Lubbock, Texas, Friday, January 14, 1966

NUMBER 2

Maintenance Phase System Evaluated Here

Periodic maintenance personnel at Reese this week are working on a new system of inspection for training aircraft which will serve as a basis for possible changes at undergraduate pilot training bases throughout Air Training Command.

'Big' Bonuses Bring \$6,460 To Trio Here

Three Reese airmen in critical areas received \$3,981 extra reenlistment bonus last weekend as payment of the variable reenlistment bonus was started here.

The bonus system includes extra payment when men badly needed by the Air Force re-up for four years.

A2C James C. Veirs, assigned to the plans division, was paid the regular reenlistment bonus of \$751.20 and an additional \$2,253.60, or three times his normal bonus because he is in a highly critical field.

A1C Richard J. Linnert and A1C John E. Simpson, assigned to the Field Maintenance Squadron, were paid 864 normal bonus each and then an additional \$864 variable bonus.

The oaths of office were administered by Lt. Col. W. R. Atterbury, chief, personnel division.

Airmen Enrolling For College, OTS Commission Study

Two Reese airmen, A1C Wendell M. Calhoun and A1C Timothy L. Clark, late this month will enroll in college to complete requirements for a degree and then will be moved to Officer Training School to be commissioned in the Airman Education Commissioning program.

In the program all airmen accepted for commissioning are promoted to the grade of staff sergeant while in school and receive pay in that grade. Each will secure such college credit as he lacks and will be graduated with a bachelor degree.

Airman Calhoun is assigned to the manpower engineering detachment and will complete college work at the University of Oklahoma, enrolling in the semester starting late this month.

Airman Clark has been assigned to the Field Maintenance Squadron as airborne radio repairman. He will enroll in courses at Indiana University, also in the spring semester.

Both Reese airmen are re-assigned in the Air Force Institute of Technology program. Other Reese airmen have applied for admission into the program and are expecting re-assignment to a college of university for the fall semester.

Official Vietnam Greeting Card Sent Former Reese NCO

A Christmas card given by the Vietnam government to all U.S. military stationed at Camrahan Bay is circulating through the Reese refueling division this week.

The card was received by TSgt. Howard Lamont, assigned to refueling here two and a half years prior to going to Vietnam, and was sent to his wife, still living in Reese Village.

"To you who fight by our side, the People of Vietnam send greetings. May Victory be ours that we may live in Peace, Freedom, and Prosperity," said the card in English and Vietnamese.

On the front was "Greetings to our allies" and a Christmas wreath.

ATC has directed that Reese be ready to start by Feb. 1 the phase inspection system which will change periodic inspection. Under the present program T-37 and T-38 aircraft are given periodic inspection every 200 hours of flying. Under the new program, phase inspection will take place every 50 hours of flying time, still giving complete inspection each 200 hours.

The new system would drastically reduce the length of time aircraft are not available for flying, it is thought. Aircraft will be given inspection of certain phases and then returned to flying. Later other phases will be performed, and again the plane released. Four phases will be performed and planes will return to flight more quickly, but will be brought back for phase inspections more frequently.

Preliminary discussions were held between Reese and ATC maintenance men at ATC shortly before Christmas. An ATC team will visit the base Wednesday for evaluation of the Reese phase program that has been set up. Then by Feb. 1 the new program will go into effect.

Details of the phase work are being worked out by MSgt. J. R. Wadkins. After operation for a few months here, the new system may be started at other bases.

Four On-The-Base Classes Planned

Military personnel will have the opportunity of enrolling in four on-the-base high school classes this spring semester. Classes will be offered in English grammar, English composition, beginning algebra and slide rule.

The grammar class will include study of the eight parts of speech, including nouns, verbs, organization and punctuation.

English composition will include study of the theme subject and plan, paragraphs, words, their function, variety, clarity, overtones and liveliness, dictionary study, words and grammar review.

The beginning algebra will include general numbers and formulas, simple equations, positive and negative members, graphs and systems of equations.

The slide rule course teaches rapid calculations. The course provides the learning of the scales, multiplication and division, squaring and square roots, cube and cube roots, sine and log scales.

Enrollment in each subject must be 15 or more before it can be given. Classes will meet once per week from 6:30 - 9:30 p.m. beginning the week of Feb. 7. Each of the courses is planned to make college work easier and to assist the non high school graduates in passing the high school GED test.

There are no charges for the course but each student will be expected to furnish his own writing materials. Early enrollment in the Education Office is urged.

Six Lieutenants Win Promotions

Six Reese second lieutenants move up to first lieutenant this month after 18 months of active service.

Becoming a first lieutenant Jan. 1 was Alan J. Davis, construction engineering. Joining him in the higher rank last Thursday was Ray A. Mamiya, 3500th Pilot Training Squadron instructor pilot.

Promotions to silver bars become effective for John M. Swift, 3501st PTS instructor pilot Monday and Steven F. Nehling and James P. Qualey Jr., Tuesday.

Moving up a rank Jan. 31 is Francis E. Doherty, paying and collection officer for the wing comptroller.

GENERATORS MOVING
WRIGHT - PATTERSON AFB (AFNS) — The delivery schedule for 452 ground power generator sets needed to support Air Force combat operations in Southeast Asia has been accelerated through a compression of procurement procedures and by use of a unique multiple contract arrangement.

