DIAL 682-5311, P.O. Box 1650, MIDLAND, TEXAS Vol. 50, No. 350, Daily 15c, Sunday 50c

THURSDAY, FEBRUARY 28, 1980 **48 PAGES, 6 SECTIONS**

Guerrillas holding U.S. ambassador, others in Colombia

BOGOTA, Colombia (AP) - Leftist guerrillas holding the U.S. ambassador to Colombia and some 60 other hostages at the Dominican Republic Embassy said today they would release all women and two wounded hostages

Earlier, a Colombian cabinet minister said the guerrilla band lifted the 10 p.m. EST deadline it had set for the government to meet its demands - \$50 million, the release of more than 300 political prisoners and publication of an anti-government manifesto in major foreign newspapers.

The guerrillas have threatened to kill their hostages, who include U.S. Ambassador Diego Asencio, the papal nuncio to Colombia and at least 15 other ambassadors or acting ambassadors, and several Colombian diplomats.

Approximately 25 women and 35 men were taken captive when the 30 raiders stormed into the Dominican mission during a noon diplomatic reception Wednesday.

A guerrilla spokesman, contacted by telephone by The Associated Press late this morning, said two wounded hostages were being freed at that moment and the women would follow. The guerrillas had said Wednesday the acting Paraguayan ambassador and another unidentified civilian were wounded.

The guerrillas, members of the M-19 guerrilla organization, also said one of their men was killed, and the government said three policemen were wounded.

The guerrilla gang's leader, "Commander No. 1," told The Associated Press by telephone, "We are prepared to remain here one or two months if necessary. It all depends on whether the government wants to negotiate or not.

The Cabinet minister who announced the suspension of the deadline said the mediation efforts of Rafael Vasquez, a former foreign minister and head of the Colombian Human Rights Defense Commission, had ended, but he did not explain why. Vasquez has been a critic of the government's anti-guerrilla tactics.

The official did not say what the next steps would be in negotiations with the 30 guerrillas.

Asencio telephoned the U.S. Embassy at 8:30 a.m. today, embassy spokesman Larry Estes said.

"The ambassador was in good spirits," Estes said. "He

said there was no urgent need for medical care at the embassy. He said he was hopeful that the women beind held hostage and the wounded would be released this morning.'

The guerrillas' leader said they would present an anti-government manifesto to four reporters - who must approach the embassy in their underwear to show they are unarmed - at a news conference later this morning, when they will also hand over the body of their dead comrade. The guerrillas demand that the manifesto be published in major foreign newspapers.

They had set a deadline of 10 o'clock EST tonight for their demands to be met. They also demanded safe conduct out of Colombia and withdrawal of the security forces ringing the embassy.

Austria, whose ambassador was among those held, called on the Colombian government not to order an assault on the besieged embassy, and the Dominican government urged the Colombians to "do all possible" to protect the hostages' lives. The Dominicans planned to dispatch a Foreign Ministry delegation to Bogota later today to offer help to the Colombians.

"We are prepayed for victory or death," the leader of the guerrillas told a reporter Wednesday. "We are demanding that the government meet certain conditions if it wishes to save the lives of important diplomats. If there is no agreement, everyone will leave here as corpses.

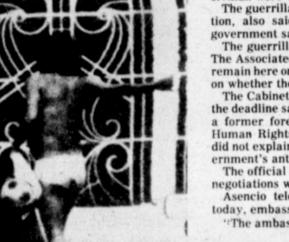

He said the raiders had pistols, rifles, grenades, bombs and abundant ammunition.

Twenty-six men and four women dressed in athletic togs burst into the embassy with guns blazing during a reception on the Dominican Republic's independence day. Bodyguards of the ambassadors, some inside the twostory and some outside, returned the fire, but the invaders succeeded in taking over the building.

The embassy, which also doubles as the residence of Dominican Ambassador Diogenos Mayil Burgos, was surrounded by a small army of police and soldiers armed with automatic weapons and tear-gas grenades and wearing bulletproof vests. An armored car also was brought into the area.

A wounded bystander, above, is dragged to cover by other bystanders after one man was shot Wednesday near the Dominican Republic Embassy in Bogota, Colombia. At the right, a Colombian newsman approaches the embassy later to talk to the guerrillas holding it. The guerrillas demanded that newsmen strip down to their shorts to prove they were unarmed. Residents oppose annexation

Planning group recommends postponement

By LANA CUNNINGHAM Staff Writer

By a narrow, one-vote margin, the Planning and Zoning Commission decided Wednesday to recommend the city postpone its plans to annex land north of the city limits.

Meeting in a special session that started at 7 p.m., five members of the nine-member advisory body cited a need for more time to study the proposal. The other four members disagreed, saying Midland is approaching its limits, and development will have no place to go.

About 100 residents of the area proposed for annexation crowded into four-hour meeting.

Problems with the animal-fowl ordinance and objections to annexation were voiced by residents while proposals for changes were suggest-

PROPOSED FOR ANNEXATION was a tract of land north of the city limits stretching from Holiday Hill Road on the west to Lamesa Highway on the east. Green Tree Country Club is included, but not Midland Country Club.

The argument between the residents and the city planning staff boiled down to the fact those already

City Council chambers for the almost- "in the country" contend they live in an orderly development and don't want to give up their animals, such as horses, cows and pigs.

If brought into the city limits, those residents would have to make changes to conform to the animalfowl ordinance. Jewel Smith, chief sanitarian with the City-County Health Department, explained if horses or livestock are kept, the pens must be kept clean.

If not cleaned out, manure piles up, attracts flies and breeds a fly problem for the rest of the city, he said

His comments, however, met with resistance, with several people criti-

Chamber hears details of North Loop schedule

In a little more than three years, the initial phase of North Route and Loop 250 should be completed, according to Henry Pearson of the State Department of Highways and Public Transportation.

Pearson outlined each segment of the major thoroughfare Wednesday for the Midland Chamber of Commerce board of directors at their monthly luncheon.

Preliminary drainage work along Holiday Hill Road north from U.S. Highway 80 West should be completed in two weeks. After that, bids for a frontage road from Highway 80 to the Andrews Highway will be opened March 12 and the contract awarded, he said.

The next segment will be for two frontage roads from Andrews Highway along the proposed Loop route to FM 868 and ending at Lamesa Road. This should be completed by September 1981.

The third segment to run from Lamesa Road to Fairgrounds Road and down Fairgrounds to U.S. Highway 80 East should be finished in the summer of 1980,

Meanwhile, one segment of the North Route starting at FM 1788 and ending at the Andrews Highway is scheduled for completion in October 1982. The final segment from FM 1788 to 42nd Street in Odessa will be completed in the summer of 1983, he said.

Total cost of the project is \$15.5 million, Pearson said. However, the Highway Department only allocated \$8 million for the highway two years ago. But, Pearson said, this is a priority project and he foresees additional funds coming.

Five other major highway projects in the Midland-Odessa area are scheduled over the next few years and should cost \$13 million, he added. Midland's economic outlook for 1980

is bright, despite the double-digit inflation figure, according to two Midlanders.

Joan Ramey with the Midland Board of Realtors said 146 houses were sold in January for a total of \$8,230,000. This unusually large number reflects the home mortgage bond program, she explained.

reserved, she added Through Feb. 25, 129 housing units had been sold for a total of \$7,549,-

Grant Billingsley, with the chamber's economic development board, said Midland's housing starts were up 57 percent in January. To date, 108 permits have been issued for new houses compared to 41 a year ago, he said.

Total construction is \$11.5 million, Billingsley added.

George Veloz reported 12 objectives had come out of a small business conference he attended in Washington, D.C. He also was elected vice chairman of the national advisory council for small businesses.

Local businessmen were invited to participate in and attend a Small Business session May 13 in Lubbock Civic Center. The day will include booths, exhibits, workshops and training sessions.

The directors' next monthly session will be at 4 p.m. March 26 in the new The \$29 million in that program is , Chamber of Commerce board room.

cizing his reasoning or asking questions at the same time. Commission Chairman Robert Truitt Jr. and later one of the residents' own attorneys, Jerry Moritz, asked the audience to be quiet during the testimony.

One woman contended "we would have to change our way of life. The fly population is never worse where I am than when I was in town. This seems to be your only excuse to change our way of life."

