PEKING (AP) - Chairman Hua Guofeng, under more toward Mao and remained lukewarm toward

WASHINGTON (AP) - President Carter, dedicating the national Christmas tree tonight, has decided to leave it unlitagain to honor the 52 Americans who may have to spend their second Christmas as hostages in

But the president's action to keep the tree dark for a second straight year may not meet with universal approval from hostage families.

If it were up to her, said Louisa Kennedy, wife of hostage Moorehead Kennedy, the tree

"I think it should be lit because it's there for many other reasons," she said Dec. 2, the day hostage wife Penne Laingen was hoisted in a crane and placed the crowning ornament atop the tree. Her husband is L. Bruce Laingen, who was charge d'affaires in Tehran when the embassy was seized.

"It's an institution that should go on the way all our institutions should go on, regardless of what takes place in Iran," Mrs. Kennedy said

Hostage family members will participate in the ceremony dedicating the living 30-foot blue spruce, which has served as the national, Christmas tree since

It is on the Ellipse, a garden south of the White House. Smaller trees, for each state, territory and the District of Columbia, are nearby.

Bell ringers, bands, choral and gospel groups will perform every evening from Friday to next Tuesday near the base of the tree, an occasion which each year draws thousands of visitors

While negotiations for the release of the hostages have inched forward for more than a month, there is scant expecta-tion here of a breakthrough before Christmas.

Carter is known to hope that the crowning achievement of his administration, which ends Jan. 20, will be the return of the .

# Chlorinated water linked with cancer

WASHINGTON (AP) - Chlorine the chemical that keeps 80 percent of America's drinking water free of disease, has been linked to several types of cancer in a new study.

The report on "Drinking Water and Cancer," released Wednesday by the President's Council on Environmental Quality, found that death statistics in five states provided fresh evidence to support "an association between rectal, colon and bladder cancer" and chlorinated water.

But officials of the Environmental Protection Agency - which sets the country's drinking water standards said the new study did nothing to change their position that the benefits of chlorine far outweigh the risks.

Indeed, study researchers conceded the study did not take into account other factors that could alter cancer death rates, including smoking and

The use of chlorine in city water systems became widespread early in the century. The chemical kills a variety of disease-carrying organisms, including bacteria that carry cholera and typhoid germs.

"Chlorine is a very effective disinfectant. It has saved countless thou-sands of lives," said Dr. Joseph Cotruvo of the EPA.

The Council on Environmental Quality study was a follow-up to a 1977 report by the National Academy of Sciences, which raised the first scientific questions of cancer threats from chlorinated water.

The new studies analyzed death statistics in Illinois, Louisiana, New York, North Carolina and Wisconsin to see if cancer rates differed between people who drank chlorinated water and those who did not.

The study said the chance of dying from rectal cancer rose between 13 percent and 97 percent and noted slightly lower increases for the other two types of cancer among groups that drank chlorinated water.

served nine years in prison, Chinese sources said.

That would mean if 20 persons in a population of 100,000 that did not drink chlorinated water died of rectal cancer, the level of deaths among chlorine water drinkers could be expected to increase to between 22 and 38.

While the study found up to a twofold increase in cancer deaths among people who drank chlorinated water, by comparison, smokers have 10 times the chance of developing lung cancer as non-smokers.

Dr. Robert Harris, one of three members of the Council on Environmental Quality, said the study provides "significant evdence of increased cancer risks from drinking chlorinated water which should be of

Assessing the study, EPA Assistant Administrator Victor Kim, in charge of its drinking water program, said the agency took steps in November to lessen risks from chlorine by requiring cities to reduce the level of chlorination by-products in water - known as trihalomethanes. The EPA has given cities a year to cut those levels to 100 parts per billion.

Harris said the new standard is a good start but he called on the agency to tighten the requirement. He said the public needs to find out the level of trihalomethanes in its drinking water and, if it is above the EPA limits, consider using bottled water or buy-

## Jury deliberating in McPeters trial

By ED TODD Staff Writer

Patricia "Patty" McPeters, the Odessa widow who is accused of plotting the death of her husband last July, is holding steadfast to her contention that she had nothing to do with his stabbing death even as the jury was to begin deliberation on her guilt or innocence today.

Mrs. McPeters took the witness stand Tuesday and Wednesday in the final days of the trial that began Dec.

She contended that she left her husband following a marital quarrel in Abilene on July 19, took the couple's 3½-year-old child, D.J, and linked up with a former high school acquaintance. Thus began a 10-day fling that culminated in the stabbing death of 46-year-old James David McPeters off a service road between Midland and Odessa on July 28.

Mrs. McPeters, 27, testified that she and her husband had parting words at Abilene's Amvets Post barpool room, where she was more or less reunited with Rex Shanks, the high school acquintance, after her husband had forgotten to recognize

her July 19th birthday. "I just felt neglected," she testified and allowed that in the four years she had lived with McPeters that he had abused her and their child. She said

she was "unhappy" with her hus-"Did that make you mad enough to

kill him or to have him killed," her defense attorney, Leonard Howell, asked.

'No, sir," she calmly replied. Throughout her testimony, Mrs. McPeters repeatedly maintained that she had nothing to do with the death of her husband.

Earlier testimony related that she and Shanks, 27, drove to Wichita Falls on July 26 and picked up Wayne Jennings, 19, and his wife, who then was his fiancee, and returned to Odessa by

way of Abilene Jennings testified that Mrs. McPeters offered him \$7,000 to help Shanks "get back at" - to kill - her

His 22-year-old wife, Tammy Karlic Jennings, a witness to the slaying, testified that Shanks offered her husband money to join in the killing of McPeters. Mrs. Jennings has been granted immunity from prosecution in exchange for her testimony.

Mrs. McPeters, Jennings and Shanks are all indicted for murder and, if convicted, could be sentenced from five years to 99 years or to life in

Shanks, whom Howell had subpoenaed to testify on behalf of his client. declined to waive his rights and the Fifth Amendment for fear of self-incrimination. Jennings, however, waived his rights and testified for the prosecution. He said Mrs. McPeters ad plotted her husband's death.

In subjecting herself to questioning by Prosecutor David Joers, Mrs. McPeters apparently contradicted herself in her "confession" to Sheriff's Deputy Jim Atwater in early August and in her court testimony.

The defendant's statement indicated that she was aware that "Rex and Wayne were going to kill (her hus-band) David" but that she was "scared." Both men had been drinking heavily, her statement said.

On the witness stand, however, she said that she was not suspicious that something sinister was brewing when Shanks broke into her husband's house on July 27 and took a butcher knife and a smaller knife.

She said she thought nothing about Jennings placing a shotgun in the trunk of her car in Wichita Falls on

In Odessa, on Sunday, July 27, Mrs. McPeters said that she had telephoned her husband from a convenience store and said she wanted to talk to him about a divorce.

Later that day, she said that she was coerced by Jennings and Shanks to telephone her husband from the Warfield Truck Stop between Midland and Odessa and to set up McPeters for murder. She told her husband that her car had broken down and that Shanks was in Abilene; McPeters apparently was upset that his wife was with the Abilene man.

Mrs. McPeters testified that she and her son were in the supposedly disabled car and that Shanks and Jennings were hiding when her husband drove up to help her.

Mrs. McPeters said Shanks and Jennings lurched at her husband.

"I could hear a scuffle going on," she testified. "I wasn't looking out the window. I was scared. I was holding

County governments also requested authority over fireworks, which currently is limited to city governments. "Land in the county is being des-troyed by fireworks," and the county

has no recourse. County governments also are seeking some ordinance-making authority, she said, and legal services groups should be controlled.

"Legal aid groups are operating in uncontrolled fashion at the expense of local and federal taxpayers. They are performing beyond the intent of Congress and the people." It was suggested the legal services be governed by a nine-member board of local residents. Ms. Garner then stressed the urgen-

cy of the State Legislature in appropriating \$300,000 for the Texas senior citizens. It would be used to obtain \$7 million in federal funds to provide services for the aging. Ector County Judge Gary Watkins echoed the idea, pointing out that nutritional programs in the area would have to be stopped if the money isn't available.

Other ideas outlined by Ms. Garner included making the state pay fees of attorneys appointed by the court to represent indigent defendants, forcing the State Highway Department to cough up 25 to 50 percent of the cost of rights of way for FM road construction and emphasizing local community services by the Mental Health-Mental Retardation Association.

And, she said in concluding her

# Mutual Southwest radio network folding news operation

DALLAS (AP) - Mutual Southwest, a five-state regional radio network that was born three years ago and won a bidding war for broadcast rights to college and professional football is folding its news operations

Although the network has over 115 stations, Mutual officials say financial problems stemming from a lack of advertising revenues prompted the decision to pull the plug.

'The termination really (involves) the daily broadcasts of Texas and southwest regional news," said John Butler, Mutual vice president in work had handled SWC broadcasts charge of the Dallas-based operation. since the 1930s. 'The concept was really received well, but it didn't receive the enthusiasm of the advertisers.'

The network, a regional spinoff of the national Mutual Broadcasting System, was formed in early 1978 and quickly outbid long-established networks for the rights to Southwest Conference football and the professional Dallas Cowboys.

The Cowboys had been aired over the Texas State Network since the 1960s, while an Exxon-sponsored net-

Those lucrative contracts will not be affected by the shutdown, Butler said, and a regional sales office will be maintained in Dallas.

