

Report From Washington

The Army will reactivate the 508th Airborne Infantry Regiment of World War II fame at Fort Bragg, N. C. late this month. The 508th will function as a separate regiment assigned to 3rd Army Headquarters. The Regiment distinguished itself as the 508th Parachute Infantry Regiment, a unit of the 82nd Airborne Division, in the Normandy Invasion. The 82nd Airborne Division then was commanded by Maj. Gen. Matthew B. Ridgway.

The Air Force will call to active duty ten National Guard flights assigned to the duty of towing air targets between May 15 and July 1. The call will involve fewer than 650 officers and men, but will bring in units from ten different states, equipped with B-26 bombers modified for target towing.

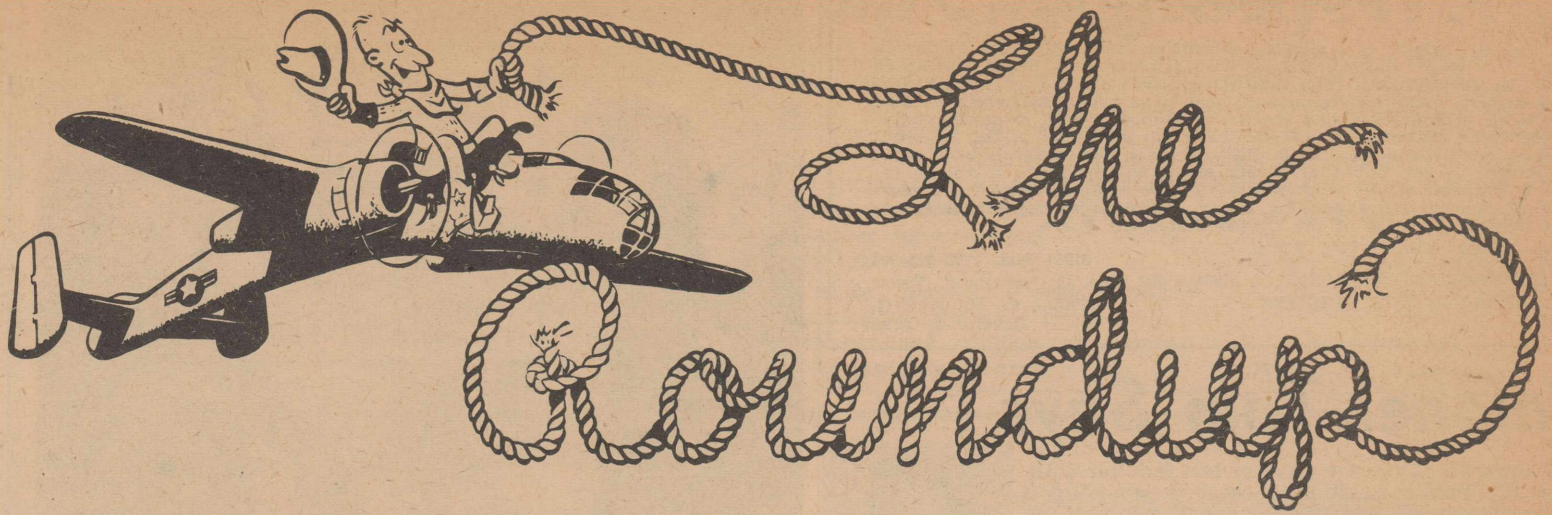

Assurance that veterans still in military service will receive their National Service Life Insurance dividend checks as promptly as those in civilian status was given recently by Chairman Hardy of the House Executive Expenditures Subcommittee. The Subcommittee has worked out arrangements with the Defense Department and the Veterans Administration for handling these checks.

Civilian Personnel Work 18 Months Without Accident

Civilian personnel working at the Field Maintenance Shops have compiled a total of 564,898 man hours or 18 months and 17 days of working without a disabling accident, Col. Thomas J. Barrett, base commander, announced this week.

Colonel Barrett stated "In view of the fact that many individuals employed did not have extensive experience in their present line of endeavor and that workers were required to operate, in some cases, with improvised equipment and to manufacture some of their own tools, this record is most remarkable."

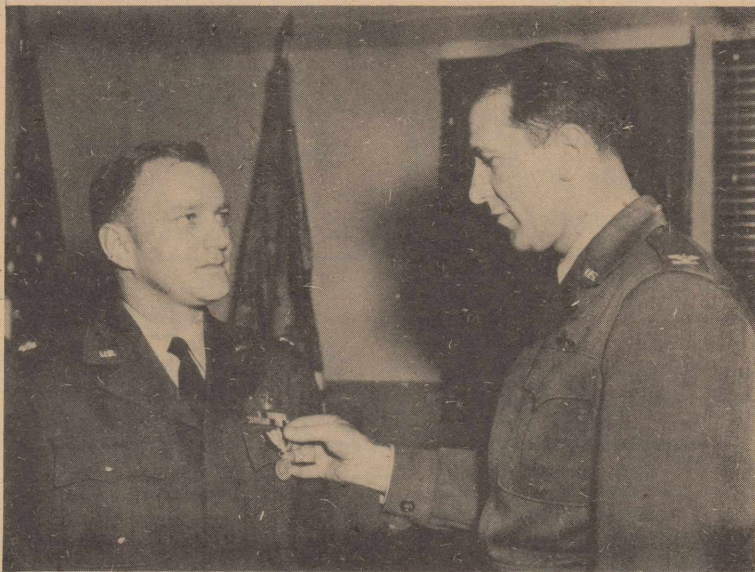

Continuing, he stated, "Our safety program is constantly directed toward providing safe and pleasant working conditions and facilities, however, all this effort would be lost were it not for the effectiveness of the operating personnel. The best equipment will not prevent accidents unless proper attitude and safety consciousness is maintained by all concerned. This record is indicative of the efficient manner in which the heads of departments, foremen and supervisors have carried out the Safety Program and to the full cooperation of the civilian employees."

