Court hears concerns of groups

Coke County Commissioners heard from groups representing both ends of the county at their regular meeting Monday morning.

Following the pledge, the court heard from a group of Robert Lee citizens who were representing the 40 Plus Dance Club and other groups who regularly utilize the Rec Hall for their monthly or bi-monthly get-togethers. Group representatives indicated that there was some misunderstanding between the different groups who use the Rec Hall concerning clean-up procedures. After

some discussion, the court decided that the groups using the Rec Hall would be responsible for sweeping the floor. The caretaker would then be responsible for mopping.

Next on the agenda were Mrs. Gilley and Mrs. Childs from Bronte, who were concerned about the condition of their county roads in the Fort Chadbourne area, due to the heavy rainfall received. They also expressed concern about the dangers that the high water posed to residents in that area. Precinct 2 Commissioner Billy Joe Luc-

kett explained that with all the rainfall, it had been too wet to make the necessary repairs to the roadway in that area, and indicated that just as soon as the weather let up, his crew would be in that area. It was also decided that more high water markers were needed in areas throughout the county, and commissioners would install these as needed.

Following this discussion, the court reviewed the Extension Agents' reports, paid bills, and worked for a short time on the '88 budget.

Watch water usage in Bronte

Bronte citizens are again asked to watch their water usage. Between now and the end of June, work on two of the three filters serving Bronte will reduce the volume of water available.

No shortage will occur if citizens will keep their yard watering to a minimum.

Please conserve water until the end of June.

Property owners are also urged to mow their yards, lots and any overgrown areas to keep the mosquito and insect population down.

Also it is has been reported that rattlesnakes have been found in the yards of two or more homes in the southeast part of Bronte. Every one must be on the alert and check their yards before allowing small children to play outside.

Bronte Seniors

A film by the American Bar Association will be shown at the Bronte Senior Center on Thursday, June 18 at the regular Pot-Luck Luncheon, program and game day.

The meeting will begin at 10 a.m. for those who wish to play games. Thirty minutes previous to the serving of the meal, the film will be shown.

Margaret Martin, Bronte Center Director urges all persons to attend this informative meeting and fun day. The van will run for those who need transportation.

Girls camp at Brownwood

First Baptist Church of Bronte sent 10 girls and 3 leaders to the Heart of Texas

Baptist Encampment near Brownwood last week.

The group enjoyed swimming, paddleboats, recreation, Bible study, crafts, mission study, singing and lots of good food and fellowship.

New building in progress

A new building is being built at 123 W. Main. The 1300 square foot building will serve as the new offices of Glenn-Bivins Insurance. The new building will replace their present 297 square foot office in the First National Bank building.

Better customer service is the main reason for the new building according to Garry Bivins. At present, in the small office there is no room for privacy and it gets very crowded if several clients are in the office at the same time. Bivins also stated that personnel will remain the same and the service should improve with the extra space to work in. The company has been in business for 58 years.

Adjacent to the present Country Hair Designs building the new building will extend 25 feet west on Main St. and will be 52 feet deep. It will be constructed of

cinder block and will be the west most extension of the 100 block of West Main in downtown Bronte.

Bill Burns of Robert Lee is the contractor. Construction began this past week with the laying of sand in preparation for the concrete slab. The building is expected to be complete in September.

Personal

Visiting in Robert Lee this week were Laura and Mitchell Crenshaw. They spent the week with Jim and Gloria Hubbard and Otis and Phyl Stegall. While here, the group did some fishing.

Dear Mr. Spain,

In the column, "Hints for Health" by Guno G. Kletter, M.D., appearing in the June 5, 1987 edition, serious allegations were raised, and on behalf of St. John's Hospital, I wish to respond to the misinformation and set the record straight.

St. John's Hospital, approved by the Joint Commission on Accreditation of Hospitals and approved for participation in the Medicare program, has various pricing structures for most services. Laboratory services provided on an out-patient basis through physicians' offices, nursing homes, and industrial accounts, wherein the St. John's laboratory has no expense for obtaining or transporting specimens to be analyzed are provided at a price significantly lower than similar services provided to patients requiring a full range of services.

In the instance cited by Dr. Kletter, St. John's Hospital billed the patients as required in accordance with the Medicare fee schedule. Unfortunately, hospitals are

required to charge the rate prescribed by Medicare for services provided a Medicare patient.

