## Fire destroys building under construction

The first-floor frame of a luxury apartment building under construction in Saddle Club south went up in

flames shortly after noon Thursday. The building, part of a complex going up in north Midland, was destroyed by the blaze, and firemen spent approximately an hour and a half and 24,000 gallons of water to

battle the fire. No one was injured.

Two pumpers were dispatched to the blaze; one was hooked to a water main. They were joined by the fire chief, deputy chief, battalion commander and emergency van carrying extra masks and equipment. Fire Chief Raymond Lewis said the emergency van was standard procedure for structural fires.

According to a police officer at the fire, the flames could be seen from

downtown Midland. Possible cause for the fire has been linked to a cutting torch. Fire Chief Lewis also said a pile of rubble and scrap lumber was burning near the apartment building that caught fire.

Chief Lewis said no estimate had been placed on the value of the build-

"It's kind of hard to estimate the value when only the framework's up. It would include replacement costs for the materials and construction, anyway," he said.

# Will U.N. commission members see hostages?

By The Associated Press

U.N. commission members were reported in their Tehran hotel late this afternoon despite a broadcast quoting an Iranian official that they had gone to the U.S. Embassy to visit the American hostages. Militant captors at the embassy said the panel has "never been there" and there were no

plans for a visit. Hojatoleslam Hashemi Rafsanjani, a member of the ruling Revolutionary Council was quoted in an Arab-language Tehran radio broadcast as saying the commission had arrived at the embassy. He also was quoted as saying a representative of President Abolhassan Bani-Sadr was with the

But one of the embassy militants reached by telephone by The Associated Press in Nicosia, Cyprus, reiterated an earlier denial that the commission had arrived at the em- and Bani-Sadr meet with the approxisuggested another telephone call Saturday, then added:

'We don't right now have plans (for the commission) to visit the hostages. If we want them to, we will announce it. The commission is here to investigate the shah's crimes and the U.S.

British Broadcasting Corp. monitors in London said that as late 8 a.m. EST they had not heard Tehran Radio's home service broadcast a report of the commission's alleged visit, although it was reported in an earlier Arab-language broadcast. Monitors in Tehran apparently have not been hearing the same Farsi-language broadcasts that the BBC moni-

On Thursday Tehran Radio reported that the embassy militants agreed

bassy. In an earlier call, a spokesman mately 50 hostages, who began their 118th day in captivity today. The reason for allowing the com-

mission to meet with the captives was not announced in Thursday's broadcast. But Iran's revolutionary government has insisted there is no link between the commission's work and freedom for the captives.

Ayatollah Ruhollah Khomeini, Iran's revolutionary leader, has put the fate of the hostages in the hands of the Majlis, or Parliament, which is to be elected in balloting on March 14 and April 3.

Revolutionary Council secretary Ayatollah Mohammed Beheshti said Wednesday it would be several weeks after the elections before the legislature could take up the hostage question, indicating at least 10 more weeks to let the five-member commission of captivity.

# More women freed by Colombian leftists

BOGOTA, Colombia (AP) — The United States. guerrillas holding the Dominican Republic's embassy freed five more women hostages this morning but continued to hold at least 40 other captives, 18 of them ambassadors, including Diego C. Asencio of the

## Red envoys left meeting before raid

WASHINGTON (AP) — A U.S. official says it is not known — and may never be known — whether it was coincidence that four communist envoys left shortly before leftist guerrillas raided the Dominican embassy

in Colombia. "A coincidence? Maybe. We're not

sure," said the official. The ambassadors of the Seviet Union, Czechoslovakia, Hungary and Romania were among the diplomats invited to attend the Dominican na-

tional day reception Wednesday. Witnesses reported that shortly be-fore the attack, the driver for the Soviet envoy gave envelopes to the drivers of the other three communist

representatives. "The account of the eyewitnesses seems credible," one official said. "But whether it means the communist ambassadors were tipped off in advance we'll probably never

When the four communists left the embassy, 80 other diplomats re-mained behind, all representing non-

communist countries. U.S. officials, all of whom asked not to be named, said the evidence is too circumstantial to draw any firm conclusions on the possibility the early departure of the four Warsaw Pact envoys suggested they were forewarned about the attack.

They pointed out that since the Dominican Republic does not have close ties with any communist country, it would not be unusual for communist ambassadors to make only token ap-

pearances at such a gathering. In addition, at least seven NATO ambassadors invited to the reception also were not present at the time of the attack, the officials said. Some, like the communist envoys, had left early, others were unable to attend and still others had not shown up by the time the guerrillas stormed the

embassy, according to the officials. Citing reports from reliable eyewit-nesses, the officials gave the following account:

At 11:15 a.m., U.S. Ambassador Diego Asencio arrived at the embassy in his chauffer-driven car. He was followed some 15 minutes later by the Soviet ambassador.

The Soviet chauffer got out of the car carrying three envelopes and gave one each to the chauffers of the ambassadors of Czechoslovakia, Hungary and Romania. The significance of this was unclear to U.S.

About 11:45, the Czech ambassador departed the embassy and was followed shortly thereafter by his three Eastern bloc colleagues.

Less than a half hour later, Asencio appeared in the driveway and indicated he was preparing to leave. It was then that the raid began.

## This jewelry gives complete service

ANTIOCH, Calif. (AP) — They stopped just to buy wedding rings, but it was raining outside and there was a reverend inside, so Tracy Walton and Cindy Correia got hitched then and there in a jewelry store.

The Rev. Jack Hale of the Church of God in Oakley was doing some plumbing in the back room. His son Randy is a salesman at the store.

"We thought they were kidding," said Walton when the jewelry store wedding was suggested.

But the downpour changed his mind, and the Rev. Hale married the couple as cuckoo clocks sounded out 4

Reporters watched as four automobiles, one of them riddled with bullet holes, drove the women to safety. One of those released was Costa Rican Ambassador Elena Chassoul Monge. The guerrillas have now freed all 15

women held in the embassy since it was seized in a blaze of gunfire Wednesday during a Dominicain independence day reception. On Thursday they released 10 women, three wounded men, including Paraguayan Ambassador Oscar Gostiaga, and a

16-year-old boy.
The 29 armed members of the leftist organization called M-19 say they are ready for a long siege.