The Cowboy contract with Mutual has another year to run, while the SWC contract expires at the close of the 1982 season.

The football rights were a major factor in Mutual Southwest's growth, said Gene Craft, general manager of the Texas State Network, a long-established, 150-station network.

"I don't think there's any question that the rights to the Dallas Cowboys and the Southwest Conference had a lot to do with their growth," Craft said. "They didn't have a dozen affiliates until the got the rights ... We had affiliates who had had the Dallas Cowboys for a dozen years who didn't want to stop carrying them.'

TSN picked up the Houston Oilers after Dallas jumped to Mutual Southwest and Craft refused to say if his network would try to get the Cowboy

"Let's just say my response was 'anything is possible," But Craft pointed out that the Cow-

boy nentworkd flagship station is owned by Metromedia, a broadcast conglomerate that purchased TSN earlier this year.

Metromedia President George Duncan does not think TSN will pick up a large number of affiliates because of Mutual Southwest's demise. "If we get more affiliates it won't

be because of this," Duncan said. 'The basic product that Mutual

Southwest was providing was sports features. Those folks that want to continue receiving the sports features Power, speed, ease,

# Carter papers also in transition

WASHINGTON (AP) - A week or two before President Carter leaves office, the first of 15 to 20 big moving vans will pull up to the White House to begin carting away the presidential papers of

The trucks will be locked and sealed under military guard on a base near Washington and, after Ronald Reagan's Jan. 20 inau-

guration, will leave by convoy for Atlanta, Ga. There, government archivists working in the basement of an old Post Office building will begin the long process of sorting and indexing the papers, first for Carter's and his aides' exclusive use in writing books or memoirs and later for unveiling to scholars.

In the meantime, aides throughout the White House and Executive Office Building are sorting through their files, making copies

of documents they hope Carter will let them keep.
Carter has told his staff they may not take any presidential papers out of the White House unless they first get permission and sign an agreement not to quote from any document without Carter's approval. If they sign, he has promised them access to

any papers they received or wrote. Aides say Carter, the last president to own the vast store of paper created during a presidential term, offered the deal to guard against premature disclosure of potentially embarassing materials that he thinks could make future aides reluctant to give

a president frank but unpopular advice. Deputy White House counsel Michael H. Cardozo denied that the unprecedented clearance procedures are designed to give Carter continuing control over what his aides may say or write about him. And guidelines sent all staff members by chief of staff Jack H. Watson Jr. and counsel Lloyd N. Cutler make the same

"These obligations are not intended to inhibit in any way your freedom to write or talk about this administration's policies or practices," the memo says. "The president's approval will be confined to the publication or disclosure of presidential papers and will not be conditioned on prior review or approval of any comment the staff member desires to make.

Still, the procedures give Carter continuing control an estimated 12,000 cubic feet of documents. Even aides' private notes, memos they wrote to themselves and invitations to White House parties belong to Carter under the president's interpretation of his

The 1978 Presidential Records Act, which takes effect when Carter leaves office, will make the papers of Ronald Reagan and future presidents the property of the government. They will be

subject to public disclosure under the Freedom of Information Act after 12 years under control of the president whose White House created them.

Carter defines presidential papers as any records "created in the transaction of governmental operations" or that originated or were received at the White House — whether they are originals or copies. That includes "practically every scrap of paper around here," said one aide who asked not to be identified. The aide was one of several contacted Wednesday who was going through files trying to decide what to request copies of. Cardozo said a special office will be set up in the next few days to review staff members'

That may prove to be a huge task. For example, Domestic affairs adviser Stuart Eizenstat is known to have kept copious notes from all staff meetings and the voluminous files. Several aides have cited the scholarly senior staffer as one who wants to keep materials for use in future writing projects,

Others expected to write books or articles about their White House years, in addition to Carter, include former chief of staff Hamilton Jordan, press secretary Jody Powell and national

security adviser Zbigniew Brzezinski. The guidelines say Carter could seek to collect damages from violators of the guidelines, but aides said the more practical sanction is implied: that Carter could deny access to his papers while they are in storage and even for many years after they are moved into the future Carter library.

The Reagan White House also may want to see some Carter administration documents, and Cardozo predicted such access would be granted as a courtesy.

During his successful effort to have his own papers exempted from the new presidential records law, Carter promised to give his papers to the government before he leaves office, but he hasn't yet done so. Cardozo said the deed, which will reserve Carter's access to the papers and empower him to decide who may see them, is in preparation but may not be completed before Carter's term

# Both Iran, Iraq report long-range firing

BEIRUT, Lebanon (AP) - Iraq repored today that its troops and helicopter gunships turned back another Iranian attempt to break the siege of the Iranian oil center of Abadan and

killed 53 Iranian troops With the Persian Gulf war in its 88th day, both sides reported long-range artillery exchanges, but no changes in the static battlefront. Pope John Paul II made a new appeal for peace, and the Palestine Liberation Organization was reported ready to launch another diplomatic effort to end the war

Iraq said its forces also knocked out six tanks in repulsing the overnight Iranian breakout attempt.

Iran said Abadan's long-range artillery blasted the southern Iraqi highway that links Iraq's Persian Gulf oil terminal at Fao with the Iraqi port city of Basra on the northern tip of the Shatt al-Arab waterway

Abadan is Iran's last major stronghold on the waterway. Iraq invaded Iran's Khuzistan province in the first three weeks

of the war in an attempt to bring the entire waterway under Iraqi control. But a two-month siege of Abadan and daily artillery and helicopter gunship bombardment of its giant refining complex has failed so far to bring surrender of the city.

Eyewitness reports in the Lebanese press said the city's remaining 150,000 inhabitants have no gasoline for their cars because air raids and fires stopped refining operations. But food and arms supplies were being flown into the beleaguered city by helicopters from other Iranian bases, the reports said.

Iran's official P)rs news agency said 10 Iraqi tanks and three armored personnel carriers were demolished by helicopter gunship raids near Abadan and around the Khuzistan capital of Ahwaz, 70 miles to the north.

Pars claimed 33 Iraqi troops were killed in the Abadan fighting and in paratroop attacks against Iraqi positions in Iran's snow-covered western highlands, 300 miles north of Abadan.

SEE OUR COMPLETE

Iraq conceded only 12 fatalities and claimed 19 Iranian soldiers were killed in fresh fighting near Khuzistan's key highway junction at Sunsangerd, 85 miles north of Abadan, and in the oothills of the Zagros Mountains in western Iran

War claims could not be independently verified because reporters are barred from battle zones. Western military analysts believe neither country will be able to break the current standoff during the winter.

At the Vatican, Pope John Paul II called on Iraq and Iran "to show real readiness" to reach a negotiated settlement.

Receiving credentials from a new Iraqi envoy to the Vatican, the pontiff noted that "distinguished international statesmen are endeavoring to initiate such negotiations.

"I trust that they will be successful," the pope said. "I pray that God will give them strength and wisdom and prepare the hearts of all those involved in the conflict to accept the great blessing that is peace.

Speaking in English, the pope told Ambassador Anwar Sabri Abdul Razzak that negotiations should be based on justice and mutual respect. "All have the duty to work for peace with dignity but also with constancy and courage," he said.

A senior official of the Palestine Liberation Organization said in a newspaper interview published today that the PLO was undertaking a fresh effort to end the war.

The PLO is trying to unify the separate mediations of the non-aligned and Islamic nations," Khaled Hassan, political adviser to PLO chief Yasser Arafat told the Saudi Arabian newspaper Al Medina. He did not elaborate.

The 94-nation non-aligned movement had Cuban Foreign Minister Isidoro Malmierca shuttling between Baghdad and Tehran for nine weeks in a mediation effort

### Decision on hearing is upheld

ALBANY, N.Y. (AP)

— The state's highest court has upheld a justice's decision to close a courtroom during a pretrial hearing for two alleged gun runners, one of whom has been identified as a former CIA agent.

Without comment, the seven-judge Court of Appeals unanimously refused Wednesday to hear an appeal by the New York Daily News and the New York Times of Justice Thomas Gillgan's decision barring the press and the public from the courtroom.

At issue was a pre-trial hearing for Frank Terpil, 40, of McLean, Va., and George Korkala, 38, of Nutley, N.J.

The two were indicted in January in connection with an alleged plot to supply 10,000 machine guns for \$2.5 million to federal undercover agents posing as Latin American revolution-

Agents contend the deal was struck last year in a London hotel room and allege that a down payment of \$56,000 was made by the bogus revolutionaries.

Terpil has been identified as a former CIA agent.

At a Sept. 4 appearance before Galligan, attorneys for Terpil and Korkala said their clients' failure to appear with them in court was "involuntary.

In hearings into that allegation, the defense asked that a portion of the hearing be closed while they interrogated three assistant U.S. attorneys. The defense argued that testimony would "touch upon the security operations" of the United States and "might jeopardize" the life of one of the defendants.

Galligan decided Oct. 7 to close that portion of the hearing. The newspapers appealed to the Appellate Division of state Supreme Court.

### Jack Frost heads for Permian Basin

Jack Frost is on his way to the Permian Basin again after a brief respite. The weather Friday should turn cloudy and colder, according to the National Weather Service at Midland Regional Airport.

