church in Tahoka with burial in Southland Cemetery in Southland directed by White Funeral Home in Tahoka

Meeks died Wednesday in a Lubbock hospital after an illness. Born in Merkel, he moved to Lynn County from Rotan in 1928. He was a

farmer. He was a member of the Masonic Lodge and the First Baptist Church of Tahoka.

He was married to Fannie Holsenbeck Jan. 15, 1949.

Other survivors include his wife, a daughter, two sons, his mother, a brother and two sisters.

### Fannie Mizzell

Services for Fannie Mizzell, 92, 1006 S. Fort Worth St., will be at 2 p.m. Saturday in Newnie W. Ellis Funeral Home Chapel with the Rev. James Barnes of the Church of God in Stanton officiating.

Burial will be in Resthaven Memorial Park.

She died Thursday in a Stanton nursing home.

Mrs. Mizzell was born Feb. 12, 1887, in Callahan County and spent her early life in Waxahachie. She was married to J.H. Lay in 1910 and lived in Paris (Texas) and Bangs before moving to Midland County in 1923.

The couple farmed in the Greenwood community. Lay died in 1958. She subsequently was married to

Jimmy Mizzell. Mrs. Mizzell was a member of the Greenwood Baptist Church.

Survivors include her husband; a son, Charlie Lay of Midland; three daughter, Johnnie Tubbs of Garland, Ruby Harmon of Midland and Gladys Boren of Stanton; eight grandchildren, three great-grandchildren and a great-great-grandchild.

### Myrtle Overstreet

ABERNATHY - Services for Myrtle Lee Overstreet, 68, of Eldorado, mother of Vicki Cooper of Ozona, were held Thursday in First United Methodist Church here with burial in Abernathy Cemetery directed by Chambers Funeral Home.

She died Tuesday in a Lubbock hospital after a lengthy illness.

Mrs. Overstreet was born Sept. 17, 1910, in Lubbock County and had lived in Eldorado 15 years. She was a member of First Baptist Church of Eldora-

Other survivors include her husband, four sons, three daughters, two brothers, three sisters, 21 grandchildren and three great-grandchildren.

### **Dorothy Dixon**

Dorothy Dixon, 50, 2200 S. Lamesa Road, died Wednesday. Services are pending at Hawkins Funeral Home in Jacksboro.

### War on smoking continues, despite firing of Califano

WASHINGTON (AP) - A small band of federal bureaucrats fighting the government's war on smoking say the battle is continuing although their first general, Joseph A. Califano Jr., has been deposed.

John Pinney, director of the Office on Smoking and Health, said his mission has not changed since President Carter fired Califano, a zealous crusader against smoking.

Patricia Roberts Harris, successor to Califano as head of the Department of Health, Education and Welfare, said at her Senate confirmation hearings she supports the anti-smoking program and would feel compelled to start one if it were not already

"We're expecting business as usual," Pinney said in an interview. But it is not yet known whether Mrs. Harris, who does not smoke, will fill

Califano's shoes in the front lines of the anti-smoking crusade. Although the Carter administration

has boosted federal spending on smoking research and education from roughly \$20 million two years ago to \$44 million for fiscal 1980, only a small portion of that is spent by Pinney's

His budget for a staff of 16 (including two cigarette smokers and a cigar smoker) is \$2.5 million, and their primary work is to compile and disseminate information about smoking. Congress failed to appropriate an extra \$1 million the office was supposed to get for 1980.

But it did fund a new \$10 million program of grants to states to discourage youths from smoking and drinking alcohol.

Pinney, 35, a management expert who formally ran the National Council on Alcoholism, was put in charge of the HEW agency 16 months ago, just a few months after kicking his own cigarette habit. Califano upgraded the office from what had been HEW's National Clearinghouse for Smoking and Health, which the Nixon administration had exiled to Atlanta.

The office "isn't a Cadillac or a Rolls Royce, but I think it's a hell of an effective Chevette," said Pinney, an ex-Navy officer.

### Texas nuke plant has 'potentially serious' design problem, NRC says

MINERAL WELLS, Texas (AP) -The Comanche Peak nuclear power plant under construction has a "potentially serious" design shortcoming that would lead to a shortage of cook ing water should a particular accident occur, the Nuclear Regulatory Commission says.

A six-man committee - set up by Texas Utilities Co., builder of the plant, after the Three Mile Island accident to review the plant design discovered the cooling water design problem.

