

REPORT . . .

From Washington

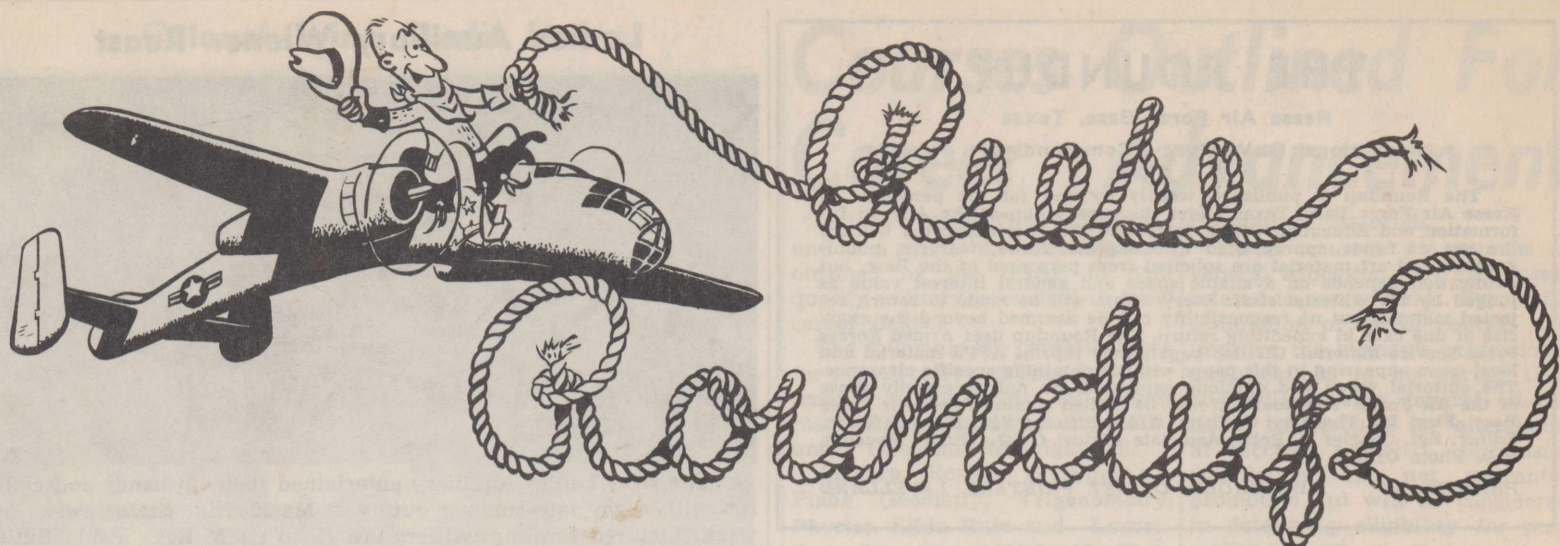

By Armed Forces Press Service

Subsistence charges for dependents of Air Force personnel who are hospitalized are scheduled to remain at the current rate of \$1.75 per day throughout fiscal year 1951. This rate also applies to hospitalized dependents of retired personnel and to retired Reservists who qualify for treatment by reason of physical disability. Subsistence charges for several miscellaneous categories of personnel were dropped from \$1.35 to \$1.25, but rising food costs could restore this cut.

Individuals invited to visit occupation personnel in Germany must arrange for their return transportation before they leave their homes. None will be permitted to remain in the U.S. Zone more than 60 days. EUCOM circular number 125, amended, states that sponsors of visitors will notify the post commander, giving date of visitor's arrival in Germany, date of the proposed departure, and type of transportation in his possession.

"Fighting Lady's Family," a new 16 mm film is now being distributed by the Navy. Narrated by Robert Taylor, movie star and former Naval officer, the film is a progress report of the postwar Navy up to the time of current expansion. It features many combat ships of Navy and Marine Corps units, plus closeups of new equipment developed during the past few years. Prints of this film may be obtained for non-profit screening by contacting the Commandant of any Naval District.

The first of two special courses for Reserve officers being called to duty to fill public information and education billets will begin November 1 at the Armed Forces Information School, Carlisle Barracks, Pa. The second course will start January 10. Each will last six weeks. Both courses will be conducted concurrently with the regular 14-week officer courses in Public Information and Armed Forces Information and Education.

Vol. II, No. 1

Reese Air Force Base, Texas

20 October, 1950

Adjutant Greets General

Major General Robert W. Burns, deputy commanding general, Air Training Command, shakes hands with 1st Lt. Maxwell J. Ihrig, wing adjutant, upon the general's arrival to Reese AFB on an inspection tour. In the background are Colonel Ralph W. Rodieck, deputy commander of Reese and Colonel Rugh D. Wallace, commanding officer of the 3500th Pilot Training Group. (Photo by S/Sgt. Kent)

105 Airmen Receive Promotions To Top Four Grades At Reese

Promotions to the grade of master sergeant, technical sergeant, staff sergeant, and sergeant were received by 105 airmen stationed at Reese, the adjutant's office announced this week. The number promoted included 16 "masters," 2 "techs," 37 "staffs," and 50 "bucks."

The new master sergeants include Woodrow E. O'Brien of Hq. Sq. PTW; William B. Lee of Hq. Sq. ABG; James B. Linneman, Maurice L. Coats and Roy E. Burch of Hq. Sq. M&SG; Jewel L. Creel, Jack B. Huey and Raymond G. Parker of the 3501st Maint. Sq.; Jacob M. Roberts, Claudie L. Smith, Jesse H. Pettijohn, George Farlines and James K. Brown of 3502nd Maint. Sq.; Harry J. Fain of Hq. Sq. PTG; and Arthur T. Britt of Hq. Sq. Med. Gp.

