Gen. LeMay Takes Command

Awards Given At Quarterly Group Dinner

The 3500th Pilot Training Group held its quarterly group dinner Monday night on the patio of the officers' club. Col. L. C. Hess, base commander; Col. Harold T. Babb, deputy commander; and Col. Charles W. Sawyer, commander of PTG, presented many awards to instructor pilots and to the outstanding academic and officer training instructors.

Outstanding Instructor Awards for the months of March through June were presented to 1st Lt. Richard J. Kinder, 3500th PTS, for March; Capt. Gale L. Hearn, '00th, April; 1st Lt. Sanford L. Sisco, '01st, May; and to 1st Lt. Charles F. Allen, group standardization board, for June.

Capt. Robert M. Opdycke was named the outstanding academic instructor for the second quarter of 1961, and 1st Lt. Karl H. Grosh the outstanding officer training instructor for the same calendar period.

Doctor's degree of instruction certificates, given for 2,000 hours of accident-free flying with 1,500 of student instruction, went to Capt. John DesJardins, '00th; 1st Lt. Richard Kinder, '00th; 1st Lt. Ernest A. Bedke of the group standardization board; and 1st Lt. William F. Dean, Jr., '01st.

Master's degree of instruction certificates, given for 800 accident-free flying hours of instructor-pilot time, went to Lt. Col. Charles M. Lyons, commander of the 3501st PTS; Maj. Robert L. Hill and Capt. Ronald Dutton, all of the '01st.

Fourteen pilots of the group were presented with certificates of training for completing pilot instructor training in T-37's here. They were Capt. Richard A. Burpee, Capt. Lloyd E. Lewis, 1st Lts. Donney D. Clemens, Thomas M. Colman, Howard A. Hensen, Donald E. Howell, William A. Jackson, James K. Kuhns, Robert J. Maroney, 2nd Lts. Robert R. Adams, Ralph J. Beekman, Arthur W. Draut, Frederick O. Hutchinson and Kinsley N. Wood.

The master of ceremonies was Capt. Richard Burpee, chief of the standardization board, who also was in charge of most of the arrangements for the buffet dinner.

A dance followed the dinner with music by Sam Baker and his orchestra.

POOL HOURS

The airman's swimming pool will open at 12 noon for the next three weeks instead of the normal opening time of 11 a.m. because swimming instruction will be given to base dependents from 10 a.m. to 12 noon each day during the three-week period.

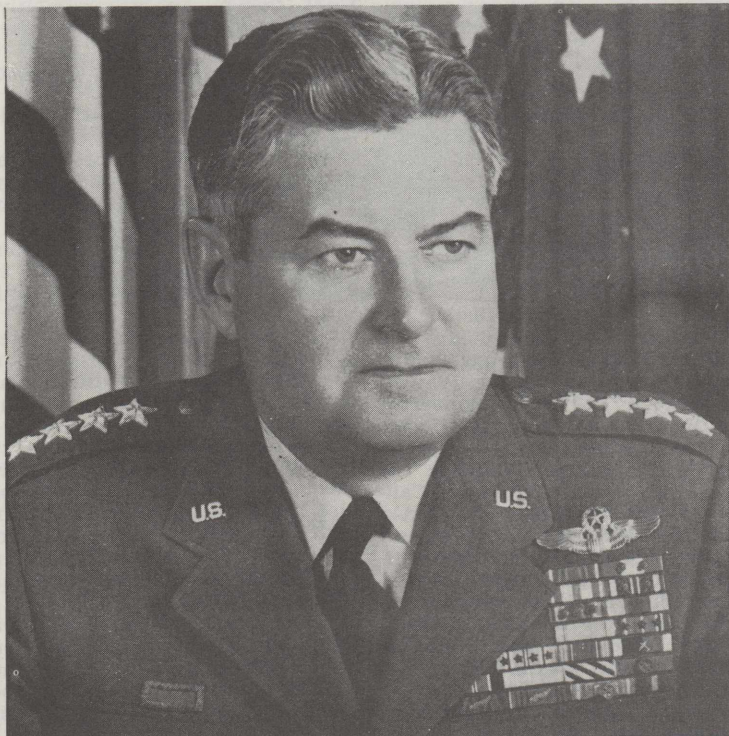

News Review Features Reese

Air Force News Review No. 67, scheduled for showing at the July Commander's Calls at Reese will give viewers a first-hand account of the Daedalian Maintenance Trophy presentation by Gen. White to the 3500th Maintenance and Supply Group during the annual meeting of the Order of Daedalians at San Antonio.

The film also shows scenes at ATC's Randolph AFB, Tex., where the NCOIC of the Altitude Chamber in the Physiological Training Branch reenlists — at 40,000 feet.

Also covered in the film is new flight records set by the X-15 and B-58; Daedalian Flying Safety Award presentation to Gen. Emmett O'Donnell Jr., commander of PACAF; Dalto Visual Simulator at Castle AFB, Calif.; Airmen dispose of Civil War shells; Elgin AFB, Fla., boasts Conservation Program; and Titan is launched from silo at Vandenberg AFB, Calif.

The July Commander's Call feature film, to be shown in addition to the Air Force News Review, is titled "Alert in the Pacific." The 15-minute film describes the role of PACAF and support of CASF in the Far East.

