Expressing the sentiments of many Americans, the message on this billboard on the north side of U.S. Highway 80 on Midland's west side is part of a company-wide campaign by an outdoor advertising

company. Because the sign sits on the highway right-of-way, the billboard cannot be rented for commercial messages, a company spokesman said. (Staff Photo by Mike Kardos)

Friday deadline imposed

That's when reporters must leave Iran

TEHRAN, Iran (AP) — The Iranian government, which has ordered all American reporters to leave Iran, today gave them until Friday midnight to obey the directive.

The announcement, made by the director of the foreign press, Sadegh Abolghassem, said that with American reporters out of the country there will be less emphasis on the American hostages held at the U.S. Embassy since Nov. 4 by Islamic militants demanding the return of the ousted shah.

"I think it will be good for Iran, the United States and the hostages," said the foreign press chief.

Sadegh's orders, received verbally by a reporter for The Associated Press at the Ministry of National Guidance, are the result of a decision taken jointly by the ruling Revolutionary Council and Cabinet ministers on Monday.

On Monday night, the government ordered all American reporters out of the country, accusing them of biased reporting. But it said French, British and West German journalists could stay for the time being.

"The foreign (American) journalists have been misusing our kind cooperation and freedom we have given them," Iran's ruling Revolutionary Council said in a statement issued after a three-hour meeting Monday night. "They have used this against our revolution and we are going to expel all American correspondents effective immediately."

There were reports that the estimated 100 Americans would be given a few days to leave, but the director of

the Ministry of National Guidance, which accredits reporters, said he could say nothing until he studied the expulsion order further.

The Revolutionary Council's spokesman, Oil Minister Ali Akbar Moftari, said French, British and West German reporters were being allowed to remain for the time being but he added: "We give them a strong warning that if they send anything but the truth about the news they will be expelled as well."

The expulsion order follows a long series of public accusations that American reporters were sending out biased and incorrect reports and the eviction previously of 23 Western reporters whose reporting or reports appearing in their publications angered the revolutionary regime.

Some observers viewed the expulsion as an attempt to reduce publicity about the ethnic minorities challenging Ayatollah Ruhollah Khomeini's authority and demanding autonomous home rule. But others thought the regime might be trying to improve chances for the release of the American hostages by curtailing the extensive TV coverage and other publicity given the students holding them captive.

Today was the hostages' 73rd day of captivity.

In Washington, White House press secretary Jody Powell said the expulsion "would seem to be a comment upon the desire of the authorities in Iran to prevent not only the rest of the world but indeed their own people from knowing the disastrous impact upon Iran of the taking and continued holding of the American citizens."

U.N. demands Soviet withdrawal of troops from Afghanistan

By The Associated Press

The U.N. General Assembly called for the withdrawal of all foreign troops from Afghanistan by a vote of 104-18 but the Soviet occupation of the Central Asian country was expected to continue indefinitely, until the Moslem rebellion there is under control and the communist government is safe.

The resolution adopted Monday after four days of debate did not name the Soviet Union specifically. But it said the assembly "strongly deplores" military intervention in Afghanistan, urged the "immediate, unconditional and total" withdrawal of all foreign troops and called on the Security Council "to consider ways and means to implement" that withdrawal.

U.N. observers said it was unlikely the issue would be raised in the council again because the Soviets vetoed a similar resolution there Jan. 7. There is no veto in the assembly, but it can take no punitive action to enforce its resolutions.

However, most Moslem and Third World nations voted for the resolution, and this constituted a stunning rebuke to the Soviet Union. Secretary-General Kurt Waldheim declared: "The real value of such a decision is the moral value, because it is an appeal to the international community."

"This is the strongest action in the United Nations in 25 years against the Soviet Union," said Deputy U.S. Ambassador William Vanden Heuvel.

"It is an overwhelming vote, unexpectedly strong, from all quarters, and I think it reflected the almost practical unanimity of the Third World countries, first of all in recognizing the Soviet aggression for what it is and secondly in condemning it."

Speaker after speaker condemned the Soviet intervention as "naked aggression." Only the Soviet Union's close friends voted against the resolution. Eighteen members of the 152-nation assembly abstained, and 12 either were not present or did not participate.

Although Cuba, the nominal head of the non-aligned movement, supported the Russians, only eight of the other 91 members of the non-aligned movement went along with this, while 57 voted for the resolution, 17 abstained and nine did not participate.

An estimated 100,000 Soviet troops poured into Afghanistan to insure the success of a coup Dec. 27 that eliminated President Hafizullah Amin and put Babrak Karmal, a man more to the Kremlin's liking, in power and to reinforce the Afghan army in putting down the Moslem revolt that broke out after the communists first took over the country in April 1978.

Western diplomats in Kabul, the Afghan capital, reported that the So-

viets have been largely successful in putting the lid on the rebellion, and one said that fighting had stopped "almost everywhere."

Other sources said the Soviets were continuing to encounter rebel resistance in Badakhshan province, in northeast Afghanistan, and in Paktia, southeast of Kabul near the Pakistani border. But on Monday, hundreds of Soviet army trucks rolled northward through Badakhshan after delivering supplies, and the convoy was guarded by only one armored troop carrier for every two or three dozen trucks.

The diplomatic sources said the Soviets also were in control of the highway from Herat, the principal city of western Afghanistan 60 miles from the Iranian border, to the southwest province of Kandahar. They said about 12,000 Russian troops were stationed in Herat.

No new talks scheduled in oil workers' strike

DENVER (AP) — The nation's first industrywide strike of refinery workers in 11 years ends its first week today with no major talks scheduled. Most of the 100 oil companies affected by the walkout continued production at near-normal capacity with supervisors at the controls of the highly automated refineries.

"There's a possibility that this could be a long strike," said Jerry Archuleta, spokesman for the Oil, Chemical and Atomic Workers, which is headquartered in Denver. About 60,000 OCAW members walked off their jobs last Tuesday when 21 oil and oil-industry officials failed to reach agreement on a new wage-benefit package for the second year of a two-year contract.

rested Friday and Saturday at the Amoco plant in Texas City on misdemeanor charges alleging rock throwing and abusive language. Union talks with Gulf Oil Corp., traditionally the industry's pacesetter, broke down last Thursday, Robert Goss, OCAW president, called it a recess and said he had no idea when the parties would meet again.

In Houston, State District Judge Shearn Smith on Monday approved a temporary injunction prohibiting violence at the Atlantic Richfield plant and two allied firms after a workers was injured when rocks broke a bus window.

The order, agreed upon by lawyers for the OCAW and Arco, prohibits violence, intimidation or harassment of non-striking workers crossing picket lines. Dean Baxter, an Arco spokesman, said one gunshot was fired Monday without causing injury.

Last year the union won an 8 percent pay increase for the first year of a two-year contract, but decided to leave the wage and benefit package for 1980 subject to later negotiation. The workers make an average of \$9.50 an hour.

There had been rock-throwing incidents and one case of gunfire last week in Port Arthur, Houston and Texas City. About 48 men were tar-

red. The order, agreed upon by lawyers for the OCAW and Arco, prohibits violence, intimidation or harassment of non-striking workers crossing picket lines. Dean Baxter, an Arco spokesman, said one gunshot was fired Monday without causing injury.

Goss says he wants a "substantial" pay raise for 1980, but insists that wages will not be discussed until the entire industry provides fully paid medical-dental insurance. Health-insurance provisions now vary widely throughout the industry, Goss said.

Archuleta said that Gulf workers now have \$84 a month paid for family medical coverage. The workers pay from \$21 to \$63 a month for their share of the premium.

There had been rock-throwing incidents and one case of gunfire last week in Port Arthur, Houston and Texas City. About 48 men were tar-

Petroleum Corp., and an Arco subcontractor, Munday Construction Co., agreed to terms for Smith's order after an Arco refinery Monday incident that injured one man.

H.J. McClain, Texas-Louisiana head of the Oil, Chemical and Atomic Workers Union, made the observation after state District Judge Shearn Smith approved Monday night a temporary injunction aimed at stopping picket line violence.

Attorneys for the OCAW, Arco Petroleum Products Co., Crown Central

Lawyers for the Texaco refinery at Port Arthur were said to be seeking a similar court order in Beaumont. "It seems that practically all of the oil companies are spending all of their time in court action and discussing how much more price increases they are going to announce to the public and when," McClain said.

Too much 'courting,' says OCAW spokesman

Greenwood area residents fail in bid for paving county road

By SUSAN TOTH Staff Writer

A group of Midland County residents left commissioners court Monday with a lesson in county finance but without a promise of action on their request for paving.

Residents on County Road 1130 South petitioned the commissioner's court for immediate paving of their road, claiming it was impassible during rainy weather.

Several residents told the commissioners the road conditions were impassible, and Angela Goff read a

statement from the Greenwood school district bus driver whose route includes County Road 1130S.

Citing the bad road conditions and the unstable structure of most school buses, the driver's statement noted "during hazardous weather conditions, I cannot and will not risk the lives of the children riding the bus." When the road is muddy, the 14 school-aged children who live on the road must meet the bus on Farm to Market Road 307, the statement said.

The residents were critical of Precinct 2 Commissioner Charlie Welch

who paved sections of two roads near 1130S last year. Both roads have fewer residents than 1130S, they said.

In his own defense, Welch noted the decision to pave sections of County Roads 1120 South and 110 were made when there were no homes on 1130S.

The paving process starts up to two years before the asphalt is poured, he noted, with a lengthy process of preparing the road bed.

"At the time, I thought 1120S was the one that needed paving," Welch told the irate residents.

In preparing 1120S for paving, rock removed from the roadbed was used to fill a depression that made County Road 110 impassible when it rained, he said. Since both were ready for paving at about the same time, those were the roads he chose to pave last year, he explained.

While Welch rents a hay field adjacent to CR 110, that did not affect his decision on paving, he said. He does not use the road himself and does not know the owners personally, he added.

The growth of Midland County housing additions has put a strain on already tight county road and bridge money, Welch noted.

Commissioner Duward Wright added his defense for Welch's decisions.

State law allows the county to use only 15 cents of each tax dollar plus \$750,000 from automobile registration fees to build and maintain roads, Wright said.

"Each year the cost of asphalt, rock and everything else goes up. When Charlie and I came on the court 12 years ago, we could do twice as much as we can now. Each year that goes by, we can do less, and it costs more," he added.

He suggested the residents contact their state legislators to have the laws changed to allow more of the county's

money to be spent on roads. "Mr. Welch has the largest number of roads in the county, and he gets two miles of road per year paved," Wright said.

Still convinced their road should be given priority in this year's paving, Mrs. Vaughan pressed Welch for a promise 1130S would be next on the list of paving projects.

"I have 20 miles of roads I wish I could pave," Welch said. "When the county road-building equipment is mine, I'll have to make that horrible choice again."

He added 1130 South "is one of the really better roads (in the precinct). Sheriff Dallas Smith appeared at the meeting to discuss preliminary plans for overtime pay for deputies. Currently, county policy calls for deputies to receive only compensatory time.

Smith's initial plan called for exempting everyone but sergeants and officers from overtime compensation at all and paying officers every six months for overtime that could not be handled through extra time off for the officers.

Wright, however, suggested the overtime be handled on a monthly or quarterly basis to avoid large payments to officers after a six-month period.

Smith will bring final plans to the court for review later this year, he said.

In other business, commissioners agreed to lower the speed limit on County Road 1220 from 55 mph to 35 mph after no one appeared to comment during a public hearing on the matter.

They approved an amendment to their contract with the Department of Human Resources to allow the county to be reimbursed by the state for certain children in foster homes and agreed to allow Keith Bracewell to bore under County Road 120E.

FAA plans to increase Southwest's inspections

DALLAS (AP) — The Federal Aviation Administration says it will check Southwest Airlines planes more often now that supervisory personnel are doing the work of striking mechanics.

FAA spokesman George Burlage said it is standard procedure to increase inspections of an airline's maintenance program during a mechanics strike.

Inspectors in Dallas and Houston have found nothing wrong in two days of observation, Burlage said.

Southwest asked for more frequent checks after the strike began. The airline also said Monday it may hire mechanics to replace the 106 members of the International Association of Machinists and Aerospace Workers, who struck shortly after midnight Sunday.

The strike has forced Southwest to cut its flights to 11 cities almost in half. All Saturday flights have been canceled.

No other union honored the picket lines at the airline's Dallas headquarters, and flights continued at the reduced rate.

"We are not anti-union," said Howard D. Putnam, president and chief executive officer of the airline. "But we feel we have the right to keep the money coming into the till. And that's what we are trying to do."

Putnam said Southwest flew about 10,000 passengers Sunday, 4,000 less than the previous Sunday. He said the airline operated 131 flights Sunday, compared with 259 on Friday.

Southwest cut its Austin service from 22 to 10 flights a day. Ray Kosman, the airline's Austin manager, said the strike kept passenger loads below normal but added that service "has been running extremely smooth considering the circumstances."

WEATHER SUMMARY

Rain is forecast today through Wednesday morning from the central Pacific Coast to Nevada and from the western Gulf to Oklahoma and Arkansas.

Midland statistics

Table with columns for WEATHER FORECAST, LOCAL TEMPERATURES, and SOUTHWEST TEMPERATURES.

The weather elsewhere

Table listing weather conditions for various cities including Albany, Albuquerque, Amarillo, and others.

Texas temperatures

Table showing high and low temperatures for various Texas cities like Abilene, Alice, Alpine, and Amarillo.

Arbor Day action planned in parks

Midlanders of all ages are being asked to assist the city Parks and Recreation Department in observing Arbor Day on Friday.

Not only can citizens give the type of tree they want to see in the city, but they can also get in their two cents as to where they want those trees planted.

From 8 a.m. to 6 p.m. Friday, the Parks Department will accept trees of all sizes from citizens and businesses to be planted in any park within the city.

Donors may call the Parks office, 683-4281, extension 280, or go by the office at 300 Baldwin Street, across from Dennis the Menace Park.

Kohout said the types of trees desired are live oak, red oak, honey locust (shademaster), sweet gum, slash pine, Japanese black pine, Monardella pine and Deodar cedar.

Children can get in on the act by bringing their trees to the main picnic area at Hogan Park between 10 a.m. and noon Saturday.

Kohout said the Parks Department will provide pick-up service if necessary.

Midland's observance of Arbor Day is in conjunction with the statewide celebration, according to Kohout.

The official state tree, a Texas pecan, will be planted at the conclusion of a 10:30 a.m. ceremony Friday in Dallas' State Fair Park.

Arbor Day first was celebrated in Texas in 1889 in Temple. The first statewide ceremony was held in 1890 in Austin.

The third Friday of each January is set aside in Texas as Arbor Day.

Drop in overnight temperatures due

The weather will be down-shifting from cool to cold tonight, as nightly temperatures will be dropping about 20 degrees below the recent comfortable cool nights.

The weatherman's reliable temperature gauge tonight is to plunge into the mid-30s, which will be in sharp contrast to recent nightly readings in the 50s.

And the high Wednesday will be in the low 60s, which will be considerably cooler than Monday's high of 76 degrees, said a weatherman at the National Weather Service at Midland Regional Airport.

The record high for a Jan. 14 is 79 degrees in 1935. The record low for a Jan. 15 is 6 degrees in 1972.

There's a time to pay attention to your prize Hereford steer, and there's a time to ignore it, as Howard Morrison, 15, and his friend Janna Koonce, 14, discovered Monday at the Midland County Livestock Show.

Midland County Livestock Show continues tonight with auction

By ED TODD Staff Writer

Paul Perry, a Future Farmers of America student at Midland's Robert E. Lee High School, showed the grand champion steer Monday in the 31st annual Midland County Livestock Show at the Midland County Exhibit Building.

The steer, a 1,235-pound speckled roan Maine-Anjou-Durham calf, will be one of the show's top 127 steers, swine and lambs to be auctioned off at 7 p.m. tonight by Tommy Marrielle at the exhibit building.

The reserve grand champion steer was a 1,420-pound black Maine-Anjou-Angus exhibited by 16-year-old 4-H Club'er Paula McBryde.

Paul Perry also exhibited the champion breeding heifer, a 1,307-pound calf. A Midland High School FFA'er, David Erwin, showed the reserve champion heifer, which weighed in at 950 pounds.

The show's grand champion swine was a 245-pound cross heavyweight pig shown by 4-H'er Billy Rodriguez. The reserve grand champion pig was 219-pound Duroc shown by FFA'er Randy Taylor.

Champions in the sheep divisions were a 121-pound finewool, heavy-

weight lamb exhibited by 4-H'er Tede Boyce; 128-pound crossbred, heavy-weight lamb exhibited by 4-H'er Tracy Logan; and a 133-pound medium-wool heavyweight lamb shown by 4-H'er Robby McBryde.

Some 240 FFA and 4-H Club members exhibited 61 calves, 158 lambs and 143 swine in the three-day show.

"It's just good stock — good quality stock all the way through," said R.D. Jones Jr., superintendent of the show, which is sponsored by the Midland County Livestock Association. Rusty Jones is association president.

"We've always had good quality show stock," said farmer Jones, who has helped run 30 of the past 31 livestock shows sponsored by the association.

Across the board, 99 exhibitors showed 143 pigs, 96 youngsters paraded 158 lambs, 43 exhibitors showed 56 steers, and four youths showed five heifers.

Show judges were Joe Ed Wise of Lamesa, the Dawson County agricultural agent, lambs; Stanley Young of Tahoka, high school vocational-agriculture teacher, swine, and Fred Wilkinson of Crane, the Crane County agricultural agent, calves. Quarter Horse trainer Joanne Snodgrass on Sunday judged geldings and mares in the event in which 24 4-H'ers

showed and/or rode 27 horses. Janice Zimmerman's Miss Tuff Bars was deemed the high-point horse in both the at-halter and performances classes.

Tommy Marrielle of Snyder and formerly of Midland will be auctioning the show's top 127 animals beginning at 7 p.m. today in the Midland County Exhibit Building. Last year, the auction brought in \$43,806.60 to the youngsters in the sale of 117 head of livestock, according to Jo Stewart, secretary of the sponsoring association.

Exhibitors of the show's winning and placing livestock follow:

- List of winning livestock including: Blue-wool, light weight: 1. Rodney Hollums; 2. Stephanie Smith; 3. Mark Murphy; 4. James Wells; 5. George Simpson; 6. Terry Otto; 7. Tracy Cockerell; 8. Kendall Murphy; 9. Rod Slason; 10. David Akhtar; 11. Kelly Jones; 12. Johnnie Casbeer; 13. Kamel Boyce; 14. Coby Farrow; 15. Debbie Hipp; 16. Kelly Jones; 17. Darrell Hopkins; 18. Tim Carter; 19. Chuck Sonnenberg; 20. Terry Otto.

He filed, but too soon, so he'll do it over again

Despite all the fanfare two months ago when Martin Allday announced he was filing as a candidate to run for mayor, the Midland attorney will have to do it all over again.

His first filing isn't any good, according to a new law passed last year by the State Legislature.

City Secretary James McCullough explained that under a new law, no one can file for any city position until Feb. 4.

Allday announced Nov. 15, 1979, he was filing for the post being vacated by Ernest Angelo Jr.

Prior to the new law, McCullough said there had been no time period for filing. This could mean, he added, that someone could file two years ahead for an election.

The law reads that "An application to have the name of a candidate placed on the ballot for an election may not be filed earlier than 30 days before the deadline prescribed by this code for filing the application. Any application filed before that day is void."

Allday said today that he'll file again "at the proper time. I had talked to the city secretary before and he told me to come on down (to City Hall) and file and that's what I did."

City elections are scheduled for April 5 — the Saturday before Easter — which means the final date to file is March 4. Using the 30-day time limit, the first day to file will be Feb. 4.

McCullough said he was unaware of the change until Friday when he received a list of the new laws governing city elections.

Akins, four-year councilman, announces mayoral candidacy

By LANA CUNNINGHAM Staff Writer

G. Thane Akins, a city councilman for four years, threw his hat into the ring today for the top-ranking position of mayor, making it a two-way race and ending the speculation about a third candidate.

Martin Allday, an attorney, announced in November his candidacy for the post. With Mayor Ernest Angelo Jr.'s announcement in November he will step down at the end of this term, the race will be wide open for the first time since Angelo won in 1972.

Making it an all-or-nothing proposition, Akins' announcement also leaves his council position — Place 4 — open as he would have been up for re-election this year.

During a morning news conference in City Hall Council Chambers, Akins, 46, said Midland "needs to continue to have strong, experienced leadership in this highest elective office in our municipal government."

He has lived in the Tall City 22 years, being involved in civic affairs in numerous civic projects and in city government the past seven years.

"THE PAST SEVEN years have given me a wealth of experience and training that would be highly desirable for anyone seeking the office of mayor," he said, outlining his work in municipal government.

Akins, a superintendent with Atlantic Richfield Co., is a three-year member and chairman of the Planning and Zoning Commission and three-year member of the aviation committee of the Midland Chamber of Commerce. During his tenure on the City Council, Akins served one year as mayor pro-tem, substituting for Mayor Ernest Angelo Jr. when out of town.

