REV. AL MORGAN

## Former Interim Pastor To Preach Sunday Morning

Having notched 1976 in the black, all Texas Baptist colleges and universities are approaching Baptists Seminary, College and School Day, February 20, with renewed enthusiasm with speakers across the nation.

Locally, the Rev. Alston A. (Al) Morgan who exudes enthusiasm everywhere he goes, will be guest preacher in the morning services at First Baptist Church, Quitaque. He is director of public relations, journalism at Wayland Baptist College and was interim pastor in Quitaque from December 1975 to June 1976.

Wayland, the only Baptist institution of higher learning in the Texas Panhandle, serves parts of five states in addition to Texas. They are Oklahoma, New Mexico, Wyoming and Colorado. This year Wayland has distributed more than 16,000 church bulletin inserts by request to churches interested in the four-year school. The bulletin will be distributed here through First Baptist Church, according to Pastor Frank Roberson.

According to the Christian Education Coordination Board of the Baptist General Convention of Texas, Roberson noted that "in a day of decreasing enrollments in private education, as of August 31 of this last year, our Texas Baptist schools enrolled 25,758 students—the largest number in their history."

Roberson also explained that Wayland's record enrollment last semester of 1,126 students reflected a continued growth in its enrollment which has seen an increase every year for the last seven years. "Certainly, we are proud to have Wayland represented in our services this coming Sunday."

Morgan, who preaches regularly in area Baptist churches, told The Valley Tribune this week that in a day of soaring inflation when administrators are finding it increasingly difficult to operate in the black, Texas Baptists have come to the rescue by approving a budget of \$6,818,064 for 1977. "This is by far the largest dollar amount ever recommended by our state convention. This means that our Texas Baptist pastors and church members are offering more support, too."

Morgan, who combines the fields of journalism and preaching to fulfill his own personal ministry, emphasized that in an era of lawlessness and crime, which unfortunately claims the energies of all too many young people, "we rejoice that there are 2,944 students enrolled in our Texas Baptist schools who are planning to give themselves to full-time Christian vocations. Surely, this is the purpose for which our schools were founded."

She wants to thank all her friends for the gifts and cards sent to her.

Mr. and Mrs. Bob Russell spent the weekend in Amarillo visiting with Mr. and Mrs. Jack Young and children and also Gary Young.

An award winning journalist, Morgan was ordained to the ministry in 1963. He is a product of Christian schools and was graduated from Dallas Bible College with a Bachelor of Science in Biblical Education. Later, he received his first Master of Arts degree from The California Graduate School of Theology in church administration, and also graduated from Southwestern Baptist Theological Seminary's School of Theology. In addition, he holds a Master of Science in journalism from East Texas State University.

A Wayland administrator, he holds faculty status in the Department of English and Journalism in the Division of Literatures and Languages. He is also sponsor of all student publications, and is active in the Staked Plains Baptist Association where he is on the Good News Texas steering committee.

The truck driver drove on to Turkey to awaken Gene Fuston and alert the ambulance service which sped to the scene of the accident. Tim was taken to the Hall County Hospital, where he was checked for injuries and released.

Margaret Harper, founder of the amphitheater production, introduced Paul Green, author of "Texas," who has been preparing a script for a light and sound show to be used in the amphitheater during months when "Texas" is not in production.

Wendell Cain played a 10-minute tape of excerpts from the score and script which was indicative of the final production.

Joe H. Gidden of Canyon, foundation president for the past year, said that the \$40,000 in the reserve funds would be enough to see the organization through June of this year, and that it probably would take between \$200,000 and \$300,000 to make improvements needed over the next two or three years.

## Long-Time Friends Meet Again In Lubbock

Mrs. D. C. Duck of Quitaque received a long distance telephone call Monday of last week from friends, Mr. and Mrs. Willie Johnston of Fort Sumner, New Mexico, asking her to meet them in Lubbock for a visit. The Ducks and Degans had been neighbors with the Johnstons in Grady, New Mexico in 1914 when the Ducks and Degans left there. They had only met one time since then, in 1962. Mrs. Duck, Marie Ramsey and Una Lee Barrett met them Wednesday of last week in Lubbock and had lunch and a very nice visit, according to Mrs. Duck. They made plans to meet more often in the future.

