U. S. response on hostages being delivered

WASHINGTON (AP) — Deputy Secretary of State Warren Christopher led a small party of officials to Algiers today to deliver the U.S. response to Iranian demands for the release of the 52 American hostages, the State Department announced.

Department officials said it was highly unlikely that Christopher would meet with Iranian authorities,

who have been using Algeria as an intermediary. But they said the United States remains willing to hold face-to-face talks.

"We have a year's story to tell, and if Algeria is to act for us, they have to be fully informed," said one U.S. official who asked not to be identified.

Christopher left Washington unannounced at 1 a.m. EST on the flight to Algiers.

No details of the reply he carried with him were made public.

Department press officer Sondra McCarty said in a prepared statement that the U.S. response, which had been prepared over the last week, would be given to the Algerian foreign

ministry for transmittal to Iranian officials in Tehran.

Algeria has been a go-between in indirect negotiations between the United States and Iran aimed at ending the hostage crisis, which entered its 54th week yesterday.

Christopher met with Algeria's ambassador to Washington, Redha Malek, four times last week.

The State Department said Christopher was accompanied to Algiers by Harold Saunders, assistant secretary of state for Near Eastern and South Asian Affairs; Deputy Treasury Secretary Robert Carswell; State Department legal officer Roberts Owen and Arnold L. Raphael, a special assistant to Secretary of State

Edmund S. Muskie.

It was learned that U.S. officials decided to make personal delivery of the American response to Algerian foreign ministry officials instead of transmitting it through normal diplomatic channels so that there would be no misunderstandings or questions about the U.S. position.

The Iranian Majlis, or parliament, voted on Nov. 2 to set four conditions for release of the hostages: A U.S. pledge not to interfere in Iran's internal affairs, the lifting of a freeze on some \$8 billion in Iranian assets in this country, the cancellation of all American legal claims against Iran and the return of the wealth of the late Shah Mohammad Reza Pahlavi.

U.S. officials have said that the first two demands would be less difficult to resolve than those involving an end to legal claims and the return of the Shah's wealth, which they said could pose serious obstacles that could take protracted negotiations to settle.

Although Iranian officials had pressed the United States for a quick response to the demands, State Department officials said last week that time was needed to carefully study the official transcripts forwarded from Tehran.

"It's not a simple, you get a letter in the mail and you sit down and write an answer and drop it in the letter box the next morn-

ing," department spokesman John Trantner said.

"It's the welfare and lives of 52 people."

In Detroit, General Motors Corp. has sued the government of Iran and GM's partially owned Iranian subsidiary for \$58 million, seeking damages for allegedly making GM's interest worthless, the nation's No. 1 automaker said Monday.

The suit, filed Friday in U.S. District Court in New York, sought \$19 million for GM's 45 percent interest in GM Iran, \$2 million in dividends and \$37 million for vehicles ordered in kit form but never accepted.

The other owners of GM Iran were private Iranian investors.

Fate of tax cut bill is uncertain at best

WASHINGTON (AP) — The Democratic-controlled 96th Congress opens its lame-duck session Wednesday uncertain of what it will accomplish. Unclear, too, is the fate of a \$39.8 billion tax cut bill endorsed by President-elect Ronald Reagan.

The measure was drafted by the Senate Finance Committee and is supported by both Sen. Russell Long, D-La., the committee chairman, and Sen. Bob Dole, R-Kan., who will assume Long's role in January when Republicans take control of the Senate for the first time since 1914. Howard Baker of Tennessee, who will become majority leader in January, said Sunday he thinks the bill "will pass the Senate. I think we can move pretty promptly on a tax bill."

But what happens in the House, he added, is another matter.

There, Rep. Al Ullman, D-Ore., the Ways and Means Committee chairman, says he will not move to block the bill following his defeat Tuesday.

But Ullman, whose committee would likely take up the measure, says he also would not want to move

any Senate-passed bill forward unless President Carter and the Democratic leadership concurred.

So far, Carter and his economic advisers are sticking with their argument that a tax cut now would be inflationary and should be delayed until next year.

And Carter could still veto any tax cut passed this session. Baker said Sunday he had "grave doubts" the president would sign any tax cut passed during the lame-duck session.

The Finance Committee bill includes about \$22 billion in individual tax cuts and nearly \$18 billion in cuts for business.

Reagan said last week, "It would be fine with me" if the Finance Committee bill won speedy approval.

Even before reaching the president's desk, however, any tax cut faces several other obstacles:

—House Speaker Thomas P. O'Neill Jr. has said he doubts the lame-duck session will pass any legislation except appropriations bills needed to keep the government running.

—Expedient action on a tax cut could be frustrated on the Senate floor by what one top congressional staff member called a lot of bitter, "wounded tigers," who might prevent passage from being a "neat and speedy process."

—Additional time could be taken up if Democrats, who will also see their House majority cut 33 seats come Jan. 3, try to push through pet projects.

—And the volume of work facing the lame-duck session may be enough in itself, Ullman said, to prevent any consideration of a tax cut.

Indeed, the lame-duck session must pass 10 stalled appropriations bills—without which most federal agencies have no money to operate—or extend further the stopgap financing that has kept the government going since the fiscal year began Oct. 1.

The stopgap bill Congress adopted before recessing for the election allows agencies to spend at the fiscal 1980 level until Dec. 15.

The lame-duck session, the first since 1948, also has before it:

—Action on the overall of the federal budget for the fiscal year. The House and Senate must still reconcile differing versions of the measure, which is sure to have a multibillion-dollar deficit.

The House Budget Committee was taking up the matter this afternoon.

—The Alaska "lands" bill, which would protect some 100 million square miles of federal lands in Alaska from development. Differing versions have passed the House and Senate.

—An industry-financed "superfund" to clean up hazardous wastes.

—A complete revision of the federal criminal code, which appears to have a good chance of passage. It is supported by both Sen. Edward M. Kennedy, D-Mass., who will step down as Senate Judiciary Committee chairman in January, and Sen. Strom Thurmond, his successor.

Gas hampers mine investigation

Faulty ventilation may have been cause of blast

CHARLESTON, W.Va. (AP) — Heavy concentrations of methane gas inside a Boone County coal mine are hampering investigations into the cause of an explosion that killed five miners, officials said.

Inspectors from the federal Mine Safety and Health Administration, the state Department of Mines and the United Mine Workers entered the

mine Sunday, just hours after the bodies of the men were taken from Westmoreland Coal Co.'s Ferrell No. 17 mine at Robinson.

"They're still working getting the methane out," Jack Perry, president of United Mine Workers District 17, said Sunday. "It could be a long, drawn out affair."

Clarence Justice, a Westmoreland

spokesman, said crews were trying to restore a devastated ventilation system.

"We really don't know how long it will take," he said.

Perry predicted the investigations will continue for a week.

The five miners, sent to repair rail tracks in an unused section of the mine 300 feet down, reportedly died instantly when a pocket of methane gas exploded Friday. Their bodies were found late Saturday.

Steve Anderson, Westmoreland's director of communications, said the cause of the accident appeared to be "improper ventilation that was not carrying off the methane."

Mine ventilating systems are designed to circulate fresh air to miners and prevent a buildup of explosive gases. Large fans force air down ventilation shafts, and canvas sheets draped at intervals across the mine shaft funnel the air into the various tunnels.

Jack Hamrick, a Westmoreland safety official, said investigators were assessing the extent of the blast damage and trying to determine why the mine's ventilation system had allowed methane to build up.

The force of the explosion hurled cinder blocks more than 150 feet and overturned a conveyor belt several hundred yards away, rescuers said. Rescue workers trying to reach the men were repeatedly driven back by

gas and fumes before the singed bodies were recovered.

Company officials identified the victims as Herbert Kinder, 22, of Madison; Howard Gillenwater, 28, of Aikoi; Howard Williamson, 39, of Peach Creek; Carlos Dent, 39, of Hewitt; and Fred Pridemore, 26, of Hewitt.

Funerals will be held Tuesday. The bodies are at the office of the state medical examiner for tests on carbon dioxide and methane in the blood of the victims.

Sandra Gail Workman, a Westmoreland miner who was hospitalized for a work-related accident, said she might have been the sixth victim.

"If I had come out of the hospital a day sooner I probably would have been with them," she said, adding she was discharged Friday.

"We called (Howard) Gillenwater 'Hot Dog.' He was always singing and laughing," Miss Workman recalled. "Carlos Dent was always a big cutup, but he never bothered anyone," she said. "Hubert 'Butch' Kinder carried on with you. But he was helpful. If he thought I was doing something I shouldn't, he'd stop me and he'd do it."

Jack Dalton, a coal miner who waited with the victim's families outside the mine, said Pridemore was "one of the best guys you'd ever want to know."

More than 20,000 have died in West Virginia coal mines

CHARLESTON, W.Va. (AP) — West Virginia coal helped fuel the nation's industrial growth, but the rich, dark veins have never been mined without loss of life and limb.

More than 20,000 miners have been killed since men first began mining coal in West Virginia, according to the state Department of Mines. Countless more have suffered crippling injuries and contracted disabling diseases.

The latest deaths came Friday, when five men were killed as methane gas exploded in Westmoreland Coal Co.'s Ferrell No. 17 mine in Boone County. The force of the explosion blew large cinder blocks 150 feet.

Westmoreland spokesman Steve Anderson said the mine's ventilation system, designed to prevent a buildup

of the volatile methane gas, somehow had failed.