Six of the women freed Thursday were Colombians, four were the wives of foreign diplomats, and the other two wounded men were employees of the embassy. The youth was not iden-

Today's release was believed to have left 41 persons captive. President Julio Cesar Turbay Ayala said in a communique his government would negotiate with the guerrillas after they freed all the women. The leader of the guerrillas, who called himself Commandante Nu-

mero Uno, said in a telephone interview that he and his band were "pre-

pared to stay here one or two months if necessary" to force the government to meet their demands. These included \$50 million, freedom

for 311 political prisoners and safe

conduct out of the country.
The Colombian Red Cross delivered mattresses, food and cigarettes to the embassy, removed the body of a guerrilla shot when the embassy was taken over and supplied two doctors to treat a woman guerrilla wounded in the takeover. The doctors said she did not require hospitalization and

could remain in the embassy.

Ambassadors Ricardo Galan of Mexico, Asencio, Virgilio Lovera of Venezuela and Diogenes Mayil Burgos of the Dominican Republic conducted the negotiations with the guerrillas that led to the freeing of the first group of hostages. Galan cald first group of hostages, Galan said. Four of the women freed Thursday were the wives of the Guatemalan and Israeli ambassadors and those of the Jamaican and Dominican con-

Commandante Numero Uno accused some of the 500 security men ringing the embassy of firing at the building, and governments of the captured ambassadors urged President Turbay Ayala to take no action that might endanger the hostages.

# March will roar in, says weatherman

True to the old adage, March will roar in like a lion tonight, the weath-

erman predicted. On the heels of the warmest day of the year Thursday, a cold snap was expected to move into the Midland area late this morning bringing a

chance of light freezing rain or drizzle

mixed with snow and temperatures in

the upper 20s.

The cold is expected to hang on at least through Saturday, according to the National Weather Service office

at Midland Regional Airport. Low tonight is expected to be in the upper 20s with the high Saturday near

The chance of rain, snow, sleet or drizzle was placed at only 20 percent for tonight and Saturday, however. Gusty winds were expected to shift to the north late this morning and

blow at 15-25 mph through Saturday. That will be a marked contrast to Thursday, which qualified as almost summer-like, with a high of 81 degrees - the warmest day of the year and very close to the date's record high temperature of 87 set in 1940.

The overnight low of 45 did not approach the record low for today's date of 20 degrees set in 1960. Rainfall total for the month of Feb-

ruary stands at .29 inch with the annual total at .78 inch.

## Midlanders can minimize cold's injury to plants

The sudden cold snap expected to move into the area late this morning could cause some damage to trees, shrubs and grasses coaxed into early budding by the unseasonably warm weather of the past week, a survey of local nurserymen indicated today.

Temperatures of 32 and under will damage new growth, the nurserymen said, and forecasters are predicting the overnight low will dip into the 20s While some damage may be inevi-

table, there are steps Midlanders can take to minimize the harm.

Most of the early green in lawns is winter grass and shouldn't be seriously harmed by the late freeze, but watering the lawns will help protect tender shoots by encasing them in a "blanket" of ice, according to the

Budding trees are a bigger problem because they are more vulner-able and harder to protect.

Placing any kind of netting, web-bing or burlap over the trees will help keep off the frost. Outdoor lights including Christmas decorations strung in the branches may draw curious looks from the neighbors, but can help save the buds by providing

extra heat, the experts add. New growth on shrubs and bushes may be nipped back by the frost, but unless extensive new growth is showing, damage likely won't be extensive, they noted.

## Firefighters reject city amnesty offer CHICAGO (AP) - Chicago's Fighters Union strike chairman, said,

strking firefighters considered a city amnesty offer designed to end a 16day walkout - and stayed home.

'I really tried guys. I really tried." Lt. Robert McKay told some 30 pickets Thursday as he became the only striker to report to the Fire Department gymnasium by 8 p.m. to take advantage of the offer union officials labeled a "union-busting tactic."

Fire Commissioner Richard Albrecht had set the deadline on the amnesty terms and warned strikers the city would bring disciplinary charges against those who remained off the job.

Union officials said they would stage a demonstration to push for a settlement during a visit today by Sen. Edward Kennedy, D-Mass.

McKay arrived at the gymnasium with his wife, a deputy commissioner with the Department of Neighborhoods, signed the offer and left, followed later by 10 cars of officials who had come to sign in strikers.

Other firefighters who went inside to examine the offer said it had two shortcomings: It was signed only by Albrecht, who they say will be fired soon, and it did not guarantee amnesty for striking battalion chiefs.

Earlier, Lt. Tom O'Connell, a spokesman for the department, said those who returned by the deadline would face no disciplinary action, but would lose pay for each day that they did not report. He said Albrecht emphasized it would be the first and only

William Kugelman, Chicago Fire

"It's an attempt to bust the union clear and simple. This thing here is just more bunk. I don't think it will be

Mayor Jane Byrne refused to comment on the proposal.

"The mayor's attempt to start men running back to their firehouses was a complete flop," said William Reddy, acting president of the 4,350-member union. "This should prove how strong the conviction of the men is.

The strike began after talks for the firefighters' first written contract broke down when the city demanded a no-strike clause. The strike by firefighters, who previously worked under handshake agreements, is the first in the nation's second-largest

Reddy said the union's next move would be the demonstration during the visit by Kennedy, whose bid for the Democratic presidential nomination is being backed by Mrs. Byrne.

Reddy, who is acting union leader while President Frank Muscare is jail for contempt, also said firefighters would not return until the city grants complete amnesty and a contract, adding that the union's latest proposal, worked out unilaterally Tuesday with a federal mediator, "is a contract.'

O'Connell, however, said the city intends to go ahead with plans to seek the dismissal of five battalion chiefs who joined strikers.

