READJUSTMENTS UNDER WAY

Probably nobody knows the ultimate that will come in the readjustment as regards farming and the handling of farm lands in the United States. It seems safe to say that land, as always, will be the basic wealth of the country. People must have a place to live. But that readjustments are now under way, following natural processes which none of us have the vision to see in their entirety, is certainly true. The opening of the vast plains land across the stretch of the country from north line of the Dakotas to the Rio Grande has had no little effect on the farming problems farther east. Without doubt, these western lands have come in competition with the apparently impenetrably established farming establishments on a basis that the eastern farmer cannot meet, with the result that whole counties of farm lands in such states as Connecticut and Rhode Island have been turned back to their natural state after having been cultivated since the first colonization period in the country's history.

A resident of Rhode Island said recently that nowhere in the world could you go to find a quieter spot than in some of the formerly thickly settled farming sections of that state, where woods are re-setting themselves, deers again roam, and one neighbor may be so far from another that you can't hear their roosters crow in the morning. Because in that state the population is greater than ever, in spite of the loss of farm population, they think of it as a result of industrialization. But the same thing is happening in all parts of the country, that can hardly be the complete story.

While the plainsman is given a part of his time and thought to the cost of production and in the hope that the industry for which his land is best fitted may yet be made to pay him a fair return on his investment.

THE BILL FOR MOVING

Annual "moving day" for a very large per cent of the people of Texas is here again. The heging of tenants from one farm to another, one community to another, or one section of the state to another, has begun and practically all of the first half of January will be taken up in work incident to getting changed locations, settling down, making new contacts and making ready for the beginning of a new year of work on the farms. It used to be said with some degree of truth that three moves is equal to one fire. That was in the days before fire insurance became general. However, the general truth of the old adage, so far as the cost of moving is concerned, is still apparent. Most of the cost is paid by the tenant and his family, of course. But the landlord, and in turn the public, also must absorb a part of the bill, in depleted soils, in disarranged school courses, and in lost motion generally, just to mention some of the more obvious losses sustained.

TOLL OF MOTOR CARS

Do you know how many lives as toll the automobiles driven on Texas—not United States—roads claimed during 1928? The figures as given by newspapers from authentic sources is 1601 killed outright. The list of injured, more or less seriously is 6,223 according to figures made from the same source of information. Doubtless these last figures are entirely too low because of the innumerable cases of accidents that do not get official recognition.

More than four persons a day killed is entirely too high. It must be admitted that a certain percentage of hazard attends every undertaking. Walking down the street or across a pasture carries some hazard. Even crawling in a hole to get out of danger would entail the danger of the hole falling in on you. But motor driving in Texas is attended by ten times as many accidents as are due to occur in the proper handling of cars on the roads, streets and highways. People of Texas should do a little more thinking and put a little less pressure on the gas, it appears.

SADDEST OF THE YEAR

"The melancholy days" in the age of one of America's foremost poets were in the autumn when "with every gust the dead leaves fall and the days are dark and dreary."
 "The saddest of the year" in the life of the communities of Floyd County are in January when families, neighbors for a year, must break up their ties of friendship and go to other communities to make new friendships, form new associations, become part and parcel of another neighborhood, only, in most cases, to prepare for another change in another year.

Only the home owners remain, while the tenant families, a large per cent of them the "salt of the earth" kind of people, must roam from season to season until good fortune makes it possible for them also to become home-owners.

THE EDITORIAL VE

A subscriber to a newspaper being displeased with some remarks of the editor, went in to administer a little corporal punishment. How well he succeeded is given in the editor's own words:

"There was a blow. Somebody fell. We got up. Turning upon our antagonist, we succeeded in winding his arms around our waist, and by a quick maneuver threw him on top of us, bringing our back, at the same time in contact with the solid bed of the printing press. Then, inserting our nose between his teeth and cleverly entangling his hands in our hair, we had him."

'Round The Square

With Old Battleaxe (Himself)

A New Year dawn, folks! Most of you didn't know that, did you? But don't try to get funny,—we have a serious thought (what a wonder.) What will this year of 1929 mean to Floydada and Floyd County? A paved highway? More paved streets? A street sweeper? Lights on the Court House? Paint on the Court House? A four-story hotel? Gee, this is an interesting old world after all. In fact, it is the best world Old Battleaxe has ever lived in.

A sign in one store window round the square which read "Do your Christmas Shopping Early" was changed this week to read: "Do your Christmas Swapping Early."

At this time of the year, we find that it is more blessed to give than receive—and a Dickens of a lot more expensive.

But in spite of all
 This sin and strife,
 We all like
 This sort of life.

These college students may think that it is sheikified to go bareheaded down in South and East Texas, but we notice that they all don their toboggans when they come home upon the plains.

