Bank deposits set another record here

By SUE FAHLGREN Staff Writer

Midland bank deposits reached an all-time high during the last quarter from April 1 to June 30, with a total of \$1,139,965,027. The figure represents a 9.5 percent increase over last quarter's figure of \$1,031,158,301 and a 30 percent increase from last year's figure from the same time.

Loans and discount figures for the same period were up 8 percent from last quarter, totaling \$772,838,322. That figure represents an overall increase of 25 percent since the 1979 figure for the same period.

Nearly all of the six Midland banks showed an increase in both deposits and loans, whereas last quarter only one, Midland National Bank, showed an increase. Commercial Bank and Trust, however, decreased its total deposits and loans this past quarter, with a drop in deposits by 3 percent and in loans by 5 percent. The only other decrease from this period came in Western State Bank's loan figure, which dropped 5 percent.

ALL OTHER BANKS showed increases in both deposits and loans.

The First National Bank, Midland's largest bank, again had the largest amount of deposits and loans. With a figure of \$744,513,569 in deposits, First National showed a 12 percent increase over last quarter's figure of \$652,127,-149. The increased deposits represented a 34 percent increase since the second quarter of 1979.

Loans and discounts at First National increased 11 percent since last quarter with a figure of \$549,788,453. The first quarter figure on loans at First National was \$488,875,493. Loans and discounts increased 32 percent there since 1979's second quarter fig-

Midland National Bank, which re-

corded almost 7 percent increase in deposits during the first quarter of this year, had one of the lowest increases this quarter, with 3.8 percent and a figure of \$269,678,782. Last quarter, the bank recorded a figure of \$259,444,001 in deposits. This quarter's figure represents an increase since the second quarter of 1979 of 23 percent.

THE LOANS AND discounts figure at Midland National climbed 4.5 percent since last quarter, totaling \$154,-301.161. Last quarter, loan figures totaled \$147,284,211 at Midland National. This quarter's figure was 9 percent higher than the same time last year. Tony Martin, president at Midland National Bank, said the bank's figures for this quarter represented "the continued growth of the bank." Further, he said, "the economic times in Midland are good."

Martin said the increase was "what expected. I expected this growth to continue through 1980," he said Wednesday.

Because of the oil and gas indus-tries here, Martin said, "Midland is a unique island out here" in that it is growing while other cities are in an economic slump.

Martin said he expected loan interest rates to decline during the coming months and construction and loans to increase. Currently, he said most loans have been going to the gas and oil industries for construction and drilling. Later, he predicted, more loans will be going to other commercial industries as well as individuals.

FIGURES FROM Commercial Bank and Trust decreased last quarter. Deposits decreased 3 percent, totaling \$75,863,578, while last quar-ter's figures totaled \$78,294,339. How-

"1976 was an excellent year," said veteran fireworks salesman Leroy Jones. "We sold piles of fireworks that year."

However, 1979 was not a good year for the fireworks industry. "Business was really pitiful last year," according to Jones, "but this season promises to be much better. We've already done pretty good at this stand, and some people I know who run other stands say they haven't done bad either.

Jones attributed last year's drop in business to inflation and the threat of recession. "Maybe people were just beginning to realize that they needed to cut back on their spending," he said.

Things are different this year, though. "I don't know; it just seems like no matter how bad things are, people always seem to have an extra \$10 to buy fireworks with," said Jones.

JONES, WHO HAS worked for the past five years selling fireworks in a stand west of town, can testify to the fact that Americans' obsession with fireworks and pageantry on the Fourth of July is no stranger to the Midland area.

\$10 shell which features "three really high-flying displays in three different colors." He explained that these types of fireworks are most often used in big public displays.

Those with more limited budgets can spend as little as 25 cents for small smoke bombs, or 50 cents for a package of 50 firecrackers.

Jones' most popular item is the bottle rocket, which is available in bundles of 100 or so for \$3.50. "We also sell an awful lot of sparklers," he said.

FIRECRACKERS ARE another "hot" item, and are available in assorted amounts ranging from the 50-cent package to a \$20 package of 1600. "We sell an awful lot of the \$20 packages to people from out of state, where fireworks are illegal," said Jones, who added that Texas is one of only a few states where fireworks can be sold.

"One of these \$20 packages can sell for as much as \$100 in another state," he said.

Although fireworks are legal in Texas, laws restricting their sale and (See FIREWORKS, Page 2A)

the department would become a tool

WASHINGTON (AP) - President Carter, beginning a two-week trip mixing politics, relaxation and diplomacy, headed into Ronald Reagan's California backyard today to meet the staunchest pro-Carter labor group in the nation.

The president was to speak before the National Education Association. whose recent political activism has resulted in a powerful role for itself and Carter - at the upcoming Democratic National Convention.

Though Carter's journey was conceived as an "Energy Independence Day" celebration, it was recast after last week's congressional defeat of a key energy bill. The trip now is being billed as an official presidential visit with some time out for campaign fundraising.

The political nature of the fastpaced tour of former Gov. Reagan's home state is inescapable. California is the first leg of a trip that will keep Carter away from the White House for two weeks. Other stops on the trip include Florida, Georgia; Tokyo; Alaska and Georgia again.

Carter campaign.

The Shorensteins reportedly expect about 300 paying guests for dinner.

The White House said Carter will return to Oakland to spend the night at Mayor Wilson's home, then fly Friday morning to Merced in the heart of the produce-rich San Joaquin Valley, about 130 miles east of San Francisco. He will answer area residents' questions at a "town hall meeting" at Merced College, then fly to Modesto for a fund-raising brunch.

Carter leaves California at noon Friday to fly to Miami, where he will

Ma Bell may try for big rate hike

AUSTIN (AP) - Ma Bell is keeping her mouth closed, but a Public Utility Commission lawyer says the phone company might try to "sock it to" some customers when it files its rate hike request

In the next few days Southwestern Bell Telephone Co. will ask for a statewide rate increase of about \$300 million, spokesman Dale Johnson sadi Wednesday.

Johnson would not divulge specifics of the rate request, but PUC lawyer Allen King speculated Wednesday on the nature of the request.

"I have a feeling the rate design (who pays the increase and how much) is going to be unusually significant to the business community in this case," King said.

He predicted Bell would "sock it to" customers of private line service, which includes burglar and fire alarm services.

He said Bell "always asks for" an increase in ordinary residential telephone rates and this case should be no exception

"My information is they will not ask for any long distance increase, but we probably will because it hasn't been increased since 1976," King said.

address the annual convention of the

state-of-the-art cleanup technology."

TMI plant's owners blame government

HARRISBURG, Pa (AP) - A new federal report says the Three Mile Island nuclear plant is getting more dangerous by the hour, but the plant's owners say that's partly because of too much federal interference.

"The longer it takes to remove the radioactivity from inside the plant, the more likely it is that further accidental releases of radioactivity will occur," said the report, released Wednesday by the Senate's Environment and Public Works subcommit-

The study concluded that the chance of radiation releases - or even a reheating of the reactor core use of cleanup com-

which is monitor-

ry, Page 7B

le Island cleanup, The likelihood of further accidents increases with time," the

"At present, the plant's condition is error," it added.

Ken McKee of General Public Utilities, parent company of plant operator Metropolitan Edison, said some of the delay in the cleanup is inevitable because the operation is "unprecedented in scope and application of

But he said vague guidelines and step-by-step Nuclear Regulatory **Commission** approval procedures also contributed to the problem.

"We need some firm guidelines under which we can operate," he said, as well as advance NRC approval of

entire cleanup methods. Latest estimates indicate the cleanup will cost significantly more than the initial \$400 million estimated and may take until 1985.

The first step in decontaminating the reactor containment building, the release of 57,000 curies of radioactive krypton gas, has been under way since the weekend.

Plant spokesman Sandy Polon said 21 percent of the krypton trapped in the containment building since the accident 15 months ago had been released into the atmosphere by Wednesday evening.

