Saudi Arabia hikes its oil prices by \$2

VIENNA, Austria (AP) - Taking what it said was a step toward OPEC pricing unity, Saudi Arabia — the oil cartel's largest producer and America's chief foreign oil supplier raised its price from \$28 to \$30 a barrel. In return, OPEC militants agreed to freeze their \$35 to \$37 a barrel prices, until mid-December.

METROEDITION

U.S. economists predicted the \$2 a barrel Saudi increase would add less than one cent a gallon to the retail price of gasoline and heating oil in the

United States. The surprise Saudi price hike took effect immediately after it was announced Wednesday night, as the 13nation Organization of Petroleum Exporting Countries concluded an often acrimonious three-day meeting in Vienna. The new Saudi price is 125 percent above the \$13.34 it was charging on Jan. 1, 1979.

Rene Ortiz, the cartel's secretary general, said the OPEC oil ministers reviewed the world market and decided that excessive stockpiling by the industrialized nations justified the

"There's no hole in the world that could absorb more oil," he told reporters early today, describing the world glut caused by largely by high

Ortiz said the oil ministers unanimously backed the plan which at Saudi Arabia's request cuts the official OPEC benchmark price from \$32 to \$30 for a 42-gallon barrel. However, since OPEC militants will not be rolling back their prices, the net result is an increase of \$2 a barrel by Saudi Arabia, which produces one-third of OPEC's daily output of 27 million

"Our price will remain at \$35," Iranian Oil Minister Ali Akbar Moinfar told reporters early today. "It's a great victory for OPEC. We've come to some compromise. We are

Iran's allies, Libya and Algeria, charge \$37 a barrel for their oil, as does Nigeria

In return for the Saudi increase, the militants pledged to freeze their prices until at least Dec. 15, the date of the next OPEC pricing session to be held in Bali, Indonesia. That blocks the price "leapfrogging" in which other OPEC members have raised prices each time the Saudis boosted

To help assure that the militants don't break their pledge, the Saudis said they will continue to produce 9.5

telephone with government leaders in Riyadh, the nation's capital. 'We believe we have to be serious," Venezuelan Energy and Mining Min-

million barrels of oil a day, a rate that

virtually guarantees a continued world market glut and makes it hard

for the militants to sell oil their high

and production strategy.

lowered theirs.

ister Humberto Calderon-Berti told reporters. "If we agree on prices, then maybe we can apply the longterm strategy in January. The (longterm) formula is good for the prestige of the organization.

The long-term strategy proposed by Saudi Arabia would set up OPEC's first mechanism for joint production controls to maintain what the cartel sees as adequate market supplies. It would automatically raise prices by relatively small amounts every three months to keep up with world inflation, currency fluctuations and economic growth in industrial countries.

Iran and other militants blocked agreement on the strategy in Vienna by OPEC's oil, finance and foreign ministers who debated it on Monday and Tuesday.

The militants argued for higher and faster price increases and demanded Saudi Arabia cut its production to dry up the market glut before they would discuss the long-term plan.

The 10 OPEC nations that supported the plan said it would be brought up again at an oil ministers' meeting in Baghdad, Iraq late next month. They said they hope it will be approved at a summit meeting of OPEC heads of state in Baghdad in early

Longer ZIPs coming WASHINGTON (AP) - Despite complaints Americans will be driven "digit dizzy," a U.S. Postal Service official says ZIP codes will be expanded to nine numbers for all the nation's 79 million addresses by the

end of next year. Michael S. Coughlin, assistant postmaster general, told a House Government Operations subcommittee that a major benefit of the longer code will be increased efficiency and "longer periods of time between rate in-

'We hope!" was the skeptical reply of Rep. David Evans, D-Ind., who chaired the hearing into the ZIP code

The Postal Service plans to begin distributing new code assignments adding four new digits to the present code — next February. Large-volume mailers are first on the list, with home addresses to be included by the end of the year.
"Z stands for Zip-posterous," de-

clared Ray Geiger, editor of the

Farmers' Almanac, who has spearheaded a nationwide campaign to zap the new ZIP. ZIP stands for Zone Improvement Program. 'What you're telling us is to zap the

nine-digit code to keep us from get-ting digit dizzy," said Rep. Richardson Preyer, D-N.C.

Geiger, in his blast against the expanded ZIP codes, also said that if any of the complicated computers needed to read the longer code ever broke down, mail would be sent flying pell-mell across the country.

Geiger said the firm that publishes the Farmers' Almanac, which has a circulation of 6 million copies in the United States and Canada, also has mailing lists for other products.

Iranian officials huddle during the Vienna meeting of the Organization of Petroleum Exporting Countries. They announced they would freeze their \$35 to \$37 a barrel crude prices until mid-December

following Saudi Arabia's announcement it would hike its price from \$38 to \$30. The moves were seen as a step toward OPEC pricing unity. (AP Laser-

UT lease sale sets bonus records

By JOE SALMAN Oil Editor

"The oil patch in West Texas is

So said State Land Commissioner Bob Armstrong Wednesday as cash bonuses were piling up on the way to an all-time high University of Texas

More than 400 bidders, filling the second floor ballroom of the Midland Hilton, seemed more than eager to spend their company's money or their own money as they sent the record

Lease sale results, Page 1C

bonus total to \$44,191,500, almost tripling the previous record of \$17,870,-500 set in the same room in 1977.

Giving the sale its biggest single tract boost was the Texas Co. E. H. Watkins, land representative for the operator, nodded his head and \$3.6 million bought the 320.350 acre lease seven miles northwest of Pyote in Ward County

The price, the highest for a single tract in the 65-year history of University of Texas lease auctions, figures out at \$11,237.70 per acre. The previous single tract total was \$1 million, paid in the early 1950s for an Andrews County lease by Sinclair Oil & Gas Co. That money went for a 160-acre plot.

Monsanto Co., with regional offices in Midland, was the top purchaser among the 74 successful bidders paying \$7,102,000 for 67 tracts. The company's highest bid was \$510,000 for 321.15 acres in Andrews County.

The per-acre price was \$1,588.04. The record price paid by Texaco, which incidentally was the only lease the company bought, was for a tract

Hospital trustees suggest writing off \$105,000 By SUE FAHLGREN

Staff Writer

The Midland Memorial Hospital board of trustees recommended approval of a \$105,042 special write-off package of 475 bad debt accounts Wednesday at its regular monthly meeting.

The package was the second for the hospital in as many months used to purge the financial backlog at the hospital. The accounts to be written off are accounts with "no payment action" for 150 days or more.

The finance committee for the trustees recommended the write-off in conjunction with last month's write- off package of \$333,000. The accounts, which are forwarded to the hospital's collection agency, are mostly small amounts, according to finance committee spokesman Doug

Scharbauer "We feel the writing off of this amount - this \$105,042.99 - would get us pretty current on these ac-

counts," Scharbauer said. Previously, the hospital had been behind almost three months in its regular billing procedures. Part of the delay for the new bills going out to former patients, the finance committee had explained, was because the hospital billing agents were spending so much time with old accounts. The writing off of some of these old accounts would help get the billing system up to date, committee spokes-

"This process used to be done at year end....We've just moved it up a little," Scharbauer explained to the board

"We might still collect on these," he

added. "There will still be collection agents trying to collect on these. In addition to the special write-off, the monthly bad debt and indigent care write-offs amounted to \$76,977. Of that total, \$61,098 went to 242 bad

debt accounts and \$15,878 went to 16

indigent accounts.

When asked by board members (See HOSPITAL, Page 2A)

Hearing on redistricting only sparsely attended

By LANA CUNNINGHAM Staff Writer

Only five persons testified Wednesday at the public hearing on redistricting held in City Hall Council Chambers, and they urged the panel to wait for final population figures from the U.S. Census Bureau.

The state House Committee on Regions, Compacts and Districts held the hearing to gather preliminary data needed by the State Legislature in 1981 for redrawing House, Senate and Congressional district lines. Chairing the session was Tim Von Dohlen. Also attending were Gerald Hill, vice chairman, Gary Thompson and Larry Shaw.

In his opening remarks, Von Dohlen stated the issue of redistricting is critical to Texas. An influx of people in the last 10 years may result in Texas gaining two, and possibly three, new congressional seats.

Because the final census figures

won't be available until April 1, 1981, and the legislative session closes on May 31, the House will have only 60 days to "accomplish the task of redistricting.'

HIS COMMITTEE'S work centers around five areas: working to obtain as accurate a count as possible in the 1980 census, complying with the Voting Rights Act to assure equal access for minority groups, following the legal requirements for reapportionment, setting up computer capabili-ties to be used by the State Legislature in reapportionment and holding a series of statewide hearings on the

matter The Midland session was the third hearing in a series of 13 scheduled throughout Texas. Von Dohlen said the hearing here covered Midland. Odessa, Lamesa, Big Spring, Levelland, Seminole, Andrews, Fort Stock-

Part five: The business of government resumed

By MERLE MILLER

It was politics that drew John F. Kennedy to Texas in November 1963 - an ideological feud involving the supporters of Lyndon Johnson, his protege Gov. John Connally, and Sen. Ralph Yarborough.

George Reedy, a former White House press secretary: "The conservative forces in Texas were definitely on the rise, and all the indications were that the administration was heading into real trouble in that state. It was strongly felt by the Kennedy people that he had to make an appearance in the state in order to recapture lost ground...it was a question of popular feeling."

A lot of people thought it was not a good idea for Kennedy himself to go. Kennedy laughed off the warning signs, and Air Force One landed in San Antonio, the first stop, on November 21. The president and Jackie were greeted warmly. She was especially pleased; it was her first political trip since the primaries in 1960.

Kenneth O'Donnell, Kennedy's political right hand: "We landed in Dallas with everybody on the plane in love with each other. When we were riding through Dallas on our way from the airport to the Trade Mart luncheon, I said to Dave Powers, 'There's certainly nothing wrong with this crowd.'

Rufus Youngblood, the Secret Service agent guarding Lyndon Johnson that day: "Suddenly, there was an explosive noise - distinct, sharp, resounding. Nothing that could be mistaken for the incessant backfiring of the motorcycles, but in the instant I heard it I could not be certain if it had been a firecracker, bullet, bomb or some other explosive device. I looked around quickly and saw nothing to

"But the movements in the president's car were not normal. Kennedy seemed to be falling to his left, and there was a sudden movement among the agents in the car directly ahead of us. I turned instinctively in my seat and, with my left hand, I grasped Lyndon Johnson's right shoulder and with all the leverage I could exert from a sitting position I forced him downward. 'Get down! Get down!' "

OVER THE RADIO crackled an urgent message. "Halfback (the code name for the presidential follow-up car). Halfback to Lawson. The president's been hit. Get us to the hospital, fast but safe!"