## Memphis Man Hurt In Accident Near Turkey Friday

A 66-year-old Memphis man was listed in satisfactory condition at an Amarillo hospital late Friday, February 11, with injuries suffered in a one-vehicle roll-over near Turkey.

Pelham Donathan suffered head and internal injuries when the pickup truck he was driving left Texas Highway 86, three miles east of Turkey and overturned about 6 a.m. Friday.

Department of Public Safety Trooper Jerry Leaverton said passers-by alerted the Turkey ambulance Service which took Donathan to Hall County Hospital and then transferred him to High Plains Baptist Hospital in Amarillo.

Leaverton, who arrived on the scene about an hour after the accident, said the highway was wet but that he would not attribute the accident to slick road surfaces.

## New Deputy Sheriff Hired For Quitaque

Announcement has been made that a new deputy sheriff has been hired to serve Quitaque and area.

Ronnie Mull, formerly of Plainview, is the new deputy, and he and his wife and one-year-old son will move to Quitaque later this week.

## Valley Junior High Girls Take Dist. Championship

The Valley Junior High girls basketball team won the district title last Saturday at the district tournament held at Silverton. The Valley team took the title by defeating Happy 51-10 in the first game on Friday and then winning over Nazareth 36-30 in the championship game.

The Junior High boys did not fare so well, dropping a tough one-point loss, 26-27, to Nazareth in the first round, and then losing to Happy 19-34 in the second round. The Silverton boys won the Junior High title by defeating Nazareth in the final game.

In the first girls game Jenny Clay sparked the winner with 22 points while Jenny Turner scored 15 and Angie Eudy hit for seven points. In the championship game it was Turner with 14 points, Clay, 12, and Eudy, 10. The Junior High girls almost had a perfect season, winning 14 and losing only one game. Coach Robert Phelps stated that the girls could have had a perfect season. The only loss was to Lockney in the early part of the season. Both the A and B teams were playing that evening and thinking of winning both games, he split his squad up a bit. He said as it happened the B team could have won without splitting the squad and the A team lost a close one, which it would have won had he not divided the girls.

However, it was a very good season for the girls and congratulations are in order for the Junior High District champs.

In the first game for the Valley boys, Dee Dowd scored nine points, Mike Dowd hit for seven, James McNary scored six points, and Randy Clay, four. In the second game McNary scored six points, Dee Dowd, five, Mike Dowd, four, and Kevin Hendrix and Shane Smith, two each.

Although the boys did not have quite as good a season as the girls, they had a good season and Coach Bob Dvorak and his boys are to be congratulated also.

## THREE HALL COUNTY STUDENTS LISTED ON TECH HONOR ROLL

Academic officials of Texas Tech University have released the names of three Hall County students who were listed on the dean's honor roll for the fall semester.

Allen Setliff, son of Mr. and Mrs. George Setliff, has recently taken his retirement from the U. S. Air Force after serving 23 1/2 years. Allen and his wife, the former Jean Self, daughter of Mr. and Mrs. Bob Self, and their son are making their home in Plainview.

Mrs. C. B. Bowman, mother of Mrs. Jack House and Mrs. Jess Meacham, underwent surgery on her hip for the second time the first part of last week. She has been in serious condition since the surgery at St. Anthony's Hospital.

## Important Information Given Pertaining To 1977 Grain Crops

Your State ASC Committee is required to establish barley and wheat grazing dates which represent the latest date these crops can be grazed and still be expected to produce a FULL grain crop. For the 1977 crop year this date is March 20. It is recognized that that date does not necessarily represent the latest date the acreages are normally grazed. It is also recognized that under a given set of circumstances this date will not always represent the latest date an acreage may be grazed without reducing the yield. However this date must be established in ad-

vance of any knowledge of actual conditions which will affect these crops.

What makes this date so important to producers is that all barley and wheat acreage that is intended for grazing or any non-grain use must be identified and certified to the County ASCS Office by March 20, 1977. If an acreage is not timely designated and is grazed after this date, the grazing will be considered as "devoting crop to another use." This can and will affect the farm's eligibility for disaster credit.

### Directors Elected At Meeting Here

The Citizens for Natural Weather met January 27 in Silverton with about 60 persons present.