Akins' civic activities include past president of the Evening Optimist Club, charter board member of the Boys Club of Midland, past division vice president of the Barbershop Quartet Society, vice president of MidTran and advisory board member of Midland Center.

He pointed out that energy should be the most important factor in Midland's economic and industrial picture for the next several years. "My 23-year background will be a strength in cooperating with and supporting the oil and gas industry in this area,"

G. Thane Akins

he added. "I believe the next several years will be critical for our nation and for our city as well. It will require innovative thinking with a conservative attitude about city taxes to continue to meet the needs of our citizens and to hold down the costs of government," Akins commented.

HE POINTED OUT that during his tenure on the City Council, Midland has achieved one of the lowest tax rates in the state "while keeping up with rapid city growth and promoting industry, housing and transportation."

"I hope to continue this working relationship as mayor," Akins said he feels he can do more now as mayor than as councilman since a mayor "furnishes the impetus for getting things done. He's looked to for leadership in city government."

The process by which a zone change or development must be approved through the Planning and Zoning Commission has been criticized by some citizens in the past. As a former member of that group, Akins stated the City Council has been working to improve the zoning ordinance.

"The advantage of the procedure is that it provides a good public forum for people who have problems," he said. "We have a good procedure and we (City Council) will look for ways to improve it."

When questioned as to his opinion of Community Development funds, Akins said the only section which he opposes is the requirement to include rental subsidy.

Overall, "I've been in favor of the CD block grant funds," he explained. "The first two years we got it, the money was well-used. But the rental subsidy and housing programs are poor legislation and I would still oppose taking the funds for those reasons."

LOOKING AT THE energy situation in the country today, Akins said the city is going to have to do things differently in the future. "There is no way around the shortage of fuel and we'll have to make adjustments. We may have to cut down on a lot of things we're doing now, but we will meet the needs of the fire and police departments."

A change from two meetings a month to four may come about if the agendas continue to grow, he said, referring to the lengthy meetings held until recently when the council changed its start time from 1:30 p.m. to 10 a.m.

There had been speculation in Midland that fellow councilman Carroll Thomas was going to run for mayor. But Thomas said today that with Akins' announcement, he wouldn't run.

"I had been giving it very serious thought," said Thomas. "But I've worked with Akins on the council and know him to be very capable and will make the type of mayor I would like to see."

"TWO CANDIDATES (for mayor) is enough. But it has been very interesting and rewarding that a surprising number of people have encouraged me to run," he commented.

Akins holds a bachelor of arts degree from Abilene Christian University and a bachelor of science degree in petroleum engineering from Texas Tech University.

He and his wife, Jean, are the parents of Rex and Kara. He is an elder in the North A and Tennessee Streets Church of Christ.

Akins is a board member of the Society of Petroleum Engineers of AIME, general chairman of the Permian Basin Oil and Gas Recovery Conference in 1974, member of American Petroleum Institute and a registered professional engineer in Texas.

Permian Basin gasoline prices follow statewide price trend, survey says

Gasoline prices in Texas have skyrocketed by around six cents per gallon in the past month, and availability has declined to the lowest level since the end of last summer.

A survey of 398 service stations by the American Automobile Association shows the average price for all grades of gasoline except one have shot well past the \$1 mark in January, exceeding even the rate of increases recorded during the fuel-short days of June and July.

The 15 Midland-Odessa stations surveyed showed an average price of \$1.04 for regular, \$1.05 for premium, \$1.07 for no-lead and \$1.02 for diesel at full service pumps. Pumping it yourself pulls the prices down to 99 cents for a gallon of regular and \$1.02 for premium or no-lead.

Gasoline availability is continuing a decline which began last month. The survey showed 30 percent of the stations are open later than 8 p.m. weekdays, compared to 38 percent in November. Fifty-one percent are open on Saturday night, compared to 56 percent in November, and stations open on Sunday declined from 44 percent in November to 38 percent currently.

Figures from the 15 area stations were close to the state averages. The survey here showed 53 percent of the stations here were closed by 8 p.m. on weekdays, but only 26 percent closed by 6 p.m. on Saturday. Forty percent were closed on Sundays, the survey said.

The decline in availability was sharpest in large cities. Fewer than one-third of the stations surveyed in Houston, Dallas-Fort Worth and San Antonio are open on Sundays, and only 10 percent of the stations surveyed in Houston are open after 8 p.m. weekdays, compared to 17 percent in Dallas-Fort Worth and 36 percent in San Antonio. Gasoline supplies also declined in Austin and either improved slightly or remained stable in other areas covered by the survey.

A Triple-A spokesman pointed out the latest survey on fuel availability showed almost exactly the same results as did the AAA survey for the Labor Day Weekend of 1979. "Demand was much greater then, and supplies were adequate to meet that demand," he said. "Current supplies are certainly ample to meet the greatly reduced demand typical of the winter months."

DEATHS

Martha J. Potter

Martha J. Potter

Services for Martha Jane Potter, 97, 1906 Hughes St., will be at 2 p.m. Wednesday in the First Christian Church with the Rev. Steve Edwards, pastor, officiating. Burial will be in Fairview Cemetery directed by Ellis Funeral Home.

Mrs. Potter died Monday afternoon at her residence.

She was born March 22, 1882, in Cairo, Ill. At an early age, her family moved to Coleman County. The family then moved to Midland County in 1898 where they ranched. In 1907, the family moved into the city of Midland. She married John H. Potter in Dec., 1901. He passed away on Nov. 4, 1952. She was a member of the First Christian Church.

Survivors include two sons, John W. Potter of Carlsbad, N.M., and Thomas J. Potter of Midland; three daughters, Julia E. Midkiff and Mrs. L.T. (Ellen E.) Sledge, both of Midland and Mrs. William S. (Cassie Lee) Crook of Big Spring; five grandchildren, six great-grandchildren and four great-great-grandchildren.

Bertha King

Bertha King, 86, 1012 Alpine St., died early today in a Midland hospital.

Services will be at 2 p.m. in the Cisco Funeral Home Chapel with Leon Odum officiating. Burial will be in Cisco Cemetery. Local arrangements were handled by Newline W. Ellis Funeral Home.

Mrs. King was born May 10, 1893, in New Ulm and grew up there. She moved to Midland five years ago from Cisco where she had lived since 1929. Her husband, J.C. King, died in 1942. She was a member of the Church of Christ.

Survivors include a daughter, Mrs. William W. Wallace of Midland; a sister, Mrs. Gus Hintz of Sealy; eight grandchildren and 11 great-grandchildren.

Lena T. Womack

Graveside services for Lena T. Womack, 81, 3316 W. Ohio Ave., will be at 1 p.m. Mountain Standard Time in the South Park Cemetery in Roswell, N.M., directed by Newline W. Ellis Funeral Home.

Mrs. Womack died Monday afternoon in a local hospital following an illness.

She was born Aug. 22, 1898, in Anderson. She moved to Comanche at an early age. She was married to Kirk Womack on June 6, 1916, in Hobart, Okla. He passed away Aug. 26, 1979.

They lived in Ragtown and Healdton, Okla., prior to moving to Iran. In 1936, they moved to Hobbs, N.M. and in 1942, they moved to Roswell, N.M. Womack was with Shell Oil Co. In 1967, they moved to Midland. She was a member of the Baptist Church.

Survivors include two sons, Jack C. Womack of Ada, Okla., and Cleus Womack of Midland; a daughter, Mrs. Lela F. Blevins of Midland; three brothers, Lewis Taylor of California, Edd Taylor of Modesto, Calif., and Charley Taylor of Olney; four sisters, Callie Cranfield of Visalia, Calif., Inez Watson of Austin, Mrs. Jessie Martin of Ohio and Ziola Schulta of Roswell, N.M.; nine grandchildren and 12 great-grandchildren.

Kostelanetz dead at 78

NEW YORK (AP) — Conductor Andre Kostelanetz once said he had devoted his talents and training to making classical music accessible to the public.

He was an accompanist for opera stars during his early years in the United States.

R.D. Campbell

MONAHANS — Services for Russell Dean Campbell, 57, of Monahans, formerly of Big Spring, were Monday in Southside Baptist Church here. Burial was in Monahans Cemetery directed by Wilson-Miller Funeral Home.

Campbell died Friday in a Monahans hospital after a brief illness.

He was born May 9, 1922, in Roby and had lived most of his life in Big Spring. He was a repairman for Mobil Oil Co., a veteran of World War II and a member of the Baptist Church. He was married Nov. 22, 1968, to Lottie Perryman in Lovington, N.M.

Survivors include his wife; three children, Gail A. Cagle of Abilene, Doris Jones of Neosho, Mo., and R.D. Campbell Jr. of Salt Lake City, Utah; two brothers, T. Wendell Campbell and Irvis Campbell, both of Big Spring; two sisters, Mrs. B.A. Bunson of Big Spring and Mrs. O.L. Steveson of Odessa; seven grandchildren and two great-grandchildren.

Flora N. Mathis

SAN ANGELO — Services for Flora N. Mathis, 78, of San Angelo, sister of C.W. Fountain and Willene Long, both of Midland, were to be at 10 a.m. today in Johnson's Funeral Home chapel. Burial was to be in Lawnhaven Memorial Gardens.

Mrs. Mathis died Sunday in a San Angelo hospital after an illness.

She was born Dec. 18, 1901, in Keota, Okla. She had lived in San Angelo for 30 years. She was a member of West Side Baptist Church and was employed by Palace Dry Cleaners.

Other survivors include three daughters, a son, three brothers, three sisters, four grandchildren and four great-grandchildren.

Harold Parks

BIG SPRING — Services for Harold Parks, 74, of Big Spring were to be at 10:30 a.m. today in the Nalley-Pickle Rosewood Chapel with burial in Trinity Memorial Park.

Parks died Monday in a local hospital following a lengthy illness.

He was born Aug. 7, 1905, in Big Spring. On Aug. 7, 1930, he was married to Overia Lawson in Cisco. For 51 years, Parks was a conductor for the Texas-Pacific Railroad.

Survivors include his wife; a daughter, Mrs. Paul (Rosie) Shaffer of Big Spring; a son, Jim Parks of Big Spring; a brother, Wendall Parks of Big Spring; two sisters, Allene P. White and Mildred Sommers, both of Dallas; and four grandchildren.

R. Ernest Paschall

NOCONA — Services for R. Ernest Paschall, 77, of Lubbock, father of Mrs. Ralph Dennis of Big Spring, were to be at 2:30 p.m. today in Scott Brothers Funeral Home here with W.O. Cooper, Church of Christ minister, officiating.

Burial was to be in Union Cemetery northeast of Nocona.

Paschall died Sunday in a Nocona hospital after a lengthy illness.

He was a longtime Lubbock resident and had been employed several years at a Lubbock cottonseed oil mill.

Other survivors include his wife, a daughter, three sons, a sister, two brothers, 17 grandchildren and seven great-grandchildren.

Minnie Burleson

WINTERS — Services for Mrs. Augla (Minnie) Bryant Burleson, 60, of Casper, Wyo., sister of Charles R. Bryant of Midland, will be at 2 p.m. Friday in the Church of Christ in Oklahoma City. Burial will be in Oklahoma City Cemetery.

She died Saturday in Casper.

Mrs. Burleson was born Sept. 11, 1919, in Stonewall, Okla. At the age of 2, she moved with her parents to Winters. She was married Jan. 16, 1941, to Augla Burleson in Winters.

They lived in Winters several years and then moved to Moore, Okla. He died March 16, 1976. She moved to Casper where she was a member of the Church of Christ.

Other survivors include two sons, a daughter, her mother, a sister and four grandchildren.

Basilio Molina

BIG SPRING — Services for Basilio Molina, 61, of Big Spring are pending at Nalley-Pickle Funeral Home here.

He died Monday in a Big Spring hospital after a lengthy illness.

Molina was born March 24, 1918, in Morton and was a longtime Colorado City resident. He moved to Big Spring in November 1977. A disabled Army

veteran of World War II, he was a retired farm laborer and a Catholic.

Survivors include five daughters, Marie Molina of Yuma, Ariz., Margie Molina of Big Spring, Betty Hernandez of Carlsbad, N.M., Lena Jaquez of Abilene and Lupe Chavez of California; four sons, Eugene Molina of Denver, Colo., Felix Molina of Colorado City, and A.G. Molina and Orlando Molina, both of Abilene; 39 grandchildren and six great-granddaughters.

Meany funeral disrupted as U.S. leaders look on

WASHINGTON (AP)

— George Meany, the gruff voice for American workers, was eulogized today as "one of the most influential public figures in recent American history" at a funeral attended by the powerful in government and labor.

President Carter headed the large contingent of officials who attended the funeral for the retired AFL-CIO president, who died Thursday at age 65.

Carter, Vice President Walter F. Mondale, the president's Cabinet, members of Congress and several foreign ambassadors were among 1,400 mourners at the Roman Catholic Cathedral of St. Matthew the Apostle for the celebration of a Mass of the Resurrection. Carter was accompanied by former Sen. Muriel Humphrey, widow of Sen. Hubert Humphrey, D-Minn.

The funeral was disrupted at the outset when a young man and woman ran up and threw leaflets on the coffin as it was being carried up the steps of the cathedral.

"We're working people of this country," the unidentified man shouted.

The two were shoved away by police and arrested on a charge of disrupting a religious service, said police Capt. J.E. Mazur.

ONE OF THE leaflets was signed by the National May Day 1980 Committee from Detroit, and called on American workers to "fight this capitalist system and the oppression, discrimination and inequality it thrives on."

Meany was "one of the truly great figures in the history of the American labor movement" whose career "stretched back farther in time than most of us can remember," Monsignor George G. Higgins said in his written homily.

Higgins, a long-time supporter of the labor movement, hailed Meany for working "so diligently and with such great integrity in the service of the working people of the nation and to the great benefit of the nation as a whole."

"The cause of freedom everywhere — both at home and abroad, has been greatly enhanced and, in these troubled times, is now the more secure because he did his job so well," Higgins said.

Meany, who had been in failing health since last spring, died barely two months after retiring as president of the AFL-CIO, which he headed since its founding with the merger of the American Federation of Labor and Congress of Industri-

al Organizations in 1955.

Earlier, a 23-limousine procession carrying Meany's family and labor leaders lined up behind the hearse outside the marble headquarters of the AFL-CIO for the short drive to the downtown cathedral.

The cathedral also was the site of the 1963 funeral for President John F. Kennedy, who was Meany's favorite among the eight White House occupants who dealt with the former Bronx plumber during his 57-year labor career.

OTHER INVITED guests included Carter's two rivals for the 1980 Democratic presidential nomination, Sen. Edward M. Kennedy of Massachusetts and Czlifornia Gov. Edmund G. Brown Jr. The attendance of the presidential candidates was a testament to Meany's role as a broker in Democratic Party politics.

AFL-CIO officials said funeral invitations also were sent to the top two officers of the 105 unions affiliated with the 14 million-member labor federation and several independent unions.

A contingent of foreign dignitaries was expected as well to pay tribute to Meany, who was outspoken on foreign affairs as an opponent of communism and totalitarian governments on the right.

A private burial was to be held in a suburban Washington cemetery.

Meany, who had been in failing health since last spring, died barely two months after retiring as president of the AFL-CIO, which he headed since its founding with the merger of the American Federation of Labor and Congress of Industri-

Durante semi-conscious

SANTA MONICA, Calif. (AP) — Comedian Jimmy Durante is reported semi-conscious and in serious condition by officials of St. John's Hospital where he is being treated for pneumonia.

A hospital spokeswoman, Marsha Bolyanatz, said late Monday that the 86-year-old comic's vital signs showed slight deterioration Monday.

Earlier the spokeswoman confirmed that Durante, who had been reported in fair condition, had worsened since the weekend.

"There is a deterioration in vital signs from the weekend," she said. "Progressive pulmonary condition remains seri-

ous." Durante's former press agent, Joe Bleedon, said he visited Durante on Sunday but the comic was not aware of his presence.

"His eyes were closed and he was taking oxygen," Bleedon said.

Bleedon said Durante's immediate family and close friends had visited the ailing comedian in his private room.

and he was taking oxygen." Bleedon said. Durante's immediate family and close friends had visited the ailing comedian in his private room.

and he was taking oxygen." Bleedon said. Durante's immediate family and close friends had visited the ailing comedian in his private room.

"Losing Hair? Try This At No Risk"

HOUSTON, Texas— If you don't suffer from male pattern baldness, you can now stop your hair loss... and grow more hair.

For years "they said it couldn't be done" But now a firm of laboratory consultants has developed a treatment for both men and women, that is not only stopping hair loss... but is really growing hair!

They don't even ask you to take their word for it. They invite you to try the treatment for 32 days, at their risk, and see for yourself! Naturally, they would not offer this opportunity unless the treatment worked. However, it is impossible to help everyone.

The great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern

baldness and cannot be helped.

But, if you are not already slick bald, how can you be sure what is actually causing your hair loss? Even if baldness may seem to "run in the family," it is certainly not proof of the cause of YOUR hair loss.

Hair loss caused by sebum can also run in your family, and many other conditions can cause hair loss. If you wait until you are slick bald and your hair roots are dead, you are beyond help. So, if you still have any hair on top of your head, and would like to stop your hair loss and grow more hair... now is the time to do something about it before it's too late.

Loesch Laboratory Consultants, Inc., will supply you with treatment for 32 days—at their risk—if they believe the treatment will help you. Just send them the information listed below. All inquiries are answered confidentially, by mail. Adv.

'...Christian Living'

One of the most significant happenings of the week in Midland is the 29th annual School of Christian Living, which is being held through Thursday in the First United Methodist Church.

The school, which this year has a particularly outstanding faculty, is sponsored by the Midland Association of Churches.

It is noteworthy, too, that the 19 churches involved in the sponsorship represent eight denominations.

Religious courses on the Sermon on the Mount, cults, life and death, and spiritual growth are being offered. Morning and evening sessions are being held.

The school's faculty includes Dr. Ralph Earle, professor emeritus of New Testament and Bible scholar at the Nazarene Theological Seminary, Kansas City, Mo.; Dr. Joseph H. Fichter, professor emeritus of Sociology at Loyola University, New Orleans; Dr. Charles E. Scott, professor of philosophy at Vanderbilt University, Nashville, Tenn., and Dr. Allen Whitman of St. Matthew's Episcopal Church, Austin.

Year after year the sponsoring group comes up with top caliber faculty members, outstanding leaders in their particular fields, and this year certainly is no exception.

Churches sponsoring the school are St. Ann's Catholic, First Christian, Memorial Christian, Episcopal Church of the Holy Trinity, St. Nicholas' Episcopal, Hope Lutheran (LCA), Greater St. Luke's AME, Asbury United Methodist, El Calvario United Methodist, First United Methodist, Hollowell United Methodist, St. Luke's United Methodist, St. Mark's United Methodist, St. Paul United Methodist, First Church of the Nazarene, Northside Church of the Nazarene, Grace Presbyterian, Trinity Presbyterian and First Presbyterian.

The school is a tremendous asset for the community, and the sponsoring organization and member churches are due commendation for their efforts in this regard.

The 29th annual School of Christian Living will make of Midland an even better community.

Wild River Canyon

A Wild River Canyon in Midland?

Yes sir, that is exactly what the announcement said. The Tall City is going to have come summer. And Midland and area residents are really excited about it. As one Midlander, in commenting on the subject in a letter to the editor, wrote, "We can't wait."

Wild River Canyon, as proposed, is a water-oriented family fun park to be located on the west side of Midland. Construction already has been started by T.J. Melton III and Associates Inc. of Midland.

The park will be located in a man-made canyon and divided into recreational areas for persons of all ages. It is said that a one-acre swimming lake will have two separate T-bar rides, inner tube rides, rope walks and a water

volleyball court. Separate lakes will be provided for catfish fishing, bumper boats, and a scenic canal for paddle boats. There are a number of other recreational and entertainment features, including a children's playground, outdoor movie amphitheater and a quarter-scale train.

It is no wonder that residents of Midland and vicinity are so excited about this particular venture.

Wild River Canyon will serve a long-felt family entertainment need. The facility undoubtedly will be used extensively by youths and adults. It also should and most likely will attract many visitors from surrounding communities.

Congratulations and all best wishes are extended to all those involved in the project.

Like the letter-writer said, we can't wait!

Skindivers, take note

The Dallas Morning News, after asking "Who says there's never any good news any more out of Washington?" answered, "Why, just the other day the Commerce Department put out a press release to announce this encourag-

ing word, 'Underseas traffic jams not likely soon.'"

We agree that should be a load off the minds of all skindivers and submariners.

Wonder how much this particular study cost?

HEMISPHERE REPORT:

Latins think in terms of dollars

By WILLIAM GIANDONI
Copley News Service

When Fidel Castro, or just about any other eloquent friend or foe of the United States, talks seriously about money, he speaks of dollars.