S/Sgt. Edward Wilkerson of Hq. Sq. PTW and S/Sgt. Don L. Henwood of Hq. Sq. Med. Gp. were promoted to the grade of technical sergeant.

Those promoted to staff sergeant were sergeants Bicknell K. Beckwith and William C. Howe of Hq. Sq. PTW; Burpie L. Casey of the Air Police Sq.; James H. Syme and Matthew R. Lindsey of the Instill. Sq.; Graham J. Jones of the Food Service Sq.; Gordon L. Hyde and Jesse P. Curry of Hq. Sq. M&SG; Glen A. Wilkinson, George E. Bennett, Henry P. Rosier, Genneth J. Wycoff, Charles E. Mabry, and Harold Dowling of the 3501st Maint. Sq.; Pierre H. Segura of the 3502nd Maint. Sq.; William T. Sibley, Leroy High, Jr., Ernest R. Lawman, Jesse F. Stovall, Franklin Keller, and J. P. Morgan of the Supply Sq.; Leon Durban, Peter A. Spagnotti, Raymond Herall, Lavernon Hooks, Benjamin B. Riddle, Robert L. Crabtree, R. M. Brantley, William O. Paddle, Joseph S. Foy, James H. Nichols, Elton E. Anderson, Ben D. Harvey, and John Shine of the Motor Vehicle Sq.; Coy D. Evans and James A. Velvik of Hq. Sq. Med. Gp.; and William R. Brown of Hq. Sq. ABG.

The new "buck" sergeants are Floyd C. Moore, James W. Robbins, William P. English, William H. Taylor, Edward F. Eldridge, Walter J. Copeland, and Curtis Felton of the Motor Vehicle Sq.; Burton Z. Harris of Hq. Sq. Med. Gp.; Frederick W. Bashore, Henry (Continued on Page 2)

Reese Flying Instructors To Attend Okla. Funeral

Funeral rites for First Lieutenant Salvatore Danna, who departed Reese Air Force Base, for Clark Field, Manila, March 27, 1950, will be conducted at the Catholic Church, 712 Hickory Street, Duncan, Oklahoma, Saturday October 21, 1950.

Monthly Dance Slated At Hilton Hotel Tonite

There will be a formal dance for Reese airmen and their wives and girl friends tonight at the Hilton Hotel in Lubbock. The dance, which is free, is scheduled to get underway promptly at 8:30 pm and all airmen are urged to attend.

Hostesses are being provided by the Lubbock Service Organization and the base dance band is providing the music. Airmen desiring to bring wives and girl friends must register them at the Service Center.

The uniform to wear will be class "A" of the civilian equivalent. That is a coat and tie.

Anyone interested in acting, dancing, singing, emceeing or who has had experienced in script, makeup, prompting, directing costumes, lights, etc., should contact the Service Center about the forthcoming GI shows. There is a need for interested personnel, so sign up.

can, Oklahoma, Saturday October 21, 1950.

Lieutenant Danna was the pilot of the C-54, cargo plane, which exploded and crashed after leaving a base in Southern Japan on September 6. Eleven persons were killed, including war correspondents, Frank Emory, Charles Rosecrans, and Ken Inouye.

Mrs. Danna, the former Evelyn Hensley of Fox, Oklahoma and Fort Worth, Texas, was formerly employed at Reese Air Force Base in the Comptroller's Office and had joined Lieutenant Danna overseas. She was returned to Fort Worth, Texas by a hospital plane, departing from Manila on September 13. As a war widow of 19 days, she gave birth to a blue-eyed baby girl, Margaret June, at Harris Hospital in Fort Worth on September 24.

The pall bearers will be officers from Reese Air Force Base who served in the same group with Lieutenant Danna for several years. They include Capt. Clyde M. Livingston, Capt. Thomas H. Mills, Capt. Paul E. Harden, Capt. Harry A. L. Jones, Jr., Lieut. Lloyd C. Hoxie, and Lieut. Dave Counts, who is coming from Randolph.

Military aircraft will transport any military personnel desiring to attend the funeral.

Automatic Dial Telephone System To Start Operation At Midnight

The automatic dial telephone system for Reese will go into operation at midnight tonight, Lieut. Artie Garner, Jr., fixed communications officer announced this week. The changeover was scheduled to have been made on Friday of last week but due to a delay in the delivery of the batteries for the system, the changeover was held up for a week.

514th AF Band To Give Concert At Service Club Tonight

The 514th AF Band under the baton of CWO Carmine Luce will present a concert in the Service Center on 26 October beginning at 2000 hours. Immediately following the concert, the regular Thursday night dance will be held, and as an added feature there will be a Halloween costume party.

A feature part of the program will be the rendition of two selections by Mrs. Carmine Luce accompanied by Mrs. James Atcherson on the piano.

The band program will consist of Oscar Strauss' march "Chocolate Soldier", arranged by Harry L. Alford; "Swing Low, Sweet Chariot" by John J. Morrissey, a trombone solo "Humoresque" by Sgt. Jules G. Zinter; Rimsky Korsakov's "Flight of the Bumblebee"; S/Sgt. Genaro Ybarra's arrangement of "Tzena, Tzena, Tzena" with a French horn solo by M/Sgt. Presley B. Wood; and Paul Yoder's arrangement of "Dry Bones."

Mrs. Luce will sing Johan Strauss's "The Blue Danube" and "La Danza Tarantella Napoletana" by G. Rossini.

The rest of the band program will include D. Delle Cese's march "Inglesina" (English Girl); a selection from George Gershwin's (Continued on Page 2)

Requests for additional phone in addition to the 250 now in operation will be handled by the communications office starting Monday and it is planned to have a total capacity of 600 phone for offices on the base and in the quarters.

