

It's school time again and that brings many memories to a kid past 40 ( a way past). Claude Shannon was my first 'man teacher'. I liked that man! I admired him as a teacher at Woodland Heights, just south of Brownwood. At one time it was way out in the country, a couple of miles. Now it is a part of the city.

Back to the good professor. What I liked most about him was his easy going ways. He could whip you one day and still like you the next. He was a hard worker, taught school, worked a garden, and milked a cow. He got up early a lot of days. He would wear a left shoe of one kind and a right one of another kind. His clothes were not too well kept but he did not worry about it.

He hated an alarm clock and was a 'wee-bit' late to school sometimes. I can see him now. He would come in a little late, hair kind of rumped, grin kind of silly, ease up to me and whisper, "Walter, could you milk ole "Dilly Belle"? He liked me and I liked him - so, I eased out, crossed the school ground and Mrs. Shannon would hand me the milk bucket.

Now, Mrs. Shannon liked me better than he did. She sent me cake, cookies, and fussed at me about doing without a meal if I was ever around school and did without food. So I gladly milked the cow, helped work the garden and spent an occasional night in the guest room.

One morning Mr. Shannon did not show up for school. I was sent for. Upon arrival at her house she started laughing and could hardly quit, and said, "I've got to tell someone." Mr. Shannon hollered from a near bedroom, "Don't tell Walter, both of you will never get 'Dilly Belle' milked."

But she told me.

It seems that the evening before the professor got sick and, as was his habit, took two big spoons of soda. He had not eaten anything and at bedtime he was about to starve. He told his wife he was much better - much, much better. She felt he should not eat.

He opened the ice box, spotted some buttermilk that was good and aged. He drank a bunch of it. Well, the acid in that buttermilk made the soda foam.

"Walter," she said, "he laid out on that back porch and could not vomit one bit. He did gag and foam! He foamed at least ten gallons. He nearly died. He gagged, foamed, and asked if the doctor had come." "Oh, Walter, it was bad. Since he did not die, I wish you could have seen him."

"No, he's not sick this morning. He is so weak he can hardly move."

Well, here I come, Dilly Belle.

## Miss Cotton Contest

Miss Nancy Dunson of Seagraves won the Gaines County Miss Cotton contest last Saturday night. Miss Janet Setliff was the first runner-up. Both girls are juniors in the Seagraves High School. Other entries were Miss Terri Freeman, Loop; Miss Judy Bird, Seagraves; and Miss LaRuth Freeman, Loop.

Miss Dunson is the daughter of Mr. and Mrs. Lonnie Dunson. She is an accomplished pianist, accompanies the school choir and sings in the girls quartet.

From left to right LaRuth Freeman, Loop; Terri Freeman, Loop; Nancy Dunson, Seagraves, "Gaines County Miss Cotton"; Judy Bird, Seagraves; and Janet Setliff, Seagraves.

