Tony Miller surveys his toppled horse trailer.

Just trailing along... Story and photos By BRUCE PARTAIN

News Staff

They didn't end up singing "Happy Trails to You," but the Tony Miller family of Ridgecrest, Calif., was glad their horse story ended on a cheerful note.

Miller, his wife and four children were traveling west on I-20, approaching the FM 715 overpass Monday about 3 p.m. in their station wagon when misfortune struck.

17-year-old Laura Miller was at the wheel when the large horse trailer being pulled behind the wagon began swaying back and forth.

"It just started fish-tailing," said Miller. "I guess the hitch or torsion bars just gave out."

The Millers, moving back to their California home after a stay in New Lime, Conn., were uninjured, but their car was damaged and their trailer turned over on one side.

The trailer was packed with mattresses and suitcases, but also held a more valuable

Iranian official held for links to 'spies'

By The Associated Press

Iran's navy commander has been arrested for alleged close links with the "U.S. spies" at the occupied American Embassy in Tehran, the Iranian government newspaper reported today.

The arrest of Adm. Mahmoud Alavi, first reported Monday without explanation, was based on documents found in the embassy, the Islamic Republic newspaper said. It was the third time since the embassy takeover that documents found by the militants holding U.S. Embassy have led to the arrest of an Iranian official

Today was the 115th day of captivity for the 50 or so American hostages at the embassy. There were no new developments reported that would indicate the hostages would be freed any earlier than April, the time mentioned by revolutionary leader Aya-tollah Ruhollah Khomeini.

On Monday, the U.N. investigating panel on Iran heard testimony from Iranian jurists about the shah's alleged misdeeds, and President Abolhassan Bani-Sadr appeared atop the U.S. Embassy wall to demonstrate

holding the American hostages.

"The Islamic Republic, quoting unnamed reliable sources, said the navy commander was arrested for his "close links and friendly relations with the U.S. spies held in the U.S. Embassy

"Some documents have been found about Admiral Alavi in the U.S. spy nest," the newspaper said. The Iranian revolutionaries condemn the U.S. Embassy as a "spy nest." It said Alavi had been in contact

with agents of the previous government of the deposed Shah Mohammad Reza Pahlavi and had helped many of them escape. There was no further detail on the allegations against Alavi.

Spokesmen for the embassy militants declined to comment on the case

Twice before the militants have publicized documents purporting to link government officials with the United States or the shah. In November, they engineered the arrest of a former spokesman for the revolutionary government, Amir Abbas Entezam, for alleged CIA connections. Three weeks ago, the national infor-

solidarity with the young militants mation minister, Nasser Minachi, was arrested on the basis of embassy documents purportedly showing CIA links.

Bani-Sadr reacted angrily to Minachi's arrest, denouncing the young radicals at the embassy as "dictators" and ordering the minister's release. At that time, the militants were ordered by Iran's Revolutionary Council to deliver any further incriminating documents to the authorities for review.

Alavi, who holds a degree from Harvard University, was named navy commander Jan. 30 to replace Adm. Ahmed Madani, who resigned to run in the presidential election.

Alavi had attained the rank of vice admiral in 1975, under the shah's regime, but retired because of differences with his superiors in the former government.

The five-man U.N. commission began hearing testimony Monday. A source close to the panel said examination of the allegations will continue "for the next couple of days." He said the commission's program is open, and the investigations will be planned from day to day. No other details were given.

County Commissioners approve boost in salary

By SUSAN TOTH Staff Writer

Midland County Commissioners Monday agreed to add \$100 a month to the salary of three justices on the Court of Civil Appeals and heard a report on needs for the Midland Coun-

ty Jail at their regular meeting. The salary supplement for the jus-

year be given to be divided by the three justices. But commissioners reduced that to \$3,600 to make the payment \$100 per month instead of \$111.11 per justice.

Commissioners also heard a lengthy report from Sheriff Dallas Smith on 29 items listed for improvement in a January inspection of the Midland County Jail by the .. Texas state agency or "lots of money" to change them.

The most serious of those, Smith said, is the requirement that the jail have two exits. Currently, only one staircase leads from the jail to the ground floor. Elevators don't count as an emergency exit in case of fire.

One answer to the problem, Smith said, would be to cut through a wall

Australia's cooperation assured By KINGSBURY SMITH National Editor The Hearst Newspapers CANBERRA, Australia - Australia's cooperation with the United States in patrolling the Indian Ocean

to deter any Soviet aggression in the area will be "absolute." This assurance was given by Prime Minister J. Malcolm Fraser in an fexclusive interview with William Randolph Hearst Jr., editor-in-chief of The Hearst Newspapers, and the writer

One of the most pro-American leaders of the countries with whom the United States is allied in the Pacific and Europe, the tall, resolute, serious-minded prime minister said Australian naval and air forces in the Indian Ocean already maintain close liaison with U.S. Naval forces there, exchanging surveillance information. An Australian communications base at Northwest Cape in western Aystralia relays VHF signals to American nuclear submarines in the Indian Ocean.

In response to questions, the prime minister said it would be "correct" to assume that the most important contribution Australia makes to the defense of the United States and itself is the top secret, closely guarded, chiefly American-manned satellite communications base in the Pine Gap area of central Australia.

Mrs. Tony Miller, left, and daughter Laura comfort freed horse.

CALLED THE JOINT Defense Space Research Facility, this base has the world's largest radar installation for tracking and receiving information from America's "spy" satellites that maintain constant surveillance of the Soviet Union. These highly sophisticated camera and electronically-equipped satellites watch Soviet missile firing tests, all activities around the silos containing the nuclear ICBMs targeted at the United States, and the movement of military forces within the Soviet Union. The JDSRF also picks up the

Soviet telemetry signals which direct the Russian missiles in flight, and would, in a nuclear war, target its multiple warheads.

This base could receive the first indication of a Soviet ICBM nuclear missile attack on the United States.

Located in the heart of the desolate, waterless, barren mountain and vast red desert "outback" interior of Australia, the base consists of a cluster of white antenna-sheltering "radomes" and oblong buildings housing the computer system. The base is operated mainly by about 225 Americans, including the largest concentration of **Central Intelligence Agency experts** outside CIA headquarters in Langley, Va. It also includes a few National Security Agency and U.S. Air Force specialists.

