Gas Co. Employees On Job Around The Clock Last Weekend

The severely cold weather of the past week-end kept many Pioneer Natural Gas Company employees on the job round-the-clock throughout the system. Although the 24-hour period ending on Saturday, (January 12, 1963) at 8 A. M. was the most severe that the Pioneer system has experienced, gas supplies were adequate and there were no failures of a critical nature, according to T. S. Whitis of Amarillo, vice president in charge of transmission.

Late Thursday afternoon Pioneer began a constant surveillance of pressure regulation equipment. Engineering department personnel were busy placing extra portable gauges at additional points on the gas system where pressures could be observed. Men were sent to town border stations in the field to keep in constant touch with dispatching offices so that adjustments in pressures could be made immediately as required. Gas wells were being turned on, and compressors were being added to the lines. To assure complete control over the movement of gas, all work was coordinated by central dispatchers, who, with the aid of modern telemetry and communications, compressor station operators and production and distribution workers, maintained a round-the-clock check on gas supplies and pressures.

Dispatchers were busy collecting all available weather information. After studying records of other cold waves, they were determining how much gas was needed in each community. They were acting, — and fast — directing the flow of gas through hundreds of miles of pipelines to the towns and communities which Pioneer Natural serves. Timing was important as the low temperatures moved to the south. Amarillo recorded a 9-below at 6 A. M. Saturday. Then there was some slight moderation in the Panhandle as temperatures dropped to 16-below on the South Plains. Gas supplies were shifted accordingly. Pressure was maintained in all lines. Back down the line — all the way to production fields — gas was "packed" into the pipelines. Saturday morning saw a full complement of personnel in service departments which are normally staffed by only a skeleton crew on that day.

Friday was the biggest day that Pioneer has experienced, according to Whitis, although load figures will not be available until near the end of the month when charts have been collected throughout the system and analyzed. Saturday is always a lighter day since many customers, such as schools, colleges, and some industries, go off the load on that day.

There were lots of problems, of course. "Although distribution systems are constructed in accordance with accepted engineering principles, it's weather like this that gives them the real test," according to M. B. Edquist, vice president in charge of Amarillo distribution. "We discovered places where enlargements and changes in the system will improve operations, and 30 days from now we will be able to provide even better service," he said.

Crews were working outside all night Friday to thaw frozen wells and a frozen flow booster engine in Grav County. They were also at the company's Bushland Compressor station where the engine oil froze and the station couldn't be loaded.

Some industrial accounts, with interruptible contracts, were also curtailed.

The weather came on the heels of a company's announced multi-million dollar expansion program to increase transmission capacity and provide additional gas supply from the Permian Basin for Big Spring, Lubbock and South Plains customers. Twenty-five miles of

"POPULATION" GROWING AT TEXAS STATE PRISON

Huntsville — A total of 6,002 inmates were received in the Texas Department of Corrections during 1962, according to a report released this week by J. C. Roberts, Chief of Records for the Department of Corrections.

Roberts' report pointed out that 5,508 of the inmates received in 1962 had "new" prison numbers, while 494 were returned to prison as parole violators. During the same period of time, Roberts' office processed discharge releases for 2,842 inmates and issued paroles to 2,357 inmates, for a total release figure of 5,119 for 1962.

On New Year's Day 1963 there was a total of 12,165 inmates in the Department of Corrections. This figure tops by 257 the highest previous total for any New Year's Day and is 853 higher than the New Year's Day figure for 1961.

Dr. George J. Beto, Director of the Texas Department of Corrections, is faced with the responsibility of providing housing for the continually increasing prison population. He said, "Construction of the new Ellis Unit will offer some relief, however, we won't be able to use the entire unit until the latter part of 1963."

When completed, the Ellis Unit will offer housing for more than 1500 inmates in maximum security setting.

While construction continues on the Ellis Unit other Units of the Texas Department of Corrections are over-crowded. In the Huntsville Walls Unit inmates are sleeping in the auditorium and in buildings originally designed for industrial use.

Dr. Beto said, "The population of the Huntsville Unit should not exceed 1500 but the average inmate population for the Unit is nearly 2500."

The 1963 Texas Legislature will be faced with the proposal of providing additional funds for building cell blocks on two units of the Department of Corrections.

The Wynne Unit, located near Huntsville is over-crowded and inmates are sleeping on double bunk dormitories designed for single bed use only.

The Darrington Unit, located in Brazoria County has no facilities other than open dormitories which are over-crowded with young second offenders. Dr. Beto said he is hopeful of acquiring funds to build cell blocks on both the Wynne and Darrington Units.

Roberts, Chief of Records for the Department of Corrections for 20 years, says that the prison population has been on the increase since 1948. According to his projected figures, the prison population will increase to 14,000 inmates by 1965.

Mrs. A. F. Van Meter was taken to the Lockney General Hospital Sunday by Roberts Ambulance.

Clemente Leal was taken to the Lockney General Hospital Monday where he underwent an appendectomy. He was doing fine at the latest report.

Mr. and Mrs. D. C. Duck and Mrs. A. B. Ramsey, Jr., spent last Thursday in Amarillo. They visited Mr. Bert Degan of Turkey who was in the hospital there. Mr. Degan was doing fine and returned to his home on Sunday.

20-inch pipe are being installed between Lubbock and Tahoka to replace a 10-inch pipeline which is being removed. The 10-inch line is being reconditioned and laid as the third 10-inch line loop from Lamesa to Tahoka. A new 4,000 horsepower compressor is being built at Tarzan, Texas, which is located halfway between Lamesa and Midland. Work on the station is scheduled for completion by March 15, 1963. Whitis said that gas supply for the enlarged system, planned last year in anticipation of the area's growth, will be partially available by Mar. 1, and that the system will handle peak periods through the balance of 1963.

Supt. Attends Austin Meeting

Supt. Johnny Mason returned Friday evening from a meeting of school administrators which was held at Austin.

Mr. Mason accompanied Supts. Wayne Webb of Kress, J. S. Hinds of Silvertown, Loran Denton of Turkey and Joe Ed Cuppell of Estelline.

Mr. Mason said that the T.S.A. had a good meeting this time with a number of very interesting sessions of business on the program.

IT'S THE LAW IN TEXAS

LEGAL CHECKUP A SAFETY MEASURE

Legal trouble is easier and cheaper to prevent than to cure.

Most wage earning, childbearing, home-buying, installment paying families don't see much need for a family lawyer.

Often only under prodding, one may have his lawyer prepare a will.

But can you tell a big legal risk from a small one? Can you spot the signs of legal trouble?

Check with your family lawyer when:

1. Your status changes: upon coming of age, marriage, the birth of your children, buying a house, divorce or death. For you may then need to draft or revise your will, change your insurance, or re-figure your taxes.
2. You buy or sell. Look out for flaws in the papers before you go into debt, part with money, or sign anything involving big expenditures or long term obligations.
3. You enter into other contracts. Promises, spoken or written, bind you if they call for a "consideration", something of value in return.
4. Someone threatens your rights. The law exists to defend them but with some rights you must take action yourself for them to work for you.

When you can bring your lawyer "live" facts (e.g. unsigned contracts, vexing tax returns you haven't filed), he can do much more for you, and at a smaller cost than when you bring him "cold" facts (mistakes you have made which threaten trouble).

But above all, get both live and cold facts to him at once. For time may run out in many such situations. Your lawyer may be able to do something for you today, which he cannot do tomorrow.

Tell him all the facts, good or bad, and then keep him informed all along. He is sworn to keep what

(Continued On Back Page)

COLD WEATHER DRIVES FLOMOT HOME DEMO. MEETING INDOORS

The Flomot Home Demonstration Club met on Tuesday with County Agent Bill Pallmeyer as guest speaker.

The meeting was originally scheduled for an out-of-doors demonstration of Pruning, but due to the cold the meeting was held indoors and Mr. Pallmeyer gave his demonstration with blackboard illustrations, then a Question and Answer period for those with "tree problems."