MONEY MEN REAP BENEFITS — These three Reese airmen who reenlisted last week are the first at Reese to receive the new variable reenlistment bonus. Pictured, left to right, are

A1C John E. Simpson, A1C Richard J. Linnert, and A2C James C. Veirs. Administering the oath is Lt. Col. W. R. Atterbury, chief, personnel division.

Moody Commander To Speak At Graduation Of Class 66-E

Col. Nathan J. Adams, wing commander of Moody Air Force Base, Ga., will be speaker at graduation of Class 66-E from undergraduate pilot training at Reese Feb. 5.

Colonel Adams, a command pilot with more than 4,000 flying hours, has served in varied assignments, including command and staff positions and as professor of air science at the University of Tennessee.

He has a degree in textile engineering from Auburn University and has been on active military duty since 1941. He obtained pilot wings in 1942.

During World War II Colonel Adams was a P-47 pilot and flight leader, flying 63 combat missions and 176 combat hours in Europe in support of Allied advances against the German forces.

He was commander of a fighter group and later director of operations for the 314th Air Division in Korea. He served in the Strategic Air Command as deputy commander of fighter and reconnaissance wings. For two years prior to coming to Air Training Command in 1963 he was chief of the military personnel division for SAC and for two years director of the plans and policy division of the U.S. Regional Organization Defense in Paris.

Randolph Adds PIT Squadron To Units

RANDOLPH AFB (ATCPS) — Randolph AFB is conducting all major phases of Pilot Instructor Training for the Air Training Command.

This developed with the transfer of the 3514th Flying Training Squadron from James Connally AFB, Tex., when that base was placed under the operational jurisdiction of Tactical Air Command.

COLONEL ADAMS

Pattie Costello Rolls 234 Game

Pattie Costello of Reese rolled a 234, getting six consecutive strikes, in highlighting the bowling meeting between Reese and Webb junior bowlers Saturday on the Webb lanes. Pattie won the high game and high series trophy.

The Reese team, however, trailed the Webb juniors in competition, losing three close games.

A dance followed the competition.

T-39 Trainer Crew Orients Students Here

Reese undergraduate pilot training students Wednesday had a close look at a T-39 Sabreliner as the Strategic Air Command sent in the high performance jet for an orientation visit.

Col. Douglas L. McDonald was the commander of the Sabreliner, with Maj. John D. Beeson and a crew of aides. The T-39 was

Promotions Won By 136 Airmen In Newest Cycle

One hundred thirty six Reese airmen will be promoted Feb. 1 under quotas given the base in the Air Force program.

Of these, 12 will move to staff sergeant, 33 to airman first class and 91 to airman second class. Boards were meeting this week to work on selections, but names will not be announced until later in the month.

The Air Force is promoting 51,106 airmen to grades E-3 through E-5 in the second fiscal year 1966 promotion cycle.

The February promotion quotas issued by the Air Force authorizes 5,688 promotions to staff sergeant, 18,470 to airman first class and 26,948 to airman second class.

Board Recommends Larger Cadet Corps

WASHINGTON (AFNS) — The Air Force Academy Board of Visitors has called for a significant increase in cadet strength in the next few years.

In a report presented to President Lyndon B. Johnson, the board recommended expenditure of necessary funds to allow the Academy to expand to its full authorized strength of 4,417 cadets during fiscal year 1971.

brought from Offutt AFB, SAC headquarters, and was on static display near base operations throughout the day. Two meetings of students were held in the base theater, with the SAC officers discussing life in the command and aircraft to which the students might be assigned after graduation. The T-39 is a twin-jet aircraft with capabilities as a passenger or

cargo carrier or trainer. It features 200-degree swept wings, aluminum alloy construction, tricycle landing gear, nose gear power steering, speed brakes and aerodynamically operated wing slats.

Some models are fitted with all-weather search and range radar and dippler navigation systems for training F-105 pilots.

Commander's Comments . . .

By COL. DUDLEY E. FAVER
Wing Commander

It is believed that the time was well spent last week in our Commander's Call discussing the requirements and challenges of our mission for 1966. In addition to that discussion, I would like to add for your careful consideration the following tips received from Air Training Command designed to help us do our job better, safer, and more economically:

1. "Get to work on time and start work on arrival.
2. "Set specific job goals and establish a program of action to reach the goals.
3. "Set a timetable for the actions and keep on schedule.
4. "Avoid long-winded conversations on personal subjects.
5. "Shorten correspondence to say only what is essential.
6. "Do a top-flight job the first time and avoid re-work.
7. "Overtime is expensive — let's keep it at a minimum.
8. "Request and use only those materials that are needed.
9. "Informed personnel are more effective — let's communicate up, down and laterally.
10. "Work safely, take care of your health, and stay on the job."

Cost reduction is a paramount Air Force objective. By adding these 10 tips, I am confident that 1966 will be a year of continued success and greater achievement for this Wing and the people who make up the Reese team.

QUOTE OF NOTE

"Our American dream for outer space is a dream of peace and a dream of friendly cooperation among all the nations of the Earth . . . We intend to live up to our agreement not to orbit weapons of destruction and we will continue to hold out to all nations, including the Soviet Union, the hand of cooperation in the exciting years of space exploration which lie ahead for all of us."—President Johnson.