They are all going back to school this week. You know, when "everybody's doing it" it's easy to fall in line and do likewise. Now, with the world of youth taking up its studies again, it is a propitious time to tackle your own problems, put real brainwork into solving them, and settle down to a long season of absorbing knowledge of use to you, and scientifically applying it.

When O. B. told that guy on California Street that he had a cold or something in his head, the boob said that it was undoubtedly a cold.

Many a car that passes you on the highway, is behind with its payments.—And How!

"The entrance to your city is of the same importance as windows and entrances to a store—the first impression is often the lasting one." This from a famous writer. (Not O. B. however.)

Eats Big Steak And Fried Onions—No Gas

"Every time I ate I had terrible stomach gas. Now, thanks to Adlerika, I eat steak and fried onions and feel fine."—Mrs. J. Julian.

Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. Floydada Drug Co.

This has a direct meaning to Floydada. First of all, let's improve that street leading north out of Floydada to the Plainview highway. That street is honestly so rough that it is liable to leave a bumpy and bruised impression with our visitors. Improve or pave that street from West Missouri Street to the town section, and we will soon know the difference in public opinion. O.K.M.N.X.

And now for the resolutions of the New Year. We, Old Battleaxe, et al, herewith solemnly swear, affirm, confirm and divulge that we, being of unsound mind and faulty memory do hereby say, in testimony whereof: that we shall not point out more than umty-odd faults of our dear little city with each issue; that we will not cuss the City Dads or County Commissioners more than is absolutely necessary; that we shall not exaggerate local conditions beyond all comprehension; and that we shall not say, do or have said or done anything that might cause hard feelings. In testimony whereof, witness our sin and sincerity plain autographed upon our mug represented at the top of this column. Amen.

FLOYD COUNTY 14 YEARS AGO

News items taken from files of the Floyd County Hesperian published in Floydada fourteen years ago.

ISSUE OF JANUARY 14, 1915.

The Farmer's Union of Floyd County have given out the following resolutions adopted by them in session at Floydada the first Monday in the new year: "Whereas, the Floyd County Union is in regular session, Be it resolved that we endorse the action of the State Union officials in regard to the reduction of the cotton acreage for the year 1915 to one half the 1914 crop as the increased acreage and the great yield has almost bankrupt the south."

Friday afternoon, January 8, Mrs. A. N. Gamble entertained with a miscellaneous shower honoring Miss Mary Boerner, who on January 14, becomes the bride of S. W. Ross, of this city. The guests were asked into the library where the following program was rendered: piano solo, Miss Ethie Thagard; reading, Miss Sabra Thagard; solo, Miss Mary McKinnon.

Locals from Lockney Beacon: Chas. Wilson has installed a new Calcium light in the Happy Hour Theatre, and re-opened for business. Squire Gaither, of Floydada, was here Tuesday attending court. Lee Montague, of Motley County, was a Lockney visitor Tuesday.

R. L. Orman, of Roseland Community, was a business visitor in Floydada Monday.

New Porking Curing Process Is Favored

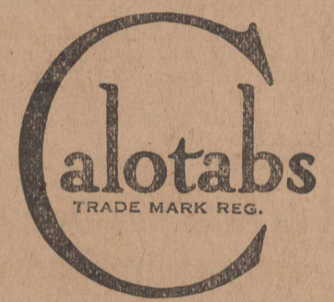

A brine method of curing pork that is coming into general use in Texas because it makes a deliciously flavored meat and is practical is described by E. R. Eudley, Swine Specialist of the A. & M. Extension Service. "To make brine enough for 100 pounds of meat use 10 gallons of water, 20 pounds salt, 5 pounds sugar and 5 ounces saltpeter. Bring the water to a boil, then add the salt and stir until dissolved. Add the sugar and saltpeter and again stir until dissolved. Allow to cool before using.

"Cut meat up as soon as dressed and rub it with good salt. Leave spread out and salted over night to lose the animal heat and then pack in a clean barrel with hams and shoulders at the bottom and the bacon on top. Pour on enough brine to cover the meat. Leave the bacon in brine for three weeks and hams and shoulders for five weeks.

"Brine will sometimes spoil, due to an unclean barrel or adverse weather conditions, so the brine should be examined once a week. If there are gas bubbles on the surface of the brine it is probably spoiling. Dip up a cup of it and pour back in the barrel. If it pours rosy or like syrup it is spoiling and the meat should be taken out and washed with hot water. Empty and scald the barrel and repack the meat in fresh brine made the day before so as to be cool.

