House panel stands against tax cut now

WASHINGTON (AP) — The House Ways and Means Committee appears to agree with President Carter that no tax-cut bill should be passed this year. Now the president must convince the Senate Finance Committee.

The Finance Committee, under instructions from the Senate Democratic Caucus to produce a tax-reduction plan by Sept. 3, was opening hearings today with testimony from Treasury Secretary G. William Miller.

Miller testified Tuesday before the Ways and Means Committee. To a man, Democratic members agreed with the Carter administration position that action on a tax cut should be delayed until early next year, after the fall elections.

Rep. Al Ullman, D-Ore., the committee chairman, said Americans are far more concerned about halting inflation than cutting taxes.

But some House Democrats reminded Miller that it isn't easy to oppose tax cuts in an election year, especially when unemployment is rising.

"We are out on a limb for the president," said Rep. Tom Downey, D-N.Y. "He has to be strong, firm and unequivocal" against any tax cut this year. "If he's not," added Downey, "you're going to have a lot of angry Democrats."

"And an angry secretary of the treasury as well," offered Miller.

The pressure is on congressional Democrats because Republican presidential nominee Ronald Reagan and many GOP members of the House and Senate are demanding an immediate vote on a \$36 billion tax cut that would take effect next Jan. 1.

The administration contends any such action now would worsen inflation and bring even more uncertainty to a troubled economy. Carter's advisers agree a tax cut probably will be necessary early next year, but they insist it would be smart to wait until then before passing it.

Nevertheless, Senate Democrats were so alarmed last month when Reagan and congressional Republicans seized the tax-cut issue that they immediately promised to come up a plan of their own.

The Finance Committee has arranged two weeks of public hearings on tax cuts. A recess for the Democratic National Convention will leave little time for the committee then to write a tax bill before the Sept. 3 deadline.

Administration officials say that passing a tax cut now might signal the financial markets that the government is weakening in its fight against inflation. Any tax cut — at least in the short run — would worsen the federal budget deficit and require the government to borrow more.

But beyond that concern, the president's advisers say that considering a tax cut in the heat of presidential and congressional elections would tempt lawmakers to fatten the tax reduction and vote relief for all sorts of special interests.

In his testimony before the Ways and Means Committee, Miller repeatedly criticized the Republican plan as a "free lunch," a counterproductive gimmick.

Then why not "put Congress to the test and propose what you consider a good tax cut?" asked Rep. Willis Gradison, R-Ohio.

"If we came up with a bill that we thought was right, it would be like putting red meat before a hungry dog and saying, 'Sit,'" Miller replied.

Miller said that when a tax cut does become desirable, it should be designed to help taxpayers offset some effects of inflation, continue the "progressive" nature of the tax system — meaning that poorer persons should continue paying a smaller portion of their earnings in taxes than the wealthy — and help revitalize American business to increase productivity and jobs.

Miller expressed interest in a plan that would provide an income-tax credit to help offset next year's scheduled increase in Social Security taxes. And he said the administration is intent on developing an alternative to the GOP plan allowing faster tax write-offs for business purchase of buildings, machinery and cars.

Chicken dinner

"Chicken dinner never was like this before!" might be nine-month-old Miranda McGill's thoughts as the San Diego Chicken nibbles away at the infant's head Tuesday night at Cubs Stadium. The Chicken's antics delighted a record crowd of 4,680. See related story, photos on Page 1D. (Staff Photo by Brian Hendershot)

St. Helens goes again

VANCOUVER, Wash. (AP) — After lulling observers with six weeks of relative serenity, Mount St. Helens exploded in a spectacular series of eruptions, hurling ash 11 miles high into a clear blue sky. Ash reached Canada and air traffic was restricted in parts of the Northwest.

Residents of some cities in eastern Washington were warned they may have to haul out their ash masks again following the mountain's display Tuesday, which could be seen for more than 100 miles.

The U.S. Geological Survey said a pyroclastic flow — a superheated avalanche of ash, gas and rock — poured down the north slope of the mountain almost to Spirit Lake. The mountain resort area six miles away became a volcanic wasteland after the mountain's first eruption May 18, which had a force as great as an atomic bomb.

There were no reports of injury late Tuesday and the only evacuation was carried out in the town of Cougar as a precaution. Many of the town's residents had not returned after the volcano's previous eruptions May 18, May 25 and June 12, and some of the 20 to 25 people who did were not fleeing the town again, authorities said.

The eruption came as a surprise to scientists and federal disaster officials who were winding down activities.

Scientists had said that a recent lull in volcanic activity indicated that pressure was being released rather than building within the volcano. That theory was blown as the first blast

Volcano erupts in East Russia

MOSCOW (AP) — A volcano dormant for 30 years has erupted on the Kamchatka Peninsula in the Soviet Far East, Tass reported today.

The Soviet news agency said Mt. Gorely erupted with "a gigantic cloud of volcanic ash and gases rising up to an altitude of three kilometers (two miles)."

There was no report of damage or injuries.

A lake that had formed previously in the volcano's main crater "for the most part ceased to exist," Tass said.

ripped a hole in the lava dome building in the volcano's gaping crater.

"Yesterday, we did not expect anything like this to happen," said USGS geologist Tim Hait. "Today, probably this morning, we did not expect anything like this."

The eruptions began at 5:14 p.m. PDT, shortly after a flurry of earthquakes. Six quakes were picked up between 6 a.m. and 11 a.m. and by 3 p.m., they had increased in frequency to about one every five minutes, scientists said.

A series of four or five small earthquakes ended at 5:13 p.m. One minute later came a mushroom-shaped eruption of steam. Subsequent blasts contained ash that darkened the sky and could be seen as far north as Seattle and south as Corvallis, Ore.

The National Weather Service charted ash plumes that moved north-northeast, following the same path as the ash-laden cloud that caked eastern Washington and northern Idaho with the grit May 18.

A second eruption at about 6:26 p.m. towered to 60,000 feet, said Carl Burgeson of the U.S. Forest Service. A third shot of ash rose to about 50,000 feet shortly after 7 p.m. and pulsations followed at 7:20, and at 8:30 p.m. The pulsations were first thought to be separate eruptions, but scientists later said that examination of earthquake recordings on seismographs indicated they were continuations of the third eruption.

The eruptions could be seen by hundreds of thousands of people. "There's a distinct reddish-gray line looking southerly, and it got dark earlier than usual, while the rest of the sky was blue," said Lanelle Schultz of radio station KCVL in Colville, 250 miles northeast. "The moon is fading away to nothing."

Eastern Washington residents braced themselves as fine ash — described as gritty like table salt — began falling. However, the amounts were smaller than on May 18, observers said.

The leading edge of the ash and steam plume reached the Canadian border near Washington state's Okanogan Valley a little before 9 p.m. PDT, according to the Weather Service.

In Spokane, about 250 miles north-east of the volcano, Mayor Ron Bair told residents in an emergency radio

Billy Carter was go-between on Iran crisis

WASHINGTON (AP) — President Carter's national security adviser capitalized on Billy Carter's controversial relations with the Libyan government by using him as a go-between in seeking Libya's assistance in an effort to gain release of the American hostages in Iran, White House officials say.

The revelation marks the first acknowledgment by White House officials that the president's gregarious, plain-spoken younger brother, who reluctantly registered with the Justice Department last week as an agent of the Libyan government, played any role in U.S. foreign poli-

cy. Presidential press secretary Jody Powell, in a lengthy briefing Tuesday on the controversy swirling about Billy Carter, said national security adviser Zbigniew Brzezinski asked him to set up a meeting on Nov. 27, 1979, with Ali el Houderi, Libya's chief Washington representative.

A written statement released by Powell's office noted that the meeting between Brzezinski, Houderi and Billy Carter took place "three weeks after the seizure of the hostages (in Iran), and the United States was exploring every possible avenue of contact with the Iranian leaders."

Powell said he didn't know whether the president was aware of the meeting. But he also insisted, "There can hardly be any serious thought that the president's brother is in a position to advise the president on foreign policy matters."

While the meeting was unsuccessful in winning the hostages' freedom, Powell said Brzezinski was informed a few weeks later that Col. Moammar Khadafy, leader of Libya's leftist Arab government, had sent a message to Ayatollah Ruhollah Khomeini in Iran calling for their release.

President Carter, in a two-paragraph statement on the controversy, said it was not "appropriate for a close relative of the president to undertake any assignment on behalf of a foreign government," and he called for a full public disclosure of "the existence of any such relationship."

The president did not mention his brother's receipt of \$220,000 from the Libyans, which Billy Carter and the Libyans have characterized as part of a \$500,000 loan.

Billy Carter was surrounded by reporters as he left a restaurant at a New York hotel, where he was staying Tuesday night. When a reporter held up a newspaper with the headline, "White House Says: Asked Billy Aid on Hostages," the president's brother said, "Paper's right." He refused

further comment. The Senate Judiciary Committee was deciding today whether to investigate the Billy Carter-Libyan ties.

Disclosure of the three-way meeting on the hostage issue was the latest bizarre twist in the story of an 18-month Justice Department investigation into Billy Carter's relationship with the Libyans. Powell said the White House has scrupulously avoided contact with the investigators.

The probe's progress only occasionally bubbled to the surface before July 14, when papers were filed in federal court revealing that the department had reached a settlement with Billy Carter in which he agreed under protest to register as a Libyan agent to avoid a grand jury investigation.

Here, from public statements, official documents and published reports, is the sequence of events which brought the White House to issue Tuesday's statement, described as an attempt to fully disclose Billy Carter's relations with Libya:

In January, 1979, after Billy Carter hosted a Libyan delegation in Atlanta and Plains, Ga., officials of the Justice Department's foreign agents registration section wrote the president's brother asking him to register as an agent of the radical Arab govern-

ment put the inquiry on the back burner. He also had accepted \$3,900 in expenses for a 10-day trip to Libya for himself and an associate in late 1978.

The Justice Department's January letter and a follow-up letter went unanswered.

By March, Billy Carter had denied he was a Libyan agent, and the FBI had been called in to help investigate the case.

At about the same time, Billy Carter entered a Navy hospital in California for treatment of alcoholism. Sources have said that develop-

ment put the inquiry on the back burner.

In September 1979, Billy Carter received another \$9,780 in expenses from the Libyans to pay for a trip by him, his wife, his son and his associate, Henry R. Coleman, to Libya for the 10th anniversary celebration of Khadafy's rise to power.

At the end of the year, Coleman made a 13-day expense-paid trip to Libya.

The renewed activity led the Justice Department to resume its inquiry, and department investigators questioned Billy Carter at his Georgia home last January.

Midlanders to start using fourth postal ZIP code soon

Midland is becoming a four ZIP-code city, according to an announcement from Postmaster D.E. Holster.

The post office boxes at Village Station, 2315 W. Louisiana Ave., will be changed to the 79704 ZIP code.

"We realize that it will take many months for customers renting post office boxes at the Village Station to become as accustomed to the new 79704 as they were the 79701," said Holster. "We just want to alert those customers involved to change the ZIP code number on the next printing order they place, and request that post office box customers at the Village Station inform all their correspondents and publishers of their new

ZIP code number as soon as possible."

Holster explained the change had become necessary because of the increased use of mechanized equipment within the Postal Service and the ever-increasing population and volume of mail coming into Midland.

"There are just more separations and scheme items than we can ask our employees to memorize," he added.

By having 79704 in the address of mail going to the Village Station Post Office boxes, that mail will be dispatched directly to the Village Station and quicker mail delivery should result, said Holster.

City Councils of Odessa, Midland to hold meeting together tomorrow

ODESSA — Midland and Odessa city councils will hold a joint meeting at 10 a.m. Thursday in the Emergency Operations Room in Odessa's City Hall basement.

This is the first joint meeting in years and the purpose is to discuss topics of interest to both cities.

The agenda includes a discussion of matters relating to the regional police training program.

Other topics include the expected census data, operations at Midland Regional Airport, extra-territorial jurisdiction and planning areas, and status of the North Route between the two cities and other highway projects.

Regional transportation projects also is on the agenda for discussion.

The councils will set a date for a second meeting in the future.

With his wife Deidre preceding him, Ku Klux Klansman Marshall Thrash leaves a Chantanooga, Tenn., courtroom Tuesday following his conviction on reduced assault charges. He was fined

\$225 in the April 19 shooting of four black women. Two other defendants were acquitted. (AP Laser-photo Map)

City's blacks seem 'dissatisfied' with acquittal of two Klansmen

CHATTANOOGA, Tenn. (AP) — A black leader predicted dissatisfaction among the city's blacks over the acquittal of two of three Klansmen charged with shooting four black women, and hours after the verdict police reported a rash of suspected firebombings and brick-throwing.

The incidents in a predominantly black area were "totally out of the norm," police spokesman Doug Fisher said early today. But police did not link them to reaction to the verdict Tuesday of an all-white jury.

A third Klansman was found guilty of reduced assault charges.

Harry Hill of the Youth Coalition, a black community organization, praised the state's prosecution of the men for the April 19 shootings. But "as far as the verdict, it's a joke," he said Tuesday.

Hill said he did not think the blacks in this city of 170,000 would be satisfied with the jury's findings. "There'll be a backlash," he said. "I hope it'll be on the positive side."

At least three suspected firebombings had occurred by early today, and more than a half dozen brick-throwing incidents were reported late Tuesday in the city's predominantly black Alton Park area, Fisher said.

A firefighter was injured and the windshield of his truck was broken as engines raced to a house whose roof had been set afire.

Two other cases of suspected arson were reported at an industrial warehouse and at a restaurant. Each sus-

tained minor damage, he said.

Police also reported "a couple of situations where persons gathered," but no arrests were made, Fisher said.

Defense lawyers, who had urged jurors to decide the defendants' guilt or innocence without considering the verdict's effect on racial relations, said they were pleased with the outcome.

The six-man, six-woman jury had deliberated for nearly six hours over two days before reaching a decision Tuesday.

The verdict "should not be seen as a slam at blacks, because it's not," said defense lawyer Leroy Phillips. "That jury was composed of some very intelligent people. There was a college

professor on there."

But Viola Ellison, 64, one of the four black women who was wounded, said, "I don't feel good about it (the verdict)."

"If a black person had shot one of your whites, he would have been in jail. But blacks, we ain't got no damn justice in this town. We got to get some defense," she said.

The women were struck by shotgun blasts fired from a car as they walked from a tavern in a predominantly black neighborhood.

In closing arguments Monday, assistant state prosecutor Stan Lanzo encouraged jurors not to weigh possible community reaction when deciding on a verdict.

Overcrowded housing blamed for Miami racial disturbances

MIAMI (AP) — Overcrowded public housing that creates "attitudes of disrespect and hopelessness" was one of the major causes of racial disturbances in Miami, says a Dade County official.

County Housing and Urban Development Director Melvin Adams, reporting to a citizens' panel appointed by Gov. Bob Graham after bloody racial rioting in May, said county officials hope to help some families in overcrowded housing projects find apartments elsewhere.

Police say the worst violence of Miami's May riots, which resulted in 18 deaths and more than \$100,000 in property damage, occurred in the James E. Scott Homes, a low-income housing project.