MacTorchy Sez . . .

"The Cost Reduction Program is no gimmick. Not when the \$41.6 million saved by the ATC in fiscal year 1965 is used to improve and increase the effectiveness of the Air Force."

By Base Housing Committee
(This newsletter has been developed for one primary purpose: To provide hints and news to help you, the Base Village resident. VILLAGE HINTS will be published periodically to keep you better informed of items of interest to you.)

GREEN THUMB DEPARTMENT —HOUSE PLANTS — House plants face difficult conditions during January. The air is excessively dry due to the use of so much artificial heat. Make every effort to counteract this by keeping your plants standing on shallow pans filled with moss, sand or gravel that is kept constantly moist.

Insufficient light, coupled with high temperatures, encourage long leggy, weak growth. On cold nights pull down shades or place sheets of paper between the plants and the windows, or move the plant away from the window for the night. Plants do not need as much fertilizer during the season of short dull days.

Feed flowering kinds by watering once a month with liquid manure diluted to the color of weak tea, or with a commercial fertilizer according to directions. Over feeding is a common mistake. It is likely to result in root burning, especially with the chemical fertilizers. Never exceed the application recommended by the manufacturer.

Avoid over-watering. In most cases the object is to keep the soil evenly moist but not constantly saturated. (Extracted from "Gardening by the Month on the South Plains")

Coming, Going

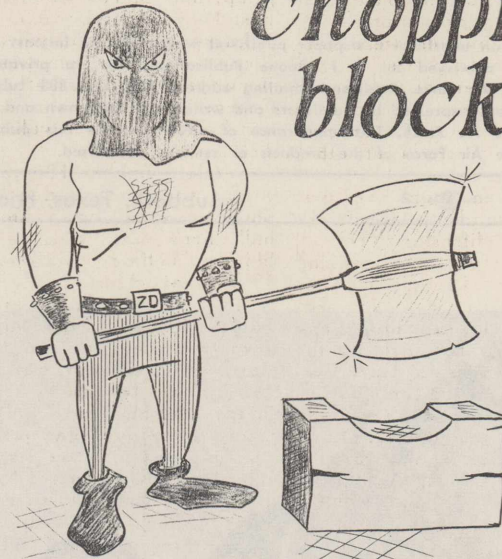

- ARRIVING:**
 Capt. Richard C. Linden, from Germany.
 A3C Corwyn W. Thornton, from Lackland.
 A3C Franklin L. Clark, A3C Fred L. Hill Jr., A3C Danny L. Good and A3C Kenneth P. Boudreau, from Sheppard.
 A2C Robert F. Land Jr., from Keesler.
- DEPARTING:**
 SSgt. Bobby L. Wright, SSgt. Paul J. Flynn, A2C Michael J. Humphrey, A2C William E. Thomas, SSgt. Roy T. Kern and SSgt. Richard W. McBride, to USAF.
 Capt. Lawrence E. Huggins, TSgt. James E. Barber, SSgt. Guy E. Bucher, SSgt. Frank Slaughter, SSgt. Teddy J. Denham, A1C Jerome W. Shiverdecker, A1C William O. Monk, A2C Alcee David Jr., A2C Edward M. Nicks and A3C George W. Roy Jr., to PACAF.

Reese Military Suggestions Win

Four management improvement suggestions submitted by military personnel have been approved by the Incentive Awards Committee. A letter of appreciation went to A1C William F. Selke for suggesting a safety practice which saves time in use of special equipment on wheel fires. A \$10 award went to SSgt. Harold W. Turner Jr., for suggesting a weapons system pouch delivery system which saves \$450 annually here. A2C David L. Stegall received a letter of appreciation for proposing a barracks private vehicle parking area, an improved safety practice. Another letter went to Capt. Frederick H. Kalmes for suggesting re-location of a stop sign to improve safety.

SAFE FLYING RECORDED
CHARLESTON AFB (AFNS)
 — The 76th Air Transport Squadron here is in its 13th year of accident-free flying, logging more than 300,000 hours in the air during that time. It has hauled more than 300,000 passengers and 50,000 tons of cargo.

put defects on the chopping block

Watch 'War Of Liberation'

The global "war of liberation" is the latest tactic in the global Communist effort to world domination. It is our objective in Vietnam to convince the Communists that this form of aggression will profit them nothing; otherwise, they will be encouraged to try it elsewhere, on a larger scale, with greater confidence and support.

As President Johnson points out, we have learned at a brutal cost, in the past, that "success only feeds the appetite of aggression." We have promised to help the South Vietnamese people stand against this aggression, and the world watches to see how we keep our word. We intend that aggression shall NOT succeed in Vietnam.

In the words of the President: "We just cannot now dishonor our word, or abandon our commitment, or leave those who believed us, and who trusted us, to the terror and repression and murder that would follow. This, then is why we are in Vietnam."

QUOTE OF NOTE

"To each generation belongs the task of advancing freedom; of guarding it jealously; of nurturing it; of strengthening its institutions. To each generation belongs the task of defending it in its hour of need." — President Lyndon B. Johnson.

Changes In Construction Program Bring Cost Reduction Program Gain

Alteration of medical supply patients recreation facilities in the base hospital and of the small arms range has brought a \$6,800 savings to Reese in its Cost Reduction Program.

