In his statement, Carter said: While our opposition to the establishm longstanding and well known, we made stre errorts to eliminate the

language with reference to the dismantling of settlements in the resolution. This call for dismantling was neither proper nor practical. We believe that "I want to make it clear that the vote ... does not represent a change in our the future disposition of existing settlements must be determined during the current autonomy negotiations.

# Marxist elected by black voters in Rhodesia

SALISBURY, Rhodesia (AP) -Britain's interim governor in Rhodesia, Lord Soames, today asked Marxist guerrilla leader Robert Mugabe to form the country's first internationally recognized black government. Mugabe's party scored a landslide victory in parliamentary elections.

Blacks hailed Mugabe's capture of 57 seats in the 100-member parliament, with singing, dancing and rooster-like crows of victory, but whites reacted with shock, anger or resignation. Results of last week's three-day elections were announced

Soames met Mugabe privately for 45 minutes, then for another 45 minutes with his advisers during which sults. time he asked Mugabe to form a government. British sources said Mugabe and Soames agreed on the need for stability, reconciliation and

ey said arrangements for the n were discussed and Soames lugabe of British willingdo everything to ease the and build an enduring reladonship with an independent Zim-babwe, the African name for Rhode-

Before the meeting, Mugabe said of its victory, "I feel jubilant. I think we essewed it." He also reiterated he avite rival guerrilla leader ment and would seek to bring Ian e minority party into the

but welcomed the idea. contribute to stability.

General Eric Pope-Simannounced Mugabe's Zimbabwe African National Union (Patriotic Front Faction) won 57 of the 80 black seats in the country's 100-member parliament, a majority of 14, and 63 percent of the 2.7 million votes cast by more than 93 percent of the eligible black voters.

Nkomo and his Patriotic Front

Prime Minister Abel Muzorewa's United African National Council won only three. Six other black parties that put up candidates were shut

The other 20 seats were reserved for the 230,000 whites and were won by former Prime Minister Smith's Rhodesian Front in an election two weeks

Muzorewa, who had bitterly attacked Mugabe during the election campaign as a Marxist who would destroy the country, said he was "shocked and puzzled" by the election results but said he wished him "the very best luck." He also said he would not challenge the election re-

Following the broadcast announcement of the election results, jubilant blacks ran through the streets, singing, dancing, crowing and flapping their arms in emulation of the rooster that was the symbol of Mugabe's party on the ballot.

Whites, however, reacted with shock, anger or resignation. Some said they would join the 1,200 whites a month fleeing the country, and one pulled a revolver on Mugabe supporters in the downtown area.

'It's incredible that he's won with the ballot what he didn't with the bullet," a Western diplomat said of Mugabe's win.

Most observers expected the 55year-old guerrilla leader to win no more than 40 seats and be forced into heading a coalition government for Zimbabwe, the name that will replace Rhodesia

# Massachusetts voting today

Democrats voted today in a presidential primary which Sen. Edward M. Kennedy on home ground said he would win over President Carter. George Bush and a resurgent Ronald Reagan competed for top spot in a crowded Republican field.

The first polls opened shortly after sunrise in an election that awards 111 votes for the Democratic presidential nomination and 42 Republican nomin-

Before closing at 8 p.m. EST, as many as 1.5 million voters were ex-tiously optimistic about his prospects pected to cast ballots in the first of the in Massachusetts, which he once had

Sen. Howard H. Baker Jr. of Tennessee, third in New Hampshire, sought to hold that ranking in Massachusetts while he concentrated on Vermont. He has the support of Gov. Richard Snelling there, but the alliance showed signs of strain on Monday, after Snelling was quoted as saying that Gerald R. Ford would be the strongest candidate and "the best president" Republicans could offer. Snelling said he is still with Baker, and doesn't think Ford will become an active candidate.

"I must still have my work cut out for me," Baker said.

# Suit filed here requests \$7 million from Marathon

An oilfield worker paralyzed after a fall two years ago filed a \$7 million negligence suit against Marathon Oil Co. in federal court Friday. Nicholson Lee Farrell, who was employed by Otis Engineering Co. contends he was overcome by hydrogen sulfide gas and fell some 35 feet while working on a location near Pecos owned by Marathon March 9,

As a result of the fall, the suit contends, Farrell, currently of Dallas, sustained "a serious and permanent injury to his spinal cord which has resulted in paralysis from his chest down.

The suit contends Marathon was negligent in not having automatic hydrogen sulfide detection and alarm equipment at the work site and in not warning Farrell of the existence of the gas. The suit requests \$4 million for loss of earning capacity and medical

and other expenses plus an additional \$3 million for punitive damages. The punitive damages were requested, according to the suit, because Marathon employees had removed the automatic detection systems and alarms several days before Farrell's accident. That removal, the suit claims, constitutes gross negligence and "a will-

full and wanton disregard for the rights of the plaintiff.'

Marathon's local attorney, Harrell Feldt, had no comment on the suit when contacted Monday, noting he had "just become aware of the lawsuit and I will discuss the matter further with my client, Marathon."

## Injuries suffered in car wreck fatal to Andrews student, 17 ANDREWS - Pete Carrol Hughey, on Texas 176. The two vehicles collid-

a 17-year-old Andrews student, died Monday afternoon of injuries received in a two-car collision 3.1 miles east of Andrews. Two Kermit residents were injured.

The accident occurred at 3:50 p.m. Monday on Texas Highway 176. Hughey was southbound on

Hamrick Loop, a Department of Public Safety spokesman said. The second vehicle, driven by Albert K.

ed at the intersection, with Hughey's vehicle being struck broadside, according to the DPS.

Hughey died at 4:35 p.m. at Permian General Hospital in Andrews. Oliver was treated and released from Permian General, and a passenger in Oliver's car, James R. Norman, 60, of Kermit, was listed in satisfactory condition this morning.

The accident was investigated by

# Baylor flap now 'beyond Playboy'

By the Associated Press

The firing of three Baylor University student editors over editorial policies has angered their Southwest Conference colleagues, who insist the issue has now grown beyond the question of students posing for Playboy

'The Playboy photographs are nonissues," said Roy Bragg, editor of the Texas A&M Battalion. "Now it's a question of whether Baylor administrators want a newspaper or a p.r.

"If it's the latter, maybe Baylor

should hire a staff of professionals and really do it big," Bragg said.

Baylor's Board of Publications voted in an emergency meeting Monday to remove Jeff Barton, Cyndy Slovak and Barry Kolar from the staff of The Baylor Lariat. The board also suspended publication of the campus newspaper for the rest of the week.

The firing culminated a threeweek-long dispute between the editors and school administrators that began when Playboy announced plans for a pictorial feature, "Girls of the South-

west Conference.

threatened to expel any Baylor female who posed for the magazine, and the Lariat editors opposed him in print

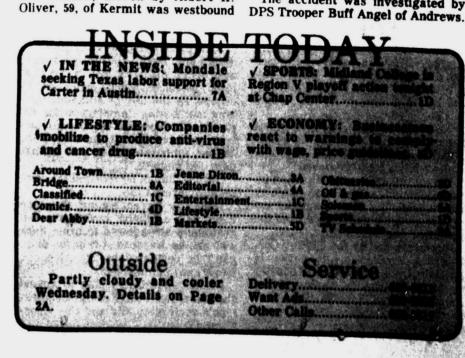

"I thought the battle could be fought on moral grounds," said Barton, Lariat editor-in-chief, after the meeting. "I'm very disappointed in the newspaper, and today, I'm embarrassed to say I'm a fifth generation Baylorite

Board members refused to comment on the decisions.

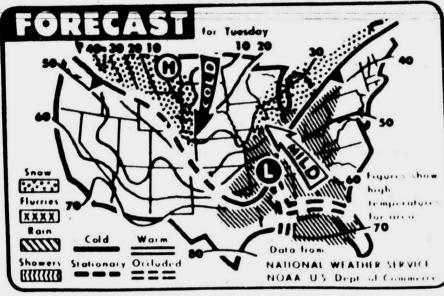

Walter Borges, managing editor of The Daily Texan, the student newspa-University President Abner McCall . per at the University of Texas at Austin, attended the two-hour session Monday.

"The Playboy angle has become a false issue," Borges said. "The question instead has been how free the editors were to publish what they wished. Today, it was ruled they were not free. It was ruled the paper was to be an organ of McCall and his views," Borges said.

After McCall threatened disciplinary action, the Lariat ran two editorials side-by-side, one advocating personal choice in the matter, the other advising women not to pose.

#### **WEATHER SUMMARY**

Snow is due for parts of the Pacific Northwest extending to the western Plains and for northern Missouri extending to the Great Lakes and Canada, according to the National Weather Service. Rain is due for most of the Ohio River Valley, extending to Texas and the Gulf Coast States. (AP Laserphoto Map)

#### Texas area forecasts

North Texas: Fair, warm and windy today. Partly cloudy and colder tonight and Wednesday. Highs 67 to 73. Lows 26 to 38. Highs Wednesday. 48 to 58.

South Texas: Partly cloudy and warmer with scattered thundershowers mainly Southeast Texas and coast Continued partly cloudy and cooler tonight and Wednesday Highs upper 70s to mid 80s. Lows low 60s northwest to near 60 coast. Highs Wednesday 70s exception to mid 80s extreme pounds.

effect. Southerly winds 20 to 25 knots today, becoming westerly 20 to 25 tonight. Winds Wednesday northerly 15 to 20. Seas 6 to 8 feet. Winds and seas higher in and near scattered thundershowers.

#### **Border states forecasts**

Oklahoma: Partly cloudy and windy with scattered showers and a few thunderstorms east. Turning colder statewide this afternoon. Mostly cloudy windy and colder statewide tonight. Partly cloudy and cool Wednesday. Highs near 30 Panhandle to low 70s extreme south. Lows near 20 extreme north to low 30s southeast. Highs. Wednesday. 40s.

New Mexico: Partly cloudy today and Wednesday Cooler and windy today, moderately windy Wednesday afternoon Highs mostly 50s and 60s. Lows teens and 20s mountains and north to 30s south

Thursday Through Saturday

West Texas: Partly cloudy with warmer afternoons through the latter part of the week. Scattered showers Panhandle Friday. Highs Thursday lower 30s northeast to lower 80s southwest warming to near 60 north to mid 80s southwest. Lows mid 20s northeast to mid 40s south through Saturday.