Present for the meeting were Mmes. Liz Gourdon, Leona Degan, Opal Martin, Wawdie Clay, Tommy Cruse, Ruby Crowell, Annie B. Cloyd, Eunice McFall, Eliza Jones, Edith Washington, Leota Isabell, Alva Drennan, Leona Barron, Leslie Pope, Jimmie Ross, Treela Martin, Allie Martin.

The Club will have its Community Chest Program February 11th at the Flomot School House. The next meeting for the Club will be held the First Tuesday in February. The next meeting will be a demonstration on Hair Styles and also an auction sale of ex-pal gifts.

—Mrs. Raldo Martin

Type III Oral Polio Vaccine Will Be Administered Later

The Type Three Sabin Polio Vaccine will be administered at a date to be announced later, Dr. Robert N. Muckleroy of Silvertown said this week.

It has been decided that the vaccine is safe to be administered, and the program will go ahead.

The Type III will be administered at the same date as that of the Lubbock.

There have been only about 8 cases of polio that were suspected to have been caused by the Type III Vaccine, out of several hundred million doses of the vaccine that have been administered. So odds for a person to have polio caused by the vaccine is very, very small, many times less than the chances of having polio from natural causes.

New Arrivals

Mr. and Mrs. Doyle Shannon are the parents of a new baby girl, born Sunday morning around 8:00 o'clock. She weighed 7 lbs. 1 oz. and had not been named at this writing. The mother and baby are both doing fine in the Tulia hospital.

Funeral Services Held For George W. Hamilton

Funeral services were held Monday for George W. Hamilton in Midway Baptist Church at San Antonio. He died Saturday, Jan. 12 at the age of 82.

Officiating at the funeral service was the pastor of the church, the Rev. Lyndell Kincaid. The deacons of the church were pallbearers.

Burial was in Roselawn Memorial Park in San Antonio. George Walter Hamilton was born in Fulton County, Arkansas, on March 17, 1880. The Hamiltons lived in this community for a number of years before moving to San Antonio.

Mr. Hamilton is survived by three sons, Juriel of Quitaque, Lester of Devine, Texas and Clifton of Silvertown; three daughters, Mrs. Dollie Woods, Quitaque, Mrs. Clara Nell Sanders, Sunny Vale, Calif., and Mrs. Velma Anderson, Alameda, Calif.; one brother, H. W. Hamilton, Quitaque; two sisters, Mrs. Emelie Price, Phoenix, Ariz.; Mrs. Suzie Harrington, Centrahoma, Oklahoma.

Attending the funeral services from Quitaque were Mr. Henry Hamilton, Mr. and Mrs. Earl Hamilton, Mrs. R. L. Brunson, Mr. and Mrs. Willie Woods, Clifton Hamilton, Mr. and Mrs. J. C. Hamilton, Mr. and Mrs. Jimmy Davidson, Mrs. Joe Ed Smith, Mrs. Truman Merrell, and Miss Willie Mae Woods.

O. R. Stark To Speak At Lubbock Soil Meeting

The Twenty-Second Annual State Meeting of the Texas Soil Conservation District Supervisors will be held at the Pioneer Hotel and Fair Park Coliseum in Lubbock beginning on Wednesday, January 16 and running through Friday night.

It is reported that around 700 to 800 are expected to attend the meet provided the weather does not interfere.

O. R. Stark is scheduled to speak at the Friday morning General Session. He will use as his subject, "What Conservation Means to A Banker."

Billy Farley, who is stationed at Ft. Bragg, N.C. spent from Saturday, Jan. 5, until Friday, Jan. 11, with his brother, Wendell Farley and his family, and his sister, Mrs. O. E. Chandler and her family. He left on Friday to visit his parents in Farmington, N. M. He has an 18 day furlough.

FIVE DEGREES BELOW ZERO REGISTERED HERE SAT. MORNING

Sen. Andy Rogers Named Chairman Of Committee

Senator Andy Rogers of Childress has been appointed chairman of the committee on constitutional amendments. Lt. Gov. Preston Smith made the appointment.

The committee on constitutional amendments could have an unusually important role this year. Among constitutional amendments being talked is one that would considerably change the composition of the Texas Legislature in that it would eliminate the provision limiting counties to one senator and restricting the number of representatives a county may be entitled to.

Other committees to which Rogers was appointed are: agriculture and livestock, Education, military and veterans affairs, nominations, state affairs, transportation and water and conservation.

Not Much Time Left To Pay Poll Tax

Some people are under the impression that the Poll Tax has been done away with. Such is not the case. If a person wants to vote this year in any election that may come up he must have a poll tax receipt just as he has in past years. And just as he has in the past, that person must pay his poll tax by January 31. There are now less than 2 weeks left in which to pay your poll taxes.

City Secretary James Brunson has announced that he has the poll tax receipts at Quitaque City Hall and can save you a trip to Silvertown. Don't get caught short in case something comes up that you would like to vote on. **PAY YOUR POLL TAXES TODAY!**

Mr. and Mrs. Ralph Harvey and family of Amarillo spent last Friday with his parents, Mr. and Mrs. J. W. Harvey.

Mr. and Mrs. Ollie Nall visited Tuesday in Lubbock at the home of Mr. and Mrs. John Lindsey and boys. They were accompanied to Lubbock by Mrs. J. R. Nall of Turkey.

BOTH TEAMS BEAT ESTELLINE; SPLIT GAMES WITH LAKEVIEW

Despite the frigid weather that gripped the area last Friday night, a goodly group of hardy basketball fans turned out to see the Quitaque-Estelline High teams battle. It did not turn out to be much of a battle as the Pantherettes took an easy 33-21 win, with the regulars sitting out the fourth period. The Panthers outgained the Bearcubs 65-50.

Many of the fans came to see Estelline's highly-publicized Teddy Barnes burn up the nets but it did not quite come to pass. Instead, the fans were treated to the sight of a young fellow, name of Phil Barefield, who was starting in the place of ailing Jim Saul, take on the job of guarding Barnes. Phil did a very fine job on the high-scoring Barnes during the first half of play, holding him to three field goals, and four free tosses for a slim (for him) 10 points. Phil picked up four fouls during the first half and Cappy Wise was assigned the task of guarding Barnes the last half. Barnes tallied 16 points the second half for a total of 26 points. Now ordinarily a 26 point total would please a coach no end, but considering the fact that

Barnes' shooting percentage was less than 30 percent, makes his performance something less than sensational.

Jack Johnson scored more field goals than did Barnes and did not shoot more than half as many times. Jack dropped in 10 field goals and four free tosses for 24 points. Barnes got his 26 points on 8 field goals and 10 free throws. Terry Woods was runnerup in the scoring column for the Panthers with 18; Bobo Morrison canned 13 points, Phil Barefield chipped in with 6 and Cappy Wise had 4 to round out the scoring for the local lads.

Janice Dudley led the Pantherettes against Estelline with 21 points. Sophomore Freda Reagan, one of the Pantherettes' brighter prospects, found the scoring range and hit for 8 points, while Jennifer Whittington and Judy Colvin each dropped in 2 points.

Tuesday night the local teams drove over to Lakeview for a pair of district games. The Panthers continued undefeated, taming the Eagles 70-36, with big Jack Johnson hitting a very fine 36 point

total. The Pantherettes lost their first district to the Eaglettes 72-52 in a game that was close for a half. The Quitaque lassies trailed 12-15 at the end of the first period, 24-30 at half time, then saw the game get away from them in the third quarter.

Karen Clements hit for 36 for the Eaglettes and Sandy Virdon added 29 to spark the host team.