If Castro, for example, addresses an international conference on development and trade in Havana, and wants to be understood by his listeners, he measures the cost or value of things in dollars, U.S. dollars.

Sure, in Cuba, the monetary unit is the peso, just as it is the cruzeiro in Brazil, the balboa in Panama, the guarani in Paraguay, and so on.

But outside of those countries, relatively few know the worth of those monetary units.

And in Latin America the U.S. dollar long has been, is and presumably will go on being the measuring stick.

That does not mean that they are at all pleased with what has been happening to the dollar in recent months and years.

Bankers, businessmen, government officials and commentators have been quite concerned about the decline of the dollar.

True, of course, technically most of the Latin American monetary units are "floating." Whereas, in the past, the major countries at least maintained a fixed rate of exchange between their money and the dollar, now, in theory, at least, the peso-dollar rate of exchange is flexible and can vary from day to day, depending on the law of supply and demand in the money markets.

In actual fact, though, for the sake of international business transac-

William Giandoni

tions, many of the Latin American countries maintain a more-or-less stable official exchange rate between their money and the dollar.

That is a recognition of one of the facts of economic life. For foreign commerce purposes, smaller nations generally have to adjust themselves to the monetary policies of the nation with which their trade relations are closest. In the Western Hemisphere, most of the countries trade far more with the United States than any other nation.

That they may thus be trapped in the "dollar bloc" does not sit well with some of the hemisphere's leaders.

Castro, the president of Cuba, does not have that complaint.

He, though, is enmeshed in the Soviet bloc which, by all accounts, is much worse a fate.

But, even such oil exporting nations as Mexico, seem to be coming to realize that things could be worse.

For example, Mario Ezcuardia, writing in the Marxist daily, El Dia de Mexico City, noted that when the Organization of Petroleum Exporting Countries recently discussed the possibility of discarding the dollar, in which world oil prices are mostly quoted, the price of gold soared above

CHARLEY REESE

Prejudice turns attention from the real problem

ORLANDO, Fla. — Prejudice is a defect in thinking, not a moral problem. It is bad because it prevents a clear perception of reality and therefore messes up your ability to solve problems.

But the effort by some people to equate prejudice with immorality is a dirty trick. I have known many people who are prejudiced but who are also kind, humane and loving people even in their dealings with the objects of their prejudice.

At the same time, it's been my experience that prejudiced people who are cruel and violent are cruel and violent anyway and their prejudice is entirely incidental. Show me a man who will lynch a black and I'll show you a man who will lynch a WASP, given the same opportunity. Malice is color blind.

There are even some humorous aspects of prejudice if you are inclined to be amused by irony and absurdity. Prejudiced people have a tendency to blame whomever they are prejudiced against for every problem under the sun.

I have heard people complain that blacks dominate the job market. That must cause a lot of laughs in the unemployment lines because despite all of the affirmative action programs, blacks still lag far behind whites in both unemployment and income. To borrow a term from accounting, blacks work under the LIFO system — last in, first out.

If blacks were politically sophisticated, they would all be conservative

Charley Reese

Republicans because their only hope of improving their economic situation is for the American economy to expand and run at full speed. At the present time, trendy liberal Democrats all favor a no-growth policy. And that leads to another myth, that blacks dominate politics. Politicians have been exploiting blacks for a century and are still playing them for suckers with the help of greedy black leaders who sell black votes the way New Englanders once sold black bodies. Fortunately, this is beginning to change as more blacks realize that once a politician can take your support for granted, you've lost all your leverage.

Finally, there are those who believe that high taxes and inflated budgets are entirely the result of welfare payments which they also wrongly suspect go mostly to blacks. All you have to do to explode this myth is total up the dollars that actually end up in the pockets of the poor. They represent a tiny percentage of the budget. We have a welfare state, but the chief recipients of the "welfare" are politicians, bureaucrats, consultants, and academics nearly all of whom are middle class and white.

When you turn to the people who are prejudiced against Jews, you also find a lot of absurdities. One of the biggest is the belief that Zionism is a powerful, worldwide conspiracy, an old myth perpetrated by the Czarist regime in Imperial Russia which spread a forged document that came to be known as the Protocols of the Elders of Zion.

Zionism is nothing more than a political movement started by an Austrian journalist with the sole purpose of establishing a Jewish national home. Far from being powerful, Zionism is one of the least powerful movements in the world as any fool can see just by looking at the facts.

It took Zionists nearly 50 years to establish the state of Israel at an unbelievable high cost in lives and efforts. The little country has never known one day of peace since it was founded and is hanging on by its fingernails and sheer guts. Furthermore, Zionists were unable to prevent the near extermination of European Jewry, are frustrated today by Soviet anti-semitism and are as fearful today as they were 50 years ago about the future. Hardly evidence of world power.

The Liberty Lobby, which is one of the worst anti-Jewish groups, goes to such ridiculous extremes as to make the Rockefeller a part of the Zionist conspiracy. The Rockefeller are mostly Baptist and notoriously pro-Arab because of their oil interests.

Far from controlling American business, study after study has shown that Jews are as rare in the board rooms of Fortune 500 companies and commercial banks as Jimmy Carter posters in the Kennedy compound.

Jews are as diverse as any other group. Some are Zionists and some are anti-Zionists. Some are liberals and some are conservative. Some are devout and some are atheists. Whatever caused God to pick them as his chosen people, it was certainly not conformity.

But the main point is that prejudice blocks clear thinking and diverts our attention from real problems. The central issue of our day is humanity versus inhumanity and in that context, we are all one — or the other.

BROADSIDES

THE BIBLE

CAN YOU QUOTE IT?

By LAVINA ROSS FOWLER AND ELIZABETH ROSS WIERSEMA

1. There are about as many doctrines and religious sects as there are interpretations. This is substantiated by Paul's words in 1 Corinthians 14:26. Peter in his first Epistle 1:20 spoke his part about prophecy and interpretations. What did Joseph, young patriarch of Genesis 40:8 tell about his belief of interpretations?

2. Why could the Chaldeans not solve the dream of Nebuchadnezzar and Daniel could? Daniel 2:4-5, 27-28.

3. On what occasion did Moses and Elias return from the grave? Luke 9.

4. What was John the Baptist's text? Matthew 3:2.

5. "Man shall not live by bread alone, but by ——" Matthew 4.

Four correct...excellent. Three correct...good.

Dr. Lauro F. Cavazos named Tech president

LUBBOCK — Dr. Lauro F. "Larry" Cavazos has been named the tenth president of Texas Tech University and third president of the Texas Tech University Health Sciences Center by the Board of Regents.

Dr. Cavazos, 53, the first Texas Tech alumnus to be elevated to the Texas Tech presidency, is presently dean of the Tufts University School of Medicine in Boston.

Born on the historic King Ranch, where his father was foreman of the Santa Gertrudis Division for 44 years, Dr. Cavazos received a bachelor's degree in zoology from Texas Tech in 1949, a master's in cytology (the study of cells) from Texas Tech in 1951 and a Ph.D. in physiology from Iowa State University in 1954.

Two of his ten children are presently students at Texas Tech. Two of Dr. Cavazos' brothers also are Texas Tech graduates.

Dr. Cavazos' academic appointments have included a teaching assistantship at Texas Tech, 1952-54, instructorship in anatomy at the Medical College of Virginia, 1954-56, assistant professorship of anatomy at the Virginia medical school, 1956-60, followed by an associate professorship of anatomy there, 1960-64, and

professorship of anatomy at Tufts University School of Medicine, 1960 to present.

As an administrator, he has served as curriculum coordinator at the Medical College of Virginia, chairman of anatomy, associate dean, acting dean and dean at Tufts University School of Medicine. He was appointed to the Tufts deanship in 1975.

A member of numerous professional and medical organizations, Dr. Cavazos has published more than 75 articles in various professional journals.

Among his many honors are honorary membership in the Tufts Medical Alumni Association and recipient of the "Distinguished Alumnus" award of Texas Tech, the "Alumni Achievement Award" of Iowa State and several education and teaching awards from five graduating medical classes over the years.

The new Texas Tech president is married to the former Peggy Ann Murdock, a native of Plainview and a former Texas Tech student. She holds a bachelor's degree in nursing from Incarnate Word College of San Antonio. The Cavazos' children range in age from 13 to 23.

Dr. Lauro F. Cavazos

Costa Rica captures two U.S. tuna boats

CORPUS CHRISTI, Texas (AP) — Two captured American tuna boats remained docked in Costa Rica today pending charges they were fishing in the country's territorial waters.

A ham radio operator who monitored the ships' plight said the Cindy Ann and Marjorie R. both of San Diego, docked Monday night in Puentarenas, Costa Rica.

George Lasko, 30, of Corpus Christi, said the crews reported they were being held on board, but that no Costa Ricans had boarded the tuna boats.

The State Department in Washington said it had heard reports of the seizure but could not officially confirm it.

The American Tuna Association in San Diego, Calif., confirmed the seizure.

Lasko, a piano and organ salesman, said he heard a fading appeal for help over his radio about 8 a.m. Monday as he prepared to go to work.

The appeal was from Efrén Tucker, the first mate of the Cindy Ann, who was asking any ham operator who could hear him to inform his company and family that his vessel had been seized by the Costa RRican government.

Tucker told Lasko, and later The Corpus Christi Caller-Times, that the 225-foot Cindy Ann was adrift with all but two of her 19-man crew asleep

about 1 a.m. Monday. A Costa Rican craft pulled alongside, he said, and ordered a crewman at gunpoint to summon the captain.

Two armed men then boarded the boat, he said, and told Capt. Frank Ferreira he was fishing inside Costa Rica's territorial waters, which are famed for their tuna. Costa Rica claims a 200-mile fishing zone, but the United States recognizes only a 12-mile zone.

A spokesman for Van Camp Canned Foods of San Diego, which owns the ship, said the company's legal department advises ships to recognize the 12-mile limit.

But Tucker said the ship was 20 to 25 miles outside the 200 limit when it was seized, and had 165 pounds of tuna aboard.

NBC removes Weinblatt

LOS ANGELES (AP) — Mike Weinblatt, who became head programmer when Fred Silverman took over as NBC president in 1978, has been removed as president of the network's Entertainment Division, NBC has announced.

Silverman, who did not announce Weinblatt's replacement, said Monday the former chief programmer will head the newly formed NBC Enterprises Division, which was created to keep the network in step with new technologies in telecommunications.

George Lasko, 30, of Corpus Christi, said the crews reported they were being held on board, but that no Costa Ricans had boarded the tuna boats.

The appeal was from Efrén Tucker, the first mate of the Cindy Ann, who was asking any ham operator who could hear him to inform his company and family that his vessel had been seized by the Costa RRican government.

TUESDAY JANUARY 15, 1980

Evening TV Schedule

Neighborly Love

John Ritter (Jack) and Lana Wood (Lana) are still battling — Jack wants Lana to leave him alone; Lana wants anything but to leave Jack alone. In fact, John's household sometimes is far from peaceful. His frustration is part of the antics highlighted in "Three's Company." Tuesday, Jan. 15, on ABC.

Jack is completing his studies toward a master chef's diploma and working parttime, and his roommates, Janet Wood, the bright, witty, stable force in the household continues her job at the florist shop; the ever-vulnerable Chrissy Snow has been promoted from typist to assistant to the boss.

SHEINWOLD ON BRIDGE

Finessing in Sequence

By Alfred Sheinwold

Nobody ever eats eggs and ham; it's always ham and eggs. The right sequence is more than a matter of mere words. Today's South took the queen of spades and tried the diamond finesse. East won and returned a spade to the ace. South ran the diamonds, cashed the top hearts and then tried the club finesse. West won and defeated the contract with the rest of the spades.

CORRECT ORDER
An expert would make the contract by taking the two finesses in the correct order. After winning the first trick, South should lead a heart to dummy's king to try the club finesse.

West wins and returns a spade. South runs the clubs and then tries the diamond finesse. East wins but (and this is a big but) cannot return a spade.

This is South's reason for taking the club finesse first. If South is unlucky enough to lose both finesses, he will still make his contract if East started with only two spades.

DAILY QUESTION
Partner opens with one notrump (16 to 18 points), and the next player passes. You hold: ♠ K J 8 7 5 3 ♠ 10 7 4 ♣ 6 4 ♣ K 5. What do you say?

ANSWER: Bid four spades. The length of your suit should give you a reasonable play for ten tricks even if you are a point or two short of the 26 points usually needed for game.

A POCKET GUIDE TO BRIDGE written by Alfred Sheinwold is available. Get your copy by sending \$1.25, including a stamped, self-addressed No. 10 envelope, to Sheinwold on Bridge, in care of this newspaper, P.O. Box 1000, Los Angeles, Calif. 90033.

SOUTHWEST. NO BETTER AIRLINE FOR LOVE OR MONEY.

Judge considers restraining order

SANTA BARBARA, Calif. (AP) — A Superior Court judge says he will decide this week whether the city's striking policemen will have to return to work under a temporary restraining order sought by city officials.

In arguing for the restraining order, city attorneys on Monday said the strike is illegal and is creating serious problems in combatting crime in this wealthy coastal community of 72,000 persons.

City Attorney Fred Clough said that while California has no law outlawing or permitting a strike by public service employees, judges throughout the state have found them illegal in similar court cases.

In a surprise move, attorneys representing 140 striking officers, sergeants and clerical workers in the International Brotherhood of Police Officers opened the hearing with a request for a back-to-work order that would have submitted the dispute to binding arbitration.

Under such a stipulated judgment, the city would have to give its consent, but Clough rejected the plan, calling it a publicity ploy.

District Attorney Stanley Roden testified crime has risen dramatically since the walkout began Jan. 2, leaving only nine officers to staff the department 24 hours a day.

Roden and acting Police Chief James Glavis gave further details in private testimony in Judge J. Kelly Steele's chambers.

Meanwhile, the walkout took its toll on the non-strikers, who are growing weary after 13 days of working 12 to 15 hours at a stretch.

Two officers, Lts. Don Williams and Bob Strong, said criminals are becoming more brazen and are using ruses to fool the skeleton staff.

Officers responding to a rowdy crowd of about 200 teen-agers Saturday night were pelted with bottles but could do nothing because they were unable to call in reinforcements.

Union attorney Barry Cappello, a former city attorney, represented Santa Barbara in its last contract negotiations with the officers in 1977 and he has told the union it gave in too easily then. The officers are trying to regain some of the benefits they lost in that pact, including time-and-a-half pay for overtime and educational programs.

They also want pay increases of 12 percent in the first year and 11 percent in the next two years of a three-year contract, which would bring an officer's top salary from \$19,188 to \$21,762.

The city's last offer was an 18-month agreement with 8 percent raises for all officers and an additional 5 percent hike for those whose performance is judged worthy. That would bring an officer's top pay to \$23,660.

Jury panel sought for Plainview trial

PLAINVIEW, Texas (AP) — Attorneys need to pick 12 more prospective jurors to reach a panel of 32 in Loy Dean Stone's murder trial.

Once the 32 are selected, the defense and prosecution each will strike 10 persons, leaving the final panel of 12.

Four more persons were added to the group Monday, the sixth day of jury selection.

"I've given up on trying to predict an exact date" the trial will start, State District Judge John T. Boyd said Monday.

Stone and his wife Louise are accused in the Oct. 31, 1977, shotgun slaying of Roxanne Casas, 15, at their home near Dimmitt. Miss Casas was killed and two of her friends were injured when two shotgun blasts ripped into their pickup as it turned around in the Stones' driveway on Halloween night.

The Stones, who say they never heard the shots, are members of the Church of Wicca, a witches' group based in New Bern, N.C.

Mrs. Stone will be tried separately.

Search for missing plane, family continues

SMITHFIELD, Utah (AP) — Teams of cross-country skiers, mountain climbers and snowmobilers are conducting a hazardous mountain search for a missing plane with an Oregon missionary, his pregnant wife and two children aboard.

The second full day of searching Monday proved fruitless, said Cache County Sheriff's Lt. Larry McFarland, though searchers were able to snowshoe to within a mile of where the Piper Cherokee was thought to have gone down Saturday afternoon in northern Utah's Cache Mountains.

McFarland said there was no indication whether anyone on board the plane was alive.

Rescue workers trudged through heavy snow and were plagued by clouds, rain and what some local experts called the worst avalanche threat in years. A skier was killed by a weekend avalanche in the Wasatch Mountains east of Salt Lake City.

McFarland said about 3 feet of snow had fallen since the plane was reported missing, increasing the chance the craft may be buried.

The plane's pilot was identified as Mike Martin of Eugene, Ore., trained as a missionary pilot. Family members in South Carolina said others aboard were Martin's wife, Gladys, who is seven months pregnant, and their children, ages 2 and 10.

They had flown to Greenville, S.C., on Jan. 1 for a family visit and were returning to Eugene on Saturday when Martin radioed Salt Lake Air Traffic Control that his plane was icing and losing altitude.

McFarland said today's efforts would involve two groups of cross-country skiers — including members of the National Ski Patrol — and a group of snowmobilers who would take their vehicles in as far as possible, then continue on snowshoes.

Odessa team qualifies for bridge competition

A quartet of Odessans won first place in the district qualifying round of the American Contract Bridge League's Grand National Swiss Team Championships Saturday in Midland's Helon Y. Allison Bridge Center.

The winners, who qualified for the regional championships to be held in April in Austin, were Mrs. Phil Terk, Mrs. Mark Stark, Thelma Maxwell and Allen Copeland.

The next three places also qualified for the regional event in Austin.

In second place were A. L. Gifford and Joe Salzman, both of Midland, and Norbert Cywinski and Roy Sparks, both of Odessa.

The first place team scored 121 points out of a possible 160, and the second place team finished with 120 points.

Taking third in the two-session event were Mr. and Mrs. Bob Myers, Billie Jean Lively and Kay Jones, all of Midland. Their score was 110.

Qualifying fourth was another Midland quartet, Mr. and Mrs. Jack LaVigne, Mrs. Wayne Royce and Mrs. J. T. Dickerson. They recorded 100 points.

Twenty-one teams from Permian Basin cities participated in the team game.

DR. NEIL SOLOMON Tests harmful

Dear Dr. Solomon: After reading all about the Three Mile Island incident, I've come to the conclusion that no one really knows what effects the accident will have on people 20 or 30 years from now. Isn't it true that we are only now becoming aware of the harmful effects of atomic tests to which people were exposed many years ago?—Mr. J.K.

Dear Mr. K.: It is true that there is increasing evidence of the harmful effects of radiation from nuclear weapons testing. A study by Dr. Joseph L. Lyon, assistant professor of family and community medicine at the University of Utah College of Medicine, has shown that children born near a Nevada weapons test site had two and one-half times the leukemia death rate of children born either before the test program was begun or after it had ended.

In his investigation, Dr. Lyon used the years from 1951 to 1958 as the period during which there was heavy exposure to fallout. During the period, 97 above-ground tests were carried out in the Nevada desert. The resulting fallout drifted across Nevada and into Utah.

Dr. Lyon found that the death rate for children living in the areas that received high amounts of fallout was almost three times that of a control group. The increase in deaths from leukemia occurred during the nine years following the most concentrated period of above-ground testing, 1959 to 1967. After 1967, the leukemia death rate in children dropped to the pre-testing level. While these findings do not prove a cause-and-effect relationship, they do establish an association between exposure to nuclear fallout and increased deaths from leukemia in children.

Whether these findings are applicable to the adult population living in the test area is not clear. Research on older groups of people becomes more difficult since adults probably have been exposed to carcinogens other than the nuclear weapons fallout.

Dr. Lyon's findings are supported by a study of participants in a 1957 atomic blast, conducted by Dr. Glyn Caldwell, of the Center for Disease Control. On the basis of information obtained on 85 percent of the more than 3,200 people who participated in the atomic test, he concludes that eight developed leukemia, about twice the expected number. However, the total number of cancers (100) and the total number of deaths (215) in the group are not considered excessive. The expected death rate from chance for the group would be 257.

Obviously, the results of these studies do not prove anything about the Three Mile Island incident. As former Secretary Joseph A. Califano of the Department of Health, Education and Welfare stated at a press conference, these findings only add to the questions surrounding radiation exposure.

TMI's operators challenge order

HARRISBURG, Pa. (AP) — Operators of the Three Mile Island power plant, scene of the nation's worst commercial nuclear accident, have challenged an order requiring a demonstration of why the plant's license should not be revoked.

The Public Utility Commission's Nov. 1 directive to the Metropolitan Edison Co. was described Monday by the company's lawyer as "thoroughly confused, misconceived (and) unmanageable."

"It is in the public interest that the... order, and all the confusion, delay and detriment to all parties which it carries with it, be dismissed at the earliest possible date," Met Ed lawyer Samuel Russell said in a brief submitted to the PUC.

In issuing the controversial order, the PUC said studies of the March 28 accident had prompted questions about Met Ed's ability to provide "safe, adequate and reliable service at just and reasonable rates" to its 350,000 customers.

