Soviet troops force rebels into Afghanistan mountains

By The Associated Press

Soviet troops using helicopter gunships and tanks have forced Afghanistan's Moslem rebels to retreat to remote mountain villages, according to reports reaching Kabul, the Afghan capital city

The Spanish news agency EFE, reporting from Kabul, said Soviet helicopters were "controlling" guerrilla movements in the interior and near the Pakistani border. The dispatch was carried in Madrid. EFE correspondent Jose Luis Vidal

quoted journalists returning from southern Afghanistan near the border with Iran as saying the rebels ap-peared "frightened" by the Soviet armor being used against them. The journalists, who were not identified, said the rebels had no automatic weapons and had fallen back to mountain villages hidden in the snow, EFE said.

The report said the Afghan army was patrolling Kabul and the only visible Soviet troops were those seen shopping in the capital's bazaar. The EFE report could not be con-

firmed. Meanwhile, American reporters were leaving Afganistan today under an expulsion order from the pro-So-

viet government, and the Soviets were reported replacing regular troops with reservists in their occupation army

In Pakistan, President Mohammed Zia ul-Haq derided the reported U.S. offer of \$400 million in aid.

'That is peanuts," Zia told American reporters in Rawalpindi Thursday when asked his opinion of President Carter's reported offer of \$200 million in military equipment and \$200 million in economic aid over the next two years to offset the Soviet intervention in Afghanistan.

"If this is true - I have not heard it officially — this is terribly disap-pointing," Zia continued. "Pakistan will not buy its security with \$400 million. (That sum) will buy far greater animosity from the Soviet Union, which is now more influential in this region than the United States.'

He refused to say how much aid would satisfy him. But he said he needs warplanes, anti-aircraft missiles, anti-tank weapons and communications' systems to strengthen defenses along Pakistan's 1,200-mile western border with Afghanistan.

Zia also urged upgrading the 1959 U.S.-Pakistan agreement which calls for consultations in case of attack

from a communist-ruled country. 'We are looking for a bilateral treaty in which the integrity and freedom of Pakistan is guaranteed," he said. But he added: "I do not expect the Pakistan."

United States to send troops to Pakistan, (and) it would be foolish on my part to expect that the Americans or Chinese would fight for the freedom of

Carter wants grain loaded for Soviets

WASHINGTON (AP) - President ILA boycott, affecting ports on the Carter is urging longshoremen to abandon their boycott and load 3 million tons of grain destined for the Soviet Union to relieve a backlog he says is clogging the nation's transportation system.

The action is calculated not to help the Soviets, but to relieve pressure on American farmers.

The administration continues to press forward on other fronts for punitive measures against the Soviet Union in reprisal for that country's military intervention in Afghanistan.

A high administration official said Thursday, for example, that the United States and its European allies may try to have the Moscow Olympic Games postponed, shifted or broken East and Gulf coasts, has resulted in barges, railroad cars and grain elevators being chock-full.

As a result, the officials said, American farmers are reaching the point of being unable to ship other products.

On the Olympic question, a ranking administration official declared that detente with the Soviets is "wounded and bleeding," and said Deputy Secretary of State Warren Christopher found "an increasing tide of opinion" against holding the summer Games in Moscow when he consulted Europe an allies this week.

However, the official, who refused to be identified, said Christopher did not ask the allies to boycott the Olympics and that in each country, the United States, "there is a strong body of opinion that believes in the Olympics.' The official told reporters Thursday at the State Department that Christopher found stronger opposition on this trip to staging the games in Moscow in July than he did on a similar survey trip to West Europe two weeks ago.

Iranian demonstrtors burn an effigy of the former Shah of Iran as they celebrate the first anniversary of the shah's departure from Iran. The shah said in a television interview that he has not renounced his claim to the Iranian throne. (AP Laserphoto)

Shah says greed of oil companies caused downfall

NEW YORK (AP) - The deposed Shah of Iran says he has not renounced his claim to Iran's Peacock Throne and that the greed of U.S. oil companies brought about his downfall one year ago.

"Abdicating in the vocabulary of a king does not exist unless it's very, very special circumstances," Shah Mohammad Reza Pahlavi said Thursday in a televised interview with British journalist David Frost.

"Does a king have to agree...to abdicate?" Frost asked.

THE MIDLAND REPORTER

"Yes...Unless he is decapitated," replied the 60-year-old shah, who is under a death sentence from a revolutionary court in Iran.

The hour-long interview on the ABC newsmagazine "20-20" was the shah's most extensive public statement since he left Iran for exile one year ago Wednesday.

He charged his regime had been sacrificed by profit-hungry American oil companies and rejected as "preposterous" claims by the regime of Ayatollah Ruhollah Khomeini that he was responsible for the massacre of tens of thousands of Iranians during his reign.

He labeled the United Nations, which has been proposed as a forum for airing grievances against his monarchy, "impotent" except in its dealings with defenseless individuals.

ABC paid Frost an undisclosed sum for the interview, part of a 10-hour conversation Frost had with the shah last week at the shah's refuge on an island off Panama. ABC said the shah was not paid.

Frost said the shah conceded "errors of his own making" encouraged his overthrow, but that the conversation with the ailing monarch had a "continuing theme of either betrayal or ... conspiracy.

Two years before the revolution, the shah said, "we heard from two different sources connected with the oil companies that the regime within Iran will change

"... If just in imagination, we believed that there was a plan that there must be less oil offered to the world market in order to make the price of oil go up, one country should have been the one chosen for this sacrifice.

Iran was producing 5.6 million barrels per day, the shah said, but in the final year before his ouster, the consortium of oil companies that bought Iranian oil did not seriously "talk about placing an order to buy our oil, so it seems that chosen country to drop its production of oil would have been mine."

The shah did not name the two companies, but said they were both American. Iran's oil consortium included Gulf Oil, Mobil, Exxon, Standard Oil of California and Texaco

"I'm flabbergasted," said Nancy Arvay, spokeswoman for Socal. "Certainly there was no conspiracy.

"The only thing I can say is we were lifting quite a bit of oil from Iran, buying it, that is," she said. "At the end of 1978, the shah was still in power and many companies were doing so and Iran was considered quite an important source of oil...I can't see where anyone wasn't buying oil. People had long-term contracts."

There was no immediate comment from the other companies.

China reportedly pouring forces into Pakistan

NEW DELHI, India (AP) - China is pouring arms into Pakistan over the rugged Karakoram Pass and Pakistan has moved armored forces to the border with Soviet-occupied Afghanistan and alerted its forward air bases, Indian press reports said today.

'Karakoram highway, the little known road across the roof of the world, has achieved instant strategic importance" following Soviet intervention in Afghanistan, the Press Trust of India said

PTI quoted unidentified sources as saying that civilian traffic has been banned on the Pakistan side of the Chinese-built mountain highway linking Pakistan and China.

There was no immediate confirmation from Pakistan but a Western expert here noted that the Karakoram road is normally closed by snow from December through February.hAn Indian correspondent back from Afghanistan reported meanwhile that about seven divisions of Pakistani troops are at the Afghanistan border, that Pakistan has moved a large armored force to the frontier region south of Peshawar, and that all Pakistan forward air bases have been alerted. Military observers in Kabul were quoted in the dispatch by United News of India correspondent Virendra Mohan.

Mohan also reported that on a road trip from Kabul, the Afghan capital, to Ghazni, 100 miles to the south, he found that "Soviet troops have almost completely disarmed the Afghan army, from which many have defected in the last few months, along with their weapons.'

into parts in retaliation for the Soviet action

The top two officials of the U.S. **Olympic Committee were scheduled** to meet at the White House later today with Carter aides.

The grain the president wants loaded is not part of the 17 million metric tons Carter has ordered embargoed from the Soviet Union, but is a portion of some 8 million tons the Soviets are to be shipped under previous agreements.

Thomas Gleason, president of the International Longshoremen's Association, said Thursday he would check with his union and report back to the president.

He did not promise that the 80,000 ILA members would end their nineday refusal to load grain on ships bound for the Soviet Union.

An administration official, who declined to be named, said Thursday that Carter, "speaking as president and commander-in-chief," said "that the abrupt stoppage of all grain shipments was contrary to our national interests, that it was clogging the pipeline, interfering with normal commerce and was unfair to the farmer.'

"I have a sense the allies are prepared to take strong punitive mea-sures," the official said after Christopher reported to the White House and to Secretary of State Cyrus R. Vance.

Of all the economic reprisals backed by Carter, only the grain embargo seems to have unqualified support. Christopher was informed that the West Europeans would not act to compromise Carter's partial boycott by expanding their own grain sales, the official said.

