

# THE ROUNDUP

The ROUNDUP is an unofficial newspaper published weekly in the interest of personnel at Reese Air Force Base of Air Training Command. It is published by C. F. Boone Nationwide Publications, Inc., a private concern, which is in no way connected with the Department of the Air Force. Publisher's mailing address: P.O. Box 883 Lubbock, Texas. For information phone SH 7-1624 (night SW 9-0580). Opinions expressed by publishers and writers are their own and are not to be considered an official expression by the Department of the Air Force. The appearance of advertisements in this publication does not constitute an endorsement by the Department of the Air Force of the products or services advertised.

VOLUME XV

NUMBER 2

Lubbock, Texas, Thursday, Nov. 12, 1964

NUMBER 41

**FLOWER HARVEST**—During the spring and summer many chrysanthemum plants were added to beds surrounding Reese buildings to beautify and to cooperate in the Lubbock drive to make the community the 'mum' capital of the world. Varicolored blooms have appeared throughout the base. Here prolific chrysanthemum bushes in the civil engineering area show results of the spring and summer planting.

## Fund Donations Slightly Upped In Final Report

With 15 units marking up 100 per cent participation and 12 reaching financial goals, the annual United Fund drive at Reese reached \$10,137, Lt. Col. John M. Schmidt, project officer, reported this week. The goal was \$10,000. Base participation was 95 per cent.

Additional units reaching 100 per cent participation in final reports were the credit union, Air Force recovery group, Red Cross and Fighter Interceptor Squadron. Joining units with 100 per cent financial goal or better were the resident auditor, 100, and weather, 165 (advancing from 142).

Final figures showed 2,738 persons contributing at Reese.

## Youths Honored In Special Week

Several Reese teens living in Lubbock are participating in the annual Youth Appreciation Week ending next Sunday. The five Lubbock Optimist clubs are joining to show that "youth are fine people, doing their job as they should."

Today youth are touring city government units. Saturday they will study legal work and visit district courts. About 600 youths will be guests of the clubs at the Saturday afternoon Texas Tech football game and at night a banquet to recognize citizenship of youth will pay special hour to two students of each Lubbock junior high school. A Mr. and Mrs. Junior Citizen will be announced at the banquet.

On Sunday youths will be allotted special parts in religious service of Lubbock during Youth In Religion Day.

### WOOD USED

Pencils are usually made from incense wood. The average tree yields about 172,000 pencils.

## Commander's Comments . . .

By COL. DUDLEY E. FAVER  
Wing Commander

Last Saturday's Founders' Day Open House was an unqualified success. Not only was it probably the finest open house ever held at Reese, but the best I have ever seen from the standpoint of smoothness and organization. This alone attests to the fact that successful endeavors do not just happen; they are the result of sound planning and hard work by everyone.

It is impossible in this limited space to pay tribute to all the activities and individuals who did so much to make Founders' Day a memorable event. Air Police augmentees, personnel on cleanup details, those who mowed lawns, aircraft maintenance technicians, sign painters, support personnel — these and many others of you deserve the credit.

Overall, the accomplishment was a team effort of which we can all be proud.

An open house such as Founders' Day reaps immeasurable benefits to the base and its people. Although these benefits appear intangible during the immediate period, a close and healthy relationship between the base and the community is most important to the welfare of everyone concerned. Founders' Day definitely helped cement that relationship.

I extend my appreciation and a hearty "well done" to everyone who did so much toward making Founders' Day so enjoyable and informative for the thousands of South Plains citizens who attend.

## AFCS Seat Belt Installations Day Helps Tenant Unit Base Leadership

One big day of auto seat belt installation in the AFCS has shot tenant units far out in front of assigned units at Reese, Joe Lopez, ground safety director, stated this week.

Seventy AFCS belts were in-

stalled in the base auto hobby shop in one day to send total autos with belts in the communications squadron to 70 per cent. The belts had been purchased in a single quantity at a low price.

"The weather detachment has a seat belt in every private vehicle and the rescue detachment has belts in 85 per cent of its privately owned cars," said Lopez. "Tenant units seems to be much more successful in getting personnel to install seat belts than permanent party units."

He pointed out that the 3500th Pilot Training Squadron leads assigned units with 59 per cent.

AFCS ground safety personnel reported a concerted effort to obtain installations and are hopeful percentage for the squadron will move to 100 per cent soon.

