# He has precious cargo

Letters from hostages are on the way

By The Associated Press

American Indian activist John Thomas heads for the United States today with a precious cargo of letters from the American hostages now in their 75th day of captivity by Iranian militants in Tehran.

Thomas stopped in Frankfurt, West German to deliver his first letter to Anna Holman, whose husband Sgt. Donald Holman is listed among some

50 Americans held since Nov. 4 by the militants at the U.S. Embassy. Holman was stationed with the U.S. Army in Frankfurt before being assigned to Tehran and his wife remained in Germany, informed

sources said. Thomas went to Tehran two weeks ago at the invitation of the militants to attend an international conference of liberation movements. He is due to fly

## Nothing new reported Southwest's strike

tinued today as striking Southwest Airlines workers charted new strategy in the four-day-old walkout and management considered hiring new employees to replace the 106 striking mechanics, cleaners and stock

"We are not anti-union," said Howard Putnam, president and chief executive officer of Southwest. "But we feel we have the right to keep the money coming into the till. And that's

what we are trying to do." Union officials were unavailable for comment on Putnam's threat or on what took place in Wednesday's strat-

egy session. Airline officials said there had been no further negotiations since the International Association of Machinists and Aerospace Workers called the strike shortly after midnight Satur-

Since the strike began early Sunday, the airline have canceled all its Saturday flights and reduced other daily schedules to the December 1978

Southwest signed a contract Tuesday with E-Systems Inc., a Dallasbased company, to perform scheduled maintenance on its jetliners during the strike.

Gary Barron, Southwest's vice president for corporate services, said the contract will allow the airline's supervisory personnel to concentrate on daily, operational maintenance, and could soon lead to an increase in the number of flights.

The disagreements between the company and the union centered on vacation, overtime, and base pay raises in the second and third years of a proposed three-year contract. Negotiations began last July.

## Tension apparently eased in strike against oil refineries

HOUSTON (AP) - An injunction that prohibits harassment and property damage has apparently eased tension along picket lines set up by striking oil workers, according to several refinery spokesmen.

Members of the Oil, Chemical and Atomic Workers union entered into the injunction after two oil firms and a construction company filed suit against the union.

The suit alleges that union members were blocking plant entrances, verbally abusing people, scattering nails along the roads to the plants and throwing rocks onto plant parking

The union denied the allegations. Oil company officials said production in the refineries was continuing at normal levels, but Roy Barnes, secretary-treasurer of the Houston local, disagreed.

'We do know that production has been reduced," Barnes said. "I think the strike will continue to reduce the amount of production because the people in the plant are not qualified

Supervisory personnel took over plant operations last week after about 60,000 OCAW members walked off their jobs. The union members want fully paid health care plans, more vaction time and a pay increase.

## This month Sen. Proxmire gives a tip of the hat

WASHINGTON (AP) - Sen. William Proxmire put aside his usual "Fleece of the Month" award today and instead gave a tip of the hat to a

cost-cutting Air Force general.

Proxmire, a Wisconsin Democrat, suggested an "award of merit" for the Air Force and Gen. Alton D. Slay, commander of its Systems Command, for trying to bring more competition into Air Force weapons

The action, Proxmire said in a statement, could save millions annually and "will reduce gold-plating and other unnecessary wasteful prac-

Over the past five years Proxmire has presented a "Golden Fleece" such month to what he considers the most ironic or extravagant waste of overnment money. On occasion, he has handed out "merit awards" as

He said Slay has insisted on a number of reforms in the way the Air orce buys \$14 billion worth of weapons systems each year. One of those reforms, the senator said, is insistence on competitive bidding.

# Afghans expel U.S. newsmen the refugees told the British official By The Associated Press

Afghanistan's pro-Soviet government today ordered the expulsion of all American journalists, accusing them of biased reporting and interference in Afghan internal affairs, said a Western diplomat in New Delhi,

"The U.S. correspondents were detained by Afghan authorities at the Kabul Intercontinental Hotel and told this morning to leave on the first available flight," said the source, who declined to be identified.

The U.S. Embassy in the Indian capital said the American Embassy in Kabul was informed of the explusion order. Initial reports said only American citizens were to be deported, the source said. It was not clear if this included non-Americans working for U.S. organizations.

The Afghan order came three days after Ayatollah Ruhollah Khomeini's regime in neighboring Iran ordered all American journalists out of that

Diplomats in New Delhi estimated 50 to 60 Americans are in the Afghan capital. Much of their news reports and film have been handcarried to other countries since ommunications have not worked normally since the Soviet intervention in Afghanistan on Christmas Day.

On Wednesday, Britain's Foreign Secretary predicted that the Soviet Union will not advance beyond Afghanistan for the time being but warned the Western allies to give top priority to bolstering Pakistan's defenses.

"Anybody who does not take the Soviet threat to the region seriously is certainly deceiving himself," said Lord Carrington after a visit to a refugee camp in northwest Pakistan 40 miles from the Afghan border and 180 miles from Kabul, the Afghan

"There will be a period of comparabe unwise for the West not to understand the urgent need for the defense of their interests, including Pakistan's security."

"We are fully aware of the danger now and we are going to move fast now," said Carrington when a reporter noted that the Western nations took no action to counter the expanding Soviet influence in Afghanistan after the first communist coup in May

"Our compatriots are still fighting all over Afghanistan," elders among

and reporters with him.

But there were no reports of new fighting between the Moslem guerrillas who rebelled against communist rule 20 months ago and the Soviet and Afghan armies. U.S. military analysts in Washington said earlier this week that contrary to unconfirmed reports from Afghan rebel sources of widespread attacks on the estimated 100,000 Soviet troops in Afghanistan, the Russians have not yet had to mount a major offensive.

Lord Carrington went from Pakistan to New Delhi to meet with Prime Minister Indira Gandhi, who retreated from her previous much-criticized support of the Soviet military intervention in Afghanistan.

Last week, just before she became prime minister, Mrs. Gandhi was responsible for a reversal of the outgoing Indian government's condemnation of the Russian action. Instead, the Indian delegate to the United Nations said his government accepted the Soviet government's assurances that Soviet troops were in Afghanistan at the request of the Afghan government and would leave when that government asked them to go.

"I don't think any country is justified in entering another. ... I don't think we supported the action, we're just trying to find a way so that the situation doesn't escalate," Mrs. Gandhi said after meeting with Car-

U.S. Deputy Secretary of State

Warren Christoper, winding up a tour of Western Europe to drum up sup-port for retaliatory action against the Soviets, told reporters in Bonn, West Germany, it was "heartening for the United States to see the shared con-cern" over Afghanistan and Iran.