A \$2,600 saving came in the hospital alteration which included recovering the floor, repainting and installing a drop ceiling. However, a re-evaluation of the project brought deletion of the acoustical drop ceiling as not justifying costs in the light of a projected new hospital programmed for fiscal year 1967.

A savings of \$4,200 was effected on the small arms range through re-designing of the \$24,000 project which originally included a rifle range and pistol range with accompanying firing points, baffles and backstops. Through the change, the two ranges were combined to eliminate the second set of firing points, baffles and backstops. Through the change personnel necessary to maintain safety and training were reduced, also.

Tactical air units provide essential support for surface operations.

OJT PROGRAM HERE PRODUCING TRAINED WORKERS

HOSPITAL TRAINING CLASS — Air Force nurses, 1st Lts. Nancy L. Cutler and Betty F. Moody demonstrate the use and function of the Bird respirator to a group of OJT trainees at 3500 USAF Hospital. Pictured are, left to right, A1C Carl E. Miller, Lieutenant Cutler, A3C Larry W. Pinter, Lieutenant Moody, and A3C Justice R. Winfield.

MAINTENANCE OJT AT T-38 SYNTHETIC TRAINER BRANCH— Here, SSgt. Ray Hall, trainer, second from left, shows three of "Link's" OJT trainees the proper way to remove electronic equipment from the trainer for maintenance. Pictured, left to right, are A2C Philip P. Houle, Hall, A2C Steven Bodie, and A2C Ralph Iffert.

The on-the-job training program is being heavily emphasized at Reese as highly trained personnel are departing and lower grade airmen are moving in to fill the vacancies in many instances.

The training program has been stepped up in efforts to maintain the speedy pace necessary for high quality operation which has marked the Reese record in a variety of fields.

On this page several OJT activities are pictured as supervisors and trained workers carry out daily assignments in qualifying lower grade airmen for greater responsibility and production.

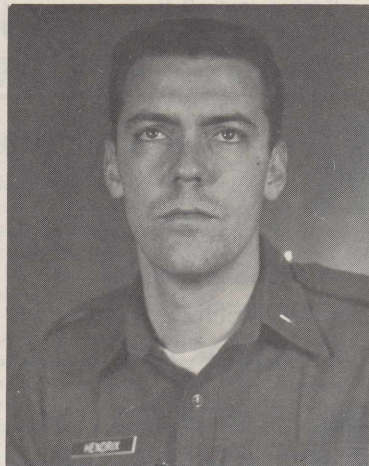

Flight Facilities Officer Reports

First Lt. Joe D. M. Hendrix, graduate of Southwest Texas State College, has begun duty as flight facilities officer of the 2053rd Communications Squadron at Reese.

He was commissioned through Officers Training School in December, 1963, not long after he came into service. He was assigned to Reese from Communications squadron at England AFB, La.

Resident of Irving, Tex., he was in the fire control division of the bureau of land management, Fairbanks, Alaska, prior to entering service.

LIEUTENANT HENDRIX

The mission of U.S. tactical air forces is to maintain an doperate assigned combat-ready forces capable of conducting worldwide operations.

USAF VIETNAM BATTLE REPORT

SAIGON, Vietnam (AFNS) — Air Force pilots flew almost 50,000 strike sorties in support of the Republic of Vietnam during 1965, Lt. Gen. Joseph H. Moore, commander of the 2nd Air Division, announced in a yearend report.

A strike sortie is a flight by one aircraft attacking at least one enemy target.

The 2nd ADiv commander, whose organization is responsible for Air Force operations in Vietnam, said:

- Air Force pilots flying jet fighters logged some 10,570 tactical strike sorties over Communist North Vietnam in 1965. An additional 37,940 such sorties were flown by jets and propeller aircraft over the South.

- More than 1,000 strateige strike sorties were logged by Boeing B-52 Stratofortress bomb crews over South Vietnam. Those missions began last June.

- Republic of Vietnam Air Force (VNAF) pilots flew more than 23,700 tactical strike sorties. Most of the VNAF effort was in the South.

- Tactical strike pilots of the Air Force dropped more than 80,290 tons of bombs. A total of about 56,670 tons were dropped on Viet Cong targets in the South while more than 23,610 tons were dropped over the Communist North.

- Strike pilots of the VNAF dropped an additional 26,600 tons of bombs.

As 1965 began, Air Force officials in Vietnam were occupied with training and developing the VNAF. Air Force jet squadrons had been on hand at Da Nang and Bien Hoa Air Bases since August 1964, but were on a standby basis.

Flying Douglas A-1E Skyraiders over South Vietnam during the first part of the year, Air Force pilots logged 764 strike sorties against the Viet Cong.