# Evidence says empty grave should remain empty

HUNTSVILLE, Ala. (AP) - The gravemarker is simple enough to look at. But the space it marks contains no grave, and the epitaph is bitter:

"Jerry Bibb Balisok. Born Sept. 8, 1955. Murdered in Guyana Nov. 18, 1978. Buried in Oakland, Cal., May, 1979. Damn the State Dept.'

Balisok's body is not here. Indeed, he may not even be dead. But his mother, Marjorie Balisok, is convinced her son, his wife and his stepchild died in the horror of the Peoples Temple mass murder-suicide at Jonestown, Guyana, and she ordered the tombstone placed in the family plot.

Mrs. Balisok, a widow and a retired hospital worker, is obsessed by a Life magazine photograph of some of the more than 900 bodies at Jonestown. She believes the photo, which appeared two months after the atrocity, shows her son's body lying next to that of his wife, Debbie, and her 5-year-old son, James Kindred.

"I have tried in every way to have my son's body returned to me for burial," she said. "I have insurance policies of all kinds that I cannot cash in until I have a death certificate or a

certificate of presumed death." FBI agent Dick Marx of Huntsville is searching for Balisok for other

outside their houses.

LOS ANGELES (AP) — Five Nobel laureates have given sperm to an exclusive sperm bank to be matched with the "right" women in hopes of producing exceptional children, the businessman behind the scheme

Robert K. Graham, a 74-year-old Escondido businessman who set up the program, told the Los Angeles Times on Thursday that three women have been inseminated and become pregnant so far. He said the program screens women applicants and matches them with a donor's sperm.

"Yes, I'm one of them," said Stanford University's William B. Shockley, 70, winner of the 1956 Nobel Prize in physics. He is among scientists who hold the controversial view that blacks are genetically inferior to

Graham says five Nobel laureates have donated sperm, but none except Shockley has been publicly identified. Graham says more than a dozen women with exceptionally high IQs have expressed an interest in the program. The process is free - and confidential - for both, he said.

## \$3,000 gold buckle stolen

avenues.

Jimmy Duncan told officers the theft occurred at 11:45 p.m. in his room at the Hilton. According to Duncan, of Tatum, N.M., he had been in the bar at the Hilton and was returnfor a hospital in San Angelo.

#### Mrs. Modisett has been employed east and south sides of Midland.

A \$3,000 solid gold belt buckle was reported stolen late Thursday from the Midland Hilton, Wall and Loraine

ing to his room at about 11 p.m. when he met a black female 20 to 24 years of age. He invited her to his room. Once there, Duncan said he left the room for a minute and when he returned the woman was gone and so were his

Taken in addition to the belt buckle were a wallet, \$400 cash and credit

He said the sperm bank, called The Repository for Germinal Choice, was in an underground concrete chamber in an undisclosed location. He said the bank was inspired by Dr. Herman J. Muller, a 1946 Nobel Prize-winning geneticist who advocated sperm banks in which donations would be

taken only from brilliant men. "The dream began in Herman Muller's mind a quarter-century ago, and it's now finally in initial operation," said Graham.

Graham said prospective mothers must be young, bright and married. "I don't want a whole flock of ordinary women," he said.

He described one of his donors: "A very famous scientist. A mover and shaker. Almost a superman.'

Shockley said of his donation: "I welcome this opportunity to be identified with this important cause, but I want to make it clear also that I don't regard myself as a perfect human being or the ideal candidate. I'm not proposing to make supermen. But I am endorsing Graham's concept of increasing the people at the top of the

population.. But he added: "It makes you really wonder about yourself a bit, you know? Are you - is your material really that good?" he said.

Other Nobel laureates - not among sperm bank participants - were less enthusiastic "I think it's pretty silly," said Max

Delbruck, who won a Nobel Prize in

physiology in 1969. And Linus Pauling, a winner for chemistry in 1954 and peace in 1962, said: "I don't have strong opinions about it, but it doesn't appeal to me. The old-fashioned way seems still the best to me."

gating the anti-communist street demonstrations, in which at least 300 persons were reported killed and an estimated 1,000 others injured.

Shiite Moslems

Kabul was tense this morning following a night of sporadic machinegun fire, travelers arriving at Delhi Airport said. Afghan and Soviet troops were placed on alert because of a possible repetition of disturbances which followed Friday prayers at the capital's mosques last week.

The Revolutionary Guard members, some wearing gray-green uniforms, were conducting house-tohouse searches of several predominantly Shiite neighborhoods, including Chandawal, Wazirabad and Qila Shadai, said a foreign resident who declined to be identified.

"They are terrorizing the Shiite

community," he said. The minority, which traditionally has faced religious and social discrimination by the majority Sunni sect Pushtun or Pathan tribesmen, was feared because it was the bestorganized community in Kabul, he

The Shiites may also have been singled out because of potential links with Iranian leader Ayatollah Ruhollah Khomeini, a Shiite, who has voiced support for the Moslem rebels in Afghanistan, observers said.

The rebels Thursday promised new

## rebels while their troops remained in K-Mart buying out Furr's

DALLAS - Robert E. Dewar, chairman of the board of K-Mart Corporation, and Don G. Furr, chairman of the board and chief executive officer of Furr's Cafeterias, Inc., announced Thursday an agreement in principle for the acquisition of any and all shares of Furr's Cafeterias common stock by K-Mart Corp.

The aggregate purchase price is \$70.4 million. This amount is based on the number of shares of Furr's Cafeterias common stock and warrants and options to purchase Furr's stock outstanding.

According to the joint statement, acquisition at \$28 per share in cash, pursuant to a legal tender, will be followed by a merger of Furr's Cafeterias with a K-Mart subsidiary at the same price per share.

The board of directors for the cafeteria chain will review the transactions at a meeting scheduled for Monday. The transactions will be subject to board approval of the tender offer and merger agreement, compliance with regulatory requirements and certain other conditions.

K-Mart also announced it had entered into agreements to purchase 272,029 shares of Furr's Cafeterias common stock - representing about 10.9 percent of its outstanding shares - from Don G. Furr, Clem B. Boverie and another major stockholder.