But while most of the allies agreed on the need to punish the Soviets, Christopher reportedly found little or no encouragement for a U.S. proposal to boycott the summer Olympics in Moscow. The European governments were said to fear a boycott would anger the public and would be difficult to enforce.

U.S. officials said President Carter might decide the United States should go it alone with a boycott. But they admitted he could not order one and would have to depend on public opinion and the prestige of the presidency to force the U.S. Olympic Committee to comply.

In the capital of pro-Soviet Syria, meanwhile, a bomb shattered the office of the Soviet airline Aeroflot in an apparent protest against the intervention in another Moslem nation. One person was injured in the bombing, the first attack on a Soviet target in the Syrian capital in recent memo-

The blast came while delegates of four pro-Soviet Arab nations and the Palestine Liberation Organization were meeting in Damascus to discuss a pan-Islamic conference on Afghanistan, planned for Jan. 26, in Islamabad, Pakistan.

## Soviet warships moving out of Japan Sea

TOKYO (AP) — Five Soviet navy ships, led by an advanced-class cruiser, sailed south through the Japan Sea this morning, possibly headed toward the Indian Ocean, the Japanese Defense Agency report-

Since the onset of the crisis over the seizure of the U.S. Embassy in Tehran, the U.S. Navy has dispatched some 20 ships to the Indian Ocean-Arabian Sea area near Iran.

Japanese sea patrols spotted the 8,200-ton, Kara-class cruiser escorted by two missile destroyers passing about 40 miles northwest of Fukuejima Island, off Japan's southernmost main island of Kyushu, the agency said. They were followed by a landing ship and a minesweeper.

The cruiser, believed to be the Petropavlovsk, was flying a one-star pennant, indicating a fleet commander was aboard, the agency said. The Petropavlovsk had accompanied the Soviet aircraft carrier Minsk on its cruise from Europe to Vladivostok, the Soviet Far East, last

# Shell Oil president sees gas prices reaching \$2

NEW YORK (AP) — The president of Shell Oil Co., which says its net profit for 1979 will exceed \$1 billion, says gasoline prices in the United States could reach the \$2-a-gallon range late this year.

Shell has notified dealers of another nickel-a-gallon wholesale gasoline price increase, industry sources say. The increase, the second in two weeks, took effect at midnight Wednesday, said the sources, who asked not to be identified.

Shell spokesman Norman Altstedter would "not confirm or deny"

Last week's Shell gas price increase, one of several announced in recent days by major oil companies, was attributed by the company to the more than 20 pergent rise in world crude oil prices since autumn. Shell's president, John F. Bookout,

told reporters earlier Wednesday he feels gasoline prices "will continue to increase" because the higher costs that are resulting from the crude oil price hikes are "already built into the

While Bookout did not comment specifically on Shell's product prices, he said "it's not all that unlikely" U.S. gasoline prices will climb to the \$2-agallon range in "late 1980 or 1981."

Bookout said Wednesday Shell's net income for 1979 will rise about 23 percent over 1978 to "a little bit over \$1 billion" as its spending on exploration, production and refinery construction rises 8 percent to \$2.7 bil-

Shell is the nation's eighth-largest

Gulf Oil Corp. announced in Pittsburgh Wednesday, that it is boosting its 1980 capital spending budget by 25 percent to \$3 billion. The nation's fifth-largest oil company spent \$2.4 billion last year.

Libya, Iran and several other Organization of Petroleum Exporting Countries members already charge \$30 a barrel and up - or around 75 to 85 cents a gallon — for crude oil sold under long-term contracts.

The U.S. government, meanwhile, recently sold oil from its Elk Hills, Calif., reserve for nearly \$1 a gallon.

A barrel of crude oil contains 42 gallons and yields about 20 gallons of gasoline

Domestic oil prices rise along with overseas prices because 60 percent of the U.S. oil supply is not under price controls.

U.S. prices are to rise to world levels by October 1981, but so-called "windfall" taxes are expected to re-turn much of the added revenues from the hikes to the U.S. government.

Leaded regular gasoline now sells for an average of \$1.094 a gallon, up 60 percent from a yeay ago, according to the Lundberg Letter, an industry publication. But at one Connecticut filling station Wednesday, the fuel was selling for \$1.134 a gallon.

Bookout said U.S. gasoline consumption in 1979 was 7 percent to 71/2 percent lower than it was in 1978 as prices rose and as federal mileage rules gradually increased auto fuel efficiency.

"I've seen forecasts of a (further) 5 to 51/2 percent drop in 1980" gasoline use, he said.

## Midland man, 52, killed on Garden City Highway

A 52-year-old Midland man was killed instantly early this morning when the car he was driving veered, struck a traffic island and flipped while traveling east on the Garden City Highway near the Interstate 20

overpass in southeast Midland. Killed was James Stevens Henderson, who became the first traffic fatality of the year in the city. Last year, nine people were killed in eight traffic mishaps here.

Henderson, of Route 3, was thrown from his 1971 sedan, reported the investigating police officer, Jeff

Marugg, and suffered back and scalp injuries. Peace Justice John Biggs pronounced him dead at the scene.

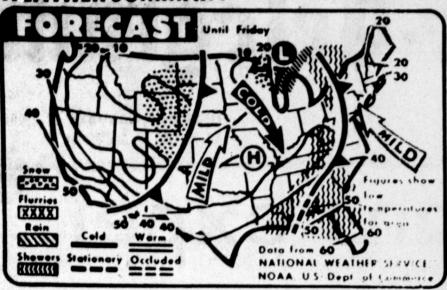

Henderson, who was alone in the car, apparently was driving home at time of the accident, which was reported about 2:15 a.m. He lived off County Road 1218 South.

Police traffic officers Sgt. G.W. Waid and Jim Tenison are continuing the investigation into the mishap this morning.

Police said the force of Henderson's car tore down two traffic warning

## Sheriff seeking re-election

By BILL MODISETT Staff Writer

During a press conference this morning, incumbent Midland County Sheriff Dallas Smith announced he will be a Republican candidate for re-election to the position he's held since election in November 1976.

"During the past three years," Smith said, "I have enjoyed the opportunity given me by the people of Midland to manage and conduct this office. It is my decision to seek re-election as sheriff of Midland Coun-

Citing the sheriff's department's accomplishments during his first term, Smith noted, "My goal is a community where citizens can live without fear, accomplished with welltrained and educated officers who recognize the priorities in their jobs, who conduct themselves professionally and who never forget that the

taxpayer pays for this service." Fielding questions from news media representatives at the announcement, Smith said his most significant accomplishment as sheriff has been a continuing education program for his officers, improvement of salaries and upgrading the department's equipment.