United Mine Workers President Sam Church, who flew from Washington, D.C., to join relatives in a silent vigil at the entrance of the mine, told reporters at the scene: "We must mine coal and mine it safely. America's coal cannot and will not be dug at the cost of mine workers' blood."

But history defies Church's statement.

Nobody seems to know for sure when the first person died in a West Virginia mine.

The first major disaster took place nearly a century ago at Newburg, in the northern part of the state. Thirty-nine men were killed Jan. 21, 1886,

Rodeo is a real family affair for these Texans

LONG BEACH, Calif. (AP) — It's not easy being a mother when your little girl is face-first in the dirt and 1,500 pounds of steak with the horns still attached is barreling down on her.

It's at times like that Jan Edmondson reconsiders her rodeo career and the role model she provided for her seven children.

At 13, daughter Dawnita is the youngest of the 12 top-ranked bull riders on the all-women's professional rodeo circuit. She faces some tough competitors when she puts her 110 pounds atop a 1,300 pound Brahma and they fly into the arena.

Mom, for example. At 37, Mrs. Edmondson is the oldest of the top 12 bull riders.

And last year's world champion in women's bull riding was Tonya Tucker — Mrs. Edmondson's 20-year-old daughter and Dawnita's half-sister.

All three grew up on Jan's father's ranch in Garden Valley, Idaho, where the family produced rodeos. While their dad does that, the kids ride rodeos across the country and in Mexico, spending the school year in Ponder, Texas, 30 miles north of Fort Worth.

"It's just a sport to us," shrugs Mrs. Edmondson, a grandmother-to-be who has been in pro rodeo for 25 years. "All my kids ride. They start out on calves when they're 2 or 3, then work their way up to steers

and bulls." Mrs. Edmondson, Dawnita and Tonya squared off with nine other women for the 1980 Cowgirls' Rodeo Association National Championship Finals, which began Saturday.

When it was over Sunday, Mrs. Edmondson had split 3rd and 4th place in the bareback bronc riding, tying with another woman but sharing the prize money. Tonya split 1st and 2nd in bronc and bull riding and left the rodeo with world championships in both events, said rodeo public relations director Rylon Nilson.

Dawnita's results were not available immediately.

Dawnita's bull was so feisty it mashed the eighth-grader's leg against the chute and tossed her sky-high about two seconds out of the gate. Tonya was riding with a broken hand and was flung to the dirt before the six-second qualifying time was up.

Mrs. Edmondson opted not to ride the bulls because her three broken ribs hurt and she was afraid further injury would jeopardize her chances in the bareback bronc finals.

Not that mishaps are anything new to her. "You're talkin' to the wreck of the rodeo circuit,

honey," she smiled painfully. Her cheekbone is broken, the result of an August encounter with an angry bull.

Their biggest fear in the ring is for each other.

When her mother is in the ring, "I'm scared all the time," Dawnita says. "Especially after watching her get hurt in rodeo after rodeo."

Mrs. Edmondson says her stomach somersaults when her girls are on top of one of the snorting beasts about to charge from the chute.

"If they were scared, I wouldn't allow it," she says. "But as long as they keep a clear head, there's not going to be any serious injury."

Mrs. Edmondson plans to give the sport up "when I get too old. But I haven't gotten there yet."

Tonya thinks she'll probably go into semi-retirement once she marries later this year, but "if I have kids, I'd let them do it if they wanted to."

Dawnita is a bit more skeptical. "I'd hope there would be better things for them to do," she sighs.

More major earthquakes expected in California

EUREKA, Calif. (AP) — California may be in for a series of major earthquakes at least as strong as the one that jolted the northern coast of the state over the weekend, a top government scientist says.

"The cycle of renewed activity seems to be restarted," Robert E. Wallace, chief scientist for the U.S. Geological Survey's Office of Earthquake Studies, said Sunday.

Six people were injured but none killed in Saturday's quake, which caused little damage for its magnitude — 7.0 on the Richter scale, officials said.

The quake was the second-strongest to strike the United States since 1959, records indicated. It was weaker than the 8.4 earthquake which rumbled through Anchorage, Alaska, in 1964.

Wallace said there have been more quakes in the 5.0 to 7.0 range in the past 1½ years than in the previous decade.

"A fairly long period of quiescence has come to an end in California," he said, adding the state's major faults

have remained largely quiet since the 1906 San Francisco quake, estimated at 8.3 on the Richter scale.

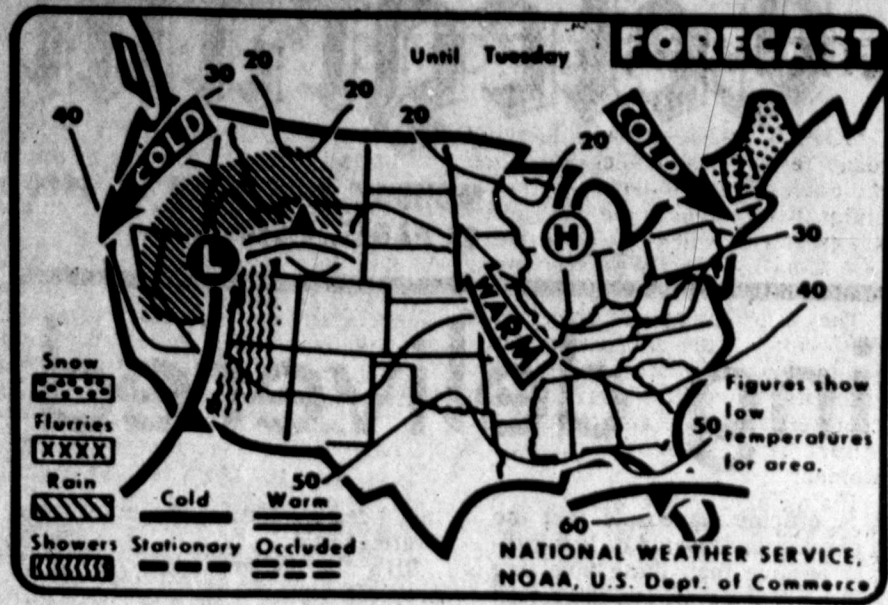

Saturday's tremor occurred 15 to 40 miles off the California coast northwest of Eureka, said Jerry Eaton, chief of seismology for the Geological Survey office in Menlo Park. The area, about 250 miles north of San Francisco, is one of the most quake-prone in California.

More than a dozen aftershocks followed the quake, the strongest of them recorded as 4.8 to 5.2, geologists said. But their strength withered Sunday and they came less often, said geologist John Longshore of Humboldt State University.

The quake upset tombstones, caused 300 feet of a freeway overpass to collapse, and knocked at least two houses from their foundations. Bottles and cans tumbled from store shelves and some pulp factory machinery was damaged, said Humboldt County disaster official William Chambers.

Texas area forecasts

West Texas: Mostly fair through Tuesday except partly cloudy southwest. Continued warm afternoons. High Tuesday 76 to 82. Low tonight 52 to 58.

Progress made on Helsinki

MADRID, Spain (AP) — The United States indicated progress by both East and West today toward breaking a deadlock over an agenda at the 35-nation meeting to review compliance with the Helsinki agreements on human rights and detente.

Legal experts said they had no idea how or if the conference could proceed beyond the opening without an agenda. An Eastern source said the Soviet Union rejected all moves toward a compromise Sunday during mediation efforts by Swiss delegate Peter Troendle, named by diplomats over the weekend to mediate the East-West dispute.

No thought to second term: Reagan

WASHINGTON (AP) — President-elect Ronald Reagan says he hasn't given any thought yet to a second term but as he approaches his first term as the oldest man ever to take the presidential oath, Reagan says he feels fine.

again? "No, I haven't thought beyond the term to which I have been elected," replied Reagan, who will turn 70 just 17 days after he takes office.

man to take the oath, he will have to serve just over three months to be the oldest man ever to sit in the oval office. Dwight Eisenhower turned 70 on Oct. 14, 1960, three months and six days before leaving office.

In each case, the vice president routinely assumed the office without controversy or complication. Moreover, the Presidial Succession Act specifies that the vice president would be the one to assume the office.

Eyesight influenced work of masters

CHICAGO (AP) — Renoir was nearsighted. Rembrandt was farsighted. Van Gogh had glaucoma. Monet had cataracts. And according to an ophthalmologist-art lover, their eye problems contributed to the greatness of their art.

The Impressionist Renoir, for example, may even have rejected eyeglasses, saying he preferred to see the world in a blur, Dr. James Ravin said.

ings are rich in detail, sharp and colorful. But in the later paintings, the focus is fuzzier and shades of yellow and orange tend to dominate.

and color changes as the works of Rembrandt, but in an even more pronounced fashion. Claude Monet, the Impressionist painter known for his "Water Lilies," was plagued by cataracts and was forced in his later years to label his paintings with numbers in order to distinguish between them, Ravin said.

Klan jury still deliberating

GREENSBORO, N.C. (AP) — The jury resumed deliberations today in the murder trial of six Ku Klux Klansmen and American Nazis charged in the shooting deaths of five communist demonstrators at a "Death to the Klan" rally last November.

Nazi members acted in self defense when they were attacked by demonstrators at the Communist Workers Party rally. Prosecutors argued that the Klansmen and Nazis, who arrived at the rally site in a nine-vehicle caravan, went to the rally "spilling for a fight" and filled with "bigotry, hatred and prejudice."

Odessa woman held for murder

ODESSA — An Odessa woman was being held in city jail early today on a \$25,000 bond in connection with the early Sunday morning fatal shooting of an Odessa man in his home.