The cafeteria chain, based in Lubbock, operates 76 establishments in the southwestern United States, including one in Midland. Revenues for 1979 were \$98.9 million and net earnings were \$5.02.

## Fuel loading begins at new nuke plant

CHATTANOOGA, Tenn. (AP) - Nuclear fuel loading begins Sat-urday at the Sequoyah Unit 1 reactor, the first nuclear power plant in the nation to be licensed for testing since the Three Mile Island accident nearly one year ago, officials say.

The Nuclear Regulatory Commission set the stage Thursday in Washington, ending an 11month licensing moratorium after Three Mile Island. The five commissioners voted unanimously to grant the Tennessee Valley Authority a restricted license allowing fuel loading and reactor testing at what is called the zero-

power level. The NRC also authorized its staff to decide when to let operators take the reactor up to 5 percent of capacity for testing. But the commissioners held back on deciding when to allow fullpower operations.

Anticipating the license, employees began site preparations at the \$1.46 billion plant, nearly 20 miles north of downtown Chattanooga. The work included lifting a steel lid off a dry pool where the atomic fuel rod bundles are stored in an auxiliary building next to the reactor containment structure.

TVA officials said the

loading will begin Saturday afternoon when a al government could help crane starts lowering the fuel-rod bundles, containing uranium pellets, undamaged reactor at into the steel reactor TMI. The reactor has vessel. The loading process will take nearly a week, authorities said.

TVA said it was dispatching an employee today to the NRC's Washington office with a month in replacement check for \$1.024 million to pay for and pick up the were in operation.

The reactor and a second to be completed later this year can generate 1.2 million kilowatts each for TVA's seven-state power network.

Sequoyah, nearly \$1 billion over its original budget, was to have been ready for operation in 1973. But design changes, delays in receiving equipment and increasingly stringent environmental and safety regulations slowed the construction.

"It has become clear GPU subsidiary, and

GPU treasurer John vide funds or other assis- Graham and utility vice tance cannot be obtained president Fred Hafer said the outlook for federal aid is bleak, in part because both political parties are preoccupied with elections this year. They also pointed out

that the president is Democratic while Pennsylvania's governor and two senators are Republican. They said the situation is even less favorable because Gov. Dick Thornburgh has concentrated his attention on the PUC is studying the health and safety as-Other factors that

make federal aid unlikely include the relative affluence of GPU residential customers in New Jersey and Pennsylvania and the fact that they are not paying inordinately high electric rates, Hafer and Graham said.

## Providence, Rhode Island to receive 100,000th refugee from war-torn Indochina

BANGKOK, Thailand (AP) - Nhia Lee Hang, an illiterate tribesman from the hills of Laos, was honored today as the 100,000th Indochinese refugee in Thailand to get a new lease on life in the United States.

Accompanied by his wife and three small children, Hang will leave Bangkok Sunday for Providence, R.I. where the family will be cared for by a Roman Catholic refugee agency while Hang learns English before trying to find a

He was honored in a ceremony at the refugee transit center in Bangkok, where refugee officials called his departure "a milestone" in the continuing American effort to provide homes for the thousands who have fled their homes in Indochina since 1975. He escaped from Laos to Thailand in May 1979.

As the 100,000th refugee, Hang got a certificate and some words of encouragement from U.S. Charge D'Affairs Burton Levin. "When you arrive, the weather will be cold but I am confident that the people in your adopted community of Providence, Rhode Island will give you a warm

welcome and a helping hand," Levin said. Speaking through an interpreter, Hang said he was looking forward to a new

life in the United States. "I don't want to go back to Laos. My bosses are not there, my family is not

there and I don't trust the new communist regime," he said.

Lionel Resemblatt, coordinator of the U.S. Embassy's refugee section, said Hang was selected for resettlement in America because he has relatives there and because of his "remote" connection with the U.S. government. The 38-year-old Hang was a sub-lieutenant in the U.S.-backed Laotian army

that fought the communist guerrillas who took power in Laos in 1975.

lead in LPGA

SUN CITY, Ariz. (AP) - Hillcrest golf course proved no mystery for one-third of the field in the \$100,000 LPGA Sun City Classic as no fewer than 26 golfers matched or bettered par on opening day.

Topping the list Thursday was transplanted Australian Jan Stephenson who knocked six strokes off the 6,154-yard, par 72 layout to take a 1-stroke lead over Jerilyn Britz.

"The fact that I'm leading this tournament is almost a totally new experience for me," Stephenson said. "For once, in my life I got off to a good start and, quite honestly I'm thrilled. Usually I get off slowly, then get down on myself and that means disaster.

"I really play better when I lead," said the 28-year-old who now calls Fort Worth, Texas, home "Leading lets me play with more confidence and

I'm much more agressive. The fact is, when I lead early, I usually win. But I won't make any predictions this time. Stephenson, indeed was most agressive right from the first tee as she birdied the first two holes, from

eight and 12 feet, came back for birdies on five and six and made the turn in 32. "I played it safe on the backside," she said, "especially after those birdies on 10 and 12."

Five players came home 4-under par. They were Janet Coles, Martha Hansen, rookie Marga Stubblefield, Kathy Ahearn, and Bonnie Lauer. Among those who matched or bettered par was

14-year-old Phoenix golfer Heather Farr, current National Junior Amateur champion. LPGA officials expressed glee over the par-busting rounds and joined the players in talking about the

excellence 80-degree plus Arizona weather, a far cry from the rain and wind they encountered across four weeks of the Florida tour.

Nancy Lopez Melton, a pre-tournament favorite, finished at 1-over 73. "I still like this course and I think I'll do much better the rest of the way,"

she said. In a group at 69 were Shelley Hamlin, Sandra Palmer, Judy Rankin, Sue Berning and Kathy Whi-

tworth. Britz strung birdies from holes 11 through 13 in her round of 67, and said, "I more than met my goals in the opening round. I'm a goal-oriented player who usually looks ahead two or three holes and decides what I want to accomplish. This time I looked ahead the full back nine and set a 2-under goal for it to match my first nine. The fact that I made three birdies were just that much better."