Citing increases in salary for officers, Smith said, "By 1981, I'm sure we'll be at least equal (to other law enforcement agencies) in all areas." Smith acknowledged that he is de-

manding of his officers and said the mandatory education and training programs he's instituted have led to ome turnover of personnel in the

department.

But he cited statistics showing that the department's workload has in-

**Sheriff Dallas Smith** 

creased and is more efficient. The first-term sheriff said the department answers calls from residents of the city and Midland County. City residents have a choice of calling either the police department or sheriff's department, Smith said.

"If they call us, we will indeed work their complaint," he noted.

Smith, 37, was born in Groves and came to Midland in 1965. Prior to his election in 1976, he was employed as a patrolman for the Texas Department of Public Safety for seven years and with an oil company here for four

# New MMH Trustees introduced

By DAVID CAMPBELL Staff Writer

New hospital trustee members and officers were introduced in the Wednesday meeting of Midland Memorial Hospital Board of Trustees. And the new members in turn were

introduced to the financial situation of the hospital. Dr. Brent Blonkist, John C. Dorn, Robert Bledsoe and Mrs. James H. Purvis were elected to serve fouryear terms as MMH trustees. All four Midlanders were elected during the

Jan. 9 meeting of the Midland Memo-

rial Foundation Board of Governors.

Trustee Martin Allday, who is running for the mayor's seat being vacated by Ernest Angelo Jr., announced his retirement as a member of the hospital's trustees. Richard Gibson was elected to finish Allday's one remaining year in office.

Tevis Herd, Mickey Cappadonna and John Grimland Jr. were elected to serve as president, vice president and secretary-treasurer respectively Finance committee member Roy

Campbell reported a deficit of \$44,000 which occured last December. Originally the deficit was projected to have

A major cause of this deficit, according to Wayne Ulrich, MMH administrator, was a low occupancy of patients during December. However, Ulrich mentioned bad debts, indigent care services and the federal government's Medicare and Medicaid programs as other causes of the deficit."

About 35 percent of Midland Memorial Hospital's patients are covered under federal programs like Medicare and Medicaid, Ulrich said. Medicare usually pays up to 100 percent in some cases. But MMH is paid only 85 percent of the charges to these patients, the administrator said.

#### State Rep. Tom Craddick announced Wednesday he will seek reelection to a seventh term from the 68th District.

The district includes Midland, Glasscock, Reagan and Upton coun-

Craddick was first elected to his position in 1968. He has become the first Republican to be named chairman of a permanent Texas House committee, serving as head of the

Natural Resources Committee. Also a member of the House Energy Committee, Craddick, in making his announcement, pointed out that the energy situation will continue to be one of the major focal points in the next session because of Congress inability to formulate a clear cut energy

"This lack of a definite policy will increase the difficulties that the individual states will encounter in formulating intelligent energy policies," he

Craddick cited his past experience in the State Legislature and exposure to the state's continuing energy problems, saying this experience "will help during the coming difficult period in which the federal and state governments strive to produce a sound energy policy for the future."

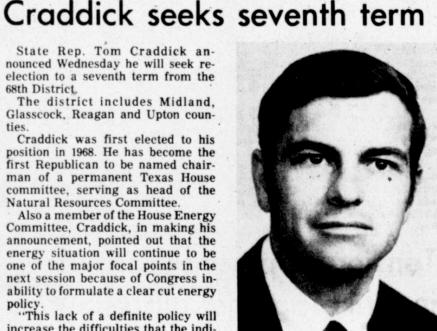

The Energy Committee also will handle many other problems that will affect the economic well-being of the state, he added.

Craddick is a member of the Texas Mining Council and the Texas Energy and Natural Resources Advisory Council. He also represents the state on the Inter-State Oil Compact Commission, the Natural Resources Task Force of the National Conference of State Legislatures and the Environ-

#### U.S. Marshals still searching for escapees

BIG SPRING - Officials from the U.S. Marshal's office in Abilene are still searching for two men who walked away from the minimum se curity federal prison here sometim early Wednesday.

Both men, Jorge Carillo-Collaco, 1 of Juarez Mexico, and Alfonso Nava ro-Lujan, 23, of Mexico had been con victed of illegal entry in the U.S prison officials said. They had bee sentenced to serve 179 days in th facility and would have been release

## Bomb kills Arab, wounds German

LONDON (AP) - A terrorist bomb being assembled by a man of "Arab origin" ripped through six rooms of a popular London hotel this morning, killing him, injuring a West German and sending terrifled guests, many in nightclothes, fleeing into the chilly streets, police said.

The bomb went off at 7:30 A.M. on the fifth floor of t'ne 702-room Mount Royal Hotel near Marble Arch and Hyde Park's Speaker's Corner, two noted London tourist attractions.

Caesar Beaudowx, a Dutch businessman who was in a room 30 feet away from the blast, said most of the guests on the fifth floor seemed to

be Turks and Iranians. 'Smoke was pouring from the bombed room when I ran past it to a fire

escape," he said. "I've never been as frightened before in my whole

John MacAndrew, a Chicago businessmar, staying at the nearby Churchill Hotel, said he was taking an early morning walk when the blast

Within a few minutes there must have been about 100 people from the hotel out on the pavement. Many of them were in their nightclothes, pajamas and nightdresses. Some of them were barefoot too. Some of the women were crying."

Egyptian businessman Alghraby Abealt is, who was staying on the sixth floor of the Mount Royal, told reporters: "I heard the fire alarm go off and I grabbed some of my belongings and ran for the fire stairs. It was a great shock.

Mary Spitawik, a hotel guest from Seo Paulo, Brazil, said: "There was no panic. I didn't see anyone who was hurt but a lot of people seemed Police said the bomb caused a sma'll fire, but that the blast caused most

of the damage. The area near the hotel was cordoned off and Scotland Yard's

anti-terrorist squad moved in to irrvestigate. There has been a lull in Arab terrorism in London since August 1978,

when a gunman and an air hostes,s died in an attack on a bus carrying an Israel El Al airline crew.

Earlier that year, Said Hammami, spokesman for the Palestine Liberation Organization, was murdered here by gunmen; two Syrian embassy officials were blowr, up in their car — probably by their own bomb, and the ex-premier of Iraq, Gen. Abdul Al Naif, was assassinated in Park Lane.

#### Guerrillas fire on three reporters

SALISBURY, Rhodesia (AP) - Black nationalist guerrillas fired at three Western reporters on a remote road in Rhodesia, but missed. Greg Jaynes of the New York Times' Nairobi bureau, Sean Kelly of Voice of America and Michael Farr of the London Telegraph said they were driving in a rented car to a cease-fire assembly camp south of Salisbury when the attack occured Wednesday.

