George Gottleib of New York embraces his grand niece as a grand nephew stands with Mrs. Gottleib during the happy reunion that followed the Gottleibs arrival in Miami after an unexpected stop in Havana aboard a hijacked Eastern Airlines jetliner with 226 other passengers. No injuries were reported. (AP Laserphoto)

Another jet hijacked

241 aboard returned safely

MIAMI (AP) - Three Spanish-speaking men hijacked an Eastern Airlines jet — bearing the infamous flight number 401 — to Cuba overnight after terrifying the 241 people aboard by splashing what appeared to be gasoline around the cabin and then lighting matches, officials

The hijacking came 10 days after federal officials announced that armed marshals would take to the air to ward off potential hijackers. It was the seventh case of air piracy to Cuba in 21/2 weeks.

The hijackers, whom federal authorities suspected were Cuban refugees, were taken from the plane in Havana, passengers said, and the jet returned to Miami safely this

The hijacked plane, with 228 passengers and a crew of 13, was a New York-to-Miami L-1011 flying as Eastern 401. On Dec. 29, 1972, Eastern Flight 401, an L-1011 flying New York-to-Miami, slammed into a Florida Everglades swamp, scattering bodies in the muck, killing 101 of 176

people aboard. The disaster, blamed on pilot error, spawned stories of

"The Ghost of Flight 401," the specter of a dead crew member who supposedly appeared in several airliner cockpits to warn of mechanical or other problems that needed to be checked. The stories resulted in a book and television movie.

Eastern spokesman Jim Ashlock said the airline has continued to number flights as 401, and said that the ghost stories began as jokes among Eastern employees.

Jerry Steindam, one of the passengers hijacked Tuesday night, said he had been scheduled to fly on ill-fated Flight 401 in 1972, but developed pneumonia and had to stay in New York. Ironically, he took Flight 401 on Tuesday night because he missed his scheduled Air Florida flight earlie

"I missed the crash. But this time I got hijacked," he

Steindam said he could tell by the smell that the hijackers used gasoline. FBI agent Bill Nettles said some of liquid splashed on a passenger.

The hijackers then "started lighting matches and yelling 'Cuba, Cuba, Cuba,' said Nettles.

Polish government issues veiled warning of Soviet intervention

Communist regime today issued a veiled warning of possible Soviet intervention, and said there could be "incalculable consequences" and "other results disastrous to Poland" if striking workers prolong their disruptive walkouts.

The threat came as the 14-day-old strike wave on the Baltic coast was reported to have spread to the giant Ursus tractor factory outside Warsaw and to industries in southern Poland. Estimates of the total strikers rose to more than 300,000.

In a front-page editorial in the Com-munist daily Trybuna Ludu, the re-gime reminded Poles that their country lies "in the direct sphere of security of the world Socialist power — the Soviet Union.

"We are a member of the defensive Warsaw Pact and we belong to the Council for Mutual Economic Assis-tance," the East Bloc Common Mar-

The commentary was entitled "Line of Partition," apparently reminding Poles that their country was carved up by Austria, Russia and Prussia in 1796 and did not reappear until November 1918 at the end of World War I.

We, Poland, in our current system of (Communist) government, are one of the basic elements of peaceful order and stabilization in Europe,"

the commentary said.
"Any disturbance of any of these factors making up the Polish 'raison d'etre' must lead to incalculable consequences.

These factors include the place of our party in the political life of the Polish state as well as the basic structure of people's rule ...
"If there is a trend of prolonging

strikes, making again new demands and of escalating the atmosphere of tension—including political demands—if there is a trend toward escalation without paying attention to possible dangerous consequences, of ignoring the threat of poisoning political life and of ignoring the threat of 'anarchization' of public life and of possible

state and society, the entire approach (of strikers) — even if the objectives at the root of the conflict were justifed - could lead to other results disastrous to Poland.

The paper warned "a moment may come when those who were posing demands, or have been formulating them, would say: 'we did not want it.'
And then it will be too late. There exist limits outlined by the security of the state and community which cannot be overstepped under any pretext and by anyone.

Lech Badkowski, spokesman for the Inter-Factory Strike Committee, said talks in Gdansk Tuesday between a working group of five strike leaders and five government officials produced agreement on many "seri-ous points." He declined to give details, but said more-talks were

The government's chief negotiator,

First Deputy Premier Mieczyslaw Jagielski, went back to Warsaw to report to the Communist Party Politburo. He was expected to return to Gdansk today.

Jagielski held an often-noisy exchange Tuesday with a delegation of the strike committee at the V.I. Lenin Shipyard in Gdansk, where the mass walkout began Aug. 14.

Jagielski said in addition to the secret, democratic election of trade union officials promised Sunday by Communist Party leader Edward Gierek Sunday, the revision of the labor laws would permit strikes in the industrial coastal region if all other means of solving disputes failed. But he refused to budge on the workers' demand for independent labor unions free from government controls and said he was negotiating only for the Baltic industrial area, not other parts

Many eligible men may have failed to register

BOSTON (AP) — A spot check of several cities indicates that as many as 25 percent of the eligible young men there may have failed to register for the draft, the Boston Globe says. A spokeswoman for the Selective Service System called the survey inval-

Under legislation approved by Congress in June, men born in 1960 and 1961 were required to register for the draft in late July and early August at any post office. Congress did not authorize a resumption of the draft it-

There have been reports that many men failed to comply with the law, but the Selective Service System, which administers registration, has not re-

leased any figures. Selective Service spokeswoman Joan Lamb said the Globe's figures did not take into account that the men required to register are a "mobile group and didn't have to register in their area."

"We don't want to talk from incomplete data," she said, calling the data

The Globe said it obtained registration figures from regional offices of the U.S. Postal Service serving areas in which more than 10 percent of the nation's population lives.

sure that urban, suburban and rural areas were represented. Reporter Alan MacRobert, who conducted the survey, said there were no results from the Deep South or New York

School tax rate at 89

By DAVID CAMPBELL Staff Writer

The new school tax rate is officially set at 89 cents per \$100 valuation at 75 percent assessment ratio which will cover a \$33 million budget.

Following the tax hearing last week, school trustees Tuesday afternoon unanimously approved the new tax rate which is an 18.2 percent increase above the 75.8-cent effective

tax rate. Trustees Parker Humes and Johnny Warren were not present when the

board set the rate About 89 percent of the budget (80 cents) is allocated to pay for general expenses and maintenance. The other 10 percent will be going to pay the district's outstanding debts on

In another budget related item, trustees approved amendments to the 1979-80 budget. Don Furgeson, business manager for the school district, reported to trustees that the total revenue budget increased by \$3,422,978 and the expenditures also increased by \$3,951,371.

Most of last year's revenue increases, about \$3,041,341, came from the sale of and interest on bonds.

However, \$3 million in expenditures resulted from construction fund projects and \$112,318 in property purchases among other expenditures.

Bids for the renovation of Midland High School's auditorium were accepted by trustees. Work on the auditorium is expected to be finished by early December.

Superintendent James Mailey reported that Midland High School was expected to be ready for opening

day today. Most of the renovations at the high school are nearing completion, he said. However, student lockers will not

Day holiday, Mailey told trustees. Bids for pest control, band instru-ments and fencing for the MHS addition gained trustee approval. The district underbidded these items by \$4,-

be ready for use until after the Labor

Joseph Baressi, assistant superintendent for instruction, explained to board members the procedures governing the two on-campus suspension centers at the high schools.

Although no action was required by the trustees to adopt the rules, Baressi told trustees that the center was "not a country club assignment."

Students assigned to the two centers must be in their rooms by 7:45 a.m. and will be dismissed by 2:45 p.m. Students will have to provide their own lunches and are required to eat them at their desks.

Activity inside the centers is very structured with emphasis on completing classwork, he said.

Five days is the minimum time students would spend in the center. The maximum session is 10 days.

If a student is assigned three times to the center, Baressi said the administration would recommend suspending the student for the rest of the

Trustees approved new football ticket prices for the 1981 season. Those tickets purchased on a season basis were changed from \$2.50 to \$3 per game. Tickets purchased at the game will cost \$4.

Tickets for basketball, baseball, volleyball and the district spring meet will cost \$2 for adults and \$1 for

About 95 percent of Midland's property owners paid their school taxes for the 1979-80 year, trustees report-ed. However, the delinquency rate increased 17.44 percent. Last year the delinquency rate was only 10:40 percent when the district was able to collect 95.45 percent of the taxes.

The school district will be hiring an architectural consultant to study structural problems at DeZavala Ele-

mentary school. Other items receiving trustee approval included student transfer requests, tax roll corrections, personnel appointments and resignations, and bills payable and investments.

Thomas snips away at proposed city budget

By LANA CUNNINGHAM

Councilman Carroll Thomas took out his scissors Tuesday afternoon and started snipping out items in the proposed 1980-81 budget and pasting in a few additions until he almost had the expenditures down to meet expected income. And he would have made the budget balance if it hadn't been for the rest of Midland City Council grabbing his hand to stop him

from doing any more snipping.

The last public hearing on the budget began shortly after 4 p.m. during a regular session of the City Council in City Hall. The proposed budget and tax rate already had been through two hearings. Adoption of the budget and tax rate of 45 cents per \$100 assessed valuation by the council puts the items into effect Oct. 1. first day of the new fiscal year.

Pay Moudy provident of the Midland Chamber of Commerce, started

Ray Moudy, president of the Midland Chamber of Commerce, started the hearing by reviewing the chamber's request for \$159,000. The city had budgeted \$130,000 and the council stuck to that figure.

THEN THE REAL snipping began.

Katherine Shriver, representing Midland's senior citizens, had requested at the last public hearing that the exemption for the older residents be upped from the current \$6,000 to \$15,000 because of their low fixed incomes. On Tuesday, she had her answer: No.
Mayor G. Thane Akins said he was in favor of giving the senior citizens

the same amount of exemption as before the revaluation of property. This would have been \$8,350.