Both Stephenson and Britz agreed the holes "played short and the greens were hard." Stephenson thought the greens were slow and running true 1 2-3 and Britz said the greens held well and that she Boston First Period—1, New York, Duguay 19 expected the players to shoot for the flag if condi-furdoch, Greschner), 12:24. 2. New York, Tkaczuk 11 (Hedberg, Davidson), 14:38. Penalties—Boston bench, served Following today's round, the field will be cut to 70

Jan Stephenson King hoping for captures narrow slower pace in Women's play

HOUSTON (AP) - Billie Jean King was hoping for a slower pace today than she was forced to keep Thurs-

Before the former Wimbledon champion could get fully awake Thursday morning, Regina Marsikova was pounding at her with her full repertoire of forehands and back-

King, 36, trying to re-establish herself at the top of women's pro tennis, finally cleared her head and defeated the Czechoslavakian star 5-7, 7-6 6-4 in a first round match of the \$150,000

Women's Pro Tennis Tournament. "It takes me three hours just to wake up in the morning," King said. I was wondering 'what am I doing

But that was just the beginning. A delayed tournament schedule on Wednesday forced King to play a doubleheader on Thursday. King had to come back Thursday night and face a younger, rested Roberta McCallum in a second round match.

After a tight first set, King finally won 7-5, 6-4 to gain today's quarterfinals against sixth seeded Sue Barker and keep alive her hopes for winning back to back tour tourna-

"Yes, I'm tired," King said following her marathon day. "I can't remember the last time I played two matches in one day. It might have been in juniors. I took a 30-minute nap today but usually when I go to sleep

I'm really out." King was wide awake for the first set against McCallum, taking her less experienced opponent to seven deuces before breaking in the 11th game. King then broke McCallum in the first and third games of the second set to take control of the match.

While King was spending a busy day on the court, top-seeded Martina Navratilova polished off Caroline Stoll 6-2, 6-3 and second seeded Tracy Austin defeated Sherry Acker 7-5, 6-

In other second round matches. fourth seeded Wendy Turnbull defeated Rosemary Casals, 6-2, 6-3; fifth seeded Dianne Fromholtz defeated Laura DuPont, 6-0, 6-3; Barker deShriver 6-4, 6-3 and eighth seeded Greer Stevens defeated Terry Holla-

day 6-4, 6-0. Reviewing her day's work, King said "I just kept struggling. Those are the type of matches I've let go in the past. But I've been there and those are the king you have to struggle through to be a champion."

King, formerly the world's No. 1 ranked women's player, said she has continued to play and fight back from knee operations because she still enjoys playing and still has something to prove.

## 15 ex M-Cubs report to Gomez

MESA, Ariz.-Fifteen former Midland Cubs report to Chicago Cubs manager Preston Gomez Saturday and another playes from the National League's Texas League farm have

been invited to camp.
Former Midland Cubs on the Chicago roster include catchers Mike Gordon ('76), Greg Keatley ('78) and Bill Hayes ('79); pitchers Bill Earley ('79), Davie Geisel ('76), Mike Krukow ('75), Dennis Lamp ('75), Henry Mack ('79), Randy Martz ('77), George Riley ('78), Herman Segelke '79), Bruce Sutter ('75) and Vince Valentini ('78); infielders Steve Davis ('77), Steve Mack ('77), Mike Turgeon ('79) plus outfielders Carlos Lezcano ('79), Karl Pagel '77) and Scot Thomspon ('76).

Manager Randy Hundley will greet sparse group of 12 players when Midland opens its spring training March 14 since most of last year's playoff team is under contract to

either Chicago or Wichita. Hundley figures to draw heavily from the Quad City nine which won the Midwest League championship last year, and Geneva, NY-Pa. runnerups. The M-Cubs will play 16 exhibition games in Arizona before breaking camp April 8 for the Texas League

30 industrial stocks closed off .68 at 854.44 after earlier climbing almost 5 points largely on the strength of oil and natural resource stocks. But the broader market

never followed the lead. Losing issues outnumbered gainers throughout the session. At the New York Stock Exchange close losers outnumbered gainers by a 4-3 margin.

Analysts tended to blame the government's report of a \$4.8 billion trade deficit in January - the worst showing in more than two years - for breaking the market's weak momentum. The Dow industrial index had climbed to its highest level of the day just prior to that report. Oil issues were actively

traded but prices of many issues faded near the close. Mobil, after posting a point gain or more through most of the session, finished un-changed at 79½. Texaco, the most active NYSE issue at the close, was up 1/8 to 403/4 and Gulf was up % to 50½. Standard Oil of Ohio rose

1% to 100% after announcing plans for a 2-for-1 stock split. Union Pacific, which also announced plans for a 2-for-1 split, closed down 14 at

Among the day's biggest gainers was Interpace, which jumped 5% to 27; Filmways, up 1% to 11%; and Sterling Drug, up 2½ to 20. On the downside, McGraw Hill preferred fell 7¾ to 41½ and Sealed Air lost 11/4 to 141/4.

Big Board volume came to 40.33 million shares, down from 46.43 million the previous day. The NYSE compos-ite index slipped .03 to 64.27.

On the American Stock Exchange, the market value index gained 1.62 to 299.89. The NAS-DAQ composite of over-the-counter trading fell .27 to 157.46.

Dear Vic: Drug use by elderly persons is extensive; although they constitute about 10 percent of the population of the United States, they account for more than 20 percent of the total amount spent on drugs. The average elderly person spends almost \$100 a year on medications, both prescribed and over-the-counter, and averages more than 13 prescriptions a year.

