NUMBER 47

This And That About One Thing and Another

The Methodist Women turned in their subscription list this week, and the force at The Post is trying hard to get all the renewals marked up and the new names on the list. This is quite a job and requires a strenuous bit of work, and the publishers will be very grateful for your consideration. Again we want to express our appreciation for the generous response to the drive.

Two renewals were received this week which are Christmas gifts, one from Mrs. Daisy Bedwell to Mrs. L. L. Morrison at Casa Grande, Ariz., and the other from Mrs. V. T. Hall for her daughter Mrs. B. L. Manire at Wichita, Kans. A new subscription goes to Mrs. James W. McBee of East Stanwood, Wash., from Mrs. J. W. Kimbell, also a Christmas gift.

We're still getting a few cake and candy recipes to publish, and we're glad since the Christmas season calls for sweets aplenty. Many told us they used Mrs. Benson's orange cake recipe with a great deal of satisfaction, and here's another of Mrs. Benson's cake recipes. We'll vouch for its being delicious.

MOIST BANANA CAKE

— Mrs. F. C. Benson
3/4 cup butter 3 cups flour
1 1/3 cups sugar 1/2 cup sour milk
1/2 teaspoon soda 3 eggs
1 teaspoon baking powder
1 cup mashed bananas
1 cup ground pecans

Cream butter and sugar together. Add eggs one at a time, beating after each addition. Add soda to the milk and baking powder to the flour, then add the two mixtures alternately to the butter and sugar mixture. Beginning and ending with the flour. Add the mashed bananas and nuts. Bake in layers in a moderate oven (about 350 degrees). Use your favorite icing.

Building has slowed up considerably and the only new construction we've heard of lately is the nice bath which was added to the F. T. Lee home. Also W. P. Hawkins is doing some extensive improving on his building at the west end of Main street. Mr. Hawkins plans to enclose the service station part of the building with plate glass, which will make a very attractive show room.

Kiddies—Don't forget those letters to Santa. They will be published in the issue just before Christmas Day, but bring them in soon—just as soon as you get them ready. Thanks.

Billy B. Hutcheson and Shug were down from Amarillo Tuesday for some bird hunting.

Quitauque Chapter OES Has Birthday Party

The Quitauque chapter of the Order of Eastern Star celebrated with birthday party last Thursday night and entertained a number of visitors from neighboring chapters.

The hall was attractively decorated for the occasion, emphasizing a color scheme of red and white. Paper streamers behind the rostrum formed a background for floral arrangements of red and white carnations and other greenery. A profusion of cedar and Christmas greens and other seasonal ornaments were used.

Appropriate readings and music presented an enjoyable program. A song composed especially for the chapter by Mrs. Joe Graham of Amarillo, a former member, was sung by Mrs. A. E. Gragson and Mrs. John T. Rogers accompanied by Mrs. Frank Gillespie. Small Mary Jo Bailey gave two readings, followed by group singing, and Mrs. Jim Baird gave a reading.

Some visitors from Turkey, Mr. and Mrs. R. C. Green and daughter Anita Kay, favored the group with a delightful musical number, Mr. Green with the trumpet, the daughter with the violin and Mrs. Green at the piano.

The pretty birthday cake decorated with four candles was brought in for the group to admire, and then was cut and served with sandwiches, coffee and mints.

Out-of-town guests included Mr. and Mrs. Green and daughter, Mrs. U. F. Coker, Mrs. C. W. Parmenter, Mrs. Inza Turner, Mr. and Mrs. Guy Smith, Mrs. George Setliff, Mrs. Roy Cooper, Mrs. Carl Gilmore and Mr. and Mrs. John Adamson, all of Turkey, and Mrs. R. H. Tanner of the Crowell chapter OES.

MR. BRITAIN ILL

W. F. Britain has been ill the past week, and has not been able to be in his shoe shop. Mr. Britain was very sick Monday night, and Wednesday his daughters, Mrs. Bill Clutter of Hereford and Mrs. Glen Downs of Panhandle came to see him, and Mrs. Clutter, who is a registered nurse, took her father home with her to Hereford where he could be close to his physician and under her care. Mr. and Mrs. Pat Britain of Turkey also have been here with his father.

NOLIE HOLLIS DIES

Relatives here were notified Tuesday night that Nolie Hollis had passed away at the veterans hospital in Sherman. His daughter and family, Mr. and Mrs. Herman Hunt and little girl left immediately for Sherman, and other relatives from Amarillo went there for the last rites. Mr. Hollis succumbed following a long and painful illness.