They said the British Commonwealth truce force had told them the road was safe. But after driving about 15 miles they were stopped by a dozen guerrillas who had blocked the road. The men wore uniforms of Robert Mugabe's wing of the Patriotic Front guerrilla alliance, the

Ten of the guerrillas scattered into the bush but two remained in the road. One of them aimed his Soviet-made AK-47 assault rifle at the car and demanded to now where the reporters were going.

Farr said he told the guerrillas they were driving to an assembly camp at which point the gunman shouted: "British killers. Kill the British." "This is loaded. Now I will kill you," the guerrilla said, pointing his rifle three fret from Jaynes' head.

He fired a volley from the semi-automatic rifle that missed the car, the reporters said. Kelly, who was driving, stepped on the gas and pulled away as the guerrilla loosed a second burst that also missed, they

The reporters later met a Rhodesian government convoy and were escorted to an army base. From there, a British military vehicle escorted them back to Salisbury.

It was the first reported shooting incident involving Western reporters since the British-sponsored cease-fire took effect in Rhodesia earlier this month. Under terms of the truce, all guerrillas were to have moved to British-run assembly camps pending the outcome of next mon

#### Japan asks U.S. understanding

TOKYO (AP) - A top government official said today Japan basically will cooperate with the United States in dealing with the Iranian crisis and the Soviet intervention in Afghanistan, but urged the Carter administration to understand how dependent the Japanese economy is on

Japan also trades heavily with the Russians and has big investments in Siberian natural resource projects.

Chief Cabinet Secretary Masayoshi Ito outlined the position to Philip Habib, President Carter's envoy who came to Tokyo to urge Japanese cooperation in proposed sanctions against Iran over the taking of some 50 American hostages at the U.S. Embassy in Tehran Nov. 4, and against the Russians for the Soviet military thrust into Afghanistan last month.

Ito, standing in for Foreign Minister Saburo Okita, who is visiting Australia and New Zealand with Prime Minister Masayoshi Ohira, told Habib Japan will cooperate in urging Iran to release the captives, but reminded him of close trade ties between Iran and Japan, which imports 99 percent of its oil - 11 percent of it from Iran.

#### Paul faces second night in jail

TOKYO (AP) - Rock star Paul McCartney faces a second night in a Japanese jail as narcotics officials question him about half a pound of marijuana customs officers said they found in his suitcase.

The Clear Light Society, which is campaigning to legalize marijuana smoking in Japan, called for the immediate release of the 37-year-old ex-Beatle. Tokyo newspapers predicted he would be expelled from the country without being brought to trial.

If convicted of possessing and smuggling marijuana, he could be sentenced to seven years in prison and fined \$2,000.

McCartney was arrested Wednesday when he, his wife Linda, their four children and his rock group Wings arrived for a 11-concert tour. He waved cheerfully to a group of high school students when he was brought from police headquarters to the Central Narcotics Bureau today for questioning. He also was to confer with a Japanese attorney recommended by the British consulate.

#### Tito's leg gradually deteriorating

BELGRADE, Yugosgavia (AP) - President Josip Broz Tito's left leg is in a state of "gradual deterioration," his eight doctors reported

But they said the general condition of the 87-year-old leader "continues to improve," and that his temperature, blood pressure and pulse were

The doctors gave no indication what they planned to do to relieve a blockage in the Yugoslav president's leg following unsuccessful surgery last weekend.

However, there has been widespread speculation about possible amputation of the leg following last Sunday's surgery.

#### JDL warns against PLO move-in

NFW YORK (AP) — The national chairman of the Jewish Defense League has pledged that "the streets will run red" if the Palestine

Liberation Organization moves into an East Side townhouse. Shouting "Two, four, six, eight, Israel is a Jewish state, three, five, seven, nine, no such thing as Palestine," two dozen JDL demonstrators protested on Park Avenue, a block from the Georgian red-brick building the PLO bought last week. Police refused to allow the protestors to demonstrate in front of the building.

## Refugees say pirates rape, kill

BANGKOK, Thailand (AP) - Pirates operating in the Gulf of Thailand have killed at least 150 Vietnamese boat people who took refuge on an island off the Thai coast, Western sources said today.

Officials in the office of the U.N. High Commissioner for Refugees said they were "distressed" and "concerned" by repeated incidents at Kra Island, part of Thai territory 30 miles off the southern coast.

# Dog attacks raise fears about

MIAMI (AP) - Her ear ripped in half, her eyes badly bitten, 72-year-old Ethel Tiggs underwent surgery Wednesday following a savage mauling by the two pet dogs she loved.

The dogs, Snook and Elton John, had torn at the elderly woman's clothes until only a scrap of bra was left on her body.

'It was a horrible sight - she was stark naked and the dogs were in a frenzied state, biting her everywhere," police officer Richard Wagner said of the Tuesday afternoon attack.

Mrs. Tiggs was in satisfactory condition Wednesday night at Bascom-Palmer Eye Clinic in Miami following surgery to repair lacerations around her eyes, said nursing supervisor Arthur Brown. Officials said Mrs. Tiggs was bitten on the scalp, mouth, ears, back, buttocks and eyes.

It was the second mauling by pit bull terriers in this area in less than two months. On Dec. 1, 7-year-old Frankie Scarbrough lost an ear and most of his scalp in a pit bull attack. Doctors say the youngster's extensive facial

wounds will require years of reconstructive surgery. The city commission in Frankie's hometown of Hollywood, Fla., unanimously approved a tough new terrier ordinance Wednesday. The new ordinance requires owners of pit bulls, American pit bulls or Staffordshire terriers to register their dogs with the city and provide proof of \$25,000 in liability

The two recent attacks revived memories of a 1945 tragedy in which a woman was torn to death and partially eaten by a pack of pit bulls. But a leading trainer defends the breed as no more violent than a Chihuahua or a

"Does this look like a vicious dog to you?" asked Vince Cooper, scratching the nose of a terrier named Queenie at his Pine Whisper Kennel in Opa-locka, where about 40 pit bulls are housed.

As news of the attack spread, Cooper said he received calls from dozens of worried owners. "They want to know if this is normal for pit bulls," he said. Queenie's owner simply brought the dog to the kennel and left, he said.

Pit bulls are known for strength and ferocity. Local owners of pit bulls say

they keep the dogs because they are courageous and loyal companions. "I love the courage they show," Cooper said. "They're a tough dog. I like

Pit bulls are often used in illegal dog fights, police say. Game wardens recently stumbled upon a crowd of people in what appeared to be an elaborate dog-fighting arena in a remote corner of the Everglades. No arrests were made because the officers witnessed no actual dog fighting.