SMITH REPLIED that his primary concern "is to protect the health of the people. A good many flies are bred outside city limits." But his latter comment prompted loud criticism from several persons in the audience

George Ochsner, 11 Tattenham Corto five horses. With those animals, "I have about 10 percent of the fly problem as I had when I lived in town. You rodents and snakes," she said. can't blame the fly problem on agriculture.

Richard Hennessy, director of planning and community development, said the animal-fowl ordinance originally eliminated any animals. But, by 1978, the City Council realized it

caused problems. "As best we (planning department) could, we came up with proposals to amend it," he said. Working with Moritz and other residents, additional suggested changes include:

-Allowing the owner to specific use permit to have for personal use on a tract o small as 40,000 square feet.

-Add a grandfather cl existing pens which don't co distance regulations. -Revise the maximum n

animals that could be kept of tract of land.

-Continue the commerci ing of livestock on the smal if owner obtains a specific us or excuses himself from the tion, citing non-conforming

-Change the density of an a small tract where a spe permit has been obtained.

MORITZ, IN OPPOSING

lations, said it took him an

attacks on Soviets

Afghan rebels plan

KABUL, Afghanistan (AP) -Rebels planned renewed attacks on Soviet and Afghan army units in Kabul on Friday, the Moslem sabbath, rebel sources said today, despite the civilian militia's reign of terror on the capital's rebel strongholds.

At least 300 persons died last Friday in six hours of street battles after anti-Soviet demonstrations by worshippers emerging from midday prayer in the city's mosques. Soviet and Afghan troops were re-

ported on the alert throughout the city to prevent a recurrence of last week's violence. The troops were backed by the ruling Khalq (People's) Party's undisciplined militia force of about 2,000 men, assigned to patrol duty in districts regarded as particularly

sympathetic to the rebels. The militiamen had virtually unlimited powers under martial law regulations, including the authority to set up summary courts martial, diplomatic sources said. They estimated that dozens of alleged rebels or rebel sympathizers had been killed in the past week by militiamen seeking revenge for last week's well-organized insurrection.

An Indian and a French diplomat said they saw the militia gunning down unarmed civilians at the height of the fighting.

Sporadic bursts of machinegun fire still rattled through the streets of the mile-high capital today, and tanks remained on guard at the headquarters of the pro-Soviet Afghan government as well as at the Soviet Embassy and several housing compounds used by Russians and East Europe

But many of the Soviet and Afghan army tanks and armored cars that lumbered into the streets after the fighting broke out last Friday were withdrawn and the streets in front of government offices were reopened to traffic.

She got a real surprise when she cracked this egg

MINEOLA, N.Y. (AP) - When Ursula Beckley cracked an egg on Oct. 19, she ner, said he keeps 13 sheep and three expected the makings of an omelet to spill out. Instead, she says, she got a snake, and she's suing for \$3.6 million.

"I was almost hysterical. I haven't been the same since. I have a thing about

The 36-year-old woman filed suit Wednesday in state Supreme Court against Dairy Barn Stores, contending a six-inch, grayish-black snake crawled out of an egg she purchased at one of the chain's stores.

Mrs. Beckley said she has been seriously ill since the incident and becomes ill whenever she sees an egg.

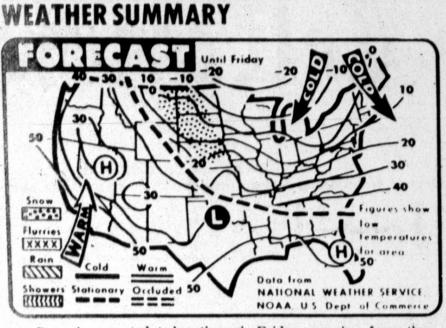

Her attorney, Ralph Franco, said Mrs. Beckley is suing on the grounds that the stores "failed to comply with the New York State Agriculture and Marketing Law that requires eggs sold be fit for human consumption."

Franco said the statute regulating sale and distribution of eggs for food requires that eggs be held up to a light for inspection, graded and labeled before they reach the consumer.

Dairy Barn officials were not immediately available for comment.

Cattlemen

THE MIDLAND REPORTER-TELEGRAM, THURS., FEB. 28, 1980

vote, reject beeferendum.

DENVER (AP) - Cattlemen across the nation apparently have rejected a proposal aimed at collecting \$40 million to promote the beef industry, the National Cattlemen's association said Wednesday.

Under terms of the national referendum, about 20 cents per \$100 worth of beef sold would go into a fund for beef research, promotion and foreign market development.

Cattlmen in all 50 states began voting on the referendum Feb. 19.

The program was designed to raise about \$40 million for the promotion program, the U.S. Agriculture Department estimated.

Ballots were counted Wednesday at county officees of the Agricultural Stabilization and Conservation Service. The county offices were to send their results to state offices today, and those were to be forwarded to the USDA on Friday.

The USDA was to announce the official results on Monday.

Roger Berglund, vice president of communications for the National Cattlemen's Association based in Denver said a poll of scattered ASCS county offices on Wednesday indicated that the so-called "beeferendum" will lose.

"We know that certain states, such as dairy states and southern states, were expected to vote 'no,'" Berglund said. "In order to pass, there would have to be a strong 'yes' vote in certain beef states."

Berglund said the preliminary poll indicated approval of only about 40 percent in such states as Oklahoma, Nebraska, Iowa, Kansas and Missouri, with slightly higher percentages in Arkansas and Colorado, He said Montana and Mississippi appeared to be strongest in favor with percentages of nearly 60 percent while one of the most important states, Texas, showed only a 30 percent acceptance.

"Based on those results, it appears it will not receive the required majority," he said.

Berglund read a statement by Jo Ann Smith, chairwoman of the Beeferendum Advisory Group from Micanopy, Fla., in which she called the preliminary results "unfortunate."

Initially, the program would have permitted cattle ranchers to contribute 20 cents per \$100 of beef sold. The USDA estimated about \$40 million would be raised to go for beef research, promotion and foreign market development.

mittee of four other residents two months to interpret what the current city code says. "We're not saying we don't want regulations; we just don't want a situation that will be intolera-

Concerning keeping horse stalls clean, Moritz said, "Horses go to the bathroom in the same spot every day. It's dependent upon the owner to take care of the problem."

Even with changes, the animal code will squeeze out those people with horses and livestock, he claimed. And, he added, a major problem will lie with who enforces the code.

Painting a picture of an interfering city government, attorney Harrell Feldt said he has "seen nothing that doesn't in some way give an official of the city power and authority to impose the law based on his judgment

Turning to the audience, Feldt continued with "you're going to be a criminal if you're annexed and the health officer determines you're violating the law.

"It's the same old story about when do we need government regulation. The time is going to come as we grow to the north that we'll have to give up some of our rights and turn them over to a health officer," he said. Jerry Duncan, a resident of the Melody Acres division for 18 years, said flies are not a serious problem, but mosquitoes could be. He added that "I don't want a bureaucrat coming out and telling us how to raise horses and our children."

large for me to comprehend in that short period of time." And the animal-fowl ordinance needs "to be nailed down" before annexation is started again, he added.

George Veloz, in seconding the motion, remarked the long-range benefits don't justify the shortcomings. "Annexing an area as large as this

is a planner's dream," he added. Commissioners John Phipps, Bob

Southerland and W.H. Jowell - who owns land in the proposed annexation area - voted in favor of the motion. But Mrs. Purvis, in voicing her

objections, said "It's going to be 10 times harder in four years to annex this land than now. There is no way to grow. Midland is going to be landlocked and we've done it to our-

selves. Mrs. William Sumner and Mary

Jane Young agreed, as did Truitt. Some annexation should have been accomplished by the commission in 1976, Truitt said.

"Now, we're faced with an area that's largely developed and needs the city very much. A majority of the people who spoke here - with the exception of Mr. Davis - work here and shop here, but they don't want the city.

"I'm not saying I'm totally in favor of the proposed area," he added. "But to vote against any area is not fulfilling our responsibilities to people in the city or those in areas outside the city.

He advised the residents the City Council will consider annexation at its March 26 meeting, and they must appear to voice their objections.

Shooting suspect released on bond

Nathaniel Griffin has been released on \$15,000 bond after being charged in connection with the Monday night shooting of a 21-year-old Midlander. Tommy Joe Ricky of Pecan Grove

Trailer Park received a gunshot wound to the stomach and was listed in satisfactory condition this morning in Midland Memorial Hospital.