Dear Dr. Solomon: My sister-in-law, although not an alcoholic, likes to take a nip or two each day. I'm concerned because she is a nursing

mother, but she doesn't seem to think that it is necessary to curtail the drinking. Could she be harming the baby? — Mrs. G.S.:

Dear Mrs. S.: Alcohol ingested by a nursing mother can be secreted into breast milk, with consequent adverse effects on the child. A recent case report in the Journal of Pediatrics told of an infant who suffered from growth abtold of an infant who suffered from growth abnormalities until the mother stopped drinking. A sample of her breast milk had shown high levels of

Your sister-in-law should be urged to discuss this matter with her baby's pediatrician.

Dear Dr. Solomon: I have a long-standing weight problem, and have tried every existing program without success. When I lose a few pounds one month, I put on twice as much the next. My family doctor has recommended that I try psychoanalysis to help resolve some emotional problems, and he says it may help me with the weight problem, as well. Could this be the answer for me when everything else has failed? I would not want to waste either my time or my money on psycho-analysis if there is no chance it will work. —

Dear Ms. S.: It appears from a recent report that, in some cases, one positive result of psychoanalysis literally can be weighed. A collaborational that the collaboration is a second collaboration of the collaboration o tive study by 72 psychoanalysts demonstrated that even though obese people may not decide to enter analysis due to their excess weight, they lose weight during the course of treatment, and they tend not to regain it. The 84 obese patients who were studied lost an average of 25 pounds over approximately five years of treatment, and 31 percent of these patients lost at least 40 pounds tients lost at least 40 pounds.

Dr. Myron L. Glucksman, associate clinical professor of psychoanalysis at Yale University, notes that heavy people tend to gain weight when they are anxious, depressed and have low self-esteem; peo-ple of normal weight, on the other hand, tend to lose weight when they are depressed or otherwise emotionally upset.

Psychoanalysis is an expensive and time-con-suming form of treatment. Whether it will work for you is something I can't predict. But it evidently has worked for some people.

## Conviction affirmed, reformed on appeal

**Austin Bureau** 

AUSTIN - The Court of Criminal Appeals Wednesday affirmed the conviction of Raul Torres Sotello, sentenced in Midland County for delivery of heroin. The court "reformed" the sentence of five years to life, changing it to 15 years to life to "reflect the

correct minimum term. The court's brief opinion noted that Sotello's sole contention on appeal was that he was not granted a continuance to produce a witness whom he claimed

was present at the transaction. The appeals court noted Sotello did not attempt to subpoena the witness nor to show what the testimony

of the witness might show. No details of the offense were given. Sotello plead-

ed "true" to a prior conviction used in assessing punishment, the opinion said.

# Womack names show chairmen

ODESSA - Joe Womack of Midland, president of the executive committee of the Permian Basin Oil Show, Thursday night announced the committee chairmen for the 1980 show which will be held in October in Odes-

The committee chairmen slate was revealed at a meeting of the shows board of directors at the Odessa Country Club.

A. C. Akins, with K&L Equipment Co., Odessa; A.C. Barnes, Ace Mud Co., Odessa, and L. J. Scott, Phillips Petroleum Co., Odessa, will co-chair the Parade

W. I. Allen, with Amoco Production Co., Odessa, and L. F. Moore, Mission Well Service, Odessa, were appointed co-chairman of the Buildings and Grounds Committee, and L.H. Byrd, Exxon Co., U.S.A., Midland, is chairman of the Honoree Committee.

Leland Franz, Coquina Oil Corp., Midland, will head the Administrative Information Committee, and T. L. Gregory, Gregory Rig Service & Sales, Inc., Odessa, is heading the Old Timer's Rig Committee.

The Old Jail Committee chairman is Charles Harris, Odessa Drum Co., Inc., and Charles Hartwell, Cities Service Oil Co., Midland, is in charge of the Budget and Finance Committee.

Richard Hinkle, Chevron USA, Inc., Midland, was appointed chairman of the Hospitality Committee, and R. space for the 1980 show has been sold.

L. O'Bryan, Halliburton Services, Midland, is in charge of the Membership Committee.

Womack appointed Cecil Smith, Tesoro Land & Marine Rentals, Midland, chairman of the Registration Committee, and J. R. "Rudy" Wright, Midland, is in charge of the Old Timer's Lounge.

Officers of the show's executive committee other than Womack, who is with Texas Pacific Oil Co., are: Eddie Durrett, Durrett & Associates, Odessa; Frank Ratcliff, Hughes Tool Co., Midland; Gene Clark, Phillips Petroleum Co., Odessa, all vice presidents; L. H. Byrd, Exxon Co., U.S.A., Midland, immediate past president; Lewis Gray, A-1 Construction Co., Inc., Odessa, treasurer, and Jay Alvey, First National Bank, Odessa, executive director.

Also serving on the executive committee are Bill Hall, Fas-Line Sales & Rental Inc., Odessa; Frank Lovering, Odessa; Vernon Blain, Johnn Drilling Co., Odessa; Pat Fletcher, Runco, Midland; Lloyd French, Midland, and John Ed Cooper, Midland, all past presidents of the Permian Basin Oil Show, and Ernie Schur, First National Bank, Odessa; R. K. Beggs, Sun oil Co., Midland; F. L. Franz, Coquina Oil Corp., Midland, and R. Dean McManigle, Cambrian Well Service, Odes-

Alvey announced Thursday night that all exhibit

# Crockett wildcats reported

J. Cleo Thompson of Dallas announced plans to drill two wildcats in Crockett County.

The No. 1-1-19 University is a 10,-000-foot gas wildcat, 12 miles west of

Drillsite is 1,320 feet from north and west lines of section 19, block 31, University Lands survey.

It is one and seven-eighths mile northeast of the depleted Howards Creek, East (Pennsylvanian gas)

Thompson will drill the No. 5 P.L. Childress as a 9,000-foot gas wildcat, 11 miles east of Ozona.

Location is 1,320 feet from north and west lines of section 8, block GH, GC&SF survey.

The site is 1/2 mile south of 7250 Canyon production in the Ozona, Northeast field.

FISHER PROJECT

R.L. Adkins Corp. of Sweetwater will drill the No. 1 Williamson as a location east offset to the Terry (Canyon sand) field of Fisher County, four miles south of Rotan.