SCHOOLS CLOSE DEC. 23

Supt. Cross announced today that Quitauque schools would dismiss Thursday afternoon, December 23, until Monday, Jan. 3, for the Christmas holidays.

Bride Is Complimented With Lovely Shower

The spacious new home of Mrs. J. T. Persons, on the highway west of town, was the scene last Thursday afternoon of a bridal shower complimenting Mrs. Jack Loudermilk, nee Miss Billye Tibbetts. Hostesses with Mrs. Persons were Mrs. John Garner, Mrs. Eloise West and Mrs. Clyde Tunnell of Silverton, Mrs. Frank Hawkins and Miss Jane Hughes.

After registering in the pretty bride's book, the guests were directed to the bedroom where the beautiful array of gifts were displayed.

In the dining room a lovely arrangement of red roses and other flowers was placed on the buffet, and the table was laid with a lace cloth, tall candles in crystal holders and the crystal punch bowl. Mrs. West presided at the refreshment table and served dainty individual cakes with green and yellow frosting with the punch. Favors were small peppermint canes with cards attached on which were printed "Billye and Jack."

Registering from out-of-town were Mrs. Jim Shy and Mrs. Jim Bomar of Silverton, and the bride's mother-in-law Mrs. D. C. Howell of Chillicothe.

FRANCIS YOUNG AND GUYMON MAN WED

ON Monday, November 22, Mrs. Frances Young (the former Miss Frances Graham, daughter of Mr. and Mrs. Joe Graham of Amarillo) and Mr. Carl Moore of Guyman, Okla., were married in a simple ceremony before a few witnesses at Clayton, N. M. After a few days honeymoon in Colorado, they returned to Guyman where they will make their home.

The bride was born and reared at Quitauque and is well known here.

Mr. Moore was reared near Hooker Okla., and attended the Oklahoma schools. He spent five years in the army during the war, serving as an officer in Gen. Patton's army, and participated in the drive across Europe into Germany. He is engaged in farming and also has recently entered business in Guyman.

NEW BOGAN

Mr. and Mrs. H. G. Gardiner drove down to Denton Sunday afternoon and returned home Monday, making the trip to welcome a new granddaughter. The little girl was born on her grandmother's birthday, Sunday night, to Mr. and Mrs. Barney Bogan. Mrs. Lockett Payne went with the Gardiners to remain with the Bogans and look after little Carolyn until Mrs. Bogan is able to look after the children.

Mr. and Mrs. Chas. Gowin drove to Amarillo Friday and returned home her parents Mr. and Ms. J. E. Montgomery who had been visiting here. They brought back with them Miss Ima Lee Morris and a friend who visited home folks over the week end.

Saturday's Duster Slows Down Ginning

This area shared generously in the dust blizzard which blew in Saturday night in lieu of the expected cold weather, which failed to arrive. A real old-timer blanketed this section with dust and sand, and cut visibility down to nil.

About 9 o'clock Saturday night, the fire alarm threw those who heard it into a real scare and the truck and fire boys made a run out to Jim Baird's Northwest of town. A small blaze there had developed from a trash fire earlier in the evening which was lighted when there were no symptoms of the big blow to come later in the evening. The fire destroyed some feed bins and out houses, which Mr. Baird stated were valued at \$50, or thereabouts.

Out on the hill at Marvin Tracy's place, the chickens lost their house for the second time this Fall. Marvin gathered up the pieces of his chicken house after the last big blow and put it back together, and now he has it to do again. The Saturday night scattered scantlings and planks, chicken roosts and what-not up the highway.

The big tent which June Settle erected south of his parent's home, to use as a store room, was blown from its foundation and torn to shreds.

The school bus, carrying the basketball players home from the Flomot tournament, made it in without incident, but driving was slow and precarious. Several other cars which had carried fans and players to the Flomot tourney also experienced difficulty.

Supt. Cross said that though he drove very slowly, and he on one side and a girl on the other kept constant watch on the highway, he drove off the road once or twice. (The Quitauque A boys won the Flomot tourney, but we have not been able to get a basketball story this week, as the squads are busy playing in another tournament at Matador.)

The most deplorable damage, however, is in the fields. Many farmers who planned to sled their late cotton will not even gather it. The report from the gins this week just about closes the season. Ginners estimate that only 100 or 150 more bales will be ginned this season. The two gins at Quitauque reported this (Thursday) morning 4770 bales.