The projects erupted again last week as three days of racial disturbances rocked predominantly black Liberty City. During last week's disturbances, many older residents blamed the problem on youths who had no jobs and no respect for the law.

County officials, saying that overpacked low-income public housing

projects are breeding grounds for unrest, want to change the makeup of the Scott Homes.

"Scott will always be a black project," Adams said. "But it doesn't have to be a welfare project."

Adams said that with more than 3,000 residents living in 956 units, the Scott Homes is Dade's most densely populated area. Adams said potential problems of unrest apparently weren't given much thought when the project was built in 1954.

"Part of the project was built on the site of a dump, which shows you what people back in that time thought about where poor people ought to live," Adams said.

The seven-member panel plans to tour the Scott project next week to hear citizens' grievances. It also is investigating charges of racial injustice in Dade's legal system.

The May rioting broke out after four white former policemen were cleared of charges stemming from the beating death of a black businessman.

Damages awarded

LUBBOCK, Texas (AP) — A federal court jury has awarded nearly \$1 million in damages to patrons of some Lubbock County liquor stores that jurors said conspired to fix prices.

Jurors ruled Tuesday that the eight defendants in the four-year-old lawsuit must pay \$927,000 in overcharges to customers who patronized the stores between 1970 and 1974.

Those individual patrons, however, will be paid if and when they prove the overcharges in a separate court hearing.

Defendants listed in the suit included Pinkie's Inc., Cecil's Inc., The All Star Co., Cross Keys Package Store Inc., the Lubbock County Beverage Association, Bob Grimes, Hubert Odom and Kenneth Odom.

The lawsuit, filed by then Texas Tech University law student David Greenhaw, contended that several liquor store owners and operators had conspired to set and maintain county wide liquor prices and alleviate competitive marketing.

The decision marks the third time a federal jury has found the eight defendants guilty of conspiring to set prices along "the strip," a portion of county road lined with liquor stores outside of Lubbock.

Greenhaw, now a Stanton attorney, alleged in his suit that the four liquor store corporations and three individuals connected with two of the businesses, along with the now-defunct Lubbock County Beverage Association conspired to set and maintain county-wide liquor prices.

The eight defendants previously pleaded guilty to criminal price fixing charges and were assessed fines and probation sentences.

TESCO's nuclear plant opening delayed a year

FORT WORTH — Start-up of operations at Comanche Peak nuclear power plant has been pushed back another year while estimated costs of the plant have increased, according to Bill Marquardt, president of Texas Electric Service Co.

Unit 1 will go into operation in 1982 while Unit 2 will begin in 1984. Estimated cost of the plant has gone up to \$2.235 billion, or \$972 per kilowatt hour, from the \$1.7 billion estimate given in 1977. The revisions resulted from studies which were done as part of the regular review of the construction program.

"Even at this higher cost, Comanche Peak will still mean substantial savings to our customers compared to what they would pay for electricity produced by natural gas and oil," Marquardt said.

By 1985, electricity produced by Comanche Peak should cost about 25 percent less than electricity produced by oil and gas.

But Marquardt interjected that the new operation dates and cost figures are still estimates and are subject to further revisions.

"We still face a number of unknowns," he said. "Completion dates and costs for any major construction project — not just nuclear plants — are constantly being influenced by factors that can't be controlled or predicted, such as future inflation rates and regulatory changes."

Some changes have come as a result of the Three Mile Island incident in Pennsylvania. Some are being considered by the Nuclear Regulatory Commission. And others are still being developed, according to Marquardt.

Changes in the Comanche Peak plant include: —Implementation of any improvements which a review indicates are necessary to make control room instruments provide additional information.

—Addition of a separate display console which will indicate key information relating to safety of the plant.

—Establishment of a technical support center which will support activities in the plant's control room in case of an emergency.

—Establishment of a near-site emergency operations center from which additional support can be provided.

These necessary changes have been incorporated into the construction at Comanche Peak, Marquardt said, adding that these changes have been costly.

He noted the Department of Energy has recognized the effect of these changes in a study which says, "Compliance with new requirements for safety, greater quality control and environmental protection has increased design complexity and has had a major impact on construction schedules and plant costs."

The changes also are reflected in the number of man hours required to build the plant. In 1972, the number was estimated at 12 million. By 1977 it had risen to 29 million manhours. Today, the estimate has gone up to 50 million manhours to complete the plant.

Breaking it down by categories, required changes in design and scope of the project mean an additional \$250 million in labor costs, \$55 million in materials, \$150 million in labor and \$90 million in cost of borrowed construction money.

Specific areas which have seen increased costs are concrete, which is about twice what was estimated; piping, which is about 2 1/2 times higher; and electrical systems, about 35 percent higher.

Completion of Comanche Peak is necessary, he claimed, for TESCO to be able to supply enough fuel to customers. Comanche Peak is jointly owned by Dallas Power & Light, TESCO, the Texas Municipal Power Agency and Brazos Electric Power Cooperative. Combined, the companies serve a population of 4 million.

El Paso grants rate hike, if utility sells nuclear interest

EL PASO (AP) — The El Paso City Council has voted to grant El Paso Electric Co. a \$28.3 million rate increase if the utility tries to sell half its share of a nuclear power plant in Arizona.

The council voted 4-2 Tuesday for the conditional rate hike, which hinges on the company's trying to sell half its share in the Palo Verde Nuclear Generating Station "within a reasonable time and on reasonable terms."

However, David Wiggs, an attorney for El Paso Electric, said the council's offer will be rejected.

The utility had asked the El Paso City Regulatory Board for a one-year, \$50 million rate increase for its Texas customers, but said it would settle for \$40 million.

However, the board has recommended the utility be given a \$28.3 million increase and make "good faith" efforts to sell half its interests in Palo Verde.

If the utility does not sell, it should receive a \$15.5 million rate increase, the board said.

Arizona Public Service Co. is the major contractor for the billion-dollar, 3,800-megawatt plant, about 40 miles west of Phoenix.

El Paso Electric has a 15.8 percent share in the plant, which also is owned by companies in California and New Mexico.

The rate increase case for the Texas customers likely will be appealed next month before the Texas Public Utility Commission in Austin.

Plant's restart delayed again

CRYSTAL RIVER, Fla. (AP) — A restart of Florida Power Corp.'s Crystal River Nuclear Plant has been delayed for the second time in five weeks, this time by a faulty valve in the main steam system, company officials said.

The problem was discovered Tuesday as crews were trying to restart the plant, which has been out of commission since February, Florida Power spokesman Bill Johnson said.

NOBODY READS SMALL SPACE ADS... DO THEY???

Volunteers ready to enter reactor

'They eare ready. They want to get in there'

MIDDLETOWN, Pa. (AP) — Two volunteers in double layers of protective clothing stood ready today to be the first to enter the giant, darkened building that houses Three Mile Island's crippled nuclear reactor.

"We've planned for all contingencies. We have a positive attitude about it," plant spokesman Sandy Polon said Tuesday. "The guys have been trained. They are ready. They want to get in there."

No one has been inside the chamber since March 28, 1979, when the nation's worst commercial nuclear accident severely contaminated the 203-

foot high containment building.

The two volunteers on the entry team were William Behrle, 36, a senior engineer at TMI; and Michael Benson, 27, a nuclear engineer. Both tried May 20 to enter the building, but that mission was aborted when the heavy steel door to the building refused to budge.

Technicians later diagnosed the problem as a rusted latch mechanism. The door was repaired and tested last week to make sure it would open during a second entry attempt.

For today's mission, the men were outfitted with double layers of protec-

tive clothing, including black firemen's cloaks, pants and rubber boots to be worn over regular radiation clothing.

They were also given miners' lamps, flashlights, two-way radios, cameras and air packs containing a 30-minute supply of air.

The 20-minute visit was designed to verify radiation levels and identify hot spots that workers might encounter when full-scale decontamination of the concrete structure begins.

The atmosphere inside the building

was voided of radioactive krypton in a two-week venting process last month. But workers must still decontaminate millions of square feet of surface area, clean up 700,000 gallons of radioactive water that spilled during the accident and remove the highly radioactive reactor core, which may have partially melted during the accident, according to some reports.

Polon said about \$130 million has been spent to date on the cleanup, and close to 90 percent of the decontamination work in the auxiliary building has been completed.

Nuclear waste storage rapped

AUSTIN (AP) — Government will topple and inventory records might be lost in the centuries it takes for stored nuclear waste to become less dangerous, according to a nuclear expert.

Dr. Meyer Steinberg of the Brookhaven National Laboratory said the emphasis should be on changing radioactive wastes into more stable forms, rather than trying to store it until it becomes less dangerous.

Steinberg was the keynote speaker Tuesday at the International Conference on Nuclear Waste Transmutation at The University of Texas.

He said one-third of the United States research and development budget for nuclear energy is spent on commercial nuclear waste disposal management.

"Practically all of this expenditure is concen-

TVA nuclear plant started

KNOXVILLE, Tenn. (AP) — The Tennessee Valley Authority has begun producing electricity at its Sequoyah nuclear plant, but officials say they do not know when TVA will apply for a license to take it up to full power.

Spokesman Mike Butler said the first of two reactors at the plant began generating 30,000 kilowatts of power early Tuesday in order to synchronize turbines with TVA's seven-state power grid.

trated in the single-minded approach of solidifying the waste and storing it in geological formations," Steinberg said.

"This is the reason why we should make every concerted effort to search and apply our nuclear physics to the prob-

lem of converting the long-lived fission product waste to more benign materials," he said.

Steinberg said nuclear fuel now being stored for military use would be sufficient to supply the nation's electrical needs for 10 years.

"I tell my anti-nuclear

friends that if they are serious about discontinuing the nuclear age, we must first rid ourselves of nuclear weapons materials and that the only way to dispose of weapons is to burn the fissile material in nuclear reactors and to utilize the power," he said.

Extended forecasts

Friday Through Sunday

West Texas: Partly cloudy and hot Friday with increasing cloudiness over the weekend and a chance of thunderstorms mainly north portion. Highs 96 to 106 Friday cooling to upper 80s north to near 100 south by Sunday except near 100 continuing Big Bend valleys. Lows 58 to 78 Friday except around 60 southwestern mountains cooling to middle 50s mountains and 60s north to lower 70s south by Sunday.

North Texas: Clear to partly cloudy. Chance of widely scattered thundershowers Sunday and not quite as hot north and west portions. High temperatures upper 90s to near 100 except upper 80s to around 100 on Sunday. Lows in the mid and upper 70s.

St. Helens in spectacular eruption

(Continued from Page 1A)

statement to expect ash fallout. In Ellensburg, about 100 miles northeast of the peak, ash fell in a fine dust and law enforcement officials were prepared to shut down roads if the fallout got heavier.

"We're keeping our fingers crossed," said Mayor Don Mackin of Moscow, an Idaho town that last week held a funeral for the last of its May 18 ash.

The Federal Aviation Administration stopped issuing clearances for Washington's Ellensburg and Wenatchee airports, and rerouted commercial airliners to avoid the area from north of Portland to south of Seattle, said FAA spokesman Ken Shake.

A restricted area was set up around the volcano before the May 18 eruption — which killed at least 30 people and left 34 missing and presumed dead — was mostly void of loggers and firefighters Tuesday. Permits had been required to enter the zone and they all were canceled for today.

Don Moody, Chelan County Sheriff's office dispatcher, said the department was "not bargained with" calls like we were last time. It's kind of a ho-hum thing.

With memories still fresh of the gray, gritty stuff that rained on Ritzville, Wash., after the cataclysmic May 18 eruption, the Adams County Sheriff's Department went on emergency standby.

Following a period of near dormancy, Washington volcano Mount St. Helens erupted again on Tuesday, sending clouds of steam and ash 45,000 feet into the air. The ash cloud, moving northeast and visible for hundreds of miles, marked the first eruption since June. (AP Laserphoto)

No refunds asked, attorney says

By ED TODD
Staff Writer

A Montana oil-field well serving contractor indicted in an alleged "kickback" scheme has not been asked to "refund one thin dime" by the oil field developers, including Tom Brown Inc. of Midland, who suspect he "inflated" prices he charged for hauling water to oil well sites in the Northwest, suggested Odessa defense attorney Warren Burnett.

"He was never called upon to refund one red cent, one thin dime," Burnett said of his client, Billy J. Lawrence of Billings, Mont.

Lawrence and his co-defendant, William R. Banks, 54, of Englewood, Colo., have been indicted by a federal grand jury here on nine counts of mail fraud in carrying out an alleged scheme involving 44 invoices totaling more than half a million dollars in water-hauling fees.

The government claims that Banks, an engineer who was operations manager for a Denver, Colo., oil company, raked off 10 percent of \$58,059 in water-hauling fees paid to Lawrence by Tom Brown Inc. and by Browley, Wallace, Armstrong & Bander (BWA&B) Oil Co. of Denver.

Brown and BWA&B were developing oil fields in Montana, North Dakota and South Dakota when the alleged scheme took place from December 1976 to September 1978, when Banks was fired by BWA&B.

Independent oil producer Joe Bander of BWA&B testified that Banks, who was paid \$36,000 a year to look after BWA&B's production, was suspended from his job on Sept. 12, 1978 — the very day when Al Mitchell, Tom Brown's chief investigator and a former Texas Ranger, made inquiries into suspected price gouging.

"We suspended Mr. Banks... that same day," Bander testified under cross-examination by Burnett.

However, Bander testified that a subsequent audit of Banks' records and those of Lawrence's failed to turn up any irregularities.

"They (auditors) didn't find one thin dime (misapplied), did they?" Burnett asked Bander.

"No, sir," said the oil man.

In subsequent testimony, an BWA&B office employee and a former Banks' co-worker testified that water-hauling tickets kept by Banks could not be located following Banks' committee, and Claude Pepper, D-Fla., committee chairman.

John Trollinger, a spokesman for the Social Security Administration which runs the energy assistance program, commented in a separate interview that the funds have been used in the past only to meet heating costs of the elderly in the winter months.

But he said officials are now looking into the possibility that money can be used for air conditioning costs. He said states are making audits to determine how much of the \$1.35 billion is left. In the next fiscal year, he said \$1.8 billion has been earmarked for energy assistance to the elderly poor.

Biaggi said he wanted to question Patricia Harris, the secretary of the Department of Health and Human Services, on another "vexing problem" when she appears before the hearing.

He said the administration recently spent \$6.7 million in emergency areas for electric fans and cooling equipment to provide relief from hot temperatures.

But Biaggi related: "Many people are not using the fans because they can't pay their electric bills."

The New York congressman said the elderly must have the means to cope with sweltering heat as well as intense winter cold. "Perhaps it's time Congress started thinking in terms of long-term energy assistance to the elderly," he said.

representing Banks in the criminal trial, said that his client was frugal in business transactions. Banks was overseeing several drilling operations, he said.

"This gentleman (Banks) was extremely frugal... and might be described by Mr. Lawrence as kind of tight," Bell said.

Government prosecutor Jim Bock said the government's intent was to prove the scheme was carried out by Banks and Lawrence in causing price gouging on hours worked by water haulers and on equipment used.