GEN. LEMAY

Former Commander Of ATC Moves To Vice Chief Of Staff

Gen. Curtis E. LeMay, veteran of 32 years of Armed Forces service and the commander of Strategic Air Command when that command moved to the most powerful unit in the world, on July 1 became Chief of Staff of the United States Air Force.

In ceremonies in Washington he assumed command as successor to Gen. Thomas D. White, who retired. At the same time, Gen. Frederic H. Smith Jr., former commander of Air Training Command, became vice Chief of Staff, succeeding Gen. LeMay. Gen. Smith has been commander of the United States Air Forces in Europe.

Born at Columbus, Ohio, on Nov. 15, 1906, Curtis Emerson LeMay entered the armed services as a flying cadet in 1928. He was commissioned a regular army second lieutenant upon completion of training at Kelly Field, Tex.

A well known exponent of air power to the American public as commander of the Strategic Air Command, Gen. LeMay is credited in professional military circles with development of formation procedures and bombing techniques used by bomber formations in the European Theater during WW II.

He also operated in the Pacific Theater during WW II as Commander of the 20th Bomber Command with his headquarters on Guam.

The general's first post-war assignment was to Headquarters, Air Materiel Command. Late in 1945 he was transferred to the Pentagon at Washington, D. C., to be the first deputy chief of air staff for research and development.

In Oct. 1947 Gen. LeMay was selected to command the U. S. Air Forces in Europe with Headquarters at Wiesbaden, Germany. He organized air operations for the famous "Berlin Airlift." A year later he returned to the United States, assumed command of the newly formed Strategic Air Command, and established its headquarters at Offutt Air Force Base, Neb. This central location was to become the nerve center of a world-wide bomber-missile force.

Commanding SAC for nearly ten years he built, from the remnants of World War II, an all jet bomber force. Under his leadership and supervision plans were laid for the development and integration of an intercontinental ballistic missile (ICBM) capability.

In July of 1957 the general was appointed vice chief of staff of the United States Air Force and is serving in this capacity at the present time. Gen. and Mrs. LeMay and their daughter, Patricia

College, ROTC Leaders Visit Training Unit

Five college and AFOTC officials of Texas, New Mexico and Air University visited the ROTC Summer Training unit at Reese this week.

Spending July 4 and 5 on the base was Col. Gordon D. Timmons, assistant commandant of the Air Force ROTC. He is stationed at Air University and spent two days on the base.

Arriving Wednesday for a three-day visit were visitors from the Southwest Texas State College at San Marcos and the University of New Mexico. Students of the schools are in summer training. The guests learned the mission at Reese first hand and toured base and training area facilities.

Visitors were Dr. Howard V. Mathany, dean of men at the University of New Mexico; Maj. L. R. Waterman, director of administration, Department of Air Science, University of New Mexico; Dr. Martin O. Juel, dean of men, Southwest Texas State College; and Maj. Edgar C. Smith, professor of air science, Southwest Texas.

Commissary Ribbon Cut By Col. Babb

The ribbon was cut at the renovated commissary last Friday morning by Col. Harold T. Babb.

Besides increasing floor and shelf space by 100 per cent, CWO Weldon L. Faulkner, commissary officer, announced, the meat market has been enlarged and improved, additional freezers and chill display cases have been installed, the entrance has been changed to the side with automatic doors, and the warehouse has been insulated.

ATC's Medical Role Told

(Ed. Note: In part one of this two-part feature the U. S. Air Force man-in-space program was outlined. Part two explains the role of Air Training Command's Aerospace Medical Center in the program.)

Aerospace medical technologies have already been developed to a point where man will not be a limiting factor in the space program.

Much of the knowledge required for successful space travel is at hand, having evolved through aviation and space medicine research conducted at Air Training Command's Aerospace Medical Center, Brooks AFB, Texas.

The Center's man-in-space effort began 11 years ago and, in cooperation with its military and civilian counterparts, many major problem areas have been solved. In general, the man-in-space program, when confined strictly to space, is in good shape.

When considering the next logical step in space — that of landing a space craft on our nearest celestial neighbor, the Moon — the situation is not so good.

Because of its location only 240,000 miles from earth, the Moon would be an ideal space station for refueling and reenergizing space vehicles on interplanetary missions — provided it can be manned.

The Moon has virtually no atmosphere (about a trillionth of that surrounding the earth), temperature extremes ranging from about plus 240 degrees Fahrenheit during its one-half of an earth month of daylight to minus 240 degrees Fahrenheit during its one-half of an earth month of darkness. It is exposed to all the electromagnetic radiation and rubble of space, meteoritic and otherwise.

Many leading scientists predict that man will never travel at speeds of more than possibly a quarter of the speed of light because of severe radiation produced by the space vehicle proceeding

(See ROLE, Page 2)

Secretary Seeks To Protect Pay Of Officer Made Non-Rated

Secretary of Defense Robert S. McNamara discussed a number of subjects of Air Force interest, ranging from Accrual Pay to the B-70 and Dyna-Soar in a press conference.

On Accrual Pay, the Defense Secretary said he was "strongly in favor of it."

