

## AFSA turns down invitation by union

WASHINGTON, D.C., May 13, 1977 — After a recent interview with Ken Blaylock, president of the American Federation of Government Employees, officials of the Air Force Sergeants Association (AFSA) have declined an invitation to a possible affiliation with the nationwide labor union. The invitation was offered as Donald L. Harlow, AFSA director of government relations, consulted with Blaylock on common areas of interest within the two organizations.

MSgt. John Paul May, president of AFSA, an 80,000-member professional organization of active and former enlisted personnel of the U.S. Air Force and its Reserve components, explained that a resolution had been passed unanimously at the organization's 1975 International Convention which said in part, "While fully recognizing the right of the people to free association guaranteed by the first amendment to the

Constitution, the Air Force Sergeants Association vigorously opposes any unionization of military personnel into a collective bargaining unit to be represented by a labor organization.

"Therefore," said May, "we feel that any exchange of ideas concerning affiliation with any labor organization would be working against the will of our general membership and is entirely unwarranted at this time.

"AFSA will continue the close working relationship it has enjoyed with other quasi-military organizations and associations, and the Air Force," May continued, "in striving to provide the best service possible to its members and serving as an advocate for Air Force enlisted personnel." It is our desire to provide a broad-based sounding board in order to responsibly communicate to the White House, Congress and the Department of Defense, the needs of active duty, reserve and retired enlisted personnel," he concluded.

**CHANGE OF COMMAND** — Gen. Edward Mendel relinquishes the Wing Flag to ATC Commander Gen. John W. Roberts in preparation for the transferring of the flag to Col. Charles Bishop (right), new 64th Flying Training Wing commander. (U.S. Air Force photo by SSgt. Mike Hall)

## Senior airmen gain NCO status June 1

The Air Force's first group of senior airmen, including nine people from Reese, will be appointed to noncommissioned officer (NCO) status Wednesday. The appointments and changes in insignia will affect approximately 3,700 senior airmen throughout the Air Force and begin a new era in attaining NCO status.

The nine personnel from Reese who will receive appointment to NCO status are: Robert Hibbard, 64th Organizational Maintenance Squadron; Theodore A. Emmons, James O. Huff, Michael L. Thompson, Dana L. Davidson and Martin Robles Jr., of the 64th Supply Squadron; Janapha C. James of the 1958th Communications Squadron; and Craig A. Kemnitz and James A. Skripka of the USAF Hospital.

The designation, senior airman, began in June 1976 when the Air Force introduced the three-tier enlisted organization: Apprentice/trainees (E-1 through E-4 senior airman); Technician/supervisors (E-4 sergeant through E-6); and Supervisor/managers (E-7 through E-9).

As part of the three-tier organization, the E-4 senior airman earns E-4 pay and entitlements but is addressed as airman until appointed to NCO status.

Personnel officials said they have received favorable comments from commanders, supervisors and senior airmen concerning the program. The overall feeling was that the Air Force is training better young NCO managers and adding valuable prestige to the NCO corps.

Officials also said that the program reduces the shortcomings of the former system that designated all E-4s as NCOs without regard to ability to serve as an NCO. Experience, training, and demonstrated performance are now needed before an individual assumes the responsibilities of an NCO.

Officials say the program also gives first-term airmen with leadership and supervisory ability the incentive to progress to NCO status. It provides positive unit commander involvement in the designation process, systematic approach to NCO orientation, supervisory training, and a formal transition into the NCO corps.

To become NCOs senior airmen must have 12 months in grade; complete Phase I NCO Orientation; have a record which shows potential; be recommended by the reporting official and be certified by the unit commander.

When the NCO criteria are met, the senior airman is awarded a certificate of appointment to NCO status in formal ceremonies and can wear E-4 sergeant insignia.

The requirement for one year in grade began in June 1976, so there have been no appointments to NCO status for one year. After the June 1 group is appointed, subsequent groups will be appointed each month.

The insignia of E-4 senior airman and below are basically the same as NCO stripes, but senior airmen and below wear a blue star and NCOs wear a white star.

# Thoughts from a new commander

Col. Charles Bishop  
Wing Commander

Thank you, most sincerely, for your many warm expressions of welcome. My feelings are dominated by humbleness and pride as I accept the privilege of being Wing Commander at Reese. I have already visited most areas of the Base and pledge to meet all of you personally as soon as I can—hopefully before the end of next week.

You probably are wondering: "okay, what is this new guy going to do to us?" Folks, it is always a tragic mistake to charge into a new place with a lot of changes. I am, however, a strong believer that we all want and need to continually search for better ways to do things. Mission

requirements often change and thereby force us to adjust how we in turn meet the mission. New "people problems" crop up occasionally and need to be satisfied. And, quite honestly, there is an irresistible urge for all of us, myself included, to want to "make our own tracks."

For all of these reasons, nothing stays forever static in our business. I need and readily seek your help and suggestions on ways to continue the fine record of mission accomplishment at Reese. I believe a low level of frustration in both our personal lives and during work is a positive contribution to a high level of performance. I am also aware that

unnecessary or unexplained changes create trauma and frustration. I know people at all levels like to make inputs and, whenever practical, their own decisions. Therefore, I will provide you easy access to me with both your ideas and needs as well as my full attention to the fact that how we do things impacts on your personal lives. Training pilots is a predictable, stable mission. We should be able to continue to do it well and have a high quality life at the same time. I am sure I will enjoy this tour and want the same for you. I look forward to the future and, again, thanks for your most warm and sincere welcome.

## Word to Wives

# Planning eliminates relocation problems

No single part of military life holds greater potential for frustration or the creation of personal problems than the relocation of a family and its personal possessions. But, with planning and close cooperation with the base transportation office, the problems and frustrations can be held to a minimum, if not eliminated completely.

Household goods include furniture, clothing, appliances and items normally used in and around the home. However, the following items may not be shipped or stored

with household goods: plants, fresh fruits or flowers, boats, pets, wines and alcoholic beverages, explosives and flammables (such as matches, aerosols, cleaning fluids), ammunition, articles intended directly or indirectly for others, except bona fide gifts, and items intended for sale.

Unaccompanied baggage is shipped separately from the main shipment so that it may be on hand when you arrive at your new duty station. This may be day-to-day items but not furniture. The number of pounds of unaccompanied

baggage you are allowed to ship is part of your total household weight allowance.

Professional material does not count against your total weight. It can be books, papers, and equipment that are needed in the performance of your husband's official duty.

If your installation conducts premove briefings, you and your husband should attend so that you both understand the arrangements for the move. While at the briefing, any special services you may require from the carrier should be brought

up—such as moving a piano down from an upper floor or a large freezer up from a basement.