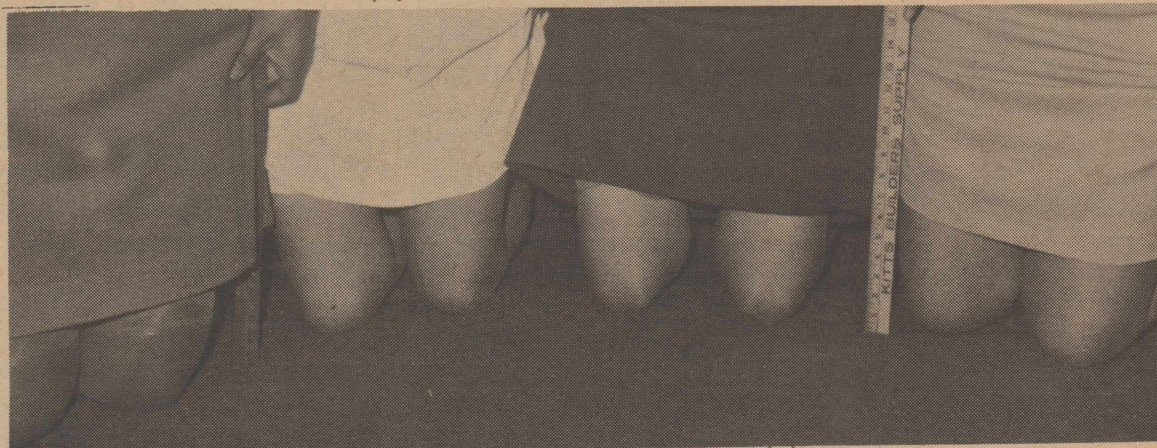

The judges were Mr. Pete Brown, National Cotton Council Representative, Lubbock; Miss Terri McKinley, South Plains Maid of Cotton, Lubbock; and Mr. Edgar Self, Manager, Collins Department Store, Denver City. Walt Olivo, Channel 11 Farm

News Director, Lubbock, was master of ceremonies.

The contest was sponsored by the Gaines County Womens Cotton Promotion Club.

Miss Dunson will enter the South Plains Maid of Cotton Contest to be held in Lubbock.

## SIX INCHES ABOVE THE KNEES

This is the way you measure your dress length.

The School Board of Education Monday night discussed at length school dress and long hair. Adding to the school policy girls dresses or skirts are to be no higher than 4 inches above the knee or 6 inches measured from the floor when kneeling. Parents will not have a problem measuring daughter's dresses if they will simply get on their knees and measure the hemline 6 inches from the floor. (This does not mean they cannot be longer.)

2. Boys hair is to be cut in a conventional manner, clipped around the ears and sideburns no lower than the ear lobe.

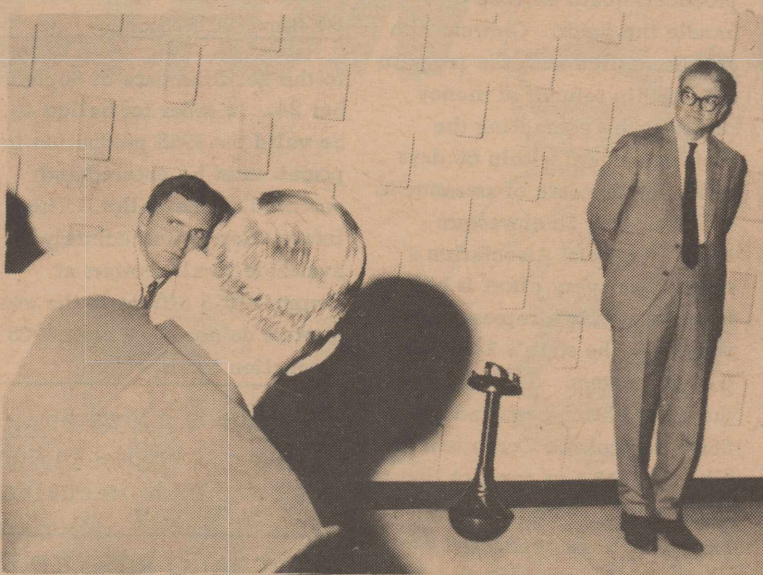

3. In other action all auxiliary personnel were approved for employment.

4. Charles Wrenn and Bob Robinson were employed as 7th and 8th grade football coaches, to help with the 7th and 8th grade - payment of \$300 each.

5. The last sentence was stricken from Policy #803, Section 6, which states: "Drivers on one-day trips will be paid at the rate of \$1.25 per hour for each hour of waiting time in excess of four hours."

## Mental Health Unit

Dr. Jerome Smith meets with ministers, principals, school and health nurses last Wednesday.

Last Wednesday Dr. Jerome Smith, psychiatrist from Lubbock, explained and led a discussion on mental health and mental health problems. Present were school administrators, ministers and nurses.

Those present were Jean McGehee, school nurse; Omer R. Bantz, First Christian Church; Jim Cory, Presbyterian Church; L.A. Harper, Assembly of God; A.W. Wellborn, Trinity Baptist Church; W.E. Elkins, Church of God; Gene Hawkins, First Baptist Church; Mrs. Rose Kenley, social worker from Big Spring; Earle Brasfield, Seminole Elementary principal; Tilden B. Armstrong, First Methodist Church; Bill Benton, School Counselor; V.N. Keyes, High School Principal; John D. Thompson, Direc-

tor of Curriculum; L.L. Moore, Jr. High Principal; George Ratliff, Music Director, Methodist Church; Ann Foster, County Health Nurse; Walter Woods, Dr. Jerome Smith, psychiatrist from Lubbock; and Mrs. Koberg, local mental health unit.