Elected to serve as directors were Wade Steele, Clifton Stodghill, Wayne Stephens, Johnnie Burson and Grady Tyler.

Another meeting was held at Quitaque February 3.

Approximately 80% of landowners in Briscoe County are opposed to cloud seeding, and many will be present to express their opposition when the adjudicative hearing is held in Lubbock Wednesday, February 16, on the permits to be issued.

All persons having views on the cloud seeding are requested to write letters, voice their position at the adjudicative hearing and sign petitions. The weather permits, if granted, will not expire until 1980.

### Area Hospital District Bill Is Withdrawn

Following vocal opposition from officials of several rural counties, State Rep. Joe Robbins of Lubbock Friday withdrew his proposal to create a 24-county South Plains Hospital District.

Several officials from the rural counties charged that the proposal was simply a way to bail out Lubbock's Health Sciences Center Hospital at the expense of their own taxpayers.

Back in January when the proposal was revealed, there were many who predicted opposition from the rural counties. Too many felt like it was simply a plan to increase the tax base for the teaching hospital.

Even the legislative chairman

Buddy Holcomb of Amarillo, son of Mrs. Reona Holcomb of Turkey, underwent an appendectomy Tuesday, February 8, at Northwest Texas Hospital. He was expected to return to his home by the weekend.

Regina Cruse, the small daughter of Mr. and Mrs. Donnie Cruse of Plainview, accompanied her grandmother, Mrs. E. J. Browning, to Turkey Monday for a visit with her great-grandparents, Mr. and Mrs. Jess Browning.

Mr. and Mrs. Herbert Gipson of Amarillo, enroute from a fishing trip to LBJ Lake near Austin, stopped over in Turkey for a weekend visit with relatives.

Mrs. Reona Holcomb and Mr. and Mrs. Floyd Gilmore were in Amarillo last Thursday for Floyd to undergo a medical test. They spent Friday night in Amarillo and returned to Turkey Saturday.

The Gaston Owens attended to business in Plainview Friday and visited his mother, Mrs. Olive Owens, and his sister and husband, Mr. and Mrs. Bill Ebbs.

The Owens visited her brother, Eural Vaughan, in Silverton Sunday afternoon.

of the Lubbock County Hospital District said he was pleased the plan has been killed.

"The concept is good, and sometime down the line it may be a viable solution," Joe Stanley, who heads the legislative committee of the LCHD board of managers, said.

He also said the regional hospital district concept should be "hung on a nail" until the LCHD proves the success of the teaching hospital. He said when the other counties "see how valuable our services could be" in terms of running hospitals, they may want to incorporate.

## Precious Gift

### THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

She's a lucky little girl. Though she's only five years old, she knows how to pray. It is perfectly natural for her to kneel by her mother's side at bedtime and "talk to God."

She has a head start over children who have never experienced this kind of communion. For there are many youngsters throughout our land who have never learned to pray, simply because no one has ever taught them. For that matter, she's ahead of a good many grown-ups, too!

No one, of course, is ever too old to learn how to pray. But those who learn young are fortunate, for constant prayer builds a faith that will sustain them all their lives. Give your child the gift of prayer by taking him to church, by enrolling him in church school, and by listening to his prayers at home, each and every night.

## George Named As Administrator Of The Year In Texas

It was announced recently in Austin by the Classroom Teachers Association of Texas that Jerry Don George, principal of Hereford High School, has been named the Administrator of the Year for the State of Texas, Division 2, which

includes all school districts with a student population from 5,000 to 10,000.

Richard Stanley, president of the local CTA learned of the honor by telephone this week and was informed that Mr. and Mrs. George will be flown to El Paso on February 18 and 19 where Mr. George will receive the award at a special luncheon honoring Texas' top administrators during the state CTA convention in the convention center at El Paso.

The local unit of CTA had nominated George for the state honor

after he was chosen Hereford's Administrator of the Year last December. The high state honor was based on community involvement, positions of service and support of classroom teachers.

George has been principal of Hereford High School for eight years. Before that, he was principal of LaPlata Junior High and assistant principal of Stanton Junior High. George and his wife, the former Sue Lacy, have three children—Mitchell, a junior in high school; Monica, a LaPlata eighth grader and Steve, a sixth

grader at West Central.