South Texas: Partly cloudy with little day to day change in temperatures. High temperatures will be in the 70s. Lows will range from the middle 40s in the north to near 60 in the Lower Rio Grande Valley.

## Slightly cooling trend, accompanied by winds, to blow into Permian Basin

Temperatures will start to cool slightly for Tall City residents Wednesday

The National Weather Service at Midland Regional Airport is predicting a high for Wednesday in the mid-60s, which is a bit cooler than the mid-70s which was predicted for

However, it should be a little gusty

and dusty tonight as 15-25 mph southwesterly winds are expected to blow across the Permian Basin

The record high for today is 89 degrees set in 1974, compared to a record low of 20 degrees in 1965.

Area weather watchers were reporting cool, windy conditions in the outlying areas around Midland.

# Disco owners charge slander in lawsuit filed on Monday

Owners of the Phase I Disco Monday filed a \$75,000 slander suit against a man who testified against the disco's request for a permit to sell

liquor Robert Dorn, 413 E. Hickory Ave., told the Midland Planning and Zoning Commission during a Feb. 18 hearing on a specific-use permit for the disco that several persons involved with Phase I "smoked my dope. They bought it from me, either directly or indirectly."

Several area residents, the prinicipal of a nearby elementary school and two churchmen also testified against

#### Planning begun for big 'oilcade'

DALLAS (AP) - About 75 independent oilmen and royalty owners assembled in Dallas Monday to plan a march on Washington to protest the windfall profits tax.

Groups will leave Texas, Oklahoma and Louisiana in a caravan of buses and drilling equipment Wednesday for a four-day trip to the capital. U.S. Sen. Henry Bellmon, R-Okla., came up with the idea.
"No one is making any guarantees

that we can stop this thing," organizer Bud Stewart told the Dallas group. But we have got to be heard.

Stewart favors exempting small independent operators and royalty owners from the bill. A similar exemption clause was dropped from the

legislation two weeks ago. Organizers, led by the Energy Consumers & Producers Association in Seminole, Okla., say they will charter one or two buses in Dallas. Other groups will leave Tyler, Midland, Corpus Christi, Oklahoma City, Shreveport and Lafayette, La.

the request. The permit, which had been denied in a similar hearing last fall, was denied again by the com-

In the suit filed Monday in district court, Charles E. Washington, Bennie Jackson Jr. and Donald Allen, owners of Phase I, contended Dorn "intended to injure the plaintiffs and their business and to deprive them of their good name, fame, credit, business and rep-

The suit denies absolutely the charges and claims the three had "enjoyed not only the confidence of the city officials that they were dealing with but the esteem and respect of the community in general."

The suit contends Dorn knew the charges to be untrue "but uttered them...maliciously and in complete disregard of the rights of the plain-

"As a direct and proximate result of the malice and ill will of defendant in uttering his slanderous statement, plaintiffs have been held up to public contempt and ridicule among his neighbors, business acquaintances and other citizens and have suffered business losses, denial of its request by the city of Midland Planning and Zoning Commission for approval of a specific use permit and has endured great humiliation, shame, embarrassment and mental pain and anguish."

Dorn could not be reached for com-

ment by press time. Under its current zoning, the disco can't sell alcoholic beverages, but customers are allowed to bring their own drinks. Because of this, the disco can't be regulated by the Alcoholic

Beverages Commission. Owners of Phase I plan to appeal the Planning and Zoning Commission's decision to Midland City Council on March 11.

# Professor's dream taking shape

Dr. Roger Olien of Midland, associate professor and chairman of history at The University of Texas of the Permian Basin, wanted more than a

teaching job when he accepted the post at UTPB in July, 1973. Olien, recipient of the "J. Conrad Dunagan Fellow in History," was interested in researching and writing a story which had not been told, and he found the Pennian Basin an ideal place for searching out that story.

"I had an interest in West Texas and in oil before I came here," he said, noting he had begun researching the scant material on the area while he was teaching at Southern Methodist University.

Given the economic importance of the Permian Basin, it occurred to me that little had been done from a historical point of view. Except for the areas of petroleum engineering and geology, little had been written," he Olien said he was considering three locations - Houston, Tyler and the

Permian Basin - for his prospective of oil when the teaching position 'This part of the country looked good to me and Dr. Cardozier (UTPB

president) was interested in someone who was interested in the region's history. Things just fell in place," he said. As the "J. Conrad Dunagan Fellow in History," Olien is the holder of the

university's first endowed professorship, made possible by a recent \$100,-000 gift from J. Conrad Dunagan of Monahans. Dungan is chairman of the board of the Permian Coca Cola Bottling com-

pany and a member of the UTPB Development Board. Olien, who received his Ph.D. from Brown University, collaborates with his wife, Diana, in researching and writing the history of the petroleum industry in the Permian Basin.

Once we arrived in Odessa, we settled on a plan to study the region in some depth," he said. "The oil industry is probably more complex than any of the older industries," he said.

We decided to begin with a study of boom towns. We both had a background in social history and there was a common interest," he said. Aided by a grant from the Petroleum Museum, the Oliens have com-

pleted a manuscript on boom towns. Included is a look at the Midland-Odessa, booms in the '20s and '50s, Wink in the '20s, McCamey in the '20s and Synder in the late '40s," he said The manuscript is currently being considered for print.

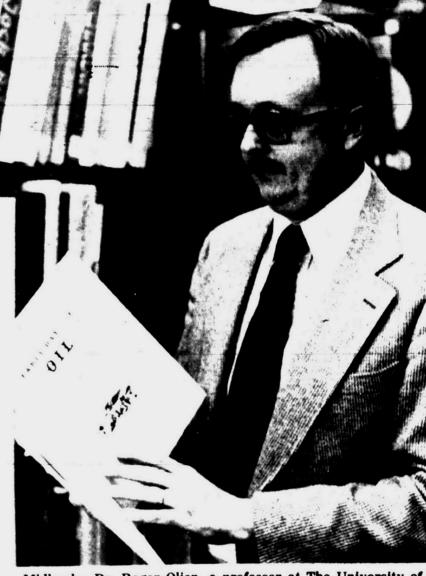

Next the Oliens wanted to look at processes - how work was done - so they settled on the working man in the oil field as the topic of their second book

"We did some archival work, but depended mostly on interviews with workers and employees," Olien said. A third book centering on the independent oil operator is now in the

research stage, he said. "Midland is one of the major centers for independent oil operators in the country," Olien added.

The recent fellowship, he noted, will facilitate his research by providing some travel time which would not otherwise have been possible.

By the beginning of the next school year, the writing of the book on the independent oil operator will have begun," Olien said.
"We are where we want to be, doing what we want to do and now we have

Midlander Dr. Roger Olien, a professor at The University of Texas of the Permian Basin and recipient of the "J. Conrad Dunagan Fellow in History," continues his research into the early days of the oil business. Olien is the holder of the university's first endowed professorship.

# Florida citrus 'in serious trouble'

Other areas of South get record snowfall

By C.W. MIRANKER **Associated Press Writer** 

Florida citrus growers, their \$2 bilion-a-year industry already in "serius trouble" after a night of freezing South, residents ind Colorado got eight taches

The southern storm, roaring is from the Midwest over the weekend, dumped more than a foot of snow in Virginia and up to 30 inches in North Carolina. It was blamed for at least 36

deaths in 10 states. In Florida, blossoms of next year's orange crop turned black in the record-low temperatures that hit the north and central sections of the 34-

county citrus belt. Ice coated the unharvested early and mid-winter orange crop, amounting to 15 to 20 million boxes. And rapidly maturing Valencia oranges, about 85 million 90-pound boxes ready to be harvested for frozen concentrated orange juice, froze on the trees in 20-degree temperatures Sunday and

Monday "We are in serious trouble," said Herb Riley of the Florida Fruit Inspection Service as growers and inspection teams checked millions of acres of groves from the Gulf of Mexico to the Atlantic and from Palm Beach County in the south to Gaines-

'Right now we're extremely concerned about next year's crop," said Don Linn, executive vice president of Seald Sweet Growers Inc. of Tampa, a marketing group for 4,500 growers. The freeze prompted speculation

BOGOTA, Colombia (AP) - The

leftist guerrillas holding U.S. Ambas-

sador Diego Asencio and some 26

other hostages in the Dominican Re-

public's embassy for a week vowed

that they would not reduce their de-

mands as they prepared for negotia-

tions with the Colombian government

said the leader of the 30 guerrillas

who invaded the embassy during a

diplomatic reception last Wednesday.

One of the guerrillas was killed in

the takeover, and the leftists have

released 23 hostages, including 15

women. Those still held include at

least 20 foreign diplomats, two proto-

col officers from the Colombian For-

eign Ministry and at least four other

Some 250 National Guardsmen manned 100 four-wheel-drive vehicles to clear snow and handle emergency transportation in Tidewater Virginia. Cost of the cleanup was estimated at \$4 million, about \$1 million more than budgeted for snow removal.

The Colorado snows were caused by a clash of Arctic air and moisture from the Pacific. Heavy snow warnings were in force overnight in the Rockies and for today across eastern Colorado. California's next rains were expect-

ed on Wednesday.

# Chagra enters innocent plea to charge he jumped bail

EL PASO, Texas (AP) — Convicted narcotics smuggler Jamiel A. "Jimmy" Chagra smiled and winked at his family as he pleaded innocent to bail jumping charges Monday.

Following the arraignment before U.S. Magistrate Janet Ruesch, Chagra's brother and lawyer, Joe, gave no reason for the plea and said, "I'm sure it will come out at trial.'

Chagra, 35, a professional gambler. disappeared last August before sentencing on a continuing criminal enterprise conviction.

Monday he was dressed in a ski jacket, casual slacks and sneakers. With his brother's arm across his shoulder, Chagra turned to smile broadly and wink at his mother, Josephine, his wife, Elizabeth and his sister Patricia.

He talked to the women briefly after the court hearing, then was returned to La Tuna Federal Correctional Institition north of El Paso. Bail remained at \$3 million.

scheduled within 60 days.

A March 17 sentencing date has been set for the original drug convic-

Chagra sported only a mustache Monday. He wore a full beard when federal drug agents arrested him on the Las Vegas, Nev., strip Feb. 21. The officers said they found \$187,000 in a diaper box in his car.