Lyndon: "They just almost shoved us into the hospital, into the first room that they'd come to down the corridor. They pulled all the shades in the room, closed the door, and we sat there and endured the agony and waited for reports that came in-from time to time.

Jack Bell of the Associated Press:

'We pulled into the ambulance entrance and we all boiled out of the car to see what happened. Gov. Connally was helped out of the car. His shirt was red in front with blood. I ran up to the White House limousine.... There the president was lying on his back in the back seat, and there was pools of blood - and inch of blood maybe over the floor of the car. There were some twisted roses lying in it. I turned to the Secret Service man who was standing as a sort of sentinel there, and I said, "That is the president, isn't it?" He said, "Yes." I said, "Is he dead?" He said, 'I don't think so, but I don't know.'

At 1: 10 p.m., a Secret Service agent entered the room where Lyndon and Lady Bird were waiting and told the vice president that they should begin planning to return to Washington immediately. Johnson said that that was a decision the Secret Service should make only with the approval of Kenneth O'Donnell.

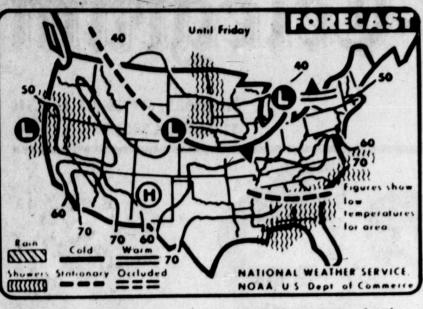

At 1:20 p.m., the agent, Emory Roberts, returned — to tell Johnson that Kennedy was gone.

LATER JOHNSON RECALLED: "I asked that the announcement be made after we had left the room and were in an unmarked car en route to the presidential plane, so that if it were an international conspiracy and they were out to destroy our form of government and the leaders in that government that we should minimize

the opportunity for doing so.
"I think the first thought I had was

EPA gives automakers some regulatory changes

WASHINGTON (AP) - The Environmental Protection Agency, trying to balance President Carter's desire to help the slumping auto industry with the agency's mission to protect air quality, has given automakers some but not all of the regulatory changes they sought.

The EPA scrapped two regulations outright and delayed the implementation of three other exhaust standards for one year. But in three areas, the agency rejected automaker requests for relaxing air standards.

In completing the initial review, EPA officials said Wednesday the approved changes would save automakers more than \$600 million through 1982 at a time when the industry is expected "to experience the most significant cash flow prob-

EPA Administrator Douglas Costle conceded that the changes would re-sult "in some air quality penalty."

Appaloosa club to host playday

The West Texas Appaloosa Horse Club is holding the second playday of its circuit for year-end high point Saturday at 5 p.m. at the 4-H Arena, behind the Midland County Exhibit Building.

Club membership is not required for participation. The competition is open to all breeds. The entry fee is \$2 per class with four age groups — 9 and under, 13 and under, 14 to 18 and open - being offered. The six points and six horse system will be used. A rider may enter only once per class and age group. No chaps, jackets or romals are required.

Following the regular classes there will be a dash for cash. The race will be a Figure 8 pattern starting and ending in the center. Entry fee is \$5. First place will earn half the total with the club keeping the other half.

The remaining playdays are scheduled for Oct. 4 and 48. For more

Candidates may have new motto

They want to 'Be Prepared!' for debate

By The Associated Press

"Be Prepared!" may be the motto of the major presidential candidates as well as the Boy Scouts.

Republican nominee Ronald Reagan and independent candidate John Anderson dropped off the campaign trail Wednesday to ready for their nationally televised debate Sun-

And President Carter, who has refused to take part in that debate, was at the White House and said to be preparing for his news conference late this afternoon - which was also to be before the television cameras.

On Wednesday, Reagan - who has been trying to make the president's refusal to debate a major issue personally called on Carter to change his mind and take part in the debate in Baltimore sponsored by the League

of Women Voters. "If (Carter) does not debate he will be telling the American people that he will not — that he cannot — defend his record," Reagan said. "And if he cannot defend his record, I believe that the American people on Nov. 4

ing off University of Texas leases that

That is only one of the records set by the sale. Others include: highest per-acre price paid, \$11,237.70; highest total sale, \$44,191,500; most tracts purchased by one operator, 67 by Monsanto; most number of successful bidders, 74; longest auction, from 10 a.m. to 7:30 p.m; and highest single tract purchase, \$3.6 million.

Board for Lease member James L. Powell, and UT Board of Regents chairman Dan C. Williams were on hand throughout most of Wednesday's sale.

Warming trend, clear skies should continue for area

Skies will remain clear over Midland and most of the Permian Basin through Friday and the area should experience a warming trend.

Forecasters at the National Weather Service office at Midland Regional Airport predict the low tonight will drop into the middle 60s and the high on Friday will reach the middle 90s. Winds tonight will be light and variable, but they should become souther-

ly and blow at 10-15 mph on Friday. Wednesday's high only reached 83 degrees, much cooler than the record high for that date of 98 degrees set three years ago. Low this morning was 60. Record low for today's date is

47 degrees set in 1971. Around the Permian Basin this morning, communities were reporting generally fair skies and cool temperatures.

Clear skies and warming temperatures dominated the Texas weather scene today

Forecasts called for clear skies and warmer temperatures statewide. Highs were to be mostly in the 80s and 90s although readings alon the Rio Grande were expected to reach

the 100-degree mark. Highs Wednesday included 91 at Dallas-Fort Worth and 81 at Wichita Falls, where an early morning low of 51 had tied a 22-year record for the

will tell him that they cannot defend his record either.

Meanwhile, the League of Women Voters announced Wednesday it had decided not to place an empty chair on the stage during the debate as had been considered to dramatize Carter's absence.

'We do not intend to let the 'empty chair' controversy overshadow the opportunity of the American people to

Related stories, Page 12A

focus on the candidates' discussion of the issues," said Ruth Hinerfeld, the league's national president.

She said league officials "deeply regret" the president's decision not to attend and added that the invitation remains open to him.

As for Anderson, he gained two court victories Wednesday that seem to insure he will be on the general election ballots in Maryland and

The 4th U.S. Circuit Court of Appeals in Richmond, Va., upheld a U.S. District Court decision invalidating Maryland's March 3 deadline for filing as a candidate. It concluded the early filing deadline did not further 'state interests in any respect."

Maryland's attorney general, Ste-phen H. Sachs, said he did not intend to appeal but might change his mind depending on the outcome of a case involving Ohio now before the U.S. Supreme Court.

In Boston, the 1st Circuit Court of Appeals in Boston upheld a decision by U.S. District Judge Edward T. Gignoux, who ruled that Anderson was entitled to be on Maine's ballot because the state's filing deadline of April 1 discriminated against independent candidates.

A spokesman for Maine's attorney general had no comment on the appellate court ruling.

While President Carter was not campaigning Wednesday, his chief spokesman released what he said was a forged federal memo that seemed designed to hurt the president. The purported National Security Council document recommended the CIA launch "clandestine operataons" to create divisiveness between American blacks and African nationalists.

White House spokesman Jody Powell said he had "no basis on which to know who is responsible," but he suggested the forged memo might have been the work of hostile foreign intelligence agency or a domestic policital group.

In noting that the document might be related to "the domestic political situation," Powell did not specifically mention any of Carter's political

The release of the document came the day after Carter suggested in Atlanta that Reagan was stirring racial hatred through his mention of states' rights and the Ku Klux Klan.

Reagan used the phrases in speeches more than two weeks ago, and Republican vice presidential candidate George Bush on Wednesday accused Carter of taking the "low road" in trying to portray Reagan as

Both the president and Reagan are battling to secure votes in the South, Carter's native region and a major factor in his election victory in 1976, and the black vote could be important in the efforts of the two candidates.

Redistricting panel urged to await final figures from Census Bureau

ton, Snyder, Sterling City and San

Walter Ashby, senior planner for the city of Midland, pointed out the city's preliminary census counts were below what had been estimated. Specific information set out in blocks wasn't provided the city with which to compare figures, he claimed.

He pointed out that household size in Midland had decreased by half a person since 1970. The city has grown 18 to 20 percent in those 10 years and the number of housing units has jumped by 28 to 30 percent.

Preliminary figures of 66,998 could be readjusted to as much as 72,000,

POPULATION SHIFTS within the city for the last 10 years show the most growth in the north and northwest sectors. The center of the community has dropped some.

When questioned about the number

of minorities, Ashby said his office didn't "have good minority information. In 1970, it was 12 percent Mexican-American and 10 percent black. I suspect it hasn't changed drastical-

The final population count for Mid-land County should be around 83,000,

Fred Tyler, executive vice president of the Midland Chamber of Commerce, advocated Midland's remaining in the 19th Congressional District. which is currently handled by U.S. Rep. Kent Hance. And Tyler added his approval of the current state House and Senate districts.

Charleen Rosebery, president of the Midland League of Women Voters, pushed for continuance of the "oneman, one-vote" rule and pointed out Supreme Court cases concerning the drawing of district lines.

She advocated the rule of thumb of not having more than 5 percent deviation in the population count per district, and to keep each district com-

Von Dohlen mentioned the size of Texas sometimes keeps the districts from being compact. "We have a wide area of separation between popula-tion, especially in the West Texas

Stephen Wilkinson, planner for San Angelo, reiterated the census count problem, adding that some areas had been missed in the count.

LIKE ASHBY, Wilkinson had no figures for the minority population. Representing the Odessa Chamber

of Commerce task force on redistricting was Patrick Munn who advised the committee a report will be ready on Odessa's recommendations by

the motorcycle.

Man, struck with baseball

bat, now in critical condition

He, too, complained about the low census count, lodging his hopes that the final figures would be higher. In the past 10 years, he said, Odessa has seen more industries move in, "a new mall, a regional academic health center, two new elementary schools and a plan for a North Route to Midland."