Vol. II, No. 25

Hurlwood, Texas

20 April 1951

MAJ. ALBERT H. SCHNEIDER, director of Wing Instrument Training, and now on TDY at the Air Command and Staff School, receives a medal for Humane Action from Col. Thomas J. Barrett, base commander. Major Schneider was awarded the medal for service in the Berlin Airlift while CO of the 53rd Troop Carrier Sqdn at Rhine Main AFB.

Chess Set, 2,000 Years Old Owned By AACCS Commander

When the game of chess was originated in India centuries ago, the originators probably had no idea that a relic of that era, a chess set, would be preserved intact unto the present day. The owner of that set is M-Sgt. Leo A. Wright, commander of the Reese AACCS detachment.

Sergeant Wright who was stationed in India with the AACCS and attached to the 20th Bomber Command in 1945, purchased the set from a store keeper in Khragpore, India for \$225.00 in American money. Experts have since valued the antique set at more than \$10,000.00.

The age of the set was determined by design and cut of the clothes the chessmen are wearing and the date was fixed around 250 B. C.

Each piece in the set is carved from a single piece of ivory and painted in brilliant colors of red,

green, and gold, with each detail in perfection. Although the set is more than 2,000 years old, the colors are as fresh as if painted yesterday.

After its origination in India, the game spread to Persia and on to Western Europe where it took the fancy of the people and since the fifteenth century, has little changed from the game of chess we know today. Some of the greatest chess players have been William Steinitz, Emanuel Lasker, Jose R. Capablanca, and Alexander Alekhine. Paul Charles Morphy is regarded as the greatest genius of the game.

Allocation Of Funds Raised By Carnival Announced Today

Benefits from the Carnival Fund established last October when the base went all out on a one-day carnival to raise money for miscellaneous welfare purposes are still being realized.

The Consolidated Non-Appropriated Welfare Fund Council which is custodian for the Carnival Fund reports that the council has authorized grants from the fund for the following purposes:

Personnel Services, \$4362.50 for projects which includes night lighting for a soft-ball diamond, shot guns (5) to be loaned to military personnel during the hunting season and for athletic uniforms.

Post Restaurant (Bldg T-58) \$563.11 toward the purchase of restaurant equipment.

Final Results Of Red Cross Drive Announced, Airmen And Civilians Donate \$2,300 To 1951 Campaign

The 1951 American Red Cross drive came to a successful end last week, with contributions totaling \$2,305.24. This is the second largest contribution the base has made since the reactivation of the base.

Hq Sq, PTWg was the largest contributor in the campaign with the officers and airmen of that organization giving \$333.45. The 3500th Tng Sq came in second with \$228.70.

The largest contribution by airmen was by members of the 3501st Maint Sq who gave \$208.70, while the Officers of Hq Sq, PTWg dropped in \$124. The 662 civilian employees of the base contributed \$115.47.

Mr. H. E. Albright, Red Cross Field Director at Reese stated, "As Field Director for the Red Cross at this station I would like to express appreciation both for the Red Cross and myself to the personnel of Reese for their support in the 1951 campaign."

The contributing organizations are as follows:

1. Hq Sq, PTWg	\$333.45
2. 3500th Tng Sq	228.70
3. 3501st Maint	208.70
4. Installations	223.75
5. 3502nd Maint	172.05
6. Supply	155.55
7. ABGp	154.49
8. Mtr Veh	143.00
9. M & S	102.50
10. 3501st Tng Sq	99.50
11. Food Sv	97.00
12. Medical Sq	93.00
13. Air Police	85.85
14. PTGp	62.00
15. 3505 Maint	49.45
16. Band	\$25.00
17. AACCS	11.00

Congress Passes Bill On Free Insurance Ready For Signing

WASHINGTON (AFPS) — A cost-free ten thousand dollar death gratuity for all persons in the Armed Services since the start of the Korean conflict has been virtually assured.

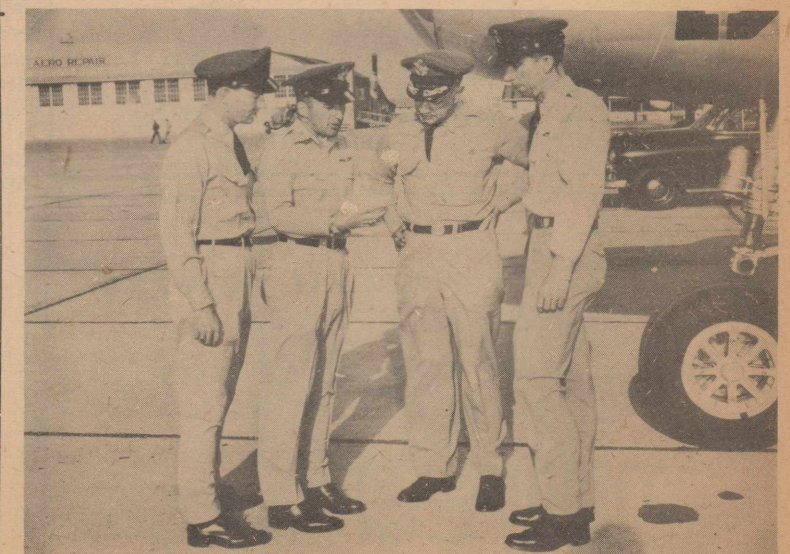

The measure, passed by Congress last week, is awaiting Mr. Truman's signature. He is expected to approve the bill within the next few days.