Artist Vincent Van Gogh, shown in a self portrait done in 1888, may have suffered from glaucoma, according to Dr. James Ravin, an ophthalmologist art lover.

Afternoons stay warm

Soft breezes and warm temperatures. Sounds more like an advertisement for a tropical island in November.

Court lets Christmas pageant ruling stand

WASHINGTON (AP) — The Supreme Court, turning away a dispute over how public schools observe religious holidays, today refused to disturb how Christmas pageants are run in Sioux Falls, S.D., schools.

The pageants were attacked as unconstitutional because they include religious hymns and dialogue about the birth of Jesus.

By a 7-2 vote, the justices left intact a ruling that upheld the use of such pageants. Justices William J. Brennan Jr. and Thurgood Marshall voted to hear a challenge to conducting the pageants in public schools, but four votes are needed to grant such review.

The Sioux Falls controversy dates back to 1977, when Roger Florey's son Justin participated in a kindergarten Christmas program his father felt had excessive religious content.

Under past Supreme Court rulings, public schools are barred from sponsoring "religious exercises."

The high court outlawed mandatory school prayer in 1962, and in 1963 outlawed daily Bible readings.

Those decisions focused on the government's role and the religious purpose of each activity. The rulings had nothing to do with individual prayers by students or with the teaching of the Bible as literature.

Florey's complaints about the program spurred school officials to set up a committee to devise a formal policy about observing religious holidays.

In late 1978, the committee's recommendations were adopted. The guidelines state, in part:

"Music, art, literature and drama having religious themes or basis are permitted as part of the curriculum

for school-sponsored activities and programs if presented in a prudent and objective manner and as a traditional part of the cultural and religious heritage of the particular holiday."

They also state: "The use of religious symbols ... that are a part of a religious holiday is permitted as a teaching aid or resource provided such symbols are displayed as an example of the cultural and religious heritage of the holiday and are temporary in nature."

Florey and four other Sioux Falls residents — David Groethe, Marilyn Day, Evelyn Griess and Marilyn Fusfield — sued the school district and its officials. They charged that the guidelines violate the Constitution's freedom-of-religion protections.

A federal trial judge ruled that the guidelines, if properly administered and narrowly interpreted, are constitutional.

His ruling was upheld by a 2-1 vote of an 8th U.S. Circuit Court of Appeals panel last April 22. "The First Amendment does not forbid all mention of religion in public schools; it is the advancement or inhibition of religion that is prohibited," the panel's majority said.

"Hence, the study of religion is not forbidden ... We view the term 'study' to include more than mere classroom instruction; public performance may be a legitimate part of secular study," the panel ruled.

The entire 8th Circuit court upheld the panel's ruling by a tied, 4-4 vote.

American keep clipping those coupons, survey says

By the Associated Press

Americans are clipping more coupons than ever before, despite a campaign by one of the country's biggest food chains to do away with coupons completely.

Thirty-nine percent of the shoppers questioned by the A.C. Nielsen Co. regently released nationwide survey said they used more coupons than they did a year earlier. An additional 17 percent said they used coupons "somewhat more." Thirty-seven percent said they used about the same number of coupons as they did in 1979 and 7 percent said they used fewer.

The Nielsen study indicated that 76 percent of all households — more than three families out of four — use coupons. Other surveys have put the figure at 90 percent.

The anti-coupon campaign of a Washington-area chain which argued that shoppers would be better served if manufacturers lowered prices on all items instead of issuing coupons. Giant also said low-income consumers — who need the savings most — use coupons least because they do not buy the magazines and newspapers where the offers appear. And it claimed that fraudulent use of coupons, particularly through misredemptions, costs consumers millions of dollars.

Early this year, Giant prepared and distributed a film on coupons, including an interview with Esther Peterson, the president's adviser on consumer affairs. At the time, Barry Scher of Giant said the company would like to see coupons eliminated. "There are alternatives to coupon programs," he said.

Eileen Katz of Giant's consumer affairs department said in a recent interview that the store "received a lot of mail on the issue." She said the letter writers favored doing away with coupons by a three-to-one margin "if consumers could be assured of lower prices, of a trade off."

Giant no longer makes any coupon offers of its own, although it continues to accept manufacturers' coupons. Ms. Katz admitted the anti-coupon effort did not draw any widespread support from the rest of the industry, but add "It wasn't an active ongoing campaign. We just felt it was something we wanted to bring to the attention of the public and we did."

The Nielsen survey, meanwhile, found that use of coupons by low-income consumers has risen, although it still lags behind that of the general population as a whole. Sixty-nine percent of the low-income households questioned by Nielsen said they used coupons — up from 51 percent in a similar survey five years ago.

Richard H. Alcrim, director of marketing research for the Nielsen Clearing House, said there several possible reasons for the increase in coupon use, particularly among low-income consumers. Among the reasons, he said, were "a more broad availability of coupons in the marketplace," new ways of delivering coupons and growing media coverage of couponing which "has made consumers more aware."

The Nielsen study indicated that consumers are skeptical of the claim that eliminating coupons would lower prices. A total of 22 percent of those questioned said they thought prices would go up; 19 percent said prices would go down; and the rest were not sure or did not answer.

Seventy-two percent of the people surveyed said they liked coupons "very much;" 23 percent said they liked them slightly; and 5 percent said they disliked them.

The highest use of coupons, according to the Nielsen survey, is in the North and East Central regions. The least use of coupons is in the Southeast. Whites are more likely to use coupons than non-whites, the survey found, and people over 30 are more apt to use coupons than those under 30.

Jewish activists renew charges against Soviets

MOSCOW (AP) — Jewish activists today renewed their accusation that the Soviet Union is not honoring its emigration pledges in the 1975 Helsinki agreement, which is to be reviewed in a 35-nation, East-West meeting in Madrid this week.

They issued an appeal, signed by 75 dissidents, to the conference, but a planned press conference was not held after authorities barred Western reporters from the apartment house where it was to be held by six women.

Plain-clothes men who said they were apartment officials told reporters the main organizer of the meeting, Tatyana Lozanskaya, had "suddenly taken ill" with flu and was not home. Her whereabouts could not be determined.

Mrs. Lozanskaya has been trying to leave the Soviet Union since 1976 to rejoin her ex-husband, physicist Eduard Lozansky, a professor at the

University of Rochester, N.Y.

Ida Milgrom, the mother of imprisoned Jewish activist Anatoly Shcharansky, appealed today to the Madrid meeting for his release.

She claimed Shcharansky, condemned by the Soviets to 13 years imprisonment in 1978 for espionage, should be defended by "every principled, responsible participant of the Madrid Conference."

The petition by the Jewish activists said "conditions for the emigration of Jews from the U.S.S.R. have significantly changed for the worse."

Western statistics show that slightly more than 50,000 Jews emigrated from the Soviet Union last year — a record high — but that only 19,410 arrived in Vienna, the main transit point, from January to October this year.

Soviet authorities claim fewer Jews are now applying to leave the country.

Jury may investigate python's killing of baby

DALLAS (AP) — Police say they will ask a grand jury to investigate the death of a 7-month-old girl who slowly suffocated after being attacked by an 8-foot python that may have tried to swallow her.

Sgt. Gus Rose, investigating the bizarre death of Toni Lynn Duboe, said the reticulated python was kept as a pet, and he will present the case to a grand jury.

"It could have been hungry, and probably was," Rose said, after the snake forced its way out of a 30-gallon aquarium early Saturday and crawled into the baby's bed.

Neighbors of Mr. and Mrs. Robert Eugene Duboe said the python — named Illusion because it changed color as the light changed — said the creature was docile and unaggressive.

"He (Duboe) would let it out of the cage sometimes and it would crawl around for a minute or two and then just back into a corner and stay still," said Lonnie Mager, a neighbor who tried to calm the hysterical parents after the child was found Saturday morning.

"I didn't ever see it do anything that was aggressive."

Mager said he and his wife spent almost 30 minutes trying to find out what happened from the shaken mother. Mager said he accompanied Duboe back to the apartment and looked at the infant.

"The child was bloody, and the snake had two slash marks on the side

of its neck," Mager said. The child's father shot the snake in the head after trying to cut off its head with a knife.

"It (the snake) was lying on the floor by the crib and still moving, squirming on the floor, I guess from reflexes," Mager added. "I was sick all day yesterday."

Pathologists said the baby's head was covered with "dozens" of needle-sized puncture marks and that one set of bites was U-shaped, an indication the snake may have tried to swallow the baby.

Dallas Zoo herpetologists say the snake may have killed the child in self defense after crawling into her crib.

But Dr. Bernhard Grizmek, an animal behavior expert, said although pythons normally defend themselves by biting, "constriction is typically used against prey."

Jim Walker, a reptile keeper at the Dallas Zoo, said there have been "documented cases of pythons eating babies. That particular species of python has a rather nasty disposition."

"When they get hungry," he said, "they get pretty voracious and would strike toward a person."

Walker said the python has a hinged lower jaw that can open wide enough for the reptile to swallow a small pig.

Pythons kill their prey by coiling around their victims, then applying tremendous pressure when they feel the prey exhale. The animal is thus prevented from breathing and slowly suffocates.

Wichita Falls has rash of Sunday shootings

WICHITA FALLS (AP) — Dusk was welcome in this North Texas city Sunday night. It marked the end of the most violent Sunday anyone can remember — a bloody day of gunfire that left four men dead and a fifth hospitalized with gunshot wounds.