Mr. and Mrs. Claude Hickey and daughter, Mr. and Mrs. Brigham Young and children, Mrs. Frank Monzingo and daughter, and Johnnie Sue Brown all of Memphis, Mr. and Mrs. Bryant Eddleman and children, Mr. and Mrs. Harley Eddleman and children, Mr. and Mrs. Reg Cushenberry and Layne, Mr. and Mrs. Murray Morrison and boys, spent Sunday with their parents, Mr. and Mrs. W. C. Eddleman.

Miss Ineatha Chandler spent the first of the week attending to business and visiting relatives at Lubbock.

Jack Grundy Now In Higher Bracket

J. A. Grundy, son of Mr. and Mrs. I. G. Grundy of Quitauque received a promotion on December 1, which places him in the "two car" bracket. Jack has been associated for about 8 years with the Reed Roller Bit Co., headquarters at Houston.

A vacancy was created when a member of the firm resigned to enter business for himself and Grundy was promoted to a position of dual responsibility, in charge of manufacturing and materials. He is directly in supervision of about 50 employees, but with the responsibility of purchasing and production he is responsible for operation of the plant which employs several thousand men.

The promotion carries a substantial advance in salary as well as responsibility, and the company furnishes him a car.

Jack is a graduate of the Quitauque school and attended Texas Tech where he received his degree with a major in mechanical engineering.

OLD TIMERS TO BE INTERVIEWED FOR BOOK

Rev. and Mrs. Trostle had as their guests last week his mother, Mrs. T. E. Trostle of Shamrock, and her sister, Mrs. J. M. Porter of Wheeler. They attended the WSCS Harvest Day Program at Memphis and came from there to spend Thursday night in Quitauque.

Mrs. Porter has written one book of the History of the Texas Panhandle, centered around Wheeler County and Old Fort Elliott, and is now gathering material for a more extensive history of the Panhandle and South Plains. She is especially interested in this section of the country because of its rich experiences and early romantic pioneer days.

While here Mrs. Porter interviewed Mr. and Mrs. Bert Hawkins and Mr. and Mrs. W. O. McFall. They related some thrilling experiences dating back to the early '80's. It was decided that some time in January we will have an "Old Settlers Reunion" for the benefit of getting together all history possible of the Pioneer Days.

Everyone interested, please start jotting down all that you or any one can remember, so we can have some to present at the meeting.

BUSY BEE CLUB TACKY PARTY FURNISHES LOTS OF FUN

The Busy Bee Club met with Miss Ina Bradshaw on Dec. 3 with a "tacky" party. It was in reality a surprise "pink and blue" shower for Mrs. James Reed who was unanimously chosen as the "tackiest." The costumes ranged all the way from the "bobby sox" type to the "gay nineties" and some of them looked like just plain "hit or miss".

There were eleven members present, and three guests, Miss Euna Bradshaw, Mrs. N. V. Hamilton and Mrs. E. A. Puckett from Quitauque.

Each one brought a dish and together with the chicken and dressing and other "fixin's" the hostess prepared, we had a delicious meal served buffet style.

During the afternoon we pieced on a quilt for which Mrs. Ike Reed had given the print, the club furnishing the white material.

We drew names for Christmas and will exchange gifts when we meet with Mrs. W. M. Tracy on Dec. 17.

We took pictures of the tacky group and we also decided to give Boy's Ranch a quilt.
Secretary-Reporter

UNDERGOES SURGERY

A card from R. H. McAdams, received Tuesday evening stated that Mrs. McAdams had undergone surgery Monday afternoon at Clovis for the removal of gall stones. She was in the operating room four hours, and when the card was written, she was not fully from under the influence of the anesthetic, however had stood the operation well. Her address is Mrs. R. H. McAdams, Room 218, Clovis Memorial Hosp., Clovis, NM.

Cecil Bays and Dick Gullion of Fort Worth spent the week end with M. E. Smith and family at the Cap Rock Station. Mr. Bays is a nephew of Mr. Smith. Mr. Gullion is general foreman and Mr. Bays assistant foreman at Consolidated Bomber Plant at Fort Worth.

SOME FOLKS DON'T LOOK WHERE THEY'RE GOING

Well, if we report a couple of other wrecks we heard about, we'll have to tell about ours also, even though it did not amount to much after all.

The greatest damage caused by a wreck this week was to C. R. Badgett's car, when it smashed into a concrete culvert on East Main street Monday night, while Ray Savage was driving. We did not learn any particulars of the accident, except that the car was badly damaged.

Wednesday evening about dusk, Miss Fairy Morrison was struck by a light colored coupe, when she started to cross the street from the Quitauque Cafe. She was knocked down and bruised and stunned, and received a cut on the left arm—but the car sped on and she did not know who was driving it, or to whom it belonged.