Freda Reagan, who has found the scoring range, led the Pantherettes with 22 points and displayed a good eye for the basket, especially the first half. Freda made six straight shots from the field during the first half, then missed just at half time. She also missed only one free throw try. Janice Dudley added 13 points to the total for the visiting Pantherettes, Jennifer Whittington added 8 points, Chlozee Woods canned 7 points and Judy Colvin added two.

Phil Barefield and Jamie Johnson started for the Panthers in place of regular starters Jim Saul and Bobo Morrison. Every man on the squad saw action and every man got into the scoring act but Mike Baird saw his lay-up go for

no score because someone committed a foul as he shot. In addition to Johnsons 36 points, Barefield tallied 4, Terry Woods 7, Cappy Wise 6, Jamie Johnson 4, Joe Hamilton 3, Carl Wayne Woods 4, Eddie Monk 5, Warren Merrell 1.

The local teams were scheduled to play in the Estelline Tournament this week-end but that affair will not be played and Coach Gene King was unable to schedule other games for tonight. The teams host Matarone here Tuesday night and the Panthers will go to Flomot next Friday night.

Dist. Jr. Hi Tourney At Turkey

Coach Jarrell Rice will take his Junior High Panthers and Pantherettes to the District Junior High Basketball Tournament, which is being played at Turkey this week end. Play gets underway Thursday night but Quitaque drew a bye and will not play until Friday evening. The girls play will play at 6 P. M. and the boys play at 7. Local fans are urged to drive over to Turkey and root for the youngsters.

Coach Rice reports that the Jr. Hi girls lost to Kress last Monday night 7-25, while the boys won 20-8.

Quitaque had its coldest blast of winter weather in recent years last week-end along with all of the midwest and southwestern part of the country. Cold nights continue to be with us, although the days are pleasant.

The cold weather arrived on Thursday afternoon of last week and temperatures continued to fall until a low of 5 degrees below zero was registered by several thermometers early Saturday morning.

The thermometer at the Highway Engineers Office showed a minus 5 at 7 o'clock when the editor came to the shop to turn up the heat. At nine o'clock the temperature was still the same, with very little moderation being shown all day long. Sunday morning the weather was still severely cold, with zero readings again being recorded. From then on the temperatures have slowly risen, although they have dropped into the low twenties each night since that time.

Carl Woods, who lives north of town reports that the ice is thicker on Holmes Creek and other streams and lakes than it has been in years.

Many local residents walked to work and to town for a couple of days. Others reported water pipes frozen; some had cold water and no hot water while still others had hot water and no cold water. Some pipes were burst when they were thawed out.

The weather forecast is for another cold front to move into the area Friday with the possibility of light rain or snow for the Panhandle area.

THE VOLLIE HODGES HONORED WITH HOUSE WARMING SUNDAY

Mr. and Mrs. VOLLIE HODGES were honored Sunday, Jan. 13, with Open House in their beautiful new home. There were fifty-two guests who called between the hours of two and five o'clock, and 167 gifts were brought or sent. Among the many gifts were a set of china, a beautiful maple living room table, a suspending lamp, a lovely array of linens and other gifts too numerous to mention.

Hostesses for the occasion were Mmes. Mack Truelock, Bill Sauls, Ray Payne, Webb Taylor, Murry Morrison, Wayne Whittington, Alene Welch, Raymond Grewe, Norma Dean Welch, Pete Kelly, Orval Cobb, Bob McWilliams, and Ford Johnson.

White cake squares, spiced punch and coffee were served with crystal and silver appointments from a table covered with an ecru lace cloth to the following guests: Mr. and Mrs. Gaston Owens and Eddie, Mrs. Alton Johnson and Jill, Minnie Mae Roberson, Patricia Brunson, Colene Taylor, Mrs. Bill Woods, Mr. and Mrs. Ralph Carter, Mr. and Mrs. John Pigg, Bill and Mike, Mrs. Bob McWilliams, Dena and Martha, Mr. and Mrs. Raymond Grewe, Mr. and Mrs. Clarence Barrett, Mr. and Mrs. Jack Chandler and Kenny, Mr. and Mrs. Charles Gowin, Mr. and Mrs. Grady Tyler, Mr. and Mrs. John King, Mrs. Allen Matthews and Donna, Mr. and Mrs. Joe Tiffin, Peggy, Dannie and Johnny, Mrs. Betty George, Mrs. Webb Taylor, Mrs. Orvil Cobb and Janice, Mr. and Mrs. Mack Truelock, Mr. and Mrs. Murry Morrison, Mrs. Evelyn Whittington, Mr. and Mrs. Bob McCarver and Kavin, Mrs. Allene Welch and Mr. and Mrs. Bill Sauls.

Rev. and Mrs. W. A. Tarpley attended a funeral service in Levelland Monday, for Mrs. Connally, the mother-in-law of one of the Tarpley's daughters.

Mrs. Boone McCracken, Mrs. W. J. Carter and Mary Ellen McCracken were in Plainview last Wednesday and they returned by Lockney where they visited friends.

BLUE BROWN IN HOSPITAL

Blue Brown is in Stanley Hospital at Matador where he was taken by Roberts Funeral Home ambulance late Tuesday afternoon after he became ill.

Latest reports were that Mr. Brown was recovering satisfactorily but that he would probably remain in the hospital for several days.

ily but that he would probably remain in the hospital for several days.

TAKE CARE OF YOUR IMPORTANT PAPERS

Back in pioneer times our forefathers found they could keep track

of the family history pretty well with a few notations on the flyleaf of the family Bible. But life's not quite that simple any more. Great-grandpa wasn't covered by social security or workmen's compensation. He didn't have a bank account or safe deposit box, a car and a dozen home appliances being bought on time payment, or a half-dozen insurance policies. We have taxes great-grandpa never heard of and wouldn't have believed if he had. And had you asked him for a certificate to prove his birth, he'd have thought you'd taken leave of your senses.

The point of this is that the average American today has a good many important papers to keep track of. There are birth certificates, receipts, copies of tax returns, sales contracts, and a host of other papers. With a little tidy record-keeping, you can make life easier for yourself and your family when you are gone.

So, why not make a New Year's Resolution to follow these suggestions:

1. Get a heavily bound notebook folder or file as a central collecting point for all the records of your affairs.
 2. Put your especially important papers in your safe deposit box, but make a list of those papers and a brief summary of their contents to put in your home file.
 3. Get for your files copies of birth certificates for all members of the family, and add them to the file. Add your marriage license or at least a statement as to when and where you were married and by whom.
 4. Insert your will or a copy of it. If your will is kept elsewhere, include a note telling where it may be found.
 5. During the year, put into the file your income tax withholding statements and receipts for expenditures which may be deductible. Then keep a copy of each year's tax return in the file.
 6. Make a list of all the stocks and bonds you own and where they are.
 7. List all the places you have lived and worked and the names of persons there who you know. Include the schools you have attended and the dates you left or were graduated.
 8. If you have benefits coming under a profit-sharing plan where you work, make a note of that too.
 9. If you're in doubt about whether an item should be included, put it in. This takes time initially but it will save you both time and worry in the long run.

No person should ever apply or interpret any law without the aid of an attorney who is fully advised concerning the facts involved, because a slight variance in facts may change the application of the law.)

OUT DOORS IN TEXAS —
By — Vern Sanford

An unweighted mullet sank gently into the azure Gulf of Mexico. Raymond Muchowich was holding his light, two-handed rod intently and watching the bait vanish into the depths.

Suddenly, the monofilament snapped taut.

Almost simultaneously Muchowich yanked back on the rod. The tip heeled over and throbbed. The small star-drag reel whined in protest as a speedy king mackerel (kingfish, if you prefer) ripped off monofilament.

Muchowich yelled gleefully as the streamlined fish bored deep. It paused somewhere out in the desolate vastness of the gulf and Muchowich gained back some line only to lose it again, as the king made another frantic run.

After several matching rushes the king settled down to a tenacious battle of give-and-take. Finally, Muchowich worked the king to a spot alongside the boat and we could see its outline in the clear water.