"Offhand I can't think of any time when this has happened before," said Police Chief Curtis Harrelson after Sunday's incidents, which apparently were unrelated.

"It just happens to be odd for any day, Sunday or any day of the week," Wichita Falls police officer Billy Henderson said. "It's out of the ordinary to have that many killings on one day in a town this size."

Harried detectives in this city of 100,000 said the shootings seemed to be unrelated and there appeared to be no logical reason for the sudden outbreak of itchy trigger fingers.

The first outburst was reported about 1 a.m. CST when a woman shot and killed a man she said was trying to break into her apartment. The victim was identified as Jimmy Don McCallister, of Wichita Falls.

About 12 hours later, two men shot it out on an eastside street, police said.

Witnesses told investigators the men began arguing about 1:30 p.m. and one man fired a .22-caliber rifle, striking his opponent three times in the chest, police said. The wounded man returned fire with a .410-gauge shotgun, killing the first man, police said.

The rifle victim died en route to a nearby hospital, police said. The victims were identified as Oliver Evans, 34, who died en route to the hospital, and Keith Hutchinson, 25, both of Wichita Falls.

About 2 p.m., a man and woman found the body of a fourth shooting victim on the north end of Lake Wichita Dam, investigators said.

The man apparently had been beaten and shot in the head, but authorities did not know how long he had been dead, Henderson said.

The body was sent to Dallas for an autopsy and the victim's identity was being withheld, Henderson said.

A fifth man was in stable condition in Wichita General Hospital today after he was shot three times with a .22-caliber pistol, police said. The victim, Ronnie Adams, apparently was shot during a family argument, investigators said.

Vatican disavows historian's criticism of Martin Luther

VATICAN CITY (AP) — The Vatican disavowed a German Catholic criticism of Martin Luther after it threatened to put a chill on Pope John Paul II's meeting with Lutheran leaders during his visit to West Germany next week.

A Vatican specialist on relations with the Lutherans, Monsignor Aloys Klein, said the criticisms of the leader of the 16th Century Protestant Reformation in a booklet distributed by the German Bishop's Conference did not reflect the position of the Roman Catholic Church. He said church officials in West Germany were publishing an epilogue to correct the statements.

The pope in his weekly blessing Sunday to the crowd in St. Peter's Square also sought to soothe the angered German Protestants by emphasizing his plans to meet with them during his five-day visit beginning Saturday.

"I consider this visit particularly important also from an ecumenical point of view, all the more since it comes on the 450th anniversary of the famous Augsburg Conference, he said.

The Augsburg Confession was an unsuccessful attempt by Lutherans to achieve doctrinal reconciliation with the Roman church.

About half the 63 million West Germans are Protestants, and most of them are Lutherans, while about half are Roman Catholics.

The booklet that angered the Lutherans, "Short History of the German Church," was by Catholic historian Remigius Baeumer and was issued to give background information on the pope's visit.

In it Baeumer said Luther's "Reformation brought no reform, but the splitting of the Church."

It also said Luther's writings were not original but were just a re-

hash of the arguments of most Catholic interpreters of the Bible in the Middle Ages.

Baeumer followed this with a newspaper interview in which he said only a "complete idiot" could expect the pope to apologize for the excommunication of Luther.

A spokesman for the Lutheran Church, Dietrich Sattler, told another German newspaper the booklet angered many Protestants and "has not made members of the Lutheran Council eager to meet with the pope." But he said the council would go through with the meeting.

The German Bishop's Conference indicated in a statement that it was unaware of what Baeumer had written and would publish a new addition with an "explanation."

White lobbying to save his job

WASHINGTON (AP) — Democratic Party Chairman John White has been making telephone calls to prominent Democrats as he lobbies hard in an effort to hold on to his job despite his party's election losses last week, sources say.

White reportedly is asking to stay on as chairman until next fall, when he hopes to return to Texas and run for public office, probably for governor.

The party's executive committee meets Dec. 10. An election is scheduled for the end of February.

White's spokesman, Bob Neuman, said White has not decided whether to seek a new term.

Winterize your home against insects, pests

Winterizing your home doesn't also mean weatherstripping and storm windows. To "winterize" against insects and crawling pests means Johnston's No-Roach.

Johnston's No-Roach is odorless and easy to apply. A thin coat of Johnston's No-Roach brushed in cabinets, on baseboards, on door sills and window sills can keep cockroaches, ants, spiders and silverfish from making your home their comfy winter haven.

One application of Johnston's remains effective for months, too.

No need to move dishes or food when you use Johnston's No-Roach.

The easy-to-use brush applicator allows you to get into the cracks and crevices where roaches creep in. Just brush the colorless, odorless coating where you want it. It dries quickly to form an invisible barrier against the pests that stays effective almost all winter.

Keep your family comfortable and healthy this winter. Winterize your home against roaches and other crawling pests with Johnston's No-Roach.

Johnston's No-Roach is available at Furr's, M System, Albertson's, 7-11, Walgreen's and your favorite grocery stores. Johnston's is distributed by Winn-Dixie from Fort Worth.

Now's the time to winterize your home against roaches with Johnston's No-Roach. It's odorless and dries quickly to form an invisible barrier that remains effective for months. Don't let roaches make a comfy winter home under your cabinets. Keep them out with Johnston's No-Roach.

Grace Pryor, manager of The Care Corner, can show you a full line of nutritional aids and beauty products to make you a more healthy and beautiful you. Specializing in natural treatments, The Care Corner even offers natural, biodegradable laundry detergent to give your clothes a fresh scent and a natural feel. Come by The Care Corner at 4305 W. Illinois Ave. to look over nature's beauty supplies.

Aloe Vera products are available at Care Corner

For thousands of years, stories have been told of the mysterious healing properties of the gel contained in the Aloe Vera plant. For people living in tropical climates where the plant flourishes, the gel has had widespread use as a "medicine" and a nutrient for the skin and hair.

Today Aloe Vera products can be found right in your neighborhood at The Care Corner at 4305 W. Illinois Ave. The Care Corner offers a full-line of Aloe Vera products for the hair and skin, including natural cosmetics and skin care treatments.

There's even a cello gel of 100 percent stabilized Aloe Vera that can be taken in tablet form. Naturally packed with vitamins, minerals and amino acids, the cello gel tablet is a power-packed substance, which, used as a diet supplement, gives a fine, healthful addition to your body's

maintenance.

Ava Care cosmetics made with Aloe Vera not only give you color and make you look beautiful, they even help keep your skin lovely with the nutrients it needs. And The Care Corner has popular shades for the cosmetic look you want.

Cleansers and rejuvenating cremes also come with the Aloe Vera mixture to continue your daily skin care process.

The Care Corner offers other vitamins to keep you healthy the natural way, too. Other natural products, such as biodegradable laundry detergent, are also available at The Care Corner.

To keep yourself looking good and feeling good with natural stabilized Aloe Vera and other vitamins, come by The Care Corner at 4305 W. Illinois Ave.

Ford to recall additional cars due to engine fan problems

DETROIT (AP) — Ford Motor Co. will recall an additional 523,000 cars to replace engine fans that could throw off their blades and injure someone if the hood is up, Ford said today.

The campaign, the eighth of its kind, brings to about 2 million the number of Ford vehicles recalled in the past three years to fix engine fans.

Cars involved in the latest recall are 1973 and 1974 Ford models equipped with the 5.7-

liter (351 cubic inches) V-8 engine and air conditioning, and 1977 Mercury Cougar and Ford Thunderbird and LTD-II models with the same engine and air conditioning.

Seven people have been injured by broken fans on those cars, spokesman John Emmert said. He said he did not have a count of how many had been injured overall.

A Detroit-area mechanic was killed by a

blade in 1977.

Each recall has involved fan assemblies of slightly different design, Ford said, though all are of the so-called "flex fan" with flexible steel blades attached to a hard steel hub.

Blades break, Emmert said, because they "may be subject to high stresses as a result of resonant vibrations during normal engine operation."

Between 1970 and 1977, about 6.2 million vehicles received the fans.

Actor found dead

LOS ANGELES (AP) — Victor Sen Yung, who portrayed Hop Sing, the cook on television's long-running "Bonanza" series, has been found dead in his North Hollywood-area home, authorities said today. He was 65.

The decomposed body was identified early today through fingerprints, according to Edward Collier, a senior investigator for the Los Angeles County Coroner's Office.

Yung's body was found Sunday afternoon in his house, which was filled with natural gas. Authorities were trying to determine whether the death was accidental, Collier said.

Yung, who made 18 appearances in the Charlie Chan series of 47 movies, lived alone at home where he reportedly operated a mail-order Chinese pottery business.

Jim Loomis, a neighbor, told reporters he had not seen the actor in 10 days, the length of time police estimate Yung had been dead. Loomis said Yung "seemed in good spirits" the last time he saw him.

The body was found after police were called to the house, smelled gas and notified firefighters.

Yung, whose legal name was Victor C. Young, achieved his greatest fame during the 14-year run of NBC-TV's

Victor Sen Yung

"Bonanza," on which he played Hop Sing, the cook for the Cartwright clan.

The series was canceled in 1973.

His first film role was as Charlie Chan's second son, Jimmy, in the 1938 film, "Charlie Chan in Honolulu." Sidney Toler played Chan.

Other films included "The Letter," in 1940; "Across the Pacific"

1942; "The Breaking Point," 1950; "The Left Hand of God," 1955; "Flower Drum Song," 1961; and "A Flea in Her Ear," 1968.

