Expressing the sentiments of many Americans, the message on this billboard on the north side of U.S. Highway 80 on Midland's west side is part of a company-wide campaign by an outdoor advertising

company. Because the sign sits on the highway right-of-way, the billboard cannot be rented for commercial messages, a company spokesman said. (Staff Photo by Mike Kardos)

Friday deadline imposed

That's when reporters must leave Iran

TEHRAN, Iran (AP) — The Iranian government, which has ordered all American reporters to leave Iran, today gave them until Friday midnight to obey the directive.

The announcement, made by the director of the foreign press, Sadegh Abolghassem, said that with American reporters out of the country there will be less emphasis on the American hostages held at the U.S. Embassy since Nov. 4 by Islamic militants demanding the return of the ousted shah.

"I think it will be good for Iran, the United States and the hostages," said the foreign press chief.

Sadegh's orders, received verbally by a reporter for The Associated Press at the Ministry of National Guidance, are the result of a decision taken jointly by the ruling Revolutionary Council and Cabinet ministers on Monday.

On Monday night, the government ordered all American reporters out of the country, accusing them of biased reporting. But it said French, British and West German journalists could stay for the time being.

"The foreign (American) journalists have been misusing our kind cooperation and freedom we have given them," Iran's ruling Revolutionary Council said in a statement issued after a three-hour meeting Monday night. "They have used this against our revolution and we are going to expel all American correspondents effective immediately."

There were reports that the estimated 100 Americans would be given a few days to leave, but the director of

the Ministry of National Guidance, which accredits reporters, said he could say nothing until he studied the expulsion order further.

The Revolutionary Council's spokesman, Oil Minister Ali Akbar Moinefar, said French, British and West German reporters were being allowed to remain for the time being but he added: "We give them a strong warning that if they send anything but the truth about the news they will be expelled as well."

The expulsion order follows a long series of public accusations that American reporters were sending out biased and incorrect reports and the eviction previously of 23 Western reporters whose reporting or reports appearing in their publications angered the revolutionary regime.

Some observers viewed the expulsion as an attempt to reduce publicity about the ethnic minorities challenging Ayatollah Ruhollah Khomeini's authority and demanding autonomous home rule. But others thought the regime might be trying to improve chances for the release of the American hostages by curtailing the extensive TV coverage and other publicity given the students holding them captive.

Today was the hostages' 73rd day of captivity.

In Washington, White House press secretary Jody Powell said the expulsion "would seem to be a comment upon the desire of the authorities in Iran to prevent not only the rest of the world but indeed their own people from knowing the disastrous impact upon Iran of the taking and continued holding of the American citizens."

U.N. demands Soviet withdrawal of troops from Afghanistan

By The Associated Press

The U.N. General Assembly called for the withdrawal of all foreign troops from Afghanistan by a vote of 104-18 but the Soviet occupation of the Central Asian country was expected to continue indefinitely, until the Moslem rebellion there is under control and the communist government is safe.

The resolution adopted Monday after four days of debate did not name the Soviet Union specifically. But it said the assembly "strongly deplores" military intervention in Afghanistan, urged the "immediate, unconditional and total" withdrawal of all foreign troops and called on the Security Council "to consider ways and means to implement" that withdrawal.

U.N. observers said it was unlikely the issue would be raised in the council again because the Soviets vetoed a similar resolution there Jan. 7. There is no veto in the assembly, but it can take no punitive action to enforce its resolutions.

However, most Moslem and Third World nations voted for the resolution, and this constituted a stunning rebuke to the Soviet Union. Secretary-General Kurt Waldheim declared: "The real value of such a decision is the moral value, because it is an appeal to the international community."

"This is the strongest action in the United Nations in 25 years against the Soviet Union," said Deputy U.S. Ambassador William Vanden Heuvel.

"It is an overwhelming vote, unexpectedly strong, from all quarters, and I think it reflected the almost practical unanimity of the Third World countries, first of all in recognizing the Soviet aggression for what it is and secondly in condemning it." Speaker after speaker condemned the Soviet intervention as "naked aggression." Only the Soviet Union's close friends voted against the resolution. Eighteen members of the 152-nation assembly abstained, and 12 either were not present or did not participate.

Although Cuba, the nominal head of the non-aligned movement, supported the Russians, only eight of the other 91 members of the non-aligned movement went along with this, while 57 voted for the resolution, 17 abstained and nine did not participate.

An estimated 100,000 Soviet troops poured into Afghanistan to insure the success of a coup Dec. 27 that eliminated President Hafizullah Amin and put Babrak Karmal, a man more to the Kremlin's liking, in power and to reinforce the Afghan army in putting down the Moslem revolt that broke out after the communists first took over the country in April 1978.

Western diplomats in Kabul, the Afghan capital, reported that the So-

viets have been largely successful in putting the lid on the rebellion, and one said that fighting had stopped "almost everywhere."

Other sources said the Soviets were continuing to encounter rebel resistance in Badakhshan province, in northeast Afghanistan, and in Paktia, southeast of Kabul near the Pakistani border. But on Monday, hundreds of Soviet army trucks rolled northward through Badakhshan after delivering supplies, and the convoy was guarded by only one armored troop carrier for every two or three dozen trucks.

The diplomatic sources said the Soviets also were in control of the highway from Herat, the principal city of western Afghanistan 60 miles from the Iranian border, to the southwest province of Kandahar. They said about 12,000 Russian troops were stationed in Herat.

No new talks scheduled in oil workers' strike

DENVER (AP) — The nation's first industrywide strike of refinery workers in 11 years ends its first week today with no major talks scheduled.

Most of the 100 oil companies affected by the walkout continued production at near-normal capacity with supervisors at the controls of the highly automated refineries.

"There's a possibility that this

could be a long strike," said Jerry Archuleta, spokesman for the Oil, Chemical and Atomic Workers, which is headquartered in Denver.

About 60,000 OCAW members walked off their jobs last Tuesday when union and oil-industry officials failed to reach agreement on a new wage-benefit package for the second year of a two-year contract.

In Houston, State District Judge Shearn Smith on Monday approved a temporary injunction prohibiting violence at the Atlantic Richfield plant and two allied firms after a workers was injured when rocks broke a bus window.

The order, agreed upon by lawyers for the OCAW and Arco, prohibits violence, intimidation or harassment of non-striking workers crossing picket lines. Dean Baxter, an Arco spokesman, said one gunshot was fired Monday without causing injury.

There had been rock-throwing incidents and one case of gunfire last week in Port Arthur, Houston and Texas City. About 48 men were tar-

rested Friday and Saturday at the Amoco plant in Texas City on misdemeanor charges alleging rock throwing and abusive language.

Union talks with Gulf Oil Corp., traditionally the industry's pacesetter, broke down last Thursday, Robert Goss, OCAW president, called it a recess and said he had no idea when the parties would meet again.

Last year the union won an 8 percent pay increase for the first year of a two-year contract, but decided to leave the wage and benefit package for 1980 subject to later negotiation. The workers make an average of \$9.50 an hour.

Goss says he wants a "substantial" pay raise for 1980, but insists that wages will not be discussed until the entire industry provides fully paid medical-dental insurance. Health insurance provisions now vary widely throughout the industry, Goss said.

Archuleta said that Gulf workers now have \$84 a month paid for family medical coverage. The workers pay from \$21 to \$63 a month for their share of the premium.

Greenwood area residents fail in bid for paving county road

By SUSAN TOTH
Staff Writer

A group of Midland County residents left commissioners court Monday with a lesson in county finance but without a promise of action on their request for paving.

Residents on County Road 1130 South petitioned the commissioner's court for immediate paving of their road, claiming it was impassible during rainy weather.

Several residents told the commissioners the road conditions were impassible, and Angela Goff read a

statement from the Greenwood school district bus driver whose route includes County Road 1130S.

Citing the bad road conditions and the unstable structure of most school buses, the driver's statement noted "during hazardous weather conditions, I cannot and will not risk the lives of the children riding the bus." When the road is muddy, the 14 school-aged children who live on the road must meet the bus on Farm to Market Road 307, the statement said.

The residents were critical of Precinct 2 Commissioner Charlie Welch

who paved sections of two roads near 1130S last year. Both roads have fewer residents than 1130S, they said.

In his own defense, Welch noted the decision to pave sections of County Roads 1120 South and 110 were made when there were no homes on 1130S.

The paving process starts up to two years before the asphalt is poured, he noted, with a lengthy process of preparing the road bed.

"At the time, I thought 1120S was the one that needed paving," Welch told the irate residents.

In preparing 1120S for paving, rock removed from the roadbed was used to fill a depression that made County Road 110 impassible when it rained, he said. Since both were ready for paving at about the same time, those were the roads he chose to pave last year, he explained.

While Welch rents a hay field adjacent to CR 110, that did not affect his decision on paving, he said. He does not use the road himself and does not know the owners personally, he added.

The growth of Midland County housing additions has put a strain on already tight county road and bridge money, Welch noted.

Commissioner Duward Wright added his defense for Welch's decisions.

State law allows the county to use only 15 cents of each tax dollar plus \$750,000 from automobile registration fees to build and maintain roads, Wright said.

"Each year the cost of asphalt, rock and everything else goes up. When Charlie and I came on the court 12 years ago, we could do twice as much as we can now. Each year that goes by, we can do less, and it costs more," he added.

He suggested the residents contact their state legislators to have the laws changed to allow more of the county's

money to be spent on roads.

"Mr. Welch has the largest number of roads in the county, and he gets two miles of road per year paved," Wright said.

Still convinced their road should be given priority in this year's paving, Mrs. Vaughan pressed Welch for a promise 1130S would be next on the list of paving projects.

"I have 20 miles of roads I wish I could pave," Welch said. "When the (county road-building) equipment is mine, I'll have to make that horrible choice again."

He added 1130 South "is one of the really better roads (in the precinct)."

Sheriff Dallas Smith appeared at the meeting to discuss preliminary plans for overtime pay for deputies. Currently, county policy calls for deputies to receive only compensatory time.

Smith's initial plan called for exempting everyone but sergeants and officers from overtime compensation at all and paying officers every six months for overtime that could not be handled through extra time off for the officers.

Wright, however, suggested the overtime be handled on a monthly or quarterly basis to avoid large payments to officers after a six-month period.

Smith will bring final plans to the court for review later this year, he said.

In other business, commissioners agreed to lower the speed limit on County Road 1220 from 55 mph to 35 mph after no one appeared to comment during a public hearing on the matter.