Committee proposes water code changes

AUSTIN—Several changes in the Texas Water Code, including provision on handling of solid waste violations and water rate cases, have been recommended to the House Subcommittee on the Water Code by the Department of Water Resources.

The subcommittee is chaired by Rep. Tom Cradick, Midland. Bruce Bigelow, general counsel for DWR, presented the proposed changes to the subcommittee, which will consider the recommendations and make its own recommendations for any changes to the 1961 Legislature.

Among the proposed changes are eliminating domestic sewage sludge from the definition of "solid waste" to prevent possible regulation by both the Department of Health and DWR; clarification of procedures for setting interest rates charged borrowers under the Water Development fund; some increases in civil and criminal penalties for violation of permits and orders on wastewater discharges and solid and toxic wastes; and elimination of charges to public entities seeking to divert surface water to recharge underground aquifers, or to build dams to control natural pollution (as is being done on the upper Red River).

Texas Water Commission Chairman Felix McDonald also appeared at the session to ask the lawmakers to remove the rate jurisdiction of the TWC, noting that the Public Utility Commission is equipped to handle such matters, while the TWC lacks the rate-making specialists and other personnel needed.

Westside Lions to hear about Rape Crisis Center

Westside Lions Club will hear about the Midland Rape Crisis Center when the group meets at noon Thursday in its clubhouse, Thomason and Midland Drives.

Nan Gordon, director, and Lara Chandler, assistant director, will talk about goals of the center.

Curriculum panel planning study program regional hearing

AUSTIN—The Curriculum Study Panel will hold a regional hearing on needed changes in curriculum for public schools from 2 to 5 p.m. and 7 to 9 p.m. April 22 in Midland. The hearing, part of a statewide curriculum study by the panel, will be held at the Region XVIII Education Service Center at LaForce Boulevard, Midland.

Congressmen put pressure on firms

WASHINGTON (AP) — After pressure from some members of Congress, two major oil companies have reluctantly reversed their policy against credit-card purchases of gasoline.

Rep. Dan Glickman, D-Kan., said Monday that Exxon Corp. will allow use of its credit cards to purchase the gasoline-alcohol mixture. Gulf Oil Corp. announced a similar decision in Pittsburgh.

Exxon president Howard Kauffmann contends, however, that gasoline-alcohol mix is not the answer to the nation's fuel problems.

In a telegram to Glickman, Kauffmann said he hoped the policy change would correct misunderstandings about Exxon's original intent.

The credit card restrictions were part of a long-standing company policy designed to protect customers, he said.

"Although we feel this position is correct, as a result of changed circumstances Exxon has until further notice modified this policy to permit the sale on Exxon credit cards of nonbranded motor fuels including gasoline," Kauffmann said.

Gulf said its credit card may be used to purchase gasoline at service stations that sell Gulf-brand fuels.

Kauffmann expressed doubts about gasoline's value in reducing the nation's dependence on oil, however. Gasohol is about 90 percent gasoline and 10 percent octane-boosting alcohol.

The Exxon official said the current technology for producing gasohol makes it an energy-inefficient fuel. Synthetic fuels from coal and oil shale "offer greater promise," he said.

Although pleased about the policy reversal, Glickman disputed Kauffmann's remarks.

Getting major oil companies to accept the alcohol-fuel blend "is like pulling teeth," said Glickman, a founder of the Congressional Gasohol Caucus.

"We will just have to keep pushing the major oil companies to accept gasohol as a major alternative fuel of the future," he added.

Last week, Exxon, Texaco and Gulf announced they would not permit use of their credit cards for gasohol purchases.

Glickman, calling the move another industry effort to block increased use of gasohol, threatened to seek action by the Federal Trade Commission if it was not reversed. Other members of Congress said they would introduce legislation to force reversal of the policy.

Florida Exploration Co. of Midland has filed application to drill a 10,000-foot wildcat in Terry County, one and three-eighths mile north of an 11,662-foot failure, 3.5 miles east of the discovery well of the Corrigan, East (Fusselman) field and 11 miles southeast of Brownfield.

Operator staked No. 1 Minnie Heald 990 feet from south and 660 feet from east lines of section 34, block O, H&OB survey.

12 wildcats announced in Permian Basin areas

Wellsite is 990 from north and 1,980 from west lines of section 34, block 5, GH&H survey, seven miles southeast of Post. Ground elevation is 2,346 feet.

McCulloch Wildcat
Geomac Energy Corp. of Midland will drill a 1,750-foot wildcat in McCulloch County as the No. 1 McNeely, one location west of the same firm's No. 1 Siler, active wildcat, 5/8 mile northwest of old oil and production in the Regular field, one mile north of Salt Gap.

Location is 330 from south and 2,310 from west lines of Dorris Jordt survey No. 780. Ground elevation is 1,630 feet.

Dawson Wildcat
Aminoil USA, Inc. of Midland will drill the No. 1 Youngblood as a 9,000-foot wildcat 5/8 mile northeast of the Cline Farms (Pennsylvania) discovery well, 7/8 mile southeast of an 8,675-foot failure.

Drillsite is 1,320 from south and 660 from east lines of section 19, block 33, T-5-N, T&P survey, 13 miles east of Lamesa.

Ground elevation is 2,935 feet.

IRION EXPLORERS STAKED
Meadco Properties of Midland has rescheduled as an 8,300-foot wildcat its No. 1-17 A. Sugg Unit, previously scheduled to 7,800 feet as a Wolfcamp gas test, surrounded by production from that play in the Ela Sugg field.

Wellsite is 660 from most southerly north line and the same distance from the most southerly east line of section 17, block 27, H&TC survey, 21.5 miles northeast of Barnhart.

Kent Explorer Staked
Guest Energy Corp. of Wichita Falls spotted location for No. 1 O'Donnell-Jones as a 7,900-foot wildcat in Kent County, 1.5 miles south of a 7,685-foot failure, three miles west of the Clairemont (Strawn) reopener and lone producer from that play, which produces at 6,670 feet.

Location spots 1,980 from south and 660 from east lines of section 75, block G, W&N survey, five miles southwest of Clairemont.

C&K Petroleum Inc. of Midland will drill two 9,000-foot oil wildcats in Irion County.

The No. 1 Carter is one mile north of an 8,650-foot wildcat failure, 2.5 miles southeast of the MWJ (Canyon oil) field, three miles northwest of Wolfcamp gas production in the Ela Sugg field, 19 miles northwest of Mertzon.

Location is 925 from north and east lines of J. Blessman survey No. 1909, abstract 20.

Ground elevation is 2,257 feet.

The No. 2 Scott is 5/8 mile south of the No. 1 Scott, active wildcat, 1/25 miles northwest of Wolfcamp gas production and 2.5 miles northwest of Wolfcamp oil production in the Ela Sugg field, 17.5 miles northwest of Mertzon.

Location spots 4,159 from north and 960 from west lines of section 22, block 27, H&TC survey. Ground elevation is 2,382 feet.

The firm's No. 2 Scott is drilling below 8,315 feet in lime and shale on an 8,800-foot contract.

Garza Venture
Terrapet Corp. of Dallas will drill the No. 1-34 K.W. Kirkpatrick as an 8,300-foot wildcat in Garza County, three miles east of production in the Garza field, 5/8 mile northwest of a 3,202-foot failure.

PECOS PROJECT SET
C&G Production Co. of Kermit spotted location for the No. 1 Delmon Hodges as a 4,800-foot test in the Abell (Permian gas) field and 3/8 mile northwest of production in the Abell

Purchasers lower sights

AUSTIN, Texas (AP) — The Texas Railroad Commission announced Monday major purchasers of crude oil have said they want to buy 2,652,720 barrels a day in February, a decrease of 18,758 from January.

The commission meets Thursday to set the statewide oil allowance for February.

The allowable — or market production factor — has been at 100 percent each month since April 1972 with the exception of three months.

TOM GREEN VENTURE
Hohco International Corp. of Houston filed application to drill the No. 3-X Moss-Powell as a 1,200-foot San Angelo wildcat, one location northwest of the No. 2 Moss-Powell, opener and lone producer of the Lawson-Victor (lower Strawn oil) field, 2.5 miles east of the Dove Creek, East (1075 Clear Fork oil) field.

Location is 837 from south and 1,941 from west lines of section 19, block 20, H&TC survey, 6.5 miles northwest of Christoval.

DRY HOLES

BORDEN COUNTY
Harper & Lawless Production Co. No. 1 Porter Hanks, 1,200 from north and 473 from west lines of section 19, block 22, T-3-N, T&P survey, 10 miles southeast of Ackery, id 8,100 feet.

Watson Oil Corp. wildcat, No. 1 Good, 1,980 from north and east lines of section 11, block 23, T-3-N, T&P survey, 15 miles southwest of Gall, id 8,600 feet.

COKE COUNTY
Guy W. Swartz, ARC (Odom line), No. 3 Harris Estate, 1,430 from north and 473 from west lines of section 19, block 22, T-3-N, T&P survey, 10 miles southeast of Ackery, id 8,100 feet.

CONCHO COUNTY
Hanover Management Co. wildcat, No. 1 William Sims, 8,150 from south and 660 from west lines of section 19, block 22, T-3-N, T&P survey, No. 315, five miles east of Paint Rock, id 3,354 feet.

CROCKETT COUNTY
J. Cleo Thompson wildcat, No. 3 Lauffer, 1,320 from north and west lines of section 14, block 1, GC&SF survey, 14 miles northeast of Ozona, id 4,680 feet.

EDDY COUNTY
Keith D. Graham wildcat (Delaware), No. 18 Paker Lake Unit, 2,300 from north and 1,980 from east lines of section 13-24e-30e, 11 miles east of Malaga, id 4,100 feet.

LEA COUNTY
Advance Oil & Gas Co. No. 1 Coll, 1,980 from south and east lines of section 11-13e-30e, seven miles southeast of Gladiala, id 12,000 feet, loggers id 11,950 feet.

MCCULLOCH COUNTY
Hannie Ivy, Hall (Strawn gas), No. 10 Neil Marshall, 250 from north and 660 from east lines of section 19, block 22, T-3-N, T&P survey, 12 miles north of Brady, id 8,600 feet.

REEVES COUNTY
Forest Oil Corp. wildcat, No. 1-B State, 1,320 from north and west lines of section 28, block 57, T-3, T&P survey, nine miles southwest of Orla, abandoned location.

RUNNELS COUNTY
Keith D. Graham wildcat, No. 1 W. F. Minzenmayer, 2,185 from south and 467 from west lines of section 117, block 64, H&TC survey, nine miles west of Bradshaw, id 4,300 feet.

SCHLEICHER COUNTY
J. Cleo Thompson wildcat, No. 2 Page Jeffers, 1,461 from south and 960 from west lines of section 16, block 2, GC&SF survey, 20 miles northeast of Ozona, id 4,297 feet.

Tucker Drilling Co. wildcat, No. 2 Steen, 1,382 from north and 2,488 from east lines of section 121, TCRB survey, abstract 68, id 4,917 feet.

CROCKETT EXPLORER
J. Cleo Thompson of Dallas will drill the No. 15-A J.R. Bailey as a 9,000-foot wildcat, 1/2 mile east of Canyon gas production, 1.25 miles northwest of Ellenburger production and the same distance northwest of Strawn gas production in the Crockett County portion of the Ozona, North field.

Location is 11 miles northeast of Ozona, 1,320 from south and east lines of section 19, block GH, GC&SF survey.

The field has extended into Schleicher County.

SCHLEICHER WELL
Seneca Petroleum Inc. of Eldorado has completed the No. 2 Viola Finnegan as the second producer and a location east extension to the Regal (Wolfcamp) field of Schleicher County, 3.25 miles north of Eldorado.

Operator reported a 24-hour pumping potential of 14.78 barrels of 36-gravity oil and 22.16 barrels of water, through perforations from 3,767 to 3,818 feet, which was acidized with 1,092 gallons.

Gas-oil ratio is 68-1.

Location is 467 from south and west lines of section 29, block LL, GC&SF survey.

Mexico gas to flow

MEXICO CITY (AP) — The chief of Pemex, the national oil monopoly, said the first shipments of Mexican natural gas to the United States would begin flowing today.

Jorge Diaz Serrano told a news conference Monday that up to 100 million cubic feet, at \$3.62 per thousand, would be piped to Texas receiving points the first day.

He said that when all the pipelines and instruments were adjusted, the flow would be pushed up to the 300 million cubic feet a day agreed upon in a sales contract signed in 1979.

DOE will distribute money to back energy alternatives

By ROBERT A. ROSENBLATT
The Los Angeles Times

WASHINGTON — In an effort to promote alternatives to oil, the Department of Energy announced Monday that it would distribute \$2.2 billion this year to companies producing energy from oil shale, coal, garbage and other unconventional sources.

The department wants the industry to work on new fuels even before

creation of the government's proposed Energy Security Corp., designed to encourage development of synthetic fuels. Both houses of Congress have passed legislation providing for development of such fuels, and the final compromise version of the legislation will be settled after Congress returns later this month.

In an effort to expedite production of fuels to replace oil, Congress last year approved a special \$2.2 billion appropriation for the Department of Energy. President Carter signed the bill on Nov. 29, and the department announced its general spending plans on Monday, unusually quick action in energy policy making.

The department will spend \$1.5 billion for purchase agreements or price guarantees, depending on contracts signed with individual companies. For example, the government may promise to buy the output of a facility making a form of natural gas from coal.

The government also will issue up to \$500 million in loan guarantees, enabling companies to get bank financing for costly, untried new forms of technology.

The other \$200 million will be reserved for studies of individual projects proposed to the government, and for cooperative agreements between the government and private companies.

The department will hold a hearing in Denver Tuesday to invite industry comment on its plans.

All the funds will be allocated by the summer or the close of the fiscal year

in September, Ruth Davis, assistant energy secretary for resource applications, told a news conference.

She said that it was impossible to predict when the synthetic fuels would begin flowing, adding that "it depends on how industry wants to take advantage of the program."

A number of companies, notably large ones in the oil industry, strongly opposed direct government financial involvement in new fuels development. Some companies said they would develop new fuels on their own, and wanted the government's role limited to granting tax credits.

But the Carter administration and Congress favored a more active role for government to reach the president's goal of reducing oil imports 50 percent by 1990.

Alternative synthetic fuels can be made from coal, shale rock, tar sands containing petroleum deposits, grains, agricultural and industrial wastes, garbage, peat and other materials, according to the mandate given the Department of Energy by Congress.

Any facilities producing such fuel must be located in the United States and must get its raw material from domestic sources.

Department guidelines say that any plant receiving government aid should meet these minimum levels: liquids from coal, 10,000 barrels daily; oil shale, 2,000 barrels daily; and tar sands 2,000 barrels daily.

The United States now consumes 18.4 million barrels of oil daily, including 8.1 million barrels of imports.

Operator takes potential at two Runnels openers

Charles M. Childers of Abilene has completed as discoveries in a depleted area of the Urban (Miles oil and gas) field of Runnels County, two miles north of Miles.

The No. 1 Roach was finished for a 24-hour flowing potential of 82 barrel of 42-gravity oil and no water, through an 18/64-inch choke and perforations from 4,262 to 4,268 feet, after being acidized with 2,000 gallons.

Gas-liquid ratio is 3,049-1.

Scheduled as a 4,500-foot wildcat, it drilled to 4,302 feet, with 4.5-inch casing set at 4,298 feet.

Operator picked the following tops on ground elevation of 1,809 feet: Palo Pinto, 3,870 feet; Capps, 4,220 feet and Miles 4,262 feet.

Location is 1,320 from north and 850 from east lines of E.J. Field survey No. 98.

test, it was drilled to 4,330 feet and 4.5-inch casing is set at 4,311 feet.

The Palo Pinto was topped at 3,900 feet and the Capps at 4,240 feet, with ground elevation of 1,809 feet.

Location is 1,320 from north and 2,304 from east lines of E.J. Field survey No. 98.

The McCoun Co., Inc. of Tyler announced plans to drill the No. 1 Bright as a 4,100-foot wildcat in Runnels County, 3/4-mile southeast of depleted production in the Goldsboro (Gardner) field, 1.25 miles southwest of depleted production in the Arldridge (Upper Gardner) field, 1.5 miles west of Content.

Wellsite is 114 from north and 1,000 from west lines of Quadrilla Irrigation Co. survey No. 37.

Ground elevation is 2,039 feet.

ATAPCO of Midland will drill the No. 1 H.M. Gallant as a 4,500-foot wildcat, also scheduled as a McMullan, Jennings and Gardner sand test in the Lindmann field, eight miles northeast of Ballinger.

Drillsite is 467 from north and 76 feet from west lines of section 16, Norvell Travis survey No. 533.

Ground elevation is 1,737 feet.

Operator takes potential at two Runnels openers

ATAPCO of Midland will drill the No. 1 H.M. Gallant as a 4,500-foot wildcat, also scheduled as a McMullan, Jennings and Gardner sand test in the Lindmann field, eight miles northeast of Ballinger.

Drillsite is 467 from north and 76 feet from west lines of section 16, Norvell Travis survey No. 533.

Ground elevation is 1,737 feet.

DRILLING REPORT

ANDREWS COUNTY
Clem George No. 1-X University, id 12,000 feet, perforated from 4734 to 4758 feet, swabbed 8 hours and recovered 48 barrels of fluid, includes 6 barrels of oil, continuing to test.

NRM Petroleum No. 1 Maxfield, drilling 7945 feet.

CHAVES COUNTY
Cora Petroleum No. 1 Lario-State, id 8200 feet, pumped 3 barrels of oil and 90 barrels of water in 24 hours through perforations from 8169 to 9170 feet.

Flag Redfern Oil Co. No. 1 O'Brien, drilling 7796 feet in lime and shale.

COKE COUNTY
Petroleum Operating Co. No. 1 Ivey, drilling 5178 feet.

NRM Petroleum No. 2 Harris, id 5900 feet, waiting on pumping unit.

CRANE COUNTY
Gulf No. 13 Crawford Field Unit, id 5150 feet in lime and shale, set 5 1/2-inch casing at total depth, waiting on cement, moving out rotary tools.

CROCKETT COUNTY
Perry R. Bass No. 1 Shannon Estate, id 1935 feet, under reaming.

Gulf No. 1-AXA State, drilling 4090 feet in lime and shale, recovered 180 feet drilling fluid with no shows on drill stem test from 1800 to 1809 feet.

DAWSON COUNTY
Discovery Exploration & Development Funds No. 1 Hatch, drilling 4436 feet, set 12 1/2-inch casing at 417 feet.

NRM Petroleum No. 1 Middleton, drilling 5300 feet.

RK Petroleum No. 1-5 Dean, drilling 11,900 feet.

EDDY COUNTY
Perry R. Bass No. 77 Big Eddy, drilling 8575 feet.

Belco Petroleum No. 10 James Ranch, drilling 501 feet in red bed and lime.

Ford Chapman & Assoc. No. 1 Coyle, drilling 385 feet in anhydrite.

Florida Gas Exploration No. 8 Ross, saw plug back total depth 12,172 feet, prepared to run 4-point test.

Gulf No. 1 L.J. Eddy State, drilling 3420 feet in lime.

Gulf No. 1 Callaway-Federal, drilling 8845 feet in lime and shale.

Gulf No. 1 D. Hunter-Buffs, id 12,350 feet in lime and shale, set 2 1/2-inch liner from 9708 to 13,348 feet, laid down from 9708 to 13,348 feet.

Gulf No. 1-35 Eddy Communicated, id 8974 feet, flowing load water on 2 1/2-inch choke, pulled out of hole, removed blow out preventer and installed well head, shut in.

Enterprise No. 2 of Delaware, No. 8 Parkway West, id 11,675 feet, acidized perforations from 11,298 to 6,623 to 6,637 feet.

Texas Oil & Gas No. 1 Duffield-State, reached total depth at 8825 feet.

GAINES COUNTY
ARCO Oil & Gas No. 1 SBC, drilling 3250 feet in anhydrite and lime.

HOWARD COUNTY
Florida Gas No. 1 McDowell, id 4,000 feet, plugged and abandoned.

Enterprise No. 2 of Delaware, id 9,960 feet, ran wash, ran tracer survey, reset packer at 9,424 feet between perforations, ran logs, set drill retainers at 9,370 feet, squeezed perforations from 9,388 to 9,419 feet, pulled out of hole, going in hole with tubing.

IRION COUNTY
Texas Oil & Gas No. 2-C Winterbotham, drilling 2,982 feet.

Meadco Properties No. 2-19 Ela Sugg, drilling 7,208 feet, released pulling unit, acidized perforations from 7,220 to 7,237 feet with 4,000 gallons.

Discovery Operations No. 1 MLW-TIGHT.

Energy Reserve Group No. 3-71 Ela Sugg, id 8,562 feet, plugged back to 6,317 feet, pumped 73 barrel of load oil and no load water in 24 hours, through perforations from 4,955 to 5,812 feet.

KING COUNTY
BTA Oil Producers No. 1 King, id 6,250 feet being held "TIGHT" at present time.