An error in information was made in last week's story when it was reported that the new phones had been installed and that two trunk lines to Lubbock were available. Lieutenant Garner states that no new phone have been installed and will not be until the changeover has been effected. He also stated that 10 trunk lines are available to users of the dial system.

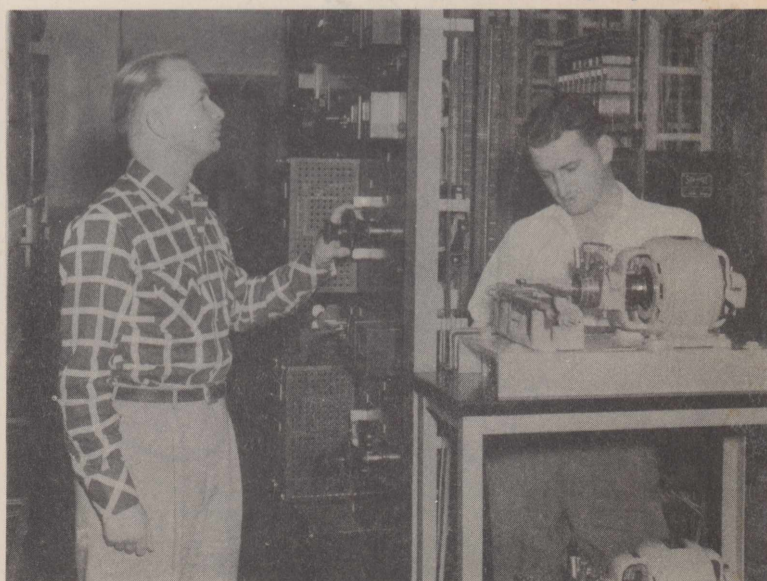

Users of Class "A" and Class "B" telephones may establish direct communication with the Lubbock Exchange by dialing "9" and then the desired number when a second dial tone is heard. It will not be possible to make or receive calls through or from the Lubbock Exchange from Class "C" telephones.

All long distance calls from Class "A" and "B" telephones will be handled by the base operator for purposes of billing and keeping the account books straight, Lieutenant Garner also stated.

In the year 1900 only 4,192 automobiles were manufactured in the United States. Production in 1948 was 5,285,425 cars and trucks.

There are more than 12 million unmarried American males between the ages of 25 and 65.

Canadians Install Telephone Equipment

Doug Vaughan gives the new dial telephone power board a last minute check while his teammate Ray Devine checks the ringing machine to make sure everything is in working order before the equipment is put in operation. The two Canadians came to Lubbock from Vancouver, British Columbia to install the new equipment at Reese.

THE ROUNDUP

Reese Air Force Base, Texas
Colonel G. W. Pardy, Commanding

The Roundup is published weekly by and for the personnel of Reese Air Force Base, Texas under the supervision of the Airman Information and Education Office, telephone 324. It is supported without the use of funds appropriated by Congress. News, features, photographic, and art material are solicited from personnel of the Base, but publication depends on available space and general interest value as judged by the editorial staff. Every effort will be made to return rejected material but no responsibility can be assumed beyond the exercise of due care in expediting return. The Roundup uses Armed Forces Press Service material. Civilian papers may reprint AFPS material and local news appearing in this paper without obtaining specific clearance. The editorial views and opinions expressed are not necessarily those of the Air Force. The Roundup may be mailed outside Reese Air Force Base. First Lt. Thornley C. Cary, AI&E Officer; Sgt. Eugene Smith, Editor; Sgt. Charles H. Bobo, Associate Editor; CWO John P. Baucum, Base Photo Officer.

PRINTED BY WEIMHOLD, OFFSET PRINTERS, LEVELLAND

KADET KORRAL

Our old diplomat Alkire was really at work last Saturday night impressing people, especially the young ladies, and throwing the Bud around. Glad to see that you are still kicking. Ames and Taylor, what a combination, never thought it would ever happen but it did, didn't it Ames?

Say, just what is going on over at Walker, it seems that just about everybody is making a bee line over there to try out Walker GCA. Certainly it isn't for the experience because even the instructors like the final approach. Boy, what is this Air Force coming to?

Looks like the PT program is getting a shot in the arm.

I hear that 50-F really made an impression at Levelland: were the spareribs worth it? Oh well, they at least gave them a nine word write-up in the paper.

Football, football; yes, it's that time again and the cadets seem to have learned a lot about touch football in the last couple of weeks judging from the game last Friday afternoon.

50-G's Yearbook is under full steam now since R. B. started getting ads from the automobile dealers. Maybe that explains why he has been sticking so close to the base lately. Still, on that same line, the yearbook committee needs the cooperation from the entire class so that we can go to press as soon as possible. The book will contain the standard pictures of the base, military section, academic, and the flight line. There will be a sweetheart section which will include a picture of every member's wife or sweetheart, snapshots and baby pictures of every member along with their baby's nickname—that should be something; to say the least. Anyone having pictures they would like to have put in the yearbook please turn them in to the committee as soon as possible.

Alert the crash crew! Call out the fire department! Notify the hospital! Why? Because the team of Hehmann and Keel took to the air Monday and soloed the B-25. Yes, the tail-end kids did it, finally, much to the surprise of everyone, including themselves. It just isn't safe anywhere anymore. Even the birds stay on the ground when they're in the air.