Chagra waived extradition last week in Nevada and arrived here Saturday escorted by U.S. Marshals on a commercial flight.

During his federal court trial at Austin last summer, prosecutors contended Chagra masterminded a drug smuggling scheme involving large amounts of marijuana and cocaine moved from Colombia to the United

Chagra is the brother of Lee Chagra, a prominent attorney murdered in a December 1978 holdup at his posh, security-tight El Paso office.

## Hiking grain price would improve trade balance, Farmers Union told

president of the National Farmers Union says the U.S. balance of trade could be improved by as much as \$5 billion annually if prices for grain sold in world markets were raised to the cost of production. "Instead, we continue to be a resid-

ual supplier, getting clearance prices for our grain - giving it away while the nation pays whatever the asking price is for oil," Tony Dechant told the 78th annual convention of the 300,000-member organization on Montions to resume," he reported by tele-Dechant, who is stepping down as A Foreign Ministry source said the

NFU president after 14 years, called for 100 percent parity for farmers and said it costs 6 cents more per pound to produce cotton today than one year session Sunday, a 90-minute meeting

## \$3,500 bond set for theft of food

Peace Justice John Biggs Monday afternoon set bond at \$3,500 for Charles Elliott, owner of The Handy Spot Grocery, 1100 N. Lamesa Road after Elliott was charged with theft of property over \$200 and under \$10,000 in connection with the reported theft of merchandise from Furr's Supermarket, 2208 N. Big Spring St.

According to police, a man on the clean-up crew at Furr's had been stealing merchandise and selling it. The manager reported the theft to police, who took the man into custody. The man then told officers to whom he had sold the merchandise. Police recovered the merchandise and charged Elliott, a Police Department Sunday spokesman said.

Items taken from Furr's included cigarettes, Crisco, tuna, Vienna sausage, Spam and "general merchandise," according to police.

DENVER (AP) - The outgoing ago, \$11.80 more to produce one hundred pounds of beef cattle and \$7.20 more to produce one hundred pounds of hogs.

When farmers speak of parity, they are referring to a government formula designed to compare their current purchasing power with the purchasing power farmers enjoyed during a period of relative prosperity early in this century. "The most obvious thing is that we

can't pay today's costs with prices of a year ago," he said. "If an agreement were reached to price grains in world commerce at the average cost of production in the principal producing nations, that would improve our national balance of trade by at least \$5 billion a year.'

Earlier, Sen. George McGovern, D.N.D., said President Carter's embargo of 17 million tons of grain to the Soviet Union is "like asking the American farmer to engage in a nonshooting war with the Soviet Union."

Farmers are being asked to carry an unfair share of America's response to the Soviet occupation of Afghanistan, he said.

# Colorado River Municiple Water District ready for 10th weather modification year

The Colorado River Municipal Water District is ready to begin its 10th year of weather modification operations this week - all it needs are

Realistically, the clouds aren't expected in substantial number until the latter part of March and possibly until mid-April. The CRMWD effort, however, became operational March 1 and will continue through Nov. 30

The network of 96 recording and 85 non-recording rain gauges will be put in place this week within the cloud-seeding target area, according to meteorologist John Girdzus. The target area is bounded roughly on the west by a line from the Howard County line north to Lamesa and O'Donnell, east to US 180 below Post and south through Snyder and Sweetwater and northern Coke County. This is essentially the drainage area for Lakes J.B. Thomas and E.V. Spence.

The district has two planes used in basal and top-seeding of clouds with silver iodide crystals which form the nuclei of ice crystals within cloud masses. This enhances the coagulation of moisture to the point of precipi-

A Sky Water Ratat-75 unit, located on a 45-foot mobile structure, will be dispatched here from California March 15. Images on the radar screen will reflect cloud densities in color to facilitate more accurate seeding.

The information also is recorded magnetically so it can be called up for review, or for use in daily briefings.

In early April, CRMWD also will help prepare for the federally-funded HIPLEX (High Plains Experiment) weather modification research project. Twenty-five stations will be located within the network to transmit data every minute, if desired. The signals are beamed to a satellite, bounced to Wallops Island in the Atlantic and then eventually relayed to Denver, Colo., from whence the Big Spring operators can call up the data.

Also, the P-Navajo airplane will be sent to Boulder, Colo., April 10 for intallation of cloud physics equipment to measure temperature, humidity, wind direction and velocity, iodide and moisture particles. A companion package also will measure the density and distribution of ice crystals within clouds. Later, the National Center for Atmospheric Research will send an airplane to Big Spring to seed clouds with inert material so that the movement and distribution of particles in a cloud's updraft may be traced.

The HIPLEX period is from May 15 through July 15, and technicians from Texas A&M and Texas Tech Universities will join other scientists in monitoring seeding operations.

The district's network of rain gauges in designed so that a recording gauge is set at every 10 kilometers within the target area, and within the center they are spaced at 5 kilometers. These are supplemented with 85 non-recording (fence post) gauges to give researchers an indication of results of seeding

#### Mexico to ask U.S. to extradite Dalton

MEXICO CITY (AP) — The Mexican government says it will ask the United States to extradite lawyer-financier Jess Dalton and his partner Harold Campbell on charges of a \$4.5-million tax fraud, but no extradition request has been filed yet.

The attorney general's office announced last week that it was asking the Foreign Ministry to proceed with the action to secure the return of the two prominent members of the American community in Mexico.

Officials said Interpol, the international police organization, reported Dalton is in Texas, but the sources said they did not know where

The government accuses them and several other persons of evading Mexican taxes by funneling funds out of the country through a dummy corporation in Panama, setting up illegal checking accounts, using false invoices and other schemes.

Dalton and Campbell fled the country after "disloyal officials" tipped them off to the government investigation into their alleged activities, a government statement said.

The case stems from the activities of the law firm of Goodrich, Dalton, Little and Riquelme, whose clients include major American companies. operating in Mexico. The firm has offices in London and Paris also.

The attorney general's office said it seized enough evidence to get tax evasion indictments of six other companies including a Coca-Cola subsidiary. Unconfirmed reports say the attorney general's investigators have examined records of more than 200 companies.

#### **NEIL SOLOMON**

# Doctors prefer oral over shots

Dear Dr. Solomon: Why are some people given polio vaccine orally while others are immunized by injection? Which is preferable? — Kay

Dear Kay: There are two different polio vaccines the oral and the injectable. The oral vaccine is absorbed into the bloodstream after it is swallowed and provides immediate protection against the disease. Within two or three weeks, long-lasting antibodies build up in the body. Most experts in the field regard the oral vaccine as the most effective way to

Although extremely rare, there is a small risk (one in every three to five million vaccinations) of serious side effects to persons taking this vaccine or who come in contact with someone recently vaccinated

The Public Health Servicde recommends that all persons between six weeks and 18 years of age be given an oral polio vaccine, except for those with cancer, with leukemia, or with lymphoma, those with any disease that reduces their ability to fight infection, and those who live with someone who falls into any of these categories.

For people who should not get the oral polio vaccine, and for those for whom the oral vaccine is recommended but prefer the shots, the injectible vaccine is adequate. This, of course, is far preferable to remaining unvaccinated.

Dear Dr. Solomon: I am 63 years old, and at my last physical examination, my doctor told me that my blood pressure was 150 over 95; he said he wants to check it again in a few months. What do the figures mean, and why should he want to check it again?

Dear Mr. O.: The two figures, usually written 150/95, represent your systolic and diastolic blood respectively. They indicate the rise (measured in millimeters) in a column of mercury because of the pressure that occurs when an artery is squeezed with an inflatable cuff. Systolic pressure (the upper figure) is measured when the heart contracts and sends blood rushing through the arteries; the diastolic pressure (lower figure) is measured when the heart relaxes after a beat.

While "normal" pressure can best be defined by a range rather than by a specific figure, your blood pressure appears to be in the upper limits of normal. And since untreated high blood pressure (or hypertension) is a potentially dangerous condition which may cause no symptoms until it has done some damage, your physician undoubtedly wants to monitor you so he can institute appropriate treatment should it become necessary.

MADISON, Wis. (AP) Barred from adopting a child last year because they were overweight, Gordon and Barbara Ray say they finally have been approved as adoptive parents under new state rules.

Celebrating their eighth wedding anniversary, the Rays, both 29, said Monday they hope to have a child by the end of

"We asked for a boy in the 5- to 10-years-old range," said Ray, a 6foot-2, 215-pound University of Wisconsin shipping clerk.

Publicity from a story about the couple's dilemma a year ago helped prompt the state Department of Health and Social Services to revamp its adoption rules.

The new rules, in effect but awaiting formal approval, give preference to married couples, bar couples with two or more children or those more than 40 years older than the child they want to adopt. But they dropped most other restrictions, such as weight guideOne plan can provide Life Insurance.

# Maxine's has moved; Lots of parking now

Maxine's stylists, Maxine, Irene, Dusty, Olivia and Lisa, are making a real contribution to the good looks of the people of our community: both sexes and all ages.

First, they are wizards with the scissors and the blow-dryer. A liveable, workable hair style is given for a reasonable price, in a very short. time. Walk-ins are more than welcome. Also, their hours are long. They are open Mondays and all day Satur-

Even the youngest children know when their hair looks good: Give yours the pride of feeling attractive and presentable by having one of the ladies at Maxine's do their hair when it needs it.

The men in your life want to feel pride in their appearance, too. A man who has a fine beard and/or moustache will be glad to know he can get a skillful trim, as well as a haircut, at Maxine's. They know how to give the best possible styling for his own kind of masculine attractiveness.

Good perms, facials and anything needed for hair care or skin care can be purchased, with advice, at Maxine's. Give them a try soon. 433 Andrews Highway.

Above is shown the new home of Maxine's Hair Styling Salon. There's more room in the shop and — good news! — lots of on-site parking. No appointments are necessary. Just come to the new shop at 433 Andrews Highway and see their new home.

#### Inflation gains ground on average U.S. worker WASHINGTON (AP) count increases from increase in wage rates

American lost ground to benefits. inflation for a second straight year in 1979 despite a record 8.7 percent rise in wages, new government figures show.

reported Thursday that gram. the annual rise in base ernment first developed its Employment Cost Index in 1975.

But the 8.7 percent rise in wage rates was more than eaten up by a 13.3 percent rise in consumer prices during 1979, resulting in a net decline in purchasing power.