They approved an amendment to their contract with the Department of Human Resources to allow the county to be reimbursed by the state for certain children in foster homes and agreed to allow Keith Bracewell to bore under County Road 120E.

He filed, but too soon, so he'll do it over again

Despite all the fanfare two months ago when Martin Allday announced he was filing as a candidate to run for mayor, the Midland attorney will have to do it all over again.

His first filing isn't any good, according to a new law passed last year by the State Legislature.

City Secretary James McCullough explained that under a new law, no one can file for any city position until Feb. 4.

Allday announced Nov. 15, 1979, he was filing for the post being vacated by Ernest Angelo Jr.

Prior to the new law, McCullough said there had been no time period for filing. This could mean, he added, that someone could file two years ahead for an election.

The law reads that "An application to have the name of a candidate placed on the ballot for an election may not be filed earlier than 30 days before the deadline prescribed by this code for filing the application. Any application filed before that day is void."

Allday said today that he'll file again "at the proper time. I had talked to the city secretary before and he told me to come on down (to City Hall) and file and that's what I did."

City elections are scheduled for April 5 — the Saturday before Easter — which means the final date to file is March 4. Using the 30-day time limit, the first day to file will be Feb. 4.

McCullough said he was unaware of the change until Friday when he received a list of the new laws governing city elections.

Too much 'courting,' says OCAW spokesman

HOUSTON (AP) — The district director for striking oil refinery workers says company officials are spending more time in court than at bargaining tables.

H.J. McClain, Texas-Louisiana head of the Oil, Chemical and Atomic Workers Union, made the observation after state District Judge Shearn Smith approved Monday night a temporary injunction aimed at stopping picket line violence.

Attorneys for the OCAW, Arco Petroleum Products Co., Crown Central

Petroleum Corp., and an Arco subcontractor, Munday Construction Co., agreed to terms for Smith's order after an Arco refinery Monday incident that injured one man.

Lawyers for the Texaco refinery at Port Arthur were said to be seeking a similar court order in Beaumont.

"It seems that practically all of the oil companies are spending all of their time in court action and discussing how much more price increases they are going to announce to the public and when," McClain said.

WEATHER SUMMARY

Rain is forecast today through Wednesday morning from the central Pacific Coast to Nevada and from the western Gulf to Oklahoma and Arkansas.

Midland statistics

Table with 2 columns: WEATHER FORECAST and LOCAL TEMPERATURES. Includes data for various times of day and local weather conditions.

The weather elsewhere

Table with 2 columns: Tuesday and High Low Prec. Lists weather data for various cities across Texas and the region.

Texas area forecasts

West Texas: Partly cloudy through Wednesday with a slight chance of showers north and northeast tonight.

Extended forecasts

Thursday Through Saturday: West Texas: Partly cloudy with only minor day to day temperature changes.

Border states forecasts

Oklahoma: Considerable cloudiness through Wednesday. Scattered showers and a few thunderstorms.

Baskin enters contest for vacated judge's seat

Midland attorney and civic leader Pat M. Baskin announced Monday he is a candidate for district judge of the 142nd Judicial District.

Pat M. Baskin as your district judge. Baskin earned his bachelor of arts, master of arts and law degrees from The University of Texas.

Survey finds gasoline price up 6 cents

Gasoline prices in Texas have skyrocketed by around six cents per gallon in the past month, and availability has declined to the lowest level since the end of last summer.

Figures from the 15 area stations were close to the state averages. The survey here showed 53 percent of the stations here were closed by 8 p.m. on weekdays, but only 26 percent closed by 6 p.m. on Saturday.

Arbor Day action planned in parks

Midlanders of all ages are being asked to assist the city Parks and Recreation Department in observing Arbor Day on Friday, according to Wayne Kohout, director for the department.

Children can get in on the act by bringing their trees to the main picnic area at Hogan Park between 10 a.m. and noon Saturday.

Drop in overnight temperatures due

The weather will be down-shifting from cool to cold tonight, as nightly temperatures will be dropping about 20 degrees below the recent comfortably cool nights.

There's a time to pay attention to your prize Hereford steer, and there's a time to ignore it, as Howard Morrison, 15, and his friend Janna Koonce, 14, discovered Monday at the Midland County Livestock Show.

Koonce, 14, discovered Monday at the Midland County Livestock Show. (Staff Photo by Bruce Partain)

Midland County Livestock Show continues tonight with auction

Paul Perry, a Future Farmers of America student at Midland's Robert E. Lee High School, showed the grand champion steer Monday in the 31st annual Midland County Livestock Show at the Midland County Exhibit Building.

Western Pleasure: 1. Miss Tuff Bars, ridden by Janice Zimmerman; 2. It's High Time, ridden by Richard Triplitt; 3. Mr. Van King, ridden by Jeff Barnett; 4. Tech's Kitty, ridden by Mackey Moonen; 5. Louie Goldman, ridden by Raychel Lynch; 6. Keyler, ridden by Audrey Robbins.

Several Midland flights canceled by airline strike

The shortest distance between two cities isn't going to be a straight line with Southwest Airlines' revised schedules.

Southwest Airlines asks FAA to check planes during strike

DALLAS (AP) — Southwest Airlines has asked the Federal Aviation Administration to check its planes more often now that supervisory personnel are doing the work of striking mechanics.

Drop in overnight temperatures due

The weather will be down-shifting from cool to cold tonight, as nightly temperatures will be dropping about 20 degrees below the recent comfortably cool nights.

Drop in overnight temperatures due

The weather will be down-shifting from cool to cold tonight, as nightly temperatures will be dropping about 20 degrees below the recent comfortably cool nights.

DEATHS

Minnie Burleson

WINTERS — Services for Mrs. Aulga (Minnie) Bryant Burleson, 60, of Casper, Wyo., sister of Charles R. Bryant of Midland, will be at 2 p.m. Friday in the Church of Christ in Oklahoma City. Burial will be in Oklahoma City Cemetery. She died Saturday in Casper. Mrs. Burleson was born Sept. 11, 1919, in Stenewall, Okla. At the age of 2, she moved with her parents to Winters. She was married Jan. 16, 1941, to Aulga Burleson in Winters. They lived in Winters several years and then moved to Moore, Okla. He died March 16, 1976. She moved to Casper where she was a member of the Church of Christ. Other survivors include two sons, a daughter, her mother, a sister and four grandchildren.

R.D. Campbell

MONAHANS — Services for Russell Dean Campbell, 57, of Monahans, formerly of Big Spring, were Monday in Southside Baptist Church here. Burial was in Monahans Cemetery directed by Wilson-Miller Funeral Home. Campbell died Friday in a Monahans hospital after a brief illness. He was born May 9, 1922, in Roby and had lived most of his life in Big Spring. He was a repairman for Mobil Oil Co., a veteran of World War II and a member of the Baptist Church. He was married Nov. 22, 1968, to Lottie Perryman in Lovington, N.M. Survivors include his wife; three children, Gail A. Cagle of Abilene, Doris Jones of Neosho, Mo., and R.D. Campbell Jr. of Salt Lake City, Utah; two brothers, T. Wendell Campbell and Irvis Campbell, both of Big Spring; two sisters, Mrs. B.A. Bunson of Big Spring and Mrs. O.L. Steveson of Odessa; seven grandchildren and two great-grandchildren.

R. Ernest Paschall

NOCONA — Services for R. Ernest Paschall, 77, of Lubbock, father of Mrs. Ralph Dennis of Big Spring, were to be at 2:30 p.m. today in Scott Brothers Funeral Home here with W.O. Cooper, Church of Christ minister, officiating. Burial was to be in Union Cemetery northeast of Nocona. Paschall died Sunday in a Nocona hospital after a lengthy illness. He was a longtime Lubbock resident and had been employed several years at a Lubbock cottonseed oil mill. Other survivors include his wife, a daughter, three sons, a sister, two brothers, 17 grandchildren and seven great-grandchildren.

Jessie Anderson

Graveside services for Jessie Campbell Anderson, 86, 2208 Princeton Ave., were at 3 p.m. Monday in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home. Mrs. Anderson died Saturday in a Midland hospital after a lengthy illness. Survivors include two sons, Jack Anderson of Midland and James D. Anderson of Westland, Mich.; three grandchildren and five great-grandchildren. The family has requested memorials be made to Meals on Wheels, in care of Elizabeth Glenn at Midland Memorial Hospital, or to one's favorite charity.

Basilio Molina

BIG SPRING — Services for Basilio Molina, 61, of Big Spring are pending at Nalley-Pickle Funeral Home here. He died Monday in a Big Spring hospital after a lengthy illness. Molina was born March 24, 1918, in Morton and was a longtime Colorado City resident. He moved to Big Spring in November 1977. A disabled Army veteran of World War II, he was a retired farm laborer and a Catholic. Survivors include five daughters, Marie Molina of Yuma, Ariz., Margie Molina of Big Spring, Betty Hernandez of Carlsbad, N.M., Lena Jaquez of Abilene and Lupe Chavez of California; four sons, Eugene Molina of Denver, Colo., Felix Molina of Colorado City, and A.G. Molina and Orlando Molina, both of Abilene; 39 grandchildren and six great-granddaughters.

Flora N. Mathis

SAN ANGELO — Services for Flora N. Mathis, 78, of San Angelo, sister of C.W. Fountain and Willene Long, both of Midland, were to be at 10 a.m. today in Johnson's Funeral Home chapel. Burial was to be in Lawnhaven Memorial Gardens. Mrs. Mathis died Sunday in a San Angelo hospital after an illness. She was born Dec. 18, 1901, in Keota, Okla. She had lived in San Angelo for 30 years. She was a member of West Side Baptist Church and was employed by Palace Dry Cleaners. Other survivors include three daughters, a son, three brothers, three sisters, four grandchildren and four great-grandchildren.

Harold Parks

BIG SPRING — Services for Harold Parks, 74, of Big Spring were to be at 10:30 a.m. today in the Nalley-Pickle Rosewood Chapel with burial in Trinity Memorial Park. Parks died Monday in a local hospital following a lengthy illness. He was born Aug. 7, 1905, in Big Spring. On Aug. 7, 1930, he was married to Overia Lawson in Cisco. For 51 years, Parks was a conductor for the Texas-Pacific Railroad. Survivors include his wife; a daughter, Mrs. Paul (Rosie) Shaffer of Big Spring; a son, Jim Parks of Big Spring; a brother, Wendall Parks of Big Spring; two sisters, Allene P. White and Mildred Sommers, both of Dallas; and four grandchildren.