"It is a complicated question because there are two factors involved. First are the costs of continuing to provide them (rated officers) with flying opportunities beyond the time when their military service requires that, and second, is the question of how to compensate them when they are removed from flying status."

McNamara continued on the subject of Accrual Pay, "We are strongly in favor of reducing our operating costs by eliminating flying opportunities for those in certain categories who no longer require that flying as a part of their military service."

"We think that we save . . . something of the order of \$25 million next year by that action."

"At the same time, I feel very strongly that we must work out equitable forms of compensation for those personnel . . . It is to develop that equitable compensation that we have proposed and I hope Congress will pass the Accrual Pay Bill," the Defense Secretary said.

Answering a question on what he would do with any extra money voted by Congress for manned aircraft, McNamara said, "It would be my intention to recommend that we would not spend the funds either for the B-70 or for pro-

curement of the B-52 or B-58."

He qualified this statement on manned aircraft by saying his intention would be "subject to later discussions with others in the Administration and to possible additional facts that may be brought out in subsequent debates in Congress."

McNamara noted that the Kennedy Administration had increased funds for the Dyna-Soar by 40 per cent "because the project appeared to have considerable merit." But in commenting on additional money Congress has added he said that he doubted "that we can expend that effectively and efficiently, but I would certainly wish to re-examine the problem."

"On the mobile Minuteman, I think it would be absolutely wrong at this time to undertake any production program on that. That item is still under development. It is competing with the fixed Minuteman for development personnel, very limited personnel in terms of numbers."

ATC Talent Show Set For Reese

"Command Performance - 1961" the Air Training Command talent show will appear at the base theater at 7 p.m. today in one of 33 performances scheduled on its tour. All Reese military personnel and their families are invited to attend the free 90-minute show.

The production for the past four years has brought to all ATC bases and selected other stations a variety show offered by airmen who are picked in base level, district and command competition.

The show includes individual and group presentation of vocal and instrumental numbers, variety acts and comedy. "Command Performance," presented as entertainment, is intended to show airman talent available in ATC. This year it will be on the road 45 days and will also appear at the Air Force Academy.

From The COMMANDER'S DESK

By Col. L. C. Hess, Base Commander

It is interesting to note that during General Douglas MacArthur's return to the Philippines over the past week-end, he chose to wear the uniform and cap which had become his so called "trademark" during World War II. The uniform not only identified him as a five-star General of the Armies, but also served as a symbol of hope and a better way of life for the millions of people in the Philippines and the rest of the world.

The Air Force uniform also serves as a symbol — the symbol of deterrence against the communist threat. All Air Force personnel should insure that their uniforms are neat, correct in design and specification, and in good condition, so that their appearance will reflect credit upon themselves and the Air Force at all times.

Be proud of the way you wear the uniform that so readily identifies us with our local and world mission!

We're At War!

It is odd to hear an American citizen introduce the phrase "If we ever go to war with the Communists" into his conversation. America and the entire "free world" are in a war of the Communist's making.

True, we are involved in a "cold" war right now, a battle for the minds of men; but "hot", "luke-warm" or "cold," it is still war.

America heads a group of nations with the "freedom idea." We, and they, believe in the existence of God, a moral law, the worth of the individual, the rights and freedoms of all men, in all nations, in all periods of history.

Communism is a system that we view as intrinsically wrong. God is denied. Man exists for the state and has no individual worth. An action is deemed "right" if it aids the cause of Communism; it is "wrong" if it opposes it. All rights and freedoms come from the state and may be withheld or withdrawn at any time.

The world is watching two major ways of life in grim competition — the way of freedom and the way of dictatorship. Each side is competing for the minds of all men on earth. The weapons are newspapers, books, magazines, pamphlets, radio, TV, motion pictures, advertising, education and all other means of communication. The battle rages twenty-four hours a day. There will be one final victor.

"The freedom idea will triumph" we tell the world. "We will bury you!" shouts back the leader of the Communist bloc.

No American — no man on earth, for that matter — can say, "This is not my battle." All mankind is involved.

Pettiness Unmilitary

One of the things service people like to admire in themselves is the absence of lamentable characteristics that many people in civilian life seem to develop in their struggle to get ahead. You hear talk of the "rat race" where people will stab you in the back; where by innuendo and disparagement and petty maneuvers they'll seek to advance themselves at the expense of others.

Human nature being the fallible thing it is, probably a lot of this is true enough. But the world of the military is also a very human world, populated not by saints but by people with human failings. If you doubt it, keep an open pair of ears at the next coffee break or lunch with the gang and see how much of the talk that goes on is about people who aren't present to hear it.

Or test yourself — do you rise to the bait when someone makes slurring reference to the man who's just been promoted or commended for a job well done? Do you take more relish in talking about his failings than his good points? Do you conjecture about his personal habits?

All very human to do this — granted. But observe that there are always one or two people who stay outside this discussion of personalities or absent themselves when it gets under way. If they can't talk about a man to his credit they'd rather not talk at all.

Military life, to be full and satisfying, demands genuine fraternal feeling. It throws men together — often in remote surroundings — to an extent that civilian life seldom does. Harmonious personal relationships, mutual respect and trust, make such enforced proximity to one another not only tolerable but highly agreeable.