## Supergrade Lists 'Out' In January

WASHINGTON (AFNS)—Major air commands can expect to receive E-8 and E-9 quotas shortly after mid-January according to the fiscal year 1965 supergrade promotion timetable.

Reports of airmen eligible for promotion, on which command quotas are based, are due in the Pentagon by Jan. 8. About 10 days later the quotas are scheduled to be dispatched to the field.

# NCO'S Given Higher Rank; 14 Promoted

Fourteen non-commissioned officers of Reese have been notified they will be promoted to higher grade on December 1. Seven go to master sergeant, seven to technical sergeant. Another, SSgt. Lonnie Surratt, also was promoted to technical sergeant in the Reese quota but he has left for an overseas station.

Promoted to master sergeant from their present rank of tech sergeant are William G. Foshee of organizational maintenance, Richard B. Davis of supply, Bob L. Skinner of the hospital, Robert P. Clarke and Robert K. Fuller of field maintenance, and Leland W. Paine and Montie A. Wofford of Air Base Group.

Moving to tech sergeant from staff sergeant status will be Charles H. Wadsworth and William P. Loughrey, Supply Squadron; Carl A. Dahlin, Bobbe J. Hughes, James H. Hopwood and Leslie U. Hale, Field Maintenance Squadron; and John B. Pouncey, Hospital.

Sergeant Foshee, with almost 20 years in service, came to Reese in May, 1960, and is the T-37 aircraft night line chief. He is from Okemah, Okla. Sergeant Davis, from Dallas, came to Reese late in December of 1961 from Ankara, Turkey. He has been in service 22 years and is NCOIC of the priority section in base supply.

Sergeant Skinner came to Reese a year ago from the office of the command surgeon in European headquarters. He has 17 years of service and is NCOIC of medical materiel service in the hospital.

Sergeant Clarke, in service since 1941, is from Fergus Falls, Minn., and came to Reese a year ago from Amarillo AFB. He is an airframe technician.

Sergeant Fuller has 22 years of service and was assigned to Reese from Germany in the summer of 1962. He is a jet engine maintenance supervisor. Sergeant Paine, accounting and finance supervisor, is from Patoka, Ill., and has been in service 18 years. His last assignment was in Germany.

Sergeant Wofford, from Alma, Ark., enlisted in 1951 and came to Reese in July from AFROTC duty at the University of Oklahoma. He is an on-the-job training supervisor. Sergeant Wadsworth, from Milligan, Fla., has been in service 16 years and came to Reese last May from Iceland. He is a warehouse supervisor.

Sergeant Loughrey, from Ardmore, Pa., came into service in 1951 and was assigned to Reese four years ago from Morocco. He is an inventory management supervisor.

Sergeant Dahlin, from Goodrich, Minn., has 14 years of service. He was reassigned from Amarillo in March, 1963, as an aircraft hydraulic technician.

Sergeant Hughes, jet engine technician, is from Oklahoma City. He has 13 years of service and came to Reese in April, 1963, from the Philippines. Sergeant Hopwood, arriving at Reese a year ago from Hawaii, has almost 15 years service. He is from Detroit, Mich., and is a supply technician.

Sergeant Hale, assigned to Reese last summer from Europe, is from Ranger, Tex., and has been in service 14 years. Sergeant Pouncey has 14 years of service and was assigned to Reese as a physiological training supervisor in October, 1963, from Kadena Air Base, Okinawa. He is from Monroe, La.

### PASSES 35,000 HOURS

OFFUTT AFB, Neb. (AFNS)—Strategic Air Command's airborne command post passed 35,000 consecutive hours of operation October 7. Airborne command post missions have been flown continually since Feb. 3, 1961.

## Wives Invited To Two-Day Discussions

The Reese Family Service Center will sponsor a Dependents Orientation November 16 and 17 at the Mathis Service Club with each of the two-day sessions from 9 a.m. to 11:30 a.m. featuring speakers and movies showing how the Air Force takes care of its own.

Col. Dudley E. Faver, wing commander, will give the welcome and discuss the mission of the wing. Mrs. Constance R. Gorham, wife of Col. John D. Gorham Jr., deputy commander for training, will talk on the Role of the Air Force Wife.

Other topics to be discussed are: Community resources and facilities, movement of household goods and dependents reservations for overseas, Medicare, legal assistance, survivors benefits, and the Red Cross. Three movies, "To a Foreign Land," "When in Need," and "The Air Force Takes Care of its Own" will be shown. Time will be allotted after each presentation for a question and answer period.