While about 35 persons from local and area legislative bodies attended. Von Dohlen said he was surprised that only five presented any testimony. He realized it may seem early to start on the project, but he expects more comments to come from the

The chairman mentioned that preliminary census figures reflect a substantial growth for El Paso, which means that the east part of that congressional district may be moved into another area. In redrawing the lines, it is feasible for all of Ector County to be included in the 19th Congressional District, instead of just half, he said.

One of the new congressional seats definitely will be in the Houston area, according to Von Dohlen. Another could be in the Dallas-Fort Worth area and a possible third in central

"THE PROBLEMS of redistricting are not that great to Midland," he said, noting later that Tom Craddick who represents the 68th district in the state House, could have his reduced. Early census figures have put Mid-

land County's population at 88,000. Von Dohlen said the top limit for a district is 90,000. Craddick, who attended the hear-

ing, said afterward that reducing the size of his district wouldn't present a problem to him. Currently, his district also covers

Glasscock, Reagan and Upton counties. "We all have common interests - oil, gas and farming. And I've found it easy to represent those peo-

Hosptial trustees recommend writing off more bad debts

about the new policies to be set up for bad debt accounts, Scharbauer said no definite policy was ready to be discussed.

"We are looking into some very stringent policies for controlling...our bad debts," he said. "We don't like to look at that figure each month just like I'm sure you don't," he told board members. But, he added, "we haven't formulated them (the new policies) exactly yet, but we do have some good

The finance committee also asked for a transfer of \$130,000 from the general fund for operations in September. Scharbauer said the new amount would bring the total figure of transferred funds to \$480,000 for the year, compared to a budget for transfers of \$756,000. He further explained approximately \$400,000 of that total was used to pay for indigent care

In other board news, the trustees heard progress reports from the data processing department and the medical records department on their implementation of the Tribrook management study suggestions.

Further, the board members approved a recommendation for additional insurance coverage, following a report from insurance consultant firm Wyatt and Co. The increased coverage is an additional amount on the liability insurance on members of the board of directors, board of trust-

The board also heard a report on the progress of the certificates of need for the hospital's six proposed improvement areas: the new physical therapy room; the new linen storage room, the new medical records room, the new doctors' conference room, the expanded laboratory and the conversion of the CT scan to a body scan.

The board of directors was to meet today at 2 p.m. to give final approval on the trustees' recommendation.

No link seen between Texas, Shreveport rapes

LUBBOCK, Texas (AP) - Investigators trailing a man who has raped at least 16 West Texas women say there is nothing to link cases here to similar brutal attacks in Shreveport,

Two Shreveport investigators, armed with stacks of reports on the local assaults, flew here this week to compare notes with officers pursuing the "Traveling Rapist."

But after two days of discussions, investigators from both states decided there was no connection, said Hal Hensley of the Lubbock District Attorney's office.

"We pondered over it and spent all morning talking about it," Hensley said Wednesday night. "It's not there. There are some similarities, but the similarities are not strong enough to lead us to believe there is a probability or even a possibility that it's one and the same.

Earlier this week Shreveport Capt. Sam Burns said news accounts of the West Texas "Traveling Rapist" described attacks similar to rapes occuring in his city.

Hensley said the "Traveling Rapist" preys on single women who usually live alone.

Dorothy Brown

Mrs. James W. (Dorothy) Brown, 59, 1200 Douglas Ave., died Tuesday in a Lubbock hospital following an ill-

Services will be at 4 p.m. Friday in the Episcopal Church of the Holy Trinity with the Rev. Sam Hulsey, pastor, officiating. Burial will be in Resthaven Memorial Park, directed by Newnie W. Ellis Funeral Home.

Mrs. Brown was born Dec. 15, 1920, in Thompsonville, Mich., where she was also reared. She attended Kalamazoo College. She was graduated from the University of Michigan in 1943 with a degree in history. She was married to James W. Brown in 1944. In 1949, they moved to Midland, where her father, Carl J. Westlund,

was an early day drilling contractor. Mrs. Brown began her teaching career in 1961. She taught at Cowden Junior High and Trinity School. At the time of her death she was a social studies teacher at Midland High School, where she had taught for 15 years. Her husband, James W. Brown is city manager.

She was a member of the Episcopal Church of the Holy Trinity, the Texas State Teachers Association, National Education Association, Midland Classroom Teachers Association, Midland Genealogical Society, Altar Guild and St. Agnes Guild of the Episcopal Church of the Holy Trinity and past president of the Women's Golf Association of the Midland Coun-

Survivors include her husband; three sons, James A. Brown of Rockwall, and Robert P. Brown and William G. Brown, both of Midland; her mother, Mrs. Carl J. Westlund of Midland; and a grandchild.

The family requests memorials be sent to the Allison Permian Basin Cancer Therapy Center in Midland or M.D. Anderson Hospital in Houston.

Goodner Driver

Goodner C. Driver, 78, of 4602 Andrews Highway, died Tuesday night in a Midland hospital.

Services will be at 10 a.m. Friday in the Newnie W. Ellis Funeral Home chapel with the Rev. Steve Edwards of the First Christian Church officiating. Burial will follow in Fairview cemetery under direction of Newnie W. Ellis Funeral Home.

Driver was born May 4, 1902, in Freestone County, Texas. He spent his early childhood there and moved to Midland in 1919. He started work with the old Midland Telephone Company and remained with them for a number of years. Driver later became an electrician with the old Midland Power and Light Company, now known as Texas Electric Service Co. He was one of the first organizers of the local Electricians Union.

Driver had lived in a number of places including Vandenberg Air Force Base and Marshall Islands in the Pacific. He was married to Joyce Smith of Teague in 1923. he retired in

China's 'Gang of Four' going on trial Friday

PEKING (AP) - Mao Tse-tung's widow and the cused of responsibility other members of for the worst excesses of China's infamous Gang the 1966-76 Cultural Revof Four will go on trial olution in which thou-Friday before the su- sands were persecuted widow: "She is a very, preme court on charges of trying to usurp state power, diplomatic sources said.

Chinese authorities did not confirm the date. But they have said the trial will begin soon, be closed, that there will be no announcement until after a verdict is reached, and that the four will not be sentenced to death.

The trial is expected to be politically explosive. Some of the defendants are expected to name names, possibly accuse Mao himself and set the stage for the ultimate downgrading of the late Communist Party chair-

man. The four were arrested Oct. 22, 1976, three weeks after Mao's death and have been imprisoned since that time.

Besides Mao's widow, tion. Jiang Qing, who has been dubbed the ringleader, the Gang includes former Politburo members Zhang Chungqiao, Yao Wen Yuan, and Wang Hungwen.

The four have been ac- Mao himself, who was ailing.

In a famous cartoon by their critics they were depicted smashing a classroom apart and shouting slogans such

At last, progress

It's probably difficult for many Americans to accept the fact that the Majlis, the Iranian parliament, actually is preparing to take a constructive step forward in the hostage crisis. But that apparently is what's happening.

In fact, on Tuesday the Majlis, torn by arguments over an open or closed debate concerning the hostages, delayed a full-scale debate and instead set up a special committee to deal with the fate of the hostages.

Obviously, the Iranian people and the parliament members still are divided on ways of resolving the hostage issue. Some members of the Majlis contended a closed debate on the hostages is essential while others maintained that an open session is necessary.

The parliament finally voted against the closed-door idea.

We're extremely pleased that now, after more than 10 months, something finally is being done in respect to the hostages. But now our other fears are beginning to surface just like we knew they would

By CLAYTON FRITCHEY

(c) 1980, Newsday

WASHINGTON - Despite the mo-

mentous changes in Chinese leader-

ship emerging from the historic Com-

munist Party congress in Peking, one

thing remains the same: the exclu-

sion of women from the hierarchy of

The Chinese leaders, with some jus-

tification, like to talk about the eman-

cipation of women, but by and large it

amounts to granting women the privi-

lege of working as hard or harder

than men, yet denying them significant political recognition or reward.

tablished more than 30 years ago,

only three women have attained Polit-

buro status, and then only because

they were married to the most pow-

erful leaders of the Chinese revolu-

Chou En-lai. The widow of Chou, now

77, is currently the only woman in the

Politburo, but hers is merely a minor

role. Mao's widow, of course, is pres-

ently awaiting trial as one of the

In the Soviet Union, the record is

even worse. Its 14-member Politburo

is exclusively male, as it nearly al-

ways has been. And no women have

figured in the new Polish shake-up, following labor strikes there, on in the

new Yugoslavian lineup following the death of Tito.

In both communist and non-com-

munist countries, women have begun to make a dent at the lower and

ART BUCHWALD

Soviets aren't laughing at the new Polish jokes

WASHINGTON - In the last few months everyone is taking a new look at Polish jokes.

Here are some of the latest Polish jokes going around.

"How many Poles does it take to make a government fall in War-

"A few hundred in Gdansk, providing they stick to their demands. How many Poles does it take to

drive the Kremlin up the wall?" "One, if he's asking for secret union elections.

"How do you know when a Polish coal miner is mad?" "When, despite all his perks, he

tells the Communist Party to go to "When was the last time a Polish

worker ate meat?' "Two weeks before he went out on

strike and closed down the shipvards.' "What does a Pole say to a deputy

premier when the premier tells him he has to work longer hours for less "You're fired."

"What does a Pole carry in his lunch pail?"

'Secret pamphlets telling his working comrades what is really going on in the country.

"How does a Pole keep the Russians from invading the country?' "By not taking any money from the

CIA. "How long does it take a Pole to

make an omelet?" "Twenty minutes to make it, and

sonnel with diplomatic passports. The

Soviets use their embassies and con-

sulates for political warfare, espio-

nage and propaganda, and we should

At the very least, we should limit

the Soviet bloc embassies and consul-

ates to the same number of people as

U.S. diplomatic personnel stationed

in their countries. This would sub-

stantially cut the number of KBG

During the last year, Canada

Japan, France, New Zealand and

Sweden have all expelled Soviet spies

operating under diplomatic cover. A

higher rate of expulsions would not

only hamper their espionage, but

would encourage more defections, a

very tender and exploitable Achilles'.

A fourth non-military weapon is to

beef up the Pablum currently propa-

gated by the Voice of America, Radio

Free Europe and Radio Liberty, and

use those stations to air hard-hitting

anti-Communist reports which would

exploit weaknesses in the Soviet sys-

tem such as their treatment of Jews.