The area is a forbidden security zone to auauthorized persons, including reporters. While its whereabouts and purpose is known to the Soviets,

(See AUSTRALIAN, Page 2A)

tices is allowed under a state statute which permits a total of \$8,000 a year per justice to be paid by counties within the district the justices serve.

The justices serving the 12 counties in the Western District are based in El Paso, but hold periodic court sessions in Odessa.

The Odessa sessions help local people who appeal cases because it cuts distance, time and costs for both witnesses and litigants, according to Tom Scott, president of the Midland County Bar Association. He presented the request to the county officials. Scott requested a flat \$4,000 per

added.

Commission on Jail Standards. The jail is scheduled to be inspected again in March.

Most of the items were minor problems which already had been corrected or which could be overlooked because the jail was built before the TCJS standards were written, Smith said. Others, such as removing 11 bunks from cells in the women's tank, could be accomplished without losing either security or needed space, he

A few of the areas discovered in the January inspection, however, will need special variances granted by the

and open a door from the jail into one of the main courthouse stairwells going from the ceiling to the basement

That plan could present security problems, he pointed out, since the emergency exit door would have to be placed within one of the jail cells, and the main stairs have doors opening onto each floor.

"It seems to me we'd be spending more money and lowering security, Smith said, in explaining he would ask the commission for permission

(See COMMISSIONERS, Page 2A)

New Hampshire residents test political waters; Turnout good

CONCORD, N.H. (AP) - New Hampshire voters rendered their verdict today in a presidential primary that determined whether there really is a Republican front-runner, and tested the shaken challenge of Sen. Edward M. Kennedy to President Carter's renomination.

Ronald Reagan, the pre-season favorite, and George Bush, twice a winner, were the leading contestants in a seven-way Republican contest.

Voter turnout was mixed when the polls opened at 7 a.m. EST in cool, sunny weather. The early turnout in Nashua's two largest wards was described as "pretty heavy," but polling was light elsewhere in the city. A heavy turnout was reported in Lebanon, but voting was light in Portsmouth.

Balloting was continuing until as late as 8 p.m.

In tiny Dixville Notch, far to the north, all 23 voters met after midnight to cast their ballots over coffee, close the books and announce the first returns of the day. Republicans in the hamlet handed

Cubans hijack another boat

MIAMI (AP) - The 26 Cubans looked like any other group on a boat tour of Havana Harbor - that is until two of them whipped out pistols and demanded that the bewildered crew take them to the United States.

"Being in the U.S. is very well for me," said 30-year-old Wilfredo Apesteguia after the refugees stepped ashore on the Florida Keys Monday.

It was the third such boat hijacking this month. Seventy-five refugees involved in two previous escapes have already been granted political_asyReagan and Bush five votes each, followed by Sen. Howard H. Baker Jr. with four. John Connally, Rep. Philip M. Crane and Rep. John B. Anderson got one each. The six Democrats gave Carter three votes, Kennedy two and California Gov. Edmund G. Brown Jr.

At stake in New Hampshire: 22 votes for the Republican presidential nomination; 19 for the Democratic nomination, all committed in line with candidate shares of the popular vote

In Minnesota, precinct caucuses tonight begin the process of selecting 75 Democratic nominating delegates and 34 Republicans. The caucuses there are not binding, but a Democratic straw vote tested the strength of the Carter ticket in Vice President Walter F. Mondale's home state, where the president loomed a heavy favorite

Kennedy once was the favorite in New Hampshire, next door to his Massachusetts home, but not any more. The last pre-primary public Globe, said Carter was preferred by 55 percent of New Hampshire Demo-

crats to Kennedy's 30 percent. The senator from Massachusetts said his situation was like that of the U.S. Olympic hockey team, the underdog that won a gold medal.

"I'm glad to be an underdog," Kennedy said in Nashua Monday. "They were underdogs and they pulled it out, and we're going to do it ...

But Kennedy said that whatever the outcome, he will stay in the race. He once said that New Hampshire and Maine were must-win states for his campaign, then changed his mind. Carter defeated Kennedy in the Maine caucuses Feb. 10, with an edge of little more than 3 percent in the popular vote. He had beaten Kennedy by a landslide two-to-one margin in the Iowa caucuses on Jan. 21.

Mondale, who wrapped up the Carter campaign with a stop in Berlin, counseled against overconfidence, saying that polls don't count, and warning the president's supporters not to take anything for

Carter sending jets, tanks to Egypt

WASHINGTON (AP) - The Carter administration, in a move that could make Egypt a U.S. military surrogate in the Middle East, proposes to arm the Arab nation with 40 top-notch jet fighters and 250 tanks - with a promise of more to come in the years ahead.

The arms decision, announced Monday at the State Department, appeared to represent a policy shift. Only a year ago, Secretary of Defense Harold Brown and Secretary of State Cyrus^e R. Vance assured Congress there was no intention of converting. Egypt into a regional colossus along Iranian line.

Preliminary estimates are that Egypt will receive military sales credits of at least \$4 billion over five years. This could be boosted if President Anwar Sadat decides to accept

President Carter's offer of F-15 jet fighters 'The Egyptian government hopes in due course to order such F-15 air-

craft as may be necessary for its defense needs," Hodding Carter, the department spokesman, said. The planes cost about \$18 million

apiece and were not included in the current package because Egypt decided to "devote resources" to less expensive items, spokesman Carter said. These include 40 F-16 jets and 250 M-60 tanks. An F-16 costs about \$11 million.

The F-15 is probably the best airplane in the world. Israel's supporters in Congress, who are likely to question the arms deal, would be more critical if F-15s were included. Officials at the Pentagon hinted pri-

vately that the U.S. negotiating team,

headed by Assistant Secretary of Defense David McGiffert, talked the Egyptians out of the F-15s.

Once the arms package is submitted, Congress will have 60 days to either veto the deal or let it go through by inaction.

The outlook is uncertain. Arms control proponents and others concerned about Israel's security among Arab countries armed by the United States and the Soviet Union could try to block the sales.