Before the movers arrive, there is still a lot for you to do:

- Dismantle and prepare for shipment such items as the television antenna or outdoor play set.
- Empty and defrost the freezer and refrigerator.
- Dispose of unwanted items.
- Remove pictures and mirrors from walls.
- Remove slipcovers from furniture; otherwise the mover will

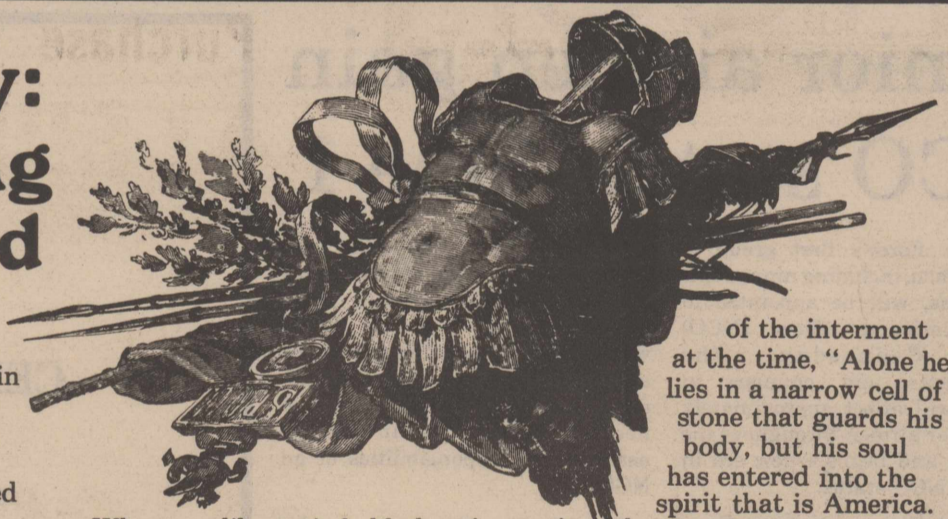

mark it as "condition unknown."

• Do not pack any items personally; this releases the mover from liability.

On moving day make certain that children and pets do not interfere with the packers—but do make sure that someone responsible is on hand to assist, as necessary. Having soft drinks and cookies available may be a nice touch for a short break.

If you have any questions or disagreements with the carrier during the moving process, contact the transportation office immediately.

## Memorial Day: Remembering Those Who Served

On Memorial Day, thousands of people attend the ceremonies in the amphitheater behind the Tomb of the Unknown Soldier in Arlington National Cemetery, located in Virginia just across the Potomac River from Washington, D.C. Thousands of other Americans visit small cemeteries scattered throughout the United States on this special day which honors our Nation's war dead.

In days past the activities of every American family on Memorial Day centered around the custom of honoring those who have died for their country. In this motor age, however, the day is an occasion for the first vacation trip of the year. It is also the day for high traffic mortality figures. In just half a century, the two million traffic fatalities, a large part of which occurred on Memorial Day, are twice the numbers killed in war, approximately a million people.

The national Memorial Day observance centers around the Tomb of the Unknown Soldier, which is a single monument in Arlington National Cemetery, dedicated to all of America's unknown war dead. There are historic as well as heroic associations with the area. Once part of the estate of George Washington Parke Custis, the adopted son of George Washington, it passed after his death, to Robert E. Lee who married the daughter of Custis.

Following the outbreak of the Civil War, Federal troops occupied Arlington House, as it was called, and the surrounding area. Early in 1862 they moved away from the grounds, but continued to use the mansion as a headquarters. In June of 1864, the first military burials were made in the 200 acres of the estate, subsequently set aside as a national cemetery.

General Lee attempted unsuccessfully to recover his home after the Civil War. Finally, in 1882, the sum of \$150,000 was awarded by the United States to Custis Lee, the general's son, as payment for the estate.

The Tomb of the Unknown Soldier was dedicated in 1921, the year following the interment of unknown soldiers in France and Great Britain. Associated Press reporter Kirke L. Simpson wrote

of the interment at the time, "Alone he lies in a narrow cell of stone that guards his body, but his soul has entered into the spirit that is America.

Wherever liberty is held close in men's hearts, the honor and the glory and the pledge of high endeavor poured over this nameless one of fame will be told and sung by Americans for all time."

For 35 years, the Unknown Soldier of World War I was the sole occupant of the crypt on the hill overlooking our Nation's capital. On Aug. 3, 1956, a bill to honor the unknown military dead from World War II and the Korean War was signed by President Dwight D. Eisenhower.

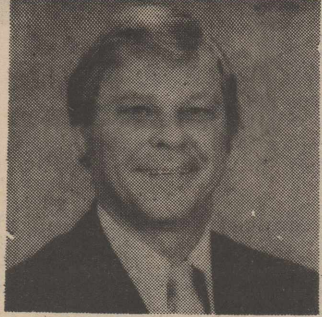

World War II unknown military dead were chosen from national cemeteries in both the Atlantic and Pacific theaters of war. After the caskets were placed aboard the U.S.S. Canberra, the ship sailed to a spot off the Virginia Capes in late May. There, Hospitalman First Class William R. Charette, the Navy's only remaining active duty Medal of Honor winner, placed a wreath on the casket of the man who was to become the Unknown of World War II.

The selection of the Korean War unknown dead was made by Master Sergeant Ned Lyle in the National Cemetery of the Pacific at Honolulu, Hawaii.

After lying in state in the Capitol rotunda, just as the Unknown Soldier from World War I was honored, the two Unknowns from World War II and the Korean War were laid to rest beside their comrade from World War I. No Vietnam War dead has been interred at the site because there have been no unidentified military dead from that war.

Each year hundreds of thousands of people visit the Tomb of the Unknown Soldier where on May 30—Memorial Day—special wreath-laying ceremonies honor the known and unknown heroes of all our Nation's wars—courageous and dedicated Servicemembers who have given their lives in the defense of freedom.

# Lease signing: things to check

By Major David F. Sullivan  
Judge Advocate Office

Apartment living produced a need for a clear set of rules for landlords and tenants to follow, and to fill that need the Texas legislature in 1973, passed comprehensive landlord-tenant laws. It is absolutely essential that before signing a lease you know what you are signing, and to help prospective tenants understand what they are signing the Texas Consumer Association of the State Bar of Texas created what

they call "Six Steps for Lease-Reading Made Simple."

Those steps are:

- Check to see how much advance notice you must give before moving. (30 days' written notice is normal when rent is paid monthly.)
- Look for security deposit refund restrictions. (The lease may give your landlord the right to keep the deposit if you fail to tell him you plan to move. You must give a forwarding address in writing, clean up the apartment, stay the full term of the lease, and be responsible for damages and other charges allowed by law.)

• Look for your landlord's obligation for making needed repairs. (A requirement for "reasonable promptness" is common.)

• Be sure to read the cleanup requirements. (The landlord usually can deduct cleanup costs from your security deposit if you fail to follow cleanup instructions.)

• Check on prohibitions against subletting and keeping pets. (The landlord's written permission is usually required.)

• Ask the landlord to add in longhand at the bottom of the lease and initial it - any oral agreement

(such as the landlord's promise to fix something) or change in the lease made by you and the landlord.

For all military members a seventh rule should be: Check to see if the lease contains a military clause; that is, a clause that allows you to terminate the lease if you are assigned to Government quarters or assigned PCS.

If you have any question concerning the terms of the lease you should, of course, consult the base legal office, but the most important thing to remember is that you should seek advice before you sign a lease or any contract, and that after you sign it may be too late.

## The Bible Says

# Should I bother listening?

by 1st Lt. Carl Knott  
35 FTS

This week we will begin to examine some answers to your questions, and to the question, "Why should we bother listening to the Bible?" Again you are invited to send us your questions and comments on a card or letter addressed to, "The Bible Says", 2319 47th Street, Lubbock, Texas 79412.