Monitoring programs are reporting occasional radiation readings slightly above normal levels. But the accumulated exposure at each location is less than 1 percent of the limits set by the government, says the Environmental **Protection Agency.**

Meanwhile, the governor's office came to the defense of Pennsylvania officials criticized in the report for relying too much on "incomplete and often inaccurate information supplied by the utility."

Because of that reliance, the committee said, officials failed to consider seriously the possibility of acting to protect residents.

"There seems to be a deja vu lack of understanding in Washington of what went on here a year ago and even what's going on today," said Roland Page, an aide to Gov. Dick Thornburgh.

"The governor never relied on the utility as the basis for his decisions during the accident. Nor did he fail to consider the need for evacuation, should that have become necessary, said Page. "He tried to gather information from all sources.

Floods, twisters damage six states

Associated Press Writer Vicious thunderstorms and tornadoes ripped through a half-dozen states, causing flash flooding that swept several children to their deaths, while the south-central states sweltered in hellish temperatures and parched farmland cracked in the northern Plains.

In Kentucky, after a day of near-100 degree temperatures, two people were killed in storms Wednesday. One man died when 60 mph winds blew a tree onto his mobile home near Cave Hollow Bay. In Taylorsville, 7-yearold Mathew Jeffries drowned when the car he was in was swept away at a creek crossing. His mother rescued her three other children.

A thunderstorm thrashed southern Indiana, bringing more than 21/2 inches of rain in two hours. Officials were searching for the body of a 4-year-old Evansville girl whom they believed was swept into a street sewer as she was walking home...

On Lake Kincaid, in southern Illinois, a 7-year-old girl drowned when a heavy thunderstorm capsized the boat she and her mother were in.

At least 25 people were injured in the Illinois storms, and six counties, sustaining some \$15 to \$20 million in damage, were declared disaster areas by Gov. James R. Thompson.

In Carbondale, Ill., the storm toppled 40 mobile homes and tore the roof off a 24-unit apartment building. In Bremen, St. John's Church, a 98-yearold building, was struck by a twister that left only the steeple and pulpit standing.

Tornadoes also were reported in Louisiana and Missouri, with funnel clouds in Tennessee.

Meanwhile, heat-related deaths in the Southwest topped 90 with 60 in Texas, 14 in Oklahoma, 16 in Arkan-

away from his babysitter. His body was found a few hours later behind a home, his body temperature at 103 degrees.

In Texas, where 100-degree-plus readings have been common since mid-June, forecasters predicted the horrendous temperatures would last at least one more week, possibly for the rest of July.

The heat wave pushed tempera-tures Wednesday to 114 degrees at Wichita Falls, 110 at Dallas-Fort Worth, 106 at Abilene and Waco, and 103 at Houston, Austin and San Antonio.

In Oklahoma, Hobart recorded 110 degrees, Ardmore 108, Oklahoma City 105 and McAlester 103 on Wednesday. Residents of Tulsa, McAlester, Oklahoma City and its surrounding communities have been asked to curb water use or face rationing.

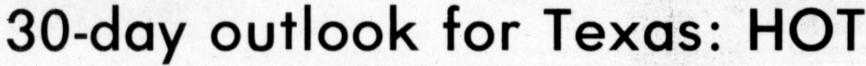

The heat in the Southwest and dry weather in the Plains have taken a terrible toll on agriculture.

"If we don't get a break in the weather the next three or four days, we will see a real catastrophe in our state as far as agriculture is concerned," said Texas Agriculture Commissioner Reagan Brown.

"We are just burning up. Everything is gone. We will try and salvage what we have for hay, but as far as the grain is concerned, it is gone, said V.H. Neumann, who grows grain and raises cattle west of San Antonio

In Arkansas, Gov. Bill Clinton traveled to the southwest part of the state to visit poultry farmers whose birds have died by the millions in the heat.

Poultry producers in Mississippi say retail prices could jump four to five cents because of the losses from the heat wave.

DALLAS (AP) - Texans who already have endured weeks of blistering temperatures will find little solace in the latest bleak prediction from the National Weather Service. "It doesn't look good," a weather service spokesman said. "Our 30-day prognosis calls for above-normal temperatures and below-normal precipitation.'

Wichita Falls, Dallas, Houston and Abilene — suffered Wednesday through the hottest July 2 on record.

Among the latest victims was a grees

night.

Officials at the hospital made arrangements with an ice company to deliver a large shipment of ice to stock in the emergency room's two freezers.

Fireworks sales 'hot,' Midland dealers report

(Continued from Page 1A)

use are tough. Fireworks, in the wrong hands, can be a safety as well as fire hazard.

"To run this stand, we had to get a permit from the state fire marshal, and our stand had to be a certain amount of feet outside the city limits.

A city ordinance prohibits the sale or use of any fireworks within the city limits, according to a Midland Police department spokesman.

THE SPOKESMAN said that, although no extra patrol cars will be on duty, the fireworks laws will be strictly enforced due to the especially hot, dry weather.

"We expect to really have our hands full this year because of the dry weather," said Midland Fire Department Chief Raymond Lewis.

"If people are going to be shooting these things off, we ask that they do it in well-irrigated farmland, and not in some dry, grassy pasture," he said.

He advised that these persons should also keep a garden hose handy. Lewis said that the fire department responded to calls for 37 fires around the Fourth last year, and most were related to fireworks.

Groups planning large public fireworks displays must have a special permit from the state fire marshal. A fire department truck will be on hand for emergencies at the display planned at Cubs Stadium tonight, Lewis said.

BESIDES POSING a serious fire hazard, fireworks can be very dangerous if mishandled. They are explosives, and should be treated as such.

The Texas Society for Prevention of Blindness estimates that some 8,028 Americans were treated last year for injuries received from fireworks. More than 1,600 of these were eye injuries.

Dr. A.H. Meckley, a Midland opthalmologist and representative for the Texas Society for Prevention of Blindness here, said that a July Fourth holiday rarely passes that he does not treat someone, usually a child, for a serious eye injury.

Sparklers, which are hand-held and especially popular with younger children, cause many injuries, he said. "A spark from one of these things that flys up into the eye can cause a really severe burn. I treated one case a few years ago in which a spark lodged in the patient's cornea, and caused permanent vision loss in that eye.'

Dr. Meckley urged caution, and advised that supervision of children with fireworks is a must.

The American Council on Fireworks Safety encourages fireworks enthusiasts to read directions carefully and buy all fireworks from reliable salesmen. Water should be readily available, and an adult should be present if children are igniting the fireworks.

Fireworks should never be ignited indoors, and observers should keep a safe distance once they are ignited. They should be lit one at a time, and should never be reignited if they malfunction.

1979.

The heat wave, which has sent the mercury past the 100-degree mark for 10 straight days, brought temperatures Wednesday of 114 at Wichita Falls, 110 at Dallas-Fort Worth, 106 at Abilene and Waco, and 103 at Houston, Austin and San Antonio.

At the same time, humidity was 16 percent at Wichita Falls and Abilene, 21 percent at Dallas-Fort Worth and 35 percent at Houston.

Temperatures are expected to reach about 105 the next couple of days.

Forecasters for the weather service predicted 100-plus temperatures for at least one more week, possibly for the rest of July.

Wednesday marked the 10th consecutive day of record-breaking temperatures at Dallas-Fort Worth and the ninth in a row for Wichita Falls. Weather men looked back to 1911 to find another year with 13 days over 100 degrees.

Highest temperatures, reached 119 at Presidio and 117 at Wichita Falls last month. Dallas reached an alltime high of 113.

"If we don't get a break in the weather the next three or four days, we will see a real catastrophe in our state as far as agriculture is concerned," said Texas Agriculture Commissioner Reagan Brown.

The hot and dry weather has destroyed some crops and sharply reduced others, Brown said.

V.H. Neumann, who grows grain and raises cattle on several sections of land 50 miles west of San Antonio, normally harvests a half million pounds of milo grain.

"We are just burning up. Everything is gone. We will try and salvage what we have for hay, but as far as the grain is concerned, it is gone,' Neumann said.