Sen. Frank Church, D-Idaho, chairman of the Senate Foreign Relations Committee, cautioned last year: "The last thing we want to do is build up a new military colossus out here and then find it turning out like Iran, with Sadat no longer president and the whole place in chaos.'

A few weeks ago, however, Senate

Democratic Leader Robert Byrd of West Virginia warned Israel's supporters not to try to block an arms deal for Egypt.

Israeli officials, on recent visits here, have expressed deep reservations about supplying Egypt with sophisticated arms. They do not question Sadat's commitment to the peace treaty Egypt and Israel signed last year; but they worry about the post-Sadat era.

The revolution in Iran a year ago stripped the United States of its prin-cipal "policeman" in the Middle East-Persian Gulf region.

Saudi Arabia, the other U.S. bedrock, has bought about \$25 billion in American weapons over the last 25 years, but has resisted any permanent stationing of U.S. troops on its soil since the Soviet intervention in Afghanistan.

In planning U.S. strategy, the administration has turned more and more to Sadat, who seems eager for all the U.S. military and ecoromic help he can acquire while aligning himself with the United States.

The weapons announcement coincided with a reaffirmation by President Carter of U.S. support for Isra-

"Indeed, our close relationship with Israel is in the vital and strategic interests of the United States," Carter told a United Jewish Appeal audience.

Israel reguarly receives about \$1 billion a year in military credits. It has been promised an additional \$3 billion in credits and grants over three years. Egypt was to receive \$1.5 billion in credits annually, but the new deal probably will boost that quite a bit.

Coincidential to announcement of the Egyptian weapons plan, the Gen-

Supreme Court ruling on parental rights in adolescent abortion case

WASHINGTON (AP) - Parental rights and "the integrity of the family unit" are matched against a female adolescent's right to control her body in the latest Supreme Court fight over abortion.

The justices agreed Monday to review a Utah law that requires doctors to notify parents before performing abortions on minors.

The case most likely will not be decided before early 1981 but it already has attracted the attention of both sides in the continuing legal and social debate over abortion.

The Utah law, passed by the state legislature in 1974, is being challenged by a young woman, now 18, their minor children."

A spokeswoman for the National Abortion Rights Action League in Washington said three other states -Maryland, Montana and Tennessee ---have similar notification laws on their books.

But if Utah's law is upheld, other states surely will come under pressure to provide similar legisla-

Weather fair, warm, windy

Crisp mornings, warm afternoons who did not want her parents to be and gusty winds, standard West

The Supreme Court legalized abortion in 1973. Three years later, the court struck down a Missouri law that gave parents veto power over a young daughter's decision to have an abor-

tion. Last year, the justices ruled in a Massachusetts case that states may require pregnant, unmarried females

under 18 to be ruled "mature" by a judge before undergoing an abortion. That ruling said that if the judge finds the female to be mature, no parental notification or consent can be required. But if the judge rules that the female is immature, the female must prove to the judge that an

abortion is best for her. According to NARAL statistics for 1977, there were 1.13 million teen-aged pregnancies in the United States. The pro-abortion group said more than 413,000 abortions were performed on U.S. teen-agers that year.

Laura Miller led the shaky Appaloosa, which apparently suffered only bruises and a cut leg, off the busy interstate.

The trailer was hoisted up by one wrecker and pulled to Midland Downs, where the two ponies were finally freed.

One was bleeding around the eye, but both appeared to be in good shape otherwise.

"I guess this means we'll be staying in Midland for a while," sighed Mill-

er. "At least until the car is fixed." One member of the family managed to find a silver lining in the incident.

"Oh boy!" said 8-year-old William Miller. "Does this mean we're going to be in the paper?'

told about her abortion three years ago

Court documents identify the plaintiff only as H.L. Her lawyer, David Dolowitz of Salt Lake City, said her parents still don't know she was pregnant and had an abortion. H.L. left Utah to have an abortion at age 15.

The Utah law applies to all abortions on minors, no matter at what stage of pregnancy. Dolowitz's appeal from a Utah Supreme Court decision upholding the law argued that the law violates a minor's constitutional right to have an abortion "without undue interference by the state."

But state lawyers say that to invalidate the law "would be to ignore totally and completely the fundamental notion of the integrity of the family unit and to disregard entirely the responsibility which parents have for

Texas spring weather, are in store for the Permian Basin through Wednesday, the weatherman predicted today

Continued fair with warm afternoons is the official word from the National Weather Service office at Midland Regional Airport.

High Wednesday should be in the mid-70s, with the overnight low expected to dip to the mid-30s

Southwest winds should decrease to 5-10 mph by tonight after being 15-20 mph and gusty today. Monday's high was a pleasant 62

degrees with the overnight low recorded at 31. Neither approached the records for their dates of 83 degrees set in 1950 or 14 set in 1934. No rain disturbed the monthly moisture total of .29 inch or the annual accumulation of .78 inch.

Commissioners boost justices' pay; hear report on county jail conditions

(Continued from Page 1A)

to overlook that regulation. Other safety measures the county plans to install are emergency power generators and ventilation systems.

Other problems listed in the January report were lack of fresh air and exercise room and the need for more reading and rehabilitation materials.

"They want me to take them out in the fresh air," Smith noted.

"If you can't even let them go to a funeral, how are you gonna let them out in the sunshine?" Smith asked, referring to a prisoner who was granted leave to attend his grand-

Australian prime minister foresees cooperation of ANZUS

mother's funeral last year and has just recently been recaptured. His grandmother is alive and well.

"I think I'm going to worry first about security and feeding them,' Smith said. He added he would try to build up library services for prisoners, "but a good way for anyone to go to the library is to not be put in iail."

In other business, commissioners signed a resolution in support of continuing the federal revenue sharing program and awarded bids for a dishwasher for the county jail and for road materials.

In other matters Monday, the court:

-Refused to revive a Des Moines, Iowa, woman's \$3 million invasion-ofprivacy suit stemming from a newspaper article report identifying her as the victim of a forced sterilization at a county home.

eral Accounting Office reported Monday that the United States could be stuck with part of the bill for construction of military bases in Saudi Arabia if the Saudis were to cancel their foreign sales agreements.