This reporter limped around town for a couple of days after rolling under a trailer about 6 o'clock Monday evening. Watching a car approaching from the east we did not see the trailer behind the slow moving car coming from the west. It was a trailer bed without side pieces, the car was traveling very slowly and when it passed we darted out, thinking the road was clear, but we dashed right into the trailer, rolled under it, and the driver of the car stopped immediately, assisted us over to the sidewalk, leaned us against a post, and left us to decide whether or not we were injured. We had just come from the beauty parlor with a new hairdo and manure, so we decided we were not hurt too badly to attend the party we'd started to attend. And considering our years, we made a very rapid recovery from a very frightening experience.

TO DALLAS FOR OPERATION

Mr. and Mrs. H. M. Helms returned last Friday from Dallas where Mrs. Helms had undergone treatment at the hospital. Mrs. Helms suffered the loss of a limb by amputation during the summer of this trip was for further surgery. Their small children stayed with relatives and friends during absence, the youngest son, five months old, staying at Otis Purcell home, where royally welcomed.

Amarillo visitors Mr. and Mrs. O. C. Lovell, Purcell and Mrs. I. They were accompanied by Mrs. Glen Cooper and Teddy Bob from Quitauque. Mrs. Bob was interested in the "man on the street", Quitauque friends enjoyed radio audition.

Entered at the postoffice at Quitaque Texas, as second class mail matter under the act of Congress, March 3, 1879.

LOCALS

Quite a few from Quitaque went to Plainview last Friday to see the Santa Claus parade and the fireworks that evening. Mr. and Mrs. E. J. Hamilton were among the number, also Misses Betty June and Margaret Owens accompanied their brother Gaston, and spent the night with their sister Mrs. Bill Ebbs.

AVON GIFTS SETS make lovely Christmas presents. Avon representative Mrs. G. H. Wagnon. Phone 48-W.

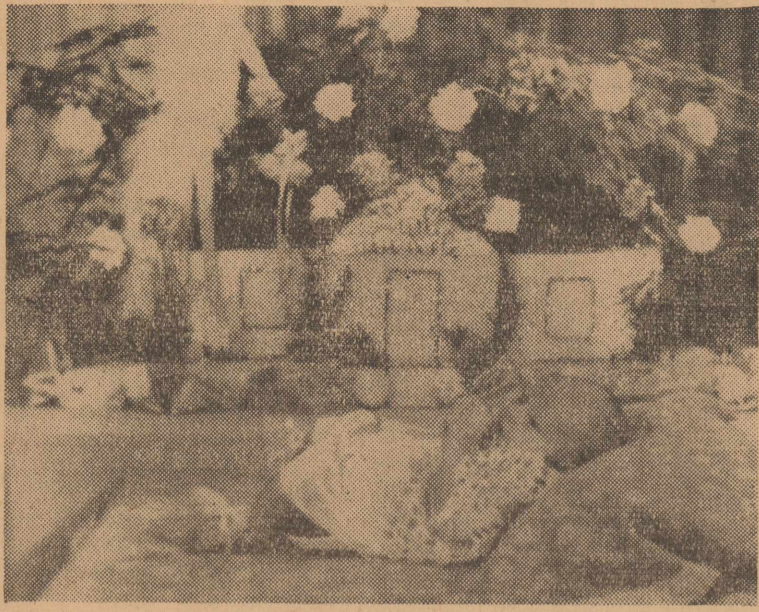

Venus Gillespie was in town Tuesday from Crobyston where he has bought a bakery, for a visit with his family.

LOST—Whiteface steer, weight about 800-lbs; possibly strayed from Hawkins place south of Quitaque.—A. B. Ramsey. 47-1

Mrs. C. R. Badgett returned home Sunday evening from several weeks visit with her daughters in Washington, DC., and Virginia, and her small new granddaughter.

FOR SALE—A few fat geese, \$4.00 each. Mrs. Leonard Crowell, Flo-mot. 46-2c

Willson and Son
Lumber and Hardware Company
"Where Most People Trade"

Pictured above is Alvin Lee James, the young fellow who was the first baby to arrive at the new Briscoe County clinic at Silverton. Business and professional men of Silverton presented Alvin Lee with a premium for being the first baby delivered by the stork in the new hospital, the premium amounting to \$108.00. Presentation of the tidy sum was made in a very unique manner. Mrs. Watson Douglas of

the Douglas Flower shop concocted a replica of the new clinic, which was decorated with pink and white carnations, plumosa fern and tulle, and the windows, doors and entrances were covered with five, ten and twenty dollar bills, and one fifty bill waved over the front door. Since money cannot be photographed, the bills were removed before the picture was made, but the above picture shows the baby lying in front of the pretty and unusual arrangement of flowers and money.