Its Prophecy: Prophecy alone is an undeniable evidence of the truth of the Bible and thus gives us a good reason to listen to the message of the Holy Writ. The Scriptures are full of

prophecy, and by these prophecies the reader is challenged to believe the Bible. The Bible is unique in that it stakes its authority and credibility on the complete fulfillment of each prophecy. Let's take an example:

There are some 109 prophecies in the Old Testament that were literally fulfilled at the first coming of Christ to the earth. Over a period of about 500 years there were about 25 prophecies given concerning the betrayal, death, burial, and resurrection of Christ. These were all literally fulfilled by Christ even though the numerical probability of all being fulfilled in the life of one man is one in 33,554,438! The odds are incredible to say the least. Either this Jesus Christ is the biggest con artist of all time or He is everything He claims to be! Surely this deserves looking into. If we find the former to be true then it has cost us nothing and that is the end of the subject; but if we find that Jesus Christ is what He claims to be then we have in Him, available to us, a new life with a forgiven past and a sure, happy future . . . all ours for the asking. If we bother to listen to the Bible and investigate its claims before passing judgment we find that through Jesus Christ we are offered, not long faces and dreary lives but real inner peace, happiness, direction and meaning in this life, and in the

eternity to come. If these things sound worthwhile then perhaps the Bible is worth the time that we would take to bother listening to its message.

Q: Why did Jesus raise Lazarus from the dead?

A: "Why questions" are among the hardest to answer from the Scriptures, because often there is no particular verse that says "this is the reason this was done". After a look at the Bible we would refer you to John 10:17,18. Jesus here states that no one can take His life unless He lays it down, because He has the power of giving and taking life.

It would seem that, in light of this statement the raising of Lazarus would be a demonstration of this power, especially since in the very next chapter He raises Lazarus. This also demonstrated His ability to raise up in the last day (11:24) those that put their trust in Him. Finally in 11:4 we learn that this was done for the glorifying of Jesus Christ and of God the Father.

What grand proof that the Jesus Christ of the Bible is more than mere man, that He is truly God, manifest in the flesh. It is sad to realize as we read on in John 11 that like those of that day, some of us will also refuse to believe in Him in spite of clear demonstration of His power and deity.

# Alcohol: is it really glamorous?

by SSgt. Joe L. Cobb

"Deglamorization of Alcohol" is perhaps one of the most misunderstood phrases used in the Air Force today. To put it simply, all deglamorization of alcohol means is, let all of us get together and put alcohol in its proper place - at the bottom of the pile of our stack of priorities for living. In other words, not total abstinence but self control and responsible drinking is what deglamorization is all about. Now that we have that straight, let's

compare a few facts with a few myths commonly believed about drinking alcohol.

Myth I - Pouring gallons of coffee down one's throat will sober you up.

Fact I - No such luck. Only time will make the alcohol leave your system. The body can get rid of only about 1.5 ounce of alcohol per hour. All coffee will do is make you a caffeinated drunk.

Myth II - Beer is less intoxicating than an average drink of liquor.

Fact II - Alcohol is alcohol. One 12-

ounce can of beer is about equal to a shot (one ounce) of your favorite liquor.

Myth III - Sticking with one kind of drink is less intoxicating than mixing drinks. This will help you avoid hangovers.

Fact III - Drinking too much causes hangovers, period! The effect of alcohol will be about the same no matter what bottle it comes from or what you mix it with.

Myth IV - The more you can drink, the more of a man you are.

Fact IV - A truly mature person has the courage to responsibly limit his/her drinking even in the face of considerable peer pressure. True men (or women) don't need to prove themselves through drinking.

The next time someone tells you something about alcohol that you are not sure of, come by Bldg. 35 or call ext. 2763/2575 and get the facts from Social Actions. And remember, **IF YOU CHOOSE TO DRINK, DRINK RESPONSIBLY.**

## Council repeats call for help in refurbishing seminar room

"I haven't received a single call," said SMSgt. Joseph Goupie about the latest project sponsored on by the Enlisted Advisory Council (EAC).

The project is to refurbish the Reese seminar room at the Air Training Command NCO Academy located at Randolph AFB. At the present time, the room is very depressing. Nothing adorns the walls, there are no curtains, and the furniture is military issue. If the project is successful, Reese NCOs attending the academy will have an atmosphere better suited to studying.

Contributions of money, pictures, plaques, and curtains are needed.

People who are skilled in woodworking could also help with the project. If you have anything that may be of use in helping make the room more attractive call Sergeant Goupie at Ext. 2548.

### Other Topics

Discussion during the EAC meeting Monday also centered around vandalism in the barracks and security in the Village.

Damage to property in the barracks is still continuing according to MSgt. Lawrence Harper of the Security Police. He told the council that furniture, appliances and vending machines continue to be abused. He requested that anyone witnessing an act of

vandalism call the Security Police at Ext. 2400. The person calling does not need to identify himself in any way.

Sergeant Harper also told the council that a walking patrol has been reinstated in the Village. The Security Policeman is on patrol during the night throughout the Village, hopefully, deterring acts of vandalism.

### New Vice President

SSgt. Larry Carroll was elected to take over the position of vice president of the EAC from Sgt. Rodney Morrow. Sergeant Morrow will soon be departing PCS.

## ROTC cadets arrive on base to gain first hand experience

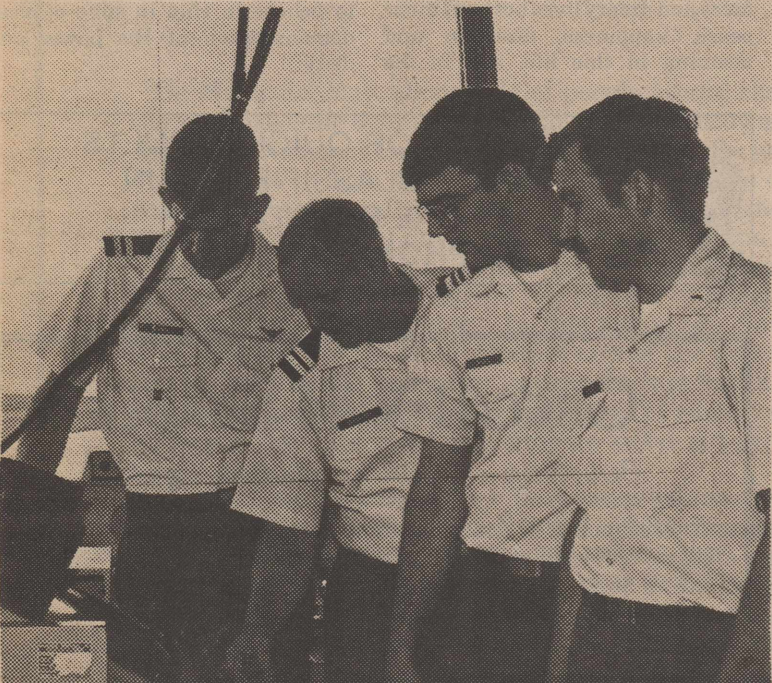

Reese has joined several other bases which are participating in a new program called Air Force Reserve Officer Training Corps (AFROTC) Advanced Training. The program was implemented to give highly qualified ROTC cadets individually prepared Air Force orientations.