There has been no indication that the Saudis contemplate such action. Sen. Max Baucus, D-Mont., chairman of the Senate subcommittee on limitations of contracted authority, asked for the GAO report after Iran canceled its sales agreements last year.

Martin Neill announces for hospital board post

Martin Neill, a longtime Midland resident, announced Monday he will file for a position on the Midland County Hospital Board of Directors in the April 5 election.

The two positions which are up for election are currently held by Mrs. Pat Estes and Frank Cowden Jr. Until today, Mrs. Estes was the

only candidate who has filed. Neill, president of Martin Neill Co., Midland-based mechanical contracting firm, was a member of the Midland City Council during 1968-1972 and 1974-1977.

He has served as a trustee of the Baptist Geriatrics Hospital of San Angelo and as vice chairman of the coordinating board for Texas Baptist Hospitals and Children's Homes.

He is a member of the Midland Chamber of Commerce, Associated Builders and Contractors, Inc. and

the American Society of Heating, Refrigeration and Air Conditioning Engineers as well as other civic and faternal organizations.

there is no comfort for Australia or anyone else in non-alignment." Asked wheter he would order Ausfirst targets of Soviet nuclear missiles

tralian forces in the Indian Ocean to go to the fighting aid of the U.S. forces there if the latter became engaged in a conflict with the Soviets in that area and needed help, the Prime Minister said

"I don't like answering hypothetical questions, but there isn't the slightest doubt in Australia's mind that we would meet absolutely and commitments under ANZUS (The Australian-New Zealand-U.S. mutual defense treaty). Nor is there any doubt in my mind that the United States would meet any commitments under ANZUS.'

The ANZUS pact, concluded in San Francisco on Sept. 1, 1951, does not specifically refer to the Indian Ocean. It refers to the "Pacific area" and states that if there should be an armed attack in that area on any one of the three countries, each would "act to meet the common danger in accordance with its constitutional

processes."

Pointing out that Australia's west coast borders on the Indian Ocean, Mr. Fraser made it clear he considers the security zone of the ANZUS pact to extend to that entire ocean right up to the Arabian Sea.

THE SOVIET OCCUPATION of Afghanistan, its naval presence in the American-developed bases in Vietnam's Cam Ranh Bay and Da Nang, and its attempt to obtain satellite tracking stations in the South Pacific have, in Prime Minister Fraser's opinion, "The potential to change the balance of power in the Pacific.

While he considers it of the utmost importance now to contain Soviet aggression and give "clear and direct signals" to Moscow that the invasion of Afghanistan is "thus far and no farther," Mr. Fraser thinks the West must be careful not to give Russia's communist rulers any legitimate reason to fear the Soviet Union is being encircled militarily around the globe in a hostile manner.

For this reason, he thought it would be unwise to bring communist China and Japan into a NATO-type Pacific alliance with the ANZUS powers.

'We live in a complex situation," he added, "and we do need to be conscious of areas where there would be legitimate Soviet concern. I am not one of those wo believed that Afghanistan could have offered any threat to the Soviet Union. That is the height of

"People can debate for a long time why they went into Afghanistan. The important fact is that they are there,

"WHEN YOU LOOK at the military balance, the nuclear parity they now have, they have no reason to fear anything. We don't want to give them any legitimate ause for concern be-

cause if they had a real reason for fear, they could react much more unpredictably and recklessly.

What people need to understand is what President Carter is trying to do. He is trying to establish circumstances in which more people and nations are not going to be attacked. so that it will not lead to another unnecessary world war. He is trying to establish without any doubt the strength, credibility and determination of the kind of U.S. response there would be (if there is further Soviet aggression). We believe he is completely right, and I do not believe there is any bluff at all involved in what he is doing.

"The defense of the free world depends on what the United States does and is prepared to do, but that does not relieve the rest of us from carrying out our own part of the responsibility. I hope that as many other countries as possible will support what President Carter is doing because that will make us all that much more secure.

absurdity.

and from there they can go into Iran, Pakistan, the Persian Gulf and the Indian Ocean. They have moved

must be contained but at the same time we don't want to give them any legitimate grounds for fear.

forward in a strategic way. They

DEATHS

Thornton Hardie Jr.

Thornton Hardie

Thornton Hardie Jr., 62, 1908 N. L. St., died early Monday morning in Marble Falls.

Services will be at 11 a.m. Wednesday in First Presbyterian Church with Dr. Robert Boynton Smith, pastor, officiating. Burial will follow in **Resthaven Memorial Park directed** by Newnie W. Ellis Funeral Home.

Hardie was born Dec. 2, 1917, in El Paso. He spent his early life in El Paso, attending schools there and graduating from El Paso High School. He attended The University of Texas until World War II when he entered the U.S. Navy. He served as a line officer aboard the destroyer U.S.S. Craven. Upon his discharge as a lieutenant, he returned to The University of Texas where he received his law degree in 1947.

Hardie was married to Mary Elizabeth Whitaker of El Paso in 1942. In 1947 they moved to Midland, where he was associated with the law firm of Whitaker, Turpin, Kerr, Smith & Brooks. He practiced with them for 25 years before opening his own law office.

He was a member and past president of the Midland County Bar Association, a member of the Texas and American Bar Associations, a member of the International Academy of Trial Lawyers and a charter member and life fellow of the Texas Bar Foundation

Hardie served on the Midland Independent School District board, the Midland City Council and was a Democratic county chairman. He served as a deacon and an elder of the First Presbyterian Church and was serving as a trustee of Tres Rios Presbytery.

He was on the original board of Objectives for Midland in 1968. He was a past president of the American Red Cross, a past president of the Midland Chamber of Commerce from 1967-1968, a life member of the University of Texas Ex-Students Association and the Texas Letterman's Association, a founding board member of Western State Bank and past

Burial will be in Roscoe Cemetery. She died Monday in a Sweetwater retirement home

Mrs. Dunn was born Sept. 4, 1889, in Bibb. She moved 20 years ago to Sweetwater from Weatherford. Other survivors include four daugh-

ters, three sons, 14 grandchildren and 19 great-grandchildren.

Gary Arlis Hinds

ODESSA - Gary Arlis Hinds, 43, of Junction, former Midland High School baseball coach, died Monday in an Odessa hospital following a short illness.