Dudley D. Johns

Graveside services for Dudley D. Johns, 20, 1407 S. Fisher St., were at 2 p.m. Monday in Fairview Cemetery with the Rev. Bob Porterfield, pastor of West Kentucky Baptist Church, officiating. Services were conducted by Newnie W. Ellis Funeral Home. Johns died Saturday. He was born May 20, 1959, at Clovis, N.M., and grew up there. He worked for a Midland construction company. Survivors include a sister, Paula Gibson of Irvine, Calif., and four brothers, Marshall Johns of Gallup, N.M., and Ervin Johns, Troy Johns and Michael Johns, all of Midland.

Conductor Kostelanetz dead of pneumonia at 78

NEW YORK (AP) — Conductor Andre Kostelanetz once said he had devoted his talents and training to making classical music accessible to the public. "If I can leave an inheritance of a growing audience for the concert hall, I will have accomplished everything," the Russian-born conductor said. And before his death of pneumonia at age 78 on Sunday in Haiti, he had succeeded admirably. Interested in radio as early as 1924, Kostelanetz joined CBS in 1932, and in ensuing years won a wide audience of listeners with a musical program which mixed light classics and popular music transcribed for symphonic orchestra. It is said that Kostelanetz, on his way to the United States in 1922, stopped in a Warsaw record shop and heard some American pop tunes. He said the songs bowled him over with their "dynamism and melody."

U.S. leaders to attend Meany funeral

WASHINGTON (AP) — Leaders of government and labor are paying one final call on George Meany, who was courted by the powerful during his long career as the gruff voice for American workers. President Carter was to head the large contingent of officials attending today's funeral for the retired AFL-CIO president, whose influence in the nation's affairs spanned four decades. Carter, Vice President Walter F. Mondale, the president's Cabinet, members of Congress and several foreign ambassadors were expected to be among 1,400 mourners at the Cathedral of St. Matthew the Apostle for the celebration of a requiem Mass. The labor leader died Thursday at the age of 85. The cathedral also was the site of the 1963 funeral for President John F. Kennedy, who was Meany's favorite

among the eight White House occupants who dealt with the former Bronx plumber during his 57-year labor career. Other invited guests included Carter's two rivals for the 1980 Democratic presidential nomination, Sen. Edward M. Kennedy of Massachusetts and California Gov. Edmund G. Brown Jr. The attendance of the presidential candidates was a testament to Meany's role as a broker in Democratic Party politics. AFL-CIO officials said funeral invitations also were sent to the top two officers of the 105 unions affiliated with the 14 million-member labor federation and several independent unions. A contingent of foreign dignitaries was expected as well to pay tribute to Meany, who was outspoken on foreign affairs as an opponent of communism

and totalitarian governments on the right. A private burial was to be held in a suburban Washington cemetery. Meany, who had been in failing health since last spring, died barely two months after retiring as president of the AFL-CIO, which he headed since its founding with the merger of the American Federation of Labor and Congress of Industrial Organizations in 1955. Jimmy Durante still seriously ill SANTA MONICA, Calif. (AP) — Comedian Jimmy Durante is reported semi-conscious and in serious condition by officials of St. John's Hospital where he is being treated for pneumonia. A hospital spokeswoman, Marsha Bolyanatz, said late Monday that the 86-year-old comic's vital signs showed slight deterioration Monday.

Pharmacologist says Presley doctor gave Elvis too many drugs

MEMPHIS, Tenn. (AP) — The amounts of drugs prescribed by Dr. George Nichopoulos for Elvis Presley and 15 other patients were enough to cause drug dependency, a pharmacologist has testified. Dr. Raymond Harbison, testifying Monday in the first day of a state malpractice hearing for Nichopoulos, said combinations of some of the drugs could cause internal injuries or even death. Nichopoulos, 52, is facing charges that he indiscriminately prescribed nearly 12,000 painkillers, amphetamines, barbiturates and sedatives to Presley and other patients over three years. The drugs allegedly included Quaalude, Valium, Dexedrine and Dilaudid. The state Board of Medical Examiners hearing was unexpectedly adjourned Monday afternoon following Harbison's testimony when a defense attorney objected to an attempt to call Nichopoulos as a prosecution witness. Attorney John C. Thomason said he needed time to seek a ruling on the issue from a Chancery Court judge. The hearing was scheduled to resume today. "Dr. Nichopoulos will take the stand but we don't feel he ought to be compelled to testify for the prosecution," Thomason said. "We have spent a great deal of time on his defense and he would be effectively deprived of that defense if he were called out of turn."

"Losing Hair? Try This At No Risk"

HOUSTON, Texas— If you don't suffer from male pattern baldness, you can now stop your hair loss... and grow more hair. For years "they said it couldn't be done." But now a firm of laboratory consultants has developed a treatment for both men and women, that is not only stopping hair loss... but is really growing hair! They don't even ask you to take their word for it. They invite you to try the treatment for 32 days, at their risk, and see for yourself! Naturally, they would not offer this opportunity unless the treatment worked. However, it is impossible to help everyone. The great majority of cases of excessive hair fall and baldness are the beginning and more fully developed stages of male pattern baldness and cannot be helped. But, if you are not already slick bald, how can you be sure what is actually causing your hair loss? Even if baldness may seem to "run in the family," it is certainly not proof of the cause of YOUR hair loss. Hair loss caused by sebum can also run in your family, and many other conditions can cause hair loss. If you wait until you are slick bald and your hair roots are dead, you are beyond help. So, if you still have any hair on top of your head, and would like to stop your hair loss and grow more hair... now is the time to do something about it before it's too late. Loesch Laboratory Consultants, Inc., will supply you with treatment for 32 days—at their risk—if they believe the treatment will help you. Just send them the information listed below. All inquiries are answered confidentially, by mail. Adv. NO OBLIGATION COUPON To: Loesch Laboratory Consultants, Inc. Box 66001, 3311 West Main St. Houston, Texas 77006 I am submitting the following information with the understanding that it will be kept strictly confidential and that I am under no obligation whatsoever. and acknowledged that the patients' records did not show evidence of dosage escalation that would be expected in the case of addicted persons. Ten current and former patients of Nichopoulos also testified, each praising the physician's medical care. "I think he's the finest physician in Memphis and I have total, absolute trust in him," said Ivan Cook, an antique dealer. According to charges in the 59-page complaint against Nichopoulos, the doctor wrote 40 prescriptions for Cook — 3,050 doses in all — for Quaalude and Sopor, both sedatives, and Preludin, an amphetamine-like diet drug, between Feb. 26, 1976, and Aug. 15, 1979. COOK TESTIFIED THAT HE REQUIRED THE MEDICATION FOR "a great number of physical ailments," including insomnia, appetite control and injuries sustained in several traffic accidents. The hearing, which is expected to take at least a week, opened with Thomason accusing state attorneys of catering to the news media.

'...Christian Living'

One of the most significant happenings of the week in Midland is the 29th annual School of Christian Living, which is being held through Thursday in the First United Methodist Church.

The school, which this year has a particularly outstanding faculty, is sponsored by the Midland Association of Churches.

It is noteworthy, too, that the 19 churches involved in the sponsorship represent eight denominations.

Religious courses on the Sermon on the Mount, cults, life and death, and spiritual growth are being offered. Morning and evening sessions are being held.

The school's faculty includes Dr. Ralph Earle, professor emeritus of New Testament and Bible scholar at the Nazarene Theological Seminary, Kansas City, Mo.; Dr. Joseph H. Fichter, professor emeritus of Sociology at Loyola University, New Orleans; Dr. Charles E. Scott, professor of philosophy at Vanderbilt University, Nashville, Tenn., and Dr. Allen Whitman of St. Matthew's Episcopal Church, Austin.

Year after year the sponsoring group comes up with top caliber faculty members, outstanding leaders in their particular fields, and this year certainly is no exception.

Churches sponsoring the school are St. Ann's Catholic, First Christian, Memorial Christian, Episcopal Church of the Holy Trinity, St. Nicholas' Episcopal, Hope Lutheran (LCA), Greater St. Luke's AME, Asbury United Methodist, El Calvario United Methodist, First United Methodist, Hollowell United Methodist, St. Luke's United Methodist, St. Mark's United Methodist, St. Paul United Methodist, First Church of the Nazarene, Northside Church of the Nazarene, Grace Presbyterian, Trinity Presbyterian and First Presbyterian.

The school is a tremendous asset for the community, and the sponsoring organization and member churches are due commendation for their efforts in this regard.

The 29th annual School of Christian Living will make of Midland an even better community.

Wild River Canyon

A Wild River Canyon in Midland?

Yes sir, that is exactly what the announcement said. The Tall City is going to have come summer. And Midland and area residents are really excited about it. As one Midlander, in commenting on the subject in a letter to the editor, wrote, "We can't wait."

Wild River Canyon, as proposed, is a water-oriented family fun park to be located on the west side of Midland. Construction already has been started by T.J. Melton III and Associates Inc. of Midland.

The park will be located in a man-made canyon and divided into recreational areas for persons of all ages. It is said that a one-acre swimming lake will have two separate T-bar rides, inner tube rides, rope walks and a water

volleyball court. Separate lakes will be provided for catfish fishing, bumper boats, and a scenic canal for paddle boats. There are a number of other recreational and entertainment features, including a children's playground, outdoor movie amphitheater and a quarter-scale train.

It is no wonder that residents of Midland and vicinity are so excited about this particular venture.

Wild River Canyon will serve a long-felt family entertainment need. The facility undoubtedly will be used extensively by youths and adults. It also should and most likely will attract many visitors from surrounding communities.

Congratulations and all best wishes are extended to all those involved in the project.

Like the letter-writer said, we can't wait!

Skindivers, take note

The Dallas Morning News, after asking "Who says there's never any good news any more out of Washington?" answered, "Why, just the other day the Commerce Department put out a press release to announce this encourag-

ing word, 'Undersea traffic jams not likely soon.'"

We agree that should be a load off the minds of all skindivers and submariners.

Wonder how much this particular study cost?

INSIDE REPORT:

Iowa caucuses will test John Sears' campaign strategy

By ROWLAND EVANS AND ROBERT NOVAK

JANESVILLE, Iowa — The night before the Iowa Poll revealed a catastrophic 24-point drop in Ronald Reagan's strength, the possibility that next Monday's caucuses could devastate his 12-year search for the Republican presidential nomination was raised by a vivid contrast here in east central Iowa.

Principal speaker for a party fundraiser was George Bush, Sen. Howard Baker's daughter Cissy was present. So were campaign leaflets and posters for Bush, Baker, Connally, Crane and Dole. But there was no sign of Reagan — not a campaign button, not a poster, not a word — in Reagan's rural heartland.