And there was guarded response to Carter's call for economic sanctions against Iran to try to force the release of the 50 American hostages held in Tehran for nearly 11 weeks. The United States is going ahead with its own boycott, barring shipment of any goods except food and medical supplies to Iran.

Administration officials said the

Cancer center staff hunt to begin

By DAVID CAMPBELL Staff Writer

Midland County Hospital District board of directors agreed Thursday afternoon to "go out and search" for qualified medical personnel to staff the Allison Permian Basin Cancer Therapy Center.

They also agreed to purchase \$73,-593 of hospital equipment, to transfer \$130,000 from the hospital tax district to Midland Memorial and accepted the fact that \$88,973 would have to be dropped because of bad debts and indigent care.

Ed Magruder, president of the district directors, reported that efforts should be directed toward the hiring of a qualified director and medical staff for the \$3.5 million Allison Permian Basin Cancer Therapy Center. Director John Mast, M.D., was chosen to represent the directors on a steering committee whose purpose was to investigate methods used in other cancer centers to recruit medical and administrative personnel.

Magruder reported on a noon meetingwith Dr. Nylene Eckles of M.D. Anderson Hospital in Houston. Dr. Eckles explained what approach the cancer center should take in the treatment of cancer.

"The concern of the MMH medical n staff (and the committee) regarding the cancer therapy center," Magruder said, "was to do it right so it is a blessing to the patients and not a burden. The directors authorized the pur-

chase of 19 items of hospital equipment worth \$73,593. Items which would be purchased by the hospital include seven portable monitors and recorders to be used in recovery and operating rooms, a floor scrubber, seven constant care stretchers and four anesthesia machines.

The directors also recognized the efforts of the Women's Hospital Auxilary in the purchasing of \$390,000 worth of equipment since the organiztion started 30 years ago.

A request to transfer \$130,000 from the hospital district tax funds was approved by the directors. The funds would be used to help pay off deficits which occurred during 1979.

The directors examined and approved the writing off of \$88,973 from the hospital's books. This "write off" was the result of services offered to indigent patients and bad debts owed to the hospital.

According to Robert Abernethy, MMH assistant administrator for finance, bad debts account for \$65,637 of the \$88,973 written off. Indigent care services accounted for \$23,336 of the write-off.

Write-off or charge-off accounts are those accounts where the hospital is not able to collect revenue for services offered by MMH.

Several charge-off accounts in-

volved cases where several indigents were admitted to the emergency room for treatment of drug overdoses, according to Wayne Ulrich, MMH administrator

In other business, the directors learned the hospital was awarded for holding patient costs below 1977 levels.

The Texas Hospital Association established a goal where hospitals would try to hold down the average cost of patient care to \$1,348. Patients who stayed in Midland Memorial dur-

ing 1979 were charged an average of \$1,293, according to Ulrich.

Four new trustees were also approved by the directors to serve fouryear terms. Dr. Brent Blonkist, John C. Dorn, Mrs. James H. Purvis and Robert Bledsoe were chosen by the Midland Memorial Foundation's board of governors. Dorn, chairman of the hospital's building committee, was re-elected.

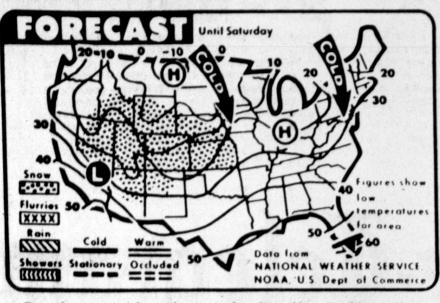

The trustees' building committee is responsible for the present construction projects at the hospital.

THE MIDLAND REPORTER-TELEGRAM, FRI., JAN. 18, 1980

West Texas oil workers join strike

HOUSTON (AP) - Oil field workers in West Texas and Eastern New Mexico rejected a "Me Too" agreement and are expected Sunday to join the 60,000 striking members of the Oil, **Chemical and Atomic Workers** union

Earl E. Morris, division production manager for Amoco Production Co., said Thursday the firm had been advised by about 750 hourly workers who operate wells and handle maintenance that they will strike at 12:01 a.m. Sunday.

"We must proceed with plans to continue to operate our wells and facilities without these workers," Morris said as he expressed regret over the employees' decision

The workers have rejected a "Me Too" clause offered by the company which would have allowed them to continue work and receive any wage settlement eventually reached by the OCAW at other Amoco facilities.

"In their absence," Morris said, "our operations will be conducted in a safe and orderly manner by super-01 cdy visory and certain non-represented personnel.'

Stikers say the were jailed for no reason. "I was just standing there watching the picket line and we were arrested," said electrician Willy Devlin. "We've violated no laws."

Standley, a 23-year law enforcement veteran, said his officers haave complied with the law in making the arrests.

"I have taken the oath of office to enforce the laws of our nation, our state and our city ordinances," he said. "I have complied with the law and with this oath and once again, we (the police) are the victims.

Reviewing projects undertaken by the West Texas Chamber of Commerce during a banquet Thursday in the Midland Center are, from left, Joe

Kloesel of Midland, vice president of District 6, and Bob Corkins of Alpine, WTCC president. (Staff Photo by Brian Hendershot)

WTCC holds premiere **Midland Center function**

By LANA CUNNINGHAM Staff Writer

About 125 persons heard an update on projects undertaken by the West **Texas Chamber of Commerce during** a banquet Thursday night - the first official function to be held in Midland Center.

Joe Kloesel of Midland, vice president for WTCC district 6, outlined the steps it took for Midland Center to become a reality, saying it was the people of Midland who pushed through the idea.

Bob Corkins of Alpine, WTCC president, reviewed work undertaken by the organization which had its beginnings in 1918.

nomic well-being of the 132 counties it represents and has operated as a voice of West Texas business," Corkins said.

how it exerts itself on state and national legislation, he said. "We look at issues important to West Texas and then form a position on them."

Some of those stands include favoring pay-as-you-go government, no new taxes, strong national defense and right-to-work laws. WTCC opposes national health insurance and government interference in business. Corkins described the oil and gas industry as the top factor in West Texas. The next largest industry is agriculture, and WTCC has taken stands on issues affecting both areas.

Development of water resources for West Texas is one area that WTCC has been working on continuously for several years, the president said. "We continue to support the Colorado **River Municipal Water District's plan** for Stacy Dam as a water supply for West Texas," he said.

In concluding his talk, Corkins said, "WTCC stands for principles this country was founded on.'

Various Midlanders were recognized by Kloesel for their work in WTCC. Ed Grindstaff of Ballinger eceived a plaque for

urban study team to look at the city. That group recommended changes to the county courthouse, a new hotel, tearing down the old Post Office and building a new federal center.

Then, Hines said, it all seemed like wishful thinking. Today, it has all become reality.

"This goes to show that the wheels of the gods grind exceedingly slow, but they do grind.

"Midland is an example of what can be done by men and women who put their shoulders to the wheel and pay for the privilege of doing so," Hines

Forensic meet being held at Robert E. Lee

About 750 speech and drama students from 35 schools across the state are expected to participate today and Saturday in the second annual Robert E. Lee Invitational Forensic Tournament at Lee High School and Rusk Elementary School. Students from schools in Waco, Corpus Christi, San Antonio, Amarillo and all nearby West Texas towns were expected to register beginning at noon today at Lee High School. Students from Midland's two freshman schools will participate in the tournament, but Lee High School students will not compete because they will be running the meet. Actual competition was to begin at 2 p.m. and end at 11 p.m. today. Contest events will continue Saturday starting at 7:30 a.m. An awards assembly is scheduled at 7 p.m. Saturday. Because of the time needed, debate finals will be held after the awards ceremony Events scheduled for the tournament include standard and cross-examination debate, boys and girls extemporaneous speaking, original oratory, duet acting, prose, poetry, humorous interpretation, dramatic interpretation and student congress. Winners of this event will qualify for the Texas Forensic Association statewide meet to be held in March at The University of Texas at Arlington.

Police sergeant files as candidate for sheriff

Joe W. Carr, 40, a narcotics ser-geant with the Midland Police Department, said today he is a candidate for sheriff in the May Democratic primary election.

Citing the rising crime rate in Midland County, Carr said he believes crime can be reduced by a concentrated effort and a coordinated approach involving all law enforcement agencies.

'We must do a better job if Midland is to remain a fine, decent place to live and rear our children," he said in a prepared statement.

Carr joined the Midland Police Department in 1965 and has served in the detective and narcotics divisions for the last several years. Before coming to Midland he was employed by the Quanah and Snyder police departments.

Pointing out that turnover in personnel has increased in the sheriff's office in the past three years, Carr said he would restore stability to the office if elected.