Christians, Moslems, intellectuals

and dissidents. U.S. radio stations

should tell, not conceal, the truth

A fifth non-military weapon is to

use the propaganda forum afforded

by the United Nations to support free-

dom, free enterprise and Western

values. The United Nations isn't good

for anything else. We might as well

make motions, introduce resolutions,

and sound off with Western ideas,

instead of always only reacting to

about the Communist system.

What does a Polish worker do to show he believes in the Communist system?

'He goes to Mass every day." "How many Poles does it take to

screw in a light bulb? 'None, if their strike leaders tell them to shut off the electricity. "What does the Party manager of a

Polish factory do when his workers decide to sit in?" "He gets out of the place as fast as he can

"What does a Pole say to his wife at night?'

"If I'm not home by six tomorrow evening, you'll know the strike is

"What does a Polish wife say to her

husband at night?" "It's about time. You can throw

your dirty clothes over the fence." "How many Poles does it take to repair a motorcycle?"

'None, because they can't get the spare parts to repair anything.

What does a Polish government official say when a Soviet official complains he is not happy with what s going on in Poland?

"How do you get a Pole to work?"

"By granting amnesty to all strikers who have been arrested, guaranteeing more freedom in the press, giving him a pay raise and promising to get off his back." What does an East German work-

er say to a Pole when he meets him in a bar?

"The drinks are on us. Now tell us how you did it."

I know these new jokes aren't boffos, but we can take comfort in the fact that they're even less funny to the people who used to tell Polish jokes in the Soviet Union.

WHO TO WRITE

Following is a list of the names-and address of various state and federal officials Midlanders may wish to contact from time to time:

PRESIDENT: Jimmy Carter, The President, The White House, Wash ington, D.C. 20500.

SENATORS: Lloyd Bentsen (D) and John Tower (R), Senate Office Building, Washington, D.C. 20515.

REPRESENTATIVE: Kent Hance (D), House Office Building, Washington, D.C. 20515. Also Room 208, George Mahon Federal Building, 200 E. Wall, Midland, TX 79701.

GOVERNOR: Bill Clements (R), State Capitol Building, Austin, TX

STATE SENATOR: W.E. "Pete" Snelson (D), Senatorial District 25, 319 N. Colorado St., Midland, TX

STATE REPRESENTATIVE: Tom

Craddick (R), Representative Dis-trict 68, 408 W. Wall St., Midland, TX 682-7918.

in the ebusite,

In an interview with The Associated Press, Chatti said the Islamic countries were determined to maintain permanent pressure on Israel to put an end to the present stalemate and achieve a "genuine solution" of the Middle East problem, and particularly the problem of Jerusalem.

The launching of a "jihad" was first proposed by Saudi Arabia's Crown Prince Fahd following the formal annexation of Jerusalem by the Israeli Parliament at the end of July.

Jerusalem ranks third among the Islamic world's holy places, which are under the nominal guardianship of Saudi Arabia.

Chatti said the Islamic countries are getting down to planning the proposed "jihad" in all seriousness but that this did not necessarily involve sive in the Middle East," Chatti demilitary action.

"Jihad means total mobilization for a sacred cause," Chatti said. "In the West, the word has a medieval connotation of unlimited warfare. It may ultimately come to that, but only as a final resort.

Chatti said the Islamic countries envisaged the jihad for the liberation of Jerusalem first of all as a worldwide political, diplomatic and economic "harassment" of Israel and its allies, culminating in military action only if all else fails.

"Economic pressure is an essential part of this action plan," he said.
"The use of the 'oil weapon' is a possibility, but this, too, would be a last resort.'

More than 60 percent of the world's oil exports come from Islamic countries. Chatti pointed to the withdrawal of the embassies of the Netherlands and a dozen Latin American countries from Jerusalem as a significant success for the Islamic campaign against the Israeli annexation.

He said the action plan was directed essentially at the United States in the period following the presidential elec-

"We realize nothing can change before the election," he said. "But once this is out of the way, the Jewish vote will no longer dominate American foreign policy and the new administration will be in a position to put the necessary pressure on Isra-

If President Carter is reelected, Chatti added, he would have the additional advantage of not needing to think about another election campaign in 1984.

"The next four years will be deci-

Seaborne Israeli troops attack southern Lebanon

Press

Seaborne Israeli troops attacked Palestinian guerrilla targets near the southern Lebanese coastal city of Tyre in a raid aimed at heading off terror raids against the Jewish state, the Tel Aviv military

command said today. A spokesman said the raiders destroyed several guerrilla buildings and vehicles near the guerrilla-controlled Mediterranean port, 12 miles north of the Israeli-Leba-

A communique said the Israelis suffered no casualties in the Wednesday night action. It gave no account of guerrilla

In Beirut, a spokesman for Yasser Arafat's Palestine Liberation Organization said guerrilla gunfire foiled the Israeli ground attack, which was accompanied by an artillery barrage from Israeli batteries on land

The Israeli spokesman said guerrilla counterfire was "sporadic and ineffective."

The PLO spokesman said guerrillas fired several Soviet-made Katyusha rockets at the Israeli town of Metulla in the northern Galilee panhandle "to avenge the aggression against Tyre.'

The Tel Aviv spokesman denied any rockets were fired at Israel's northernmost town. Israel said the attack

of "pre-emptive actions matic and economic against terrorists in the area (southern Lebanon) to disrupt terrorist ac-tions against Israel."

The United States and other countries have sharply condemned Israel's program of pre-emptive attacks.

Wednesday, Secretary of State Edmund Muskie discussed the pre-emptive raids with Israeli rael's annexation of pre-Foreign Minister Yitz- dominantly Arab East hak Shamir. Shamir told Jerusalem after its capreporters he gave Mus- ture from Jordan in the I think, satisfactory." He did not elaborate.

Meanwhile, the foreign ministers of the world's Islamic countries were to begin a conference today in Fez, Morocco to map plans for a possible 'jihad," or holy war, against Israel and its allies in an effort to restore East Jerusalem to Arab sovereignty. Chevron energy report:

\$1 billion Chevron refinery improvement

Allows greater use of "heavy" crudes.

Chevron's profits help finance this massive project to maintain the flow of fuels for homes, cars, and planes.

It's easier to get gasoline out of "light" crude than "heavy" crude. But, in the years ahead light crude will be less plentiful—so America must have refineries which can process heavy crude efficiently.

To meet this challenge, Chevron will spend more than \$1 billion over the next three years—the largest single-project investment in our historyto modify our Pascagoula refinery in Mississippi.

Chevron's profits, along with other cash from operations, are the primary source of capital for this refinery improvement project.

Worldwide, our total capital and exploratory investments during 1980 will be \$3.4 billion, an amount 50% greater than 1979, and almost twice last year's earnings.

Metric making slow progress in America

By ROBERT ESTILL Copley News Service

WASHINGTON - Although it is not happening as fast as Congress envisioned, America is moving to met-

The conversion is occurring slowly, voluntarily and, in most cases, with an eye on profit and ease of doing

A public which would be wary of an overnight switch to a new system is coming to grips with it almost daily.

The metric system - which has been around for years in a less visible role, such as prescriptions for medicine - is gradually coming into its

It has been liquor by the liter since Jan. 1 as a result of a new federal regulation that was actually sought by the wine and liquor industry.

Many soft drinks also are sold by the liter, and supermarkets contain a myriad of metric markings. While pre-packed foods still are sold by the customary pound pricing, the equivalent in grams is designated on many of the canned and packaged food-

Gasoline is dispensed by the liter at about 10 percent of the pumps in the nation and as many as 30 percent of the pumps in California.

Although the federal Department of Transportation was scuttled in an attempt several years ago to convert road signs to metrics, many routes in the country contain both mile and kilometer markings as part of an educational process

Sporting events, particularly track and field events, are becoming increasingly metric to benefit athletes with an eye on the international Olympic competitions.

The automotive industry, with a need to compete in foreign as well as domestic markets, was thinking metric even before 1975 when Congress adopted the Metric Conversion Act and created the U.S. Metric Board to coordinate the conversion and conduct educational programs. General Motors started a 10-year

metric conversion program in 1973. Ford hopes to complete its conversion by 1985, and Chrylser could be metric the end of the decade.

There usually is a profit motive behind every conversion, with few changes occurring just for the sake of

change, according to Malcolm O'Hagan, executive director of the Metric Board.

"People have to look for the appropriate opportunity and incentives to introduce metrics," O'Hagan said.

In the case of gasoline, the change occurred when the price went over 99.9 cents a gallon. That meant service stations either had to use a halfgallon price (and many states have or are in the process of setting deadlines for half-pricing), adding an extra digit or converting to liters. The liter mechanism on the pump costs about \$50 to install, about a fourth the cost of adding an extra digit to sell it by the gallon, O'Hagan said.

The liquor industry wanted the change to liters so its products could be compared fairly with imported potables, particularly wines.

"In the case of the soft drinks in the new two-liter bottles, it was a new bottle in a new size and a new technology," O'Hagan said. "It did not cost any more to make two-liter bottles than to make half-gallons (there are 3.8 liters to a gallon). I think under our voluntary system, that is the way the metric system is going to progress. It will occur only where there is some incentive."

There has been some confusion about the law since it was passed five years ago.

"People thought Congress mandated conversion, and that 1985 was the date," O'Hagan said. "There is no date. And there is no mandate.'

Congress had anticipated that there would be no need for the Metric Board after 1985, but the conversion process is moving so slowly that O'Hagan figures the board will continue making studies and conducting educational programs for at least another five years and probably longer. Although O'Hagan says the board's job is not metric promotion but education, he concedes it is a thin line.

"It is very hard to speak about the benefits of the metric system without seeming to be promoting," he said.

But the federal push - whether called promotion or education — is moving the conversion along more slowly than expected for a variety of

"In terms of industry, the economic conditions are not favorable,' O'Hagan said.

Bride-elect feted

Jana Coleman, bride-elect of Andrew Swinney, was honored with a bridal shower in the home of Mrs. Rondell Kimbriel, 702 Boyd.

Co-hostesses with Mrs. Kimbriel were Mrs. Willadean Jennings, Mrs. Leona Armentrout and Mrs. Fern Britton of Stanton.

The bride's colors of apricot and white were carried out in the centerpiece of baby carnations and daisies on the serving table and a basket of flowers were on the registry table.

Special guests were Mrs. Marjorie Coleman, mother of the bride-elect; Mrs. O.B. Coleman, bride-elect's grandmother; Mrs. Shirley Vest of Stanton, mother of the prospective bridegroom; and Mrs. Eula Swinney, grandmother of the prospective

Corner gas station uses \$50,000 computer

COLUMBIA, S.C. (AP) — It's the old corner gas station down on Assembly Street, where you can catch a bit of shade on a steamy day under the peeling brick portico. It's where the Cromer brothers sell peanuts.