"This is what we've been complaining about for months," a local Reagan loyalist told us. "There is no visible Reagan campaign." That absence, when compared with Bush's painstakingly built organization, suggests Reagan could finish second to Bush at Republican precinct caucuses Jan. 21. Reagan's overwhelming grassroots popularity, counted on to negate Bush's organizational edge, has been undercut by infrequency of visits to Iowa, climaxed by his boycott of the Jan. 4 presidential debate.

Since Reagan's campaign is based on invincibility and inevitability, losing Iowa would not be easily overcome. Thus, the cautious strategy of campaign manager John Sears, undergoes an early critical test. If

"Dutch" Reagan loses the state of his young manhood, the Sears strategy will be blamed.

That chorus would be led by Lt. Gov. Terry Branstad, 33-year-old hope of Iowa conservatives and a 1976 Reagan activist. Branstad repeatedly has warned Reagan headquarters of Bush on the march in Iowa. When he spotted Sears in the Fort Des Moines Hotel coffee shop the other morning, Branstad complained Sears had not returned his calls for months (the debonair Sears replied with a smile and his patented chuckle).

Branstad did get five minutes alone with Reagan himself during a rare Iowa stop Dec. 14, and gave him detailed advice: Come to Iowa often, not for one monster rally but to hit several towns; above all, participate in the debate. None of this advice was followed. Branstad now gives Bush at least an even chance to win.

Senior Reagan strategists privately admit they underestimated Bush. Although they denigrate Bush's establishment backing as "the charity ball set," they admit he has locked up key local leadership. Although Bush at his best cannot match Reagan's charisma on an off-day, he will have spent 27 days in Iowa by caucus time; when Reagan comes to Iowa Saturday, it will be his sixth day.

Reagan's campaign did not reach full gear until December when Kenny Klinge, a skilled professional from Virginia, was dispatched to Des Moines. His phone bank has found over 50,000 Iowa voters "favorable"

HEMISPHERE REPORT: Latins think in terms of dollars

By WILLIAM GIANDONI
Copley News Service

When Fidel Castro, or just about any other eloquent friend or foe of the United States, talks seriously about money, he speaks of dollars.

If Castro, for example, addresses an international conference on development and trade in Havana, and wants to be understood by his listeners, he measures the cost or value of things in dollars, U.S. dollars.

Sure, in Cuba, the monetary unit is the peso, just as it is the cruzeiro in Brazil, the balboa in Panama, the guarani in Paraguay, and so on.

But outside of those countries, relatively few know the worth of those monetary units.

And in Latin America the U.S. dollar long has been, and presumably will go on being the measuring stick.

That does not mean that they are at all pleased with what has been happening to the dollar in recent months and years.

Bankers, businessmen, government officials and commentators have been quite concerned about the decline of the dollar.

True, of course, technically most of the Latin American monetary units are "floating." Whereas, in the past, the major countries at least maintained a fixed rate of exchange between their money and the dollar, now, in theory, at least, the peso-dollar rate of exchange is flexible and can vary from day to day, depending on the law of supply and demand in the money markets.

In actual fact, though, for the sake of international business transac-

William Giandoni

tions, many of the Latin American countries maintain a more-or-less stable official exchange rate between their money and the dollar.

That is a recognition of one of the facts of economic life. For foreign commerce purposes, smaller nations generally have to adjust themselves to the monetary policies of the nation with which their trade relations are closest. In the Western Hemisphere, most of the countries trade far more with the United States than any other nation.

That they may thus be trapped in the "dollar bloc" does not sit well with some of the hemisphere's leaders.

Castro, the president of Cuba, does not have that complaint.

He, though, is enmeshed in the Soviet bloc which, by all accounts, is much worse a fate.

But, even such oil exporting nations as Mexico, seem to be coming to realize that things could be worse.

For example, Mario Ezcuardia, writing in the Marxist daily, El Dia of Mexico City, noted that when the Organization of Petroleum Exporting Countries recently discussed the possibility of discarding the dollar, in which world oil prices are mostly quoted, the price of gold soared above

CHARLEY REESE Prejudice turns attention from the real problem

ORLANDO, Fla. — Prejudice is a defect in thinking, not a moral problem. It is bad because it prevents a clear perception of reality and therefore messes up your ability to solve problems.

But the effort by some people to equate prejudice with immorality is a dirty trick. I have known many people who are prejudiced but who are also kind, humane and loving people even in their dealings with the objects of their prejudice.

At the same time, it's been my experience that prejudiced people who are cruel and violent are cruel and violent anyway and their prejudice is entirely incidental. Show me a man who will lynch a black and I'll show you a man who will lynch a WASP, given the same opportunity. Malice is color blind.

There are even some humorous aspects of prejudice if you are inclined to be amused by irony and absurdity. Prejudiced people have a tendency to blame whomever they are prejudiced against for every problem under the sun.

I have heard people complain that blacks dominate the job market. That must cause a lot of laughs in the unemployment lines because despite all of the affirmative action programs, blacks still lag far behind whites in both unemployment and income. To borrow a term from accounting, blacks work under the LIFO system — last in, first out.

If blacks were politically sophisticated, they would all be conservative

Charley Reese

Republicans because their only hope of improving their economic situation is for the American economy to expand and run at full speed. At the present time, trendy liberal Democrats all favor a no-growth policy.

And that leads to another myth, that blacks dominate politics. Politicians have been exploiting blacks for a century and are still playing them for suckers with the help of greedy black leaders who sell black votes the way New Englanders once sold black bodies. Fortunately, this is beginning to change as more blacks realize that once a politician can take your support for granted, you've lost all your leverage.

Finally, there are those who believe that high taxes and inflated budgets are entirely the result of welfare payments which they also wrongly suspect go mostly to blacks. All you have to do to explode this myth is total up the dollars that actually end up in the pockets of the poor. They represent a tiny percentage of the budget. We have a welfare state, but the chief recipients of the "welfare" are politicians, bureaucrats, consultants, and academics nearly all of whom are middle class and white.

When you turn to the people who are prejudiced against Jews, you also find a lot of absurdities. One of the biggest is the belief that Zionism is a powerful, worldwide conspiracy, an old myth perpetrated by the Czarist regime in Imperial Russia which spread a forged document that came to be known as the Protocols of the Elders of Zion.

Zionism is nothing more than a political movement started by an Austrian journalist with the sole purpose of establishing a Jewish national home. Far from being powerful, Zionism is one of the least powerful movements in the world as any fool can see just by looking at the facts.

It took Zionists nearly 50 years to establish the state of Israel at an unbelievable high cost in lives and efforts. The little country has never known one day of peace since it was founded and is hanging on by its fingernails and sheer guts. Furthermore, Zionists were unable to prevent the near extermination of European Jewry, are frustrated today by Soviet anti-Semitism and are as fearful today as they were 50 years ago about the future. Hardly evidence of world power.

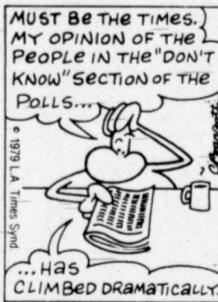

The Liberty Lobby, which is one of the worst anti-Jewish groups, goes to such ridiculous extremes as to make the Rockefeller a part of the Zionist conspiracy. The Rockefeller are mostly Baptist and notoriously pro-Arab because of their oil interests.

Far from controlling American business, study after study has shown that Jews are as rare in the board rooms of Fortune 500 companies and commercial banks as Jimmy Carter posters in the Kennedy compound.

Jews are as diverse as any other group. Some are Zionists and some are anti-Zionists. Some are liberals and some are conservative. Some are devout and some are atheists. Whatever caused God to pick them as his chosen people, it was certainly not conformity.

But the main point is that prejudice blocks clear thinking and diverts our attention from real problems. The central issue of our day is humanity versus inhumanity and in that context, we are all one — or the other.

BROADSIDES

THE BIBLE CAN YOU QUOTE IT?

By LAVINA ROSS FOWLER AND ELIZABETH ROSS WIERSEMA

1. There are about as many doctrines and religious sects as there are interpretations. This is substantiated by Paul's words in 1 Corinthians 14:26. Peter in his first Epistle 1:20 spoke his part about prophecy and interpretations. What did Joseph, young patriarch of Genesis 40:8 tell about his belief of interpretations?
 2. Why could the Chaldeans not solve the dream of Nebuchadnezzar and Daniel could? Daniel 2:4-5, 27-28.
 3. On what occasion did Moses and Elias return from the grave? Luke 9.
 4. What was John the Baptist's text? Matthew 3:2.
 5. "Man shall not live by bread alone, but by..." Matthew 4.
- Four correct...excellent. Three correct...good.

DR. NEIL SOLOMON

Tests harmful

Dear Dr. Solomon: After reading all about the Three Mile Island incident, I've come to the conclusion that no one really knows what effects the accident will have on people 20 or 30 years from now. Isn't it true that we are only now becoming aware of the harmful effects of atomic tests to which people were exposed many years ago?—Mr. J.K.

Dear Mr. K.: It is true that there is increasing evidence of the harmful effects of radiation from nuclear weapons testing. A study by Dr. Joseph L. Lyon, assistant professor of family and community medicine at the University of Utah College of Medicine, has shown that children born near a Nevada weapons test site had two and one-half times the leukemia death rate of children born either before the test program was begun or after it had ended.

In his investigation, Dr. Lyon used the years from 1951 to 1958 as the period during which there was heavy exposure to fallout. During the period, 97 above-ground tests were carried out in the Nevada desert. The resulting fallout drifted across Nevada and into Utah.

Dr. Lyon found that the death rate for children living in the areas that received high amounts of fallout was almost three times that of a control group. The increase in deaths from leukemia occurred during the nine years following the most concentrated period of above-ground testing, 1959 to 1967. After 1967, the leukemia death rate in children dropped to the pre-testing level. While these findings do not prove a cause-and-effect relationship, they do establish an association between exposure to nuclear fallout and increased deaths from leukemia in children.

Whether these findings are applicable to the adult population living in the test area is not clear. Research on older groups of people becomes more difficult since adults probably have been exposed to carcinogens other than the nuclear weapons fallout.

Dr. Lyon's findings are supported by a study of participants in a 1957 atomic blast, conducted by Dr. Glyn Caldwell, of the Center for Disease Control. On the basis of information obtained on 85 percent of the more than 3,200 people who participated in the atomic test, he concludes that eight developed leukemia, about twice the expected number. However, the total number of cancers (100) and the total number of deaths (215) in the group are not considered excessive. The expected death rate from chance for the group would be 257.

