Police run down an Orlando street, above, during a disburbance in a predominantly black part of town as a building burns in the background. At left, police subdue an unidentified man. At least four persons were reported injured in the central Florida city and two businesses were burned to the ground. The city is the third in Florida to experience race-related violence this year. Rioting in Tampa and Miami in May killed 18 people, and rioting hit Miami again two weeks ago. (Sentinel Star Photos, Richard Wells, above, Red Huber, left)

Jimmy doesn't recall giving Billy cables

WASHINGTON (AP) — Billy Carter told federal investigators he got State Department cables about his trip to Libya from his brother, the president. Jimmy Carter says he discussed the cables with Billy but doesn't recall giving them to him.

Now the Justice Department is trying to find out who is right, what cables Billy Carter has, whether they are classified and who gave them to

Beyond any legal questions, the latest development raises new doubts about the president's self-described arm's length role in his brother's Libyan connection.

Meantime, a top Justice Department investigator said the government has no plans to prosecute Billy Carter for lying about when he first got money from Libya.

President Carter's acknowledgement late Wednesday that he discussed the cables with his brother had not been included in a statement issued last week by the White House purporting to describe all its involvement in the affair.

Joel Lisker, head of the Justice Department's foreign agents registration section, told The Associated Press on Wednesday that Billy Carter indicated in an interview at his Georgia home Jan. 16 he had State Department cables about his Libyan trip.

Lisker said that during the interview he had in his briefcase non-classified State Department cables about the trip.

According to Lisker: "Billy looked over at my cables and said, 'Oh, I've got those.'

"I said, 'Who gave them to you?' "He said, 'Jimmy.'

Lisker said he was certain Billy Carter meant the president "and not his friend Jimmy who runs the hotel down there." But Lisker added, "It's hard to tell what Billy means. Billy is not a precise person.

Lisker said the president's brother could not have known exactly what cables were in the briefcase. "I didn't see his cables and I'm not sure who actually gave them to him," Lisker

He said there would be no violation of law if someone in government gave Billy Carter unclassified cables, but that he is investigating to see what cables the president's brother has and

Today is the

271st

day Americans have been held hostage in Iran

White House spokesman Ray Jenkins said later Wednesday that President Carter's "best recollection is that the only State Department cables he has ever discussed with Billy Carter are low-classification cables from our embassy in Libya reporting on Billy Carter's first trip to Libya in September 1978, and indicating that the trip had gone well from the embassy's point of view."

"The president...does not now recall showing the texts to Billy Carter or giving him copies," Jenkins said. Jenkins said the cables were classi-

fied no higher than "confidential" or "limited use only." However, a special clearance normally is required to see confidential documents.

On the payments issue, Lisker said that on Jan. 16 Billy Carter denied to him having received any money from the radical Arab government.

But Lisker said that he had obtained on Tuesday a deposit slip showing that Billy Carter deposited his first Libyan payment in the Peo-ple's Bank of LaGrange, Ga., Dec.

'There's no doubt he knew at the time that he had received the money," Lisker said of the January interview.

Billy Carter could not immediately be reached for comment on Lisker's statements.

Lisker said that although lying to federal investigators is a crime, current court rulings based on the Fifth Amendment protection against selfincrimination would preclude prose-

When Billy Carter settled a civil suit with the Justice Department on July 14, he filed a sworn registration statement saying the first payment of \$20,000 from the Libyans was made in January, followed by \$200,000 in April

Willfully filing a false registration statement carries a maximum penalty of five years in prison and a \$10,000 fine, but Lisker said that because Billy Carter was off by just one day, "I'm not going to go off on something like that."

TESCO defends proposed rate hike

AUSTIN (AP) - Texas Electric Service Co. customers should pay for construction work now under way because the company's extensive building program has resulted in savings for consumers, according to a TESCO official.

William Taylor, TESCO vice president for engineering and power, testified Wednesday on the first day of a Public Utility Commission hearing on the company's \$123 million rate increase request.

The request by TESCO, which serves 78 cities in North, West and Central Texas, would raise a \$40 monthly residential bill to \$50.

The PUC staff is pushing for a \$69.4 million increase, while the cities served by TESCO want to limit it to

\$24 million. "The purpose of our construction program has been to reduce our dependence on gas and oil," Taylor said.
"We've been able to build generating units using Texas lignite coal, which is low cost and cheaper than gas and

Taylor said the entire TESCO system was fueled by natural gas before 1971. Gas usage dropped to 54 percent in 1979, with lignite making up the difference. TESCO will begin using nuclear power when two plants being built at Comanche Peak are complet-

"All construction costs have risen in the last few years, but especially the costs of constructing power plants. These costs have increased

substantially, primarily because of inflation and increased government regulation," he said in pre-filed testi-

TESCO estimates it will spend \$254 million on construction in 1980, compared to \$39 million about 10 years

A lignite unit built in 1972 cost \$130 per kilowatt. A similar unit now under construction at Forest Grove will cost about \$752 per kilowatt.

However, he said using lignite has kept the price of electricity "lower than it would have been had we not built the plants but bought marketpriced gas instead."

"Our customers have realized a savings as a direct result of the construction of lignite plants," he said.

Gunshot kills Midland youth

A 17-year-old Midland youth died Wednesday while undergoing surgery for an accidental gunshot wound

Christopher Marion Flynt of 2806 Frontier Drive was showing a semi-automatic .22-caliber pistol to a 16year-old friend when the firearm discharged, striking Flynt in the lower left side of his chest. Flynt was taken to Midland Memorial Hospital

Renewed violence in Orlando

ORLANDO, Fla. (AP) - Looters raced through stores, Molotov cocktails lit up the neighborhood and roving gangs of black youths pelted police with rocks and bottles in a second straight night of violence in the west side of this central Florida city. But the streets were quiet by daybreak,

'At least four people were injured and two businesses were burned to

Officials sealed off a 16- to 20square-block area of Orlando's west side late Wednesday and hundreds of police in riot gear swept through the area, pushing young blacks from the streets and arresting more than 30

Early today, few people were left on

the streets, officials said. "We're pretty well keeping them moving and making as many arrests as we can," said police Lt. Tom

The new disturbances began when motorists were pelted with debris as they left a minor-league baseball game. Less than 24 hours earlier, two policemen were injured in violence ignited when white officers arrested a black robbery suspect in a neighborhood bar.

The city, 17 miles east of Disney World, became the third in Florida to experience race-related violence this year. Rioting in Tampa and Miami in May killed 18 people in Miami, and rioting hit Miami again two weeks

Rocks and bottles smashed into cars after Orlando Twins baseball fans left a downtown sports stadium Wednesday night, blocks away from the black neighborhood. Four hundred officers were called in to help quell the disturbance.

Firebombs set blazes in at least five

buildings, including a hotel and a fish market. A grocery and television store were "total losses," said fire department spokeswoman Leslie Fagundo. Sporadic looting was report-

At least four people, including two television reporters, received minor injuries when attacked by roving gangs of blacks, Wylie said.

Officials discussed imposing a curfew and other restrictions in the troubled area, but decided against them.

"We have reason to believe that the situation will not become any worse than it was tonight," said Mayor Carl Langford. "We will not show a strong display of police force in the area. We will have normal patrols."

But police officials said they would be alert to further trouble. 'We will be prepared for whatever might happen. We have to be, because said today.

On Thursday, Earlier in the day, city and Orange County officials spent three hours listening to 100 angry blacks in a hastily organized City Commissioner Shelton T.

Adams promised an investigation into the conduct of the officers who made the arrest of a 19-year-old black woman accused of stealing \$600 from a white male. Blacks contended the force used was excessive and chargeed that local governments have ignored minority concerns.

"We are demanding more consideration from the city and county," said the Rev. W.D. Judge, a Baptist minister. "We have been misused and

we've had two nights of disturbances A few Midland households will receive help with electric bills

By LANA CUNNINGHAM Staff Writer

Martha is a 45-year-old mother tryng to keep a family of 12 going on a limited income. She's had no gas for a year because she couldn't pay the

She can't cook on the gas stove: instead, the woman heats food out of cans for the family meal. No gas also means no hot water for

the family. The summer heat has been especially harsh for Martha and her famiy. They have an air conditioner, but t's broken and they can't waste electricity for it to blow hot air. They are n a situation typical of many elderly nd low-income households in Mid-

But for 20 or so low-income house-

holds, there is some relief coming in the form of money to repair air conditioners, buy fans and pay utility

The state recently allotted \$59,000 in "heat relief" funds to a 10-county West Texas area. By the time the money is divided among the counties, however, Midland's share will only be enough aid a limited number of households, which should be about 20 to

Kim Modisett, director of the Human Relations Council, said the funds will be administered through West Texas Opportunities, Inc., which is based in Lamesa. A representative of that office will be in Midland Friday to take applications starting at 9 a.m. Applications will be taken by appointment only at the HRC office, 218 W. Illinois Ave., room

According to a West Texas Opportunities news release, they are looking for the "elderly poor whose health and survival are endangered due to

the heat-related conditions." Ms. Modisett added that HRC already has a waiting list of needy persons.