Winds on Friday should shift to the east at 10 to 15 mph, said the weather-

The mercury should dip into the low 30s tonight, rising only into the middle

40s on Friday. High on Wednesday was 72 degrees almost hitting the record of 77 de grees set on that date in 1962. Overlow was 39 degrees, a hot read ing compared to the record low of 14

degrees set on that date in 1975. No precipitation is expected out of the cold front moving into the Permian Basin. That should leave the monthly total at 1.15 inches and the yearly amount at 17.76 inches.

Area towns reported clear skies and cool temperatures early today.

## Total patient care plan adopted 'in concept' by MMH trustee board

By SUE FAHLGREN

Midland Memorial Hospital's board of trustees voted to recommend adoption "in concept" of a total patient care plan Wednesday after hearing a 30-minute presentation of the plan by the Patient Support Service Committee of the board and discussing the measure to provide other "emotional" services for the patients and their families.

The Committee recommended hiring a full-time social worker, a patient representative and a chaplain for the hospital within the next two years. In addition, it advocated set-

ting up a "specialized volunteers pro- He explained, however, if such a plan gram" of visiting, trained volunteers would force increased rates, he would to help patients' emotional well-being be opposed to its adoption. "Our rates while hospitalized.

Trustees approved the plan "in concept," but asked for further research on specific parts of the plan and development of realistic time tables in implementing the programs. However, specific feelings of the trustees were mixed.

Margaret Purvis, trustee and chairman of the Committee which has been conducting a study on these services for several months, reminded the board that to get local patients to come to the new Allison Cancer Center instead of M.D. Anderson in Austin, MMH would have to offer the patients exceptional care. "We have to offer them something more than M.D. Anderson in supporting our cancer patients," she said.

Mrs. Purvis said the Committee's plan would "enhance the care of the patient," and allow for an easier recovery period.

Trustee Gene Abbott was concerned about the cost of such a program.

According to Operations Committede chairman Roy Campbell, the cost of the social worker and the patient representative for the remaining time of this fiscal year would be "slightly under \$29,000." Once the chaplain is added, the cost for the three new employees would be about \$80,000 annually.

"If this is something we can afford, then I don't think there's anyone here that wouldn't want this," Abbott said.

The Lee High School Band Christmas concert tonight will be at 7:30 instead of 8:30 as reported in Tues-

day's Midland Reporter-Telegram.

### Transients held for vehicle theft

SEMINOLE - Two transients will be transferred from Gaines County Jail to Andrews today to stand trial for the theft of a vehicle which was involved in the armed robbery of two oil field workers in Gaines County Tuesday

Joy Ray Ivy, 51 and Jay McDade 30, pleaded guilty and were sentenced to 10 years in prison on armed robbery charges after holding up two Phillips Petroleum employees and taking their pickup truck near an oil field construction site 12 miles south of Seminole, according to Gaines County Sheriff's officials.

Earlier, the two men had stolen a pickup truck at a grocery store six miles north of Andrews, Andrews County Sheriff's officials said.

According to the vehicle's owner, a .357 caliber magnum pistol was inside

The Andrews incident occurred at 2:10 p.m. Tuesday, Andrews officials noted.

The men were arrested in Gaines County at 5:30 p.m., according to Gaines County Sheriff officials.

Kenneth E. Hester, 49, of 2311 Camarie Ave. in Midland, died Wednesday following a lengthy illness.

Services will be at 10 a.m. Friday in Golf Course Road Church of Christ, with Doug Parsons, minister at the Golf Course Road Church of Christ, officiating. Burial will follow in Resthaven Memorial Park, under the direction of Newnie W. Ellis Funeral

Owner of Tall City Oil Sales in Midland, Hester was in the gas and oil business most of his life. He graduated from Abilene Christian High School in 1949 and attended Abilene Christian College. He served in the U.S. Navy during the Korean Con-

Hester was married to Marinell Henderson Aug. 6, 1955, in Abilene. The family lived in Shrevesport, La., for a time where Hester worked with Conoco. They later lived in El Paso and Odessa before moving to Midland. He was a member of Golf Course Road Church of Christ.

Survivors include his wife; two daughters, Glenda Etheridge of Odessa and Lynette Hester of Austin; five brothers, Preston Hester and Royce Hester, both of Brownfield, Clarence Hester of Meadow, J.E. Hester of Amarillo and Reese Hester of Hobbs. N.M.; two sisters, Selma Pendergrass of Lubbock and Bula Trigg of Eagle Mountain, Calif.; and a grand-

Pallbearers will be Richard Birdsall, Ed Carnes, Preston Grissom, Chuck Kimbro, Keith Levy and J.B.

#### Mrs. John Tarlton

Graveside services for Mrs. John Tarlton, 75, Route 2, Box 163G, were Wednesday in Resthaven Memorial Park with the Rev. J.B. Stewart offi-

ciating. Burial was directed by Newnie W. Ellis Funeral Home. She died Tuesday in her home fol-

lowing a short illness. Mrs. Tarlton was born Feb. 16, 1905, in McKinney. She moved to Midland in March, 1978 from Snyder, where she had lived for 28 years. Mrs. Tarlton was a member of the Methodist Church.

Survivors include her husband, John B. Tarlton of Midland; three sons, Jimmy L. Tarlton of Snyder, Billy Tarlton of Midland and John B. Tarlton of Georgia; two daughters, Mrs. G.W. (Shirley) Green of Midland and Mrs. J.R. (Emma) Harralson of Monahans; a sister, Mrs. Frank Myrick of McKinney; seven grand-children and two great-grandchil-

### Martha Hays

Martha Hays, 55, 2102 Western Drive, died Wednesday in a Midland hospital after a lengthy illness.

Services will be at 2 p.m. Friday in Fannin Terrace Baptist Church with the Rev. Ben Walker, pastor, officiating. Burial will be in Resthaven Memorial Park directed by Newnie W. Ellis Funeral Home.

She was born Feb. 27, 1925, in Coleman and was reared in Abilene. Mrs. Hays was graduated from Hardin-Simmons University at Abilene with degrees in English and education. She taught school for 15 years, teaching the last 10 in the Midland Independent School District. She was a teacher for homebound students.

Mrs. Hays moved to Midland in 1959 from Snyder where she had lived for nine years. She retired from the Midland school district this year. She was a member of Texas State Teachers Association, National Education Association and Fannin Terrace Baptist Church, where she had taught Sunday School for many years:

Survivors include her husband, Curtis Hays; two daughters; a sister, Lola Soileau of Baton Rouge, La.; and wo grandchildren.

The family has requested memorials be directed to Fannin Terrace Baptist Church or to the American Cancer Society.

### Romulo back

#### in hospital

MANILA, Philippines (AP) - Foreign Minister Carlos P. Romulo was hospitalized today for treatment of a "severe" upper respiratory infection complicated by dehydration, the foreign of-

A medical bulletin said Romulo, who turns 82 next month, was suffering from fever, coughing, "malaise and weakness." He was, however, 'resting well.'

Romulo entered the Makati Medical Center two days after returning from New York where he headed the Philippine delegation to the 35th U.N. General Assembly.

The foreign office said Romulo came down with the flu in New York and had not fully recovered at the time of his departure for Manila.

### BELFAST, Northern Ireland (AP)

- British Prime Minister Margaret Thatcher has adamantly refused to give in to the demands of convicted Irish terrorists on a hunger strike "to the death" in a prison near Belfast.

"This government cannot and will not" give in to the hunger strikers' demands for political prisoner status, Mrs. Thatcher said Wednesday in a telegram to Cardinal Tomas O Fiach, the Roman Catholic primate of all Ireland, who asked her earlier this week to personally intervene to save the strikers.

"I believe there's now almost universal agreement in Ireland that men of violence can have no right to political status," Mrs. Thatcher said.

Her position was echoed today by the European Parliament, which rejected a request for an urgent debate on the hunger strike by a vote of 204 to

Seven of the IRA prisoners today began the 53rd day of their hunger strike. They have taken only water and salt since beginning the fast on Oct. 27. Thirty other male prisoners at Maze joined the hunger strike last Monday in sympathy with the original seven, and three women at Armagh prison stopped eating Dec. 1.

All 40 strikers were convicted of terrorist crimes committed under the banner of the predominantly Roman Catholic Irish Republican Army or the smaller Irish National Liberation

RESIDENTIAL "Just about covers it for home or office"

One of the original seven strikers, 26-year-old Sean McKenna, is not expected "to live much longer unless he starts accepting treatment," the British Press Association, Britain's domestic news agency, quoted unnamed medical experts as saying Wednes-

British won't give in to hunger strikers

Supporters of the prisoners say McKenna and another hunger striker, 28-year-old Tommy McKearney, are weakening fast and going blind from the effects of the fast. McKenna's relatives claim he could be dead within three days.

The first death of a hunger striker is expected to trigger IRA reprisals in British-ruled Northern Ireland and on

the British mainland. "Belfast is as taut as a tightrope," one senior police commander said.

The hunger strikers in the Maze prison near Belfast want to be treated as political prisoners rather than common criminals. Britain has refused, saying this would legitimize their terrorist crimes.

Terrazas thought he was hyperventilating during the game in Snyder and then came out of the contest. He later collapsed on the bench and was taken to Cogdell Memorial Hospital in Snyder where he died.