Mr. and Mrs. Paul Kinard and daughter of Lubbock were here over the week end visiting her sisters Mmes. Mort and Frank Hawkins and families.

Mr. and Mrs. Lin Baggerly of Beaver, Okla., were here the first of the week visiting her sister, Mrs. Joe Bedwell and other relatives.

FOR SALE—Farms west of Quitaque, city residences, 1941 Ford pickup, good 2-wheel stock trailer, 1 electric cream separator.—R. B. Persons, Quitaque. 45-3

Mr. and Mrs. S. G. Clark and her mother made a business trip Tuesday to Amarillo. They returned Miss Rinky Holcomb there and she has resumed her studies at business college.

FOR SALE—Several used gas heaters, and some other furniture. See me at Quitaque Saturday morning. Dr. J. M. Shy. 47-1c

Harold Riley returned last Friday to Baylor College at Waco, his parents, Rev. and Mrs. Ray Riley, accompanying him to Childress.

Mr. and Mrs. R. B. Persons spent the week end visiting with their children and grandchildren in Amarillo

FOR SALE—All white enamel coal range. See Mrs. A. L. Scott at Edgin section house. 47-1

Mr. and Mrs. A. C. McSpadden of Lubbock visited Sunday with his sister and husband Mr. and Mrs. W. F. Brittain.

Mr. and Mrs. E. W. Scheid and Mark Stacy visited with friends in Amarillo over the week end.

LOST—A gold Locket and chain on the highway between my home and town. If found please return to Mildred Foster or leave at the Quitaque Post. 47-1

Mrs. J. W. Shoemaker of Watrous, NM, and Mrs. Dan Craig and infant daughter Linda Kay, of Las Vegas, visited last week in the home of Mr and Mrs Bert Hawkins. Mrs. Shoemaker is the daughter and Mrs. Craig a daughter-in-law of Mrs. Hawkins.

LOST—Tire and rim, 7.50x17. Probably between Quitaque and south of town.—John Pigg. 47-1

Mr. and Mrs. Clyde Monk and small daughter Linda Louise, of Hanford, Cal., came in Saturday for a visit with her parents Mr. and Mrs. W. J. Carter and other relatives and friends.

FOR SALE—Two butane bottles, double regulator; nice used dining room suit—Locket Payne at Quitaque Trading Post.

Mr. and Mrs. Z. V Barker of Sadler were here over the week end looking after business interests. The Barkers are former Quitaque residents and own some land northeast of town.

NEW METHOD DEVELOPED FOR DISCOVERING OIL

A charge of dynamite, set off in the bleak region near the South Pole during the Byrd Expedition of the early '30s, set off a train of events which today gave promise of making the search for oil in Briscoe County quicker and cheaper.

The explosion was set off during the Byrd Antarctic Expedition of 1933-1935 by Dr. Thomas C. Poulter, second in command and scientific advisor of the expedition, as part of some seismic measurement experiments.

Dr. Poulter, nationally known scientist who now is the associate director of Stanford Research Institute, Palo Alto, Calif., last year presented his new method of seismic exploration to the Institute of Inventive Research, San Antonio. Dr. Poulter then was on the staff of the Armour Research Institute, Chicago.

The Institute of Inventive Research is a non-profit public service organization endowed by Tom Slick, Texas oil producer and rancher, to provide aid for inventors. The Institute agreed to underwrite further research on Dr. Poulter's new development, provided he would conduct the experimentation.

On Thursday, Nov. 4, at Essar Ranch near San Antonio, the new

way of making seismic tests for oil was unveiled. Dr. Poulter and Dr. Harold Vagtberg, president of the Institute, held a press conference. Then newspaper men were taken into the mesquite brush on the ranch for a demonstration. Light charges in the explosive pattern were set up on stakes above the ground, spread around the area to be tested, and all were exploded together.

The new method contrasts with the present system of firing a single, large charge in a hole of considerable depth. The Institute staff sees the principal advantages of the Poulter method over those currently in use as being the elimination of shot holes and their attendant costs, and the greater speed with which areas may be mapped.

Seismic recording equipment identical with that now generally in use is employed by the new method. Tests have shown, Dr. Vagtberg said, that the above-

ARTHRITIS

In a 48 page booklet, a committee of 12 of the nation's leading doctors have issued a complete report of years of research on rheumatism and arthritis.