Services will be at 10 a.m. Thursday in the First Presbyterian Church here and burial will be in Sunset Memorial Gardens directed by Hubbard-Kelly **Funeral Home**

He was born June 3, 1936, in Winters. Hinds was a physical education coach and counselor at Junction. He was married to Artis Corley in 1957. They moved to Odessa in 1948 from Ballinger and Winters. He was a member of the First Presbyterian Church.

Survivors include his wife, two sons, Nathan Ward Hinds and David Meane Hinds, both of Junction; a daughter, Arlis Ann Hinds of Junction; his father, N.C. Hinds of Junction; his mother, Delva Hinds of Odessa; a brother, Harlan Hinds of Junction; two nieces, a nephew and many aunts and uncles.

The family requests that memorials be sent to the Monahans Baseball Athletic Fund or the First Presbyterian Church of Junction

L.Z. Titsworth

RANKIN - L.Z. "Shorty" Titsworth, 68, of Rankin died Monday in a Rankin hospital after a lengthy ill-

Services will be at 2 p.m. Wednesday with burial in Rankin Cemetery directed by Dennis-Gregg Funeral Home of McCamey.

Titsworth was born Feb. 25, 1912, in Trent near Big Spring. He was married to Genevieve Langford Feb. 12, 1942, in Rankin. He was an Upton County employee, retiring three years ago. He was a veteran of World War II. He had lived in Rankin since 1928

Survivors include his wife; two sons, Lester Titsworth of Coahoma and Dean Titsworth of Rankin; two sisters, Thelma Clark of Snyder and Peggy Arrowood of Abilene; a brother, Jimmy Titsworth of Little Rock, Ark .; and five grandchildren.

John F. Mann

LONG BEACH, Calif. - Services for John Frederick Mann, 83, father of Mrs. Page (Maxine) Richardson of Glendale, Calif., and formerly of Midland, and grandfather of Mrs. Elisardo (Adrienne) Madrid of Midland. were Wednesday in Green Hills Chapel in San Pedro, Calif.

president of the Exchange Club.

Hardie also served as past president of the Toastmasters Club, past president of the Petroleum Club and a member of Sigma Alpha Epsilon fraternity

Survivors include his wife; a son, Thornton Hardie HI of Dallas; two daughters, Mrs. Charles Sloan Teeple IV of Austin and Mrs. Richard Frederick Watkins of Houston; his mother, Mrs. Thornton Hardie of El Paso; a brother, William Bradford Hardie of El Paso; a sister, Elizabeth Lund of El Paso; and four grandchildren.

He died Feb. 17 in a Long Beach, Calif., hospital.

Mann was born June 27, 1896, in Arkansas City, Kan. A veteran of World War I, he was a 50-year member of the American Legion Post No. 287 in Wilmington, Calif. He had been a member of Calvary Presbyterian Church for 53 years and was employed by Shell Oil Co. for 34 years. He and his wife, Sadie Matthews Mann, had been married 59 years. He also is survived by his wife and four great-grandchildren.

John Galloway

SWEETWATER - Services for Mrs. Willie Dunn, 90, of Sweetwater, sister of Bessie Davis of Midland, will be at 2 p.m. Wednesday in McCoy Funeral Home Chapel of Memories.

Mrs. Willie Dunn

John R. Galloway, 2411 Goddard Court, died Sunday at his home. Services are pending with Newnie W. Ellis Funeral Home. Galloway was employed as a petroleum engineer with Marathon Oil.

Mrs. Gacy's testimony tells of abusive father

CHICAGO (AP) - John W. Gacy Jr. had an unaffectionate and mean father who drank so much at times that he took on a different personality, Gacy's mother has testified.

Marian Gacy wept as she told jurors in her son's trial on charges of 33 sex-related slayings about her husband's habit of coming home from work, heading to the basement and drinking excessively

When he went to the basement, the 72-year-old woman testified Monday, it was like "Jekyll and Hyde ... There would be two voices ... He'd be talking to himself."

Mrs. Gacy testified her husband, John Gacy Sr., who died in 1969, "was always on John for something."

"The father never showed affection for the children," Mrs. Gacy, who also had two daughters, testified. "But all the children loved him anyway and I loved him.

"He was the best person in the world," she said. "But when he drank, he was very mean."

Mrs. Gacy was called as a witness for the defense, which is trying to prove that the 37-year-old remodeling contractor is innocent by reason of insanity. The prosecution has asked the death penalty.

Mrs. Gacy also testified her son struck his head several times as a youth. One time, she said, he slipped and fell three flights of stairs. He was also hit in the head with a peanut-butter jar and a swing and, when he was 15, he passed out and had to be taken to a hospital.

She said he was fighting and kicking "like a madman" and had to be put in a straitjacket at the hospital where he remained for one month.

Once when her son was hospitalized, an attendant suggested he be treated by a psychiatrist, "but John told me, 'I'll be good' and I didn't sign him over - I probably should have," she said.

Bundy lawyer wants new trial

LAKE CITY, Fla. (AP) - A lawyer for convicted triple murderer Theodore R. Bundy filed a motion for a new trial Monday, claiming the jury that found Bundy guilty of killing a schoolgirl failed to presume him innocent as required by law.

Attorney Victor Africano-filed the motion here before Circuit Judge Wallace Jopling, who sentenced Bundy to death in Orlando Feb. 9 for the kidnap-murder of 12-year-old Kimberly Diane Leach of Lake City

In a 49-point motion, Africano argued the jury failed to follow Jopling's instructions that the defendant be presumed innocent and that the burden of proof rested with the prosecution. The lawyer said it was apparent the panel shifted the burden of proof to the defendant.

The 33-year-old Bundy was already on Death Row for the January 1978 slayings of two Florida State University sisters in Tallahassee.

INVITES YOU TO AN IMPORTANT ACTION-DIRECTED CONFERENCE

FRIDAY, MARCH 28, 1980 - 8:00 P.M. TO SUNDAY, MARCH 30, 1980 - 2:00 P.M.

AT THE HYATT REGENCY HOTEL - 1200 LOUISIANA STREET - HOUSTON, TEXAS 77002

IT IS FUTILE TO COUNT ON OUR GOVERNMENT FOR A RESOLUTION TO THE ENERGY CRISIS. IT HAS BEEN THE MAJOR CAUSE OF THE PROBLEM IN THE FIRST PLACE.

