## MORE BUYING POWER FOR SWISHER AND BRISCOE COUNTIES

Many Swisher and Briscoe County low-income rural people have increased buying power as a result of federal opportunity loans, according to Donald B. Cruce, the Farmers Home Administration's Swisher-Supervisor for six years, said some seven (7) farm and other rural families received over \$18,040.00 in economic loans last year.

They used the loans, Cruce said, to develop small businesses and improve their farming operations. The most difficult hurdle these families face, he explains, has been the lack of money to equip themselves properly for profitable work. "We hope the economic opportunity will help them overcome this obstacle. The loans actually stake them to the things they need for a profitable farming enterprise or to increase their income by following a trade or performing a service needed in their home communities," Cruce continued.

Low-income rural people through the local Farmers Home Administration office, may receive loans up to \$3,500.00 to develop income-producing businesses or to enlarge farming operations. Borrowers may take up to 15 years to repay the loan.

For the first time, people who could never before qualify for loans now can get money they need to develop or expand a business enterprise or a farming operation. "But in all cases," Cruce added, "the enterprise—whether its farming or business—must have a reasonable chance of success."

Through the Swisher County office, loans have been made for such nonfarm enterprises as a

garage, retail grocery store, service station, blacksmith shop and a combine for custom work.

An Economic Opportunity Cooperative loan is also available where three or more farmers or rural residents can obtain a loan to purchase farm equipment such as tractors, cultivators, cotton pickers and combines. It also provides for tools, supplies, and other equipment. We now have an application in file to purchase harvest equipment.

Application for loans are made through the Farmers Home Administration, Swisher County office in Tulia, 22 West Broadway and Briscoe County office in Silvertown at the Courthouse.

## PRICE SPONSORED BILL APPROVED BY COMMITTEE

A bill sponsored by Rep. Bob Price to allow advance payments to wheat producers has been approved by the House Agriculture Committee.

Urging favorable considering of his measure, Price said it extends to wheat farmers the same benefits already available under the feed grain and cotton programs.

The bill directs the Secretary of Agriculture to make payments not to exceed 50 percent of the payments represented by domestic marketing certificates issued under the Agricultural Act.

Sign-up for the wheat program generally is conducted during February and March, although the Panhandle and other winter wheat areas there is planting in the fall. Price pointed out that the advance payments could save a great many wheat farmers from making loans to tide them over until harvest.

Time of payments would be made at the discretion of the Secretary, but could be expected at sign-up. If the bill is enacted soon, it could apply to the 1968 crop, with winter wheat growers benefiting by three to six months' earlier payment than when they otherwise be paid.

## COUNTY HISTORICAL SOCIETY MET LAST WEEK

The Briscoe County Historical Survey Committee met on Thursday, October 26 for its regular meeting. Mrs. C. O. Allard conducted the business meeting at which time it was voted to secure "In and Out markers" to be placed at the west, south and east of Silvertown designating that there is a Historical Marker in the city. After other business discussion, the business meeting was closed.