"After removing the meat at the end of the curing process it should be hung up to drip and then smoked with smoke from any of the hardwoods or corn cobs. Most people prefer a three day smoke. The next step, wrapping, is important if the meat is to keep good during the whole year. Wrap first in paper (newspaper will do) and then in ducking, sewing on with close stitches to prevent bugs and skippers getting into the meat. Sew on a string and hang up in a cool dry place. It

Our Beauty Parlors Offer Real Advantages

"Beauty," said one of our great American poets, "is its own excuse for being." Which made poetry out of something which we all recognize—it pays to emphasize your strong points.

Years past you were either born with beauty or you never achieved it. Care of the complexion and the hair was forbidden as selfish vanity—and people said that if we had been intended to fly in the air, we would have been equipped with wings.

But progress does not permit such theories to last. Care of the complexion, the hair, and the hands, is no longer considered vanity. It is one of the things which distinguishes a

Details as to other curing processes and a method whereby one man can kill, clean and cut up two 300-pound hogs in a half day by himself are told by Mr. Eudley in C-60, "Killing and Curing Pork" for free distribution by the Extension Service, College Station, Texas.

Light Testing Stations Reminded Of Importance Of Careful Tests

Instructing automobile light testing stations to charge no more than 25 cents for the actual test and also reminding the car owners that an additional charge is legitimate where new parts or labor must be furnished, a list of new instructions has just been issued by the headlight division of the State Highway Department. Copies of the instructions have been sent by State Headlight Engineer James E. Hill to county motorcycle officers and also to the testing stations.

Under the state law a certificate, showing that the headlights and tail lights of cars have been inspected and approved by a licensed station is necessary before the new state license plates can be issued. Emphasis will be placed on tail lights more than ever, according to Hill. In the past many stations gave careful inspection to the front lights and failed to see that the tail light was in proper working condition. Instructions are given the officers to make arrests for improper tail lights the same as improper headlights.

Warning Given Stations

Complaints had been lodged with the state department that many stations were charging as much as 50 cents for the testing alone, the managers contending that 25 cents did not pay for the labor required to give a proper test. Such charges will be held improper and the license of such stations revoked, the new instructions state. It is pointed out, however, that the auto owners must be reasonable in meeting the requirements for extra service and extra parts whenever such service or parts are actually necessary before the lighting system meets the approval of the testing station.

Both new and old cars come within the provisions of the law that requires the tests. Warning has been given the stations not to issue a certificate when no test is made. This will result in the license being revoked, the instructions state.

Orders have been given to the station operators to destroy headlight globes of over 21-candle power when found in auto headlights.

Instructions Issued

Among instructions issued by the state department are:

Where new parts must be installed to make the headlights and tail lights conform with the law, the public must pay for the parts together with the labor required for installing the same at the customary prices and rates charged by the stations in their regular repair schedule.

If any breakage occurs when the test station operator is trying to do his duty in repairing and adjusting the headlights or tail lights, the owner of the car shall pay for the breakage.

Two different types of approved headlight devices will not be allowed on one car. The law plainly states that the devices must be in pairs, each conforming with the other.

Stations are instructed to report to the state department the license number of any car whose owner attempts to seek a certificate without submitting the car lights to the test.

Subject to Arrest

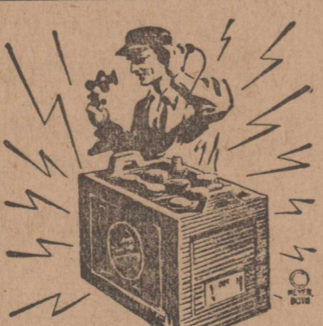

Where a car has one perfect reflector lens and one poor reflector or lens of both poor, the owner will be required to buy a new reflector or lens or both to match the good device or devices already installed on the car. The car owner in these cases must pay for parts and labor.

Auto operators who tamper with the lighting system after the adjustments have been made by the station will be subject to arrest.

Suggestion is made to auto owners who desire to co-operate with the officers in enforcing the law and preventing accidents that are caused by improper lighting systems, that they watch the headlights to see if they are properly adjusted. This can be done, the state department points out, by making a line on the rear interior wall of a garage at the top point of the lights as reflected on the wall.

RING IN THE NEW MILESTONES

New Year's Day, with its calendar change, marks the passing of another milestone is the progress toward perfection of our service to our Southwestern Life Policy holders.

For the past TEN YEARS we have been striving to build a monument of good will and service to our Life Policyholders. Our office is well equipped with all supplies that our Policy holders will need in making such changes or adjustments that will keep their policies up to date, and we are at your service at all times in assisting or making suggestions along such lines.

Our Company, The Southwestern Life of Dallas, is too well known in this locality to need much comment, but we wish to call attention to the fact that it is at all times striving to keep its policies up in line with all modern Life Companies and these policies contain all the standard clauses usually contained in the leading Life companies of the State, and it is their purpose to serve the insuring public honestly and efficiently.