Griffin was charged with attempted murder and carrying a prohibited weapon on a licensed premises. Bond was set at \$15,000 on the first charge and \$5,000 for the second. He was released Wednesday afternoon. Griffin surrendered to police

Wednesday.

ment between his cousin, Robert Tisdale, and another man, according to police reports. When Tisdale left to avoid the argument, the man reportedly struck Ricky and then shot

THE COMMISSION DECIDED, however, to hold a public hearing on the proposed ordinance changes on March 18

Although a public hearing on annexation was held at the commission's Feb. 18 meeting, Chairman Robert Truitt Jr. opened the session for more comments.

Moritz contended the move for annexation is being done "in a rush. It makes us think someone has discovered gold out there and we don't know about it."

Bringing in the Green Hill Terrace and Melody Acres developments won't allow the city to continue orderly planning and development since those areas already are platted and developed "in an orderly fashion," he

Commission member Margaret Purvis explained the annexation move isn't a rush job. "The commission four years ago looked at an annexation study, and I was against it

"WE HAD PLENTY of land to develop in then, but we don't have that land now. I question our judgment in not annexing this land then," she

But Moritz stood firm on his belief, saying the residents haven't had enough time to see how they would be affected financially by the annexa-

Hennessy told the commission if the area is annexed, the city is required to provide utility services within three years.

But Roy Kimsey, No. 1 Kimsey Way, said it took him a year to get a water line to his property. And he cited a situation involving property owned by Jim Conine on the south side of Midland which was annexed in 1967.

"Conine said he still doesn't have any city utilities. He's requested sewer service and got the run-around. And he can't get a city Dumpster," Kimsey added.

"If and when I want to develop my property, I'll come and ask to be annexed," he said.

Tom Davis, of Solomon Lane, said he has lived in that spot for 25 years. He's reared his children there, raises vegetables for his family and operates a shop there. "I'm self-sufficient. don't need any help from the city,' he said.

GIFFERT ALSTRIN made the motion not to recommend annexation, claiming the proposed area "is too,

MEDICINE PARK, Okla. (AP) -"No dope or booze allowed," says the cardboard sign on a barricade across the only road to the Comanche Tribal Center.

Another sign says "BIA go home," and the Bureau of Indian Affairs is in the middle of a dispute between two factions over tribal leadership.

The fuss between Comanches loyal to former tribal chairman James Cox and others supporting Ken Saupitty's claim to the office came to a head last week when Saupitty's supporters occupied the modern buildings and barricaded the dirt road.

Many of those inside are at desks they usually fill on workdays. But no business is being transacted and programs of health education and commercial development are unattended and unfunded. Telephone service has been cut off.

Nearby, more than 100 Saupitty supporters camp in a clutter of tents, cars and campers around a tepee. By day, the aged sit in the sun as toddlers play. When the sun sets, the air chills to near freezing and someone lights a bonfire near the barricade where tribal policemen, some with holstered .38s, stand guard through the night. Saupitty, 42, says he believes Cox is orchestrating the opposition that has kept him from assuming the chair

Cox says he is a retired businessman and "not involved or interested." Saupitty's partisans see Cox's influence behind a recall petition, delivered to Saupitty, which would have erased his victory.

Saupitty did not act on the petition, calling it invalid, and when his 30-day deadline expired, the BIA entered the picture.

William Battese, superintendent of the Anadarko agency, considered himself required by the tribal constitutiton to break such deadlocks.

He called a Feb. 2 meeting for the recall vote. Saupitty staged a walkout, leaving 185 eligible voters behind, and when Battese called for a vote on the petition to oust Saupitty it carried 184-1.

Saupitty contends the meeting was illegal because a quorum of 250 was not present. Battese stands by it because more than enough for a quorum had signed in for the meeting.

A tribal court issued an order Feb. 15 restraining Saupitty from assuming any duties as tribal chairman. Saupitty says he will appeal that to the commissioner of Indian Affairs in Washington, if need be.

Japanese fishermen 'protect' livelihood, slaughter dolphins

TOKYO (AP) - Japanese fishermen, insisting they were protecting their livelihood against "gangsters of the sea," killed hundreds of dolphins today despite the outraged objections of conservationists. It was the second dolphin massacre in Japan in two

vears. Greenpeace Foundation, the environmentalist group, lodged a formal protest with the Japanese government as the dolphin toll on western Japan's Iki Island reportedly rose past the 1,000 mark.

"They've been methodically slaughtering them," Susan Cate, a Greenpeace official, told The Associated Press in a telephone interview, adding that she had obtained the figure from the fishermen themselves.

The fishermen were killing the sea mammals with long knives and clubs and feeding the carcasses into a shredding machine that reduced them to pulp for fertilizer, witnesses said.

"The machine is dripping with blood. I've never seen anything like it," said Jim Nollman, of Bolinas, Calif:

Just two years ago, the fishermen of Iki, 1,200 miles southwest of Tokyo, caused a worldwide uproar after. butchering 1,000 dolphins. Japanese embassies across the world were

swamped with protest letters and a movement was started in the United States to boycott Japanese products in protest.

Nollman has been in the Iki area, near the city of Nagasaki, testing acoustical equipment designed to scare the dolphins away from the fishing grounds to avoid the mass killings

"What's really frustrating is that the equipment works," Nollman said. "The fishermen have seen it work, but they've decided once and for all that they're going to get rid of all the dolphins in the area."

Psychiatrist describes Gacy's personality as 'powder keg' CHICAGO (AP) - John W. Gacy planned the killings and deserves the

Jr. "is a powder keg and will erupt under stress and tension of certain situations," a psychiatrist has testified.

The defense hopes to use the testimony of Dr. Robert Traisman and other witnesses to convince the Circuit Court jury that Gacy, accused of murdering 33 young men and boys, was insane and therefore should be found innocent.

A second defense witness, Dr. Richard Rappaport told the seven-manfive-woman jury on Wednesday he diagnosed Gacy as having a borderline personality.

Gacy showed both a psychopathic personality and paranoid schizophrenic behavior - aggressive and hostile, Rappaport testified.

The prosecution maintains that the 37-year-old remodeling contractor death penalty. Traisman, who estimates he has

evaluated 2,000 cases in his 21 years in the profession, said he tested Gacy in his Cermak Hospital room for 31/2 hours on May 10, 1979, and concluded he was a paranoid schizophrenic.

Gacy has a superior intelligence, he testified, but standardized tests showed he had "deep homosexual conflicts, lack of feeling for other people, lack of emotional control under stress and dangerous impulses.

Describing drawings Gacy made, Traisman said the defendant "drew me...which showed a defensive act on his part" and then drew a woman with arms of a football player and a very masculine appearance. A third drawing was of his home, which was highly detailed.

Park Center Y to begin Fun Club

The Park Center YMCA will be having a Fun Club starting Friday and continuing through March 7. Fees are \$1 per day for members and \$2 per day for non-members. There will be bus pick up and drop off services.

Pick up will be at 8:40 a.m. at Milam and Washington elementary schools; 8:45 a.m. at Crockett and Travis schools; and 8:50 a.m. at Pease and South schools.

Drop offs will be at 3:30 p.m. at Pease and Washington; 3:35 p.m. at Milam and Travis; and 3:40 p.m. at Crockett and South.

Activities will include arts and crafts, movies, swimming, field trips, bowling and more. More information may be obtained by calling James Sanders at 682-0533.

Independence day to prompt variety of fetes by UT exes

AUSTIN (AP) - Ex-students of The University of Texas will celebrate Texas Independence Day with recorded Willie Nelson music in Holland, chili in Cyprus, meat pies and wine in Chile and a full day of

activities on the main campus here. The annual celebration, which begins Friday, is the 84th renewal of the celebration that this year will be observed in more than 200 communities, including

50 foreign locations. Texas Gov. Bill Clements has declared Sunday, March 2, "Texas Exes Day." "March 2 is the date the Republic of Texas offi-

cially took responsibility for the education of its citizens and we should pause on this day to consider our heritage as alumni of the 'university of the first class,' "said John Stuart, president of the UT Ex-Students' Association.

At noon Friday, 500 orange and white balloons will be released from the UT Tower, and the world's largest Texas flag will hang from the president's balcony

In Midland, Texas exes plan a "Royal" celebra-tion with a western barbeque at the American Legion Hall Tuesday at 7 p.m. with Darrell K. Royal as the speaker.

Chilean professor Luis Capurro promised Dr. Joe Neal of the UT International Office he would arrange for a Texas-Chilean party, including food and danc-

ing. In Manila, Philippines, Dr. Rosalina Villavicencio of the University of Santo Thomas will be in charge of the celebration.