Mrs. Millie Cowart is to discuss the Family Service program at Reese. She is the present co-ordinator and has served as a volunteer at other Air Force bases.

Free nursery service is available to those attending the orientation, and reservations should be made by calling the nursery. Refreshments will be served during intermission.

"All Air Force wives are urged to attend this orientation as it is presented with her in mind, and will help her to keep current with the services and entitlements available to her as a dependent," said 1st Lt. John Knapstein, personal affairs officer.

Certificates of completion will be given to those attending both sessions.

## Scientist To Talk At Reese PTA Meet

Dr. Clarence Darter, staff associate of Scientific Research Associates, Inc., will speak at the Tuesday night meeting of the Reese Elementary school PTA. He will discuss child behavior and other subjects.

Doctor Darter secured his bachelor of arts degree from Texas Tech, his master's from Trinity University and his doctor's degree from Tech. He taught school for several years on the South Plains.

**SALES LADIES**—Colonel Dudley E. Faver, wing commander, buys the first of calendars being sold by Reese Girl Scouts. Sales will continue throughout this month. Salesgirls are Theresa Gaskins, center, a Girl Scout cadet, and Debbie Curry, a junior Girl Scout.

**READY FOR DUTY**—The first of the fanjet cargo-troop carriers (C-141) reports for duty at Tinker AFB, Okla. This particular plane is set for operational duty with the Military Air Transport Service's 1707th Air Transport Wing.

### Winter Time For Added Care

Automobile accidents know no season, but during winter months the accident rate each year climbs because of the adverse driving conditions and the unawareness of many drivers.

Every serviceman and civilian should be aware of the added hazards and dangers of winter driving and prepare for the months of snow, sleet and rain and generally bad weather before it's too late.

Automobiles should receive a complete check-up, including an engine tune-up for cold and damp mornings.

Windshield wipers need to be in perfect condition. The braking system should be in top-notch condition.

However, all mechanical precautions mean little if a driver completely disregards all sensible driving habits and insists on writing his own rules.

A good driver would do well not only to keep his automobile in good running condition but to remain mentally alert while driving.

It is not as important that a fine Reese record be written as it is that Reese people are not killed or injured.

"The costs of weakness are far greater than the costs of strength, but the payment is far more painful." — President Lyndon B. Johnson.

"We have to maintain large and instantly ready combat forces which can be moved to any trouble spot on the globe and which can meet an attack against this country with no more than a few minutes warning." — Eugene M. Zuckert, secretary of the Air Force.

"To have dedication, you have to know what your job is. I believe that we have the best informed military men in the world. You know what the threat is. And you know what your job is." — Gen. Curtis E. LeMay, Air Force chief of staff.

## Founders' Day Big Success

Another "rousing success" in community relations marked Founders' Day at Reese last Saturday as an estimated 38,000 South Plains persons flocked to the base for the open house.

Numerous highlights marked the day, including recognition of the Lubbock businessmen who were instrumental in reactivating Reese in 1949, a dazzling aerial show by The Thunderbirds, a sky-diving exhibition by TSgt. Richard Nicholas, displays of various types of aircraft on the flightline and demonstrations by sentry dogs from Amarillo AFB trained to aid security in sensitive areas.

Many of the visitors came early and stayed late to enjoy all facets of the open house.

At the luncheon in the Officers' open mess, a painting of 1st Lt. Augustus F. Reese Jr., for whom the base was named, was unveiled.

Also unveiled was a plaque honoring the founders. Awards were given each founder, as well as Congressman George Mahon of Lubbock and Lt. Gen. William W. Momyer, Air Training Command commander.

"If it were not for a progressive and forward-looking city government and citizenry of Lubbock, there would be no base at all," said Col. Dudley E. Faver, Reese wing commander, in lauding community cooperation.

Congressman Mahon, a principal speaker, stated: "The Air Force in Washington has taken recognition of the great spirit of cooperation existing between Reese Air Force Base and the South Plains area."

"But this is not the time to lay down our arms. We must continue to keep up our guard. Manned aircraft is here for many more decades. We will be training more and more pilots. I also think the long-range manned bomber is here to stay a long time."

General Momyer gave praise to Reese.

"I believe we have the finest crop of young pilots we have ever had completing training at this time," he said. "We have nothing to fear from any country in the world. Reese Air Force Base is one of eight pilot training bases which are turning out 1,900 fine pilots this year."