THIS CONFERENCE HAS NOT BEEN CALLED MERELY TO PROVIDE STILL ANOTHER FORUM FOR LIKE-MINDED PERSONS TO TELL EACH OTHER HOW BAD MATTERS REALLY ARE. SUBJECTS COVERED INCLUDE.

Section 1. CAUSES OF THE CRISIS

- a. Government's role in impeding energy development.
- b. News media bias and its effects.

c. Interference by private persons and organizations with development and utilization of energy sources.

- Section 2. AN INVITATION TO PARTICIPATE IN ACTION
 - a. Implementing coordinated litigation against government agencies, certain private groups and individuals.
 - b. Initiating other action to break the internal energy blockade.
 - c. Effecting a change in news media coverage.
 - d. Personal investments during the energy crisis.

Conference speakers include: Dr. Edward Teller; Dr. Petr Beckmann; Reed Irvine, Chairman of Accuracy in Media; L. Frank Pitts, Director of Independent Petroleum Association; James Watt, President and chief legal officer of the Mountain States Legal Foundation; Milton Copulos, Director of Energy Studies at the Heritage Foundation; and Simeon Trotter, Director of Investment Research at Rauscher Pierce Refsnes, Inc.

Enrollment is limited and will be accepted on a first-come, first-served basis. Please register early. You may register by sending in the completed form to:

OECC, 777 East William Street, Suite 104, Carson City, Nevada 89701 - Telephone (702) 883-3357

Conference check-in time at the Hyatt Regency Hotel in Houston, Texas, begins at 4:00 p.m., Friday, March 28, 1980. Banquet begins at 8:00 p.m. A \$50.00 per person deposit is necessary to hold your reservation at the conference if no room is requested; a \$150.00 deposit is required for conference and room reservation.

BUSINESS MIRROR Inflation taking toll on nation

By JOHN CUNNIFF

NEW YORK (AP) - Inflation has become a firestorm, consuming all in its path - take-home pay, savings, investments, real corporate profits, insurance policies and, of course, confidence and probably morality.

Having destroyed half the dollar's value in a decade, the storm might intensify in coming weeks as sellers lift prices in fear of controls, and unions seek to offset the devastation to members' take-home pay.

"The underlying rate of inflation has started to explode," said Robert Russell, chaiman of the Council on Wage and Price Stability, after the announcement Friday that January inflation's rate was 1.4 percent.

At that rate, 18 percent annualized, the dollar's buying power would be cut another 50 percent in just four years. It would mean a 1984 dollar worth about 25 cents in relation to the dollar of 1970.

Before then, however, the firestorm might be doused by an offsetting and equally ruinous act of economic nature, a cold downpour of recession. Some fairly enlightened economists are forecasting

Whatever governmental moves are made now, it appears, might take many months or years to dig into the underlying problems. The best moves now, economists agree, can only lessen but not eliminate the pain.

For workers, that pain has beome wrenching in the past year. While the consumer price index soared 13.9 percent in the 12 months that ended with January, hourly earnings climbed only 7.7 percent a net loss.

Savings have been devastated. No savings certificate pays interest equal to the inflation rate, meaning savers are paying to let others use their funds. In constructive times, savers get paid - not penalized.

Understandably, those who customarily save aren't doing so. Savings banks in January reported an outflow from savings accounts of \$1,4 billion. Depositors sought other investments or needed money for bills.

Inflation also discourages investments. While corporate bonds might offer a 12 percent or 13 percent return, that reduces to nothing - or a loss after inflation and taxes. Stocks? Some say the stock market has shaken its fears of inflation. Time will

One thing that hardly can be overlooked is the erosion of corporate earnings when adjusted for inflation. On an unadjusted basis, many seem to be making huge profits. But with inflation wrung out of the numbers, many fail even to cover their dividends. In effect, they are liquidating themselves. Hard to overlook - but overlooked.

After all the surveys of consumers, does anyone need to be reminded that inflation has almost destroyed confidence, not just among individuals but business and other institutions. Planning becomes impossible. Long-range plans of necessity become short-range. The future is fear.

And morality. Simultaneously with inflation and rising taxes has come the so-called underground economy. Rather than record incomes, people seek cash transactions that go unreported on tax returns. How much is hard to say, but some academics claim hundreds of millions of dollars are involved. And if controls come, so also will black markets.

Some people might have prospered for a while on

Cannon hits crowd with surprise lines

By TOM RAUM

WASHINGTON (AP) - Sen. Howard Cannon isn't generally regarded as a humorist, so it came as a surprise when the Nevada Democrat opened hearings on a trucking deregulation bill with a series of one-liners.

"Welcome to the only place in town where it's possible to see legislation languish in front of your eyes," cracked the chairman of the Senate Commerce Committee.

Cannon was referring to some unwelcome publicity: news stories suggesting the FBI was investigating whether he received favors from the Teamsters Union for withholding support from the trucking bill. Cannon has denied the allegations.

One newspaper account, Cannon noted, said the bill had "languished" before his committee - even though he argues he held some 14 hearings on it. Cannon told a few more jokes and then called attention to a small bandage alongside his right eye. The result of minor surgery, he said. But he quickly added: "I'm reluctant to say that I

had minor surgery, for fear I will see on television tonight that I had a lobotomy over the weekend."

Winding up his monologue, Cannon said: "If anyone is offended by any of the jokes I have told, I want you to know that I am like Ronald Reagan. "I only told them as examples of the type of joke that I really abhor."

Meanwhile, Rep. Morris Udall, D-Ariz., opened a House-Senate conference committee over which he was presiding by announcing: "At the request of the campaign of Goy. Reagan, we will not allow any ethnic jokes.'

Last summer, members of Congress complained about heat in the chamber when Capitol thermostats were raised to conserve air-conditioning energy

Now, some think it's getting too cold. A chilled Sen. Howell Heflin, D-Ala., was presiding over the Senate recently when he interupted floor proceedings to request that "the sergeant-at-arms

bring forth the official Senate thermometer. No such thermometer exists and senators broke into laughter.