Bock said the mail fraud aspect of the case came about through fraudulent invoices and the checks for pay-

ment being carried through the U.S. mails. Both Tom Brown Inc. and BWA&B paid Lawrence for the hauling water to well sites, but BWA&B, through Banks, made out the invoices. Bander said he approved payments to Lawrence and signed checks.

Prior to the beginning of testimony, U.S. District Judge Lucius D. Bunton told the jurors in the Midland-Odessa Division of the U.S. court system that the government's task was to prove the case against Lawrence and Banks and that the co-defendants are presumed innocent until when and if they are found guilty beyond a reasonable doubt.

State to appeal ruling on aliens

HOUSTON (AP) — As Hispanic leaders voiced enthusiastic approval for a federal judge's decision opening Texas schools to illegal alien children, state officials said they would appeal the ruling which overturned a state law.

"The decision by (U.S. District) Judge (Woodrow) Seals is a landmark decision bringing Texas back in line with the concept of equal opportunity," Ruben Bonilla, national presi-

dent of the League of United Latin American Citizens, said Tuesday.

Bonilla said he would ask the state to support Seals' ruling Monday that struck down a 1975 law barring undocumented children from public schools. A state appeal, he said, "would reflect an attitude of indifference."

However, state Attorney General Mark White said Texas would appeal the ruling. He said he is researching

the possibilities of a lawsuit against the federal government for allegedly not enforcing federal immigration laws.

"I think people should be aware that the Justice Department is taking a position supporting illegal alien children when they (the government) are the cause of the problem in the first place," White said.

He said the appeal would attack the extension of certain constitutional rights to illegal alien children.

Seals said Texas schools must begin admitting the students Sept. 1.

Texas officials estimate that about 110,000 illegal alien children are in the state, but the plaintiffs during the trial said the figure is closer to 20,000.

The plaintiffs — a group of parents of illegal alien children — filed suit in 1978 contending their children were entitled to an equal educational opportunity under the 14th Amendment. That suit was consolidated with others last year.

Texas Gov. Bill Clements said Tuesday he disapproved of the ruling and that "the main issue we must solve is the problem of undocumented aliens, not education."

"There is a contradiction of terms," Clements said, "in that illegal alien children can get our free education." He said he believed the problem of illegal aliens could be handled by temporary work visas.

School officials across the state, particularly those from cities along the U.S.-Mexican border, have said the ruling could trigger a flood of undocumented children and cause the schools severe economic problems.

Container ship, ore carrier collide in Louisiana canal

NEW ORLEANS (AP) — A container ship and a bulk ore carrier collided Tuesday night in a busy canal to the Gulf of Mexico, forcing the evacuation of five tiny St. Bernard Parish communities because of possible acid pollution, authorities said.

But only a small amount of hydro-bromic acid apparently spilled into the Mississippi River Gulf Outlet, the Coast Guard said later.

The vessels were identified as the 485-foot German container vessel Tesbank and the Sea Daniel, a 580-foot Panamanian-ore carrier.

As a precaution, the St. Bernard Parish Sheriff's Department evacuated the tiny communities of Ysloskey, Hopedale and Shell Beach after the 8:45 p.m. collision. The evacuation later was extended the nearby towns of Florissant and Reggio.

At least three containers of hydro-bromic acid initially were thought to have fallen overboard from the Tesbank, but Petty Officer Alan Burd said later that none of the containers in the water held the acid. Small amounts of the acid did spill from the vessel, however.

"Small amounts are making their way into the water. It is noticeable," Burd said.

Petty Officer Kenneth Wink described the acid as "a hazardous substance whose dust can cause irritation to the eyes and skin and which gives off a flammable gas."

"It causes toxic fumes when it mixes with water and the containers fell in the water," said Deputy John Miller of the St. Bernard Parish Sheriff's Department.

The five communities lie about 25 miles east of New Orleans and have a combined population of a few hundred people. Miller said preparations were

being made to keep evacuees overnight at St. Bernard High School in Poydras, about 10 miles inland, if necessary.

Wink said there were no reports of injuries, but the ship canal running due east from New Orleans was closed for an 8-mile stretch four miles on either side of Shell Beach. The canal runs perpendicular to the Mississippi River and is an alternate route to the Gulf from heavily industrial eastern New Orleans.

He said neither ship was in apparent danger of sinking.

Burd said the cause of the collision was not immediately known. But reports from the scene indicated damage to the port side of both ships, possibly indicating a side-to-side collision as the ships passed each other.

A Coast Guard board of inquiry will be convened later to investigate the accident.

Two persons killed, another injured in 2-car collision near Fort Stockton

FORT STOCKTON — Two people died instantly and another was hurt in a two-vehicle head-on collision Tuesday morning.

The accident occurred at 11:04 a.m. 18.3 miles west of Fort Stockton on Interstate Highway 10.

According to a Department of Public Safety spokesman, Alvin Ray McCage of Houston was westbound on I-10. Brady Lee Garrison of Los Angeles, Calif., was eastbound with Jan E. Whittier as a passenger. Shortly after the four-lane roadway became two-way, the two vehicles collided head-on, killing McCage and Garrison.

They were pronounced dead by Pecos County Peace Justice Fred Capers. The bodies were taken to the Fort Stockton Funeral Home.

Whittier is in unknown condition in William Beaumont Hospital in El Paso.

Water Valley man killed in mishap

SAN ANGELO — A one-car rollover near here resulted in the death of a Water Valley man who was riding on the vehicle's hood.

A Department of Public Safety spokesman said Margaret Marks Lumbley of San Angelo was driving the vehicle 6.3 miles north of San Angelo on old U.S. Highway 87. Frank Taylor, 53, of Water Valley was riding on the car's hood about 6:15 p.m. Monday. The car apparently ran off the left side of the road, struck a concrete culvert and wooden post and overturned.

Taylor was injured, with his right arm pinned under the vehicle. He was taken to Shannon Memorial Hospital in San Angelo. He died at 12:35 a.m. Tuesday.

The body was taken to Johnson's Funeral Home.

The accident was investigated by Trooper Gary Rogers of San Angelo.

Soviets say boy was kidnapped

CHICAGO (AP) — The Soviet Embassy has accused the United States of authorizing the "kidnapping" of a 12-year-old Ukrainian boy in granting him political asylum despite his parents' wishes that he return with them to the Soviet Union.

"These actions may lead to far-reaching consequences, not only with respect to Soviet-American relations, but also with respect to the international rule of law as a whole," said a statement released Tuesday by George Mamedov, a Soviet Embassy spokesman in Washington.

Rain reported in some areas of Basin; Midland gets trace

Moisture has finally arrived in West Texas, with Rankin reporting as much as an inch of rain Tuesday while other area towns got only a trace. But at least it was something.

Although the National Weather Service at Midland Regional Airport reported only a trace of rain in Midland that was not even measurable, it was the first moisture recorded here since June 20, and the cloudiness was enough to cool things down quite a bit.

Tuesday's high was a bearable 92,

considerably lower than the record high of 101 set in 1974. The overnight low of 69 was still much warmer than 1978's record low of 53.

Although a 20 percent chance of rain and a chance of thunderstorms was in today's forecast, rain chances are expected to diminish and Thursday's outlook is increasingly fair.

High temperatures should be in the mid-90s, with lows in the lower 70s. Winds will be from the south tonight and Thursday at 5-15 mph.

Do elderly get enough heat aid?

By JANET STAIHAR

WASHINGTON (AP) — Two congressmen want to know if the federal government is doing enough to help elderly persons survive the heat wave in Southwest and Midwestern states.

Rep. Mario Biaggi, D-N.Y., who was scheduled to co-chair a hearing today on energy assistance to the

elderly poor, said U.S. authorities had \$1.35 billion to spend by June 30 to aid older Americans in meeting rising energy costs.

"Much of the money has not gone out yet, and we'd like to know how much remains and whether it can be used in the current crises," said Biaggi, chairman of the House Aging Committee's human services sub-

Midland County drivers could pay 17.9 percent more for car insurance

Austin Bureau

AUSTIN — A hypothetical driver in Midland County would pay 17.9 percent more for automobile insurance under recommendations of the State Board of Insurance staff, while facing an increase of approximately 26.4 percent under insurance industry recommendations.

The SBI recommendations are based on a 1980 model "low-priced Ford, Chevrolet or Plymouth, not used in business, but is driven to or from work, no male operator under 25 years of age, no female operator under 21 years of age."

The Automobile Insurance Service Office recommendations use a 1979 Ford Granada.

Both use coverages of \$10,000 per person, \$20,000 per accident and \$5,000 property damage for liability; \$5,000 personal injury protection coverage; \$10 deductible comprehensive, and

\$200 deductible collision coverage.

Auto insurance rates vary among the 40 rating territories, and by the type of vehicle, use of vehicle, driver age and sex, and other factors.

Using the examples of the SBI and industry, the changes (all increases unless noted otherwise)

DEATHS

Ann Fischer

Mrs. Leon (Ann) Fischer, 55, 3110 Humble Ave., died early Tuesday in a Midland hospital after a lengthy illness.

Rosary will be recited at 7 p.m. today in St. Ann's Catholic Church. Services will be at 10 a.m. Thursday in St. Ann's Catholic Church with the Rev. Clifford Blackburn officiating. Burial will be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

Mrs. Fischer was born Dec. 30, 1924, in Elk City, Okla., and was reared there. She was married Nov. 3, 1945, to Leon Fischer in Elk City. They moved to Midland in 1948 from Las Animas, Colo., where they had lived for one year. She was active in the American Cancer Society, Meals on Wheels, Altar Society and St. Ann's Mothers Club.

Survivors include her husband; a son, Charles Fischer of Midland; four daughters, Pat Doherty, Suzy Fischer and Katy Fischer, all of Midland, and Janie McCurdy of Tulsa, Okla.; four sisters, Barbara Simon, Marie Biscoe and Gertie Pickett, all of Elk City, and Frances Braswell of Yale, Okla.; and four grandchildren.

The family suggests memorials be directed to the Allison Permian Basin Cancer Therapy Center in care of Midland Memorial Hospital, or to the Oblate Fathers of St. Ann's Catholic Church.

'Fats' Sumner

LAMESA — Services for C.E. "Fats" Sumner, 83, of Lamesa, will be at 10 a.m. Thursday in North 14th Street Church of Christ with Gordon Gower, minister, officiating.

Burial will be in Lamesa Cemetery, directed by Branon Funeral Home.

Sumner died Tuesday in a Lamesa hospital following a brief illness.

He was born Nov. 8, 1896, in Emerson, Ark., and had lived in Dawson County for 56 years. He was married to Ione Boone on July 25, 1952, in Lovington, N.M. He was a member of the Church of Christ and of the Masonic Lodge.

Survivors include his wife; two daughters, Maxine McKinnon of Oklahoma and Fairy Myers Shorts of Odessa; two stepsons, James Boone of Fort Stockton and Dan Boone of Arlington; two stepdaughters, Helen Edmondson of Canyon and Joann Nelson of Lamesa; 12 grandchildren and 12 great-grandchildren.

'Horace' Carter

SAN ANGELO — Services for W.H. "Horace" Carter, 68, of San Angelo and a former mayor of Crane, were to be at 3:30 p.m. today in Johnson's Funeral Home chapel with the Rev. James Andrews, assistant pastor of First Baptist Church, officiating. Burial was to be in Lawnhaven Memorial Gardens in San Angelo.

He died Tuesday in a San Angelo hospital.

Carter, a longtime Crane resident and civic leader, was born Sept. 13, 1912, in Richland. He was married to Billie Dee McGowan July 2, 1939, in Monahan. He founded the Carter Chevrolet Co. Inc., in Crane, now in operation as Bob Wall Chevrolet, and was Texas Automobile Dealers Association area director.

He was president of B&C Development Co. through which a subdivision to the Castle Gap addition of Crane was developed. He served on the Board of Equalization for Crane and for the Crane Independent School District; as Crane County Water Im-

Fire contained

LOS ANGELES (AP) — After a three-day battle in steep terrain and soaring temperatures, firefighters controlled a brush fire that burned 1,870 acres in the Rimrock canyons 100 miles east of Los Angeles.

The blaze was one of a series of fires that have charred 5,000 acres in southern California since the weekend. More than 300 state, county and U.S. Forest Service firefighters controlled the fire at 5 p.m. Tuesday.

provement District president for two years; as Crane County parole officer for six years; as a director for First State Bank of Crane for five years; and as a Crane County Democratic delegate.

Carter assisted in the organization of Crane County Chamber of Commerce and of the first Crane County Community Chest. He was a past president of the CCCC and a former director of the West Texas Chamber of Commerce.

He served one term as Crane County mayor, assisted in the organization of the Crane County 4-H and Crane County Clubs and was active in drives to benefit the Boy Scouts, Heart Association, American Cancer Society and Salvation Army.

Survivors include his wife of San Angelo; a sister, Mrs. W.D. McCary of San Antonio; and several nieces and nephews.

John Lallande

Services for John B. Lallande, 66, 2901 Aurora Lane, were at 3 p.m. Tuesday in St. Ann's Catholic Church. Burial was in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

He died Sunday in a Tulsa, Okla., hospital.

Pallbearers were Jim Green of Tulsa, Richard Morris Sr., Don Wolfe, John Lallande Jr., Mike Brown and Bill Peyton.

Honorary pallbearers were Graham Beebe, William D. Brown, Carl Jennings and Dale Smith, all of Midland, Carl Groening of Odessa, and Frank Murphy of Tulsa.

Leonard Barnes

ANDREWS — Services for Leonard L. Barnes, 59, of Odessa and formerly of Andrews, were to be at 2 p.m. today in Singleton Chapel of the Chimes with the Rev. Keith Wiseman, pastor of Means Memorial United Methodist Church, officiating. Burial was to be in Andrews Cemetery directed by Singleton Funeral Home.

Barnes died Sunday in an automobile accident in Odessa.

He had lived in Odessa for 11 years, moving from Andrews. He was a mechanic for a truck rental service in Odessa. The Okeman, Okla., native married Pauline Hale on Oct. 1, 1938, in Boswell, Okla.

Survivors include his wife; three sons, J.C. Barnes and Roger Barnes, both of Andrews, and Loyd Barnes of Odessa; two daughters, Thelma McKee of Odessa and Linda Patterson of Big Lake; six sisters, Leona Steele, Myrtle Davenport and Juanita Nieman, all of Andrews, Alta Selby of Boswell, Okla., Imogene Wilson of Phoenix, Ariz., and Callene Trent of Eunice, N.M.; a brother, Millard Barnes of Fayetteville; 16 grandchildren and two great-grandchildren.

Pallbearers were to be Cecil Martin, Thomas Selby, Jackie Selby, Johnnie Selby, Raymond Selby, Calvin Davenport, Scottie Nieman and Daniel Trent.

Lopez infants

ANDREWS — Graveside services for Juan Patman Lopez and Jeanette Paulette Lopez, twin infants of Mr. and Mrs. Antonio Y. Lopez of Andrews, were Tuesday in Andrews Cemetery Babyland with the Rev. Jack Barron, pastor of Maranatha Assembly of God Church, officiating.