He also played cousin Charlie Fong in the 1960s TV series, "Bachelor Father."

Yung narrowly escaped serious injury in 1972 when a Pacific Southwest Airlines plane he was on was hijacked.

DEATHS Phyllis Armstrong

LUBBOCK — Services for Phyllis Armstrong, 51, of Lubbock, mother of Larry Armstrong of Midland, will be at 2 p.m. Tuesday in Highland Baptist Church with the Rev. Richard Waters, pastor, and the Rev. James O. Brandon, pastor of Southcrest Baptist Church, officiating.

Burial will be in Resthaven Memorial Park directed by Resthaven Funeral Home.

Mrs. Armstrong died Sunday in a Lubbock hospital following an illness.

The Slaton native was a registered nurse who had worked for an area doctor for 30 years and for St. Mary's Hospital a year. She was a member of Highland Baptist Church. She was a member of the Veterans of Foreign Wars Auxiliary and BPOE Does, affiliated with the Elks Lodge.

Other survivors include her husband, two daughters, her parents, and two sisters.

Edmond Ramirez

HEREFORD — Services for Edmond Ramirez, 1, of Hereford, grandson of Severa Ramiro of Midland, were to be at 11 a.m. today at St. Joseph's Catholic Church here with Father James O'Conner, pastor, officiating.

Burial was to be in St. Anthony's Cemetery directed by Gilliland-Watson Funeral Home.

The boy died Saturday in a Hereford hospital from injuries suffered when he was struck by a pickup truck in his yard.

Ramirez was born in Amarillo. Other survivors include his parents, two brothers, a sister, his grandparents, and another great-grandparent.

Carl Wessels

WINTERS — Services for Carl W. Wessels, 74, of Winters, father of Mrs. William (Wanda) Howell of Midland, will be at 10:30 a.m. Tuesday in St. John's Lutheran Church. Burial will be in Lutheran Cemetery directed by Winters Funeral Home.

He died Sunday in a San Angelo hospital after a brief illness.

Wessels was born April 18, 1906, in Fairfield Tampico, Ill. He was married Dec. 25, 1933, to Lydia Emma Kruse in Westhoff. She died July 18, 1979. He farmed near Hatchel and Poe communities before moving in 1974 to Winters. Wessels was a member of St. John's Lutheran Church.

Other survivors include a daughter, two sisters, five grandchildren and a great-grandchild.

Brithel C. Evers

ODESSA — Services for Brithel Clyde Evers, 81, of Odessa, father of Kenneth W. Evers of Midland, were Sunday in Hubbard-Kelly Funeral Home chapel. Burial was in Sunset Memorial Gardens.

He died Friday in an Odessa hospital.

Evers was born July 6, 1899, in McKinney. He came to Odessa in 1933. He was a retired oilfield driller. Evers was married Dec. 14, 1930, to Myrtle Mae Evers in Sherman.

Other survivors include his wife and two grandchildren.

Actor's skull has role

WEST WINDSOR, N.J. (AP) — George Frederick Cooke, who was a hit in Great Britain as a Shakespearean actor in the 18th and early 19th centuries, makes his television debut this week — in the only role he could play.

What's left of him will be on center stage when Hamlet lifts a skull and intones, "Alas, poor Yorick." Cooke's skull will be used in the Mercer Community College production of the Shakespeare play.

Cooke one of the first British actors to become famous in the United States. His skull was preserved and will be on loan from Thomas Jefferson University, a Philadelphia medi-

cal school, for the play, which begins Friday night.

In "Hamlet," Yorick was a jester who played with Hamlet when the melancholy Dane was a young boy. Actor Erick Fredricksen will speak the famous lines while holding Cooke's skull.

It's believed that Cooke's physician had the actor's body buried but saved the skull for experimentation.

Arthur H. Saxon, a Cooke expert at Temple University in Philadelphia, traced the skull to Thomas Jefferson University.

John Tymour, a librarian there, said the skull was left to the school by Ross Paterson,

"Southwestern Bell presents 37 Long Distance uses, skills and techniques nobody ever taught you."

Something for every business person.

School may have taught you to write business letters and communicate face-to-face, but did anyone ever show you how to use the telephone to your best advantage?

Your telephone is the best business communications tool you've got!

That's why Southwestern Bell has published this helpful booklet called "37 Ways to Become More Effective By Long Distance." And it's yours free, just by mailing the coupon below.

You'll find a wealth of useful information inside, including practical suggestions like these:

- How to plan your Long Distance efforts by organizing a calling schedule.
- How to maximize your calling time by learning the best hours to call certain kinds of prospects or customers.
- How to reduce overdue accounts by setting up a Long Distance collection program.

Grimes County chosen as prison site

HOUSTON (AP) — The Texas Department of Corrections Board may end a frustrating 2-year search for a prison farm site today by approving a previously unmentioned tract in Grimes County, a board member says.

The board was to hear from a site selection team during today's meeting in Huntsville. Board member Ruben Montemayor said this weekend the board's choices have, in effect, narrowed to the 6,000-acre site 75 miles northwest of here.

"If it (a recommendation to for the Grimes County tract) comes before the board, we'll pick it," said Montemayor, of San Antonio. "Time is of the essence."

Two previous selections by the board have gone down the drain and negotiations for a tract of land in Walker County, which borders Grimes County, though last month when the seller withdrew offer.

Montemayor said the Brazos Valley tract "prohibitively searching for a new prison farm site two years ago and had targeted the lower Rio Grande Valley because of

long growing season, but those plans fell through.

In May of this year a plan to buy the 5,300-acre La Casita Farm in Starr County along the Mexican border was killed by overwhelming local opposition.

Travel vouchers submitted to the Comptroller's office by a member of the selection committee indicated he had made visits to Eagle Pass, Cotulla, Clarksville and Huntsville.

There was no mention of Grimes County.

Board member Harry Whittington said last week the new site was "not in the Valley," but would release the proposed site. He said some area residents knew about the plan, but general advance secrecy was advocated. The Grimes County site came under local fire two weeks ago when advertisements protesting the proposal were printed in a Grimes County newspaper.

The most vocal opponent, Charles Coates,

said a state-owned prison farm will remove valuable land from county and school tax rolls and create demands for local services paid for by Grimes County residents.

"It's not real comfortable living next to a prison farm because the people there are not first-class citizens," said Coates, who owns 150 acres adjacent to the proposed site.

He said the TDC should find a site far away from populated areas.

The site fronts FM 1227 near Courtney and consists of five tracts belonging to five separate owners, said Betty Jane Burlin, president of the Grimes County Chamber-Commerce real estate agent who represents the owners.

The location is 15 miles south of Navasota, a town of about 5,000.

Mrs. Burlin said the prison farm has a projected payroll of \$2 million and 250 employees, many of whom will live in the county.

"I don't see how that can do anything but help the economy," she said.

She would not disclose the names of the owners or a purchase price.

If approved by board members, the site must be endorsed by a three-member panel comprised of Gov. Bill Clements, Land Commissioner Bob Armstrong and TDC Board Chairman James Windham. Clements has promised public hearings before any decision is finalized.

Polish court rules in favor of union

WARSAW, Poland (AP) — The Polish Supreme Court ruled today in favor of the nation's biggest independent union, Solidarity, and registered its charter without the hotly-disputed clause asserting the Communist Party's supremacy.

The moved overruled a lower court decision that the clause be inserted in the charter and defused a showdown between the government and Solidarity, which threatened to strike Wednesday if the high court rejected its appeal.

Union leader Lech Walesa arrived at the downtown Warsaw court house a few minutes before the court convened, and there were plans for him to call off strike preparedness plans at a televised news conference this afternoon.

The Supreme Court's presiding judge, Witold Formanski, said in an oral explanation that the lower court had "no right to either cross out any sections of the charter, nor to add anything."

The Polish government indicated Sunday it was not giving any ground in the case, and began restricting foreign correspondents in an apparent move to limit coverage of possible new strikes.

Dozens of foreign correspondents were denied entry to the country at Warsaw's international airport. Correspondents already in the country on visitors visas were called to the passport office and were expected to be told to leave Poland.

Customs guards said the government has ordered that only reporters permanently based in the country would be allowed to remain. These presumably would include the resident foreign correspondents of the New York Times, the British and West German new agencies and West German television.

The Associated Press and United Press International employ Polish citizens as their full-time correspondents.

In the legal showdown, Solidarity asked for cancellation of a lower court's order last month including in the union's charter a clause affirming the supremacy of the Communist Party.

Solidarity, which claims to represent 10 million of Poland's 18 million workers, said the clause undermined the independence promised the unions during the labor uprising last summer. They said it wasn't needed since the union recognizes Article 3 of the Polish Constitution, which states the party is the "leading political force of society in the building of socialism."

"This constitutional provision is clear enough and there is no need for any additional interpretation," one of Solidarity's chapters said in an article Sunday in a Silesian newspaper.

But PAP, the official news agency, indicated that the government would insist on acceptance of the amendment of its charter. It said more than 20 smaller independent unions have made declarations affirming the party's leading role, so "there is no need to remind how great an importance this declaration has in the statutes of the new trade unions, a declaration

which determines the ideological face of the new movement."

Solidarity said earlier if the Supreme Court ruled against it, it would launch a series of strikes in selected industries around the country, beginning Wednesday. It was distributing detailed strike instructions to its members during the weekend, and Walesa and other officials of the union met in Warsaw Sunday. But they refused to tell reporters what they decided.