"I can work well with people, and believe I have the ability to motivate those who work for me to give their best," the statement said.

Carr said he will be "fair and impartial, but vigorous and efficient in attacking the causes of crime" in Midland County.

Joe W. Carr

"I believe my experience, my dedication to good, clean law enforcement and my determination to work hard for all the people will enable me to be an effective sheriff," Carr said.

Midland County Sheriff Dallas Smith announced his intention to run in the Republican primary for a second term Wednesday.

Final livestock auction total exceeds \$56,000

The auction of 126 head of livestock Tuesday at the Midland County Livestock Show totaled \$56,948.45, Eileen Welch, treasurer of the sponsoring Midland County Livestock Association, said Thursday,

The sale include 23 calves, which brought an average price of \$1.12 per pound and a total of \$28,933.75; 50 hogs, which averaged \$1.21 a pound and totaled \$13,169.35, and 53 lambs, which averaged \$2.63 per pound and totaled \$14,845.35. Initially, 127 head had been in the livestock sale.

The grand champion calf, exhibited by Paul Perry, was auctioned to The First National Bank of Midland for \$3,087.50 at \$2.50 per pound. And the reserve champion calf, exhibited by Paula McBryde, was auctioned to The Midland National Bank for \$1,775 at \$1.25 per pound.

Billy Rodriguez's grand champion hog went to The Midland National Bank for \$735 at \$3 a pound. And the reserve champion swine, shown by Randy Taylor, was auctioned to Albertson's for \$547.50 at \$2.50 a pound.

Champion lambs were sold for \$4.05 to \$6 a pound. Tommy White Supply bought Tedo Boyce's lamb for \$726 at \$6 a pound; Jane Schweitzer purchased Tracy Logan's lamb for \$582.40 at \$4.55 a pound, and Commercial Bank & Trust Co. bought Robby McBryde's lamb for \$538.65 at \$4.05 a pound.

Lions International. As third vice president, he will assume the post of president in the near future.

Before adjourning the session, Bergen Hines described an incident about 15 years ago when Midland hired an

New Mexico man killed in collision

ODESSA - A 34-year-old Lovington, N.M., man was killed late Thursday when he was struck by a car just north of Odessa in Ector County.

Elijio R. Rubalcaba was pronounced dead at the scene of the accident about 10:28 p.m. Thursday by Peace Justice Jimmy Harris. The accident occurred on U.S. 385 just north of 91st Street in Ector County, according to Department of Public Safety trooper Todd Olson of Odessa who investigated.

According to Olson, Rubalcaba was running across the roadway from northwest to southeast when he was struck by a car driven by 25-year-old Virgil Don Way of Andrews.

Dr. Eckles outlines tumor study program for MMH

Dr. Nylene Eckles, a renowned pioneer in the treatment of cancer, spoke to the Midland Memorial Hospital medical staff Wednesday and Thursdayregarding the establishment of an effective tumor study program. Eckles is associated with the M.D.

Anderson Tumor Institute and Hospital in Houston.

"The credentials of Dr. Eckles reflect her varied and colorful career, as she has the distinction of acquiring her Ph.D., MD and first baby in the same year," said Dr. Martha E. Madsen, Midland pathologist. Madsen was instrumental in arranging Dr. Eckles' visit to Midland

Eckles attended the University of Minnesota and then worked with the Illinois Cancer Research and Education Hospital in Chicago. She was one of the first four physicians to become involved in medical oncology where her specialty became the treatment of breast cancer with emphasis on docrine-related therapy.

In 1955, she inaugurarted the medical oncology service at M.D. Anderson. Eckles was instrumental in establishing an overall tratment program for cancer patients there.

'She is appearing in Midland at the invitation of the MMH Cancer Program in order to provide medicaloriented expertise in the future ly development of the oncology program here at the Allison Permian Basin Cancer Therapy Center," said Dr. Madsen.

DEATHS N.W. Harvick

LAMESA — Services for N.W. "Walt" Harvick, 91, of Lamesa were to be at 2 p.m. today in Branon Funeral Home chapel with the Rev. Jack Thompson, retired Methodist minister, officiating.

Burial was to be in Lamesa Memorial Park

Harvick died Wednesday in a Hamlin hospital after an illness.

A native of Hillsboro, he moved to Hancock community in Dawson County in 1921 where he owned and operated Hancock Store for many years.

He was married to the former J.C. Beard Dec. 20, 1911, in Jones County, The couple moved to Lamesa in 1961.

Survivors include his wife; a daughter, Juanita Williams of Lamesa; two sons, H.B. Harvick of Throckmorton and Delbert Harvick of Andrews; two sisters, Quata Ferguson of Wichita Falls and Espher Sims of Granford; six grandchildren and 10 great-grandchildren.

Walter Guy

ODESSA - Walter Guy, 64, of Odessa and formerly of Midland died Tuesday in an Odessa hospital after a lengthy illness.

Services will be at 2 p.m. Saturday in St. John's Baptist Church with burial in Odessa Cemetery directed by Hubbard-Kelly Funeral Home.

Guy was born Feb. 16, 1915, in Lott. He was a retired porter for Alexander Corp. He came to Odessa in 1946 from Lott and had lived in Midland about 12 years. He was an Army veteran of World War II and a member of St. John's Baptist Church in Odessa. He was married to Nellie Lee Sperling July 11, 1946, in Odessa.

Survivors include his wife; a son, James Ellis Guy of Oxnard, Calif .; two daughters, Leana Taylor of Corpus Christi and Ola B. Guy of Houston; a brother, Wash B. Guy of Waco; two sisters, Leana Guy of Lott and Ida Tompkins of El Paso; and four grandchildren.

Jerry Monje

BIG SPRING — Rosary for Jerry Monje, 19, of Big Spring will be said at 7: 30 p.m. today in Nalley-Pickle Rosewood Chapel. Services will be at 10 a.m. Saturday in the Immaculate Heart of Mary Catholic Church with burial in Mount Olive Memorial Park.

He died Wednesday. Monje was born Nov. 12, 1960, in Carlsbad, N.M. He was a 1979 graduate of Big Spring High School and was employed by Joe Hernandez Construction Company. He was a member of the Immaculate Heart of Mary

Pickle Funeral Home here.

The youth died Tuesday in New London. He was born Aug. 20, 1978, in San

Diego, Calif.

Survivors include his parents; a brother, Nathan Good of New London; his maternal grandparents, Mr. and Mrs. Paul Chappell of Big Spring; his paternal grandmother, Dorothy Good of Big Spring; and his maternal great-grandmother, Nanny Chappell of Oklahoma City, Okla.

Nemmie Parrott

CHARLOTTESVILLE, Va. - Services for Mrs. Emory B. (Nemmie Ligon) Parrott, 86, of Charlottesville, Va., mother of Emory W. Parrott of Midland, were to be at 1 p.m. today in Charlottesville directed by Hill and Wood Funeral Home. Burial was to be in Monticello Cemetery.

She died Monday in an Alexandria, Va., hospital.

Mrs. Parrott was born Jan. 12, 1894, in Cumberland County, Va. She was married to Emory B. Parrott March 5, 1919, and had lived in Charlottesville ever since.

She attended Sangwood College in Farmville, Va., and taught, school before her marriage.

Other survivors include her husband, a daughter, a brother, a sister, six grandchildren and a great-grandchild.

The family requests memorial be be made to the Midland Association for Retarded Citizens, 2701 N. A St., Midland.

Gwen Pierce

Services for Gwen Pierce, 52, 3309 Stewart St., were to be at 10 a.m. today in the First Baptist Church chapel with Dr. Daniel Vestal, pastor, officiating.

Burial was to be at 3 p.m. Saturday in the Mount Vernon Cemetery in Mount Vernon directed by the Harvey Funeral Home.

Mrs. Pierce died Wednesday in a Midland hospital. The family requests that memori-

als be sent to the Allison Permian Basin Cancer Therapy Center in care of Midland Memorial Hospital.

Clyde Presley

Services for Clyde Presley, 53, of rural Midland, were to be at 2 p.m. today in Alamo Heights Baptist Church. Burial was to be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Presley died Tuesday of an apparent heart attack. Survivors include his wife, Darlene; a son, David Preslev of Mid-

THE MIDLAND REPORTER-TELEGRAM, FRI., JAN. 18, 1980 Witness characterizes Nichopoulos

BIG SPRING - Services for Charles Good, 16-month-old son of Mr. and Mrs. Richard Good of New Lon-don, Conn., are pending with Nalley-Bickle Fungeral Home have

harmless placebos in place of drugs.