The average wagepower also declined in 1978, when consumer prices rose 9 percent while wage and salary rates advanced 7.7 per-

According to the Employment Cost Index, wage rates rose 7 percent in 1977 and 7.2 percent in 1976. Consumer prices. by comparison, rose 6.8 percent in 1977 and 4.8

percent in 1976. The index, based on a 65 million privately employed workers in nonfarm industries, measures changes in base

wages only and does not

## Cooperative bank head poses threat to existing methods of marketing

WASHINGTON (AP) - The head of a new federal agency, the National Consumer Cooperative Bank, says she wants to pose a threat to existing methods of Carol Greenwald, who took office Feb. 1 as presi-

dent of the bank, said existing marketing practices often are "not very imaginative." For example, she said, food retailing has changed little "since the big breakthrough of the 1920s, the

for a single quarter was supermarket.' The federal bank was established by Congress to 2.1 percent, set during encourage, largely through loans, the growth of the second quarter of consumer cooperatives. The co-ops can be formed by 1978 and the third quar-

groups of consumers who choose not to patronize traditional stores and instead band together to pro-For the year, wages vide goods or services for themselves. There already are consumer co-ops offering groceries and such services as medical care and autoranging from a low of 7.4 mobile repair. Some non-profit co-ops have lower in America percent for managers wage and salary rates of ficials contend the in- and administrators to 9.4 prices than profit-making stores, and others offer

services or products not available elsewhere. But getting a co-op going requires managing and financing know-how beyond the capacity of most consumers. Consumer co-ops now make up only a gas and such other things workers and 7.2 percent tiny part of American marketing.

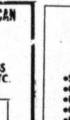

Ms. Greenwald wants to change that. "If you ask me my goal, it is that in three years, a lot of groups will feel threatened by us. At this point, retailers can nutes in a supermarket ignore co-ops because we don't compete with them in any major way. But I would like us to grow to where we are a threat to the established way of doing things, which are just an inflation of prices all along She said the Co-op Bank will emphasize service to

co-ops that develop innovative methods of market-

When you take your car into a traditional repair shop, those people appear to rip you off at every opportunity. They have a book that says how many hours it could take a mechanic to do a certain job and they multiply that by their hourly labor charge even if it doesn't take them that long.

"At an auto service co-op, the mechanic who works on your car has it in mind that he is working for you and that you should pay only for what you get. It is a whole different mental set," she said.

Congress created the new agency after consumer advocates argued that co-ops find it difficult to borrow the money needed to begin operation. Financial institutions prefer to give loans to traditional businesses, they said.

Chinese visitor to the United States told his countrymen America is not a place of capitalists cracking whips and workers dying by their machines. But, writing in the

China Youth News, he said it also was false to think that America's poor are richer than China's rich.

LI TUEI-PAI said America's poor really are poor, dressed in rags, scavenging for junk and For about 85 percent of

Americans, he said, food, clothing, housing dent Carter's figures, 25 million to 26 million people, or more than one percent, were poor.

"In the most economically developed country, why are there still several million poor? It is a problem of the unfairness of the social system," he wrote.

LI ALSO WROTE about unemployment and welfare payments, but said they were limited to a few years, and then the only thing left was charity.

He said science had been utilized to make life easy for Americans, and wrote about kitchen appliances, washing machines, heating and cooling systems, and the car, which he called a necessity rather than a luxury

But he also wrote about parking problems and waiting in line for as movie tickets and postage stamps. He said he once waited 55 micheck-out line.

LI WROTE THAT an average worker made about \$13,000 a year, and that wages - and purchasing power - had been rising in the last Li said Americans

found him interesting because he had left the United States 34 years ago to live in China, and then spent 16 of those years in jail. He said he was jailed in 1949 for six years after the Soviets accused him of being an American spy, and then 10 years under the Communist Party radicals who held power from 1966 to 1976.

## Annunzio: credit cards need rest

WASHINGTON (AP) Consumers should boycott credit cards, says a leading consumer advocate in Congress who is unhappy about new charges that companies are adding to

Rep. Frank Annunzio. D-Ill., chairman of the House Banking subcommittee on consumers, said Wednesday, "The best way for consumers to fight increased credit card costs is to stop using the cards. Quite simply, that means a boycott of credit card purchases.'

Annunzio commented as two of the largest retailers in the nation, Sears Roebuck & Co. and J.C. Penney, Inc., prepared to shift to a new way of computing fisumers who have an outstanding balance from month to month

For customers who only pay a portion of their total balance each month, it will mean interest charges from the date of any new purchase. Under the old system, interest on the new charge applied only from the start of the next month's billing cycle. The new rules will not

affect the minority of customers who pay their bills in full by the due date.

Sears will begin the new method of computing bills in some states Saturday and will bring the entire nation under the new plan by July 1. J.C. Penney will make the change beginning with June bills.

...U.S. REP. KENT HANCE of Lubbock, Congressman from the 19th District of Texas, will be in the Tall City Friday to speak to the business women. He will address the Uptown Chapter of the Business and Professional Women's Club from 5 to 6 p.m. in the Midland Room of The Midland National Bank.

The congressman also will address a Midland AWARE seminar to be held from 9:30 a.m. to 3 p.m. Friday in Theatre Midland. Hance will discuss nuclear energy as viewed from a Washington, D.C. His talk will be "Energy: What Does the Future Hold?"

AWARE is an organization formed in Texas to offer current information on energy and energy resources.

Other seminar speakers will include Dr. William E. Drummond, director of Fusion Research Center at The University of Texas at Austin, and Dr. E. Linn Draper Jr., technical assistant to the chairman of the board of Gulf States Utilities

Draper will speak from 9: 45 to 11: 30 a.m., Drummond from 1 to 2 p.m. and Hance from 2 to 3

## Altrusa Club of Midland hosts International leader

"Altrusa, where are you going?" was the opening question of Jen Hanson, president of Altrusa International, when she recently addressed local Altrusans and guests at a dinner held in her honor at Ranchland Hills Coun-

Emphasizing her biennial theme of "Rise to Human Needs," Mrs. Han-son pointed out that friendship is the only cement that will hold the world together and that Altrusans need to listen with their ears, their eyes and thier hearts to the world in need, from the neighborhood level to even the third world people. "We need to touch peoples' lives and to let them know we care, that we want to help them," she said. "It is through the local clubs and its interested members that these needs can be met," she added.

Outlining three things of greatest importance for her two-year term of office, which began in July of 1979 at the International Conference in Kansas City, Mrs. Hanson listed membership as the first priority. "We need to grow in dedication as well as numbers," said Mrs. Hanson, as she outlined her aim for a 25 percent increase in membership for the two-year period ahead. "New members not only bring in new people, but new ideas, new enthusiasm.

Her second goal is the increase of Astra clubs, an organization for young girls, future Altrusans who will carry on the work of their mothers and grandmothers.

Then follows the emphasis on supporting national projects, the Founders Fund Vocational Aid and Grants-in-Aid programs and the clubs' fight against illiteracy, the latter coming under Altrusa's rise to human need - not only helping children learn, but helping the adults who did not receive an education.

Altrusa, the first women's classified service club, was organized in Nashville, Tenn., in April, 1917. It became International in 1935 and now boasts a membership of over 20,000, in Australia, Bermuda, Canada, England, Guatamala, India, Ireland, Mexico, New Zealand, the Philippines, Puerto Rico, Scotland and the United States.

The Midland club was chartered in October, 1948, with Mrs. Katherine Knox Shriver as its first president. It has grown from 25 charter members

Altrusa International's two main projects are its Founders Fund Vocational Aid (FFVA) for training or retraining women to enter the business world, become professional or set up their own small business to support themselves and their families, and Grants-In-Aid (GIA) to foreign women for graduate study in a college or university in the United

Mrs. Hanson was introduced by Mary Alice Tidwell, immediate past president of the local club and now treasurer of District Nine (Texas).

Myrtlene Bearden, president, wel-comed guests and introduced Grant Billingsley of the Midland Chamber of Commerce. Caroline Keisling, a charter member, introduced visitors. Also on the program were Ada Phillips and Annie Ford, also charter members. Bertie Boone, unable to attend, is the fourth charter member of the Midland club.

Betty Simmons was hostess for the social hour and background music was furnished by Judy Congdon, organist at First Presbyterian

Seventy-five guests attended, including Altrusans and friends from Abilene, Big Spring, Lubbock and Odessa, and Carlsbad and Hobbs,

#### DEAR ABBY Last will an

ill testament

By ABIGAIL VAN BUREN

DEAR ABBY: You rattled my cage with your advice to HURT IN OR-LANDO, telling her to keep quiet after helping a well-to-do aunt in so many ways, then learning that this aunt was leaving her nothing in her

You should have told her to speak up. Sometimes elderly people need to be reminded of the favors people do

It could be nicely put, such as: "I have enjoyed shopping for you, paying your bills, doing your paper-work, taking you to dinner, cashing your checks and looking after your home. Why have you never considered re-

membering me in your will?
She surely couldn't take offense at

I never could bring myself to tell my father of the many injustices I suffered from his thoughlessness. Now that he is gone, I regret deeply that I never spoke up. It may not have changed the way he left things, but I should have felt better if I had spoken my mind. — MRS. A. IN PALM SPRINGS

DEAR MRS. A.: A reader in Rockville, Md., feels that my advice was on target as far as it went, but that it didn't go far enough. Read on:

DEAR ABBY: Hold the phone! You told HURT IN ORLANDO (after she'd written that she took her aunt out to dinner, did her shopping, handled her paper-work, paid her bills, cashed her checks, looked after her home, etc. and got left out of her will), "Keep quiet. Your disappointment is understandable, but it's her money and she has the right to do whatever she wishes with it."

Shades of opportunism! Echoes of greed! Don't you think your advice should have included something like the following: "Congratulations, dear. Not all of us get the opportunity to help someone else in such a clearcut way. Your good feelings as a result should far outweigh the loss you now feel. Surely when you did these things for your aunt, you had no motive in mind such as ultimate payment.'

Abby, whatever happened to Judeo-Christian ethics? Whatever happened to the lessons taught by the Good Samaritan, by Jesus, by Moses through the Ten Commandments? Whatever happened to plain common decency — without money as a goal?