Dick Ramsey, a spokesman for the company, said it would have been serious if an accident requiring a backup source of cooling water were to occur during a blackout in the plant, which would require the use of emergency generators fueled by die-

In such a situation, Ramsey said, there would be insufficient water to use for both the backup cooling and for cooling the diesel generators.

Karl V. Seyfrit, regional director of the NRC, said the problem was potentially serious if it had not been caught, but said testing before the plant opened would probably have detected

"The likelihood of this getting to the

point where it would be involved in an accident is very remote," Seyfrit

The latest commission inspection report, based on June inspections, also said more substandard welding

has been found in the plant.
The report said Texas Utilities reported three below-standard welds in the supports of trays on which safety-related electrical cables rest.

Faulty welds could cause cable trays to collapse, and that could cause vital safety-related systems to dis-connect or short-circuit, Seyfrit said. It is also possible the cables would merely sag but remain intact, he

Quality-control supervisors at the site approved the questionable welds, but the deficiencies were caught in a second quality check and were re-ported by the utility company, the NRC said

NRC officials said an investigation is under way to see if more deficien-

The plant, scheduled to go into operation in 1981, will supply electricity to customers of Dallas Power & Light Co., Texas Power & Light Co., and Texas Electric Service Co.

### Corporate profits show decline of 2.4 percent

WASHINGTON (AP) - Corporate profits slipped 2.4 percent during the second quarter this year, but the nation's overall economic growth did not fall as abruptly as first thought, the government reported today.

The Commerce Department said the Gross National Product, which measures total output of goods and services, declined 2.4 percent from April 1 to June 30. Preliminary estimates released last month had placed the drop at 3.3 percent.

Nevertheless, the two new statistics on profits and GNP offer further evidence of the nation's slide into a recession, economists said.

Corporate profits, after taxes and on an annual basis, totaled \$138.6 billion, compared with \$142 billion during the first quarter, the Com-

merce Department said. These figures are adjusted for seasonal varia tions.

Pre-tax profits, meanwhile, fell from \$233.3 billion in the first quarter to \$226.9 billion in the April-June period, the department said

Corporate profits are seen as a key indicator of the economy's growth because it helps determine how much money business has to invest and pay dividends to attract capital. The revised GNP decline of 2.4 per-

cent compares with a 1.1 percent increase in the first three months of

The Commerce Department attributed the GNP decline primarily to a 4.1 percent drop in final sales. This plunge was partially offset by an increase in accumulation of inventory.

But while rising inventory increases the total dollar value of the GNP, it does not help business during a recession because it represents unsold

Richard Landry, an economist for the U.S. Chamber of Commerce, said the slippage in profits was expected.

"It seems to confirm the accumulating evidence from other indicators that there is a decline in the economy," he said. While Landry called the decline

mild, he said lower profits means insufficient incentive to additional investment needed to raise productivity and thus cut inflation.

The government also said that the annual inflation rate declined from 9.3 percent in the first quarter to 9.2 percent in the second three months of 1979, as measured by a broad national standard called the GNP implicit price deflator.

Today's reports followed announcements that interest rates are rising, housing starts are plunging and in-

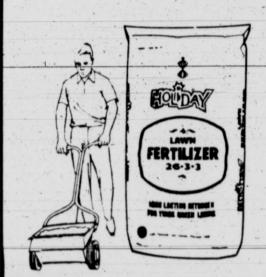

dustrial production is falling - signs economists say point to a recession and higher unemployment. The Federal Reserve Board, indi-

cating it will risk recession to douse inflation, Thursday, boosted the discount rate, or interest charged its bank lenders, from 10 percent to a record 10.5 percent.

Meanwhile, the Commerce Department said housing starts fell 7 percent last month, while total industrial output slipped 0.1 percent. Auto production plummeted more than 3 per-

AUSTIN, Texas (AP) - Texas oil producers have been told for the 31st month in a row to pump as much crude as the market demands.

However, the amount of Texas oil requested for monthly purchase by oil companies will continue to decline in September.

The Texas Railroad Commission on Thursday routinely set the September oil allowable at 100 percent of production, with the exception of the East Texas oil and others under conservation rules.

Company purchase nominations in September totaled 2,719,752 daily, a decrease of 8,983 daily from August.

September nominations for Texas natural gas totaled 24,049,049 thousand cubic feet (mcf) daily, up from the 23,559,820 mcf daily in August.

After the 1972 energy crisis and resulting heavy crude oil demand, the commission ordered maximum oil production.