The heat wave has been blamed for the deaths of about 60 Texans, twothirds of them in Dallas, since the temperatures began to climb over the century mark on June 23. The casualty list is certain to climb, says an investigator for the Dallas County medical examiner.

there will be a second wave of deaths. The first wave claimed its weakest victims, but in the second wave more will die as more and more people

inside their "very hot" houses

An 80-year-old bedridden Dallas woman was taken against her will to a hospital after she refused to leave the sweltering house where she lived by herself. Her daughter obtained an emergency court warrant from a justice of the peace to get the woman, who recently suffered a broken hip,

taken to Parkland Hospital over-

ed in Dallas last year, while in 1978, 1 was reported in June, 14 in July and 2 in August. Officials said they couldn't recall any high numbers before 1978.

tub of ice water," Dr. Norton said.

All the generators at Dallas Power & Light's eight power plants are operating around the clock to handle

No heat stroke deaths were reportbut only a handful showed up to stay in them. "For whatever the reason, people

who need the help most have refused to leave their homes even for short periods of time," said John Pickett of the Dallas Office of Emergency Preparedness.

ward off a recession, employers cut overtime and work hours. If orders continue to fall and inventories pile up, as they are doing, the next step often must be layoffs.

The Labor Department also reported that total employment in the country fell by 450,000 in June, the fourth consecutive monthly decline. Since February, when the employment level peaked, the number of persons with jobs has fallen by 1.4 million, with most of this loss affecting adult males.

The downturn in employment since February had about matched the job gains of mid-to-late 1979, so that the overall level of employment for the month - 96.5 million people - was about the same as in June 1979, the department said.

However, during that time, the level of women working rose by a million while the number of employed adult men and teen-agers dropped 700,000 and 470,000, respectively.

The total number of people employed and unemployed makes up the labor force, which dropped by 600,000 in June to 104.5 million people, the department said.

mists are discounting June's slight dip. Because of sharp fluctuations in the labor force, it is important to look at changes over more than a single month, they say.

A huge number of high school and college-age youth began searching for jobs in May, somewhat earlier than they usually do, and this contributed to that month's severe rise in unemployment, government officials explained.

ures were usually down for the year. Officials said because tax payment time falls within the period, a decline is likely.

Western State Bank showed an increase in deposits for the second quarter, but showed a decrease in loans. Up 5 percent since last quarter, Western State's deposits totaled \$21,437,-461. Last quarter's figure was \$20,350,-130. This quarter's increase marked an overall increase of 9 percent since 1979's second quarter figures.

As for the loans and discounts at Western State, there was a decrease by 5 percent, bringing the total for the

period to \$10,679,258 from \$11,313,982 for the first quarter. Overall, the loan decrease showed an overall reduction of 23 percent since 1979's second quarter.

Midland bank deposits set another record

WESTERN STATE Bank president Giffert Alstrin said the figures were "indicative of the general economy." He said citizens, were trying to pay off loans and borrow less, while they deposited and saved more. However, he said, Midland "has been experiencing accelerated growth. Themarket is growing and we're servicing the market." he said.,

Metro Bank showed one of the highest increases in both deposits and loans. Recording an increase of 22.6 percent since last quarter, the bank's deposits came to \$6,715,377. That figure represents an overall increase of 54 percent since the second quarter of 1979. Last quarter's figure was \$5,197,-

Loans and discounts at Metro Bank rose 16 percent, bringing the total to \$4,464,436 over last quarter's figure of \$3,753,999. Overall, the loans and discounts rose some 49 percent since the second quarter of 1979.

1 2

Texas National Bank had the highest percentage of increase in discounts, marking a 27.6 percent increase since last quarter with a figure of \$21,756,260. Last quarter the bank recorded \$15,745,422 in deposits. Overall, since the second quarter of 1979. deposits at Texas National increased 53 percent.

Loans and discounts at Texas National rose only 2.8 percent since last quarter with a total of \$3,320,077. Last quarter's figure was \$3,225,339. Overall, there has been a 63 percent increase in loans since the second quarter of 1979.

hour since March.

unemployment rate slipped slightly in June to 7.7 percent, the government reported today, but many economists cautioned that joblessness will continue to rise in coming months and exceed 8.5 percent by year's end. The 0.1 percent dip from May's 7.8

percent jobless level followed unusually sharp increases of 0.8 percent in both April and May, bringing the unemployment rate to the highest level since President Carter took office.

Despite the stability in overall joblessness last month, the number of persons on temporary layoff as well as those whose jobs had been terminated continued to rise in June, the Labor Department said.

This trend was countered by a decline in the number of unemployed people who re-entered the labor force.

The department's report showed that the number of unemployed persons fell by about 148,000 to 8 million in June

The jobless rate for most worker groups showed little change from the previous month, with the only rise occurring among adult men from 6.6 percent to 6.7 percent. The rate for adult women dipped to 6.5 percent from 6.6 percent; teen-agers, 18.5 percent from 19.2 percent; whites 6.8

percent from 6.9 percent; and minorities 13.6 percent from 13.9 percent. Among minority teen-agers, the group traditionally highest in unem-

Pope gives his gold ring to Brazilian slum

RIO DE JANEIRO, Brazil (AP) — Pope John Paul II again defended priestly celibacy and rebuffed Roman Catholic leaders who contend that such restrictions must be relaxed because of the decline in the numbers joining the priesthood.

ORDAINING A GROUP OF DEACONS before a throng of nearly 200,000 in the world's largest soccer stadium, the pontiff warned them that their church has not changed its requirement that priests remain celibate and its opposition to marriage for priests.

"Do not delude yourselves," the pope said, "that a priesthood less austere in its demands for sacrifice and renunciation — as, for example, in the discipline of celibacy — will attract more people to follow Christ. Quite the contrary...daily sacrifice keeps alive the evangelical ideal." It was John Paul's second address Wednesday restating a conservative

guideline for the church. He reiterated his opposition to political action by the clergy in a speech to the Latin American Episcopal Committee, telling the international council of bishops that their church is above "economic and political systems...and ideologies." He said political parties and public office are reserved for the laity while priests should stick to their

spiritual mission.

THE POVERTY-STRICKEN CATHOLICS of one of Rio de Janeiro's teeming shantytowns were richer today by one gold ring — stripped by the pope from his finger and presented to their parish priest after he visited their slum chapel.

The crowd applauded politely as the ring was passed to the parish priest, known as Brother Benjamin, outside the Chapel of St. Francis of Assisi. An official of the parish said the slum dwellers would meet to decide what to do with the ring.

A Vatican spokesman said the simple gold band decorated with a square Greek cross was given to John Paul by his predecessor, the late Pope Paul VI, in 1967 when he made him a cardinal in 1967.

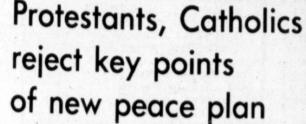

THE GESTURE WAS REMINISCENT of Pope Paul's presentation of his jeweled papal tiara to the United Nations when he visited its headquarters in New York in 1965. The tiara was exhibited on tour to raise money to aid the hungry. The ring was valued at about \$1,000 but could bring a great deal more if sold at auction. "In the whole world, the church wants to be the church of the poor," the pontiff said as he walked the mean streets of Vidigal. "Remember that the value of man is not measured by what he has, but what he is."

He assailed the rich, "whose idol is profit and pleasure....May the truth disturb them."

A VISIT TO THE THREE-ROOM SHACK of Elvira Almeida Lima left her in tears.

"We've been working for 13 years, and now we have a pope in our favela and a pope in our house," sai'd Mrs. Lima's son Armando, the leader of the Vidigal Slum Dwellers Association.

Today, the fourth day of the pope's 12-day tour of Brazil, he was flying south to Sao Paulo, South America's biggest city and Brazil's industrial center. It is also a center of the progressive wing of the Brazilian Catholic church, and religious leaders there have often opposed the rightwing military government on issues of human rights.

LONDON (AP) — Northern Ireland's Protestant majority and its Roman Catholic minority rejected the key planks in Britain's new peace plan for the war-torn province, apparently dooming the latest effort to end the 11 years of sectarian bloodshed.