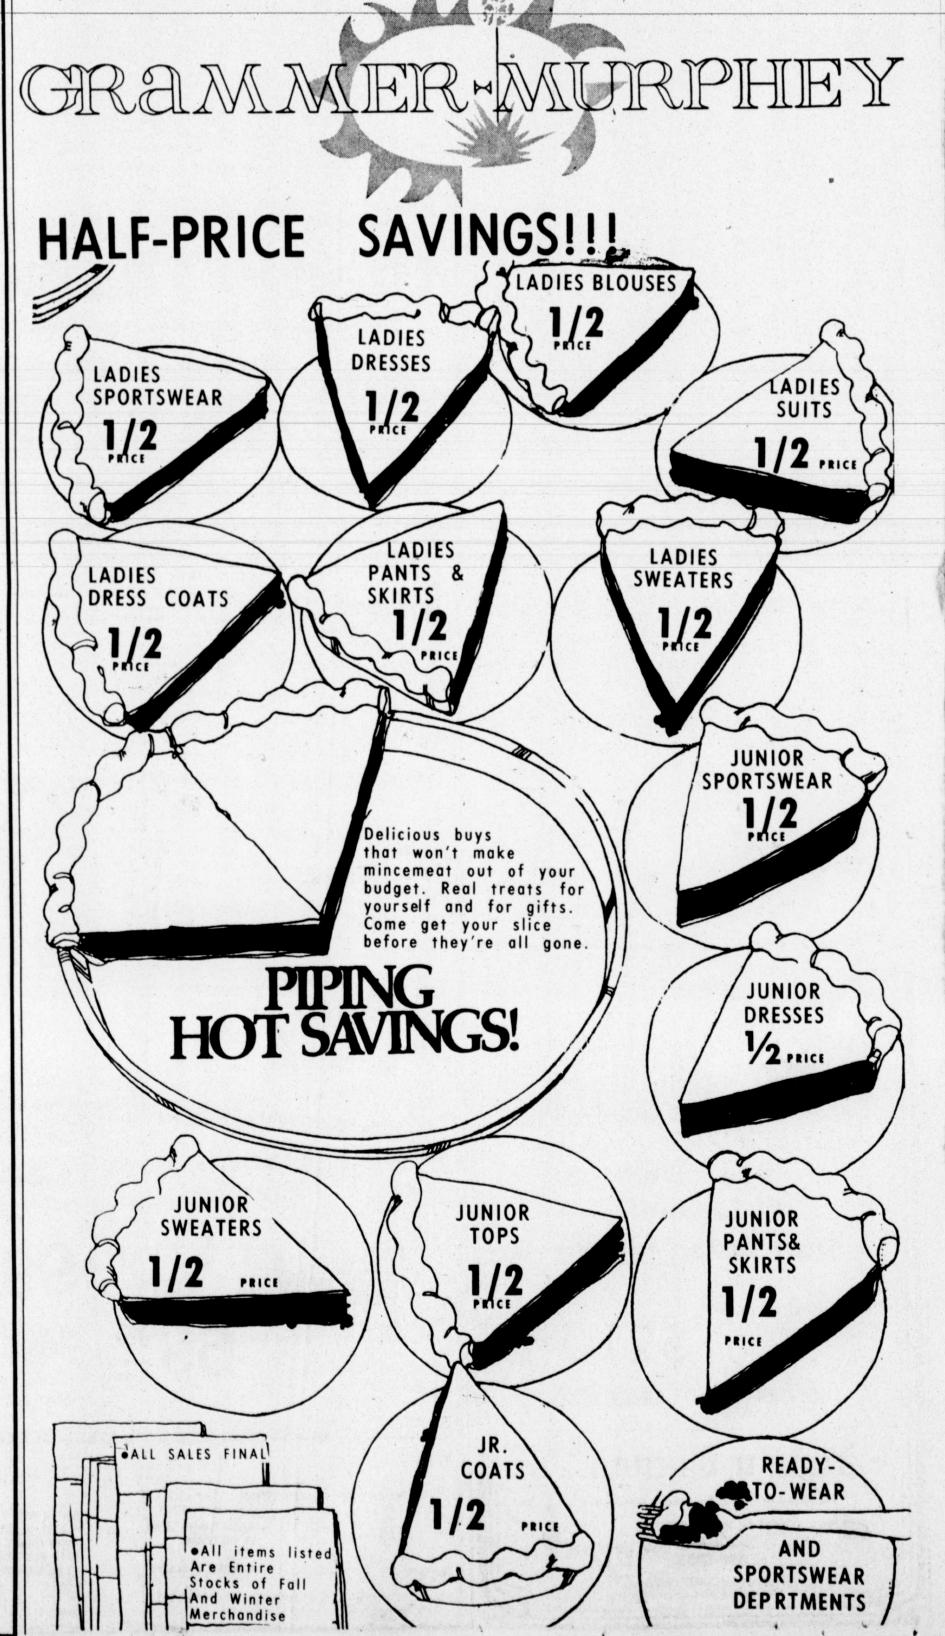

Cooper insisted the dogs are not inherently dangerous, given proper training. "By nature, pit bulls are very rambunctious dogs," he said. "They love to live. They love to chase lizards and run around. If that energy is misdirected, then

you can have problems.' Cooper said it would be discriminatory to enact dog control laws aimed only at pit bulls. The Hollywood ordinance would require owners of pit bulls, American pit bulls or Staffordshire terriers to register their dogs with the city, provide proof of \$25,000 liability insurance and notify officials if the pit bull bites another dog.

"The dog that bit Frankie had attacked an English sheep dog two days before," said Nancy Cousins, deputy city attorney. "He had demonstrated vicious cgaracteristics even before the attack on the little boy."

She said Mrs. Tiggs' mauling raises a more difficult issue

"You can't legislate everything," she said. "How are you going to prevent somebody's own dog from attacking them? If a dog turns on its owner, what are you going to do?

By ERMA BOMBECK

You've all seen them.

They're members in good standing of the free-spirit generation who take to the open road in search of themselves with nothing but a pack on their backs, a T-shirt that makes a statement and a top ten song on

I saw one of them last summer in an airport in a remote village in New Guinea. I was sitting on eight pieces of matched luggage at the time. He ambled off the plane in faded blue jeans and sandals, reached into his pack (I've carried larger cosmetic bags), took out a quart of orange juice and drank the entire thing chugalug. His load down a quart, he pushed out the door and into another adventure.

As parents, have you ever wondered how these young people travel so light and so far?

Because somehwere in Toledo, Ohio, a mother is falling over his \$800 stereo system, 3,000 records, and six-piece drum set.