The most widely publicized features of the bill will provide \$10,000 worth of free insurance for servicemen while they are on active duty, and for 120 days after they leave service.

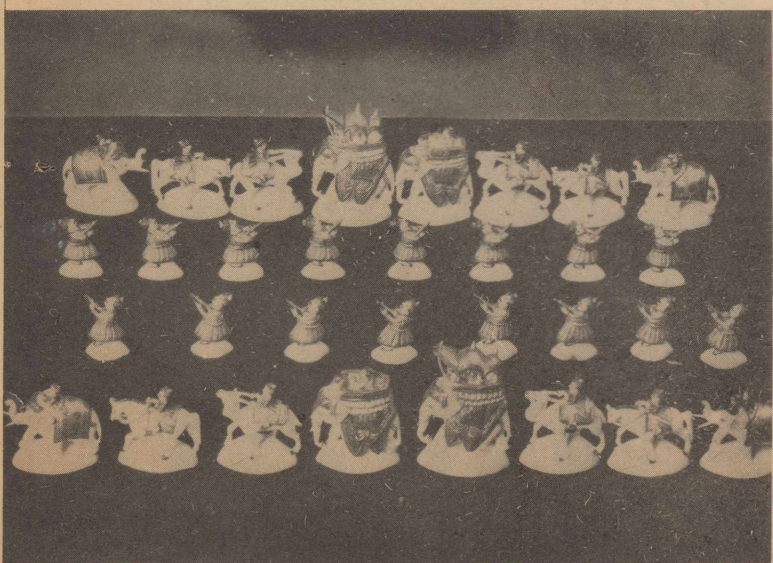

The death gratuity would apply to all persons in the Armed Services since June 27 of last year. It would be paid to surviving wife or husband, children or parents.

If the Serviceman or woman carried Government Insurance for \$5,000 the measure would increase the amount \$5,000 to \$10,000. Premiums previously paid on Government Insurance also would be refunded.

The conferees worked out a compromise to let Servicemen and women continue their Government Insurance after leaving the Service. They would have to pay premiums on "term insurance" with rates based on age increasing every five years.

COL. D'ROSS ELLIS from Training Command Headquarters, examines a list of prospective applicants for regular Air Force commissions held by Capt. C. W. Bradley, commandant of students. Also looking at the list are (left) Maj. C. L. Land, Public information officer, and Lt. Col. Robert L. Wright, ABG Co. Colonel Ellis will head a board to pick the candidates.

THE CHESS SET pictured above is owned by M/Sgt. Leo Wright of AACCS, and is reported to be over 2000 years old. Sgt. Wright bought the set in Khragpore, India, in 1945.

THE ROUNDUP

The ROUNDUP is a civilian enterprise published every Friday in the interests of military and civilian personnel of Reese Air Force Base, Lubbock, Texas. The ROUNDUP uses Armed Forces Press Service material. AFPS material and local news appearing herein may be reprinted without obtaining specific clearance. News, features, photographic and art material are solicited from personnel of the Base but publication depends on availability of space and general news value as judged by the publisher. Every effort will be made to return rejected material but no responsibility can be assumed beyond the exercise of due care in expediting return. Opinions expressed herein are not necessarily those of the United States Air Force.

 CORRESPONDENCE ADDRESS Phone 83, 607 Ave. G, Levelland, Texas

Colonel Tom Says . . .

I know all of you are more or less familiar with the term, "Public Relations", but I sometimes wonder if you are aware that every member of this command from the highest ranking officer to the newest private or the lowest rated civilian employee is a member of the public relations staff.

The Public Relations officer, or as the Air Force nomenclature now has it, the "Public Information Officer" is the staff expert on public relations just as the Training Officer is on training, or the Wing Adjutant on administration, but this does not mean that any one of these officers can carry on the entire program without the aid of every other person, military and civilian on the base.

Every time an airman or an officer walks on the streets of a nearby community, attends a sports event or other public function, he is engaged in making good or bad "public relations." If his manner of dress is sloppy, his actions offensive, or his attitude toward the public he meets is aloof, he is not making a good name for the military service.

Public relations, however, is not a one-way street. The attitude of the civilian population to the airman or officer who is stationed nearby or who is a visitor in the city casts its reflection, as in a mirror, on the attitude of the military to the civilian and vice versa.

Your relations with the people of the community where you are stationed are of prime importance and your first job is to convince them that the Air Force is an agency of theirs of which they can be proud.

Book Blurbs

James Hilton's new novel, Morning Journey, is fast-paced and close-packed—sharply satirical in places, and deeply moving in others. It is truly a story you will be glad to read and remember.

RING AROUND THE MOON is a translation by Christopher Fry of Jean Anouilh's French play.

Give Me Your Golden Hand, by Evelyn Eaton, is a historical novel of the first rank. Recreating the spirit and adventure of history,

it tells an authentic and lively story of eighteenth-century England and American when the colonies struggled with the rebellious spirit of freedom.

A book destined to be a universal favorite among men is Claude Parmelee's How To Be A Crack Shot. Sportsmen will find it both interesting and helpful in improving their aim.

Blum's Pictorial History of The American Theatre is magnificently illustrated with over 2,000 pictures of important plays and players.

Visit your Base Library to examine these books.

THE BASIS OF MORALE

Most of the problems we have in the world depend on the answers we give to two questions: (1) What is a Man? and (2) What is Man's Destiny? This is where the chief battle rages; other problems are only diversionary actions.

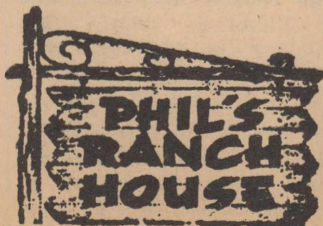

There are those who would reduce man to the level of a machine and make the goal of society the production of material goods. Others would have us believe that the individual is only a "trousered ape" and that life is the "survival of the fittest." These points of view threaten to drain us of our spirit and to make us into little more than 'head-pieces filled with straw.'