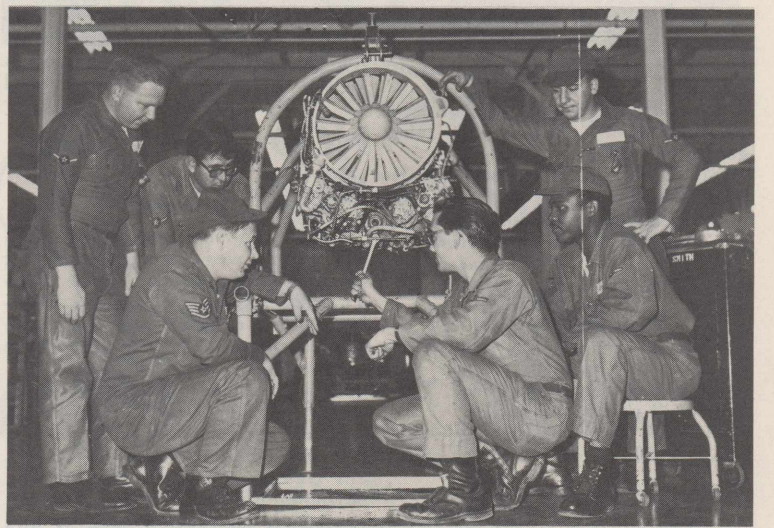

Air Force pilots struck targets in the North for the first time on Feb. 7.

U.S. Navy and VNAF pilots attacked Communist North Vietnam at the same time. The strikes followed a Viet Cong attack on the barracks of U.S. advisors at Pleiku.

Attacking military targets and routes of travel, U.S. and VNAF airmen kept up a constant assault on the Communist North.

By November, monthly strike sorties in the South alone topped the 5,000 mark with a total of 5,298 flown during that month.

December Air Force strike sorties in the South and over the Communist North totaled 6,766 — an increase of 900 per cent over January's figure.

OJT SESSION AT THE ENGINE SHOP — OJT trainer Glenn Floyd, kneeling at the left, checks out A3C Marcus Fennell on his knowledge of jet engine overhaul procedures as other trainees look on. STEAD NCO WINS ATC TITLE

(ATCPS) — A recent returnee from the fighting in Vietnam, MSgt. Harold E. Moak of Stead AFB, has been selected as the Air Training Command's outstanding airman of the year for 1965.

Chosen from among 20 nominees throughout the ATC, including TSgt. Donald K. Mulder of Reese, Sergeant Moak is a survival instructor at Stead. He will represent ATC at the annual Air Force Association convention March 23-25 in Dallas.

A five-man board of officers from Hq ATC made the selection. It considered such things as unique or outstanding accomplishment from December 1964 to November 1965; noteworthy self-improvement through off-duty schooling; membership in professional societies or associations; development of creative abilities; general job performance and awards or commendations for accomplishments.

Sergeant Moak's 15 years of military service have been dedicated to saving lives throughout the world. During the nine months of duty in Vietnam he distinguished himself on three

separate occasions. The first of these occurred in January 1965.

Responding to a call from an Army special forces patrol that one of its members had been wounded and that evacuation was impossible due to dense jungle growth, Sergeant Moak's unit dispatched a helicopter to the scene. Unable to land, the helicopter hovered more than 200 feet above the ground while the sergeant was lowered by hoist to accomplish the rescue.

On March 12, Sergeant Moak was called upon to locate and recover an H-34 helicopter and crew from the Bassac River in Vietnam. Despite an extremely swift current and zero water visibility, which made the mission dangerous and difficult, the recovery was accomplished after four hours of diving time.

For this heroic action the sergeant was awarded the Air Force Commendation Medal and a letter of commendation from Air Marshal Nguyen Cao Ky, then commander of the South Vietnamese Air Force.

The climax of Sergeant Moak's heroic actions in Vietnam occurred May 28, while he was on duty at Bien Hoa Air Base. A mid-air collision of two helicopters resulted in his pararescue crew answering the scramble. Despite a fiercely burning fuel fire and exploding ammunition, Sergeant Moak succeeded

in removing a seriously injured survivor from the blazing wreckage and administered first aid to save the airman's life. In rescuing the trapped pilot, who was pinned under the wreckage, the sergeant suffered a ruptured disc and was evacuated to Clark Air Base in the Philippines for a subsequent operation.

On Oct. 6, he was awarded the Airman's Medal for this act of heroism which involved risk to his life.

Sergeant Moak's career as a pararescue technician, which began in 1951, is filled with other acts of heroism and self-sacrifice in which he played a leading role, records show.

He has served with pararescue units overseas in Alaska and Libya, in addition to his Vietnam tour.

Besides the awards for Vietnam action, he has the Air Medal with five clusters, Air Force outstanding unit award with two clusters, Good Conduct Medal with four loops, master parachutist badge, senior aircrew member badge and other decorations.

Airmen Win Medals On Service Record

Seventeen additional airmen have been awarded the Air Force Good Conduct Medals on the basis of three years of outstanding service.

They are SSgt. Benjamin H. Moats, SSgt. Philip P. Belliveau, Airman First Class Juan Garcia, William Kleinfeldt Jr., Larry L. Roche, Richard A. Fitzgerald, Anthony D. Benson, Manuel A. Lujan, Everett Matthews, Willie L. Ball and Richard A. Flores Jr., and Airmen Second Class Robert J. Giles Sr., Joel S. Marrable, Philip D. Red, Robert W. Strauss Jr., and Paul A. Mayo.

MEDAL PRESENTED

HQ. ATC (ATCPS) — Capt. Omar G. Snyder, aircraft maintenance officer at Headquarters, Air Training Command, has been presented the Airman's Medal for a voluntary act of heroism he performed while serving as officer-in-charge of the crash recovery team at Da Nang Air Base in South Vietnam.