The largely-Catholic Irish Republic Army, which has vowed to run the British out of Northern Ireland, also appeared to veto an end to the fighting with a bomb blast early today that destroyed a country police station northwest of Belfast. Authorities said a police officer and his family were injured.

Prime Minister Margaret Thatcher's Conservative government announced two alternatives Wednesday for an 80-seat provincial assembly and government that would resume some of the regional governing powers taken over by Britain when it dissolved the Protestant-dominated Northern Ireland Parliament and began running the country from London eight years ago.

The two biggest Protestant parties, the Official Unionists and the Rev. Ian Paisley's Democratic Unionists, balked at the first proposal, a form of the power-sharing with the Catholic minority which they have rejected twice fore.

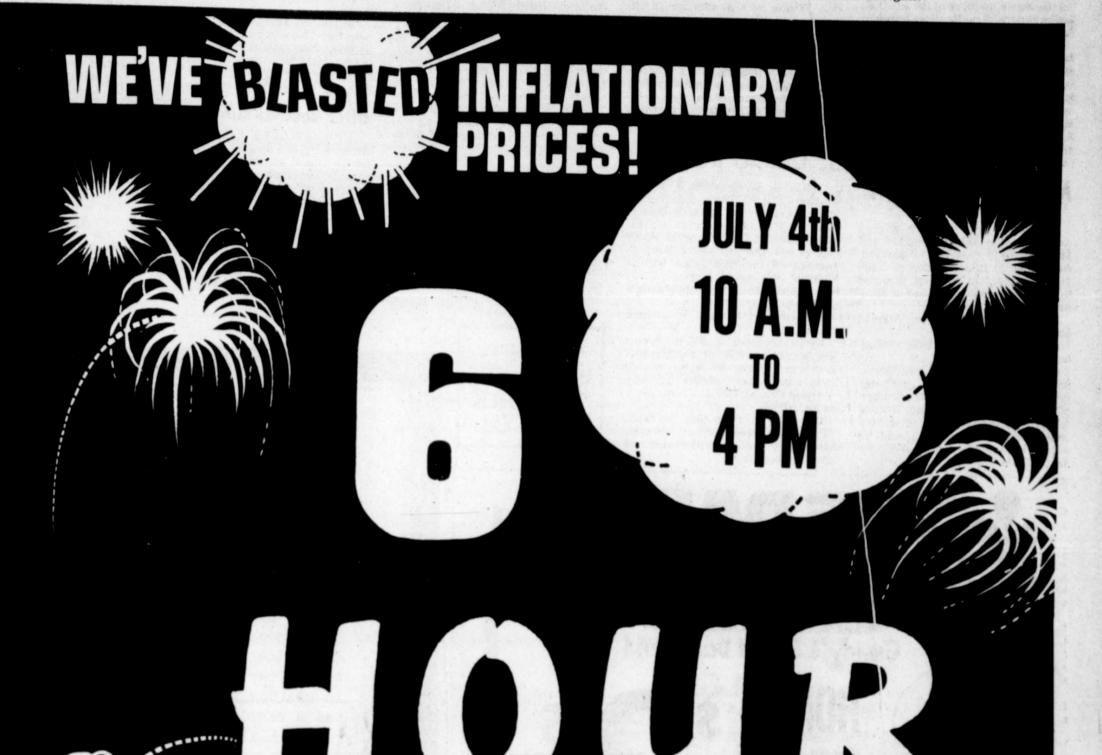

It would guarantee the Catholic's representation in the provincial cabinet in proportion to the number of seats they won in the assembly.

"We're not going to discuss it," said Official Unionist leader James Molyneaux. "It would be a waste of everybody's time. Rigged executives ... are a recipe for disaster."

The Protestants said there was hope of progress in the second option: sole control by the Protestants of the executive but "an effective voice in decision taking" for the Catholics on an upper parliamentary house to be known as the Council of the Assembly.

This, however, was rejected by the biggest Catholic party.

"An executive in which we would have no power is a futile exercise," said a spokesman for the Social Democratic and Labor Party. "At present there is no likelihood of the Unionists moving back from their instransigence against any form of power-sharing."

Decision gives state, defendant same appeal rights

AUSTIN, Texas (AP) — The Texas Court of Criminal Appeals' decision to allow the state to appeal a capital murder case to the U.S. Supreme Court gives the state the same rights as defendants, according to the district attorney who prosecuted the case.

However, dissenting judges on the appeals court chided their colleagues and called the decision "wrong, dead wrong."

A dissent by Judge Truman Roberts said, "The court has effectively rewritten our constitution, without the approval of the voters, by accumulating two inadequate reasons and one misunderstanding of constitutional law."

The court ruled 5-4 Wednesday that Gregg County District Attorney Odis Hill could have 30 days to ask the U.S. Supreme Court to review the case against Joseph Faulder, sentenced to die in the July 8, 1975, beating and stabbing murder of Inez Phillips at the 75-year-old widow's Gladewater home.

Faulder was arrested two years after the slaying.

ing. The Court of Criminal Appeals threw out the conviction, saying Faulder's confession was illegally obtained. On Wednesday, the court refused to grant a writ of prohibition to keep Hill from pursuing the case to Washington.

The dissenters said the new ruling violated a Texas Constitution article barring the state from appealing criminal cases.

"This is not a bright day in the history of this court," said Roberts.

However, Hill said the ruling gives "the citizens the same right for review as defendants."

"If the defendant has a right to appeal from our highest court to the Supreme Court, the state should likewise, on constitutional questions of law, have that right also," Hill said in a telephone interview Wednesday.

The Texas Constitution says, "The state shall have no right of appeal in criminal cases."

"Basically we argued that the state constitution only applies from one state court to another state court," Hill said.

A concurring opinion by Judge Leon Douglas said, "The dissenting opinion in the present case would have sounded more reasonable after Texas had seceded from the United States and before the questions were settled in the War Between the States, but that war has been over for quite a few years and we are now a part of the United States. The Constitution of the United States applies to all states," said Douglas.

Judge John Onion said the ruling opens a "Pandora's box."

DEATHS William Fuquay

STANTON - Services for William Edward Fuquay, 72, of Stanton were to be at 4 p.m. today in the First Baptist Church here with the Rev. Ed Carson, pastor, officiating. Interment was to be in Valhalla Mausoleum in Midland, directed by Gilbreath Funeral Home of Stanton.

Fuquay died Wednesday in a Stanton hospital following a lengthy illness.

He was born April 3, 1908, in Frank-lin County. He had lived in Stanton for 44 years. He was married to Myrtle Elizabeth White Nov. 28, 1930, in Franklin County. He was service manager for White Motor Co. in Stanton. He was a member of the I.O.O.F. Lodge and the First Baptist Church in Stanton.

Survivors include his wife; three daughters, Martha Lynn Cummings of Big Spring, Elizabeth Ann Butler of Stanton and Gerry Dell Anderson of Mission; two sisters, Gertrude Zimmerman of Mt. Vernon and Fredlissa Miller of Fort Worth; a brother, Harold Fuquay of Plano; eight grandchildren, and five great-grandchildren.

Miguel Castellon

Graveside services for Miguel Angel Castellon, infant son of Mr. and Mrs. Martin D. Castellon of Midland, were to be at 10 a.m. today in Fairview Cemetery in Midland, directed by Gilbreath Funeral Home of Stanton

The child died Tuesday in a Stanton

hospital. He was born June 21, 1980, at Stanton.

Other survivors include two sisters, Sandra Castellon and Susan Castellon, both of Midland; a'twin brother, Martin Castellon of Midland; his maternal grandparents, Mr. and Mrs. Ruben Garcia of Midland; and his paternal grandfather, Romolo Castellon of California.

Pryor's doctors pleased

after second surgery

SHERMAN OAKS, Calif. (AP) -Richard Pryor's doctors are waiting for the end of the week to see if the comedian's latest skin grafts take hold and whether another operation will be necessary.