LEA COUNTY
Energy Reserve No. 3 Gulf State, drilling 6,595 feet in lime and dolomite.

Adole Oil & Gas No. 1-33 Gray, waiting on rotary tools.

GMW No. 1 White Eagle, drilling 11,201 feet in lime and shale.

Grace Petro. No. 2 Felmont-Federal, id 14,417 feet, ran in hole with drill, tagged top of cement, shut down overnight.

Getty No. 2-36 State, drilling 11,982 feet.

Getty No. 3-VH Lea State, id 10,800 feet.

LOUISIANA COUNTY
11,326 to 543 feet.

RK Petroleum No. 1-X Carter-State, drilling 1,045 feet.

UPTON COUNTY
John L. Cox No. 1-28 Cowden, drilling 9,310 feet.

Britton Management No. 1 Crume, id 3,865 feet, running magnet.

John L. Cox No. 1-McDaniel-Barnet, drilling 8,532 feet.

LOVING COUNTY
Adobe No. 1-22 Barstow, id 4,774 feet, drilled with drydrill to 4,460 feet, reamed from 4,410 to 62 feet, now drilling at 4,470 feet.

Adobe No. 1-15 Barstow, id 11,547 feet, ran bottom hole pressure bombs, flowed 1900 mcf of gas in 2 hours, through perforations at 3,802 to 3,828 feet, and choke 16/64, shut in for bottom hole pressure.

Adobe No. 1-17 Barstow, id 6,490 feet, fractured perforations at 6,231 to 6,263 feet, with 14,000 gallons and 22,000 pounds sand, ran after-frac logs, started well flowing, flowed 1,200,000 cu ft of gas in 2 hours, with trace of condensate in 4 hours, through 16/64-inch choke, shut in.

BTA No. 1 Henry, drilling 14,733 feet.

Gulf No. 14 Crawford Field Unit, id 6,215 feet in lime and dolomite, swabbed, removed blow out preventer and installed wellhead.

Adobe No. 1-15 Edwards, drilling 190 feet in sand and redbed.

Gulf No. 1036 Hutchings Stock Association, id 10,800 feet, set retrieval bridge plug at 8,099 feet, set packer at 8,328 feet, acidized perforations 8,342 to 8,406 feet, reamed, jetting and cleaning retrieval bridge plug to 8,328 and packer to 8,166 feet, acidized perforations 8,184 to 8,312 feet, with 5,000 gallons, moved retrieval bridge plug to 8,099 feet and packer to 8,166 feet, swabbed testing.

Gulf No. 1041 Hutchings Stock Association, id 8,580 feet, flowed to pit, had heavy return of free sand and 160 barrels of water, no oil, left flowing over night (choke size not reported), through perforations at 8,222 to 8,228 feet.

Gulf No. 1043 Hutchings Stock Association, drilling 1,300 feet in salt and anhydrite.

Gulf No. 1054 Hutchings Stock Association, id 9,150 feet, flowed 17 barrels of oil and 36 barrels of water in 17 hours, through a 25/64-inch choke and perforations at 8,074 to 8,066 feet.

Gulf No. 1055 Hutchings Stock Association, id 9,150 feet in shale, circulation not reported.

REAGAN COUNTY
Cora No. 1 Wooden, drilling 6,776 feet.

Cora No. 1 Eddy, id 7,000 feet, testing, pumping no gauges, through perforations not reported.

REEVES COUNTY
Gulf No. 1 Norma Sherman, id 6,500 feet, flowed 25 barrels of oil, 238 barrels of water in 24 hours, through perforations at 8,114 to 8,114 feet.

Gulf No. 2-XU State, drilling 5,482 feet in lime and dolomite.

Gulf No. 3-V State, drilling at 5,022 feet in anhydrite.

Union Texas No. 1-60 Sealy State, drilling 12,116 feet in lime and shale.

Union Texas No. 2-18-20 University, id 11,400 feet, drilled out cement to top of 11 1/2-inch liner at 10,908 feet, tagged top float collar at 11,360 feet, spotted 250 gallons of acid, dressed out liner hanger at 10,600 feet.

GMW No. 1 Black Hole, drilling 2,185 feet in anhydrite.

Getty No. 1-42-20 University, id 15,515 feet, hung 85/8-inch liner from 11,422 to 15,514 feet, waiting on cement and circulation and conditioning.

WINKLER COUNTY
Getty No. 1-32-21 University, id 11,186 feet, recovered all fish, running volume survey.

GMW No. 1 Ten Bears "Deep", drilling 12,566 feet in lime and shale.

Getty No. 1-21 University, drilling 10,495 feet.

YOAKUM COUNTY
Getty No. 2-D Beahrs, id 8,915 feet, set 85/8-inch casing at total depth, waiting on cement.

North American stakes mile outpost in Howard

North American Royalties Inc. of Midland filed application to drill No. 1 Riddle as an 11,900-foot test one mile north of the Isaac (Pennsylvania, upper) field of Howard County, two miles north of Knott.

Drillsite is 4,620 feet from south and east lines of section 1, block 34, T-2-N, T&P survey.

(Clear Fork gas) field and 1.5 miles southeast of production in the Abell, North (San Andres oil) field of Pecos County, six miles east of Imperial.

Wellsite is 1,968 from south and 853 from east lines of section 31, block 9, H&GN survey.

ANDREWS TEST STAKED

Jack Huff of Midland will drill the No. 1 Arco-University 5/8 mile northwest of production in the Block 11 (Fusselman) field of Andrews County, 16 miles southwest of Andrews.

WARD OILER FINALS

Edwin L. Cox of Dallas has completed the No. 6 Edwards as the eighth producer and 1/2 mile northeast of production in the Crawford (Glorieta) field of Ward County, 11 miles southeast of Monahan.

Operator reported a 24-hour flowing gauges of 41 barrels of 37-gravity oil and 55 barrels of water, through an 18/64-inch choke and perforations ranging from 4,258 to 4,346 feet.

The pay was acidized with 5,000 gallons and fractured with 33,000 gallons. Gas-liquid is 915-1.

Drilled to 5,300 feet, operator landed 4.5-inch casing on bottom.

Location is 467 from south and 974 from east lines of section 3, block B-20, PSL survey.

Carbon dioxide program set

MALJAMAR, N.M. (AP) — The crew of a drilling rig set up in the rolling sandhills four miles southwest of here is set to begin an unusual assignment Wednesday.

They will be sinking a 4,100-foot shaft destined to become New Mexico's first carbon dioxide injection well.

When the shaft is in and other preparations are complete, the same kind of gas that puts fizz in your soda pop

will be sent down the hole at high pressure to do its chemical magic. And if all goes as planned it will unlock several million barrels of oil in the tightfisted rocks of the 8,040-acre MCA unit.

Officials of Conoco Inc., which owns 75 percent of the MCA, and the New Mexico Institute of Mining and Technology were in Maljamar last week to announce the project and inspect the site.

Conoco will spend \$3.1 million in capital and \$1.1 million in operating costs over the next four years to install and run the pilot project. New Mexico Tech is supplying technical assistance through its Petroleum Recovery Research Center.

They expect to obtain oil, of course, and to determine whether the CO2 flooding process is feasible in the MCA and other New Mexico sites.

Miscible flooding with carbon dioxide, a tertiary recovery method, is designed to get the oil left behind by traditional pumping and water flooding recovery techniques.

In an interesting twist, this new technology is being introduced only a mile from the Maljamar discovery well of 1926, which opened oil production in southeastern New Mexico.

The MCA, which covers more than half the Maljamar field, has produced 49 million barrels of oil since 1963 when water flooding was initiated. But the two standard recovery processes have coaxed out only about half of the estimated 95 million barrels in the reservoir.

What about the rest of it? That's where tertiary recovery comes in, and in this case CO2 may be the answer. Experts say it could recover up to half of the oil still in place.

The CO2 will be injected into the test area, which covers five acres, under carefully controlled conditions. Technicians want to know everything about what goes on underground because so much depends on what they learn from this testing.

Dividend declared

G. Arthur Donnelly III, president of Midland Southwest Corp., announced that its directors have declared a cash dividend of five cents per share payable on Jan. 31, to shareholders of record Jan. 15.

The company anticipates earnings of 30 cents per share this year; earnings through the third quarter were 22 cents per share on an unaudited basis.

The board of directors recently approved a budget to launch an oil and gas lease inventory program in 1980.

OPEC meet site bombed

VIENNA, Austria (AP) — A bomb destroyed an Arab restaurant in Vienna early today, one day before OPEC finance ministers were scheduled to meet in the Austrian capital.

No injuries were reported in the pre-dawn blast at the Asmaahan restaurant, said to be a meeting place for officials of the Organization of Petroleum Exporting Countries. The oil cartel has its headquarters in Vienna.

The Braniff Promise.

We hereby promise to make every effort to give the best airline service in the world.

Braniff sincerely believes that service industries — airlines included — have allowed their performance to deteriorate seriously. We want to take a stand against that trend.

That's why we're making a promise to do everything possible to provide the best airline service in the world.

Obviously, this is an ambitious goal. But we're no stranger to a difficult task.

Only 15 years ago Braniff was a small carrier. Today we fly between 75 cities all over the U.S. and the world.

We expect to perform a similar feat in the area of service. We promise to do everything we can to give you, not just good service, the best.

And when you make promises like these, you'd better be better.

1. We promise to knock ourselves out to be the world's friendliest, most professional airline personnel.

The rapid growth in air travel may have overwhelmed some airlines. Our people intend to go right on being friendly and professional. Because that's the kind of people we hire and train. For example, we screen 160 candidates for every flight attendant job we offer. Then we give them an intensive 5½ week course. And to keep them sharp we retrain them every year. The result is people who have the skill to do a good job and the confidence to be friendly.

2. We promise to provide frequent schedules throughout the U.S. and to Europe, Asia, Mexico and South America.

Only Braniff serves over 50 major cities in the U.S., 15 principal cities and capitals in South America and Mexico, 5 of the most important cities in Europe, and 5 in the Pacific and Far East. And because of its remarkable hub-and-spoke design, our system often provides the fastest service between many of the regions and countries we serve.

3. We promise to do everything we can to run an on-time airline.

Braniff now has a good on-time record. Of course, we'd like to have a 100% on-time record. We can't. No airline can. Here's some of what we do to minimize delays: We provide

standby aircraft to replace delayed equipment. We're expanding our terminals to expedite arrivals. We keep schedules realistic by revising them to reflect wind and seasonal changes. And we use aviation's most advanced computer to generate flight plans that avoid potential delays.

4. We promise to provide quick, accurate ticket purchase and check-in.

Braniff has now linked all our airport ticket counters to a new computer that lets you pick up your ticket, check in and get your seat assignment all in one operation. And when you're taking a connecting flight, with Braniff's Connect Check-In you only have to check in once. And we've created Braniff's Advance Seat Assignment, so you can select your seat when you make your reservation by phone.

5. We promise to handle your bags with care and deliver them promptly.

You fly to save time. So the last thing you need is to waste time waiting for your bags. That's why we have luggage service teams assigned by zone for faster delivery at even the most distant gates in our big terminals. And why we have special expeditors to insure delivery of "connects" no matter how far they have to travel through the airport.

6. We promise to serve some of the best food you've ever eaten on any airline.

Our meals are prepared from fresh food. We buy the food at its source in markets all over the world and fly it — still fresh — throughout our system. And there's another reason our food is better — variety. We prepare dishes based on the cuisine of the many nations we fly to.

7. We promise to fly young, beautifully decorated airplanes.

Braniff's fleet is one of the youngest of any major airline in domestic or international service. In the U.S. we fly young Boeing 727-200s. Across the Atlantic or Pacific we fly young Boeing 747 jumbos and, the newest of the new, the Boeing 747SP. All these airplanes have exciting colors and bold designs to look at on the outside, soft restful colors, Halston

wardrobes and most have real leather seats to enjoy on the inside.

8. We promise to fly airplanes you can depend on.

We've built our fleet on what we consider to be the two most dependable aircraft in commercial aviation today — the Boeing 727 and the Boeing 747. Both aircraft have a brilliant record of performance with us. And this year we'll be adding even more of them to our fleet, including the most advanced 747 in the sky — the Boeing 747SP.

In the most recent survey published by the Airline Passengers Association, the 727 and the 747 were chosen as the preferred airplane for short and long-distance flights respectively. So they're not only the airplanes we prefer to fly. They're the airplanes frequent travelers want to fly on, too.

9. We promise to offer bargain vacation fares to every Braniff city.

We can save you up to 50% on international fares including our new budget fares in the Pacific. And we can save you up to 40% domestically. And to some destinations we can save you even more. For example, we have standby fares to Britain and Europe that can save you up to 60%.

10. We promise to answer our phones and provide information promptly.

Braniff has just installed the most advanced telephone reservations and information system in the airline business. It has increased by a full 30% the number of calls we can handle at a given time. So for schedules, fares or other information on 7,500 flights between 15,000 city pairs, flown by 70 different airlines, in 107 countries, around the clock, call 800-492-4300.

We better be better.

Lisa Ashley, left, has joined the staff at Maxine's Styling Salon, 106 Andrews Highway. Dusty, Maxine, Irene, Olivia and, now, Lisa are keeping the salon open six days a week and all day Saturday. No appointments necessary, but the phone number is 682-7113.

Maxine's adds stylist, more hours of service

Maxine's is the styling salon we have all been looking for. Fast service, six days a week, for men and children as well as women. No appointment is needed. Maxine's prices are a real attraction. Precision and Contour cuts are priced at \$10 for men and \$13 to \$14 for women. Do you know of a better deal? Maxine has added a new lady to the staff, to help her, her mother, her daughter and her sister to handle their ever-growing business. Lisa Ashley is an expert with the scissors, as are the others, and will be glad to make new friends. Men have found they can depend on the people at Maxine's to send them on their way feeling pride in their appearance. They give a good and inexpensive beard trim and have excellent hairpieces for the man who is thinning on top. Permanents, facials and superb cosmetics are all there, too, at Maxine's, 106 Andrews Highway. Phone 682-7113. Come in — you will be pleased.

Harris County Court orders probe of lawyer appointment system

HOUSTON (AP) — Saying local judges may be "abusing the system," Harris County Commissioner's Court has ordered a probe into the court-appointed attorney system used by the county. Commissioner Bob Eckels called for the investigation after it was revealed a record-breaking \$2.75 million was paid to court-appointed attorneys in 1979. Eckels said the 1979 total was \$250,000 over the amount budgeted to help persons who could otherwise not afford them help pay for attorneys. He said the fund has increased rapidly over the past few years, and he felt the system was being abused. Eckels also said he wanted a better system developed for collecting money from persons who received help through the court-appointed attorney system, but were not qualified for it. The county auditor's office reported that \$127,116 was paid back last year by persons who received legal assistance but were not qualified for it.

Contaminated water wells will be closed
LOS ANGELES (AP) — Five wells that provide water to the San Gabriel Valley have been shut down because they had higher levels of a suspected cancer-causing chemical than recommended by the federal government, state officials say. Health officials emphasized that the level of trichloroethylene, an industrial cleaning solvent, is not high enough to cause immediate health problems. But in nearly all the wells tested, the samples showed TCE levels above the maximum set by the federal Environmental Protection Agency, State Health Services Department spokeswoman Beverly Powell said Thursday in Sacramento. Last weekend state health officials said they had tested 12 wells in the area and shut down four because they contained serious levels of TCE. Since then another 25 wells have been tested and 12 more are scheduled to be tested, Ms. Powell said.

Mechanic unethical: AG White

AUSTIN, Texas (AP) — Attorney General Mark White said Thursday a state district judge has entered a temporary restraining order against a Guadalupe County auto repair shop owner. White alleged Leroy Mackey charged for work he did not do and other unethical practices. Judge B. B. Schraub set a Jan 21 hearing on the matter, White said.

Michelin Tires gives up search for plant site

AUSTIN (AP) — Michelin Tire Corp. informed Austin city officials Tuesday that it has given up the search for a local site on which to build a \$100 million tire manufacturing plant. Michelin officials said the decision not to build in Austin would not affect plans for plants in Midland and Temple. The company's decision ends more than seven months of speculation about a Michelin plant in Austin.

The corporation first announced it would build the plant on a 365-acre site just outside the north Austin city limits. This was ruled out after vocal opposition by nearby homeowners, who organized a group known as "Citizens to Keep Austin Austin." The homeowners complained the 24-hour-a-day operation would create a variety of problems, including heavy traffic and excessive lighting. Several other sites in and around Austin were considered and discarded.

See Jerry Riel at Jerry's Sheet Metal, 700 N. Ft. Worth, for a Payne forced air furnace to keep your home comfortable this winter and for many years to come.

See Jerry Riel for all heating

Jerry's Sheet Metal, located at 700 N. Ft. Worth, has the furnace that will keep your family snug through many winters to come. Visit Jerry's and ask about the Payne forced air furnace. With a Payne furnace, you use safe, convenient gas, and you get automatic, efficient forced air heating, the type of heating that offers the essentials of comfort—gentle circulation of fresh, filtered air and uniform temperatures from room to room, floor to ceiling. There's a Payne to fit your needs exactly. Whatever your home size or type may be, the Payne forced air furnace is a comfort combination you just can't beat. You get the convenience of automatic gas heat, the comfort of forced air and the finest furnace money can buy. Also, see Jerry for service on your existing furnace. He can bring it up to the peak of efficiency for you. For comfort, health and protection of furnishings, your home should maintain a proper level of humidity. No matter what size your home is or what type of heating system you have, Jerry's Sheet Metal can supply you with an Aprilaire humidifier designed to provide the humidity you need. Call 684-4495 for a no-obligation recommendation for your home. Did you know a humidifier works together with your furnace in maintaining a comfortable temperature indoors? Dry, heated air in your home steals moisture from everything in it. That includes the wood framing around doors and windows. The wood shrinks, and the result is gaping spaces that permit cold air to infiltrate your home, lowering the inside temperature and requiring more heating. Proper humidity helps prevent this shrinkage—keeps cold air out and warm air in. So come and see the heating experts at Jerry's Sheet Metal soon and enjoy the winter in comfort.

M&B Seal Coating owners, Ronnie Bryant and Joe Matlock, announce that when they resume sealcoating, probably in March, they will be using Wikel Sealmaster sealcoating and equipment. They wish all their old customers and new a good and happy 1980 and hope they will think of them when their asphalt needs to be retopped.

Ford announces it will close California assembly plant

DETROIT (AP) — Ford Motor Co. is joining troubled Chrysler Corp. in shedding an assembly plant as layoffs among U.S. automakers pass 200,000 for the first time in the 10-month sales drought. Ford said Thursday it would close its assembly plant at Pico Rivera, Calif., near Los Angeles because of slumping demand for big cars. Chrysler produced its last car at its famous "Dodge Main" plant in Hamtramck, Mich., a week ago today. Ford said it regretted the move, but "based on present and foreseeable demand," it has enough capacity at other plants. About 1,670 employees will lose their jobs, Ford said. The United Auto Workers union said another 575 were on indefinite layoff. The No. 2 automaker said it would try to place employees in other plants, but that the possibilities were limited. The Pico Rivera plant now produces 36 full-size LTDs per hour. Sales of the model last year were 245,365, down 26 percent from 1978. Ford said it hoped demand would necessitate re-opening the plant, but a spokesman added, "We would be willing to listen to any reasonable offers to buy it." Ken Bannon, vice president for Ford at the United Auto Workers union, said the union was "indignant at the extremely short notice" it was given. A spokesman said the UAW was told "only hours" before the closing was announced. "The closing of Pico Rivera is yet another tragic symptom of the ailment besetting our nation's economy, including the unduly high proportion of imported vehicles which endangers the stability of the U.S. auto industry," Bannon added. Ford will be left with 25 assembly plants in the United States and Canada. The company last closed an assembly plant in 1970 in Dallas. Ford expects to report a loss of \$1 billion on North American car and truck operations for 1979 — which is about what Chrysler will lose as a whole — though worldwide Ford will profit. Ford's 1979 U.S. car sales were down 17 percent from 1978, the same as Chrysler's. General Motors announced Thursday that it will close the Cadillac plant in Detroit for a week for the first time since the week before the OPEC oil embargo was lifted in March 1974. Next week's layoffs will total 202,450, compared with 197,625 this week.

Court upholds limit injunction

EL PASO, Texas (AP) — The Court of Civil Appeals here has upheld a temporary injunction ordering the El Paso Chevron refinery to keep the plant's sulfur dioxide emissions within state limits. The temporary injunction sought by city and state agencies was issued last February in District Court here.

A Confederate Air Force colonel works on a FM-2 Wildcat, a World War II aircraft carrier-based fighter plane, prior to takeoff at a fly-in hosted by

CAF West Texas Wing Leader Col. Joe Mabee of Midland. In the background is a tandem-seated PT-19 trainer.