State Leaders Speak To PTA

Two women who are leaders in the Texas Congress of the Parent-Teachers Association will speak at the 7:30 p.m. Tuesday meeting of the Reese Elementary School PTA in the school cafeteria.

They are Mrs. Jack F. Strong, District 14 president of the congress, and Mrs. Marvin Armstrong, past state program chairman and presently mental health chairman.

Reese PTA officials are urging all parents to attend this meeting.

OWC Schedules Farewell Coffee

The hail and farewell coffee of the Officers' Wives Club is scheduled for Thursday.

C. L. Kay, vice president of public services at Lubbock Christian College, spoke on American Freedoms at the Jan. 6 monthly luncheon and business meeting of the club.

Door prizes depicting a ski trip were awarded to Mmes. Roger Cramner, William Hall, Jerry McReynolds, Charles Brown, Helen Morgan, Larry Gould, Jerry Figgin, Larry Baker, Sidney Alexander, John Poast, Sandor Babos, Sue Peterson, James Matheny, Sue Gilliland and Sue Svanik.

Dates Set For College Registration

Registration for the spring semester at South Plains College in Levelland is set for Jan. 24, while Texas Tech registration is Jan. 25 and 26 and until noon on Jan. 27. J. F. Reeves, Reese education officer, has announced.

Men enrolling in either college for the first time will be required to have a transcript of credits from the school previously attended, he said. Men with less than 15 semester hours of college work who plan to enroll in Texas Tech will be required to take an entrance examination at 1 p.m., Jan. 24, in the biology auditorium of the science building.

Reeves said all Reese personnel planning to enroll in college should process through the base education office to enable the Air Force

Winners In Junior Olympics Receive 43 Awards By ATC

Awards won by Reese boys and girls in the 1965 Junior Olympics in Air Training Command will be presented in ceremonies at 7 p.m. today in the Youth Center, with Col. Richard A. Steele, base commander, making presentation.

Forty three awards were won by 23 Reese youngsters in the competition. Times, distances and other measurements in contests here were sent to ATC for consideration with records at other bases.

Reese children took five first places, two seconds, 14 thirds, 11 fourths and 10 fifths in ATC.

Larry Grady won the running broad jump for 11 and 12 year olds; Don Wilson won the shot putt, Edith Mold the situps and basketball throw for girls in the 13-14 year old division; Gary Burris the running broad jump for 15 and 16 year olds; and Van Grady pushups in the same division. Edith Mold was second in the running broad jump for girls and Tony

Weber in pushups in the 15-16 age division.

Other awards were won by Bridget Gibbons, running broad jump; Tony Bonanno, running broad jump; and Steven Goldfein, pushups, 10 years and under.

Larry Grady, 50-yard dash; Ricky Kumpf, running broad jump; Jane Seay, basketball throw; George Roberts, walk and run; and LaBaron Locke, walk and run, 11-12 year olds.

Fernie Tamblin, 100-yard dash, situps and walk and run; P. J. Martin, situps; Edith Mold, softball throw and walk and run; Shirley Wallman, walk and run, 13-14 years division.

Gary Burris, 220-yard dash, 100-yard backstroke and 200-yard freestyle relay; Tony Weber, running broad jump, walk and run and 200-yard freestyle relay; Suzi Smith, running broad jump, Clare Ching, running broad jump, pullups and 100-yard backstroke; Patrick Kennedy, running hop-skip-and-jump and 100-yard breaststroke; Fred Locke, running hop-skip-and-jump, situps, pullups and walk and run; Thomas Martin, basketball throw and 200-yard freestyle relay; and Michael McManaman, 200-yard freestyle relay, 15-16 year age division.

BASKETBALL

INTRAMURAL LEAGUE

With the holidays past, intramural basketball competition is once more underway.

Air Base Group #1 still leads the pack with a 10-0 mark. The league leaders picked up wins over Organizational Maintenance, Hospital, and Supply, last week.

Supply Squadron, with a .050 maintained its hold on second place, winning two games and percentage lead over the Students, dropping one to the No. 1 team. Supply has a 6-2 record.

Student Squadron posted a 3-1 mark in last week's competition to bring it within challenging distance of Supply. These results give the Students a 7-3 mark for the year.

Following the top three teams in order of league standing are AB Gp #2, OMS Sq, Hospital, FMS and 01st PTS.

A 70-51 victory over OMS by AG Gp #1 saw Willie Nelson pacing the winners and taking scoring honors with 32 points. Marion Knuckles tallied 19 points to lead OMS.

AB Gp #1 defeated the Hospital cagers, 71-56, and Nelson and Dub Jones were top shooters for the AG Groupers with 18 points apiece. They shared the game's scoring spotlight with Hospital's Don Bennett.

In a meeting of the top two teams, AG Gp #1 edged Supply, 72-69. The game's top marksmen were Nelson with 28 and Jones with 20 for AB Gp, and Roger Gutschke with 25 and Armand Pinkney with 17 for Supply.

Supply eked out a 50-49 win over the third place team, Student Squadron, in another important match last week. Gutschke paced the winners with 20 points, and James Haigh lead all shooters in hitting 23 points for the Students.