MEMPHIS, Tenn. (AP) - Elvis Presley's physician was characterized before the Tennessee Board of Medical Examiners as a caring man whose compassion may have gotten him in trouble.

'He has a unique quality that may serve him in poor stead," said Dr. Walter Hoffman, testifying Thursday before the board considering malpractice charges against Dr. George Nichopoulos.

'He's very empathetic. He sees patients that I wouldn't see -- and he takes good care of them," said Hoffman, one of Nichopoulos' partners for 17 years.

Nichopoulos, Presley's physician for 11 years before the singer died at his mansion in 1977, is charged with overprescribing dangerous drugs for 16 patients, including Preslev

The cause of Presley's death was officially ruled heart disease, but there have been reports that it was drug-related.

If found guilty, Nichopoulos could lose his medical license.

Lawyers for both sides said testimony will probably 'end today. The board's consideration of the charges will be conducted in public, probably Saturday.

The doctor's attorneys spent most of Thursday calling Nichopoulos' colleagues and members of the Presley entourage who testified about the medication given the singer.

Letitia Henley, a nurse who lived with her husband at Presley's mansion, told the board she administered drugs to the singer under Nichopou-

Doctors place young harbor seal into makeshift intensive care unit

BOSTON (AP) - Doctors have placed a young tive antibiotic and will begin a program of rehabilitamale seal in a makeshift intensive care unit to learn tion on any animal found suffering from the dismore about the quick-killing pneumonia blamed for ease. the mysterious deaths of nearly 100 seals.

since Dec. 27.

"In each animal we have examined the constant factor is pneumonia," said aquarium director John them on antibiotic therapy," he said. Prescott. "We have indications that at least one of the agents in this disease is a bacteria.

type of pneumonia. "Once the organism invades the deaths outside the Cape Cod area. lungs it is a matter of hours to days till the animal dies," he said.

Prescott said there was no indication that the disease was an immediate threat to humans, "Until it's identified, that would be sheer speculation," he said. "There are many bacteria that don't affect humans but do have an impact on other animals.'

Microbiologists at the Ontario Veterinary College in Guelph, and at Massachusetts General Hospital in Boston were trying to isolate the bacteria, he said. The aquarium placed the young male seal captured on Wednesday near Sandwich in a homemade

oxygen tent and treated it with fluids and a wideranging antibiotic in hopes of finding a cure for the malady. Two other ailing seals caught in the area had to be destroyed.

'We are not waiting until the bacteria is identified," Prescott said. "We're trying to find an effect

Prescott said attempts were being made to survey

New England Aquarium officials on Thursday the seal rookeries off the Cape Cod coast to deterblamed pneumonia for the deaths of the mammals, mine the impact of the disease on the seal colony. found on beaches along the inner shore of Cape Cod But he discounted any attempt to stifle the sickness at its source.

"It's not conceivable to catch all of them and put

los' direction. But she said many of the pills and injections contained

Part of the state's case against Nichopoulos is based on his dispens-

ing of addictive or dangerous drugs to some patients without checking to see

Hoffman said for many months, the charting system was in disarray and. many entries were not made because of a shortage of personnel and construction that forced storage of records away from the office.

Two of the physicians who testified Thursday for Nichopoulos had consulted with him in the treatment of Presley, and one said he and Nichopoulos once had a spirited discussion with the singer about his drug dependence.

Dr. Lawrence D. Ruble, a gastroenterologist and medical professor at the University of Tennessee, said, however, that he never saw the singer when he appeared to be under the influence of drugs.

"We knew he was being overtreated by doctors out west," Ruble said, adding that he and Nichopoulos had discussed Presley's intake of medication received from other sources.

Ruble, who said he avoided prescribing drugs whenever possible, said Presley demanded mood elevators to prepare him for his shows and sedatives to help him rest afterward.

> Free Electronic hearing tests will be given at Beltone Hearing Aid Office Thursday thru Friday 9 a.m.-5 p.m., Sat. 9-1 p.m. A factory-trained hearing aid specialist will be at the Beltone oflice to perform the tests.

Anyone who has trouble hearing is welcome to have a test using the latest electronic equipment to determine if his loss is one which may be helped. Some of the causes of hearing loss will be explained, and diagrams of how the ear works will be shown. Audiograms vailable for your medical records. Everyone should have a hearing test at least once a year if there is any trouble at all hearing clearly. Even people now wearing hearing aid or those who have been told nothing could be done for them should have a hearing test and find out whether the latest methods of hearing correction can help them

The free hearing test will be given at the Beltone Hearing Aid Cen-ter-104 N. "O". Street Midland, Texas

Mrs. Hughes

Mrs. George E. (Easter) Hughes, 74, 3203 Princeton Ave., died Wednesday in a Midland hospital following an illness

Services will be at 4 p.m. Friday in the First Church of the Nazarene with the Rev. Harold L. Quarrles, pastor, officiating. He will be assisted by the Rev. Ralph Buffington, pastor of the North Side Church of the Nazarene. Burial will be in Resthaven Memorial Park, directed by Newnie W. Ellis Funeral Home.

Mrs. Hughes was born April 23, 1905, in Upshur County, was reared in Upshur and Camp counties in the Pittsburgh area, and was married to George E. Hughes on Aug. 18, 1927, in Gilmer. She had lived in San Angelo, Sweetwater, Abilene, Lamesa and Stephenville prior to moving to Mid-land in 1951. She was a member of the First Church of the Nazarene.

Survivors include her husband, George E. Hughes; a son, James Kenneth Hughes of Bartlesville, Okla.; a sister, Vonna Pearl Johnson of Odessa; three grandchildren and several nieces and nephews.

Two Southern Illinois men claim UFO night sightings

TEXICO, Ill. (AP) - Although unexplained, two Southern Illinois men say they won't forget the strange, bright lights that lit up the skies over Jefferson and Franklin counties

Police, Air Force and local airport spokesmen had no explanations Thursday, but one man said he was awakened and the other scared by the bright lights.

Don Wall said he saw them near his rural Jefferson County home about midnight Wednesday. Don Taylor saw them as he was driving near Rend Lake on his way to Old Ben No. 26 mine in Franklin County. Other miners on the midnight shift said they had seen them.

Wall said he saw two bright, green lights in the middle of an object that was possibly 100 feet wide. Two dimmer lights burned at the ends of the object, he added

"They were twice as bright as a car headlight and woke me up when they shined through the windows," he said Thursday.

Taylor saw a 50-foot-wide object with a light something like that on the front of a helicopter. As it came toward him it seemed to explode "like a big jet

airliner blowing up," he said. Mount Vernon Police said they had one call about the object. The sheriff's departments in the two counties had no reports.

Scott Air Force Base officials near Belleville said their 60-and 200-mile radar scans showed nothing unusual in the sky all night. A Scott spokeswoman said one airplane was landing at the base about the time of the UFO report, but pointed out the base is miles from the Texico-Benton areas.

Duty Officer Benjamin Herr of the Federal Aviation Adminstration Air Traffic Division in Kansas City said a control center near Olathe, Kan., reported a "brilliant light from the north-northwest" at about 8:35 p.m. The light, Herr said, was seen from Salina, Kan., to Ft. Worth, Texas, but could not be explained.

WORLD BRIEFS

Cuba shakeup gives power to old hands

WASHINGTON (AP) - The sweeping bureaucratic shakeup carried out last week in Cuba is seen here as an attempt to ease growing economic and social problems by giving greater authority to old trusted hands of the Communist Party.

As interpreted by U.S. officials, the losers in the reorganization were many young technocrats named to high government posts in the last decade as a means of "institutionalizing" the revolution.

Cuban President Fidel Castro had sought to ensure the survival of the revolution after his departure by removing some of the powers of his inner circle and conferring greater authority to leaders of the younger generation. Now that process has been reversed.

Last Friday, Castro appointed key aides to five ministries and assumed personal control of the defense, interior, public health and culture ministries.

The status of Raul Castro, younger brother of the president, was unclear, although American officials described as premature suggestions in the U.S. press that Raul had been purged.

Raul Castro was appointed a "collaborator" with his brother in the running of the interior and armed forces ministries. He previously had been listed as head of the defense ministry.

Bombs kill three Irish, one Arab

LONDON (AP) - Bombs exploded in Northern Ireland and London, killing three Irishmen and a young Arab. There was speculation that the explosions were premature and the bombers were among the victims.

Three persons were killed during the rush hour Thursday evening when an incendiary bomb gutted two cars of a commuter train outside Belfast. Officials said two of the dead were believed to be members of the Irish Republican Army on their way to explode the bomb in Belfast's central railway station.

Earlier in the day, a bomb exploded in a fifth-floor room of London's 702-room Mount Royal Hotel, killing a 22-year-old Arab student from the Persian Gulf sheikdom of Bahrain and injuring three other persons.