The lingering heat wave, which started in June and may continue through August, has caused utility bills to take a kangaroo-sized jump upward. While hurting almost everyone's pocketbook, it has a double whammy effect on elderly who can't tolerate the heat as well as younger

"I've had numerous complaints" about the utility bills, said Ms. Modisett. "I receive complaints every day

that electric bills or gas bills are way too high.'

Some social service agencies can give a small amount of monetary aid in paying those bills, but Ms. Modisett emphasized that aid is limited.

"These agencies have only so much money for the year. And when they run out, they're out. They have to screen people very carefully and make sure these applicants really are

in dire need," she said. Agencies which can give the small amount of assistance are Salvation Army, St. Andrews Presbyterian Mission, Casa de Amigos and Human Relations Council.

Complaints about high utility bills have been registered at the gas and

electric companies here. Marvin Nash, office manager for Pioneer Natural Gas Co., estimated gas bills have been running about 20 to 25 percent higher this summer. "We've had some complaints," he said, adding that consumers are turning their thermostats higher to lower consumption.

A majority of the residents in Midland have electric air conditioning, and Shug Bowlin of Texas Electric Service Co. said bills for June service had gone up about 60 percent.

"Mine went from \$77 last month (for May service) to \$130 at my house. And I'm trying to conserve.'

At the same time, the number of complaints about bills have gone up this summer, said Jack Hilliard of TESCO, but not as high as the utility company expected.

In looking at the number of customers' complaints answered by sending

out a TESCO representative, the figure was up by 13 in June over the same time a year ago. And so far in July, the number is up by 18, he

For the year, there has been about a 40 percent hike in the number of bill questions responded to in person by TESCO. It's not so much the heat, he said, but the rate hike that became effective last January that has caused

many of the questions. Customers who claim they can't pay their bills can have payment arrangements made, Hilliard said. There has been an increase in this

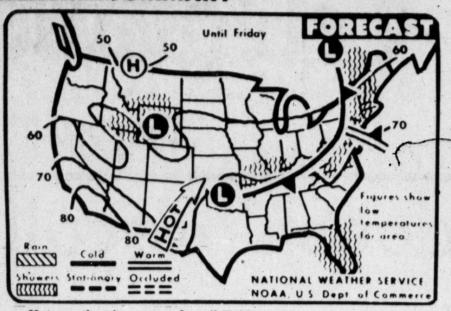

type of request. "If someone has a difficulty paying a bill, all he has to do is call. We've been pretty liberal; we'll try to arrange something."

Extended forecasts

North Texas: Fair and continued hot. High tempera-tures 97 southeast to 108 northwest. Lows in the 70s.

South Texas: Sunny hot days and fair warm nights continuing. No significant prospects for rain except isolated afternoon showers near the middle and upper coast. Highs mainly near 100 but ranging from 90 on the coast to 106 along the Rio Grande. Lows in the 70s.

The weather elsewhere

Texas area forecasts

West Texas: Partly cloudy north, fair south and continued hot through Friday. Highs 93 to 104. Lows 90 to

North Texas: Fair and hot through Friday. Highs southeast to 109 northwest. Lows 70s.

Port Arthur to Port O'Connor: Southerly winds 10 to 15 knots through Friday. Seas 3 to 4 feet. Winds and seas higher near isolated thundershowers.

Port O'Connor to Brownsville: Southeast winds 10 to 15 knots through Friday. Seas 3 to 5 feet. Winds and seas higher near isolated thundershowers. Border states forecasts

Oklahoma: Clear to partly cloudy and hot through Friday with widely scattered thunderstorms northwest. Highs 100 to 110. Lows near 70 Panhandle to mid 80s

Nights a little cooler

The only good thing about steaming West Texas days is that they are usually followed by cooler West Texas

The nightly low temperatures are dropping a little now as July comes to an end - but not too much. Lows through Friday are expected to be in the upper 60s, with a record low for today of 60 set in 1971. Wednesday night's low was 68 degrees.

The highs, however, are continuing to be near the century mark as they are forecast through Friday to be in the upper 90s. Wednesday's high was 96 degrees. The record high for Wednesday, set in 1937, was 106 de-

The days will be fair through Friday with hot afternoons and no rain in the forecast.

Winds were to be southerly, 10-20 mph today and Friday, slowing to 5-10 mph tonight.

In the extended outlook, the temperatures will again be rising. For Saturday through Monday, the days will be sunny and hot, with high temperatures expected to range from 95-105 degrees. It should be 110 degrees in the Big Bend area.

Lows for Saturday through Monday will range from 65-75 degrees. And, of course, still no rain in the

Senate approves bill for heat wave assistance

WASHINGTON (AP) - The Senate has approved a bill that would provide extra energy assistance to Texas and other states devastated by this summer's heat wave.

The bill by Sen. Lloyd Bentsen, D-Texas, removes a June 30 deadline for the Community Services Administration to distribute energy assis-

"When more than 2,000 Americans. most of them elderly and infirm, die in a month from heat related causes, I think we can all agree that is an emergency," Bentsen said.

The White House announced previously that \$21 million would be made available from funds budgeted, but not spent, for the Energy Crisis Assistance Program last winter.

Texas would receive \$2 million. The bill next requires approval by

the House. The \$21 million for additional heat wave assistance would follow \$6.75 million distributed earlier this

Texas received \$2.5 million in the first wave of assistance

Bentsen said the death toll during the heat wave demonstrates that heat is as much of a danger as cold, despite arguments raised last winter against providing aid for cooling bills.

"It is easy to ridicule cooling assistance as a luxury. It has taken 2,000 deaths, 2,000 tragedies - many of them needless - to drive home the fact that one can die just as surely and as cruelly from the heat as from the cold," he said in accompanying

The formula for dividing the heat wave relief is based on the severity of the heat and the number of elderly poor in each state.

The White House said other allocations to be made from the additional \$21 million would go to Illinois and Georgia, \$1.8 million each; Tennessee, Mississippi and Alabama, \$1.6 million each; Louisiana,\$1 million; Kentucky, \$800,000; Missouri, \$750,-000; Oklahoma and Arkansas,\$500,000

each; and Kansas, \$200,000 Arkansas, Missouri, Louisiana, Oklahoma and Kansas also received funds in the earlier distribution for

12,000 acres of pasture land went up in smoke today in Archer County near Holliday, Texas. A range fire that took 80 firemen better than six hours to contain swept across an area near State High-

way 25 and F.M. 368. The smoke rose high enough to be seen in Oklahoma. 22 mph winds fanned the five-mile wide fire. (AP Laserphoto)

12,000 acres burn

HOLLIDAY Texas (AP) - A winddriven grass fire roared over some 12,000 acres of pasture and grassland in Archer County before it was brought under control late Wednes-

Wichita County fire coordinator Sidney Smith said the enormous blaze was first reported about 1 p.m. some 5 miles from Lake Kickapoo near Dundee. Less than an hour after the first report, the fire was out of control and being battled by about 39 units of 17 volunteer fire departments.

The fire burned for more than 6 hours and covered about 20 square miles before it was brought under control, Smith said. Although the fire was under control during the evening, some of the firefighters remained on duty throughout the night to put out new, smaller outbreaks, Smith

Firefighters had to call in 6 bulldozers to build fire breaks to prevent the fire from moving closer to Holliday.

The fire destroyed grass and timber in a path 10 miles long and 2 miles wide, he said. Before it was brought under control the fire had spread northward to about 5 miles from this North Texas town.

Carter has gas rationing power

WASHINGTON (AP) - President Carter now has the authority he has long sought from Congress to order gasoline rationing in an emergency. But it could take months, 20,000 employees and \$464 million to actually put the standby plan into motion.

