

# THE QUITAQUE POST

YOUR HOME-OWNED NEWSPAPER

VOLUME XI

QUITAQUE, BRISCOE COUNTY, TEXAS, THURSDAY, JULY 9, 1936

No. 32

## Looking Things Over

By "MACK"

After several months, local politics are warming up a bit—kindly remember that it is just a little over two weeks until the first primary.

The race for State Senator seems to hold the spot light in this, the 31st, Senatorial District. On this page we present articles from the headquarters of both candidates. Both candidates will honor Quitaque with personal appearances—Senator Small appearing here tomorrow (Friday) and Mr. Douglass will make his plea here on July 18th. All voters should hear these gentlemen—State Senator is a very important office.

For your information, a sample ballot will be published in the Post next week by one of the local candidates.

But towering head and shoulders above the political campaign this is the subject of the perfect rain we received Tuesday. The old dust bowl ain't what she used to be—and talk of giving this country back to the Indians has ceased.

HALF MINUTE INTERVIEW  
"It never rains in this country at night during the month of July."  
—Henry J. Bailey (this statement was made Monday afternoon.)

## EMPLOYMENT IN TEXAS SHOWS SLIGHT GAIN

AUSTIN, July 7. — Employment and pay rolls in Texas during June showed a slight gain over the preceding month and a substantial increase over the corresponding month last year, the University of Texas Bureau of Business Research reports. The number of workers increased 5 per cent over June, 1935, and pay rolls rose nearly 15 per cent. The increase over May was about 1 per cent for both the number of employees and the total pay rolls.

Cities whose records for the month were better than the State average during the two comparable periods were Amarillo, Denison, Galveston, Houston, Laredo, San Antonio, Waco and Wichita Falls.

Industries showing an increase greater than the average for the State were retail trade, petroleum, refining, electric railway shops and hotels.

## MRS. SAM FAIRCHILD ENTERS SANITARIUM AT PLAINVIEW

Mrs. Sam Fairchild was taken to the Plainview Sanitarium at Plainview Saturday morning for an immediate operation for appendicitis. The appendectomy was performed Saturday afternoon, and the patient is reported to be recovering nicely. Mrs. Fairchild was accompanied to Plainview Saturday by her husband and Mrs. Homer Gregg.

## AGRICULTURAL BRIEFS

BY THE BRISCOE COUNTY AGENT

Uncle Sam finally sent the most of our long looked for hog checks. There are still a few of them out, but they should come in within the next few weeks. These checks close the hog program. So far as we know there will not be another hog program under the new farm program that has taken the place of the old AAA.

### Rain, Rain, Rain

At this writing we are having as nice a rain as any one could ask for. At Quitaque the report come 2 inches of rain and still raining. Silverton has had about 1 and one-half inches and still raining. Of course this will stop the harvesting of wheat for a few days but unless the wind goes to blowing a rain like we are having now will not hurt the wheat unless it last too long and that's not very probable. To the little cotton and feed crops that have just come

## RURAL ROUTE NUMBER ONE TO BE EXTENDED

More Than Nineteen Miles Will Be Added

A proposed extension of more than nineteen miles on Rural Route No. 1 from the Quitaque Postoffice, lengthening the route to provide regular mail service in the Folly Community, has been granted by the Postoffice Department, according to communication from Senator Tom Connally received this week.

As a result of continued efforts of Senator Connally, Congressman Marvin Jones, and Postmaster S. T. Bogan, the extension, granting regular mail services to more than seventy-five families in the rural community, was approved by the Department two weeks ago.

"An order extending service on the proposed route is expected within thirty days or less," Postmaster Bogan stated Tuesday.

"Upon certification from the Postmaster that the required number of families (seventy) have agreed to provide for receiving their mail through approved boxes, the necessary order extending service will be issued," J. W. Cole, Acting Second Assistant Postmaster General, notified Senator Connally last week.

Notification of approval was forwarded to Postmaster Bogan, and a petition from more than seventy families was returned to Washington immediately.

"Every effort has been made to speed the inauguration of service in the new territory," Bogan said, "and we are expecting orders from Washington within a short time."

The proposed extension will offer daily rural free delivery service to seventy-five or eighty families in the region between Folley and the Bolton school. The addition to the route, which will lengthen the present Route 1 from 34.20 miles to 53.85 miles, is mapped out to extend south from Bolton school to the Folly community.