Thomas, who said he had voted in favor of such an exemption in the past, decided that "the principle of giving a group a tax break is not a good one. You have to realize inflation is hitting everyone and hurting a

lot of people, not just the senior citizens. 'We revalued the property to get everyone paying the same share of taxes," he said.

The motion to up the exemption failed on a 3-3 vote with Thomas, Steve Davidson and Tom Sloan voting against it.

But when Thomas tried to take it farther and wipe out the \$6,000 ex-

emption, the rest of the council stopped him. Wayne Kohout, director of parks and recreation, also got the rug pulled out from under him. In the proposed budget, one cent of the six cent tax increase had been designated to go for parks improvements.

Thomas succeeded in having that penny taken from parks and recreation and applied to decreasing the amount of deficit that would be made

up by taking money out of the surplus.

MONEY GENERATED by that extra penny on the tax rate would have meant \$100,000 for sprinkler systems in Ulmer, Ratliff and part of Hogan parks, and \$30,000 for lining a reservoir at Hogan Park.

By way of explaining his action, Thomas said that if the city gets Revenue Sharing Funds, that money will go to the sprinklers and liners. However, after the session Kohout pointed out there are two bills on Revenue Sharing Funds before Congress. One would eliminate the funds, the other would give the money to the

cities. Which passes depends upon the mood of Congress, he said.

After taking out \$12,000 for the Rape Crisis Center because it was getting funds from elsewhere and adding \$60,000 to the retirement fund for city employees, Thomas went after the Human Relations Council. It had been budgeted for \$14,410.

In looking at the budgeted item, Thomas remarked that he felt the agency "has been deteriorating greatly over the years. We're not getting anything for our investment. I think this is a good time for the city

to withdraw from it." The Human Relations Council is funded in part by the city. Remaining monies come from Midland Independent School District, \$21.010; Mid-

MC's rate at 13.5 cents

By DAVID CAMPBELL Staff Writer

Midland College trustees officially set their tax rate at 13.5 cents per \$100 valuation and adopted a \$5,727,188 budget for the 1980-81 school year.

College officials said they were pleased to announce they did not have to raise taxes for the Midland taxpayer again. However, college taxes were raised by 3 percent.

And, by aw, the college does not

have to hold a public hearing to discuss the raise.

According to the tax assessor-collector's report, the effective tax rate

An effective tax rate is that rate which will bring in the same amount of revenues during 1979-80. The rate was raised by 3 percent to 13.39 cents. That rate was rounded off to 13.50 cents.

Last year, the college's tax rate was set at 22 cents per \$100 valua-

When broken down, about 9.2 cents is allocated for support and maintenance services and 4.3 cents goes

toward paying off bonds.

This year's budget has increased by 15.7 percent from \$4,947,235 to \$5,727,-

CHICAGO (AP) — Hundreds of firefighters were called to the South west Side early today as Chicago's worst fire in more than a decade destroyed three buildings and caused an estimated \$1 million damage, officials said.

Smoke, flames and sparks mushroomed more than 200 feet into the sky and drums of naphtha and chemicals exploded at the height of the blaze. The fire ignited a blaze in a fourth building across the Chicago River from the fire, but that was extinguished quickly

Some 300 firefighters using 75 pieces of equipment battled the flames before bringing them under control around 2:30 a.m. CDT, about three hours after the fire was reported. Seven firefighters suffered smoke inhalation, but none was in serious

The cause was the fire was not determined immediately.

Officials said the fire was the worst since 1967, when a blaze destroyed

Forest, grass fires continue

By The Associated Press

Texas' tinder-dry forest and grassland is igniting "just like a bomb" as a relentless heat wave sparks the highest number of August forest fires

in 15 years, state officials say. Meanwhile, in neighboring Arkansas, Gov. Bill Clinton declared an "emergency disaster" Tuesday, or-dering a ban on outdoor burning because of the continuing fire danger.

The proclamation banned all outdoor burning "except that which is necessary to public health and safety and is rigidly controlled."

The number of fires reported in Arkansas dropped Tuesday as park officials took steps to prevent the outbreak of new fires.

James E. Grant, state Forestry Commission spokesman, said 13 fires were put out Tuesday. The commission had been reporting as many as 40 per day in the state.

The Texas Forest Service issued an "extreme fire danger" warning Tuesday for 52 counties - 24 million acres from the Oklahoma and Louisiana borders to the Gulf Coast and into the hill country of central Texas.

A 15-year record of 607 blazes over 7,524 acres this month was boosted by 325 wildfires burning 5,243 acres of forest and rangeland in the past week, said spokesman Lou Sloat from a special Texas Forest Service command post in Lufkin.

'The thing that scares us is that we have this high pressure system that Sloat said. "And it could last through

There's a saying somewhere that

Residents of Storey Avenue be-tween Ward and Garfield Streets are teaching Midland City Council just

Several months ago the council approved making Cuthbert Avenue, one block north of Storey, one-way going west. Apparently, the overflow of traffic going the other way has moved over onto Storey. And the residents aren't happy about the results, they told the council Tuesday during a regular session in City Hall Council

ONE BY ONE, before a packed room, the residents told of their troubles. Related Mildred Saye, 2401 Storey Ave., clenching her teeth, "Storey used to be a quiet place to live. Since Cuthbert was made oneway, Storey has become a drag strip with loud disco music."

A stop sign near her house is ignored by many drivers, she claimed "I lie in bed at night and cringe. People throw trash in my yard and I can hear kids arguing and fighting."

with football season beginning and Memorial Stadium a short way from that street, the road is going to be packed.

street, but the council immediately rejected that idea. The recommendation was favored only by Councilman Tom Sloan.

lems on that street have diminished. And the traffic light at Cuthbert and Garfield is more negotiable. As the council and residents tossed

ideas back and forth, the residents began speaking out of turn and argu-

Director of Public Works Fred Baker, in trying to review the problem, had to talk loudly to be heard over the crowd's heckling. And the crowd argued loudly over his state-

ment that Cuthbert is a narrower street than Storey.

THE COUNCIL told the group the city engineer is working on the problem and several solutions will be recommended to the panel at its Sept. 9 The council also failed to come to a

meeting of the minds on portable signs. At its last meeting, the council passed an ordinance on first reading to prohibit portable and temporary

But on Tuesday, several owners and users of those signs showed up to protest the council's action. The council, which had been prepared to pass the ordinance on a second reading to make it effective Sept. 1, decided to work out a compromise by October.

Jack Pallick with Pylant Signs agreed the signs shouldn't be placed on the city's right of way, which had been the primary problem. He suggested a compromise to allow the signs, possibly with a permit for a limited time.

had been prompted by a Supreme Court ruling. Under the law, a city will be held liable if an accident the right of way. Adding to the problem was the fact the city staff had contacted 24 businesses that had signs in the right of way and the owners refused to move them.

the council that he didn't like the attitude of the city representative who told him the sign had to be moved. He claimed having the sign was "free enterprise" and he objected to being told to move it. And, he added, his sign isn't causing any acci-

the city to get signs out of the right of way and we're trying to comply,' said Sloan. "We're not trying to hurt your business, but we have an obligation to the general populace. We don't want you to feel we're trying to cram something down your throat, because

small private donations, explained Executive Director Kim Modisett.

gets "calls from people daily and with all kinds of problems. I feel we're Thomas, though, recalled the agency was started several years ago 'when there was racial tension and it did an excellent job then."

He feels that problem has abated and "there is less and less over the years for the council to do. The Christmas in April program is divorced from the council." Not so, replied Mrs. Modisett. Christmas in April, a program to

rehabilitate houses of low income and elderly people through volunteer efforts of organizations and citizens, has applied to become a non-profit corporation. The action is only to establish CIA with a separate tax number, she explained. CIA still will be operated through the council.

This past April, 88 homes were worked on through the program, she said. "Without the council, people would have to find other means of help."

Thomas's motion to deny funds to HRC failed.

BY THE TIME Thomas got through cutting and pasting, with the advice of the council, the city wound up with a deficit of \$24,410 that will be taken out of the city's surplus. Previously, the city would have had to dip into the surplus to the tune of \$102,000.

The proposed tax rate of 45 cents took less time to approve. This is a six cent increase over the effective tax rate of 39 cents. But since the budget is about 22 percent higher than last year, the council felt it needed the 15

With Tuesday's actions, the city will be spending about \$27.7 million and taking in more than \$28 million. The extra \$1 million is going into the water and airport funds, which are self-sustaining departments of the

Mild temperatures, cloudy skies may continue through Thursday Partly cloudy to clear skies that degree reading set on that date in

graced the Permian Basin this morning will continue through Thursday, according to the National Weather Service office at Midland Regional

And temperatures will continue to be mild. Low tonight should be in the upper 60s with the high on Thursday in the lower 90s.

South and southeasterly winds will blow at 5-15 mph through Thursday.

Tuesday's high temperature was 94

degrees, far short of the record 103-

1964. Low this morning was 66, only five degrees warmer than the record low 61-degree reading established on this date in 1961.

No rainfall was recorded in the past 24 hours, when the weather bureau was contacted early today, leaving this month's total at .93 inch and this year's total at 6.01 inches.

Around the Permian Basin area this morning, communities were reporting generally fair to partly cloudy

California quakes may be indicated

PASADENA, Calif. (AP) - Scientists monitoring seismic activity in South California say test wells to measure the flow of radon gas above the earth's crust are showing signs similar to those that occurred before last year's powerful earthquake in the Imperial Valley.

Professor Don L. Anderson, director of the California Institute of Technology's Seismological Laboratory. said Tuesday he wouldn't be surprised if one or more similar earthquakes shook the region in the next

few months.
"All I'm saying is that it wouldn't

skies and warm temperatures.

surprise me if we got one or a couple naval force now shielding West Euof (Richter Scale magnitude) 5s or 51/s in the near future." Anderson said Monday, emphasizing that he wasn't predicting quakes would in fact occur.

Valley measured 6.6 on the Richter scale of ground movement. Although it didn't kill anyone, but it injured 100 people and caused millions of dollars in damage. The Richter scale is a gauge of energy released by an earthquake, as

measured by the ground motion re-

corded on a seismograph.