The plan became law at 12:01 a.m. EDT today after surviving last-minute challenges Wednesday by margins of 60-31 in the Senate and 209-205 in the House

That does not necessarily mean the nation will have gas rationing, only that the president now has the power to order it if gasoline supplies drop by 20 percent over a 30-day period. And even then, such an order could

Two charged in man's death

BIG SPRING - Two Big Spring men were freed on bond Wednesday after being charged in connection with an incident here earlier in the day in which a Big Spring man died.

Dale E. Earnest, 18, was charged with voluntary manslaughter before Peace Justice Bobby West and later released on \$30,000 bond in connection with the beating death of 26-year-old

Another man, 35-year-old William Paul Darrow, was charged with aggravated assault with a motor vehicle in connection with a related incident. He was freed on \$20,000 bond.

The men were arrested by Big Spring Police Sgt. Jerry Edwards about 3: 30 a.m. Wednesday at the site at which the incident occurred, north of the city.

According to reports, when officers arrived they found Earnest attempting to perform mouth-to-mouth resuscitation on Thomas. The oilfield worker was pronounced dead at the scene. however, by Judge West.

Howard County Sheriff A.N. Standard declined to release details of the investigation, saying only that Thomas apparently died as the result of "some type of altercation."

But, according to other officers in Big Spring, Thomas, Earnest, Darrow and another unidentified man were together in a vehicle north of the city about 3 a.m. Wednesday when a fight broke out between Thomas and Earnest. The vehicle stopped on a dirt road where the unconscious Thomas was left a short time later.

As Earnest, Darrow and the third man reportedly left the scene, Darrow allegedly attempted to run over another unidentified man who supposedly witnessed the fight.

The three men then returned to check on Thomas, found him conscious and Thomas and Earnest again became involved in a fight, During the altercation Thomas allegedly sustained several strong blows to the head.

After arriving, police reportedly notified the sheriff's department that the incident had occurred outside the city limits.

No charges were filed against the third man involved, who was released Wednesday after questioning. Results of an autopsy ordered Wednesday by Judge West were not available early today.

RRC requests \$20 million budget boost

AUSTIN, Texas (AP) - Railroad Commissioner James Nugent told budget examiners today the oil and gas regulatory agency needs a \$20.7 million budget increase to do its job in 1982-83. Nugent called the 46.4 percent proposed increase "conservative."

"What we present today is not a no-growth budget, but it is a conservative budget that will be conservatively administered," said Nugent. "And every dollar invested in effective energy regulation at the state level will be returned many-fold to the state treasury and to the people of Texas."

Director Bob Harris of the Oil and Gas Division noted that the bulk of the proposed budget - \$22.6 million - is earmarked for his division.

later be vetoed by either house of Congress

But an Energy Department report submitted to Congress during deliberations on the legislation claimed that if rationing is invoked by the president, it would take three months to get it going.

Running the plan would require an estimated 5,000 federal and 15,000 state and local employees and cost \$464 million for the three-month start-

If rationing went beyond three months, it would cost another \$474 million for every additional three months of operation, energy officials told Congress

The law allows the government to recoup some of the cost by imposing a two-cent-a-gallon gasoline fee.

And that's not all. Before the president can even make use of his new rationing powers, some 5 billion rationing coupons must be printed and a national vehicle registration file compiled. The preparatory work could take up to a year and cost \$103 million, according to the Energy Department estimate.

Sen. Charles Percy, R-Ill., an opponent of the plan, said these and other complications suggest that it might take 14 months to implement a rationing plan instead of the three claimed by the administration.

the time the coupons were dis tributed, they could easily be worthless," he said. And even if the administration could put the plan into effect in three moonths, "I am not sure we could afford to wait even that long during a real emergency," Percy

Justice cleared Billy on 727s

WASHINGTON (AP) - The Justice Department investigated and concluded that Billy Carter played no role in freeing two Boeing 727 jetliners for delivery to Libya in late 1978.

"He had nothing to do with the Boeing deal," said Joel Lisker, of the Justice Department. Questions had been raised about the

deal because the government reversed its opposition to delivering the jets just two months after Billy Carter made his first trip to Libya in Septem-Lisker said he had looked into the

Boeing turnabout in detail for any evidence of influence or involvement by Billy Carter.

"I've looked at every damn piece of paper at the State and Commerce departments on this," Lisker said in an interview Wednesday.

Carter submitted the plan under a 1979 law that gave Congress until midnight July 30 to reject it by votes in both houses.

Sen. Bennett Johnston, D-La., argued that despite its complexities and weaknesses, the standby plan should be allowed to go on the nation's energy shelf because it might be needed 'should the crunch come.

"This is the only one we've got. We should keep it in place," he said. Since the Senate voted first on Wednesday, its rejection ended the attempt of opponents to kill the plan. The House later cast its vote, narrowly in support of the president, but by then the issue was moot.

If the standby plan were invoked, gasoline would be rationed by coupons - with the amount of the fuel to be rationed depending on the severity of the shortage.

Coupons would be distributed based on the number of vehicles registered to a household or business.

However, each household would be limited to coupons for up to three vehicles. Businesses would not be subject to such a limitation and could get even further allotments based on past consumption.

Rationing "checks" would be mailed to owners of registered vehicles every three months. They could be redeemed for gasoline coupons at banks and post offices. Motorists would have to present the coupons when buying gas, in addition to paying for it.

The president, who also gained rationing power for diesel fuel and heating oil, has said repeatedly he would use rationing only as a last resort.

Under the plan, some "priority users" would get more coupons than other users - including emergency services, public transportation and taxicabs, sanitation services, mail and parcel delivery, businesses involved in energy production, newspaper distribution, farmers and com-

Volcano scientists study sulfur dioxide emissions

VANCOUVER, Wash. (AP) -While Mount St. Helens slumbers, scientists are trying to determine whether they can read sulfur dioxide emissions like smoke signals from the volcano - and whether those signals can forecast an eruption in the

The mountain is spewing tons of the clear, pungent gas into the air each day. In the past, the amount of sulfur dioxide being emitted has dropped dramatically after eruptions, said Tim Hait, U.S. Geological Survey geologist.

Hait said previous high emissions of the gas were a "good sign" in that they indicated the volcano was releasing pressure. But it cannot be assumed when the emissions drop that pressure is building toward another eruption, he said.

"High emissions indicate more cracks in the volcano's plumbing,' Hait said Wednesday. "Another possibility is it means a greater size of the magma body (molten rock) down there. But we don't expect the magma body changes in size daily so it is more reasonable to think conditions allow more or less emissions."

On Tuesday, the mountain was spouting 1,100 tons a day of sulfur dioxide into the air. On the morning of the last eruption - a July 22 blast that sent steam and ash 10 miles high the volcano was spewing 1,900 tons of sulfur dioxide, Hait said.

The next day, the emission rate plummeted to 800 tons a day.

"I'm sure there's a lot you could read into it, but I'd rather not have anybody read anything into it until the guys working on it get a little more data," Hait said Wednesday.

Sulfur dioxide pollution has been known to cause the "acid rain" effect that can kill plants. But Hait said the emission from the volcano would have to be several times greater to cause acid rain and he did not believe the present rate is a health threat. There were no significant earth-

quakes on the volcano Wednesday. Hait said two small earthquakes reported in the Saint Helens, Ore., area 35 miles southwest of the mountain actually were caused by blasting. Glowing rocks were visible once

again within the crater, Hait said. And dust from previous eruptions was blowing around the crater in a wind "whirlpool," said Don Faulkner, spokesman for the Federal Emergency Management Agency. Meanwhile, 10 firefighters waded

through thick ash to fight fires smol-

dering since the first eruption May Two Oregon counties, Tillamook and Washington, and the adjacent counties were declared a disaster area Monday, said Jim Brady of the Small Business Administration. The declaration makes the counties avail-

able for federal disaster assistance.

Accidents keep fire, police busy

Accidents of every form and fashion kept Midland police and fire department personnel busy Wednesday.

A 10-year-old Midland youth this morning was listed in critical condition in the critical care unit of Midland Memorial Hospital. Aaron Jackson received a skull fracture when he fell from a diving board at the swimming pool at Main Street and New Jersey Avenue about 3 p.m. Wednes-

About 10:30 a.m. Wednesday Wayne Morgan of 3409 Tanner Drive narrowly escaped serious injury when he fell approximately 25 feet from a catwalk near the ceiling of Chaparral Center at Midland College. He was treated and released.