The general said future pilot training programs call for 2,700 pilots a year.

Class 65-D had upward of 45 boys and girls of the Lubbock Childrens Home as its guests for Founders' Day. Student officers escorted the children around the flightline, provided them with refreshments and generally entertained them from 1:30 to 5 p.m. The children were under supervision of G. C. Vandever, house parent at the home.

### Reese Personnel Invited To View Show By Artists

Reese personnel have been especially invited to art exhibits this weekend.

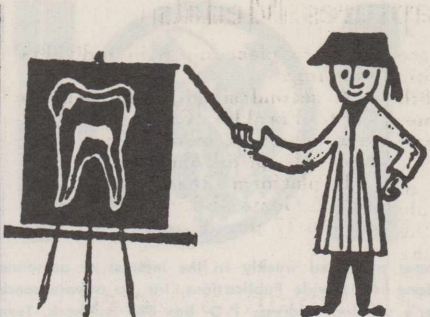

The West Texas Water Color association has extended an invitation to two exhibitions of water colors at the West Texas museum on the Texas Tech campus until Sunday. Twenty paintings by the California artist, Phil Dike, are being featured in conjunction with the Fourth association annual membership drive. The variety and versatility of the shows presents something of interest to all who see the display, sponsors state. The museum is open from 8 a.m. until 6 p.m., except for Monday closing.

The Artists' Gallery, 2608 Thirty-First Street, also asks Reese personnel to a reception and opening of exhibition of paintings and copper enamels by Hazel Cobb Wiseman from 2 to 5 p.m. Sunday. The exhibition will continue until December 15 during regular gallery hours from 11 a.m. to 5 p.m.

The Artists' Gallery has continuous showings, presently featuring paintings and crafts by Shelman Lawrence, Cicile Foster, Ruth Gautier, Vicki Johnson and Sculptor Otis Johnson. The public is invited to all exhibitions.

## HERE'S SOMETHING TO CHEW ON!

(By Maj. R. A. Henry, Base Preventive Dentistry Officer)

Will thumbsucking cause a child to have crooked teeth?

Dental authorities now generally agree that it won't — provided the habit ends before the child reaches age five. In those early years, any irregularity in tooth position caused by sucking habits probably will correct itself.

But by age five, the permanent teeth begin to erupt, and these can be seriously affected by the thumbsucking, fingersucking, lip biting, tongue thrusting and similar habits.

Sucking is one of the earliest habits a baby develops, and is related to his need to obtain his food from breast or bottle. Psychologists believe that sucking also gives a baby a feeling of comfort and pleasure, and is a natural and normal habit which should be allowed.

Sucking may increase when a baby is tired, bored or frustrated, but, from a dental viewpoint, there's not likely to be any harm from it during the early years.

Some babies prefer a pacifier to the thumb, and a rubber pacifier in the years before five will not injure the teeth either. In fact, some dentists think it preferable, since it is softer and exerts less pressure on the dental arches and teeth than does the thumb.

At age five, however, persistent thumbsucking may permanently affect both jaw tooth position and shape — narrowing the dental arches and forcing the teeth out of position.

Persistent thumbsucking should be brought to the attention of both the physician and the dentist for corrective action.

Above all, don't substitute the lollipop for the thumb. It's a formidable ally of tooth decay.

## Bench and Gavel

(By Staff Judge Advocate)

Financial Responsibility is more than just a phrase used by bankers, credit managers, and, on occasion, commanders. It is a way of life. In fact, in today's world it is the only way of life acceptable to a modern society.

Years ago the commerce of the world was on a cash basis. Financial responsibility was measured by the size of a poke of gold. With the passing of years, trade expanded from around the corner to around the world. This change brought about changes in the ways of men. Instead of carrying a poke of gold, merchants started carrying letters of credit which were honored and traded upon as though they were hard money. Gradually this trust in paper became widespread and general.

Today, we accept checks for our pay, dollar bills from our government, and IOU's from our buddies for five dollars until payday. Our world is built on and its economy supported by a mountain of paper credits. You draw your pay by check, deposit it in a bank and get an entry in a bank book, buy your groceries with a check on your bank, order a new washing machine and perhaps a new car by pledging your credit and honor to pay later, and maybe even give your promissory note to buy your home. All of this is possible because of the world of paper built upon a principle of mutual trust by men of integrity.