Dr. Smith pointed out in his discussion that some marital problems would be counseled in the local health unit, that Alcoholics Anonymous could do a better job with alcoholics than the clinic could do unless a marked change had come about with the heavy drinker. He also pointed out that coming to small towns are drug problems and sex problems that previously were only in larger towns.

The telephone number of the mental health unit is 758-5110.

## Weights & Measures

Helon Martin's 2nd grade room at F. J. Young Elementary School is being measured and weighed by school nurse, Mrs. Jean McGehee. Johnny Price, son of Mr. and Mrs. Edgar Price, is on the scales. Mrs. McGehee said, "This is one time in their life when they're always proud of their weight and it is never too much."

## PEANUT GROWERS URGED TO VOTE

Texas peanut producers are reminded to vote on the referendum being conducted to determine whether or not an assessment will be effective on peanuts at market time to raise funds for research, promotion, education and disease and insect control. Ballots for voting on this proposition as well as voting for a producers board to administer this program were mailed to peanut producers on September 6. In order to be valid, ballots must be marked and returned not later than September 24. Growers who did not receive ballots by mail may obtain ballots at the offices of County Agricultural Agents.

The assessment program will become effective about October 1, 1969, provided two-thirds of the peanut growers voting vote in favor of the assessment, or provided those voting for the assessment produced at least 50 percent of the peanuts in Texas in 1968. Assessment amounts would be collected at the first point of sale or mortgage and would be remitted monthly by buyers and warehousemen to the producers board elected to handle the funds. Growers who are dissatisfied with the program may obtain refunds of money collected by contacting the producers board within 60 days following the date of assessment.

Officials of Southwestern Peanut Growers' Association stated that every effort is being made to obtain a representative vote from the state's 12,600 peanut growers. SWPGA is the organization certified by State Agriculture Commissioner John C. White to conduct the referendum. Association personnel have conducted educational meetings throughout Texas regarding this matter.

Wishing to make the voting procedure as convenient as possible, SWPGA officials are enclosing a return postage paid envelope with each ballot mailed to growers. Peanut growers who have not voted to date are urged to exercise this right prior

In 1944 a shipment of 753 hogs was sent from Lamesa, Texas. The hogs weighed from between 200 and 240 pounds and brought 14¢ per pound. Note the railroad in the background and the AT&SF (Atchison, Topeka and the Santa Fe) cars on the siding. A part of the hogs were sent to California. The balance went to Ft. Worth. On the left is Lee Billingsley, with a stick in his hand, and Lonnie Freyburger behind him. On the right is Bill Snider, E. C. Nix of Seminole, Verdie Carruth (one time shoe repairman in Seminole) and Jim Billingsley. In the background are two brakemen for the railroad and the depot agent. 175 of the hogs came from Randy Whitaker in Gaines County and another lot from E. C. Nix.

to the deadline date of September 24. In order for ballots to be valid the 1968 production in pounds must be entered and certified on the ballot. This information is immediately available to all growers at County ASCS offices in the event growers do not know their 1968 production totals.

Seminole defense last Friday against Brownfield kept the Cubs bottled up. No. 26 is Whisenhunt; 22 is Frankie Calderon; 80 Gene Sims; 50 David Foote; 70 Hitch; 52 Tommy Harrell; and 84 Ronnie Somers.

## INDIANS TO MEET THE MUSTANGS FRIDAY NIGHT

Friday night is the big one! The Mustangs of Denver City will meet the battling Braves of Seminole Friday night in Seminole. Most followers of the Indians had rather see them on the big warpath against the Ponies than anyone else. The grudge battle was started in 1941. Seminole has won 15; Denver City 12.

Coach Jake Harrell says, "We were well pleased with the work-out against Brownfield last Friday night. We've got some big boys but they still need to take a little weight off."

