QUITAQUE OES CHAPTER MAKES BANDAGES FOR CANCER PATIENTS

The Quitaque OES Chapter, with the help of several other ladies here in Quitaque, have made 441 dressings to be used by cancer patients. The dressings have been mailed to La-mesa and from there will be distributed to points as needed.

The project was started in April when Mrs. John Rogers, Mrs. Bill Sauls, Mrs. A. L. Morris and Mrs. N. V. Hamilton met at Mrs. Hamilton's home and started work. It was finished week before last. Mrs. Ava Hawkins, Mrs. Myrtice Gillespie, Mrs. Pierce White, Mrs. Leon McCracken, Mrs. Buddy Morris, Mrs. Bill Helms, and Mrs. Grady Tyler and her daughter Gail were among those who helped with the project.

Mrs. A. L. Morris, in reporting the project, said the dressings would cost 30 cents each if bought. She said one old white sheet will make \$9.00 worth of dressings for cancer patients.

The OES expresses sincere thanks to those who donated sheets for the project, and to those members of the chapter who are not members of the Chapter for their help.

Jackie Lou Cheatham was honored on her birthday last Thursday with a swimming party at the heated pool in Plainview. There were 42 relatives and friends along to enjoy the occasion.

Wheat Production To Be Highlighted At County Meeting

With planted wheat acreage on a downswing in Texas and average yields quite low, action must be taken to boost wheat production in the Panhandle.

With Briscoe County planting some 55,000 acres and harvesting 37,200, yields were somewhat off. The average bushels planted were 16.1 with 23.8 bushels being harvested on the average. A total production of 885,000 bushels was accounted for in the entire county.

That's why a meeting will be held at Silvertown on August 3, 1967. The meeting will be about one hour in duration and will be held at the City Cafe at 8:00 A. M.

Keynote speakers will include Extension Specialists Dr. Bob Metzger, area agronomist; Jim Valentine, area soil chemist; and Don Rummel, area entomologist.

Metzger will discuss varieties as well as cultural practices significant to wheat production in Briscoe County. Valentine's comments will concern fertility and how proper fertilization practices can contribute toward higher yields and more forage for grazing. Insects and their affect on wheat production will be covered by Rummel.

Wheat contributes a major portion to the overall economy of Briscoe County and of the Panhandle. Adopting the best known practices for higher yields, improved quality and cost reductions can greatly enhance the economic potential of this county. As pointed out in the Panhandle Economic Program — such crop production practices could result in a combined annual increase for the Panhandle area of \$40 million.

All wheat producers in the county are urged to attend the meeting.

Coach, One Other Teacher And A Lunchroom Supervisor Was Hired

Announcement was made late Wednesday afternoon that Travis Gilliland has been hired as basketball coach for QHS, to replace recently resigned Don Johnson.

Coach Gilliland is a native of Bowie where he played four years of basketball during the times when that high school was a power in basketball circles in Texas. He played two years of basketball on a junior college team in Portland, Ore., then took his degree from Pepperdine U. in Los Angeles, Calif. He is a member of the Texas Coaches Association and last year was his first year as a coach.

Coach Gilliland is married, and he and his wife Carol have a son, Terry Lee, one year old, and they are members of the Church of Christ.

The Foot — The Body's Most Complex Mechanism

The most used — and most abused — part of the human body is the foot. Much of this abuse is needless, foot care experts tell us.

"More than 80 percent of all foot troubles are avoidable," says William O. Elson, director of research for the Blue-Jay division of the Kendall Company.

DID YOU KNOW THAT 1/4 OF ALL YOUR BONES ARE IN YOUR FEET!

"But we must first understand and appreciate how delicate and important the feet are. Few persons realize that one-fourth of all of the bones in the human body are in the feet. These 26 bones, plus the intricate mechanism of joints and ligaments, make the feet one of nature's greatest examples of engineering," Elson says.

The average person gives his feet quite a beating. A 200-pound man, for example, places a total weight of 85 tons on his feet in walking only a mile.

Women, because of the kinds of shoes they wear, are most abusive to their feet.

When your feet hurt — you hurt all over. And, eight out of ten persons have some sort of foot problem. Fortunately, most of the problems are easily remedied; you don't have to go on suffering, Elson reminds us.

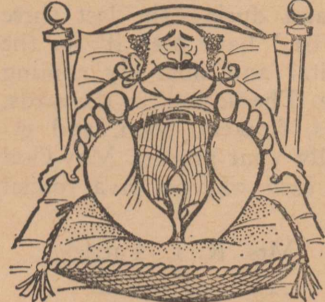

The first step in foot care is to get rid of present problems. Corns, callouses, and bunions should be treated. Visit a foot doctor, or use the home remedies you can buy in drug stores; some of them work very well indeed.

"Corn pads or plasters first

of all relieve the friction which is causing the trouble," Elson explains. "Then, in many of them, there is a chemical which goes to work on the corn. Years ago, this was an acid which attacked the corn, but in recent years a newly-developed substance called 'phenylum' has been in wide usage. 'Phenylum' works in a novel way; it penetrates to the skin below the corn, and helps it to grow new cells — thus pushing the corn out."

For serious troubles caused by weak arches or flat feet, the cure is to see your foot doctor who will design a custom-made arch support — or you may find the cure in the brand-new Blue-Jay arch support which contains its own foam-rubber insoles.