THE MISD has certian rules reguarding the physical elgibility of all athletes in the school system. Each athlete is required to fulfill four requirements before taking to practice or competition. 1) Each athlete must be certified by a physician to be physically fit for athletic competition. 2). Each athlete must have permis-

sion to play from a parent or guardian. 3). Parents or guardians must assume responsibility for medical expenses as a result of athletic injuries. Parents are asked to pay the premium for the school insurance policy or assume all responsibility for any athletic injury. 4). Athletes are asked for preference of family doctor, but may give permission to school officials to allow the use of a team physician.

The Midland schools athletic programs, as all organized schools competing in an organized district, is under the rules governed by the University Interscholastic League, headquartered in Austin. The UIL has set forth only one paragraph in its guidelines concerning permission to play or medical examinations.

"There shall be on file in each school an annual medical certificate and a permit from the student's parents or guardian granting permission for him or her to play for each student who participates in practice, scrimmage or game," reads the UIL directive.

THERE ARE no guidelines by the UIL on how extensive a physical has to be. Generally, all schools in the state rely on the communities' doctors to make that decision. Midland is no excep-

tion.

Terrazas had his physical prior to the start of football practices in August as required by the UIL and the MISD. His physical was given by Dr. Albert Courtney. Dr. Courtney signed his releese form.

releese form.

"He (Terrazas) received the same physical that we give all the athletes," Dr. Courtney said.

"It's a pretty routine physical. We check the heart and lungs and for hernias. We also check joints and each is required to hop up and down 25

times before we again check the pulse rate."
Dr. Courtney found nothing wrong with Terrazas at the time. Asked if an enlarged heart could be found in this type of examination, he replied,

"Yes, if it (the heart) is very enlarged."
Dr. Courtney also noted that no cardiograms or X-rays are performed unless something "abnormal" is detected from the examination.

DR. COURTNEY also pointed out that cardiograms and X-rays would be very expensive for the parents unless they were warranted. The school system would have a big financial burden if it had to pay for those expenses.

Ohio State center Herb Williams gets the old peekaboo treatment as he searches for a rebound in college basketball action.

# Marquette stuns Minnesota

By JOHN NELSON AP Sports Writer

It was almost like opening night jitters for Coach Hank Raymonds and his Marquette basketball team.

He had his unranked and inexperienced Warriors on the road for the first time this season, facing a highly touted Minnesota team, and the butterflies were as big as basket-

"I'm elated, boy, I'll tell you,"
Raymonds said after his Warriors
rallied to beat the Gophers 92-84 at
Minneapolis. "I was scared coming
up here, the first time on the road
with an untested team."

Trailing 65-55 with 12 minutes left in the game, Marquette finally got untracked. Guards Art Green and Mike Wilson led a nine-point surge that cut Minnesota's lead to one, and freshman Glenn Rivers, the third guard in Raymonds' fastbreak offense, hit two free throws to give the Warriors their first lead

"They just outquicked us," Gophers Coach Jim Dutcher said. "When we had to have patience, we didn't have it. You don't give up 92 points. How are you going to win giving up 92?"

Oliver "Big O" Lee was the top scorer for Marquette, hitting a career-high 30 points. Minnesota's 7foot-1 center, Randy Breuer, scored 21 despite foul trouble that forced Dutcher to keep him on the bench part of the second half.

"When they took the big kid out of there, I was able to play the three guards," Raymonds said. "You've got to have the right matchups, and Rivers was the catalyst. You're going to be writing a lot about him in the next three years.

The victory left Marquette with a 3-1 record, the Warriors' only loss coming to 17th-ranked Illinois last Saturday. Minnesota, meanwhile, lost for the first time in four games.

"In the middle of January, this will all be forgotten," Dutcher said. "But did we learn anything from it? That's the key"

None of college basketball's ranked teams saw action Wednesday night, but one tournament, the Nevada Wolfpack Classic at Reno got underway. Nevada-Reno and Portland Uni-

versity will play in tonight's championship.

Nevada-Reno got 20 points from center Greg Palm and coasted by Arkansas State 79-61 in the first game. In the late game, Portland outclassed McNeese 84-61 as Jose Sin-

gleton led the way with 19 points.
In other college action Wednesday night, Kenny Matthews scored 16 points to lead North Carolina State past Appalachian State, 71-47. Sophomore Frank Poindexter's four free throws in the final 16 seconds gave Auburn a 78-74 victory over Florida

State

Doc Holden scored 15 points and led five starters in double figures as Cincinnati downed previously undefeated Bradley 76-64. Forward Jeff Malone, with 21 points, paced Mississippi State to an 87-62 victory over Tennessee-Martin.

Joe Faine scored the winning basket with 50 seconds to play and wound up with 26 points in Bowling Green's 79-76 victory over Mississippi. Alvin Brooks hit two free throws with 12 seconds left to give Lamar an 80-79 victory over Oklahoma.

Pittsburgh's Paul Gardner (30) attempts to recover puck after it was deflected by Los Angeles

goalie Mario Leonard in NHL action at Los Angeles. (AP Laserphoto).

### Happiness is Utica College

## Costello doesn't miss NBA

By JOEL STASHENKO

UTICA, N.Y. (AP) — Larry Costello tells the story now with something like a smile on his face. But there's no amusement in the eyes of the former National Basketball Association coach.

"That was when I was still with the Bucks, but wasn't coach of the team anymore," Costello said. "We were playing a Friday night game.

"On Friday night, this player said he couldn't play because of an ankle injury. I saw him walk on it and he was limping terribly, you'd have thought his leg was going to fall off. He really looked like he was hurt."

"So he doesn't play that night. The next morning my wife and I went out to a tennis club in Milwaukee and the same guy was there, playing tennis," he said. "Here was a guy probably making \$250,000 a year and he just didn't feel like playing that night. I guess it was just the money that used to tee me off. They just didn't want to play hard all the time."

Costello is now in his first season as head coach at Utica College, a small liberal arts school in central New York. The Division III team (which wants to go Division I in three years) hasn't a tradition of good basketball to go along with the winning reputation Costello brings to

But Costello, 49, seems at ease with the challenge of building a program at a place where the athletes play for fun and pride and not money.

"I'm learning now I was on a vacation in the NBA," said Costello from an office in the throes of remodeling. The Utica gym seats 2,200. "Back there, all I had to worry about was coaching 82 games a year and watching game films. Here I have to worry about recruiting, community relations and a whole range of other things. I really have to coach now."

Utica has won six of its nine games so far this season. Costello, who started at the school in September, thinks he can do even better once he recruits

his own playe

Costello grew up in the Syracuse suburb of Minoa and began a successful playing career at Niagara University. He went on to play 12 years in the NBA with Syracuse and Philadelphia, and was picked six times as an All-Star.

He returned to the NBA as a coach reputed to have the most complex playbook in the league. In 1970-71, Costello directed a Milwaukee team that included Oscar Robertson and Lew Alcindor to the NBA title.

After a season he describes as "fun" with the Milwaukee Does of the now-bankrupt Women's Professional Basketball League — "the girls came to play every single day." — Costello improbably took the Utica job when asked by a childhood friend, school president Thomas Sheldon.

"You don't even think of questioning his ability," said Utica senior Danny Ryan. "This guy has been involved in basketball his entire life. He's been at the top of his profession. You know what he's showing you is right."

# Eagles pick over Bills

### Computer forecasts Super Bowl foes

By JOHN NADEL

LOS ANGELES (AP) — Now hear this, football fans. The Philadelphia Eagles are going to beat the Buffalo Bills in Super Bowl XV at the Superdome in New Orleans next month by three points.

Who says so? Bud Goode and his faithful Univac 1100 computer, that's who. And while Goode is the first to admit that computers aren't flawless, 14 of the National Football League's 28 teams subscribe to his service—including the Eagles and Bills—so he (or his computer) must know something.

Goode, 57, is a self-admitted statistics freak who has been involved in football stats for the past 15 years. He, and his computer, have a number of definite opinions concerning what it takes to win in the NFL.

"The most important statistic of this season is percentage of passing touchdowns to passes thrown," said Goode in an interview. "But the facts are that teams are winning with the run.

"I don't have any opinions. The numbers tell me the difference between winners and losers, what's important. It's a statistical philosophy.

"The drums are beating for a passing game this year but are teams winning with it? The answer is not nearly as much. The keys are number of running attempts and stopping the run."

Goode began his service in 1975 with one team subscribing. It has accelerated greatly since then.

"It took me 15 years to prepare the program," he said. "It takes about three seconds for the computer to run a pre-game analysis, and about five minutes to print a book, which is about 60 pages.

"From the books, some teams build

a game plan."

Starting with the third week of the season, Goode's computer has predicted that the Eagles are the most likely NFC team to go to the Super Bowl. The Bills have been the computer's AFC selection since the 11th

week and still are, despite a 24-2 loss

to New England last Sunday.

While Goode is convinced that running the football and stopping the run are keys to winning, he quickly points out that "stats don't win for you, people do."

"You don't need a big average: You only have to make better than 3.3 yards per carry, but you've got to do it regularly," he said. "You'd be smart to run the ball and that's especially true for teams who have no defense. Any time you run the ball 10 times more than your opponent at the

championship level, you'll probably

"Good running backs are defensive ballplayers, they eat the clock and keep the ball away from the other team. The average Super Bowl team over the years has run the ball 33

times a game."