Approximately 110 families are now served on Route 1. The longer route will extend service to nearly two hundred families living in the region northwest, north, and northeast of Quitaque, it is anticipated. "The change in Route 1," Bogan stated, "is particularly agreeable, since no family now served on the present route will be left out when the change is made."

### IT'S A BOY

Mr. and Mrs. Gaston Cogdill are the parents of a nine pound baby boy, born at six o'clock Wednesday morning. The young man has been named Donald Lloyd.

Spend your money in Quitaque.

## Clint C. Small To Speak Here Friday Afternoon

Senator Clint C. Small of Amarillo, candidate for re-election as State Senator from this district, will make a personal address to Quitaque voters here, Friday afternoon at five o'clock, Gene Elo, publicity manager for the Senator, wired from Amarillo Wednesday afternoon.

Senator Small will speak in Turkey at three-thirty on the same afternoon, leaving here for an engagement at Silverton at eight o'clock Friday evening, Elo announced.

Traveling over the entire district in a heated campaign, Senator Small will address his audiences through the facilities of a portable loud speaker. A large crowd is expected here Friday afternoon for the campaign address.

As Senator Small's campaign for re-election is one of the most interesting of the current election year, all local voters are urged to be here Friday afternoon.

## Allred's "Batting Average" Is Over 800 On Pledges

PARIS, July 7.—(SPL)—His "batting average" on platform pledges carried out stands at more than 800 and his record has emerged unblemished after an eight-months "fine tooth comb" inspection by an unfriendly auditor from a preceding administration, Governor James V. Allred reminded the people of Texas in a campaign address here tonight.

"It's just as bad to deal in half truths as it is to tell a deliberate lie in a political campaign," the governor declared.

"For several weeks my opponents have been trying to give the people of Texas the most elaborate misinformation this state has witnessed in a long time. It is strange, indeed, that the charges and insinuations they make are hurled just a few weeks before election.

"In their enthusiasm and zeal, my opponents have found many trifles about which to criticize me. Not a single one of them at any time has had a kind word for anything that I have done. According to them every act of mine has been motivated by an ulterior or sinister impulse. I am sure the people of Texas do not approve of such tactics.

"I point to my record as Centennial Governor. Out of thirty one planks in the Democratic platform adopted shortly after my election, twenty-four have been carried out in full, two in part, and an honest and sincere effort made to carry out the remaining five. That is 'batting average' in excess of 800.

"Not one of my opponents has

## MARVIN JONES PREDICTS WIN FOR DEMOCRATS

Congressman Praises Chief During Visit Here

Commenting briefly on Administration policies and plans in an interview here Monday afternoon, Congressman Marvin Jones, popular representative from this district, confidently predicted the return of the

Marvin Jones

Roosevelt Administration to power in the November elections, and expressed his pleasure at the general and enthusiastic acceptance of the new agricultural program in this section.

Mr. Jones, recently returned from Washington following the adjournment of Congress and the National Democratic Convention at Philadelphia, was in Quitaque Monday afternoon for a brief visit with many friends here.

Predicting a Democratic victory in the Presidential election this fall, Congressman Jones praised President Roosevelt and the administration for the tremendous and far-reaching accomplishments of the past three years.

"President Roosevelt is the first man to occupy the White House in years who has had the interest of the common people at heart, and has conscientiously and constructively tried to help them," Jones said.

Mr. Jones appeared especially pleased over the practically unanimous acceptance of the new farm program in this county, having spent a great deal of time on the measure following the rejection of the Triple A program by the Supreme Court. As chairman of the House Committee on Agriculture, the Panhandle repre-

## Exhibit To Show Development of West Texas Area

FORT WORTH, July 7.—The stirring and colorful story of the development of agricultural pursuits in West Texas will be told graphically at the Texas Frontier Centennial celebration, opening here July 18, in a display being arranged by the West Texas Chamber of Commerce.

D. A. Bandeen, Vice President and General Manager of the West Texas organization, has taken the leadership in arranging the exhibit will tell in a dramatic and impressive manner the story of wheat, wool and mohair, oil and minerals, agriculture with its cotton, feeds, and diversified products, and cattle.

Diagrams, murals, oil paintings and motion pictures are the mediums through which the story will be told. More than 80 West Texas towns, and four cities of New Mexico, will have booths and exhibits.

Interesting feature of the exhibit will be the display of more than 400 branding irons which has been loaned to the show by A. C. Williams, president of the Federal Land Bank at Houston.