O.C. Mandalasi of Malawi requested UT T-shirts to give to the winners of a 10-mile run on the "big dav

Vincenzo Mangione, a teacher in Bari, Italy, said his principal had agreed to allow the entire school of 500 to celebrate Texas Independence Day if lectures on energy and inflation could be arranged.

And, from Peshawar, Pakistan, engineer Mahtab Khan Usufzai wrote he would be honored to be chairman of the celebration of his alma mater — "the Great University of the Great State of Texas.

"As an ex-student of the University of Texas at Austin, it has every right on me to keep aloft its glorious name and traditions wherever I may be and whenever I am demanded to do so," added Usuf-

Carter eyes options to fight inflation

WASHINGTON (AP) - President Carter is considering a wide range of economic options to help battle inflation, including credit controls, budget cuts and action to slow the automatic increases in government spending, government sources say.

One congressional source said Wednesday he believed Carter would make major changes in the budget for fiscal year 1981 that he sent Congress last month. It has been reported Carter may try to cut \$10 billion from the \$616 billion he has proposed.

But 42 senators introduced a resolution in the Senate Wednesday demanding that Carter cut his

budget by \$25 billion, to \$590 billion. The resolution, which would not be binding on the administration, calls for a limit on federal spending equal to 21 percent of the nation's gross national product. Carter's proposed budget equals about 22 percent of the GNP.

One of the sponsors, Sen. Bill Roth, R-Del., said he favors a filibuster if necessary to win enactment. Another sponsor, Sen. William Proxmire, D-Wis. said he opposes a filibuster, but believes a cutback in spending would be the most logical and least painful way to fight inflation. Alternatives such as continued tightening of the money supply and mandatory wage and price con-trols are "so bleak" that they should be resisted, he said. Carter, who on Monday declared that inflation has reached the "crisis stage," has ordered a review of his economic policies. He met with his top economic advisers Sunday and another meeting is planned later this week. The government reported on Friday that consumer prices increased 1.4 percent in January. If continued for a 12-month period, inflation for the year would total 18 percent. While it has been learned that a wide range of options are under consideration to strengthen the administration's fight against inflation, the president and his advisers have taken pains to let it be known that mandatory wage and price controls are not among them. But one congressional source speculated Wednes-day that if inflation continued to rise at an 18 percent annual rate for the next few months, Carter might not have any choice but to propose controls, as the Congress and the public might demand them.

He said he believed the administration would give serious consideration to credit controls, which it

already has authority to impose. The purpose of credit controls would be to take pressure off prices through such actions as requiring higher down payments for consumer purchases. However, Paul A. Volcker, the chairman of the Federal Reserve Board, which would administer the controls, said earlier this week he opposes credit controls and thinks they could be counter-product-

Also high on the list of Carter options, the congressional source said, is an effort to reduce federal spending in both 1980 and 1981. Carter sent his \$616 billion budget for fiscal 1981, which includes a deficit of \$16 billion, to Congress last month.

Homebuyers face another rate hike

WASHINGTON (AP) - Homebuyers, beginning today, will have to pay up to a record 13 percent interest for government-backed mortgages. It's the second increase in less than three weeks.

Acting simultaneously, the Veterans Administra-tion and the Federal Housing Administration on Wednesday increased the maximum interest rate

they charge on home mortgages by 1 percent. Meanwhile, the government temporarily put a lid of 12 percent on the interest earned on 2½-year savings certificates bought in March — despite a formula providing for interest of up to 13.5 percent. Wednesday's announcements, which came within

three hours of each other, represent additional reactions to the Federal Reserve Board's tight-money policies, aimed at cooling inflation. The VA-FHA action follows a Feb. 11 boost from

11.5 percent to 12 percent for single-family mortgages and from 11 percent to 12 percent for multi-family mortgages. Interest rates were also increased for mobile-home

loans, from 14.5 percent to 15.5 percent; for mobile homes with a lot, from 14 percent to 15 percent, and for property improvements, from 14 percent to 15.5 percent

'With the prevailing mortgage rates and the recent action of the Federal Reserve Board, we had no alternative," said Moon Landrieu, secretary of Housing and Urban Development.

Sparenburg's two cotton

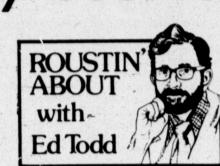

SPARENBERG - Free enterprise works in Sparenberg, though there are only two places in town where you can spend a nickel: at the two cotton gins.

At one time, you could have gotten a postage stamp, shave and haircut, cafe-styled meal, bottle of patented medicine and a whole slew of liniments, pair of Levi jeans and overalls, an education, a preaching to, a tankful of gasoline, your plow sharpened and broken tractor or wagon welded at the blacksmith's shop.

No more. The stores, shops, churches and the school are either gone, boarded up or used for stor-

Today, there are only the two gins: the Sparenberg Gin, managed by Billy Shofner, and the Sparenberg Community Gin, operated by Curtis Reid. Once, there were three.

"It's just good, friendly competition," said Shofner. "We're not after cutting each other's throat."

Last season, Shofner's gin turned out 9,700 bales. His mother, Fred Ella, assumed ownership of the gin after her husband, Clebern, died in 1978.

We had a good year," he figured. He and his crew could have turned out more bales if they had the means to haul those compacted modules from the farm to the gin; but that would take an \$80,000 piggy-back, modulehauling truck.

"If we had had a truck, we could have hustled up some more cotton, but we had a good year, so we just

quit. So, Shofner ginned what cotton the farmers brought in via trailers. Reid did the same. But he only processed something less than half of what his competition did.

"We was down a lot for repairs after Lonnie (Kemp) passed away,' Reid said. Lonnie Kemp, a partner with the Sweetwater Cotton Oil Mill Co., died last year. And his widow, Mary, took over the Sparenberg side of the partnership.

After the ginning is done, Sparenberg's business activity dies down. The gin keepers, though, have to round out their paperwork and make necessary repairs on the ginning machinery, while the farmers return to the fields for plowing and cultivating in readying their land for next season's crop.

More than anything, Sparenberg is a couple of gins in a sea of cotton, speckled by oil field pump jacks and farm houses.

Once, there was far more, but after the rural Sparenberg school was closed in 1948 in a countywide consolidation move that affected other rural communities, the Sparenberg com-munity was ushered into relative oblivion.

"We had a blacksmith's shop, but he (blacksmith Cecil Teal) stopped working and closed down several years ago," Shofner said.

And not long ago, Maximo Rodriquez closed down his cafe, which specialized in chili and hamburgers. "Age caught up with him, too," Shofner said. And the Butchee Grocery Store closed.

Like his twin brother, Bobby, Billy Shofner has quite a few seasons left before he even considers retiring to the proverbial rocking chair. The brothers, though unaware, first saw the light of day in 1946, and except for Bobby's moustache, they look alike. And work-wise, the Shofner brothers play different roles. Bobby is a hog farmer; Billy, of course, runs the

And Billy likes to tell pig jokes, albeit clean, which are similar in spirit to a sign posted on the gin office. The lettering next to the photograph of a Yorkshire pig reads:

> Life is a drag When you've gotta keep bringing home the bacon.

Another out-in-the-open joke tells of a hen and pig chatting about a cafe sign which featured ham-and-eggs for \$1.50.

The hen told the pig that it sure made her "leel good" to know that

"It may makes you feel good," the

Appeals would go first to an Times quoted a source close to Lee as saying administrative law judge at the Occupational Safety Wednesday. dent of OSHA and the U.S. Labor Department. The striking firefighters, in a voice vote Wednesday, gave their leaders the power to keep open the Further appeals would go to federal courts. contract proposal as long as they feel it necessary.

Studio 54 denied new liquor license

NEW YORK (AP) - The New York State Liquor he doubted Mrs. Byrne would act quickly. The mayor Authority, citing the activities of two of Studio 54's wners, has refused to renew the liquor license of the trendy Manhattan nightspot.

The ruling Wednesday means the disco will be prohibited from selling alcoholic beverages as of March 1, although it can remain open.

Attorneys for Studio 54 could not be reached for comment and employees at the club said they were his men back to work, gave his members a pep talk unaware of the ruling.

Lawrence J. Gedda, spokesman for the five-member authority, said the action was taken following the imprisonment of owners Steven Rubell and Ian firefighters roared approval Schrager.

The two reported to federal authorities earlier this month to begin serving 3½-year prison sentences. They were sentenced and fined \$20,000 each after pleading guilty to charges of evading corporate and personal income taxes.