"They accomplished exactly what they were planning and they were very happy," said Gary Swaye, assistant executive director of the Sherman Oaks Community Hospital, after the 39-year-old Pryor underwent a second skin graft operation Wednesday.

Wallet containing \$1,300 is found

Sometimes it pays to keep your head down when walking. Two Midland Reporter-Telegram employees out for a relaxing lunch at the Granada Club, 3312 W. Wall St., on Wednesday happened to look down at the parking lot and spied a wallet next to their vehicle.

Bennita Mitchell and Linda Rodriguez opened the wallet and found it stuffed with \$301 in cash and numerous credit cards. What they didn't know is that another \$1,100 was hidden in another pocket.

They called the man listed on the driver's license - Jimmy Sims of Odessa - and returned the wallet to a relieved owner. "He said he had lost it about 2

a.m. and just thought someone had found it and taken it," recalled Ms. Mitchell. But she figured that cars had parked over the wallet and people couldn't see it until she and Ms. Rodriguez walked by it.

"He was proud to get it back," Ms. Mitchell said. "Said he's never believed in banks before, but he did now. He was going to go put the money in the bank." For their honest efforts, the two women each received \$50 from Sims.

"It pays to be honest," said Ms. Mitchell who added with a laugh, "I'm going to walk with my head down all the time now.

Jordan's chief prime minister dead at age 41

AMMAN, Jordan (AP) - Prime Minister Abdul Hamid Sharaf died of a heart attack in Amman before dawn today, King Hussein announced in a communique. He was 41, a former ambassador to the United States and the king's chief pipeline to the Palestinian guerrillas.

Sharaf became prime minister last Dec. 19. During his six months in office, there was a steady mending of relations between Hussein's government and Yasser Arafat's Palestine Liberation Organization. He maintained a warm relationship with the PLO despite Hussein's bloody crackdown in 1970 that drove the Palestinian guerrillas out of Jordan.

During his college days in the late 1950s at the American University of Beirut, Sharaf joined Dr. George Habash's Arab Nationalist Movement, which sired several radical factions including the Popular Front for the Liberation of Palestine. Sharaf quit the ANM after it lost a power struggle in Syria to Baath Socialist Party in 1963 but remained on friendly terms with Habash and later developed friendships with other Palestinian guerrilla leaders.

Born in Baghdad, Iraq, in 1939, Sharaf was educated in Amman until he went to college in Beirut. He entered government service in Jordan in 1962, becoming director-general of the state radio.

Sharaf was recalled from Washington in 1976 to head Hussein's royal cabinet.

Los Angeles Times

There have been lots of great names in baseball history. Napoleon Lajoie (pronounced "Lash-oh-way"), Grover Cleveland Alexander, the only guy in the game with either three first names or three last names, "Germany" Schaefer, "Dummy" Hoy, "Ping" Bodie, Sibby Sisti. And Cletus Elwood Poffenberger and William Adolph Wambsganss weren't bad.

But, for sheer unadulterated alliteration, the all-time baseball name belongs to Van Lingle Mungo. You can't even say it, you've got to sing it. It sounds like something a guy would be singing from the rigging of a banana boat coming into port, or like the rumblings of a steel band. It's part calypso, part hog-call. The consonants just tinkle along like a runaway calliope.

A tunesmith was so taken with the sound of it, he wrote a whole song around it, making Van Mungo the only big league player I know of other than Joe DiMaggio to get a song written about him.

There will be a lot of big stars at the annual Oldtimers' Game at Dodger Stadium this Sunday. DiMag will be there. Willie Mays, Sandy Koufax, Duke Snider and Henry Aaron will, too. But the really big excitement will be presence of the man whose name is a song. Van Lingle Mungo

THE REASONS are quite personal. You see, whenever I come across the name, Van Lingle Mungo, immediately I'm 40 years younger. In fact, it's a hot day in the '30s

and I'm seated in the bleachers in a ballpark in Hartford, until you understand Van Lingle took his fastball and Conn. The mighty Hartford Senators are playing a July 4 double-header against the dreaded, despised treacherous New Haven Profs for the Eastern League first-half championship. Justice is triumphing because, on the mound for the home nine is the invincible Van Lingle Mungo, the best pitcher ever to throw in that league, the possessor of an unhittable fastball and a curve that swoops over the plate like a diving pelican. He strikes out 12 of the villainous New Havens that day, including their vaunted superstar from Yale, the footballer-turned-baseball player, Bruce Caldwell, three times. Hartford wins the pennant by 11 12 games. There is joy in Mudville and the sun is shining bright in Bulkeley Stadium.

WHY IS it the heroes of our youth are always more mythic, larger than life, than those we acquire later in life? Aren't you sure that senators and Presidents and ministers were better when you were a boy? Don't you secretly think Dempsey and Louis were really the last heavyweight champs? Weren't Gable and Cagney stars? And players in films today just actors? Weren't the winters colder, summers hotter, days longer, nights darker, then? Hasn't the world shrunk since you grew up?

So it was with Van Mungo and me. He and Jimmie Foxx, the slugger, were genuine, 14-carat legit bubble gum card-carriers' heroes. No one has quite made it since. Van Mungo didn't make the Hall of Fame. His lifetime record was a so-so 120-won, 115-lost. You say "so-so"

smoking curve onto one of the most pathetic of major league rosters. The Brooklyn Dodgers of the '30s were known journalistically as "The Daffiness Boys," "The Flatbush Follies," and other riotous epithets. Mungo lost a no-hit game once with two outs in the ninth when the second baseman dropped a pop fly. "The scorer ruled it a hit because the sun got in his eyes," Mungo recalls.

MUNGO twice won 18 games with this collection of comedians and twice won 16 games. The club was mired in the second division throughout that decade, but Mungo was a workhorse, usually pitching well over 300 innings. He usually led the league in games started-38 one season and 37 another and finished 22 of them each year. He led the league in strikeouts one year (1936) when the club finished next to last. The Dodgers of the era had a lot of players nicknamed "Rabbit," to give you an idea of their power and, even in their bandbox ballpark, the team leader in homers in 1936 had exactly four. Mel Ott, by himself, hit more home runs than Van Mungo's Dodgers.

No less an authority than Billy Herman, a Hall of Fame second baseman who batted against the likes of Dizzy Dean, Bob Feller, Lefty Gomez, Lefty Grove and Lon Warneke, says, "I think Van Lingle Mungo was possibly the fastest pitcher I ever saw."

I talked to the fastest pitcher Billy Herman ever saw by

phone down at his farm in Pageland, S.C., where he said he was sitting on his porch watching the bulldozers turn his old farm into condominiums. He remembered the old Hartford Senators well, he said, if not the kid in the bleachers. "We had a better team down there than the one I went to in Brooklyn," he recalls. "I always thought they called them 'Dodgers' in Brooklyn because of the way they dodged flyballs. Only, sometimes, they didn't. Sometimes the balls hit them in the head."

Van Mungo says he never expected to have songs written about him like "Sweet Sue" or "Sweet Adeline." "But I got out of baseball because of ulcers. I go five of them. I got 'em in service during the war, but the Army didn't buy that. They just said I ought to of chewed my food better.'

Did he wish he had been traded to a contending club? Well, I would have liked that. In my prime, that is. I went to the Giants late, after the war. You see, I always got to pitch against the big boys. I always got Dean, Hubbell, Vander Meer, Warneke and Schumacher. Those fellows. I pitched the game that knocked the Giants out of the pennant in 1934 after their manager, Bill Terry, had asked, 'Is Brooklyn still in the league?' Beat 'em, 5-1. They clocked my fastball at 109 miles an hour in those days. I tell you, it sang on the way to the plate."

Naturally, Van Lingle Mungo is the only pitcher in the history of the game whose name and fastball were both hummers.

War-whooping Braves massacre Astros again, 14-0

By FRANK BROWN **AP Sports Writer**

The Houston Astros left the red-hot weather in Texas - only to run into a red-hot team in Atlanta.