Hereford High School teachers are unanimous in their praise for their principal. On the official nomination entry form, Hereford High School teachers made these comments:

"He is willing to listen to our problems and then do anything he can to solve them."

"Mr. George makes himself available at all times for a conference or 'just to visit'."

"Mr. George is very receptive to teacher's ideas and opinions."

"The goals of Fellowship of Christian Athletes could not be achieved without the support of Mr. George."

"His words of encouragement and his ability to know when to 'step in' and when to release is excellent."

"I feel that without his support and encouragement, we would not have the reading program which was so desperately needed."

"He most definitely has one of the most difficult professions to be encountered—that of managing people. His capabilities of communication range from disgruntled faculty members, irate parents and dependent students to questioning

community members, pressuring administrative personnel. His scope for total community involvement is astonishing."

"No public school program can be successful without the help and support of the administration, and Mr. George certainly gives more than his share to insure that our athletic program is first class."

"Mr. George supported and encouraged me in a new creative writing project."

"I feel his continual concern and interest in any matter that I bring to him."

"It is a comfort to me to know I have his support in the classroom."

"He has helped me cope with discipline problems. He also has offered suggestions concerning my teaching procedures. All this has been taken care of without making me feel that he is questioning my teaching ability. That is very important to me."

"He has been a constant source of encouragement, both professionally and personally. Isn't it a shame the selection committee can't become personally acquainted with Mr. George as we are? There would be no further contest."

It was also noted by the teachers that Hereford High has had no physical attacks on teachers and no racial strife which has plagued schools nationwide. Because of George's respect for people as individuals, all races at the high school have participated in every activity and have been elected to every office and honor. Without this harmony, learning cannot take place for anyone.

Teaching at Hereford High is a team effort with every teacher and staff member being an integral part of the team. There is strong mutual respect between the teachers and administrators and nobody could be prouder of the honor that has come to their principal than the teachers of Hereford High School. The students join in these

sentiments as they gave George a standing ovation and rousing cheer during their pep rally this past week.

George has been actively involved in community activities: President of the United Fund for one year; member of Board of Directors four years; chairman of committees for the Chamber of Commerce for past several years; Hereford Lions Club member working with many projects; Kids, Incorporated Board Member; Past Master of Hereford Masonic Lodge 849; coached Little League Baseball for eight years; coached the All Stars; coached Little Dribblers Basketball; coached All Stars; helped organize area Colt League Baseball; coached Colt League Baseball for two years; West Texas State University Alumni Board Member; Deaf Smith County Red Cross Board Member; Texas Panhandle Community Action Board Member for five years; chairman one year; in charge of the Civil Defense Program for Deaf Smith County for four years after helping to organize the program; chairman of 'Public Schools Week' for Deaf Smith County for the past four years; organized Hereford Basketball Officials Association.

George received his Bachelor of Science Degree from Texas Tech and a Master of Science Degree from West Texas State University. He has professional memberships in Texas State Teachers Association, National Education Association, Texas Association of Secondary School Principals in which he is presently serving a three year term as State Coordinator, Panhandle School Leaders Association which he is presently serving as president, Phi Delta Kappa, Texas Association for Supervision and Curriculum Development, Hereford Association for Children with Learning Disabilities, Texas Association for Children with Learning Abilities, Texas Association of

School Administrators and School Boards and Red Red Rose.

Jerry Don George is the son of Mr. and Mrs. Bill George of Turkey.

Mrs. James Barefield has been in bed for several days suffering with an injury to her back. She reports she is improving.

## Spelling Bee Champs Must Be Named By March 26

The Hall County Contestants for Senior and Junior Spelling Bee are now getting ready for the Hall County Spelling Bee which will be held Thursday, March 24, 1977. The following students in Valley School have entered the Senior Spelling Bee: Stephen Turner, Kirby Chandler, Tommy Morris, Brent Brown, Thomas Hinojosa, Roy Williams and Stachia Chadwick, Patricia Galvan and Jayne Eudy; Estelline: Larry Easley, Leah Joutt and Dale Marchman. Memphis and Lakeview have not sent in the names of their students practicing for the Bee but each school always

sends entries to the Bee. The Amarillo Globe-News has distributed more than 8000 copies of the 1977 issue of "Words of The Champions." If students desire the booklet, it may be purchased for 30 cents per copy at Amarillo Globe-News, Box 2091, Amarillo, Texas 79166 or at the County Superintendent's office. There is plenty of time for a student to enter the contest.