Somewhere in Tyler, Tex., a mother is arranging the house around his barbells and his water bed. Somewhere in Little Rock, Ark., a mother is running to the post office every three hours with his sweaters, books and skis.

Home dropouts are becoming staples on the American scene. Just when you think their goodbyes are final, you look down at your feet and there's their dog with a sign around his neck: "Store, feed and love until I return."

My mail reflects what I am saying. One woman in Ocala, Fla., even suggested I come up with a bill of divorcement for parents to present to their adult children who regard their homes as first class storage lockers. Here's a start.

"Whereas...when a meaningful relationship be-tween parent and child ends, child will get custody

"The car that has no motor, no tires and no future and occupies the only parking space in the garage.
"Three closets full of memorabilia including every
blue book from every test ever taken to bubblegum baseball cards to typing trophies to broken tennis rackets.

"Let it be known to all parties that mail unopened after 20 days will be sent back to the sender. Anything that has to be fed, cleaned or started during cold weather will be sold at public auction.

"Traveling young adults must register with their parents at least once a year...or lose their family citizenship status and part-time residency. "Hair dryers, records, books and clothes left behind longer than 60 days become community

If this doesn't work...try changing your locks.

## Medicaid may pay for some abortions

NEW YORK (AP) - Attempts by Congress to deny Medicaid payments for "medically necessary" abortions are unconstitutional, a federal judge ruled in a major test case, and funds must be provided for abortions if doctors determine they are needed.

The government said it would appeal to the U.S. Supreme Court the decision Tuesday by U.S. District Judge John Doobing. Dooling delayed for 30 days the effective date of his order, which would apply around the nation if upheld.

Dooling deliberated for 13 months before handing down the 642-page order holding the Hyde Amend-ment unconstitutional and ordering the government to provide matching funds for abortions.

The amendment sponsored by Rep. Henry Hyde, R-Ill., has been attached to government money bills since 1976. It bars federal Medicaid funding for abortions except in cases where a woman's life is endangered or where pregnancy resulted from rape

"A woman's conscientious decision, in consultation with her physician, to terminate her pregnancy because that is medically necessary to her health is an exercise of the most fundamental of rights, nearly allied to her right to be," Dooling ruled.

The Supreme Court now has before it an appeal of an Illinois federal court decision that the Medicaid ban is unconstitutional. That judge did not specifically order the government, as Dooling did, to stop implementing the ban.

The New York case, which was before Dooling for the second time, is considered a major test of the Hyde amendment's constitutionality, with both pro-and anti-abortion advocates raising the variety of legal issues the legislation raised, including the question of whether it violated separation of church

In ruling, Dooling said a decision to terminate pregnancy is "surely part of the liberty protected by the Fifth Amendment, doubly protected when the liberty is exercised in conformity with religious belief and teaching protected by the First Amend-

"We have always known that the Medicaid system, which was designed to provide medically necessary services to the poor, could not be used for arbitrary, political purposes," said Faye Wattleton, president of Planned Parenthood of America, whose New York branch joined in the suit.

'There is no basis in the Constitution that would justify this ruling," said Gerald Bodell, attorney for several congressmen who intervened on behalf of the

Dooling defined "medically necessary" as "all factors, physical, emotional, psychological, familial and the woman's age relevant to the health-related well-being of the pregnant woman."

The decision came in a class-action suit filed in 1976 on behalf of a Brooklyn woman who was refused Medicaid funds.

The Supreme Court in 1973 broadened the rights of women to have abortions but in 1977 reduced the obligations of states to finance them. Some states have provided abortions under Medicaid with states and cities footing the bill.

In another case Tuesday, a judge in Washington, D.C., dismissed a suit by the Roman Catholic Church contending that the Pregnancy Discrimination Act of 1978 was unconstitutional because it could force the church to pay for abortions.

The law requires many employers to provide sick leave benefits for pregnancy and other conditions, including abortions. The church acknowledged it violates the law.

U.S. District Judge John Pratt said there was no evidence the government planned to act against the church and ruled that the church failed to meet a legal doctrine requiring those who file suit to show

DES MOINES, Iowa (AP) — Central U.S. carlot beef report — includes the major production areas in the Midwest and Texas-Oklahoma Panhandle as of 11: 15:

Compared with Tuesday's 4:30 report: steer beef mostly 1.00 lower. Heifer beef mostly 2.00 lower than early yesterday. Demand and trading moderate at lower prices but a cautious atmosphere prevails. Supplies light on heifer beef & steers under 800 lbs; steers over 800 lbs in more than adequate supply. Sales reported on 48 loads of steer and heifer beef.

Loads:
—Steer beef, 37 loads including 18 to packers, 6 to processors and 13 to chain

of steer and heiter beef.

Loads:
—Steer beef, 37 loads including 18 to packers, 6 to processors and 13 to chain stores, (fob Omaha basis), 14 choice 3, 600-800 lbs., 101.25, gen. 1.00 lower; 4 choice 3, 800-900 lbs., 100.25, gen. 1.00 lower; 5 choice 3, 500-700 lbs., 100.25, 8 good 2-3, 700-900 lbs., 99.50, 1.00 lwr than Monday; (fob Amarillo basis), 6 choice 3, 700-900 lbs., 101.50 late Tues; choice 3, 800-900 lbs., 101.50 late Tues; choice 3, 800-900 lbs., 100.30 late Tues.
—Heifer beef 21, loads, all to procesors (fob Omaha basis), 21 choice 3, 500-700 lbs., 101.25, ld 100.25, mostly 2.00 lwr than early Monday.

market mixed

NEW YORK (AP) - The second busiest session in New York Stock Exchange history wound up in a virtual standoff between buyers and sellers Wednesday.

The Dow Jones average of 30 industrials, up more than 8 points at the outset, was off 3.41 at 865.19 by the close. Other indicators were mixed.

The Dow had climbed nearly 40 points, on consistently heavy volume, over the preceding seven trading NYSE volume reached

67.70 million shares, a total

surpassed only by the 81.62 million that changed hands last Oct. 10 as traders scrambled to react to new credit-tightening moves by the Federal Reserve. The price of gold meanwhile reached record highs

again, climbing above the \$750-an-ounce level only a day after breaking \$700. But it closed well below its early peaks.

Other precious metals also have soared in price lately, in buying attributed to fears of political and currency instability growing out of the tension in Iran and Afghanistan.

Those same concerns have prompted a rush to buy stocks of companies with natural-resource assets gold or other metals, timber, and others.