The BBC reported a telephone caller in Beirut said the hotel bomb was intended by a Palestinian organization for Israeli intelligence agents in London. Scotland Yard said the dead man, Mohammed Soltani, was very close to the bomb when it exploded but the Yard did not know yet whether he was assembling it.

McCartney to remain in custody

TOKYO (AP) - Ex-Beatle Paul McCartney is to remain in custody for up to 10 days, and if no decision is reached to free him or charge him with marijuana possession, he might face up to 10 more days in jail, officials. said

The Tokyo District Court granted a request from the Tokyo Prosecutor's Office today to hold McCartney for up to 10 more days for questioning.

A spokesman for the prosecutor's office said McCartney would remain in custody until a decision is made on whether to make formal charges or free him

He said a decision might come before the 10 days was up, but that his office could ask for another 10-day detention if the investigation was not complete

Ministers try to see hostages

HOUSTON (AP) - Four black ministers in Tehran trying to see the American hostages say they still have no word on whether they will be allowed into the American Embassy or meet with the Ayatollah Ruhollah Khomeini.

"We've touched every base, so now we're just waiting," the Rev. Gene A. Moore said Thursday, adding that the ministers and their lawyer had met with an Iranian broadcast official.

Freighter knocks down bridge

Yugoslavia's Tito rejects amputation

BELGRADE, Yugoslavia (AP) - President Josip Broz Tito, the 87-year-old patriarch of anti-Stalinism and the non-aligned movement, has rejected his doctors' recommendation that they amputate the lower part of his left leg because of a circulation blockage, Yugoslavian sources say.

Officials Thursday refused to confirm the report that Tito's eight-member medical team had recommended amputation, but an official medical bulletin said the leg was "in gradual deterioration" following unsuccessful surgery last weekend to relieve the vascular blockage.

Thursday's brief medical communique gave no indication of how the doctors planned to deal with the ailment. It said Tito's general condition was improving and that he spent a peaceful night at the Ljubljana hospital where he went for surgery last Saturday night.

Temperature, blood pressure and his pulse were within normal limits," the report said.

Before resorting to surgery, doctors tried for a week to relieve the blockage with medication. Tito has been suffering from circulatory problems for about two years. Yugoslavian sources said his condition was aggravated late last year by a diabetes-like ailment.

The illness of Yugoslavia's president-for-life and the Soviet military intervention in Afghanistan -

Devout hijacker surrenders in Beirut

BEIRUT, Lebanon (AP) - A devout teen-ager desperate to find Lebanon's lost Shiite Moslem leader hijacked a Lebanese jetliner today and ordered it to head for Iran, but he surrendered a short time later when the plane landed here, authorities report-

The youth had threatened to blow up the Middle East Airlines Boeing 707 with a hand grenade if it did not take him to Tehran.

The plane, carrying 72 passengers and a crew of nine, was commandeered over the Mediterranean some 25 minutes after it took off from Beirut airport on a flight to Larnaca, Cyprus, in mid-afternoon, Lebanese authorities said.

They said the hijacker, identified as Fuad Hamadeh, a Shiite Moslem from the southern Lebanese village of Khirbet Silm, told the captain and passengers he had taken command of plane in a new attempt to determine the fate of Imam Musa Sadr. the spiritual leader of Lebanese Shiites who disappeared mysteriously more than a year ago on a trip to Libva.

Lebanese Shiites have been urging Iranian leader Ayatollah Ruhollah Khomeini, who heads Iran's Shiite sect, to intervene with the Libyans and find out what happened to the missing Sadr.

The hijacker wanted to go directly to Tehran, apparently to appeal personally for Khomeini's intervention, but he was persuaded to allow the plane to land back in Beirut for refueling, authorities said.

After it touched down here, Lebanese Communications Minister Butros Harb negotiated with the youth via the control tower radio, and within an hour he agreed to give up the plane and his hostages, an airport spokesman said. He said most of the passengers were Lebanese.

Reporters then saw the young man being whisked away from the airport by police.

opposed by Yugoslavia - have increased fears about in a situation when they are already irritated." the future of the nation's independent brand of For the first time since the Soviet invasion of communism, pioneered by Tito after he broke with Czechoslovakia in 1968, local Communist Party orga-Stalin in 1948.

Saturday, Sunday and Monday 10 a.m.-6 P.M. BUYING. Gold, Silver Coins,

STOCKHOLM, Sweden (AP) - Six cars and a truck plunged more than 100 feet into the water early today after a Norwegian-owned freighter traveling in fog slammed into a bridge off the west coast of Sweden and the mid-section of the bridge collapsed, authorities said. Frogmen were searching for survivors.

Trucker Jan Rosenberg, who drove onto the Almo bridge, told reporters he suddenly realized it ended in "a big nothing.

"I hit the brakes and stopped 10 meters (33 feet) from the edge," he said. "I just sat there for a minute, staring. I went outside and saw two headlights coming up on the opposite side. Suddenly, they dove and disappeared.'

Police said they did not know how many people were traveling in the cars and truck believed missing in the strait connecting Tjorn Island with the mainland, 30 miles north of Goteborg.

Navy shuts down refugee camp

MANILA, Philippines (AP) - Because of the dwindling number of boat people, the U.S. Navy shut down its only camp for refugees from Vietnam today. It sent 246 of them to the United States and 41 to a Philippine camp to await resettlement.

The camp at Cubi Point Naval Air Station 50 miles northwest of Manila opened Sept. 1. At one time it housed 550 refugees, rescued at sea by units of the 7th Fleet. The others left for the United States and other countries last month.

Choi will consider proposals

SEOUL, South Korea (AP) - President Choi Kyu-hah said today his government is giving positive consideration to North Korea's proposal for direct talks.

North Korean Prime Minister Li Jong-ok proposed Saturday that he and South Korean Prime Minister Shin Hyon-hwack meet for "an unreserved exchange of views" concerning the reunification of the divided nation

Seven Remington statues identified as forgeries

Bell processor improves service

Most Midland telephone customers won't know the fference. They won't realize how efficiently the ills are processed. Nor will they notice that a rge percentage of those calls are completed on the st attempt.

What's behind the unrealized improvements in idland's telephone service? Primarily a \$1.7 milon machine called a 1A processor.

According to Johnny Wise, Southwestern Bell netork maintenance-ESS manager, "the new machine the ultimate in electronic switching equipment."

Several weeks ago, the company installed a new achine in the Midland office to help handle the ore than 1.1 million local and long-distance calls ocessed daily.

But, said Wise, the 1A processor has not replaced idland's original electronic switching system ma-

"Today we are operating with the most sophistited switching equipment in the United States. We uldn't possibly replace this machine. We can only date and improve.

"That's what we did by adding the 1A processor. he old processor was not capable of handling the creased call volumes caused by Midland's rapid owth. Not only can the new machine handle the ills, it also requires less maintenance," Wise

"When a customer requests a new number or a imber change, it normally takes only minutes to ter the information into temporary memory. his way the customer has immediate service.

"But to maintain this information, for a number of ears, it must later be transferred into permanent emory. That's where the new machine really ines," he said.

With the old processor, it took about a day to ansfer the records from temporary to permanent emory. But the new equipment requires only 40 inutes to complete the job. That leaves our people ore time for other tasks. It increases productivity the office," Wise said.

The old equipment processed a call in a microsend - one-millionth of a second, Wise said. The new achine, which has four times the call capacity its predecessor, will process a call in a nanosecond one-billionth of a second.

"Not only will this new equipment allow for owth, but it will help prevent overload conditions hich mean busy signals to the customer," Wise id. "It's these overload conditions that occasionalcause our equipment to fail."

The machine should have a life-span of about 40 ears, he added.

Museum must have more support here

The Museum of the Southwest needs more than st funds to ensure its cultural role in Midland.

"What I'm asking you for is...continued and ronger support - money," Joan Hellen, museum rector, told members of the Downtown Lions Club ednesday noon in the Midland Hilton.

"We also need philosophical support," Ms. Hellen aid. She noted that Midland is growing and that the resources of this town" contribute to the museum, which should be viewed as "a fun place to go, rather han a serious place." Currently, the museum is featuring four exhiits: -The Amodio Collection of late Renaissance arough 19th-century paintings by the Old Masters, such as Thomas Gainsborough, Joseph Mallord Wilam Turner, Hans "The Younger" Hollein and Sir oshua Reynolds. Also on exhibit, but not part of the ollection, is a Rembrandt. -"The Woman's Side of Pioneer Life," which tells her side of the story, so to speak," said Ms. ellen. "We think of the rough frontier as being ale-oriented." -"Ceramics: New Definitions." "It'll be differ-nt," she said. "I'd like to hear your comments." -Lalique and Steuben glass. Upcoming museum shows and events include the rank Armstrong photographic exhibit, which deicts man's mark on nature, in March; a student art estival in April; a juried area art show in May and une; a watercolor exhibit in early summer, and the nnual Septemberfest, which is the museum's priary money-raising event of the year.