Good God! And I'm not even a

church-goer. What must the religious fraternity think? - GEORGE H.

DEAR GEORGE: If the "religious fraternity" had any thoughts on the subject, they didn't share them with me. But read on for a worthy suggestion from a reader in Denver

DEAR ABBY: In your reply to the person who had done many favors for an aunt but was left out of her will. I suspect many of your readers were disappointed that you didn't suggest to those with estates that they should ask their intended heirs to do their errands, take them to doctors, write their letters, care for their pets, water their plants, and rush them to hospi tals rather than impose on friends simply because they are available, retired, or, most often, because they are more sympathetic or good-natured than the chosen heirs. ## Interferon production imminent

NEW YORK (AP) Spurred by a potential market that may include anyone from common cold sufferers to cancer victims, drug companies are gearing up to produce interferon, a potent natural anti-virus and anti-cancer drug.

G.D. Searle & Co. of Chicago today was announcing the largest clinical test yet of "fi-broblast" interferon, a type not yet extensively studied.

The test, involving 30 cancer patients at M.D. Anderson Hospital and **Tumor Institute in Hous**ton, will begin in a month, Searle said.

Last week, Abbott Laboratories of Chicago said it was boosting its production of fibroblast

She also told of the league's upcoming 60th birthday observance, a program to be presented by District Judge Barbara Culver March 13 at Midland College. She will speak at 7:30 p.m. on "Women and the Law," an explanation of the new addition to the family code concerning the rights of

# DRT celebrates Founder's Day

The history of the Aaron Estes Chapter of the Daughters of the Republic of Texas (DRT) was the program given in honor of Founder's Day at that chapter's recent meet-

Nancy McKinley told members the Midland chapter was founded Jan. 22, 1955, after she had been appointed. organizing president by Edna Hinde, president general of the DRT's and Mrs. Roy D. Golston, Organizing President General.

Other women in the first group of officers were Mrs. Ed Whitaker, viace president; Evelyn Melear, recording secretary; Mrs. W. D. Reiger, registrar; Rosemary Rankin, treasurer; Mrs. Paul Owens, historian; and ? frs. Porter Rankin, chaplain.

According to Mrs. McKinley, all of ranched. the charter members were descendants of Aaron Estes, for whom the chapter was named

Mrs. McKinley gave the biography of Estes' life, saying he was born in Franklin County, Tenn., and moved to Missouri after marrying Elizabeth

They left Missouri for Texas in the early 1840's in an oxen-drawn wagon. They settled in Navarro County where Estes helped organize the first public school in the county and in 1854 was elected a trustee of District Four in the first school election.

The couple then moved to McLannan County and in 1860 moved to Hill County, where he farmed and the home of Evelyn Melear.

In 1861, Estes joined the Confederate Army under Col. R. Q. Mills and was captured at Arkansas Post Jan. 11, 1863. He was a prisoner at Camp Douglas in Chicago, Ill., until he was exchanged at City Point, Va., on April

Estes particiapted in the battles of Marfreesboro, Shiloh, Chattanooga, Look Out Mountain and Chica Mauga during the Civil War.

He was killed in Joneboro, Ga., in an infantry charge in 1864 and is buried there.

The next meeting of the Aaron Estes Chapter of the Daughters of the Republic of Texas will be March 25 at

#### AT WIT'S END

# Balancing the checkbook

By ERMA BOMBECK

In January of this year, I made a resolution to balance my checkbook every month when the statement

In years past, I have resolved the problem by switching banks every ime I don't balance. No error was too large or too small for me to close out the account and take my business down the street.

Phoenix is a big city. In the telephone directory, there are five yellow pages listing banks and three and a half pages of savings and loans. I'm down to my last two banks. Last month when I tallied up my deposits, withdrawals, and outstanding checks I was off 19 cents . . . in the bank's favor, of course.

I would rather be off \$500 than 19

When you're off \$500, you can walk right into a bank with your self-re-

spect intact, go to a teller and say, "See here, Miss Madlinger, could you possibly give me a few minutes of your time? I've clumsily misplaced \$500 and was hoping your trained eye could isolate the error for me."

Try that with 19 cents and they'll laugh themselves into a hernia repair. The only way you can find a 19-cent error is to devote the rest of your life to it, like the fella who slip-covered the Grand Canyon or rode a bicycle across the United States backwards.

It's a situation you either accept or fight. I chose to pick up the gauntlet. Every night after dinner for the last three weeks I have trudged to the dining room table, turned on the calculator, and gone over every figure from the beginning. For all of you bookkeeping quarter-

backs, I did not:

(a) Make a 7 like a 9. (b) Forget to deduct a bank (c) Record a check on a breath mint

(d) Subtract instead of add a 19-

cent deposit. (e) Forget I couldn't subtract nine from zero without borrowing one.

(f) Record my checks in round numbers. (g) Write a check for \$.76 and rec-

ord it for \$1.57. This morning, I knew what I had to do. I got in the car and drove to the last institution in Phoenix that has never had an account in my name -

the Godfather Savings and Loan. It's a rather unique institution. There are no wine glass premiums. The tellers are all men and have cotton stuffed in their cheeks. The entire bank is on wheels attached to a

But their brochure said, "No more balancing a checkbook! We tell you

how much you've got!" The piece of mind is worth 19 cents.

Twenty-fourth annual convention of the Permian Basin Geophysical Society is Thursday and Friday. The Ladies Auxiliary will host an afternoon social Friday from 3 to 5 p.m. in the home of Mrs. William Henry, No. 5 Fairfax Court. Theme of the event is "Chablis and Crystal," and activities will Fred Meyer. (Staff Photo) include modeling of fashions from Grammer-

Murphy. Admiring crystal pieces which will be given as prizes are, from left, Mrs. S. W. Tift, Mrs. Ken Green and Mrs. Henry. They will serve as hostesses along with Mrs. Steve Blaylock, Mrs. Bill Collins, Mrs. Bill Isom, Mrs. Ted Noel and Mrs.

# Carol Burrnett makes PDAP donation

Burnett and her husband, I oe L. cording to Kanaly. Hamilton, whose teen-age dataghter "Each city contributes funds to headquarters are in Houston," Carrie is one of 20,000 young people and parents who have been he | ped by the Palmer Drug Abuse Program (PDAP) around the country, have made an initial contribution of \$100,-000 to start an endowment fun id to help the organization in its edicational and rehabilitative work. The fund will be known as the

"Carol Burnett Endowmerst for the Palmer Drug Abuse Prograin National. Inc.

Announced here by E. Desane Kanaly, president of PDAP's national board of trustees, the Bure nett donation is intended to be the seed money for a growing and continuing PDAP endowment fund. A funci whose income will be utilized by the PDAP board of trustees in operating the national PDAP program, in conducting further research int () the causes and cure of teen-age addiction to mind-changing chemicalis, educating both young people and their parents on avoiding and coping with drug problems and lobbying for effective drug-control legislation

PDAP - a free, nor i profit organization founded in 1971 at the Palmer Episcopal Church in I louston - now has chapters in 20 Texas cities, including Midland, and in Denver and

HOUSTON - Entertainer Carol Los Angeles, with more planned, ac- the program. Edward B. Leach is the

help run their local chapters," Kanaly said, "but additional funds are needed - particularly to run the national organization required by PDAP's growth across the country...and to pay for the research andor educational efforts needed to really attack the drug-alcohol addiction problem generally

"In creating this endowment fund, Carol Burnett hopes that it will become a receptacle for contributions by corporations, charitable foundations and individuals who wish to see their gifts used in the youth-saving work of PDAP.

The program received national publicity recently following the revelation that Burnett-Hamilton's daughter was helped by PDAP counselors from her desperate drug addiction. Kanaly pointed out that the national publicity resulted in a surge of interest in and requests for help from the program, with an accompanying increase in the costs

Neither teen-agers nor their parents are charged by PDAP for the drug-related counseling they receive at PDAP centers.

Some 7,000 young people and parents are now active participants in

90 DAYS

INTEREST FREE WITH APPROVED

# You don't have to be in a group to get this card!

Most people are surprised that they can buy individual health coverage from Blue Cross and Blue Shield of Texas—even if their company doesn't provide a group plan.

Our Texas Trail Blazer Plan is designed for individuals and their eligible dependents. Through this plan, you and your family can apply for the health coverage you need at a reasonable cost.

What does it cover? Basic coverage provides benefits for hospital confinement, including a no-dollar limit for many hospital services, as well as a broad physician schedule of benefits for medical and surgical treatment. And you can apply for major medical benefits if you choose. You also get the famous Blue Cross and Blue

Shield of Texas ID card, accepted by more than 7,000 of the nation's finest hospitals. What about family coverage? Texas Trail

Blazer can cover you and your spouse if under age 65 and dependent children. What about persons age 65 and over?

Those Texans over 65 years of age with parts A & B of Medicare may apply for our Senior Texan Companion Service, an excellent supplementary plan with many benefits. Who needs this coverage? You do, if you're

leaving a group coverage plan or your employer doesn't offer one; if you have no hospitalization or major medical coverage; if you are no longer eligible under a parent's plan, are self-employed or need temporary or additional coverage. But, before you decide, fill out and mail the

coupon below and get more details about Texas Trail Blazer. No sales representative will call, and you can look over the plan in private. But act now. Because with the cost of health care what it is today, can you afford less than the best?

end me more details about your coverage

Van Vleet died Monday afternoon in a Midland hospital.

# March 20 slated as filing deadline for two Region 18 ESBD vacancies

Filing deadlines for two places on the Region 18 Education Service Board of Directors is March 20, according to J.W. Donaldson, executive director of the Region 18 Education Service Center.

The positions will be selected during the April election by members of Region 18 school districts' board of trustees, he said.

To file for Place 5, Donaldson explained, a candidate must live in one of the following school districts: Alpine, Balmorhea, Buena Vista, Culberson County, Fort Davis, Iraan-Sheffield, Marathon, Marfa, Presidio, San Vicente, Terlingua, Terrell County or Valentine.

Candidates living in the Andrews or Monahans school districts are eligible for Place 7, he said. Any U.S. citizen 21 or older who is not engaged professionally in educa-

tion and not a member of a local school may be elected to the Education Service board, Donaldson added. The term of office is three years and board members serve without com-

pensation, he said. Applications for filing are available from local school superintendents or from the Region 18 Education Service Center located at Midland Regional Airport. The center's mailing address is Box 6020, Midland, Texas 79701.