Confederate Air Force Col. Tom Todd Jr. revves up the radial engines of the CAF New Mexico Wing North American B-25 Mitchell, as a CAF West

Texas Wing P-51D Mustang streaks overhead at the Mabee Ranch north of Midland. (Staff Photos by Ed Todd)

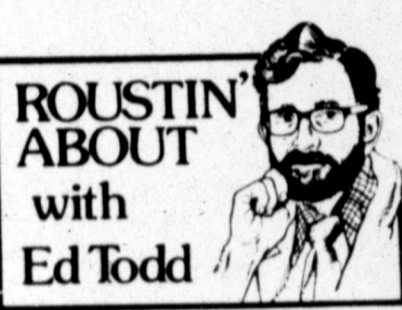

For CAF fliers, 'there's something about an airplane'

MABEE FLUGHAFEN — "Many a good man has been ruined by a damn airplane," figured a Confederate Air Force colonel, as he viewed the flight line of World War II vintage aircraft on a foggy morn.

Though the flightline was quiet, he could hear the rumble of firing pistons and feel the propwash of mighty propellers.

And every colonel alive was ready for rումination by plane or dame — freedom or bondage.

There's something about an airplane, especially a vintage aircraft from the 1939-45 era, which mesmerizes pilot and aircraft buff alike. The airplane absorbs the soul — the entire being.

ROUSTIN ABOUT with Ed Todd

THE TIME WAS on a cool Sunday morn, and Saturday night had passed by in fine fashion: The annual bash by the CAF's West Texas Wing at Joe Mabee's "Flughafen" (Airport) Ranch had passed. But memories were still keen on the Andrews Sisters' act carried out by Colonels' Ladies Jean Satterfield, Patsy Edwards and Van A. Van Wie, who mimicked the famed Sisters (LaVerne, Maxene and Patti) and who were joined by the Col. George Goebel, who was "dolled" up like a buxom lady. And who could forget Col. Dallas Smith playing the all-wise Karnak (Carnack).

And the foggy morning had given way to black coffee and doughnuts for the grounded colonels who gleefully would watch their air-borne brothers flying in the sky.

JUST AS THE SUN was laboring to break through the fog and mist, suddenly there appeared out from the gray-blue yonder the sound and sight of a silvery bird chirping like a maniac hyena: it was George Steding's BT-13, the Vultee Vibrator, a single-engine trainer famed for its durability, reliability and nose-ability.

"They sure named that thing right," said Col. Nat Henderson, as the Vibrator screamed over.

The array of airplanes on and over Mabee Flughafen included the likes of these:

- The Fairchild F-24.
- An original Messerschmitt 108, forerunner of the Third Reich's Me. 109, flown by Dick Kemper, and a French-made Nord 1002, version of the Me. 108 flown by Col. Robb Satterfield.
- A "Nip" Val divebomber, a converted BT-13, which became a photo reconnaissance plane flown by Col. Vince Hinds, who, like a genie on a rug, can aptly fly "The Praying Mantis," otherwise known as the STOL Fieseler Storch. ("He needs a three-day pass for a go-around," quipped Col. Sam Short of the Storch.) Both planes are from the New Mexico Wing.
- Howard Pardue's Goodyear-made F4U Corsair.
- The North American B-25 Mitchell, assigned to the New Mexico Wing, and flown by Col. Tom Todd Jr.

"THIS IS A performing dude," observed Col. Chuck Keegan. The B-25 came off the assembly line in 1944 but apparently missed out on action. "I don't think it ever fired a shot in anger," said Todd.

—Gail Traweek zipped in in his open-cockpit PT-19 monoplane.

—Gene Beggs and Dane Jones did precision flying in their Pitts Special

biplanes.

—Robb Satterfield spun around in his DeHavilland Chipmunk.

—Col. Bill Wicks took to the air in Sam Holloman's Star Duster Too biplane.

—Col. Arthur McKinley's Grumman F4F Wildcat was mostly on static display.

—A TBM Avenger was flown in from San Marcos by Col. Sappy Sansing, whose CAF forte has been flying with flair the Lockheed P-38 Lightning.

—The North American P-51D Mustang was alternately flown by Cols. Satterfield and Smith.

—Joe McShane III's push-pull 02A Skymaster took a rest.

—Frank Smisson's "Tiger" Sabreliner streaked overhead, winged a grand "howdy" and was out of sight in a flash.

—And not to be forgotten was Col. Tom Fryar's moustache. Well, it looks like it has got enough wing and airfoil to fly.

—And putt-putting up and down the the flightline and on the runway's sidelines was Col. Foye Bomer, who was keeping watch of ground traffic on his Japan-made motorcycle. Rumbling along was Col. Charles Hughes in his spiffy Excalibur, and D.J. Wilson was pondering over his CAF half-staff car, a getting-restored MG sports car. And Ron Iberg somehow looked out of sorts without his fur Cossack headgear, Russian garb and the olive-drab Bell P-39 Aircobra.

INSIDE THE MABEE Flughafen Museum were restored warbirds and one, the "intimidating" TBM Avenger, yet to be put in mint condition. But its time is coming.

Aircraft hangared therein included the Curtiss P-40N Warhawk, Harvard Mark IV, a wholly civilian Cessna single, and, behold, a Grumman (General Motors-made) FM2 Wildcat.

And hanging around was a clue on how those airplanes got there: It's a tale all too familiar to CAF aircraft owners and sponsors:

Support Your Local Bank BUY A PLANE

That restored Grumman Wildcat, airplane buffs say, is in better condition than when it came off the General Motors assembly line late in the war.

"No doubt about it," vouched West Texas Wing Leader Col. Joe Mabee. The carried-based craft was the "12th from the end of the line" and was among the some 7,000 Wildcats made between 1939 and 1945.

"This is a more authentic restoration" perhaps than just about any other warbird. Fact is, the Wildcat, which was retired between 1967 and

1977 by Chicago tool-and-die makers Charles Killar and Louis Gallo, was judged the Grand Champion Warbird at the Experimental Aircraft Association big show at Oshkosh, Wis., in 1979.

And the December 1979 edition of "Sports Aviation" termed the Wildcat as "better than new."

MABEE, WHO IS used to flying land-based-designed aircraft, has taken the Wildcat up for a spin or so and, like all earth-bound flying machines, had to come down. And in West Texas, plunking down is usually against crosswinds.

The Wildcat's engineers designed the mid-wing craft for landing into the wind, and the floating runway called an aircraft carrier was accommodating.

"It's about like landing that motorcycle," Mabee described landing the Wildcat.

The royal, deep sea-blue plane is a beauty, and its nine-cylinder radial engine (1,200 h.p.) can be a fighting proposition for the pilot.

"It's difficult to fly, all right," Mabee allowed. "You've got a lot of torque. You read the flight manual real good, re-read it, memorize it... and jump in."

Fortunately, the Wildcat will take punishment, as long as it doesn't battle headlong with the Earth. "It's stout as hell."

Mr. and Mrs. Herbert Hall and daughters, Stacy and Brenda, spent the Christmas holidays visiting the Halls son and daughter-in-law, Mr. and Mrs. Randy Hall of Phoenix, Ariz.

They were houseguests of Mr. and Mrs. Sam Van Sandt, parents of Mrs. Randy Hall.

While in Phoenix, the Midland Halls also visited Hall's sister and husband, Mr. and Mrs. Lawrence Madison.

After returning to Midland a few days, the Hall family was off again — this time to Springfield, Mo., for the Jan. 5 marriage of their son, Dale, to Julie Colegrove. Mrs. Hall's parents, Mr. and Mrs. E.G. Brumley of Atlanta, Texas, made the trip with them.

...JUNIOR ACHIEVEMENT OF MIDLAND, INC., will kick off the major gifts portion of its annual fund drive at a business meeting of the board slated from 12:30 to 1 p.m. Wednesday, Jan. 23, in the 1st National Room of The First National Bank.

The announcement was made by Gary D. Petersen for Bill Barnes, chairman of the fund drive.

A luncheon, courtesy of the bank, will be served after the meeting.

For reservations, call Barbara at 682-4966 by Tuesday.

...TEXAS WOMAN'S UNIVERSITY recently awarded more than 600 degrees at its annual winter graduation. The list included Jean L. Houston, 2208 Boyd St., who was awarded a B.S. degree in clothing and fashion merchandising.

...REX A. ANDERSON, son of Mr. and Mrs. Raymond J. Anderson of 3203 Ward St., has been promoted to the rank of first lieutenant in the United States Air Force.

Anderson is a KC-135 copilot with a unit of the Strategic Air Command at Barksdale Air Force Base at Shreveport, La.

The lieutenant, a 1973 graduate of North Shore High School, West Palm Beach, Fla., received a bachelor's degree in 1977 from Angelo State University at San Angelo. He was commissioned through the ROTC program.

...INTERESTED IN growing roses in Midland? The Midland Rose Society invites you to attend its first meeting of the year. It will begin at 7:30 p.m. Thursday in the Flame Room of Pioneer Natural Gas Co.

There will be a round-table program on planning and planting new bare root rosebushes, pruning existing rosebushes and selecting new rosebushes for the garden.

...MR. AND MRS. JIM PRICE, 2106 W. Michigan Ave., have returned from a vacation in Europe. They visited their daughter, Eileen, who is completing her second year with the Dusseldorf Ballet in West Germany.

The Prices also visited Amsterdam and Paris and spent the Christmas holidays in the Swiss Alps at the ski village of Zermatt.

...MIDLAND COIN CLUB will meet at 7:30 p.m. Thursday in the faculty lounge on the campus of Midland College. A program and auction will be included.

For more information, please call 694-4206.

...TEXAS A&I UNIVERSITY at Kingsville has announced that Laura B. Hartsfield of Midland is listed on the Honor Roll for the fall semester. The Honor Roll includes students who earned at least a 3.5 average with a minimum of 12 semester hours.

...BOB AND MARY WATSON were honored Sunday with a 40th anniversary reception at the Midland Hilton, hosted by Bob and Linda Watson of Austin and Bill and Patti Watson of Midland.

Married Jan. 14, 1940 in Alexandria, La., Bob and Mary have been Midland residents for more than 30 years.

...REMINDER: This column is a chance for all Midlanders to be reporters. If you have houseguests, a high school or college student who has received an honor or have taken a trip recently, please call Lifestyle Department at 682-5311 and report the news.

DEAR ABBY

By ABIGAIL VAN BUREN

DEAR ABBY: This letter has taken me 2½ years to write. It is in response to someone who asked you if she should acknowledge the birth of a friend's baby who had been diagnosed as having Down's Syndrome. (Mongolism.) Thank you, Abby, for saying, "Yes, the mother of such a child needs all the support and cheering up she can get."

I read that column the day I came home from the hospital with little Jimmy, my newborn Down's Syndrome baby. But there is so much more that most people need to know, and as one who has had that experience, may I say it:

Please keep in mind that what happened to Jimmy was tragic, but the child himself is not a tragedy, and neither is his birth. He is as much a loving member of our family as our other children, so do send a card, a note, or a little gift to acknowledge his birth.

Here are a few suggestions that will help you feel more comfortable when talking to new parents of a Down's baby:

Please don't ask if "insanity" runs in the family. Down's Syndrome is a chromosomal defect, and is rarely hereditary. Furthermore, a Down's child is retarded, which is vastly different from insane.

Don't hesitate to ask how he is getting along. Some people avoid mentioning the child (as though he had died) because they think the situation is too horrible to even discuss.

When the child seems to be progressing, please don't say he seems "normal" and maybe he won't be retarded after all! New parents need to face up to the facts regarding their special child before they themselves can accept him as is. By denying his limitations, you encourage false hopes, and convey the message that you don't really accept or love him.

About a third of all Down's children are born with heart defects. Our Jimmy required open-heart surgery. He survived the operation and is much improved. We thank God for that, so please don't say it might have been a "blessing" had he died. And don't express surprise that they

Laser beam technique promising

NEW ORLEANS (AP) — Hundreds of infertile women could have babies if they were helped by a new technique that opens blocked Fallopian tubes with a laser beam instead of a scalpel, doctors say.

"It's still experimental, but it shows tremendous promise," said Dr. Joseph Bellina, one of several doctors who spoke Saturday about the technique at the International Congress of Gynecological Laser Surgery.

Bellina said he had used it 15 times and doctors from France and Germany had used it on about 50 more women so far. Those are too few operations for conclusive evidence, he said, but about 80 percent of the women had "positive biological tests" — they had babies.

"They're getting pregnant and carrying to term — and that's an end point you can't question," he said.

That compares to a 60 percent rate found in two 1978 studies. Those also used microsurgery — needles the size of the C in most newspaper articles and sutures thinner than hairs — but cut with knives instead of light.

Bellina said it will take another two years to get anything like conclusive statistics using the laser — one year to operate on 100 more women and a second year to see if they have children.

Blockages of the fallopian tubes caused by disease or malformation are a major cause of infertility. The tubes carry eggs from the ovaries into the womb.

And tubal ligation — cutting the tubes, burn them to seal them off or crimping them with stitches or tiny rings — is a common way to sterilize women.

An estimated 585,000 women had their tubes tied in 1977, up from 550,000 in 1975 and 201,000 in 1970, according to the National Center for Medical Statistics in Bethesda, Md.

Estimates of the number of women who decide they want to have children after their tubes have been tied range from fewer than 5 percent to about 10 percent of the total.

If such women are to have children, a doctor must cut out the dead parts or other blockages, then sew the cut ends together.

One reason lasers work so well is that even the finest scalpel leaves behind more damaged cells than does a laser, said Bellina. The damaged cells are what become scar tissue and scar tissue can block the tubes.

"would bother" to operate on such a child.

Please believe the parents when they say that their special child is a very worthwhile little person, and they are actually glad to have him. While Down's Syndrome is nothing to wish for, it CAN be accepted, and is not nearly as catastrophic as it seems the first few weeks.

In the beginning, the parents need to talk about their feelings. Don't argue. Listen. Let them weep, and

weep with them. And when they can finally smile about their baby, you smile, too.

Don't refer to the child as "that poor little thing." It hurts me to see people look upon my child with pity, and know that they wish he had never been born. He's not repulsive in the least, and I can honestly say that much good has already come from our little treasure. Our other children (the eldest is 9) have learned understanding and compassion because of

their little brother. We told them the truth immediately, and they have loved him from the day they first saw him.

I cannot imagine life without Jimmy. He is the sunshine of our lives.

People don't mean to be insensitive or cruel — they just don't know how to handle the birth of an exceptional child.

I know this is much too long for your column, Abby, but please print as

much of it as possible. You will be doing a tremendous service to many. — JIMMY'S MOTHER: ROCHESTER, N.Y.

DEAR MOM: Your letter filled an entire column, but it was well worth the space. I know I speak for many when I say "thank you" for writing.

Address comments and questions to Abby, care of Box 69700, Los Angeles, Calif. 90060. For a personal reply, please enclose a self-addressed, stamped envelope.

Love's unflawed by birth defect

Your horoscope

By JEANE DIXON

Wednesday, January 16, 1980

YOUR BIRTHDAY TODAY: Talented singer Ethel Merman shares this birthday with you. Your ambitious nature could interfere with family relationships if you are not careful. Luckily, you realize how important loved ones are to your continuing happiness. Business outlook improves as you sort out differences with partners, co-workers. If you marry this year, it will be for keeps!

ARIES (March 21-April 19): Make effort to keep contradictions out of conversation. Verbal restraint makes you more popular at work home. Money is there for new clothes, furniture.

TAURUS (April 20-May 20): Tender words repair a love spat. Meet extra career demands without expecting remuneration. Rewards come in near future without your asking. Friends cherish your ability to listen.

GEMINI (May 21-June 20): Bright, shiny ideas make this a productive day. Trade off routine work with co-worker, partner if in a creative mood. Special dinner plans delight singles, married couples.

CANCER (June 21-July 21): Expect to be in the limelight—dress your best. Compliments are not hard to find.

Avoid signing contract. Refuse to be rushed into making major commitment.

LEO (July 23-Aug. 22): Great day for finding rare bargains, treasures. Set ground rules for children to help overcome boisterous behavior. Reward them for their efforts, be patient if at first they fail.

VIRGO (Aug. 23-Sept. 22): Creativity relieves the tedium. Influential person makes good on a promise. New career idea brings possibility of added income. Impulsive new friendship is exhilarating.

LIBRA (Sept. 23-Oct. 22): Plan wisely to promote venture. Channel energies into physical activity to relieve tension. Community project

has surprising romantic potential.

SCORPIO (Oct. 23-Nov. 21): You can cope with extra work today but do not count on immediate reward. Adjust your home life to a new work schedule. Loved ones are supportive.

SAGITTARIUS (Nov. 22-Dec. 21): Be open to suggestions from family members, associates on how to eliminate some expenses. Seek stimulating conversation in the evening and discuss ideas, not individuals.

CAPRICORN (Dec. 22-Jan. 19): Form your own judgments and do not be over-influenced by opinions of your peers. Act surprised when good news is announced. A close friend welcomes your advice.

Hal Woods' money tree is The Money Car — a 1976 gilded limousine, which is adorned with 120,000 glittering coins adhered to the car by Epoxy resin. (Staff Photo by Brian Hendershot)

Coin-plated car really money tree

By ED TODD
Staff Writer

Why would a fellow laden a limousine with 120,000 glittering coins and drive from town-to-town and state-to-state to show off his gilded car?

"For more money, of course."

"I did it," explained Hal Woods, designer, driver and owner of the 1976 Bicentennial Cadillac Limousine, "because nobody ever did it before. It's like climbing a mountain."

Woods drove his "Money Car" into Midland last week, parked it at San Miguel Square, cordoned it off, and invited shoppers and passers-by to scrutinize, but not touch, the car; they did anyway. He and the rolling coin show will be "marking time" here through Wednesday, when the Money Car sets off to new market places.

MERCHANTS paid him a fee to promote the shopping plaza by drawing people to his car, which is liberally bedecked with rare and

common coins, mostly U.S. Bicentennial coins, and precious pieces.

Woods has been making a living out displaying his 3½-ton "gold mine" and buying gold and silver coins and "scrap" watches and jewelry for almost a year.

He claims that the car, valued at a quarter of a million dollars and laden with a ton of coins bearing a \$40,000 face value, has made Las Vegas television appearances but, through him, has turned down contracts to appear in Hollywood movies. He figures he and the car can make more money on TV and in shopping-center appearances than being tied to a movie contract.

WOODS dresses like a playboy Phil Harris, smokes too many cigarettes, wears a sporty English-type cap and sunglasses, and talks hip.

"Kids," he repeatedly told youngsters who gawked at the car and caressed it with their finger tips, "save your pen-

nies. If you get enough pennies, you can do anything you want to."

Woods did. He socked away profits from his strip-coal mining operation in Illinois, bought the limousine, collected coins and symmetrically adorned the Caddy with pennies, nickel, dimes, half dollars, dollar coins, silver dollars, and exotic coins, including the prized U.S. Trade Dollar, and jazzed up the interior with white mink, silver and turquoise and added luxuries such as radios, a television set, an ice maker and Scotch whiskey. The hood ornament is an 18-carat American Eagle.

"It's a gaudy car. I intended for it to be gaudy," Woods proudly admitted. "If it's not, I've missed my mark."

WOODS, who hails from Madisonville, Ky., and three helpers spent two years in dolling up The Money Car.

"It's in mint condition, to coin a phrase," he quipped. Spectators looking over the car were, like

Woods, forward in their remarks.

"I like it, man; it's cool," said teen-ager John Atlee.

The older people were not so exuberant.

"It's different," allowed Donna Gilbert. "It's not something you'd want to take out everyday and drive."

"Well, this is certainly something for Las Vegas," said Birgitta Finke.

And like a Las Vegas money-machine, Woods' Money Car makes money and, like some one-way slot machines, takes far more than it gives. The Money Car operates on a similar principle:

"You don't have to spend money to make it. All you have to do is show it (money), and I took that at face value."

But The Money Car apparently is returning handsome dividends, and Woods will keep on looking for more "coins" and showings of his limousine until it, and when, the novelty wears off and his car no longer is in mint condition.

WOODS, who hails from Madisonville, Ky., and three helpers spent two years in dolling up The Money Car.

"It's in mint condition, to coin a phrase," he quipped. Spectators looking over the car were, like

Dead seals undergo autopsies

BOSTON (AP) — Scores of harbor seals that washed ashore on Cape Cod beaches underwent autopsies at the New England Aquarium today as authorities tried to determine what killed them.

Louis E. Garibaldi, aquarium curator, said pathologists would be looking for something all the animals have in common, "something that is fast-acting."

"It could be something bacterial or viral or something toxic in their food," Garibaldi said.

Carcasses of more than 70 seals have washed ashore on Cape Cod Bay beaches within the past three weeks, mostly between Wellfleet and Rock Harbor, authorities said. There has been no indication that the seals were felled by oil, the bacterial Red Tide or by any "human activity," Garibaldi said.

He said most of the seals are between the ages of 2 and 3 and appear to be dying of an "acute and short-term" illness.

Garibaldi said seals that die from long-term parasitical illnesses are usually "skin and bones," but those found on the Cape beaches "look healthy, are fat and well-rounded and look alive on the beach until you go

and touch one."