Promotions

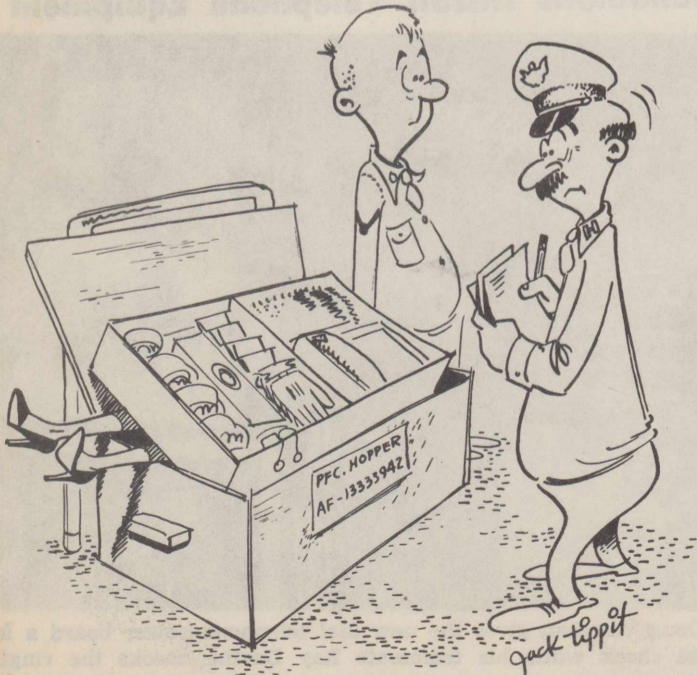

(Continued from Page 1)

C. Halbert, Willie B. Robinson, Augustine G. Esposito, and Raymond D. Stambeck of Hq. Sq. PTW; James D. Fox of the 514th AF Band; Joseph H. Schoen and Leroy W. Bierstedt of Hq. Sq. PTG; Edwar J. Irwin, Robert A. Horton, Charles R. McKinney, Moffett R. Smith, Duane R. King, and Jack E. Tooley of Hq. Sq. ABG, Garvis Joyce of the Air Police Sq.; Lee O. Robbins, Iassa J. Tucker, Billy Ragle, Prentiss Pounds, James V. Sutton, Otis G. Harrell, Theodore Crooks, and Melvin Stanfield of the Install.

Sq.

Others promoted to sergeant were Robert F. Martin and Ernest T. Bedlion of the Food Service Sq.; Walter H. Dennis and Ernest A. Bence of Hq. Sq. M&SG; Joseph F. Bollinger, William Mitchell, John T. Tregea, Rudolph P. Lira, Carl R. Tresler, Clarence D. Kovalski, Wallace E. Keck, Edwin C. Parttridge, and Benjamin H. Wilson of the 3501st Maint. Sq.; Julius O. Womack of the 3502nd Maint. Sq.; Charles A. DeAngelis and Alvin D. Scoggins of 3505th Maint. Sq.; Lester A. Horton, James A. Ferguson, and Joe Lewis of 3500th Supply Sq.

Ladies Auxiliary Wiener Roast

The NCO Ladies Auxiliary entertained their husbands and children with a gay late-summer outing at MacKenzie State Park last week. Pictured roasting wieners are (l. to r.) M/Sgt. Paul Butler, M/Sgt. Eric Bordelon, Mrs. Leo Hess, M/Sgt. James Farmer, M/Sgt. Grady Williams, Mrs. Pepper Martin, and M/Sgt. E. S. Garland.

(Photo by M/Sgt. Toms)

Early Mailing Dates Set For Overseas Posts

The Armed Forces and the Post Office Department have announced rules for mailing Christmas packages to servicemen overseas as follows:

Mail not later than Nov. 15. For men in Japan or Korea, it is safer to mail before Nov. 1. For extremely remote outposts an earlier deadline was suggested.

Send greeting cards first class, observing the same deadlines.

Packages may weigh up to 70 pounds. Their length plus their girth should not exceed 100 inches.

Exception: Packages to APOs 124 and 125, care of Postmaster, N.Y., N.Y., should not exceed 50 pounds and should be correspondingly smaller.

Containers should be metal, wood or stout fiber board.

Addresses should be written directly on the outside of the package, not on a gummed label.

Since some packages break open and spill on the post office floor, it's a good precaution to place another address, together with a list of contents, on a paper, and put this inside the package.

If the addressee is in the Army or Air Force, give his full name,

rank, serial number, branch of service, organization, APO number and post office through which the mail is being routed.

If the addressee is in the Navy or Marines, give full name, rank of rating, unit to which he is attached and the Navy number assigned to the unit, or the name of his ship and the fleet post office to which the mail is to be routed.

Don't send matches or lighter fluid. Cigarettes and tobacco are all right except to addresses in Austria, England, France, Germany, Italy, and Trieste.

Civilian Employees To Have Own Club

The Army and Air Force Civilian Welfare Fund has allotted the amount of \$1186 to Reese Air Force Base for the conversion of Bldg. T-58 into a restaurant and recreation lounge for civilian employees of the base.

Mr. Debs V. Hensley, civilian personnel officer, stated that work has begun on the conversion of the building and should be completed in the near future.

A snack bar for the sale of coffee and sandwiches will be installed, the sidewalls covered with beaverboard, curtains placed on the windows, and the building painted. Mr. Donald A. Jones is in charge of the construction.

Plans have been made to hold bingo games, monthly dances, and card parties in the building after its completion.

Conduct Medals Are Awarded To Airmen

The Good Conduct Medal with the Clasp and one Loop in lieu of the second Good Conduct Medal was recently awarded to four airmen of the 3500th Supply Squadron and one airman from Headquarters Squadron, 3500th Air Base Group.

The airmen from the Supply Squadron, included Master Sergeant Kermit W. Hale, Master Sergeant C.E. Hollingworth, Technical Sergeant Thomas N. Gingles, and Staff Sergeant Reuben L. Eubanks. The airman from the Air Base Group was Sergeant Magell Blount.

The medals were awarded to the airmen for exemplary behavior, efficiency, and fidelity for a period of three years or more.