Shortly thereafter, Tony Denton of Monahans was taken to Midland Memorial Hospital after his head was caught between a press while inspecting pipe at McClatchy's pipe yard in Midland. He was listed in satisfactory condition this morning in Midland Memorial Hospital. And Escatastic Sanchez of Stanton

was listed in satisfactory condition after an industrial accident about 1:20 p.m. at Midessa Equipment. Hernandez apparently was injured when an oil tank fell on him. Marain Van Horn Ailes received minor injuries in an automobile acci-

dent about 2 p.m Wednesday at the

intersection of Louisiana and Colora-

do avenues. According to police, a car

driven by Loretta Cates Vanderpool of 1910 N. Pecos was northbound on Colorado. Marain Ailes was westbound on Louisiana. The two vehicles collided at the intersection. Marain Ailes refused treatment at the scene. Nine-year-old Tad Box escaped in-

jury Wednesday morning when a water bottle falling off a truck struck his bicycle and threw him to the ground. Police said Bryant W. Saxon Jr. of 111 N. Eisenhower Drive made a left

turn from a private drive on to Illinois Avenue. Tad was westbound on Illinois. As Saxon turned on to Illinois part of the load came loose from his truck, falling into the path of the bicycle.

Police are also investigating a bur-

Mrs. D.W. St. Clair of 910 W. Tennessee Ave. told police that someone entered her house between 7:45 and 10 p.m. Wednesday and stole about \$6 in change and a pair of cufflinks made with uncirculated \$10 gold pieces. Total value of the missing items was placed at \$156. Police found scattered items thrown on the bed and the refrigerator door ajar.

about 14 miles out of Midland on west Interstate 20. The call was received at 6:27 a.m. Details were unknown.

Firefighters also were called on Wednesday to extinguish a car fire and a grass fire. The car fire occurred at 1:10 p.m. in the 1400 block of Mayberry Street. The car was owned by J.B. Shepard of Route 5, Box 1000 and was totally destroyed, according

to Fire Department reports. There was no damage from a grass fire about 7:41 p.m. at south Jefferson Street and Gist Avenue. Firemen suspect the fire was set.

Six people were transported by CFD ambulance Wednesday.

Little damage seen from Jerusalem

JERUSALEM (AP) - Israeli officials say they expect the storm of protest over the new law proclaiming united Jerusalem the capital of the Jewish state to subside with minimum damage.

They recalled that Israel weathered similar storms when it declared Jerusalem its capital in 1948, and when it moved its Foreign Ministry there in

"We are sovereign in Jerusalem, and we can do as we please," one official asserted

Egyptian President Anwar Sadat said that the law adopted Wednesday by the Israeli Parliament ran 'against the spirit and working of (the) Camp David" accords, the foundation for the 1979 Israeli-Egyptian peace agreement.

However, Sadat refused to say whether he would again suspend the negotiations with Israel on Palestinian autonomy, scheduled to resume next week. He said he would discuss the matter with his advisers and meanwhile would call in Israel's ambassador to Egypt and ask him to

convey Egypt's views to Prime Minisrer Menachemn Begin.

"It's not new," said Sadat. "We knew it would take place just as we know Begin in a few days will shift his office to East Jerusalem.'

Foreign Minister Kamal Hassan Aly said Egypt would consider recalling its ambassador from Israel as well as suspending the negotiations. Egypt broke off the talks in May for two months after the united-Jerusalem bill was introduced in the Israeli Parliament by a rightist foe of the peace treaty with Egypt.

Secretary of State Edmund Muskie criticized the adoption of the law, saying, "Unilateral actions that appear to foreclose negotiations are diversionary.

Other countries also expressed disapproval, and Arab diplomats at the United Nations were reported considering calling for a Security Council debate that might end in condemnation of the Israeli move.

The law in fact broke no new ground, since Israel annexed Arab East Jerusalem after it captured it from Jordan in the 1967 war and said repeatedly that the united city would never be divided again and would always be Israel's capital. But the United States, Egypt and other nations contend that the annexation was illegal and the future of East Jerusalem must be decided in negotiations between Israel and the Arabs.

The Knesset, Israel's Parliament. adopted the bill by a vote of 69-15 with three abstentions. The measure was supported by both Begin's rightist coalition and the left-of-center Labor Party, the chief opposition bloc, because of the widespread popular sup-

The law declares "complete and united Jerusalem is the capital of Israel" and in effect brings provisions of several existing statutes together in one law. It also guarantees protection to the Moslem and Christian holy places in East Jerusalem and free access of Moslems and Christians to them, a right Jordan never accorded the Jews during the 19 years it occupied that part of the city.

David Glass, chairman of the Knesset law committee that prepared the bill, acknowledged there were

"doubts about the political wisdom" "But when the wheels began to turn, there was no choice but to stand behind the bill," he said. "It has to be clear that Jerusalem is not a subject

Israel's next controversial step toward cementing its control over East Jerusalem is expected to be the transfer of the prime minister's office from West Jerusalem to a new office complex in the former Arab sector.

for negotiations.'

Plans for this were disclosed last month, and both the United States and Egypt expressed opposition. Radio Israel said the U.S. ambassador would be unable to meet with Begin if he moved his office. The radio made no mention of the fact that Begin also maintains an office in Tel Aviv, across town from the U.S. Embassy.

Judge to decide whether 'Caligula' is art or smut

BOSTON (AP) — A Boston judge was studying today whether "Caligula," a \$17 million motion picture about sex and violence in ancient Rome,

Municipal Judge Harry Elam promised a ruling Friday in the obscenity trial of Penthouse International, which produced the movie, and the

Sack theater chain, where it was shown. During the eight-day trial, Elam heard testimony from 14 experts on

sex, history, politics and philosophy. In final arguments Wednesday, Penthouse lawyer Roy Grutman argued that the prosecution was "an attempt to stifle and stamp out

Assistant District Attorney Timothy O'Neill disagreed.

"I wish you to recall the manner in which the camera focused on sexual acts," he argued. "Can there be any question that this film depicts sex in a patently offensive manner and appeals to a prurient interest?"

If convicted, Penthouse, its Massachusetts subsidiary and the theater. chain each face maximum fines of \$5,000. One defense lawyer said Penthouse is spending more than \$100,000 to try to win acquittal.

"Caligula, for whatever its shortcomings, is not a stag film," said Grutman. "It is not a blue movie. If it had been the intent of Penthouse to make a porno film, that could have been done for \$100,000. They felt a useful social and artistic purpose could be served.

Maude Green

GRANDFIELD, Okla. - Services for Maude Green, 86, of Burkburnett, mother of E.W. Green of Midland, are pending with Grandfield Funeral Home here.

Mrs. Green died in a Grandfield, Okla., nursing home following a lengthy illness.

She was born March 16, 1894, in Fairmount, Ga. She was married to-Walter M. Green in 1914. Mrs. Green was a housewife and a member of the Nazarene Church.

Other survivors include three daughters, Mrs. R.L. Wyatt and Mrs. Carl Foster, both of Devol, Okla., and Mrs. Fred Fewin of Lubbock; three sons, Stanley Green of Beeville, Walter Green of Devol, Okla., and Rogert Green of Scottsdale, Ariz.; 18 grandchildren and many greatgrandchildren.

'Mutt' Averyt

ANDREWS - Services for M.W. 'Mutt" Averyt, 74, of Andrews are pending with Singleton Funeral Home.

He died Wednesday in an Andrews hospital after an illness.

Averyt was married to Gertrude Eschberger Jan. 27, 1930, in San Angelo, where he lived and was a former school board member before coming to Andrews 30 years ago. He retired in 1966 after 40 years of service with Exxon. He was a member of Morse Telegraph Association and Andrews Church of Christ.

Survivors include his wife: four sons, Dee Averyt of Houston, Ronnie Averyt of Ottawa, Kan., George Averyt of Garland and Jerry Averty of Dallas; two sisters, Mrs. J.B. Gladden of Abilene and Mrs. T.J. Whitehead of Longview; a brother, Harmon Averyt of Yuma, Ariz.; and seven grandchildren.

Mary A. Hemme

ANDREWS - Services for Mary Ann Hemme, 46, of Houston are pending with Singleton Funeral Home

Mrs. Hemme died Wednesday in a Houston hospital after a brief illness. She lived in New York prior to moving to Houston 12 years ago where she was employed by an insurance

Survivors include her husband; John Hemme; a son, Dennis Wade of Houston; her parents, Mr. and Mrs. E.E. Ellison of Andrews; and two brothers, Scotty Ellison of Las Vegas, Nev., and David Ellison of Andrews.