The 5,800-foot test is located 1,980 from south and 467 from west lines of section 37, block 2, H&TC survey. Ground elevation is 1,968 feet.

BORDEN TEST SLATED

**BTA Oil Producers of Midland filed** application to drill the No. 1-8005 JV-P Borden as an 8,200-foot test in the Lucy (Pennsylvanian) field of Borden County, nine miles east of Gail.

Location is 2,310 from south and 330 from west lines of section 269, block 97, H&TC survey.

The site is 1/2 mile southwest of a re-entry project scheduled to reopen the Lucy (Pennsylvanian) field.

#### LEA EXPLORER

Harvey E. Yates Co. of Midland will re-enter the No. 1 Betenbaugh and clean out to 13,800 feet for wildcat tests in Lea County, one mile northwest of McDonall. Originally drilled by The Superior

Oil Co., it was plugged and abandoned in 1964 at 14,780 feet. Location is 660 from north and 1,980

from west lines of section 32-13s-36e. The site is 2.25 miles northwest of production in the Austin (Mississip-

#### CHAVES DRAWS TESTS

Mesa Petroleum Co. of Midland filed application to drill the No. 4 Rock-Federal as a 3,500-foot undesignated Abo test in Chaves County, 35 miles southwest of Elkins.

Location is 660 from north and 1,980 from west lines of section 6-8s-23e. It is 1.5 miles north of the firm's No. 1 Rock-Federal, scheduled 4,200-foot

wildcat being drilled "tight". Western Reserves Oil Co. of Midland will drill the No. 1-32 Western Holly State as a location west offset to production in the Tom-Tom (San Andres) field of Chaves County, 12 miles southeast of Boaz.

Location is 1,650 from north and east lines of section 32-7s-31e. Elevation is 4,382 feet, ground level.

#### **EDDY YESO TEST**

Yates Petroleum Corp. of Artesia, N.M., will drill the No. 6-CQ Allison Federal as a 3,000-foot test in the Penasco Draw (Yeso) field of Eddy County, 10 miles northwest of Lakewood

Location is 990 from north and west lines of section 13-19s-24e. It is one location southwest of the firm's No. 5-CQ Allison Federal, scheduled 9,-250-foot wildcat.

#### IRION WELL

Fortune Drilling Co., Inc. of San Angelo completed the No. 4-A Eckert to extend the Cal, South (Canyon) field one mile northwest, 10 miles southwest of Mertzon.

Operator reported a 24-hour flowing potential of 75 barrels of 41.8-gravity oil and 12 barrels of water, through a 12/64-inch choke and perforations from 6,967 to 6,979 feet, which were acidized with 1,000 gallons and fractured with 57,000 gallons.

Gas-oil ratio is 3,288-1. Location is 3,200 from north and 1,000 from west lines of section 1220, J.D. Ogle survey.

#### CROCKETT STEPOUT

Amoco Production Co. will drill the No. 1 Alleane Friend McMullan Gas Unit as a 5/8-mile southwest and 7/8mile northeast stepout to the Crockett County portion of the Whitehead (Strawn gas) field, 15 miles west of Sonora.

Location is 3,175 from north and 990 from west lines of section 5, block N, TCRR survey.

Scheduled depth is 9,500 feet.

#### CROCKETT EXTENDER

Joe McGuire of Midland finale the No. 1-A Joe Bean, South, a re-entry operation, to extend San Andres production one location northeast in the Donham multipay of Crockett County, 14 miles northwest of Ozona.

Operator reported a calculated absolute open flow of 45,000 cubic feet of gas per day.

Production was natural from open

hole at 1,100 to 1,230 feet. Originally drilled by Lloyd H. Smith Inc. of Houston as the No. 1 George Bean, it was abandoned in 1956 at

8.400 feet. Location is 660 from south and 1,980 from west lines of section 34, block UV, GC&SF survey.

#### REEVES VENTURE

John L. Cox of Midland announced plans to drill the No. 1 Weinacht as a ,500-foot rank wildcat in Reeves County, 3.5 miles north of Balmor-

Location is 1,400 from south and 660 from east lines of section 34, block 13, H&GN survey.

The site is 5/8 mile southwest of a depleted Wolfcamp discovery.

General American Oil Co. of TX will drill three 3,100-foot gas test in the Emma, North (Yates) field of Andrews County, 13.5 miles southwest of

The No. 3-36-A University is 1,957 feet from south and 330 feet from west lines of section 36, block 10, University Lands survey. The site is 1/4 mile southwest of production.

The No. 1-36-B University is 900, from north and 2,381 from est lines of section 36, block 10, University Lands survey. It is 3/8 mile southwest of the Yates discovery well.

The No. 2-36-B University is 2,367 from north and 330 from east lines of section 36, block 10, University Lands survey. The site is 1/2 mile northwest of Yates production.

#### PECOS GAS TEST

Bruce A. Wilbanks of Midland will drill the No. 2 Sulvan as a 1,500-foot confimer to the Girvintex (Queen, Middle) field of Pecos County, two miles southwest of Girvin.

Location is 660 from north and 730 from west lines of Mrs. S. Tompkins

The new test is 1.25 miles northwest of the field's only producer.

#### EDDY VENTURE SLATED

Perry R. Bass of Midland filed ap-plication to drill the No. 79 Big Eddy Unit as a 12,600-foot wildcat in Eddy County, nine miles northeast of Carls-

Drillsite is 1,980 from sou lines of section 21-21s-28e.

The site is 1.25 miles northeast of Morrow gas production in the Fenton

David Fasken of Midland will drill the No. 1 Marbob-Federal as an 11,-400-foot project in the Avalon (Morrow) field of Eddy County, seven miles north of Carlsbad.

Location spots 1,980 from south and east lines of section 35-20s-27e. Ground elevation is 3,227 feet!

It is 3/4 mile northwest of Morrow gas production in the field.