We hope that during the coming year the bond which exists between us will become more firmly cemented and that the days of 1929 will afford you greater happiness and greater prosperity.

Many Ill With Flu Is Report Of Physicians

General Epidemic of Influenza and La Grippe, Scattering Cases Diphtheria.

A general epidemic of influenza and la grippe, with scattering cases of diphtheria and a considerable number of scarlet fever patients, is reported by practicing physicians, their reports seeming to indicate that the number of cases in the country exceed the number in proportion within the city.

Late last night few of the influenza cases had developed into pneumonia or other complications, and in fact practically all cases until last mid-week had the general symptoms of the old-fashioned la grippe. However, Thursday, Friday and Saturday the percentage of the cases which were evidently more serious grew by leaps and bounds.

The northeast portion of the county seems to have the larger quota of scarlet fever and diphtheria than other sections. Several cases of these were reported from the vicinity of South Plains and Goodnight.

In some schools the effects of the epidemic of flu are evident in the heavy falling off in attendance. In others until late yesterday, however, the effects were not so apparent. This last was true of the Floydada Public Schools, Superintendent W. E. Patty said, the rooms reporting a serious inroad on attendance being the exception, with rooms having practically full quotas of pupils the rule.

No definite count of the number of cases of these maladies is available.

Mayview News

Mayview, Jan. 1.—There was a good crowd out at Sunday School and B. Y. P. U. Sunday night.

Everyone is enjoying the nice weather we are having. Some of the farmers have out all of their cotton, although there is lots in the fields yet.

L. J. Davis and family are moving away. We all sure do hate to see them leave.

Miss Mary Lou Cardwell and Pat Bulock, of Shamrock were married Monday, December 24, at Plainview. They left Wednesday for Shamrock where they will make their home.

Mr. and Mrs. J. C. West, and children visited here Christmas with Mrs. West's mother and father, and brother, Mr. and Mrs. F. T. Emert, W. W. Emert and Tom Emert.

Buyers Take Much Feed At Farm; Save Hauling

Near-by Market For Surplus Feed in County Effects Time Saving For Raisers.

Floyd County farmers this season are meeting with an unusual situation that is saving them much time in the disposition of their surplus feed crops. At least, this is happening in many cases, farmers in the section of counties including Hardeman, Wilbarger, Foard, and Baylor taking quite a bit of the feed that would otherwise go through regular channels to market, off the farms at the market price.

Many hundreds of tons of feed-stuffs have been sold in this manner over the county, according to reports, the down-state farmer driving up to Floyd, making his purchase and putting his own loading crews for the rail haul, or in case of a truck haul, his own trucks on the job, and saving the handling charge to the local raiser.

Although a great deal of surplus feed has moved through the dealers, the unusual situation of a big demand almost at the door of the farmer has worked out to give a secondary market by which a very considerable portion of the surplus crop has moved.

The early market for maize, when the crop was green, opened around \$10. However, the nearby demand and the drying of the crop soon began to raise these figures, and the past few weeks the raisers have been realizing around \$18 per ton for heads.

Except in cases of distress feed-stuffs or rental crops where early disposal is necessary on account of removal of the tenant, a very considerable portion of the county's crop has been put up in bundles and in ricks of heads to be held as insurance against the possibility of a short feed crop the ensuing season. This is particularly true on farms where attention is being given to the production of butter fat and dairy cattle.

DIPHTHERIA CAUSES DEATH OF EDGAR GLENN, AGE 5

Edgar Glenn, five year old son of Mr. and Mrs. A. L. Glenn of Sand Hill, died at 7:00 Monday morning, services were held at the home Monday afternoon, Reverend Hayhurst conducting. Interment was made in the Lockney cemetery.

The child is survived by his parents and a younger sister, Ruth, his grandparents, Mr. and Mrs. N. B. Pace and Mr. and Mrs. W. F. Glenn.

MACHINE PHOTOGRAPHS 600 CHECKS A MINUTE

Electricity and the principle of the motion picture have recently been applied in a device that takes continuous photographic records of the faces of all checks cashed or deposited in a bank. This machine, which can handle 600 checks a minute, frees the American banking system of one of its weakest points, the practice of returning cancelled checks to drawers, and so surmounting the only actual evidence that they have been paid.

The new appliance can be operated independently, or in connection with an adding machine. As the operator lists a check, she drops it into a hopper. The check is caught against a belt driven by a small electric motor and carried into the focus of a small camera. Lights inside the appliance enable the camera to take a clear miniature picture of the check. After a check has passed the camera it falls into a receptacle at the bottom of the machine.

Sixteen thousand checks are recorded on a strip of film five eighths of an inch wide and two hundred feet long.