The last outbreak of seal deaths along Cape Cod occurred in 1975 and

1976. All of those deaths were attributed to heartworm and lungworm, Garibaldi said.

President Tito may need leg

to be taken off

BELGRADE, Yugoslavia (AP) — Surgery to restore the circulation in the left leg of Josip Broz Tito, and Yugoslavia's 87-year-old president may have to have it amputated before gangrene sets in, informed sources said.

Eight doctors performed a blood vessel bypass operation on the leg over the weekend to remove a blockage, but reported that "in spite of temporary improvement the desired effect has not been achieved."

Yugoslav officials told Western diplomats the doctors may now have to resort to amputation before the onset of fatal gangrene.

LEE CHATTER Students return to school after holiday

BY LEIGH ANN JONES,
GINA BARD
& KAREN FIDLER

Well Rebs, how was the first week of school after a long relaxing Christmas holiday? Don't take it too hard, Easter is on its way.

Looks like "big ole Woody" just couldn't handle our Mighty Rebel roundballers last Friday night. Our sure-to-make-it shooters defeated Ablene Cooper 52-51 in a THRILLING team effort. DAVID KEYS really did a super job—Congratulations David. Be sure and come out Tuesday night to see our J.V. and Varsity stomp those sorry Steers from Big Spring. Also Friday, our Roundballers take on Permian there, so come and support the winning sport of basketball.

Not only are our guys doing a super job, but the

fighting female basketball team is leading the district! Way to go, girls. Be sure to see our girls play Permian Thursday night! Come watch our Champs!

A big congratulation goes to Jeff Ryan for receiving the "Good Citizenship Award" from Lt. William Brewer Chapter, Daughters of the American Revolution.

We wish those cowboys from Lee High School good luck at the stock show. (Good luck Kris Morgan and Big Red!)

Congratulations go to Gary Butler and Brent Sanders for being junior Kiwanians of the week.

Jr. Council—Wednesday at 7 p.m. Senior girls come to the meeting at the Y.C. If you want to go to Padre, you better be here for the meeting!

REBELETTES: squad meetings are scheduled Wednesday morning.

Washington Cardinal appointed to Vatican

VATICAN CITY (AP) — Pope John Paul II today appointed Cardinal William Baum, Archbishop of Washington

D.C., to head the Vatican's Congregation of Catholic Education, which supervises Catholic seminaries and universities around the world. The appointment of the 53-year-old cardinal, youngest in the United States, brought back American representation to the central administration of the Vatican.

ARC OF INSTABILITY

World tension focused on string of Mideast states

EDITOR'S NOTE: The Persian Gulf and northern Indian Ocean have become seas of instability at a time when American prestige and credibility in the region are at a low ebb. In this first part of a five-part series, "Arc of Instability," Otto Doelling, who is chief of Middle East services for The Associated Press, presents a nation-by-nation look at the region.

By OTTO DOELLING
Associated Press Writer

The focus of world tension — once embattled Berlin, later the hilly battlefields of Korea and then the jungles of Southeast Asia — has shifted to a string of states along the Persian Gulf and the Indian Ocean.

Turmoil in Iran, Soviet troops in Afghanistan, unrest of varying degrees in Saudi Arabia, and in the Yemens — North and South, Iraq, India and Pakistan wracked in wary dispute with neighbors.

Almost two years ago, U.S. National Security Adviser Zbigniew Brzezinski coined the phrase "arc of instability" to describe the region. He put

First in a series

it in a dramatic historical perspective:

"If you look at the postwar era, the '50s were dominated by the struggle for the survival of Western Europe, and our greatest attainment was the creation of stability in Western Europe. The '60s and the early '70s were dominated by the aftermath of colonial revolution and of World War II in Asia....

"Today, the area of crisis is a group of states on the shores of the Indian Ocean — literally an arc of instability, which can be drawn on a map from Chittagong in Bangladesh, through Islamabad, all the way to Aden.

"Their internal fragility, social and political, could interact with the projection of Soviet power, and that together could create a problem as acute as the one that we faced even in the '50s or '60s, especially because of oil."

The turbulence that has struck the region since the Islamic uprising began in Iran in February 1979 has exacerbated regional and international rivalries: Iraq vs. Syria, India vs. Pakistan, the United States vs. the Soviet Union.

Ultimately at stake is the oil wealth of the Arabian peninsula and Iran, as well as the West's oil tanker routes.

Here is a nation-by-nation overview of the crisis areas along the "arc of instability":

IRAN

Until the fall of Shah Mohammad Reza Pahlavi, Iran was regarded as the West's "policeman" in the Persian Gulf, providing a block between the Soviet Union and the oil fields to the south.

Iran also was the world's second-largest exporter of oil, producing up to six million barrels a day.

Its pampered 400,000-man armed forces were equipped with the West's most sophisticated weaponry, but when the shah was challenged last February, the army collapsed. Soldiers defected or deserted; hundreds of officers were slain or went before Islamic firing squads.

Amid the political upheaval, Iranian oil exports have been practically halted. Unemployment is rampant.

The unity that brought victory to the revolution led by Ayatollah Ruhollah Khomeini quickly disintegrated as the aged religious leader grimly began to impose autocratic, Islamic rule.

Domestic violence continues to shake the predominantly Shiite Moslem nation. Kurdish, Baluchi, Arab and other minorities are clamoring — and sometimes fighting — for greater autonomy.

Iran's relations with its neighbors are strained. Tehran has clamped down on Marxists, lending at best moral support to Afghan insurgents fighting the Soviet-backed rulers in Afghanistan.

Arabs in Iran's neighboring states were angered by its suppression of the autonomy-seeking Arab minority in the oil-rich Khuzestan province and they feared the spread of Islamic revolution to the western shores of the gulf, where Sunni-Moslems rule a sometimes restive Shiite minority. Furthermore, there are suspicions that Iran may attempt to reclaim the archipelago of Bahrain, site of the only U.S. naval support facility in the gulf.

Border clashes sporadically flare between Iran and Iraq, which Tehran has accused of supporting Kurdish and ethnic Arab rebels. But Iran's most serious confrontation is with the United States, which Khomeini branded as "Satan" for its backing of the shah.

The shah's admittance to the United States for medical treatment prompted the Nov. 4 takeover of the U.S. Embassy in Tehran by militant students demanding Pahlavi's extradition. Although Pahlavi has left the United States, militants continue to hold some 50 American hostages at the embassy.

SAUDI ARABIA

The wide belief in East and West that Islamic revolution "can't happen here" was shaken when 1,200 armed fanatics stormed the Grand Mosque in Mecca, Islam's holiest shrine, last November.

By the time the remnants of the invaders were overcome two weeks later, the official death toll had risen to 244, including 127 members of the Saudi security forces.

Of the 143 gunmen reportedly captured alive, 63 were beheaded on Jan. 9.

Arab sources say the mosque siege was part of a plot to overthrow the Saudi royal family and proclaim a government patterned after the early days of Islam. The attack surprised observers who regarded the kingdom as orthodox enough to avoid attacks from religious conservatives.

The Mecca incident led to a shake-up in the Saudi armed forces and replacement of a half-brother to King Khaled as governor of Mecca.

America's vital interests are at stake in the kingdom. The world's leading exporter of oil — nine million barrels a day — sits on a century's worth of oil reserves, up to 300 billion barrels.

Relations between Riyadh and Washington have cooled because of U.S. sponsorship of the Israeli-Egyptian peace treaty. Saudi disenchantment also stems from concern with the reliability of the Americans as allies following U.S. withdrawal from Vietnam, refusal to support Somalia-backed Moslem insur-

gents against Ethiopia, severance of U.S. diplomatic ties with Taiwan and failure of the United States to intervene to prevent the fall of the shah.

IRAQ

The Arab socialist oil state now packs the biggest military punch on the Persian Gulf. Its 212,000-man armed forces are largely Soviet supplied, boasting 1,900 Russian-built tanks and some 350 aircraft.

Ideally, Iraq could form the nucleus of an intergulf security force, but its revolutionary credentials and past links to the Soviet Union make it suspect to neighboring Arab rulers.

Recently, Iraq has cooled toward the Russians, with whom they concluded a 15-year treaty of friendship and cooperation in 1972. After purchasing more than \$1 billion worth of Soviet arms, Iraq is diversifying its purchases and is shopping in the West.

President Saddam Hussein denounced the Soviet intervention of Afghanistan as an act that "should not be justified and for which no pretext should be found." At the same time, however, he accused the United States of exploiting the crisis to justify its own possible intervention in the area. Iraq is a leader of the Arab hardline opposition to the Camp David peace treaty between Israel and Egypt.

THE YEMENS

The two Yemens — North Yemen and South Yemen — have been a frequent flashpoint, but they did not become the focus of superpower rivalry until their two-week border war last February.

After troops from Marxist South Yemen crossed the border at three points, the United States rushed in \$383 million in military aid along with \$200 million in backlogged orders to the north.

That seemed to put North Yemen firmly in the Western camp, but last fall the Soviets sought to neutralize the north with a large-scale weapons deal of its own. Senior officials in North Yemen say they hope to balance competing interests to avoid future wars so that its backward economy can be developed. Tribalism and political factionalism have kept North Yemen's central government so weak that it barely controls the major city, Sana'a.

Significantly, South Yemen became the first Arab state to support the Soviet intervention in Afghanistan.

INDIA and PAKISTAN

India and Pakistan, both recently wracked by domestic political turmoil, appear as much concerned about their own 33-year-old rivalry as they are about the implications of Russians on their doorstep.

An Indian political expert in New Delhi has said the Soviet move has added a completely new dimension to the region, where 300 million Moslems live in India, Pakistan, Bangladesh and Afghanistan.

Nevertheless, both the caretaker government of Charan Singh and Prime Minister Indira Gandhi have been slow to judgment of their political ally, the Soviet Union.

Mrs. Gandhi, who denies pro-Soviet leanings, says a U.S. "global strategy" that includes firmer alliances with China and Pakistan "does pose a danger" to India.

Puzzled by India's reaction, U.S. Deputy Secretary of State Warren Christopher has said the Indian government "ought to see the action of the Soviet Union as a threat to India as well as other countries in the region."

Pakistan is reacting cautiously to President Carter's decision to speed military aid. Pakistani President Zia ul-Haq has made it clear he does not want American troops in his realm and has said that geography — meaning the proximity of the Soviets — dictates accommodation with his new "superpower neighbor."

Pakistan has had bitter experiences with U.S. aid, which was stopped in the war with India over Kashmir in 1965 and curtailed in 1971 during the Indo-Pakistan war over Bangladesh. More recently aid was stopped because of Pakistan's refusal to allow international inspection of its nuclear facilities.

Turmoil not new

WASHINGTON (AP) — The current turmoil in the Persian Gulf and Arabian Sea areas was not an overnight development. In fact, National Security Adviser Zbigniew Brzezinski coined the phrase "arc of instability" to describe the region over a year ago.

These were Brzezinski's words, as reported January 31, 1978, in an interview with the New York Times:

"If you look at the postwar era, the '50s were dominated by the struggle for the survival of Western Europe, and our greatest attainment was the creation of stability in Western Europe.

TUESDAY, JANUARY 15, 1980

'Super' teams arrive

LOS ANGELES (AP) — The Los Angeles Rams, "strangers" in a strange land, begin in earnest today what would at first glance seem to be a monumental task — to prevent the Pittsburgh Steelers from winning a fourth Super Bowl.

for the Super Bowl, because this is the American Conference's year to play the role of host team.

cooperate with the news media and if they don't, we will see that they do." Don Weiss, the NFL's executive director (Commissioner Pete Rozelle's right-hand man) said when the boycott rumble first surfaced.

THEY WERE booed loud and often by their disgruntled fans who, having suffered through countless seasons which ended one or two games short of a Super Bowl berth, saw their heroes as deserters.

DISSATISFACTION has been expressed by Coach Ray Malavasi as well. "I'd call it inaccurate journalism," he said of some of the stories about his Rams.

THE STEELERS, of now, are the best — or so the record books say. No other team has ever won three Super Bowls.

Bradshaw defends interview

NEWPORT BEACH, Calif. (AP) — Terry Bradshaw — Christian, country boy and quarterback of the Pittsburgh Steelers — says he has no regrets about a forthcoming interview in Playboy magazine.

PLAYBOY'S FIRST question: Why did Bradshaw agree to the interview? "Well, if Jesus was on earth today, he'd want to be interviewed by Playboy," Bradshaw responded.

much you signed for? BRADSHAW: Sure, go ahead. PLAYBOY: How much? BRADSHAW: I'm not going to tell you.

Meyer, DePaul reach top

CHICAGO (AP) — It has taken 38 years and 603 victories. But Ray Meyer and DePaul have finally made it to the top.

peared to be playing only as well needed as evidenced by narrow triumphs over Northern Illinois and Eastern Michigan.

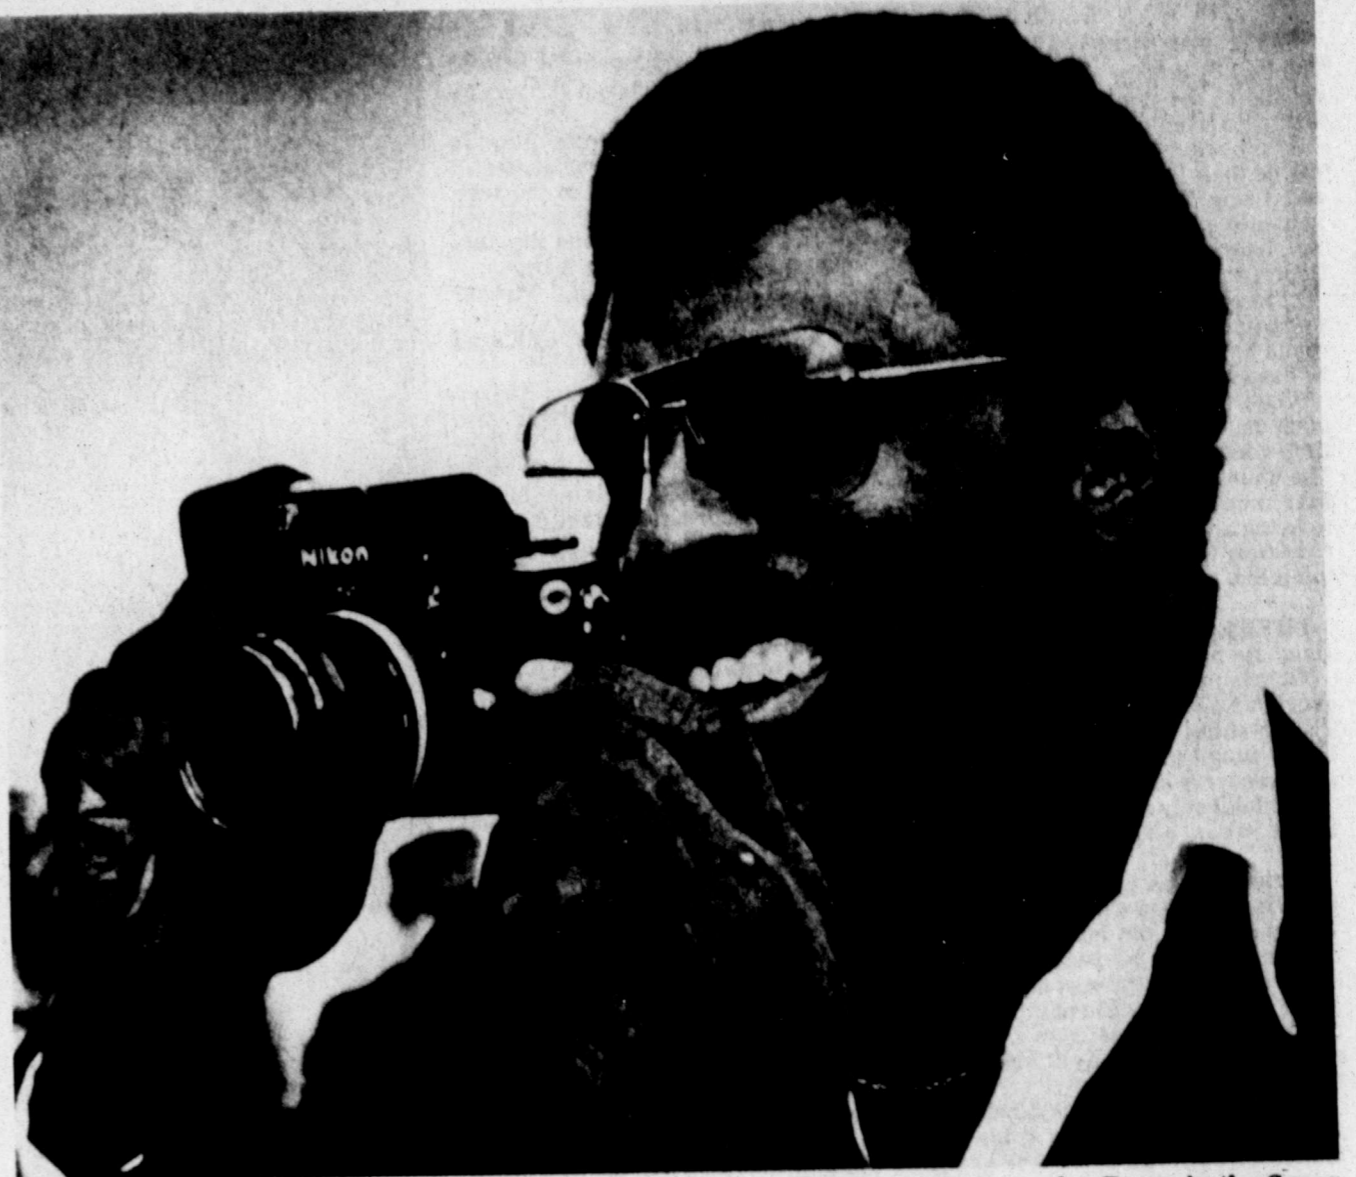

"We don't want it to be a passing vote and then be out of there next week," said Meyer. "We want to remain No. 1. It should give us a sense of responsibility. I don't think we'll have any more ups and downs."

Lee Rebels host Big Spring; Bulldogs face San Angelo

District 5-4A boys basketball action resumes tonight with the surprising Lee Rebels taking on the Big Spring Steers at the Chaparral Center on the Midland College campus and the powerful Midland High Bulldogs traveling to San Angelo for a date with the Central Bobcats.

District 5-4A Standings First Half

Table with 4 columns: District, Team, Score, Points. Shows district 5-4A standings.

COACH PAUL Stueckler's Rebels have a 12-9 season record and have come on strongly in recent weeks after a slow start while MHS is 21-4 on the year and going strong, thanks to a balanced attack.

Bulldogs climb in state rankings

PERMIAN'S BRAD Kerley continues to lead 5-4A in scoring with 75 points in three games for an average of 26.0 while Cooper's Woody Martin and Charles Bishop of Central are closing in fast with 71 points each and a scoring average of 25.5.

Table with 3 columns: Rank, Team, Points. Shows state rankings for Class AAA, Class A, and Class B.

AFTER THE 1977 season, she took four months off, saying she was exhausted and near breakdown. When she returned, the women's tour was more competitive and she didn't dominate as she once did.

Stadler captures first pro tour win

PALM SPRINGS, Calif. (AP) — The 1980 PGA Tour opened just as the decade of the '70s ended — with the new guys winning.

A record-tying total of 12 men scored their first pro victories in 1979, and Craig Stadler made it 13 in a 12-month period Monday with his 2-shot triumph in the rain-delayed Bob Hope Desert Classic.

"I'm glad it's finally here," Stadler said after a 5-under-par 67 in the final round had nailed it down. "It's got to be easier from here on."

While his may have been just another face in the growing list of first time winners, it was a different face. The chunky guy is believed to be the first man to win a Tour title while wearing a full beard, this one a bushy red affair that makes him look something like a short Merlin Olsen.

THERE WAS nothing defensive about his play, however.

"It was just one of those days when everything fell into place," he said. "Everything went right, perfect. Every time I got in trouble, I made a good recovery shot."

"I think I only missed two fairways, and I made birdie on both those holes."

That was on the front-nine par-5's at La Quinta Country Club, Nos. 5 and 6. That pair of 4's put him 3 under par for the day and he wasn't out of a share of the lead the rest of the way. Some critical putting kept him on top. He holed three times from the 18-20 foot range and used only 27 strokes on the greens.

"I made the putts when I had to," said Stadler, 26, who joined the pro tour four years ago with some gaudy credentials that included the national amateur championship.

HE WON the Magnolia Classic two years ago, but it's listed as a second tour event and doesn't count on the official record. He had his best season last year with \$73,000 in winnings.

The first title, worth \$50,000 from the total purse of \$304,500, came on a 343 total for 90 holes, 17 shots under

par. The long tournament, scheduled for five days, was delayed 24 hours by heavy rains last week.

Tom Purtzer, Stadler's playing companion for the final round, was a single stroke back going to the 18th, had a chance to tie with a closing birdie, but hit a poor second shot that found a bunker and led to a bogey.