514th Concert

(Continued from page one)

"Porgy and Bess"; Phillip J. Lang's arrangement of "Bugle Call Rag"; Henry Fillmore's march "The Klaxon"; and the program will conclude with the national anthem "The Star Spangled Banner."

Divine Services

PROTESTANT — Regular Sunday services; Adult Sunday School at 1000 hours and Morning Worship at 1100 hours, Base Chapel. Children's Sunday School in Chapel Annex Building T-31 at 1000 hours. Prayer and Bible Study on Wednesday at 2000 hours.

PROTESTANT CHOIR PRACTICE — Every Wednesday evening at 1900 hours in Base Chapel. Junior Choir practice every Monday at 1630 hours in Base Chapel.

CATHOLIC — Sunday Mass at 0900 and 1215 hours, Base Chapel. Weekdays; Mass at 0730 hours. Confessions before all masses and Saturday's, 1900-2000 hours. Evening devotions on Tuesday at 1930 hours.

CHAPLAINS — Major Maurice R. Holt (Protestant), Captain Jared A. Walker, (Protestant), and 1st Lt. Amalio E. Greco (Catholic).

"Your Chapel"

TRUTHFULNESS

Perhaps the very clearest manifestation of character is to be found in one's speech. You need only to listen to some persons for a few minutes to know they are weak, unstable characters, while in others you can see the sterling qualities shine forth in the charity and truth of their words. Cautious control of speech is truly clear evidence of Christian character.

The tongue is small, and its wagging seems trivial, yet it is capable of incalculable destruction. A defamatory word dropped here or there may be like a lighted match that sets a forest ablaze. You should regard the hindering or the destruction of truth as a major evil, and the damaging of another's reputation as a greater injustice than robbery.

Do not be a faultfinder and a grumbler. Do not become one of those most disagreeable persons who are forever complaining about everyone else but themselves. By running down another you are indirectly elevating yourself. It is as though to say, "I may not be the best person, but I'm virtuous in comparison with that scoundrel." Perhaps that is why the most virulent defamations are usually against the best reputations. The appetite for scandals is a very fastidious one and demands the choicest characters to feed upon.

Cultivate the habit of suspending judgment, of waiting for the full story, when you hear evil of another. Also remember that to mind one's own business is thoroughly Christian virtue. Finally think of your own faults and wrongdoing and place yourself in the eyes of others before expressing opinions and let it serve you as a guide.

WORLDS IN COLLISION
By Immanuel Velikovsky

Are the planets of our solar system as fixed in their orbits as we have always believed them to be?

They have not been, according to Dr. Velikovsky, and may not always be in the future. He contends that more than once within historic times they ran amuck and caused enormous cataclysms; the earth became a primeval chaos lashed by tornadoes of cinders; the skies darkened; land masses were destroyed; and large portions of the human race perished.

According to the author's theory, the world series of catastrophies occurred about 1500 B.C. in the days of Moses and of Joshua and another series took place in the 8th and 7th centuries B. C. These last cosmic disturbances set the ancients revising their calendars from what had been a year of 360 days. Why? Dr. Velikovsky says that they were right in laying the error to the "faults of heaven."

The evidence collected by the author is enormous. It exists in excavated history, the ancient texts, the folklore and sacred writings of peoples all over the globe — of Egyptians, Hindus, Hebrews, Babylonians, Finns, Polynesians, Chinese, Aztecs, and American Indians. If Dr. Velikovsky is correct, he will have started a new era of thinking, a new trend in writing universal history in terms of cataclysms, a new chronology. He will have explained many things that have puzzled scientists for centuries.

This book is daring in viewpoint, startlingly original in concept. It is told in simple language and will be fascinating to everyone.

BASE LIBRARY HAS A COPY

IG Corner

Q. What are the limitations on additional training within a career field.

A. No airman will be permitted to attend an additional course without specific authority from Headquarters USAF, unless

1. He has served six months on the job subsequent to graduation from a course or the awarding of a basic technical MOS as a result of On-The-Job-Training.

2. A minimum of five years of service with the Air Force by the airman is assured by his enlistment or by an extension thereof in effect at the time he enters upon such course of instruction.

Q. What are the limitations on additional training in a different career field?

A. Not within one year from graduation from a course or the awarding of a basic technical MOS as a result of On-The-Job Training. Only exceptions to above are as follows:

1. May attend a course of instruction leading to a commission.

2. Persons trained in an MOS surplus within the Air Force may be trained in a critically short specialty in a different career field unless a shortage exists in the advanced specialties within their career field.

3. Persons found unqualified to perform adequately the duties for which trained may receive additional training in a different field of skill. (Ref: AFR 50-8).

Let's Not Forget

Vital members of the base fire-fighting team who were omitted from last week's story on the Fire Department were Sgt. Clarence C. Austin who is in charge of the maintenance of the rolling equipment of the two stations and Sgt. John H. Nelson who is in charge of the administrative section of the fire department.

Colonel Joins Credit Union

Colonel Ralph W. Rodieck, deputy commander at Reese, purchases a membership in the newly formed Federal Credit Union at Reese. Shown handing him his application blank are Mrs. Mary A. Gillespie of the Comptroller's Office, and Mr. Ewing K. Erwin from the Field Maintenance Section. Both are members of the Union's Board of Directors. (Photo by S/Sgt. Kent)

Membership Requests Approved By Board Of Directors For 100

The successful establishment of the RAFB Federal Credit Union was started last week when 100 applications for membership were approved by the board of directors, Mr. W. D. Williams, president of the board of directors, announced.

The wide-spread interest in the Credit Union was stimulated by the efforts of William Lassiter and the members of his Educational Committee. 61% of the new members were from the Field Maintenance Shops, 17% from the Consolidated Supply Section, and the remainder from other sections on the base.