'Chief' Riggs

ALPINE - F.E. "Chief" Riggs, 63, of Irving and formerly of Alpine, died Sunday in an Irving hospital.

Masonic memorial services will be at 7 p.m. today in Geeslin Funeral Home chapel.

A World War II veteran, he was a former administrator of Big Bend Memorial Hospital in Alpine and a member of Alpine Masonic Lodge and American Legion.

Survivors include his wife, Sammie Riggs of Irving; three daughters, Shyanne Scott of Iowa, Deanna Clinkscale of Irving, and Roberta Nelson of Washington; a brother, Earnest Riggs of California; and four grandchildren.

Rosa Lee Martin

Services for Rosa Lee Martin of Midland are pending at Newnie W. Ellis Funeral Home. Mrs. Martin died Tuesday in a Midland nursing home.

West German terrorist gets life for triple murder

entirely from his trial.

Germany (AP) - A West German court today found Baader-Meinhof terrorist Knut Folkerts guilty of three murders, an attempted murder and membership in a terrorist gang and sentenced him to life in pris-

Folkerts, 28, already is under a 20-year sentence in the Netherlands for the slaying of one policetempted murder of another. He was convicted here of fatally shooting West German chief prosecutor Siegfried Buback and two of his aides on April 7, 1977.

There is no death penalty in West Germany. The conviction for attempted murder stemmed from an attack on a Frankfurt weapons

dealer on July 1, 1977. Folkert's trial at the maximum security Stammheim prison opened on May 20. Chief Judge Eberhard Foth frequently ordered the accused barred from the courtroom because he interupted the proceedings by calling the judges "Fascist rat" and "state

swine." In a defiant opening statement, Folkerts

Nixon heads home

CAIRO, Egypt (AP) - Former President Richard M. Nixon left Cairo today for Paris en route back to the United States, Egypt's official Middle East News Agency reported.

Nixon arrived here Monday to attend Tuesday's funeral of the deposed Shah of Iran. He also held private talks with Egyptian President Anwar Sadat.

Veteran autoworker releases eight hostages unharmed

PONTIAC, Mich. (AP) - A man described by witnesses as a veteran autoworker took 18 hostages at the Fisher Body plant this morning, but later released eight of them unharmed, police said.

The hostages in the paint shop office of the General Motors Corp. plant 30 miles north of Detroit included the shop superintendent and two foremen, said witnesses.

The witnesses said the hostage-taker was armed with what appeared to be a .45-caliber pistol, but police were unable to confirm that.

Pontiac Police Lt. John Bridgewater said the man was talking to

someone. Bridgewater said he did not know the identity of the person with whom the hostage-taker was conversing, but he believed it was a union

"He is talking with one of the people he wanted to talk to originally," said Bridgewater.

At Local 596 of the United Auto Workers union, a man describing himself as "just a janitor" who declined to give his name said, "The union people are all in there. Apparently he has a gripe of some kind or the officers (of the local) wouldn't be in the plant."

North Dakota blizzard. And the town would lose a "kind of a community meeting place," if the store folded, she said. "You go down to the store and start visiting...it's our central sup-

Mrs. Leadbetter, already on the lookout for new suppliers, says a shutdown is unlikely. But she's angry because she sees Fairway's decision to stop deliveries as a big company squeezing the

little guy. Fairway's Norm Feske says that serving the People's Store weekly means a 24-mile detour, including a stretch of gravel road, off a main delivery route. "With the economy the way it is and the high cost of fuel and with drivers earning \$12 an hour or more with fringes," it was just too costly, he said.

been cutting off four or five stores a year, most of them in small towns.

"We're not driving anyone out of business. We've talked with them (the Leadbetters) about the fact that they have to change their approach to business a little bit," Feske said.

"These companies want such a big amount of business, they just won't cater to the smaller business any more," says Mrs. Leadbetter, who runs the \$65,-000-a-year store with her daughter and with maintenance help from her husband, Ray, who is postmaster.

Luverne has always had "a bar, a gas station, a cafe and a store," she said. "It's been like that for years.'

And Mrs. Jacobson, who has stopped by almost daily for 121/2 years, said Wednesday, "We don't have much left now If the store goes, I'm afraid that's going to

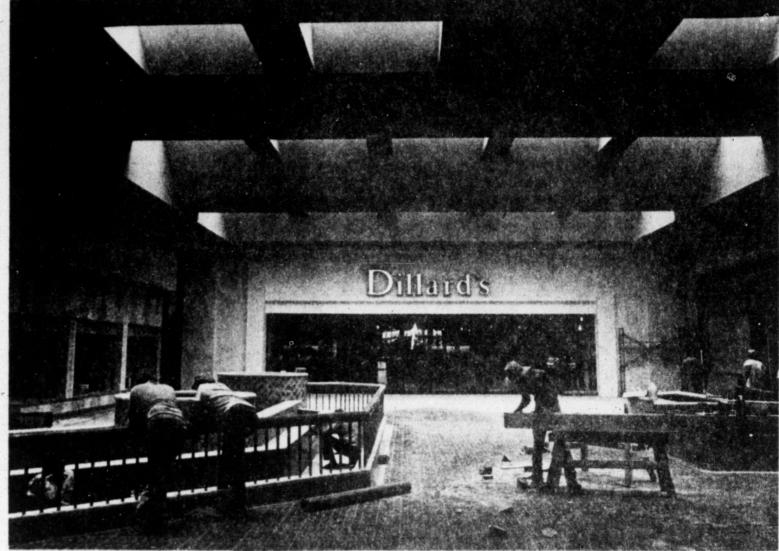

The store's customers are sending a petition to state officials to try to halt the cutoff, and Mrs. Leadbetter has asked the National Federation of Independent Business for help.

Kathleen Buschow, a caseworker for the trade association, said there's "no law that says wholesalers have to supply the small businessman." But the NFIB has contacted the U.S. Commerce Department for

Mrs. Leadbetter is stocking up the store and waiting to see how things go. "We've contacted several other distributors. Hopefully someone will come in."

Otherwise, the store may go independent. pick up its own supplies and probably pass a price increase along to customers, she said.

Bamboo matchstick blinds connote "fresh", "cool" and "casual". Their charm comes in part from the patterns of light and shadow they create.

But they embody more, a yinyang of inside, outside--a sense of mystery from objects partially unseen -- a sense of space beyond the field of vision. Perceptions not lost on the ancient Chinese.

Clues to the origins of bamboo blinds exists in 2,000year old Chinese "books", writings on bamboo slats strung remarkably like our blinds. Perhaps a calligrapher discovered the modern use

Wood jury questions Marcello

SAN ANTONIO, Texas (AP) - The brother of reputed rackets boss Carlos Marcello of New Orleans has appeared again before the special federal grand jury investigation the May 29, 1979, assassination of U.S. District Judge John

Wood Jr. Joseph Marcello, 50, who also appeared before 23-member panel last month after being granted immunity from prosecution, was among several persons, some of them not identified, who appeared at the secret session Wednesday.

Marcello, became involved in the investigation when the FBI secretly recorded a conversation between him and his brother. The pair allegedly mentioned a request for bond money for a person who claimed to have information concerning Wood's death.

The conversation allegedly was recorded during the FBI's Brilab investigation of political and labor officials. Carlos Marcello, 70, was indicted in the Brilab scandal along with a number of politicians, including Texas House

Speaker Bill Clayton. The special grand jury, impaneled under an organized crime statute for 36 months, also is looking into the attempted assassination of former Assistant U.S. Attorney James Kerr on Nov. 21, 1978. Wednesday marked its fourth meeting in the past two

months Kerr escaped with minor glass cuts when 19 bullets were fired into the front of his automobile. The attack took place about a mile from where Wood was shot in the back and killed six months later.

Miss Universe, Shawn Weatherly, welcomed home

Nothing better than coming home

SUMTER, S.C. (AP) - The new MISS UNIVERSE, SHAWN WEATH-ERLY, says there's nothing better than coming home - not even becoming Miss Universe.

"I thought there couldn't be any more satisfying feeling than winning Miss Universe. Now I know that's not true. Coming home to Sumter is the best thing yet," Miss Weatherly, 21, said Wednesday on her arrival for a homecoming celebration.

More than 3,000 people turned out for the festivities for the Clemson University student, who won the title July 7 in Seoul, South Korea. Miss Weatherly was presented with a birthday cake honoring her 21st birthday last Thursday.