Gedda said that because of their conduct, including "their conviction on income-tax evasion charges and other violations of law which we had charged them with, they were not fit and proper persons to hold a liquor license.

refused comment on the proposal. The offer eliminates a number of previous union demands and sends to binding arbitration remaining

contested issues, including the major sticking point of whether the union would represent fire officers. Union President Frank Muscare, sentenced to five

months in the Cook County Jail for refusing to order by telephone

'We've got to forget all the other issues and we want a contract. Am I right?" Muscare said, as the

'If we go back on her (Mayor Byrne) terms, we'll go back on our knees ... If we settle this on our terms, we'll walk in with our heads up and we'll stay that' way forever.

The union drew up the contract proposal Tuesday after consulting with a federal mediator. Meanwhile, Illinois Supreme Court Justice

Thomas Kluczynski heard an appeal Wednesday from attorney Al Intini, who said Muscare had been imprisoned wrongfully. The court is expected to rule Friday

Hooded bowman suspect in 'hit'

NEW YORK (AP) - A man who was seriously wounded when a green-hooded bowman leaped from a van and shot a 27-inch hunting arrow into his back is a key witness in a former policeman's attempted murder trial, authorities say.

Michael Gentile, chief of investigations for Brooklyn District Attorney Eugene Gold, said there was 'absolutely no evidence at this time that this was a 'hit' or related in any way to the prior trial." However, one investigator who declined to be

identified called it "a definite hit." The victim, Alexander Hudson, 36, was reported in

satisfactory condition today at Brooklyn Jewish Hospital after surgeons removed the arrow that had lodged six inches in his body, narrowly missing his heart

Police said the arrow had three prongs made of razor blades attached to the shaft by wire.

land hospital. She was born Dec. 10, 1907, in How-

land. She was married Aug. 26, 1928, to Clark Estes. They lived in Austin, Fort Worth, Houston and Lubbock before moving in 1963 to Midland. Mrs. Estes was active in church work in each city

In Fort Worth, Mrs. Estes served as president of the Woman's Missionary Union at Broadway Baptist Church. In Houston, she was president of the WMU at South Main Baptist Church. In Lubbock, Mrs. Estes served as director of Adult Sunday School and as president of WMU in the First Baptist Church. She was also president of the Lubbock Woman's Club.

After moving to Midland, Mrs. Estes served as Texas Baptist State Mission Study Director from 1963 to 1967. She worked as director of the Adult Sunday School for the First Baptist Church. In 1965-66 she was president of the Midland 20th Century Study Club.

Survivors include her husband; a son, Richard Clark Estes of Bartlesville, Okla.; two sisters, Nannie Le Hellums of Paris and Mrs. Bernie Sheffield of Dallas; three brothers, Jesse Justiss of Howland, Thomas Justiss of Paris and Shelton Justiss of Corn Wall Heights, Pa.

The family requests memorials be directed to the Lottie Moon Offering, in care of the First Baptist Church of Midland

Mary S. Smith

Claude Maltby

ODESSA — Services for Claude Orville Maltby, 84, were to be at 2 p.m. today in the Immanuel Baptist Church here with burial in Sunset Memorial Gardens directed by Hubbard-Kelly Funeral Home.

He died Tuesday in an Odessa hospital after a brief illness.

Maltby was born Sept. 12, 1895, in Stillwater, Okla. He was married to Minnie Eilen Burch Sept. 24, 1919, in Perry, Okla. A retired lease pumper for Atlantic Richfield, he came to Odessa from Penwell in 1961. He was a member of the Immanuel Baptist Church and the Masonic Lodge.

Survivors include his wife; a daughter, Donna Windham of Denver City; a son, Bobby Maltby of Midland; four sisters, Rosa McGill of DeLeon, Irma Earls of Denver City, Bernita Vian of Andrews and Thelma Marsh of Tonkawa, Okla.; two granddaughters and a great-grandson.

The family requests memorials be made to the American Cancer Society or to the American Heart Association.

Becil I. Burke

ANDREWS - Services for Becil Ilene Burke, 60, of Andrews were to be at 2 p.m. today in Singleton Chapel of the Chimes with Levon Z. Hallmark and R.L. Donohoe of the Andrews Church of Jesus Christ of Latter Day Saints officiating. Burial was to be in Andrews Ceme-

tery She died Tuesday in her home.

Mrs. Burke was born in Oklahoma and had lived in Andrews periodically during the 30 years since she left Memphis. She was a member of the Church of Jesus Christ of Latter Day Saints. She was also a member of Moose and Eagle lodges.

Survivors include two sons, Robert Hall of Andrews and Dale Hall of Memphis; a daughter, Sharon McGuire of Andrews; five brothers, Joe Burke of Andrews, Milton Burke of Medicine Park, Okla., Harold Burke of Wichita Falls and Chester Burke and Billy Burke, both of Wichita, Kan.; and 10 grandchildren.

Grace Sheppard

CRANE - Services for Grace Merle Sheppard, 76, of Crane are pending with Larry Sheppard Funeral Home here.

Mrs. Sheppard died Wednesday afternoon in a Crane hospital after a brief illness.

She was born Nov. 3, 1903, in McClouth, Kan. She was a homemaker and the owner-operator of a cafe in Crane.

Survivors include her husband, Dennis E. Sheppard and three sisters, Ella Wilford, Marcella Ivey, both of San Angelo and Hazel Britton of

CLARKSVILLE, N.J. (AP) - They graze in a pasture alongside a shopping center parking lot. Shoppers stop and stare.

A cattle ranch in the nation's most densely populated state is an unlikely sight to begin with, so what are those critters doing here, and, in fact, what on earth are they?

They are beefalo. They are a strange cross between a wild buffalo and a tame cow. They belong to Joe Russo.

Joe Russo is a strange cross between a cattleman and a cheerleader on behalf of the beefalo. To hear him tell it, the shaggy-haired beefalo will revolutionize the meat industry.

"Beefalo don't require much grain. They thrive on grass, hay, roughage. They grow fast, so they're ready for market quicker. The calves are smaller at birth, so live births are more likely. They are hardier, like buffalo, and can endure severe weather.

"What it adds up to is cheaper and better meat, besides freeing tons of grain for human consumption. To me, that makes beefalo a good idea. Good ideas usually win out.

Russo isn't the only one with a big stake in beefalo steak. Six years ago a Canadian consortium paid \$2.5 million for a purebred beefalo bull. According to its seller, that was more than five times the highest amount ever paid for a farm animal.

The beefalo is the result of 16 years of breeding experiments by a Californian named D.C. Basalo, who sold that expensive bull.

Cattlemen had tried for a century to combine the best rugged traits of the wild American bison with the best traits of the pampered domestic breeds of cattle.

They met with great unsuccess - scrawny, weird-looking offspring, usually sterile - until, in 1967, Basalo found the right combination in a creature that is only three-eighths bison.

The U.S. Department of Agriculture, recognizing the hybrid as a new breed, gave it a formal name that sounds like something Christopher Robin found at the zoo: a Basalo Beefalo.

Joe Russo knew nothing of those experiments. At the time, he was a young college graduate, a bank teller, a former 4-H Club member, dating a young woman named Phyllis Vaccaro.

He took up with Phyllis partly because she lived on a farm and he enjoyed hanging around

more on one acre than most farmers could on ten. He had chickens, pigs, abbits, grapes, a big garden, everything except a cow. All my life, I wanted a

"After Phyllis and I were married, I spent all my idle time reading cattle journals. I still had that longing for a cow.

'One day, in 1976, Phyllis's mother saw a story in a magazine about a beefalo. She said, 'If a beefalo is all they say it is, maybe that's what you ought to buy.

Joe threw in with his wife's father and uncle, Tony and John Vaccaro, and got into the beefalo business. Their herd now numbers about 210 head, and they are constantly selling to new beefalo enthusiasts as the breed expands nationwide

There are only about 100,000 beefalos in the nation as compared to about 130 million cattle on the hoof; so it will be a few years before you start seeing beefalo on meat counters. As an industry, it's still in the breeding stage," he said

"But last Christmas we put up one ton of meat for sale locally. It went in no

time and they came back for more. "At least the people around here," he said, shamelessly, "know I didn't give them a bum steer.

Tito's condition unchanged

BELGRADE, Yugoslavia (AP) -

The brief midday advisory made no said

THE STRAIGHT LINE TO

Tito is using an artificial kidney machine. Doctors without access to details of Tito's treatment have speculated the doctors are also using a respirator to combat pneumonia.