Lubbock carpet firm must repay customers

AUSTIN, Texas (AP) - Attorney General Mark White said Wednesday he has obtained an agreed permanent injunction against Randy Hale and the Pro-Line Carpet Co. of Lubbock.

White said the injunction prohibits Hale from misrepresenting to consumers his ability to install carpets.

Hale agreed to reimburse 21 consumers a total of \$4,900 and to pay a civil penalty of \$2,500, White said.

SHEINWOLD ON BRIDGE

Irrelevant Finesse

By Alfred Sheinwold

Study, but don't imitate. today's "irrelevant finesse," a play that gives your opponents an extra chance to defeat the contract but does nothing to help your cause.

South took an irrelevant finesse at the first trick, losing to the king of diamonds. South won the spade return. drew trumps, took the ace of hearts and continued with the jack of hearts for a finesse.

South continued hearts, discarding a club on dummy's king. He then cashed the ace of clubs and led two more trumps, but no squeeze developed and there were no miracles. Down one.

TAKE ACE

South should put up the ace of diamonds, draw trumps and try for four heart tricks. If the attempt succeeds, declarer can discard a diamond on the fourth heart. He gives up one club, making the slam.

The heart guess is South's only real problem. If he makes four heart tricks he doesn't need the diamond finesse. If South loses a heart, he will be down even if he has succeeded in a diamond finesse.

e 1980 Los Angeles Times Syndicate

AUSTIN, Texas (AP) - Former North Texas State University President C.C. Nolen, who sat silently as House committee investigators pro-

duced damaging evidence against him, says he is "baffled" by the hearings and has never stolen state money

Nolen, who invoked the Fifth Amendment right against self-incrimination 109 times this week, broke his silence Thursday after the House General Investigating Committee hearings concluded.

The four days of testimony included evidence that complicated financial transactions resulted in state money being misspent - with some of it winding up in Nolan's salary supplement

"I have absolutely nothing to hide," said Nolen, reading a prepared statement and refusing to answer reporters' questions.

THE MIDLAND REPORTER-TELEGRAM, FRI., JAN. 18, 1980

"I have done nothing wrong. I have not received any money for anything at any time other than that which was authorized," he said. "Not a dime."

Hearings 'baffle' ex-NTSU prexy

The investigators, however, submitted evidence alleging Nolen misused private foundation money for personal political donations, allowed state money to be used for attorney's fees for a Denton group seeking to start a television station, and was involved in other financial misdeeds.

Committee counsel Bob Shults said financial records show some of Nolen's political donations were reimbursed by the private NTSU Educational Foundation, which is barred from political activity. Nolen's income tax returns indicated he listed the donations as deductions

The donations included gifts to former Gov. Dolph Briscoe, Sen. Betty Andujar, R-Fort Worth, and Rep. Charles Evans, D-Hurst.

Nolen also refused to answer questions about funds raised for a student choir trip. Some \$8,000 raised for the trip was transferred to the educational foundation for Nolen's salary supplement, according to records produced by investigator Bob Shults.

A Nolen memo to another NTSU official carried the hand-written message, "Since (NTSU vice president John) Carter can find a way to cover most of this we will be able to use the funds ... for the salary supplement."

The former president said he had cooperated with investigators throughout the inquiry that began in April. Nolen left his NTSU post shortly after the inquiry began.

"This has been a very difficult few days for me," he said. "Just three hours before the hear-

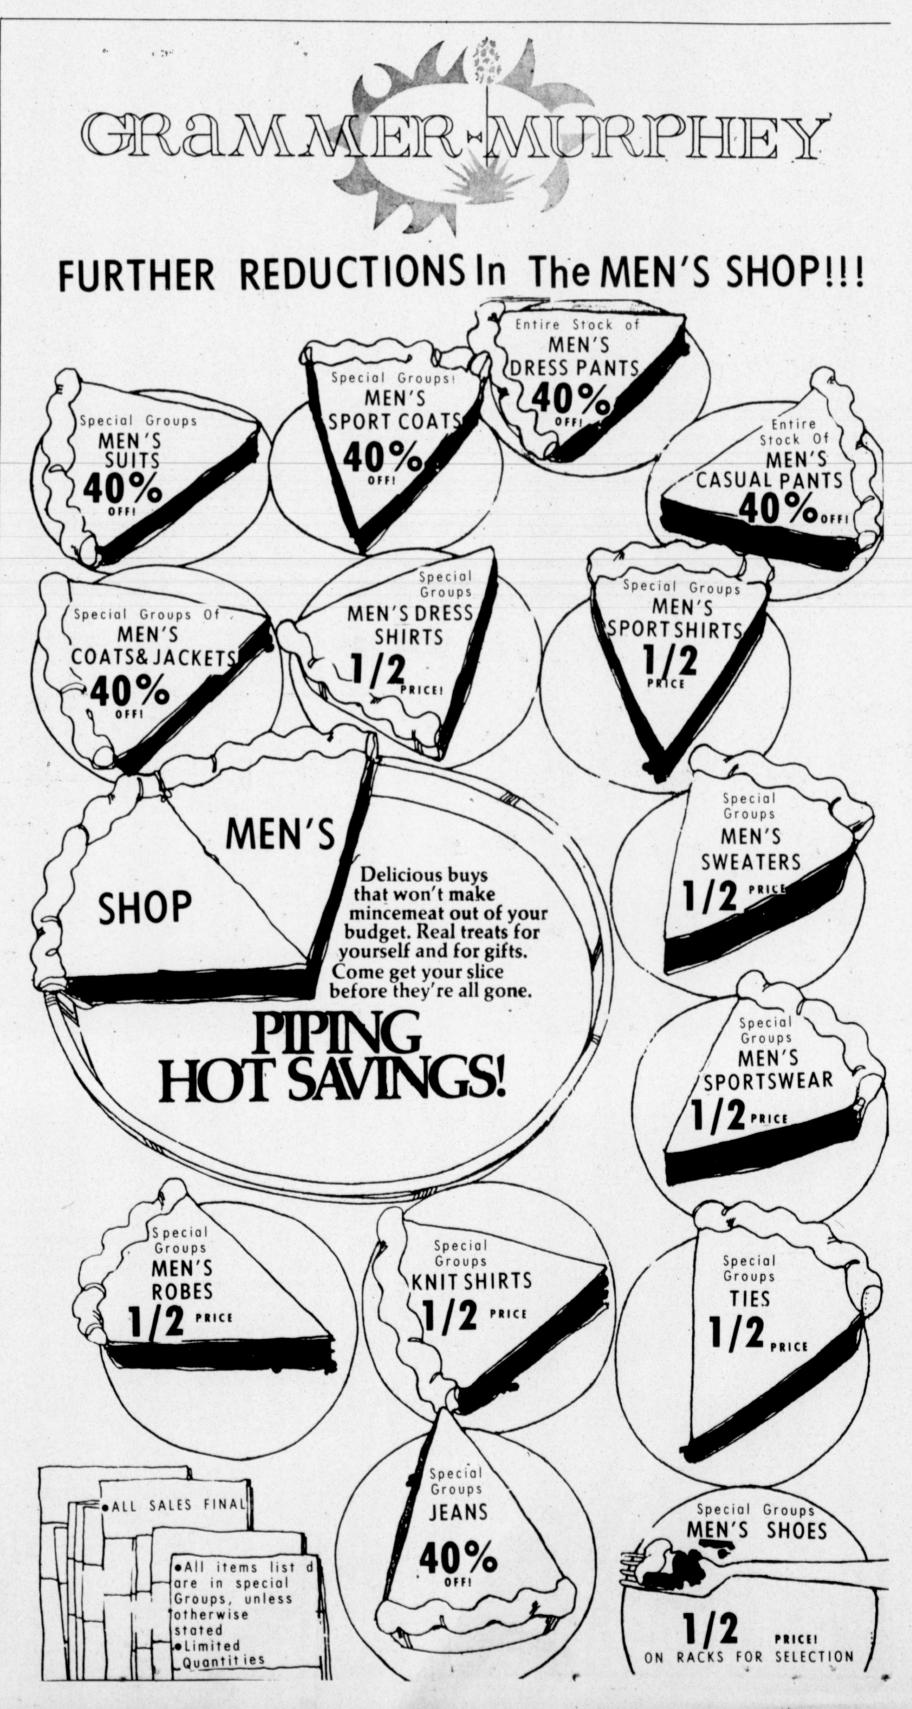

ings began Monday. I was advised

that I was apparently going to be the focal point of the hearings," he said.