From their findings a formula called Ru-Tel was then tested by physicians and clinics and has achieved remarkable results in relieving the pains of rheumatism, arthritis, backache and neuritis. Ru-Tel Tablets are pleasant to take, do not upset the stomach—give quick soothing relief, sometimes overnight. Now Ru-Tel Tablets are available through all druggists. First bottle must help or your money refunded.

BURGESS PHARMACY

ground method reduces danger of jamming nearby structures of concrete or other solid material. It also eliminates the dangers of falling stones.

Applications for patents on the method have been filed.

BUFFET SERVICE ON ZEPHYR ADDS TRAVEL ENJOYMENT

Announcement of an afternoon buffet service in the Texas Zephyr dining-lounge cars between Dallas-Fort Worth and Denver, Colorado, has been made by Burlington Lines headquarters at Fort Worth.

This service, to extend all afternoon, offers a very comprehensive snack menu for those who board the train for a late lunch or find occasion to enjoy afternoon refreshments enroute.

The beautifully appointed Texas Zephyr dining-lounge cars lend every inducement to travelers to enjoy afternoon refreshments in air-cooled comfort while enroute in either direction between Texas and Colorado. The Zephyr schedules provide afternoon departures from Dallas-Fort Worth and from Denver, with early morning arrivals at the other end of the run, and now provide passengers with this added

travel enjoyment.

The regular dining car service for luncheon and dinner, and for breakfast the following morning, shall continue to be provided; the buffet service is an added feature on the Burlington Lines' Texas Zephyrs operating in Colorado service.

MUSIC PACIFIES

If the people of the world will do more singing, they won't be as apt to start fighting another war.

That is the belief of Mrs. Beatrice Perham Krone, University of Southern California music education professor, who has been conducting a symposium at the University of Texas.

She and her husband write books of songs and urge music teachers to help their students understand the nature of the people whose folk songs they sing in class and thus, acquire a feeling of friendship toward them.

Name Themselves

The mistress of a Mississippi plantation, inspecting the farm one day, heard the herder urge: "Git along Stumbly, git along Poky, git along Sleepy, Silly, Nutty,

Lazy."

"My goodness, Ben," said the lady, "it looks like you've thought up a different name for every one of these 30 or 40 cows."

"No, Ma'am, that ain't the way

it is. You just let cows alone and they'll name themselves."

Ask a man when he was born and he will tell you the year. Ask a woman and she will tell you the day.

Why FERGUSON PLOWS

Ferguson 3-Point Attachment

When you use a Ferguson Plow, you don't depend on massive built-in weight for penetration—the 3-point attachment to the tractor actually pulls the plow into the ground. This natural penetrating action is aided by the ground. This natural penetrating action is aided by the ground. This natural penetrating action is aided by the ground. This natural penetrating action is aided by the ground.

Each of these plows is a unit with the tractor so you need no heavy frames, no wheels, no levers, no separate lifting devices. You lift, lower and adjust depth by Finger Tip Control. There is a wide choice of genuine field-proved Ferguson Plow Bases to fit your soil conditions. Ask us to show you these bases and to explain their advantages.

Jimmy Sue Phillips, 10, of Houston, a patient at Gonzales Warm Springs Foundation, visited Governor Beauford H. Jester's office as the chief executive signed a proclamation designating the period from Thanksgiving to Christmas as "Gonzales Warm Springs Month."

Gonzales—Texans from the Rio Grande to the Panhandle this week girded for a statewide drive to strike back against poliomyelitis which thus far in 1948 has stricken more than 1,600 persons in more than 150 counties.

Gov. Beauford H. Jester proclaimed the period from Thanksgiving Day to Christmas as Gonzales Warm Springs Foundation Month as a statewide organization, headed by Dana X. Bible, University of Texas director of athletics, swung into action to secure financial support for the institution which cares for young children stricken by polio and other crippling diseases.

Chairmen in key counties throughout Texas are assisting Mr. Bible in bringing the story of the Gonzales Warm Springs Foundation to the people of the state, says Ross

Boothe, president of the foundation.

Equipped to care for 110 crippled children, the Gonzales Warm Springs Foundation uses the water from warm natural springs and modern medical facilities and trained technicians to assist those who have been crippled to regain their health. It is supported largely by the contributions of Texas citizens, says Boothe, and any child suffering from a crippling disease may obtain admission and treatment, he declared.

A number of statewide organizations are cooperating in the statewide campaign for financial support, Boothe reported.

More than 500 persons have received treatment at Gonzales Warm Springs Foundation since the institution started receiving patients in 1941.