Tito has been hospitalized for nearly seven weeks. He developed heart and kidney problems following the amputation of his left leg Jan. 20. The operation was performed to removed a circulation blockage and avoid gangrene poisoning.

President Josip Broz Tito spent a peaceful night but his grave condition remained unchanged, his doctors said today

mention of the 87-year-old Yugoslav leader's medical afflictions, including heart and kidney weakness, pneumonia and internal bleeding. Intensive treatment was continuing, the doctors

LAMESA — Graveside services for Mary Stetten Smith, 70, of Lamesa will be at 10 a.m. Friday in Lamesa Cemetery with the Rev. A.E. Burns, pastor of Klondike Baptist Church, officiating. Burial will be directed by Branon Funeral Home.

Mrs. Smith died Wednesday in a Lamesa hospital after a brief illness. She had lived in Patricia 13 years before coming to Lamesa a few months ago. She married Eulas Gray Smith Feb. 10, 1946, in Odessa. He died Aug. 18, 1979. She was a member of Klondike Baptist Church.

Survivors include a daughter, Sandra Shannon of Andrews; a brother, Arthur Leroy Stetten of Michigan; and three grandchildren.

George T. Wade SWEETWATER - Graveside services for George Travis Wade, 92, brother of Eula Seago of Midland, will be at 11 a.m. Friday in the Swee-

twater Cemetery directed by McCoy Funeral Home of Roscoe. Wade died Tuesday morning in El

Paso. He was born May 8, 1887, in Comanche. Wade married Minnie Parker June 30, 1920, in Roscoe. She died Jan. 1, 1968. He was a veteran of World War I and was a farmer and land developer. He is also survived by another sis-

ter.

Loew's given permission to distribute films again

NEW YORK (AP) - Loew's Corp. and Loew's Theatres Inc., barred from motion picture distribution for the past 28 years by a landmark antitrust court decision, have received court permission to again produce and distribute movies provided they do not "unreasonably restrain competition.

In granting Loew's petition to resume distribution activities, Senior U.S. District Judge Edward L. Palmieri on Wednesday set down condi-tions to insure there would be no anti-trust law violations by the giant conglomerate.

Palmieri ordered Loew's not to show any motion picture it-distrib, utes at theaters it owns and not to require that exhibitors charge minimum admission prices.

"The door is now open to Loew's to produce and distribute feature motion pictures, but there are conditions intended to provide for the preservation of a competitive climate in this important industry with due regard for the interests of the consuming public," said Palmieri.

Loew's voluntarily consented to an injunction against its distributing motion pictures on Feb. 6, 1952, following government anti-trust litigation against large motion picture distributors who also owned theater chains.

Palmieri noted that Loew's petition to resume distribution activities was given wide public notice "to afford the fullest opportunity for participa-tion by interested parties." The judge also noted that a number of hearings were held over a year.

"This court has concluded that Loew's' entitlement to the requested relief has been persuasively demonstrated," the judge said.

'Bewitched' neighbor Tobias dead of cancer, aged 78

LOS ANGELES (AP) - Character actor George Tobias, who most recently appeared as the husband of the nosy neighbor in the "Bewitched" television series, has died of cancer at the age of 78.

Tobias was admitted to Cedars-Sinai Medical Center Jan. 20 for treatment of an intestinal blockage, and died Wednesday, said his manager, Alex Brewis.

He said Tobias "hadn't been working recently, he'd been playing golf." Some of the actor's best known films were "Sergeant York," "Yankee Doodle Dandy," "This is the Army," "Sinbad the Sailor," "Rawhide," "The Glenn Miller Story" and "The Glass Bottom Boat."

He also appeared in the television series "Adventures in Paradise" and "Hudson's Bay.

A memorial service is scheduled for Friday at Mt. Sinai Memorial Park in Burbank. Tobias will be buried Saturday in New York City, where he was born in 1901.

Tobias began acting on the stage at the age of 15. He played in the Broadway hit, "You Can't Take It With You" and with Alfred Lunt and Lynn Fontanne in "Elizabeth the Queen."

Dallas man 'off to the races,' aiming for record-setting ride

By SUSAN STOLER

PORT ISABEL, Texas (AP) fter a 550-mile warm-up, Dallas ousinessman Thomas Gaddle is ready or his 11,000-mile horseback ride to Maska and into the record books. Gaddie closed his fireplace repair hop to realize a 20-year dream of iding cross country.

He planned to set out today from the surf of South Padre Island, taking with him a jar of water from the Gulf of Mexico. By June or July, he ex-pects to be looking at the Artic Ocean

and Prudhoe Bay.

"There are few countries left in the world where a person could realize a goal like this," he said Wednesday.

Gaddie, 56, rode to the southernmost tip of Texas to claim the Gulf as his starting point and to assure that his feat - if completed - is the longest horseback ride on record.

A Spaniard reportedly traveled 10,-000 miles from Buenas Aires to Washington, D.C., in the 1920s.

Gaddie arrived in Port Isable Tueslas public relations firm to put togethday and is camping out on land to be

Former Marine disarms man holding hostages on bus

CINCINNATI (AP) - A former Marine says he had only a moment to act when a gunman who had killed one of six hostages on a Greyhound bus pointed the weapon at his head. The gunman turned away for a brief moment, and "I took him out," the young man said.

"He turned his back on me and I went out to lunch on him," said Alfredo Toralti, 20. "I took him. I grabbed the gun and punched him. "He had his gun pointed at my head," Toralti said. "I don't like peo-

ple pointing guns at me.

"The gun went off and I grabbed it and tried to point it at him," he added. The shot pierced the windshield.

Three other passengers held captive on the bus jumped on the gunman, and one woman opened the door for police outside. There were six persons on the bus

when the gunman boarded it Wednesday during a layover at the Greyound Terminal. The bus was heading to Cleveland from St. Petersburg, Fla

Police were holding Walter C. Atkins, 32, of St. Louis, in connection with the incident. No charges were filed Wednesday against Atkins, whose last known address was Goodwill Industries, Louisville, Ky.

Passengers told police the man had talked wildly about Iranian hostages and said he had no reason to live. "One witness told us he got on the bus and told one man, 'You're a member of the establishment,"' said Lt. Edward Amann, head of the police special weapons and tactics squad.

The slain passenger was identified as Joseph Dudziak, 69, a retired Great Lakes seaman. He was returning to Newburgh Heights from a two-week vacation in St. Petersburg.

He had been ordered to the rear of the bus and shot to death in the restroom, Amann said.

across Wyoming and Montana and NEWARK, N.J. (AP) - After liv-The Royal Canadian Mounted Poing for four years "like a fugitive, looking over her shoulder and jumplice were skeptical when Rockie Gading at the slightest sound," a former bank teller emptied \$52,500 from a laundry bag onto a U.S. Magistrate's

desk and surrendered, officials said. Margaret Veca, 28, disappeared in 1976 with \$95,000 from a Hoboken bank where she had been entrusted with a vault key, authorities said. She turned herself in Tuesday.

By YVONNE CHILIK

She has been sought by the FBI since June 1, 1976, when officials at the Washington Savings Bank discovered money from the vault she was to lock up before the Memorial Day

holiday was missing. She appeared Wednesday before U.S. Magistrate Serena Perretti with her family, a 3½-year-old son and William Kelly III, her boyfriend with

whom she disappeared. Federal authorities, unsure why she abruptly reappeared, say the pressure of hiding may have reached

the breaking point. 'She looks like she's 40," said a federal official who asked not to be identified.

They lived like moles for the past 3½ years. They never went out into the sunlight, they were afraid to go anywhere because they might have been recognized," he said.

to apartment, officials said, living in three different places since their disappearance, including Long Branch and Bradley Beach.

They apparently spent only enough of the money to survive, and even stopped buying meat a few months ago because "they said they couldn't afford it," the official said.

Ms. Veca is charged with embezzling the funds on May 28, 1976, after she was told by bank officials to lock the vault and set time locks before leaving for the holiday weekend.

When officials returned the following Tuesday, the time locks were off and the money was gone, according to a complaint signed by Perretti.

Most New Mexico inmates end 24-hour hunger strike

SANTA FE, N.M. (AP) - A 24-hour hunger strike by about 30 maximum security inmates at the New Mexico State Penitentiary has ended, and prison officials say they're talking to nmates about why it happened.