During the summer months the base will be hosting several cadets from different universities and colleges. Each cadet will be here for a two week period. During this time he or she will be exposed to a specific field they have expressed interest in. Hopefully, this program will enable the cadets to become more familiar

with the "Air Force Way of Life." It should provide an opportunity for the cadets to be exposed to leadership, human relations, and management challenges encountered by Air Force junior officers.

As far as cadet status, they should be addressed as "Mister," "Mrs.," or "Ms." They should be afforded the rights and privileges of a junior officer, but they do not rate a salute and have no directive authority over anyone in the service. Their participation in ATP is to associate them with and learn about the duties and responsibilities of junior officers, not to lead, supervise or command.

The first group of cadets arrived last week. They are Kevin Burman from Oklahoma State University, Dan Dougherty from New Mexico State University, and David Schultz from Texas Tech University. Sponsors for the cadets are first lieutenants Greg Zeno and Reginal Kennedy.

**CADETS ARRIVE** — Reserve Officer Training Corps (ROTC) cadets Kevin Burman, Dan Dougherty and David Schultz (left to right) are briefed by 1st Lt. Reginal Kennedy on the radar in the Air Traffic Control tower. The three cadets are visiting the base for two weeks under a new program which allows cadets to gain first hand experience in their chosen field of interest. (U.S. Air Force Photo)

# Two opportunities given people to help others by giving blood

Two Blood drives have been planned for Reese AFB in the coming weeks. Today, personnel in the 54th Flying Training Squadron will have the opportunity to give blood between the hours of 2 and 8 p.m. in bldg. 105. The Community Services Council is sponsoring the second drive on June 10. This will be a base wide campaign with stations set up in the lobby of the base theater and in the conference room of bldg. 61 from 10 a.m. till 4 p.m.

The demand for blood increases constantly, yet it is estimated that the annual blood requirements of the nation are provided by less than five per cent of the total population, according to statistics in a blood services pamphlet.

Unless more people become blood donors, the supply will not keep pace with the growing demand for blood.

To assure that blood will be there when needed, the Community Services Council is encouraging persons of the base community to become volunteer blood donors.

There are several qualifications for giving blood. The donor must be between the ages of 18 and 66. Persons who are 17 may give blood with written parental permission, must weigh at least 110 pounds, and have no current health problems. The donor cannot have had the following:

- Malaria within the past three years.
- Major surgery or skin cancer within the past six months.
- Pregnant within the past six weeks.
- Tooth extraction within the past 72 hours.
- Skin graft, acupuncture, tattoo,

or ears pierced in the past six months.

- Hepatitis or "yellow jaundice" at any age.
- Diabetes (requiring insulin or oral therapy)
- Cannot be currently taking antibiotics or blood pressure medication.

Donating blood is safe, and a simple experience. The total process takes approximately 30 minutes,

with the actual donation time of 5-10 minutes. Each person's body contains an average of 10-15 pints of blood, and new blood is constantly being made, so we each have plenty to spare.

The daily need for blood is 70 pints for the area served by the South Plains Blood Service. Consider the need for blood seriously, and mark your calendars for a personal blood donation.

## REESE BABIES

CONGRATULATIONS TO . . . .

Mr. and Mrs. David Allen Roman, Rt. 8, Box 33 J-150 Lubbock, Texas, on the birth of a son, Greg Allen, on May 19, 1977, Weighing 8 lbs 2 ounces at 9:31 a.m. in St. Mary of the Plains Hospital, Lubbock, Texas.

Mr. and Mrs. John Neil Cardotte of 6606 Elkhart on the birth of a daughter named Jessica Dawn, weighing 7 pounds 7½ ounces on May 16, 1977 at 2:21 p.m. in St. Marys of the Plains, Lubbock, Texas.

**NOTICE** — If you have a new baby that has not been reported in "The Roundup", please call 763-4551 or 795-6991 or 885-4511 ext. 2410.

DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS 64TH FLYING TRAINING WING (ATC)  
REESE AIR FORCE BASE, TEXAS 79489

REPLY TO: 64 ABG/CC  
ATTN OF: 13 May 1977

SUBJECT: Family Services Volunteers

TO: Reese Personnel

It's PCS time at Reese and a lot of people will be arriving in our military community in the near future. Family Services provides the newcomer to Reese AFB a variety of services to help the member and his/her family adjust to their new assignment as quickly and easily as possible. In addition to providing valuable community information, the Family Services Center maintains a loan closet of useful household items including kitchen utensils, plates, glasses, cots, cribs, high chairs, ironing boards, etc. We need volunteers.

If you would like to be a member of the Family Services Volunteer Team please contact either the Family Services Center at Ext. 2306 between 10AM and 2PM Monday, Wednesday, or Friday or contact the Personal Affairs Office at Ext. 2643 daily. Your services will be greatly appreciated by all in this worthwhile cause.

JOSEPH H. BROTHERSTON, Colonel, USAF  
Commander, 64th Air Base Group

# Use government vehicles wisely, help save energy

by Maj. James Schweitzer  
Chief, Transportation Division

One area of energy conservation that personnel at Reese appear to have overlooked is the use of government vehicles.

These vehicles are used for official business. With a little cooperation from everyone, we could very easily reduce the amount of fuel used by these vehicles. Following are some fuel conservation examples:

- Do not idle the engine while the

vehicle is parked. Less gas is used in starting an engine than idling the engine while waiting for a passenger.

- Vehicles have been observed driving by the BX, Post Office, Dining Hall, etc. to pick up or drop off passengers. In addition to being a violation of AFM 77-310, a number of vehicles doing this over a period of time use a lot of fuel.

- Although the use of base taxi for official government business is definitely authorized, a more prudent use of this service could result in significant fuel savings, ie, walking is very beneficial. Individuals are authorized to ride in the back of pick-ups while on base. Units should attempt to consolidate all of their transportation requirements in order to make as few trips as possible.

## Entertainment

### Flick Flack

Feature films are shown at 7:30 p.m. Wednesday through Sunday at the Simlar Theater. The Saturday matinee begins at 2 p.m. The box office opens 30 minutes prior to each show.

**TONIGHT:** Jane Fonda and George Segal star in "Fun With Dick and Jane." Rated PG.

**TOMORROW'S MATINEE:** Elizabeth Taylor and Jane Fonda star in "The Blue Bird." Two children search for the Blue Bird of Happiness. Their quest is not for themselves, but for a small sick girl who wants only ... to smile. Rated G.

**TOMORROW EVENING:** Burt Reynolds and Lauren Hutton star in "Gator." Gator McKlusky makes a return appearance, this time to gather evidence to convict his old pal Bama McCall. Rated PG.

**SUNDAY:** Lee Roy and Ronald Brown star in "Goodbye Bruce Lee, His Last Game of Death." Bruce Lee makes a cameo appearance in this martial arts film. Rated R.

**WEDNESDAY:** John Wayne and Ron Howard star in "The Shootist." Wayne plays an aging gunfighter with cancer. Three gunfighters want to go down in history as the man who shot Wayne. Rated PG.

**THURSDAY:** Barbra Streisand and Kris Kristofferson star in "A Star is Born." The story of two musical superstars, one on the rise and the other on the way down. Winner of an Academy Award for best original song "Evergreen." Rated R.