"If we are to continue to meet the challenges of the future with the courage and foresight which constitute the hallmark of our past, our need will grow progressively greater for men with brains, imagination, initiative, force, and above all a solid foundation of moral courage, men who are dedicated and highly motivated in the service of their country."

—Gen. Thomas D. White, USAF Ret.

Air Force scientists are investigating the use of gasoline as a bearing lubricant because conventional oil and grease cannot withstand temperatures above 800 degrees Fahrenheit.

A ticket for the old 19th century 300-mile stagecoach journey between Deadwood, S.D., and Cheyenne, Wyo., cost \$45 and took more than 47 hours. Today Western Airlines covers approximately the same route in less than two hours for half the price.

Russian space scientists have used dogs in space experiments because dogs are less excitable than apes. U. S. space scientists prefer to use monkeys and chimpanzees because their bodies and organs more nearly resemble man's.

General Lauds Production

Praise to all people of the Air Force for their fine work during his time in command was given by Gen. Thomas D. White on his retirement as chief of staff on July 1.

"On my retirement as chief of staff, I wish to express my gratitude to the officers, airmen and civilian employees whose devoted service has contributed to the development of the United States Air Force" said the general in his farewell message to the troops.

"Four years of duty as your chief of staff, and my military career as well, end at a time when the security of this nation is threatened as never before. I regret that I shall no longer have the privilege that is still yours of working actively toward the lessening of this threat.

"In leaving, however, I look back with pride upon the many important achievements you of the Air Force have made in the past four years, confident that you will carry forward with spirit and determination the unfinished task of building adequate aerospace power for the security of our nation."

Parson-to-Person Nation's Motto Reminder For Right Living

By Chaplain James D. Taylor

Did you know that the official motto of the United States is "In God We Trust"? Also it appears by specific government order on U. S. currency.

Few are aware that by unanimous vote Congress showed that recognition of God as the author of our liberty is vital to our survival. As a free nation it should be kept constantly before all the people of the country in this manner. You can render a valuable service by bringing facts such as these to as many people as you can.

Do you follow our motto? If not, why not practice it by attending a service of your choice each Lord's Day?

New Chief . . .

(Continued From Page 1)

Jane, reside in the District of Columbia.

Gen. LeMay was graduated from Ohio State University with a bachelor of civil engineering degree. He holds honorary doctor of laws degrees from John Carroll University, Kenyon College, the University of Southern California and the University of Akron; honorary doctor of science degrees from Tufts and the University of Virginia, and an honorary doctor of engineering degree from Case Institute of Technology. His fraternal organizations include Sigma Tau, Tau Beta Pi and Theta Tau.

Gen. LeMay's distinguished service has won him many awards and decorations from his government as well as foreign governments.

The United States has awarded him the Distinguished Service Cross, the Distinguished Service Medal with 2 Oak Leaf Clusters (an Oak Leaf Cluster or Star indicates repeated awards), the Silver Star, the Distinguished Flying Cross with 2 Oak Leaf Clusters, the Air Medal with 3 Oak Leaf Clusters, the Distinguished Unit Citation with 1 Oak Leaf Cluster, the American Defense Service Medal, the American Campaign Medal, the European-African-Middle Eastern Campaign Medal with 3 service stars, the Asiatic-Pacific Campaign with 4 service stars, the World War II Victory Medal, the Army of Occupation Medal with the Berlin Airlift emblem, the Medal for Humane Action, and the National Defense Service Medal. His foreign decorations include the British Distinguished Flying Cross, the French Legion of Honor — Degree of Commander and the Croix de Guerre with Palm, the Brazilian Order of the Southern Cross and the Order of Aeronautical Merit, the Russian Order of Patriotic War — 1st Degree, the Belgian Croix de Guerre with Palm, the Moroccan Ouisan Alaouite, the Chilean Order of Merit, and the Argentinean Order of Aeronautical Merit — Grade of Grand Official.

General LeMay is an active, jet-qualified combat pilot. He also holds the aeronautical ratings of aircraft observer, combat observer and technical observer.

Mess Supervisors To Attend Seminar

Open mess supervisors from all major commands will attend a special conference and seminar Nov. 23 - Dec. 1 at Cornell University in Ithaca, N. Y. Purpose of the five day affair is "to improve qualifications of personnel with a command responsibility for supervising a number of open messes."

The Executive Trainee

Opening for Air Force officer leaving service within 6 months. Position in sales leading to sales management. Starting salary \$450-\$600 depending upon background. Retirement and group benefits. No travel or relocation.

Role . . .

(Continued from Page 1)

at high velocity through the sparsely scattered atoms of space. But, for the sake of argument, suppose that man could travel at speeds approximating the speed of light.

Excluding acceleration and deceleration time, it would take one and one-third seconds to reach the Moon. It is eight light minutes to the Sun so it would take eight minutes to get there. From the Sun to Pluto, the outermost planet of our solar system, it is five and one-half light hours, but the nearest Sun outside our solar system which might support a planetary system — Proxima Centauri — is four and one-quarter light years away.

These distances outside our solar system appear prohibitive to manned space travel when considering:

the speed of light as an absolute limitation.

the distance man can travel in an acceptable period of time, and logistics — the problem of lift and supply in the hostile environments and situations connected with space flight.