IN SICILY NATIVES REALLY GIVE THEIR FEET A REST!

The most important step in foot care is to get shoes which really fit well; shoes are the principal cause of nearly all foot problems. Without properly fitting shoes, the troubles will merely come back.

It is not necessary, of course, to go as far as to copy the quaint custom of some Sicilian peasants who well understand the importance of foot-care: They place their feet on a pillow at night for maximum comfort and rest!

Men's Night and the Rev. Ted Brian, pastor of Seth Ward Baptist Church in Plainview was the speaker.

The Flomot YWA's met last week in the home of Anita Hunter. The study concerned "Witnessing in a world of Racism and Nationalism."

Tuesday evening they met with the Quitaque YWA's. The program was "Witnessing in a World Threatened by Communism." The girls also talked about the "Christmas in August Party," which is a church-wide event, designed to send gifts to missionaries.

The Intermediate Training Union Department of Flomot Baptist Church is planning a trip to the Palo Duro Canyon to see the presentation of "Texas" in the amphitheater

there. This trip will be Thursday, and is a farewell party for David Pepper.

Mrs. Nelda Jo Shelton of Houston arrived July 15 to visit her sister and mother, Mrs. Jimmy Hunter, and Mrs. Joe Speer.

Anita Hunter reported that the Vocational Conference she attended at Wayland College was a very rewarding experience. There were conferences on Foreign and Home Missionary Work; Teaching; Music; Business; and Pastoral Work.

Sunday Breakfast Picnic For Summer Enjoyment

Breakfast in the out-of-doors creates ravenous appetites among even the toast and coffee crowd. Aluminum utensils heat evenly over charcoal and make cleanup time easy.

Sunday's the day for a "picnic morning" breakfast in your back yard. This is one of the easiest picnics to hostess, so invite some friends and neighbors to join you.

The "picnic morning" menu features toast, a favorite stand-by every morning, but for this breakfast it's toasted over a charcoal fire and there's a variety of unusual spreads to complement the flavor. Scrambled eggs are cooked on the outdoor grill, too. Have a large pitcher of fruit juice and some fresh fruit to eat out of hand, while the food is cooking.

For outdoor cooking, whether making coffee or scrambling eggs, use the same good utensils used on the kitchen range. Too many outdoor chefs use old, discarded, pots and pans for cooking over charcoal and the results are most disappointing. There's little that can be done to regulate the temperature of charcoal and so it becomes most important to rely on good utensils for best results. Use an aluminum skillet to cook the eggs; aluminum will distribute the heat evenly so the eggs cook properly without burning in spots. To keep cooking utensils from getting black over a charcoal fire, rub the outside of the pan with a mild bar soap to cover all of the surfaces. Non-stick coated interiors on aluminum utensils eliminate scrubbing and scouring food remnants. After the cooking is over they are easily cleaned in hot, soapy water.

Preparation is minimal for the breakfast picnic; the menu is simply a combination of tried and true favorites with the emphasis on flavor. Here are some suggestions:

WHIPPED CINNAMON BUTTER FOR TOAST

- 1 (8-ounce) carton whipped butter
- 1/2 cup verifine sugar
- 1 1/2 teaspoons cinnamon
- 12 slices bakers bread, toasted

Remove butter from carton and stir in sugar and cinnamon. Return to carton to store and serve. Spread on hot toast. Makes enough spread for 12 slices of toast.

MARMALADE BACON SPREAD

- 4 slices bacon
- 1/2 cup butter, softened
- 1/2 cup orange marmalade

Dice bacon and cook until crisp. Drain on paper towel. Beat softened butter and orange marmalade together. Fold in bacon. Pack into 1 pint lidded paper container. Makes 1 1/2 cups.

MUSHROOM SCRAMBLED EGGS

- 1 can (10 1/2 ounces) condensed cream of mushroom soup
- 8 eggs, slightly beaten
- 2 tablespoons butter

Stir soup until smooth in a large bowl. Blend in the slightly beaten eggs. In an aluminum skillet, melt butter; pour in egg mixture. Stir eggs occasionally during cooking. Cook on charcoal grill until eggs are firm and set. Serves 4 to 6.

Dear Friends,
Words cannot express our appreciation for the many things you have done in our family's behalf. We thank you for the prayers, financial help, and the blood donations.
Sincerely yours,
Mr. and Mrs. Lester Statter
Mr. and Mrs. Randall Hutson
Mr. and Mrs. Bill Statter
Mr. and Mrs. James Statter
(Relatives of Mrs. Cecil Rice)

CARD OF THANKS

Words are simply inadequate to express the appreciation in our hearts to the many friends and relatives for the words of comfort and sympathy extended following the passing of our loved one. There are so many to whom we are so grateful that we can never get around to thanking you individually, but we say a special thanks to pastors Bill Curry and Phillip Lopes and to Brother Bob Beck for coming to have a part in the funeral service; we are grateful to those who had a part in the music; to those who brought food to the church and to our homes. The many beautiful flowers was an indication to us that you were in sympathy with us in our sorrow. We know that many prayers have been said in our behalf, for which we are most grateful and are most in need. George Owens thought that Quitaque was the greatest place in the world to live and you have justified his belief. May God bless you all, our dear friends and loved ones.