And if you don't like peanuts, the Cromer boys, James and J.D., whomp up a corn dog and soda or a mound of cotton candy.

J.D. may draw the soft drink himself, and he works fast. That's one reason — the great service — for the \$50,000 computer behind the counter, keeping tabs on a business that should gross \$3 million this

The Cromers aren't just running a peanut stand. Their business is cheap thrills wholesale — carnival trinkets, candy and gum, plastic games, pennants, prizes and party favors.

They sell cotton candy machines, hot dog roasters and other concession equipment to schools, carnival companies and civic clubs. They have bingo and raffle supplies, candy apple cookers and vending machines.

Their warehouse is a fantasyland of vampire teeth, big plastic ears, rubber spiders, noisemakers and balloons by the hundreds, thousands, tens of thou-

"Used to be we'd buy a thousand of this or that," James says. "Now we buy just about everything in But it all began with the peanuts and a wisecrack-

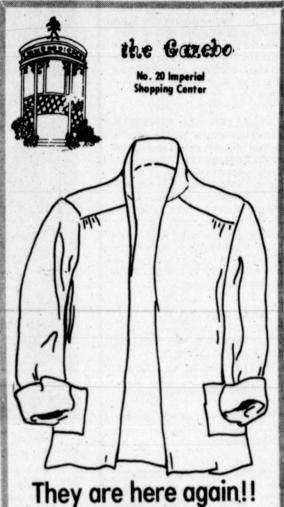

ing sign put up by the late Julian D. Cromer that still has tourists doing double-takes 43 years later. Julian was James' and J.D.'s father. His sign says

'Cromer's Peanuts, Guaranteed Worst In Town. A competitor had been telling everyone that Cromer's peanuts were no good. Julian's wry response not only assured his success, it made his business a landmark. And the enterprise has been expanding ever since.

As James tells it, a carnival operator wanted to

Tenneco spots 23,000-foot explorer in Loving County

Nine wildcat operations have been announced in West Texas counties, including a 23,000-foot operation in Loving County

The Loving test is Tenneco Oil Co. of San Antonio No. 1-24 Reed, 1,500 feet from south and 1,320 feet from west lines of section 24, block C-26, psl

It is 11/4 miles northeast of the only well in the Central Pinal Dome (Atoka) field which produces at 16,098 feet, and 2% miles south of the Brunson Ranch (Ellenburger) field which produces at 21,958 feet.

PECOS EXPLORERS

C. F. Lawrence & Associates Inc. of Midland No. 1 Crawford was spotted as a new pay wildcat in the Fort Stockton, South area of Pecos County, 12 miles south of Fort Stockton.

It is 2,000 feet from north and 467

feet from east lines of secton 18, block 131, T&StL survey. Contract depth is 3,200 feet.

PDC Gas Commission of Midland No. 1-25 University is a new 2,000-foot wildcat six miles southwest of Bakersville in Pecos County.

Location is 660 feet from south and west lines of section 25, block 18, University Lands survey.

kIt is 3/8 mile northwest of a 1,499foot dry hole and 11/2 miles northwest of the Cardinal (Yates) field.

Remuda Oil & Gas Corp. of Midland staked a 6,700-foot wildcat in Ward

County, nine miles north of Barstow. It is No. 1 Cynthia Monroe, 1,980 feet from northwest and southwest lines of section 4, block 1, W&NW survey and 7/8 mile east of the Monroe (4600) field and 11/2 miles north of the Quito, West (Delaware 4732) field.

REEVES LOCATION

C. H. Wagner of Tarzan will drill a 2,500-foot oil and gas wildcat in Reeves County, 17 miles northwest of

Scheduled as No. 1 Zanca "A," 467 feet from north and east lines of section 17, block 59, psl survey.

It is 1/4 mile southwest of the Pamela (150) field and 3/4 mile southeast of a 1,938-foot dry hole.

ECTOR AREA

ARCO Oil & Gas Co. No. 1-5 J. L. Johnson has been staked as a 5,750foot oil wildcat three miles northwest of Odessa in Ector County.

Location is 1,000 feet from south and west lines of section 5, block 42, T&P survey. It is a new pay wildcat in the Foster multipay field.

MITCHELL PROSPECTOR

Murjo Oil & Royalty Co. of Graham No. 1 Guthrie is to be dug as a 3,700foot wildcat in Mitchell County, one mile south of Westbrook.

It is 1% miles south of the Westbrook 3100 field.

The drillsite is 467 feet from north and west lines of section 1, block 28, T-1-S, T&P survey.

BORDEN TEST

V. F. Petroleum Inc. of Midland No. 1 Miller will be drilleed as an 8,750foot project in an attempt to reopen the Thirty-Thirty (Ellenburger) field of Borden County, nine miles north of

Loction is 900feet from north and 800 feet from west lines of section 29, block 30, T-6-N, J. H. Gibson survey. It is less than 1/4 mile north of an 8,791-foot dry hole.

SCHLEICHER WILDCAT

A 5,500-foot wildcat has been spotted 19 miles southeast of Eldorado in Schleicher County by Dunro Oil Co. of Houston.

The prospector is No. 1 R. A. King Estate, 1,980 feet from south and east lines of section 7, block K, GH&SA survey. It is 1% miles north of one of the three wells in the Carl Cahill (Strawn oil) pool which produces at

It is separated from the field by a 6,100-foot dry hole.

RUNNELS RE-ENTRY

tests as a wildcat.

Huntland Oil & Gas Assiociates of Austin announced plans to re-enter a 3.700-foot failure in Runnels County and cleanout to the old total depth for

The project is the former Midstates Oil Co. of Abilene No. 1 Julia Spreen "B." It is 4,019 feet from north and 3,131 feet from east lines of R. M. Williamson survey No. 231. The original location was reported as 4,000 feet from the north line.

Elevation at test site is 1,685 feet. The project will be operated by Huntland as No. 1 Julia Spreen. The project is 1% miles west of the

depleted Midstates (Fry) field. The re-entry was abandoned by Midstates in December 1976.

915-683-1814

Sun Oil Co. of Midland will dig No. 20 Central National Bank in the Lygay oil and gas area of Coke County, six miles southwest of Silver.

The project, 1/2 mile north of oil production, is 718.4 feet from south and 680 feet from west lines of R. T. May survey, abstract 1279. Contract

Stock market gains

NEW YORK (AP) - Stock prices rose sharply Wednesday on news the Organization of Petroleum Exporting Countries had failed to reach argeement on either reducing production or raising prices. Volume was heavy as many market indexes rose to record

The Dow Jones average of 30 industrial issues rose 15.36 to 961.26 for its largest daily gain in almost five months. The rise left the average less than six points below its high for the year, set Aug. 15 ...

Advances outnumbered declines by a 2-1 margin among New York Stock Exchange issues. The NYSE, American Stock Exchange and NASDAQ over-the-counter indexes all set new records. Volume on the NYSE was 63.99

million, up from 57.29 million the previous day and the heaviest since Feb. 13, when 65.23 million shares were traded. It was the seventh-largest total volume ever. Oil issues were generally up, with

Conoco rising 11/8 to 54 and Standard of California climbing 11/2 to 75%. But Exxon slipped ¼ to 69%. Rail stocks also rose, helping push

the Dow Jones transportation index up 6.90 to 345.91, another record high. Santa Fe gained 1% to 69% and Chessie rose 11/4 to 423/4. American Telephone & Telegraph

Co. rose ½ to 53% after reporting higher earnings. Sony, which reported increased profits the previous day, climbed another 1/8 to 15 1/8. Precious metals stocks fell, hurt by

a declining price of gold and the OPEC action. ASA lost 23/4 to 74%, Dome Mines fell 4% to 1171/2 and Homestake Mining slipped 21/4 to 94. Technology issues were strong.

Texas Instruments gained 4% to 135 %, Teledyne rose 13 ½ to 199 ½ and National Semiconductor was up 1% to 391/2. International Business Machines rose 1% to 674 and International Telephone & Telegraph rose 1% to 32%.

The gain for the Dow Jones industrial average was the largest since it rose 30.72 points on April 22. The high for the year for the Dow was 966.72, set Aug. 15.
The NYSE composite index rose

1.16 to 74.57. Standard & Poor's index of 400 industrials gained 2.55 to 146.41 and S&P's composite index of 500 stocks added 2.13 to 128.87.

The Amex market value index gained 2.78 to 343.72. The NASDAQ composite index was up 2.64 to

Residents near Love Field unite

DALLAS (AP) - About 100 residents of the Dallas Love Field area have organized to try to reduce noise pollution and solve other environmental concerns caused by increasing air traffic at the city-owned airport.

The Love Field Citizens Action Committee said it does not plan to file lawsuits, but instead plans to work by enacting ordinances through the Dallas City Council.

"For every flight that comes out of Love Field, we lose," Lori Palmer, committee chairman, said. "We lose sleep. We lose money. We lose relaxation. And we lose our peace of

TODAY'S ANSWER

BUSINESS MIRROR

Reader's Digest issues brand new publication

By JOHN CUNNIFF **AP Business Analyst**

NEW YORK (AP) - In her 59th year, The Reader's Digest, self-de-scribed as "that worldly lady with the common touch," has given birth. Her first, it's a test-tube creation, conceived after long deliberation.

The new publication, named Families and carrying a Sept. 23 date, is probably the most carefully marketed product to reach the newsstands in years, having been pretested, tested, retested. It is, itself, a test.

In some markets, for example, it will cost \$1.25, in others the price will be \$1.95, and in still others it will cost \$2.49 and contain 48 additional editorial pages. Sales to price-size ratios will be studied.

Some markets will be supported by newspaper advertisements, others by television, and some by radio. In certain markets no advertising at all is planned. Sales-ad ratios will be scrutinized for promotion guidance.

Readers are expected to help. In every 15th issue of the 400,000 print run a questionnaire will solicit reader responses, and future issues conceivably could be changed because of recommendations or criticisms.

In fact, the first issue of Families will probably produce as much information for the Reader's Digest people as it will for readers, and they will ponder and digest that information

for many months. Though the new publication is destined to be a monthly, the next issue won't be until April, a "confirmation" issue, and the regular monthly schedule isn't likely to begin until October of next year.