### Inside the Loop

**TONIGHT:** The Bob Hope Show live with Patrician Price, Texas Tech Jazz Ensemble and Miss Texas, Carmen McCollum, 8 p.m. Lubbock Memorial Civic Center, Exhibit Hall. Tickets are \$8, \$7, and \$6. All seats reserved. Tickets may be bought at Civic Center Box office, and Furr's Family Center. All proceeds to benefit Texas Boys Ranch.

**JUNE 7:** The Osmonds in person, starring all of the Osmonds, plus guest star "Munch," 8 p.m. Memorial Civic Center, Exhibit Hall. Tickets are \$8.50 and \$7.50, on sale at Civic Center Box Office, Furr's Family Center and Flip-Side Records.

**JUNE 10:** Lubbock Symphony Orchestra presents its Summer Pops Concert. Evening starts at 7 p.m. with box suppers and cash beverages. Concert starts at 8:30 p.m. Reserved main floor seating \$8 and \$10 which includes supper or upper floor general admission for \$1 to \$4 with serve yourself beverages. Tickets may be bought by calling Lubbock Symphony Office, 762-4707.

### Youth Activities

**TONIGHT:** Meet at the Center and go together to see "Fun with Dick and Jane". 7 p.m.

**TOMORROW:** "Top 40" Disco Dance. Current members 50 cents, guests \$1.00, 8:15-11:15 p.m.

**SUNDAY:** Youth Center dance and gymnastics students present a special program at the Simlar Theater. Everyone welcome, 2 p.m.

**MONDAY:** Open for Memorial Day 1-5 p.m. and 6:30-10:30 p.m.

**TUESDAY:** Pool Tournament, 8 p.m.

**WEDNESDAY:** T.V. Movie of the Week and refreshments, 7 p.m.

**THURSDAY:** Sign up for Ceramics Classes, 8 p.m.

DISCO — Flash's Mobile Disco will provide the music for a dance tonight in the Mathis Recreation Center. Admission is free.

## Mathis Happenings

TONIGHT: Dance with Flash's Mobile Disco, 9:30 p.m.  
SAT. and SUN.: Dance by Disco with Ice Tee, 9:30 p.m.  
MONDAY: Feature film with "Brian's Song", 8 p.m.

All entertainment is free admission, mix drink bars will be set up at each disco. Movies are free and so is the popcorn.

This is the final week to sign up for the Six Flags trips, and they won't be offered again until August. We still have a listing of off base area recreation areas owned by the Air Force. Please contact us for information on directions and for autovon numbers for reservations, at 2787 or 2722.

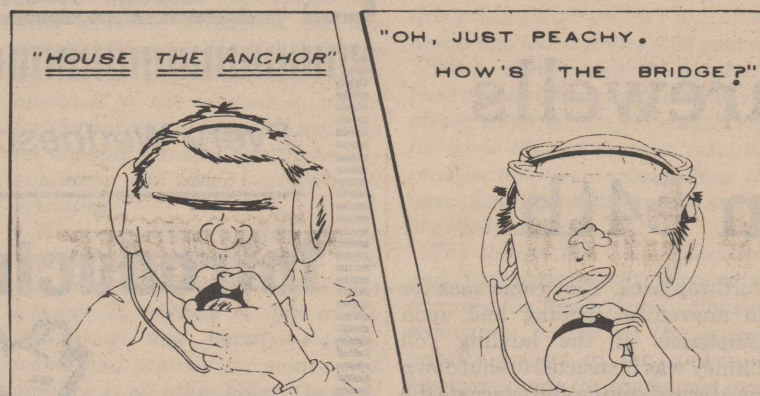

A Chess tournament will be held June 1-2 at 6:30 p.m. to pick two people to represent Reese in the ATC Championships at Craig AFB, June 10-12. The local tourney will be double elimination.

We would like to remind our patrons that the American Peddlers will be here again at the Rec Center on June 3, 1977.

## Picnickers: Clean area after use

Base personnel are reminded that they are responsible for cleaning up after themselves when using the Picnic Area and latrine facilities. Morale, Welfare, and Recreation personnel are available to service these areas on weekdays only. Picnickers should use trash cans and dumpsters provided. They are expected to police the grounds and clean shelters and latrines before departing the area.

For some reason, picnickers this season have been extremely neglectful and selfish. Following groups have therefore been forced to clean up both before and after their own picnic. Latrine facilities were cleaned and stocked during the week but left in deplorable condition on the weekends. Individuals making reservations in the future will be held responsible to see that the area is left in a manner in which they themselves would like to find it. Reservations or additional details can be obtained by contacting the Base Gym, ext. 2207 or 2783.

happy to see us! They are no longer Flight. Needless to say, our innocent minds formed fond and affectionate lasting memories of our instructors! We as a class have been at Reese now for four weeks. We would like to know where everyone goes to get this "piece of cake" that is mentioned so often!

This first week on the flight line was delightful. We were able to get our feet wet, as the saying goes, but us right up over our heads! But the really fun part was meeting our particular C Flight IP's along with all the other IP's involved with C Squadron!

**Moves, farewells  
abound in 54th**

Northrop trick. They came back for an uneventful landing and upon completion of the landing roll Stanley was instructed to shut down and out of the squadron. Maj. Carl Russell of Eunnuch flight has been fired for his lack of sociability at the Royal Tahiti. The safety office has picked up his option for \$2.98 and is sending him to California to safety engine . . . from the back seat! Our hero required some fire department assistance in extinguishing the running engine.

All the members of Flatus flight would like to express their appreciation for the outstanding job done so far by Flatus lead. They're so enchanted with his new policies they've nicknamed him Mighty Mouse.

Let's hear a big 10-4 for Nap for finally realizing that he's more than qualified to lead ignorance. Your beloved author will leave you now for a tour in the torrid north land. I leave you in the more than capable hands of Dennis Crosby.

It's changeover time in the 54th. Everybody's looking for new jobs in and out of the squadron. Maj. Carl Russell of Eunnuch flight has been fired for his lack of sociability at the Royal Tahiti. The safety office has picked up his option for \$2.98 and is sending him to California to safety engine . . . from the back seat! Our hero required some fire department assistance in extinguishing the running engine.

Cap't. Bob McCleod will be taking over Eunnuch flight with the promise that he'll have them even on the time line in two weeks or he'll go to safety. Cap't. Roger Moore will be the Gnat flight assistant. The Gnats will also be losing Lt. Don Staid who's going to the learning center for remedial training.

This month's Gluteus Warmus award goes to 1st Lt. Rick Harter of Hawg flight. It seems while on a boom ride with Stanley they encountered the age old fire light which all of us know to be a cheap

By Capt. Cliff Napolitano

**Squadron scrambler eventful**

The big news this week is "Jack Nicholas" look out! The squadron scrambler party this past weekend was a "classic" to say the least! Between Lt. Col. Berry, "tennis anyone" Brower and Carlos "Chi" Jordan the tourney was started with a shotgun start — unfortunately, big Bill Webster forgot the shotgun — but he did bring the club house.

The big winners were a group consisting of John and Christie Grueser, Matt Skundrick, Ralph Grueser, and Terry Geers. The battle of us on immediate callup. The skies over Reese are once again safe. Any of you needing information on the "woods" in the golf cart. The team of Jerry and Lou Davis, Jeff Fine, Steve Hoekendorf, and Cliff Napolitano came in a close third, behind their golf cart which had to be pushed back to the club house. The party that followed the golf match was enjoyed by all.