**Items of Interest
From the SCS Office**

Soil Conservation technicians made topographic maps this past week for Eual Newman, a cooperator in the Hay Lake Group, and H. Roy Brown, a cooperator in the North Silverton Group. Topographic maps are used in planning an irrigation system.

Diversion ditches were laid out November 30, 1948, by the Soil Conservation technicians for C. M. Flowers. Mr. Flowers is a coopera-

tor in the North Tule Group.

The local district office in Silverton urges any one who plans to terrace contact them as soon as possible. This will enable District Technicians to make necessary arrangements to get the lines run.

Terrace and diversion ditch lines were run by Soil Conservation technicians, last week on Grady Wimberly's farm in the Gregg Group. Construction is to begin on these terraces and diversions this week.

A high point for an irrigation

well was located on H. S. Crow's farm 6 miles southeast of Silverton, Texas, by Soil Conservation technicians.

Contour lines were run by Soil Conservation technicians on Roy S. Brown's farm 2 miles northeast of Silverton. Mr. Brown plans to chisel soon to conserve moisture and prevent as much blowing as possible.

**MERCHANTS IN AREA ARE
WARNED OF CHECK FORGERY**

Memphis, Dec. 6—Sheriff Hill of Hall County has issued warning to all merchants in area to be on the lookout for alleged forger and swindler "took" four of the largest bush houses in Memphis to a clear for a total of \$155 in bad che last week.

Sheriff Hill says the man is notorious ex-convict who has served three or four terms at Huntsville and three terms at McAlester Okla., penitentiary. He identified himself to merchants here by using his driver's license to cash various sized checks on a local bank. He also said he was a farmer "on Route 3" but the merchant never thought of that.

Taps and Sunrise

The West Point cadets are not the only ones who find taps at the sunrise guns annoying. The wife of an officer there secured a maid from a New York agency and, from all appearances, the girl was well pleased with her work.

To the mistress' amazement, Sally appeared the fourth morning and said she was going to leave her job right away.

"Why I thought you liked your work, Sally. What's the matter?"

Replied Sally: Miss Lizzie, I like you, I like the children. I like the colonel and I like the work. But I must leave. I can't work in a place where I'm drummed to bed at night and shot out of bed in the morning.

All Right for Summer

A pair of very thin gloves was found, and the lady of the house decided her cleaning woman must be the owner. Returning them to her, she remarked: "These don't really seem heavy enough to wear on these chilly days."

"No, ma'am", agreed the woman on by the day. "They sure keep my hands cold."

INFANT MORTALITY RATES IN TEXAS LOWEST IN HISTORY

Infant and mortality rates in Texas are at their lowest level in the history of the state, according to figures released by the Bureau of Vital statistics of the State Health Department. Infant mortality has reached a low of 41.2 deaths for every 1000 live births.

Compared to the figures for 1940, this represents a reduction of more than 39 per cent. In that year there were 197,023 live births and 8,685 deaths. But despite these gains, Texas still has the sixth highest infant mortality rate in the United States, with forty-two states reporting lower rates.

Dr. Geo. W. Cox, State Health Officer, attributes the reduction to the increase in public response to the educational efforts of the Texas State Department of Health.

"We have reason for pride in our reduced infant and maternal mortality when it is realized that the reduction means in excess of 5000 babies are being saved annually which have otherwise died, Dr. Cox said. In addition, the birth rate is higher than the 1940 figure by more than 71,000."

The comparison between the live births figures for 1940 and 1947, shows white births up 22,707; Latin American births up 7,186; and Negro births up 3,297.

The report also shows maternal mortality has been reduced over 65 per cent. In 1940, the rate was 4.6 for every 100 live births as compared to 1.6 for 1947.

THE TABLES ARE TURNED STUDENTS ASK THE QUESTIONS

Students may be asking the professors the questions if an experiment under way at Texas Christian University catches on.

Dr. Newton Gaines has discovered that physics students do just as much thinking, and disclose just about the same extent of their knowledge, in devising a first-class examination as in taking one.

"Most of my tests are coded multiple choice," says Gaines. "When a student doesn't know the answer to one of the questions, I give him the privilege of omitting it if he can write a better one—

NEW HIGHWAY SIGNS

Austin—A new type of highway sign, an advisory speed sign designed to aid in traffic safety, will soon make its appearance on Texas main highways. Part of the Texas Highway Department's program of speed zoning, the new sign will advise motorists of the maximum safe and comfortable speed on curves and turns which are not considered safe to travel at speeds above 50 mph. It will be a sign

with a yellow background and black numerals and letters.

The speed indicated on the sign is not the maximum at which a turn may be taken, but is the maximum at which the average car can make the turn without an uncomfortable side-throw of its passengers and still stay on its side of the road.

