SHE HAS DONE A BEAUTIFUL THING

Jesus and his disciples watched an emotion-packed incident. A woman anointed Jesus' head with a very expensive ointment. The disciples hastily and indignantly voiced their disapproval of the woman's extravagance. In our imagination we can see them nod knowingly to each other in critical gestures. They are agreed, and they feel the strength of a united decision. Such waste.

As their voices subside, Jesus, perhaps in his quiet, clear tone of utter authority, replied, "She has done a beautiful thing" — a complete contradiction of what they had just said. Jesus saw the devotion and generosity which prompted her act. Expressions of love can be worth more than money. Hers cheered the heart of the Master as he marched toward the cross.

I like to think that these disciples left the house of Simon that day humbled and wiser and better prepared to judge righteous judgment. May we too, who also are apt to judge hastily and carelessly, be wiser because of Jesus' words. What beautiful thing can you do today to show love to your family and friends or to the stranger you may meet? Jesus will accept and reward such lovely deeds of kindness and devotion.

The Bible teaches: "Judge not according to appearance, but judge righteous judgment." John 7:24

film explaining how the eye bank works. The film showed how a person can help his fellow man, even after death. All a person must do is sign a pledge card. Eleven people can see today in our district that could not see last year. That might not sound like a lot of people, but these eleven are very grateful for the people who signed donor pledge cards and helped them to see. Anyone who wishes to sign a donor pledge card can see any Lions Club member or Keith Green at Turkey Automotive. Please do your part.

**HELPFUL TIPS
FOR YOUR DISHWASHER**

- A dishwasher will usually hold a whole day's dishes. It takes as much hot water and energy to wash one dish as it does a full load. Stack your dishes out of sight in your dishwasher and wait until you have a full load to turn it on.
- Use only detergents manufactured specifically for dishwashers. A wetting agent helps prevent water spots on glasses and silverware.
- Clean the filter screen often. A clogged filter can reduce the efficiency of your dishwasher.