The boat captain stood poised with the gaff.

Suddenly the fish made one last feeble rush for freedom. Muchowich snubbed the line up tight and brought the fish twisting to the surface.

Then it was that the captain struck swiftly with the gaff and brought 15 pounds of flouncing kingfish aboard.

Muchowich looked around and grinned. "What did I tell you?" he chortled. "Great sport, no?"

I didn't have time to answer because I was busy battling one of the sporty fish with my fresh-water spinning outfit. On the light tackle it was cutting all sorts of capers.

Muchowich had brought me out in the gulf to demonstrate the popular new concept of kingfishing.

Most kings are caught by trolling, using derrick-like tackle that will quickly sap the strength of even the largest of them.

Muchowich, who operates a fleet of charter fishing boats out of Freeport, prefers to anchor on an offshore reef and cast for the kings with light tackle. It's immaterial to him whether he fishes with artificial bait such as a large wobbling spoon, or with natural baits like frozen mullet or live shrimp.

When using the natural baits he fishes without any weight on the line so the bait will sink slowly toward the bottom.

"The kingfish makes his best showing on that first, fast run," Muchowich explained. "When the boat is moving and you're using heavy tackle, the fish hasn't got a chance. You kill its spirit before it has an opportunity to show what it's made of."

"But on light tackle . . . well that's something a fisherman really must try in order to appreciate it."

And appreciating it, I was. As the javelin-shaped fish came up grudgingly from the depth, I realized that this mode of king fishing was indeed sporting.

It used to be that guides along the Texas coast tried to fix things so

that their clients could catch the greatest amount of fish in the shortest time possible. But after awhile some guides got to thinking that such wholesale slaughtering of fish, most of which were left to rot on the docks, was only depleting the available supply.

Now many fishermen are changing their technique. They are going to light tackle. Most such tackle is not much larger than that used to catch bass on inland lakes and streams. True, this type of sport fishing decreases the size of the catch. But it increases the fun. And it definitely is more sporting.

Ideal rig for this type fishing is a medium to stiff fresh-water or light salt-water outfit, either conventional or spinning, equipped with about fifteen-pound test line.

A reel with built-in drag is preferred since it is almost impossible to stop the mad rush of a king by biting down on the reel arbor with your thumb without losing several inches of skin.

Kingfish are found in tremendous numbers along the Texas coast. Usually they put in an appearance in May (Memorial Day normally signals the beginning of the peak kingfish run). And they stick around until early fall.

They are caught near off-shore reefs or alongside off-shore oil rigs, or in similar spots where their favorite food is abundant.

It is well to remember that kings run in large schools and where one is caught, usually you'll take several.

Many anglers troll until they pinpoint a school, then they anchor and start casting.

That's when the fun begins. And it's even greater fun using light tackle where the fish really has a sporting chance.

SOME NOTES ON AUTO INSURANCE

Premiums paid by motorists insured through the Texas automobile assigned risk plan do not cover the cost of their claims and other expenses.

As a result, motorists who obtain their automobile insurance in the regular way have to subsidize assigned risks in this state. Contrary to this, in many states assigned risk motorists pay premiums designed to make the assigned risk plan self-supporting.

A study released today by the Insurance Information Institute shows that Texas assigned risk motorists cost \$112.80 in losses and other expenses for bodily injuries and property damage for every \$100 of premiums during the five latest years available.

See Us
FOR ALL YOUR
BUTANE NEEDS

JENNINGS FARM SUPPLY

Day Phone 3211 Night Phone 2821

This means that the companies suffered an underwriting loss of \$12.80 for every \$100 of premiums, the Institute explained.

For the five year period, premiums earned on the assigned risks in Texas totaled \$11,664,191 for bodily injury and property damage liability insurance. Claims and other expenses amounted to \$13,162,830 for the same five years.

Thus the companies' out-of-pocket losses on these assigned risks reached \$1,498,631 during this time.

The companies suffered the most severe dollar losses in the three states with a compulsory automobile insurance law — Massachusetts, New York and North Carolina. Losses in New York, for example, totaled \$128,618,722.

"States with compulsory laws tend to have higher losses on their assigned risks," the Institute said, "because in these states the insurance companies are forced to insure drivers whose records are so bad that they should not even be licensed to drive."

"The answer to this problem is not to require the insurance companies, and in turn all other insured drivers, to subsidize the mayhem and destruction of the very worst drivers, but to take away their driving privileges."

Assigned risk plans are methods by which insurance companies share the heavy financial drain of more hazardous risks. If a motorist cannot obtain insurance in the open market, the assigned risk plan is available to him.

"The assigned risk loss experience is much higher than that for business written in the open market, and it confirms the abuse insurance underwriters to evaluate the loss potential of individual drivers," the Institute noted.

Mrs. Dwight D. Eisenhower is the 2,180th member of The Daughters of the American Revolution.

Only one person out of 100 in Finland is illiterate.

March of Dimes Helps Save Boy

Here's Johnny at age one after first operation . . . and today, leading a normal life at age four.

At his fourth birthday party, Johnny Wilson's big smile sparkled as his mother carried in the most magnificent cake he had ever seen.

It was shaped like a huge boat plowing its way through mountainous waves of whipped cream and icing. Johnny's winsome smile beamed at friends and he gave out kisses all around.

It was a happy affair. Yet at one time, Johnny's parents had little hope he would live to celebrate even his first birthday. He was born with the often fatal birth defect of water on the brain, or hydrocephalus.

Surgical treatment saved Johnny's life when he was three months old. At that time, doctors performed what is known as a shunt operation. They inserted in Johnny's head a plastic tube which allowed excess fluid from the brain to be harmlessly absorbed by the youngster's body.

Without the operation, fluid within the brain is prevented from taking its normal course,

and causes the head to swell enormously. This is what had happened to Johnny. (If shunt surgery is not performed in time, mental retardation and blindness may ensue, even death, in certain cases.)

Since 1958, doctors have performed two other shunt operations and have treated Johnny for gastroenteritis and septicemia.

Today, Johnny leads a relatively healthy, happy and carefree life. Like any other little boy who lives on a farm, he loves to hug lambs, chase cows and tease chicks on the family's 100 acres near Columbus, Ohio.

He is a good example of thousands of afflicted children being helped to live nearly normal lives through a unique medical care program financed by The National Foundation-March of Dimes.

Babies with birth defects are born every other minute in the United States, 250,000 of them each year, almost 700 each day. Johnny goes regularly to a special Birth Defects Clinical Study Center at Children's Hospital, Columbus, supported by March of Dimes funds.

It is one of more than 30 similar centers across the na-

tion set up for the study and treatment of birth defects. At the center, trained specialists work together to help children with many kinds of birth defects. They include a neurosurgeon, orthopedic surgeon, internist, psychiatrist, physical therapist and medical social worker. They have put their skilled hands and minds to work on Johnny's behalf.

Every four months, Johnny's mother drives him to the center for his check-up. A doctor always measures his head to make sure there is no change in size. Since 1959, his head size has remained relatively constant.

Johnny is growing up to be an impish, energetic and friendly little boy who likes to do everything and go everywhere. Especially, he likes to wheedle ride on a pony at the next farm. He'll settle, though, for a tour on the tractor with his mother or father, Julia and John Wilson.

Like Johnny, other afflicted children who receive proper treatment may live to enjoy shooting cap pistols, watching television, singing songs or playing a toy banjo—with the best of four-year-olds.

Fashion briefs from

Eye make-up is an age-old story dating back to 7000 B.C. The trend then was for a heavily made up eye cosmetically shaped into an elongated oval. The "look" was dramatic, almost bizarre, but the ultimate in fashion during that era.

Surprisingly enough, the "almost eye" delicately softened, still reigns in popularity today — yet, so many women confuse it with its archaic sister. They apply it with careless abandon, emerging as neo-queens of the Nile!