Wednesday, corrections spokesman John Ramming said.

banged on their cells and refused to eat, Ramming said.

state's only maximum security facility left 33 prisoners dead and millions of dollars in damage to prison facili-

when some inmates dumped food on the floor and banged on their cells, Ramming said. The inmates apclogging toilets and sinks and refusing to eat dinner.

THURSDAY, FEBRUARY 28, 1980

ENERGY OIL & GAS

Operator reports location for deep explorer in Eddy

Perry R. Bass of Midland announced plans to drill the No. 75 Big Eddy Unit as a 13,500-foot wildcat in Eddy County, 17 miles northeast of Carlsbad.

Drillsite is 1,980 feet from north and west lines of section 26-21s-29e. Ground elevation is 3,397 feet.

The new site is 1/2 mile northeast of Morrow gas production in the US field, which produces at 13,212 feet.

Florida Exploration Co. of Midland will drill the No. 9 Ross Draw Unit as a 12,400-foot undesignated test in Eddy County, 19 miles southeast of Malaga.

Location is 910 from north and 1,980 from west lines of section 34-26s-30e. Ground elevation is 2,999 feet. It is 1/8 mile south of Delaware gas

production in the Ross Draw field and one mile southwest of an two-well unnamed Wolfcamp gas field.

Yates Petroleum Corp. of Artesia, N.M., will drill the No. 1-NF Rio Pecos Federal as a 1,800-foot undesignated San Andres test in Eddy County, 12 miles southwest of Loco Hills.

Operator reported a 24-hour flowing gauge of 3,900,000 cubic feet of gas per day, through a 1/2-inch choke and perforations from 11,280 to 11,356 feet, which were acidized with 2,000 gallons.

Drilled to 11,600 feet, 4.5-inch casing was set at 11,542 feet. Plugged back depth is 11,377 feet.

Location is 7/8 mile northwest of Morrow production, 660 from north and 1,980 from west lines of section 22-19s-29e.

CHAVES GAINES TESTS

Mesa Petroleum Corp. of Midland will drill the No. 1 Barn-Federal as a 3,500-foot undesignated Abo test and 3/4-mile stepout to the firm's No. 1 Rock Federal, scheduled 4,200-foot wildcat being drilled "tight".

Location is 2,280 from south and 660 from east lines of section 12-8s-22e. Ground elevation is 4,104 feet.

Yates Petroleum Corp. of Artesia will drill the No. 1-LV Nine Mile State Communitized as an 8,620-foot project in the Buffalo Valley (Morrow) field of Chaves County, 10 miles southeast of Hagerman.

Drillsite is 1,650 from south and 990 from east lines of section 31-14s-28e. Elevation is 3,531 feet, ground level.

LEA WELL FINALS

Union Oil Co. of California of Midland finaled the No. 2 Laguna Deep Unit-Federal as a 1.25-mile outpost to the firm's No. 1 Laguna Deep Federal, opener and lone producer of an unnamed Morrow gas field in Lea County, eight miles northeast of Halfway.

Operator reported a 24-hour flowing potential of 2,027,000 cubic feet of gas per day, through a 14/64-inch choke.

Production was natural through perforations from 13,381 to 13,385

Total depth is 13,490 feet, with 5.5inch liner at 13,489 feet, the plugged

Runaway may be capped soon

WASHINGTON (AP) - The State Department is telling senators that the runaway Ixtoc I oil well may be capped "in the very near future.

'Two relief wells have been drilled, designed to bring the Ixtoc I well under control, and according to reports from Mexico, both have now intersected the Ixtoc formation," J. Brian Atwood Jr., an assistant secretary of state, wrote to Sen. Edward Zorisky, D-Neb.

'Mexican authorities have expressed the hope that the relief well operations will permit capping of Ixtoe I in the very near future," he wrote.

Zorinsky had written to the State Department requesting an update on the well as part of a compromise reached to keep Sen. Lowell Weicker, R-Conn., from trying to cut off federal funds to Mexico.

Atwood's reply was submitted to the Congressional Record.

"We do not have exhaustive information on the cleanup operations which have been undertaken by the government of Mexico in response to the Ixtoc I spill,"

Atwood wrote. "Large-scale efforts have been made to disperse oil at the well site using chemical agents.

PAGE 1C

A spokesman for Pemex, the Mexican national oil monopoly, said earlier this week that workmen were getting closer to the goal of shutting off the well.

Coast Guard Cmdr. Joe Valenti said Wednesday he had received a report from Mexico that Pemex was targeting Friday as the date for the next attempt to cap Ixtoc I.

The attempt would be contingent on weather and other factors, he said.

Valenti, chief of th Coast Guard's pollution control branch, traveled to Mexico earlier in February with other U.S. officials to examine the well site in the Bay of Campeche

"We understand that they should be able to cap it. It's a question of when," he said.

Operators report New Mexico work

Coronado Exploration Corp. of Al-buquerque, N.M., announced plans to drill the No. 1 Whitney as a 2,275-foot wildcat in Chaves County, 20 miles northeast of Dexter.

Drillsite is 1,980 feet from south and 660 feet from east lines of section 34-10s-27e. Ground elevation is 3,776 feet.

The wildcat is 1.25 miles east of an unnamed San Andres discovery.

Coronado Exploration will drill the No. 1 Sarah as a 1/2-mile stepout to the Diablo (San Andres) field of Chaves County, 21 miles northeat of Dexter

Location is 660 from south and 1,980 from east lines of section 15-10s-27e. Contract depth is 2,300 feet, with ground elevation of 3,807 feet.

Coronado Exploration will drill the No. 1 Jan as a 2,525-foot San Andres test in the Race Track field of Chaves County, 22 miles northeast of Dexter.

Location is 660 from south and 1,980 from east lines of section 17-10s-28e. The site is 5/8 mile northeast of San Andres production.

Fred Pool Drilling Co. of Roswell staked location for the No. 1 Opal as a 2,300-foot undesignated test in Chaves County, 25 miles southeast of Elida.

Drillsite is 660 from south and east lines of section 33-8s-32e. Ground elevation is 4,378 feet.

Phoenix Resources Co. of Denver, Colo., will drill the No. 1 Miller & Olsen as a 3,200-foot San Andres confirmer to the Railroad Mountain field of Chaves County, three miles southwest of Elkins.

Location is 1,980 from south and 660

from east lines of section 3-8s-28e. The site is 7/8 mile northwest of the discovery and lone producer from that pay.

LEA PROJECTS

Bass Enterprises Production Co. of Midland announced plans to drill the No. 2 Airstrip State as a 10,800-foot Wolfcamp test in the Airstrip field of Lea County, 16 miles southeast of Maljamar.

Location is 330 from south and east lines of section 23-18s-34e.

The site is one and three-eighths mile northwest of the field's discovery well.

....

Reed & Stevens, Inc. of Roswell will drill the no. 3 Wainoco State as a 6,200-foot test in the Quail (Queen) field of Lea County, 18 miles southeast of Maljamar.

It is 990 from north and east lines of section 11-19s-34e, 1/4 mile southeast of other Queen production.

Lewis B. Burleson of Midland announced plans to drill the No. 1 Berry Federal as a 4,300-foot project in the Querecho Plains (Queen) field of Lea County, seven miles south of Maljamar.

Drillsite is 1,650 from north and 330 from west lines of section 35-18s-32e. It is 3/4 mile southeast of Queen production.

Getty Oil Co. of Midland will-drill the No. 2-35 Getty State as a 13,500foot Morrow gas test in the Grama Ridge, East field of Lea County, 20 miles southeast of Halfway.

Location is 1,980 from north and 660 from east lines of section 35-21s-34e.

EDDY GAS WELL

Gulf Oil Corp. of Midland finaled the No. 1 Collaway-Federal as an Atoka gas well in the Diamond Mound field of Eddy County, 17 miles northwest of Loco Hills.

Operator reported a calculated absolute open flow of 4,607,000 cubic feet of gas daily, through perforations from 8,804 to 8,826 feet, which were acidized with 3,000 gallons.

Drilled to 9,100 feet, where 5.5-inch casing, it is plugged back to 9,055 feet.

Location is 2,212 from north and 660 from west lines of section 6-16s-28e. The gas well is 3/4 mile northeast of Atoka production.

tion of 85,963,836 barrels. **Texas oil production** averaged 2,605,007 barrels daily in December, down from 2,634,810 barrels daily in November. The December allowable totaled 107,232,444 barrels for the month. The preliminary De-

cember summary indicated Texas oil producsouth and 660 from east tion was 24.69 percent under the allowable for

FIGHT THE TAX **A BIG RALLY MIDLAND HILTON-DEVONIAN ROOM**

FRIDAY-FEBRUARY 29, 1:30 P.M.