West Texas educational institutions also will be well represented in the exhibits.

The exhibit building is built as an old depot station 110 by 80 feet in size.

## School Transfers Must Be Made Before August 1

Only fifty additional student transfers from rural schools to the Quitaque Independent school district can be accepted for the 1936-37 term of school, Supt. E. W. Scheid announced Wednesday.

"Due to new regulations in the State Aid Law, the local schools will only be able to take care of about fifty transfers, in addition to those carried over from the 1935-36 terms, this year," Scheid stated.

All transfers must be made on or before August 1st. Rural school students planning to make the change should secure application blanks from Supt. Scheid or County Superintendent W. W. Martin before that date.

## THE STATE SENATE RACE

### DOUGLASS

Large crowds have heard Curtis Douglass, candidate for state senator, speak during the past ten days. Talks were made at Childress, Memphis, Hedley, Tulia, Dalhart and other cities last week. Crowds were unusually large for the Childress, Memphis, and Tulia addresses.

Miami, Higgins, and Canadian are on Douglass' schedule for this week. Wheeler, Shamrock and Wellington will be visited Saturday. Wednesday, July 14, McLean, Alanreed, and Mobeetie will be visited.

Douglass will invade the lair of his opponent, Senator Clint Small, in an address at eight-thirty p. m. Thursday, July 16, in Amarillo. The following day he will speak in Claude.

Saturday, July 18, Douglass will visit Clarendon, Estelline, Turkey, and Quitaque.

Increased interest is being shown in the state senator's race, and Douglass is receiving more encouragement every day. As the serious issues of the race become known to the people of the 31st senatorial district, Douglass reports that the voters are telling him that it is time for a change at Austin.

As his opponent has been in the state senate eight years, many voters believe that the time has come for a change. Small's corporation record is sufficient to warrant his retirement, believe thousands of voters in the district.

In his addresses, Douglass is not giving hearsay information. He is giving information from the records, which cannot be denied. He is show-

## OVER TWO INCH RAIN COVERS ENTIRE AREA

Moisture Falls Slow, No Damage Reported

Slow dreanching rains covered Quitaque valley and extended and west over the Panhandle South Plains Tuesday, blank wide territory of rich farmland with moisture ranging from four inches.

More than two and one-half inches of rainfall was measured in Quitaque Tuesday afternoon as the downpour ceased. Silverton reported one and one-half inches in the day, with two in Turkey, one at Lockney, an inch one-half at Floydada, and an inch averaging between one and two inches at other points over the central plains. Ralls received the heaviest rains in the south plains area, reporting four and one-half inches. Tahoka and Southland reported three inches, Lubbock only one.

Nearly three inches of rain fell at Plainview Tuesday. Northern and extreme eastern portions of the Panhandle reported only light showers. Half an inch of rain was recorded at Memphis Tuesday night, with less than a quarter of an inch in the vicinity of Childress and Estelline. Scattered showers over portions of the north Panhandle brought from an eighth to a quarter of an inch, according to reports from Amarillo early Wednesday.

Falling slowly, with little or no wind, Tuesday's rain caused no appreciable damage to wheat and other grains now ready for the harvest, wheat men over the plains reported while cotton and row crops were benefited inestimably.

Prospects for a good cotton and feed crops were considered excellent over this entire section as soaking rains brought new life to fields after the hot winds of the past two

(Continued on back page)

### SMALL

Binford Arney, youthful campaign manager for Senator Clint C. Small, this week charged that opposition speakers were misrepresenting the facts in linking Senator Small with corporate interests.

"Small's name appeared in newspaper accounts of oil and gas hearings," Arney declared, "as an attorney for the State of Texas. Opposition speakers have seized upon such appearances to claim that the Senator was representing big corporations. The truth is that Senator Small has always defended the independent operators in the Panhandle gas fields. He has gone into court in defense of the laws which he wrote into the statutes of Texas."

Both Senator Small and Arney took the stump early in the week to bare allegations which they claimed were false.

Small was at White Deer, Groom and Claude last Monday. He went to Vega Wednesday for an inspection of soil erosion work being conducted in Castro County under the provisions of his Wind Erosion Act, passed as a means of eliminating red tape in securing federal aid.

He will go to Lipscomb County next week after talking at Clarendon, Memphis, and Childress this Saturday.