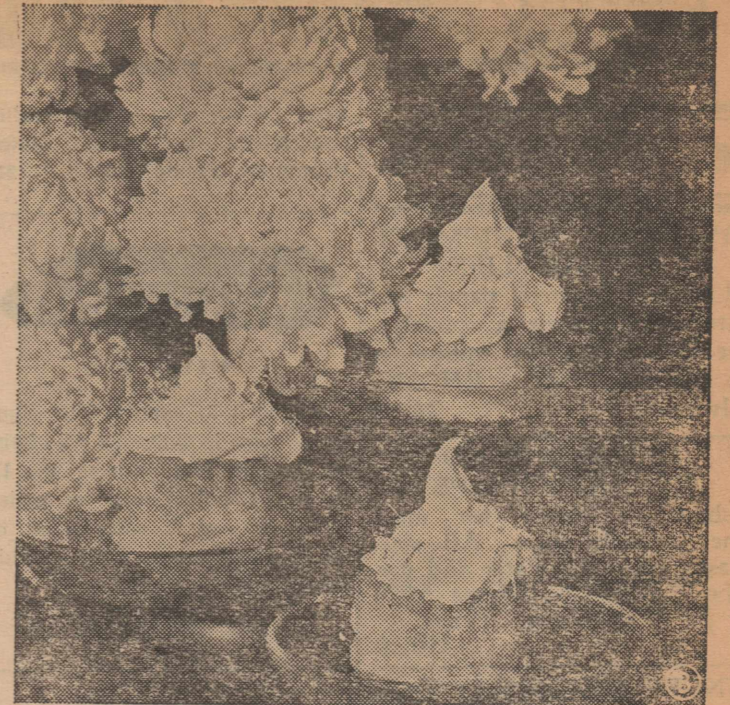

Mrs. Carrol Garrison presented a talk on the Sunflower from the book "Voiceless Lips." Mrs. Garrison said that the sunflower is an unusual flower arrangement; it does not conform to any artistic plan, wherever it is it constantly follows the sun; and when the sunflower sees the sun it is satisfied. There is divided loyalty and compromise. The sunflower by its daily life seems to be saying to every trusting heart, "You too, have a sun to gaze upon in wonder and admiration—the Son of Righteousness. Look Up!"

Coffee, punch and cookies were served to the following: Mr. and Mrs. C. O. Allard, Judge and Mrs. M. G. Moreland, Mr. and Mrs. True Burson, Maynard Wilson, Mrs. Carroll Garrison and Mrs. Berton Hughes.

Next meeting will be on Thursday, November 30.

## GIVE PUMPKIN PIE A NEW LOOK

Now that bright orange pumpkins are lining the roadside stands, what better time to give the traditional pumpkin pie a new look? A light fluffy pumpkin chiffon mixture served in puff patty shells, topped with whipped cream and sprinkled with toasted coconut, gives new flair to the old theme.

These individual taste treats are easy to prepare when you start with frozen patty shells. Just take them from the freezer, pop them in the oven and watch the delicate layers of puff pastry rise to several times their original height.

Pumpkin Puff is a delicious dessert, perfect for topping off either a Sunday dinner or a Thanksgiving feast.

### Pumpkin Puff

- 2 packages frozen patty shells
- 1 envelope unflavored gelatin
- 3/4 cup cold water
- 3 eggs, separated
- 3/4 cup brown sugar, packed
- 1 1/2 cups canned or mashed cooked pumpkin
- 1 teaspoon ground cinnamon
- 3/4 teaspoon ground nutmeg
- 1/2 teaspoon ginger
- 1/2 teaspoon salt
- 1/2 cup milk
- 1/4 teaspoon cream of tartar
- 3 tablespoons granulated sugar
- 1 cup heavy cream, whipped
- Toasted coconut

Prepare frozen patty shells according to package directions. Soften gelatin in water and set aside. Beat egg yolks; add brown sugar, pumpkin, spices and salt; mix well. Stir in milk and cook over medium heat, stirring constantly. Remove from heat and add softened gelatin, stir until melted. Cool.

Combine egg whites and cream of tartar, beat until soft peaks form. Gradually add granulated sugar, a tablespoon at a time, continue beating until meringue is stiff but not dry.

Beat cooled pumpkin mixture until smooth, then gently fold in meringue. Spoon into patty shells, top with whipped cream and toasted coconut. Makes 12 servings.

just doesn't work that way with a lot of trees for it's part of their makeup to do some leaf shedding every fall.

Now these leaves can serve a very useful purpose if they are collected and made into compost. says the county agent. As material becomes available, including leaves place it in layers in an out-of-the-way place and add a layer as more material becomes available, he suggests. A mesh wire or board pen makes a good container for keeping the material from scattering. The pile should be kept moist as an aid to the decomposition process.

Good eyes mean good memories. Care for your eyes at all times.

Layers of manure or commercial fertilizer, placed alternately with the leaves, will make the resulting compost even more valuable. The resulting compost from such will not only supply organic matter but will also have value as plant food.

Compost can be made anytime during the year, but the decaying process is slower during the colder months of the year. Now is a good time to start a compost pile because of the generous supply of composting materials that are available during the fall season.

Your flower and vegetable gardens can become more beautiful and productive as a result of compost you can have ready for next spring.

**Take the boy out of the country— And the country out of the boy— And the country's got a problem.**

As farms get fewer — and farmers move to town — often untrained for urban living — the problems become tremendous — sometimes explosive. These people must be trained for city life — and city jobs.

As opportunity grows less for youngsters on the farm, so does their desire to improve their agricultural skill. Often they fail to recognize the enormous scope of agriculture — the related jobs that production of food and fiber offer.

As these and other people move to the city, the small towns suffer — stores have fewer customers; incomes tend to drop.

It is these, and problems like them, that the National Farm City Committee is helping to bring to light — by dramatizing them — and thus to aid in their solution. The National Farm City Committee is a non-profit organization which highlights its annual year long observance with National Farm City Week — this year its November 17 to November 23. Participate in Farm City Week in your community; help solve the problems of people and their potential.