An amendment in the Union's charter to permit airmen to join the Union was approved and passed by a majority of the board of directors and the amendment has been forwarded to Washington D. C.

to the Bureau of Credit Unions for final approval.

There are over 9,000 Federal Credit Unions now in operation with 4,000,000 members and over \$700,000,000 in assets. The idea of the Credit Union is over a century old and originated in Europe. The first one in the United States was founded in Boston in 1909 and since then has spread out over the country.

Lubbock has total of six Federal Credit Unions now in operation with the addition of the Reese Union.

Safety Directors To Meet At Sheppard

Sheppard AFB — Safety representatives from 10 Air Training Command bases will meet at Sheppard Air Force Base for three days beginning October 23. The confab, called by the 14th Civil Service Region, is designed to iron out a standardization application of Civil Service driver's examination.

Heretofore, drivers taking examinations at one base might find the same examination at another base more difficult or more lenient. This applies to only civilians driving military vehicles.

The drivers examiner clinic, as the meeting is termed, will feature speeches by Brigadier General Emil C. Kiel, Sheppard Commander; Paul H. Figg, Regional Director of the 14th Civil Service Region; Major V. C. Denton, Chief of Ground Safety, Air Training Command; and William R. Ennis, traffic control specialist from Chant Air Force Base, Ill.

Practical driving tests will be conducted among the conference members and standard driving grading policies will be adopted.

Bases represented will include: Connally Air Force Base, Waco, Texas; Ellington Air Force Base, Houston, Texas; Goodfellow Air Force Base, San Angelo, Texas; Lackland Air Force Base, San Antonio, Texas; Mather Air Force Base, Sacramento, California; Nellis Air Force Base, Las Vegas, Nevada; Perrin Air Force Base, Sherman, Texas; Randolph Air Force Base, San Antonio, Texas; Reese Air Force Base, Lubbock, Texas; and Williams Air Force Base, Chandler, Arizona.

Sheppard's Ground Safety Section, under the direction of Paul Witt, will play host to the visitors.

Air Training Command MARS Director Visits Reese AFB On Inspection Tour

The MARS (Military Amateur Radio Service) Director for the Air Training Command, 1st Lt. L. E. Ecklemeyer, visited Reese recently on a tour of the MARS facilities of the Training Command. In addition to Reese, Craig, Kessler, Scott, Ellington, Lackland, Williams, Goodfellow, Vance, Mather (relay), and Connally Air Force Bases are in the Training Command Net.

Communication is usually established with bases outside of the Training Command but since they do not have an established time of operation, it is usually a hit-or-miss process.

While at Reese Lieutenant Ecklemeyer conferred with 1st Lt. C. W. Tripp local MARS director and M/Sgt. A. S. Williams, Reese MARS operator.

Lieutenant Tripp stated that Lieutenant Ecklemeyer was highly pleased with the improvement of the interior of the local MARS station and the new antenna tower recently installed on the roof of the building.

Meanwhile, in an effort to increase the number of MARS personnel off-duty classes are being held in the MARS building T-64 to acquaint beginners with principles of radio and communications procedures.

One of the students, Major M.

Reports from the International League say that the Jersey City Giants may not be operated there by the New York home club next year. Poor attendance, 70,000 during the regular season and 7,000 during the play-offs, seems to be the reason.

Courses Outlined For Career Advancement

(Editor's Note: This is the second in a series of Career Courses outlined by the USAF to help qualify military personnel in their career fields.)

The following are career courses for the Aircraft and Engine Maintenance career fields. (Blackface courses are considered essential) under Operation Midnight Oil.

Algebra, Review Grammar, Plane Geometry, Trigonometry, Physics, Slide Rule and Logarithms, Elementary Electricity, Electric Measuring Instruments, Blueprinting Reading, Electric Wiring, Aerodynamics, Industrial Electricity, Aviation Engines, Airplane Maintenance, Principles and Types of Speech, Teaching Techniques, Safety Engineering, Differential Calculus, General Psychology, Business Management, Personnel Management, Industrial Management, Electricity and Magnetism, Elements of Mechanics, and

Strength of Materials.

Career courses are courses in general education that are closely related to career fields. Successful completion of career courses will improve the airman's professional qualifications in his career field and will provide general educational background for attendance at service schools. Successful completion will not guarantee promotion but will be considered in determining eligibility for promotion.

Personnel interested in participating in this program are advised to obtain transcripts of all their previous high school and college work and see the AI&E Officer in Bldg. T-421. These courses may be taken by correspondence and in some cases in night classes on base and at Texas Tech.

Next week courses for the Airmen Supply Field will be listed.

Better Noise Meter Developed By Army

Fort Monmouth, N. J. — A new "noise meter" than can measure the interference which electric fans, vacuum cleaners, refrigerators and other devices cause in communications apparatus has been developed by the Signal Corps Engineering Laboratories here.

The Army buys refrigerators, oil burners, vacuum cleaners and other labor saving devices which also are potentially capable of interrupting communications systems.

The new meter will show before installation whether a given device will interfere with communications equipment. It also can be used to locate fault in automotive electrical systems.

NCO Club Program Revised, Has New Features Included

The NCO Club has added several new innovations to its program according to a recent announcement by the club secretary, M/Sgt. Harold C. Goins.

The beer bar will be open from 1100 hours until 1300 on weekdays. The club will close at 1300 until 1430 to allow club personnel to clean up and will re-open at 1430 until closing time.

The Family Dinner now being served on Sunday from 1100-1500 hours has made a big hit with families living on and off the base, Sergeant Goins announced. Table service is featured and each week there is a special dinner for all who want to come in and relax. Especially, no dishes to wash, no bother to clean up the kitchen for the woman of the house.