I feel it necessary to point out that Dr. Kletter compared two patients that in fact did not receive the same laboratory procedures; therefore, the charges were different. Hospitals are required to charge the fee schedule prescribed by Medicare for patient services. I sincerely regret that Dr. Kletter and his office staff failed to understand and properly inform patients of Medicare regulations.

In spite of Dr. Kletter's statement, "unfortunately we don't have any input on St. John's billing policy," upon being contacted by Dr. Kletter's office regarding the patients concerns, Mr. Carl Lange, Technical Director of the St. John's lab, contacted both patients and was able to completely resolve their concerns.

In addition, as a member of St. John's Hospital medical staff, Dr. Kletter's concerns and recommendations are given the same serious

consideration accorded any physician using St. John's Hospital. And finally, in spite of Dr. Kletter's allegations, St. John's Hospital does not "charge higher rates to well-insured patients" as we have been accused.

St. John's Hospital has a strong record of providing the highest quality health care to the people of West Texas and especially Coke County. For the past 75 years, St. John's has been privileged to serve the people of Tom Green County and surrounding counties, and the past 18 months we have made an extensive effort to provide multiple services to the West Coke County Hospital District. We look forward to continuing this proud tradition of service and caring.

Please contact me anytime I may be of assistance to you in any manner whatsoever.

Sincerely,
Wayne E. Ulrich

McGinnis gets scholarship

Bowie McGinnis, son of Mr. and Mrs. Sid McGinnis of Bronte was recently notified that he is the recipient of a \$1000 ROTC Carr Scholarship to attend ASU this fall. This scholarship will be paid \$500 each semester during his freshman year and then beginning his sophomore year, the amount will be proportioned according to his grade point average.

To qualify for this scholarship each semester he must take at least one course relating to ROTC (such as history of Air Force). During this time, the Air Force will fly him to various bases over the country to observe different occupational training available as a member of the Air Force. For example, he will be allowed to follow a

Bowie McGinnis

pilot through all of his daily work, so that he will know first hand what all transpires in a pilot's day. This alone should prove to be very interesting and educational.

For two years complete with summer camp, Bowie will not be required to sign up with any branch of the service. Upon beginning his junior year, he must either become a member of some branch of the Armed Forces or drop out of the program and no longer receive scholarship money.

If he joins a branch of the service and continues, he will graduate as a 2nd Lieutenant. At that point, if he desires he can still defer entering active duty and study for his doctorate if he chooses.

Bowie is a recent '87 graduate of Bronte High School. At present, he is interested in pre-med courses.

Wagon wheels to roll again

June will find the wheels of the wagons once again rolling around Texas. The summer journey is planned and will be a tour of ranches in the West Texas area. "Wagons Ho" will once again ring out by Wagon Master Garry France, on June 13, in Sterling City. After stopping at several ranches on the route, the wagon train will complete its journey at the Pitchfork Ranch, June 27, after two days of crossing country on the Beggs Ranch and the Pitchfork Ranch.

The original organizer of last year's Texas Sesquicentennial Wagon Train and president of the Texas Wagon Train, Jan France said, "The Texas Wagon Train is rolling not only in June, but will roll three times a year for two weeks. Each wagon train journey will be planned for a different area of the state."

The Texas Wagon Train completed a very successful two-week journey from Junction to Uvalde in March.

The fall wagon train journey will be a very special event - ONLY authentic and antique wagons will roll through North East Texas. The Wagon Train which will roll out October 3-17, will be followed by horseback riders who are sure to enjoy the fall changing of the trees.

The Texas Wagon Train is also publishing a quarterly, one-of-a-kind newspaper, called "Wagon Train Telegram". The interest throughout the nation is shown by the subscribers in 20 states and two foreign countries, in just six months of publication.

Below are a list of rules of the train.

Only horse or mule drawn wagons or buggies allowed. Registration fee only \$25.00 per person for one day or the complete two week trip.

Camp followers welcome (campers w/out animals). This is a Family Activity. Rules Are Enforced.

Horseback riders welcome. Arrangements can be made to rent a wagon w/driver for some or all of the trip through the Texas Wagon office in Sulphur Springs. The media is important to our future and to Texas. Tourism is Texas next "Black Gold". Last year the wagon train project brought national attention to Texas, the media was the key, we need and look forward to your support.