Warsaw Radio said there would be no victors in a strike, "only the vanquished."

Polish television showed film of joint Soviet-Polish military exercises believed held in northern Poland. It appeared to be a warning of Soviet military intervention if a new strike wave broke out.

Head lice gone

TULSA, Okla. (AP) — Business is back to normal today at the University of Tulsa. The head lice apparently are gone, officials say.

Classes and business operations were canceled Friday, when the university "fumigated every building on campus," Jim Lamb, assistant director of university relations, said Sunday.

"As far as I know, it's ended," said Lamb.

The outbreak of the tiny, blood-sucking parasites was discovered a week ago when two women students reported they had lice. By Thursday, about 200 of the 6,200 students at Oklahoma's largest private university were found to have lice.

Lamb said the fight against the lice almost stalled when the university ran out of a special shampoo that helps infested people get rid of the pests. Some 195 cases of shampoo had to be airlifted from Houston.

The chemicals used in fumigation — the same kind used to keep lice out of the Tulsa County Jail — were safe for people, but Lamb said "some of us were afraid that we'd lose plants that were too big to move" from offices and classrooms. A post-fogging check of the plants indicated they had survived, he said.

Whether the university has truly won the war against the head lice remains to be seen, Lamb said.

"The kids have to keep after them," he said. During the next few weeks, those being treated for lice must "wash with the shampoo three times to be on the safe side."

Beirut bombings return

BEIRUT, Lebanon (AP) — Two booby-trapped cars exploded today in a crowded public square in predominantly Christian East Beirut and first reports indicated 20 people were killed and 50 wounded, police said.

The square, in the residential neighborhood of Ashrafieh, was filled with lunch hour crowds when the bombs exploded within five minutes of each other, witnesses said.

One bomb went off outside a pharmacy and the second exploded in a parking lot facing a movie theater about 500 yards away, a police spokesman said.

The spokesman said 19 cars parked near the Sunset movie theater went up in flames as fire trucks and ambulances rushed to the square to help get the victims to hospitals.

Shops quickly closed around the stricken areas and streets were deserted. Only militia forces of Lebanon's rightist Phalange Party, which controls Beirut's eastern half, were supervising rescue operations, the spokesman said.

It was the fifth such explosion in East Beirut since Phalangist military commander Bashir Gemayel cracked down on the main rival militia of former President Camille Chamoun's National Liberal Party on July 7.

East Beirut has been hit by a wave of car bombings and in recent weeks militias of Gemayel and Chamoun have repeatedly clashed. An estimated 300 people have died in the violence since July.

Some police sources say the car bombings may be the work of disgruntled NLP supporters.

Gemayel has also been accused by leftists of seeking to proclaim a breakaway Christian state in Phalangist-held areas, which cover about one-fifth of 4,015 square-mile Lebanon.

Gemayel denied the allegations Sunday in a magazine interview.

Gemayel's Phalangists are also locked in a feud with the militia of former Christian president Suleiman Franjeh, who controls Zagaratha province on the northern edge of Mount Lebanon. Franjeh is an ally of the Syrian peacekeeping force in Lebanon.

Franjeh blamed Gemayel for the massacre of his elder son Tony, his wife and 3-year-old daughter along with 30 supporters at the Franjeh summer villa in the northern town of Ehdun on April 13, 1978.

Gemayel has escaped two assassination attempts since. In the last attempt, his 19-month-old daughter and four bodyguards were killed.

needed since the union recognizes Article 3 of the Polish Constitution, which states the party is the "leading political force of society in the building of socialism."

"This constitutional provision is clear enough and there is no need for any additional interpretation," one of Solidarity's chapters said in an article Sunday in a Silesian newspaper.

But PAP, the official news agency, indicated that the government would insist on acceptance of the amendment of its charter. It said more than 20 smaller independent unions have made declarations affirming the party's leading role, so "there is no need to remind how great an importance this declaration has in the statutes of the new trade unions, a declaration

Pope sees bitter Mideast conflict

VATICAN CITY (AP) — Pope John Paul II said today a Middle East settlement that does not address the Palestinian problem and the question of Jerusalem "could spark an ever more bitter conflict."

The pontiff, receiving credentials from a new Egyptian envoy, said: "Any so-called peace which would not take into account all the elements of divergency and which would not ultimately include all the parties who are directly concerned would risk being ineffective and could spark an ever more bitter conflict."

He told Ambassador Moustafa Kamal el-Diwani at a Vatican ceremony that he has followed closely President Anwar Sadat's "efforts to build a lasting peace."

The pope did not mention Israel or any other country except Egypt in his brief remarks.

In recent months, Pope John Paul has spoken out several times on the sta-

tus of Jerusalem and the plight of the displaced Palestinians.

In an official position paper issued June 30, the Vatican warned that "any unilateral act tending to modify the status of the Holy City would be very serious" and called for safeguards enforced by an international body to guarantee religious rights of Jews, Moslems and Christians in Jerusalem.

Israeli military forces occupied the eastern half of Jerusalem during the June 1967 war. Israel formally annexed the city in August this year.

And I am happy to receive from you the confirmation that the efforts will continue despite all difficulties, the pope said. "In fact, precisely because the tensions and dangers have increased in recent times, the work of peace ... must go on."

Speaking in English, Pope John Paul told the envoy that peace efforts "must be intensified until a comprehensive peace is achieved — a peace which provides for an equitable solution to all aspects of the Middle East crisis, including the Palestinian problem and the question of Jerusalem."

Zimbabwe factions fighting

BULAWAYO, Zimbabwe (AP) — Fighting intensified today between rival black nationalist guerrillas camped around Bulawayo, Zimbabwe's second-largest city, with security sources reporting at least 18 persons killed and more than 60 wounded.

The fighting erupted Sunday with a clash in which at least one person died and 34 were wounded, police said.

It was the worst fighting between the rival guerrilla armies of Prime Minister Robert Mugabe and Home Affairs Minister Joshua Nkomo since the country gained independence from Britain on April 18, following Mugabe's February election victory.

Hundreds of blacks were fleeing the black townships near the fighting and police sealed off the area to prevent anyone from entering.

Today's fighting erupted at about 5:30 a.m. local time and continued past noon with automatic weapons fire, machine gun bursts and the explosions of artillery shells and mortar

rounds heard in the city.

Among those killed today were three blacks who were driving past the scene of the fighting and one white man, security force sources said.

About 50 national army soldiers manned roadblocks in trucks and armored vehicles deployed around the area of the fighting, the South African Press Association reported.

Guerrillas, dressed in civilian clothing, opened fire on the army at one point, SAPA said. It gave no details.

Zimbabwe's army is made up of former members of the two guerrilla armies and troops of the former Rhodesian army, who fought the guerrillas in a seven-year war in defense of white-minority rule.

More than 3,000 armed members of the two former guerrilla armies have been temporarily housed in camps in Bulawayo's black townships.

Sunday's clash followed an attempt by Nkomo supporters to disrupt a rally by Mugabe's party in this Nkomo stronghold.

West Texas wildcats set; Glasscock discovery finals

Wildcat operations have been announced in Andrews, Nolan, Sutton, Runnels and McCulloch counties, and a discovery has been completed in Glasscock County.

ANDREWS EXPLORER
Hanson Corp. of Midland will drill a 13,000-foot new pay wildcat in the McFarland multipay area of Andrews County, 12 miles northeast of Andrews.

It is No. 1 Bird, 660 feet from south and 2,310 feet from east lines of section 33, block A-19, psi survey.

NOLAN WILDCATS
Esperanza Energy Corp. of Dallas will drill two wildcats in Nolan County, five miles north of Blackwell.

Each is contracted to 6,000 feet for tests of the Ellenburger, they are in the seven-well White (Gardner) field area.

No. 6 Jordan is 1,861 feet from south and 1,673 feet from east lines of section 24, block Z, T&P survey.

Esperanza Energy No. 7 Jordan will be dug 1,774 feet from south and 2,461 feet from west lines of section 24, block Z, T&P survey.

Fisher-Webb Inc. of Abilene staked No. 1 J. Arledge as a 6,000-foot wildcat in Nolan County, eight miles south of Maryneal.

Location is 467 feet from south and east lines of section 16, block 1-A, H&TC survey and one location south of one of the two-wells in the East (Canyon oil) field which produces at 5,042 feet.

SUTTON EXPLORERS
HNG Oil Co. of Midland announced locations for a pair of wildcats in Sutton County, and Marshal R. Young Oil Co. of Fort Worth staked site for another wildcat.

HNG Nod. 1-50 Wallace is to be drilled to 7,900 feet 933 feet from south and 833 feet from west lines of section 51, block 14, TW&NG survey and 13 1/2 miles southeast of Sonora.

It is 3/4 mile southeast of a 6,556-foot dry hole and 1 1/2 miles east of the lone well in the Wallace, South (Strawn lime gas) field.

The project also will test for production in the Sawyer (Canyon gas) field pay. It is 2 1/2 miles northeast of the closest production from that zone.

HNG No. 1-51 Wallace, another 7,900-foot wildcat, will be drilled 933 feet from south and 833 feet from west lines of section 51, block 14, TW&NG survey.

It also is 13 1/2 miles southeast of Sonora. It is 3/8 mile northeast of a 6,150-foot dry hole and one mile north of gas production in the Miers multipay field and 1 1/2 miles northeast of the Sawyer (Canyon gas) production.