"We are more conservative than other publications about this." says

Richard McLoughlin, publisher of both the Digest and Families. "We are approaching it prudently." The Digest, he reminds you, has never done anything of the sort before; it

never published another magazine. "Maybe a million people want this magazine, maybe five million,' said McLoughlin. "We don't really know until we put it out." But, he said, "we

have an awful lot of hope.' In spite of the reliance on cold marketing science, Families is a product also of human feelings and convictions.

"We had considered many ideas in the past but it wasn't until now that we had one that produced a feeling in the gut," McLoughlin said. Probably five or six ideas were aborted in the past six years, he said, because "nobody had a feeling in their belly about them."

Families - note the plural - gave many Digest people that feeling. The family is "diversifying," said McLoughlin, father of five. "Mine is a conventional family, but we have di-vorced mothers, single fathers, step-parents, working mothers ..." In short, diversity.

And a diverse subject matter: acne, puberty, bed-wetting, pot, family backpacking, the value of the dollar, communicating, custody, dating, school marks, college, careers, emotional disturbance. Almost endless.

To find its stories the Digest will read everything available in newspapers, magazines and books, and probably will search through the contents of speeches and seminar discussions. Then it will condense.

At \$4,500 for a four-color full page a (roughly 8 by 11 inches) and \$3,725 for a black and white page, the revenue adds up quickly.

Polish workers confused, worried

URSUS, Poland (AP) - "People in Poland used to sit in their chairs and watch the world go by. But now they are afraid. They just watch their chairs," said a young man outside the main gate at the Ursus tractor facto-

The young man, who asked that his name not be used, was referring to the doubts, confusion and insecurity among his 20,000 fellow workers at this plant because of rivalry between independent and state-controlled unions.

The rivalry is expected to intensify with word from Gdansk that independent unions from all over Poland will unite into a confederation. That will make Poland the only Soviet bloc country with rival national labor groups.

Many workers here and at other factories in Poland appear confused by the slogans and claims of the two groups and are uncertain which organization will better protect their inter-

The decisions of workers at this plant and others in Poland will determine the future of the country's independent labor movement and of the iberalization wave sweeping the country

So far the tide appears to have been in favor of the independence forces. But the old trade unions have the advantage of money and state backing and are mounting a counterattack, promising to reform themselves while guaranteeing social and eco-nomic benefits.

In the new spirit of reform, the state-controlled steelworkers union has called for a congress next month to consider withdrawing from the Central Council of Trade Unions and operating independently.

And the metalworkers union, which represents employees at Ursus, is also expected to call such a meeting.

But many free trade union activists see this as a ploy by the old, state-run outfits to win back members by passing themselves off as "autonomous" labor groups.

Well certainly that is what is happening now," said Janusz Onysz-kiewicz, a leader of Mazowsze, an independent trade union federation in the Warsaw area.

"By changing their slogans, they are taking a bit of the wind out of our sails. So far they have managed to create a significant amount of confu-

The degree of confusion was apparent at the Ursus plant, a factory complex in a grimy suburb of Warsaw known for its politically active em-

In 1976 workers in Ursus and Radom staged strikes to protest meat price increaes which were eventually rolled back. And last July workers at Ursus were among the first to protest the meat price increases which eventually touched off the nationwide strikes in August that brought the government concessions

This year a politically active group of workers at Ursus began organizing an independent trade union commit-tee within days of the Aug. 31 agreement under which the government recongnized the right of workers to form independent unions.

The new Ursus group is affiliated with Mazowsze, a regional organization with members ranging from doctors to factory workers. Its temporary offices are in Warsaw's Club of Catholic Intelligensia, across the street from the Central Trade Union Council.

Elections to posts within Ursus' old trade union, which were to have been held from today until Monday, were suspended because so few workers took part, sources claimed.

One management official at the plant acknowledged that the new unions had gotten the jump on the old organizations and that the situation had left both workers and managers confused about the future

"The new unions began organizing early," he said. "But there is more to operating a union than merely slogans. There are questions of finances and benefits."

One young worker who supports the independence movement said he thought at least some Ursus workers would be lured back to the old union by the promise of reform.

"A certain amount will come back," he said. "Management is using some pressure as far as financial problems are concerned. They tell people they may lose social benefits or not be able to borrow money from the union funds. In this way they try to get people to stay.

Worker sources say the financial benefits are frequently mentioned by management as a reason why workers should remain with their old

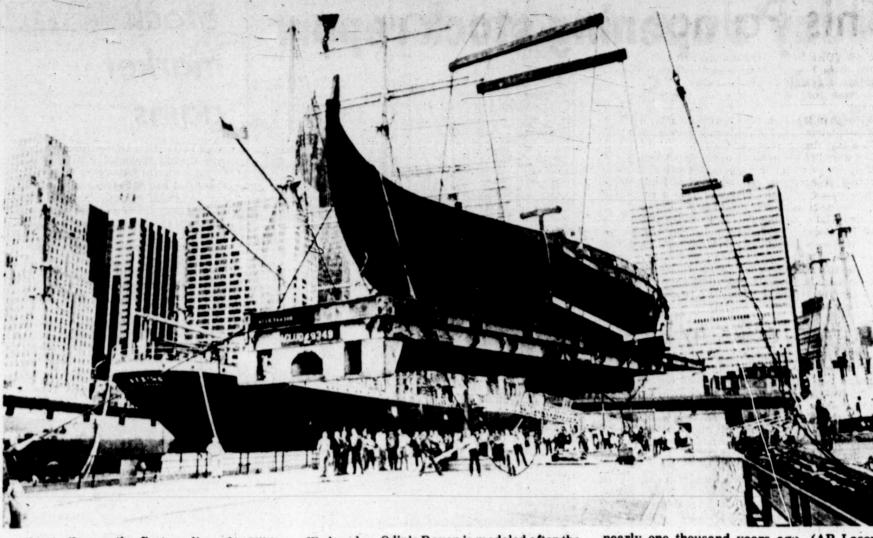

But Onyszkiewicz said that under Polish labor law, many such funds, vacation homes and other benefits are actually the property of the factories and are only administered by the unions.

"It's a matter of reaching an agreement with management over who administers these things," he said. Polish labor unions do not receive state subsidies, he added, but operate largely from members' dues.

That would mean some large, independent organizations such as the ones in Gdansk might soon be on sound financial footing.

New lake OK'd

DENTON (AP) - U.S. Rep. Ray Roberts said Tuesday the U.S. Army Corps of Engineers has given the go-ahead for a 29,000-acre lake that will be a source of water for the cities of Dallas and Denton.

Odin's Raven, the first replica of a Viking ship, gets lifted off a barge and placed on the pier of the South Street Seaport in New York Wednesday. Odin's Raven is modeled after the famous Norse Gokstad ship which was built

Prosecution rests case in KKK trial

GREENSBORO, N.C. (AP) - The prosecution in days of the trial, they frequently interrupted the the murder trial of four Ku Klux Klansmen and two proceedings or demonstrated outside the Guilford American Nazis has rested its case after presenting seven weeks of testimony and such key evidence as videotapes of the November gunfire that claimed

The last of the tapes presented showed men firing guns at demonstrators at a Nov. 3 "Death to the Klan" rally sponsored by the Communist Worker's Party. Five party members and supporters were

The trial, which has already lasted 13 weeks, was recessed on Wednesday. Proceedings are to resume Monday, when the defense is expected to begin a case based on a plea of self-defense.

Defense attorneys have indicated they will contend the defendants went to Greensboro on Nov. 3 to demonstrate peacefully and were ambushed by the protesters.

District Attorney Michael Schlosser has demanded the death penalty for the six. The state has not conducted an execution since 1961.

During the government's presentation, the other wise drab courtroom took on the look of a yard sale as the prosecution spread its evidence before the all-white jury.

The evidence included a small arsenal of weapons, hundreds of photographs, CWP placards, a Confederate flag wrapped around a metal post with an American flag and bloody clothing.

Klansmen, openly identifying themselves, have been present throughout the trial, and one Klan leader often brought lunch to the defendants. CWP members have refused to testify. In the early

County Courthouse.

The prosecution has offered testimony tending to link only one of the defendants, Klansman Jerry Paul Smith of Maiden, to a specific killing. Smith, 33, works in a family-owned logging busi-

The other defendants are:

-Coleman Pridmore, at 36 the oldest of the Klansmen and a close friend of Smith. He's a millworker in

-Lawrence Morgan, 27, a Klansman from Lin-

-David Matthews, 24, a Newton Klansman and father of three. His wife is expecting another child. A Guilford County sheriff's deputy who booked Matthews testified the defendant said: "They can't get me for all of them; I only got three.

-Roland Wood, 34, of Winston-Salem, a former Klansman and a Nazi when he was arrested. Wood now says he is a "born-again Christian."

-Jack Fowler Jr., 37, also a former Klansman who now says he has dropped his affiliation with the Nazi party. Fowler, whose mother has died since his confinement, surrendered to the FBI after hitchhiking from Greensboro to Chicago.

Prosecutors have stressed that state law provides that someone participating in a felony resulting in a death can be convicted of first-degree murder even if that person did not do the actual killing.

The trial was expected to be a long one. Schlosser said recently that "not a stone has been left unturned in the preparation of this trial."

But, Schlosser said, "the omnipresence of three hate-oriented groups at every phase of the prosecution has hindered the orderly progression of the

Crime wave has town worried

BUTLER, Mo. (AP) - A crime wave that left three people dead in three days has made a troubled town of this quiet farming community, which last recorded a homicide more than 18 years ago.

Residents are scurrying to buy door locks and seek security advice from police.

"People are nervous about going out to meetings of an evening," said C.A. Moore, editor of the Butler County News-Headliner. "They're getting extra locks put on their doors, and they're leaving lights on at night. They're just very uneasy. This is all anybody's talking about.'

Joyce Welsh, 45, and Randall Fassler, 21, were shot to death Monday night at the Welsh home just northeast of Butler. Their deaths came 48 hours after Lyle Norman, a popular resident of the town of 4,000. was stabbed to death shortly after arriving home from a Caribbean cruise.

Adding to the uneasiness was a rash of burglaries at Butler businesses over the weekend.

Police received calls asking for tips on making homes more secure, and store owners reported increased lock sales.

A report that there had been a run on guns at local stores was "a rumor more than anything else," said police dispatcher Bill Cain. But he said he was "nearly positive" that some residents had purchased "We haven't had anything like this in years and years and years.