The logistics problem is considered to be of a magnitude to dwarf all other space flight limitations.

The Aerospace Medical Center is involved in many aspects of the man-in-space venture. The Center, or its predecessor — the School of Aviation Medicine — has made great contributions to the nation's space flight effort through research. The Center also has participated in the astronaut selection for Project Mercury and is responsible for a portion of the selection for the Dyna-Soar Program.

When man finally arrives on the Moon a considerable portion of the knowledge which made the flight possible will undoubtedly be labeled "USAF Aerospace Medical Center (ATC)."

Question 7 Planned For Reese Showing

A new motion picture, "Question 7", is scheduled for a base showing on July 11.

This picture dramatically depicts present-day pressures against a pastor and his son in East Germany. Time Magazine said in its review, "The story compresses the essential facts about the most massive, subtle and effective persecution in Christian history."

It will be shown at the base theater Tuesday at 7 p.m.

Retiring Chief Given Cluster To His DFM

Gen. Thomas D. White was awarded last week the first oak leaf cluster to his Distinguished Service Medal.

At a White House ceremony, President Kennedy lauded the Air Force Chief of Staff who retired June 30 "as airman, strategist and military statesman."

"Gen. White has contributed immeasurably to the senior military councils of the Free World. This selfless dedication, integrity, outstanding foresight and objectivity demonstrated by General White during this period (July 1, 1957 - June 30, 1961 as chief of staff), which have characterized his career of 41 years in the service of his country, reflect the highest credit upon himself and the United States Air Force," said the President.

In nearby metropolitan Washington at Andrews AFB, Md., the formal leave-taking was under intense preparation.

There, Gen. White held his last review. At his request three master sergeants who also were retiring stood beside him on the reviewing stand.

Such dignitaries as Secretary of Defense Robert S. McNamara, Secretary of the Air Force Eugene Zuckert, and the incoming chief of staff, Gen. Curtis E. LeMay shared the reviewing stand.

Overhead, jet fighters, bombers, transport and cargo aircraft, flew by, as all the elements of the Air Force paid their last active duty salute to the retiring air leader.

The general public attended the ceremonies.

About 1,000 airmen and officers from Bolling and Andrews Air Force Bases, along with the USAF Band and the USAF Drum and Bugle Corps took part in the retirement ceremony.

Gen. White is the fourth Chief of Staff of the Air Force since that service separated from the Army in 1947. He held this position since July 1957.

SYSTEM BOUGHT

A mobile and private radio telephone system that has air to air, air to ground and ground to ground capabilities has been purchased from the Martin Company. Six units of the new system — RACEP — were bought.

Credit Union Sets Annual Dividend

A five per cent annual dividend has been declared for the first half of 1961 by the Reese Credit Union and is being recorded on records, Jack House, Union president, has announced. The board of directors authorized dividends semi-annually last January.

The Credit Union had a net profit of \$14,052 during the January-June period. Almost 38 per cent of this amount has been placed in reserve and undivided profit accounts to strengthen the financial standing of the Union, said House. The remainder of the profit is being distributed to individual member accounts as dividends.

"The Reese Credit Union has made a steady growth the past six months, and its members own a \$417,000 business," House commented. "We are always looking for new members among Reese personnel and are happy when members increase their savings accounts."

He said \$35,000 is on deposit in the bank and is available to members in loans.

Dividends are being posted to individual share accounts.

COMMAND PERFORMANCE—The feminine interest for ATC's "Command Performance—1961" is provided by vocalists A2C Jill Girard (left) and A2C Anita L. Green. The talent show will play tonight at the base theater at 7 p.m.

Accrual Pay Bill Over First Hurdle

The flight accrual pay bill successfully passed June 23 its first congressional test as the Kilday sub-committee "reported" favorably on the legislation to its House Armed Services Committee.

The Department of Defense legislation (H.R. 7651) would help active duty commissioned personnel with 10 or more years of rated service to receive substantial, sliding scale percentages of their flight pay (from 50 to 100 per cent) if they are removed from unrestricted flying status in the interests of national defense.

As the "house" group took its action, Secretary of Defense Robert McNamara stressed to reporters the same day at a Pentagon press conference that he strongly urges adoption of this bill to bolster morale and the national arsenal.

Next congressional steps include action by the full committee of the House Armed Services committee and following a favorable report there referral to the entire House of Representatives for a vote. When and if the House passes the bill, the measure goes to the Senate where a similar process starts.

Testifying before the Kilday group, Gen. Thomas D. White, Air Force chief of staff, said the rated skills already have been surveyed in February.

The course of the hearings brought out that the exact number of rated officers scheduled for accrual status totaled 7,460 and that, as General White put it, "a list of those officers who would

be affected under flight pay accrual was compiled."

Gen. White's testimony, representing possibly the last time he would sit before Congress as Chief of Staff, followed that made by Assistant Secretary of Defense for Manpower Carlisle P. Runge. Other leading Air leaders — Gen. Curtis E. LeMay, Vice Adm. Robert P. Pirie, Gen. Thomas S. Power and Gen. Bernard A. Schriever — either gave first hand testimony or inserted written statements into the session.