The Oct. 15 quake in the Imperial

They have not met since May when they were at ceremonies in Vienna commemorating the neutrality and independence of Austria.

The communique was issued after Muskie talked for two hours with Hans-Dietrich Genscher, the West German foreign minister. The meeting was scheduled before Brezhnev sent his message to Carter, West German Chancellor Helmut Schmidt and

other western leaders. Brezhnev's letter was his second major move in the arms field this summer. In early July, he told Schmidt in Moscow he no longer insisted that NATO rescind its decision to deploy American medium-range nuclear missiles before negotiations

could begin. The West did not respond to the shift, so Brezhnev suggested to Carter, Schmidt and the others that

they were stalling. Muskie rejected the contention. "I don't think it's been slow," he said. "We have to consult with our allies and make technical preparations," he told reporters at the State Department.

The negotiations would cover the

approximately 200 Soviet SS-20 missiles now targeted on West Europe and the 572 American Pershing and cruise missiles NATO decided last December to aim at Soviet soil beginning in 1983. Also on the agenda presumably

rope from Soviet attack. NATO agreed to receive American missiles only after the United States overcame concerns that the decision might set back negotiations to reduce the Soviet nuclear arsenal.

Schmidt last June counseled a

would be the U.S. nuclear air and

freeze in deployment on both sides. provoking Carter to send a critical letter objecting to a delay in the NATO missile schedule. Since then, officials said, the two leaders have resolved most of their differences on

Services for Wilbur Jackson, 68, 1407 S. Loraine St., were to be at 11 a.m. today in the Asbury Methodist Church with the Rev. Bob Neatherlin, pastor, officiating. Burial was to be in Fairview Cemetery directed by Newnie W. Ellis Funeral Home.

Jackson died Monday in a Midland hospital.

He was born April 24, 1912, in Runnels County. He was reared in Taylor County, where he farmed until 1950 when he moved to Midland. He drove a cab for several years before becoming a custodian for the Midland Independent School Distrist in 1965. He retired in 1972. He was a member of Asbury Methodist Church.

Survivors include his wife, Wanda; a daughter, Dixie Brantley of Midland; three brothers, Dewey Jackson of Midland, and R.L. Jackson and Clyde Jackson, both of Abilene; two sisters, Mae Hamilton of Sweetwater and Gladys Walker of Winters; three grandchildren and several nieces and

Bertha Harris

GRANBURY — Services for Bertha Curry Harris of Granbury and formerly of Midland were to be at 2:30 p.m. today in the First United Methodist Church of Granbury.

Mrs. Harris died Monday in a Granbury nursing home.

She was born in 1901 in McIntire. Ala. While living in Midland, she was

a member of St. Luke's United Methodist Church, the Midland Woman's Club and was a charter member of

the Senior Citizens Association.
Survivors include her husband, A. M. Harris; two daughters, Mrs. R.O. Lynch of Midland and Kathryn Smith of Burleson; two sons, Albert M. Harris Jr. and Robert E. Harris, both of Lubbock; a sister, Mrs. J.W. Worthington of Baton Rouge, La.; 12 grandchildren and 11 great-grand-

'Tony' Squires

Services for Stephen A. "Tony" Squires, 19, 305 W. Parker Ave., were to be at 2 p.m. today in Newnie W. Ellis Funeral Home chapel. Burial was to be in Resthaven Memorial Park.

Squires died Monday in a Midland hospital from injuries received in a traffic accident.

He was born Sept. 6, 1960, in Midland, where he was reared. He attended Midland High School and Austin Community College in Austin. He was a member of the First Methodist Church. He was active in Scouting, having attained the Order of the Arrow and Life Scout.

Survivors include his mother, Elichia Squires Isabell of Corpus Christi; two brothers, Troy Squires Jr. and David Squires, both of Midland; a sister, Jennifer Lynn Squires of Midland; and his grandparents, Mr. and Mrs. Don C. Wolfe of Midland.

Peggy Parr assumes duties as coordinator of volunteers

Peggy Parr recently assumed duties as coordinator of volunteers at Midland Memorial Hospital.

As coordinator of volunteers, Mrs. Parr will train new auxiliary members, work with the organization's officers and coordinate activities and schedules for the 160-member Women's Auxiliary and the smaller Junior Auxiliary.

Mrs. Parr has previously served as executive director of the Ector County Association for Retarded Citizens and as Volunteer Service Representative for the Veterans Administration Hospital in Big Spring.

She has volunteered time in the Women's Auxiliary at Medical Center, Odessa, and in the VA Hospital Auxiliary. Mrs. Parr has been a state officer in the American Legion Auxiliary and the Demolay Mothers.

Mrs. Parr has also served on the Five Year Health Plan committee of the Permian Basin Regional Planning Commission and on the evaluation committee for Ector County

Mrs. Parr attended Odessa College and Sul Ross State University, where she majored in drama and English. She is a business administration graduate of Rutherford-Metropoltian Business College in Odessa and has attended the University of Wiscon-

She has been active in community theaters for the past 23 years, both onstage and backstage.

Mrs. Parr and her husband Jack, a sales representative for American Sportsman, are the parents of five children and grandparents of four

Israel plans to build six new Jewish settlements in occupied West Bank

By The Associated Press

Israel announced today it will build six new Jewish settlements in the occupied West Bank of the Jordan River. Saudi Arabia, meanwhile, said it was a "foregone conclusion" that the United States will approve the sale of military equipment that would put Saudi fighter planes within striking range of

Israeli officials said final approval for the six new settlements came in a Cabinet meeting Sunday. Deputy Prime Minister Yigael Yadin protested against three of the settlements, slated to be built in the heavily Arab-populated West Bank mountains. The Cabinet rejected his appeal, the officials said.

The other settlements are planned for the sparsely populated Jordan Valley, where most Israelis agree the string of settlements serves as a barrier to infiltration across the nearby cease-fire line with

The settlements are among 10 Israeli Prime Minister Menachem Begin has said would complete his settlement program, boosting to 85 the total number of Jewish outposts in the territory seized from Jordan in the 1967 Mideast War.

The United States and Egypt say the settlements violate international law and are obstacles to the stalled negotiations on autonomy for the 1.2 million Palestinians living in Israeli-occupied territories. Israel rejects the argument and says settlements are essential to its defense.

In Saudi Arabia, Defense Minister Prince Sultan bin Abdul Aziz spoke confidently of the military equipment request made in June by Saudi Arabia, the world's biggest oil exporter.

"It's (a) foregone conclusion. We don't make requests to have them denied.

"We shall not allow our enemies to obstruct our requests," Aziz added in a reference to objections to

the sale by Israel and its supporters. The defense minister's statement, broadcast by the Saudi state radio of Riyadh, left unclear whether the Carter administration had possibly approved all or part of the request. There was no immediate

comment from Washington. Following Israel's formal annexation of the eastern or Arab sector of Jerusalem, Saudi Arabia called for "holy war" against the Jewish state.

The new military equipment - additional missiles, fuel tanks and bomb racks - would extend the two-way range of Saudi Arabia's 60 F-15 fighters from 450 miles to more than 1,000 miles. Theoretically, it would enable Saudi pilots to hit targets in Israel from at least two existing air bases in the northern part of the oil-rich kingdom, according to U.S.

Aziz made his statement to reporters covering an Arab interior ministers conference in the Saudi summer capital of Taif, according to the broadcast. He gave no further details.

There were these other Mideast developments: Israeli security forces demolished the West Bank home of a Palestinian accused of membership in a terror group which last year planted two deadly

Aviv, killing three people and wounding 82 others, a

military spokesman announced in Tel Aviv.

— The Netherlands and Haiti officially announced Tuesday they were moving their embassies out of disputed Jerusalem and Panamanian and Costa Rican officials said their governments had also decided to move. Chile, Uruguay, Ecuador, Venezuela and El Salvador have also said they were leaving Jerusalem following Israel's formal annexa-

bombs in the crowded Carmel outdoor market of Tel tion in July of the eastern or Arab sector. Only four countries — the Dominican Republic, Bolivia, Gua-temala and Colombia — still have embassies there.

- Egypt and Jordan said Israel would be violating international law if it digs a Mediterranean-to-Dead Sea canal through occupied Arab lands. The Israeli government gave preliminary approval Sunday to the plan under which a 50-mile canal would run four miles through the Gaza Strip, land seized from Egypt in the war.

U.S. to strengthen Sudan's military

WASHINGTON (AP) - The United States is moving to strengthen Sudan's armed forces and air defense in an effort to underscore U.S. support for what the Carter administration considers a moderate regime in the volatile Horn of Africa-Red Sea

Another aim is to help the vast but lightly populated Sudan offset the military power of two hostile neighbors, Libya and Ethiopia.

In letters to Congress, the Pentagon said it plans to sell the Sudan 80 armored troop carriers for \$1.45 million and eight 20 millimeter anti-aircraft guns for about \$9.5 million

Congress has 30 days to veto the sales, if it wishes to do so. Otherwise, they will go ahead automatical-

The new sales proposed by the Pentagon would follow by about two years the provision of 12 F-5 air defense jet fighters and defensive radar. The only other U.S. arms sales to the Sudan involved six C-130 transport planes in 1977.

The Sudan has an army of about 60,000 men and an air force of about 1,500 with 36 combat planes.

The Pentagon told Congress that the arms sales will demonstrate support for the moderate regime of President Nimeiri, who has shown a willingness to play a stabilizing role in mediating disputes in the

It added that "this display of interest in Sudan's stability will be reassuring to other moderate states in the area which are alert for signs of U.S. support and concern for such moderate regimes."

The Pentagon noted that the Sudanese governmen in the past has emphasized economic development and social improvement while supporting what was described as modest military forces for its securi-

"Significant Soviet military assistance in recent years to neighboring Libya and Ethiopia has led the Sudan government to a decision to upgrade its defense capabilities," the Pentagon told Congress.