The date of the 1977 Regional Spelling Bee will be April 23 in the Stephen F. Austin Junior High School Auditorium, 1808 Wimberly, Amarillo. The contest will begin at 1:30 p.m.

In some cases a junior county winner can also be named senior winner. If this happens (there are usually five or six dual county champions) then the junior champion will compete in the area contest.

Contest procedures are as fol-

lows:

1. Schools may use the method they wish to select their best spellers: regular class work, special written tests or oral contest.
2. Words used in the national finals shall be selected from the "Words of the Champions" book, from the lists used in the various city and regional contests, and from Webster's Third New International Dictionary.
3. Words shall be pronounced according to the diacritical markings in Webster's Third New International Dictionary, Copyright 1971 G.&C. Merriam Co., and its addenda section, and the Book, "6000 Words," a supplement to Webster's Third New International Dictionary, from which the pronouncer shall select the definition or definitions that he gives.
4. In competition, after the pronouncer gives the contestant a word the contestant may also pronounce the word before spelling it, after spelling it, or, if he so chooses, not at all.
5. The contestant may request the pronouncer to re-pronounce the word, define it, or use it in a sentence. The pronouncer shall grant the request until the judges agree that the word has been made reasonably clear to the contestant. Judges may disqualify any contestant who ignores a request to start spelling.
6. Having started to spell a word, the contestant may stop and start over, retracing the spelling from the beginning, but in the retracing there can be no change of letters and their sequence from those first pronounced. If letters and their sequence are changed in the respelling the speller will be disqualified.
7. Upon missing the spelling of a word, the contestant immediately drops out of the contest. The next word on the pronouncer's list is given to the next contestant.
8. When the contestants are reduced to two, the elimination procedure changes. At that point,

when one contestant misspells a word, the other contestant shall be given an opportunity to spell that same word. If the second contestant spells that word correctly, plus the next word on the pronouncer's list, then the second contestant shall be declared the champion.

9. If one of the last two spellers misses and the other, after correcting the error, misspells the new word submitted to him then the misspelled new word shall be referred to the first speller. If the first speller then succeeds in correcting the error and correctly spells the next word on the pronouncer's list then he shall be declared the champion.

10. If both spellers misspell the same word, both shall continue in the contest, and the one who first misspelled the word shall be given a new word to spell. The contest shall then continue under Rule 9 and 10.

11. Webster's Third New International Dictionary, Copyright 1971 G.&C. Merriam Co., and its Addenda Section, and the book "6000 Words", a supplement to Webster's Third New International Dictionary, shall serve as the final authority for the spelling of words in the national finals. If a word has two or more accepted spellings, only the spelling set in boldface type and separated by the word or, and in some cases the word also, at the beginning of the descriptive matter will be accepted as correct. Words having the labels archaic and obsolete (abbreviated obs) and regional labels (like North, Midland, South (British), Irish) will not be accepted as correct.

12. The judges are in complete control of the Bee. Their decision shall be final on all questions.

13. Any child having once won a National Spelling Bee championship is ineligible for further competition in the National Spelling Bee.

14. County winners must be cer-

tified by the appointed County Bee Director to the Spelling Bee Editor, Amarillo Globe-News, P. O. Box 2091, Amarillo, Texas 79166 by April 2, 1977.

15. County champions must be present at Stephen F. Austin Junior High School Auditorium, 1808 Wimberly, Amarillo, Texas, by 1:15 p.m. April 23, 1977.

16. County winners will be the

guests of the Amarillo Globe-News at a luncheon at 11:00 a.m. April 23, 1977. Transportation for the luncheon to the school will be furnished.

The Amarillo Globe-News will again entertain the winners of the County Junior Spelling Bee. Junior Champions are invited to the Spelling Bee Luncheon as guests of the Bee. They will receive trophies during the Bee intermission. They are not eligible to compete in the Bee unless they hold the County Championship.