The American tradition has it that man is neither a machine nor a dressed-up chimpanzee, but a creature of God "endowed by his Creator with certain inalienable rights." As representatives of religion we stand for the dignity of man, the basic conviction of our democracy, not in the sense that man has any value in himself but that he has been given infinite worth by God.

When we say that, we touch upon the deepest roots of morale; for in an appreciation of the dignity divinely bestowed on man lies the eternal answer to the questions concerning what man is as well as his destiny. We have, in our religion, the answers which make for that morale which is so desperately needed today, when it would seem, many men suffer from the spiritual malady called selfishness.

Underneath, the real basis for our morale must be a fundamental awareness of the ultimate issues of life as these issues relate to the day-to-day events with which we must deal. We can remain sane in a world that seems destined by a pattern of madness to race suicide if we have a religious answer to the questions, What is Man? and What is Man's destiny?

Cadet Program Changes By ATRC

UNDER THE CONTROL of Keith Hargett, a fifteen thousand volt arc climbs an electrical ladder as part of "Sermons From Science," a four hour long demonstration produced by the Moody Bible Institute of Science of Los Angeles. Touring every USAF Training Command base as part of the AF Character Guidance Program, the show will appear at the base theater on 23, 24, 25, and 26 April.

HQ AIR TRAINING COMMAND—Two changes in the method of qualifying and selecting aviation cadets made recently by HQ USAF are in favor of the applicants who are now on active duty as airmen or who enlist as airmen prior to 1 July 1951.

The two changes require that effective 2 April 51, civilian applicants who are selected for aviation cadet training must enlist for a period of four years before they are appointed aviation cadets, and new applicants must successfully complete a new qualifying examination (aircrew classification test battery) designed to measure the applicants' aptitude for aviation cadet training.

Airmen whose applications for cadet training are now on file at Hq. ATRC and those who applied for training prior to 1 April 51, will not be required to take the new examination. This also applies to civilian applicants who applied before April 1, and enlist before July 1.

Assignment to classes will be based on the date applications are received at Hq. ATRC. This will insure that all airmen who applied for training prior to 1

April will be assigned to training before any of those applicants who apply after 1 April. Further, present Air Force policy is to select 70 per cent of each aviation cadet class from qualified airmen applicants provided that number have applied for training and are qualified.

Since there is a considerable backlog of qualified airmen applicants and civilian applicants who can become airmen prior to

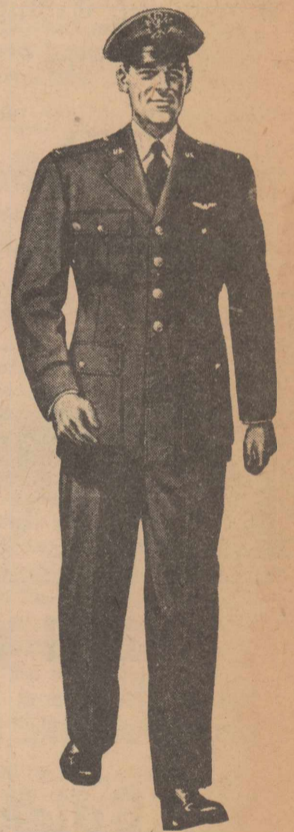

1 July, there is a possibility that it might still be several months before some airmen are assigned to a class. In general, an airman whose application was received by Hq. ATRC after 1 March 1951, probably will not be assigned to a training class until after October of this year.

Services Lower Standards On Physical Conditioning

WASHINGTON (AFPS)—Mental and physical standards of acceptance for service in any of the Armed Forces will be revised to conform to present standards employed by the Army, the Defense Department recently announced.

The purpose of the change is to assure equal distribution of highly qualified personnel among all the Services. The new standards will apply to personnel entering through voluntary enlistment, or induction under the Selective Service law.

"This plan should not only serve to adjust present imbalances among the military departments, but should lead to an important advance towards the more effective utilization of manpower throughout the military establishment," Gen. George C. Marshall,

Secretary of Defense, said in announcing the new policy.

Under the new plan, minimum physical standards for acceptance will be the same for all Services, and mental groupings based on qualification requirements were ten points higher than the Army.

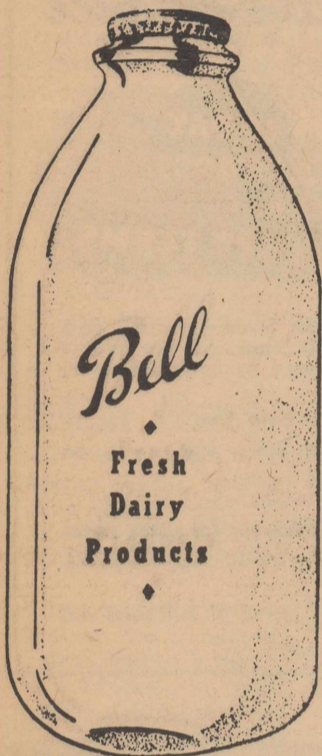

Examining stations which will test new personnel for all Services will be established July 1.

Model Airplane Club To Hold Flying Show On Base Sunday

It was a clear, warm, sunny day, with a slight breeze blowing out of the west. The small plane climbed sharply to intercept the approaching enemy aircraft. Maneuvering into position, the two pilots began to bring into play long years of experience and training. At first the planes were far apart, then it seemed as if they were going to collide in mid-air, as they made pass after pass trying to disable the opponent.