Trains slam together injuring 60 persons

JOHANNESBURG, South Africa (AP) — An passenger train slammed into a stationary train today, injuring about 60 people, authorities said.

The trains were carrying black workers from the sprawling slum of Soweto into Johannesburg.

Meanwhile, rescue teams freed 28 cleaning men trapped for five hours in a gas-filled water pipe in

Paarl, outside Cape Town. Officials said the men were groggy but not seriously hurt.

The men had entered the pipe to do routine cleaning, when an unidentified gas — likely carbon dioxide or chlorine — entered the pipe between the men and the exit.

About eight workers managed to crawl through the gas pockets to safety and rescuers cut a hole through the pipe to reach the others, officials said.

This announcement is neither an offer to purchase nor a solicitation of an offer to sell these securities. The Offer is made solely by the Offer to Purchase and the related Letter of Transmittal and is not being made to, nor will tenders be accepted from, holders of common stock residing in any jurisdiction in which the making or acceptance thereof would not be in compliance with the securities, blue sky or other laws of such jurisdiction.

C & K PETROLEUM, INC.

\$35.00 Per Share Net

AKI OIL & GAS COMPANY A Wholly-owned Subsidiary

ALASKA INTERSTATE COMPANY

AKI Oil & Gas Company, a Delaware corporation (the "Purchaser"), which is a wholly-owned subsidiary of Alaska Interstate Company, an Alaska corporation ("Alaska Interstate"), is offering to purchase any and all shares of Common Stock, par value \$0.10 per share (the "Shares"), of C & K Petroleum, Inc., a Delaware corporation (the "Company"), at \$35.00 per Share, net to the seller in cash, upon the terms and subject to the conditions set forth in the Offer to Purchase dated August 22, 1980 and in the related Letter of Transmittal (which together constitute

The Offer is not conditioned upon any minimum number of Shares being tendered.

THE OFFER WILL EXPIRE AT 5:00 P.M., NEW YORK CITY TIME, ON FRIDAY, SEPTEMBER 26, 1980, UNLESS EXTENDED.

The Board of Directors of C & K Petroleum, Inc. has concluded that the Offer is in the best interests of the Company and its stockholders and, by the unanimous vote of all Directors present (with one Director absent), has recommended that each of the Company's stockholders accept the Offer.

The Purchaser, Alaska Interstate and three principal stockholders of the Company (Mr. C. Fred Chambers, President of the Company, Mr. William D. Kennedy, Executive Vice President of the Company, and Southwestern Life Insurance Company ("Principal Stockholders")), have executed Stock Purchase Agreements, dated as of August 16, 1980, providing, subject to certain terms and conditions, for the sale by the Principal Stockholders to the Purchaser of 1,404,579 shares, or approximately 33% of the then issued and outstanding shares of Common Stock of the Company, for \$35.00 per share.

Upon the terms and subject to the conditions of the Offer, the purchase of and payment for all Shares properly tendered and not withdrawn by 5:00 P.M.. New York City time, on September 26, 1980 will be made as soon as practicable after the later of (a) 5:00 P.M.. New York City time, on September 26, 1980 or (b) the expiration of the waiting period under Title II of the Hart-Scott-Rodino Antitrust Improvements Act of 1976. Shares will be deemed to have been accepted for payment when, as and if the Purchaser gives oral or written notice to the Depositary of such acceptance. The expiration date of the Offer may be extended by the Purchaser from time to time by oral or written notice to the Depositary of such extension.

Shares tendered pursuant to the Offer may be withdrawn at any time prior to 5:00 P.M., New York City time, on September 26, 1980, and, unless theretofore purchased by the Purchaser, may also be withdrawn after October 21, 1980. Additionally, if another tender offer for some or all of the Company's Common Stock is made, Shares not yet accepted for payment may be withdrawn on the date of, and for 10 business days after, the formal commencement of accepted for payment may be withdrawn on the date of, and for 10 business days after, the formal commencement of such other offer. To be effective, a written, telegraphic or telex notice of withdrawal must be timely received by the Depositary and must specify the name of the person having deposited Shares to be withdrawn, the number of Shares to be withdrawn and, if certificates have been delivered or otherwise identified to the Depositary or the Forwarding Agent, the name of the registered holder and the numbers of the particular certificates evidencing the Shares to be withdrawn.

The information required to be disclosed by Rule 14d-6(e)(1)(vii) of the General Rules and Regulations under the Securities Exchange Act of 1934, as amended, is contained in the Offer to Purchase and is incorporated herein

The Purchaser will not pay any fee or commission to any broker, dealer or other person in connection with the solicitation of tenders of Shares pursuant to the Offer (other than the fees payable to the Dealer Managers). The Offer to Purchase and the Letter of Transmittal, which are being mailed to stockholders of the Company,

contain important information which should be read before any decision is made with respect to the Offer. A tender may be made only by a duly executed Letter of Transmittal. Separate Letters of Transmittal are being sent to holders of the Company's 9% Convertible Subordinated Debentures due December 1, 1999, which will permit surrender of such Debentures for simultaneous conversion and

tender pursuant to the Offer. If the Offer is withdrawn or terminated, such Debentures would not be converted and would be returned to the holders. Southern National Bank, Houston, Texas, is the Depositary (and Co-Conversion Agent for the Debentures) and

Chemical Bank, New York, New York, is the Forwarding Agent in connection with the Offer.

Questions or requests for assistance or for copies of the Offer to Purchase and the Letter of Transmittal may be directed to the Dealer Managers or to the Information Agent as set forth below, and copies will be furnished promptly at the Purchaser's expense.

Search for tot continues

SANDERSON - The Department of Public Safety helicopter from Midland, a private Ozona aircraft, Border Patrol units, several Parks and Wildlife units, Sheriff's Office units from Sanderson and the DPS unit from Sanderson are continuing their search for a 21/2-year-old boy who wandered away from an oil rig near here.

According to a spokes-man for the Midland DPS, the boy wandered away about 10:30 p.m. Tuesday while his father was working on the rig about 15 miles west of Sheffield. The search is being directed by the Terrell County Sheriff's Office in Sanderson.

Trifa may be deported

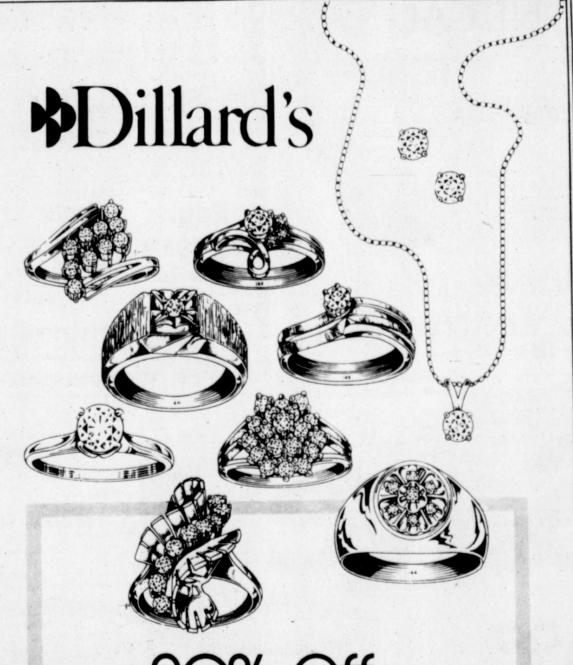

DETROIT (AP) -Justice Department officials say they'll try to deport Romanian Orthodox Archbishop Valerian Trifa, accused of taking part in the deaths of thousands of Romanian Jews during World War II, a Detroit newspaper has reported.

Trifa, who was a naturalized citizen, ended a five-year court battle Monday by surrendering his citizenship papers in Detroit. Trifa's attorney, William Swor, said his client would remain in the United States as a resident alien.

But in today's editions, the Detroit Free Press quoted an unidentified "high-ranking Justice Department official in Washington" as saying on Tuesday "we have every intention of going forward with deportation

proceedings." In 1975, the Justice Department filed suit in U.S. District Court in Detroit to have Trifa's citizenship revoked. Justice officials claimed Trifa violated U.S. law by lying about his alleged leadership in the fascist Romanian Iron Guard when he entered the U.S. in 1950 and when he obtained his citizenship in 1957. The Iron Guard is said to have been responsible for the deaths of thousands of Jews during

Vorld War II.

Rifle's safety device questioned in federal court

By ED TODD Staff Writer

The safety device on an automatic rifle came under fire Tuesday in federal court here when opposing attorneys contested the safety feature on a

deer rifle. The firearm fired accidentally when the trigger safety allegedly was in the "on" position and killed an experienced Odessa hunter in his

home on Dec. 19, 1978. Frances Smith, plaintiff in the \$6 million products liability suit against Browning Arms Co. of Morgan, Utah, is contending that a sear, a catch in a gunlock, was defective and malfucof her husband, Kenneth Louis Smith Sr., former owner of a 21-restaurant

tioned. It thereby caused the death

The rifle, a Browning .270-caliber, was in its case and fired when Smith reportedly bumped it against a wall in his house. The stock bolt on the deer rifle also was broken.

Mrs. Smith's attorneys, John Green of Odessa and Ken Goff of Ruston, La., maintain that the rifle's safety system was at fault. They brought in a San Antonio gunsmith to bolster their allegation.

"IT WAS COMPLETELY danger-

ous," the gunsmith, Frank Coleman, testified in the jury trial, which con-tinued today. "The design of the safety, coupled with the thickness of the catch," made the rifle a hazardous firearm, he contended.

The gunsmith also testified that the cross-bolt safety "doesn't block anything but the trigger. It doesn't block the firing pin.

Coleman, who has been the official gunsmith for many United States international rifle firing teams since the 1960s, said the catch on the sear on the firearm measured .007 inch, which, he said, is about "a tad thicker

represents Browning Arms Co. in the litigation, grilled Coleman, who maintained that the sear "should be notched in further." The gunsmith also referred to the phrase "moment of inertia," which Gunter found vague and asked Colemen if he knew what the term

Browning manufactured 9,200 rifles

similar to the one Smith owned, Goff

said. The rifle is designated as the

Midland attorney John Gunter, who

"I believe so," the gunsmith said. "Well," asked Gunter, "what is

ment," the gunsmith said.