Nolen complained he was barred from the hearing room, while other witnesses were allowed to stay. Shults, who presented much of the damaging evidence, was on the committee staff and was allowed to remain in the room.

"It didn't take long after I testified for the first time for my attorneys to determine that I was in the position of being an accuséd," he said. "I'm really baffled by these proceedings. I'm hurt that allegations are being implied about me personally. And I'm saddened that a cloud is being cast over the fine reputation of North Texas State University.

Committee Chairman Richard Slack, D-Pecos, said a report will be issued after the transcripts have been reviewed.

SAN ANTONIO, Texas (AP) - Live Oak police today attempted to determine if shots were fired at a fellow officer shortly before he died in a force one year, radioed to other law enforcement officials in the area that he was chasing two men in a white car through northern Bexar County.

flery collision with a tractor-trailer rig

Meanwhile, the Bexar County Sheriff's Department prepared to file capital murder charges against two men arrested in connection with the death of Alfredo F. Araiza, 25.

The victim died Thursday after the patrol car collided with the rig during a high-speed chase with another vehicle. Shots reportedly were fired during the chase, authorities said.

Department of Public Safety troopers arrested two men at a nearby house shortly after the crash. Officials said a 9mm pistol and a revolver of undetermined caliber were found in the seat of the suspects' car. Officer Pat Dunn of nearby Selma

said Araiza, who had been on the

"He called in again and said shots were fired," Dunn said.

Dunn said the officer did not give a reason for the chase when he radioed for assistance. "It was apparently a traffic violation," said Dunn

Raul Garza, driver of the truck, said the two cars appeared to be going about 100 miles per hour as they approached. Garza said the patrol car appeared to lose control before it crashed into his truck.

Garza was not seriously injured.

Northern Tier pipeline three years away

By FRANK CORMIER

WASHINGTON (AP) — President Carter's decision to back a \$1.23 bil-lion all-American oil pipeline from Port Angeles, Wash., to the upper Middle West won't bear fruit for at least three years.

If the pipeline project gets needed private financing and government clearances, however, crude oil from Alaska, California and other western points could begin flowing to refineries in the Plains States and upper Midwest by 1983.

Carter gave Northern Tier Pipeline Co., a private consortium, one year to arrange financing for the two-year construction project that would string 1,491 miles of pipe from Port Angeles to Clearbrook, Minn.

If Northern Tier is unable to obtain financing within 12 months, a White House announcement said, Carter will give his support to a \$574 million alternative proposed by Trans Mountain Oil Pipeline Corp. Trans Mountain would build a line from Low Point, Wash., to Edmonton,

Alberta, where it would link up with existing pipelines to the U.S. Midwest.

Carter's decision Thursday followed recommendations by Interior Secretary Cecil Andrus, who told reporters the move has "met with a great deal of acceptance" in all the states along the Canadian border from Washington to Minnesota

Ayked if Northern Tier would have difficulty raising the needed money, Andrus replied: "I would not even speculate on that. It would be up to the company and its bankers.

Rejected were two rival pipeline plans: one for an overland route across Canada from Alaska, which was strongly favored by the Canadian government, and a second for a pipeline from a Canadian port to Edmon-

The importance of the pipeline project to Midwestern states has been underscored by Interior Department estimates that refineries in Montana, North Dakota and Minnesota will begin to run out of crude supplies by 1985 unless the line is built.

Carter was said to favor the Northern Tier route because:

-It would be situated entirely within the United States, providing Americans with more than 5,500 pipeline jobs and expanding local tax

-Since pipeline operations would be wholly under U.S. control, there would be no national security problems.

PAGE 1C

-No Canadian permits would be needed, which would eliminate a potential cause for delay.

-The Northern Tier line would carry more oil than its proposed rivals and, in addition, could take supplies from California and from the Williston Basin and Overthrust Belt in the Rockies as well as from Alaska.

"Notwithstanding avproval by the president," the announcement said, "Northern Tier must comply with the state and local laws and procedures of the jurisdictions in which the pipeline is located." The Northern Tier route would have an initial capacity of 709,000 barrels a

day, which could be expanded to 933,000 barrels.

The Trans Mountain line would involve 721 miles of new pipe carrying 500,000 barrels a day, expandable to 630,000 barrels.

Technically, Carter declared the Northern Tier project to be in the national interest, making it eligible for accelerated regulatory handling.

of the oil.

free market.

Conferees may junk work on 'windfall profit' legislation

By JIM LUTHER

WASHINGTON (AP) - Senate and House conferees are debating whether to junk several months of work and start from scratch on a new, simpler 'windfall" tax on the oil industry.

The aim and price tag of the new tax would be the same: to take from the industry about \$227 billion of the extra \$1 trillion consumers will pay for fuel over the 1980s as a result of President Carter's decision to phase out controls on the price of U.S. crude

But instead of a separate tax rate

for nine or more different types of oil, the new proposal would have only one perhaps two - tax rates.

The new plan is being developed by Reps. James Jones, D-Okla., and Henson Moore, R-La., who still are awaiting computer estimates on just how it would work. The broad outline of the idea was greeted with enthusiasm Thursday by the Senate-House panel that is considering the windfall

Because the windfall bills passed by the House and the Senate are so complex, Moore said, the oil industry will have to pay lawyers and accountants

handsomely to figure just how much tax is owed.

"Those dollars would be better spent on finding oil," Moore said. The Carter administration's initial reaction to the proposal was unenthu-

siastic. Donald Lubick, assistant treasury secretary, noted that if there were only one rate of tax on oil price increases - whether from new fields or old - the industry would be denied the incentive it says is necessary to discover more oil in the future. But if there is more than one rate, Lubick added, "we'll be right back where we

started."

Rep. Al Ullman, D-Ore., chairman of the House conferees, questioned whether the conference had authority to consider such a shift away from the windfall tax. Rep. James Corman, D-Calif., suggested the plan might bring a new bonanza to the oil industry as foreign oil producers continue sharply raising the price of their oil.

Sen. Russell B. Long, D-La., head of the Senate delegates, seemed receptive to the Jones-Moore proposal, as did Rep. Sam Gibbons, D-Fla., who

could be the "swing" vote on whatever tax is finally approved.

Moore and Jones estimated that to pick up the same \$227 billion in revenue over the next 11 years, their tax would have to be at a rate of around 20 percent. That is, it would take 20 cents out of each dollar of crude-oil price increases above current levels.

Staff aides also were working on another version, which would have a tax rate of 10 percent on oil to be found in the future but perhaps 30 percent on other production.

Before the Jones-Moore idea was discussed, the conferees made three tentative and relatively minor decisions on the windfall tax:

-Old oil (discovered before 1973) and new oil (found between 1973 and 1978) would be taxed at a rate between 65 and 70 percent. The Senate had voted a 75 percent rate and the House opted for 60 percent.

-The tax on new oil would be com-

Gold goes over \$800

LONDON (AP) - Gold opened in Europe above \$800 an ounce for the first time in history today after spectacular new rises in New York and Hong Kong.

Trading opened in Zurich at \$810 an ounce, and the price quickly moved up to \$820.50, a \$90 advance on Thursday's closing price.

The opening price in London was \$815, and by midmorning the price had risen to \$825, a record for Europe and \$65 above Thursday's high.

In Hong Kong, meanwhile, the price soared to a world record of \$832.97 an ounce, then settled back to close at \$810.85

Only two days ago, the price of gold hit \$700 for the first time after breaking through \$600 on Jan. 3. The metal has more than doubled in value since the siege of the U.S. Embassy in

'Mysterious disappearance' of 80 ounces of gold probed

OAK RIDGE, Tenn. (AP) - The FBI is investigating what it calls the "mysterious disappearance" of 80 ounces of gold from the government's Oak Ridge National Laboratory.

Agent-in-charge Lawrence Sarhatt said several FBI agents were sent to the lab Thursday after the Department of Energy reported the \$60,000 in gold missing.

FBI and Energy Department officials refused to say when or how the loss was discovered or from where or how long the gold has been missing.

"We're not saying anything more than that we asked them to investigate for possible theft," DOE spokesman Wayne Range said. "We don't want to tear up their investigation." Sarhatt said the FBI was called into the case under statutes involving the theft of government property. The statutes call for a prison sentence of up to 10 years and-or a fine of up to \$10,000 upon conviction, he said.

Range said the laboratory uses small amounts of gold and other precious metals in its research and development programs, particularly in the ing post at the University nuclear energy field.