To Lt. Col. and Mrs. Eddie Norrell we say good luck in the 54th and we'll see you around the base.

This week the GOYA award changed hands quite a bit as 1st Lt. Jim Burden and yours truly took a hit during a no-notice tac check. There was another confirmed kill fourth week, we the members of section 7804/1 are finally realizing that we really ARE here!

So what! Does anybody else really care that we're here? Class 7803 is pocket.

Class 77-08

Carisma (cargo) Flight is now pulling six man alert, with the rest of us on immediate callup. The skies over Reese are once again safe. Any of you needing information on the "woods" in the golf cart. The team of Jerry and Lou Davis, Jeff Fine, Steve Hoekendorf, and Cliff Napolitano came in a close third, behind their golf cart which had to be pushed back to the club house. The party that followed the golf match was enjoyed by all.

To Lt. Col. and Mrs. Eddie Norrell we say good luck in the 54th and we'll see you around the base.

This week the GOYA award changed hands quite a bit as 1st Lt. Jim Burden and yours truly took a hit during a no-notice tac check. There was another confirmed kill fourth week, we the members of section 7804/1 are finally realizing that we really ARE here!

So what! Does anybody else really care that we're here? Class 7803 is pocket.

Class 78-04

This is the first time section one of class 7804 has had a chance to make a formal statement. Well, it doesn't seem appropriate to say something like "here we are", because there are quite a few who already know that we are here! You know, like CBPO, Accounting and Finance, Billing, the 64th Student Squadron and etc. But only now, after the end of our fourth week, we the members of section 7804/1 are finally realizing that we really ARE here!

So what! Does anybody else really care that we're here? Class 7803 is pocket.

## Lawn Mowing

I am sure a couple of hundred people in Reese Village would be interested in knowing why it is that they have to mow their lawns on a weekly basis yet the areas that are the responsibility of the base, such as between Yount and War Highway are mowed maybe two or three times a year.

The areas you mentioned and many other areas in the Village and on base are the responsibility of the Civil Engineering Squadron Grounds Shop. Unfortunately, we are in a resource squeeze and have had to defer some mowing of the common areas. Last year the Grounds Shop was authorized 14 permanent party personnel and had 16 overhire personnel to handle all

## WHEREVER YOU DRIVE

# Commander's CARE Line

(Editors's Note: THE ROUNDUP will publish Commander's CARE Line calls which are of basewide interest. Names of callers will not be published, but callers should leave their name and duty extension in case their problem needs clarification. All calls are reviewed by the Wing Commander. Reese people are urged to use their chain of command or the office of primary responsibility to air complaints or comments, if possible. If not, call the CARE Line by dialing C-A-R-E (Ext. 2273). (Please provide your name and duty section when calling.)

base and Village grounds functions. This year, the Grounds Shop is authorized 12 permanent party personnel and has eight overhires. As a result, many grassy areas will not be cut as frequently as in the past. We have put priorities on the mowing to make the base look as nice as we can make it under these conditions. All of you are encouraged to help keep the base looking nice by cutting areas larger than actually required for your particular quarters or assigned buildings.

## Ballfield Use

Tonight we had a softball game and I am on our squadron team. We were kept off the diamond by some dependents. Isn't it Air Force regulation that allows active duty members to have recreational facilities before dependents? My squadron and the guys out there got kind of mad about it because the dependents has said that they had the diamond reserved at 6 p.m. every night for whenever they wanted it to play as long as they wanted. I don't think this is right.

Dependents don't have priority. The ladies league is made up of military personnel as well as base civilian employees and dependents. This situation happened because the softball and soccer fields close to the tower are maintained and operated by the student squadron for the purpose of physical training for student pilots; it's not normally available for base recreational activities.

When the ladies softball league was formed, the base softball field was booked up except for games on Sunday afternoons — the men's intramural and varsity softball teams had priority for games and practice at all other times. On their own, the ladies contacted the student squadron and arranged to use their field for practice. As to the soccer field, some teams had used it for softball practice and caused considerable damage to the field, sprinkler equipment, and nets, so the student squadron ruled it off limits for softball.

We know we're short on softball fields, but we're trying. The base softball field was undergoing maintenance when you had this problem, but it's playable now. Another softball field should have been under construction by now but it got caught in an Air Force wide construction freeze; we're doing everything possible now to expedite the construction of two new softball fields. We're also looking at a self-

help project to construct a practice-only field close to the base field for this summer. If you are contacted about this project, please help — the additional field would benefit everyone.

## Commissary

I would like to know why the Commissary is so cold?

Different things contribute to making the Commissary cold, mostly the open faced freezers and cold products display cases. Also, the Commissary is required to maintain a temperature of 65 degrees during duty hours (in order to keep food from spoiling). When our new commissary is built we should have much more room, and maybe the freezers won't keep the place so cold. That new commissary is expected to go in the concrete block building next to the present commissary. Air Force Commissary Service hopes to get it started early next year. We hope so too.

## Housing Renovation

I would like to know the status of the housing renovation project at Reese Village.

We have had our ups and downs on this one. As you know, we gave this project high priority and about a year ago had it pretty well geared.

Then along came the alternate base closure status last summer and all our construction projects (except for some limited mission essential construction) were frozen. Now the base closure decision is made and we are ready to go.

The design has been completed and Headquarters ATC is currently carrying the Reese Family Housing renovation project as the highest priority project in the command; however, funds for the project have not been made available. We have been advised that there may be an outside chance for the funds late this fiscal year or early next fiscal year.

Until funds are made available, a definite time cannot be established, but you can be assured we are trying to get it as soon as possible.

## Base Housing

My question is in reference to base housing. I would like to know how can a 2nd Lt. under one year get into base housing without filing a hardship or anything like this, and an A1C over one year who makes far less than a 2nd Lt., have to fill out a hardship which has to go thru you to get approved before he can get in base housing.

The Law, established by Congress, does not allow personnel to live in base housing unless they are entitled to ship household goods. Now that the draft has ended, our lawmakers, have in the opinion of many, been slow to react to needed changes in personnel programs. However, there are still some valid reasons why the law has not changed. As with many programs, the limited amount of tax money available determines what can and will be done. The young men and women who occupy the lower three grades normally make three moves during their first two years (basic training, technical training and permanent duty station). They are also taking their first look at the service, trying to decide if they want the Air Force as a career. While the Air Force strongly encourages the majority of these people to join us permanently, the facts tell us that even though we are an all-volunteer force, many do not choose to stay beyond their initial obligation. If the government were to authorize shipment of household goods during initial enlistment, we would incur a large expenditure of funds before the individual and the military had decided that they were compatible. It becomes a matter of priorities in spending, and Congress must make the decision on where our limited defense dollars will be spent.

GETTING WET — Gen. Edward Mendel receives a going away wet-down from Col. Bobby Bagley after his last fight as Wing Commander of Reese AFB. (U.S. Air Force photo by SSgt. Ron Pack)

We Value and Appreciate Your Business

# There's more to life than MPG. A lot more.

Let us assure you that, being British and therefore thrifty, we take our MPG seriously. MG Midget delivers a noteworthy 37 MPG on the highway and 25 in town. (Of course, these E.P.A. figures are estimates. The mileage you get may differ depending on how and where you drive the car, the car's condition and how it is equipped.) Nevertheless, there is another, racier side to our character. For here is a true, thoroughbred, wide-open sports car. Which just happens to be the lowest priced authentic sports car on the market. Hard to believe. Fun to drive. The wide-open MG Midget.