### SECTION C The Midland Reporter-Telegram ENERGY FRIDAY, AUGUST 17, 1979

## Barnes test reopens Gaines pool; wildcat sites spotted

A field has been reopened in Gaines County, a discovery has been finaled in Terrell County, and wildcat operations have been spotted in Reeves, Mitchell, Crockett and Tom Green counties.

GAINES REOPENER

J. C. Barnes Oil Co. of Midland No. 1-A Sam Jenkins has been completed to reopen the Jenkins, North (Canyon oil) pool in Gaines County, 12 miles southwest of Seminole.

The operator reported a daily pumping potential of 62 barrels of 45-gravity oil, no water, through perforations from 8,910 to 8,978 feet. The gas-oil ratio is 463-1.

The pay was acidized with 1,000

Total depth is 9,074 feet and 4.5-inch pipe is set on bottom. Hole is plugged back to 9,005 feet. The well is one mile southwest of

the pool's depleted discovery. Wellsite is 467 feet from north and 3,087 feet from west lines of section 11, block AX, psl survey.

TERRELL DISCOVERY

Texas Pacific Oil Co., Inc., of Midland No. 1-A Ellen A. Word has been completed as an oil discovery in Ter-rell County, 33 miles northeast of

The strike, completed through perforations opposite the Caballos from 6,162 to 6,238 feet, potentialed for a daily pumping potential of 211 barrels of 38-gravity oil and 11 barrels of water. The gas-oil ratio is 1,564-1.

Total depth is 6,500 feet and 5.5-inch pipe is set on bottom. The plugged back depth is 6,380 feet.

The discovery is one and threequarter miles northeast of the onewell Six Shooter (Wolfcamp oil) pool and 4.5 miles east of the one-well Word (Wolfcamp oil) pool.

The wellsite is 467 feet from south and east lines of section 29, block R-3, GC&SF survey.

REEVES WILDCAT

Gulf Oil Corp. announced location for a 17,150-foot wildcat in Reeves

Scheduled for tests of the Pennsylvanian lime, it is contracted to 17,150 feet and will be drilled as No. 7 S. E. Ligon-State.

The location is 17 miles southeast of Pecos and 1,100 feet from north and 1.250 feet from east lines of section 16,

block 7, H&GN survey. The site is 1.5 miles west of Atoka production, 1/2 mile east of Ellenburger gas production, one location southwest of Cherry Canyon production and a northwest offset to an unnamed gas discovery which was completed through perforations from

MITCHELL EXPLORER

6,125 to 6,497 feet.

Wainco, Inc., of Midland No. 1 Ethel Thompson is to be dug as an 8,500-foot wildcat in Mitchell County, 16 miles southwest of Snyder.

The prospector is 2,173 feet from north and 900 feet from east lines of section 7, block 26, H&TC survey. There is no nearby deep production.

CROCKETT WILDCATS

Great Western Drilling Co. of Midland spotted locations four 1,650-foot gas wildcats in Crockett County, 25 miles west of Ozona.

The No. 3-3 Sutton is a southeast twin to Great Western No. 3-1 Sutton, recently completed Devonian producer, and 710 feet from south and 467 feet from east lines of section 3, block FFF, TCRR survey. Ground elevation is 2,661 feet.

Great Western No. 3-4 Sutton is 2,490 feet from north and 467 feet from east lines of section 3, block FFF, TCRR survey. Ground elevation is 2.669 feet.

The operator's No. 3-5 Sutton will be dug 467 feet from south and 2,490 feet from west lines of section 3, block FFF, TCRR survey. Elevation is 2,658

Great Western No. 3-6 Sutton is a northeast twin to a 7,750-foot dry hole and 634 feet from north and 1,577 feet from west lines of section 3, block FFF, TCRR survey. Elevation is 2,660

The No. 3-1 Sutton topped the Seven Rivers at 1,224 feet, the Queen at 1,486 feet and the San Andres at 1,838 feet on ground elevation of 8,596 feet.

TOM GREEN TESTS

The Dove Creek Oil Co. of San Angelo spotted locations for four 900foot wildcats in Tom Green County; seven miles west of San Angelo. They are in the depleted Pulliam

(Shallow) field area. The No. 1-18 J. W. Doss and others 467 feet from south and east lines of section 18, block 4, H&TC survey. Elevation is 2,083 feet.