Danny Whisenhunt, senior quarterback for the Indians, looked great last Friday night when he came in and immediately drove the team to pay dirt. Frankie Calderon showed unusual speed on the wide sweep. Frank Gady looked good, as did Lloyd Barker on blocking. Tommy Harrell acted like he

came to play. Ricky Thornbury threw a block that made the man look back twice after getting up. Gene Sims and James Hill both made good receptions playing ends.

Denver City is reported not to have too much size but they are quick and uniform. (Same old story.)

Starting out in their backfield will be Gene Richardson, senior quarterback; left half Larry Clinton; fullback Jimmy Youngblood; right half Richard Rendon, averaging 154.5 pounds per man.

James Hill, playing end last Friday in the practice game against Brownfield, caught the ball, juggled it and held on for a real gainer.

The Student Dress Policy for grades 7 through 12 was a subject of discussion at the School Board Meeting Monday night, September 8. The dress policy was reviewed by the Board and on recommendation by the principals, a fifth statement was added to the dress policy for girls. "5. Girl's dresses shall not be shorter than four inches above the knee nor more than six inches from the floor when the girl is in a kneeling position."

The following is the policy concerning student dress as printed in The Indian Guide, Handbook for High School Students with the above statement added as approved by the Board of Education.

### REGULATIONS FOR SCHOOL DRESS

It is one of the aims of Seminole High School to display to the public at all times a standard of moral conduct, attitude, dress, courtesy, and friendliness which will be above reproach or criticism.

As young ladies and gentlemen, these requirements demand very careful thought on the part of each student because the public will judge our school on the basis of any or all of these characteristics as found or not found in each student at all times. Therefore, in keeping with the above aims, each student in Seminole High School will be expected to dress appropriately. The following standards will serve as guides in helping students determine whether or not they are dressing appropriately:

FOR BOYS:

1. Wear shoes or boots that do not attract undue attention because of heavy taps. (Shower shoes or thong shoes are not appropriate footwear.)
2. Wear trousers at waist level and with a belt. Slacks, blue jeans, or any othertype of trousers are acceptable.
3. Wear shirts tucked into trousers. Sport shirts designed to be worn on the outside of trousers are appropriate.
4. Wear shirts buttoned, except top button, at all times.
5. Wear neat and trim conventional haircuts only.
6. Be clean shaven at all times.
7. Hair should be a natural color.

FOR GIRLS:

1. Wear appropriate shoes that do not attract undue attention.
2. Wear dresses or skirts and blouses, or sweaters, to class.
3. Extreme hair styles and excessive make-up are not appropriate for school dress.
4. A lady-like appearance is expected of all girls at all times.
5. Girl's dresses shall not be shorter than four inches above the knee nor more than six inches from the floor when the girl is in a kneeling position.

**THE MEANEST MOTHER**

THIS ARTICLE WAS PRESENTED TO THE NEWS BY MRS. NUEL BOWEN. WE THOUGHT THIS WAS WORTH REPRINTING.

The article originally appeared in a Tulsa, Oklahoma newspaper, and was reprinted later by a Houston Post columnist.

It is entitled 'The Meanest Mother' and it is credited to a Robbie Pingaro. It reads: 'I had the meanest mother in the whole wide world. While other kids ate candy for breakfast I had to have cereal, eggs and toast. While others had candy and Cokes for lunch, I had to eat a sandwich. As you can guess, my supper was different from that of other kids, too.

'But at least I wasn't alone in my suffering. My sister and two brothers had the same mean mother as I did.

'My mother insisted upon knowing where we were at all times. You'd think we were on a chain gang. She had to know who our friends were and what we were doing. She insisted if we said we'd be gone an hour that we be gone an hour, or less.

'I am nearly ashamed to admit it, but at times she actually struck us. Not once, but each time we had a mind of our own and did as we pleased. That poor belt was used more on our seats than it was to hold up daddy's pants. Now you can see how mean she really was.