Burial was directed by Singleton Funeral Home.

The infants were born Sunday in an Andrews hospital and died a day later.

Survivors other than the parents include two sisters, Patricia Lopez and Jennifer Lopez, both of the home; a brother, Randy Lopez of Andrews; paternal grandparents, Mr. and Mrs. Juan C. Lopez of Andrews; and maternal grandparents, Mr. and Mrs. Pat Tidwell of Andrews.

Lila Underwood

McCAMEY — Graveside services for Mrs. Charles (Lila Myrtle) Underwood, 95, of McCamey will be at 5 p.m. today in Resthaven Cemetery in McCamey directed by Larry D. Shepard Funeral Home of McCamey.

She died Tuesday in a Midland nursing home.

Mrs. Underwood was born March 10, 1885. She was married to Charles Newton Underwood Dec. 24, 1931, in McCamey.

Survivors include a sister, Lillian McLaughlin of Memphis, Tenn., and a niece.

V. Mitchell

LAMESA — Services for Velveteen Mitchell, 61, of Lamesa will be at 2 p.m. Friday in Mount Olive Baptist Church with the Rev. A.L. Carven, pastor, officiating.

Burial will be in Lamesa Cemetery directed by Branon Funeral Home.

She died Monday in a Lamesa hos-

pital following a brief illness.

A native Texan, Miss Mitchell had lived in Lamesa 30 years and was a member of Mount Olive Baptist Church.

Survivors include three sisters, Marie Bolton and Lue Ray Roberts, both of Lamesa, and Novella Gibson of Los Angeles, Calif.; and a brother, Rochelle Mitchell of Lamesa.

Myrtle Cogburn

EASTLAND — Services for Myrtle Taylor Cogburn, 72, sister of Lee Taylor of Midland, were Monday in Arlington Funeral Home Chapel, with Gary Adams of the Cisco Church of Christ officiating. Burial was in Eastland Cemetery.

She died late Saturday in an Eastland hospital following a lengthy illness.

Mrs. Cogburn was born Jan. 23, 1908 in Parker County. She was married to Albert W. Cogburn April 2, 1942, and he preceded her in death.

Other survivors include two daughters, a daughter-in-law, five other brothers and five grandchildren. A son preceded her in death.

The family requests that memorials be made to the American Cancer Society or the American Heart Association.

Bessie Mansell

Services for Bessie M. Mansell, 74, of Midland were Tuesday in Newnie W. Ellis Funeral Home chapel, with burial in Cedar Hill Cemetery in Abilene.

She died Sunday in a Midland hospital.

Mrs. Mansell was born in Grand Prairie Aug. 12, 1905, and moved to Mitchell County as an infant. She was married to Thomas Mansell in Abilene and lived there until 1947, when she moved to Midland.

Survivors include her husband of Midland and five sisters, Ethel Lightfoot, Adeline Widner and Zelda Armstrong, all of Abilene, Myrtle Cline of Odessa, and Mildred Gibson of Joshua.

Peter Sellers' condition remains critical

LONDON (AP) — Comedian Peter Sellers, star of "Being There," "The Pink Panther" and more than 40 other movies, remained in critical condition early today after his third major heart attack in 16 years, a spokesman for London's Middlesex Hospital reported.

The 54-year-old British actor collapsed Tuesday afternoon while talking to his secretary in his hotel suite. His heart beat and his breathing stopped. He was revived by mouth-to-mouth resuscitation and heart massage by a hotel nurse, Bridget Siklos, and the ambulancemen as they rushed him to the hospital.

A hospital spokeswoman said he suffered a cardiac arrest and was in the intensive care unit.

Actress Brit Ekland, who was married to Sellers when he suffered his first heart attack, arrived from Stockholm with their 15-year-old daughter, Victoria.

Lynne Frederick, the actor's present wife, was reported flying to London from California. She is his fourth wife, 29 years his junior, and they were talking divorce last year. But they got together again and recently completed a movie in Paris.

Miss Ekland, who was divorced from Sellers in 1968, said she brought their daughter to see her father but didn't plan to visit him herself.

"I do not think I enter into this," said Miss Ekland. "His wife should be the only one at his bedside. But of course, if he asks for me I will see him. That is only natural."

Sellers took court action in Britain last year to prevent newspaper serialization of her account of their marriage. But her memoirs were published in book form this month and revealed many details of their life together.

Sellers suffered his first heart attack in 1964 and was said then to have "clinically died" eight times. After another attack in 1977, he was fitted with a pacemaker to regulate his heartbeat.

He had a mild attack in Dublin in May and was hospitalized for six

days. Shortly afterward, he appeared, looking strained and exhausted, at the Cannes Film Festival, reportedly against the advice of his doctors.

Sellers' raved-about movie "Being There" is currently being shown in London. In it he plays a slow-witted gardener who by a fantastic chain of

circumstances appears destined for the White House.

He has recently been sponsoring an appeal for funds for the British Heart Foundation, which finances research on heart ailments and helps pay for heart transplants. The appeal is signed "Peter Sellers — heart attack victim."

A Delta Airlines L-1011 sits on the ground at Miami International Airport Tuesday evening after it was hijacked to Cuba en route to San Juan, Puerto Rico. Cuban

authorities took the hijacker into custody in Camaguey and then the plane and its 142 passengers and 13 crew returned to Miami. (AP Laserphoto)

Everyone safe in San Juan after ho-hum hijack to Cuba

SAN JUAN, Puerto Rico (AP) — "It went rather smooth. I didn't see any women break out in tears. Hijacking's not the thing that it used to be," said William Willman, one of the passengers aboard the Delta Air Lines flight hijacked to Cuba.

At one point, according to Delta spokesman Dick Jones, the plane's captain passed the hat among the passengers to come up with a \$1,000 landing fee demanded by Cuban authorities. Jones said the passengers later were reimbursed by Delta.

Willman, a steel salesman from Lakeland, Fla., and other passengers aboard the wide-bodied L-1011 said the episode began about 3 p.m. EDT Tuesday when a scruffy, nervous man grabbed a stewardess 200 miles out of Miami and forced the jetliner to Cuba, where the hijacker was taken into custody.

At 11:30 p.m. EDT, the weary passengers finally reached their destination of San Juan, complaining of inconvenience but saying there was no panic on board. Several dozen relatives and friends met some of the passengers with hugs and cheerful greetings.

The jetliner left Chicago Tuesday morning and stopped in Miami en route to San Juan. On the final leg of the flight, there were 133 passengers and 14 crew aboard, Delta said.

Shortly after takeoff from Miami, Willman said he noticed a nervous man in blue jeans walk back from the no-smoking section to take the seat beside him in the tourist cabin. He puffed on a cigarette, put it out, went forward again, and then repeated the same paces twice more in 10 minutes, Willman said.

In the first-class cabin, Tom Little then saw a flight attendant grabbed by the man. "I looked up and saw he had her left hand behind her back," said Little, of Fort Lauderdale, Fla. "They (the other passengers) said he had a gun to her head."

The FBI said the hijacker, who was described as about 30 years old, 5 feet, 6 inches tall, with a moustache and a heavy growth of beard, had a small weapon and forced the flight attendant into the cockpit, where he told the pilot he was a Puerto Rican with a lot of personal problems.

A short time later, several passengers said, the plane's captain announced over the loudspeaker they were being hijacked to Cuba.

Shortly after 4 p.m. EDT the plane landed at a small airfield in Camaguey, Cuba, where it had been diverted from Havana because of bad weather in the Cuban capital, according to a Delta spokesman.

The passengers said the man walked off the plane there. Willman said Cuban officials came aboard to take the passengers' names and addresses, and briefly took two flight attendants off the plane, evidently to question them about the hijacking.

At 6:27 p.m. EDT, the plane took off for a refueling stop in Miami, where it waited on the ground about one hour while the crew and some passengers were debriefed by the FBI.

Several passengers complained that during that hour they were kept in a room without water, bathrooms or telephones, and could not contact their families to let them know they were safe.

"People got more upset in the Miami airport than they did in Cuba," said Willman.

Carter urges conservation

WASHINGTON (AP) - President Carter has appointed 70 prominent Americans to an honorary Council for Energy Efficiency to promote voluntary conservation and continue the trend toward decreasing oil imports.

The action announced Tuesday was step two of the president's national Energy Efficiency Program.

Oil imports dropped 15 percent in the first six months of 1980 compared to last year, but "we have still not reached our goals," said Carter in a statement.

"Millions of our citizens now recognize how vital it is for each one to join in to cut imports," he said.

Israel to speak to U.N. on Palestine

UNITED NATIONS (AP) — Israel gets its chance to reply today to a U.N. General Assembly majority that demands it surrender occupied Arab lands for a Palestinian state to be ruled by the Palestine Liberation Organization.

Israeli Ambassador Yehuda Z. Blum is scheduled to address the assembly during the second day of its special session on Palestine. He was absent when the debate opened Tuesday because of a Jewish holiday.

Others on today's speakers' list include Syria, the Soviet Union, China, Japan.

William vanden Heuvel, the deputy U.S. ambassador, was listed to speak at the end of the day but observers said it was unlikely he would be heard before Thursday.

The United States and Israel were the only countries to answer, "No," when Secretary-General Kurt Waldheim polled U.N. members on a request for the emergency session on Palestine. Eighty-seven countries backed the proposal initiated by the Arab bloc.

President Carter came under attack from a Palestinian guerrilla leader during Tuesday's debate, as did his opponents in the U.S. presidential race.

Farouk Kaddoumi, chief of the Palesed Carter of backing away from earlier statements favoring a "homeland for the Palestinians."

He claimed Republican presidential nominee Ronald Reagan and independent candidate John Anderson each had "sold himself to the Zionists."

Non-aligned countries are preparing a resolution demanding Israel give up all occupied Arab territories before Nov. 15, and ordering Waldheim to

"hand over the evacuated Palestinians areas" to the PLO for a Palestinian state.

Israel seized the Gaza Strip and Sinai Peninsula from Egypt, the Golan Heights from Syria and the West Bank of the Jordan River from Jordan in the 1967 Mideast war. The areas tentatively designated for a Palestinian state include the West Bank and the Gaza Strip.

The resolution was expected to be adopted with the support of a large Third World, Arab and communist majority before the close of the special session next Monday or Tuesday.

AMA adopts new code of ethics for physicians

CHICAGO (AP) — The American Medical Association has adopted a new doctors' code of ethics — the first in more than 20 years — that could help halt the spread of a costly series of lawsuits.

The AMA House of Delegates on Tuesday approved a code which, among other things, permits physicians to advertise for patients and to accept patients referred to them by chiropractors.

The House is holding its annual meeting here through Thursday. Dr. Lowell H. Steen of Hammond, Ind., AMA chairman of the board, said the action should help the group in its legal battles with both the Federal Trade Commission and with chiropractors in Illinois, Iowa, New Jersey and New York.

The 214,000-member AMA is spending \$50,000 a month in legal fees, Steen said, and could go bankrupt if the chiropractors won all of their suits.

Chiropractors, who practice a method of healing based on spinal manipulation, have charged that the AMA tried to prevent doctors from working with them. They particularly wanted to be able to send patients

to radiologists for X-rays. Meanwhile, the AMA is appealing a ruling by the FTC last year that said the AMA restrained trade by forbidding doctors to advertise.

An AMA attorney said the new code of ethics probably will not help settle the lawsuits. But, the attorney said, it should "stop the proliferation" of new suits over the chiropractic issue, which has led to five suits since 1976. The AMA settled one chiropractic suit out-of-court in Pennsylvania last year.

In addition, the attorney said, the change makes it less likely that, should the FTC case be lost, the FTC would try to limit what ethical principles the AMA could adopt.

The new code of ethics, the first since 1957, removed a stipulation that physicians should not associate with those who do not use a scientific method of healing, which chiropractors said was aimed at them. It also deleted a provision that doctors "should not solicit patients."

Tower to make appearances in West Texas this weekend

LUBBOCK — Sen. John Tower will be in Lubbock this weekend for a series of appearances, including the official opening ceremonies of his West Texas office in downtown Lubbock.

Tower has scheduled a press conference at 10:45 a.m. Saturday at his office, 730 Court Place, 1001 Main St.

The senator served as chairman of the Republican National Convention's platform committee where his leadership of the proceedings was credited by many observers with helping to foster the unified mood exhibited throughout the party's meetings, ac-

ording to a spokesman for his office.

The public is invited to the office's open house which begins about 11:15 a.m. Saturday.

Following the open house, Tower will address the Lubbock Chamber of Commerce International Trade Seminar luncheon at noon in the Hilton Inn. He also will appear at a Lubbock County Republican Party fund-raiser that will be held from 7:30 to 10:30 p.m. Friday in the home of former Lubbock mayor and Texas Republican gubernatorial candidate Dr. Jim Granberry.

ONE-STOP SHOPPING CONVENIENCE!

Stowing away favorites is important in a room where children are as welcome as the rest of the family. Colonial-style occasional

tables provide easy-access storage space—for anything from prized possessions to games and books—in rooms designed for family liv-

ing. The tables are accented with embossed wheat motifs and decorative brass hardware.

Smaller houses require furniture with myriad uses

Smaller may have to be better for many house-hunting Americans. Bedrooms, baths and garages, of necessity, will continue to be an integral ingredient in new homes of the 80s — but ballooning housing costs dictate that something has to give.

Now many builders, faced with constructing homes with less square-footage, are opting to eliminate rooms rather than shrink their size. Consequently, many U.S. consumers are finding that single-purpose rooms — such as formal dining rooms and separate family rooms — are an unaffordable luxury in today's housing market.

With this new focus on one major room, furniture now must be designed for myriad uses. One answer to this need is three versatile new family-living room collections that blend practicality with up-to-date styling. Each group can handle almost every conceivable living situation, from children's rough-housing to grownup conviviality. All pieces perform at least

two, or more, functions: bunching and stacking units form storage/entertainment centers that can also divide rooms, and sofa tables become desks or "serving" spots for late-night buffets.

Versatility is also the key word for the furniture: dual purpose sleep sofas and a casual contemporary upholstery collection with two styles of pit groups, sectionals, sofas and love-seats. Both were designed to play a variety of roles in today's multi-faceted rooms — whether it's last-minute overnight guest accommodations or seating for a crowd.

The new utilitarian principle of flexible furniture doesn't ignore the ever-present table and chair. The desk chairs swivel with ease into any environment as do the more-than-occasional tables.

Even though a "back-to-basics" philosophy has permeated today's housing market, the American dream of owning a home is still alive and well — only the 1980s version has been condensed.

Ingenuity used to build unique houses

Copley News Service

Owning a home has long been one of the strongest desires of American families. And the ingenuity used by some families to attain that goal is truly amazing.

One man, for example, couldn't afford an outright purchase of the type of home his family needed. So he looked around for a workable alternative.

He finally found and purchased two huge redwood water tanks. He moved them onto a slab on a lot, nestled among state oaks in a picturesque mountain locale.

He then went to work on the tanks, cutting in spaces for the installation of windows and doors and making other needed alterations.