Miss Rosalie Smith, a student in W. T. S. T. C., Canyon, was a guest Monday and Tuesday of her grandparents, Mr. and Mrs. H. E. Smith. Mrs. W. S. Posey, daughter of Mr. and Mrs. Boerner, who has been in Mayo Brothers hospital at Rochester, Minn., is improved enough to be moved to the Plainview Sanitarium. She will arrive there Sunday.

Troye Pope, U. S. Marshall and Willie B. May returned to Simmons University and McMurry College at Abilene Wednesday, after spending the Christmas and New Year holidays here with home folks.

Misses Irene and Thelma Swain of Wichita Falls spent Christmas day here with their mother, Mrs. M. F. Swain and family.

Federals By The Carload

---That's Of Direct Interest To Every Motor Car Owner In Floyd County

Because we make our carload buying power of direct benefit to the tire-buying public. We do not have on a "red hot" sale or anything of that kind, but—

WE ARE SELLING AT WHOLESALE PRICES

And the thing that makes this possible is the big quantities in which we buy. Another big thing about this is that when you buy Federal's at the prices we make you are buying the tire that has been the most popular in all of Floyd County for many years.

Our business has grown from the "truck load" size to the "Carload" size in one short year.

Wheat Protein Tests Win 'Bonus' For New Land And Rotated Crops

From The Fort Worth Star-Telegram:

Scores of Texas farmers have received in the past season premiums on wheat through the system of tests for protein content, according to O. W. Harper, head technician of a laboratory recognized as official by the Fort Worth Grain and Cotton Exchange. Thousands of tests have been made during the season by the laboratory with the result that many farmers have received a "bonus" on the selling price of their product.

The plan of protein tests or nitrogen determinations, which has been in extensive use in the South only five years, operates to reward the wheat grower for rotation of crops. Crop rotation increases nitrogen content in the soil, which in turn determines the protein content of the wheat. Flour mills catering to a special bakery trade pay a premium to obtain wheat of high protein content.

Formerly wheat was sold by grades only, and there was no particular incentive to farmers to keep up nitrogen in the soil," Harper said. "But with the inauguration of tests for discovering protein content, mills buy wheat to satisfy the trade they cater to, and the higher grades command a premium."

Efficient System Worked Out
An efficient system for testing has been worked out. The farmer pays for the testing of his wheat at the time it is consigned to the commission house. The charge for

tests of the grain exchange is for non-members \$1. When the wheat arrives at the market it is taken from the cars and sent to the laboratory where their identity, being checked by numbers. These samples are put through the various tests with chemicals to determine nitrogen, which result is obtained through the use of a colorimeter (n x 5.7) into protein content.

About an hour and a half is required to complete the process. During June, July and August tests on as many as 200 cars are made at the laboratory.

T. C. Russell
Insurance Agency

All kinds insurance and farm loans

Tests occasionally are made on samples mailed in by farmers' elevator companies for information as to the placement of wheat in the elevators. Wheat grown on the highlands should not be placed with that grown on lowlands, as the former usually has a higher protein content offsetting in value the greater yield of the lowland.

Accuracy Principal Goal
Chemists all over the country collaborated to make the nitrogen determinations as accurate as humanly possible. Mills worked independently in laboratories for 25 each bakery technician using his own ideas. With the merging of bakeries, it became necessary for chemists in different industries to become more conversant with methods in use, and laboratories began to exchange samples to check results. With constant exchange during the past 10 years, the chemists have been able to check within what is accepted as "tolerance," which is 24 of 1 per cent.

The American Association of Cereal Chemists has various sections which send out check samples at regular intervals. Checks at the laboratory rarely have been more than .02 of 1 per cent from the average test result.

Tests show that the Panhandle is raising the highest protein wheat used for bread flour in the United States, due to the fact that the comparatively new lands and climatic conditions insure a high nitrogen content in the soil. Re-planting of wheat year after year in the same soil causes depletion of the nitrogen, which must then be replaced by artificial fertilization, Harper said, though rotation of crops on the farms will maintain and enrich the nitrogen content. Some of the best crops for this purpose are alfalfa and cowpeas. Harper suggests that another way in which grain raising may be made more profitable is through co-operation with county agents and wheat growers associations in the selection of the proper seed wheat to plant.

EMBRY BROTHERS PURCHASE McADOO SERVICE STATION

D. R. and Lloyd Embry, of Sand Hill, last week purchased the McAdoo Garage and Service Station of which R. L. Hinkson has been manager and owner for the past few years, and have assumed the management of the business. Mr. Hinkson, wife and daughter, were in town for a short time last week visiting relatives and he said his plans were to move to Winters, Texas, where he contracted for the purchase of a drive-in station on one of the good streets. This week they left for their new home.