Browning .270-Winchester.

UNDER QUESTIONING by Gunter, Coleman admitted that other firearms manufacturers, such as Remington, Winchester and Savage, employ the cross-bolt safety, which the Browning rifle uses. He said that

"In my opinion, it was hazardous and unacceptable," Coleman said under examination by Goff, as U.S. Coleman said that after he examined the Browning rifle, he turned it over to Browning Arms Co., which put District Judge Lucius D. Bunton prethe rifle through routine and severe sided over the trial. Coleman said he later re-examined the firearm — after Browning had placed the rifle through tests — and

testing, such as dropping, jarring, "swinging like a baseball bat" and ramming it into a post. Martin W. Kordas Jr., Browning's said the thickness of the sear then vice president and chief engineer, measured .0015 inch - more than testified that Smith's rifle underwent double his earlier measurement. "Something changed the sear engage-

impact and jar-off testing, in which the rifle was virtually destroyed. He said that the rifle failed to discharge in any of the tests. He said the rifle was "in good con

dition" when Browning received it. "It had a broken stock." The stock reportedly broke off about the time in 1978 when Smith reportedly bumped the rifle on a wall and the firearm

KORDAS maintained that the firearm was safe and was not defective. He said the sear's thickness measured .0018 inch and was within Browning's specifications.

Kordas said that the firearm's safety is designed for normal use in the hunting world and this could include the firearm being dropped in the field or banged around in a canoe. He said that the firearm was not designed to be abused.

Under cross-examination by Goff, Kordas said that Smith's rifle should not have been loaded at the time it was in the case at his home. But Goff

said that wasn't the point. "Would you consider a gun to be hazardous if it did fire" when the

safety was on? asked Goff. "It would be defective if it fired under normal handling circumstances," Kordas allowed.

Goff again focused on the safety device. "Have you ever relied on a safety to

protect you when you dropped the gun?" he asked. "Yes," replied Kordas.

"Thank goodness for the safety," commented Goff.

...When it didn't discharge," added Kordas.

\$2,000 in firearms recovered; 22-year-old Midlander arrested

Midland police early this morning arrested a 22-year-old Midland man and recovered \$2,084.65 in stolen firearms after an early morning burglary

at a Midland pawn shop. Officers Al Grindstaff and D. Dempsey were dispatched to the Gold Star Pawn Shop, 3414 Thomason Drive, at 4:35 a.m. today after Apertex Alarm Service notified police of a possible burglary at the shop.

When the officers arrived, according to reports, Grindstaff remained in front of the building and Dempsey went around to the back. Grindstaff noticed someone on the roof of the building, notified Dempsey, called for additional units and then, using the PA system on the patrol car, ordered the person to come down off the

The man went to the back of the building and surrendered to Demp-

On the room of the pawn shop, police found two Ruger .357-caliber revolver with holster, a R.G. .32-caliber revolver, Smith and Wesson Model 13 .357-caliber revolver, Ruger Black Hawk .357, Ruger Security Six .375, Taurus .38, a Smith and Wesson top break .38, a Dan Wesson .357 and a Smith and Wesson Model 19 with

residential burglary. Mrs. J.R. Gunce, 3305 B Moss Court, told police someone entered her family's unlocked garage between 7 a.m. Aug. 19 and 3 p.m. Aug. 21. Taken were two tool boxes with assorted tools valued at \$3,000.

Someone also had tried to force open the kitchen door but failed. Midland County Sheriff's deputies are investigating the reported armed robbery of a Carlsbad, N.M., man late.

Tuesday night. The robbery was first reported to police but was turned over to the Sheriff's Department since it occurred in the county. A Sheriff's Office spokesman this morning said the robbery occurred about 9:37 p.m. on State Highway 158 about five miles out of the city. The man claimed he had just cashed his paycheck and that a friend of his, also from Carlsbad, had stolen it. Details were unavail-

able this morning. A traffic accident Tuesday night resulted in injuries to a Midland woman and child, both passengers

in one of the vehicles. According to reports, Imelda Villasenior Costilla, 1300 S. Pratt St., was northbound on Midkiff Road. Lillian Elizabeth Butler, 2809 Mariana Ave., was southbound on Midkiff. The two

for fall swimming classes

Alamo YMCA will be registering age children may participate.

 The Environmental Protection Agency, in a move expected to save U.S. automakers as much as \$350 million annually, has abandoned a new auto emission control requirement that was due to take effect next year.

The EPA said Tuesday that "considering the financially troubled condition of the automotive industry," it has decided to drop a requirement that 1982 autos meet tougher exhaust standards governing misadjusted carburetors. Last year, the EPA

proposed making cars meet exhaust clean-up standards at all possible idle-speed settings of the carburetor instead of the current rule which requires the exhaust emis-Fire forces closings

In deciding to stay with the current standard, the EPA said it felt that the miniscule saving in pollution emissions did not justify the cost. "EPA has decided that

it is in the nation's best interest to delete this requirement until such time that surveillance data might demonstrate that maladjustment of idle speed has a more significant effect," EPA Deputy Administrator Michael P. Walsh said in announcing the decision.

The EPA action came after President Carter asked the agency in July to review its auto regulations in an effort to loosen restrictions, if the actions did not result in significant environmental sions to be checked only harm. LABOR DAY

Texas House Speaker Billy Clayton, who is facing extortion, conspiracy, racketeering and fraud charges, greets a supporter at an ice cream social held for him Tuesday by Dimmit residents. Clayton flew to his hometown at the close of a pretrial hearing in Houston Tuesday. (AP Laserphoto)

Clayton tells hometown crowd he's eager to prove innocence

DIMMITT, Texas (AP) - House Speaker Billy Clayton said he is eager for the chance to prove his innocence in an upcoming September trial on his alleged involvement in the "briberylabor" scheme.

Speaking Tuesday night as guest of honor at a reception 25 miles from his birthplace in Springlake, Clayton said he was "totally pleased" with the Sept. 8 trial date set on his alleged involvement in the Brilab investiga-

He told the crowd of 200 he has "really seen a new side of life" during pretrial hearings in the Texas Brilab investigation.

Clayton said he wanted to "prove" he was not guilty of accepting bribes for political favors. He said dismissal

of the charges against him would have been disastrous for his political

"We're confident we'll be vindicat- LABOR DAY ed because we know we did no wrong," he said. "We're going to win this battle and in doing so I believe we're also going to retain the speakership which will enable us to serve this

area better." Clayton needed do to little persuading, however, since organizers arranged the gathering to show support for the former hometown boy.

"We want you to know we are your friends and neighbors, Bill, and we want tesented all kinds in my career as a defense attorney," Minton said. "But I have never met a man like Bill Clayton...."

Senate probing allegations Billy got other payments

WASHINGTON (AP) interview. are trying to find out whether Billy Carter got more than \$220y

"It could be something or it could be nothing, Lugar said.

A second senator on the subcommittee, who asked not to be identified, said "the evidence warrants investigation."

Both senators said one of the allegations was alluded to by several committee members who asked Billy Carter at a public hearing last week whether he ever received money from Goldkist Inc., an Atlanta-based farmers' cooperative.

The president's brother replied that he did not, except for his share of payments Goldkist makes to a Carter family trust for leasing the Carter warehouse. He said the only Libyan money he received was \$220,000 in loans.

Lugar and the other senator said the allegation is that some of the Goldkist money paid to Billy Carter may have originated in Libya.

There is no truth to that statement," company spokesman Donald W. Sands said in a telephone

no sales by the company grand jury investigating to Libya, and he added that the lease payments on the Carter warehouse are made to Atlanta lawyer Charles Kirbo, who oversees the trust, not to Billy Carter.

Lugar refused to give any details on the second allegation, but the other senator said the two accusations are related.

Meanwhile, Libyan Foreign Minister Ali Abdosalam Treiki, in an interview in Tripoli, defended the loan to Billy Carter as "our full

Treiki said Libya originally was put in contact with Billy Carter through Georgia state senators. The president's brother visited Libya with a delegation of Georgians in September 1978 and made a second trip in

"If a man asked for a legal loan from a country, what is the problem?" Treiki asked, adding: "Billy Carter is one of millions of Americans aware that their government is involved in a cause against the interests of the American people.

In another development, Billy Carter was

questioned for two hours — Senate investigators Sands said he knows of Tuesday by a New York fugitive financier Rober Vesco's dealings with Libya and Libya's effort to get delivery of eight C-130 cargo planes it pur-chased from the United States "I answered all the

questions truthfully," the president's brother said as he left.

First Abscam defendant testifies

NEW YORK (AP) — Pennsylvania Rep. Michael Myers, a defendant in the nation's first Abscam trial, has testified in court that he spent his \$15,000 share of an Abscam payment on his children's tuition and new fur-

nishings for his house. The defense in the bribery-conspiracy trial in U.S. District Court in Brooklyn was continuing its case today. Testimony was expected from one or more FBI agents and from an electronic expert on gaps in the audio and videotapes made during the undercover operation.

Defense attorneys said they could rest their case by Thursday.

Judge rules wiretaps may be used in Clayton's Brilab trial

HOUSTON (AP)- After seven days of pretrial hearings, a federal judge has ruled that FBI undercover wiretaps may be used as evidence in the Brilab trial of Texas House Speaker Billy Clayton and three other people. U.S. District Judge Robert O'Conor on Tuesday rejected a defense request that the telephone wiretaps be banned from the Sept. 8 trial of Clayton and Austin attorneys Randall Wood and Donald W. Ray.

Labor leader L.G. Moore is to be tried at a later date. The four are accused of extortion, racketeering, fraud and conspiracy in

an alleged insurance kickback scheme. Clayton, the House speaker for three terms, is accused of taking a \$5,000 downpayment on a \$600,000 bribe to help get the state to change

its \$76-million-a-year employee insurance coverage. Clayton said he received the money from Moore but thought it was a campaign contribution and planned to return it.