He also built a structure between the two tanks, completing his modularized home. It worked out great. An-

other "one of a kind" home was created.

An Oregon family also had a problem in finding a home they could afford. And they had very special ideas about the design they wanted.

Building their own small but unique home seemed to be the answer. But they couldn't afford all the building materials.

Finally, the man of the house ran across an opportunity to acquire a large number of old railroad ties for a very small cost. These were used entirely as the basic building material, making the project possible.

A Southern California family used a somewhat similar method to solve the "building material" problem. But in their case, they acquired 200 doors from an old, demolished hotel.

There are many unique approaches to creating homes.

Son forms group after learning father has crippling disease

JACKSONVILLE, Fla. (AP) — Young Mike Edwards tried to kill himself four years ago when his father began showing signs of a brutal disease. Now the boy wants to help other youngsters who, like himself, could inherit the slow killer.

Troy Edwards, the boy's father, has Huntington's disease, an illness that cripples the central nervous system. Two months ago, his son formed Kids Involved to Combat Huntington's. The group already has nine young members.

"I really didn't understand the disease, but then I started getting scared again when I found out what it was," the freckle-faced 15-year-old said. "Now, instead of being scared, I'm trying to do something about it."

The boy said he hopes the group will help other youngsters in his position understand the deadly disease, including its effects on adults and the grim reality that children of Huntington's victims have a 50-50 chance of contracting the illness.

"IT REALLY HAS a big effect on kids, and that's why we started the group," he said.

The disease attacks brain cells, robbing its victims of the ability to control many muscles. Results include spasms, slurred speech and difficulty in swallowing. There is no cure for the illness, which claimed the life of folk singer Woody Guthrie in 1967.

"With me, it all started four years ago," Mike said. "We didn't know what was wrong with my dad."

"We used to spend a lot of time together," he said, his voice choked with emotion. "He used to take me out to the ball games and the movies and stuff like that. Then all of a sudden, he

stopped." Tears streaming down his cheeks, Mike continued: "One day I came home from school and was getting a hair cut. I tried to commit suicide that day. I tried to hang myself."

THREE YEARS AFTER that episode, doctors finally diagnosed the illness.

"I know now what was wrong with dad and I felt better. Me and my dad are a lot closer now," Mike said. "We still don't do a lot of things. But I understand."

Wesley Brown, 11, helped plan the children's group and now is its president. Wesley's father, Paul, 33, also has Huntington's. Wesley's grandfather and uncle died from the illness.

Relatives of Brown and Edwards, and the men themselves, work in a group called People Involved to Combat Huntington's, modeled after the national organization, the Committee to Combat Huntington's Disease, founded 13 years ago by Marjorie Guthrie, the singer's widow.

Adults in the Jacksonville group said the children work harder than adults in promoting awareness of the disease. For young Wesley, it's easy to explain why.

"We should work harder," he said. "We still have a 50-50 chance."

SPOKESMEN FOR THE New York-based committee said they don't know how many Americans are afflicted with the disease because it often is misdiagnosed. Also, some families refuse to admit the illness exists in their history.

The disease is easily mistaken for multiple sclerosis, alcoholism, Parkinson's disease or epilepsy, experts

said. Early symptoms include involuntary jerks, twitches and spasms of the neck, face, tongue, trunk, arms and legs. Speaking and swallowing become more difficult as the disease takes hold.

One of the first projects undertaken by the Jacksonville children was to ask the New York committee to translate its pamphlets and brochures into language that youngsters

can understand easily. The group also has placed posters in schools and sought public service announcements on local television stations in its drive for members, Mike said.

"We just want to let kids whose parents have Huntington's disease know what they're getting into," he said. "The important thing is to get to the kids for educational purposes."

Solar energy old hat to Indian culture

Copley News Service

A lot of people still think of solar energy as some futuristic technology with few practical applications. Others think of it in terms of heating a swimming pool or small collectors on a few neighborhood roofs. But to the Papago Indian tribe of Arizona, solar energy will represent the most significant source of energy for their entire village.

It is particularly appropriate that a pilot project of this magnitude should be undertaken by native Americans. After all, Southwestern Indian cultures were relying on passive solar energy in their architectural designs nearly 500 years before Columbus sailed for the New World. In conjunction with the Department of Energy, The Public Health Service, and NASA, the Papago tribe are building the world's first solar-powered village.

The soft lines of a front-swept brim and creased crown lend authentic style to the felt fedora.

Chic and exciting hats open mood for fall styles

NEW YORK — A true sense of fashion individuality is in store for fall as a range of unbeatable chic and exciting hat stylings provide the dash and flair that will give a personal signature to every woman's wardrobe.

Designed with taste and subtlety, hats for fall offer the mood of unstudied assurance that makes them the integral accent to an outfit.

Ideal as piquantly small companions to structured, neatly tailored day suits, or for the rakish freedom of "disco nights," the new hats are tops for a fall look.

There are new, smaller hats to balance the lean lines outfits, mostly worn with a jaunty forward thrust on the forehead. Favorites in this group are sailors, caps, cloches, helmets, fedoras and berets.

The bigger hats for fall are BIG. They have the look of sculptured refinement that makes them ideal companions for a fuller skirt outfit.

Big or small, hats are worn with a

forward tilt on the forehead that gives a flirtatious, sexy meaning to eyeline flattery.

"After dark" lifestyles are coming into their own again as dining, dancing and theater attract ever increasing devotees.

With this comes freer, more innovative fashion statements from ram-paging disco outfits to the subdued elegance of the sleek theater-dinner dress.

At the head of this trend is the new found favor of the jeweled evening hat. There is a classic use of velvets for cloches and berets for dinner suits and colored feather helmets, or trimmed caps for a dressier look.

With the new, gentler look in fashion, the beguiling tiny veil on hats is being seen again. They do wonders for a woman's femme fatale sander.

For nighttime "galas" the favored fashion accent is a tiny cap deftly fashioned of gossamer netting and overlaid with a trim of glitter and wispy feathers.

Fashion given new lease at fall-winter showings

ROME (AP) — High fashion, all'ng dowager of the Italian fashion industry, is being given a new lease on life for the fall-winter showings.

Resigned to the fact that the future dress is no longer a profit maker, Italian designers are using the shows which opened Tuesday to display not only high-quality design but to promote an entire industry.

In the economic boom days of the 1960s, Italian designers were selling their hand-stitched miracles to the rich and the potent as fast as their studio elves could sew them together. Today the high fashion clothes hang idle on the studio racks, partly because the Jet-setters of today prefer anonymity, partly because the high cost of labor and materials create absurd price tags.

Last year the only Italian designer to claim satisfying sales in the high fashion department was Valentino who said he sold over a thousand models in the two seasons. One of his price tags can easily run as high as \$10,000.

However, following in the footsteps of their Parisian cousins, for the past decade Italian designers

have increasingly been using their high fashion label to promote other lines such as scarves, ties, leather goods, cosmetics and perfumes.

Says Russian-born designer Princess Irene Galitzine, inventor of the high fashion penthouse pajama, whose parallel fashion interests include a luggage line, a cosmetic line, and her own perfume, "Couture clothes help to maintain quality in design and life style, but most of all they are a trademark which at a certain level can mean a lot of sales in many different areas, and many countries."

The latest fad in parallel designing is sunglasses with designers such as Valentino and Balestra offering various styles and colors to match their high fashion clothes. For the luxury sleepers designers Valentino and Capucci have created a line of couture bed linen.

Sales, however, is not the only problem plaguing the high fashion industry. The tendency over the past few years of hiring foreign models has enraged the Italian mannequins who almost closed down the ready-to-wear shows in Milan last spring. Several non-Italian girls were called into police headquarters for a check of their working papers, but none was arrested and the shows went on.

The problem threatened to flare up again for this week's Rome shows, but the national Association of Models agreed to waive any protest until September, under the guarantee that the foreign girls would not be hired permanently by the fashion houses, but work as self-employed professionals under contract with the houses for the duration of the shows.

But the designers are still worried lest backstage fashion neurosis take the upper hand. "I'm shaking in my shoes and won't stop until the show is over," said a representative of the Lancetti house showing.

CLUB NEWS

NARFE
The National Association of Retired Federal Employees voted to give a memorial contribution to the Midland Heart Association during their recent meeting. Mrs. Wayne Campbell also gave a memorial contribution to former member Charles P. Campanella, who retired as a clerk with the Midland Post Office in October.

During the business meeting, Ada Spivey was elected as delegate to the national convention in Albuquerque, N.M., and Ed Zantau gave a legislative report on letters members had written to Congressmen Kent Hance and Lloyd Benson.

AARP

Aeta Williams gave a program on "Our Flag" during the American Association of Retired Persons meeting at the Crestview Baptist Church Fellowship Hall.

Bea Tiner presented an anthology on "This Is America" and read the poems "I Love America" and "Hats Off." Billie Sexton played the piano while Lora Duke lead the singing of patriotic songs.

National members are urged to attend the local chapter's meetings at 6:30 p.m. on the first and third Mondays of each month. A covered dish supper is held at each meeting.

DEAR ABBY He smokes, she burns

By ABIGAIL VAN BUREN

Dear Abby: I can't stand cigarette smoke, but two years ago I married a three-pack-a-day man. I knew it would be hard for Jim to give up smoking altogether, so I told him I'd appreciate it if he wouldn't smoke in our bedroom. He promised, and for a long time he kept this promise. Then he started to "forget" once in a while, and now he's been smoking in our bedroom regularly. One night his cigarette rolled off the ash-tray and burned a big hole in the nightstand. That did it! I finally said, "OK, Buddy there are going to be some new rules around here. There will be NO lovemaking in the same room you smoke in!" Knowing Jim, I thought for sure that would cure him, but it didn't. Jim is still smoking in the bedroom, and I'm...HUNGRY FOR LOVE

parents." HEARTSICK PARENTS' complaint was that not one of their friends had written or kept in touch since they wrote: "How it would have helped to ease our heartache if they had responded. Do they think that we condone our daughter's lifestyle? (We do not, but we're making the best of it.)" You replied, "Wonderful friends should be supportive, loving and non-judgmental, so perhaps your friends were not so wonderful after all." Abby, before "wonderful friends" can be supportive, loving and non-judgmental, the PARENTS must exhibit these traits.

If the new grandparents themselves admit to being "upset and heartbroken," then what can their friends say? Frankly, if friends told me that they had unfortunately become grandparents, expressing negative feelings about the event I'd be at a loss for words too. And perhaps permanently. —ZEPHYR COVE, NEV.

DEAR NEVADA: Thanks for an angle I failed to see. But "wonderful friends" can help "upset and heartbroken" parents understand and endure the unconventional lifestyles of their children. That's when "wonderful friends" are really needed.

Foreign friendships still suspect in China

By VICTORIA GRAHAM

CHENGDU, China (AP) — Comrade Wu, a bespectacled university professor, stopped a foreigner walking down a street one evening. "Now it's all right for us to contact foreign friends," he said. "Now we Chinese are free to speak what's in our hearts."

He then added hastily: "Of course, I had to have permission to talk to foreigners or I couldn't possibly dream of doing it. My party leader said it was all right for me to practice English."

Comrade Wu — a pseudonym for the mild-looking, middle-age man — and many other Chinese haunt the streets near a Chengdu hotel, waiting for foreigners. Wu is eager for fresh ideas and asks what foreigners think about China. He listens thoughtfully then speaks a caveat.

"Please," he said urgently, "don't try to contact me at my school. And if you write to me, don't write in English."

HE CAREFULLY wrote his address in Chinese on an envelope: "Here. You can mail this. That's what my other foreign friends do."

Torn between the desire to talk and the fear of criticism, Wu is not unusual in China today. Although relations with the West have improved and official and professional contacts with foreigners are increasing, personal contacts are still suspect.

The Chinese press warns Chinese young people against adopting materialistic ideas from the West and cautions against decadent music, clothing and morals.

LAST FALL, China cracked down on its tiny human rights movement, which had regular contact with foreigners. A lesson not lost on anyone was the case of China's best-known dissident, Wei Jingsheng.

Last October he was sentenced to 15 years in prison for allegedly trying to subvert the socialist system and for giving military information to a foreigner.

Since then, reporters have found some Chinese less willing to talk. Last month a French journalist reported that just as he was meeting a Chinese family to take them to his home for dinner, the man was arrested by plainclothes police. He was pushed roughly into a jeep and driven away.

The reporter photographed the jeep but an angry crowd made him give up his film. No public explanation was given.

Chinese young people and foreign students used to mingle in the often rowdy Peace Cafe in Peking. Last winter it was closed down.

CHINESE SELDOM show up at the Wednesday disco at Peking's Minzu Hotel these days. To go they must have permission from their work units and show identification.

Nor are foreigners permitted to attend most Chinese dances. At Peking's International Club, foreigners were not even permitted to stand in the doorway and watch for a few minutes. In Hohhot, Inner Mongolia, doors were chained after foreigners asked to watch.

It also is required that all Chinese visitors identify themselves or show identification before entering hotels where foreigners stay.

One youth commented, "If you go to a hotel to see foreigners and just chat too many times, and if you don't have official business, someone is likely to ask what you're doing. They'll want to know what you're talking to them about."

In Chengdu, Wu insisted he doesn't mind that he can't walk into a hotel and talk with foreigners. "It's for their own protection," he said obliquely.

"The best way to contact Chinese," he said, "is in a public place with lots of people, a park or an airport, and to keep walking."

Wu often leads foreigners to a crowded tea house and asks how socialism compares with capitalism.

ONE FOREIGNER suggested that many Chinese are wary of telling other Chinese what they really think because they fear they might be reported, as they were in the past.

"That shows a profound understanding," said Wu. "It is a very complicated situation."

Some young people, however, don't seem to mind disapproval. They throng hotel gates, waiting for foreigners to go for an evening stroll. They guide them to a crowded park along a canal.

Their talk is animated and they freely give their Anglicized names, given by their English teachers.

"We're not supposed to talk to you," said one 18-year-old. "They said we should study but we're not afraid. ... Tell us about the trial of Wei Jingsheng. We didn't hear much about it. ... Yes, many young people have their doubts about everything, including socialism."

Like millions of others, he said, he had been sent to the countryside during the cultural revolution. "We're not afraid of talking to you," he said. "After the cultural revolution, there's not much more they can do to us."

DR. NEIL SOLOMON Processed foods rich with sugar

Dear Dr. Solomon: I've been trying to cut down on my family's sugar intake, and have drastically curtailed its use at the table. However, it seems to be present in most of the processed foods I use. Am I shopping for the wrong products, or is sugar actually used as widely as it seems to be? — Mrs. A.C.

Dear Mrs. C.: Sugar is in fact added to many processed foods. The Department of Agriculture reports that about 75 percent of all sugar consumed in the United States is added to foods and beverages before they reach the table. By comparison, in 1920, only 40 percent of the sugar eaten by the average person in this country was added to foods before they were served at home.

One way to avoid the intake of excessive amounts of sugar is to read food labels carefully and purchase accordingly. For example, fresh fruits or fruits packed in their own juices can be substituted for those packed in heavy syrup; and fresh or frozen vegetables can be used in place of canned vegetables to which sugar has been added.