The No. 1-17 J. W. Doss and others is 467 feet from south and west lines of section 17, block 4, H&TC survey. Elevation is 2,080 feet.

Dove Creek No. 1-11 J. W. Doss and others is 467 feet from north and east lines of section 11, block 4, H&TC survey and one location east of a depleted producer.

No. 1-12 J. W. Poss and others is 467

feet from north and west lies of section 12, block 4, H&TC survey The shallow pay in the Pulliam field produced at 700 feet.

PECOS FIELD TESTS

Floyd Ison of Eagle Pass spotted location for an east offset to production in the shallow Oates oil pool of Pecos County, 25 miles southwest of Fort Stockton.

The new test, scheduled for a 900foot bottom, is 1,791 feet from south and 467 feet from west lines of section 203, block 3, T&P survey. The pool has three oil producers.

National Coop Refinery Association No. 2-D Myron A. Smith is to be drilled as a 5,200-foot Ellenburger test in the two-well Apco-Warner, West (Ellenburger) field of Pecos County, 12 miles southwest of Imperial.

The project, 1/2 mile southwest of Ellenburger production, is 1,980 feet from southeast and 660 feet from southwest lines of section 59, block 10, H&GN survey.

WARD OILERS

Gulf Oil Corp. No. 2-J Jack Edwards has been completed in the Janelle, Southeast (Tubb oil) pool of Ward County, six miles southeast of Monahans.

It finaled on the pump for 106 barrels of 41.4-gravity oil and 94 barrels of water per day, through perforations from 5,182 to 5,282 feet. The gas-oil ratio is 1,745-1, and the pay was acidized with 1,500 gallons and fractured with 36,000 gallons.

Total depth is 5,400 feet, 5.5-inch pipe is set at 5,397 feet and hole is plugged back to 5,326 feet. Wellsite is 660 feet from south and

1,460 feet from west lines of section 24, block B-18, psl survey.

ANDREWS GAS WELL

Friemel & Carpenter, Inc., of Midland No. 9 W. T. Ford has been completed as a gas well in the Fuhrman-Mascho (Yates) field of Andrews County, three miles southwest of An-

The operator reported a calculated absolute open flow potential of 674,000 cubic feet of gas per day, through perforations from 2,751 to 3,325 feet. The pay was acidized with 6,000 gallons and fractured with 75,000 gal-

PAGE 1C

Total depth is 3,415 feet, five-inch pipe is set at 3,412 feet and plugged back depth is 3,382 feet.

The well is a northwest offset to 4,700-foot Grayburg-San Andrews production and one and seven-eighths miles southeast of one of the fields three Yates gas producers

It is 467 feet from north and 617 feet from west lines of section 15, block A-43, psl survey.

### Unleaded jumps to \$1

WASHINGTON (AP) — The national average price of unleaded gasoline has inched across the \$1-a-gallon threshold for the first time in history, the American Automobile Association

It's a dubious pricing distinction achieved by premium gasoline two

The AAA's weekly report issued Thursday said the good news is that "fuel remained increasingly available" in its most recent survey of 6,541 service stations along the country's major travel routes.

Moreover, the average price increase of slightly more than one-half cent per gallon — lumping all grades together — is the smallest increase of the summer, the AAA said.

Premium gasoline cost an average \$1.014 a gallon at full-service stations last week, the association said, while the average price of unleaded reached \$1.001 a gallon. Regular averaged 96.3 cents.

At self-service stations, premium averaged 99.1 cents a gallon, unleaded 97.8 and regular 93.5.

a.m. Saturday for Monday editions. WORD AD DEADLINES:

until 9:30 a.m. on the 24th day of August, 1979, and publicly opened and read aloud at 10:00 a.m. on the same day.

Any bid received after closing time as stated above will be returned unopened.

Bid envelopes shall be plainly marked "Proposal for Projects 128."

Complete copies of plans, specifications and contract documents may be examined and/or obtained at the office of the City Engineer, City Hall, Midland, Texas.

A bid bond or proposal guaranty is to accompany the bid, thereby guaranteeing the good faith of the bidder and that the bidder will enter into the written contract. The guaranty is to amount to five percent (5%) of the total bid and must be in the form of cash or certified check, issued by a bank satisfactory to the City of Midland for a bid bond. If in the form of cash or certified check, it is hereby expressly understood and agreed that the City of Midland is given the right to retain such as liquidated damages if such bidder withdraws its bid anytime after such bid is opened and before official rejection of such bid or, if successful in securing the award thereof, such bidder fails to enter into the contract and furnish satisfactory performance bond and payment bond. If a bid bond is summitted, it shall be executed on forms contained in these contract documents by a corporate surety authorized to do business in the State of Texas, and acceptable to the City of Midland.