If one were to attack your home with an axe you would stop him. In the same way, if one attacks those paper foundations of the community with a hot check or a dishonored promise to pay a debt, the community will move just as promptly and effectively with criminal courts and civil lawsuits to repel the assault as you would to stop the man who would destroy your house.

The only rule for successful living in the world community is the same as the one necessary in your home neighborhood, the ancient one of dealing with your fellow man with the same honor and integrity as you will require him to deal with you.

## New Airman Rating Forms Hit Field In January; Quality Changes Few

WASHINGTON (AFNS) — Airman performance reports rendered after Jan. 1, 1965, will be prepared on one of three new forms currently being drawn up to replace the AF Form 75 in use since the mid-1950s.

Air Force officials had hoped the new forms would be available by late this year, but difficulty in printing them to the precise specifications required for mechanized handling prevented the goal from being reached.

A change to AFM 39-62, containing instructions on preparing the forms, is being readied for distribution to the field soon.

The new reports do not differ greatly in the qualities on which the individual is rated.

Main differences from the Form 75 are the separation of personnel to be rated by category and substitution of a percentage rating

scale effective for all airmen.

Officials expect the changes to produce more uniform ratings and counteract, to some extent, the inflationary trend in airman performance reports.

The forms also contain a matrix on which rating data can be transcribed. Optical scanners will be used to collect and analyze such data to spot errors, inconsistencies and trends toward excessively high or low ratings.

Airmen basic through noncareer airmen first class will be rated on one form, career airmen first class through technical sergeants on another and master through chief master sergeants on another.

Each form is designed to evaluate the specific qualities of members in a particular group.

Reports on lower-grade airmen are aimed at reflecting their career potential.

## Chief Of German Air Force Praises Training At Reese

A letter of appreciation to the U. S. Air Force for training pilots for the German Air Force has been received at Reese and other training bases.

The chief of staff of the GAF wrote Gen. Curtis E. LeMay, USAF chief of staff, stating:

"A total of 900 German pilots have undergone training at USAF training facilities since July 1, 1955, 750 of them alone at the 4510th Combat Crew Training Wing." Upward of 30 of the number going to the wing for F-104 training received basic pilot training at Reese.

"All of the USAF members who have been directly or indirectly involved in this training have accomplished a very essential contribution to the buildup of the new German Air Force, which will al-

ways be gratefully remembered by all its members.

"In particular, the German pilots who received their training will never forget the great experience of their stay in the USA and the incomparable hospitality of the USAF.

"Anticipating for sure that this beneficial cooperation will benefit the substantiation of our joint goal — maintenance of durable worldwide peace — I remain with the expression of my highest esteem and best regards, dear General LeMay."

"I wish to express my appreciation to all the members of your wing who have been involved in the training or support of the GAF program since its inception in July, 1955," Maj. Gen. Henry K. Mooney, Air Training Command vice commander, added in a letter to Col. Dudley E. Faver, Reese wing commander.

"The success of this program is indicative of the professional manner in which your personnel pursue their assigned tasks."

## Red Cross Plans Volunteer Class

Reese women have been invited to attend the Red Cross Volunteer training class at 7:30 p.m. on November 16, 18 and 20 in St. John's Methodist church. Instruction will be on training, service and other phases.

The first class was held at Reese in September with 15 women attending, most of them now serving as volunteers. The course consists of two-hour classes.

All interested women may call PO 5-8534 to register or secure information.

The Red Cross film on care of the sick and injured also will be shown at 7:30 p.m., Monday, September 16, in the Lubbock County Red Cross Building, 2109 Broadway, in another phase of Red Cross training.

## Festival Workers Given High Praise

Deep-felt appreciation to all who assisted with the October 31 Fall Festival at Reese Elementary School was expressed this week by TSgt. Toy Grice, PTA president. Everyone who aided received words of praise.

## School Lunches

Menus planned for next week at the Reese Elementary School are: MONDAY — Baked ham, black-eyes, mashed potatoes, hot bread, apple pie, milk.

TUESDAY — Roast, mashed potatoes, green beans, hot bread, sheet cake, milk.

WEDNESDAY — Hamburgers, French fries, fruit cobbler, milk.

THURSDAY — Fried chicken, mashed potatoes, green salad, hot bread, cookies.

FRIDAY — Tuna salad, vegetable salad, macaroni-tomatoes, hot bread, milk.

**POLICY EXPLAINED**  
 WASHINGTON (AFNS) — Air Force personnel who have served 90 days or more, either on a permanent change of station or temporary duty, in Vietnam since Nov. 1, 1961, cannot be given an involuntary PCS assignment there without approval of USAF.