'We had to wear clean clothes and take baths. The other kids always wore their clothes for days. We had to be in bed by 9 each night and up by 8 in the morning. We couldn't sleep till noon, like our friends. So while they slept my mother actually had the nerve to break the child labor laws...she made us work! We had to wash dishes, make beds, learn to cook and all sorts of cruel things.

By the time we were teenagers our life became more unbearable. None of this tooting the horn of a car for us to come running. She embarrassed us no end by making

You cannot plow a field by turning it over in your mind.

our dates and our friends come to the door to get us. If I spent the night with a friend she checked on me to see if I was really there....can you imagine! I forgot to mention, while my friends were dating at 12 and 13, my old fashioned mother refused to let me date until I was 15 or 16. Fifteen, that is, if I dated only to go to a school or church function.

'Through the years things didn't improve a bit. We could not loaf in bed 'sick,' like our friends did, and miss school. Our marks in school had to be up to par. My mean mother would settle for nothing less than passing marks.

'As the years rolled by, first one then another of us was put to shame. We graduated from school. With out mother behind us, talking, hitting, and demanding respect, none of us was allowed the pleasure of being a dropout.

'Each of my brothers served his time in the service of his country. And who do we have to blame for the terrible way we turned out? You're right...our mean mother.

'Look at all the things we missed. We never got to march in protest parades, or take part in a riot, or burn draft cards, or do a million-and-one other things that our friends enjoyed. Our mean mother forced us to grow up into God-fearing, 'square', educated, honest adults.

'Using this as a background, I am trying to raise my own three children. I stand a little taller and I am filled with pride when my children call me mean.

'Because, you see, I thank God he gave me the meanest mother in the world.'

**CANDY STRIPERS NEWS**

BY LIZ SOUTH

Thursday, Sept. 4, 1969, the Candy Stripers held a meeting in the Conference room of Memorial Hospital.

Vice-President, Shelia Jones, called the meeting to order. The Candy Stripers voted to buy several items needed by the hospital.

New officers for the upcoming year were elected. Shelia Jones was elected president; Jo Ann Dennis, vice-president; Marylyn Childers, secretary-treasurer; Comie Golden, reporter-historian; and Susan Coffman and Polli Doss, parliamentarians. The new officers will take over January 1, 1970.

Mr. Ed Rodgers, hospital administrator, presented awards to the girls who had worked 50 hours, 100 hours, 200 hours and 300 hours. The Candy Stripers who received awards for working 50 hours were Beatrice Gonzales, Rosa Linda Luna, Paulette Lancaster and Karen Barker. Susan Miller, Polli Doss, Jo Ann Dennis, Susan Coffman, Marylyn Childers and Pam Farrar received awards for working 100 hours. The girls who worked 200 hours were Liz South, Cathy Lambert, Kim McBeth and Linda Oats. Deenie Crossland received her 300 hour stripe. Mr. Rodgers made the comment that if he paid each girl \$2.00 an hour for the time they had worked at the hospital, the sum would come to \$3,600,000.

Candy Striper of the year was Brenda Taylor. Runner-up was Pam Lammons.

Dennie Crossland adjourned the meeting.

**Vaudine Browne Returns**

VAUDINE BROWNE RETURNS FROM GREECE. She spoke at the Noonday Lions Club Tuesday.

If all American visitors had the attitude that Vaudine Browne had when visiting Greece, no doubt world relationship with the United States would be much improved. Vaudine was sponsored by the local Rotary Club in her visit to Lisa, Greece.

"I loved the people there; I loved their customs. I loved my family of Nick and Effie that I lived with for six weeks. They told me when I left that just as soon as the new member (their first born) arrived they would call me or wire me about my new niece or nephew."

Vaudine went on to tell about the city in which she visited, the temperature - 140° each day. The family with which she stayed spoke good English. She taught a private school in English. "Dating, as such, was forbidden in their country. If a boy and girl were seen together they were usually engaged. All the food, yes, all the food, was cooked in olive oil. Eggs, however, were fried in butter. They served tremendous amounts, served with wine. The morning meal was usually breads, sweetbreads, with some sort of tea. Lunch was served at 3 p.m. with wine, watermelon, with a cantaloupe or honey dew-like melon served at the end of the meal. Their sweets or pastries were so good. (I'm on a diet).