Lions Send Food To Needy Christmas Eve

Local Club Starts Fund to Send Ima Gene Lewallen to Oklahoma Hospital.

Christmas cheer, in the form of groceries, fruits, clothing and coal, was distributed to some ten or twelve families in Floydada who were in destitute financial condition on Christmas eve, as the result of a fund sponsored by the Floydada Lions Club. Many citizens of Floydada contributed clothing and money towards the cheer fund. Glad Snodgrass was in charge of the distribution and with the assistance of ladies of the city, made the deliveries Christmas eve.

Report of the Lions Charily fund committee was made Monday noon at the regular meeting of the local Lions Club at the First Baptist Church. Practically one hundred per cent of the membership was present at the meeting. Among the guests at the meeting were Chester Day, University of Texas law student, H. W. Gooch and L. G. Mathews.

A fund of more than one hundred dollars was made up at the meeting for the purpose of helping to send Ima Gene Lewallen to an Oklahoma hospital for treatment. The little 11 year old girl was seriously injured several months ago when a large weight fell from the First Baptist Church building, striking the child on the leg. She has been in the Smith and Smith Hospital since that time, but immediate removal to a larger hospital is deemed necessary by physicians. She will probably be moved this week for immediate surgical work.

A decision was also made at the Monday meeting of the club to organize a Lions Club basketball team. This team will challenge any other club or organization team, and according to the members, will furnish any other team a hard tussle, and perhaps a defeat. They are especially urging the Rotary Club to organize a team and play them.

Pleasant Hill News

Weaned, by Gosh and Never Knew It!

Purina Calf Chow will raise fine, thrifty calves without milk. After the first few days they can be changed over from mother's milk to Calf Chow milk (Purina Calf Chow mixed with warm water). Then, when they are from six to eight weeks old they can be put on dry feed entirely.

Purina Calf Chow costs only about one-third as much as milk. Earlier weaning means money to you.

Let us tell you more about Purina Calf Chow. We have some records which will prove interesting to you.

An Unpleasant

All of the functions pleasant to consider, why some mothers refuse such symptoms as restlessness, flesh, lack of appetite or and fingers in their children, caused by round or pin worms. Many mothers have proven, however, that few doses of White's Cream Vermifuge, that sure and harmless worm expellant, will make these symptoms disappear. You can get White's Cream Vermifuge for 35 cents per bottle from FLOYDADA DRUG CO.

World's Greatest

No Idle Boast!

When Goodyear announced this new tire as "The World's Greatest Tire," the tire world sat up!

After trying it out, tire buyers everywhere declared, enthusiastically, "Goodyear Was Right!" We agree heartily.

We know a tire when we see one. And of all the tires we've ever seen, this 1929 Goodyear—with an improved All-Weather Tread Specially-Designed for balloon tire wear—takes the prize!

You really are not tire-wise—if you don't know about this new-type All Weather Tread Goodyear Balloon.

WE HAVE IT!

THE NEW SUPERIOR WHIPPET

NOW ON DISPLAY AT THE

Geo. M. Finkner Motor Co.
WHIPPET, WILLYS-KNIGHT DEALERS

This Leader of Modern Automobiles Introduces the New

"Finger-Tip Control"

The Most Notable Advance in Driving Convenience Since The Self-Starter.

Greater Beauty Longer Wheelbase Larger Bodies

The new Whippet introduces the beauty of expensive cars to the light car field. The new Superior Whippet is the style triumph of eminent artists, men of long experience in designing expensive custom-built cars.

Beauty that commands your instant admiration is expressed in the longer bodies, low, graceful lines, higher radiator and hood, more distinctive colors, sweeping one-piece full crown fenders—establishing the newest style motif for Fours and light Sixes.

MORE ROOM— GREATER COMFORT

The larger bodies of the new Superior Whippet afford more spacious interiors, with extra leg room and elbow room. The seats are wider and heavily upholstered, and have form-fitting contours.

Both the front and rear springs of the new Superior Whippet have been considerably lengthened. The increased wheelbase, snubbers and oversize balloon tires further enhance the car's superb riding qualities.

STILL THE ENGINEERING LEADER

Mechanically, the new Superior Whippet furthers a long lead over competition. A new higher compression engine gives more than 20% added horsepower, with greatly increased speed! Higher second gear speed gives faster pick-up.

And this new car is well qualified to carry on Whippet's unsurpassed reputation for dependable performance and minimum operation costs.

With The Churches

CHURCH OF CHRIST

Elder Charles W. Watkins will preach at the Church of Christ on South Wall Street Sunday morning at 11 o'clock. You are cordially invited to attend this service.