VA Questions

Q - Can a non-veteran assume a GI loan?

A - Yes. VA approval is not required before a veteran or a non-veteran assumes a GI loan. However, before the veteran-seller can be released from liability in the case of a loan default, the buyer must be a credit-worthy obligor who is acceptable to the VA.

YOU AND GTE CUSTOM CALLING

For Bronte And Blackwell Customers

Buy any GTE Custom Calling Feature before June 26, 1987, And The Installation Is Free.

My parent's phone is never busy, even when I'm talking on it! And do they ever like that idea. See, I'll hear a little beep on the line that means someone is calling our number. So with **CALL WAITING**, I just push the switch to click over to see who it is, and then I can get off the phone if I have to. Dad and Mom don't miss their calls that way.

Such a convenience, this **CALL FORWARDING!** And it's so easy. I like to go out pretty often to play cards with my friends. So I just dial a code number and the number where I'll be, and my calls go where I go. Sometimes even Harvey will use it so he can get his calls down at the club. And friends can take our calls when we're traveling.

A friend of mine suggested we get **SPEED CALLING** on our phone. It surely comes in handy for emergencies and things like that. I just have to push a couple of buttons to reach the fire department, or the police, or an ambulance, or someone in the family, because I've already programmed all the code numbers into the phone's memory.

Every holiday is very important to me. With **THREE-WAY CALLING**, both my children can get on the phone with me at once, even living so far apart. It's like having the family all together again. My son was such a sweetheart to arrange this for me.

Call your GTE business office or stop by a GTE Phone Mart/ Customer Service Center before June 26 to take advantage of this special offer.*

CALL WAITING: If you have Call Waiting, a tone will tell you that another call has come for you when you are on the line.

THREE-WAY CALLING: This feature lets you set up a three-way local or long-distance conference call without help from the operator.

CALL FORWARDING: This feature lets you automatically transfer incoming calls to another number.

SPEED CALLING: Speed Calling lets you store most frequently called or emergency phone numbers by dialing only a one or two digit code.

*Some limitations may apply. Call your local GTE business office for details.

General Telephone

Postal Pointers

by Coe Lewis, PM
Robert Lee, TX.

To keep up-to-date on postal services - we talk about various ones each week. We all hear about "Priority mail," "Second-Class Mail", etc.

Let's talk a little about "Priority Mail". The post office will furnish you a large priority envelope for business mail which is sent "Priority". Any piece of mail weighing more than 12 ounces which is sent "First-class" is priority mail. You

can send up to two pounds anywhere in the United States for \$2.40 and we will furnish the envelopes to businesses free of charge. This mail is handled quickly and is given what the name implies-- "Priority" over other classes of mail. It is

the next best thing to our "Express Mail" which guarantees overnight delivery.

Touching on "Second-Class" mail-- this type mail consists mostly of newspapers, magazines and church bulletins. This type mail

generally is used only by publishers who mail out large numbers of their publication, such as your local newspaper, Southern Living, Field & Stream, Baptist Standard, etc. When this type mail is non-deliverable or when somebody moves, we forward the mail on or notify the publisher of the new address if the customer doesn't notify them within 90 days.

We will be glad to explain any of these services to you, just come in and ask us or call us.

Trauma special to air on KTAB

On Wednesday, June 24th, at 7:00 p.m., KTAB presents CRITICAL MINUTES, a one-hour program about the treatment of trauma victims. The special focuses on the highly trained medical teams who fight to save the lives of injury victims. Yet, each year, thousands die needlessly because this country does not yet have an adequate trauma care system.

Hosted by Merlin Olsen, CRITICAL MINUTES is part of LIFEQUEST, a series of documentaries about today's compelling health issues - issues that affect millions of Americans each year.

To assure immediate and specialized treatment of injury victims, each state needs a complete trauma system capable of delivering the most advanced care. Yet, only 10% of America's communities have such a system. In CRITICAL MINUTES, medical authorities are interviewed about this serious gap in America's health care system, a system that operates in the most technologically advanced na-

tion in the world. Donald Trunkey, M.D., Medical Advisor to CRITICAL MINUTES and Chairman, Dept. of Surgery, Oregon Health Sciences University, Portland, states, "We have to a

system of care modeled after the firehouse. We pay firemen to stay in a firehouse 24 hours a day to save our property. Shouldn't we have the same system to take care of people?"