Come hear ranking senior Oklahoma Senator Henry L. Bellmon (R) give a Washington progress report on the infamous "Windfall Profits Tax."

Join with representatives of the Energy Consumers and Producers Association and the Permian Basin Petroleum Association in organizing an early March "Oil Field Roundup" in Washington to protest the tax face-to-face with members of Congress.

Senator Bellmon is a member of the Senate Energy Committee.

The Energy Consumers and Producers Association has filed suits in the Federal Courts to protect the interests of the oil industry.

for oil in the Georges at the moment.

24 wildcat operations spotted in Permian Basin counties

Operators filed applications last week with the Texas and New Mexico oil and gas regulatory bodies requesting permission to drill 145 oil and gas tests.

'Twenty-four of the projects are scheduled in wildcat country and the other 121 are in proven field areas.

District 8 of the Railroad Commission of 9,650. Texas, with headquarters in Midland, handled applications for 43 projects, including seven wildcats.

Pecos County gained two of the wildcats and Andrews, Crane, Reeves and Winkler counties each gained one. The operators announced intention to drill nine field projects in Howard County.

By BOB CORBETT **Copley News Service**

Dr. Louis Robinson makes no apologies. He likes computers - a lot.

That would be understandable since Robinson is the scientific director for International Business Machines, one of the nation's largest computer firms.

However, Robinson has another reason for liking computers. He thinks they may have saved his life. About five years ago, he said, he was stricken with

a somewhat rare disease. At first glance, using conventional X-ray techniques, it appeared he had a malignant tumor

Service Reconnected and the service of the service of the service and the service of the service

all mankind. It's a world, he admits, that poses some problems, but "in the end, considering all the activities, will im-

prove the human condition. He envisions a world in which almost all human activity - from the arts, through sciences to mathematics - would have an active computer input.

The systems in use in industry and science and the tiny pocket calculators that are so popular now, Robinson said, represent "only the beginning of that (computer) age.

What is happening now, he said, is a revolution in information storage and transfer that can only be compared with the invention of movable type by Gutenberg in the 1400s.

Studies have shown, Robinson said, that by the late 1980s more than 70 percent of the population will have to know something about computers just to hold their jobs.

The trend has already been established, he said. Labor Department statistics, he indicated, show that 15 percent of the work force already have been

involved in the advance of computer technology. Technological breakthroughs in the last year or so

have made this kind of informatio revolution possible, he said And there's more to come.

He held out a tiny, wafer-thin chip, no more than a Andres)-Stevens No. 4-I guarter-inch square. That chip, he said, contains more than 64,000 bits of information. In computer ,650 from west, section language, a bit is a yes-no response, eight bits make a byte, a computerized word.

There were enough bits on that single chip, Robin-Race Track (San son indicated, to hold all the information contained in some weekly newsmagazines.

This new technology, on the other hand, is dramatsouth, 1,980 from east, ically reducing the cost of computers.

A few years ago, he noted, it cost about \$1.26 for a computer to handle 100,000 calculations. Today, be Diablo (San Andres)said, that cost is less than a cent.

If automobile production had made the same kind of progress over the last 20 years, he noted, a person from east, section 15-10s- could buy a car for \$200 that could travel at 27e, 21 northeast Dexter, 550 miles per gallon.

"We've never experienced this kind of growth in our society," he said,

In laboratories, right now, Robinson said, researchers are trying to develop chips that carry not a mere 64,000 bits of information, but 256,000 bits.

That's enough to overwhelm many people, Robinson agreed.

"We are concerned that the general public doesn't have a broad understanding of computer technology," he said.

Sometimes it's viewed as threatening, he said. The lack of understanding often brings with it a fear," he said, " ... and a rejection."

Robinson wants to avoid that rejection. He views computer technology as merely the latest advance in man's capability of storing and transmitting information.

It's a process, he said, that started with the caveman and his primitive drawings, worked its way Southland Royalty No. 1- through Incan beads that retell that tribe's history, Y-C Dale H. Parke, 990 to Egyptian hieroglyphics and on to modern times. Instead of being viewed as threatening, he said, tion 15-17s-30e, 2 north- computer technology should be seen as a simple extention of human capabilities.

Pretty but practical is designer's collection

By FRAN MOORE Lifestyle Writer

"Pretty clothes that are practical and feminine" is the way Catherine Carr, Dallas designer, described her collection at a style show and luncheon held for the Midland Country Club Ladies' Association in the clubhouse.

Pratical fabrics, the wash and wear variety, were featured. The emphasis, however, was on the hand-appliqued flowers and insects, such as lady bugs, on the T-shirts and skirts.

Western ensembles and Hawaiian prints also predominated. The threedimensional effect of the applique was predominant in all the styles from golf skirts to pant suits.

Ms. Carr designs for women whose talents, energy and education de-mand a place in the sun. Her clothes are colorful, but always feminine.

The designer began making garments in her home, beginning with hand-appliqued work shirts. When she began making designing and creating in her home, her husband bought her a factory, and she went into business for herself.

Pablo, a world renowned make-up artist and former creative director of Elizabeth Arden's Salon, will be the speaker for the MCC Ladies' Association luncheon March 28. The program for members will begin at 11:30 a.m. with a social period, followed with a luncheon and the program at noon.

MOSA to have dance

The Midland-Odessa Singles Association will have a Sadie Hawkins dance Friday at 9 p.m. at the Warwick Apartments 4405 N. Garfield St. Carolyn Stanolind will be the host. The event will be in the party room of the apartments, and will be a disc jockey dance.

Cost is \$1 for members and \$2 for non-members.

For further information, call Vern Martin at 563-1489 or Louise Crawford at 685-3206

evening and fire one back (couldn't you scream?) being careful to note on what day it was sent.

It's Letter Writing week

You will hear not one word from her until you write back. You never have to worry about your letters crossing one another en route.

Another friend of mine only writes when something happens. I haven't heard from her in three years and can only assume she's serving time somewhere.

There's another kind of correspondent whom I only hear from when they are in another ountry. Obviously, I'm on the B list and receive communications only when they're doing something they're proud of. Most are merely acquaintances and I am astounded when they share intimate invented the telegram.

details of their irregularities

The intriguing thing about the postal system is its optimism toward its future. They not only assume they'll have one, but they're already figuring out how it will work. The letter of the future will be sent electronically via satellite.

They are studying a system that will transmit a message to a post office where it is transformed into digital data at the rate of 10 pages per second, then beamed to a domestic satellite for instant transmission to a receiving post office. There it would be reconverted into printed form, automatically folded, and inserted into an addressed envelope at the speed of four to six letters per second.

I'm not sure, but I think they've just

Congressman to speak

U.S. Congressman Kent Hance will be in Midland. March 7 to speak to the businesswomen of the community.

He will address the Uptown Chapter of Business & Professional Women's Club from 5 to 6 p.m. in the Midland Room of the Midland National Bank.

Hance will present a legislative update on current issues with a question and answer session to follow

The session is open to the public.

Brenda Becknell, director of Robert Spence School in Lubbock, is forming a six-weeks self-improvement course to the taught in Midland, classes scheduled to begin March 6, in the Midland Center.

Classes will be offered for pre-teen and high school girls, homemakers and professional women of all ages, private groups, banks, and companies. Subjects to be taught include posture, walking, etiquette; skin care, make-up, wardrobe, hair care and exercise. Classes will meet once a week for 2 hours.

Mrs. Lou Bloxom, an instructor at Robert Spence, will be teaching with Ms. Becknell. Both laides are certified, through the school, by the Texas Education Agency

PICTURES AND WALL ORNAMENT give a room the touches of colo give a room the rouches of coor and visual intrigue that help it to "come alive". The finest fur-niture will have an incomplete look if the walls are all bare. Wall decor is like the jewelry that tur-ns a woman's simplest dress into a striking outfit.

Besides providing a dramatic or restful place for the eyes to fall, paintings can be useful decoratively. You can use the colors in a painting to tie your room colors together, for example. However, it's not a good idea to choose a painting for this pur pose alone. You should select it because you like it. Keep your decor personally yours-not an tificial You may want to group several smaller paintings for wall in-

terest, or create a wall display for