Instead, the 20th Century woman should be glamorous but natural. Her eyes should be discreetly made up so that their real beauty shines through. Here are a few tips which will help you achieve this new effect:

When applying eye shadow, blend it thoroughly so that only a hint of color shines through. To line the eye, use a fine-pointed pencil and apply it to the very edge of the upper lid only. And, for brows, apply eye pencil in short, feathery strokes - then smooth out harsh lines with fingertip. Fringe lashes with either cake or automatic mascara.

Before it sets, however, brush through with a clean, dry cake mascara brush to prevent beading. Admittedly, the "natural look" is more difficult to master . . . it does require patience and practice. It's worth it, however, in the long run if you want to be fashion-perfect!

CONSULTANT, CUTEX

had been held for so long by a Texan, Sam Rayburn. Mr. McCormack succeeded Mr. Rayburn upon his death and has been the Speaker since. He was re-elected for the 88th Congress by a vote of 256 to 175. The Republican nominee was Mr. Charles Halleck of Indiana. The vote was along Party lines. Everyone voted except the two nominees, who voted "Present", which explains the difference between the number answering present on the first roll call, and those voting in the Speakership race.

The Democrats in their caucus named as Majority Leader the Honorable Carl Albert of Okla-

homa. Mr. Albert is a man who is short in stature, but long in brains. He has often been referred to as "The Little Giant." He was a Rhodes scholar and has been looked upon by many as having one of the most brilliant minds of his generation. The Republicans chose as their Minority Leader the Honorable Charles Halleck of Indiana, who was their candidate for the Speakership. Had the Republicans been in the majority in the House of Representatives, Mr. Halleck would have been elected Speaker.

Although there were limited fireworks in the Democratic caucus, the Republican caucus, according to the news media, produced a rebellion that unseated one of the older Members and replaced him with a representative of a younger group - - - younger both in age and in service in the Congress. This is very similar to the rebellion which occurred a few years back when the long-time Republican leader in the House, Joe Martin of Massachusetts, who had served as Speaker, Majority Leader, and Minority Leader, was unseated and replaced by the present Minority Leader, Charles Halleck of Indiana.

How much bitterness will result from these actions is difficult to tell at this time, but it is obvious that there is a bad taste in the mouths of several who were on the losing side in that fight.

Both the Democratic and the Republican Parties named their respective Whips. Mr. Les Arends of Illinois was named Whip for the Republican Party, and Mr. Hale Boggs of Louisiana was named Whip of the Democratic Party. These are the political "top sergeants" who are supposed to keep party members in line and keep up with what's going on. Needless to say, their job is a very tough one, and many times a thankless one. I am sure that both would tell you that, contrary to some general beliefs, independent thinking is the order of the day for most Members of the House of Representatives, especially in the South.

In any event the groundwork for the First Session of the 88th Congress has been laid. Committee work will commence soon and representative government will begin to function. Let us all hope that results will be forthcoming that will be most beneficial to the advance of civilization in keeping with the freedom and dignity of the individual.

THE MONA LISA

You have all read about the loan of the famous "Mona Lisa" by France to the United States. It is presently being displayed at the National Gallery of Art on Constitution Avenue. There was a special showing for the Congress and other public officials, which I attended along with Mrs. Rogers and Mrs.

Julia McKernan of Pampa. There was quite a crowd and the painting was at the end of one of the wings of the Gallery, making access to it quite limited. I could see the painting from the rotunda and was satisfied with that view. The next day I was talking with former Congressman Brooks Hays at the White House, and asked him if he had attended the ceremonies and viewed the Mona Lisa. He replied that he had viewed the painting in somewhat the same manner as Aunt Rhody from down in Arkansas. Someone asked Aunt Rhody if she had seen Haley's Comet. Her reply was "Well, yes, but only from a distance."

REGISTRATION FOR SECOND SEMESTER AT CLARENDO NJC SET FOR MONDAY, JANUARY 28

The first semester of the 1962-63 term of school at Clarendo Junior College will end on Friday, January 18. Enrollment for the second semester regular day school has been set for January 21, according to Oliver J. Abel, Dean of the College. Enrollment for Night School for the second semester has been set for January 28, 7:00 P.M.

Dean Abel has asked us to announce that there is still available a portion of the allocated funds from the National Defense Educa-

tion Act to loan to needy, deserving and capable youngsters who have delayed their enrollment due to financial difficulties. He reports that application for educational loans against that fund will be received in his office until January 28. The NDEA Loan Fund, which is appropriated by Congress for needy high school graduates is loaned on a 10-year repayment plan at 3 percent interest on the unpaid balance. First payment becoming due the first year after the student has left college.

Dean Abel invites any interested youth to call, write, or come by the office to make application for a loan from this fund.

Dean Abel

TAX MAN SAM SEZ:

The fact that Internal Revenue collects 97% of our taxes without any enforcement effort on the part of Internal Revenue is one of the finest compliments to the American citizens that could be paid. The tax folks believe that most American taxpayers do what is right. None of us want to pay any more than we owe but we are willing to do our share if the other fellow is made to do his share.

CONGRESSMAN WALTER ROGER'S WASHINGTON REPORT

THE 88TH CONGRESS
The 88th Congress of the United States of America convened at 12 Noon on the 9th day of January, 1963 with 433 Members present. 257 of these were Democrats and 176 were Republicans. One Member, a Democrat, was absent and there is one existing vacancy due to the

death of Congressman Clem Miller of California, who lost his life in a plane accident last year. Elections are in progress to fill this vacancy. It presently appears that the division in the House of Representatives will be 258 Democrats to 176 Republicans. Should the California seat be filled by a Democrat, which is expected, the count would be 259 Democrats to 176 Republicans.

Prior to the opening of the Congress on January 9th, each Party held a caucus. The primary purpose of the caucus is for the purpose of nominating the candidate for Speaker of the House, selecting a Majority Leader, and nominating certain candidates for offices of employees of the House. The present Speaker of the House was nominated for return to this position, which

CHEVROLET Keeps Going Great

No wonder Chevrolet is so popular with a choice like this: the luxurious Jet-smooth Chevrolet, lively low-priced Chevy II, sporty rear-engine Corvair, and two new versions of America's only all-out sports car, Corvette.

'63 JET-SMOOTH CHEVROLET

Impala Sport Sedan— one of 13 Jet-smooth Chevrolets

Chevrolet Impala Sport Coupe— beauty, ride and comfort you'll go for instantly

Chevy II Nova 400 Station Wagon— shares the easy-care features of the big Chevrolet

Corvair Monza Club Coupe— with snazzy bucket seat interior

Corvette Sting Ray Sport Coupe— there's also a new Sting Ray Convertible

See four entirely different kinds of cars at your Chevrolet dealer's Showroom!

Economical GAS can help

CUT

HOUSEKEEPING

COSTS

With costs continuing to climb, it's wise to examine every area of your budget for possible economies. You may find some expenditures unnecessary . . . others which could be trimmed by more careful planning. Two good ways to make substantial savings (and actually achieve superior results) are by cooking and drying with Gas!

A GOLD STAR RANGE...

costs less to buy, install, operate & eliminates food and fuel waste; thermostatically-controlled burners prevent boil-overs and burning, measure the precise amount of heat for best results & broils and roasts meat with less shrinkage & keeps entire meals savory and serving-ready for hours in the OVEN-WITH-A-BRAIN.

A GAS CLOTHES DRYER...

starts working instantly, shuts off instantly to save you time and fuel & pampers all fabrics . . . helps clothes last longer & operates nine times more economically than the coil-type kind & saves you as much as \$24.72 a year in utility costs!

See Your Appliance Dealer, Now, and Start to LIVE MODERN FOR LESS... WITH GAS!

Pioneer Natural Gas Company

Prepared by American Foundation for Animal Health

Preventing livestock diseases is good, common sense for the farmer, especially from a dollars-and-cents point of view.