**FIRST CONTRIBUTION**—Reese Officers wives, seeking to assist financially with establishment of Village for Air Force widows, secure their first contribution here from Col. Dudley E. Faver, wing commander. The colonel drops his check into the miniature village home as Mrs. R. A. Belcher, project chairman, smiles happily.

## Village Foundation Drive Gains Momentum At Reese

The Air Force Village Foundation membership drive is underway at Reese with the Officers Wives Club in charge. The wives at each Air Force installation are cooperating in financing construction of a home for widows of officers.

The foundation was established after Mrs. Curtis E. LeMay, wife of the Air Force chief of staff, asked more than 350 OWC's for their views on the need to provide housing, care and security for Air Force Officers' wives. Most wives favored the program and an executive committee and board of trustees for the non-profit enterprise were formed by volunteers who are working diligently to make the much-needed facility a reality.

Location of the Air Force Village will be near a major Air Force base with general hospital facilities. The locale will be in or near a city with favorable climate and offering good cultural, re-

ligious and shopping facilities.

The foundation's primary purpose is to furnish a residence for widows of Air Force officers and their dependents. The amount received from officer families and others who wish to contribute will determine how far the program can be expanded, said Mrs. R. A. Belcher, Reese chairman.

Mrs. William W. Mommyer, wife of Lieutenant General Mommyer, Air Training Command commander, is director of the drive for all officers' wives in ATC. Mrs. Joseph E. Payne is director of the drive at Reese. Team captains are Mrs. John D. Gorham, training; Mrs. Richard A. Steele, Air Base Group; Mrs. T. T. Lutrey, wing; Mrs. David Davis, hospital; Mrs. W. H. Reese, 3500th Pilot Training Squadron; Mrs. L. J. Murphy, 3501st PTS; Mrs. W. E. Shelton, Student Squadron; Mrs. W. E. O'Rourke, materiel.

Key workers include Mmes. C. W. Merritt, Herbert Leong, Walter Price, H. D. Roberts, D. B. McCaffrey, R. W. Barber, W. A. Barber, W. A. Jackson, R. A. Rasmussen, W. M. Goldfein, R. E. Wortham, J. F. Gumby, M. L. Hearn, J. C. LeChance, B. G. Stevens and A. D. Youngblood.

## ASK YOUR PERSONNEL OFFICER

Q. Does the Air Force have a housing shoragate?

A. The shortage of family housing is an important problem because of its impact on morale, retention, the budget and ultimate organizational effectiveness.

The meager increments of new housing which have been provided in annual military construction programs are seriously delaying eradication of the deficit and they

provide graphic evidence of failure of these requirements for the defense dollar.

This situation suggests the need for devising an alternate method of funding family housing construction such as existed while the Capehart-Rains law was in effect.

## Students Aiding At Crash Scene Receive Awards

Official recognition of three Texas Tech students who gave first aid and probably saved the arm of 1st Lt. Arthur Ward of Reese following an auto accident on October 16 on Fourth Street has been given by the Lubbock Traffic Council.

The CTC Certificate of Commendation went to Clay Speer, Barry McFarland and Norman Cobb, who were golfing near the accident scene and rushed to the autos which had been in collision. One of the young men applied tourniquets to the lieutenant's arm and rode in the ambulance with him to the hospital, applying pressure. Physicians said without the aid the arm might have been lost.

The other two students aided accident victims and took them from the wreckage.

"They demonstrated that not all people are indifferent to the welfare of their fellow citizens," said Bill Wright, council director. He also said people of the character of the students showed young people of the community are willing to step in to aid persons in all emergencies.

Governor John Connally of Texas also telegraphed his commendation, stating: "In these times when we hear so much about the failure of some people to assist those in distress or danger, your actions on October 16 are especially significant."

## OWC Sponsoring Gold Rush Days Saturday Night

Reese officer personnel and their wives will rally at the Officers' open mess Saturday night for Gold Rush Days to raise money for the Officers Wives Club welfare projects.

Everyone is invited to be in costume. A chuck wagon buffet is planned and various booths are to provide entertainment attractions. Among booths will be a sponge throw, garter toss, dance hall girls in costume, fortune teller, gold nugget bowl, white elephants and other features.

A Gold Rush Days jail is being set up for visitors who "break the law."