Obviously, the results of these studies do not prove anything about the Three Mile Island incident. As former Secretary Joseph A. Califano of the Department of Health, Education and Welfare stated at a press conference, these findings only add to the questions surrounding radiation exposure.

TMI's operators challenge order

HARRISBURG, Pa. (AP) — Operators of the Three Mile Island power plant, scene of the nation's worst commercial nuclear accident, have challenged an order requiring a demonstration of why the plant's license should not be revoked.

The Public Utility Commission's Nov. 1 directive to the Metropolitan Edison Co. was described Monday by the company's lawyer as "thoroughly confused, misconceived (and) unmanageable."

"It is in the public interest that the ... order, and all the confusion, delay and detriment to all parties which it carries with it, be dismissed at the earliest possible date," Met Ed lawyer Samuel Russell said in a brief submitted to the PUC.

In issuing the controversial order, the PUC said studies of the March 28 accident had prompted questions about Met Ed's ability to provide "safe, adequate and reliable service at just and reasonable rates" to its 350,000 customers.

Committee proposes water code changes

Austin Bureau

AUSTIN—Several changes in the Texas Water Code, including provision on handling of solid waste violations and water rate cases, have been recommended to the House Subcommittee on the Water Code by the Department of Water Resources.

The subcommittee is chaired by Rep. Tom Cradick, Midland.

Bruce Bigelow, general counsel for DWR, presented the proposed changes to the subcommittee, which will consider the recommendations and make its own recommendations for any changes to the 1961 Legislature.

Among the proposed changes are eliminating domestic sewage sludge from the definition of "solid waste" to prevent possible regulation by both the Department of Health and DWR; clarification of procedures for setting interest rates charged borrowers under the Water Development fund; some increases in civil and criminal penalties for violation of permits and orders on wastewater discharges and solid and toxic wastes; and elimination of charges to public entities seeking to divert surface water to recharge underground aquifers, or to build dams to control natural pollution (as is being done on the upper Red River).

Texas Water Commission Chairman Felix McDonald also appeared at the session to ask the lawmakers to remove the rate jurisdiction of the TWC, noting that the Public Utility Commission is equipped to handle such matters, while the TWC lacks the rate-making specialists and other personnel needed.

Westside Lions to hear about Rape Crisis Center

Westside Lions Club will hear about the Midland Rape Crisis Center when the group meets at noon Thursday in its clubhouse, Thomason and Midland Drives.

Nan Gordon, director, and Lara Chandler, assistant director, will talk about goals of the center.

Curriculum panel planning study program regional hearing

Austin Bureau

AUSTIN—The Curriculum Study Panel will hold a regional hearing on needed changes in curriculum for public schools from 2 to 5 p.m. and 7 to 9 p.m. April 22 in Midland.

The hearing, part of a statewide curriculum study by the panel, will be held at the Region XVIII Education Service Center at LaForce Boulevard, Midland.

Congressmen put pressure on firms

WASHINGTON (AP) — After pressure from some members of Congress, two major oil companies have reluctantly reversed their policy against credit-card purchases of gasoline.

Rep. Dan Glickman, D-Kan., said Monday that Exxon Corp. will allow use of its credit cards to purchase the gasoline-alcohol mixture. Gulf Oil Corp. announced a similar decision in Pittsburgh.

Exxon president Howard Kauffmann contends, however, that gasoline-alcohol mix is not the answer to the nation's fuel problems.

In a telegram to Glickman, Kauffmann said he hoped the policy change would correct misunderstandings about Exxon's original intent.

The credit card restrictions were part of a long-standing company policy designed to protect customers, he said.

"Although we feel this position is correct, as a result of changed circumstances Exxon has until further notice modified this policy to permit the sale on Exxon credit cards of nonbranded motor fuels including gasoline," Kauffmann said.

Gulf said its credit card may be used to purchase gasoline at service stations that sell Gulf-brand fuels.

Kauffmann expressed doubts about gasoline's value in reducing the nation's dependence on oil, however. Gasoline is about 90 percent gasoline and 10 percent octane-boosting alcohol.

The Exxon official said the current technology for producing gasoline makes it an energy-efficient fuel. Synthetic fuels from coal and oil shale "offer greater promise," he said.

Although pleased about the policy reversal, Glickman disputed Kauffmann's remarks.

Getting major oil companies to accept the alcohol-fuel blend "is like pulling teeth," said Glickman, a founder of the Congressional Gasohol Caucus.

"We will just have to keep pushing the major oil companies to accept gasoline as a major alternative fuel of the future," he added.

Last week, Exxon, Texaco and Gulf announced they would not permit use of their credit cards for gasoline purchases.

Glickman, calling the move another industry effort to block increased use of gasoline, threatened to seek action by the Federal Trade Commission if it was not reversed. Other members of Congress said they would introduce legislation to force reversal of the policy.

12 wildcats announced in Permian Basin areas

Florida Exploration Co. of Midland has filed application to drill a 10,000-foot wildcat in Terry County, one and three-eighths mile north of an 11,662-foot failure, 3.5 miles east of the discovery well of the Corrigan, East (Fusselman) field and 11 miles southeast of Brownfield.

Operator staked No. 1 Minnie Heald 990 feet from south and 660 feet from east lines of section 34, block O, H&OB survey.

DAWSON WILDCAT
Aminol USA, Inc. of Midland will drill the No. 1 Youngblood as a 9,000-foot wildcat 5/8 mile northeast of the Cline Farms (Pennsylvanian) discovery well, 7/8 mile southeast of an 8,675-foot failure.

Drill site is 1,320 from south and 660 from east lines of section 19, block 33, T-5-N, T&P survey, 13 miles east of Lamesa.

KENT EXPLORER STAKED
Guest Energy Corp. of Wichita Falls spotted location for No. 1 O'Donnell-Jones as a 7,900-foot wildcat in Kent County, 1.5 miles south of a 7,685-foot failure, three miles west of the Clairmont (Strawn) reopener and lone producer from that pay, which produces at 6,670 feet.

Location spots 1,980 from south and 660 from east lines of section 75, block G, W&NW survey, five miles southwest of Clairmont.

GARZA VENTURE
Terraport Corp. of Dallas will drill the No. 1-34 K.W. Kirkpatrick as an 8,300-foot wildcat in Garza County, three miles east of production in the Garza field, 5/8 mile northwest of a 3,202-foot failure.

Purchasers lower sights
AUSTIN, Texas (AP) — The Texas Railroad Commission announced Monday major purchasers of crude oil have said they want to buy 2,652,720 barrels a day in February, a decrease of 18,758 from January.

The commission meets Thursday to set the statewide oil allowance for February.

The allowable — or market production factor — has been at 100 percent each month since April 1972 with the exception of three months.

DRY HOLES

BORDEN COUNTY
Harper & Lawless Production Co. No. 1 Porter Hanks, 1,250 from south and 900 from west lines of section 19, block 32, T-3-N, T&P survey, 10 miles west of Ackerly, id 8,180 feet.

COKE COUNTY
Guy W. Swartz, ARC (Odom lines), No. 3 Harris Estate, 1,430 from south and 473 from west lines of Winfield Scott survey, No. 10, seven miles south of Silver, id 1,061 feet.

CONCHO COUNTY
Hannover Management Co. wildcat, No. 1 Williams Sims, 4,120 from south and 650 from west lines of H. Fisher survey, No. 244, abstract 152, No. 515, five miles east of Paint Rock, id 3,354 feet.

CROCKETT COUNTY
J. Cleo Thompson, wildcat, No. 3 Lauffer, 1,320 from north and west lines of section 14, block 1, GC&SF survey, 14 miles northeast of Ozona, id 8,392 feet.

MCCULLOCH COUNTY
Hannover Management Co. wildcat, No. 10 Neil Marshall, 250 from north and 660 from east lines of section 191, H&GN survey, 12 miles north of Brady, id 946 feet.

REEVES COUNTY
Forest Oil Corp. wildcat, No. 1 B.S. State, 1,320 from north and west lines of section 28, block 37, T-3, T&P survey, nine miles southwest of Orla, abandoned location.

RUNNELS COUNTY
Keith D. Graham, wildcat, No. 1-W, F. Minenmayer, 2,185 from south and 462 from west lines of section 117, block 64, H&TC survey, nine miles west of Bradshaw, id 4,980 feet.

SCHLEICHER COUNTY
J. Cleo Thompson, wildcat, No. 2 Page Jeffers, 1,461 from south and 800 from west lines of section 1211, TCR&P survey, 20 miles northeast of Ozona, id 8,207 feet.

TUCKER COUNTY
Tucker Drilling Co. wildcat, No. 2 Steen, 1,782 from north and 2,496 from east lines of section 1211, TCR&P survey, abstract 618, id 6,917 feet.

Wellsite is 990 from north and 1,980 from west lines of section 34, block 5, GH&H survey, seven miles southeast of Post. Ground elevation is 2,346 feet.

MCCULLOCH WILDCAT
Geomac Energy Corp. of Midland will drill a 1,750-foot wildcat in McCulloch County as the No. 1 McNeely, one location west of the same firm's No. 1 Siler, active wildcat, 5/8 mile northwest of old oil and production in the Regular field, one mile north of Salt Gap.

Location is 330 from south and 2,310 from west lines of Dorris Jordt survey No. 780. Ground elevation is 1,630 feet.

IRION EXPLORERS STAKED
Meado Properties of Midland has rescheduled as an 8,300-foot wildcat its No. 1-17 A. Sugg Unit, previously scheduled to 7,800 feet as a Wolfcamp gas test, surrounded by production from that pay in the Ela Sugg field.

Wellsite is 460 from most southerly north line and the same distance from the most southerly east lines of section 17, block 27, H&TC survey, 21.5 miles north of Barnhart.

C&K Petroleum Inc. of Midland will drill two 9,000-foot oil wildcats in Irion County.

The No. 1 Carter is one mile north of an 8,650-foot wildcat failure, 2.5 miles southeast of the MWJ (Canyon oil) field, three miles northwest of Wolfcamp gas production in the Ela Sugg field, 19 miles northwest of Mertzon.

Location is 925 from north and east lines of J. Blessman survey No. 1909, abstract 20.

Ground elevation is 2,257 feet. The No. 2 Scott is 5/8 mile south of the No. 1 Scott, active wildcat, 1/25 miles northwest of Wolfcamp gas production and 2.5 miles northwest of Wolfcamp oil production in the Ela Sugg field, 17.5 miles northwest of Mertzon.