Forest-products and paper issues, which began to emerge Tuesday as the latest object of this commodity mania, chalked up some further strong gains. International Paper was up 1% at 43; Louisiana-Pacific 21/8 at 26%; Weyerhaueser 2 at Boise Cascade 21/4 at 361/4: Union Camp 11/2 at 47, and Pacific Lumber 416 at

Coal stocks attracted similar interest, with Pittston up 21/2 at 29, and Eastern Gas & Fuel 134 higher at 25%. Gold and silver issues, on

the other hand, yielded to selling by traders who evidently thought the run in precious metals might be FORT WORTH, Texas (AP) — Export wheat 4.63-4.69. Milo 5.10-5.20. Yellow corn 2.91-2.97. Oats 2.03-2.07.

due for a pause.

49; Homestake Mining 1 to 62; Hecla Mining 43/4 to 441/2, and Sunshine Mining 4% to

Copper stocks also gave up some of their recent sharp gains. Asarco was down 31/4 at 49; Kennecott Copper lost 1% to 39½, and Phelps Dodge gave up % to 36 1/8.

The daily tally on the NYSE showed gainers slightly outnumbering losers. The exchange's composite index of all its listed common stocks finished unchanged at 63.95.

Standard & Poor's index of 400 industrials was off .02 at 124.89, and S&P's 500-stock composite index slipped .09 to 111.05.

At the American Stock Exchange, the market value index rose 1.45 to 261.64. The NAS-DAQ composite index for the over-the-counter market closed at 155.99, up 1.03.

ANSWER TO PREVIOUS PUZZLE

# **BUSINESS MIRROR**

# Metal is money in today's world

**AP Business Analyst** 

NEW YORK (AP) — The stock boom of the 1960s was often spurred by the slogan, "it's smart to own a piece of America." Ownership of stock, it was said, meant you were sharing in the economy's bounty.

That was back then when people had more trust in surrogate money, when they had faith that paper always would be acceptable as a medium of exchange, when they believed that economic institutions were permanent.

Faith hasn't vanished, but it has diminished. When you speak today of owning a piece of America you may be talking of the real thing, about real estate, oil, metals, trees. These seem to be the new collectibles, just as diamonds, art, stamps and rare books

It might all pass. Stampedes make a great roar coming but they leave in a cloud of dust. This stampede could also, especially if detente between the great powers is resumed. But for now, it's Each day the newspapers document it. Gold,

silver, platinum and copper are hoarded by those who can do nothing but hold or trade them. The active stocks are often those of natural resource companies.

Such buyers cannot consume their purchases. Because their gold is locked in a vault they cannot, for instance, admire it. They cannot make other products from it because they have no facility in doing so.

For them, metal is money.

And so are other natural resources. When people suspect paper money, created as a substitute be-cause desirable (limited) natural resources are too cumbersome to handle, they tend to return to the

And what causes today's suspicions? The threat of war, the instability of governments, inflation, and a fear that the old economic order is being upset before anyone has a notion of what will replace it.

And so the retreat to basics. Gold, which was 'demonetized" or, as we thought, set adrift from currencies so that it could operate as just another commodity, is reasserting itself as money. So are real estate and other natural resources - the real thing rather than substitutes.

Many collectors of natural resources do not even consider themselves investors so much as escap-

They do not view their holdings as soaring in value but instead view money as losing value. The value of natural resources, they say, aren't rising in value as swiftly as currency is declining in value. The mirage arises, they say, from denominating values in terms of currency

When the stampede will end cannot be foreseen, but some analysts claim they see a slowdown, a correction, a retreat that might, however, be only

The reason, they say, is that an initial quest for security by some wealthy individuals, banks and governments, has attracted investors, then speculators, then gamblers, and now, most likely, the

Dangers abound. Examination of any market shows that when prices are suddenly inflated there soon follows a release of air. It may be only temporary, but it often catches the poorly informed

But there are dangers also in currencies; at least, it appears, many people believe so. Currencies depend on the full faith and credit of the issuer, and faith and credit have been badly extended of late.

And so long as the world cannot get its political and economic house in order, that fear is likely to

## Houston schoolman forecasts changes

HOUSTON (AP)- The superintendent of the Houston Independent School District believes it is far more important to the business world today for "a graduate to spell 1,000 words correctly than to sing n key or paint a picture."

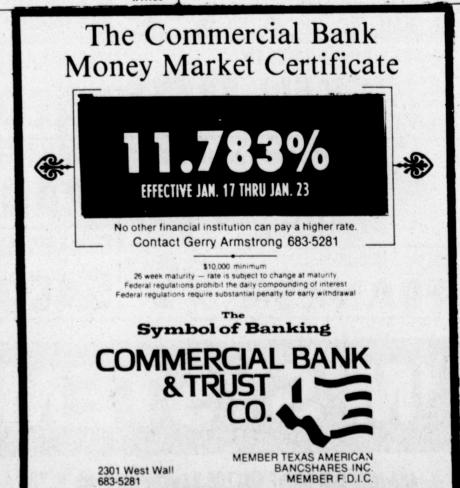

Billy Reagan, speaking Tuesday at a youth council meeting, predicted a drastic change in the Houston high school curriculum during the next two years. He said youths should be permitted to meet basic skills competency requirements and graduate a year or two early if they so choose.

Reagan said the curriculum would be altered to stress "reading, writing, speaking and comput-

Pupils who passed competency tests could bypass some courses now required in a standard high school

"We have diluted our mission," he said of current school systems. "We have tried to be everything to

Reagan also said school systems must design programs to serve "urban, multicultural societies. In this city and state, we are still making decisions to serve traditional, middle-class, two-parent families rather than dealing with society as it is.

THURSDAY, JANUARY 17, 1980

# SECTION D

HOUSTON (AP) - Shell Oil Co. will spend about

\$1.65 billion for development projects and domestic

exploration in 1980, according to John F. Bookout,

The sum represents about 60 percent of a record \$2.7

He said Shell hopes to exceed or at least maintain its

net 1979 production averages of 416,000 barrels of oil

and 1.8 billion cubic feet of gas a day.

The firm also plans to spend \$105 million to update refineries in California and Washington and will spend

Bookout said the company hopes to be able to

substitute domestically produced crude for about 30,000 barrels of foreign oil being imported daily, adding

that another 50,000 gallons of fuel could be saved each

The company also projected first deliveries from its

\$3.6 billion for the acquisition of Belridge Oil Co.

day through plant modernization plans.

tions from 5,371 to 5,398 feet.

Shell says its net profit for 1979 will exceed \$1 billion. Its president says gasoline prices in the United States. could reach the \$2-a-gallon range late this year.

Shell has notified dealers of another nickel-a-gallon wholesale gasoline price increase, industry sources say. The increase, the second in two weeks, took effect at midnight Wednesday, said the sources, who asked not to be identified.

Shell spokesman Norman Altstedter would "not con-

firm or deny" the report.