OWC members say wild west atmosphere will prevail throughout the evening.

### TOURS PACIFIC

United Service Organization President Gen. Emmett "Rosie" O'Donnell Jr. (USAF Ret.), has finished his first tour of the Pacific in his new post.

## Cub Scouts Plan Next Pack Meeting

The Reese cub scout pack will hold its next meeting at 7:30 p.m., November 30, in the scout building, 1225. back of the base hospital. All boys 8 to 10½ years of age are invited to join the pack and may secure information from Ken Malloy, cubmaster, at 691 or Mike DeRosa, chairman, 255.

Bobcat pins have gone to Ronnie Hughes, Mike Lamont, Mark Henry and Steve McCranie.

### Air Force Trio Captures Medals

The contingent of 14 Air Force athletes on the U. S. Olympic team emerged from the 18th Olympiad in Tokyo with four medals — one gold, two silver and one bronze.

First Lt. Joseph B. Amlog of the defense clothing and supply center in Philadelphia won the gold medal as a member of the eight-man rowing team.

A silver medal was won by 1st Lt. David Kirkwood of Lackland, member of a three-man modern pentathlon team. He also scored 4,722 points in the five-sport

event to place ninth in individual standings.

A second silver medal went to Capt. Franklin Green of Lackland, who won second place in the free-style pistol shooting.

In platform diving, 1st Lt. Thomas E. Gomb of Sewart AFB, scored 146.57 points to take a bronze medal.

### Airman Selected As Outstanding

AIC James W. Davis has been selected airman of the month in the base motor pool for October for several reasons.

His military dress and courtesy was superior at all times and his vehicle was operated immaculately clean and shiny, his recommendation stated. He also took charge of the night shift in the absence of the NCOIC. His supervisor received many favorable comments on his outstanding and professional manner of conduct on the job, it also was stressed.

Airman Davis also was credited with aiding the OJT program by instructing lower grade airmen on safe operation and maintenance of heavy equipment.

### Bowling

#### Dust Bowl League

The West-Hampton team, winning four games from the Splits & Mrs., held first place this week in the Dust Bowl bowling league. The Parker-Onstead team took three games from Conley-Kumpf to join the losers in second place. West-Hampton has a 29-7 record, second place teams 22-14 each.

Shirley Gray rolled a 175 to lead women bowlers and Mike Dina marked 216 for men. Gwen Hampton had a 490 series and John West 569.

### Reese All-Stars Open Home Play

The Reese all-star basketball team, winner of one game and loser in another, will open its home season Friday night against Sheppard's all-stars. Games are scheduled at 8 p.m. Friday and Saturday in the Reese gymnasium. The local all-stars met the Goodfellow team at San Angelo last weekend, dropping the first game, 71-43, and taking the second in a thriller, 58-57. Reese, starting the season with some talent missing, got off to a shaky start in the opener and

could not catch up. Reese Saturday changed tactics to ball control and trailed at the half, 27-26. Reese prepared for a running game by Goodfellow in the last half, but the attack never developed and control ball continued. With three and a half minutes to go, Reese led by four points and attempted a stall. Goodfellow came back slightly, but was unable to sink the needed final points. Willie Nelson scored 20 points for Reese, Terry Laymon 15.

### ABG Expecting New Additions To Bring Victory

By Freddie Harrison

With only two players left from last season's intramural basketball league championship quint, Air Base Group is relying heavily on men picked up in the Headquarters Squadron Section - Support Squadron merger and newcomers to give them another winner. Royce Kjosa, playing coach, and Irving Crick are all that is left of the base intramural basketball champs of last year. Richard Cutforth, Willie Nelson, George Pickerrill, Johnny Abney and Lester Billups, all ex-Support Squadron men, and newcomers Wilford Jones and Terry Laymon are expected to bolster the Air Base Groupers up to the calibre of last year's team.

### BASKETBALL

Intramural League

Air Base Group and the 3501st Pilot Training Squadron scored first round victories in the Reese intramural basketball league Monday night as the season opened. ABG came from behind in closing seconds to upset AFCS, 59-58, while the '01st led all the way to defeat the Hospital, 50-46. ABG scored its win on a driving lay-up by Willie Nelson as the game neared its end. AFCS made a desperation long shot as the final gun sounded, but it missed. Nelson, with 21 points, led scorers, while Terry Laymon and Royce Kjosa had 12 and 11 points, respectively. For AFCS Steve McDuffy and John Bartic had 16 each and Bernard Flowers 15. The PTS scoring was well divided, as was the Hospital scoring.