FIRST BAPTIST CHURCH

"The Church With a Program" Dick O'Brien, Pastor
The regular program will be resumed at the Baptist Church next Sunday. The pastor expects to be in the pulpit at both the morning and evening hour. We know of no better way to start the New Year than to attend all the services of your church on the very first Sunday. We spent our Christmas holidays amid the scenes of our childhood, visiting some places which we had not seen since we were less than ten years of age. We had a wonderfully interesting time, but the best part of all was getting back home. The longer we live in Floydada, and

the better we know the people here, the happier we are that we came this way. Our main New Year resolution is that we shall try to be worth more to our community this year than we have ever been in the past.

We desire to give public expression of gratitude to the great number of our members who visited us last Monday night and left so many things to eat. If nature will cooperate we expect to add several pounds to what we have already gained in avardupois since coming here. We have taken Bro. New- some for our physical pattern, and do not expect to consider reducing measures until we have reached his standard. Also we thank those who could not be present on Monday night but sent articles to represent them.

Sunday school will convene at 9:45, functioning by departments. We hope that there will not be a single officer or teacher absent unless for unavoidable hindrances. Nothing adds to the efficiency of a Sunday School program like faithfulness on the part of teachers and

officers. And on the other hand nothing will weaken and hinder like unfaithfulness on their parts. Every body at his post next Sunday, on time, ready for service.

The B. Y. P. U. Federation will meet at 6:00 p. m. We either boost or burden. Let's be boosters for the B. Y. P. U. We expect every department of the church to take on new life. The holidays are over, the New Year is here let's make the best of every opportunity.
Evening preaching service 7:00 p. m.

CHURCH OF THE NAZARENE

C. E. Hagemeier, Pastor
Service each Sunday, Sunday School at 10 a. m. Morning services at 11 a. m., evening service at 7 p. m. Prayer meeting on Thursday evenings at 7:30.

Our Sunday School is growing nicely, the Lord is blessing in all our services.

Bro. H. C. Cagle, our District Superintendent, will be with us on January 15 and 17 and will preach each evening at 7:30.

You are cordially invited to all the services at the Nazarene Church.

CUMBERLAND PRESBYTERIAN CHURCH

A. A. Collins, Pastor
B. F. McIntosh, Superintendent of Sunday School.

Morning worship at 11. Christian Endeavor at 6.
At the evening hour we will have a congregational service and plan our New Year's work. The membership of the church is requested to be present all friends are cordially invited. Come and help us plan a worthwhile program for the future. Prayer and study hour Wednesday evening at 7.

FLOYDADA CIRCUIT METHODIST

Almus Day Jameson, Pastor.
First and third Sundays at Fairview;
Second and fifth Sundays at Dougherty;

Fourth Sunday at Lakeview;

Until the new church at Fairview is completed, preaching on the third Sunday morning will be at ten o'clock in order to give the pastor opportunity to preach at Campbell at eleven. No preaching at Campbell at night but the pastor returns to Fairview for the night service.

Our first quarterly conference convenes at Dougherty January 26 at 2:30 p. m., and we will have preaching the next day by the presiding elder at the same place at 11 a. m.

We respectfully urge everyone to subscribe for The Hesperian as otherwise you might be uninformed as to the church activities.

We had a good day at Dougherty last Sunday in spite of the cold. The congregation was small owing to the fact that the occasion had had little advertising, but the spirit was great and our people are enthusiastic for the erection of a modern Church building with plans modeled after the Methodist church at Matador and the Baptist Church at Lockney. Work will be begun on this worthy enterprise in February.

While at Dougherty this time the pastor received eight new names for membership in the Methodist Church.

FIRST CHRISTIAN CHURCH

The pastor and wife returned from their trip to Colorado on Friday last and were here for Sunday, both a. m. and p. m. Had good services both morning and evening.

Services next Lord's day will be as usual: Sunday School at 10 a. m. with Superintendent John A. Enoch in charge. Morning worship and communion will begin at 11 a. m. and Endeavor at 6 p. m. Night preaching service at 7 o'clock.

Don't forget the most important meeting of the State Workers in First church at Fort Worth on the 9th and 10th of this month. This is a most important meeting and should be attended by at least one

representative from each church, aside from the preacher.

There will also be held a most interesting meeting of all the churches in West Texas at the First Church at Lubbock on the night of January 11. This meeting will be in the interest of Chico College. This is also an important meeting and should be well attended.

You are invited to attend the services with us any time you can. Come and bring your folks, we will be glad to have all of the family.

FIRST METHODIST CHURCH

G. T. Palmer, Pastor
Sunday School at 9:45 a. m.
Senior League 6:15 p. m.
Preaching by the pastor at 11:00 a. m. and 7:00 p. m. Morning theme: "The Challenge of the New Year."