Senator Small, accompanied by his football playing son, Clint Jr., is using the loud speaking equipment he used in his two races for Governor of Texas. Arney has been equipped with a brand new speaker contributed by friends from all over the district.

The Senator so far has refrained

A FARMER'S LIFE "AS HE LIVES IT"

By ED HOLMES (Station C. E. H. Farm)

FLOYDADA — On July 2nd I hauled 70 bu. of wheat to the elevator at Barwise in a wagon pulled by a team of horses. I didn't think it was so odd but I did notice people staring at me. Come to find out it was the first wheat delivered by wagon and team all this wheat harvest!

As Will Rogers once said, this was the only rig in the bunch that could go home empty.

I saw a brood sow last week with two wire rings in her nose that extended up and were tied through each of her ears. The owner could get a patent on that if the humane society would let him alone. It sure looks like a fool proof cure for hogs that root under fences. As the inventor says, "It's a good way to get located."

We are milking six little Jersey cows, drinking three gallons of whole milk each day and last week we sold \$8.56 worth of cream. Also raising a bunch of hogs and chickens practically on skim milk alone.

You boys that don't milk cows, don't get it into your heads that this is all profit and that it is an easy get-rich-quick scheme for cream is not always 28 cents per pound and hogs 10 cents per CWT.

Joyce Nell Womack (a little girl four years old) started to eat a small green apple. Her mother told her not to eat it for it would make her stomach hurt. Joyce Nell looked at the runty green apple with disgust and said, "It aren't big enough to make MY stomach hurt."

I find that the average fellow don't believe the statement by Senator Frazier that the bankers receive money for 30c per thousand dollars and the majority of our Congressmen refused to let producing debt-ridden farmers have it for \$30 per thousand thus forcing us to get the same money from the bankers for from \$45 per thousand on up. I'll admit it is hard to believe but here are the facts presented by Mr. Kilcrest of Iowa, from the Committee on Agriculture in Report No. 819, 74th Congress. The report was concerning refinancing of farm mortgages. The statement along with many other things says—"If we compare this plan (the Frazier-Lemke bill) for the issuance of currency with those which have here-to-fore been used whereby the Government has loaned its credit to the banks, and has also given them as a free and gracious gift the right to issue currency, and moreover has actually paid interest to them besides, we will be compelled to agree that the Frazier-Lemke bill will prove to be of great value to the government itself. Instead of paying 3 per cent interest to these banks the condition will be reversed and the Government will be receiving interest at 1 1/2 per cent. Heretofore the money changers have demanded and derived that income and that profit. Heretofore certain banks have issued currency at a cost to them of only about 27 cents per thousand

dollars, being the amount that is paid for preparing and printing the bills or notes.

"This profit would keep our schools open, it would build a network of broad highways throughout the land, it would establish and maintain hospitals and colleges and libraries. It would reduce taxes. It would help to restore buying power to common people and prosperity to the country."

Thus ends his report and be sure and keep this one thing in mind. The banks are privately owned and some man is getting the money. When you pay interest to a BANK it means SOMEBODY.

You surely will want to keep up with how YOUR Congressman voted on such an important piece of legislation.

When this interest is paid to the Government, it could then be easily transferred to an Old Age Pension Fund and be placed in deserving hands. YOU do some thinking along this line.

HOME OWNERS (Austin Callan)

It has long been conceded that the home owner is the best and happiest citizen.

The home is the Nation's citadel of strength.

Those who have made it easier to own a home and to keep a home, have rendered a distinct service to humanity. They have planted flowers along barren pathways.

The Nation's strength lies in the small homes because most homes are small. What affects modest domiciles affects millions. The Texas legislature not only showed its interest in good citizenship but its consideration for the hard pressed when it adopted Senator Carl C. Hardin's home exemption measure relieving from state taxes all homes up to the assessed value of \$3000.

If Carl Hardin had rendered no other service than that he would be entitled to the gratitude of thousands of Texans.

Whoever makes it easier to maintain a place of habitation for a family confers a blessing, and adds a bloom and breath of fragrance to

life. We want to see more home owners not only in the cities and villages of our state but beyond the pavement in the rural communities. No home owner will become a communist. The blessings of a home will nurture in his heart love for his country and his country's flag. He will bring his children up to respect the worthy things of life, he will train them for good citizenship, and they will be an ornament to society.

Some species of cactus have green flowers.

There are 10,000 newspapers in Soviet Russia with a total circulation of over 37,000,000.