"I just quit on the shot," Purtzer said. "I chickened out."

"Craig played very well, with a lot of confidence."

Purtzer closed with a 68 and shared the No. 2 spot with Mike Sullivan, also with a 68 and a 345 total.

LARRY NELSON, winner of two titles and more than \$281,000 last year, had to settle for fourth. Nelson, who had shared the 72-hole lead with Stadler, slipped to a closing 70 in the muggy, cloudy weather and was at 346. Mark Hayes was next at 68-347. The group at 348 included Dave Hill, Lanny Wadkins, Tom Kite, Bob Murphy, D.A. Weirbring and George Cadle. Cadle had a closing 70. The veteran Hill, enjoying his best tournament in three years, and Kite had 68's. Weirbring shot 67. Wadkins and Murphy, who was in strong title contention until a triple bogey-7 on the 17th hole, had 69's.

McCormack, Colts run into trouble

BALTIMORE (AP) — There will be no press conference today introducing Mike McCormack as the new head coach for the Baltimore Colts.

The press conference had been planned following Monday's meeting in Chicago between McCormack, Colts' owner Robert Irsay and General Manager Dick Szymanski. That meeting was held to iron out contract terms, but they apparently ran into problems.

McCormack, the offensive line coach of the Cincinnati Bengals, was considered the front-runner to replace the departed Ted Marchibroda.

Craig Stadler watches his chip shot on the 14th hole fall into the cup for a birdie Monday on his way to winning the Bob Hope Desert Classic in Palm Springs. It was Stadler's first tour victory and earned him \$50,000. (AP Laserphoto)

Rebel girls near first half crown

BIG SPRING — The Midland Lee girls are now within one victory of nailing down the District 5-4A first half basketball championship after routing the Big Spring Steers here Monday night, 69-36.

The Rebels own a one-game lead over Abilene High, a one-point victor over Odessa High Monday, and Odessa Permian, an easy winner over Abilene Cooper. Both Permian and Abilene are 4-2 in the first half play while Lee is 5-1 with only one game remaining in the first half play.

The Rebels, the defending 5-4A champs, still have their work cut out for them, however. They have to face Permian Thursday at 8 p.m. in the Lee gym. A Permian victory could throw the first half race into a three-way deadlock. The Rebels need to win that one since it would assure them of at least a district playoff berth.

Lee has now won five games in a row since losing their district opener to Abilene High.

Against the Steers, Judy Taylor paced the Reb attack with 18 points while Gale Wilson added 17. Lesbia Watkins and Tanna Parrish both had

nine points. Pam Banks led Big Spring with 12 points.

Lee had a narrow 13-9 lead at the end of the first quarter, but led 33-17 at the half and were well on their way to an 18-6 season record.

Midland Lee (69)	Big Spring (36)
Parrish, 3-3; Taylor, 8-2; Rane, 3-0-4; Strickling, 2-0-4; Alvarado, 0-2-2; Wilson, 6-1-7; Watkins, 3-2-9; Henry, 1-0-2. Totals: 29-11-69.	Walker, 1-4-6; Banks, 4-4-12; Dickson, 1-0-2; Wheat, 4-2-10; Dillaba, 1-0-2; Jackson, 2-0-4. Totals: 13-10-36.

First half hopes die as MHS girls lose

By RICHARD VINCENT Sports Writer

Jane Young might've tried to start her Midland High girls' basketball team with jumper cables Monday night at the Chaparral Center, but if things went for the Bulldogs like they did against San Angelo in the District 5-4A contest, Midland's Die-Hard probably would've been dead.

Unable to muster any semblance of an inside game, the sputtering Bulldogs were forced to fire away from the parking lot and ended up losing a 58-43 fiasco to the Bobcats.

Without the services of intimidating center LaShell Schrock, sidelined with a knee injury, the Bulldogs lacked the necessary height to deal with the rangy Bobcats on even terms.

Meanwhile, San Angelo's twin towers of power, Cindy Bell and Debbie Ford, collaborated for 29 points and effectively kept the Bulldogs from cruising the boulevard.

Yet it was the aggressive play of Phyllis Scott, especially in the fourth quarter when she scored eight of her game-high 17 points, that propelled San Angelo to the victory and a .500 mark (3-3) in 5-4A. Overall, the Bobcats stand 10-12.

The Bulldogs, 3-3 and 15-10 with the setback, couldn't hit the side of a barn much less the basket most of the night. In addition, the loss made it impossible for the Bulldogs to earn a share of the first half 5-4A title. They will now have to gear up for a second half run.

Sandra Rock, on the strength of four long-range bombs in the third quarter, paced Midland with 15 points while Jana Trolinder and Martha

Meroney each scored 10, again mostly with howitzers.

To get some idea of just how cold the Bulldogs were, they did not score in the final 5:40 of the first quarter. When the session had ended, Midland trailed by 10, thanks partially to Scott's six-point spurt down the stretch.

In the second quarter, the Purple Pack drew first blood at 5:20, but then true to form, fell silent for nearly three minutes. During that drought, San Angelo reeled off seven points and sped to 23-8 spread.

Suddenly for Midland, however, the scene changed from one of impending doom to one of hope. The Bobcats went scoreless over the last three minutes while the Bulldogs tallied nine points to trail 23-17 at halftime. Unfortunately for the Pack, the turnaround wasn't long enough.

Ironically, Midland dominated the hectic third quarter, using the 15-20-foot shots of Rock and Meroney to overcome the Bobcats, 35-33. The saw-stanza featured six ties.

But in the fourth quarter, it was strictly San Angelo as Bell, Ford, Scott and Ruthie McDevitt, who scored 10 for the game, manufactured all of the Bobcats' 25 points.

Things didn't go much better for the Midland High junior varsity as they dropped a 33-24 decision to San Angelo. Denette Parker scored six points for Midland, 10-7, while Julie Guyton and Connie Cation had four each.

Midland High Girls (43)	Trolinder	5-0-3-10
Christian 1-1-3; Rock 7-1-15; Meroney 5-0-1-10; Littlefield 0-0-4; Armstrong 0-1-0-1; Miller 2-0-5-4; Smith 0-0-2-0. Totals 28-31-43.		

San Angelo Girls (48)	Bell	5-3-13; Ford
7-2-3-16; Scott 5-0-7-17; Whittley 1-0-2; McDevitt 5-0-2-10; P. Trolinder 6-0-1-6. Totals 32-12-48.		

Georgia Tech upset goes up in smoke

By The Associated Press

The theory made perfect sense and the play seemed the perfect choice for unranked Georgia Tech. Trailing ninth-ranked North Carolina 54-53 with six seconds to go, the Yellow Jackets designed a play to move the ball to the left side of the court, then send it inside for a short-range shot.

"That's exactly what happened," said forward Lenny Horton.

EVERYTHING WORKED perfectly, except Horton's jump shot rimmed the basket and bounced away ... along with Georgia Tech's hope of an upset. The Tar Heels' Al Wood collected the rebound and the final instant expired as North Carolina escaped an upset Monday night.

"I just should have made that," moaned Horton, whose layup had pulled Georgia Tech within a point.

"There's no excuse for that."

The Yellow Jackets, who sought their first Atlantic Coast Conference triumph after six losses, trailed by 11 points in the second half. They inched closer on a

game-high 22 points by Brook Stepp, 13 by Horton and 10 by Carry O'Brien.

And they got their chance for victory after Horton's layup, when North Carolina's Rich Yonakor was unable to inbound the ball before five seconds elapsed. Then came three timeouts, which led to the play that narrowly went awry.

GEORGIA TECH is 4-10 overall. North Carolina, which got 11 points each from Wood and Mike O'Koren, is 9-3 overall and 3-2 in the ACC.

Two other teams ranked in The Associated Press Top Twenty played Monday night. Tenth-ranked St. John's, N.Y., blasted Joseph's, Pa., 72-55 and 12th-ranked Virginia bested Virginia Tech 65-58.

St. John's got 17 points from flu-stricken Reggie Carter and 16 from substitute David Russell to paste St. Joseph's. The Redmen ran away with it when a 14-point surge late in the first half boosted their lead to 24-9.

St. Joseph's ran off nine consecutive points to pull within 33-24 early in the second half, but Carter collected 15 second-half points to help put the game away.

St. John's, which improved its record to 12-1 with its 10th consecutive victory, saw its lead burgeon to 60-38 with four minutes remaining. St. Joseph's, 7-6, got 15 points from Bryan Warrick and 13 from Luke Griffin.

VIRGINIA'S CAVALIERS pulled away as 7-foot-4 freshman Ralph Sampson amassed 21 rebounds — just three less than Virginia Tech's total — and blocked eight shots while junior Jeff Lamp collected 24 points.

The Cavaliers, 13-2, registered their fifth consecutive triumph and seventh in their last 10 meetings with Virginia Tech, 9-3.

Tech led 44-42 with 11:25 remaining but went the next 6:32 without a field goal. The Gobblers managed a 52-52 tie, but Virginia got five consecutive points from Les Henson and pulled away from there.

Dale Solomon led Tech with 16 points, two more than Sampson had for Virginia. Meanwhile, Arkansas-Pine Bluff beat Toulouge 24-21 and Abilene Christian beat Sam Houston State 41-39 in two low-scoring contests.

Baseball faces delay

By WILL GRIMSLEY AP Special Correspondent

NEW YORK (AP) — The April 9 opening of the baseball season may be delayed if the sport's players and owners can't agree to a new collective bargaining agreement, according to a published report.

The New York Times, in its Tuesday editions, quotes players association director Marvin Miller as saying, "There is ample time to reach an agreement, and I hope we do. But they (the owners) stall and stall and stall."

"The present time is being wasted in an attempt to get the players in a position where the owners could say, 'We need more time,' and get the players to begin the season that way," Miller continued. "I don't think the players will buy that."

Miller told Times baseball writer Murray Chass at least six weeks of negotiating time remains before the players would consider a strike.

The bargaining agreement expired Dec. 31, and the sides have held seven negotiating sessions since. But Miller said Monday, "We still have no response to our proposals. We asked them today when it might be, and they said they didn't know."

Further talks are scheduled Wednesday and Thursday, the story said.

Miller said he was making the remarks because he had read articles quoting players, agents and baseball management personnel as saying they foresaw no problem in getting the season started.

Those people, Miller said, "Have to be straightened out. I get concerned when I think the other side is acting in a way based not on fact but on a dream. That's dangerous."

The players were locked out of training camps until March, 1976 and went through half that season without a new labor contract, the story said. But the players were dealing from a position of strength at that time because an arbitrator's decision had made it possible for every player to become a free agent at the end of the campaign.

In 1972, the players struck for 13 days in a pension dispute that forced cancellation of an average of seven games per team.

'Pops' invades Super Bowl

By WILL GRIMSLEY AP Special Correspondent

When the champion Pittsburgh Steelers square off against the Los Angeles Rams Sunday in football's Super Bowl XIV, you may blink twice when you see a hulking man in a wild plaid sports jacket running up and down the sidelines snapping pictures.

No, it's not a camera bug who slipped through the steel ring of security. Nor is it just another of the scores of photographers from the newspapers, magazines and wire services.

IT'S THE Steelers' No. 1 fan and the greatest booster of Pittsburgh's newest label, "The City of Champions" — old Willie Stargell, the most decorated athlete of the season.

"Sure, I'm a big Steeler fan," said the 38-year-old first baseman of baseball's World Series champion Pittsburgh Pirates. "I saw every game I could on television and the playoffs from the stands."

"Since I was coming to the West Coast for the game anyhow, I got a job shooting sideline pictures for Sports Illustrated."

EVERY TIME you turn around these days, there is old "Pops," as his teammates call him, picking up another trophy or endorsing some product for a good wad of cash. He is sports' hottest commercial commodity at the moment.

NEW YORK (AP) — George Gervin knows what it's like to lead the NBA.

The top scorer in the National Basketball Association for the past two seasons and No. 1 again this year, Gervin led all vote-getters in balloting for the league's All-Star Game, which will be played in Landover, Md., Feb. 3.

The 6-foot-7 guard collected 286,463 votes and will start for the East alongside Atlanta guard Eddie Johnson, with the Hawks' John Drew and Julius Erving of Philadelphia at the forwards and Moses Malone of Hous-

"I'm friendly with most of those Steeler guys — Bradshaw, Franco, Mean Joe Greene, you name 'em," he said. "Man, they are family, too."

Stargell, the Most Valuable Player of the World Series, was named "Male Athlete of the Year" last week by The Associated Press and shared Sports Illustrated's "Sportsman of the Year" honor with his gridiron counterpart, Terry Bradshaw.

"The Steelers, they're like us," said the hulking slugger. "They've got pride and determination. They're willing to go that extra mile."

STARGELL WAS in New York over the weekend to do a recording bit with the disco group Sister Sledge, and to announce an out-of-season job as national sales manager for a company promoting a special electric razor for black men's tough beards.

The company is Remington. Sister Sledge recorded and popularized the song, "We Are Family," which became the Pirates theme song during Pittsburgh's sweep to the major league baseball championship.

Smoke starts coming out of Willie's ears when he reads or hears cynics making fun of the theme and downgrading its effect on the Pirates' successful season.

"Don't let anybody fool you, we are a family," he insists. "That doesn't just include the Pirates, it includes the Steelers and it includes the whole area around Pittsburgh."

STARGELL SAID that Pittsburgh,

the old gray town carved out of the Allegheny hills and known for its belching steel mills and dusty coal mines, was truly a "City of Champions."

"It's infectious," he said. "It's like an epidemic has taken over the place. There is pride and drive and a sense of importance that was never there before."

"People used to be kind of aloof. They had their own interests. They would stay home and watch television. Now they've come alive with the championships won by the Pirates and Steelers. The University of Pittsburgh was No. 1 a while back, won a bowl game this year. We had a Heisman Trophy winner in Tony Dorsett. The Penguins (hockey) look like they're going to make the playoffs."

"NOW PEOPLE rush out to the games. They laugh and talk to each other. They drink out of the same cups. The kids even are getting the fever. It's a great place to bring up the kids."

Heritage Academy defeated Assembly in Christ Fellowship, 15-8, 16-14, Monday afternoon in a coed volleyball match between the two first-year private schools.

Heritage players cited for their outstanding efforts were Hank Williams and Shelley Williams.

Nicks almost sets record

TULSA, Okla. (AP) — Indiana State's Carl Nicks, who came close last Saturday to a record held by Larry Bird, was named Missouri Valley Conference basketball player of the week Monday.

Nicks hit 32 of 62 shots from the field and 13 of 23 from the free throw line in two games during the week.

He scored 47 points as Indiana State defeated West Texas State Saturday, equalling the single game high of the Valley this year, and only two points less than the school record set by Bird.

Shuttle to begin flights this year, astronaut says

By BILL MODISSETT Staff Writer

Before the end of this year, one of the National Aeronautics and Space Administration's shuttle craft will make its maiden voyage into space and earth orbit, according to one of the program's mission specialists.

Lt. Commander Dale Gardner, who is in training for NASA's shuttle program, was in Midland Monday night and said that despite problems which have delayed the shuttle program, the first flight is expected before the end of 1980.

Gardner said there is a 10 percent chance the first flight will come by June 30 and a 50 percent chance that flight will be made by the end of August.

The first flight of the shuttle was expected earlier, Gardner said, but "the key is we're not going to fly until it's safe."

Unlike earlier manned space ships, the shuttle cannot be flown "unmanned," Gardner said, and the maiden voyage of the shuttle will mark the first time for a "manned" initial space flight.

One of the major problems which has delayed the initial flight of the shuttle is development of a coating for the underside of the shuttle craft, Gardner noted.

The underside of the craft must be capable of withstanding 3000 degrees of temperature upon re-entry into the earth's atmosphere for a period of approximately 20 minutes, then still be capable of landing and being reused.

The coating for the underside of the space vehicle has been developed, but installation of the substance is extremely time-consuming, Gardner noted.

He admitted that there have been some cost overruns in the shuttle program, but discounted the significance of the overruns by noting that NASA could not foresee the trend of inflation when the budget was originally prepared and other unexpected expenses.

Once the shuttle program is fully operational, Gardner said, the cost will be much less than prior NASA programs because most of the components of the spacecraft can be used numerous times.

Gardner also noted that NASA's budget is much smaller than most other federal agencies. He said that while the Department of Health, Education and Welfare has an annual budget of some \$200 billion, NASA's total budget is only about \$4 billion per year and only 60 percent of that amount is being used for the shuttle program.

The first four flights of the shuttle will be test flights with just two people aboard. Starting with the fifth flight, the voyages become operational and eventually will carry scientists, researchers, technicians and others into space.

Gardner noted that the shuttle's flights have been "booked" far into the future and he said that the frequency of flights will depend a lot on "user needs."

He estimated that eventually the shuttle will make one flight or more per week.

The shuttle, which will be launched like a rocket, operate in orbit around the earth and return like an airplane, will "almost open up an area that is non-NASA like" — an operational phase.

Using the capabilities afforded by the craft, there will be no need for communications antennas to be launched into space. Rather, the collapsible antennas will be fired into orbit inside the storage bay of the shuttle craft and then taken out and "unfolded" by astronauts in space.

If an antenna fails to function properly and needs to be returned to earth, it can be retrieved in the same manner, he said.

Using a sophisticated "beam builder," NASA will be involved in the construction of objects in space, such as space stations.

The Soviets, he said, are looking at the possibility of putting an entire colony of people in space. With the shuttle's capabilities, the U.S. may also want to look at that possibility.

And the technology learned from the shuttle program can help solve some problems encountered here on earth, such as locating oil, gas and coal deposits via geological formations.

He admitted that there have been some cost overruns in the shuttle program, but discounted the significance of the overruns by noting that NASA could not foresee the trend of inflation when the budget was originally prepared and other unexpected expenses.

Garbage also a useful fuel?

NEW YORK — In the continuing search for all possible alternatives to evermore expensive oil as a source of energy, government and industry are turning to a nationwide nuisance of which we have too much — garbage.

There have been stories headlined: "Garbage is gold." Well, garbage is not exactly that, but it is an energy source and necessity is forcing exploration of its potential.

"Let's face it," Popular Mechanics says in its January issue, "if oil were still plentiful and landfills were begging for business, no one would give garbage power a first, let alone a second, thought."

"But the pressure will come not so much from the need for energy as from the fact that we're about to choke on our own waste. Our dumps take up 780 square miles, \$5 billion worth of land wasted. Mass can be converted to energy. We have to get rid of the mass anyway, so..."

In Palo Verde, Calif., the Los Angeles Sanitation District has drilled methane wells in its garbage landfills, drawing off usable gas. In Hempstead, N.Y., a new garbage recycling plant is processing 2 million pounds of garbage a day, turning it into enough electricity for 120,000 persons. As side money, \$50,000 a year is being extracted in nickels, dimes and quarters from the waste. There are now close to a dozen methane recovery operations around the country — in Chicago, Pompano Beach, Fla., Shreveport, La., and elsewhere.

Garbage power takes many forms. Sewage sludge, the biologically active muck from sewage plants, can be turned into a dry fertilizer. Scientists at New Mexico State University disinfected sewage sludge with radioactive cesium-137 and fed that protein-rich diet to cattle — who thrived on it.

Concludes Popular Mechanics: "There is the proverbial garbage-is-money argument (needed to get the financial community to invest in a big way) and with time and technology, it may work out that way. In the meantime, garbage power still serves a valuable function, no matter what the profit or lack of it. It gets rid of the stuff. And, in the final analysis, garbage is just garbage."

U.S. will continue to trap coyotes

AUSTIN, Texas (AP) — Secretary of Interior Cecil Andrus said today the federal government will continue trapping and killing coyotes in Texas but only where there have been "substantial losses of livestock."

"My job is to remove predators from any area where there are problems to the livestock," he told a special conference on the coyote problem in Texas. "But it is not my job to eradicate an entire species."

He said his department killed 66,000 coyotes nationwide last year and 61,000 the year before that. "That shows we're working," the secretary said.

Andrus repeated his November policy statement that predator control efforts would no longer use or sanction the use of a lethal toxicant called Compound 1080 because it affects other forms of wildlife.

He also said his new policy eliminates the controversial practice of killing coyote pups in the den. "This is another facing up to reality, the reality that the vast majority of Americans find such a practice repulsive and inhumane," he said.

"Secretary said there would be no other immediate changes in coyote control techniques and his men would continue to use traps, cyanide, capsule guns, aerial hunting and other proven methods in reducing predators.

"I will see to it that our procedures allow for stepped up predator control action when an obvious problem is developing for a rancher," Andrus said.

The meeting, sponsored by the Texas Department of Agriculture, began with a series of talks, then turned into an afternoon work session.

"The losses of sheep and goats due to coyote predation are increasing in Texas," Texas Agriculture Commissioner Reagan Brown said in calling the session. "If we can't develop effective measures (of control) the sheep and goat raisers in Texas will continue to suffer economic losses."