Here are three examples of the value of a systematic disease prevention program, as compared with the losses an infection can cause.

Hog cholera frequently causes a 100 per cent death loss. If this occurs in a herd of 100 pigs weighing 100 pounds, with a feed conversion ratio of 3 1/2 to 1 and a feed cost of \$2.50 per 100 pounds, the value of the feed invested would represent a loss of \$875. The cost of having a veterinarian vaccinate to prevent hog cholera would be only about 10 per cent of that sum.

Farmers are making great savings through a livestock disease prevention program.

Swine erysipelas, another serious disease, would bring a loss of approximately \$198 if it struck an unvaccinated herd of 100 pigs and caused a 2 per cent mortality. This includes \$17 for dead animals, \$131 for extra feed to recover the loss of weight, and \$50 for treatment. The cost of having the pigs vaccinated would have been but a small fraction compared to the loss.

Salmonella causes death losses of 10 to 90 per cent. With a 10 per cent mortality, the loss would be some \$848, representing \$87 for feed used in the dead hogs, \$263 in extra feed needed to make up the average 15 pound weight loss per surviving pig and \$498 for the extra feed required by a rise in the feed conversion ratio to 4 1/2 to 1.

These three examples explain why tens of thousands of farmers now are taking the prevention approach to livestock disease control. Many now make it a practice to have their veterinarian stop by and check the animals at regular intervals. Those owners help to reap more profits by keeping their animals well instead of waiting to treat them after they become sick.

Flomot News

Mrs. L. B. Turner

Mr. and Mrs. Art Green announce the engagement and approaching marriage of their daughter, Jean, to Don Lewis, son of Mr. and Mrs. Fred Smith of Childress. The wedding will take place Sunday, January 27th and the young couple plan to make their home in Childress.

Mr. and Mrs. A. L. Tanner of Tulia visited their daughter and family, Mr. and Mrs. Herb Martin and Kathy New Year's Day. Other recent guests in the Martin home were Mrs. Perry Barham, Mrs. Bill Morris, Glynda, Kay and Lillie Mae Morris of Tulia and Mike Morris of Garland.

Rev. and Mrs. Jack Terrill and family had friends from California for a brief visit last week. They were Mr. and Mrs. Wade Robertson of San Lorenzo and Mr. and Mrs. Donal Falling of Mill Valley, Calif.

Saturday evening, Jan. 5th, a caravan was seen leaving Flomot heading west. It consisted of several horses with riders and a wagon pulled by a team of shetland ponies. The wagon was carrying bedding, food and camping equipment and the destination was the water hole on the Vaughn Hall ranch up in the breaks country. The company was Seabe Washington, Donnie Turner, Elden Martin, Stanley Degan and Travis Kendall of California. The boys went part of the way over a paved road but turned south to rough country when three miles out. They made camp high up in the hills, with all the skill of frontiersmen; rolling up in their blankets and tarps. They were tired but happy boys when they broke camp Sunday and came back to the shelter of their own firesides.

Mr. and Mrs. Raymond Kendall and son, Travis, returned to their home in California after a visit with their mother and grandmother, Mrs. Lois Martin. The Kendalls attended the funeral of his brother, Robert at Ardmore, Okla. Jan. 2nd, and returned here the 4th and remained until the 8th. Mrs. Martin is at home after a stay of ten days in Stanley Hospital with bronchial pneumonia.

Mr. and Mrs. Dick Washington of Portales, N. M. visited in the Harley Gunn home and in the Lois Martin home several days the past week. Mrs. Harley Gunn returned home Monday after spending three weeks in the home of her daughter and family, Mr. and Mrs. Garland Francis at Silverton. Mrs. Gunn is recovering from recent surgery.

Mrs. Mark Martin of Hart and her daughter, Mrs. Bob Merrell of Lone Star visited Mrs. Lois Martin Tuesday. Other recent guests in the home of Mrs. Lois Martin were Mrs. Nell Yeary of Cedar Hill and Mrs. Vivian Merrell of Silverton.

LOCAL BRIEFS

Mr. H. J. Bailey of Amarillo spent last Wednesday with his son, Mr. Bud Bailey and family.

Mr. and Mrs. T. J. Reeves of Plainview spent last Thursday and Friday with their daughter, Mr. and Mrs. Bud Bailey and girls.

Mr. and Mrs. Hubert Setliff, Martha and Myra spent Sunday with Mrs. Setliff's mother, Mrs. W. E. Morrison.

Mr. and Mrs. Dwain Henderson of Silverton visited their parents, Mr. and Mrs. Gaston Owens and Eddie Sunday afternoon and stayed for dinner.

Mr. and Mrs. Jake Merrell, Mr. and Mrs. Slocum Roberson and Mr. and Mrs. Johnny Mason attended the Mid-Winter Conference of the Lions Club in Pampa this past week-end. The Merrells spent Saturday night and Sunday in Pampa and the others drove up Sunday.

John King and his son, Jerry King of Silverton drove to Odessa Saturday on a business trip.

Mr. and Mrs. Ralph Carter visited Mr. and Mrs. Larry Hedrick and Scott last Thursday night. They were helping Scott to celebrate his first birthday. His birthday was Friday, Jan. 11, but they celebrated with him Thursday night.

Mr. and Mrs. Junior Sperry and children of Dimmitt spent Saturday night and Sunday with his parents, Mr. and Mrs. Jeff Sperry and attended the Open House held for the Sperrys Sunday.

Mrs. Betty Rowell and Mrs. Betty Day of Lubbock visited Mr. and Mrs. P. John Monk and Eddie Sunday afternoon.

Mr. and Mrs. Bob Clary of Salinas, Calif. and Mrs. Bill Johnson of Wasco, Calif. arrived last Thursday to visit the ladies' brother, Dick Hooks and Mrs. Hooks, and their sister, Mrs. Tracy Drake and Mr. Drake.

We wish to thank everyone for the cards, gifts, visits, and prayers that I received during my stay in the hospital.

May God bless each of you. The Bobby Brunson family

Mrs. Daisy Bedwell spent from last Tuesday until Monday in Lamesa with her daughter, Mrs. Gene Grundy. Mrs. Grundy brought her home.

Mr. Ray Carpenter of Ruidosa, N. M. arrived Friday to visit his daughter, Mrs. Jerry Hamilton and family and to return his wife to her home after spending several days here caring for the new baby.

W. E. Helms and Johnny spent Sunday with their parents, Mr. and Mrs. Bill Helms.

Mr. and Mrs. J. C. Rhoderick of Silverton spent Monday with their daughter, Mrs. Clayton Johnson and family.

Mr. and Mrs. Clayton Johnson and Mr. and Mrs. J. C. Rhoderick of Silverton spent last Thursday in Tulia on business and shopping.

Mr. and Mrs. Ray Persons spent Friday in Plainview visiting their son, Tom, and his family.

Mrs. J. T. Persons and Mrs. Charles Gowin were in Lubbock last Thursday visiting Mrs. Rayford Hewett and Joe Seay.

Mrs. Ray Doyle Ramsey took Darrell to Lockney General Hospital to the doctor last Friday and it was determined he would have to undergo a tonsilectomy. He entered the hospital Tuesday evening and had his tonsils removed Wednesday morning.

Guests in the home of Mr. and Mrs. Dick Hooks for lunch Sunday were Mr. and Mrs. Bob Clary of Salinas, Calif., Mrs. Bill Johnson of Wasco, Calif., Mr. and Mrs. Shug Drake of Amarillo, Mr. and Mrs. Tracy Drake, Cherylanna and Rusty Mason and D. Mason.

Mr. and Mrs. M. ... son and children, Mrs. ... men-berry and B. ... visited their sister ... Bright ... Young and Mr. Young in Memphis Sunday afternoon. Mr. and Mrs. Joe Alvin Young and new son, Russell Lee of Amarillo were also visiting there. The baby was born Christmas Day.