A 59-51 win by the Suppliers over AB Gp #2 was paced by the victor's William Denney, scoring 27 points, and Gutschke, hitting 22. Denney shared high point honors with ABC's Terry Laymon.

Other league action saw the Students defeating Hospital, 57-45, FMS, 85-54, and AB Gp #2, 70-37.

Hospital downed OMS, 65-59, and AB Gp #2 beat FMS, 67-61.

Flyers Upset In Twin Bill

Randolph AFB's Ramblers swept a two-game basketball series, 94-83 and 103-96, from the Reese Flyers last weekend at Randolph.

In the opener, Friday night, Bill LeFevre led the Randolph basketkeeters in the scoring department with 26 points.

Armand Pinkney, with 25 points, paced the Flyers and took runner-up scoring honors. Dick Adair hit 17 points for Reese.

Other Ramblers making a respectable mark in the scoring column were Bud Kirk, 18 points, and Eustice Frazier, 16 points.

Saturday's bout saw Randolph tallying 61 points to Reese's 54 in the second half to come out on top after a 42-42 tie at halftime.

Despite the loss, Flyer shooters ran away with the scoring honors. Willie Nelson was the game's high point man with 28. Armand Pinkney's 24 points gave him the runner-up title.

Loyd Berens led the Ramblers with 20 points.

The dual loss gives the Reese quint a 5-3 mark for the season. The Flyers travel to Sheppard AFB next weekend to meet the Senators who hold the only other win over Reese.

Judo Team Seeks Interested Men

Reese's judo team begins preparation for the ATC tournament Monday night.

Team coach, 2nd Lt. Ronald Morgan, is beating the bushes and asks any individual interested in representing Reese on the judo mat at the ATC contest, Mar. 28-April 1, at Sheppard AFB, to report for practice at 7:30 p.m. at the base gym, Monday night.

Interested individuals who are unable to make the initial practice session should contact Lieutenant Morgan at 885-4425.

DONATIONS SOUGHT

WASHINGTON (AFNS) — Air Force personnel are encouraged to financially support U.S. participation in Pan American and Olympic Games since many of the athletes representing the United States are members of the armed forces, a Hq. USAF letter points out.

Boxing, Wrestling Contestants Needed

Expense paid trips to California and Illinois are prizes being offered by the Athletic Section to individuals who qualify.

Qualification for the "prizes" is participation in the ATC tournament on either the Reese boxing or wrestling teams.

The ATC Boxing Tourney is being held at Mather AFB, Calif., Feb. 28-Mar. 3, and the command wrestling contest is scheduled for April 11-15 at Chanute AFB.

Individuals interested in competing on either team should call the athletic section at the base gym immediately.

Reese Civilian Wins Top Awards

Charlie Newsom, Reese supply officer, this week was presented with honor graduate awards, an Honor Graduate Certificate and letter of congratulation on accomplishments in a standardized supply system course at Amarillo AFB. He attended the technical school late last year.

The letter from Lt. Col. Raymond L. Heberling, chief of the department of administration and supply training, said the honors came "as a result of your outstanding academic accomplishment in the course of training, coupled with your record of excellent personal conduct while as a student."

C-130s Airlift Road Building Equipment

HOWARD AFB, C.Z. (AFNS) — Aircraft of the United States Air Force Southern Command (USAFSO) completed airlift of 1.9 million pounds of roadbuilding and agricultural equipment to Peru. Thirty-eight Lockheed C-130 Hercules flew 38 sorties in the largest airlift ever conducted with USAFSO Resources in Central and South America.

Supervisors Win Recognition For Suggestion Program Aid

Fourteen Reese supervisors whose units had 50 per cent or better participation rate in the Civilian Suggestion Program during 1965 have been presented letters of appreciation from Col. Richard A. Steele, base commander.

Comparing total employees in the section with suggestions submitted the section supervised by CMSgt. James J. O'Brien had 300 per cent participation. TSgt. James E. Bagwell was recognized for 200 per cent participation in the Chapel and Mary Lundy for 200 per cent in her civilian personnel section. Theo Wright's section in operations training material reached 130 per cent.

Reaching 100 per cent were Carl Sanders and Jack House in Field Maintenance, Jacob Schwab in base supply, and Thomas Harrell, Manpower Engineering Detachment.

Other percentages were Joseph Bollinger, Field Maintenance, 67; Winston Williams, FM, 60; Robly Evans, Civil Engineering, 67; Jesse Mayfield, motor pool, 50; SMSgt. Garrett Tackett, Field Maintenance, 67; and Maj. Dwight R. Price, fuel supply, 50.

"Your efforts materially assisted Reese Air Force Base in achieving a better than 25 per cent participation rate in the Civilian Suggestion Program during Fiscal Year 1965," Colonel Steele wrote each supervisor honored. "This was the tenth straight fiscal year Reese earned the Chief of Staff's Certificate of Achievement for bettering the Air Force goal of 25 per cent."

The colonel urged each honoree to continue encouraging submission of suggestions in order that Reese this year may reach the Air Force goals

AUTHOR LeMAY — Former Air Force Chief of Staff Gen. Curtis E. LeMay (center) receives expert reviews of his new book — "Mission With LeMay" — from two pioneers in American military aviation. Looking over the volume are (left) Gen. Carl Spaatz, and Lt. Gen. Ira C. Eaker. Both of the latter retired generals were World War II air commanders, with General Spaatz becoming the first Air Force chief of staff. The book, written in collaboration with Pulitzer Prize winner MacKinlay, was published in November.