Gen. White prefaced his remarks by saying "the overage of rated skills within the Air Force has been of great concern to the Air Force and to me personally for sometime."

Flight Pay Status under the proposal can be regarded as having two broad categories — unrestricted and accrual. Personnel in both categories must remain physically qualified for flying.

There were 52 grand slam homers hit in the major leagues in 1960, 27 in the American League.

Recruiters Seeking High School Grads

High school graduates have been singled out by Air Force recruiters as their primary targets. Recruiters were told to defer applicants who are not high school graduates and who score within Category IV on the AFQT. "The Air Force's stay-in-school-and-graduate policy will be explained to all applicants," Hq. USAF directed.

MATHIS SERVICE CLUB

A near-capacity crowd descended on the Mathis Service Club Monday evening for a semi-formal dance honoring the ROTC cadets at Reese. More than 100 young ladies from Lubbock, Texas Tech and the Methodist Hospital Nurse's Dormitory attended.

Music for the occasion was supplied by the Four Teens of Texas Tech.

The following day, to celebrate July 4th, a holiday barbeque of hamburgers and hotdogs with all the trimmings was held for airmen and ROTC cadets. This proved to be one of the most successful barbeques ever put on by the club; over 300 attended.

Youth Activities

Go Kart driving will be the activity participated in by Reese's Teen Club this evening. All members planning to go should meet at the Teen Club by 7:15 p.m. The cost will be \$1 per person and transportation will be provided. Chaperones for the event will be MSgt. and Mrs. G. Tackett.

ORIENTATION—The latest orientation tour for wives of 3500th PTS members was for Flight 9. On the list of places to visit was the base synthetic trainer section where 1st Lt. Lynn R. Officer, who conducted the tour, demonstrated one of the T-33 links. Looking on are, left to right, Mmes. Gale L. Hearn, William R. Robertson, and Paul D. McComb.

Your Aid Society It's A . . .

The annual Air Force Aid Society fund drive at Reese is scheduled to begin August 1, with a goal of 100 per cent participation. The project officer for the drive will be First Lt. Laurence H. Potts Jr.

The Air Force Aid Society was born in 1946 to give emergency relief to Air Force personnel. The funds of the Society are carried in a general fund for emergency relief and the Gen. Henry H. Arnold Education Fund for worthy Air Force dependents to further their higher education. Aid is given in the form of non-interest bearing loans or outright grants according to the ability of the person to repay.

During 1960 the Reese Air Force Aid Society loaned \$1,820.00 to 22 individuals and granted \$215 to one person.

Aid is given in cases where: The applicant, because of non-receipt of pay, allotment, or allowances is without sufficient funds for food, rent, and other necessities.

The applicant, because of other financial difficulties is without funds for food, etc.

The applicant is temporarily without funds for initial rent or will be evicted for non-payment of rent.

Limited assistance for funeral expenses of a dependent is needed because the deceased was not insured.

Dependents because of ill health or other urgent circumstances, must leave the vicinity of an Air Force installation and return to their permanent home.

Government medical care does not cover the total medical costs and the applicant does not have funds to meet the emergency.

Emergency or convalescent leave has been approved and the individual is without sufficient funds for travel.

The Air Force Aid Society exists for the benefit of all military people. Before the Society can help, it must be aware of your needs. All cases are held in strict confidence.

If a baseball team forfeits a game, the final score is 9-0 against the forfeiting team.

Do You Know?

TSgt. and Mrs. Harry Whitson and family were the house guests of Sgt. and Mrs. Harry Murray over the week end.

TSgt. and Mrs. F. G. Tension and son are on leave visiting various parts of Texas.

A1C and Mrs. Richard Turbeville and family are enjoying a visit with relatives in San Angelo.

TSgt. H. I. McDonald and family have returned from a visit in California with Mrs. McDonald's sister.

Mrs. Bruce Snider is visiting her parents in Nebraska.

SSgt. and Mrs. John Waters entertained numerous friends with a lawn party last Tuesday at their home in Shallowater.

Old friends got together this weekend at TSgt. and Mrs. E. Van Wart's when A1C and Mrs. Cecil Napier returned from Toul Rossieres, France. The Napiers will be stationed at Dyess Air Base.

The Ladies Sodality enjoyed a breakfast at the NCO Club last Sunday morning after 9 a.m. mass.

Mrs. C. Wilshire and daughter are on vacation in Austin, Tex., where they are visiting Mrs. Wil-

shire's mother, Mrs. L. D. Lange.

TSgt. Sawyer and family are leaving for a family reunion in Watertown, N. Y., prior to new duty in Italy.

SSgt. and Mrs. John Chandler and family have left Reese for retirement on a farm near Cave City, Ark.

SSgt. and Mrs. Dino Corsi entertained TSgt. and Mrs. Roy Van Wart and family with a lawn party on the 4th of July.

The monthly council meeting of the NCO Wives Club was held last evening. The regular business meeting will be held next Tuesday night at the NCO Club. All newcomers are welcome.

TSgt. and Mrs. John Wilson are entertaining guests from Globe, Ariz.

TSgt. and Mrs. Henry Schmitt spent last weekend with friends in Big Spring, Tex.

A1C and Mrs. Gene Blue and family have returned from a visit in Denver and Oklahoma.