The Eagles and Bills are near the top in both number of rushes and fewest rushing attempts allowed. At the top in both of those categories, plus percentage of touchdown passes per passes thrown, is the Los Angeles

# Rams survive once again

By Melvin Durslag ANAHEIM, CALIF. - As a force

advancing to the National Football League playoffs for the eighth year in a row, the Los Angeles Rams clearly reflect the virtues of strong leadership at the top.

In the Ram press guide, it says of President Georgia Frontiere, Georgia has proved to be a strong leader with the Rams."

And, indeed, that assessment is irrefutable when you consider that Georgia is completing her second season at the helm with a team that (a) has played in one Super Bowl, and (b) fosters hope of sneaking into another.

As they say on the Q.E. II, this one has been a smooth crossing. The season opened in the club's hub of happiness, Anaheim, with a ticket war in which customers demanded to know why they had lost their old locations. They never found out.

Important players on the team then failed to show up for work, arguing over salary. Bob Brudzinski, a prime linebacker, departed the club for keeps. In the tradition of La Scala, where divas for centuries have hurled their temperament at impresarios,

quarterback Vince Ferragamo bickered with management.

And lately, of course, you have noted a disturbance growing out of an antitrust suit against the league. It involves Super Bowl ticket sales, and who did what hasn't yet been estab-

traction, the Rams have rolled back to the playoffs, which have come to be their niche in December for so many years now Cynies ary the Rams wouldn't have been so lucky if eight of their first 10

But, blissfully impervious to dis-

been so lucky if eight of their first 10 wins hadn't been achieved against the Packers, Cards, Giants, Jets and twice apiece against the Saints and 49ers.

REVIEWS of the foregoing teams the year have been less than rave. But it hasn't been pointed out,

But it hasn't been pointed out, either, that the Rams have suffered far more than an averge measure of injuries and still have been able to keep their composure.

As a general rule, teams hurt that much wind up out of the playoffs, so, schedule and all, the success of Los Angeles can't she minimized

If the club's recent habits in post-

season are running to form, the Rams should start to get dangerous at this time. You may recall that they staggered home in their division last year with a record of 9-7, only to turn up unaccountably in the Super Bowl.

They are a pretty wily outfit, with a knowledge of how to play, and the young people brought onto the squad have drawn strength and wisdom from the old dogs who know the territory.

If the Rams have turned up with a winning season on the field, they have flourished, too, commercially, in their opening year at Anaheim, to where the club fled after 33 years in Los Angeles.

Selling out nine of 11 games at healthy prices and cleaning up on luxury boxes, parking, concessions and in fringe areas, management has harvested the kill it envisioned when the decision was made to leave Los Angeles.

SOMETIMES painted as a suburb of Los Angeles, Orange County is anything but that today. Anaheim and its neighboring communities form, under the collective umbrella of Orange County.

## Bulldogs, Rebels hit road for cage action

Midland Lee and Midland High hit the tournament basketball trail this weekend with both the Rebels and Bulldogs beginning three-day tournaments today. Midland High is back in San Anto-

nio to defend the championship it won a year ago in the talent laden Optimist Classic, a giant 32-team field marathon.

The Bulldogs open action at 2 p.m. today against San Antonio Central Catholic. A win there would plane MHS against the Sam Houston Houston Smiley winner at 10:30 a.m. Friday. If the Bulldogs should lose, they will have to play again today at 8:30 p.m. in the consolation bracket.

Midland High takes an 11-0 record into the tournament and will be a marked team since they pulled off the surprise championship bid a year ago. Midland High is seeded No. 2 in the tournament while Houston Kashmere is the top ranked team.

Lee takes on Canyon at 11:30 a.m. today in the Reece Air Force Base tournament in a more tradional eight-team tournament in Lubbock.
Other teams in the tournament are
Lubbock Coronado, El Paso
Andress, Amarillo High, Andrews,
Big Spring and Lubbock Dunbar.
Lee will carry a 6-5 record into the

tournament in Lubbock.

There will also be plenty of basketball action for the local fans as well as the Midland High and Lee girls host the Tall City Invitational tournament Friday and Saturday at the

MHS gym.
Action begins at 1:30 p.m. Friday when Lee takes on Palo Duro in a first round game. Artesia, N.M., will meet El Paso Eastwood at 3:15 p.m. Friday while Big Spring takes on El Paso Bél Air at 5 p.m. Midland High will make its tournament debut at

6: 45 p.m. against Amarillo High. Eight games will be held on Saturday with the championship contest to begin at 9 p.m. The third place contest is set for 7: 15 p.m. The Consolation championship will be held at 5: 30 p.m. while the seventh place game will unfold at 3: 45 p.m. Lee is the defending champion in this tournament.

### Ken Forsch still wants a trade

HOUSTON (AP) - Houston Astros pitcher Ken Forsch, one of eight possible starters on the roster, is ready to help Manager Bill Virdon in choosing his five-man rotation by saying he still wants to be

Forsch reacted sharply and quickly to the firing of Tal Smith on Oct. 27 by saying he wanted to be traded. Forsch still wants to leave, but under his own

"I've been here a long time and I've always thought about the team first," Forsch said. "Now it's time to think strictly about myself. If San Francisco doesn't want to pay that (extension) then I'm not going to approve the deal. That tells me I don't figure in their plans all that much."

Forsch referred to a proposed trade with the Giants that would have sent Forsch and outfielder Jeff Leonard to the Giants in exchange for outfielder Larry Herndon and an unnamed player.

#### Cotton Bowl sold out

nounced that the Jan. 1 classic between Alabama SPORTS WITH LIVING ROOM VIEW DALLAS (AP) - Cotton Bowl officials have anand Baylor is a sellout. A crowd of more than 73,000 is anticipated for the 1:10 p.m. kickoff, said Mike Justice, director of the ticket sales.

"The response has been overwhelming. Baylor has moved a record 25,000 plus, with Alabama around 10,000. We are returning orders received by the two institutions and our office for more than 9,000 seats," Justice said.

All mail order requests to the Cotton Bowl Athletic Association postmarked on or before Nov. 20 were accepted and tickets have been mailed, he added.

The CBAA created additional seats by moving bands to the playing field and into special constructed end zone bleachers to help meet the demands,

#### Ellenberger coaches gals

ALBUQUERQUE, N.M. (AP) - Norm Ellenberger, the former University of New Mexico basketball coach who became the central figure in the recruiting scandal that shook the school last year, has returned to the coaching ranks.

Ellenberger, fired at New Mexico at the outset of the scandal which erupted just before the start of the 1979-80 season, is now coach of the new Albuquerque Energee professional women's team.

Wednesday was opening night for the fledgling team and Ellenberger.

The Energee lost the game, 100-98, to the Phoenix Flames, but it was apparent Ellenberger had lost none of his enthusiasm for the game he says he has never wanted to leave.

"I love it, it's just great," said Ellenberger in a post-game interview. "I got very good vibes from the

Although only 1,785 persons turned out for the first game, Ellenberger said he was not disappointed and then noted he and his team had kept their pregame

#### Bid, Delp Eclipse winners

NEW YORK (AP) - Bud Delp, the colorful and controversial trainer of Spectacular Bid, joined his colt Wednesday as an Eclipse Award winner.

The Bid was voted Horse of the Year and best older horse Tuesday in balloting by the National Turf Writers Association, Daily Racing Form and Thoroughbred Racing Association when the 1980 equine champions were named.

## Ex-champ charged with murder

By The Associated Press
BOXING— Former World Boxing Council lightweight champion Esteban DeJesus was

charged with first-degree murder in the Thankgiving Day shooting of a 17-year-old youth, police said in Puerto Rico.

TENNIS- Shlomo Glickstein upset thirdseeded Jose-Luis Clerc 7-6, 6-2 in the New South

Wales men's tournament. In other matches, top-seeded Guillermo Vilas outlasted Kevin Curren, 6-7, 6-4, 6-4; Fritz Buehning surprised No.7 seed Yannick Noah, 7-6, 6-4; Bill Scanlon lost to Sashi Menon, 6-3, 7-5... Unseeded Peanut Louie and Sandy Collins reached the quarterfinals at Tucson while Tracy Austin beat Roberta McCallum 6-1, 6-0.

SKIING- Czechoslovakia's Jana Soltysova scored her first World Cup triumph, winning a downhill race that had four American skiers, led by Heidi Preuss, finish in the top 12 at Altenmarkt, Austria... Tim Caldwell edged fellow U.S.

Ski Team member Bill Koch in the men's 15-kilometer cross country race of the Telemark Gitchi Gami Games. Koch and Caldwell both are from Putney, Vt. Caldwell finished in 39 minutes, 31.57 seconds, Koch in 39:31.76.

BASKETBALL- Donnie Walsh was fired as coach of the Denver Nuggets, a spokesman for the National Basketball Association team said, adding that assistant coach Doug Moe would take over on an interim basis. Walsh succeeded Larry Brown as Nuggets' coach in February 1979 when Brown resigned under pressure. Walsh completed that season with 19 victories in the team's last 29 games.

GENERAL-The United States hockey team which won the Olympic gold medal at Lake Placid last February, was named winner of the Sportsman of the Year Award by Sports Illustrated... Richard Tufts, former president of the U.S. Golf Association and a prominent amateur golfer, died. He was 84.

## Despite barroom wallop, Gumbel is consummate television host

By FRED ROTHENBERG **AP Sports Writer** 

As far as we know, Bryant Gumbel of NBC's "NFL 80" hasn't tried to punch anybody in the mouth lately, nor has he made any of the ladies cry.