Location spots 4,159 from north and 960 from west lines of section 22, block 27, H&TC survey. Ground elevation is 2,382 feet.

The firm's No. 2 Scott is drilling below 8,315 feet in lime and shale on an 8,800-foot contact.

TOM GREEN VENTURE
Honhco International Corp. of Houston filed application to drill the No. 3-X Moss-Powell as a 1,200-foot San Angelo wildcat, one location northwest of the No. 2 Moss-Powell, opener and lone producer of the Lawson-Victor (lower Strawn oil) field, 2.5 miles east of the Dove Creek, East (1075 Clear Fork oil) field.

Location is 837 from south and 1,941 from west lines of section 19, block 20, H&TC survey, 6.5 miles northwest of Christoval.

CROCKETT EXPLORER
J. Cleo Thompson of Dallas will drill the No. 15-A J.R. Bailey as a 9,000-foot wildcat, 1/2 mile east of Caryon gas production, 1.25 miles northwest of Ellenburger production and the same distance northwest of Strawn gas production in the Crockett County portion of the Ozona, North field.

Location is 11 miles northeast of Ozona, 1,320 from south and east lines of section 19, block GH, GC&SF survey.

The field has extended into Schleicher County.

SCHLEICHER WELL
Seneca Petroleum Inc. of Eldorado has completed the No. 2 Viola Finnegan as the second producer and a location east extension to the Regal (Wolfcamp) field of Schleicher County, 3.25 miles north of Eldorado.

Operator reported a 24-hour pumping potential of 14.78 barrels of 36-gravity oil and 22.16 barrels of water, through perforations from 3,767 to 3,818 feet, which was acidized with 1,092 gallons.

Gas-oil ratio is 68-1. Location is 467 from south and west lines of section 29, block LL, GC&SF survey.

Mexico gas to flow

MEXICO CITY (AP) — The chief of Pemex, the national oil monopoly, said the first shipments of Mexican natural gas to the United States would begin flowing today.

Jorge Diaz Serrano told a news conference Monday that up to 100 million cubic feet, at \$3.62 per thousand, would be piped to Texas receiving points the first day.

He said that when all the pipelines and instruments were adjusted, the flow would be pushed up to the 300 million cubic feet a day agreed upon in a sales contract signed in 1979.

Operator takes potential at two Runnels openers

Charles M. Childers of Abilene has completed as discoveries in a depleted area of the Urban (Miles oil and gas) field of Runnels County, two miles north of Miles.

The No. 1 Roach was finalized for a 24-hour flowing potential of 82 barrel of 42-gravity oil and no water, through an 18/64-inch choke and perforations from 4,262 to 4,268 feet, after being acidized with 2,000 gallons.

Gas-liquid ratio is 3,049-1. Scheduled as a 4,500-foot wildcat, it drilled to 4,302 feet, with 4.5-inch casing set at 4,298 feet.

Operator picked the following tops on ground elevation of 1,809 feet: Palo Pinto, 3,870 feet; Capps, 4,220 feet and Miles 4,262 feet.

Location is 1,320 from north and 850 from east lines of E.J. Field survey No. 98.

The same firm's No. 1 Eggemeyer finalized to flow 43.5 barrels of 42-gravity oil and 39 barrel of water, through an 18/64-inch choke and perforations between 4,271 and 4,277 feet.

The pay was acidized with 2,250 gallons. Gas-liquid ratio was measured at 919-1.

Scheduled as a 4,500-foot wildcat

DOE will distribute money to back energy alternatives

By ROBERT A. ROSENBLATT
The Los Angeles Times

WASHINGTON — In an effort to promote alternatives to oil, the Department of Energy

ENERGY OIL & GAS

announced Monday that it would distribute \$2.2 billion this year to companies producing energy from oil shale, coal, garbage and other unconventional sources.

The department wants the industry to work on new fuels even before

creation of the government's proposed Energy Security Corp., designed to encourage development of synthetic fuels. Both houses of Congress have passed legislation providing for development of such fuels, and the final compromise version of the legislation will be settled after Congress returns later this month.

In an effort to expedite production of fuels to replace oil, Congress last year approved a special \$2.2 billion appropriation for the Department of Energy. President Carter signed the bill on Nov. 29, and the department announced its general spending plans on Monday, unusually quick action in energy policy making.

The department will spend \$1.5 billion for purchase agreements or price guarantees, depending on contracts signed with individual companies. For example, the government may promise to buy the output of a facility making a form of natural gas from coal.

The government also will issue up to \$500 million in loan guarantees, enabling companies to get bank financing for costly, untried new forms of technology.

The other \$200 million will be reserved for studies of individual projects proposed to the government, and for cooperative agreements between the government and private companies.

The department will hold a hearing in Denver Tuesday to invite industry comment on its plans.

All the funds will be allocated by the summer or the close of the fiscal year

in September, Ruth Davis, assistant energy secretary for resource applications, told a news conference.

She said that it was impossible to predict when the synthetic fuels would begin flowing, adding that "it depends on how industry wants to take advantage of the program."

A number of companies, notably large ones in the oil industry, strongly opposed direct government financial involvement in new fuels development. Some companies said they would develop new fuels on their own, and wanted the government's role limited to granting tax credits.

But the Carter administration and Congress favored a more active role for government to reach the president's goal of reducing oil imports 50 percent by 1990.

Alternative synthetic fuels can be made from coal, shale rock, tar sands containing petroleum deposits, grains, agricultural and industrial wastes, garbage, peat and other materials, according to the mandate given the Department of Energy by Congress.

Any facilities producing such fuel must be located in the United States and must get its raw material from domestic sources.

Department guidelines say that any plant receiving government aid should meet these minimum levels: liquids from coal, 10,000 barrels daily; oil shale, 2,000 barrels daily; and tar sands, 2,000 barrels daily.

The United States now consumes 18.4 million barrels of oil daily, including 8.1 million barrels of imports.

ATAPCO of Midland will drill the No. 1 H.M. Gallant as a 4,500-foot wildcat, also scheduled as a McMillan, Jennings and Gardner sand test in the Lindman field, eight miles northeast of Ballinger.

Drill site is 467 from north and 76 feet from west lines of section 16, Norvell Travis survey No. 533. Ground elevation is 1,737 feet.

The McCoun Co., Inc. of Tyler announced plans to drill the No. 1 Bright as a 4,100-foot wildcat in Runnels County, 3/4-mile southeast of depleted production in the Goldsboro (Gardner) field, 1.25 miles south-west of depleted production in the Arlridge (Upper Gardner) field, 1.5 miles west of Centert.

Wellsite is 114 from north and 1,000 from west lines of Quadrilla Irrigation Co. survey No. 37.

Ground elevation is 2,039 feet.

Energy assistant says fossil fuel supply good

HOUSTON (AP) — Coal and existing fossil resources in the United States will supply energy for "several hundred years" if used conservatively, Assistant Energy Secretary George Fumich Jr. believes.

Fumich, appointed to his post a month ago, said the conversion of coal and oil shale into liquid petroleum is a primary concern of the government because of current dependence on imported crude oil.

"I think that recent events in the world have underscored dramatically that we no longer have the luxury of time to make...mistakes," he said, adding that government and business have become aware of the problems facing the U.S. if the foreign oil flow was stopped.

He said fossil fuels account for 94 percent of the energy used in the United States.

Fumich said he felt coal was the best

answer to the problem of a shortage in liquid petroleum, saying a large portion of the 8.5 million barrels of oil used by industry could be supplemented by coal.

"It's an expensive process (converting coal to liquid fuel), but who knows what the cost of imported petroleum will be in a year?" he said.

An estimated 430 billion tons — enough for several hundred years' supply — is available to be mined in the U.S., said Fumich, who compared America's coal reserves to Saudi Arabia's oil supplies.

"We can't run our cars on coal, but we can change utility companies to be coal burners. And we can cut down on the use of petroleum by conservation, redesigning buildings to make them more efficient and switching to nuclear and solar power," he said.

"We can answer the problem if we have time to do it."

North American stakes mile outpost in Howard

North American Royalties Inc. of Midland filed application to drill No. 1 Riddle as an 11,000-foot test one-mile north of the Isaac (Pennsylvanian, upper) field of Howard County, two miles north of Knott.

Drill site is 4,620 feet from south and east lines of section 1, block 34, T-2-N, T&P survey.

(Clear Fork gas) field and 1.5 miles southeast of production in the Abell, North (San Andres oil) field of Pecos County, six miles east of Imperial.

Wellsite is 1,968 from south and 853 from east lines of section 31, block 9, H&GN survey.

WARD OILER FINALS
Edwin L. Cox of Dallas has completed the No. 6 Edwards as the eighth producer and 1/2 mile northeast of production in the Crawar (Glorieta) field of Ward County, 11 miles southeast of Monahans.

Operator reported a 24-hour flowing gauges of 41 barrels of 37-gravity oil and 55 barrels of water, through an 18/64-inch choke and perforations ranging from 4,258 to 4,346 feet.

The pay was acidized with 5,000 gallons and fractured with 33,000 gallons. Gas-liquid is 915-1.

Drilled to 5,300 feet, operator landed 4.5-inch casing on bottom.

Location is 467 from south and 974 from east lines of section 3, block B-20, PSL survey.

Carbon dioxide program set

MALJAMAR, N.M. (AP) — The crew of a drilling rig set up in the rolling sandhills four miles southwest of here is set to begin an unusual assignment Wednesday.

They will be sinking a 4,100-foot shaft destined to become New Mexico's first carbon dioxide injection well.

When the shaft is in and other preparations are complete, the same kind of gas that puts fizz in your soda pop

will be sent down the hole at high pressure to do its chemical magic. And if all goes as planned it will unlock several million barrels of oil in the tightfisted rocks of the 8,040-acre MCA unit.

Officials of Conoco Inc., which owns 75 percent of the MCA, and the New Mexico Institute of Mining and Technology were in Maljamar last week to announce the project and inspect the site.

Conoco will spend \$3.1 million in capital and \$1.1 million in operating costs over the next four years to install and run the pilot project. New Mexico Tech is supplying technical assistance through its Petroleum Recovery Research Center.

They expect to obtain oil, of course, and to determine whether the CO2 flooding process is feasible in the MCA and other New Mexico sites.

Miscible flooding with carbon dioxide, a tertiary recovery method, is designed to get the oil left behind by traditional pumping and water flooding recovery techniques.

In an interesting twist, this new technology is being introduced only a mile from the Maljamar discovery well of 1926, which opened oil production in southeastern New Mexico.