Does it sound impossible? Not quite. The above battle will be fought by model airplanes, powered by miniature gas engines and controlled by thin steel lines by the pilots from the center of the circle. These planes, being capable of speeds in excess of 100 mph, can execute intricate maneuvers as consecutive inside and outside loops, inverted flight, horizontal, verticle and overhead figure eights, and four leaf clovers.

This exhibition combat and stunt flying will take place this Sunday, 22 April 1951, on the practice softball diamond adjacent to the Officer's Mess Hall, beginning at 1300 hours and continuing as long as weather conditions permit. The pilots of these planes will be members of a model airplane club from Lubbock, and they will put on a show that no one will want to miss. Stanley Thorp and Tom Killough of Texas Tech will perform precision stunt and combat maneuvers, while Frank Clark and a dozen or so of the other club members will demonstrate speed, scale and team racing.

F/Sgt. LESLIE MINOR and F/Sgt. Grady Williams hold three of the posters that were designed by them, to further the success of the Character Guidance Program. Each poster depicts a phase of the program, and is painted in attractive, eye-catching colors. Sgt. Minor and Sgt. Williams have been instrumental in getting the CGP under way.

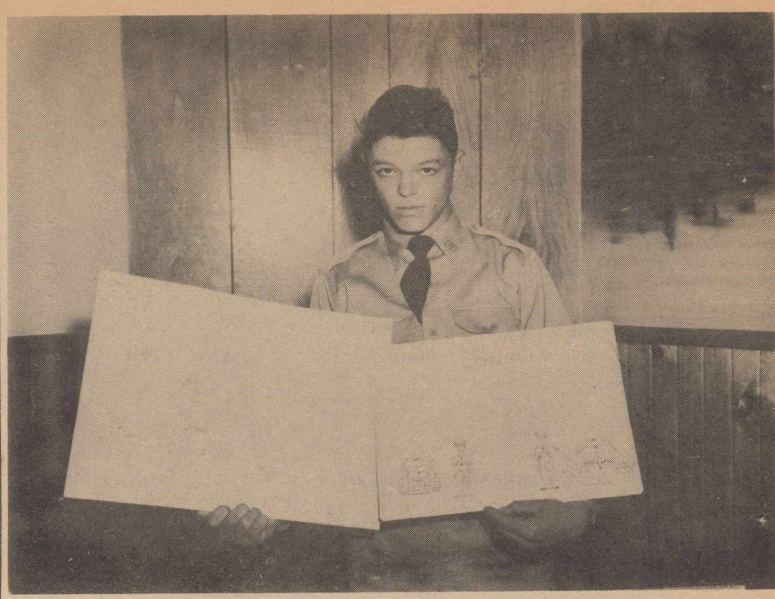

Character Guidance Posters Designed By MSG Sergeants

The posters and bulletin boards shown on this page are part of the extensive program inaugurated by the Character Guidance Council of the 3500th M & S Gp., under the direction of Lt. Col. Walter Kerbel, group commander.

The chief engineers of the poster program are F-Sgt. Leslie R. Minor and F-Sgt. Grady Williams, who thus far, have designed most of the posters depicting a Character Guidance Council project. These posters have been designed to gain eye contact through attractiveness, and bright colors, and then to drive home a message to the reader. Pfc. David Gailes of Mtr. Veh. Sq. is also assisting in this work, particularly in the drawings, and settings.

Bulletin boards have been erected in each Squadron within the M & S Group, and in other squadrons on the base. These boards are divided into four parts—Current Events; Educational; Religious; Recreation. Under each of these phases, book covers from books pertaining to that particular phase are placed, and changed each week. Daily changes are made on the Current Events board.

A "Buck Board" has been set up at Hq Sq, ABGp with dollar bills placed on it to be used for haircuts, movies, cigarettes, etc. When a person is hard pressed for a little cash he can take a dollar off the board, write his name on a piece of paper, and pin it to the board. There are no questions asked of borrowers, as the "Buck Board" relies on the honesty and integrity of those people to replace it within three days. The time limit assures a fast turn-over, giving more people a chance to participate. The money was provided by a benefactor and does not involve Air Force funds. It is a non-profit project, and was the joint idea of Capt. Charles F. Sheridan, CO of Hq Sq, ABGp, and 1st Sgt. Jewel Martin.

PFC. DAVID GAILES of Mtr Veh Sq has been assisting Sgts. Minor and Williams in the poster campaign with his artist abilities. He is shown holding two rough sketches which he will finish, and then put into color.

Squadron Scribblings

3502nd News

By Pvt. ERNEST HOLFORTH Jr.

We wish to welcome to our Squadron 1st Lt. Joseph Cooper and 2nd Lt. Robert Sellers. We also give a hardy welcome to the following Airmen; S-Sgt. Jurie Shabalin, S-Sgt. Kenneth Manion, Cpl. Peter Lecorchick, Pfc. Richard Jackson, Pfc. Richard Ruffner, Pfc. Lloyd Jones, Pfc. Richard Lieby, Pfc. Robert Richardson, Pvt. Robert Ringler, Pvt. Eldon Powell, Pvt. Kenneth Greenhorn and Pvt. William Hiraga.

Our Volleyball Team is really going to town again this year. So far they have played six games and won all of them. Keep up the good teamwork men.

We wish to thank Sgt. Leitner and his helpers for their work in painting the Orderly Room and the Day Room. The finishing touches were given these rooms last week end.

We wish to congratulate M-Sgt. John Mesich for his work in designing and constructing a Gunk and Solvent Machine. We understand this machine saves both man hours and material and he is to be commended for this achievement.

We also congratulate the following Airmen on their recent promotions; M-Sgt. Homer Pratt, M-Sgt. John Steele, T-Sgt. John Burdick, S-Sgt. Alfred Walker, S-Sgt. George Brown and T-Sgt. James Roswell.