Top Maintenance Flights Honored

Flight of the month and flight of the year honors in the Reese T-38 maintenance section were awarded during the Thursday afternoon Jan. 6 Wing Commander's Call.

An engraved plaque was presented by wing commander, Col. Dudley E. Faver, to H Flight as flight of the month for December, and a plaque will go permanently to I Flight for having won it the most times — four — in 1965.

CMSgt. James E. Hare of the T-38 test section, who is responsible for selection of the outstanding flight, says that the award is based on total aircraft in commission, meeting schedules, extra sorties flown, and individual high-time aircraft.

Unit Selects Young Officer

First Lt. Jeffrey W. Berno, instructor pilot in Flight A, has been selected as instructor pilot of the month for December in the 3500th Pilot Training Squadron on the basis of outstanding performance.

The lieutenant is credited with attaining a high level of experience in his year as an IP, with excellent job knowledge, determination to aid students and dynamic drive for perfection. His motivation of students and ability to explain large and small areas of the undergraduate pilot training program were lauded.

Lieutenant Berno also was praised with keeping the best grade book in the flight and with doing an outstanding job as flight publications officer.

He also was credited with spending much off-duty time in various flight projects, with doing a good job in remodeling the flight scheduling board and with anticipating future needs.

"Perhaps Lieutenant Berno's most outstanding characteristic is his day to day performance," said Lt. Col. Raymond A. Sofaly, squadron commander. "He consistently produces work of excellent quality. He tackles each assignment with great zeal and enthusiasm; no job too large or too small. His instructional technique and training continuity are unexcelled."

"His performance was noted excellent in this area by the base standardization evaluation board on a recent inspection."

"This young officer's vibrant personality, ideal sense of humor and serious sense of responsibility place him far ahead of his contemporaries. Pride and patience are but two more of his many fine attributes."

TRAINEE — An extensive confidence course has been constructed for dogs in training at the USAF Sentry Dog School. Frequent runnings of the course keeps all Lackland dogs in top physical condition. Here, a dog gets a small assist from his handler as he clears one of the high hurdles on the confidence course.

Vietnam Action Shows Vital Need For German Shepherd Sentry Dogs

HQ. ATC — Wanted: 2000 German Shepherd dogs for the sentry dog duty in Vietnam.

The Air Force said today the 500 sentry dog teams now in Vietnam have proven so effective in protection of American lives and in prevention of sabotage the recruiting quota has been doubled from the 1000-dog quota announced in September.

Only German Shepherds are used because of their size and unique ability to "pick up" intruders at greater distances. They also are adaptable to different climatic conditions, and are normally

strong, alert, fearless, agile, and well-muscled.

Stressing the urgent need for the dogs, the Air Force urged anyone wishing to donate or sell German Shepherd dogs to contact the USAF Animal Procurement Office, Lackland AFB, Texas. This procures all dogs for the Department of Defense.

The dogs may be either male or spayed female. They must be between 1 and 5 years old, must be at least 22 inches high at the shoulder, and weigh at least 55 pounds.

Families Separated From Sponsors Offered Quarters At Schilling AFB

The Army is operating the Schilling AFB housing as a subpost of Fort Riley, Kan., with voluntary public quarters for dependents of sponsors in the Army, Navy and Air Force assigned to unaccompanied tours, the Reese personal affairs office has been advised.

The housing consists of three- and four-bedroom, single story Capehart homes equipped with washers, dryers, gas ranges, refrigerators and automatic gas heating. Each home has dining room, ample closet and storage space, garage and yard.

Housing is situated on the southern outskirts of Salina, Kan., (population 43,000) 59 miles from Fort Riley, Kan.

An Army dispensary will be operated on a 24-hour basis in the housing area to include out-patient and ambulance service with back-up hospitalization at Fort Riley.

A branch PX and elementary school will be operated in the housing area. Intermediate and high schools are in the community with bus service.

Fire and police protection also will be provided.

Other military installations in the vicinity include Olathe Naval Air Station and McConnell AFB.

Interested personnel may write the family housing office, Fort Riley, Kan., for detailed information, the Reese office was advised.

Lodge To Install Slate Saturday

Officers of the American Federation of Government Employees Lodge 1810 will be installed at a banquet at 7:30 p.m. Saturday in Holiday Inn East in Lubbock. A representative of the national president is to be featured speaker and Omer Jordan, national vice president for the 10th district, is to speak.

George Brock will be installed as lodge president for another term. Taking office with him will be Arnold Wuthrich, first vice president; Frankie Youngblood, second vice president; Zeldah Harris, secretary - treasurer; Johnnie Moore, recording secretary; Dixon Dorsey, Hayes Hefner and Norman LeGrand, trustees; and Lewis Trimm, sergeant-at-arms.

Dancing will follow the banquet and program. Members of the lodge include civilian employees of the Air Force, base exchange and central base fund.

Let me show you how you can earn \$50 or more weekly in your free time with an investment of less than \$50. Davenport's Amway Distributing Co. 2109 47th SH 4-1502