Miss Weatherly arrived from Washington, where earlier in the day she met President Carter. She refused to openly endorse Carter's re-election bid, but said, "I'll support the president in office."

NEW YORK (AP) - JAMES CAGNEY, 81, has donned the costume of a turn-of-the-century police commissioner to begin work on his first

Cagney, famed as a tough guy in movies of the 1930s and 1940s, was playing the commissioner for the film version of "Ragtime," E.L. Doctorow's novel set in the early 1900s.

Milos Forman directed the action, filmed Wednesday at an old armory in Brooklyn as grandparents and children alike looked on. The star was given the general's office to relax in and was startled

when the telephone in the command headquarters rang. "Don't start World War III," he said as a friend lifted the receiver. The striking Screen Actors Guild gave permission for the movie work to

go on. Cagney is a former president of the Guild. LEXINGTON, Ky. (AP) — The infant son of GOV. JOHN Y. BROWN JR. and the former PHYLLIS GEORGE has been released from the

University of Kentucky Medical Center, where he underwent abdominal Lincoln George-Tyler Brown, 6 weeks old, was admitted Monday with pyloric stenosis, a condition in which an enlarged muscle blocks passage

of food from the stomach to the small intestine. The condition occurs in 600 infants, doctors say Lincoln underwent a 40-minute operation Monday evening to correct

Dr. Robert Belin said the condition isn't expected to recur. Lincoln was

released from the hospital Wednesday.

Soviet runaway claims parents don't like him

CHICAGO (AP) - Walter Polovchak says he ran away from home because "my parents don't like me" and his father threatened to have police "tie me up and put me on the airplane" back to the Ukraine. But his mother says someone promised him "golden mountains" if he stayed in the United States.

The 12-year-old Soviet boy, who has been granted asylum, testified Wednesday at a hearing to decide whether he and his 17-year-old sister Natalie should be placed under courtordered supervision.

His parents, puzzled and distraught because the boy is in temporary custody of the state, are trying to get him

Brother and sister say they left their parents' Chicago home on July. 13 when they learned their family wanted to return to the Ukraine. Running away was their own idea, both testified, not the suggestion of rela-

Lawyers are trying to establish whether the children were coerced by their 24-year-old cousin, also named

Ann Polovchak told Judge Joseph C. Mooney she thought her son had been influenced to run away by some-

"My son was promised golden mountains and he was brought closer to them and now he wants to conduct the lives of his parents," she said

through an interpreter. "I would like to know who tells whom what to do - the parents the children or the children the parents?" she asked. "Do we lose our rights as parents because we have been here six months in the United States?"

'My parents don't like me, they don't talk to me and I was afraid they would take me back to the Ukraine' forcibly, the boy said.

He related this conversation with his father, Michael Polovchak: "He said, 'I have to go back,' and I said, 'I don't want to.' My father said if I (wouldn't) go he would call the police and give them \$100 and they would tie me up and put me on the airplane."

Assistant State's Attorney Rick Michael argued the children should be designated minors in need of supervision because they ran away from home.

But Richard Mandel, a lawyer with the American Civil Liberties Union, representing the Polovchaks, contended state law on supervision doesn't apply in this case and violates the parents' right to decide where the family should live.

Mandel also argued the children's cousin may have influenced the runaways because he is "prejudiced against the Soviet Union.

But the cousin testified he neither gave nor promised the two anything. and that they left home of their own

BIGGS, Calif. (AP) -Flocks of herons are showering rooftops in this northern California town with dung, but angry residents can't do much about it - the birds are on the protected species list.

Several dozen black crowned night herons, which were nearly extinct 25 years ago, moved into the stately elms of two neighborhoods here three or four years ago when their favorite eucalyptus groves died in a frost.

Residents, who call the herons squawkers or squawks because they're so noisy, have been trying to scare them off. Harming them would be a federal offense.

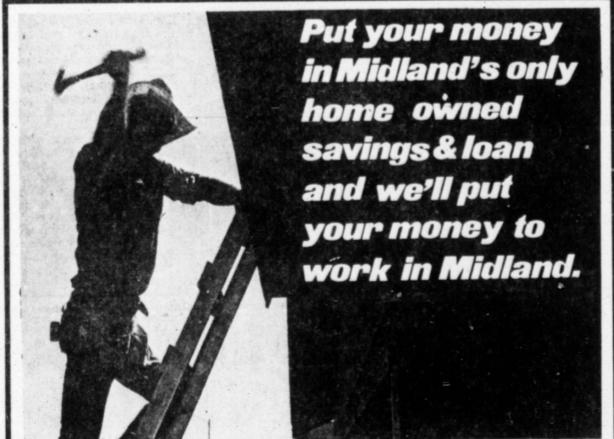

To frighten them, police have been using a firecracker gun that lofts a sort of cherry bomb 50 feet into the crown of the trees, where it explodes, said police Lt. John Mimms

The birds, jettisoning dung, take flight but come back soon, officials

Besides leaving a flycovered, lice-infested carpet of dung on rooftops, the herons also bring fish, reptiles and rodents to their nests, residents say.

Rosalin Hastain said she spent \$800 to have her trees pruned to deprive the birds of their roosts. But "after we got all the branches cleared away, we had to use a rake to get all the mess

off the roof. The Animal Damage Control Division of the U.S. Fish and Wildlife Service has said permits to kill the nocturnal herons can be issued only after non-deadly means of getting rid of them failed. In addition, the Butte County health department would have to certify that the birds were causing a health,

It's a good feeling, knowing you have some money set aside. And it's good to know that your savings are helping Midland grow. Citizens Savings offers a variety of savings plans designed to help meet your

Citizens Savings is also helping build a better Midland.

We've helped thousands of families become home-

owners, and financed local construction. We're look-

ing to the future with our Meadowpark and Northgate housing developments, providing both prestige and moderately priced homes.

You select the savings plan and we'll put your money to work, making Midland a better place to live. After all, we're Midland's only home owned savings & loan. Stop by. There's a Citizens Savings branch near you.

Savings Plans Available

21/2-Year Variable Rate Certificate

6-Month Money Market Certificate

Accounts insured up to \$100,000 by F.S.L.I.C. Other certificates available for terms ranging from 90-days to eight years. Substantial penalty for early withdrawal of a time deposit

piled by Shearson, Loeb, Rhoades, Inc.

Stock market gains

NEW YORK (AP) - Stock prices climbed again today as the government provided evidence the economy may be coming out of the recession. But petroleum issues sagged as some companies cut crude oil prices.

The Commerce Department reported the index of leading economic indicators rose 2.5 percent in June. The index, which is designed to anticipate changes in the economy, had not shown an increase since the previous

Airlines, which are major customers for fuel, generally were strong, but financially-troubled Braniff sagged after it sold 15 Boeing 727-200 jets to American Airlines. Rising prices and the re-

cession have dampened demand for oil, and a number of companies said they have been forced to reduce prices on crude oil not subject to price controls. The Dow Jones average of

30 industrials rose 4.27 to 936.18., the highest close for that indicator since May 19, 1977, when it finished at

Advances outnumbered declines by a 3-2 margin on the New York Stock Exchange

Big Board volume totaled 58.06 million shares, against 44.84 million in the previous session

At the American Stock Exchange, the market value index slipped 1.24 at 316.04.

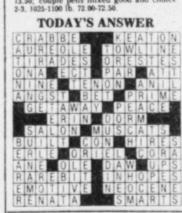

Livestock

SAN ANTÓNIO, Texas (AP) — Cattle: 1825. Slaughter cows 2.00-3.00 higher. Slaughter bulls 1.00-2.00 higher. Feeder steers and bulls firm to 2.00-3.00 higher, most advance on weights 50 lbs. and lighter. Feeder heifers 2.50-3.00 higher, instances 4.00 higher on weights 200-300 lbs. Supply about 8 percent slaughter cows. Balance mainly medium and large frame—No.1 & 2 250-550 lb. feeder cattle. Demand good on all classes feeder cattle. Slaughter cows: utility 2-3, 45 25-48.00; few up to 50.25; cutter 1-2, 41.00-46.00; canner and low cutter 37.00-41.50. Slaughter bulls: yield grade 1-2, 1150-1400 lbs., 52.00-88.00; individual high dressing 1500 lbs., 60.00.

lbs., \$2.00-38.00; individual high dressing 1500 lbs., 60.00. Feeder steers and bulls: Medium frame No.1: 200-250 lbs., 102.50-113.00; 250-300 lbs., 95.00-105.00; 300-400 lbs., 85.00-95.00; 400-500 lbs., 80.30-86.00. Medium and large frame No.2: 250-350 lbs., 81.00-85.00; 320-450 lbs., 70.50-81.00; 450-350 lbs., 74.50-77.00; 550-650 lbs., 68.50-75.00.

small frame No.2 800-825 lbs., 475.00-495.00 per pair.
Hogs: 100, not enough on offer to test trade.
AMARILLO, Texas (AP) — Texas Panhandle and western Oklahoma feediot roundup. Confirmed: 8800.
Trade moderate in the Panhandle area Wednesday afternoon. Slaughter steers and heifers steady. Feediots reported fair interest and inquiry from most buying sources. Sales on 3900 slaughter steers and 4900 heifers. 41,800 head sold for the week to date. Note: all live cattle prices based on net weights fob the feediot after 4 percent-shrink.

nrink.
Slaughter steers: Good and indice 2-3, 70-85 choice, 1000-1100 lb.
3.50; couple pens mixed good and 3, 1025-1100 lb. 72.00-72.50.