Installation News

By Pfc. WM. EWAN

Flash! Ghostly noise haunts day room. Yes, that's right. If you are a new member of the squadron, this ghostly sound will puzzle you.

Every now and then the peaceful atmosphere of the Squadron Day Room is disturbed by a weird sound, a sound coming not from the radio, or from any other conventional corner in the room, but from some secret hiding place; from the wall itself. Upon closer investigation the sound is pinned down to the heater vent, the connecting link between the boiler room and the Day Room. So that is the secret room! Closer investigation reveals the source of the weird sound; a saxophone, played by Pfc. Snell. Since he is not allowed to practice in the barracks, he has made the boiler room his official "Music Room." Keep up the Good Work, Eddie.

Sgt Cooke has been the proud father now for several weeks. His little daughter, Carl Anne, weighing 7 pounds and 3 ounces, was born March 31 at Lepre, Pa.

The golf course is well on its way and is expected to be ready for use in the latter part of May. Thanks to the men of Roads and Grounds.

Perhaps you of the squadron have been wondering whose blue 51 Buick has been flashing by. You might have guessed or you know, it's Major Scidmore, Deputy Commander of Squadron.

We welcome our new-comers. They are 1st Lt. John Lechleiter Jr., Asst. Air Installation Officer; Pvt. Alvin and Calvin Allen, Pfc. Kenneth Burdick, and Pfc. Floyd Moon. Best wishes Men.

The Squadron Softball team got on its way with their first practice game this week by competing with M & S Group. Our Squadron team managed by S-Sgt. Webb and M & S Group managed by S-Sgt. Brock directed their teams to a eight inning, no run game.

ABG News

By Sgt. JOHN H. BADGETTE

It seems that last week's article that I wrote didn't have one particle of effect on the airmen in the squadron. Namely because I haven't received one speck of gossip, news, or comment on anything in respect to the squadron. Remember men, this is your column, and if you want it to be the best column in the paper you've got to lend a helping hand.

The squadron has just received the new look. I'm speaking of those pretty shiney new wall lockers that we have been using for the past week. I don't know about the rest of you, but I'm still nursing some bruised knuckles from putting those jig-saw puzzles together. All kidding aside, they really are a nice addition to the barracks.

Last Sunday, Pfc. "Skip" Cope-land of the Service Club was married at the base Chapel to Miss Ann Bentle. I join with the rest of the squadron in wishing the new Mr. and Mrs. a 'BON VOYAGE' thru life.

The squadron had one new arrival in the past week. He is Pfc. James J. Finnagan from Keesler AFB, Miss. Pfc. Finnagan is temporarily working at the personnel section of Hq ABG. Welcome!

The Squadron Softball team seems to be shaping into a good team according to an interview with M-Sgt. Nickleson of personnel services. "Nick" stated that Pfc. W. B. Wilson has been appointed as team Manager, and will be in charge of the team. Pfc. Wilson will be assisted by M-Sgt. Nickleson and T-Sgt. McDougal. The Softball Team Challenges any team who would like a practice game. Interested teams should contact M-Sgt. Nickleson at the base Gym.

Supply Sayings

By CPL. JOHN J. SWATEK

Last week two new men were added to the Squadron roster, namely, PFC Robert M. Bailey, and Pvt. Coy R. Hadaway. PFC Channing J. Hobson is on his way to Lowry AFB, Colorado for a 10-week course, "Tabulating Machine Operator," and PFC Warren E. Lockeby is off to attend Clerk Typist School at Ft. Francis E. Warren AFB, Wyoming. "Welcome" to our new men, and "Good Luck" to our boys in their Scholastic endeavors.

Captain Hansen surprised the Squadron by taking off to Arizona to get married. Who's the lucky lady Captain? (No one seems to know) I guess we'll have to await his return to get the details.

The Softball team played Food Service last week in a pre-season practice game. What a slugfest and talk about errors, WOW!! the score sounds as if it were basketball, 18-14 with Supply on top. Our boy, Sgt. Vance was gunning for a homer and got it in the sixth with two men on. It was a horrendous blast over the right fielder's head. All in all it was a lot of fun with all the men on the team's roster getting a chance to strut their stuff. Now if we only could get a softball shaped like a beer bottle, "Lushwell" Clark would be all set.

On the serious side, we understand that M-Sgt. Griffith's daughter is ill and we all hope that she will have a speedy recovery.

3501st News

By SGT. DUANE F. HAMMER

I watched our Squadron bowling team in action against the Medics and, the Medics, I'm sorry to say, were able to beat us two out of the three game series and fairly well topped us by total pins. The irony of it all was the eleven pin handicap the '01st team topped the Medics. Wonder how those Medics were lucky enough to get this handicap from the '01st?

M-Sgt. Robert M. Horning received his orders for recall and will be recalled in the grade of Captain come 14 May '51. Captain Horning will be reassigned to Sheppard AFB Texas. The '01st is going to miss Captain Horning and sincerely wishes the best of everything in his future assignment.

Lost two men to the Food Service Squadron this week. Good Luck to Pfc. Jay D. Brown and Pfc. Charles L. Lister in their new duties with the Food Service Department. M-Sgt. Ray K. Mathes and T-Sgt. Charles R. Mabry have departed for Luke AFB Arizona and T-Sgt. Edgar C. Waddell for Chanute AFB Illinois. Sgt's Mathes, Mabry and Waddell have been with the '01st for a long time and it's a shame to lose them but our Squadron is in the same boat along with a lot of other Squadrons in the Air Training Command.