Nebraska recently became the 40th state to eradicate TB.

California university is the largest school in the United States, with an enrollment of 20,388.

Over Two Inches ---

(Continued from page one)

Two and twenty-nine one-hundredths inches of moisture fell here between 1 a. m. and four p. m. Tuesday, Weather Bureau records show. It was the first moisture received here this month—the last amount recorded in Quitaque being a half-an-inch fall on June 12. Tuesday's rain brought the total for the year to slightly more than seven inches, still far short of the total of 11.28 inches on the records for the same period in 1935. Prospects for a crop, at this time, however, are better than in several years.

Curtis Douglass CANDIDATE FOR State Senator

IF YOU FAVOR—

Prompt payment of old age pensions, economical administration, fair taxation, conservation of natural resources, making legislators disclose sources of private income, you will vote on July 25 for Douglass.

C. P. McCollough, Sec'y Douglass For Senator Club

Marvin Jones ---

(Continued from Page 1)

sentative was largely responsible for the drafting and passage of the new bill.

The Administration is continuing in its efforts to cut expenditures and reduce taxes, Jones stated, and has succeeded in reducing the National budget by well over a billion dollars for the new fiscal year, while still maintaining its gigantic re-adjustment program.

Payment of the Soldier's Bonus, he said, did not bring about a great increase in national expenditures, merely transferring the original debt at a low rate of interest while aiding business generally by placing millions of dollars in immediate circulation.

Mr. Jones had little to say in regard to his candidacy for re-election as Representative from this congressional district. Due to the limited time he is not contemplating an extensive campaign, but was en route Monday to Panhandle cities, renewing acquaintances and meeting many friends in the district. He expressed his pleasure at the encouragement and support of the people in all sections of the district.

DOUGLASS

(Continued from Page 1)

ing a connection between his opponent and the interests of this district. Wherever Douglass has spoken, the people have come up in numbers and pledged their support.

No political speaker ever had a more enthusiastic audience than greeted Douglass in his recent Childress address.

SMALL

(Continued from Page 1)

from "mud-slinging" but announced last Monday that he would wait no longer to explain issues brought into the campaign by his opponent.

"I believe that my record merits the support of every clear-thinking person in the district," Small added. "Distortion of facts and deliberate attempts to mislead the people of the Panhandle have forced me to veer from my policy of seeking public office on the issues of statesmanship alone."

TO THE VOTERS OF BRISCOE COUNTY:

I am a candidate for the office of County Attorney of this county and will greatly appreciate your vote and influence.

I cannot see many of you in person as I do not have time, but nearly all of you know me and know my qualifications.

If elected I will try to make you a good Prosecuting Attorney, but will not use the office to persecute any one.

I thank you for your help. Yours very truly, C. D. WRIGHT

EPWORTH LEAGUERS HAVE ANNUAL PICNIC

The Quitaque Epworth League entertained the Turkey, Matador and Whiteflat Leaguers with a picnic Friday night, July 3. We are sorry that some of the invited leaguers were not able to attend. Many games were enjoyed throughout the evening, some of which Mrs. Dennison brought back from Assembly at Abilene.

Refreshments consisting of sandwiches, potato chips, pickles, cookies and iced tea, were served to thirty members.

All reported a nice time. —Reported.

A Missouri girl advertised for a husband and secured one at a total cost of \$11.00 for the advertisement and license. Two months later the husband died leaving her \$10,000 life insurance and still some people say advertising don't pay.—Miami Chief.

It is better not to waste too much time making up your mind because the chances are you will make a mistake anyway.

CONGRESSMAN MARVIN JONES

In appreciation for the services rendered by Congressman Marvin Jones, who has continuously stood at his post of duty until the recent adjournment of Congress, and in gratitude for his distinguished efforts in behalf of all the people, we urge that he be given an overwhelming vote of confidence in the July Primary.