Mrs. Sid Bogan and Mrs. Gladys Wise visited Mr. and Mrs. E. E. Berry in Tulia last Thursday. Mrs. Wise's daughter, Mrs. Richard Tibbetts of Amarillo met Mrs. Wise there and she returned to Amarillo with her for a visit. Mrs. Bogan returned home Thursday afternoon. Mr. and Mrs. Richard Tibbetts brought Mrs. Wise home Sunday evening.

MONDAY, JANUARY 21 - SALE TIME 11:00 A. M.

LOCATION: Silverton Gin, East of Silverton on Highway 86

LUNCH WILL BE SERVED AT NOON BY O.E.S. 900 LADIES

This is a sale for anyone to consign anything that they may wish to sell at a 5% commission. You may bring it the day of the sale. Terms of this sale are for cash. Below is a list of items consigned at this time, January 14, 1963.

TRACTORS:

- 1-1958 International 450, good condition.
- 1-1949 Ford on butane, 100 hrs. since overhaul, good rubber.
- 1-Ford, good condition, w/sky loader, double dipper with blade.
- 1-Allis Chalmers, model C, with 2-row planter, lister, cult., wide front end.
- 1-W30 International Wheatland.
- 1-S.C. Case.

COMBINES:

- 1-Massey Harris, 92-1958-14-ft., cab, good rubber, very clean, ready to go to the fields.
- 1-Allis Chalmers-66-ft. power take off, duals, Hume Reel, good condition, set now for grass seeding, will handle any seeding operation.

TRUCKS, PICKUPS, EQUIPMENT:

- 1-1949 GMC, 2 ton, 2 speed, 5 forward, gallion hoist, steel bed, stock and grain racks, saddle tank.
- 1-L-190 I.H.C. Tractor, fifth wheel, drag axle, factory sleeper, saddle tanks.
- 1-1950 Chev. 1/2-ton, 4 speed pickup, good rubber.
- 1-1954 Ford 1/2-ton, 3 speed, with radio, heater.
- 1-13-ft. truck bed with grain racks.
- 1-130-gallon gas pickup service tank, new.
- 2-Saddle tanks.

MACHINERY & EQUIPMENT

- 1-No. 10 I.H.C. Planter Lister, 4-row Fast Hitch.
- 1-14-ft. John Deere tandem disc on rubber.

TRAILERS:

- 1-New Continental 200-gal. 6 or 8 row sprayer, steel tank on rubber.
- 1-I.H.C. 2-way Mouldboard, 2-bottom drag type.
- 1-I.H.C. rollover 2 - bottom Mouldboard, good condition.
- 1-Shredder (service) heavy duty, stalk, brush, 3-point.
- 1-2-row Ferguson Cultivator.
- 1-Ferguson Lister.
- 1-2-row Ford Lister, 10-15.
- 1-2-row John Deere Crust Buster, 3 point.
- 1-2-row Knifing Attachment, 3 point.
- 1-Ford Tractor Tool Bar.
- 1-automatic deep breaking Furrow Guide for John Deere.
- 1-2-row I.H.C. Cultivator, good condition.

FEED, LIVESTOCK EQUIPMENT:

- 1-Power Take Off (Farm Hand) 16-in. Grinder & Mixer, portable, extra nice.
- 1-1000-gal. butane tank, being used as domestic water pressure tank.
- 1-40 gal. pressure tank.
- 1-Air Motor Pressure pump, sucker rod type, 1 H.P.; 200 feet galvanized 2-in. pipe with sucker rod & cylinder.
- 1-1000 gal. galvanized overhead storage tank.
- 1-Steel overhead Tank Tower, 500-Bu. good Northern Red Oats.
- 3-50-chick Brooders, electric, 1 new.
- 5-100-lb. hang type Chicken Feeders, new.
- 1-16 ft. Cattle Guard, 20-ft. clearance.
- 1-10 1/2-ft. Cattle Guard, 12 1/2-ft. clearance.

MISCELLANEOUS:

- 1-Factory, 250-gal. butane tank service trailer, with filler hose, new tires.
- 1-Aluminum pipe Hauling Trailer, 30 ft. x 5 ft.
- 11-3 & 4-bale Cotton Trailers.
- 1-14 ft. all metal Stock Trailer, good rubber.
- 1-1-horse Trailer, knob, single axle.
- 1-Set metal 1/2 ton Stock Racks.
- 2000 ft. 6-in. Aluminum Irrigation Pipe.
- 100 ft. of 600-volt lead-in Cable.
- 12-55-gal. barrels.
- 7-30-gal. barrels.
- 4-Ditch Stops.
- Gas, Oil Cans, Grease Guns, etc.
- 1-New John Deere G. Comfort Cover.
- 1-New Allis Chalmers W-D 45 Comfort Cover.
- 1-New Allis Chalmers W09-TD9 Comfort Cover.
- 1-New Massey Harris 44 Comfort Cover.
- 1-New Massey Harris D Comfort Cover.
- 8-New Mouldboard plow shares. Assortment of heavy duty Hoeme Chisels & Sweeps.
- Assortment of Used Tires, Shovels, forks, etc.

HOUSEHOLD GOODS:

- 2-New tile covered Coffee Tables.
- Heaters.

John 3:1-16; Romans 5:8

1. There was a man of the Pharisees, named Nicodemus, a ruler of the Jews:

2. The same came to Jesus by night, and said unto him, Rabbi, we know that thou art a teacher, come from God: for no man can do these miracles that thou doest, except God be with him.

3. Jesus answered and said unto him, Verily, verily, I say unto thee, Except a man be born again, he cannot see the kingdom of God.

4. Nicodemus saith unto him, How can a man be born when he is old? can he enter the second time into his mother's womb, and be born?

5. Jesus answered, Verily, verily, I say unto thee, Except a man be born of the water and of the Spirit, he cannot enter into the kingdom of God.

HI-PLAINS HI-LIGHTS

The yield of 66 varieties and hybrid grain sorghums evaluated under irrigation varied from a high of 7,724 pounds to a low of 5,392 pounds per acre in tests conducted during 1962 at the High Plains Research Foundation.

The 66 irrigated hybrids and varieties of grain sorghum were planted on May 20 and were harvested September 29 and 30 on land that was planted in cotton in 1961. All plots received 4.62 inches pre-plant irrigation and were irrigated during the growing season with 2.35 inches on July 11 and August 16. The total rainfall from June 1 to October 1 was 13.69 inches, which was received as follows: June, 4.53 inches; July, 5.14 inches; August, 0.3 inches; and September, 3.72 inches.

One hundred twenty pounds of nitrogen per acre in the form of anhydrous ammonia was applied to the irrigated plots on June 29.

Yields for the 66 grain sorghum varieties and hybrids under dryland testing ranged from a high of 1,198 to a low of 93 pounds per acre. The dryland plots were planted May 29 and were harvested November 7 and 8. Sixty pounds of nitrogen in the form of anhydrous ammonia was applied to all dryland plots on June 25. Two adverse circumstances, low August rainfall and midge damage, affected the dryland yields especially the late maturing varieties.

Full details on these tests were mailed to supporters of the Foundation in Report No. 54 in December. The report included the following data on all irrigated varieties: (1)

Early Vigor; (2) Bloom Date, (3) Percent Stand, (4) Percent Lodging, (5) Plant Height, (6) Head Length, (7) Exersion, (8) Head Compactness, (9) Moisture Percent, and (10) Yield.

Barry Love, Assistant Agronomist and Paul M. Belcher, Laboratory Assistant, at the High Plains Research Foundation conducted these tests.

1962 Regional Safflower Test

Six varieties of safflower were tested at the High Plains Research Foundation in 1962. The high yield was 1,070 pounds per acre. This was higher than in previous years

but lower than would be required to make safflower a suitable crop for this area. A date of planting test will be included in the 1963 research program for safflower to determine if this factor would affect the yield.