\$40 million in heroin found at airport

NEW YORK (AP) - Federal nar- Winkler) that he was

Tehran began on Nov. 4, when gold was worth \$381 an ounce.

The Soviet military intervention in Afghanistan at the end of December added to the upward pressure.

One dealer in New York described trading there Thursday as "absolutely nuts." The price rose \$100 an ounce, from \$715 to \$815, before closing at a record \$802. Some dealers attributed the jump to rumors of a Soviet invasion of Iran.

The effect of the New York price was immediately apparent when trading opened today in Hong Kong, the Far East's chief gold market. The opening price was \$798.62 an ounce, up \$70.20 from Thursday's close. The price rose steadily until the last hour of trading, when profit-taking set in.

"They've gone crazy," said one Hong Kong dealer. "If this goes on,

The investigation follows the arrest of four men last week in the theft of 40 ounces of gold from a government uranium enrichment plant in Padu-

of DOE's Oak Ridge operations. Two of those arrested were employees of Union Carbide Corp., which operates the plants under a contract with the government.

cah, Ky., that is under the jurisdiction

Officials said there is nothing to indicate that the Paducah and Oak Ridge cases are connected.

Armstrong quits post as teacher

CINCINNATI (AP) -Former astronaut Neil Armstrong, the first man to walk on the moon, has resigned from his teachof Cincinnati for "per-

sonal reasons. Armstrong's resignation became effective on Jan. 1 but was not made known to the school's public relations department until Thursday, university spokesman Ken Service said.

Service said Armstrong "apparently told the (university's) president (Dr. Henry gold will reach the \$1,000 mark in no time."

The Hong Kong Gold and Silver Exchange announced that beginning Monday it would close half an hour early, apparently to try to put a brake on gold speculation.

Silver prices also continued to rise, opening in London at a record \$49.50 a Troy ounce, up \$3.50 from the price late Thursday. The previous record was \$48, set on Wednesday

The U.S. dollar continued to hold firm, with only slight gains and losses, despite the gold boom. In past years, a rush into precious metals usually meant a lack of confidence in the dollar, the world's benchmark currency for international trade. But this time the panic is caused not by the state of the American economy but by the crises over Afghanistan and Iran and their effect on Soviet-American detente and international political stability.

Morning dollar rates in Europer were:

Frankfurt - 1.7338 marks, up from 1.7235 at the close of trading Thursday

Zurich - 1.5936 Swiss francs, down from 1.5952

Paris - 4.0375 French francs, down from 4.038.

Amsterdam - 1.9015, guilders, up from 1.901.

Milan - 805.05 Italian lire, up from 804.65.

In London, the pound sterling sold at \$2.28, up slightly from \$2.2745.

The dollar closed in Tokyo at 239.45 yen, up from 238.675.

Gold fever may be sweeping the world, but pious meditation goes on in the Bangkok temple of this golden Buddha, 5.5 tons of 18-carat - 75 percent pure - gold fashioned seven centuries ago. A revered religious image, the golden Buddha was encased in concrete until 1955, when the true nature

of the statue was discovered. Though Thailand's deeply religious Buddhists wouldn't think of selling the image, the gold alone would be worth more than \$100 million at Friday's price of more than \$800 an ounce. (AP Laserphoto)

Witches' trial delayed

PLAINVIEW, Texas (AP) - The absence of a juror has caused an unexpected delay in the Loy Dean Stone murder trial.

After nine days and 64 interviews, attorneys finally had selected a panel of 32 - plus an additional prpospective juror as insurance against unforeseen crisis.

But Thursday afternoon court employees notifying potential jurors to appear today discovered one of them was in Oklahoma and would not return until tonight.

State District Judge John T. Boyd, who had planned to add another "emergency" juror or two and then begin opening arguments today, was forced to postpone the start of testimony until Monday.

He said attorneys still would pick some additional panelists today.

Stone and his wife Louise, both high priests in a witches church, are charged in the shooting death of a 15-year-old Dimmit girl on Halloween 1977.

was hit by two shotgun blasts after it sented to dismiss the juror. pulled into the Stone's driveway near the Panhandle town of Dimmitt.

Miss Casas was killed and two of the other four teenagers in the truck were injured.

The Stones, both 49, said they never heard the shots and have pleaded innocent to the charge. Boyd granted a motion to separate Mrs. Stone's trial last week.

The slaying raised a furor in the town's Hispanic community that forced the trial to be moved to Plainview, 45 miles away. If convicted. Stone could serve five

to 99 years, or life, in prison.

Although Boyd had told the potential jurors to be available, he did not tell them to remain in town.

"I'm going to give him the benefit of the doubt," the judge said of the missing juror. "I don't think he's trying to run off and hide.

"For the juror to be excused both state and defense attorneys would have to agree to dismiss him," said Boyd. He said lawyers have not con-

To make matter worse, he said, a member of another juror's family is seriously ill and the juror may be dismissed.

'I'd like to have 34 or 35 (jurors) just in case," Boyd said.

"There's nobody more anxious to begin the trial than I am, and I think the lawyers on both sides would like to begin the trial at this point.

He said consent of the state and defense is required to excuse jurors expect in illness and hardship cases. Each side will strike 10 names from the panel, leaving a jury of 12 and at

least one alternate. Because of the sensitive nature of the case, attorneys questioned the prospective jurors closely, some for

more than an hour. Their questions were designed to detect bias for or against witchcraft, Hispanics or law enforcement officers - whose testimony will comprise much of the evidence of the trial.

Of the 33 panelists, 16 are men and 17 are women.

cotics agents say whoever failed to contemplating resignpick up some \$40 million worth of ing. heroin at Kennedy Airport is probably "in a lot of trouble" with New York area hoods.

The heroin, contained in two suitcases, was found abandoned on an airline baggage carousel at Kennedy Airport and seized by customs agents Wednesday.

James Judge, a spokesman for the Drug Enforcement Administration, said Thursday that agents from his office are checking the possibility that the courier may have been an airline employee who either got cold feet or confused the pickup time and as a professor of aeroplace.

The luggage apparently arrived on a Trans World Airlines flight from Rome at 4:30 p.m. Wednesday. The suitcases were turned over to customs agents, who opened them and found that each contained blankets covered with dried hot peppers - presumably to cover the scent that might be detected by a heroin-sniffing dog.

Under the blankets in each suitcase were 12 packages, each containing a kilogram of heroin. The plastic packages had been sprayed with a strongsmelling aluminum paint, Judge said, again in an apparent effort to mask the heroin odor.

He said the heroin had a wholesale value of \$8.4 million, but would be worth about \$40 million when cut and sold on the street.

Judge said the heroin was believed to have traveled from Palermo to Rome by Alitalia, the Italian airline, and to have been put aboard the TWA flight from Rome. He said it was the seventh seizure in two years believed to have traveled that route, but was far larger than previous shipments, which totaled 30 kilograms.

Millions watched on television as Armstrong made his famous walk in July 1969 and said as he planted his first footstep on lunar soil that he was taking "one small step for man, one giant leap table with butterfly mats.

for mankind.' Armstrong, who later left the astronaut program after further space trips were shelved, has shunned publicity since coming to the university space engineering in 1971

(January IN

judicial effort to reconcile competing but weighty claims of media freedom versus individual freedom," Barron said.

Trying to resolve the divergent views expressed, approximately 150 delegates will attend a secony congress March 16-18 in Williamsburg, Va.

"The fate of journalism will be determined less by sympathetic judges than by the thought and care of ournalists," said New York Times writer Anthony This is not to say the Supreme Court is the root of Lewis, twice winner of the Pulitzer Prize, in his

In a similar study in 1958, 58 percent disapproved allowing searches of newsrooms for confidential of the Civil Rights Act of 1964 and the Rules Americans don't know what the First Amendment is tighter reins on the press, Gallup said.

A further erosion of the public's faith in the press is indicated by a 23 percent drop in those who believe their newspapers are accurate, compared to the 1958 study, Gallup said. A third of those polled in December felt their newspapers were inaccurate, Gallup said.

"The First Amendment is a citizen's right, not a journalist's right," said CBS correspondent Dan Rather in a keynote address Thursday. "It (journalism) is a watchdog role - not the role of an attack dog, and certainly not the role of a lap dog. But to bark at everything suspicious," Rather said. "And no, we're not always right.'

Rather charged that since the early '70s, a pattern of court decisions has narrowed journalits' watchdog role. On the heels of Watergate, the attack on press freedoms is "one of the more astounding historical ironies," he said.

all our problems," Rather said, pointing to rulings concluding remarks.

The Supreme Court's recent actions have been a