He'll leave those well-publicized, off-the-set activities to CBS' Brent Musburger, Jimmy The Greek and Phyllis George at the other pre-game National Football League show.

After all, what kind of host would Gumbel be if he got into fights and tearful scenes with his colleagues on the show? Gumbel, you see, is the consummate host, making us feel welcome whether it's for a football Sunday, the World Series or this Saturday's Miami Dolphins-New York Jets no-announcer game. He'll provide periodic updates and be a fail-safe if NBC runs into technical difficulties on its graphics

The sports host role is a TV-created job. Nobody in newspapers or magazines welcomes you to the sports section. But, then again, there wasn't much news pursuit on TV sports until recently. Enter Gumbel at NBC, Musburger at CBS and Jim McKay at ABC. They're the guys who inform the viewer about what's happening beyond the game.

GUMBEL, at 32, is the youngest of the three, but he performs his job as well as any of them. His work at the World Series, providing capsule updates of the game's flow and highlights, was informative and to the point. So were his locker room interviews following Philadelphia's sixth-game victory. Anybody who's ever worked that madhouse scene knows how difficult the assignment can be.

But Gumbel handled it with style and ease, which is the way he does everything, whether it's "Today" show assignments or the valuable NFL game updates that NBC cranks out with regularity on Sun-

Last Sunday, while dining on wonton soup from a carry-out container, Gumbel was seated in front of a half-dozen TV monitors showing NBC's 1 p.m., EST, games. When Cleveland scored against Minnesota. Gumbel sprung into action. Since only his voice is heard on the updates. Gumbel could stay at private cafeteria and watch the action.

WITHIN minutes, NBC was inserting the TD into the markets receiving Kansas City at Pittsburgh, Houston at Green Bay and Buffalo at New England. Each time, Gumbel would ask the producer to put the play-by-play of the game in his ear. Then the game announcer would introduce Gumbel, who would describe the highlight, using different phrases each time. Without notes and without missing a

'That's why I love doing this type of show," said Gumbel, who is unique since he's never done playby-play or game commentary. "There's so much freedom to create. I much prefer talking on my feet than sticking to some play-by-play formula. I think I have a nice niche here. I believe play-by-play would

But for exposure, does he need the Olympics? Jim McKay has toiled on ABC's "Wide World of Sports," since 1961 but it's the several weeks at the Olympics the nation spends with him every four years that has made him the most popular host this side of Johnny Carson.

Gumbel's NBC contract expires in July of 1983. Musburger, who was negotiating to join McKay for-ABC's expected 200-plus Olympic hours in 1984, just signed a new four-year deal with CBS.

'I've got enough to satisfy my work load, ego and bank account," said Gumbel, who writes poetry and half-finished novels in his off-hours. "I like to think I'm not a victim of blind ambition. I also think I'm honest enough to admit that somewhere down the road, the Olympics might mean more to me.'

this year with NBC's 150 hours of planned coverage. But Gumbel's chance to get the whole nation's attention - and not just the sports fan's - faded in President Carter's boycott of the Moscow Games. "I shed my tears for that one," he said. Many people may not know it, but Gumbel has

GUMBEL was supposed to have had his Olympics

been available this TV season to non-sports audiences as host of the silly stunt show "Games People Play." This is the baby of Don Ohlmeyer, executive producer of NBC Sports. Despite incessant promotionals on NBC's legitimate shows, "Games" s one of the big bombs of the season.

It would be unfair to criticize Gumbel for doing his job, no matter how meaningless the show is. And he's too honest to say he'd watch "Games" if he were on the other side of the camera. Still, he doesn't think it's harmed his credibility as a sports journalist.

## Handwriting was on wall at Tech

Rex Dockery received a vote of confidence from the Texas Tech, but that "win or else" ultimatum tossed in along with the vote must have looked like handwriting on the wall to the likeable redhead from Tennes-

So while most people may wonder how Dockery could leave Texas Tech, a member of a prestige conference with yearly television dates, for Memphis State, a fringe major school, it was a case of exchanging a high risk prospect of snake eyes for a semblance of security, if there is such a thing beyond Houston or Alabama in college football.

Besides, Dockery is going home and the combination must have seemed

IF THINGS had continued the way they had that first year when Dockery was thrust into the sudden vacancy created by the departure of Steve Sloan for Mississippi, there would have been no ultimatum and Rex wouldn't have considered a change.

In 1978, everything Rex touched turned to touchdowns or interceptions. It was one of the most exciting campaigns in Red Raider annals.

While 7-4 may not seem like much, the Raider prospects at the season's start were so dismal that a winning record earned for the unknown Dockery SWC Coach of the Year and it looked like he was destined to enjoy and long and successful tenure in Lubbock

That year, 1978, started off with a 17-9 loss to USC on the coast, a game in which Tech was on the verge of an upset until the game's late stages. And if Tech had had any kind of offense to go with a gritty defense, it could have happened

THEN, THE next week against Arizona, Dockery inserted freshman quarterback Ron Reeves into an apparent lost cause against Arizona and the season was saved. The Raiders rallied to beat the Wildcats 41-26 and pulled out a couple last gasp victories in late-season stunners against SMU and SWC champion Houston.

A converted tight end, James Had not, became a 1,000-yard rusher and by the season's end some guys who weren't even on the Tech preseason roster were rescuing games for the Raiders in the defensive secondary. It was that kind of year.

By 1979, the honeymoon was over. Some of those fleet-footed, glue-fingered receivers Reeves could count on in 1978 were gone and the Raiders slipped 3-6-2.

Rex Dockery...hug from friend

THIS SEASON the Raiders were on the threshold of reclaiming the old magic, coming oh-so-close against North Carolina and Baylor and scoring eve-buggers against Texas and SMU, but it was what happened in between, against Texas A&M, TCU and Arkansas...and yes, we suppose,

against Houston, that caused unrest among the natives

So when Memphis State came along, Dockery was receptive.

Rex's successor? After three straight coaches from SEC country, Jim Carlen, Sloan and Dockery, chances are the Raiders will look closer to home, unless it's someone like Mississippi State's Emory Bellard, whose heart may still be in Texas. However, after that win over Alabama and a highly successful season it may be hard to lure the onetime San Angelo and Aggie coach away from Starkville.

Other names mentioned include Abilene's John Paul Young, the ex-Texas and current Houston aide: A&M's Tom Wilson, a one-time Tech quarterback, and while he hasn't been mentioned, Hayden Fry, who is finding that winning at lowa isn't all that easy, might be open to a

### Stock market gains

NEW YORK (AP) - A new surge of buying in oil issues helped the stock market record its best gain in more than four weeks Wednesday.

Trading picked up from its recent sluggish pace. The Dow Jones average of 30 industrials climbed 10.41 to 928.50, for its strongest single-day showing since it

rose 11.69 on Nov. 18. New York Stock Exchange volume reached 50.80 million shares, up from 41.63 million Tuesday

Mobil shares climbed 21/2 to 841/2 as of the 4 p.m. close in New York; Texaco 3% to 51%, and Socal 4 to 1061/2. Among other leading oils, Exxon was up 2\% at 84\%; Atlantic Richfield 3\% at 70; Conoco 2 at 66\%; Phillips Petroleum 31/8 at 571/4, and Standard Oil of Indiana 21/8 at 361/2.

In the oil-service group, Schlumberger gained 5 to 120; Halliburton 61/2 to 162; Sedco 7 to 9034, and Hughes Tool 41/4 to 92. Though the oils clearly do-

minated, such other groups as defense, precious-metals and bank issues also turned in strong showings. Point-plus gainers in the

defense group included Northrop, up 21/2 at 573/4; McDonnell Douglas, up 11/4 at 42%, and Boeing, up 1% at

In the precious metals sector, which got a lift from rising gold and silver prices, ASA gained 21/2 to 68; Homestake Mining 1% to 73%; Dome Mines % to 89½, and Campbell Red Lake Mines 1% to 56%

In bank stocks, Bankers Trust picked up 1½ to 59; Chase Manhattan 1¼ to 45%; J.P. Morgan ¾ to 47%, and Citicorp 3/4 to 223/4. Brokerage issues also

were strong. Shearson Loeb Rhoades gained 2½ to 36, and Merrill Lynch 1¼ to 35%. The daily tally on the NYSE showed about five

gainers for every three stocks that lost ground, and the exchange's composite index rose 1.26 to 76.13.

Standard & Poor's index of 400 industrials added 2.56 to 151.66, and S&P's 500-stock composite index was up 2.29 at 132.89.

The Amex market value index jumped 5.77 to 340.81. In the over-the-counter market, the NASDAQ composite index closed at 194.02, up 2.14.

TODAY'S ANSWER

### **BUSINESS MIRROR**

### Your guesses count on nation's economy

By JOHN CUNNIFF **AP Business Analyst** 

NEW YORK (AP) - When the people who used to know are asking the questions now, you have to wonder and worry about where the economy is going. Guesses count today. Is there anything better? Q. Where is the prime rate, now 21 percent,

A. Current thinking is that it will reach at least 22 percent or 23 percent. However, these projections rise with every rise in the prime. Some published forecasts now go as high as 28 percent.

In listening to any forecaster today you must realize that they are as perplexed as anyone else. Some of them haven't yet finished mailing their 1981 forecasts, and yet those forecasts are already

A. The consumer price index is now at more than 12 percent, although the underlying inflation rate, which excepts volatile prices such as fuel and mortgage interest costs, is closer to 9 percent.