The MCA, which covers more than half the Maljamar field, has produced 49 million barrels of oil since 1963 when water flooding was initiated. But the two standard recovery processes have coaxed out only about half of the estimated 95 million barrels in the reservoir.

What about the rest of it? That's where tertiary recovery comes in, and in this case CO2 may be the answer. Experts say it could recover up to half of the oil still in place.

The CO2 will be injected into the test area, which covers five acres, under carefully controlled conditions. Technicians want to know everything about what goes on underground because so much depends on what they learn from this testing.

DRILLING REPORT

ANDREWS COUNTY
Sun Oil Co. No. 12 Nellie C. Martin, id 8,000 feet, pumped 9 barrels of oil, 38 barrels of lead water and 47 barrels of water, through perforations from 682 to 688 feet.

CROCKETT COUNTY
International Oil & Gas No. 1 Fort Lancaster, drilling 7238 feet.

DAWSON COUNTY
Sun Oil Co. No. 1 Sarah Ruffin, id 104 feet in red bed, set 13 1/2 inch casing at total depth, waiting on cement.

ECTOR COUNTY
Maddox Energy Corp. No. 1-A Edwards, drilling 10,385 feet in shale.

MARTIN COUNTY
Sun Oil Co. No. 186 Paul Moss, id 13,867 feet, set cement retainer at 9065 feet, squeezed liner and reversed tool, put out of hole and ran bit to 3000 feet.

EDDY COUNTY
Adams Exploration No. 1 Ann Communitized, id 9800 feet, circulated and conditioned hole.

LELAN COUNTY
The Superior Oil Co. No. 1 Oscar State, drilling 11,283 feet in sand and shale.

MARTIN COUNTY
Sun Oil Co. No. 1 Cavers, id 11,792 feet, perforated from 11,450 to 11,453 feet, preparing to test.

PECOS COUNTY
Glenn Cape No. 1 A Higginbotham Bros., id 12,171 feet in lime and shale, fishing for cones.

GARZA COUNTY
Tucker Baumgardner No. 1 Storje, drilling 115 feet in red bed.

HOCKLEY COUNTY
South Ranch Oil Co. No. 1 Williams, id 19,115 feet, waiting on pumping unit.

HOWARD COUNTY
Tucker Baumgardner No. 3 Black Bass, drilling 7,430 feet in lime and shale.

IRION COUNTY
Adams Exploration No. 1 Dee, id 620 feet, set 15 1/2 inch casing at total depth, waiting on cement.

LEA COUNTY
Union Oil Co. of California No. 2 Laguna Deep, id 13,490 feet, hung 5 1/2 inch liner at 13,490 feet, moving in and rigging up pulling unit.

SCURRY COUNTY
J. H. Purvis No. 1 Elcke, drilling 6,200 feet in lime and shale.

TERRY COUNTY
Estoril No. 1 Sleeper, drilling 10,075 feet.

IRION COUNTY
Adams Exploration No. 1 Dee, id 620 feet, set 15 1/2 inch casing at total depth, waiting on cement.

LEA COUNTY
Union Oil Co. of California No. 2 Laguna Deep, id 13,490 feet, hung 5 1/2 inch liner at 13,490 feet, moving in and rigging up pulling unit.

SCURRY COUNTY
J. H. Purvis No. 1 Elcke, drilling 6,200 feet in lime and shale.

TERRY COUNTY
Estoril No. 1 Sleeper, drilling 10,075 feet.

UNION TEXAS NO. 2 PHIPPS, id 11,541 feet, open well and bleed pressure, swabbed 125 barrels of fluid in 90 minutes, oil cut increasing to 90 percent during last hour of swab period, all lead recovered, perforations at 11,520 to 543 feet.

BRITTON COUNTY
Britten Management No. 1 Clara Clark, id 1,900 feet, ran logs, waiting on orders.

JOHNSON COUNTY
John L. Cox No. 1 McDaniel-Barnwell, drilling 6,206 feet, set 7 1/2 inch casing at 8,220 feet.

JOHNSON COUNTY
John L. Cox No. 1 Cox, id 11,137 feet, drilling 3,115 feet in sand and anhydrite.

JOHNSON COUNTY
Advance Oil & Gas No. 1 Coll, id 12,000 feet, loggers total depth at 11,956 feet, plugged and abandoned.

JOHNSON COUNTY
Estoril Producing No. 2 Bowman-Federal, id 9,900 feet, pumped 1.5 barrels oil and 19 barrels water, time and perforations not reported.

LOVING COUNTY
Getty Oil No. 1-Maleicoid Madera, id 17,822 feet, drilling cement.

MARTIN COUNTY
John L. Cox No. 2 Mabae Ranch, drilling 2,875 feet, set 8 1/2 inch casing at 4,405 feet.

MARTIN COUNTY
International Oil & Gas No. 1 Hill, drilling 10,404 feet.

MIDLAND COUNTY
A.G. Kasper No. 1 Elaine, drilling 10,643 feet in lime, shale and chert.

MIDLAND COUNTY
Tamarack Petroleum No. 1 McClellan Trust, id 8,745 feet, perforated Deane zone from 8,430 to 8,501 feet, acid

U.S. policy responsible for Afghan conflict, former negotiator tells GOP

By DON MCLEOD

WASHINGTON (AP)—A former top U.S. arms control negotiator told Republican platform writers today that Soviet military intervention in Afghanistan is a direct result of Carter administration policy.

"For three years American policy has been sowing the harvest that we are reaping today in Afghanistan," Fred Ikle said at hearings by the Republican platform committee.

"And this is only the first installment," Ikle said. "The passive and indifferent attitude of the Carter administration toward the political color of the world map has provoked an accelerating erosion of the realm of freedom."

Ikle, who was director of the U.S. Arms Control and Disarmament Agency under former Presidents Richard M. Nixon and Gerald R. Ford, also said President Carter's diplomacy should not be judged by his handling of the Iranian crisis, in which 50 Americans are held hostage.

"Should our diplomats be released without physical harm, the world crisis that we are facing would in no way be mitigated," Ikle said.

After the first round of platform hearings Monday, party chairman Bill Brock summed up the testimony by saying he

fearfully for the country's security because of turmoil in the Middle East, coupled with energy shortages at home.

"I'm talking about more than the lights dimming," Brock said. "I'm afraid the country could be in a position where it could not defend its national security."

Rep. William S. Broomfield of Michigan, ranking Republican on the House Foreign Affairs Committee, said, "The reputation of our country as a leader of the free world has been seriously questioned" because of weak Democratic leadership.

"With a weakening of American military might, or at least the perception thereof, we have lost important credibility in our foreign policy," Broomfield said, "be it with the Soviet Union, our allies or the Third World."

"It is no wonder that events around the world more quickly escalate to crisis proportions and invite Soviet opportunism," Broomfield said.

Delaware Gov. Pierre S. du Pont IV, head of a GOP task force on energy, said the volatile world situation is aggravated by "unstable and counterproductive federal energy policies" at home.

"Federal policies have severely retarded the expansion and diversification of domestic energy production, thereby increasing our dependence on insecure supplies of costly foreign energy," du Pont said.

Kennedy's name again in headlines

By TIM AHERN

Associated Press Writer

Sen. Edward Kennedy's presidential campaign is getting a boost from a major labor leader — one day after a new published attack on Kennedy's version of the incident at Chappaquiddick.

If nothing else, the lengthy article to be published in the February issue of Reader's Digest demonstrates anew that the Chappaquiddick episode will continue to dog Kennedy's campaign.

On the other hand, the endorsement of United Auto Workers President Douglas Fraser reaffirms that, despite some recent slippage in the polls, Kennedy is a political force to be reckoned with by President Carter and other candidates.

Fraser was preparing to announce his backing of the Massachusetts Democrat today at a news conference.

Fraser's decision does not commit his 1.5 million-member union to Kennedy, but the decision is expected to have a strong impact in the UAW, one of the nation's most politically successful labor groups.

Kennedy likewise won "personal" support Monday from Fred J. Kroll, president of the 200,000-member Brotherhood of Railway and Airline Clerks. Kroll said he has filed as a Kennedy delegate for the Pennsylvania primary on April 22.

Elsewhere on the campaign trail, California Gov. Edmund G. Brown Jr., said Monday that "for all too long, Carter has played politics and hidden behind Iran."

"Now is the time for the president to explain how and why he got us into this mess," Brown said outside a New Hampshire factory.

In Washington, the Republican National Committee began working Monday on its 1980 platform. Sen. Jacob Javits, one of the first witnesses at the committee hearings, said Carter's response to the crisis in Iran and the Soviet military moves in

Afghanistan had been "erratic and ineffective."

In Iowa, Republican hopeful Sen. Robert Dole criticized President Carter's embargo on grain sales to Russia as "a serious mistake."

Dole outlined a 10-point program to ease the effects of the embargo, including expanded export markets in China and an increase in the use of grain in the Food for Peace program.

In New Hampshire, another GOP contender, Georgy Bush, said his organization in that key primary state is "90 percent complete." He claimed again that he is making inroads into support there for former California Gov. Ronald Reagan, the front-runner.

The Reader's Digest article that created a stir Monday said a computerized study shows Kennedy was driving faster than he claimed at the time of the 1969 auto accident in which Mary Jo Kopechne was killed.

The magazine contention that Kennedy was driving 34 mph at the time his car went off Dyke Bridge was immediately challenged by Stephen Smith, Kennedy's brother-in-law and campaign manager.

Smith told a news conference in Washington that Kennedy stands by earlier statements that he was going about 20 mph.

The magazine article also said its study of tidal currents tends to support the testimony of Kennedy and his colleagues that they were hampered by currents when they tried to rescue Miss Kopechne, who was trapped in Kennedy's submerged car.

At the news conference, Smith also presented an admiralty lawyer and a Massachusetts Institute of Technology professor who challenged another account of tidal currents they said was about to be published by The Washington Star.

The newspaper reportedly has assembled information indicating the currents were not as Kennedy had described them. The news conference was mostly devoted to a technical discussion of the Star's yet-unpublished account.

Garbage may answer need

NEW YORK — In the continuing search for all possible alternatives to evermore expensive oil as a source of energy, government and industry are turning to a nationwide nuisance of which we have too much — garbage.

"Let's face it," Popular Mechanics says in its January issue, "if oil were still plentiful and landfills were begging for business, no one would give garbage power a first, let alone a second, thought."

"But the pressure will come not so much from the need for energy as from the fact that we're about to choke on our own waste. Our dumps take up 780 square miles, \$5 billion worth of land wasted. Mass can be converted to energy. We have to get rid of the mass anyway, so..."