As if playing "can you top this" with themselves, the Braves followed their 13-4 triumph Tuesday night with a 14-0 rout Wednesday. In winning the first three games of the four-game series that concludes tonight, the Braves have amassed 45 hits and 32 runs against the National League's West Division leaders.

The results left Braves Manager Bobby Cox low-key and Houston Manager Bill Virdon shaking his head.

"A play here or there and they would have been out of several innings," said Cox, noting all of Atlanta's runs Wednesday night - including the seven in the third inning - had come with two out. It was more of the same for the Braves, who waited until two were out to score their 13 runs Tuesday.

The Braves collected 18 hits after getting 15 Tuesday.

While the Braves were mounting their hit parade on a succession of four Houston pitchers, the Astros managed just five off Phil Niekro, who also had a two-run single in Atlanta's big third.

"I can't recall having ever pitched with a 14-run lead in the ninth inning before," said Niekro, who recorded his second shutout and eighth complete game of the season. The knuckleballer also struck out seven to raise his career total 2,488, and pass Don Drysdale for 16th place on the all-time strikeout list

Bob Horner had four runs batted in, including a three-run homer in the fifth inning, and Chris Chambliss had three RBI as the Braves beat the Astros for the fifth time in their last six home games against Houston this season.

Dodgers 10, Padres 7

Bill Russell keyed a four-run fifth inning with a two-run single, carrying Los Angeles to its comeback victory and helping the Dodgers survive a

five-for-five performance by San Diego's Dave Winfield.

Reds 6, Giants 2 Cincinnati right-hander Frank Pastore smothered San Francisco on six hits, dropped his earned run average to 3.04 and named himself a natural replacement for the Giants' Vida Blue on the all-star team.

"If they're going to pick a replacement for Vida, I can't see it being anyone else," said Pastore, 10-4.

Blue was named to the team but was placed on the disabled list Wednesday because of a herniated cervical disc in his left shoulder.

Ken Griffey and Dan Driessen backed Pastore with three hits apiece and Driessen reached base five consecutive times.

Expos 6, Phillies 1

Montreal's Steve Rogers helped himself with an RBI single in the second inning and the Expos got some unexpected help from the major leagues' winningest pitcher in beating

the Phillies. Steve Carlton, 13-4, contributed to his own undoing by throwing a pair of run-scoring wild pitches. The first came in the third inning, allowing Andre Dawson to score the go-ahead run, and the other helped make it 3-1 in the fifth.

Carlton did, however, strike out five to raise his career total to 2,829 and take over eighth place on the all-time list. He moved ahead of Ferguson Jenkins.

Cardinals 7, Pirates 5 St. Louis shortstop Garry Templeton preserved a 5-5 tie with a circus catch in the ninth inning and teammate Ken Oberkfell snapped it in the 11th as the Cardinals trimmed Pittsburgh

With one out and Pirates runners at first and second, Templeton ran down an apparent game-winning bloop hit by Omar Moreno. He made a lunging, waist-high catch and turned it into a double play.

"That was one of the greatest plays I have ever seen," said Pittsburgh Manager Chuck Tanner, who will handle the NL all stars next Tuesday but already has been told - by Templeton - that Templeton is not willing to play as a reserve.

Mets 3, Cubs 1

John Pacella and Neil Allen combined on a two-hitter for the Mets, besting Rick Reuschel, 5-8.

Ford slated for clinic

Don Ford of the Cleveland Cavaliers is one of four professional instructors for the Northwest Basketball Clinics to be held at Midland College July 7-11.

A top draft choice out of California-Santa Barbara, Ford averaaged 9.6 points a game and pulled in 333 rebounds for the Lakers. His specialty is a medium range jump shot and his speed makes him tough on defense.

Utah Jazz coach Tom Nissalke, and Billy Paultz and Robert Reid of the Houston Rockets are other instructors for the clinic. To sign up for the clinic, contact Midland College Coach Jerry Stone (684 7851 at MC or 697 5616 home).

the Gamecocks to the College World Series and made All-America. He pitched parts of two seasons for Midland and was off to such a good start at Wichita this year that he seemed headed for the majors until he broke

Of course, he wasn't going to law school in the off season. "Baseball is my first priority," Perlman advise have no timetable for making it to the majors, but since I waited until graduation before signing, at 23 I'm older than most of the pitchers on the team, so I'd like to make it as soon as possible."

sas were responsible. But he did say we should have a ball catching sand, blacktip sharks and jackfish as we pulled out of Fisherman's Wharf in

Port Aransas. Threatening clouds made our charter boat fishing morning look as though it would be better to stay ashore. Gulf storms are no fun to witness. The boat left anyway, captain Frank commenting, "We'll cruise out several miles to see what happens. If it still looks bad, we'll be close enough to shore to get back quickly.

Two miles out, the wind hit. Frank turned the wheel and headed back to the wharf. Swells, topped with nine to 10 foot whitecaps, frothed the Gulf into bits and pieces, tossing our 40foot vessel like a plastic jug. But our captain knew his ocean and boat and had us back to dock shortly. What a relief.

He told us most Gulf storms pass rapidly and we would probably be fishing in an hour or so. He was right. This time, six miles out we began fishing

Drifting the favored ribbonfish, hookups occured immediately. Four lines were drifting, three took strikes. One fish came off the hook while Jack Belle, Center, and my wife battled the others.

Belle had latched onto a Jack Cervelle (jackfish) while my wife was battling a three-foot sand shark. The shark came in quickly, weighing about six pounds. Belle after horsing the fish to the boat in a fruitless effort before the fish headed for China battled his strong competitor for 20 minutes. Captain Frank told the crew the jackfish, pound-for-pound, is probably the strongest fish in the ocean because it is shaped like a deflated football and will turn sideways in the water. "He's like pulling a 25-pound steel frying skillet. All the pressure is on the angler."

To give you an idea of how strong the jackfish can be, Larry Bozka, Gulf Tides magazine editor, and I hooked jacks at the same time. We battled for 10 minutes. Then we no-

LAS VEGAS, Nev. (AF) -- Victor Martinez, 147, Los Angeles stopped Aundra Love, 148½, Las Vegas, Nev., 9, welter.

mine first and gobbling Larry's bait. It took us 25 minutes to land the jackfish.

We boated 16 sand and blacktip sharks, six jackfish, one stingray and one small kingfish.

The trip took place in early June when Gulf conditions had been poor. But latest reports are that the fishing is good for king, dolphinfish, red snapper, sharks, mackerel, bonita and amberjacks.

Ribbonfish are the key to Gulf fishing...or, if unavailable, live shrimp. Always watch for storms. They can brew up in a matter of minutes. Proper safety and electronic radio equipment are musts.

Fish the trashlines. Charter boat captains and experienced anglers fish the grass or trash lines, a long string of weeds floating on top of the water.

Most gamefish follow the trash because baitfish hang close to cover. Drift a ribbonfish along the outer edge of the trash line about 20-30 feet down.

A charter trip out of Fisherman's Wharf range from \$140 to \$300 per eight hour day. Even if you have your own boat, but are unfamiliar with the Gulf, it's wise to charter a boat one day, learn, then use your own rig the following days. However, the most fun while in fishing the Gulf is that you never know what's going to hit your ribbonfish ... a 25-pound jackfish or 200-pound marlin.

Piersall, writer involved in fight

CHICAGO (AP) - Broadcaster and former Boston Red Sox star Jimmy Piersall missed a telecast of the California Angels-Chicago White Sox game after he reportedly became involved in a pair of pre-game scuffles.

Bob Gallas, a baseball writer for the Arlington Heights Daily Herald, said he and Piersall scuffled Wednesday night in the White Sox clubhouse during pre-game batting practice.

The pack is back.

Texas farmers said threatened by catastrophe **By The Associated Press**

Texas Agriculture Commissioner Reagan Brown says farmers will face "a real castastrophe" if drought conditions do not change in the next few days.

Reagan, speaking at Texas A&M University, said some counties already are in distress situations.

"I'm absolutely positive that there will be requests for disaster relief in many of the counties," he said.