BUSINESS MIRROR

Pessimism said mainly to blame for output drop

By JOHN CUNNIFF **AP Business Analyst**

NEW YORK (AP) - There is no shortage of research and development funds, nor of ideas, inventions and ingenuity in the United States, said E.E. David Jr., president of Exxon Research and Engineering Corp.

"Overall, industrial research and development in the United States is thriving," said David. "There is a spirit of vitality.

Why, then, has the U.S. growth rate shrunk? Why can other nations, West Germany, Japan and, in isolated instances, even less developed nations, so effectively challenge U.S. industrial leadership?
David, former presidential science adviser and

past president of the American Association for the Advancement of Science, laid it on the line recently in a talk to engineers at the University of Califor-While recognizing the truth of some of the usual

explanations, and agreeing that they contribute to the problem, he dismissed them as the fundamental

Inadequate spending for research and development is often the first to be mentioned.

Nonsense, said David. Real-spending for industrial research and development turned up in 1972 and since then has been rising at 5 percent a year in deflated dollars.

"In 1979 industry spent some \$24 billion of its own funds on R&D. Venture capital was readily available in the late 1970s, and new small enterprises have been playing their accustomed innovative role." Inflation, the low savings rate and, compared with

other nations, the low level of capital investment, are frequently cited. David didn't disagree. But he said we must look for an even more basic reason." Still withholding from his audience what he consid-

ered this reason to be, David went on to list what he called two other symptoms for the slow rate of economic growth in the United States.

He described rather than labeled the first of these "Hewlett-Packard Co. tested 3,000 '16-K random-

access-memories' manufactured by three U.S. and three Japanese firms. The failure rate of the best Japanese product was one-sixth that of the best U.S. product, while the failure rate of the worst Japanese product was one-twenty-seventh that of the worst U.S. product. Of the second, he simply said: "The U.S. has four

times as many lawyers per capita as West Germany, and 20 times as many as Japan.'

Also mentioned as a reason for the poor U.S. economic growth rate is a stagnation in the growth of scientific manpower. While David said the pool is again growing, he also agreed we have lost plenty of

"Between the years 1968 to 1978 the relative fraction of scientists and engineers found in the U.S. labor force declined by 13 percent," he said. "Meanwhile, the Soviet Union, West Germany and Japan were boosting their technical manpower by 55 percent or more. In an age when countries must live by their wits

and brainpower, and not through any corner on technology or natural resources, all these deficien cies can be translated into economic problems, he suggested.

Still he hadn't mentioned what he considered the most fundamental flaw of all.

"You have heard recitations of this sort before," he continued, "and I've not gone through the entire littany. For example, I haven't mentioned the vital areas of productivity and government regulation."

But beyond all these symptoms, he said, there is something more fundamental. It is, he said, "a shift toward a national pessimism which dwells on failure

This national mood, he said, "has afflicted nearly every social sector," including ordinary citizens, scientists, engineers and corporate managers, to

"Corporate managers are often as shy of healthy risk-taking as government bureaucrats," he said, and Americans in general feel life has become riskier, despite the contrary evidence of mortality "A reversal of our pessimistic, suspicious and mistrusting national mood is a key to resolving our

other problems," he concluded. "We may hope that Americans will develop a finer understanding of the need for trade-offs between the imperatives of economic growth and desires for a

Workmen are dwarfed under a deck section of a pumping platform being lifted into place 19 miles off the Louisiana coast near Grand Isle during

construction of the deepwater tanker port loop. The section is 200 feet long, 100 feet wide and weighs 2,000 tons. (AP Laserphoto)

Phillips shows little gain in earnings

NEW YORK (AP) - Phillips Petroleum Co., saying higher costs for domestic operations and declining demand for petroleum products squeezed profits, has reported almost no earnings gain in the second quar-

The nation's 13th largest oil company Tuesday reported net earnings of \$214.8 million for the quarter, compared with \$214.6 million a year earlier despite a 45 percent increase in

Earnings per share were \$1.41 in the second quarter compared with \$1.39 for the same period a year ago. Revenues for the period were \$3.23 billion, up from \$2.22 billion a year earlier. Phillips' report contrasted with strong earnings gains recently re-

ported by others in the industry, Exxon, the world's largest oil company, last week reported profits rose 24 percent to \$1.03 billion. No. 2 Mobil Corp. said profits in the quarter rose 64.6 percent to \$688 million and No. 3 Texaco reported a 49 percent gain, to

Phillips President and Chief Executive Officer William C. Douce, in a statement from the company's Bart-

leville, Okla., headquarters, said

Phillips "was not fully able to recover (higher costs) because of an industrywide surplus of gasoline and other petroleum products."

In addition, the company reported, a new Norwegian income tax increase retroactive to Jan. 1 reduced its earnings by \$63.6 million in the quarter. The tax, enacted in May, lowered six months earnings by \$117.8 billion, the company said.

Earnings for the six-month period rose 27 percent to \$499.3 million, or \$3.26 a share from \$391.6 million, or \$2.54 a share last year. Revenues were \$6.61 billion, up from \$4.20 billion in the 1979 first half.

RRC denies request on Giddings area

AUSTIN--The Railroad Commission has denied a request of an operator in the Giddings (Austin Chalk) Field to stay a June 23 order that reduced the legal producing rates of 37 units in the Central Texas

Also during the weekly conference on Oil and Gas Division matters, Chairman John Poerner and Commissioners James E. (Jim) Nugent and Mack Wallace turned down a series of other motions by operators, seeking a rehearing of the order and oral argument. Denial of all the requests was recommended by Legal Examiner Susan Cory Kovar.

The June order pared legal output of an affected unit to no more than an 80-acre allowable. It specified that tolerance acreage shall not be assigned to pooled units in the field unless field rules are amended to permit such assignment or an exception to the current rules is granted after notice and hearing.

Also, the order directed that any over-production resulting from the assignment of the tolerance acreage allowable be made up by producing the unit at no more than 50 percent of assigned allowables until all such pro-

duction is made up.

A tolerance acreage provision permits the assignment of leftover lease acreage which otherwise might not be developed, with a compensatory increase in the authorized production rate. Pooled proration units of more than 80 acres are not authorized by existing rules for the field.

The request to stay the June 23 order pending appeal to the courts
was made by Humble Exploration
Co., Inc. Motions for hearing came from Humble, Champlin Exploration, Inc., and Thomas D. Coffman. The request for oral argument also came

Wildcat, discovery reported

A wildcat has been completed in Lea County, and and a shallow discovery has been reported in Eddy Coun-

The Lea wildcat is Union Oil Co. of California No. 1 West Lynch Deep Unit, a 14,800-foot project 19 miles south of Buckeye.

Operator staked location 660 feet from south and 2,310 feet from east lines of section 28-20s-34e. Ground elevation is 3,725 feet.

The location is 3 1/4 miles southwest of the Lynch (Pennsylvanian gas) pool.

EDDY OPENER

The Eddy discovery is Collier & Collier of Artesia No. 1 Yalty, 13 miles north of Carlsbad.