Last week's Shell gas price increase, one of several announced in recent days by major oil companies, was attributed by the company to the more than 20 percent rise in world crude oil prices since autumn.

Bookout told reporters earlier Wednesday he feels gasoline prices "will continue to increase" because the higher costs that are resulting from the crude oil price hikes are "already built into the system."

perforations from 7,168 to 7,202 feet. Gas-liquid ratio is 1,581-1. Scheduled as a 7,400-foot wildcat, it drilled to 7,500 feet, where 7-inch casing is set. Location is 1,830 feet from north

and 510 from east lines of section Holly Energy Inc. has announced the completion of a Wolfcamp oil discovery in Lea County, two miles north of Wolfcamp production in the Malja-

mar field, four miles northeast of Maljamar. The No. 1 Pogo-State finaled to flow 209 barrels of 43-gravity oil and no water, through a 10/64-inch choke.

Gas-oil ratio is 1,250-1. Scheduled as a 10,800-foot wildcat, it drilled to 11,550 feet, with 4.5-inch casing landed at 11,400 feet.

Location is 1,980 from north and 660 from east lines of section 19-16s-33e.

landed at 8,770 feet. Location is 1,980 from north and

MGF Oil Corp. of Midland has fin-

Yates Petroleum Corp. of Artesia will drill the No. 1-MU Turkey Track, a year agm.

Scheduled as a 9,800-foot test in the Oasis (Morrow gas) field, it drilled to 9,800 feet, witht 4.5-inch casing at

9,798 feet. Location is 1,980 from north and

east lines of section 14-10s-29. EDDY DISCOVERIES FINAL Mesa Petroleum Co. of Midland has completed the No. 1 Sink-Federal as a Grayburg gas discovery in Eddy County, 1.5 miles west of Atoka production in an unnamed field, 2.5 miles north of Grayburg production in the

Dog Canyon field, 19 miles northwest of Loco Hills. On 24-hour test, it flowed 1,385,000 cubic feet of gas daily, through a 28/64-inch choke and perforations

from 1,300 to 1,308 feet. Location is 1,980 from south and 660 from east lines of section 9-16s-27e.

Harvey E. Yates Co. of Roswell, N.M., has finaled the No. 2-22 Amoco-State as an Atoka gas discovery in Eddy County, 1/2 mile east of Morrow gas production in the Carlsbad, South field and six miles west of Atoka gas production in the Culebra Bluff, South

Operator reported a calculated absolute open flow of 3,496,000 cubic feet of gas per day, through a 3/4-inch choke and perforations between 10,-

971 and 10,994 feet. Drilled to 12,370 feet, 5.5-inch casing is set on bottom. Location is 1,980 from north and

east lines of section 22-23s-27e, seven miles south of Carlsbad. **CHAVES UNDESIGNATED SITE** Harlow Corp. of Amarillo will drill

the No. 1-6 O'Brien-Deming as a 2,-730-foot undesignated (San Andres) test, 1.5 miles northwest of San Andres production in an unnamed field, four miles southeast of Elkins.

Drillsite is 330 from south and west

lines of section 6-8s-29e. Ground ele-

vation is 3,996 feet.

EDDY SITES STAKED W.A. Moncrief Jr. of Midland filed application to drill the No. 1 Marathon State Communitized as a 10,900-foot Morrow test in the Baldridge Canyon field of Eddy County, 1.25 miles south

of the discovery well of the field. Wellsite is 1,980 from south and 1,680 from east lines of section 11-24s-24e, seven miles northwest of White

North (Morrow) field of Eddy County, nine miles southwest of Loco Hills. The 11,400-foot test is located 660 from north and 1,980 from west lines of section 33-18s-29e.

North Federal in the Turker Track,

LEA SITES TWO Ike Lovelady Inc. of Midland announced plans to re-enter the No. 1 Lawton State for completion as 9,900foot undesignated (Wolfcamp) producer, 1/2 mile northwest of Wolfcamp production in the Gladiola field

of Lea County. Originally drilled by Ralph Lowe, it completed in 1956 through perfora-tions from 11,956 to 12,010 feet. Old total depth was reached at 12,016

Location is 660 from south and west lines of section 32-11s-38e, 11 miles northeast of Tatum.

Kenia Oil & Gas Inc. of Midland will drill the No. 1 Terry as a 7,700-foot test in the Nadine-Drinkard field of Lea County, 3/8 mile southwest of produc-

tion, eight miles east of Monument. Wellsite is 660 from south and west

lines of section 23-19s-38e. CHAVES OILER FINALS

Ralph Nix of Artesia filed potential

Hondo Oil & Gas Co. completed the No. 2-BV State as a Morrow gas well in the Empire, South field of Eddy County, nine miles west of Loco Operator reported a calculated ab-

acidized with 8,000 gallons.

feet, where 4.5-inch casing is set.

from east lines of section 12-8s-28e.

Morrow perforations from 10,612 to 10,682 feet. Production was natural and gravity of the condensate was 35.3 degrees. Total depth is 10,929 feet, with 5.5-

inch casing set at that depth. Location is 2,109 from north and 1,778 from west lines of section 25-17s-

#### Gasoline supplies climb NEW YORK (AP) - U.S. gasoline

American Petroleum Institute said Wednesday. The API said U.S. refineries ran at 84.6 percent of capacity in the latest week, down from 85.5 percent a week

earlier and 88.4 percent a year be-

and crude oil inventories rose in the

week ending Jan. 11, and stockpiles of

distillates - products used for heat-

ing oil and diesel fuel - fell, the

A spokesman for the industry organization said the strike against the nation's refiners by the Oil, Chemical and Atomic Workers union probably caused the drop in refinery operating

Gasoline inventories rose to 242.7 million 42-gallon barrels fgom 240.1 million a week before and 245.5 million a year earlier. Daily gasoline production was unchanged at 7.2 million barrels, but down from 7.4 million

U.S. gasoline use is running about 10 percent behind last winter's levels due to sharp price increases and to federally-mandated requirements for new-car fuel mileage. Distillate stocks stood at 223.4 million barrels in the latest week, well

above the federal government's

"minimum acceptable level" of about

Distillate production fell to 3 million

220 million barrels. A week earlier, distillate stocks totaled 227.4 million barrels; a year ago they totaled 206.2 million.

Crude oil inventories rose to 347.2 nillion barrels from 342.6 million a week earlier and 304.5 million a year crude oil imports fell to 6.3 perforations from 9,227 to 9,233 feet. million barrels from 342.6 million a week earlier and 304.5 million a year before. Crude oil imports fell to 6.3 million barrels a day from 6.5 million LYNN COUNTY