"If we don't get a break in the weather the next three our four days, then we will see a real catastrophe in our state as far as agriculture is concerned."

"One of the real problems is the fact that we are losing our hay crop," the commissioner said. "This means higher feed costs and higher costs to the consumer.

"If we don't have any more rain, and the heat continues for awhile, there will be extremely high prices in Texas.'

The hot and dry weather, with many stations reporting record temperatures since mid-June, has dramatically reduced the yield - if not destroyed some crops, farmers and agricultural specialists say.

But on the South Plains, the cotton crop just needs a good rain this weekend to have a better than average harvest, farmers said. But if it doesn't come, it could be in trouble.

Many South Texas farmers and ranchers are hurting, with the sun and 100-plus temperatures scorching their crops and rangeland.

"We are just burning up," said 65-year-old V.H. Neumann, who farms 1,660 acres 50 miles west of San Antonio. "Everything is gone. We will try and salvage what we have for hay, but as far as the grain is concerned, it is gone."

Neumann, who grows grain and raises cattle, said he normally harvests 500,000 pounds of milo grain and 12,500 bushels of oats but this year the heat has all but burned up his crop.

Also, he pointed out, the water table has dropped 25 feet since last winter and the prospect of more hot and dry weather has prevented him from planting a late crop.

Doug Spellman of the federal-state Crop and Livestock Reporting Service in Austin said the crop situation in Texas is a "mixed bag" with some farmers in more serious trouble than others.

The heat is beginning to take its toll, with the lack of moisture being a secondary factor, Spellman said

Farmers have been coasting pretty well on available moisture supply, which is not being replenished

Crops are maturing in the southern part of the state, and the clear weather is allowing them to harvest.

Dr. Ernest Davis, a livestock marketing specialist with the Texas Agricultural Experiment Station at College Station, said cattlemen are having to decide now whether to expand their herds.

The weather, with no favorable forecasts, will cause them to thin their herds instead of expanding them for the fall, he said. With burned ranges, it costs more to provide supplement feed such as hay and range cubes. The hotter weather causes weight loss, which means less money at market, he pointed

out. Texas' poultry is also suffering from the Bill Powers, executive vice president of the Texas Poultry Federation, said the heat has killed 300,000 to 400,000 broiler and 20,000 breeder chickens valued at \$680,000 to \$880,000. Most of the broiler chickens that have died are heavier birds that were ready to go to market. "Economically, this is the worst time (for them to die)," Powers said. "You have made all your imputs of feed, labor and time. Texas is the seventh largest poultry producing state.

SWER

Braniff inaugurates new, lowered fares

Braniff International has implemented its lowest supersaver and freedom fares throughout the Braniff domestic system, according to a release from the airline

In addition to the lower fares, Braniff has announced it will be able to meet or beat any competitor's fare, with the exception of Southwest Airlines.

If a competitor's fare is lower than Braniff's, the passenger may take his ticket coupon to the Braniff ticket counter. If Braniff has a direct routing, the passenger can fly on Braniff at that fare level.

These fare reductions represent an all-out effort on Braniff's part to fill every available seat in today's airline industry's situation of high fuel prices and deregulation, without skimping on service, according to the release. In making the fare cuts, Braniff President Russell Thayer said he would "rather take it on the chin than skimp on service.'

Braniff flies out of Midland Regional Airport to Dallas-Fort Worth Airport and connects with flights to the East Coast.

Stiffer penalties urged

WASHINGTON (AP) - The Carter administration is supporting legislation that would mandate either a 10-day jail sentence or 10 days' work in community service for persons convicted of drunk driving.

Joan Claybrook, head of the National Highway Traffic Safety Administration, told the Senate Commerce consumer subcommittee Tuesday that local courts often fail to impose jail terms even in states where they are mandatory

miles northwest of Rankin.

These teeth, used to lock the legs of a jackup drilling rig in place, get a good inspection and brushing from two crewmen. The rig is drilling an

exploratory well for Tenneco Oil Co. in the Gulf of Mexico off the Louisiana coast.

Mississippian strike finals in Garza

Nolan, Stonewall openers finaled; field work reported

Aminoil USA, Inc., operating from 9,117 feet. Four and one-half-inch cas-Midland, announced completion of a ing is set on bottom. Pennsylvanian reef discovery in Nolan County, two miles northwest of Roscoe.

The strike, No. 1 Herrera, finaled for a daily pumping potential of 185 barrels of 38-gravity oil and 310 barrels of water, through perforations from 6,675 to 6,699 feet after a 2,250gallon mud acid wash

Total depth is 7,306 feet, 5.5-inch casing is cemented at 7,304 feet and plugged back depth is 6,965 feet. The Pennsylvanian reef was topped

at 6,652 feet on ground elevation of 2,384 feet. Other tops include the Valera, 3,100 feet; Saddle Creek, 4,430

feet, and Ellenburger 7,066 feet. The well is 1 1/8 miles west of depleted production in the Rowan & Hope, Northwest (Canyon) field.

The site is 853 feet from south and 2,173 feet from east lines of section 28,

block 23, T&P survey.

STONEWALL DISCOVERIES

Operators have announced completion of three discoveries in Stonewall County Texas Pacific Oil Co., Inc., operating from Abilene, finaled its No. 10 I.

S. McMillin Account 2 as a flowing discovery from the Canyon reef. On 24-hour potential test it made 336

barrels of 40-gravity oil, no water, through a 12/64-inch choke and perforations from 5,034 to 5,060 feet. The gas-oil ratio is 882-1.

The zone was washed with 250 gallons of mud acid.

Total depth is 5,800 feet, 5.5-inch casing is set at 5,262 feet and plugged back depth is 5,171 feet.

The Canyon reef was topped at 5,030 feet on kelly bushing elevation of 1,800 feet. The Canyon sand was topped at 4,410 feet.

The discovery is in the Frankirk. multipay field and six miles south of Aspermont.

Wellsite 2,310 feet from north and 1,600 feet from east lines of section 18, block U, T&P survey

Westland Oil Development Corp. of Houston has asked the Railroad Commission of Texas for discovery allowable and new field designation for its No. 1 T. A. Upshaw, a Canyon reef well in Stonewall County.

Wellsite is 760 feet from north and

1,320 feet from east lines of section 20, block 48, University Lands survey.

CROCKETT WELLS

Blue Ridge Oil & Gas Exploration, Inc., of Detroit, Mich., completed its No. 20-C A. Phillips in the Adams-Baggett Ranch (Canyon) area of Crockett County, 24 miles south of Ozona

Operator reported a calculated absolute open flow potential of 4,400,000 cubic feet of dry gas per day, through perforations from 5,250 to 5,515 feet. The pay was acidized with 2,000 gallons and fractured with 148,000 gallons.

Total depth is 5,654 feet, 4.5-inch pipe is set at plugged back depth of 5,653 feet.

Location is 1,320 feet from north and east lines of section 36, block OOO, Mrs. E. Reese survey.

Pueblo Petroleum Corp. of Midland No. 1-7 Scull is a new well in the Simpson field of Crockett County, 30 miles northwest of Osona.

The well, 1 1/8 miles southwest of other Simpson oil production, completed for a daily pumping potential of 10 barrels of 32.6-gravity oil and three barrels of water, through perforations from 1,899 to 1,927 feet. The gas-oil ratio is 600-1.

The pay was acidized with 2,100 gallons and fractured with 15,000 gallons.

La. C.&V.C. Inc. of Metairie, La.,

BORDEN COUNTY

HNG Oil Co. No. 1-11 Bell Lake;

DAWSON COUNTY

Four wildcat operations have been announced in West Texas counties, and a Mississippian discovery has been finaled in Garza County.

The Garza discovery is Glenn Petroleum Corp. of Dallas No. 1 Alice Williams "A."

A re-entry of an old well in the Tobe (Strawn) field, it finaled from the Mississippian for a daily flowing potential of 132 barrels of 34-gravity oil, through a 10/64-inch choke and perforations from 7,700 to 7,726 feet. The gas-oil ratio is 720-1.