Higher costs for oil are expected to push up both rates. Anticipating the recent OPEC action allowing oil prices to rise by about 10 percent, one big investment firm raised its underlying rate forecast

Most analyses from private sector economists project consumer prices as rising at about the same rate as they are now, which is about 1 percent a month. However, high interest rates, which in theory depress demand and lower prices, can contribute to them in the short run.

The most extreme consumer inflation forecast seems to be by Bert Dohmen-Ramirez, editor of the Wellington Letter, an investment advisory service. He tells subscribers to expect a 30 percent peak by

Q. Gold prices? Q. Gold prices?
A. You can find forecasts of any price to \$2,000 or so in 1981. The gold market inovlves serious, informed investors, investors who are properly concerned about the security of their assets.

But it also attracts those who, like primitive man,

tend to worship gold as a piece of the sun. Specula-tors flock to gold. So do those with neurotic fears, revelations and the desire to make a quick buck.

In recent days gold has fallen to \$575, a 15 percent loss in less than three weeks. But isn't gold supposed to rise during times of economic and political instability? That's the theory, but it hasn't been so.

One explanation for the decline is that instability

seems to have offered even more security. That is, U.S. interest rates have risen so much that gold has been dumped in favor of a guranteed interest yield.

Q. Home prices? A. Median home prices are falling. The National Association of Realtors says existing single-family houses sold for \$62,700 in October, \$1,500 than in the previous month.

Did the decline result from high interest rates, as many believe, or was it merely a seasonal factor the onset of bad weather? That question hasn't yet been resolved, but the guess is that, yes, those expensive buying terms have been at least a major cause of the decline.

Q. What about stocks? A. It's confusing. The rule of thumb is that stocks fall as interest rates rise. True, the market has lost considerable ground in the past few weeks, but it remains higher on average than it was last Jan-

In addition, hundreds of individual stocks have doubled in the past year, and the reception for new ssues have been good.

Where will stocks be going? You can take your pick. Some well-regarded analysts foresee the Dow ones industrial average doubling over the next few years. Some well-regarded analyst see it falling

sharply Perhaps the short-term consensus thinking is that those high and rising interest rates will make a dent. Wright Investors' Service of Bridgeport, Conn., recently told clients that it believes "most common stocks are now more than fully priced in relation to

current interest rates and that a downward correction is more likely than not." But when the so-called experts begin asking your opinion, and they are, you begin to appreciate that your guess may be as good as theirs.

### Prime lending rate continues to climb

By JOHN M. BERRY The Washington Post

WASHINGTON - Major banks across the country lifted their prime lending rate from 20 percent to a record 21 percent Tuesday, and there was no sign that interest rates have peaked.

The sky-high rates are squeezing consumers and businesses alike, and most economic forecasters believe the credit crunch will plunge the nation into recession early in 1981. "This is a credit crunch, a crisis in the market,"

declared H. Erich Heinemann, an economist with Morgan Stanley & Co., New York investment bankers. "We are going to have some corporate failures coming out of this. Chrysler Corp. could be one casualty of high rates,

which have depressed new car sales in recent weeks. But many smaller businesses are in the red because of high borrowing costs and less-than-robust buying by consumers who themselves are being squeezed by inflation. Many smaller commodity speculators are being

hard hit, too, as they find themselves unable to get loans to cover large declines in the value of the contracts they hold for grain, gold and other commodities. At least one speculative commodity fund for small investors, ContiCommodity's McLean Fund 1. was dissolved last week with both the investors and ContiCommodity suffering losses.

Interest rates have soared because the demand for credit has run head-on into the determination of the Federal Reserve to slow the recent rapid growth of the money supply in order to fight inflation. The short-run result likely will be a declining economy in the first half of next year.

"This is the pattern you expect a few months ahead of a recession," economist Beryl Sprinkel of Chicago's Harris Bank said. "Mr. Reagan is inheriting a literal mess."

Heinemann, Sprinkel and a number of other analysts discounted in part reports Tuesday from two government agencies indicating continued strength in the economy. The Federal Reserve said that industrial production rose 1.4 percent in November. while the Commerce Department reported that new housing starts in November were running at a seasonally adjusted annual rate of 1,555,000 units, almost as many as in October, which was the highest figure for any month this year.

Most analysts believe output from the nation's factories had not been adjusted last month for a weaker sales outlook. One sign that such a change has begun to take place was a sharp jump in initial claims for unemployment benefits in the last week of November. Similarly, the strength of housing is expected to evaporate as mortgage commitments made earlier are used up.

## NM wildcats, field work reported

A wildcat project and an undesignated area project have been announced in Chaves County, and a pair of wildcats have been spotted in Lea County.

Fred Pool Drilling Co. of Roswell, N.M., spotted No. 1 Hondo River Farm as a 7,000-foot wildcat two miles southwest of the Bitter Lake, South (San Andres) pool

It is six miles east of Roswell and 1,980 feet from north and west lines of section 4-11s-25e. Ground elevation is 3,464 feet.

The undesignated area project in Chaves County is

Orla Petco Inc. of Midland No. 1 Barnes-State. Scheduled to 2,100 feet for tests of the San Andres 18 miles northeast of Dextor.

Location is 1,980 feet from south and west lines of

Sun Oil Co., operating from Midland, announced locations for a pair of wildcats to 3,100 feet in Lea County, 14 miles south of Maljamar.

No. 2 Jennings-Federal "B" is to be drilled 660 feet from south and 1,980 feet from west lines of section 15-19s-32e.

Sun No. 3 Jennings-Federal "B" was staked 1,880 feet from north and 1,980 feet from west lines of section

Harvey E. Yates Co. of Roswell, N.M., announced plans to re-enter a 14,935-foot failure in Lea County, six miles southwest of Tatum and clean out to 13,200 feet

The project, No. 1 HEYCO-Lester Alston is 660 feet from north and 1,980 feet from west lines of section

#### EDDY FIELD WORK

L. Ray Dunwoody of Houston No. 1 Internorth-State is to be drilled as an 8,000-foot Morrow project in the Hope, South (Morrow) field of Eddy County, 20 miles west of Lakewood.

Drillsite is 1,980 feet from north and west lines of section 32-18s-23e. Ground elevation is 4,001.

Exxon Corp., operating from Midland, spotted No. 2 Lukens-Federal as an 11,000-foot project in an undesignated area of Eddy County, 11 miles south of White

Operator staked location 1,900 feet from north and east lines of section 25-26s-25e.

David Fasken of Midland spotted an 11,000-foot Devonian project in the Midway (Devonian) field five miles northwest of Humble City in Lea County.

It is No. 1 Consolidated-State, 2,310 feet from north and 330 feet from west lines of section 9-17s-37e.

Knox Industries, Inc., of Midland spotted a pair of 13,700-foot projects in the La Rica, East (Morrow) field of Lea County. Each will test the field's regular pay. No. 1 New Mexico State "B" is to be drilled 1,980 feet from north and 660 feet from east lines of section 3-19s-34e. Ground elevation is 3,987 feet.

Knox Industries No.1 New Mexico State "A" is to be drilled 660 feet from south and 1,980 feet from west lines of section 35-18s-34e. Ground elevation is 3,979 feet. The projects are seven miles south of Buckeye.

Marathon oil Co. No. 3 J. W. Grizzell is a new Fusselman project in the Brunson field of Lea County, two miles southwest of Eunice.

Scheduled to 7,500 feet, it is 330 feet from south and 1,650 feet from east lines of section 5-22s-37e. Ground elevation is 3,424 feet.

The Paducah, North (Delaware) field of Lea County gained a new project with staking of Texaco Inc. No. 74 Cotton Draw Unit.

Scheduled to 4,950 feet, it is 660 feet from south and 1,980 feet from west lines of section 34-24s-32e. Ground

elevation is 3,502 feet.

The Crossroads (Siluro-Devonian) field gained an 11,900-foot project with staking of V-F Petroleum, Inc., of Midland No. 1 Sawyer.

Drillsite is six miles east of Crossroads and 1,980 feet from south and 2,310 feet from west lines of section 27-9s-36e. Ground elevation is 4,026 feet.

Yates Petroleum Corp. of Artesia, N.M., No. 1 Bass-State "ON" is a new 9,800-foot upper Pennsylvanian project in the Baum (upper Pennsylvanian) pool of Lea County, 13 miles southwest of Buckeye.

Operator staked location 1,980 feet from north and west lines of section 18-18s-33e.

Martindale Petroleum Corp. of Hobbs, N.M., No. 1 New Mexico State "F" is a re-entry of a 7,450-foot project in an undesignated area of Lea County, seven miles northeast of Eunice.

The operator will test at 4,500 feet. Location is 660 feet from north and west lines of section 36-20s-38e.

Adams Exploration of Midland No. 1 Osborne-Federal is to be drilled as a 10,000-foot project in the Vada (Pennsylvanian) field of Lea County, six miles north-

Location is 1,080 feet from north and 1,980 feet from west lines of section 1-9s-34e.

#### **EDDY PRODUCER**

David Fasken of Midland No. 5 El Paso-Federal is a new well in the Burton Flat (Morrow) field of Eddy County, seven miles north of Carlsbad.

It completed for a calculated absolute open flow potential of 2,845,000 cubic feet of dry gas per day, through perforations from 10,858 to 10,978 feet. The pay was acidized with 4,500 gallons.