Sen. Ted Stevens, R-Alaska, suggested the temperature was "very comfortable for an Alaskan senator.

And Sen. Patrick J. Leahy, D-Vt., not to be outdone, said what might seem too chilly for Heflin, a Southerner, "would be considered a heat wave in Vermont.'

However, Heflin dryly reminded Leahy that, "the chair cannot help but observe that the senator from Vermont's hands have been in his pockets most of the time."

Senate Majority Leader Robert C. Byrd, D-W.Va., had the last word, as he usually does.

"The chill falls alike on the just and unjust," Byrd declared. "The important thing is to keep the temperature down, be well-clothed and conserve energy."

WANT ADS sell it. WANT ADS find it. WANT ADS do more!

THE MIDLAND REPORTER-TELEGRAM, TUES., FEB. 26, 1980

Deal on for sale of Permian Corp.

Occidental Petroleum Corp. and The Charter Co. have agreed in principal to the terms of the sale by Occidental to Charter of the the Permian Corp., a firm organized in Midland in 1955.

The terms include the sale by Occidental of a fiveyear supply of 100,000 barrels per day of foreign crude

Charter agreed to pay Occidental \$500 million for the Permian Corp. assets - \$300 million in cash, and \$200 million in Charter preferred stock, which would be exchanged, subject to Charter shareholder approval, for Charter convertible preferred. If shareholder approval is not obtained, the preferred would be redeemed by Charter over a five-year period.

The agreement is subject to the satisfaction of certain conditions, including board approvals, an April 15, 1980, closing date; regulatory approvals, financing acceptable by Charter and Charter's approval of operational matters and Permian crude oil volumes.

The Permin Corp.'s head office is in Houston. Its primary business is the buying and selling of domestic crude oils. A subsidiary of Permian, Western Oil Transportation Co., transports such crude oil, and also materials belonging to third parties, as a common carrier.

According to Occidental, Permian is the nation's largest independent crude oil marketer. Domestic crude is purchased from approximately 4,300 producers and is gathered from approximately 23,000 leases. Permian owns 5,000 miles of crude-oil pipeline which extends over an 18-state area and which transports the oil

Occidental said Permian buys and sells approximately 400,000 barrels a day of domestic crude oil and handles approximately 170,000 barrels a day of a mixture of crude oil, frac oil and well service sup-

The Permian Corp. was the first Midland-based company to be listed on the New York Stock exchange

The Charter Corp.'s executive office is in Jacksonville, Fla. It is engaged in petroleum refining and marketing, and has interests in publishing, broadcasting and insurance.

It recently purchased Carey Energy Corp. which has an extensive marketing system in the northeastern part of the United States, and has a 50 percent interest in a 500,000-barral-a-day refinery in Freeport, Bahamas.

Under the crude oil sales agreement, Occidental will supply Charter with a minimum of 100,000 barrels per day of crude oil over a five-year period which could be increased to 200,000 barrels per day upon mutual agreement of the parties.

After certain recoupments, Occidental and Charter will split 50-50 the net profits on the sales to third parties of the refined products derived from such crude

HNG completes opener in Schleicher

HNG Oil Co. of Midland finaled the No. 1-107 McAngus as a Wolfcamp oil discovery in Schleicher County, two miles west of Eldorado.

It finaled to flow 274.2 barrels of 42-gravity oil and no water, through a 20/64-inch choke and perforations from 4,315 to 4,356 feet, which were fractured with 60,000 gallons. Gas-oil, ratio is 218-1.

Scheduled as a Canyon test in the Eldorado field, it drilled to 6,713 feet, where 4.5-inch casing was set. Plugged back depth is 6,326 feet.

Operator picked the following tops on ground elevation of 2,444 feet: Moselle sand, 850 feet; Clear Fork, 2,148 feet; Wolfcamp, 3,904 feet; and Canyon, 6,077 feet.

The strike is three miles southwest of Wolfcamp production in the Eldorado field, and 1.5 miles northwest of Eldorado, South (Canyon gas) production.

Location is 1,980 feet from south and 1,320 feet from west lines of section 107, block A, HE&WT survey.

Operator reported a 24-hour pumping potential of 39 barrels of 38.6-gravity oil and 110 barrels of water, through perforations from 7,492 to 9,022 feet, which were acidized with 4,000 gallons and fractured with 165,-402 gallons.

Location is 1,320 from north and east lines of section 43, block 39, T-5-S, T&P survey.

SUTTON PROJECTS

WPS council tosses violation charge at eight companies

By EILEEN ALT POWELL

WASHINGTON (AP) - The Council on Wage and Price Stability said Monday that Mobil Oil Corp. has violated the nation's anti-inflation standards and that at least seven other oil refiners probably are not complying with the voluntary program. Mobil denied the allegation.

The council, which oversees the anti-inflation rules, declined to iden-

tify the other refiners involved, saying the companies would have time to respond to the allegations before their names were released.

The ruling came as the council released a 39-page report on gasoline and fuel oil price increases in the third quarter of 1979.

The report has been in the works since last October, when some of the nation's major oil companies announced third-quarter profit increases of 100 percent or more.

"Although a number of companies appear to be out of compliance with the voluntary price standards, substantially higher crude oil prices were the major cause of higher energy prices during the first year of the anti-inflation program," the report concluded.

The first year of the anti-inflation program ended Sept. 30, the end of the third quarter of 1979.

The council alleged that Mobil "exceeded its allowable gross margin" during the third quarter last year. "Under the standard, a company's

gross margin in any quarter may exceed its base quarter margin by no more than 6.5 percent," the council said

The council declined, however, to say how much above 6.5 percent Mobil's gross margin had risen, saying that it was not permitted to release proprietary information.

A gross margin is the difference between the cost of petroleum that goes into the refinery system and sale price

Mobil Oil Marketing and Refining, the nation's seventh largest refiner, denied the council's allegation in a statement released at its headquarters in New York City.

The council ruling is "so silly that it is patently and obviously political," the statement said. "All of these findings by the Council on Wage and Price Stability are so tortured and arbi- CRANE COUNTY trary that only political motivations could be behind them."

could be behind them."

nedy, D-Mass.