Dear Dr. Solomon: I am very cholesterol conscious since there is a history of heart disease in my family. However, I cannot become accustomed to skim milk; it tastes like chalk to me. Does drinking whole milk negate my efforts to reduce my cholesterol intake? — Gus.

Dear Gus: Because of its lower fat content, skim milk is preferable to whole milk for persons interested in reducing their cholesterol intake; however, any kind of milk can do the job. Yogurt is an even more effective food for reducing the amount of cholesterol in your blood, and it would be

a good idea to include some in your diet.

My most recent book, "Dr. Solomon's High Health Diet and Exercise Plan," published by G.P. Putnam's Sons, contains a review and discussion of some of the studies related to these conclusions.

Dear Dr. Solomon: My 16-year-old daughter is eating less today than she did a couple of years ago. She seems to be in good health, but I'm concerned about her loss of appetite. Do you have any suggestions for her? — Mrs. G.Y.

Dear Mrs. Y. My first suggestion is for you: Don't worry. There is nothing unusual about a 16-year-old girl eating less than a 14-year-old. After age 14 or 15, a girl can get by with about 2,100 calories a day, compared with the 2,400 she may have needed during her growth spurt.

Dear Dr. Solomon: When I was a youngster I recall being coaxed to eat my spinach because it contained iron. I don't hear this lately. Isn't iron considered an important part of the diet anymore? — Mel.

Dear Mel: While many foods such as spinach are said to be rich in iron, it is not in a form the body can use. The best dietary sources of iron are liver, fish, lean meat, poultry and beans.

(If you have a medical problem, see your doctor. If you have a medical question, write to Neil Solomon, M.D., 1726 Reisterstown Road, Baltimore, Md. 21208. Dr. Solomon cannot give personal replies but will answer as many questions as possible in his column.)

Central YMCA taking registrations for mini-session of Fitness Fantasia

The Central YMCA is taking registrations this week for a four-week mini-session of Fitness Fantasia. Classes begin July 28 and last through Aug. 22.

Fitness Fantasia is a ladies exercise program set to music and designed to help ladies maintain their ideal weight while developing flexibility and cardiovascular endurance.

day, Wednesday and Friday 1:30-2:30 p.m. and 5:45-6:45 p.m. A combined beginner/advanced class is offered for Tuesday and Thursday evening 7:30-8:30.

Drunken biking ruled no crime

LOS ANGELES (AP) — A state appeals court says drunken bicycling is not the same as drunken driving.

Monday's ruling upheld a Los Angeles Superior Court judge who had thrown out charges of cycling under the influence of alcohol in a case involving three men.

Both courts found that the state Vehicle Code excludes bicycles from the definition of a vehicle.

Western Airlines to pay off

SAN DIEGO (AP) — Western Airlines will pay \$25,000 in civil penalties and court costs and discontinue an alleged misleading advertising campaign under terms of a court settlement. Without admitting any wrongdoing, the Los Angeles-based airline agreed Monday to the settlement of a civil suit brought jointly by the San Diego city attorney and state attorney general's office. The suit filed here alleged that Western's advertisements claiming 50 percent discounts on some fares were misleading.

DON'T WAIT FOR RETIREMENT TO START PLANNING FOR IT...

Start now. Consider starting your own Individual Retirement Account. If you work for a firm which does not have a retirement plan you can save up to \$1500 or 15% of your wages each year and defer taxes on this amount until you retire.

Or, if you've recently retired from a company and are looking for ways to invest your previous plan benefits, you may wish to "roll over" all or a portion of these benefits into an IRA.

The IRA offers you compounded interest on your retirement savings while sheltering the savings until you have a lower tax responsibility.

Opening an IRA is as easy as opening a Savings Account. Come by and see our Personal Services Group for details.

Armed Forces News

Capt. Douglas W. Graham, currently secretary of the Midland Reserve Officer's Association, recently returned from Fort McCoy, Wis., where he performed reserve duty as course director of the Supply Specialist course. He also served as senior instructor of the school.

Graham, an Army Finance Corps officer, served on active duty, from December 1972 to October 1974 and has been active in reserve service since 1974.

He is vice president and personnel director of The First National Bank of Midland. He was a participant in the 1979-80 Leadership Midland program and is charter president of the Permian Basin Personnel Association.

Staff Sgt. Larry H. Holder, whose wife, Linda, is the daughter of Evelin Smith and C.L. Teal, both of Odessa, has been named outstanding noncommissioned officer of the month at Ramstein Air Base at Landstuhl, Germany.

An air transportation supervisor, the sergeant was selected for professional skill, duty performance and exemplary behavior.

Pvt. James M. Simmons, son of Virginia Starnes of Big Spring, is attending basic training at Fort Leonard Wood, Mo.

During the training, students receive instruction in drill and ceremonies, weapons, map reading, tactics, military courtesy, military justice, first aid, and Army history and traditions.

Cadet Robert C. Glenn, son of Mr. and Mrs. Jack D. Glenn of Midland, is attending summer training at Camp Buckner on the reservation of the U.S. Military Academy, West Point, N.Y. The cadet is a third classman at the Military Academy.

During the eight-week course, cadets will gain experience in infantry patrolling, artillery firing, rifle marksmanship, hand-to-hand combat, mine warfare, demolitions, field communications and wilderness survival. One week will be spent at Fort Knox, Ky., where they will be trained in tank, cavalry and air defense operations.

Glenn is a 1979 graduate of Midland High School.

Master Sgt. Almus G. Casey Jr., son of Mr. and Mrs. A.G. Casey of Lamesa, has graduated from the Air Force Systems Command Noncommissioned Officer Academy at Kirtland Air Force Base at Albuquerque, N.M.

The sergeant received advanced military leadership and management training and is assigned at Holloman Air Force Base, N.M.

He is a 1963 graduate of Lamesa High School.

Capt. Douglas W. Graham

Second Lt. Jeffery W. Laufer, son of Mr. and Mrs. Walter A. Laufer of Midland, recently completed a field artillery officer basic course at the Army Field Artillery School at Fort Sill, Okla.

During the course, students gain proficiency in artillery techniques and are introduced to new weapons and doctrine.

Senior Airman David A. Fowler, son of Mr. and Mrs. Peter A. Fowler of Big Spring, has been named outstanding airman of the month at Altus Air Force Base at Altus, Okla.

An inventory management specialist, the airman was selected for professional skill, duty performance and exemplary behavior.

He is a 1976 graduate of Big Spring High School.

His wife, Di Ann, is the daughter of Mr. and Mrs. Dell J. McGuire of Big Spring.

munition, setting fuses and preparing charges, communications and maintenance.

Most of the old lighthouses along the Louisiana coast have either been downgraded with smaller lights, taken out of service, or automated, said Coast Guard Lt. G.P. Shriver.

But the 8th Coast Guard District, based in New Orleans, still has one lighthouse with men on board among their three operating beacons.

"Southwest Pass is a manned light station," said Shriver. "It's pretty solitary — the crew of five splits up into two groups of two weeks. There's usually two people on the station."

Shriver said the lighthouse, which marks an entrance to the Mississippi River of 150 yards in width, is still kept as a beacon to guide ships into the channel. Its light shines into the Gulf of Mexico for 24 miles.

Duty on the Southwest Pass lighthouse is lonely, but there is worse

Radio signals replacing lighthouses

NEW ORLEANS (AP)—Radio signals are replacing lighthouses as guides for sailors on America's coastal waterways, but Coast Guard officials say the lighthouse still has a place as a navigation aid.

It's no worse duty than some of the ships that are away pretty much of the year, at three months a shot," Shriver said.

"It's mainly lonesome from boredom. You can only walk around the lighthouse so many times for two weeks, before you get bored real quick," said Shriver.

"We've got Loran stations, like French Frigate Shoals, where you spend a year there. That's nothing but a 300-foot strip of land, and that by far would be worse."

Loran is a radio locating system that depends on accurate signals from two separate stations to fix a ship's position.

The lighthouse has slightly softer chairs than you'll find in much of the Coast Guard, and amenities like television, radio, and a fishing boat, said Shriver. But crews still sleep on standard-issue thin mattresses, and fill out lots of paperwork.

"They get a couple of little extras there to try and make it a little bear-

able," said Shriver. "But still, it's not like living in downtown New Orleans. It's comfortable, and that's where we stop."

The lighthouse is the fifth to mark the entrance of the pass. Previous light stations have either collapsed or tilted in the Mississippi mud so badly they could not bear the weight of the heavy lens and thousand-watt light-bulb, said Shriver.

Shriver said manned lighthouses, like all lighthouses operated by the Guard, are becoming outmoded and are being replaced by modern navigational aids.

Loran-C radio systems and other position locating systems using satellites provide accurate benchmarks to guide skippers, and good Loran equipment can be bought for about \$2,000, Shriver said. But there's still a place for the lighthouse.

"The big ships are still using them, but they use them more or less as landmarks than anything else," Shriver said. "I'd say it's really for the smaller vessel, for the actual light shining them back."

CBS gets ratings boost from non-convention program

NEW YORK (AP) — The Republican National Convention consumed all but a few hours of prime-time in the week ending July 20, and CBS won the three-way ratings race with plenty of help from a half-dozen programs broadcast after the networks' political coverage had concluded.

Viewers generally ignored the campaign coverage, figures from the A.C. Nielsen Co. showed. Of 52 programs broadcast in or just before prime-time during the week, the highest rated of the convention reports was CBS' Thursday night wrap-up, No. 24 in the ratings.

The week's five lowest-rated programs were convention reports broadcast by CBS and ABC Tuesday, Wednesday and Thursday nights in the hour or half-hour before the start of prime-time at 8 p.m. EDT.

The three highest-rated programs for the week were from CBS' Sunday night lineup. "The Jeffersons," with a rating of 20.7, followed by "60 Minutes" and "Alice."

Nielsen says the rating for "The Jeffersons" means that of all the homes in the country with television, 20.7 percent saw at least part of the situation comedy.

CBS had the week's six most-watched programs, and eight of the first dozen, and that contributed to a rating for the week of 11.3. NBC and ABC tied for second place with ratings of 8.7.

The networks say that means in an

average prime-time minute during the week, 11.3 percent of the nation's TV-equipped homes were tuned to CBS.

The extraordinarily low ratings for the week were due almost entirely to poor, though not necessarily unexpected, marks for the convention coverage.

In 13 hours of simultaneous coverage during the four days of the convention, Monday through Thursday, CBS registered a rating of 7.7 to 7.6 for NBC and 6.5 for ABC.

That means that in an average minute during the convention, 7.7 percent of the country's homes with television were watching CBS.

Just over half the television audience watched the convention on the three networks, with other viewers choosing alternate programming on independent and public stations. NBC's research department estimated about 85 million viewers saw at least some of the convention coverage broadcast by the three networks.

Though the convention itself did not attract viewers, a special Monday night edition of CBS' "60 Minutes," featuring an interview with the eventual Republican presidential nominee, Ronald Reagan, did well in the ratings — 17th place.

A convention-oriented edition of ABC's "20-20" broadcast Tuesday night was No. 23 for the week, while a Monday night "20-20" broadcast was 25th.

There were three non-political shows bunched among the poorly rated convention programs — CBS' "Bad News Bears" in 44th place, and "Buckshot" and "When the Whistle Blows," both from ABC, 45th and 46th.

Here are the week's highest-rated

programs: "The Jeffersons," with a rating of 20.7 representing 15.8 million homes, "60 Minutes," 19.6 or 15 million, "Alice," 19.4 or 14.8 million, "Trapper John, M.D.," 19.1 or 14.6 million, "Dallas," 18.6 or 14.2 million, and "Dukes of Hazzard," 17.7 or 13.5 mil-

lion, all CBS; "CHiPs" 16.2 or 12.1 million, NBC; "Love Boat," 15.9 or 12.1 million, and "Fantasy Island," 15.4 or 11.8 million, both ABC, and "The Awakening Land," Part I, NBC, and "Archie Bunker's Place" and "One Day at a Time," both CBS, all 14.2 or 10.8 million.

The rest of the Top 20: "Moonrunners," ABC; "The Islander," CBS; "Ed Clark for President" spot, and "240 Robert," both ABC; "60 Minutes," Monday edition, and "The Incredible Hulk," both CBS, and "Diff'rent Strokes," Friday edition, and "Me & Maxx," both NBC.

'Deathtrap' runs for 1,000 shows

NEW YORK (AP) — It's said that on opening night, actors in a Broadway show hope it runs forever. It's also said that if that happens, they quickly get bored playing the same part night after night.

Not Marian Seldes. She logged 940 performances in "Egus," several years ago and last Friday did her 1,000th performance in "Deathtrap," Ira Levin's hit comedy thriller.

"Actually, it's a bit more than that if you count a month in Boston and a week of previews here," says the lady, who essays the wife of the murderous playwright in the show.

A tall, brown-eyed, soft-voiced woman of middle years, she points out that between her two long runs she was in "The Merchant," which expired after only five Broadway performances.

"Each show has its life," she philosophizes. But if the life happens to be a long one, as with "Deathtrap," she's content.

"I don't get stale and bored. I consider it my job, my profession, my duty to do each performance as if I were doing it for the first time. I would never stay, otherwise."

She's been in the acting trade since 1945, when she broke in at a summer theater up in Cambridge, Mass. She bowed on Broadway two years later in "Medea,"

on the boards with Judith Anderson. An actress of distinction, if not great fame, she's toiled on Broadway with such as George C. Scott, John Gielgud and Tallulah Bankhead, and won a Tony for her work in "A Delicate Balance."

Miss Seldes, who teaches acting at Juilliard in addition to her stage work, is the daughter of Gilbert Seldes, the famed author and theater critic. But she wasn't raised amid theatrical types.

Debra Winger real find to 'Urban Cowboy' critics

HOLLYWOOD (AP) — The new John Travolta movie "Urban Cowboy" has drawn mixed notices from the critics, but all seem agreed that the leading lady, Debra Winger, is a real find.

She plays Sissy, a free-spirited patron of Gilley's, the roisterous beer palace outside Houston. She meets and marries Travolta — a green, ambitious dude from the farm country — but their union has the permanence of a bronco ride.

Miss Winger's performance is enough to convince anyone that she is indeed a true Texan. That is a tribute to her craft, since her only previous encounter with the state was driving through the upper portion on the way from her native Cleveland to her new home in the San Fernando Valley of Los Angeles. She was 6 years-old and "sleeping in the backseat of the car."

She is 25 now, with dark brown, unruly hair, slender frame and a face that fits the occasion, whether she's posing for glamour portraits or playing the innocent. The plasticity of her face came in handy when trying out for "Urban Cowboy." She managed to win a second chance at the role of Sissy.

"I went in for an audition with (director) Jim Bridges and (co-producer) Robert Evans," she related. "I was really bad, and later Jim told me he didn't remember meeting me that time.

"To my amazement, I was called back again. This time I read with another actor — not John — and again I knew I was failing."

"I am simply rotten at giving performances in offices. It's hell for an actor to realize he is screwing up. Right in the middle of the audition I jumped up and started looking at the pictures on the wall."