Many of the tapes at issue in Tuesday's decision involved conversations between Moore and Joseph Hauser, an FBI informant who served as a consultant to a fictitious insurance office operated by federal agents in Beverly Hills, Calif.

O'Conor granted a request that Moore be given a separate trial because the Deer Park, Texas, labor official will testify in behalf of Clay-

Defense attorneys argued that the FBI had not, as required by federal law, exhausted normal investigative procedures in the Brilab, or briberylabor, case before using wiretaps on Moore's home and business tele-

Agent Stephen Holbrook said the wiretaps were needed "to keep track of racketeering enterprises.'

Myers, D-Pa., who took the stand Monday in U.S. District Court in Brooklyn as the first defense witness, completed his testimony Tuesday

after repeating his contention that he broke no laws. The congressmen is accused along with Philadelphia City Councilman Louis Johanson; Camden, N.J., Mayor Angelo Errichetti; and Philadelphia attorney Howard Criden of sharing \$50,000 in return for Myers' alleged promise

to help a fictitious Arab sheik in immigration matters. During the FBI investigation, which came to be known as Abscam, federal undercover agents posed as wealthy Middle Eastern businessmen

who were willing to pay money in exchange for political favors.

Myers testified how he spent his \$15,000 within weeks of receiving it

According to the congressman, about \$2,550 went to pay for his children's tuition at a private academy, \$1,000 to repay a loan from his father, \$500 as a loan to his sister, \$1,000 for a freezer, a trash compactor and other home furnishings and \$2,000 for building supplies for his hunting club.

Myers was asked about the remainder of the cash, about \$8,000. "I just

spent it. I bought my kids all sorts of stuff. It's not hard to go through Outside the courtroom, Myers said he was "relieved. I got my opportuni-

During his testimony, Myers said he never intended to introduce any ty to tell my story. private immigration bill or take any other official action on behalf of the

phony sheik or his representatives, who were actually FBI agents. "At no time did I believe what I had done was improper," said Myers, saying he was just "blowing smoke" when he told the sheik's representatives he was willing to introduce a private bill.

"I never had any intention of introducing any immigration bill...and I also knew that that possibility did not even exist," Myers said, contending he had been previously assured the sheik had guaranteed arrangements in South America.

In other testimony Tuesday, Joseph DiLorenzo, 24, Errichetti's nephew and driver, said that on four occasions he purchased and delivered expensive gifts to Mel Weinberg, the convicted con man and undercover FBI informer identified as the inventor of Abscam.

DiLorenzo related that in the first half of 1979, he delivered to Weinberg as gifts for the sheik or his workers a microwave oven, a Betamax home television recording system, a \$1,200 stereo component and three color

Defense attorneys contend that while Weinberg was conning their clients for the FBI he was conducting his own personal scam.

Bush will address state convention

AUSTIN, Texas (AP) — George Bush, Republican vice presidential nominee, heads a long list of prominent speakers for the State Republican Convention in San Antonio Sept. 5-6, says State GOP Chairman Chester Upham.

Bush will make the main speech Saturday morning, Sept. 6.
Other major speakers include Gov. Bill Clements, the convention keynoter; National GOP Chairman Bill Brock., Sen. Orrin G. Hatch of Utah, Rep. Guy Vander Jagt of Michigan, Sen. John Tower of Texas and former Gov. John B. Connally.

Upham said the convention also would take part Sept. 6 at noon in an hourlong nationwide program sponsored by the Ronald Reagan-Bush campaign to gather volunteer support for the campaign.

The convention proper begins Friday afternoon and continues through

Hearings on the state party platform will begin Sept. 2 with Ray Barnhart, Pasadena, as chairman of the convention committee.

GLAD TRASH

GOP plans \$4.3 million in TV ads

WASHINGTON (AP) — Republican officials announced plans today to spend \$4.3 million until Election Day on new television commercials urging Americans to elect GOP candidates to Congress

GOP National Chairman Bill Brock told a news conference the fall television campaign was prompted by the apparent success of an earlier round of commercials that have been aired since last winter.

Like those earlier commercials, the new series of four commercials will focus on the Democrats' 25-year control of the House and Senate and urge viewers to "vote Republican — for a change."

The ads will stress high unemploy-

ment and inflation rates, and suggest that both are the fault of Democrats in Congress.

The new ads will bring the total GOP expenditure on media advertising this year to well over \$8 million—a dramatic increase from the \$1 million spent for similar advertising in 1978

In one of the commercials, which were previewed today for reporters, an unemployed factory worker — James Wilders of Baltimore — appears in his shut-down plant.

"I used to work here, along with a lot of people," he says. "Nearly a year ago they closed the plant for good. ... So we've got just one question. If the Democrats are good for working people how come so many people aren't working?"

Brock said the ads stress unemployment because it will be "the single most important issue of this fall campaign."

GOP officials believe they have the best chance in years to pick up gains in congressional elections, despite the nearly 3-2 lead Democrats enjoy in the House and their 59-41 margin in the Senate.

Still, the Republican spokesmen at today's news conference stopped short of predicting a GOP takeover of either chamber.

Sen. John Heinz, R-Pa., chairman of the GOP Senatorial Committee, said that while things were looking

KITCHEN BAGS CT.

better for Republicans, a pickup of three to six Senate seats — instead of the 10 needed for control — appears "the most probable."

And Rep. Guy Vander Jagt, R-Mich., chairman of the counterpart House Republican unit, would only predict a gain somewhat in excess of the 17 seats Republicans picked up in the House in 1978.

The new commercials will run on network television through the second week in September, and will be repeated in selected broadcast markets for the next several weeks. They will return to prime-time network spots for the two weeks before the Nov. 4 elections, when the president will be

Stock market loses

NEW YORK (AP) - Stock prices fluctuated in a narrow range Tuesday and closed with modest losses as interest rates rose and President Carter told congressional leaders of his new economic

The Dow Jones average of 30 industrial stocks slipped 2.82 to 953.41 as declines out-numbered advances by an 8-7 margin among New York Stock Exchange issues. Chase Manhattan Bank

raised its prime lending rate to 11.5 percent from 11.25 percent, and was joined at the higher rate by a number of other major banks. That move came amid speculation the Federal Re-

serve will tighten credit to slow the growth of the

money supply and one day after the rate on six-month Treasury bills rose to a fourmonth high of 10.25 percent. President Carter was reported to have told the congressmen that his new plan, to be unveiled Thursday, will focus on corporate and individual tax cuts and will also boost the maximum time an individual can collect unem-

ployment benefits. Stock prices were up for most of the day, but wea-kened in the final hour of trading to finish with losses.

Big Board volume climbed to 41.70 million shares, up from 35.40 million the previous day. The NYSE's composite index dopped .17 to

Standard & Poor's index of 400 industrial stocks fell .39 to !11.87 and S&P's composite index of 500 stocks was down .32 to 124.84.

At the American Stock Exchange, the market value index fell .23 to 331.25. Canadian oil stocks were weak, with Houston Oil down % to 35 and Gulf Canada off % to 261/4. Hudson's Bay Oil announced it was abandoning a well off Prince Edward Island and slipped 1/2 to 31 1/4.

In the over-the-counter market, the NASDAQ composite index gained .81 to 182.39.

Livestock

AMARILLO, Texas (AP) — Texas Panhandle and western Oklahoma feedlot roundup. Confirmed:

Trade active in the Panhandle area Trade active in the Panhandle area Tuesday. Slaughter steers and helfers steady to firm. Feedlots reported good interest from buying sources. Several buyers still in the yards late. Sales on 9,300 slaughter steers and 7,100 helfers. Note: all live cattle prices based on net weights fob the feedlot after four percent shrink. Slaughter steers: good and mostly choice 2-3, 70-85 choice, 1000-1200 lb. 71.50-72.00; mixed good and choice 2-3, 1025-1200 lb. 70.50-71.50. Slaughter helfers: good and mostly choice 2-3, 875-1000 lb. 67.50-88.00; mixed good and choice 2-4, 1000-1050 lb. helferettes. 64.00-66.00.

ettes, 84,00-86,00.

BUSINESS MIRROR Politics flirts with inflation, then accepts it

AP Business Analyst

NEW YORK (AP) - Politics and economics are like a couple who cannot live apart, and cannot live together without constantly fighting.

Conflict and contradiction cement their union. Rare moments of mutual interest and cooperation erode into verbal violence. And promises to "make it work this time" remain just promises and nothing

Do you remember economic fine tuning? Do you recall how in the early 1960s economists and politi-cians announced they had learned to tame the economy, to train it to do their bidding, to produce what they wanted? It was as if genetic experimenters had developed a

new cow that forever more would provide all the milk mankind could want, and do it with the happy disposition of Elsie, the old Borden bovine. Fine tuning was supposed to allow the nation to

force its economy to the limit — to provide maximum production and maximum jobs while skirting the edge of inflation. The only trouble was it didn't

It didn't work because, as we learned, you cannot constantly flirt with inflation without falling for it, especially if you are a politician seeking election and feel more spending means more votes. Some economists still say the reason fine tuning

failed, and inflation ensued, wasn't because the economics were misunderstood but because the politicians weren't tamed. Politicians who believed in

In the late 1960s, President Lyndon Johnson proclaimed his belief that the country could fight a limited war in Vietnam and serve Americans too. They could have guns and butter too. But not fine tuning as well.

Nevertheless, a nostalgia for fine tuning resulted next in concepts of "full employment," which some advocates put at less than 4 percent.

Four percent unemployment thus became a goal, for a while. Then 5. And now nobody knows what should be called full employment, that is, the mini-mum unemployment rate that can be supported without inflation.

You don't hear about these notions today, but others have taken their place. Remember budget balancing? Why how could you forget when it was only weeks ago that President Carter said he was balancing the budget. The announcement, of course, was all there was to it. Nothing more.