The City of Midland, Texas, reserves the right to accept or reject any or all proposals or bids, to waive technicalities, to make any investigation deemed necessary concerning the bidder's ability to perform the work covered by the plans and specifications, and to accept what in the judgment of the Mayor and City council is the most advantageous bid.

### Yacht race death toll raised to 18 after recovery of body PLYMOUTH, England down. Atl three were his boat Animal safely

(AP) - The death toll in British. the storm-battered Fastnet yacht race climbed to 18 today with the recovery of another body by a ship off southern En-

gland. A coast guard spokesman said the dead man was from a yacht named Lotus that sailed with the international fleet but did not compete in the land's Fastnet Rock and prizes back to Plymouth. The victim was not identified, and it was not known what happened to

the vacht. The Royal Ocean Racing Club said that of the 306 yachts that set sail last Saturday to compete in the race, "12 are still sailing, 82 finished, 189 retired and 23 were sunk

or abandoned." known to have sunk, and \$11.3 million.

The fleet was hit Mon-

day night by the gale winds and mountainous seas of a storm that roared down the Irish Sea, a freak occurrence for August. There were more gales Thursday night, but harbormasters along the Cornish coast said fishermen were at the 605-mile race from sea in search of abanthe Isle of Wight to Ire doned yachts for salvage

> Several big boats among the score abandoned by their crews are worth up to \$1 million each. A port official at Milford Haven said that if an owner abandoned his boat at sea, "the salvagers have a watertight case to claim the maxi-

### Two of surviving octuplets given chance of life

NAPLES, Italy (AP) - Five of the seven surviving day-old octuplets born to a Neapolitan woman were given little chance of life today because they were so tiny, but an attending physician said there was some hope for the two largest.

The mother, 29-year-old Pasqualina Chianese, who gave birth to sextuplets three years ago and lost them all, was reported in satisfactory condition physically but despondent that the same thing might happen again.

'This time, when they told me there we're eight, I felt pain rather than joy," said the father, Stefano, an insurance company employee. "I beget 14 children and maybe none of them survives. Pasqualina and I desperately want a baby, a good and healthy one, not all these together.

Mrs. Chianese, who had been taking fertility drugs for years, gave birth Thursday to five girls and threeboys. The babies were two months premature and ranged in weight from 14 ounces to 2 pounds 3 ounces. The smallest, a girl, died 10 hours later.

The babies were delivered at the Hospital of the

Incurable in 20 minutes by Dr. Salvatore Scala assisted by three nurses. Quadruplets had been expected, and when eight arrived some had to be rushed to incubators in other hospitals. "Everybody in the delivery room was so convinced

that four were coming," said Dr. Scala. "You can hardly imagine the surprise of Mrs. Chiaffese and everybody else when the number kept increasing ... They were so tiny that the mother hardly felt

Canada in 1934 was a worldwide sensation, fertility drugs in widespread use in recent years frequently result in large multiple births. However, the rate of survival is still low. Local doctors said they knew of only one previous

Although the birth of the Dionne quintuplets in

birth of octuplets, in 1977 in Athens. All died within

The Guinness Book of World Records says the highest number of babies reported at a single birth was 10, reported without medical confirmation in Spain in 1924, in China in 1936 and in Brazil in 1946.

The highest number medically recorded, according to Guinness, was nine - in Sydney, Australia, in 1971, in Philadelphia in 1972 and in Bangladesh in 1977. All died.

The largest number of surviving children from a multiple birth are the Rosenkowitz sextuplets of Cape Town, South Africa.

### Stock market oses

NEW YORK (AP) - The stock market gave up some of its recent gains Thursday in a session marked by the heaviest trading of the

The Dow Jones average of 30 industrial stocks which Wednesday closed at its highest level since last Oct. 13, declined 1.80 to 884.04 Thursday after trading in a narrow range through the

Big Board volume finished at 47 million shares, topping 46.13 million the previous day. That was the heaviest trading since 50.45 million shares last Nov. 1. Analysts cited profit-taking sales after strong gains

in recent sessions as one restraint on further market But caution over weekly money supply figures, re-leased after the close of the New York Stock Exchange, also encouraged traders to pull back, said Larry Wach-

tel, an analyst at Bache, Halsey Stuart Shields. The Federal Reserve announced another surge in the nation's basic money supply after the close of the market. In a surprise move, the chief monetary agency separately said it was increasing its key loan rate to banks - the discount rate - to 101/2 percent from 10 percent. That action was apparently part of the Fed's continued effort to dampen inflation and support the dollar in currency markets.