Am also sorry to see Major George E. Ohrberg reassigned to Hq & Hq Sq of the M & S Gp. Major Ohrberg was our Maintenance Officer on the line for a long time and the boys in the '01st wish him well in his new assignment.

Hq. Sq. News

By CPL. DICK McCUNE

Squadron was sorry to hear about Sgt. Willie B. Robinson's auto accident Monday night. The car, according to Robbie, was completely demolished, but neither he nor S-Sgt. Nick Speck, S-Sgt. Raymond Anderson and Sgt. Sam Burnett suffered more than minor cuts and bruises in the wreck. Robbie's '41 Chevrolet coupe left the highway near Carlisle and turned over twice.

Sergeant Betts reminds all you potential DiMaggios that the squadron softball team is still in the shaping up period. Anyone who would like to try out and practice with the team can report to Lt. Joseph D. Burton, manager. The boys are working out each Thursday at 1600 hours, and every Saturday from 1000 to 1200.

The volleyballers came up with a win this week to even up their record in their second game of the season. Motor Vehicle Squadron was the goat for the defeat.

Sgt. James P. Carroll, just back from tech school, took off again, this time with leave papers under his arm. Cpl. Douglas Cooper returned to PTW after an emergency furlough to Indiana to see his mother.

Pfc. Junior Lund checked out this week to go to Food Service Squadron. Hate to see him leave but we know he'll make good in the bacon 'n beans department.

Congratulations to S-Sgt. and Mrs. Paul Lambert on the arrival of a baby daughter last Tuesday. Vital statistics go...seven pounds, eleven ounces.

Kadet Korral

Vacationing for the Kadet Korral is over and we are back at work again.

Due to the sudden and great changes of the weather the uniform optional period for the base has been extended to 1 May, however to maintain a uniform dress among the members of the Cadet Detachment the Cadet OD now is charged with the responsibility of deciding, day by day what the uniform will be—makes the situation more confusing to change so often, but is much more comfortable!

Would appear that 51-Easy has some excellent navigators in the group — on a cross country to Vance AFB, Townley joined the Fraternity of those that have become "confused" (?) enroute. It is readily seen how he could orientate himself approximately 30-35 miles southwest of Fort Worth (!) when on a course to Oklahoma City!! Landing at Carswell AFB (home of the B-36's) was quite an experience—they keep transient personnel under armed guard from the time of leaving the aircraft until take-off.

Capt. Crozier, Flight-Commander Flight 5, Section II, and Lt. Reitze, student officer, came to the rescue at Carswell and the two aircraft were flown IN FORMATION to Sheppard AFB for fuel and on to Reese. A mere 180 miles off-course must be somewhat of a record!

Medical Talk

Pfc. JAMES McMILLIN

The big event of the Medical Group this past week, happened on 13 Friday when the Medical Officers succumbed to the Airmen of this group in a fast and rousing softball game; the final score was 11 to 8 in favor of the Airmen.

The officer line-up for this game was as follows: 1st base Major Stephens, 2nd base Lt. Colonel Schwartz, 3rd base Capt. Knauber, shortstop Capt. Klinger, pitcher Colonel Hoffman and Major Bock, catcher Lt. Custer, leftfield Capt. Jakobs and Capt. Moss, centerfield Capt. Swimmer and Capt. Hudgins and in right field Lt. Grayson and Lt. Nunan. The Airmen line-up consisted of the following men alternating: 1st base Lomicky and Green, 2nd base Narella and Briestinsky, 3rd base Bogel and H. Brooks, shortstop Orenland, pitcher Weiss, Amesbury and Weigings, catcher Woolley and Levine, left field Jordon and Beatty, center field Louviere and Finlayson, right field Sims and Mitchell. The umpiring was done by Pfc. Waldecker.

Friday the 13th, contrary to common belief, was also a joyous day for many of the Airmen, especially, the new members of this group who received their first stripe.

NCO Club Notes

Bingo tonite as usual and the consolation prize is growing and growing — \$275. This week...if none wins, it will continue to grow and grow...As you no doubt know, we have started a policy of having a band each Friday nite after bingo which plays until 2400 —on Saturdays, the band will play until 0100...This Friday nite we're gonna have a six-piece combo from the Phil Kligman orchestra...

"Earth is here so kind, that just tickle her with a hoe and she laughs with a harvest." Ruce, PTG's janitor, finds the harvest more likely to be planted in the corners of the building than the fields. At least that is where the top soil can be found.

Shades of confusion. Not that it isn't bad enough to have the two Section Commanders with the same name (Maj. Kline, Sanley and Maj. Kline, Russell) but; tak- the initials of the two Maj. Klines, combine them with the last initials of their assistants, do we come up with an alphabetical mix-up? No! The results are four K's—Kline, Kline, Kilroy (he is here) and Kranz.

The style show that was held at the NCO Club last Sunday was quite an affair, but, not to make a re-cap, by going over every knee cap, it was your's truly who walked off with the door prize, amid Covetous glances S-Sgt. Day (a bachelor) walked from the club with a very large salad bowl, standard equipment for all men living in the barracks.

Congratulations and one rim of the railroad track to 2nd Lt.'s Olcott, Osborne and Jay McDonald.

Chords & Dischords

Sgt. JOHN F. CORNELL

Felicitations to our potential first soldier, Staff Sergeant Milton E. Gilmore on having attained the position of Instrumentalist Supervisor.

Radio fans of the 514th please note: Our weekly presentation, "Wings Over Lubbock," will in the future be broadcast Saturday afternoon at 1600 hours over station KCBD in Lubbock.

Activity this past week was centered on recuperating from the ill effects of our flight to Ellington Air Force Base. I wouldn't go so far as to say the flight was rough, but several members of our organization now boast a vibrato which would have taken several years to develop in a conservatory.