The speed indicated is calculated by the use of a Ball-Bank indicator, an aircraft device which mea-

asures the degree of turn. Highway I drivers will try increasing speeds until maximum is determined. The Governor's Conference held this month recommended that the Department institute a program of speed zoning and marking safe speeds, and the result of that recommen-

or at least as good—question in its stead.

"This method may be unusual, but it requires a comprehensive knowledge of the subject, plus ingenuity, application and finesse on the part of the student."

Dr. Gaines grades the alternate question which the student writes on its merits, just as he evaluates answers to the regular test questions.

"The good students like the idea," he reports. "The poor students? Well, poor students like nothing about examinations. no matter what the system."

Crisis in the Horse-and-Buggy Age

The year was 1902 and automobiles were chugging industriously in an effort to replace the horse. The proud owner of a brand-new Stanley Steamer, wheezing noisily along a country road, spied a horse and buggy in the distance and turned off his infernal machine.

As the horse and buggy drew with its aged occupants, the mobile driver gallantly offered to lead the horse past the automobile. The old man tightened his reins on the horse. "Don't bother the horse", he said. "You lead old lady past that contraption and I'll take care of the horse."

Last Rites At Turkey For Uncle Dave Lane

Last rites were held Tuesday afternoon at 2:30 o'clock at the high school auditorium for Uncle Dave Lane, who passed away Monday at the age of 91. Services were conducted by Rev. C. W. Parmenter, Methodist pastor of Turkey, assisted by Rev. J. F. Michael of Abilene and Rev. A. V. Hendricks of Estelene.

Interment was in Dreamland cemetery under direction of Stewart Funeral Home.

Pall bearers were all grandsons of his: Olen Lane, Harold Lane, Dean Lane, Jess Lee Meacham, Jewel Meacham and Milton Cotton.

Flowerbearers were all granddaughters of his: Barbara Christian, Linda Ferguson, Bonnie Sue Hill, Beatrice Russell, Geraldine Russell, Mrs. J. D. Gafford, and Mrs. Marion Summers.

David Campbell Lane was born February 16, 1857 at McMinville, Tenn. He was converted and became a member of the Methodist church in early childhood. He remained a faithful and devout member of the church until death. He was a charter member of the Turkey Methodist church, which was organized in 1891.

He moved to Texas in 1886, and on August 25, 1888 he married Miss Betty Cooper. To this union the following children were born:

Garland, deceased; Mrs. Lizzie Cotton, Mrs. Lura Meacham, Mrs. Ollie Meacham, Homer Lane, Mrs. Goldie Russell, Mrs. Mabel Christian, Luke and Mark Lane. All of the children live in this community at the present time. Numbered with his children are 23 grandchildren and 22 great grandchildren.

His wife preceded him in death on September 27, 1941.

The family moved to Hall County in 1890 and Uncle Dave was identified with every worthwhile movement that has taken place in this community, even before it became known as "Turkey". He was an influence that brought many people to know Christ as their Saviour. When the Lord called Uncle Dave home to rest, this community lost a pioneer and a Christian gentleman who was dearly loved and respected by everyone with whom he had contact through the long and fruitful years of his life.

CEMETERY ASSN. NEEDS YOUR PROMPT RENEWALS

Again we are asked to remind that Quitaque Cemetery assn. dues are due, and the money is badly needed to take care of outstanding bills. Please send your checks directly to Quitaque Cemetery Assn., or Miss Jane Hughes, treasurer; or leave the money with Alton Johnson at the Willson & Son Hdw. Annual dues are \$5.00.

Agricultural Briefs

"Burn down your cities and leave our farms, and your cities will spring up again as if by magic; but destroy our farms and the grass will grow in the streets of every city in the country," William Jennings Bryan once said.

This is the time of year to treat your cattle for grubs—This is grub season. They cause a big loss in meat, milk and leather. Ask the county agent about cattle grub control.

Nine out of ten home fires are preventable. It's up to you to find the fire hazards in your home and eliminate them.

It's not too early to start thinking about your 1948 income tax return.

Roofs of any type—shingle, slate or tile—should be inspected for broken or loose pieces before cold, wet winter months set in.

The "X" disease of cattle is found in more than 30 states, including Texas. This disease strikes hardest during the late winter and early spring months and seems to hit the younger animals harder than the older ones.

IF YOU HAVE a small tract of good land, 80 to 160 acres, modern improvements, near Quitaque or Turkey, please contact C L Franks, Tulla, Texas, office phone 328, residence phone 374-J. 47-1