Marshall R. Young Oil Co. will dig No. 1 Joseph and others as a 4,500-foot wildcat 24 miles east of Sonora in Sutton County.

Location is 1,980 feet from north and west lines of section 24, block A, GWT&P survey. Ground elevation is 2,329 feet.

The drillsite is 1 1/2 miles southeast of a 5,310-foot dry hole and 2 1/2 miles southeast of the lone well in the Big Dusty (Ellenburger detrital gas) field which produces at 4,276 feet.

MCCULLOCH EXPLORER
Sunbelt Exploration Inc. of Fort Worth No. 1 Pueti is a new 2,000-foot wildcat in McCulloch County, 2 1/2 miles southeast of Salt Gap.

The project is 350 feet from north and 2,780 feet from east lines of H&TC survey No. 39, abstract 621.

The site is 1 1/2 miles southeast of the Depleted Siler-Johnson (Pennsylvanian) field.

RUNNELS LOCATIONS
The Desana Corp. of Midland announced plans to make an attempt to reopen Gardner sand oil production in the Nora field of Runnels County, five miles southeast of Winters.

The attempt will be made at No. 1 Rogers, a 4,300-foot project 4,700 feet from outland 8,900 feet from the most easterly west line of Elisha Mather survey No. 535. Ground elevation is 1,813 feet.

Tex-Star Petroleum, Inc., of Abilene No. 4 Aldridge will be drilled as a 4,700-foot wildcat in Runnels County, four miles west of Goldsboro.

Location is 2,975 feet from north and 5,800 feet from east lines of David Moses survey No. 521.

GLASSCOCK DISCOVERY
Hanson Corp. of Midland No. 1 Birge has been completed as a lower Leonard discovery in Glasscock County, 13 miles northeast of Garden City.

The strike finalized for a daily flowing potential of 83 barrels of 35-gravity oil and no water, through a 10/64-inch choke. The gas-oil ratio is 180-1.

The completion was through perforations from 5,900 to 5,913 feet after a 2,000 gallon acid treatment.

Hole is bottomed at 9,580 feet, 4 1/2-

inch pipe is set at 9,122 feet and hole is plugged back to 5,959 feet. The pay was topped at 5,898 feet on kelly bushing elevation of 2,667 feet.

The operator reported the following tops: Yates, 1,650 feet; Seven Rivers, 1,740 feet; Grayburg, 2,250 feet; Woodford, 9,338 feet; Fusselman 9,391 feet and Ellenburger 9,492 feet.

Wellsite is 1,980 feet from north and 660 feet from east lines of section 183, block 29, W&NW survey.

REEVES LOCATION
Gulf Oil Corp., operating from Monahans, announced location for a 5,250-foot project in the Waha, North (Delta-

ECTOR AREA
Viking Energy Corp. of Odessa will re-enter and clean out for tests of the Devonian in the former Woodward & Co. No. 1 Sallie W. Ratliff, a 13,777-foot failure in Ector County which was abandoned in November 1968.

The project will clean out to 12,370 feet by Viking as the No. 1 Ratliff "A."

It is 660 feet from south and east lines of section 48, block 42, T-1-S, T&P survey, six miles north of Odessa.

IRION PROJECT
Merit Oil Co. of San Angelo No. 4 Mark Lackey is to be drilled 1,500 feet north of its No. 1 Lackey, reopener of the one-well Lucky-Mag (San Angelo) field of Irion County, six miles north of Mertzon.

The project, scheduled to 1,600 feet, is 1,273 feet from north and 1,915 feet from east lines of section 21, block 2, H&TC survey.

CROCKETT LOCATIONS
Warren American Oil Co. of Midland will dig a pair of projects in the Farmer (San Andres oil and gas) area of Crockett County. Each is scheduled to 2,800 feet.

No. 1-236 University of Texas is 3/4 mile northwest of production, 12 miles south of Big Lake and 330 feet from south and 2,310 feet from west lines of section 2, block 51, University Lands survey. Ground elevation is 2,645 feet.

Warren American No. 1-235 University, is 1 1/2 miles east of production, 14 miles southeast of Big Lake and 990 feet from south and 330 feet from west lines of section 4, block 46, University Lands survey.

Blocker purchases three rigs
The inland-water rig is capable of drilling 25,000 feet in water depths of up to 12 feet. The posted barges are capable of drilling to 20,000 to 25,000 feet in water depths of up to 16 feet. All three rigs are presently in service.

HOUSTON — Blocker Drilling & Marine, an affiliate of Blocker Energy Corp., announced that it has purchased an inland-water and two posted-barge drilling rigs from Progress Marine, Inc., a wholly-owned subsidiary of Buttes Gas & Oil Co.

DRILLING REPORT

BORDEN COUNTY
Parker & Parsley, Inc. No. 1 Toombs, 12,518 feet, set 8 1/2-inch casing at 2,318 feet, waiting on cement and nipping up blowout preventers.

CHAVES COUNTY
Harper Oil Co. No. 1 Newlin, 11,825 feet, still waiting on completion unit.

CULBERSON COUNTY
Orla Petco, Inc. No. 2 Bill Meeker, drilling 1,486 feet in shale and lime.

DAWSON COUNTY
RK Petroleum Corp. No. 1 Simpson, 11,485 feet, testing.

EDDY COUNTY
Pogo Producing Co. No. 1 Brantley-Pedro, 12,518 feet in shale, system.

GAINES COUNTY
GMW Corp. No. 1 Micanopy, drilling 1,156 feet in anhydrite.

GARZA COUNTY
Hanson Corp. No. 1 Post-Montgomery, 11,825 feet in lime, took drillstem test from 3,496-3,525 feet.

ECTOR COUNTY
Marathon No. 2 J. D. Slaton, TXL, North (Wadwell), 11,758 feet, still testing.

EDDY COUNTY
Cities Service No. 1 Villa Com-munized "BKD," 11,314 feet, going in hole to drill through top of liner.

LEA COUNTY
Pogo Producing Co. No. 1 State "BKD," 11,314 feet in shale.

LOVING COUNTY
Adams Exploration Co. No. 1 State, 11,314 feet, 11,314 feet in shale.

LUBBOCK COUNTY
Hunt Energy Corp. No. 1 H. D. DeBusk, drilling 11,815 feet in shale.

LYNN COUNTY
Exxon No. 1 W. C. Huffacker, drilling 9,277 feet.

MARTIN COUNTY
RK Petroleum No. 1 Phillips-Guthrie, 10,672 feet, testing.

MCCULLOCH COUNTY
Wildcat Earl T. Warren, San Angelo, No. 1 Bennett, 10,672 feet, testing.

STONEWALL COUNTY
Pogo Producing Co. No. 1 A. W. McCoy, 11,314 feet in sand and shale, working stuck pipe, conditioning mud.

VAL VERDE COUNTY
Cities Service Co. No. 1 West "B," drilling 1,980 feet in sand and shale.

WARD COUNTY
Cities Reserves Group No. 1 East Vermaja, drilling 1,832 feet in sand.

WINKLER COUNTY
Exxon No. 363 Haley Unit, did 18,320 feet, 18,321 feet, shut-in, still waiting on completion unit.

ANDREWS COUNTY
Cities Service No. 5 King "B," Deep Rock (Devonian), drilling 4,905 feet in lime.

DAWSON COUNTY
MGF No. 1 Dean, Felken, South (Spraberry), 11,758 feet, shut-in to set pumping unit, perforations at 4,633-4,672 feet.

ECTOR COUNTY
Marathon No. 2 J. D. Slaton, TXL, North (Wadwell), 11,758 feet, still testing.

EDDY COUNTY
Cities Service No. 1 Villa Communized "BKD," 11,314 feet, going in hole to drill through top of liner.

LEA COUNTY
Pogo Producing Co. No. 1 State "BKD," 11,314 feet in shale.

LOVING COUNTY
Adams Exploration Co. No. 1 State, 11,314 feet, 11,314 feet in shale.

LUBBOCK COUNTY
Hunt Energy Corp. No. 1 H. D. DeBusk, drilling 11,815 feet in shale.

LYNN COUNTY
Exxon No. 1 W. C. Huffacker, drilling 9,277 feet.

MARTIN COUNTY
RK Petroleum No. 1 Phillips-Guthrie, 10,672 feet, testing.

MCCULLOCH COUNTY
Wildcat Earl T. Warren, San Angelo, No. 1 Bennett, 10,672 feet, testing.

STONEWALL COUNTY
Pogo Producing Co. No. 1 A. W. McCoy, 11,314 feet in sand and shale, working stuck pipe, conditioning mud.

VAL VERDE COUNTY
Cities Service Co. No. 1 West "B," drilling 1,980 feet in sand and shale.

WARD COUNTY
Cities Reserves Group No. 1 East Vermaja, drilling 1,832 feet in sand.

WINKLER COUNTY
Exxon No. 363 Haley Unit, did 18,320 feet, 18,321 feet, shut-in, still waiting on completion unit.

ANDREWS COUNTY
Cities Service No. 5 King "B," Deep Rock (Devonian), drilling 4,905 feet in lime.

DAWSON COUNTY
MGF No. 1 Dean, Felken, South (Spraberry), 11,758 feet, shut-in to set pumping unit, perforations at 4,633-4,672 feet.

ECTOR COUNTY
Marathon No. 2 J. D. Slaton, TXL, North (Wadwell), 11,758 feet, still testing.

EDDY COUNTY
Cities Service No. 1 Villa Communized "BKD," 11,314 feet, going in hole to drill through top of liner.