#### Directors OK Furr's, K-Mart merger

LUBBOCK - The board of directors for Furr's Cafeterias Inc. Monday unanimously approved K-Mart Corp.'s previously announced tender offer for any and all outstanding shares of Furr's common stock, and the merger of Furr's with a subsidiary of K-Mart.

Furr's shareholders will receive \$28 per share in cash in the tender offer and merger. The tender offer was scheduled to begin today.

#### Dean named TPCE vice chairman

AUSTIN - Midlander Hal S. Dean, an independent oil operator, has been named vice chairman of an 11-member Texas Planning Commission on

Other members of the commission are David J. Smiser, president of University National Bank in San Antonio, chairman; Vernon M. Arrell of Austin: State Representative Mary Jane Bode of Austin; Betty Brown of Amarillo; Blas Cantu Jr. of Harlingen; Robert H: Cutler of El Paso; Dr. Dave Daly of Dallas; Dr. Clift Price of Austin; Travis County Commis-

sioner Ann Richards and Dr. Donald Rathbun, commissioners. "The purpose pf the commission is to formulate a plan for the most comprehensive medical, educational, rehabilitative and social services delivery system for Texans with epilepsy," Rathbun, president of the Epilepsy Association of Texas, explained in announcing the formation of the commis-

# Soviets bomb towns; 1,800 Afghan troops killed by rebels, insurgent leaders claim

By The Associated Press

Soviet warplanes bombed towns in eastern Afghanistan's Konar province for the fourth day today, Afghan rebels reported. The rebels claimed to have killed 1,800 Afghan army troops in fighting there and in neighboring

No confirmation was available for the rebel claims, issued in Islamabad, Pakistan, by the Hizbe Islami, the Islamic Party of Afghanistan. The casualty figures were considered much inflated, but Western diplomats in Islamabad said the Soviet and the Afghan armies appeared to have started a major offensive against the rebels.

"Heavy bombing on different parts of Konar is continuing by the Russian said the communique from Hizbe Islami, one of 60 rebel factions fighting the 23-month-old communist regime in Afghanistan.

The Afghan government troops suffered 1, de d in fighting at various places over the past three days in the provinces of Konar and Nangarhar," the communique said. On Monday, the Hizbe Islami rebels claimed to have wiped out an entire

Afghan army contingent but did not say how large the unit was. It said the government troops were trying to recapture a stretch of the main highway in Nangarhar between Kabul, the Afghan capital, and the Khyber Pass, on the Pakistani border. Hizbe Islami also claimed the Russians were using almost 200 tanks, 36

helicopter gunships and a number of MiG-21 and MiG-23 jet fighters to attack nearly a dozen towns in Konar, between the snowy mountains of the Hindu Kush and the border of northernmost Pakistan. In today's report, the rebels claimed they killed 100 government paratroop-

ers who landed near Bajaur, besieged a "large number" of Afghan troops in the Shegal and Asmar areas and repulsed a government attack there by a large number of Afghan troops with a large number of tanks and air cover. On the diplomatic front, Britain's ambassador to Moscow, Curtis Keeble, and two French diplomats - Bruno de Leusse, secretary-general of the Foreign Ministry, and Gabriel Robin, head of the ministry's political affairs department - met with Soviet First Deputy Foreign Minister Georgi

# Just 'accidental' meet between two old friends

ANCHORAGE, Alaska (AP) - It was chitchat between old acquaintances who happened to meet in an Anchorage bank.

"So what are you doing for a living now?" Carl Roehle asked 22-year-old Robert L. Langsdale, who Roehle once knew in Homer, Alaska.

"Robbing banks," came the reply. Sunday morning, Roehle was awakened by a friend who asked if he had

# Witness says youths broke

A witness told police that two youths approximately 12 years old Monday ran from Goddard Junior High School, 2500 Haynes Ave., shortly before police discovered five broken windows. The windows were valued at \$100 each.

windows

Police said they received a call on a ossible burglary shortly after noon Monday. When they arrived at the school, they checked with a Ronald Nemeth, who helped them search the school grounds and building.

According to reports, the youths gained entrance to the school by climbing the stairs on the outside of the building on the north side. They then entered through an open air con-

The witness told officers the two carried large rocks with them, and rocks were used to break the windows, according to police.

seen his picture in the newspaper, over a story with a headline: "Bank ney robber may have had accomplice."

The photo, taken by a security camera at the Spenard branch of the National Bank of Alaska, showed Roehle talking to Langsdale as they walked through the bank Friday eve-

One of the man put his hand in his coat pocket, pretended to have a gun and made off with an undisclosed sum of money, authorities said.

In distributing the picture to news media, the FBI said the man later identified as Langsdale had actually gone to the teller window. Neither man was identified. Agent Robert W. Carter said authorities didn't know if both were involved in the heist.

But Roehle knew. Boy did he know! And, after verifying his co-starring role on Page One, he contacted au-

While Roehle was telling agents that Langsdale was merely someone he had once known, Langsdale was calling Anchorage police. He, too, had seen the story and

three-column picture and wanted to give himself up. He was arrested on federal charges of bank robbery. Roehle, a warehouseman for an air-

line catering company, said he "got a lot of strange looks" when he showed up for work Monday. "It was kind of comical," he said in

recalling his meeting with Langsdale. "I went into the bank and saw him. We shook hands, talked for a few minutes, then went about our business and left about the same time."

Kornienko to discuss the British proposal for neutralization of Afghanistan in conjunction with the withdrawal of the estimated 75,000 troops sent into the country to save the communist regime.

The Kremlin has not rejected the proposal officially, but over the weekend a senior Soviet commentator said it was part of a Western plot "against

peace and for a return to the Cold War." Secretary of State Cyrus Vance said in a speech Monday to the Chicago Council on Foreign Relations that he did not foresee a return to the Cold War and the preservation of detente in East-West relations depends on a strong response to the Soviet intervention in Afghanistan.

# Midland, Lee freshmen ränk high in contest

MONAHANS - Midland and Lee Freshman band members recently competed in a solo and ensemble contest held in Monahans Junior High

Midland Freshman band entered 64 solos and 20 ensembles. Lee Freshman band had 65 members entered in the contest.

Both schools competed with 3A school bands such as Andrews, Monahans, Fort Stockton, Kermit and others.

Those receiving first division from the Midland Freshman Band were: Flute solo: Leslie Fort, Carolyn Mitchell, Elaine Reese, Kelle Mobley, Gwen Cutbirth.

Bass Clarinet solo: Ann Hunt. Oboe solo: Steve Baskin

Clarinet solo: Marta McNabb.

Alto saxophone solo: Rebbeca Caton.

Cornet solo: Ben Cox, Patrick Rhamey, Henry Ybarra. Trombone solo: David Womack, Emily Goodfellow, Shawn McCarter,

Douglas Scott. Percussion solo: Joe White, Garon Horton, Wade Frost, Quentin Rideout, Richard White, Ben Hadden, Lawrence Gilmore.

Tuba solo: Drew Richards, Brian Keadle Flute ensemble: Kelle Mobley, Laurie Stevens, Emily Wurtz, Leslie Fort, Carolyn Mitchell, Elaine Reese, Billie Sue Brodgen, Lee Green, Jency Johnson, Tammie Gardner, Dana Harben, Sara Sumner

Clarinet ensemble: Sally Bernard, Tressa Cunningham, Marta McNabb, Lori Phillips.

Trombone ensemble: Emily Goodfellow, Shawn McCarter, Jake McKin-Brass ensemble: Valton Acree, Susan Baker, John Dalton, David Grace,

Patrick Rhamey, Douglas Scott. Percussion ensemble: Wade Frost, Gardon Horton, Quentin Rideout, Ross Roberts, Joe White, Richard White.

Those receiving first from the Lee Freshman Band were: Flute solo: Allison Milner, Nancy Renick, Lisa Mason, Carol Neal, Pam Milby, Kellie Wetsel, Beth Bufler.

Clarinet solo: Tammy Marshall, Margaret McCright.

Alto saxophone solo: Troy Martin. Cornet solo: Wesley Coles.

French horn solo: Tracey Eckert, Pam Massie.

Trombone solo: Darrell Clarke. Flute trio: The trio of Pam Milby, Janelle Stobel and Monea Steward. The trio of Allison Milner, Carol Neal and Julie Taylor.

Trombone quartet: Leland Franke, Teresa Lunsford, Vickie Rinker,

#### Police investigating ring theft

Police are investigating the reported theft of a .86 carat square cut diamond ring from a west Midland residence. J.D. Martin Jr., 612 W. Kansas Ave., told police Monday afternoon that Wednesday or Thursday night he placed the ring on a nightstand beside the bed and that the ring is now missing. Police say Martin does not

know when the ring was allegedly stolen. The diamond was so

# Midland woman listed satisfactory

A 33-year-old Midland woman was listed in satisfactory condition this morning in Midland Memorial Hospital with a broken right arm and scalp laceration following a traffic accident Monday evening.

Karen Palmer of Route 5, Box 1000, No. 116, was injured in a collision on FM 868 at about 8:46 p.m. Monday. Her vehicle was westbound on FM 868 and another vehicle, driven by Kelly Dean Campbell, 16, 4509 Pleasant Drive, was northbound on Ward Street, faced with a stop sign. The two vehicles collided at the intersection. Kelly Campbell was treated and released from Midland Memorial.

Two passengers in the Campbell vehicle, Steven D. Phiffer, 322 Tanglewood, and Jeffrey L. Marks of 4315 Erie, received slight injuries but re-

# Stock market loses

NEW YORK (AP) — The stock market slipped into a steady decline Monday, erasing the gains recorded in last Friday's rally. Trad-ing continued to taper off, setting its slowest pace so

far in 1980. Stock prices moved up Friday amid anticipation of a possible government announcement over the weekend of some new measures against inflation. When the weekend passed without any such announcement, analysts noted, the market quickly retreated.

The Dow Jones average of 30 industrials, which rose 8.70 on Friday, fell back 8.79 to 854.35.

New York Stock Exchange volume totaled 38.69 million shares, down from 38.81 million Friday and the lightest total since a 31.53 millionshare day on Dec. 31.

American Telephone & Telegraph, a leader of Friday's advance with a 1% point gain, dropped back 11/8 to 48% on turnover of better than 625,000 shares as of the 4 p.m. close in New York.