The big Hallowe'en costume dance will be the main attraction on the 31st. Members are urged to make plans to attend and to make arrangements for their costumes.

A hillbilly western dance has been scheduled for the 15th of November. Johnnie Lee Wills, composer of "Rag Mop" and his western swing band will furnish the music for the dance.

Club members are reminded to attend the 5c beer night on the 25th of October. Free barbecue will be provided and the music will be furnished by Hank McCarty and his Dixieland Six. Members may bring one female guest for the occasion.

For Services Rendered

Sgt. James M. Peterson (right) thanks M/Sgt. A. S. Williams, base MARS operator, for his aid in securing information about Sergeant Peterson's insurance dividend check. Sergeant Williams contacted the Pentagon in Washington, D. C. through the use of MARS facilities. (Photo by Cpl. Cook)

CHUCK'S CORNER

Chuck Bobo

Army and Oklahoma preserved their winning streaks, but there were moments of anxiety among Oklahoma fans before tackle Jim Weatherall booted the winning extra point, giving Oklahoma a 13-12 win over Texas. In the second game of the unique grid double header at Dallas SMU dropped to third place in the national ratings below Army and Oklahoma, although they smashed Oklahoma A&M, 56-0. SMU's big test comes this weekend when they meet an undefeated Rice eleven at Houston.

Francis "Reds" Bagnell of Pennsylvania set a new major college ground gaining mark as he picked up 490 yards running and passing as Penn smashed Dartmouth, 42-6. Vito Parilli, of Kentucky and Lou D'Achille, of Indiana, set new passing records in the Southeastern and Big Ten Conferences respectively. Parilli threw five touchdown passes in Kentucky's 47-7 rout of Cincinnati. He completed 18 of 29 passes for 338 yards and a new SE conference record. Indiana's Lou D'Achille completed 20 of 38 passes tying the completion mark set by Otto Graham of Northwestern in 1942. That is also the most passes ever tried in a Big Ten game.

Miami's 20-14 defeat of Purdue should prove one of two things or maybe both—Notre Dame isn't nearly so strong as rated before the season began or Miami is much stronger than early season dopesters had it. I'll take the part about Notre Dame not being so strong, as they had a rough time getting by Tulane.

Many sport enthusiast around the country, especially those in the service, have been watching the Los Angeles Rams to see how former West Point star Glenn Davis fares in pro football. "Mr. Outside" became immortal at West Point as he led the Black Knights of the Hudson through three undefeated seasons, 1944-45-46. A three time choice for All-American he received every other conceivable football honor — AP "Athlete of the Year" in 1946, and recipient of such national awards as the Helmsman Trophy, the Maxwell Memorial Trophy, the Walter Camp Award, the Los Angeles Times Sports Award and the Helms Athletic Foundation Award (three times).

After a long hitch in the Army everyone was wondering how it would affect his football. He found pro football "a good, hard, fast game." Every college team, even the great Army teams, had a weak spot, but Davis found that the pros were powerful at every position. He was used sparingly in early exhibition games, but in later games has begun to hit his stride. Rams coach Joe Stydahar has no doubt about Davis' future in football and Rams president Daniel Reeves is looking forward to paying Davis a big, fat bonus at the close of the 1950 season.

Coach Adams Needs More Players In Early Hoop Practice Sessions

Plenty of exercise, drills and conditioning is still the order of the day for the Reese basketball team. No time has been put to scrimmages yet. Coach Del Adams emphasized the need for more men to report out for the early sessions. There is still a month before the squad will be cut, so anyone interested has every chance of making the team.

The team works out Monday through Friday from 3 to 5 pm at the base gym, and according to Adams everyone who plans to play should be on hand for these drills as he is stressing fundamentals and conditioning.

The team has its eyes on capturing the laurels in the Northern zone of the Inter-Service Basketball Conference. The conference is composed of Air Force Base teams from Texas, New Mexico and Oklahoma. Games will be played Thursday and Friday nights starting November 30 and running through March 2.

Presently about 30 men have re-

ported out. A partial list includes: Raymond Travis, Larry Swafford, Lee Mathews, George Coslow, Joe Lopez, Ronald Lopez, Hill Mallory, Don Dunavant, Sylvester Muse, Samuel Hart, Jack Hansen, Charles McKinney, Wayne Cox, Dalton Touchett, Jack Wells and Lester Horton. The names of the other hopefuls will be listed in next week's ROUNDUP.

The site of the city of Cleveland was laid out in 1796 by Gen. Moses Cleveland, after whom the city was named.

Duchess Dumped

John Duchess, of Duquesne, is hit hard by Villanova tackle Bartolomeo (bottom) as Duquesne tackle Perzaola attempts to block out Green (52) of Villanova. Duchess later scored a TD on an 18-yard pass from Kubiak. Villanova won the game, 39-28.

3501st Edges By Hq. Sq. PTG 7-6; Battles Hq. ABG Touchers Today

The 3501st Maintenance Sq. is still undefeated in touch football, but for a few minutes Tuesday afternoon the issue was very much in doubt, PTG played the 3501st to a 6-6 tie and the Maintenance had to pull the game out of the fire in the overtime play. A tie isn't allowed to stand in base touch football, so each team was given four downs to try to advance the ball, with the team gaining the most yardage winning the game by one point. (This afternoon the 3501st and Hq. Sq. ABG meet on the field across from the base gym.)

Girls Hoop Squad Out Three Weeks; Bob Bishop Coach

With three weeks practice behind them the women's basketball team is getting ready for the coming season. Bob Bishop, coach of the Reese baseball team, is serving as chief mentor. The team is composed of dependents of military personnel and civilian girls working at Reese.