#### exploration during 1979, Petroleum reviewing 1979 activity. The firm, Information representatives said in with more than 75 offices in the Unit-Midland Thursday. ed States and Canada, predicted a The Permian Basin was ranked secpositive year for the industry.

ond nationally among geologic pro-vinces as to footage drilled in search of oil or gas, with 29.3 million feet. The Basin ranked third in the Unit-

ed States in total wells completed, with 5,104 and was also third in expenditures for drilling and completions with more than \$1.36 billion spent during the year.

Petroleum Information said the Permian Basin played a major role in helping Texas to retain its top ranking in drilling activity during 1979.

In a presentation to members of the petroleum and associated industries at the Midland Hilton, PI reported

## **ENERGY** OIL & GAS

Texas again was the most-drilled state with 16,514 wells. That total was up 424 from 1978.

The total included 6,956 oil wells and 4,039 gas wells, for an overall drilling success rate of 66.6 percent. The Permian Basin had 3,237 oil wells and 745

In the multi-image presentation entitled "Perspective 80," PI reviewed 1979 activity in the petroleum industry, looked at the regulatory climate and its potential impacts on exploration and production and projected 1980 as a year of opportunity for the

Among the highlights of the presentation were:

-The 1979 total of 49,101 wells drilled in the United States was 392 wells or .8 percent higher than the 1978 figure and continued a six-year upward trend in drilling.

-Drilling activity indicators, including the total number of drilling rigs working, the national count of seismic crews on the job and the total acreage of federal lands leased for oil and gas drilling, all continued upward during 1979. National counts for the number of active rigs and seismic crews were at their highest levels since the late 1950s.

-Drilling continued to be deeper and more expensive during the year. Nationally, more than 237.14 million feet were drilled, with the average well 61 feet deeper than in 1978. At the same time, expenditures for the average well rose \$6.93 per foot, or \$33,472

Total U.S. drilling and completion costs climbed from \$11.63 billion in 1978 to \$13.82 billion last year.

-Despite increased drilling activity and continued increases in Alaskan production, total U.S. petroleum production turned downward again in 1979, after climbing in 1977 and 1978.

Using projections based on figures collected for the first nine months of the year, PI estimated average 1979 daily crude production at 8.49 million barrels, or 2.1 percent less than the 1978 daily average. Sharp increases in gas well comple-

tions resulted in a hike in estimated daily average production during 1979 to 56.5 billion cubic feet, up 1.2 per-

## Gas sales expected to dwindle

WASHINGTON (AP) - Utility companies surveyed last year say they expect natural gas sales to dwindle during the next decade, a study group reported today.

However, the report noted that subsequent projections have indicated more gas will be available than be-

a group associated with the Carnegie-Mellon University, issued the latest in a series of surveys of gas companies. The reports are published every two

and June of 1979, reported selling some 18.6 trillion cubic feet of natural gas in 1978 and said they expected their sales to shrink to about 17.3 trillion cubic feet by 1990, a 7 percent

The committee's report, "Future Gas Consumption in the United States," said those forecasts were based on a belief that natural gas supplies would be limited.

ditions have changed since the survey was conducted: imported oil prices rose more than 60 percent in 1979, making gas relatively more attractive; restrictions have been removed from new residential gas hookups; new supplies of gas have begun to become available and larger supplies may be developed in the future.

could sell if there were no limits on supply or other restrictions.

mated, gas sales could increase almost 17 percent by 1990, even allowing for strong energy conservation mea-sures by the consumers.

#### Permian Basin played major role in 1979 oil exploration completion mark this year, the PI Midland was the site of one of five representatives said. major presentations to be made by PI Petroleum Information is a wholly-

## Tornado deaths 'needless'

 Hundreds of Ameri- 'ter communications now cans will die in tornadoes and more people are in the next decade, many watching for tornadoes, of them needlessly, predicts a government ports. weather expert who is working to reduce that

"The challenge in the 80s will be to improve tornado preparedness as ther. well as detection and warning systems to min-imize the loss of life," said Fred Ostby of the National Severe Storms Forecast Center in Kansas City.

Ostby is organizing a multi-state tornado drill for March 6 to evaluate how well-prepared people are for these sudden, violent storms.

Television and radio broadcasts will be preempted for weather warnings, sirens will be tested, various civil defense, school and community groups will react as though there were a tornado.

The exact time of the drill isn't being announced, according to officials at the National Oceanic and Atmospheric Administration. It will affect Arkansas, Tennessee, Mississippi, Louisiana, Alabama, Georgia, North Carolina and South Carolina.

There were 8,560 tornadoes in the 1970s, a 25 percent increase from

leading to increased re-

## **Duncan reveals** oil reserve tests

WASHINGTON (AP) - Energy Secretary Charles W. Duncan disclosed Thursday a successful test of the nation's strategic petroleum stockpile, transfer-ring 300,000 barrels of oil 42 miles in 16 hours.

Spokesman Jim Griffin said Duncan ordered the test Wednesday with no advance notice, "like a fire drill, to see if the system works." It did.

Oil stored in an underground cavern called the West Hackberry site in Louisiana was pumped to the surface and through a pipeline to Sunoco storage tanks at Nederland, Texas, starting at 6 p.m. Wednesday.

The transfer was halted at 9:48 a.m. Thursday, Griffin said, after some 300,000 barrels had moved

At that rate, he said, the test showed West Hackberry could deliver some 450,000 barrels a day from the 29.5 million barrels it stores.

Griffin said the oil would be pumped back into the underground reserve after letting it settle for about

He said the test cost about 7 cents a barrel, indicating a total cost of some \$21,000.

He said similar surprise tests will be conducted at the government's two other underground oil stockpile sites: Bayou Choctaw in Louisiana, and Bryan Mound in Texas.

The government has stockpiled at the three sites a total of about 91.7 million barrels of crude oil enough to replace all imports of oil from the Arab members of the Organization of Petrolem Exporting Countries (OPEC) for about one month.

The actual effectiveness of the stockpile, however, is limited by the capacity to deliver oil out of the

Griffin said the pumps and pipelines available could deliver one million barrels of oil a day from the strategic reserve.

That would permit stockpile oil to substitute for about one third of all imports of Arab oil for about