Location is 2,684 feet from north and 660 feet from west lines of section 1-21s-26e.

, Mesa Petroleum Corp. of Midland No. 2 Savage-Federal has been completed in an undesignated Abo area of Chaves County, 27 miles northwest of Boaz.

The operator reported a calculated absolute open flow of 245,000 cubic feet of gas per day, through perforations from 3,628 to 3,702 feet and from 3,746 to

The pay was acidized with 3,500 gallons and fractured with 30,000 gallons.

Total depth is 4,325 feet, 4½-inch pipe is set at 4,247 feet and hole is plugged back to 4,247 feet.

Wellsite is 1,980 feet from north and west lines of section 4-17s-25e.

#### LEA PRODUCERS

Getty Oil Co., operating from Midland, has completed No. 1-6 Getty-State as a Morrow gas well in an undesignated area of Lea County, 14 miles west of Oil Center.

It finaled for a calculated absolute open flow potential of 749,000 cubic feet of gas per day, with a gas-liquid ratio of 8,999-1. Gravity of the fluid is 50 degrees. Completion was through perforations from 13,451 to

Total depth is 14,140 feet in the Barnett, 41/2-inch pipe is set on bottom, and plugged back depth is 13,451

Wellsite is 3,500 feet from north and 2,200 feet from west lines of section 6-21s-34e and 1% miles north of the lone well in the Berry (Morrow gas) field.

Natomas North America, Inc., of Midland No. 1-24 State Communitized is a new well in the Antelope Ridge (Bone Spring oil) field of Lea County, 16 miles north-

The well, the second from that pay in the field, was completed for a daily flowing potential of 7 barrels of 40-gravity oil, with a gas-oil ratio of 5,714-1.

Completion was through a one-inch opening and perforations from 9,882 to 10,866 feet. The pay was acidized with 6,000 gallons.

Total depth is 13,900 feet, 7%-inch casing is set at 13,899 feet and hole is plugged back to 12,380 feet. Wellsite is 1,980 feet from south and west lines of section 24-23s-34e

## HNG potentials dual oil, gas discovery in Lea County

HNG Oil Co. of Midland has announced completion of a dual oil and gas discovery in Lea County, New

No. 1-6 San Simon-State finaled through Wolfcamp perforations from 11,132 to 11,154 feet, to flow 408 barrels of 46.9-gravity oil with no water, on a 9/64-inch choke. The gas-oil ratio was

The pay was treated with 3,000 gallons of acid.

Operator reported a calculated absolute open flow of 17,800,000 cubic feet of gas per day through Morrow perforations from 13,110 to 13,117 feet, which had been acidized with 3,000 gallons

The gravity of the condensate is 56 degree, and the gas-oil ratio 20,700-1. Total depth was reached at 13,300 feet, where 4.5-inch casing was set.

Wellsite is 1,980 feet from north and 660 feet from east lines of section 6-22s-35e, nine miles southwest of Oil

#### GLASSCOCK EXPLORER

Belco Petroleum Corp., operating from Midland, has staked location for a 10,300-foot wildcat in Glasscock County, nine miles north of Garden City. It is also staked in the Deadwood (Fusselman oil) field, which produces from 10,023 feet.

No. 5 Edwards is 1,980 feet from north and 1,200 feet from east lines of section 46, block 33, T-2-S, T&P sur-

Drillsite is one-half mile north of the Deadwood (Fusselman) discovery
well.

#### LOVING CONFIRMER

Mexico, Inc., operating from Houston, has completed the second well in the Wheat (Cherry Canyon) field of Loving County.

Operator, reported No. 2 Christopher pumped 52 barrels of 37.2-gravity oil and 181 barrels of water through perforations from 6.322 to 6.356 feet, which had been fractured with 700 gallons.

The gas-oil ratio was 557-1. The well bottomed at 6,450 feet, where 5.5-inch casing was set, and was plugged back to 6,398 feet.

The pay was topped at 6,322 feet, on kelly bushing elevation of 2,883 feet. Production site is 2,080 feet from south and 660 feet from east lines of section 38, block 53, T-2, T&P survey, seven miles northeast of Mentone.

#### WINKLER PROJECT

Monsanto Co. of Midland has staked location for a project in the current eleven-well Monahans, Northeast (upper Pennsylvanian detrital) area of Winkler County.

No. 1 Bagley is 1,980 feet from north and west lines of section 21, block B-10, Public School Land survey, and 10 miles southeast of Kermit. It is contracted to 9,300 feet.

#### WARD TEST

Texaco Inc., Midland, will drill a project in the Caprito (middle Delaware) field of Ward County, six miles northwest of Pyote.

No. 8 State of Texas "DC" is 1,980 feet from south and 660 feet from east lines of section 3, block 18, University Lands survey.

Contract depth is 6,630 feet.

#### TERRY RE-ENTRY Ladd Petroleum Corp. of Midland

will re-enter No. 1-75 Alexander and plug back to 9,920 feet for wildcat tests of the Wolfcamp. The well was completed as a Terry

County Fusselman oil discovery in October, through perforations from 12,523 to 12,533 feet. The old total depth is 12,992 feet.

Location is 1,320 feet from south and 467 feet from west lines of section 75. block D-11, C&MRR survey, seven miles northeast of Tokio.

It is 2 4/5 miles north of the depleted discovery well of the Coroco (Wolfcamp) field, which produced from 10.032 feet.

#### SCURRY WILDCATS

Cornerstone, Exploration Inc., operating from Houston, has staked location for a 7,600-foot wildcat in Scurry County, 10 miles northeast of No. 1 Harrell, et al, is 1,094 feet from

south and 1,233 feet from east lines of section 81, block 2, H&TC survey.

## **CHRISTMAS TIME FOR** THE MAN AROUND THE HOUSE: ROLEX

More than ever in this Christmas season, you fly high, live free and dive deep. Holidays make year round activists even more visible. And so, you need a watch that is not just a piece of jewelry, but the toughest timepiece in the world: Rolex. To give or to keep, this Submariner-Date, with its 30-jewel chronometer movement housed in an Oyster case of surgical stainless steel and guaranteed pressure-proof down to 660 feet, is precisely right. Happy New Year!

# Permian Basin areas get locations for 188 more projects

West Texas and southeast New Mexico counties last week gained locations for 188 more oil and gas projects, with 46 of them scheduled for drilling in wildcat areas.

District 7-C of the Railroad Commission of Texas, headquartered in San Angelo, processed applications requesting permission to drill 55 projects to lead all other areas of the two-state area in total number of projects staked. Thirteen of the District

7-C projects were spotted in wildcat areas.

District 8 of the Railroad Commission of Texas, with headquarters in Midland, reported 45 projects, including five wildcats.

Four New Mexico ounties, Chaves, Eddy, Lea and Roosevelt, gained 39 projects, including seven wildcats.

### Drilling No. 1 McKnight; west Loco Hills, 1,050, Coalfield 'unsuitable' Fletcher, Dallas, No. 1 for strip mining: Andrus

By BRYCE NELSON The Los Angeles Times WASHINGTON - Secretary of the Interior Cecil D. Andrus ruled Tuesday

National Park in Utah was unsuitable for strip mining. But Andrus approved strip mining for the bulk of the coalfield, situated in the southern part of Utah, as an essential part of the proposed Allen-Warner Valley Energy System scheduled to produce 2,500 megawatts of electricity. Andrus made his decision in response to a petition filed by the Sierra Club, the Environmental Defense Fund, Friends of the Earth and several individual

landowners. They charged that proposed mining within five miles of the

southern boundary of the national park would have many adverse effects,

that the part of the federally-owned Alton coalfield nearest Bryce Canyon

including noise, a decline in air quality, and scenic degradation of the park. Calling the decision unprecedented, a spokesman for the Department of the Interior said it was the first ever made under the 1977 Surface Mining Act, which allows petitioners to ask that federal lands be declared unsuitable for surface 'Under this decision, mining will be no closer than about 25 miles from the

park and out of sight of Yovimpa Point overlook and the rest of the park,"

Harmon Kallman, the department spokesman, said. Kallman said that while Andrus' decision could be reversed in the courts, it could not be reversed by a future interior secretary. 'We have drawn a line which I feel confident everyone can live with ...," Andrus said. "The lands I have declared unsuitable for mining contain less than 10 percent of the coal in those federal leases proposed for development near Bryce Canyon. My decision leaves the mining industry free to develop more than 90 percent of the coal it originally intended to recover."

national park with its "remarkable visual clarity" and "extraordinary distant Reaction from the environmental groups that filed the petition was mixed. 'We feel this is a very important decision in protecting the park, but we intend to try and stop the Alton mine with every legal means at our disposal," Ron Rudolph, national energy coordinator for Friends of the Earth, said.

Andrus said that "it would be unconsionable to allow strip mining" so near the

'We're pleased that the secretary will allow some mining there (but) we will

wait for further comment until we see his final decision," said Jan Strobel, a spokesman for Nevada Power Company, the project manager for the proposed elaborate energy system. The system calls for development of the Alton coal mine near Bryce Canyon. the building of a 500-megawatt power plant 17 miles from Zion National Park in Utah, the 2,000-megawatt Harry Allen plant near Las Vegas, Nev., and two coal slurry pipelines to carry the coal from Alton to the plants.