TSgt. and Mrs. Dewey Cammack are visiting Mrs. Cammack's family in Topeka, Kan.

SSgt. and Mrs. Don Camble have returned from visiting with Mrs. Cambel's family in Corpus Christi, Tex.

MSgt. and Mrs. Eric Trostman entertained guests with a cook-out the 4th of July.

A surprise pink and blue shower was given for Mrs. Katherine Zetta last Friday night in Shallowater.

SSgt. and Mrs. Donald Richards spent the holiday weekend in Fort Worth, Tex., visiting Mrs. Richard's brother. A3C Roger Osterholm accompanied them.

Service Center Gets New Coordinator

Mrs. Raymond Aulgur has been elected coordinator of the Reese Family Service Center at a meeting of the Family Service Council. She will serve for the July-December period.

Mrs. R. M. Todd was named assistant coordinator for the same period.

Under Family Services procedures, the wife of an airman is coordinator for six months and the wife of an officer is assistant coordinator. The assistant coordinator moves in as coordinator at the end of the period and the wife of an airman becomes her assistant until elevated. Mrs. Aulgur has been assistant the past six months.

Seat Belts Save 45 Airman Lives

It's unthinkable to put to sea without a life belt, and according to a report from the Air Defense Command it should be equally unthinkable to set out for a spin in the family auto without a seat belt.

Following a recent belt installation drive, ADC ground safety officials report that 45 airmen either have avoided serious injury or have saved their lives because of safety belts.

These 45 represent only those who have been in serious accidents. Minor mishaps were not counted, ADC officials said.

COMMANDANT NAMED

A new Commandant of Cadets, Brig. Gen. William T. Seawell, has been named at the Air Force Academy to succeed Maj. Gen. H. R. Sullivan, the Commandant since 1958 who is transferring to Allied Air Forces, Central Europe.

DATES SET

Sept. 11 has been tentatively set as the date that selection boards will convene at USAF Headquarters to consider active duty reserve officers and all Air National Guard officers for permanent promotion to captain. "Fully qualified" will be the method of selection.

SURVIVAL TRAINING—So far, half of the 182 Air Force ROTC Cadets stationed here for summer camp have undergone survival training. The Cadets, after a four-hour lecture on survival techniques, were issued "ditch" equipment and transported to the rough terrain of the U. S. Game Preserve near Muleshoe, Tex. Here, a couple of Cadets are seen on their 7½-mile hike with only a compass heading to guide them to their destination. The rest of the Cadets will make their survival training trip this weekend.

CARTON OF THE WEEK

Selected by AFPS from... CENTRAL DISTRICT COURIER Chicago, Illinois

Sports World

By A3C Dan Ehrlich
Little Max Truex, formerly of the University of Southern California, lowered the three mile record by nine seconds, with a time of 14 minutes three seconds, as his team, the Air Defense Command, walked away with the 1961 USAF Track and Field Championship tourney, June 17-18.

Sheppard Air Force Base was the scene where the boys from ADC racked up 70 points with ATC a sizable distance behind, totaling up 56 points. SAC placed third with 40 points, while MATS was fourth with 31.

Oddly enough, a select field of five men on the ADC squad accounted for every point they scored. These men, however, just happened to be former Olympic distance stars, Max Truex and Ernie Cunliffe, steeple-chaser Bob Schul and hurdlers Jim Ball and Dale O'Connor.

In addition to Truex, Bob Schul smashed his own record in the 3000 meter steeplechase by almost a half of a minute. His time, 9:56.6 min. ATC's Dennis Penninga took second in this event and third in the three mile run.

Veteran thincad Ernie Cunliffe won top honors in the mile, followed right behind by his fellow teammate, "Little Max," adding more points to the growing ADC tally. Jim Ball successfully defended his title in the 220 yard low hurdles, coming home in 23.7 seconds and Dale O'Connor took a first place victory in the 440 yard hurdles.

All members of the ADC squad are from Oxnard AFB, Calif., except Ball who is from Hamilton AFB, Calif.

Air Training Command's Ed Cayle led the way with 4196-107 to win individual competition honors in the recent 1961 All-Air Force Small Bore Rifle Championships at Lackland AFB, Tex.

Cayle, from the USAF Marksmanship School at Lackland, edged out CONAC's Vic Auer who fired 4186-116X.

RANGE INCREASED

New units have been added by the Navy to the ASROC missile system, an integrated system of sonar underwater detection gear, fire control computer, a launcher holding eight missiles and the missiles themselves. The depth charge carrying missile has been given a longer range that allows attacking anti-submarine destroyers to keep a greater distance from the enemy.

Students Leaders

In Second Round

Kicking off the second round of Reese's intramural softball league, the 3500th PTS defeated the PTW Rebels, 5-3, June 26 and then went on to snap an eight-game winning streak of the first place Students, 11-8, Thursday, June 29.

Hitting the home runs for the '00th PTS in their contest against the Students were Capt. Gale Hearn and 2nd Lt. Joseph Cushing, while Capt. Vernie Pointon was the winning pitcher. TSgt. John West took the loss.