Butler Police Chief Wayne Conaway said Saturday night's slaying was the first in the 18 years he has lived in the community, which is 60 miles south of Kansas City. He said authorities are questioning one man in that killing, but would not elaborate.

Police officer Ralph Silvers said Norman probably knew his killer and said authorities didn't believe the slaying was related to the double killing.

Police said Norman was stabbed 11 times. His 1979 automobile was taken, along with a wallet containing cash, credit cards and travelers checks. The automobile was found abandoned Monday near Texar-

Norman, a widower, lived alone and was scheduled to retire Friday from his job with the Butler post office. He had founded the Lyle Norman Players, a community group that performed charity benefits.

Mrs. Welsh, whose husband, Glen, was on a hunting trip to the Yukon, called Fasslers' parents on Monday night to say she was afraid there was a prowler in her home, the sheriff's office reported. The Fasslers are neighbors and their son worked for the farm implement company owned by Welsh. Sheriff Leonard Hough said the Fasslers sent their

son over to check.

The bound bodies of Mrs. Welsh and Fassler were found early Tuesday when the elder Fassler went to the home to see why his son had not reported to

FIRST RATE **INVESTMENT OPPORTUNITIES** FROM FIRST NATIONAL

There are now many ways you can put your money to work at First National:

30-Month Certificate

It's a savings certificate everyone can afford. For a \$500 minimum deposit we pay the highest rate allowed by law, compounded quarterly for an effective yield of 11.52%. The interest rate in effect at the time you buy your certificate is guaranteed for the 30-months you own the certificate. This rate is effective through October 1, 1980.

135 6-Month Money Market Certificate

No other bank or savings and loan offers a higher interest rate on six-month money market certificates of \$10,000 or more. All the more reason to keep your savings as well as your checking at a full-service bank. The six-month CD interest rate changes weekly and the current rate is valid only through September 24, 1980.

New federal regulations require that the penalty for early withdrawal be collected from the principal if the Certificate of Deposit has been on deposit less than the prescribed penalty period.

Come by and visit with us about your other invest ment opportunities.

A great bank to call your own.

"People are a little on the skittish side," Cain said. Los Angeles in busing turmoil

LOS ANGELES (AP) - Public school officials were hustling today to co.nply with a state Supreme Court order that added thousands of students to a mandatory desegregation busing plan.
The Supreme Court's ruling adds 96 schools to the

57 previously contained in desegregation plan. The district, the nation's second largest public school system, has more than 700 schools serving 540,000

The Los Angeles Board of Education was informed of the revamped plan Wednesday by Superior Court
Judge Paul Egly, whose power to design the program was upheld by the high court.

In a letter to school board attorneys, Egly said his

two special integration monitors must know by the close of business today how and when the board intends to include the schools in the program.

The 96 schools were among those axed from the plan by the board Monday night. An appeals court had granted the board authority to delete the schools Saturday, a decision later overruled by the Supreme

School board attorneys sent a telegram Wednesday to the high court in San Francisco, demanding another hearing and threatening to take the matter again to the U.S. Supreme Court. Supreme Court Justice William Rehnquist last Friday refused to halt the dispute, which dates back to a civil rights suit first brought in 1963.

School Baord attorney G. William Shea said the state Supreme Court ruled on a petition brought by the American Civil Liberties Union on Tuesday before the board could respond.

"It's a denial of due process. They never heard our side of the story," Shea said Wednesday. Meanwhile, classes bpened quietly Wednesday

with only a handful of peaceful demonstrations reported

At Taper Avenue Elementary School in the harbor area, pro- and anti-busing pickets got into a shouting

Witnesses said about 10 blacks picketing in favor of busing were outnumbered by 250 anti-busing white parents, but there were no arrests and no violence. Demonstrators also protested busing at White Point Elementary School, also in the harbor area. Both schools are in the mandatory plan.

This is the third year of mandatory busing in the

600-square-mile district, but Egly and school officials have been working on a final plan that was to have gone into effect Tuesday. It was to have been one of the largest integration programs in the nation, busing some 40,000 students in grades 1-9 at 153 elementary and junior high schools

When classes opened Tuesday, thousands of misplaced youngsters overflowed some schools while other classrooms had empty desks.

A few of the 96 schools restored by the high court ruling were to begin mandatory pupil reassignments Friday, with most following suit next week and all coming into line with the order by Sept. 29, district officials said.

Don't overlook revitalized Amistad

Add up the ingredients which make up an attractive fishing lake and Amistad Reservoir has them all.

The huge border impoundment near Del Rio contains some of the most beautiful, clear water one could wave a fishing rod at. It supports healthy populations of a half-dozen sport fish species and the surrounding area is rugged and beautiful enough to be a backdrop for a western movie.

Texas Parks and Wildlife Fisheries Director Bob Kemp said he takes greater pride in Amistad than any other lake. "Amistad is an example of taking a sorry fishing lake and making it into a super fishing lake."

He explained that prior to 1974, Amistad offered very little large-mouth bass fishing and other species offered little for the angler. "We assigned a biologist to work Amistad fulltime, and subsequently stocked a tremendous number of nonactive sport fish in an effort to fill every available ecological niche in the

Beginning in 1974, fishery crews began stocking striped bass, hybrid striped/white bass, Florida strain largemouths, walleyes, smallmouth, northern pike and tiger muskies.

In Texas, the term "fishing" is almost synonymous with "large-mouth bass." Amistad ranked as the No. 1 bass tournament lake the first half of 1980, according to the TPWD's bass club postcard survey, which analyzed data from 155 clubs and 445 tournaments across the state.

The lake ranked first in pounds of bass caught per hour, and third in percent angler success and number of bass caught per hour.

The lake has native largemouths and introduced Florida strain largemouths. Biologist Jimmy Dean, San Antonio, said most of the techniques KENNY REDIN'S

Fin & Feather

R-T adds another outdoor columnist

Chuck Davis Outdoors will join Kenny Redin's Fin & Feather outdoor coverage in the Reporter-Telegram Thursdays and Sundays in the near future. Davis, who lives in Big Spring, has been a contributor to Sports Afield and Outdoor Life. Davis has fished from Mexico to the Atlantic and hunted sheep, moose, elk, bear antelope, turkey, whitetail, mule deer, small game, waterfowl and upland game birds. he has backpacked hundreds of miles, tent camped, horse-packed in Arizona, Utah and Montana. For outdoor readers, the addition of Davis should be an entertaining, informative addition.

which work on other lakes will take largemouths at Amistad, but the clear water and rocky habitat call for some special tactics.

Dean advises that largemouths spend winter months near dropoffs and at depths of 20 to 30 feet, and may retreat there at other times as well. This calls for jigs, grubs and spoons which can get down to that depth effectively. Lighter lines are recommended because of the water's clarity.

As the weather warms, bass move to the tops of the ledges and into nearby shallow areas to spawn. March and April produce some excellent bass fishing. Spinners, jigs with plastic minnow or shad bodies and topwater lures are productive in spring and fall. As summer progresses, the bass move back into deeper water and near ledges, ven-

turing into shallow water in the late afternoon to feed. October and November are also periods of increased activity for bass as they again move onto the ledges and shallow areas.

As good as the bass fishing is, Amistad would attract attention if there were no largemouths. Striped bass, hybrid stripers, walleyes and catfish make big contributions to the fishery, and smallmouth stocked in the Devil's River arm are expected to come on in the near future. Few lakes anywhere can match Amistad's variety

The National Park Service controls access to the reservoir. There are four free boat ramps with parking, fishing cleaning and restroom facilities. Primitive camp sites are also available. A valid Texas fishing license is required for fishing the Texas side and a Mexican license is needed

for the Mexican waters. Buoys mark the borderline.

Adding the final decorations atop the cake's icing is a statement long time Amistad guide H.C. (Smokey) Janes made, "There's more two and three pound bass in the lake than we can all catch. I would rate Amistad the top bass lake in the country."

Illini's Wilson ruled ineligible

URBANA, Ill. (AP) — A judge ruled Wednesday that University of Illinois quarterback David Wilson may not play football this year.

Circuit Court Judge Harry Clem agreed with the Big Ten Confernce that Wilson, who has led the Illini to two victories this season, is academically ineligible.

Clem lifted the injunction he had issued Sept. 2 allowing Wilson to play until his complicated eligibility case was resolved.

However, attorneys for the Big Ten said new information should be considered and that the injunction should be lifted immediately. The league's eligibility committee said it was given incorrect information last May when it decided Wilson could play in 1980.

Byron Gregory, representing the Big Ten, had asked the judge to bar Wilson until 1981.

Attorneys for Wilson and the University of Illinois had argued that the information Gregory mentioned was irrelevant to the quarterback's status.

Winners in the recent Ranchland Hills CC Fiesta Del Ranchero Couples golf tournament were, upper row from left, Bill and Jean Horton, first flight; Carl and Ruth Hefner, second flight. Brottom row, Gene and Bobby McDaniel, third flight, and Tom and Diana Bowser, fourth flight.

MC women finish 18th in tourney

OKALHOMA CITY — The Midland College Women's golf team finished 18th in a strong field of 24 teams in the Susie Maxwell Berning Collegiate Invitational Golf Tournament at the Lincoln Park course Wednesday

Lincoln Park course Wednesday.

MC finished with a team total of 986 with Texas Christian University first with a final 920 total to beat the University of Texas by five strokes.

Midland College shot better than

Michigan State, Kansas, Temple, North Texas State, Iowa State and Southwest Missouri.

Scores for Coach Susan Holland's. golfers included Michelle Wilks, 76, Debra Kargetta, 79, Sherly Bunton, 82, Wendy Swift, 86 and Deborah Latham had an 89.

Next competition for MC is in 10-days in the Tall City.

WT SPORTS Midlanders help LCC with new tennis facility

The Midland Chapter of the Lubbock Christian College Associates recently presented a check to Mrs. Preston Washburn for the tennis court fund at LCC. The courts are currently under construction. LCC Coach David Simpson, commenting on the \$28,000 tennis facility, said, "We're anxious to have the tennis courts on campus completed so the program here can really come into its own."

Midlander Steve Joiner, son of Mr. and Mrs. H. L. Joiner, is a member of the LCC team.

In addition to funding a variety of projects for LCC over the last 12 years, the Midland chapter has awarded a financial grant to a student from Midland, Miss Cindy Rideout, caught of Mr. and Mrs. Tom Rideout, for \$1,000 for the 1980-81 school year.