Holiday Inn, up 1/4 to 21 1/4, topped the NYSE most active list for the second consecutive session. A Nevada gaming authority earlier recommended approval for its request to buy into a Las Vegas casino.

Among other actively traded issues, RCA gained ¼ to 25¾ and Gulf United rose 1 % to 26 %

Cyclops jumped 21/8 to 251/8 in less active trading. The company said it knew of no reason for the stock's vol-atility. Harrahs gained 2% to 29 and Itel jumped 11/4 to 10%. On the downside, Cessna lost 1½ to 20¼, MGIC Investment fell 1½ to 32½, Boeing declined 1 to 47¼ and Alcoa lost 1% to 55%

The NYSE composite dex fell .12 to 61.56. Standard & Poor's 400-industrial index lost .19 to 119.70 and the 500-stock composite was down .16 to 108.09. Overall declining NYSE issues outnumbered gainers by a small fraction. There were 784 losing issues and 703 gainers as of the 4 p.m. close of the NYSE.

On the American Stock Exchange, the market value index slipped .13 to 207.98. The NAS-DAQ composite of over-the-counter trading rose .30 to 147.44.

### BUSINESS MIRROR Prime rate mavericks were correct

By JOHN CUNNIFF

NEW YORK (AP) — Earlier in this decade, when many seers still felt economic stability would return momentarily, a few mavericks proclaimed the coming of a double digit prime rate — and lost their

Such forecasts, their critics stated, were made for publicity rather than economic reasons. They were branded as alarmists and defeatists. A double-digit prime? Unheard of.

Indeed it was. Since its inception in the 1930s the prime lending rate, in theory the rate at which a bank's best corporate customers may borrow, had always been in the low single numbers.

As recently as the late 1940s, in fact, it was still below 2 percent. And now, despite inflation and government budget deficits, it still was just a bit above 5 percent, or only half a double-digit level.

The mavericks were correct. By 1974, with the economy inflated and otherwise unbalanced, the prime rate hit 12 percent, having risen more than 4 points in 1973, falling some, and then rising 3 points

Well, so what's the fuss? Only this, that in the period 1973 to 1974 the United States, and much of the rest of the world, suffered the worst recession since the unlamented Great Depression of the 1930s.

The coincidence of a high prime lending rate and an economic downturn was no accident. When expansion goes beyond the limits of the country's ability to pay for it, inflation ensues. In an attempt to control it, the Federal Reserve has always made money more costly to borrow.

And this might not be the top. Respectable fore-

casters mention 15 percent.

True, in itself the prime lending rate doesn't immediately affect consumer borrowing patterns. There isn't a direct relationship between what large corporations pay and what individuals pay for

But make no mistake about it: The prime rate does measure and to some extent foretell the economic storm that engulfs us all. If if forces General Motors to slow down, then it soon will do the same to you.

A rise in the prime begins, it is said, when the Federal Reserve Board restricts the supply of money to the economy by raising the federal funds rate, or the rate at which member banks borrow from each other, and the discount rate, the rate at which the Fed itself lends money

Banks are quickly forced to raise their own basic lending rates, and the prime is the most basic of all. Faced with higher borrowing costs, corporations are less inclined to borrow. Economic activity slows.

This slowdown, of course, is what the Fed is aiming for, it's ultimate goal being to reduce economic activity - the building and borrowing and buying to a level that can be sustained by the nation's

Semi-independent, the Fed can go its own way, and it sometimes has to. In the late 1960s, when President Lyndon Johnson sought to pursue a policy of guns and butter, the Fed said no, it couldn't be done.

Well, it could be, to some extent. The nation could seek to give the consumers all they wanted at home r a foreign war too, but not without inflation. To the Fed, inflation is anathema

Now, with inflation running at better than 13 percent - meaning that a borrower can borrow money and, in effect, pay almost nothing for it - the Fed apparently sees no choice but to raise rates.

According to many economists and government officials, including those of Europe and Japan, the

United States faces a destructive seige of even worse inflation, credit-inspired, if it doesn't balance its