Coming back after their loss to the '00th PTS, the PTW Rebels nipped the 3501st PTS, 8-7, June 28. Key hitter for the Rebs in that contest was A2C Allen Robnett who drove in three runs on two base hits. The winning pitcher was A2C David Hauger.

League standings as of Tuesday, July 4 are as follows:

Team	W	L	Pct.	GB
Students	9	1	.900	—
Rebels	8	2	.800	1
Hospital	8	2	.800	1
3500th PTS	6	4	.600	3
M&S	5	5	.500	4
ABG	4	6	.400	5
Civ. Eng.	2	8	.200	7
3501st PTS	2	8	.200	7
AACS	1	9	.100	8

The 3501st Student Squadron finished in first place, with an 8-0 record, at the end of the first round of Reese's Intramural Softball League. The PTW Rebels placed second, one game behind.

Final first round standings were as follows:

Team	W	L	Pct.	GBL
3501st Students	8	0	1.000	—
PTW Rebels	7	1	.875	1
Hospital	6	2	.750	2
3500th PTS	4	4	.500	4
ABG Tigers	4	4	.500	4
M&S	4	4	.500	4
Civ. Eng. Gp.	1	7	.147	7
3501st PTG	1	7	.147	7
AACS	1	7	.147	7

Five Sergeants End Duty Here

More than 100 years of service were represented last Friday when five Reese sergeants, each with slightly over 20 years, retired with a ceremony in the Commander's office.

Ending their military careers were MSgt. Robert Cochran of the M&S Group; TSgt. Harold L. Gregory, hospital; TSgt. John D. Chandler, Air Base Group; TSgt. William E. Riley (not present for the ceremony), M&S and SSgt. Joseph J. Rowan, AB Group. Col. Harold T. Babb presented the retirement certificates.

MSgt. Cochran came to Reese in Sept., 1957, from Randolph AFB, Tex., as a material estimator. His overseas service includes assignments in the Cana. Zone and the Azores. He is married to the former Lucille Hendricks of San Antonio and has a daughter, Linda Fay.

TSgt. Gregory came to Reese as a medical administration supervisor from the hospital at Keesler AFB, Miss., in Aug., 1959. He has had overseas assignments in France and in the Pacific Theater. He is married to the former Carlyne G. Jetter of Shreveport, La., and has two sons.

TSgt. Chandler came here from the 3500th Air Police Sq. at Itazuke AFB, Japan, in Aug., 1958. Sergeant Chandler is married to the former Opal Shaw of Oklahoma City, Okla.

TSgt. Riley had two overseas assignments in the Pacific. He came to Reese in July, 1958, from Clark AFB, Luzon, Philippines. He is married to the former Julia Johns of El Paso, Tex., and has one daughter and two sons.

SSgt. Rowan came here from duty at the King Salmon Airport, Alaska, in April, 1960. At Reese he has been the food service monitor.

SWIMMERS SOUGHT

All swimmers and divers who are qualified for top-flight competition should immediately contact the Sports Section of Hq. USAF (AFPMP-12-A-1) to see if they are eligible to represent the United States in international competition.

RETIRING—Receiving their retirement certificates from Col. Harold T. Babb last Friday are, left to right, TSgt. John D. Chandler, TSgt. Harold L. Gregory, MSgt. Robert Cochran and SSgt. Joseph J. Rowan. Each has retired after serving in the armed services for more than 20 years.

Air Force Offers Airmen Opportunity For College Degree, Officer Status

The USAF financed college degree, Officer Training School, a commissioned tour and a good shot at regular officer status lies within the sights of any airman.

The "Airman Education and Commissioning Program" covered by AFR 53-20 tells the story. The ready and easy availability of college education programs for the airman is a decided advantage.

Airmen with 30 semester hours or 45 quarter hours on record must meet these qualifications: U. S. Citizenship, minimum age of 18, maximum age that would allow completion of all requirements as an officer before the 30th birthday, good moral character and sound physical condition.

Persons with these qualifications are being urged to talk with the base education officer or to write directly to the Commandant, Institute of Technology, Wright-Patterson AFB, Ohio.

Once chosen as 253 have been so far, promotion is to staff sergeant and pay at that grade, or higher pay if already in higher grade. Accepted applicants go to school at Air Force expense. Then follows 12 weeks in Officer Training School and on graduation a commission.

FIRING AUTHORIZED

USAF has authorized the firing of MB-1 rockets at Ryndall AFB, Fla., to enhance the quality of student training in ATC's Radar Intercept Officer Course. Air Defense Command will provide crews, aircraft and servicing.

The decrepit car rattled up to the toll bridge. "Fifty cents," said the guard. "Sold!" said the driver.

WANT ADS

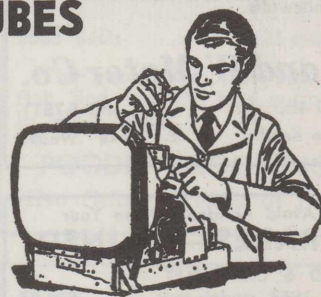

(RATES: 5 cents per word. Minimum of \$1. Name, address and phone number count as 5 words. Mailed ads should be posted Monday for following Friday issue. Phone deadline: Wednesday noon. The Roundup, 2832 66th, Lubbock. Phone SW 9-8806. TERMS: Cash with order or immediately following insertion).