"From 4-6 or 7 p.m. was siesta time. After the afternoon rest we went to the square where one could see magicians, singers, or other type entertainment, or to a show. Movies were not too far progressed in Greece. The evening meal was served from 12 to 1 or 2 a.m. (Oh, those pounds.) About the best place to visit was an oil company station (American) where they had good places to eat and those nice, nice rest rooms. If you think the smell is bad in some of the out houses at state parks and national parks you should visit Greece and use some of their public toilets.

"The people in Greece were very affectionate. Men walked down the street arm in arm; also women. Men greeted other men with kisses; women greeted other women with kisses. The 80 year old mayor of the city loved to kiss us, but our male traveling companion, Ed, said the mayor was in bad need of a shave.

"Farmers in Greece use their tractors like cars; they had beautiful tractors. There were John Deeres, Farmalls and Fords. They had air conditioning, radios and cabs on them. The country was 80% mountains but they were more of the rolling hill variety than they were high mountains.

"If I learned anything in Greece it was to love the other members of my group that I lived with constantly whether they were black, brown, yellow, or white. I learned to love the people of Greece because they too were full of love. They had a soul and were looking for a better way of life."

Vaudine is the daughter of Mr. and Mrs. Chester Browne and is a junior student at Texas Tech, majoring in education.

School nurses check the weight and the height of the students at the beginning of the year, at Christmas and at school closing. Mrs. Annie Boyd, school nurse, is doing the measuring for Miss Jenna Maynard's second grade room. Students shown are Ricky Alinez, Tierica Bailey, Cheryl Baker, Sheila Baker, Ray Eigham and Anita Bingham.

At one time Shafter Lake, setting south and west of Seminole and north and west of Andrews, was larger than Seminole or Andrews either one. A part of Shafter Lake can be seen in the background behind the three cowboys. On the left is Johnnie Frier, a rancher; center Dick Dillard, one time sheriff of Andrews County; and Fisher Pollard of Ft. Sumner, New Mexico, on the right ( an uncle of Mrs. R. M. E. Hughes). If that's not the Elam Hotel on the right a correction will be made next week.

The horse ridden by Pollard was a favorite cutting horse, named 'Doodle Bug'. Just this side of the hotel a man is pulling a buggy. A wagon loaded with coal can be seen on the right and another indication of the time of the year would be the coats all the cowboys are wearing. A house can be seen in the distance behind the #1 horse and immediately in front of the team. Another house can be seen over the top of the team. The windmill represented the town's waterworks. The continuous tracks on the ground shows they had two different kinds of wagon wheels; a narrow wheel called a 'butcher knife' and then the wider tires.

Mrs. Lottie Farrar of Anton and Mr. and Mrs. J. E. Farrar and daughter, Kathy of Dallas, were guests in the home of their son and father, Mr. and Mrs. Fred Farrar, last week.

## EDITORIAL

What is a cord? A string, a measure of wood, a rib on the surface of a fabric, something to draw or hold a person through moral influence - so Mr. Webster says. How much is a cord of wood? You ask ten people and you get ten different answers. One answer was - "a big cord or a little cord?" Someone else said, "I carried many a cord into the woodbox in my arms."

For a number of years wood haulers have stopped their trucks on our street and tried to sell us wood. Their question generally was "Would you like to buy a cord of wood?" A cord of wood measures 128 cubic feet. If the stack is 2 feet wide, 4 feet high and 16 feet long, it would measure a cord; or the stack could measure 4 feet wide, 4 feet high and 8 feet long and measure a cord; or any variation that would equal 128 cubic feet.

One trucker tried to sell me wood cut in 18 inch lengths, 4 feet high and 12 feet long for a cord of wood. That is a little bit over one rick, which would measure 64 cu. ft. or  $\frac{1}{2}$  as much as a cord. If you purchase a cord of wood and the lengths of the wood are cut to 18 inches you have been shorted 25% or  $\frac{1}{4}$  on the cord. Also if the logs have not been split the bigger the logs the bigger the air space. Another trucker tried to sell me some wood that had two pieces turned crosswise to create more vacant space. One of the favorite ways to sell wood now - the word 'cord' or 'rick' is never mentioned. "This much wood for \$35." It kinda makes some truckers unhappy for you to discuss ricks, cords, measurements and prices. If you drive a hard bargain with a trucker you'd better stay around for he's likely just to dump off a big pile on your property. How can you measure a pile of wood? You can't! It's got to be in the form of a cord or a rick before it can be measured.