Jones, last year, was a starter on the basketball team which won the Mediterranean championship and competed in the USAFE play-offs. Jones and Laymon, both good, sharp ball players, are expected to supply Air Base Group with speed and experience in the backcourt.

"If we have a weakness, it's height. But we have some good, strong-legged jumpers who will come down with a fair share of the rebounds," says Kjosa. "We have a real boon in that we have some ball players who can think." Air Base Group's strength lies in speed, depth and good team balance, he said.

Air Base Group will have two teams entered in the intramural basketball league. Team number one, which will compete for points, has on its roster Kjosa, Cutforth, Jim Wortman, John Kreidweis, Jones, Anthony Merriweather, John Kidd, Nelson, Pickerrill, Abney, Crick, Billups, Joseph Brown and Laymon.

Team number two, which will not compete for points, is made up of Cyril Schmidt, John Mann, James Bagwell, coach of team number two, Curtis Lovelady, Thomas Kinder, Frank DeSantis, Texe Marrs, Paul Buccola, Everett Matthews, Gary Richardson, Francis Barron, Leonis Brown, Marcello Rodriguez, Joe Silhavy, Osie Lewis and Vernon Whitaker.

### Reese Pictures Win ATC Prizes

Four photographs made by Reese personnel have been awarded prizes in the annual Air Training Command photography contest.

A \$75 bond comes to SSgt. Woodrow R. Lane for his color photo in the babies and children category entitled "Smile, You Could Be on Candid Camera." The sergeant took first place and also won an honorable mention in the same category for a photo, "It's Chitose Ame."

A \$50 bond came to 2nd Lt. Richard T. Estes for his babies and children black and white photo called "Lived in a Shoe." The picture won second place in ATC.

A \$25 bond for third place was awarded 2nd Lt. Terry Lee Teets in the experimental category, black and white. He had no title for his picture.

Entered in ATC were 265 individual photographs, representing work of 70 persons.

When the enemy is detected tell the proper authorities.

OVER MILLION—A deposit by Airman James Parker, center, in the Reese credit union ran deposits to more than \$1 million. Here Col. Dudley E. Faver, wing commander, presents him a \$50 credit certificate from the union as a reward. Looking on is Laura Grimes, union manager.

### Reese Credit Union Moves Past '64 Goal; Hits \$1 Million On Deposit

The Reese Federal Credit Union passed its goal of \$1 million last week as Airman Jimmy M. Parker invested \$10 in his savings account and was rewarded.

"I'm the most surprised one person on the base," Parker exclaimed when his account was enriched \$50 as a reward for putting the union over its million dollar goal to \$1,000,001.80.

Jack House, president, established the goal last January for attainment in 1964. At that time assets were \$818,176.11. House gave full credit for the achievement to Mrs. Laura Grimes, manager, and her assistants, the board of directors, credit committee and supervisory committee.

Since the union was organized in April, 1950, it has grown from a few hundred dollars and few

members to its present strength. Since that time \$846,747.20 has been loaned to 7,453 members and members of their families, House said.

He recalled that a five per cent dividend has been paid to shareholders for the past six years and says there is likelihood of at least that dividend, paid semi-annually.

House noted that members have free life insurance for each dollar invested up to \$2,000 and each loan is insured to the borrower in event of death or total disability.

"We believe we offer members the lowest interest rate on their loans of any loaning service in this area," he said. "Loans up to \$1,999 are repayable at 6 1/2 per cent interest per year and loans of \$2,000 or more are repayable at 4.9 per cent each year."

He urged all Reese personnel to become credit union members and to use all privileges of savings, borrowing and managing the union.

### Occupants Of Housing Being Urged To Repair, Improve 'Like Owner'

WASHINGTON (AFNS) — The Air Force wants its housing residents to make their own minor repairs and improvements on Government quarters in the same manner they would on homes rented or purchased in the local community.

Writing in the November issue of the Air Force Civil Engineer magazine, Maj. Gen. R. H. Curtin, Air Force director of civil engineering, said the Air Force has long advocated that family housing occupants should take pride as

"homeowners" rather than mere property renters.

The help of family housing occupants is needed to keep the almost 150,000 units in the Air Force inventory in top shape with funds available, General Curtin warned.

"Many of our people would rather do a small job themselves if the materials are made readily available than to bother with workmen in the quarters," the general said.