LEA COUNTY
Pogo Producing Co. No. 1 State "BKD," 11,314 feet in shale.

LOVING COUNTY
Adams Exploration Co. No. 1 State, 11,314 feet, 11,314 feet in shale.

LUBBOCK COUNTY
Hunt Energy Corp. No. 1 H. D. DeBusk, drilling 11,815 feet in shale.

LYNN COUNTY
Exxon No. 1 W. C. Huffacker, drilling 9,277 feet.

MARTIN COUNTY
RK Petroleum No. 1 Phillips-Guthrie, 10,672 feet, testing.

MCCULLOCH COUNTY
Wildcat Earl T. Warren, San Angelo, No. 1 Bennett, 10,672 feet, testing.

STONEWALL COUNTY
Pogo Producing Co. No. 1 A. W. McCoy, 11,314 feet in sand and shale, working stuck pipe, conditioning mud.

VAL VERDE COUNTY
Cities Service Co. No. 1 West "B," drilling 1,980 feet in sand and shale.

Want to know what it's like 16,000 feet down in a wildcat well in Wyoming? Halliburton Services technician Jody Allen can recreate the pressures

and temperatures encountered in such a well at Halliburton's new \$40,000,000 research complex recently opened at Duncan, Okla.

NM, WT oil, gas activity announced

Mitchell Energy Corp. of Midland announced location a 2,000-foot wildcat in Eddy County, projects have been staked in unnamed fields of southeast New Mexico, and a new well has been added to the Baldrige Canyon (Morrow) field in Eddy County.

New wildcat sites also have been reported in Yoakum, Hockley and Gaines counties.

WILDCAT SITE
Mitchell Energy announced location for No. 1-25 Federal, the 2,000-foot wildcat, 13 miles south of Hope in Eddy County.

It is 810 feet from south and east lines of section 25-19s-21e and 2 1/2 miles southwest of the 4,464-foot Abo gas pay in the Runyan Ranch field.

Ground elevation is 4,130 feet.

YOAKUM WILDCAT
Osborne Oil Co. of Dallas spotted location for an 11,500-foot wildcat 13 miles northeast of Denver City in Yoakum County.

It is No. 1 Kendrick, 660 feet from north and east lines of section 748, block D, J. H. Gibson survey. Ground elevation is 3,479.2 feet.

HOCKLEY PROJECT
Blanks Energy Corp. of Midland No. 1 Patton is to be dug as an 11,000-foot wildcat 12 miles southeast of Levelland in Hockley County.

Location is 660 feet from north and 990 feet from east lines of labor 4, league 5, Wilberger County School Land survey. Ground elevation is 3,393 feet.

GAINES EXPLORER
Mobil Production Texas & N.M., Inc., staked No. 1 Emma Austin as an 11,500-foot wildcat in the Seminole townsite in Gaines County.

A directional project, the surface location is 1,500 feet from north and 330 feet from east lines of section 193, block G, WTRR survey. The bottom hole location will be 467 feet from north and 660 feet from west lines of section 190, block G, WTRR survey.

WARD WELLS
HNG Oil Co. of Midland No. 2-18-4 University has been finalized in the Ward-Wink, South (Wolfcamp) field of Ward County, seven miles northwest of Pyote.

The oprator reported a 24-hour flowing potential of 48 barrels of 42-gravity oil and 10 barrels of water, with a gas-oil ratio too small to measure.

Completion was through a 30/64-inch choke and perforations from 11,195 to 11,310 feet after a 50,000-gallon fracture job.

Total depth is 12,156 feet, 7-inch casing is set at 11,065 feet and hole is plugged back to 11,915 feet. The pay was topped at 11,195 feet on ground elevation of 2,731 feet.

Wellsite is 933 feet from north and west lines of section 4, block 18, University Lands survey.

Paul Page of Eldorado No. 1-137 Armstrong is a new well in the Rhoda

789 to 10,807 feet.

No. 2 Marathon-State is bottomed at 10,687 feet and 4 1/2-inch casing is cemented on bottom. The pay zone was acidized with 500 gallons.

Location is 1,980 feet from north and 1,650 feet from west lines of section 11-24s-24e.

WALKER (5,900 Canyon oil) pool of Ward County, six miles east of Barstow.

The well, in a west extension area of the field, was completed for a daily flowing potential of 33 barrels of 39.2-gravity oil and 297 barrels of water, through an 18/64-inch choke. The gas-oil ratio is 2,242-1.

Completion was through perforations from 5,067 to 5,072 feet after 500 gallons of acid and 10,000-gallons of fracture solution.

The well is 853 feet from southwest and 2,173 feet from southeast lines of section 137, block 34, H&TC survey.

AMOCO PRODUCER
Amoco Production Co. No. 5 Midland Farms "AJ," scheduled as a project in the Fasken (Atoka 10,300 and Wolfcamp, north) field of Ector County, has been completed from the Pennsylvanian and assigned to the Fasken (Pennsylvanian) field.

The oprator reported a daily pumping potential of 17 barrels of 39.9-gravity oil and one barrel of water, with a gas-oil ratio of 59-1.

Completion was through perforations from 10,261 to 10,269 feet after a 5,000-gallon acid treatment.

Total depth is 10,550 feet, and 5 1/2-inch pipe is cemented on bottom. The pay was topped at 10,261 feet on ground elevation of 3,064 feet.

Location is 1,980 feet from north and 660 feet from west lines of section 37, block 42, T-1-N, G&MMB&A survey.

JATAM INC. OF STERLING CITY NO. 2-198 R. C. Bynum has been completed in the James (Strawn oil) pool of Sterling County, nine miles northeast of Sterling City.

Scheduled as a 5/8-mile south out-post to the field, it finalized for a daily flowing potential of 28 barrels of 43-gravity oil, with a gas-oil ratio of 5,428-1, through perforations from 7,352 to 7,394 feet after 1,500 gallons of mud acid and 24 barrels of fracture fluid.

Location is 1,667 feet from north and 1,811 feet from west lines of section 198, block 2, H&TC survey.

FISHER DRILLSITE
R. L. Adkins Corp. of Sweetwater No. 1 Wickham "G" is to be drilled 5/8 mile northeast of one of the two wells in the Wickham (Palo Pinto oil) pool of Fisher County.

Scheduled to 5,000 feet, it is 467 feet from north and 557 feet from west lines of Thomas Cosby survey No. 220.

Completion was through perforations from 10,261 to 10,269 feet after a 5,000-gallon acid treatment.

Scheduled to 5,000 feet, it is 467 feet from north and 557 feet from west lines of Thomas Cosby survey No. 220.

TEX-STAR PETROLEUM, INC., OF ABILENE NO. 4 ALDRIDGE will be drilled as a 4,700-foot wildcat in Runnels County, four miles west of Goldsboro.

Location is 2,975 feet from north and 5,800 feet from east lines of David Moses survey No. 521.

HANSON CORP. OF MIDLAND NO. 1 BIRGE has been completed as a lower Leonard discovery in Glasscock County, 13 miles northeast of Garden City.

The strike finalized for a daily flowing potential of 83 barrels of 35-gravity oil and no water, through a 10/64-inch choke. The gas-oil ratio is 180-1.

The completion was through perforations from 5,900 to 5,913 feet after a 2,000 gallon acid treatment.

Hole is bottomed at 9,580 feet, 4 1/2-

LEA COUNTY
Comanche State Line (Yates oil); GMW Corp. Midland, No. 1 Iron Mountain; 660 feet from north and 2,800 feet from west lines of section 34-28s-36e, 37 miles southeast of Halfway, 3,204 feet. Converted to water disposal well.

NOLAN COUNTY
Dodge (Strawn lime); Halvey Energy Co., Midland, No. 1 Champion; 660 feet from south and 2,800 feet from west lines of section 30, block 22, T&P survey, nine miles southwest of Roscoe, 4,867 feet.

MCCULLOCH COUNTY
Wildcat Earl T. Warren, San Angelo, No. 1 Bennett, 10,672 feet, testing.

Public land open to bit

WASHINGTON (AP) — The Interior Department, in one of its largest single decisions on public lands, Thursday opened 16.6 million acres in nine Western states to energy development.

The decision came following a wholesale review ordered by Congress of the government's land decisions made during the early part of the century.

The change will allow companies to lease promising areas to explore for oil, gas, coal, geothermal resources

Longshots win at Sunland

SUNLAND PARK, N.M. (AP) — Miss Classyqua and General Te, a pair of prohibitive longshots finished first and second Sunday in the inaugural \$140,299 All-American Sals Futurity at Sunland Park.

Miss Classyqua, a 35-to-1 shot, captured the first place purse of \$70,149 with a nose victory over General Te, who went off at odds of 43-to-1 in the 400-yard race for 2-year-old quarter horses.

Miss Classyqua, a filly owned by Joe Scherr of Valley City, N.D., and J.D. Anderson of Tahquah, Okla., paid \$71.00 to win, \$21.20 to place and \$10.80 to show.

General Te earned \$23,850 for second place and paid \$22.20 and \$10.80. Soul Long got up for third and earned \$14,029 from the total purse while paying \$6.00 to show.

A rare triple dead heat for first occurred when three horses in the final race on the card hit the finish line together.

The three horses that tied for first were Moon Barb, Teddy's Table and Grins Spirit. Track officials said it was the second triple dead heat at Sunland in the last five years.

At the wire, Grins Spirit was next to the rail with Teddy's Table and Moon Barb bunched together about five feet away.