AT&T filed with the Federal Communications Commission for increases in interstate and overseas rates.

Oil and bank issues also posted some notable losses. In the oils, Texaco dropped I to 391/2; Standard Oil of California 11/6 to 78%; Indiana Standard 21/6 to 113%; Mobil % to 79%, and Exxon % to 64%.

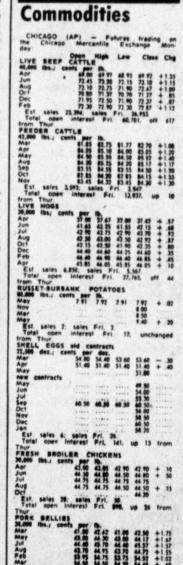

Among actively traded banking issues, Bankamerica was down 1/4 at 211/4; Manufacturers Hanover dropped 1/4 to 281/2, and Citicorp lost 1/2 to 19%, hitting its lowest level since 1978.

Gold shares bucked the downtrend, although bullion prices showed little change. The daily tally on the NYSE showed almost two losers for every stock that gained ground, and the exchange's composite index of all its listed common stocks

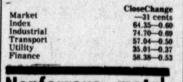

gave up .60 to 64.35. Standard & Poor's index of 400 industrials was down 1.35 at 127.93, and S&P's 500stock composite index

dropped 1.16 to 112.50. The Amex market value index dropped 2.10 to 301.38. In the over-the-counter market, the NASDAQ composite index closed at 156.87, off 1.16.

Platinum \$857.\\$902 troy oz. N.Y.

# BUSINESS MIRROR **Businessmen react** mildly to warnings from government

Many of the nation's big businesses, saying they were already in compliance with the Carter administration's voluntary wage-price guidelines, have reacted mildly to telegrams warning of intensified 'monitoring activities" on wage and price in-

The telegrams sent over the weekend by Treasury Secretary G. William Miller and Alfred Kahn, chief of the Council on Wage and Price Stability, also reiterated Carter's opposition to imposing mandatory wage-price controls.

Government officials have recently expressed concern that companies may be raising prices now in anticipation of a mendatory price freeze that would prevent hikes later.

"We haven't raised any prices in anticipation of mandatory controls, nor do we intend to. The bottom line is we intend to live within the guidelines," said a spokesman for Westinghouse Electric Corp., one of the 500 largest businesses in the nation to receive a

Hewlett-Packard Corp., in response to the tele-gram, sent a letter commending the administration for rejecting mandatory controls that it feels "are an ineffective mechanism to restrain inflation," according to spokesman Peter Nelson.

He said the Palo Alto, Calif., computer company recently adopted a new pricing timetable, calling for price reviews quarterly instead of semi-annually. But the policy stemmed from rapidly escalating prices of some materials, particularly gold and silver used in semiconductors, not in anticipation of

wage-price controls, he said. Few companies contacted by The Associated Press were willing to make promises about pricing policies in the future. But several, including General Motors Corp., American Telephone & Telegraph Co. and Rockwell International Corp. said they currently are in compliance with the government's pricing poli-

Some business leaders remained skeptical about the administration's pledge.

"I think there is a widespread feeling in the business community that, despite statements to the contrary by the administration, if there is a continuation of inflationary pressures, wage and price controls become inevitable," said Arthur Levitt Jr., chairman of the American Stock Exchange and head of the White House Commission on Small Business.

Controls "will have to be recognized as a possibility in an intensely political year like this one," said George Hagedorn, who follows wage-price policies for the National Association of Manufacturers

# Carter considering more program cuts

WASHINGTON (AP) - The Carter administration is considering deep cuts in jobs programs, highway projects and urban aid as part of a sudden effort to combat surging inflation by slashing up to \$20 billion

from the proposed 1981 budget. Under orders from President Carter's budget office, federal agencies submitted lists of new spending reductions Monday that could help the administration balance the budget for the year that begins Oct. 1.

Administration sources said almost every agency except the Defense Department was required to submit spending cuts.

On Jan. 28, Carter sent Congress a proposed 1981 oudget calling for \$616 billion in spending and a \$15.8 billion deficit.

But less than two weeks ago, the government's consumer price survey showed the largest monthly jump in more than six years, boosting the inflation rate to an 18 percent annual rate. That prompted Carter to order an immediate review of the administration's anti-inflation policies.

Budget cuts emerged as the chief alternative, with the possible goal of cutting enough to balance the budget. One administration official said between \$18 billion and \$20 billion is the latest estimate of cuts needed to achieve that goal.

The administration also is known to be considering some form of mandatory credit controls, but officials continue to insist they will not seek mandatory wage and price controls. The drive for a balanced budget is gaining support

in Congress. But an administration decision to make deep cuts in social programs - while letting defense spending rise - is certain to anger labor leaders. civil rights advocates, urban coalitions and other supporters of those programs. Administration and congressional officials con-

cede that reducing the 1981 budget will not do much about the current inflation rate, although it could have a "psychological impact" on businesses and consumers whose behavior is based on the assumption that inflation will continue to rage beyond government control.

One of the largest areas targeted for possible cuts is in the jobs and training programs run by the Labor Department, which proposed \$1.6 billion in savings.

Labor's proposal would eliminate 70,000 of 450,000 public service CETA jobs initially budgeted for unemployed adults. It also would cut summer jobs for poor teen-agers in half, from 1 million to 500,000, and scrap a program to provide 21,900 jobs for underprivileged youths in national parks.

The Transportation Department proposed \$895 million in cuts, with about half coming from the

highway construction budget and most of the rest from airport runway and railroad track improvement projects.

The Department of Housing and Urban Development suggested trimming \$75 million, mostly from a grant program for community development

projects.
The Agriculture Department is considering cuts in some loan programs.

# Long distance rates will go up if Bell gets hike

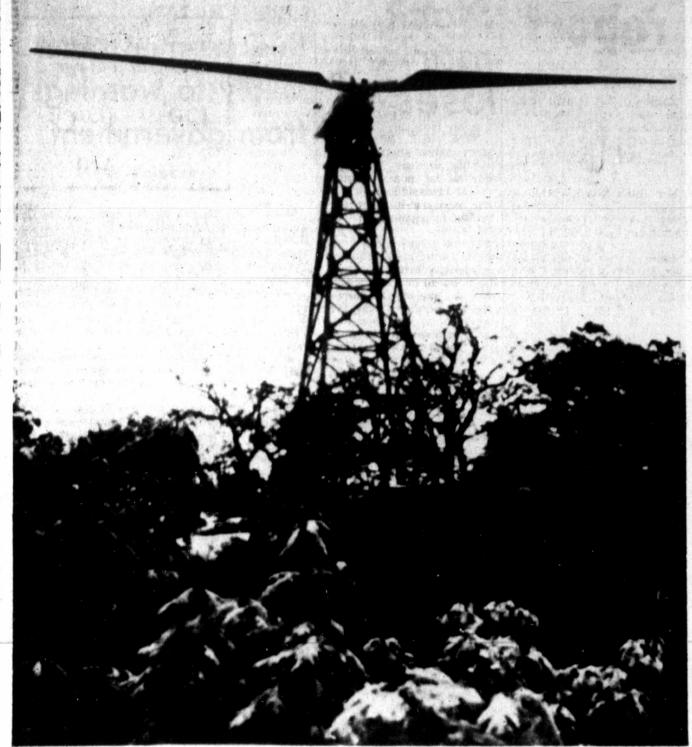

WASHINGTON (AP) — Long-distance telephone rates would go up if the Bell Telephone System wins its request for a 10.5 percent rate increase.

Officials of the American Telephone and Tele-graph Co. said Monday they need the across-the-board increase because inflation is wiping out Bell's

efforts to cut costs. The increase would generate \$1.2 billion a year in additional revenue, Bell said in its request to the Federal Communications Commission.

Bell wants a 5.6 percent increase in June for overseas and out-of-state calls and an additional 4.9 percent jump in October. Earlier this month, AT&T announced record earnings of \$5.7 billion in 1979, the largest annual profit ever reported by a single company.

THAT

This is the world's largest electricity-generating windmill at Howard's Knob in Boone, N.C., after it was dedicated in 1979 at a cost of \$3.5 million. The twin-bladed wind machine does not work despite

the fact it is one of NASA's pet projects. Many residents in Boone have taken to poking fun at the structure and two residents have made a comedy film about the windmill.

# West Texas counties gain wildcats, discovery, new field projects, wells

Larry Cleveger of Waco will drill the No. 1 Blaylock as a 500-foot shallow wildcat in Tom Green County, 12.5 miles west of San Angelo.

Drillsit is 467 feet from north and ,593 feet from east lines of A.M. Condron survey No. 2.

It is 3,600 feet southeast of the depleted Rape (Clear Fork) field.

IRION EXPLORER

Hargas Production Co. of San Angelo filed application to drill the No. 1 L.E. Tankersley as a 2,000-foot wildcat in Irion County, 10 miles south of Mertzon

Location is 1,517 from north and 4,397 from east lines of section 12, GC&SF survey.

The site is 1.25 miles west of the San Angelo opener and lone producer from that pay in the Tankersley

SUTTON TEST

J. Cleo Thompson of Dallas announced plans to drill the No. 3 Mayer as a 9.000-foot wildcat in Sutton County, 18 miles southeast of Ozona

Location spots 3,762 from north and 471 from east lines of section 5, McMullen County School Land survey. Ground elevation is 2,345 feet.

It is surrounded by Canyon production in the Sawyer multipay and 5/8 mile south of production in the Mayer Ranch (Canyon gas) field.

MCCULLOCH VENTURE

Peter Henderson Oil Co. of Houston will drill the No. 1 Aaron Damron as a 2,000-foot wildcat in McCulloch County, three miles southeast of Pear Val-

Drillsite is 2,600 from north and 1,300 from east lines of section 84, E.W. Harris survey, abstract 2180.

FISHER ACTIVITY

WES-TEX Drilling Co.-Oakland Corp. of Abilene will drill the No. 1

## Ward oiler takes final

Mobil Producing TX & N.M. Inc. has completed its No. 3-AK State in the Caprito (Delaware middle) field of Ward County, five miles northwest of Pyote.