It's being done.

In Palo Verde, Calif., the Los Angeles Sanitation District has drilled methane wells in its garbage landfills, drawing off usable gas. In Hempstead, N.Y., a new garbage recycling plant is processing 2 million pounds of garbage a day, turning it into enough electricity for 120,000 persons. As side money, \$50,000 a year is being extracted in nickels, dimes and quarters from the waste. There are now close to a dozen methane recovery operations around the country — in Chicago, Pompano Beach, Fla., Shreveport, La., and elsewhere.

Garbage power takes many forms. Sewage sludge, the biologically active muck from sewage plants, can be turned into a dry fertilizer. Scientists at New Mexico State University disinfected sewage sludge with radioactive cesium-137 and fed that protein-rich diet to cattle — who thrived on it.

Concludes Popular Mechanics: "There is the proverbial garbage-is-money argument (needed to get the financial community to invest in a big way) and with time and technology, it may work out that way. In the meantime, garbage power still serves a valuable function, no matter what the profit or lack of it. It gets rid of the stuff. And, in the final analysis, garbage is just garbage."

There have been stories headlined: "Garbage is gold." Well, garbage is not exactly that, but it is an energy source and necessity is forcing exploration of its potential.

"Let's face it," Popular Mechanics says in its January issue, "if oil were still plentiful and landfills were begging for business, no one would give garbage power a first, let alone a second, thought."

"But the pressure will come not so much from the need for energy as from the fact that we're about to choke on our own waste. Our dumps take up 780 square miles, \$5 billion worth of land wasted. Mass can be converted to energy. We have to get rid of the mass anyway, so..."

SHERIFF'S SALE
THE STATE OF TEXAS
COUNTY OF MIDLAND
WHEREAS, on the 30th day of June, 1979, in Cause No. T-147, in the District Court of Midland County, Texas, wherein Midland Independent School District, City of Midland, Texas, the State of Texas, and the County of Midland, Texas, were Plaintiffs, Impleaded Party Defendants, and Intervenor, and recovered judgment, against James Arthur Weathered Defendant, for taxes, penalty, interest, and cost against the hereindefendant described property.

WHEREAS, on the 15th day of January, 1980, by virtue of said judgment and the mandates thereof the Clerk of the above mentioned District Court of said county did cause to be issued an Order of Sale commanding me as Sheriff of said county to seize, levy upon, and sell in the manner and form as required by law, the hereindefendant described property.

WHEREAS, by virtue of said judgment and said Order of Sale and the mandates thereof, I did on the 15th day of January, 1980, seize and levy upon the property of the above defendant the following described property, situated in Midland County, Texas, to-wit:

N/2 Less E. 3/4, Sec. 30, Block 30, East Midland as shown by deed from Daniel P. Weathered recorded in Vol. 524, Page 686 of the Deeds records of Midland County, Texas, as dated 2-14-78.

And I will, on the first Tuesday in the month of February 1980, the same being the 5th day of said month, at 2:00 p.m. at the South entrance to the Midland County Courthouse to the highest registered bidder for cash, provided, however, that none of said property shall be sold to the owner of said property directly or indirectly or to anyone having an interest therein or to any party other than a taxing unit which is a party to this suit for less than the amount of the adjudged value of said property or the aggregate amount of judgments against said property in said suit, whichever is lower, subject also to the right of the Defendant to redeem same in the time and manner provided by law and subject also to the right of the Defendant to have said property divided and sold in less divisions than the whole.

Said sale is to be made by me to satisfy the judgment rendered in the above styled and numbered cause, together with interest, penalties, and cost of suit, and the proceeds of said sale are to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

SHERIFF'S SALE
THE STATE OF TEXAS
COUNTY OF MIDLAND
WHEREAS, on the 22nd day of September, 1977, in Cause No. T-324, in the District Court of Midland County, Texas, wherein Midland Independent School District, City of Midland, Texas, the State of Texas, and the County of Midland, Texas, were Plaintiffs, Impleaded Party Defendants, and Intervenor, and recovered judgment, against Ochoa, Defendant, for taxes, penalty, interest, and cost against the hereindefendant described property.

WHEREAS, on the 15th day of January, 1980, by virtue of said judgment and the mandates thereof the Clerk of the above mentioned District Court of said county did cause to be issued an Order of Sale commanding me as Sheriff of said county to seize, levy upon, and sell in the manner and form as required by law, the hereindefendant described property.

WHEREAS, by virtue of said judgment and said Order of Sale and the mandates thereof, I did on the 15th day of January, 1980, seize and levy upon the property of the above defendant the following described property, situated in Midland County, Texas, to-wit:

Lot 7, Block 9, Nueva La Jolla Addition, an addition to the City of Midland, Midland County, Texas, as shown by deed from Hilard Galindo recorded in Vol. 500, Page 738 of the Deeds records of Midland County, Texas, as dated 11-27-79.

And I will, on the first Tuesday in the month of February 1980, the same being the 5th day of said month, at 2:00 p.m. at the South entrance to the Midland County Courthouse to the highest registered bidder for cash, provided, however, that none of said property shall be sold to the owner of said property directly or indirectly or to anyone having an interest therein or to any party other than a taxing unit which is a party to this suit for less than the amount of the adjudged value of said property or the aggregate amount of judgments against said property in said suit, whichever is lower, subject also to the right of the Defendant to redeem same in the time and manner provided by law and subject also to the right of the Defendant to have said property divided and sold in less divisions than the whole.

Said sale is to be made by me to satisfy the judgment rendered in the above styled and numbered cause, together with interest, penalties, and cost of suit, and the proceeds of said sale are to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

DATED at Midland, Texas, this 15th day of January, 1980.

Dallas Smith, Sheriff, Midland County, Texas
By W. T. Mitchell Deputy
(January 15, 22, 29, 1980)

LEGAL NOTICES

NOTICE TO BIDDERS
Sealed proposals, addressed to the Mayor and City Council of the City of Midland, Texas, for the furnishing and installation of approximately 50 linear feet of 6" 85 linear feet of 18" CIP or DIP water line and relocation of approximately 128 feet of 18" water line. The proposals shall be accompanied by a check for \$500.00 as a bid bond. The proposals shall be received at the office of the City Secretary, City Hall, Midland, Texas, until 2:30 p.m. on the 17th day of January, 1980, and publicly opened and read aloud at 3:00 p.m. on the same day.

Any bid received after closing time as stated above will be returned unopened. Bid envelopes shall be plainly marked "Proposal for Project M-19".

Complete copies of plans, specifications and contract documents may be examined and obtained at the office of the City Engineer, City Hall, Midland, Texas.

A bid bond or proposal guaranty is to accompany the bid, thereby guaranteeing the good faith of the bidder and that the bidder will enter into the written contract. The guaranty is to amount to five percent (5%) of the total bid. The bid bond is in the form of cash or certified check, issued by a bank authorized to do business in the City of Midland, Texas, and is to be deposited with the City of Midland, Texas, and is to be held by the City of Midland, Texas, as a condition of the award of the contract. The bid bond is to be returned to the bidder upon the execution of the contract and satisfactory performance bond or payment bond. If a bid bond is submitted, it shall be subject to the provisions of the contract and to the provisions of the contract documents and to the provisions of the contract documents and to the provisions of the contract documents.

SHERIFF'S SALE
THE STATE OF TEXAS
COUNTY OF MIDLAND
WHEREAS, on the 27th day of February, 1979, in Cause No. T-337, in the District Court of Midland County, Texas, wherein Midland Independent School District, City of Midland, Texas, the State of Texas, and the County of Midland, Texas, were Plaintiffs, Impleaded Party Defendants, and Intervenor, and recovered judgment, against S. Greer, Defendant, for taxes, penalty, interest, and cost against the hereindefendant described property.

WHEREAS, on the 15th day of January, 1980, by virtue of said judgment and the mandates thereof the Clerk of the above mentioned District Court of said county did cause to be issued an Order of Sale commanding me as Sheriff of said county to seize, levy upon, and sell in the manner and form as required by law, the hereindefendant described property.

WHEREAS, by virtue of said judgment and said Order of Sale and the mandates thereof, I did on the 15th day of January, 1980, seize and levy upon the property of the above defendant the following described property, situated in Midland County, Texas, to-wit:

1.5 Acres, Section 11, Block 307-2-S, Midland, Midland County, Texas, as shown by deed from Walter O. Lettis, recorded in Vol. 509, Page 435 of the Deeds records of Midland County, Texas, as dated 11-27-79.

And I will, on the first Tuesday in the month of February 1980, the same being the 5th day of said month, at 2:00 p.m. at the South entrance to the Midland County Courthouse to the highest registered bidder for cash, provided, however, that none of said property shall be sold to the owner of said property directly or indirectly or to anyone having an interest therein or to any party other than a taxing unit which is a party to this suit for less than the amount of the adjudged value of said property or the aggregate amount of judgments against said property in said suit, whichever is lower, subject also to the right of the Defendant to redeem same in the time and manner provided by law and subject also to the right of the Defendant to have said property divided and sold in less divisions than the whole.

Said sale is to be made by me to satisfy the judgment rendered in the above styled and numbered cause, together with interest, penalties, and cost of suit, and the proceeds of said sale are to be applied to the satisfaction thereof, and the remainder, if any, to be applied as the law directs.

Mechanic must furnish own hand tools, 45 hours per week, 9 hours per day, 10 days on duty, 4 days off. Salary commensurate with experience. Excellent company benefits. For application and interview contact the personnel office.
THE PERMIAN CORPORATION
Garden City Hwy, Midland
An Equal Opportunity Employer M/F

Darkroom Technician
The Reporter-Telegram is looking for a highly-motivated individual to work part-time in its photographic darkroom.
Two years experience in processing black and white film and printing black and white photographs is required. Shooting experience is helpful, but no shooting will be done by technician.
Hours are Monday through Thursday 7 p.m. to 11 p.m. and Saturday 10 a.m. to 2 p.m. Total hours will not exceed 19 per week.
Pay is \$3.35 per hour
Applicants are asked to call Personnel Manager Billie Slemmons, 682-5311, for an appointment. Examples of work the applicant has processed and printed should be brought to the interview.

AUTOMOTIVE MAINTENANCE PERSON
Job consists of servicing, wash & grease and other maintenance on 13 unit fleet of cars and pickups. Must be able to maintain records. Tune-up and other light repair experience helpful. 5 day week, Monday thru Friday. Full package of company benefits. Must furnish references.
Apply to: PERSONNEL DEPT.