It completed from the Queen for a daily flowing potential of 80,000 cubic feet of gas, through a 20/64-inch choke and perforations from 1,452 to 1,462

Total depth is 1,830 feet, 4.5 inch pipe is set at 1,515 feet and plugged back depth is 1,494 feet.

on ground elevation of 3,840 feet. Wellsite is 1,650 feet from south and 330 feet from east lines of secton 23-19s-27e

LEA FIELD WORK

Mobil Producing Texas & New Mexico Inc. No. 1-22 State Communitized is to be drilled in the Vacuum (Pennsylvanian oil) area of Lea County, four miles north of Buckeye. Scheduled on an 11,000-foot contract, it is 1980 feet from north and 1.770 feet from west lines of section

Belco Petroleum Corp. of Midland No. 1-13 Federal has been spotted as a 14,600-foot project in the Hat Mesa (Morrow) area of Lea County, eight

miles southeast of Halfway. Operator will spud 990 feet from north and 1,980 feet from west lines of section 13-21s-32e.

The Bell Lake, South (Morrow) field of Lea County gained a new project with the staking of The Supe-

The Queen was topped at 1,140 feet rior Oil Co. No. 1 Sims, a 15,000-foot

Location is 28 miles southeast of Halfway and 1,980 feet from north and 800 feet from east lines of section 23-245-33e. Ground elevation is 3,580

CHAVE PROJECTS

Yates Petroleum Corp. of Artesia, N.M., announced location for an 8,-850-foot project in the Buffalo Valley (Morrow) field of Chaves County, 11 miles southeast of Hagerman.

It is No. 1 Nine Mile-State "OB." 1,650 feet from north and-1,650 feet from west lines of section 32-14s-28e. Ground level elevation is 3,523

Mesa Petroleum Co., operating from Hobbs, N.M., spotted location for a project in the Loco Hills (Abo) field of Chaves County, 18 miles

southwest of Elkins. It is No. 1 Federal "MP." 1,980 feet from south and 660 feet from west lines of section 5-9s-26e

Ground elevation is 3,745 feet.

Petro-Lewis, Williams stake deep West Texas projects

A pair of deep field projects and six wildcat operations have been staked in West Texas counties.

Petro-Lewis Corp., operating from Levelland, announced location for a 19,300-foot project in the two-well Gomez (Fusselman gas) field of Pecos County, six miles northwest of Fort Stockton.

The project, 1/4 mile west of Ellenburger gas production, is No. 2 Bill DeWitt-Parke. The drillsite is 1,980 feet from north and west lines of section 146, T&StL survey.

LOVING PROJECT

Clayton W. Williams Jr. of Midland staked his No. 6 Gataga Gas Unit as a 19,000-foot project in the 10-well Vermejo (Fusselman gas) field of Loving County, three miles southeast of Men-

It is adjacent to Williams No. 5-A Gataga which recently was completed from the Ellenburger for 100,000,-000 cubic feet of gas per day.

The new project is 1,000 feet from southeast and 1,000 feet from southwest lines of section 66, block 1, W&NW survey.

STERLING WILDCAT

Texas Ol & Gas Corp., operating from Midland, spotted an 8,800-foot wildcat 12 miles northwest of Sterling City in Sterling County.

It will test the Wolfcamp and Canyon as a wildcat and drill on to the Fusselman as a test in the Sterling (Fusselman) field. It is 1/2 mile northeast of Fusselman production.

Location is 467 feet from north and west lines of section 93, block 2, H&TC

UPTON DRILLSITE

Texas Oil & Gas Corp. also announced location for a 9,200-foot wildcat in Upton County, 12 miles north of:

It is No. 1 Damron, 2,310 feet from south and east lines of section 4, A. L. Brigance survey. Ground elevation is

Operator will attempt to reopen Wolfcamp production and extend Pennsylvanian production 5/8 mile southeast in the Heluma multipay

SCHLEICHER AREA

A 6,100-foot wildcat has been scheduled in Schleicher County, 10 miles northeast of Eldorado, by Newhall Land & Farming Co. of Valencia,

Scheduled as No. 1 Spence "A;" it is 660 feet from north and 1,860 feet from west lines of section 2, block M, GH&SA survey. Ground elevation is Site is 1/2 mile southwest of one of

the six wells in a northeast extension area of the Jan Jerrye, Southeast (Canyon gas) field. That field produces at 5,138 feet.

The location is 5/8 mile southwest of a 6,526-foot dry hole.

STONEWALL PROSPECTOR

ConVest Energy Corp. of Hounston announced location for its No. 1 Ida Baldwin, a 5,850-foot wildcat, 2.5 miles west of Aspermont in Stonewall County

The prospector is 2,300 feet from north and 2,133 feet from east lines of section 166, block D, H&TC survey and 1 1/4 miles southeast of the Fuzz (5600 Strawn) field and separated from it by a 5,703-foot dry hole.

RUNNELS WORK

A pair of wildcats have been spotted in Runnels County, one by Tex-Star Petroleum of Abilene, and the other by Charles M. Childers of the same

Tex-Star will drill No. 2 Fuller as a 4,800-foot wildcat 1.5 miles east of Crews and 470 feet from north and 2,170 feet from west lines of section 124. ETRR survey.

It is an east offset to Tex-Star No. 1 Fuller "T" which was staked as an east offset to Jennings oil production in the Henson field.

Childers No. 1 Rodney Kruse is to be dug as a 4,700-foot wildcat 1.6 miles northwest of Winters and 7,250 feet from south line and 782 feet from the middle east line of Thomas Baber survey No. 1 Ground elevation is 1,872

Drillsite is two miles southwest of the one-well Spike, North (Palo Pinto oil) field and 3/4 mile northwest of the depleted Spike (Gardner, Gardner sand, lower Gardner sand and upper Gardner sand) field.

WARD ACTIVITY

Adobe Oil & Gas Co. of Midland announced plans to re-enter a Cherry Canyon oil well in the Scott multipay area of Ward County and plug back for test for oil production in the Dela-The project, 1 3/8 miles northwest

of Delaware oil production, is No. 1-20 Barstow. The location is 660 feet from southeast and 1,408 feet from southwest lines of secton 173, block 34, H&TC survey and one mile southeast

D. H. Hunt of Dallas has completed his No. 4-31 F. H. Scott as a dual well in the Scott (Cherry Canyon oil and Delaware oil) pool of Ward County, 5.5 miles southeast of Barstow.

From the Cherry Canyon it finaled for a daily pumping potential of 50 barrels of 42.2-gravity oil and 82 barrels of water, with a gas-oil ratio of 860-1. It was compelted through perfo-

rations from 5,778 to 5,847 feet.

From the Delaware it potentialed on the pump for 58 barrels of 46.2-gravity oil and 40 barrels of water per day, through perforations from 4,912 to 4,965 feet. The gas-oil ratio was too small to measure.

Total depth is 6,493 feet and 7-inch casing is set on bottom. Hole is plugged back to 5,975 feet.

The location, in the east side of the field, is 3,400 feet from northeast and 660 feet from southeast lines of section 31, block 33, H&TC survey.

Crawar (Florieta) field of Ward County gained its 10th producer with completion of Amoco Prodution Co. No. 1 J. B. Tubb "A," a re-entry project.

Operator reported a daily pumping potential of six barrels of oil, gravity not reported, and 190 barrels of water, through perforations from 3,782 to

The gas-oil ratio is 5,500-1, and the pay was acidized with 5,000 gallons. Total depth is 8,277 feet and plugged back depth is 4,300 feet.

Wellsite is 660 feet from north and west lines of section 18, block B-20, psl survey and 16 miles southeast of Mon-

The well originally was completed as a Tubb producer. It is 1 1/4 miles southwest of the closest Glorieta

HOCKLEY LOCATION

Texas Crude Inc. of Midland spotted a long north outpost to the lone producer in the Anita (Clear Fork) field of Hockley County, five miles north of Levelland.

It is No. 1-21 Schoenrock, 2 1/8 miles from the discovery.

The location for the 8,000-foot project is 467 feet from south and west lines of labor 21, league 721, Abner Taylor Survey.

REAGAN PROJECTS

Sage Energy Co. of Midland spotted No. 1-15 Cities-State 1 3/8 miles east of one of the four wells in the Barnhart, South (Ellenburger oil) pool of Reagan County, 12 miles southeast of

Big Lake. The location for the 9,200-foot operations is 660 feet from south and east lines of section 15, block 43, University Lands survey.

Brazos Petroleum Co. of Midland will drill its No. 1 Sugg 2,750 feet northeast of a well in the Calvin (Dean) field of Reagan County, 21

miles northeast of Big Lake. Slated to 7,500 feet, it is 1,980 feet from north and east lines of section 109, block 2, T&P survey.