'I don't know whether this is good or bad," Russell said of the timing. "It was totally coincidental."

The council's overall price report was based on an analysis of data from 27 U.S. oil companies, which Russell said were responsible for about fourfifths of the total refinery output in the nation.

The report gave these breakdowns:

- The average price of a gallon of gasoline rose 30.2 cents from the third quarter of 1978 to the third quarter of 1979, or from 66.2 cents to 96.4 cents. - Of that increase, 17.6 cents (58 percent) was due to the rise in the cost of crude oil and imported refined

products. - Some 4.5 cents (15 percent) was accounted for by the increase in refinery margins.

"The report noted that non-compliance added about \$286 million to earnings, but this sum accounted for only 0.4 cents of the 4.5 cents per gallon increase in refinery margins during the first program year," the

Expert sees

early oil peak

EL PASO, Texas (AP) - A Washington energy consultant says middle-aged Americans will see the United States gobble up its entire oil supply before they die.

'Children born in the middle 1930s will see the United States consume most of its oil during their lifetime,' M. King Hubbert predicted at the annual meeting of the Southwest Section of the American Association of Petroleum Geologists.

About 1,200 persons attended the Monday session, to discuss energy exploration in this decade.

According to "best estimate of the petroleum industry," Hubbert said, world oil production would peak in the mid-1990s.

"Children born within the last 15 years will see the world consume most of its oil during their lifetime," he added.

"This is a very brief affair in human history," Hubbert said later. "Modern civilization is built on the fossil fuel foundation, yet it only has about a 300-year spread of any significance in the whole span of human

Hubbert spent 20 years with Shell Oil Co. as a research geophysicist, associate director of exploration and production, chief consulting geologist and chief consultant.

Harry A. Miller, a consultant from Midland, told the group oil production in the Permian Basin dropped 4 percent during 1979 but new developments could level the trend.

One energy alternative discussed at the meeting was uranium.

Philip Goodeli, of the University of Texas at El Paso Department of Geological Sciences, said 90 percent of the uranium in the United States is found in sandstone. He noted 90 percent of the world's uranium is found in other rock formations.

'The government and the industry have been trying to develop uranium in other types of geologic environ-ments," said Goodell, "and one of the very attractive targets is in volcanic rock." He said the volcanic rock is abundant in the Western United States, calling deposits near Chihuahua Mexico, South of El Paso, "ex-

tremely large." 'We haven't found anything as rich in the United States," he said.

Start sound new career with American College

One of the doors to a satisfying future available to Midlanders and others in the Permian Basin area is the American Commercial College, an institution accredited by the Texas Education Agency and the Accredit-ing Commission for Independent Colleges and Schools, Washington, D.C.

The reason for the existence of the college is to train men and women of the community for business careers which will provide advancement, success and security. To this end, training compatible with the students' potential abilities is provided.

Enrollment is open throughout the year, and the individual student learns his job skills at his own pace. Upon successful completion of a course, college placement assists the graduate in finding a job. Graduates are much in demand.

Many financial aids are available. The National Direct Student Loan, **Basic Education Opportunity Grants**, Supplemental Educational Opportunity Grants, College Work-Study and Federal Insured Student Loan Programs are some of the sources of

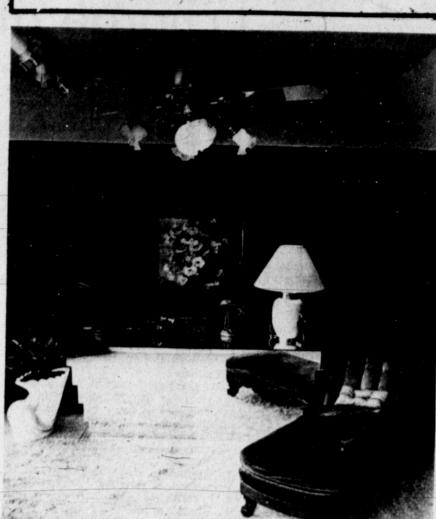

The school of business enables a student to begin a career immediately after graduation with a good

position, income and opportunity. The entire cost of an education at American Commercial College can be repaid by the extra earnings enjoyed during just the first few weeks of employment. The school qualifies for Veterans Training and Vocational Rehabilitation Training.

Twelve courses may be followed in preparation for jobs which are always available to the well-trained. Business Administration, Executive Accounting, Executive Secretarial, Legal Secretarial, Medical Secretarial, Senior Accounting, Stenographic, Office Machines and Complete General Drafting. Depending on the course followed, it will take approximately three months to one year to complete the course.

It is always a pleasure to receive a prospective student for a tour of the facilities of the school, and to explain details of courses, schedules of classes and opportunities offered. Director Kenneth R. Purifoy will also be happy to meet students, parents, school officials or businessmen who would like to interview prospective employees any time during office hours

Visit American Commercial College very soon and enter the door to a brighter future!

place for refugees

Their plan is to finance a chain of Vietnamese restaurants and hire refugees as managers, cooks and waitresses. Once the restaurants become established in business, they say, the Vietnamese will be encouraged to buy them.

The Tokyo businessmen say it's the best way for the penniless refugees to build new lives in this country where there is no large Vietnamese community to rely on. Takayoshi Miyagawa,

designated chairman of the proposed new compa-"Vietnam," said the plan is for three to five such restaurants, with the first one slated for opening in the spring.

Miyagawa, president members of the "Vietof the Center for Political nam" company, said he

Census takers beginning Alaska count BARROW, Alaska (AP) - The census takers are in northern Alaska already, beginning the 1980 federal head count in Point Hope, Barrow and 16 other villages where it's cold enough to freeze eyelashes and burn cheeks.

The census started earlier here than in other parts of the country. One reason is that the North Slope census area is the largest in the country - 80,000 square miles. Another is the logistical difficulty in reaching the natives.

"We have to get to the villages before the ice breaks up," said census crew leader Jim Wycoff of "After break-up all the people will be Juneau. scattered to their (summer) fishing camps. Then we'd really have a problem. Right now most of them are in town.

The count was to be completed Feb. 14, but there were problems with that deadline.

"First of all, you have to get to the villages and that depends on the weather," Wycoff said. Most of the villages are accessible only by air.