As the country faces another deficit of \$50 billion a year, or roughly the same as the 1980 fiscal year deficit, as voters complain that living standards are falling, as industry is threatened with collapse, a new catchword is circulating. It is reindustrializa-

Reindustrialization, as interpreted by politicians, seems to be little more than an awareness that, having violated economic sense for years, we must now get back to producing something other than inflation and taxes. Such as cars and steel and other

goods at competitive prices. Economists and politicians have that old-time zeal. This time, they seem to say, we will make it work. "We need each other," they promise. "We must work together for the country

again. You need not be cynical to wish them well and hold your doubts, to wonder when the smiles will turn ' frowns, to speculate about who will violate the v to wonder when they'll just forget the whole

Military recruiting reported increasing

WASHINGTON (AP) - Three of the four branches of the military recruited more people in the first nine months of fiscal 1980 than they expected to, the Pentagon says. Only the Marines fell below their

The increases follow a poor recruiting year in 1979, according to Pentagon figures released Monday. But the percentage of enlistees who are high school graduates declined in the Army, Navy and Air Force while the Marines saw an increase in the propor-

tion of volunteers with diplomas. The high school diploma is a key indice of quality, with Pentagon manpower experts saying high school grads are more reliable than recruits who dropped

The Army enrolled 118,300 men and women in the nine month period, 101 percent of its objective. The Navy also hit 101 percent with 69,500 volunteers. The Air Force recruited 52,600 persons, or 102 percent. The Marines scored 94 percent of their objective

with 28,200 enlistments. As for high school graduates, the Army said only 45 percent of its recruits had diplomas, compared to 62 percent from the same period the year earlier.

The Navy's high school graduate slice slipped

from 73 percent in 1979 to 68 percent in fiscal 1980. The Air Force fell only one percent, from 81 to 80. The Marines, on the other hand, reported a four percent increase in high school graduates to a new level of 71 percent.

Livestock auction report

The Southwestern Livestock Auction Co. ran through 1,162 head of cattle in a market that was steady to \$1.50 lower on some classes of cattle. Packer cows were \$2 to \$3 lower. Packer bulls were steady. Cow-and-calf pairs were \$25 to \$50 lower per pair. Breed cows were steady to \$20 lower.

Steers weighing 600 to 700 pounds were auctioned for \$71.50 to \$72.50 per hundredweight; 500 to 600 pounds, \$72.50 to \$74; 400 to 500 pounds, \$74 to \$77.50; 300 to 400 pounds, \$77.50 to \$82.50; under 300 pounds, \$82.50 to \$105 per hundredweight. Heifers weighing 600 to 700 pounds were sold for \$63

to \$64 per hundredweight; 500 to 600 pounds, \$64 to \$66; 400 to 500 pounds, \$66 to \$68; 300 to 400 pounds, \$68 to \$70; under 300 pounds, \$68 to \$85 per

Cows utility were sold for \$46.50 to \$47.50 per hundredweight. Canners and cutters went for \$36.50 to \$39 per

hundredweight.

Bulls yield Grades 1 and 2 were auctioned for \$55 to \$59.50 per hundredweight.

Breed cows went for \$48.50 to \$52.50 per hundred-Cow-and-calf pairs were sold for \$550 to \$625 per

HNG completes five wells in Sutton

HNG Oil Co., operating from Midland, has completed five wells in the Sawyer multipay field of Sutton Coun-

No. 1-52 Wade is a 1%-mile north extension to Canyon gas production in the Sawyer field, 21 miles southeast of Sonora.

Operator reported the well finaled for a calculated absolute open flow of 3,015,000 cubic feet of gas per day, through perforations from 2,933 to 2,936 feet, which had been fractured with 20,000 gallons.

The location is 933 feet from south and 1,133 feet from east lines of section 52, block 7, TW&NG survey.

No. 1-53 Wade is a one-mile north extension to the Sawyer (Canyon) field, and was finaled for a calculated absolute open flow of 585,000 cubic feet of gas per day, through prforations from 2,859 to 3,120 feet.

The pay was fractured with 20,000 Wellsite is 933 feet from north and

from east lines of section 53, block 7, TW&NG survey, 21 miles southeast of

HNG Oil Co. finaled the sixth producer in the Sawyer (Leonard gas) field of Sutton County.

No. 1-139 Bloodworth potentialed for a calculated absolute open flow of 4,125,000 cubic feet of gas per day, through perforations from 1,721 to 1,750 feet, which had been acidized with 2,000 gallons.

Production site is 1,033 feet from south and 2,000 feet from east lines of section 139, block B, HE&WT survey, seven miles west of Sonora.

No. 4-139 is the seventh producer in the Sawyer (Leonard gas) field of

Sutton County It finaled for a calculated absolute open flow of 1,810,000 cubic feet of gas per day, through perforations from 1,654 to 1,755 feet, which had been acidized with 2,000 gallons.

The location is 2,310 feet from south and 330 feet from west lines of section 139, block B, HE&WT survey, seven

miles west of Sonora.

No. 5-139 Bloodworth finaled for a calculated absolute open flow of 3,390,-000 cubic feet of gas per day, through perforations afrom 1,693 to 1,717 feet. which had been acidized with 2,000 gallons

It is the eighth producer in the Sawyer (Leonard gas) field of Sutton County, and is 1,650 feet from south and from west lines of section 139, block B, HE&WT survey, seven miles west of Sonora.

COKE EXPLORER

Stroube & Reiff, operating from Abilene, will drill a 6,200- foot wildcat in Coke County, two miles west of

Silver. No. 1 Ellwood is 1,980 feet from southwest and 660 feet from southeast lines of section 13, block 15, SPRR survey.

SCHLEICHER WILDCAT

Ike Lovelady Inc. No. 1 Reynolds, ia a 5,500-foot wildcat scheduled in Schleicher County.

Location is 2,173 feet from north and from east lines of section 68, block I, GH&SA survey, 15 miles northeast of Eldorado.

The operator is located in Midland.

SUTTON PROJECTS

HNG Oil Co. of Midland will drill No. 4 Vanderstucken, a wildcat in Sutton County, nine miles southeast of

Location is 2,300 feet from north and 2,800 feet from east lines of section 53, block C, HE&WT survey Tom Brown Inc. of Midland is con-

tracted to drill the 7,100-foot test.

Anderson Petroleum Inc. will drill No.4-102 Pauline Friess "B" in the one-well Sawyer (Canyon) field of Sutton County.

The project is 2,240 feet from south and 2,500 feet from west lines of section 102, block 14, TW&NG survey, 15 miles southeast of Sonora.

IRION ATTEMPT

Cothran & Smith will re-enter No. 2 Rice and drill deeper to 1,000 feet, to attempt to reopen the Wright-Feather, West field in Irion County

Location is 860 feet from north and 1,127 feet from east lines of T. Rutledge survey No. 4, 10 miles northeast of Mertzon

The field formerly produced from

RUNNELS PROJECTS

E.B. Fletcher will drill two 4,900foot wildcats in Runnels County, both

three miles south of Wilmeth. No. 6-390 Gideon-McNeil is 550 feet from north and 1,400 feet from west lines of section 1, John L. Lynch

survey No. 442. Safari Drilling Co., Abilene, is the contractor. ****

No. 5-390 Gideon McNeil is 1,350 feet from north and 1,900 feet from west lines of section 1, John L. Lynch survey No 442.

Safari Drilling Co., Abilene, is the contractor.

No. 1 Russell is a 4,000-foot wildcat in Runnels County, to be drilled by Seago Oil Inc. of Abilene.

A southwest twin to the depleted opener and one-half mile north of the current lone producer of the Clarkirk (Cross Cut oil) field, it is 1,844 feet north of the northeast corner of Martin Demmer survey No. 420, and along the east line of Charles Osgood survey No. 365, abstract 392, then 660 feet west to location, two miles north of Ballinger.

South Ranch Oil Co., Tulsa, completed No. 1 W.D. Bales, originally scheduled by Texlark Exploration Co. of Dallas, as the sixth producer in the Ballinger (Palo Pinto) field of Run-

The well pumped 20.88 barrels of 44.6-gravity oil and 5.43 barrels of water, through perforations from 4,-074 to 4,084 feet, which had been acidized with 2,500 gallons. The gas-oil ratio is 1,676-1.

Wellsite is 700 feet from the most northerly east line and 1,400 feet from north lines of J.J. Eakin survey No. 526, abstract 141.

Wil-Mc Oil Corp. of Dallas will re-enter No. 5-A J.F. Lott, and attempt completion at 5,400 feet in the twowell Coulter (Spraberry) field of Garza County.

gravity oil and 61 barrels of water

through perforations fom 6,912 to 7,-

The pay was topped at 6,744 feet.

A northwest offset to the field, it is 467 feet from south and 2,173 feet from east lines of section 17, block 30, T-7-N, J.V. Massey survey, abstract 391, 11 miles southwest of

The Coulter (Spraberry) produces from 5,296 feet.

YOAKUM TEST

Oklahoma Oil Co., operating from Dallas, will re-enter No. 1 George Cleveland, and attempt to re-open the San Andres pay in the Platang field of Yoakum county, which formerly produced at 5,137 feet.

Location is 660 feet fom south and from east lines of section 601, block D, John H. Gibson survey, nine miles southwest of Plains.

Workover depth is 5,300 feet.

IRION DISCOVERY Belco Petroleum Corp. of Midland

has completed a Fusselman oil discovery 11 miles north of Barnhart in Irion County. Operator reported No. 1154 Sugg

pumped 59 barrels of 48-gravity oil and 156 barrels of water, through perforations from 9,092 to 9,102 feet, which had been acidized with 2,000 gallons.

The gas-oil ration was 2,153-1. Scheduled as a wildcat and as a confirmer to the Ellenburger oil area

of the Sugg field, it was drilled to 9,302 feet, and plugged back to 9,270 feet, with 5½-inch casing set at 6,308 feet. Wellsite is 1,980 feet fom south and

block 14, H&TC survey.