The six varieties were planted April 4 and harvested August 19. All plots received a 2 inch pre-plant irrigation on February 20 and received no further irrigation throughout the growing season. 15.45 inches of rainfall was received between planting date and the date of harvest. The varieties received a 60 pound application of anhydrous ammonia per acre.

Foundation Report No. 51 on Safflower by Barry Love and Paul M. Belcher included data on Early Vigor, Bloom Date, Rust Damage, Plant Height, Plants per Foot of Double Row, Seeds per Head, Weight of Seeds, and Yield in Pounds Per Acre.

New and Novel Fresh Date Sandwiches

It's hard to imagine many fruits as perfect sandwich ingredients. But it would be equally hard to imagine "Date Whirl Sandwiches" without their delicious fresh California dates.

The luscious flavor and rich color of fresh dates enhance many sandwich spreads, hot breads, salads and desserts. And whole dates packed in lunch boxes are a welcome sweet treat. Their natural sugar is quickly turned into food energy for active youngsters and grown-ups alike.

DATE WHIRL SANDWICHES

- 1 package (8 oz.) cream cheese
- 1/2 cup soft butter
- 1/2 teaspoon grated orange rind
- 2 teaspoons chopped crystallized ginger
- 1/2 teaspoon lemon juice
- 1 loaf unsliced fresh white or whole wheat bread
- Fitted fresh California dates
- Flaked coconut

Soften cheese, blend in butter. Stir in orange rind, ginger and lemon juice. Trim crusts from bread. Cut loaf into 3 or 4 lengthwise slices. Spread one side of each slice with cheese mixture. Cover each slice with 1/2 cup sliced or chopped dates; sprinkle with coconut. Starting from narrow end, roll up like jelly roll. Wrap in plastic wrap or foil and chill several hours. To serve, remove paper and cut each roll into 5 slices. Makes 15 to 20 sandwiches.

tim bedridden for months.

There is a poison in "elephant ears" that causes a painful swelling of the mucous membranes of the mouth, tongue and throat. "Dumb cane" has that name because chewing the leaf can cause your mouth to swell to a point where speech is impossible.

Even honey made by bees in an area grown with rhododendron and mountain laurel has been found to be poisonous.

Below is a list of poisonous cultivated plants, together with the poisonous parts of each. Those marked with an asterisk can be fatal if taken in quantities which a child might eat.

- *Elephant ear (any); *Narcissus (bulb); *Four o'clock (root seed); *Cyclamen (tuber); *Ivy (leaves); *Pimpernel (any); *Oleander (leaves); *Lily - of - Valley (any); *Burning Bush (leaves); Sweet Pea (stem); *Jimson Weed (any); *Rhododendron (any); *Dumb Cane (any); Spider Lily (bulb); *Iris (under-ground stem); *Mock Orange (fruit); *Spanish Bayonet (root); *Castor Beans (seed); *Foxglove (leaves); *Scotch Broom (seed); *Tulip (bulb); *Mountain Laurel (any); *Monkshood (root).

NOTICE TO BANKS

On Monday, February 11, 1963, at 10:00 A. M., the Commissioners' Court of Briscoe County, Texas, will open applications by any banking corporation, association or individual banker of such County, for designation as depository of County and County School Funds.

Applications shall state the amount of paid up capital stock, permanent surplus and financial condition of said bank, and shall be accompanied by a certified check of one-half (1/2) of one (1) per cent of \$100,000.00 (which is the amount of receipts of the County, and the County Schools for the year 1962' as a guarantee of good faith.

All negotiations to comply with Article 2544, Texas Civil Statutes and other statutes governing county depositories.

M. G. Moreland
County Judge
Briscoe County, Texas

and my right to work. It's unconstitutional!"

Can a city pass an ordinance prohibiting uninvited peddlers or solicitors from going onto private property to sell goods or solicit orders? Yes, said the U. S. Supreme Court. Persons seeking private gain cannot be permitted, under the guise of free speech or right to work, to infringe upon the rights of others. Such a case calls for an adjustment of constitutional rights in the light of the particular living conditions of the time and place. Different communities may well call for different laws and regulations as to methods and manners of doing business. Everyone cannot have his own way, but each must yield something to the reasonable satisfaction of the needs of all.

IT'S THE LAW IN TEXAS

(Continued From Page One)

you tell in confidence, and he cannot serve you well without full knowledge.

The House to House Salesman Joe Greenriver had been traveling to various cities selling magazine subscriptions. At each new town he would go from house to house selling subscriptions to the occupants. He had been selling in Pleasantville for a couple of days when he was arrested and fined for violating a city ordinance which prohibited such door to door soliciting. "You can't do this to me," screamed Joe. "This ordinance violates my rights of free speech, free press,

BANK NOTES by Malcolm

DID YOU KNOW...

A BOSTON BANK'S "DOLLARS FOR SCHOLARS" PROGRAM IS A COMBINATION SAVINGS AND LOAN PLAN PLUS 2-WAY INSURANCE COVERING BOTH COLLEGE EXPENSES AND OUTSTANDING LOANS IN CASE OF WAGE-EARNER'S DEATH.

IN 1936, BANKERS TOOK A "LONG CHANCE" LENDING A MANUFACTURER OF WOODEN BUTCHERS' BLOCKS THE \$1,000 HE NEEDED TO PREVENT BUSINESS FAILURE. TODAY HIS BOOMING BUSINESS AIDED BY SUPER-MARKET EXPANSION-HAS A NET WORTH IN THE HUNDREDS OF THOUSANDS.

Communities can control such practices by ordinance. The court ruled that this ordinance was constitutional.

Joe lost the case. (Based upon a U. S. Supreme Court decision)

Double Treat - Stuffed Pork Chops

Pork chops are a popular favorite, and these double pork chops plumped with crunchy onion stuffing will make your family or guests twice happy. The secret ingredient is hidden in the stuffing. You'll have everyone guessing and asking for the recipe. Canned French Fried Onions are gently crushed and added to soft bread crumbs with a little poultry seasoning or sage, butter and just enough water to make a dressing that is slightly moist or dry and crumbly, whichever you prefer. Be sure to save some of the onion rings for an attractive garnish for each chop. Serve with fresh or canned asparagus with Hollandaise sauce, jellied Waldorf salad and for dessert . . . strawberry shortcake.

CRUNCHY ONION-STUFFED PORK CHOPS

2 cups soft bread crumbs
1 can O & O French Fried Onions (3 1/2 oz.)
3 tablespoons butter, melted
1/4 teaspoon poultry seasoning or sage

2 tablespoons water (absent)
4 or 5 thick pork chops with pockets
1/4 teaspoon salt
1/4 teaspoon pepper
1 tablespoon shortening
1/2 cup water

Combine bread crumbs, crushed French Fried Onions, poultry seasoning or sage and water. Fill pockets of pork chops with stuffing. Brown in shortening until golden brown on both sides. Season with salt and pepper. Add water. Cover and bake at 350 degrees for 1 hour or until chops are tender. Makes enough stuffing for 4 or 5 chops depending upon size. Note: Save a few of the onion rings for an attractive garnish on each chop. To help keep stuffing inside chops you may secure with tooth picks or small skewers before baking. Serves 4 or 5.

JELLIED WALDORF SALAD

1 tablespoon unflavored gelatin
1/2 cup cold water
1 cup hot water
1/2 cup sugar
1/2 teaspoon salt

1/4 cup lemon juice
1/2 cup diced celery
1/4 cup chopped nuts
2 cups diced, unpeeled red apples

EASY HOLLANDAISE SAUCE
(the aristocrat of sauces)

3 egg yolks
1/4 teaspoon salt
2 tablespoons lemon juice

1/2 cup butter, melted
3 tablespoons light cream or hot water