If you buy wood this winter you'd better buy it from a local merchant or a trucker you know and get the amount of wood you pay for. If he's selling you a cord of wood he'll tell you how much a cord is and leave it stacked on your property so there will be no doubt. Also he can make you a better price, generally, if the order is given in advance and not wait till the Thanksgiving or Christmas holidays.

The straighter the wood is the more wood you'll get in a cord, less air pockets. The smaller the pieces the more you would get in a cord. The dryer the wood the faster it will burn up. The greener the wood the more weight you've bought. And finally, you people who enjoy a fireplace, you'd better hurry. It will not be too many years that the smoke from your fireplace will be considered too much contamination for the air.

The City Council met last Monday night with all members present.

1. Wesley Barnes was appointed to the zoning board with Bob Whippo as an alternate.
2. The collision insurance was cancelled on a 1963 pickup and a 1965 truck; also collision was changed to \$100 deductible on other units.
3. A fire fighting agreement was entered into with Andrews on a no liability contract.
4. The council accepted the zoning board's recommendation and allowed a house being built on S. W. 19th and S. W. Ave. F. to be built within 23 feet of the street instead of 25 (because of a previous error on the adjacent builder's lot).
5. The city agreed to pay the medical bill of a city patrolman for \$25.85 that was received while on duty.
6. The dump grounds will remain open Monday through Friday from 8-6. The public is asked to please dump at the proper place as refuse has to be covered up each night.
7. South Texas Construction Company, street pavers, presented the exceptions (leave-outs) on the paving contract. The council agreed to underwrite or guarantee payment of some who were unable to pay at the present time. (This does not mean that the city will not eventually receive the money.)

# AROUND TOWN

By Jackie Squires

If you ever want to start a conversation, write a book or even a column for the newspaper, all you have to do is mention "Grandchildren" and soon you'll have enough material to do either or all three. After the Woodenfoote and Around Town featured our grandchildren in last week's issue, we have been swamped with proud grandparents' comments on theirs. NOVA EATON saying she just has to get her granddaughters picture down, and CHRISTINE HARBER telling me she had intended to have her four's picture taken together for the Brag Page, but after last week; she's getting individual ones. MR. LAMAR PAYNE saying he didn't see why we were so puffed up with just two, just wait until you get six like they have. Over heard another one saying their grandchildren came for the week-end, he said, "the little "Angels" got there Friday and the little "Devils" left Sunday - Ah yes! We grandparents do have fun. ---DON and JANICE MILLER back after spending the summer in Big Spring. ---MARGE ETHRIDGE moved to Sterling City without even a good-bye. We do hope you will be happy there MARGE---Not realizing this was the election year for the Court House bunch, MADELINE and I went over for a visit Friday bearing gifts for all (matches from Jordon Furniture) and before we left we needed a push cart to carry the cartons of matches that we re given to us by the candidates running for re-election. --- We started at the Health office visiting with SUE RICHARDSON and ANN FOSTER - then on to the Soil Conservation office where CHARLES MICKLESON and ERNEST GOWDY hang out (ERNEST, don't you know you can't beat your daughter CAROLYN and her friend playing football!) ---Justice of the Peace, W. E. COX, JR. busy, but had time to give us some of his matches--- DALE WINKS and MARY THORNBURY enjoying