County Bee Directors set the rules for the Junior Bees, with one exception, which is that no student in a grade higher than the sixth may participate.

# Cold war.

It was bad enough we had to fight the British for our freedom. But on top of that, we had to fight the weather, too.

Because winter at Valley Forge meant snow, ice, and freezing temperatures. All serious enemies to a makeshift army without proper clothing, not nearly enough food, and short on ammunition.

It was an army long on courage, but short on money.

And then the money came. Some \$27,000,000 from the pockets of new Americans.

That's how people took stock

in America back then, and you know how the story turned out.

Nowadays, people are still helping America stay strong and self-sufficient. And they're helping themselves to safe, dependable savings. By taking stock in America with the Payroll Savings Plan.

Buy United States Savings Bonds. They won't leave you out in the cold.

# BARBED WIRE and Babbling Brooks

Spring sun shines on babbling brooks — and barbed wire. A bird song lifts prettily on fragrant air — and a sniper shot splits the silence. New green burgeons through brown winter grasses — and red blood drenches jungle earth.

One's description of the season depends upon location. In some parts of the world there are happy people, enjoying the spring, looking forward to Easter services. Other faces of this globe find suffering people, anguished by the sunshine, hungry, afraid, lonely, dying.

Centuries ago on black Calvary hill, Jesus of Nazareth demonstrated perfect love. Down through the ages, His life and teachings have pointed the way for mankind to heal the ills of the world.

So, in this Lenten season let us offer ourselves—our time and talents—to the service of His Church, in its task of making His kingdom come upon earth.

## Agri-Plex Farm Implement Show Slated in Plainview

The 1977 Agri-Plex Farm Implement Show, sponsored by the KKYN Farm Services Department, will be held Saturday, February 19, in the Hale County Agriculture Center in Plainview. The all day Farm Implement Show will begin at 7:00 a.m. and run until 6:00 p.m. Admission is free and the Farm Implement Show is open to anyone interested in seeing the newest model tractors and farm implements on the market this year.

Free refreshments will be available all day during the Farm Implement Show, courtesy of Western Ag. Sales Company, The Hamby Company and other exhibitors. A free breakfast of pancakes and coffee will be served from 7:00 until 10:00 a.m. February 19, courtesy of Tillerson-Fish, Inc. of Plainview.

"This Farm Implement Show is designed for the farmers of our area," said Spike Wideman, Farm Services Director for KKYN. "We hope everyone who can, will come by the Ag Center sometime during the day February 19. Everyone involved is anxious and ready for that Saturday to get here."

In addition to seeing all the new tractors and farm equipment on the market in this region, there are several "interesting" items to be on display that Saturday. Several rebuilt, running, antique

## HOUSE PASSES THE EMERGENCY GAS ACT

The House of Representatives passed by a vote of 367 to 52 President Carter's Emergency Natural Gas Act.

"With reluctance, I voted for the measure. There is nothing in the provision that will help the people of the 13th Congressional District," Congressman Hightower said.

"I want the President to have the authority to aid areas of this country in trouble because of natural gas shortages. I hope he can help. We are concerned about

tractors and a tube-sock knitting machine that will make about 10 pairs of cotton athletic tube socks that day. The machine is being brought to Plainview from Lubbock's Texas Tech Textile Research Center.

The Farm Implement Show, the first of its kind in the Agri-Plex, will give area farmers the opportunity to come indoors to one central location and see the various types of farm tractors and implements on the market.

The Hale County Airport is right across highway 87 (Business) from the Ag Center so anyone wishing to fly in for the show will have no trouble getting to the site.

The revenue gained from the implement show will be spent entirely on livestock premiums during the Southwest Junior Livestock Show in Lubbock March 13-16 and the Plainview Stock Show March 22-24.

people everywhere.

"There is a real question in my mind how much additional gas CAN be made available. I hope the safeguards in the bill in the House Committee will survive the Conference Committee appointed to settle differences between the House and Senate versions.

"Those safeguards that are designed to protect Texas consumers from skyrocketing prices bid up by increased demand are the principle differences between the bills.

"My distress comes with the realization that once again Congress is placed in the position of reacting to a crisis. A crisis created by inaction on the part of Congress to enact a long term, well planned energy policy, and the most severe winter in recent history.