# CHAMPUS

(EDITOR'S NOTE: This is seventh in a series designed to assist in understanding CHAMPUS more fully. Each item deals with one particular aspect of the new CHAMPUS Regulations. For additional information, call the CHAMPUS advisor at Ext. 2521 or write to CHAMPUS, Denver, Colo. 80240)

## Diagnostic Admissions

CHAMPUS will share the cost on an inpatient basis when a beneficiary is admitted to a hospital or other institution primarily for medically necessary diagnostic tests that cannot be performed on an outpatient basis.

If, however, a beneficiary is admitted to a hospital or other institution primarily for medically necessary diagnostic tests that could have been performed on an outpatient basis, the cost of the tests will be shared on an outpatient basis. No other cost will be shared including the cost of hospitalization. This provision is included in the Regulation to discourage inpatient admissions that are not medically necessary. Any beneficiary who elects inpatient admission for diagnostic tests that could have been performed on an outpatient basis will be responsible for all costs related to that admission except for the otherwise covered tests themselves.

## Outside the United States

Only facilities within the United States will be approved under the Program for the Handicapped.

Travel outside of the United States is not an authorized benefit under the Program for the Handicapped even when part of a program offered by an approved facility in the United States.

## Cosmetic, Reconstructive and/or Plastic Surgery

CHAMPUS defines cosmetic, reconstructive and/or plastic surgery as that surgery which can be expected to improve physical appearance, or is performed primarily for psychological purposes, or restores body form... and does not materially correct or improve a physical function. If a surgical procedure primarily restores a physical function, that

procedure does not fall within this definition whether or not there also is an improvement in physical appearance.

CHAMPUS will cover cosmetic, reconstructive and/or plastic surgery that meets the following specific limited criteria:

- Corrects a marked deviation from the normal standard when the deviation existed at birth (a congenital anomaly).

- Restores body form following an accidental injury.

- Revises a disfiguring, extensive scar resulting from cancer surgery (neoplastic surgery).

To qualify as a CHAMPUS benefit, surgery covered by this provision of the Regulation must be performed no later than December 31 of the year following the year in which the accidental injury occurred or cancer surgery was performed. Special consideration is given to cases involving children where growth time is a factor.

Further, preauthorization is required under CHAMPUS in order for any benefits to be extended for cosmetic, reconstructive and/or plastic surgery, even though the procedure otherwise meets the above criteria.

Examples of non-covered cosmetic, reconstructive and/or plastic surgery are:

- Body sculpture
- Removal of a tattoo
- Hair transplant
- Removal of Body Hair (Electrolysis)

- Breast augmentation
- Any procedure related to the aging process

- Any procedures related to dental services, such as surgery care for malocclusion.

## Cost Sharing

All services and supplies (including durable equipment) required for the handicapping condition or related to the handicapping condition will be cost shared under the Program for the Handicapped.

Necessary medical care that is not related to the handicapping condition — is not part of an approved management plan or a routine part of institutional benefits approved under the Program for the Handicapped — will be considered under the Basic Program of CHAMPUS.

# Reese Briefs

## White Elephant Sale

The Reese Cub Scouts are seeking donations for a White Elephant sale. Donations may be of clothing, household items, or any article which could be sold in a garage sale to raise funds for Pack 548.

All donations should be placed in a paper bag and placed on the porch. Scouts will be through the Village tomorrow from 11 a.m. - 2 p.m. picking up the items.

## Below-the-Zone Promotions

Four airmen were selected last week for Below-the-Zone promotion to senior airman. Those selected were Marcia A. Booth, 64th Field Maintenance Squadron; Dennis A. Butler, 64th Supply Squadron; Joseph Guzman, 64th Air Base Group; and Larry D. Hammond, Civil Engineering Squadron.

## Gymnastics Program

The Youth Center will present a dance and gymnastics program Sunday at 2 p.m. in the Simler Theater. Everyone is cordially invited to attend.

## Beef for Boy's

"The Beef for Boy's" project, sponsored by the Protestant Parish, will culminate this Sunday at the 11 a.m. Worship Service. Personnel are reminded to either bring the banks, and/or offerings, by the Chapel at that time or before if you plan an out of town trip this weekend."

## Operating Hours

The Base Gym has changed its operating hours. The new hours are: 10 a.m. to 9 p.m. Monday through Friday and noon to 4 p.m. on weekends and holidays. Ladies night is still 7-9 p.m. on Monday evening.

## Road Construction

Construction has started on highway 116 (19th Street) east of Spur 309. The construction will probably last through summer. Those who can should use an alternate route such as 4th St. during the construction.

## BX Holiday Hours

The following BX facilities will be open Monday, Memorial Day:  
Main BX, 10 a.m. - 4 p.m.  
Four Seasons, 10 a.m. - 4 p.m.  
Reesette, 11 a.m. - 8 p.m.  
Talon Inn, 11 a.m. - 11 p.m.

All other facilities will be closed. Facilities that are open will feature merchandise on special (mark-down). For additional information call Mr. Dan Arias at 885-4583.

## C-141 Systems Operator

As a result of a C-141 crew supplement study, officers will no longer be assigned as a systems operator as of April 22, 1977. The position will be filled by the flight engineer.

# Youth ball league names Miller, Player of Month

By George Davis

Anthony Miller, of the Red Sox, has been selected as player of the month in the Youth Baseball League.

The selection, based on an individual's play, sportsmanship, and leadership is something new this season. With the selection goes a plaque that will be presented at the end of the season.

Young Miller was born in Sacramento, Calif., and is in his second year of baseball at Reese.

He's truly a delight to watch, like a frisky colt on a cool morning. He's exciting, every move he makes is action. When he catches the ball, pitches, or runs the bases, it's action that immediately appeals to the fans. Anthony is consistent in his play, yet the sportsmanship he's displayed to fellow ballplayers and his leadership on the field are examples for all to follow.

Opposing pitchers have not found a way to stop this kid. Hitting highballs, low balls, inside and outside pitches, he has compiled a .708 batting average.

As a pitcher, himself, he is unbeaten (3-0) and allows an average of just two hits per game.

The league salutes Anthony Miller as player of the month, but more important, for setting an example for others to follow. Congratulations.

### Tigers Blast Pirates

David Martin and Scotty LaVine blasted triples during a third inning uprising to lift the Tigers over the slumping Pirates 19-9.

Scott Spurgeon and Mark Bugg had given the losers a quick 7-2 lead by slamming run scoring doubles in the first inning. However, after this inning, the Pirates ran out of ammo and the Tigers began to claw their way back to gain their first victory of the season.

The winners enjoyed another big inning in the sixth by scoring six

more times backed by triples off the bats of Kim and Mike Davis.

### Red Sox Crush Braves

The league leading Red Sox pounded out 16 hits, including a home run by Jason Eaton to crush the Braves 23-3.

Anthony Miller and Steve Davis collected four hits apiece for the winners.

### Braves Rally Past Tigers

Byron Gross pounded out two hits in a big nine-run last inning rally that carried the Braves past the Tigers 18-17.

Jimmy Simmons blasted a three-run homer in the top of the sixth inning to give the losers an eight run lead.