A re-entry project, it finaled for a daily flow of 126 barrels of 38.7-gravity oil and 34 barrels of water, through 12/64-inch choke and perforations from 5,988 to 6,014 feet, which were fractured with 30,000 gallons.

The gas-oil ratio is 658-1.

Total depth is 6,767 feet, with 4.5inch casing set at 6,313 feet, the plugged back depth.

Location is 2,064 feet from north and 1,984 feet from east lines of section 2, block 18, University Lands survey.

> NOW! **Dial Direct** TO PLACE CLASSIFIED Want Ads DIAL 682-6222

Perry as a 6,000-foot wildeat in southwest Fisher County, seven miles

northwest of Sweetwater. Location is 660 from south and 1,860 from east lines of section 9, block 22, T&P survey

The site is 3/8 mile southeast of the depleted Perry Ranch (Canyon oil) field, which produced at 5,256 feet.

W.B. Trammell of Houston will drill two offsets to his No. 1 Trammell. opener and lone producer of the Judy Gail, East (Canyon) field of Fisher County, five miles northwest of Ham-

The No. 5 W.B. Trammell is 1,648 from south and 1,920 from west lines of section 184, block 1, BBB&C survey. It is 1.500 feet southeast of the discovery well.

The No. 6 Trammell is 1,375 from north and 1,920 from west lines of section 184, block 1, BBB&C survey. It is approximately 1,650 feet northeast of the discovery well.

Both projects are scheduled to 4,700

R.L. Adkins of Sweetwater finaled the No. 1-B Wickham as a location northwest extension to the Wickham (Palo Pinto gas) field of Fisher Coun-

ty, four miles west of Noodle. Operator reported a calculated absolute open flow of 13,500,000 cubic feet of gas daily, with gas-liquid ratio of 225,500-1. Gravity of the liquid was 59 degrees.

Production was through perforations ranging from 4,779 to 4,787 feet. which were washed with 1,000 gallons

Scheduled as a 5,000-foot wildcat, it drilled to 5,006 feet, where 4.5-inch casing is landed. Plugged back depth

Location is 6,097 from north and 467 from east lines of George Creath survey No. 221.

The new well is surrounded by production in the Raven Creek (Strawn and Canyon) field.

RUNNELS STRIKE

J.V. Braswell of Dallas finaled the No. 1 M. Brookshire as a Dog Bend gas discovery in Runnels County, eight miles northeast of Ballinger.

Operator reported a calculated absolute open flow potential of 1,050,000 cubic feet of gas per day, with a gas-liquid ratio os 545,000-1. Gravity of the condensate is 61 degrees.

Production was through perforations from 3,292 to 3,297 feet, where were acidized with 250 gallons. Drilled to 3,798 feet, 4.5-inch casing

is set on bottom. Plugged back depth is 3,500 feet.

Top of the Dog Bend is at 3,292 feet on ground elevation of 1,718 feet. It is 7/8 mile northwest of produc-

tion in the P.W.C. (multipay Serratt oil) field.

RUNNELS EXPLORER

E.B Fletcher of Dallas will drill the No. 1-317 Clarence Eager as a 4,900foot wildcat and as an approximate 1;650-foot southwest stepout to production in the Deike (Goen) field of Runnels County, 3.5 miles south of

Drillsite is 250 from northeast and northwest lines of section 17, Henry L. Bays survey No. 444.

COKE TEST SLATED

Natomas North America Inc. of Midland will drill the No. 10 Higgins as a 6,400-foot test in the Higgins Ranch (Canyon) field of Coke County, from east lines of section 76, block Z,

enter and deepen to 6,500 feet for tests in the Higgins Ranch (Canyon) field at its No. 1 Higgins, the field opener. It originally drilled to 5,998 feet, plugged bck to 5,948 feet and finaled

Highway authorities report drop in toll revenues, taxes

By WILLIAM GLASGALL **AP Business Writer** 

Many states and highway authorities across the nation were hit with a drop in fuel-tax and toll revenues in 1979 as gasoline shortages and sharp price increases combined to keep U.S. motorists off the road.

State officials and Wall Street bond analysts say the revenue slowdown could lead to delays in highway main-

ENERGY

tenance and to boosts in tax and toll rates.

The slowdown has hit as soaring interest rates are forcing states to pay more for the money they borrow and as spiraling crude oil prices have pushed up the price of petroleumbased asphalt paving by nearly 31

percent over the past year. U.S. gasoline use fell 5 percent from 1978 to 1979. The Energy Department predicts gasoline use will fall 2.4 percent more in 1980 as prices continue to rise and as new-car fuel mileage im-

A doubling of foreign crude oil prices and other factors pushed the average price of a gallon of regular leaded gasoline up by nearly 40 cents last year to \$1.06. The price could hit \$1.52 by the end of 1980, according to

the Energy Department. The Federal Highway Administration estimates state fuel tax collections nationwide totaled \$9.8 billion last year, a slim 0.9 percent ahead of the \$9.7 billion collected in 1978.

REVENUES FROM state fuel

taxes, which now average about 14

cents a gallon, had been rising at a 5 percent-a-year rate in 1976-78. The slowdown also is affecting revenues from the 4-cents-a-gallon federal levy on gasoline and diesel fuel, with collections in the fiscal year ended last Sept. 30 of \$4.86 billion - 2.2 percent ahead of those for fiscal

"We expect considerable decreases" in federal fuel-tax revenues this year, said Edward Gladstone, chief of the administration's highway

finance branch. According to analyst George P. Gregorio of the brokerage firm of Prescott, Ball & Turben, toll roads used for pleasure driving and those in rural areas have been hardest-hit by

# Duncan reports on Saudis

RIYADH, Saudi Arabia (AP) -Energy Secretary Charles W. Duncan ended a three-day visit to this oil-rich kingdom today assured the Saudis are "determined to be statesmanlike in their energy policies," a U.S. Embassy spokesman said.

The spokesman, speaking after Duncan had left for Washington, said the secretary's talks with Crown Prince Fahd, Oil Minister Sheik Ahmed Zaki Yamani and other Saudi officials were of a "rather general nature.

Saudi Arabia, which provides 20 percent of the more than 8 million barrels imported daily by the United States, has often acted as a moderating force within the Organization of Petroleum Exporting Countries. Its current \$26 per-barrel price is lower than that charged by many oil-pro-

"No specific requests were made of either side. There was general agreement that continuing, more regular discussions be held between the parties on energy issues worldwide," spokesman said. He added there had been "no specific discussion of numbers - either of production levels or

There have been reports that Saudi Arabia was preparing to cut back production levels from 9.5 million barrels a day to its official ceiling of 8.5 million barrels. The kingdom increased production following cutbacks in world oil supplies caused by the 1978-79 Iranian revolution.

Riyadh had argued that, by exceeding its official ceiling, it was supporting world economic stability. At the same time, Saudi officials said the United States should not put added pressure on the international market

by building up its strategic reserves.

That buildup has since been stopped and Washington has said it would not resume reserve purchases without first consulting its allies and oil-producing countries.

The U.S. spokesman said Duncan sought to impress on the Saudis that the Carter administration "is determined to reduce consumption through various methods." Saudi officials have in the past expressed concern over what they consider excessive oil

consumption in the United States. "It was clear to the secretary that the Saudis also are determined to be statesmanlike in their energy policies in view of the world needs and the importance of the Saudi role in the world economy as concerns energy,'

Duncan arrived in the Saudi oil center of Dhahran on Saturday. He met with Saudi officials in Riyadh, the capital, on Sunday.

the traffic decline, while roads with heavy commuter and commercial

traffic are less affected The Pennsylvania Turnpike logged a 6 percent drop in traffic last year. In Illinois, traffic on rural and interstate roads was down by about 10 to 20 percent last summer from levels of a year earlier, while city traffic was off

by 6 percent. Toll revenues on the New Jersey Turnpike, a major truck and commuter route linking the New York and Philadelphia areas, rose about \$47,000 last year to \$100.9 million.

BUT ON NEW Jersey's Garden State Parkway, which over much of its distance is restricted to passenger cars only, collections fell \$156,000 to \$65.3 million.

Toll revenues fell 1.1 percent last

year to \$79.9 million on the New York State Thruway, and spokesman David Alexander said the road is "seriously considering a toll increase" to help pay for a \$150 million rehabilitation program. "We've got to get some new dough," said Alexander, who added

back to present revenues until around 1981 or 1982." Ten states raised fuel taxes last year, said Gladstone, while others are

the Thruway does not "expect to get

planning boosts in 1980. In Florida, a gubernatorial commission has recommended raising the state's 8 cents-a-gallon gasoline tax by 4 cents. It said the new tax rate should be allowed to rise with climbing prices to keep revenues from

dropping as sales fall. But last year's increases didn't al-

ways work as intended. PENNSYLVANIA HAD hoped a 2cent boost to 11 cents a gallon in the

state's gasoline tax would add \$100

million to the state's coffers. Officials

now believe that the state will fall \$60 million short of its \$569 million gasoline tax revenue goal for the year

ending June 30. "The public has now realized that not only Pennsylvania but the entire nation will never again have the abundant supplies of gas they were once used to," said a spokesman for Gov. Dick Thornburgh's Energy

Council. In addition, consumers are worried "they just won't have the money today for gas," said analyst Terry Wolfe of the brokerage house of Bache Halsey Stuart Shields Inc.

New Mexico relies heavily on a 7 cents-a-gallon gasoline tax to finance its highway department budget, but saw tax collections drop to \$27.3 million in the second half of 1979 from \$29.2 million a year earlier.

"This really put a crimp in our budget," and forced the department to cut back "in some very important areas" including maintenance and road building, said Highway Administrator Fred O'Chesky.

In Louisiana, an 8 cents-a-gallon gasoline tax yielded \$164.9 million in the year ending in June 1978, and \$172 million in the year ending in June 1979. But revenues are expected to fall to \$170.4 million in the current fiscal year.

In California, which has a 7-cents a gallon gasoline tax, revenues fell to \$796 million last year from \$808 million in 1978. The situation was similar in Texas, where 1979 revenues from a nickel-a-gallon gasoline tax were off by \$3.2 million at \$349.9 million.

Tennessee's fuel tax collections in the last six months of 1979 ran about \$10 million behind levels of a year earlier. The state Revenue Department has estimated revenues for the full fiscal year ending June 30 will be \$25 million behind the previous year's \$214.7 million.