Tickets for bus and game are available for the charter bus to the Baylor-Texas Tech football game in Lubbock Sept. 27. Tickets are located in section 18 on the 40-yard line on the east side of Jones Stadium. Any Texas Tech ex-student, Red Raider Club member or Tech supporter is welcome. Contact Steve Stallings (office 682 9310 or home 682 9788)

Lee seeks 2nd win

(Continued from 1D)

Lee has five players going both ways in Keith Brown, Kenneth Brown, Conally, Riggs and Smith. Dykes has been also pleased with the play of Mel Douglas at a tackle slot on defense along with Barry Crowder. Flankers Kevin Sparks and Jesse Fennell have also improved.

LEE'S LINEBACKERS are good ones in Terry Thompson (220) junior, Smith and David Corneilus (180) senior. Wade Colburn (170) and Riggs man the ends on defense with Conally and Keith Brown at the tackles. The secondary has Chris Parker, 165 junior and David Piccolo, 170 senior at the cornerback positions while Kenneth Brown and Bart Ryan, a 160-pound junior, starts at the two safety slots.

Quarterback: Barry Corley, 170, Sr.; Fullback: Calvin Riggs, 190, Jr.; Tailback: Rodney Hemphill, 165, Sr.; Tight End: Kenneth Hardison, 175, Jr.; tSplit End: Kenneth Brown, 185, Jr. Flanker: Kevin Sparks, 150, Jr. or Jesse Fennell, 150, Jr. Tackles: Clyde Smith, 210, Sr. and Rob Watson, 180, Sr.; Guards: Keith Brown, 220, Sr. and Irl Conally, 215, Sr.; Center: Van Gravitt, 190, Jr.

MIDLAND LEE DEFENSE

Ends: Wade Colburn, 170, Sr. and Calvin Riggs, 190, Jr.; Tackles: Irl
Conally, 215, Sr. and Keith Brown, 220, Sr.; Linebackers: Terry Thompson, 220,
Jr., Clyde Smith, 210, Sr. and David Cornelius, 180, Sr.; Cornerbacks: Chris
Parker, 165, Jr. and David Piccolo, 170. Sr.; Safeties: Kenneth Brown, 185, Jr.
and Bart Ryan, 160, Jr.

Quarterback: Tay Hindman, 185, Sr.; Runlingback: P.W. Thompson, 154, Sr.; Fullback: Pat Brown, 155, Sr.; Wingback: Terry Cargill, 167, Sr.; Split End: Kirk Wilson, 168, Sr.; Tight End: Brit Mayberry, 192, Sr.; Tackles: Mark Smith, 230, Jr. and Randy Dorsey, 230, Jr.; Guards: Tim Johnson, 187, Sr. and Billy Yarborough, 200, Jr.; Center: Richard Herrera, 188, Jr.

PLAINVIEW DEFENSE

Ends: Manuel Gonzales, 180, Sr. and Bill Hayes, 155, Sr.; Tackles: Tim
Johnson, 187, Sr. and Jack Ball, 187, Sr.; Linebackers: Brit Mayberry, 192, Sr.,
Robert Bradic, 187, Soph., Robert Jones, 165, Jr. and Greg Blankenship, 161, Sr.; Haifbacks: Biff Billingsley, 157, Jr. and Vondal Burnett, 149, Sr.;
Safety: Greg Carter, 158, Soph.

Steve Joiner, Midland member of the LCC tennis team, looks on as Mrs. Grant Stan-

defer presents a check to Mrs. Preston Washburn for LCC tennis court fund.

OVER 200 STORES THROUGHOUT THE WEST

World coffee production up

By DON KENDALL

WASHINGTON (AP) — World coffee production in 1980-81 is expected to be about 80.1 million bags, slightly more than forecast earlier this year, the Agriculture Department said Wednesday.

In its initial estimate on June 18, the department's Foreign Agricultural Service said the new crop would yield about 79.6 million bags, compared to 79.7 million produced in 1979-80

The latest report also included revising upward to 80.1 million bags the amount of coffee produced last year. Thus, the forecast for 1980-81 is for virtually the same size of harvest, officials said.

A bag of grzen, unroasted coffee beans weighs 60 kilograms or about 132.2 pounds.

Exportable production, which represents total harvested coffee minus domestic consumption in producing countries, was estimated at 60.2 mil-lion bags, compared to 59.7 million forecast in June. The revised exportable output in 1979-80 was put at 60.6 million bags, compared to the earlier estimate of

"Estimated production in North America is largely unchanged from the initial forecast except for El Salvador where the harvest could be larger if there is no flareup in domestic hostilities," the report said. The estimate for Guatemala has been lowered by 100,000 bags."

In South America, coffee production was revised upward from June by 350,000 bags, due mainly to an increase of 500,000 bags now expected in Brazil's harvest, the world's biggest. The boost in Brazil more than offset a decline of 165,000 bags now

expected in Peru, the report said.

Production in Africa was unchanged from three months ago except for a decline of 100,000 bags in Angola's prospective harvest. In Asia, the crop in the Philippines was raised by 50,000 bags from June.

Coffee production estimates by region and principal producing countries for 1980-81 and revised 1979-80 production, in thousands of bags, included: North America, 14,943 bags and 14,566 - Costa

Rica, 1,880 and 1,507; Dominican Republic, 1,000 and 700; El Salvador, 2,100 and 2,530; Guatemala, 2,600 and 2,647; Haiti, 555 and 655; Honduras, 1,312 and 1,250; Mexico, 3,700 and 3,610; and Nicaragua,

South America, 37,870 and 38,240 - Brazil, 21,500 and 22,000; Colombia, 12,400 and 12,300; Ecuador, 1,485 and 1,474; Peru, 1,100 and 1,265; and Venezuela, 1,150 and 997.

Africa, 17,927 and 18,056 — Angola, 400 and 700; Cameroon, 1,500 and 1,600; Ethiopia, 3,100 and 2,963; Ivory Coast, 4,166 and 3,917; Kenya, 1,167 and 1,425; Madagascar, 1,166 and 1,200; Tanzania, 916 and 708; Uganda, 2,500 and 2,200; and Zaire, 1,400 and

Asia and Oceania, 9,357 and 9,240 - India, 2,300 and 2,411; Indonesia, 5,239 and 5,024; Philippines, 750 and 690; and Papua New Guinea, 780 and 830.

RINGING THE BELL

Black church group observes centennial

With BOB TIEUEL .

In spite of the high cost of gasoline, hotel rooms and other high costs caused by the never-ending. rising inflation, it is reported that some 25,000 deletion of the National Baptist Convention, U.S.A., Inc. held recently in the Civic Center in Birmingham, Ala.

The convention returned to Alabama because of its founding in Montgomery in 1880, and this year's theme was "A Century with Christ." For some two and a half decades Dr. Joseph R. Jackson, Chicago, has guided the 6.3 million members, the largest black organization in the world. Dr. Jackson has recently authored a new boos, "A Story of Christian Activities — The History of the National Baptist Association, U.S.A., Inc."

One of the purposes stated in the constitution of the convention is to encourage and support Christian education. Dr. Jackson recently said: "Young people, whatever else you do, don't neglect or postpone your opportunity to get an education; for a trained mind and soul are worth more to you, to your race and to your nation than any material things you might possess." Jackson would encourage denominational schools to be independent of federal government support.

THE IMPORTANCE of one vote was demonstrated once again on the House floor in Washington earlier this summer when the 1980 fair housing bill kept its teeth by a single "aye." The 1980 bill puts teeth into the HUD procedures by giving administrative law judges jurisdiction over complaints of dis-crimination in housing with the authority to issue enforcement orders and to assess fines of up to \$10,000.

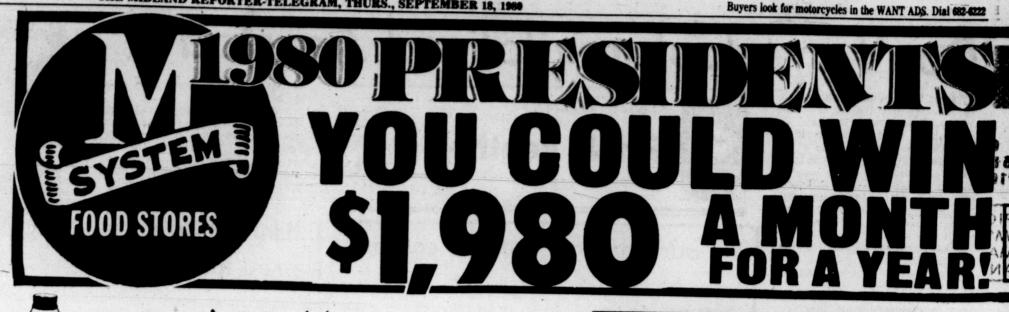

An Oklahoma congressman, Mike Byner, got the House back on the right track when he offered an amendment that put teeth in the bill. The vote on the Byner amendment was 205 to 204. And as the Call puts it: Remember the 1980 housing bill when you say, "My vote doesn't count anyway." Perhaps, says the Call, racism is gradually dying. So live for the day when it draws its last breath.

JIMMY CARTER writes: "Dear Bob, we have continued and improved on programs of social justice that have become woven by Democrats into the fabric of the nation over the past half century. We have pressed forward with determination wherever it was necessary. The remarkable energy program, the Camp David agreements, opposition to Soviet aggression, more than eight million brand new jobs, human rights and much more.

"In the whole area where government relates to people — the ERA, Fair Housing Act, the equal opportunity laws, the human services — we shall also work with determination and care. We need your voice, and we need your financial support. Please send as much as you can as soon as you can to support our Democratic program this November. Make donations payable to Democratic National Committee, 1625 Massachusetts Ave. N.W., Washington, D.C. 20036.

We have also received an appeal from Ex-Gov. Ronald Reagan. Will publish portions of his letter in next column. Remember, bellringers, let us register and be prepared to vote in November.

RECENT GREAT QUOTES: "The new Department of Education will be responsible for more than the distribution of federal assistance. Its charge from Congress is to strengthen the federal commitment to ensuring access to equal educational opportunity for every individual; to increase the involve-ment of teachers, parents and students in planning and carrying out federal programs; to spur better research, and to increase the accountability of federal education programs to the president, the Congress and the public." — Willard McGuire, president, National Educational Association.