Trailing 17-9, Gross led off the last inning with a long triple and then blasted a bases loaded two out double to end the game as two runs scored.

### Pirates Drop Another

Anthony Miller and Bert Wood slammed four hits apiece as the Red

Sox handed the Pirates their fourth straight loss, 20-10.

Jason Eaton drove in four runs and Steve Davis three for the winners as they scored in every inning.

The losers have been plagued by poor fielding, in which, they have committed 27 errors since their losing streak began. They booted 12 more in this contest.

### Top 10 Fielders

Chantile Mooze (Tigers) 1.000  
Bert Wood (Red Sox) 1.000  
John McKnight (Red Sox) .944  
Kevin Dayton (Tigers) .894  
Chris Adams (Tigers) .875  
Sonja West (Braves) .861  
Mark Bugg (Pirates) .857  
Jim McClean (Pirates) .857  
Chris Bennett (Braves) .846  
Steve Davis (Red Sox) .833

Games this week will be: Red Sox vs. Braves at 10 a.m. tomorrow; Braves vs. Tigers at 6 p.m. Tuesday; Pirates vs. Red Sox at 6 p.m. Wednesday.

## Explorer Post sponsors Operation ID tomorrow

The Law Enforcement Explorer Post sponsored by the Reese Security Police will be conducting Operation ID tomorrow from 10 a.m. till 3 p.m. Anyone who has "high theft" items such as cameras, stereo equipment, CB's, etc. and wishes to have them identified by having their driver's license number engraved on them should contact

the Security Police at ext. 2612/2613 during the times mentioned above. A team will be sent to your home in the Village or the barracks.

Engraving will also be done at the Security Police Station (Bldg. 500) and at the Main Exchange. Bring your property out, you'll not only be protecting yourself against theft but also be helping your Security Police.

# Devils win, Red Hots in top slot

By Johnny (Mad Dog) Arthur

The Dusty Devils hit the winning trail Sunday as they defeated a determined Better Half team. In the bottom of the second inning, with two outs and the bases loaded, Better Half third basemen Chris Adams saved the day with a great catch and strange dive to the bag, voiding an early Dusty threat.

The third inning belonged to the D.D.'s. Francis Gardner singled up the middle on the first pitch. Doubles by Rita Clemon and Tammy Raymond, singles by Cheryl (Red) Smith and Barb Zoll, Sally Knox's walk, and a sacrifice by Chris Clarke accounted for six devil runs. Fittingly enough, Francis Gardner, who started off the inning, was responsible for the last out.

With the score at 6-1 after three innings of play, the defensive unit of both teams took over. Better Half and Dusty Devil rallies in the fourth and fifth innings were shut off, with

each team managing one run. The only unusual occurrence in the game took place in the sixth, when Devil shortstop Bobbie Powlett was attacked by a softball launched from somewhere in right field. Bobbie subdued the ball with a vicious karate chop across its throat, and went on to end the day with two home runs. The Better Half gave it all they had in the seventh, but the Dusty's iron defense proved too tough.

**Final Score: Dusty Devils 9; Better Half 2.**

Note: The Better Half spirit cannot be denied, and with some serious fielding practice and assistance on base path techniques, I predict that this team will be very hard to beat.

In the second game, the Red Hots took over sole possession of first place, defeating the previously unbeaten Blue Diamonds.

The Blue D's jumped off to a six run lead in the first inning on the

singles of Marge (Golden Glove) Dye and Debbie Phillips, Lois Harden's triple, and the two-run homer of Linday Foy. The Red Hots fought back in the bottom of the inning and came up with four runs on the singles of Ann, Pearl, Karen, Kathy, Anita, and triple of Betty Craeger. In the second inning, the Diamonds were held scoreless, while Red Hot shortstop Ann Flores slammed a home run to tighten up the game. Both teams squeezed in one run in the third, with the score showing at 7-6 in favor of the Blue D's.

Down by one run going into the fourth, the Red Hots let everyone know the reason they're at the top, as Janet Warren's home run, triples by Betty Craeger and Kathy (Hi mom) Russell, as well as many other hits helped the Hots to a seven-run inning.

From the fifth through seventh innings, both teams showed a fine defense, and no runs crossed the plate for either side. The game ended when Karen Goad caught a

Diamond line shot and forced the runner out at third. Angle A. made some exceptional catches from the mound. (Coach Knox said he'd break my arm if I didn't put it in the paper).

**Final Score: Red Hots 13; Blue Diamonds 7.**

## News Notes

Only two (Harry and Al) of the Zappers were at the game. The rest of their group could not get passes from the sanitarium security guards.

The Blue Diamonds third basemen, who was run over by an unidentified flying Red Hot in the fifth inning, is recovering nicely.

Fan support is a real disappointment. It's amazing that so many people can sit around in their houses and dorms complaining that there is nothing to do at Reese, when these women are playing some great ball games. Give it a try people, you may like it!

No games are scheduled for Memorial Day weekend, however, they will begin again June 5, with the Red Hots vs. Better Half at 3 p.m. and Dusty Devils vs. Blue Diamonds at 5 p.m.

## Standings

Team	W	L
Red Hots	3	0
Blue Diamonds	2	1
Dusty Devils	1	2
Better Half	0	3

# Robert Cawi gets black belt for ability in Tae Kwon Do

Leon Archie headed a special ceremony May 17 in which Robert Cawi, of the 1958th Communication Squadron, was awarded his first degree black belt in Tae Kwon Do. Assisting Archie is the presentation were two other black belts, Fred Flewellen and Arnold Mathews.

Archie is a third degree black belt in Sung Woo Do Kwan, Flewellen is an second degree black belt in Tae Kwon Do and Mathews is a first degree black belt in Judo.

Cawi has studied Tae Kwon Do and Sung Woo Do Kwan under the instruction of Master Sung Woo Downing, a sixth degree black belt in California, for five years. Last December Cawi took this black belt test in California and was promoted Feb. 30. Master Downing, who gave instruction to the Army Recondi in Washington and who is now in Germany, requested that Archie make the presentation in a ceremony.

Cawi has applied for the Air Force Academy and hopes to make karate an intercollegiate sport. He also instructs classes at the base gym from 6:30 - 7:30 p.m. Tuesday through Thursday and Fridays from 7:30 - 9:30 p.m. There is also Judo classes available taught by Mathews. The Judo classes are on Tuesday and Thursday nights from 5:30 - 9:30 p.m. These classes are open to civilian as well as military personnel.

**GOAL ATTAINED** — Third degree black belt Leon Archie ties Robert Cawi's first degree black belt on during a ceremony held last week. Cawi earned the black belt in Tae Kwon Do. Also present for the ceremony were Arnold Mathews, first degree black belt in Judo (foreground) and Fred Flewellen, second degree black belt in Tae Kwon Do. (U.S. Air Force Photo)

# WGA holds golf tourney

The Womens' Golf Association will host a Scotch-Foursome tournament at the Reese Golf Course on Sunday, June 5 with a 2 p.m. shotgun start. The entry fee is \$3.00 per couple and each couple is asked to bring a covered dish for the dinner to be held after play is completed.

Those interested may sign up at the Reese Pro Shop and should do so by noon on Friday, June 3. For further information, call Jerry Davis at 797-9978 or Agnes Partlow at 885-4844.