As Chairman of the Agricultural Committee of Congress he has supported:

- 1. FOR THE CATTLEMAN: Drought Relief—A fair price for cattle. Cattle Loans. Lower Freight Rates in Drought Area.
2. FOR THE FARMER: Conservation of Soil. Equal opportunities for the farmers. Allotment Payments to Farmers cooperating in program. Lower interest rates on farm mortgages. Crop Loans.
2. HOME OWNERS: Home Owners' Loan Corporation to refinance mortgaged homes. Lower rates of interest on homes. Prevention of Unjust Foreclosure of Mortgages.
4. SOCIAL SECURITY: Stimulating employment and public building. Funds for Highway Construction. Direct Relief for aged and infirmed. Old age security.
5. Congressman Jones has favored the building of roads—Veteran's legislation—rural electrification—taking the profits out of war—and other forward-looking legislation. His record in Congress is a record of service to his district and the nation as a whole.
6. Through allotment payments alone there has been returned to the farmers of his District \$23,566,777.98, and to the farmers of Briscoe County, \$598,670.98.

Let us strengthen the influence of Marvin Jones for future service in Congress by an expression of complete confidence in him to the end that the progress thus far made in pulling out of the depression will not be interrupted, but continued.

Mr. Jones has handled much of the Administration legislation including the Farm Act, the Farm Credit Act, Soil Conservation, Crop Loans, the Commodity Exchange Act and other legislation.

Has supported loans to home owners, the guarantee of bank deposits, veterans' legislation, rural electrification, old-age pensions, deportation of aliens, taking the profits out of war.

Under the Farm Act alone, \$23,566,777.98 have come to the people of the 18th District; payments by counties were as follows:

Table with 2 columns: Name and Amount. Includes Armstrong (\$616,661.67), Briscoe (598,670.98), Carson (1,137,567.14), Castro (970,621.30), Childress (982,882.73), Collingsworth (1,440,945.91), Cottle (827,390.82), Dallam (673,369.14), Deaf Smith (1,186,968.86), Donley (776,654.56), Gray (1,021,964.70), Hall (1,377,547.32), Hansford (973,834.83), Hartley (515,687.19), Hemphill (455,925.67), Hutchinson (344,017.41), Lipscomb (835,702.46), Motley (661,548.87), Moore (357,179.85), Ochiltree (1,452,453.23), Oldham (379,170.23), Parmer (813,857.88), Potter (286,917.45), Randall (1,084,706.54), Roberts (343,774.93), Sherman (876,146.50), Swisher (1,453,925.69), Wheeler (1,112,880.12). TOTAL \$23,566,777.98

The Land Banks have refinanced more farm mortgages in the last 3 years than in the previous 16 years of the Banks' history. The rate is 3 1/2%, the lowest that prevails in any country.

Supported legislation setting up Home Owners' Loan Corporation. Supported banking measure guaranteeing deposits to the small depositor.

From 1921 to 1932 an average of 901 banks closed each year. Since the banking holiday of 1933, only 8 notional banks have closed, 5 of which were during 1934 and 1935 when deposits of the small depositor were insured. None of these failures since 1933 has been in Texas.

CONGRESSMAN JONES' RECORD HAS FAVORED: The building of roads—Veterans' legislation—Rural electrification—Old-age pensions—Deportation of aliens illegally in this country—Taking the profit out of war. Handled legislation creating the Agricultural Adjustment Administration.

The AAA brought \$23,500,000 in all types of benefit payments to the 18th Congressional District. The farm program lowered surpluses, thus raising farm prices, increasing farm income and farm purchasing power.

In 1932, before the AAA, farmers were receiving 32c a bushel for wheat, 5c a lb. for cotton, \$2.73 per hundred for hogs. Today wheat brings 82c, cotton brings 11c, hogs bring \$8.59. Farm income has increased 58%.

Author of emergency crop and feed loan acts. Money loaned to finance farmers of the 18th District who could not obtain money elsewhere to plant crops and feed their livestock.

Jones-Connally Cattle Act. Under this act, 8 million surplus and diseased cattle were removed from the market. Livestock men were able to sell cattle which otherwise would have died during the drought period. In 1932 cattle sold for \$3.41. Today they bring \$6.

Author of legislation creating the Farm Credit Administration. This act has set up for the first time in history a separate credit structure for agriculture. Farmers in the 18th District have been able to refinance mortgages at lower interest rates than have ever prevailed heretofore. Debts have also been greatly scaled down.

Author of new Soil Conservation and Domestic Allotment Act. Under this act, farmers in the 18th District and elsewhere will receive payment for cooperating in conserving and building the soil. This act also contains a clause to encourage expansion of foreign and domestic market for agricultural products.

Author of new Commodity Exchange Act. This legislation, sponsored by Mr. Jones for a number of years, provides for orderly marketing on the wheat and cotton exchanges and the prevention of speculation and gambling thereon.