About 15 girls have reported out for practice, but coach Bishop is asking for more hopefuls. As Bishop put it, "The more the merrier, and the better team we'll have." Practice sessions are held each Tuesday and Thursday at the base gym from 5 to 6 pm.

Bishop said that a present a complete schedule had not been prepared, but that games were being arranged with the civilian teams in the West Texas area. He added that he hoped to enter the girls in the Lubbock city league.

This is Bishop's first crack at coaching, but he has experience in playing basketball. He played high school basketball in Hobbs, N. M. While in the Navy, he was a member of the San Diego Naval Air Station cage team and on the team of the aircraft carrier Wasp.

Mel Allen of the Yankees and Russ Hodges of the Giants were named by The Sporting News as the outstanding play-by-play broadcasters in the American and National leagues, respectively. The citation is the fifth in a row for Allen and the first won by Hodges.

Dick Burnett, owner of the Dallas Eagles said last week that he had changed his mind about selling his Texas League club, which he previously had placed on the block at an asking price of \$1,000,000.

Eddie Stanky, of the Giants, belted more home runs this season than he has in his seven years with the Cubs, Dodgers and Braves. He had seven four-baggers this season.

AIR FORCE THEATER

REESE AIR FORCE BASE

Shows at 6:00 & 8:00 P. M. — Mat. Sat. & Sun. at 2:00 P. M. Theater Phone Number 109

FRIDAY	John Crawford - Wendell Corey Harriet Craig

Tilt For Pass

Northwestern's Pat O'Brien, right, leaps high into the air to beat down a pass intended for Navy's Frank Adorney. The Mid-dies came out on the short end of a 22-0 score in the Baltimore grid-iron tilt.

25 Top Grid Games October 21

- Army at Harbard
- Boston U. at Miami U.
- Pennsylvania at Columbia.
- Yale at Cornell
- N. Carolina State at Maryland
- So. California at Navy

- Marquette at Michigan State
- Wisconsin at Michigan
- Ohio State at Minnesota
- Alabama at Tennessee
- Clemson at South Carolina
- Georgia at LSU
- Arkansas at Texas
- SMU at Rice
- TCU at Texas A&M
- Oregon State at California
- Stanford at UCLA

Connie Mack Quits As Manager Of A's

Connie Mack, baseballs "grand old man," resigned today after 50 years as manager of the Philadelphia Athletics.

Into his shoes stepped Jimmy Dykes, 54, star third baseman of the Athletics when Connie Mack's team dominated the baseball picture two decades ago.

Art Ehlers, 52, director of the American League club's farm system, became general manager.

Although the lanky 87-year-old leader of the Athletics had been under fire as having outlived his usefulness, his resignation came as a surprise.

"I am retiring from the active management of the baseball club but will remain as a director," Mack told a news conference.

Actually, he'll retain the office of president with his oldest son, Roy, vice president, and another son, Earle, secretary-treasurer.

Roy and Earle own all of the stock except that of their father. They purchased the stock from Connie Mack, jr., a half brother, and the Shibe interest last month after a long, bitter argument within the organization.

PTG played the Maintenance men to a scoreless tie until early in the fourth period when Jack Garlington intercepted a flat pass and ran 60 yards for a touchdown. 3501st fans breathed easier, but not for long. With one minute and five seconds left, Dave Parker intercepted a 3501st aerial and ran 40 yards to pay dirt, tying the score at 6-6.

The game ended a few seconds later with the score tied and a four-down playoff was necessary.

MSG Wins Protest Game

MSG needed but one of their four specially designed plays to score their first TD and beat ABG, 14-6, in the replay of a protested game. Hugh Foster took the pass from center and scooted seven yards around his own right end to tally and tie the score at 6-6.

Late in the fourth stanza MSG proved that their first win was no fluke as a Ed Pitts to Dale White pass clicked for 12 yards and a marker, putting them ahead, 12-6. On the kickoff ABG put the game on ice for MSG when ABG fumbled in their own end zone putting MSG ahead, 14-6.

ABG Bounces Back

The ABG six bounced back in their next game by trouncing Supply, 42-0.

Red King scored the first TD on a run and Charles Jackson scored the second on a pass from Tom Toms. Then King tallied the third marker on an interception.

The fourth came on a Tom Toms to Gene Logan aerial and a little later King heaved to Toms for marker number 5. Toms tossed to Dick Botche for 6 more points and Botche found Bill Taylor for the final TD, making the score ABG 42, Supply 0. ABG's defense held the Supply most of the time.

Medics Thrash Supplymen

After playing four and a half scoreless quarters the Medics scored two quick touchdowns and beat Supply, 12-0. Both teams passing was very accurate but the receivers could not hold them.

The medics first marker came when Willie Leonard intercepted a pass and ran 20 yards to score. A few plays later Leonard hit Rusty Adams with an aerial, making the score 12-0.

Squadrons being unable to field a team, because some of their players were on TDY and various things caused some of last week's games to be postponed and parts of the schedule to be rearranged. This will force the touch football season to run into early November.

Today

3501st Maint. Sq. vs. Hq. Sq. ABG.

Monday

Supply Sq. vs. Cadets.
Hq. Sq. PTG vs. Hq. Sq. PTW.

Tuesday

Hq. Sq. PTG vs. Hq. Sq. MSG.

Wednesday

3501st Maint. Sq. vs. Cadets.

Thursday

Hq. Sq. ABG vs. Cadets.
There is a possibility that games which have been postponed will be scheduled during the week. Team manager affected will be notified.

Steve O'Neill has been reappointed as manager of the Boston Red Sox for 1951. The former Cleveland and Detroit pilot took over the club on June 25, after Joe McCarthy resigned.