# FOLKS & FACTS

the quietness of the library until the News invaded---JOE MCGILL, County Attorney busy giving secretary, OVA LEE STINNETT, dictation---PAULINE ANCELL, County Treasurer, giving us a few cartons of her matches to pass around---Then on to the office of the County Judge, CHESTER (SLIM) BROWNE, visiting also with secretary, NUEL MITCHELL and commissioner, A. C. STANLEY (CHESTER AND A. C. also had matches to give us!)--- It was good to see CARRIE KUYKENDALL back on the job in the County Clerk's office after her recent illness. Also enjoyed chatting with DORIS WELCH there--- IVA DUMAS saying it was alright to put her name on CHESTER BROWNE'S, old County Clerk's match book covers---MARGUERITE BENNETT, in the coffee room all alone, enjoying a quiet cup of coffee--- County Tax Collector, MARY BALDWIN, and staff, JOHNNIE STANLEY JEAN UPHAM and LORA TODD, busy doing what ever Tax Collectors do! (and I believe we all know what that is!). MARY also had an abundant supply of matches which she gave liberally--- BEN BURCH, Drivers Licence patrolman and secretary WILMA McNEW giving MRS. HATTIE PATTERSON her new drivers licence (Wonder if I'll be able to pass a drivers test when I'm her age?)--- Custodians, THOMAS LOGAN, REX LONG and LAMAR PAYNE, busy with their chores (Our tax dollars at work) We had a most enjoyable afternoon visiting with the Court House bunch besides getting enough matches to light up Seminole if we ever have a power failure--- We missed the bunch at the ASCS office and the County Agent so watch out for me because I'll be seeing you AROUND TOWN.

After news delivery time last week we had a nice rain averaging about an inch in most places with up to 2½ inches in the Sawyer Flat area. This has been followed by several days of sunshine. Grain sorghum harvest is getting underway and the cotton is looking good. Quite a few acres of wheat had been sown prior to the rains and more has been seeded since. Castor beans and peanuts are also making excellent growth.

The picture was made to remind Seminole drivers that with loose gravel on the pavements cars will not readily stop. The loose gravel acts as if it were a ski. Several minor accidents would probably have been averted if drivers had recognized the problem.

In other police action Robert Sneed reported that a water well pump valued at \$228 had been stolen.

Sam Oliver reported that a 10 horse power motor valued at \$135 was taken from his farm 17 miles west and 2 miles north.

James McNew reported vandalism to mail boxes and yield signs at F M Road 1757 at the Huellet's farm.

Ask the man with the rake in his hand. The lush green leaves of summer and the colorful hues of autumn are monumental scourge of Saturday morning cleanup time, when the hapless homeowner funds raking and burning a seemingly endless but necessary task.

But in the never-ending battle against piled-up leaves, pay careful attention to safety precautions, warns the Insurance Information Institute:

Burn leaves in a covered container with holes or wire mesh construction. Pick a day with little wind and stay near the fire at all times with a garden hose ready for emergency. Set up your fire at a safe distance from buildings, fences and shrubbery. Keep children far away and keep an eye on flying sparks.

In some areas, leaf burning might be restricted to certain times or completely outlawed. Find out the exact regulations in your town.

" THE ITCH "

From a book "Helpful Hints to the Newly-Weds," Kansas City, Mo., 1890.

The itch is a parasitic skin disease, due to the presence of the itchmite or *Sarcoptes hominis*. At one time it was extremely common, but is now comparatively rarely met with, at all events in England. It attacks the hands and feet chiefly, and rarely or never the face. It gives rise to a good deal of discomfort and irritation, and keeps the sufferer awake at night. It is distinctly contagious, and is readily conveyed from one person to another by the simple process of shaking hands. The itching which it gives rise to is distinctly beneficial, for it serves to impress very emphatically on the patient the necessity for adopting curative measures. The complaint is by no means difficult of recognition, for the intense itching between the fingers and toes is sufficiently characteristic, and admits of no doubt as to its nature. It is apt to be a little bit obstinate; but simple cases are readily cured by the application of an ointment composed of equal parts of sulphur and lanoline or lard. Should this fail to produce the desired effect in a couple of days, the patient should take a sulphur bath.

BY DOROTHY FEAZELL

Until recently, social security beneficiaries sent cards to one of the several payment centers over the country to report address changes and other events affecting receipt of or entitlement to monthly benefit checks. New system changes now make possible direct transfer of this information from the local social security office to the master computer records in Baltimore, Maryland by teletype.