Aaron Latham, who wrote the Esquire article which inspired "Urban Cowboy" and co-authored the script with Bridges, remembers the moment: "That was just the sort of thing that Sissy would have done."

Bridges, co-producer Irving Azoff and Latham were convinced they had found Sissy, especially after a screen test with Travolta. Not so Evans.

"Robert held out longer," Debra recalled. "But after we got down to Houston and I started working, he turned around. Then he was very complimentary, and that was satisfying to me. I don't resent his being slow to accept me. A little friction is good in doing a job."

Debra went to Houston early to train for the role. Her education began immediately. "On the way in from the airport I said, 'It's so green!' I had expected desert country, but Houston is really bayous, humid and tropical. I told myself, 'Oh, God, there is so much to learn!'"

She matriculated at Gilley's, hanging out

with the denizens of the country-and-western playground and learning to suck beer bottles, and ride the mechanical bull which is a focal point of the movie.

"The thing I realized about Sissy is that she didn't know any other world," the actress remarked. "A lot of the people at Gilley's are like that. They have never been out of Pasadena (where Gilley's is located) or Houston. They've never been to Austin, Dallas or Fort Worth, much less go out of Texas."

Operators announce nine wildcat locations in West Texas counties

Nine wildcat operations have been announced in West Texas counties. Garza, Lynn and Fisher counties each gained two of the prospectors, while Crockett, Stonewall and Kimble each gained one explorer.

GARZA PROJECTS

Amoco Production Co., operating from Levelland, spotted its No. 1 John F. Lott seven miles southwest of Post in Garza County.

Scheduled on a 9,450-foot contract, it is 467 feet from south and 1,070 feet from east lines of section 1328, block 1, H&O survey.

The drillsite is 1 7/8 miles north of a 9,075-foot failure and approximately two miles north of the discovery well of the depleted Pat O'Neill (Strawn) field which produced at 8,506 feet.

The Wil-Mc Oil Corp. of Irving announced location for an 8,200-foot Ellenburger prospect in Garza County, 1.5 miles southeast of Justiceburg.

It is No. 1 Williams Estate, 2,173 feet from south and 467 feet from west lines of section 19, block 6, H&N survey. Ground elevation is 2,305 feet.

The site is one location south of the discovery well of the one-well Tobe (Mississippian) field which produces

at 7,700 feet. The field also has two active Strawn producers.

LYNN WILDCATS

Exxon Corp., operating from Midland, will drill No. 1 Joe Potter as an 11,600-foot wildcat in Lynn County, 9.5 miles northwest of O'Donnell.

The drillsite is 1,980 feet from north and 660 feet from west lines of section 34, block H, EL&RR survey. Location is 1/2 mile south of a 10,640-foot dry hole, and 1 1/4 miles southwest of an 11,120-foot failure.

Estoril Producing Corp. of Midland announced location for an 11,200-foot wildcat in Lynn County, six miles northwest of O'Donnell.

It is No. 1 Earles Estate, 1,980 feet from north and west lines of section 16, block H, EL&RR survey. Ground level elevation is 3,092 feet.

The drillsite is 2 5/8 miles northwest of the Smith (Spraberry) field and one mile northwest of an 11,099-foot dry hole.

FISHER PROJECTS

Frank O. Cox of Abilene staked a 6,000-foot wildcat as the No. 1 Humphries in Fisher County three miles

northeast of Sylvester.

Location is 1,650 feet from south and west lines of section 49, block 1, HT&B survey.

It is a northeast offset to the lone well in the Sylvester, East (Strawn) field. That well produces oil at 5,480 feet.

The site also is a twin to a depleted 3,005-foot producer.

R. L. Adkins Corp. of Sweetwater No. 1 Ardell Floyd will be dug as a 6,000-foot wildcat in Fisher County, seven miles northeast of Eskota.

Location is 467 feet from north and east lines of section 1, block 20, T&P survey. It is 1 7/8 miles northwest of the depleted Eskota, North (Canyon reef) field and 1 3/4 miles northwest of the Raven Creek multipay field which produces from the Canyon, Strawn and Noodle Creek.

CROCKETT LOCATION

C. F. Lawrence & Associates Inc. of Midland No. 1 Todd "L" will be drilled in Crockett County in an attempt to reopen 1,165-foot San Andres gas production in the Howard Draw, Northeast (1,165 oil and Queen gas) field.

The project, 15 miles northwest of Ozona, will be dug 1,250 feet from north and 660 feet from east lines of section 36, block WX, GC&SF survey. Ground elevation is 2,620 feet.

STONEWALL PROJECT

Marshall & Winston, Inc. of Midland No. 2 Pittcock is to be dug as a 3,050-foot wildcat in Stonewall County, 10 miles north of Aspermont.

Location is 330 feet from north and 1,278 feet from west lines of section 69, block D, H&TC survey and one location east of a 2.5-mile northeast extension to Tannehill production in the Old Glory, North field. It is an offset to the same operator's No. 1 Pittcock which is in the process of completing in the Tannehill.

KIMBLE AREA

Charles M. Childers of Abilene No. 1 Thiers is a new 2,760-foot wildcat in Kimble County, 4.2 miles west of Roosevelt.

Location is 1,931 feet from south and 1,843 feet from east lines of section 79, block A, GWT&P survey.

The site is 3/4 mile southeast of the one-well Ken (Strawn) field, which produces at 3,008 feet, and 1/2 mile southeast of the pool's 2,467-foot Cross Cut production.

Crane strike final; Nolan project shows from two zones

Coasta Resources Inc. of Dallas announced completion of a Tubb oil discovery in Crane County, and Aminoil USA Inc., operating from Midland, has announced a dual discovery in Nolan County.

Coasta Resources completed its No. 1 Adams in Crane County for a daily flowing potential of 75 barrels of 39-gravity oil and 190 barrels of water, through a 1/4-inch choke. The gas-oil ratio is 2,800-1.

Completion was through perforations from 4,186 to 4,279 feet after a 2,500-gallon acid-treatment. Hole is bottomed at 4,350 feet, 4.5-inch casing is set one foot off bottom and hole is plugged back to 4,317 feet.

The Tubb was topped at 4,040 feet on kelly bushing elevation of 2,431 feet. Other tops include the San Andres, 2,534 feet, and Glorieta at 3,080 feet.

The project was staked by Bruce A. Wilbanks of Midland as No. 1 Adams.

Location is 467 feet from south-east and southwest lines of section 23, block 3, H&TC survey and four miles northeast of Imperial.

NOLAN PROSPECT

Aminoil USA No. 1 Thornburg is the prospective dual discovery in Nolan County, four miles north of Roscoe.

It has shown for production in the Strawn and in the Ellenburger.

Total depth is 7,107 feet and 4.5-inch casing is set on bottom.

From the Ellenburger, through perforations from 7,043 to 7,046 feet, the project swabbed at the rate of 141 barrels of 43-gravity oil per day.

From the Strawn, it flowed at the daily rate of 197 barrels of 38-gravity oil through an unreported choke. The Strawn flow was through perforations from 6,509 to 6,525 feet.

EIS, Inc., of Midland and Cornell Oil Co. of Dallas each have a 25 percent interest in the project.

Testing continued. The project is two miles northeast

of Aminoil No. 1 Herrera, a recently completed Strawn discovery. It also is 2 5/8 miles northwest of the Rowan & Hope (Strawn reef) field and separated from it by dry holes and depleted wells.

No. 1 Thornburg is 1,980 feet from north and 810 feet from east lines of section 15, block 23, T&P survey, four miles north of Roscoe.

MITCHELL WELL

John S. Goodrich of Midland No. 1 Jones has been completed as the third active well in the Maude (Clear Fork) field of Mitchell County, six miles southwest of Westbrook.

Operator reported a daily pumping potential of eight barrels of 24-gravity oil and 10 barrels of water, with gas-oil ratio too small to measure.

Completion was through perforations from 3,081 to 3,296 feet after a 2,000-gallon acid treatment and a 58,000-gallon fracture job.

Total depth is 3,365 feet, 5.5-inch casing is cemented on bottom and

plugged back depth is 3,333 feet.

CRANE OILER

Gulf Oil Corp. No. 108 W. A. Estes, drilled as an Ellenburger wildcat in Crane County, failed to find production in the zone and has been plugged

back and completed in the Sand Hill, West (Waddell) field.

Operator drilled to 7,960 feet, set 5.5-inch casing at 7,387 feet and plugged the hole back to 7,355 feet.

On 24-hour potential test it pumped 116 barrels of 41.4-gravity oil, no water, through perforations from 7,247 to 7,307 feet. The gas-oil ratio is 379-1.

The pay was acidized with 4,500

gallons.

Location is 2,500 feet from south and 990 feet from west lines of section 8, block B-28, psi survey and 10 miles northeast of Grandfalls.

COCHRAN PROJECT
Threshold-Blocker Venture of Fort Worth will attempt to reopen San Andres production in the Blowing Sand field of south Cochran County, 12 miles southeast of Lehman.

Scheduled to 5,200 feet, the project is 467 feet from north and 1,980 feet from east lines of section 5, block P, psi survey, abstract 242. The site is one mile northeast of the depleted discovery well of the field.

YOAKUM TESTER
Threshold-Blocker Venture also spotted location for a west offset to the Wolfcamp discovery of the two-well Nannie May field of Yoakum County, eight miles northwest of Plains.

The 8,800-foot project is 660 feet from south and 1,980 feet from west lines of section 304, block D, John H. Gibson survey, abstract 5127.

HOWARD PROJECTS
Amoco Production Co. staked a pair of 9,500-foot projects in the Coahoma, North (Fusselman) field of Howard County, three miles east of Coahoma.

No. 116 Texas Land & Mortgage Co. "A" R/A "B" is to be drilled 467 feet

from north and 1,980 feet from west lines of section 5, block 30, T-1-S, T&P survey.

Amoco No. 117 Texas Land & Mortgage Co. "A" R/A "B" has been staked 2,041 feet from south and 1,909 feet from west lines of section 5, block 30, T-1-S, T&P survey.

McCann Corp. of Big Spring will drill No. 1 Walker as a west offset to one of the three producers in the Vincent, South (Strawn) field of Howard County, four miles south of Vincent.

Scheduled on an 8,500-foot contract, it is 1,650 feet from north and 660 feet from east lines of section 33, block 27, H&TC survey.

WINKLER WELL
Chevron U.S.A. Inc. No. 14 A. Vest has been completed 5/8 mile from the closest producer in the northeast side of the Arenoso (Strawn detritus) field of Winkler County.

It potentialized on the pump for 180 barrels of 37.7-gravity oil per day, with gas-oil ratio of 483-1.

Completion was through perforations from 3,576 to 3,620 feet after a 2,500-gallon acid treatment.

Location is 2,005 feet from north and 3,220 feet from east lines of section 20, block B-9, psi survey and 10 miles north of Monahans.

Field work announced in Permian Basin regions

Field projects and new field wells have been announced in several West Texas areas.

The Superior Oil Co. announced plans to re-enter and plug back to 2,800 feet for completion attempt in its No. 2-12-F University, former well in the Block 12, East (McKee) field of Andrews County.

If successful, the well will extend Yates gas production in the Block 12 field 1/2 mile east.

The old total depth is 10,297 feet.

Location is 15 miles northwest of Andrews and 55 feet from north and 1,130 feet from east lines of section 26, block 12, University Lands survey.

FULLERTON AREA
Cities Service Co. staked No. 7 University "M" as a northeast offset to the discovery well of the three-well Fullerton, Southeast (San Andres oil) pool of Andrews County, 16 miles northwest of Andrews.

Drillsite for the 7,200-foot operation is 1,980 feet from south and 660 feet from east lines of section 16, block 13, University Lands survey.

ANDREWS RE-ENTRY
Wolf & McDaniel of Midland will re-enter a former Ellenburger well in the Emma multipay field of Andrews County, 11 miles south of Andrews, and test for completion in the Devonian and Fusselman.

The project, originally drilled by Gulf Oil Corp. as No. 1 University "FH," is 660 feet from north and west lines of section 33, block 9, University.

It was abandoned in 1971.

Wolf & McDaniel will operate the project as No. 1 University "FH."

FISHER PROJECTS
A trio of projects have been scheduled in Fisher County.

Seago Oil Inc. No. 3 Griffith will be dug as a 5,300-foot project in the nine-well Strawn pay in the northwest side of the Raven Creek multipay field of Fisher County, eight miles southeast of Sylvester.

The project is 2,390 feet from north and 467 feet from east lines of section 3, block 19, T&P survey.

Robert L. McCamey of Fort Worth will dig two projects in the four-well Akali Creek, Southwest (Flippen) field of Fisher County, three miles northwest of Sweetwater.

No. 1 Don Smith will be dug one location south of production and 7,950 feet from south and 1,175 feet from west lines of G. W. Lawrence survey No. 330, abstract 279. Contract depth is 6,650 feet for tests in the Ellenburger.

McCamey No. 2 Royston will be drilled to 3,400 feet. The drillsite is one location southwest of production and 7,900 feet from south and 690 feet from west lines of G. W. Lawrence survey No. 330, abstract 279.

CROCKETT TESTERS
Anderson Petroleum Inc., operating from Ozona, will plug back to 2,200 feet for completion attempt as a long

southwest extension to Clear Fork gas production in the V.I.P. multipay field of Crockett County.

The re-entry is the operator's No. 1-85 Frank White "A." It is a former Canyon producer in the Ozona multipay field.

The test site is one mile south of Clear Fork oil production in the Ozona field and 6.5 miles southwest of Clear Fork gas production in the V.I.P. pool.

The location is 660 feet from north and 900 feet from east lines of section 85, block Q2, TCR survey.

Jake L. Hamon of Midland and Claud B. Hammill of Dallas announced locations for a pair of projects in the Ingham (Queen) field of Crockett County, 23 miles west of Ozona.

Each will be drilled to 1,650 feet.

No. 2 Sutton is 1,295 feet from north and 1,470 feet from west lines of section 2, block FFF, GC&SF survey, abstract 4813. Ground elevation is 2,679 feet.

The operators spotted No. 3 Sutton 1,980 feet from north and 2,180 feet from east lines of section 2, block FFF, GC&SF survey, A-4813.

TERRELL TEST
Mobil Producing Texas & New Mexico Inc., operating from Midland, will dig No. 7 Banner Estate as a 12,000-foot project in the Brown-Basett (Strawn) field of Terrell County, 29 miles northeast of Dryden.

Location is 750 feet from south and 3,150 feet from west lines of section 27, block 61, GC&SF survey.

KING LOCATION
Threshold Development Co. of Midland has planned a 6,050-foot project in the Prudence (Atoka) pool of King County, 15 miles northeast of Guthrie.

The project is No. 2 Bill Masterson, 2,500 feet from south and 660 feet from west lines of section 55, F. P. Knott survey, abstract 94.

GARZA COUNTY
Harry A. Miller Jr. of Midland announced location for his No. 2-G-B Connell, a 3,270-foot project in the Rocker A, Northwest (Glorieta) field of Garza County, five miles south of Post.