Total depth is 7,744 feet, 4.5-inch casing is set on bottom and hole is plugged back to d7,736 feet.

The pay was topped at 7,700 feet on kelly bushing elevation of 2,294 feet. Location is 1,980 feet from north and 660 feet from west lines of section 19, block 6, H&GN survey and one mile south of Justiceburg.

The project originally was drilled by Glenn Petroleum.

STONEWAL WILDCAT

Rust Oil Corp. of Fort Worth will drill its No. 1 Luttrall as a 6,400-foot Cambrian wildcat in Stonewall County, two miles north of Aspermont. Drillsite is 1,250 feet from south and 933 feet from east lines of section 134, block D, H&TC survey

It is 5/8 mile south of the Schick (Bend conglomerate and Strawn) field and separated from it by a 6,450foot dry hole.

CONCHO EXPLORER

A 2,900-foot wildcat was staked in Concho County, 15 miles south of Vancourt.

It is P. C. Engineering Inc. of San Angelo No. 2 J. M. Chambers Estate, 802 feet from north and 666 feet from west lines of section 40, block 9, H&TC survey

The drillsite is 2 3/4 miles east of the two-well Chambers Ranch (Cisco reef) field and separated from it by a depleted Canyon well.

TOM GREEN PROJECT

Alford Petroleum Corp., The Woodlands, announced plans to re-enter its No. 2-79 Dugg "G," former Canyon D oil well assigned to the Dove Creek multipay field of Tom Green County. Hole will be plugged back to 3,250 feet for tests of Permian zones. Location is 1,980 feet from south and 2,099 feet from east lines of section 1190, D. McCrohan survey and eight miles southwest of Christoval. The old total depth is 6,800 feet and plugged back depth is 6,584 feet.

GARZA AREA

Threshhold-Blocker Venture of Fort Worth will attempt to reopen Ellenburger and Wolfcamp production in the Red Loflin (Pennsylvanian) field of Garza County, 13 miles southeast of Post.

The attempt will be made at No. 2 Lucille Richards, a new 8,800-foot project 660 feet from south and east lines of section 7, block 2, T&NO survey, abstract 243.

The site is one location west of Pennsylvanian production, one location south of the original Ellenburger discovery and 1.5 miles northwest of the depleted Wolfcamp opener.

DAWSON WELL

BTA Oil Producers No. 3 Welch has been complted in the Welch, Southeast field of Dawson County, 10 miles northwest of Lamesa.

On 24-hour potential test it pumped 64 barrels of oil and no water, through Spraberry perforations from 7,700 to ,709 feet. The zone was acidized with 2,500 gallons.

Total depth is 7,850 feet, 5.5-inch pipe is set on bottom and hole is plugged back to 7,760 feet. Gravity of the oil is 35.4 degrees and

the gas-oil ratio is too small to measure.

The well, one locaton northwest of production and the same distance southeast of production, was drilled 2.310 feet from south and 2.400 feet from east lines of secton 2, block 4, D. L. Cunningham survey.

KING PRODUCER

BTA Oil Producers also completed its No. 17907 JV-S King in the Prudence (Atoka) gas field of north King County, 14 miles northeast of Guthrie

Operator reported a calculated absolute open flow potential of 1,263,000 cubic feet of gas per day, through perforations from 6,217 to 6,223 feet. Completion was natural.

The gas-liquid ratio is 15,384-1, with gravity of the fluid 55 degrees. The well is 3/4 mile south of other Atoka gas production and 660 feet from north and west lines of section 12, block A-697, D. N. Robinson sur-

EDDY CHANGE

vey.

Bass Enterprises No. 79 Big Eddy Unit, scheduled 12,600-foot wildcat in Eddy County, N.M., nine miles northeast of Carlsbad, has been junked and abandoned at 1,646 feet. The rig has been moved to a new

location and drilling was progressing below 1,630 feet on last report. The test now is being operated as the No. 79-Y Big Eddy Unit and the

new location is 1,980 feet from south and 1,930 feet from east lines of section 21-21s-28e.

WARD PROJECT

Paul Page of Eldorado spotted lcation for No. 1-137 Armstrong as an offset to production in a west extension area of the Rhoda Walker (5900 oil) area of Ward County, six miles east of Barstow.

The project is 2,173 feet from southeast and 853 feet from southwest lines of section 137, block 34, H&TC sur-

Contract depth is 6,800 feet.

MARTIN TEST

Saxon Oil Co. of Midland No. 1 Casler is to be drilled in the M.A.K. (Spraberry) field of Martin County, 16 miles southwest of Patricia.

Scheduled on a 9.900-foot contract. it is 2,900 feet east of production and 4,939 feet from south and 660 feet from west lines of section 9, block HA, H. A. Monroe survey.

WINKLER WELL

Southland Royalty Co., operating from Midland, recently completed a small pumper, No. 1-24 Keystone Cattle Co. in the Flying W (Wolfcamp) field of Winkkler County.

On 24-hour potential test it pumped 6 barrels of oil and 30 barrels of water, through perforations from 8,198 to 8,248 feet after a 5,000-gallon acid treatment and a 30,000-gallon fracture job.

Total depth is 8,450 feet and 5.5-inch casing is set at 8,443 feet.

Location is 467 feet from north and 2,172 feet from wet lines of section 24. block A-57, psl survey. It is 13 miles northeast of Kermit.

LEA COMPLETION

Amoco Production Co. No. 3 McQuatters, scheduled as a wildcat, has been completed as a Drinkard gas well in the Hardy field of Lea County. N.M., three miles southeast of Oil center.

It finaled for a daily flow of 985,000 cubic feet of gas and two barrels of oil, through perforations ffrom 6,529 to 6,707 feet. The pay was acidized with 3,500 gallons.

The potential flow was gauged through a 24/64-inch choke.

Total depth is 6,900 feet, and 5.5inch casing is set at 6,898 feet.

Location is 700 feet from noth and 2,230 feet from east lines of section 11-21s-36e.

BORDEN RE-ENTRY

Cobra Oil & Gas Corp. of Wichita Falls will re-enter the discovery well of the Seven J, West (Strawn) field of Borden County and attempt to complete it from the Strawn.

The project is one location east of Cobra No. 2 R. N. Miller, recently completed as the discovery well of the Seven J. West (Strawn) field.

The old total depth is 8,230 feet. Hole will be plugged back to 8,033 feet.

Location is 1,320 feet from south and 660 feet from west lines of section 523, block 97, H&TC survey and 12 miles northeast of Gail.

BORDEN OFFSET

Pioneer Producing Corp. of Amarillo No. 1-414-A Davenport is to be dug as an 8,300-foot project one location west of the discovery well and lone producer in the Denny (Strawn) field of Borden County, 12 miles northeast of Gail.

The operator will dig the project 660 feet from south and east lines of section 415, block 97, H&TC survey.

DAWSON LOCATION

Bobby Bonner of Midland No. 1 Kendrick has been staked as a 7,600foot project in the six-well Felken (Spraberry) field of Dawson County, nine miles southeast of O'Donnell.

Aspermont, was drilled 1,100 feet The Desana Corp. No. 3 Henderson; from south and 2,160 feet from east td 3,660 feet in lime and shale, taking lines of section 62, block D, H&TC CROCKETT COUNTY survey

Completion was through perforations from 4,850 to 4,863 feet. Stimulation, if any, was not reported. Hole is bottomed at 5,000 feet and

212 oil, gas projects scheduled in Permian Basin counties

Permian Basin oil and gas operators filed requests with state governing bodies last week for 212 petroleum projects in West Texas and southeast New Mexico.

Fifty-four of the operations are to be drilled in wildcat country, with 158 scheduled in proven field areas.

District 8 of the Railroad Commission of Texas, headquartered in Midland, processed 55 of the applications, including seven wildcats. 600 fnl, 1,860 fel, sec 16,

District 7-C, headquartered in San Angelo, reported 17 wildcat projects to lead the Basin counties in that category. Abilene's District 7-B headquarters reported 16 wildcats.