"Blaming others does no good. What is needed is a solution to the mess we find ourselves in. This effort will be productive only if we use this push to now develop a national energy policy that plans for hard winters yet to come. It must lead us to a position of self-sufficiency in energy.

"We are one country, one people, and should have one purpose. I believe that purpose should be to develop and follow our destinies as a free people. To do that, we must work together."

Jess Browning and Lewis Hunter were accompanied by Herbert Gipson to Amarillo Saturday where they visited with Bill Guest and Mrs. C. B. Bowman, who are patients in St. Anthony's Hospital.

# Be the FIRST on your block.

Or the first in your town. Or even your state. That's the way it was back in 1862 when the government gave out new land for free. If you'd live on it. They called it the Homestead Act. And you know who made it possible?

Americans taking stock in their new country through the public sale of government securities for money to purchase frontier territories.

That was how those Americans took stock in America; and today, you can take stock in America by buying U.S. Savings Bonds.

Because whether you buy Bonds through the Payroll Savings Plan or where you save, you're not only helping your country, you're helping yourself, too.

So buy U.S. Savings Bonds. You may not be the first on your block, but you'll be number one at home.

Now U.S. Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Lost, stolen or destroyed Bonds can be replaced if records are provided. When needed, Bonds can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

## Texas Farmers Union Reveals Plans For Property Tax Reform

The Texas Farmers Union has unveiled recommendations for major property tax reform and announced that Representative Andrew Baker of Galveston will soon introduce legislation changing the cost shares between the state and local districts.

"It is time that the state of Texas finds superior sources of revenue," said Texas Farmers Union President Jay Naman of Waco. "This plan is not based on increasing the costs. It is rather a way to equalize the burden of public education and equalize the benefits."

The Farmers Union recommendations made by an internal committee studying the problem for over a year encompass a three part plan.

(1) The state of Texas should pick up 100% of the Minimum Foundation Program (it is currently 80% state and 20% local district.)

(2) The state of Texas should also assume the cost of any mandated salary increases or program expenses such as operations and maintenance costs, mandated salary increases, and the costs of vocational, technical and special education.

(3) Local school districts should continue to be allowed to finance capital improvements through local bonding as well as local salary adjustments, bands, athletics and other special programs.

Naman said about the proposed changes, "We believe that if the state were to assume a greater portion of education in Texas, that we would no longer need to use the word 'minimum.' We believe that the state could create a Basic Education Program that would provide a realistic foundation for all school districts."

The bill to be introduced by Rep. Baker would call for the change in state/district cost shares, but as far as additional income to the state, Naman said, "We think that the legislators, administrators and budget advisors can work out the details. Bills have or will be introduced to take care of these matters."

However, the Texas Farmers Union panel did make these recommendations:

(1) That the state first look at its great budget surplus for initial relief, and in the event of no such surplus now or in the future

(2) Impose a one cent (1c) per

gallon tax on all refinery products produced in the state's refineries.

(3) Increase the severance tax on oil and gas to a level comparable to other states.

(4) Levy a tax on pipelines both intrastate and interstate.

(5) Tax those minerals not currently taxed, such as coal and uranium.

"Our figures show that if these steps were followed, the state would have more than enough to expand its share of education," Naman continued. "In fact, some statistics reveal that even one or two proposals by themselves could cover the costs."

The Farmers Union group emphasized that the proposals focus on resources lost daily in great quantities to other states which do not compensate Texas in return.

Speaking for the almost 10,000 family units comprising the Texas Farmers Union, Naman said, "The man who deals in agriculture does not want to evade his equal share as a taxpaying citizen. But the wealth (of the state since current tax law recorded) has shifted and it is time that the State of Texas find superior sources of revenue. We believe that the state's total assumption of the Minimum Foundation Program and other mandated costs, leaving local enrichment in the districts, is the only way to lift the burden of property taxes

... taxes which are extremely unjust to the family farmer who relies on his land to make his living."

Mrs. Estelle Davidson of Quitaque accompanied her brother and wife, the H. R. Curtises of Olton, to Memphis to visit the E. R. Orcuts over the weekend. Mr. and Mrs. Curtis spent Sunday night with Estelle, returning home Monday morning.