SUTTON WILDCAT William Perlman of Houston will drill No. 1-34 Lea Allison, a 6,000-foot wildcat in Sutton, 15 miles east of

660 feet from west lines of section 115,

Location is 660 feet from north and 3,120 feet from west lines of section 34, block B, HE&WT survey.

It is 11/2 miles southeast of the Karie (Wolfcamp 2200 gas) field.

EDDY COUNTY, N.M.

The Superior Oil Co., Conroe, will drill two wildcats in Eddy County. No. 1 Sotol-Federal is 1,980 feet from north and from west lines of section 12-24s-31e, 20 miles east of

Malaga. Contract depth is 17,000 feet.

No. 1-11 Meander-Federal is 1,980 feet from south and 660 feet from east lines of section 11-25s-25e, three miles south of White City.

Contract depth is 11,650 feet.**** Gulf Oil Corp., Hobbs, N.M., has staked location for No. 4 Marquardt-Federal, a 9,800-foot undesignated Wolfcamp test in Eddy County.

Location is 760 feet from south and 1,980 feet from west lines of section 1-25s-26e, eight miles east of White

Perry R. Bass of Midland will drill No. 70 Big Eddy Unit in the Indian

Flats field of Eddy County.
Drillsite is 660 feet from north and 1,980 feet from east lines of section 26-21s-28e, nine miles northeast of Loving.

Contract depth is 13,000 feet.

Tear gas grenades fired to break trawlers blockade

PARIS (AP) - Police aboard French Navy tugboats fired tear gas grenades to break a blockade by fishing trawlers today at the Mediterranean oil port of Fos-sur-Mer near Marseille. Four fishermen were slightly

The fishermen hurled rocks and bolts at the tugs before withdrawing to their home port after the encounter. Ships began leaving the harbor at

A statement issued by the provincial government denied that "offensive grenades" had been used against the fishermen, one of whom was hospitalized with a broken nose and

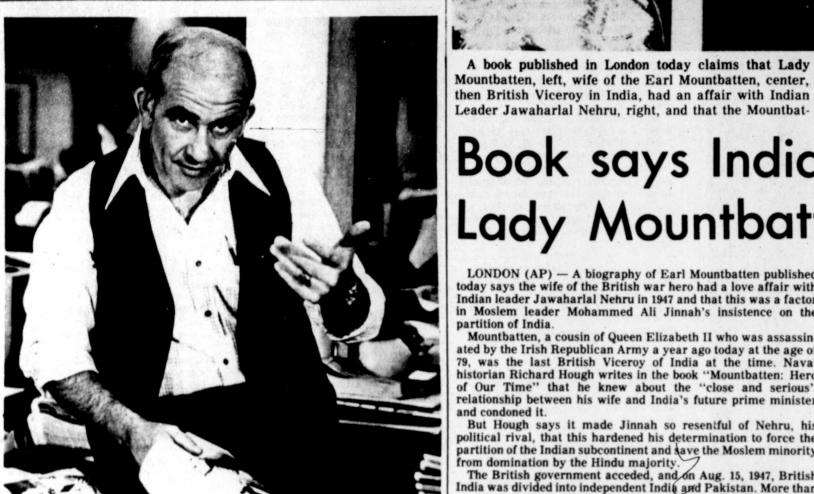

The action at Fos-sur-Mer was the

third time in the 15-day-old-fishermen's strike the government used the navy to break barricades at the oil port. It followed a similar operation Tuesday at Antifer on the English Channel

President Valery Giscard d'Estaing was expected to discuss the strike in a meeting scheduled later in the day with members of his Cabinet.

Meanwhile, traffic at the channel port of Le Havre was reported normal after harbor authorities removed buoys, cables and other obstacles the fisherman had placed in the water during the night to hinder opera-

The blockade remained in effect at Calais, Boulogne and part of the Dun-

tens' relationship with Nehru made his political rival Moslem leader Mohammed Ali Jinnah so resentful that Jinnah demanded partition of India. (AP Laserphoto)

Leader Jawaharlal Nehru, right, and that the Mountbat-Book says Indian leader was Lady Mountbatten's lover

LONDON (AP) — A biography of Earl Mountbatten published today says the wife of the British war hero had a love affair with Indian leader Jawaharlal Nehru in 1947 and that this was a factor in Moslem leader Mohammed Ali Jinnah's insistence on the

Mountbatten, a cousin of Queen Elizabeth II who was assassinated by the Irish Republican Army a year ago today at the age of 79, was the last British Viceroy of India at the time. Naval historian Richard Hough writes in the book "Mountbatten: Hero of Our Time" that he knew about the "close and serious" relationship between his wife and India's future prime minister

and condoned it. But Hough says it made Jinnah so resentful of Nehru, his political rival, that this hardened his determination to force the partition of the Indian subcontinent and save the Moslem minority

from domination by the Hindu majority.

The British government acceded, and on Aug. 15, 1947, British India was divided into independent India and Pakistan. More than 2 million persons were killed in the communal massacres that

Jinnah died in 1948, Nehru in 1964 and Lady Mountbatten in

She was heiress Edwina Ashley, who inherited 7 million pounds - or about \$330 million in today's currency - from her grandfather, banker Sir Ernest Cassel. Hough, a close friend of Mountbatten who taped many hours of conversations with him for the book, writes that she had several extra-marital affairs and that they started shortly after her marriage to the Royal Navy officer and great-grandson of Queen Victoria.

Her lovers included the popular black singer-pianist Leslie Hutchinson, who as "Hutch" was a favorite of London socialites before World War II, Hough reported. He recalled also that the Mountbattens sued a newspaper because it alleged she had an affair with black American singer Paul Robeson, and he said there was gossip about her and the Earl of Sefton.

"There were periods in the Mountbatten marriage when both were miserable and the misery always stemmed from her

affairs," Hough wrote 'Perhaps Mountbatten should have accepted that Edwina rich, emotional and physically volatile, often alone in London, easily bored and with a range of friends as wide as the Mediterranean - was likely to have affairs.

"Perhaps he preferred the sailor's licence of the blind eye even to himself. When he could no longer ignore what was going on, it hit him very hard."

Hough quotes Mountbatten as saying: "I was terribly upset and found it hard to believe. I had never looked at anyone. It was an

But Hough adds: "He liked hearing about the infidelities of his friends and, much later, when he was reconciled to the fact, even liked to hear about Edwina's and was proud of them. Her powerful sexuality fascinated him, no less because he was unable wholly to

3,000 evacuate hotel-casino, workers trying to defuse bomb

STATELINE, Nev. (AP) - Nevada Gov. Robert List today appealed for further word from an extortionist who planted a mysterious homemade bomb at a glittering highway casino and reportedly threatened to "bring the hotel down" unless officials come up with \$3 million and a helicopter.

Frustrated authorities worked until 4 a.m. trying to figure out how to defuse the device, described by its makers as containing 1,000 pounds of TNT, which routed 3,000 people from Harvey's Resort Hotel-Casino on Tuesday. They said they would try again

later in the day. Earlier, List issued a plea to whoever planted the bomb to contact authorities with further instructions. List did not say whether the "instructions" referred to defusing the bomb or how to make the payoff demanded in the note.

Experts from the Army, the FBI and the Nuclear Regulatory Commission wrestled all day Tuesday with the problem of how to handle the bomb, which one source said was in a box on wheels and ap-

parently sensitive to tilting. Representatives of the NRC were there "simply as a friendship gesture," Douglas County Sheriff Jerry Maple said. In Las Vegas, a spokesman for the U.S. Department of Energy said the two NRC officials went to Stateline strictly as observers.

A three-page extortion note left with the bomb in a casino office said it contained 1,000 pounds of TNT. Maple said today the bomb contained no timer, and that no deadline had been set by the extortion-

In a cryptic statement issued from a command post near the closed-down hotel and casino, List said the hotel "is making a request that the person providing instructions make contact again to provide a clarification message."

The neon lights at Harvey's were dark, the slot machines and gaming tables vacant after authorities ordered about 3,000 people to leave when the bomb was discovered early Tuesday.

Across the street, officials at Harrah's boarded up windows and closed some gaming areas, and police barricaded four blocks of U.S. 50 near the casino, which lies in the heart of the Stateline resort area 40 miles south of Reno. A Harvey's security guard, who asked not to be

identified, said the typewritten letter left with the bomb demanded \$3 million and a helicoptE exchange for details on how to disarm the device. The letter described the bomb would detonate if improperly handled, the security guard said. "It will bring the hotel down if demands are not

met," the guard quoted the note as saying. But authorities, who have been tight-lipped about the bomb since it was found at 6 a

m. Tuesday, refused to confirm the report. Maple declined to discuss any4-ils of the letter. "There's an explosive device," the sheriff said. "I

anything else." The San Francisco Chronicle reported today that sources said the bomb was elevated on blocks in a was described as big large box with wheels on the bottom, and that it

appeared to be sensitive even to tilting. Several casinos near Harvey's were packed with patrons Tuesday night, although traffic on U.S. 50 was rerouted at the Nevada-California state line. Police in South Lake Tahoe, just inside California, warned patrons at about a dozen motels about the

potential danger. Human rights dissident goes on trial in Moscow

MOSCOW (AP) - Tatyana Velikanova, one of the founders and an active participant in the Soviet human rights movement, went on trial in Moscow today, the second major dissident to go on trial

within a week. Mrs. Velikanova, a 47-year-old former mathematician and computer programmer, was arrested last Nov. 1, the same day authorities seized Father Gleb Yakunin, whose trial across town from the courtroom where Mrs. Velikanova's is being held is in its third day. The dissident Russian Orthodox priest is charged with anti-Soviet agitation and propaganda aimed at subverting Soviet authority.

Dissident sources have said Mrs. Velikanova is facing the same charge, but officials at her court would not confirm this. The charge carries a maximum penalty of seven years in prison and five in internal exile.

The start of her trial came as somewhat of a surprise and some of her close relatives only learned about it after it began. About 30 uniformed and plainclothes police were stationed around the courthouse in southeastern Moscow and the street in front of the building was closed off.