Our concert in the Shamrock Hotel came off without a hitch and for our "fine performance," the Junior Chamber of Commerce treated us to lunch in the famous Emerald Room. That was about the most expensive looking chow hall I've ever had the pleasure of dining in. The floor was covered with rugs as thick as the dust under Joe Manzellas' bed. Gentlemen that they are, the Band left without confiscating a single piece of tableware. Of course, it was kind of difficult eating with the sliver chained to the table.

A gentleman of our music critic department reports he attended one of Margaret's recitals earlier this week. He refused to comment further or allow his name to be used. He says he is happy where he is.

Thursday nite is a divident nite i.e., your club is gonna give you a return on your investment—FREE BEER from 1715 to 200—chow goes with the beer 'natch.... As of now, I don't know just what you'll get to eat but I promise you that it will be something good....

Rattlers Defeat Sandlin Cleaners 7-5 Sunday

Dale White, Rattler moundman, pitched and batted the Reese Rattlers to a 7-5 victory over Sandlin Cleaners, Sunday, April 15 at the Reese baseball diamond. Getting off to a slow start, the Rattlers finally got two runs in the fourth, one in the fifth, two in the ninth and two in the tenth inning.

Ben Harvey and Leon McFarland started off the Rattler scoring with a homerun attack in the fourth inning, hitting consecutive four-baggers. Going into the last of the ninth inning, the Rattlers were two runs behind. With one man on, Big Dick Bochte blasted a homerun to left field to tie the game up and send the game into extra innings. One man out and one man on when he came to the plate, White drilled a hot grounder down the first base line to drive in the winnings runs.

Bence Still Leading In Bowling Tourney

The bowling tourney was still in a tight race as this week's standings were released. M & S continued to hold a slight lead over the Medics, who were the league leaders during the first part of the season.

Sgt. Ernest Bence, of M & S continued to be the leading bowler on the base with a 184 average. Cadet Charles Parker is runner-up with a 173 average, and Pfc. Joseph Pruneski of Supply Sq is third with 164.

Base Softball Team Will Meet On Monday Afternoon

Captain C. W. Bradley, Jr. coach of the Wing Softball team, 'The Reese Reesers' announced today that a meeting of all persons desiring to play softball will be held Monday April 23rd in the Training Group Auditorium (Bldg T-815) at 1300.

This meeting is being held to discuss plans for practice periods, schedules, etc.

Last year's team won the City Championship in Lubbock and it is expected that a repeat performance will take place this year.

Members of last year's team who are expected to vie for a position on the team are: M-Sgt Woodrow S. Miller, T-Sgt Frederick Edwards, S-Sgt. Homer C. Miller, Sgt. Auburn L. Biesenback, T-Sgt. E. B. Wall, S-Sgt. Ralph Baird, S-Sgt. Bill Wright, S-Sgt. Collis Clark, M-Sgt. Tom Toms, 1st Lt. Stephen C. Frost, T-Sgt. Billy Goodwin, and S-Sgt. George E. Diggs.

Captain Bradley who coached the Barksdale Bombers in 1947-48-49 and the Reesers last year is becoming a permanent fixture

Service Club
SUNDAY—April 22—Open House
MONDAY—April 23—Colored Dance—Base Orchestra
TUESDAY—April 24—All card games—Come for an evening of chess, dominos, etc. Play for fun and high score. Many nice prizes for high game.
WEDNESDAY—April 25—Bingo! Prizes, Jackpot—a big evening. Come and join in the excitement and fun.
THURSDAY—April 26—Dance—LSO Girls—Music by Base Orchestra.
FRIDAY—April 27—Couples dancing to record music.

Base Hospital \$788.60 for radios for individual rooms in the wards, compressor for the hospital mess, and baby cribs and mattresses to care for small children.

Kindergarten and Nursery, \$535.61 to be spent for playground equipment and rhythm band instruments. These latter are especially designed for teaching rhythm to pre-school children.

Girl Scout, Boy Scouts and Brownies, \$226.35 for scouting supplies not including uniforms.

Chapel Annex Nursery, \$292.63 for cribs, beds, toys and other supplies necessary to set up the nursery.

Squadrons, \$121.50 toward the purchase of squadron guidons.

Food Service, \$903.23 for use by the Cadet and Consolidated Dining Halls for drapes, coffee and grease filters, record players, albums and artificial palms for decorative purposes.

Prefabricated Club House for Golf Course, \$575.00. Water Hose to use on golf course, \$100.00

last year at least twice.

It is planned that all of the League games played on the base this year will be on the newly constructed night lighted softball diamond located across from the Hospital.

SPORT SLANTS

Joe Holmes

LITTLE MAN, BIG WINNER
* It really pays not to "grow up", that is, if you're a jockey. Little Eddie Arcaro has grown up in every way except in stature, and seems to be content with his pint-size physique. He's won a lot of races, too. Four times he has handled the reins to win the Kentucky Derby—Lawrin in 1938, Whirlaway in 1941, Hoop Jr. in 1945, and Citation in 1948.

Twice Arcaro has won the so-called "triple crown" (Kentucky Derby, the Preakness, and Belmont Stakes), the last time on Citation. Citation is the all-time favorite of Arcaro, and the little man will probably never know just how fast Citation can run. It all seems to depend on how fast he has to run to beat the others when he is in top form.

About Citation, his pin-up horse! Arcaro has said, "What a horse! You don't have to carry a whip . . . just cluck to him and away he goes." Many who have seen Citation say he can actually understand the announcer on the public address system, for when he says another horse is "closing in", the "Cite" just eases away. But, we must give little Eddie a lot of this credit, for he is a master at letting a horse "out a few notches" at just the right time.

You're Always A Winner At THE SPORT CENTER