It is 1,150 feet from south and 330 feet from east lines of section 9, block 5, GH&H survey.

DAWSON WELL
BTA Oil Producers of Midland No. 1-6 Welch Southeast Spraberry Unit has been completed in the Welch, Southeast (Spraberry) field of Dawson County, 10 miles northwest of Lamesa.

It finished for a daily pumping potential of 85 barrels of 35.7-gravity oil and two barrels of load water, through perforations from 7,702 to 7,729 feet. The gas-oil ratio is 412-1, and the pay was acidized with 2,500 gallons.

Location is 830 feet from north and 2,200 feet from east lines of section 2, block 4, D. L. Cunningham survey.

Wildcat site, discovery reported in New Mexico

Jack G. Grynberg & Associates of Granbury announced location for a 6,000-foot wildcat in Chaves County.

It is No. 1-25 Federal, 1,980 feet from north and east lines of section 25-14s-24e and 13 miles southwest of Hagerman.

The ground elevation is 3,654 feet.

Drillsite is one mile northwest of a 6,754-foot dry hole and 10 miles northwest of 5,072-foot Wolfcamp production and 7,184-foot Atoka gas production in the Cottonwood Creek, East field.

EDDY OPENER
MGF Oil Corp. of Midland No. 1 Rutter-Federal has been completed as a Morrow gas discovery in the Sand Ranch area of Eddy County, 30

miles northeast of Dexter.

The operator reported a calculated absolute open flow potential of 333,000 cubic feet of gas per day, through perforations from 9,180 to 9,193 feet.

The wellsite is 1/2 mile north of Atoka gas production and 1/2 mile south of an undesignated Mississippian gas discovery.

The Morrow was topped at 9,180 feet on ground elevation of 3,974 feet.

Other tops include the Wolfcamp, 7,110 feet; Canyon, 8,100 feet and Strawn, 8,360 feet.

Total depth is 9,760 feet, 4.5-inch casing is set at 9,230 feet and hole is plugged back to 9,230 feet.

Wellsite is 660 feet from south and 1,980 feet from east lines of section 14-10s-29e.

The Mississippian discovery is MGF's No. 1 Bikar-Federal which was completed through perforations from 9,382 to 9,714 feet.

CHAVES FIELD TESTS
Mesa Petroleum Corp. of Midland spotted four projects in an undesignated Abo area of Chaves County 27 miles northwest of Boaz.

Each of the projects will be drilled to 4,400 feet.

No. 3 Stancel-Federal is 1,980 feet from south and west lines of section 22-5s-24e. Ground elevation is 4,031 feet.

Mesa No. 1 Coyote-Federal will be drilled a 980 feet from north and 660 feet from east lines of section 5-7s-25e. Ground elevation is 3,862 feet.

The operator will spud No. 2 Coy-

ote-Federal 1,980 feet from north and 660 feet from east lines of section 8-7s-25e. Elevation is 3,862 feet.

The fourth Mesa Petroleum project is No. 2 Savage-Federal. It was spotted 1,980 feet from north and west lines of section 4-17s-25e. Elevation at ground level is 3,824 feet.

EDDY PROJECT
Doyle Hartman of Midland No. 1 South Empire State Communized will be drilled as an 11,000-foot project in the Empire, South (Morrow) field of Eddy County, eight miles west of Loco Hills.

Scheduled for tests of the Morrow, it is 800 feet from south and 1,000 feet from west lines of section 25-17s-28e. Ground level elevation is 3,681 feet.

DRY HOLES

DAWSON COUNTY
Wildcat: Hilliard Oil & Gas No. 1 Stuart Estate; 467 feet from north and west lines section 20, block 35, T-9-S, T&P survey, one mile south of Lamesa, total depth 11,902. Drilling test 1,712-732, upper Spraberry, open 130 minutes, recovered 4,000 feet of salt water with slight cum of oil; drilling test 11,549-11,535, Fusselman, open 130 minutes, recovered 1,700 feet of water blanket and 20 feet of oil and gas-cut mud; drilling test 11,061-11,081, open 135 minutes, recovered 1,700 feet of water blanket, 2,580 feet of black sulphur water and 20 feet of drilling mud. Corred 11,635-11,635 feet, recovered 20 feet of suggy lime with show of oil. Elevation 2,899 feet from surface. Tops: Rustler 1,579 feet; Salado 1,924 feet; Yates 2,575 feet; San Andres 3,979 feet; Glorieta 5,330 feet; Spraberry 7,110 feet; lower Spraberry 7,902 feet; Dean 8,400 feet; Pennsylvanian reef 9,650 feet; upper Mississippian line 10,796 feet; lower Mississippian line 11,200 feet; Woodford shale 11,549 feet; Fusselman 11,629 feet; and Montoya 11,790 feet.

NOLAN COUNTY
Wildcat: (Ellenburger): Texas Pacific Oil Co. Inc., Midland, No. 1 Patsy R. Gelin "A," 1,800 feet from north line, 2,000 feet from east line section 73, block 22, T&P survey, four miles south of Sweetwater, total depth 6,465 feet.

REEVES COUNTY
Wildcat: Exploration Co. Midland, No. 1 Covington et al.; 890 feet from north and east lines (amended) of section 33, block 56, psi survey, 10 miles west of Toyah, total depth 13,004 feet.

RUNNELS COUNTY
Wildcat: Earth Oil Corp., Abilene, No. 1 C. D. Colburn, 467 feet from north and east lines of section 81,

block 64, H&TC survey, total depth 4,772 feet.

STONEWALL COUNTY
Old Glory (Tannehill) re-entry: Getty Oil Co., Midland, No. 1-K Texas, 330 feet from north and east lines J. V. Jones survey No. 18, abstract 1800, seven north of Old Glory, total depth 5,845 feet.

Ben S (Tannehill): A. L. Saunders Jr., Wichita Falls, No. 1 Bill McMeans "B," 2,450 feet from south line, 2,350 feet from west lines section 360, block D, H&TC survey, 16 miles northwest of Swenson, abandoned location.

Urschel kidnapping now 47 years ago

By RON WORD

OKLAHOMA CITY (AP) — Machine Gun Kelly, "G-Men," a wealthy oilman, — all characters in a made-for-television movie.

They could be, but in this case, they were the central actors in one of the country's most sensational kidnappings — which occurred 47 years ago.

Oilman Charles Urschel and an associate, Walter Jarrett, and their wives were playing bridge at Urschel's palatial northwest Oklahoma City home about 11:15 p.m. July 22, 1933, when two men burst through a screen door into the home.

One was carrying a machine gun and the other a pistol.

"Keep quiet or we'll blow your heads off. Which is Urschel?"

No one answered.

"We'll take both of you, come along," one of the intruders said as he pointed the way with his machine gun.

URSCHEL AND JARRETT did as they were told.

The kidnapers were George "Machine Gun" Kelly and Albert Bates.

After the kidnapers roared off in a car, Mrs. Urschel and Mrs. Jarrett ran upstairs, locked the door and called police.

Within an hour, the men had taken \$60 from Jarrett and released him.

Jarrett later said the kidnapers behaved "like gentlemen."

Urschel, a tight-lipped, handsome six-footer, was worth a pretty penny to the kidnapers and 18 other people convicted in connection with the case.

The oilman had united his fortune with that of the vast Tom B. Slick estate when he married Mrs. Slick in St. Louis Oct. 17, 1932.

Slick was called the "King of the Wildcatters," and Urschel was his protegee and eventual heir to his vast fortune and widow after Slick's death in 1930.

Urschel's first wife, Slick's sister, died of heart disease about a year after Slick.

AFTER SNATCHING HIM, the kidnapers drove Urschel to a farm near Paradise, Texas, and held him there blindfolded for nine days.

The kidnapers instructed E.E. Kirkpatrick of Tulsa, a friend of Urschel, to place a blind classified ad in The Daily Oklahoman of Oklahoma City, advertising a farm for sale.

Kirkpatrick did as instructed and, using the post office box number listed in the add, the kidnapers worked out a ransom for their prize.

Kirkpatrick was ordered to catch a train and take the ransom to Kansas City.

Kelly collected a \$200,000 ransom on a dark Kansas City street.

Urschel, whose wealth was estimated at \$75 million, was released July 31 at the north edge of Norman and took a cab into Oklahoma City.

Despite threats from the kidnapers to keep quiet, Urschel told the entire story to the FBI.

"Well, they threatened me. Several times they had made the statement that I was not to see or hear anything. They said if I did, I'd never come back, they would kill me," Urschel later testified at Bates' trial.

THE FBI WAS ABLE to identify the location of the farm where the oilman was held because he kept

track of the time an airliner flew over each day. By checking airline schedules, the federal agents pinpointed the site. Urschel also put his fingerprints on every likely surface to prove he had been there.

On Aug. 12, FBI agents raided the R.G. "Boss" Shannon farm. They found Harold Bailey, leader of a notorious Memorial Day break of 11 convicts from the Kansas prison. Bailey was asleep in the backyard with a Tommy gun by his side. His pockets contained some of the ransom money.

The remaining members of the gang were rounded up in several weeks.

Kelly was arrested in Memphis, Tenn., on Sept. 26 after sending threats of "slaughter" to Urschel and Assistant U.S. Attorney Joseph B. Keenan during Bates' trial in Oklahoma City.

Federal agents and Memphis police burst in on Kelly, who was armed and waiting. With an officer pointing a shotgun at his heart, the notorious badman dropped his gun without firing a shot.

"Don't shoot G-men, don't shoot," Kelly cried.

The FBI says that was the first time that anyone had ever heard the term "G-men" applied to its agents. Kelly later told reporters he meant "government men."

KELLY AND HIS WIFE, Kathryn, were transported under heavy guard to Oklahoma City in an armored car. Both were handcuffed and Kelly was heavily manacled.

Bates' trial was the first important test of the federal "Lindbergh Law" providing for life imprisonment for convicted kidnapers. Bates got life, as did Kelly and his wife about two weeks later.

Three years after the kidnaping, the 20th person implicated was sentenced.

Of the \$200,000 ransom, an estimated \$124,000 was recovered by federal agents.

The top "G-man," J. Edgar Hoover, praised Urschel's bravery in testifying despite the threats

against his life.

"As a result, the citizen no longer fears gang retaliation if he talks, and the public is ready, willing and able to aid us," Hoover said. "His cooperation alone was responsible for their arrest and conviction. He did a great public service."

U.S. DISTRICT JUDGE Edgar S. Vaught, who sentenced Bates, said of Urschel, "He walked up and pointed out the kidnapers; though they had threatened him with the worst of deaths if he told. He ended kidnaping in the Southwest before it got started."

In addition to Kelly, Mrs. Kelly and Bates, three other persons received life terms. They were Robert Green "Boss" Shannon, Ora Lillian Shannon and Harvey J. Bailey, described as hide-out operators.

"Boss" Shannon was Mrs. Kelly's stepfather.

Ben B. Laska, a lawyer representing Bates, was sentenced to 10 years for accepting some of the ransom money for his legal services.

"Others received suspended sentences to terms of five years for their part in the kidnaping."

BATES DIED AT ALCATRAZ on July 4, 1948, from a heart ailment.

Six years later, at Leavenworth, Kelly died of a heart attack. It was his 59th birthday.

Kelly got his nickname after boasting he could write his name on a signboard with a machine gun as easily as he could write with a pencil.

The outlaw was buried in Paradise just two days short of the 21st anniversary of the kidnaping.

Shannon reportedly had the coffin opened and remarked, "Well, George, you sure do look good."

Shannon died a few years later and was buried in an unmarked grave next to Kelly.

Urschel, a shy, retiring man, refused to talk about himself or the abduction after it was over.

"If the public is as sick of hearing about it as I am, I can see no reason to keep bringing it up," he said.

South Africa releases jailed Indian community leader

JOHANNESBURG, South Africa (AP) — A prominent leader in South Africa's Indian community who was detained during recent student unrest has been released, the South African Press Association said Tuesday.

Dr. Farook Meer, vice president of the National Indian Congress, reportedly was hospitalized in Johannesburg with a spinal problem at the time of his release and will be recovering at his home in the Indian Ocean port of Durban.

Details on his back trouble were unavailable.

Meer and other Indian leaders vanished last June, held under South Africa's Internal Security Act. Officials, as they can do under the act, gave no reasons for the temporary elimination of Meer and the others.

The government reportedly feared they

might urge Indians to join mixed-race South Africans demonstrating across the nation against segregated and unequal education for whites, blacks, Indians and persons of mixed ancestry.

RINGING THE BELL

The black church; its role in politics

With BOB TIEUEL

More than 20,000 persons, including 1,500 delegates and 18 bishops, from the United States, Canada, the Caribbean and West and South Africa, recently attended the 41st Quadrennial Conference of the African Methodist Episcopal Church in New Orleans. The Council of Bishops in a statement said:

"We are unhappy that the two primary parties in America see fit to ignore the most continuing and pressing problem on the American scene — institutionalized racism. We are deeply disappointed with the candidates and their stand, or non-stand, on the issues, but we do not intend to have our vote taken for granted ever again. We shall seek alternatives. Our vote will go to those who go for us . . .

"Using means best known to the American public, we will continue our massive voter registration and education crusade in our church districts throughout the country. We will prepare a Black Agenda for discussions with all presidential candidates. America needs an urgent reminder that the volatile conditions which led to the explosion in Miami are present in every major city in America.

"Therefore our church is setting before the nation the demand for 1,000,000 (one million) jobs for minority youth this summer, knowing that America has the capacity to fulfill this requirement, if it has the will. We further petition aid in the form of educational assistance to our beleaguered black colleges, the breeding grounds for the genius that has historically inspired black survival in America. We shall convene a national meeting of major black religious denominations to forge a new linkage of black leadership that will solidify our political power base."

THE 1980 CONFERENCE of the National Urban League will be held in New York City Aug. 3-6 in observance of the its 90th anniversary. Major spokesmen for the Republican and Democratic parties will appear at a forum, "The Black Voter and the Party System," to be held Aug. 6. Information may be obtained by contacting National Urban League, 600 East 62nd St., New York, N.Y. 10021. Co-headquarters will be in the Hilton Hotel and the Sheraton Centre Hotel.

FORMER U.S. SEN. Edward Brooke, until recently the only black Republican in Congress, is reported weighing overtures to become Independent White House hopeful John Anderson's vice-presidential running mate. Sources report that one of Anderson's leading New York fundraisers is J. Richardson Dilworth, manager of the Rockefeller family's assets. Anderson seems to be recognizing that an exodus of Lodges, Rockefellers and Eisenhowers may be the framework for something more than the election.

Our sources report that the NAACP has announced the presentation of a \$381,682 grant to conduct an intensive grassroots project to reduce police shootings of minority citizens. A principal element of the project will be the publication and distribution of a citizens guide to the overall issue of police use of deadly force.

The National Association of Colored Women's Clubs will hold its 1980 annual convention in Washington, D.C. July 27-Aug. 1, according to an announcement in the Community Center in Boley, Okla. Airlines are making special offers, it is reported.

Sources report that the Republican party has the best opportunity in years to gain new black voters if proper strategy is used. More later.