With the coming of the New Year shall we not purpose in our hearts to make it the best of our lives in seeking to advance the Kingdom of God. It would certainly be a splendid thing if every person would begin the New Year by attending Sunday School and worship the first Sunday of the year. The Methodist Church cordially invites you. Let us all work and pray that the greatest good may be accomplished during the coming year.

Womens Missionary Society Monday 3:00 p. m.
Junior League Monday 3:30 p. m.
Prayer service Wednesday 7:00 p. m.

MITT BULLARD MOVES TO NEW HOME AT UMBARGER

Mitt Bullard and family left this week for Umbarger, Randall County, where he recently bought a tract of land, and which they will occupy and run a stock farm.

The new home of the Bullard family is a 654-acre tract, about half of which is in the canyon and about half on the plains.

A part of the payment for the land bought by Mr. Bullard was made with his 160-acre farm eight miles northeast of Floydada. Parker Hanna, county agent of Hemphill County, is the new owner of this farm. He will not move to the land, however, but has rented it out, planning to continue his residence at Canadian.

Mr. Bullard has been a resident of the county for thirty years. He is a son of Mr. and Mrs. G. M. Bullard of this city.

Miss Margaret Hinson of Abilene left Monday after a visit of several days here with Miss Wilma Deen.

This Winter

CELO-GLASS

on your Back Porch will give you Another Room!

MAKE your back porch a livable, useful room this winter with CEL-O-GLASS, the durable, weather-proof material which keeps heat in and cold out.

Enclose your back porch with Cel-O-Glass and you will have not only an extra room, but the lightest room in your home. For CEL-O-GLASS, while not transparent, lets in almost as much light as window glass: an even, cheerful spread of light which floods the room. No dark corners, no shadows, and no drafts will make the back porch a handy and a comfortable room for you this winter.

Here's another thing about CEL-O-GLASS which is important to you: CEL-O-GLASS is the material, approved by authorities, which lets through the vitalizing, ultra-violet rays of the sun. These are the health rays which produce a healthy coat of tan in the summer. In winter, you can get these rays indoors through CEL-O-GLASS.

Come in and let us tell you about CEL-O-GLASS and its many uses in the home and on the farm.

U.S. Farm Radio Programs For Week of January 7th

The significance of current developments in the dairy, truck crops and cattle markets, along with a variety of information from the experiment stations of the Department of Agriculture and the experience of farmers will be sent to listeners in the current week's noon-hour broadcasts direct from Washington through a chain of 14 stations associated with the National Broadcasting Company.

One of the features of the week will be the Friday program which includes facts about making the farmstead and the farm home attractive given by horticultural and home economics experts of the department staff.

The program for the week follows:

Monday, January 7.—"Tales the Dairy Markets Tell," L. M. Davis, in charge of market news on dairy products; and "Is a Cow's Milk Production Limited by Her Feed Capacity?" Duncan Stuart, investigator in dairy breeding. Tuesday, January 8.—"Trends in Truck Crops and Markets," F. G. Robb, fruit and vegetable inspection service; and "Cutting the Cost of Potato Production," Dr. William Stuart, in charge of potato investigations. Wednesday, January 9.—"What About the Cattle Market?" C. V. Whalin, in charge, division of livestock, meats, and wool; and "The Fortnight's Weather," J. B. Kicer, agricultural meteorologist. Thursday, January 10.—"Southern Boys Lead in Cotton Per Acre," I. W. Hill, Extension Service; and "Farmers Study Their Markets," H. W. Gilbertson, Extension Service. Friday, January 11.—"It's Catalogue Time," W. R. Beattie, extension horticulturist; and "Making the Living Room Livable," Miss Ruth Van Deman, in charge of home economics information.

These programs are broadcast from 1:15 to 1:30 p. m., Eastern Standard Time; or 12:15 to 12:30 p. m., Central Standard Time; or 11:15 to 11:30 a. m., Mountain Standard Time. Radio stations linked in the network transmitting them are as follows:

KDKA, Pittsburgh; WLW, Cincinnati; KFCK, Chicago; KSTP, St. Paul-Minneapolis; WOW, Omaha; WDAF, Kansas City; WOAI, San Antonio; WMC, Memphis; WSB, Atlanta; KVOO, Tulsa; KWK, St. Louis; KOA, Denver; WFAA, Dallas; and WRC, Washington.

1929 GREETINGS:

DEAR FRIENDS AND CUSTOMERS:

Upon considering everything which helped us to success in the year closing, we find our greatest asset still to be the confidence and good will of friends and customers like yourselves, whose loyalty to our house has been so gratifying.

We wish to thank you personally for your many courtesies in the past, for your patronage, friendship and cooperation, which have aided us in our growth. We trust that our business relations will always prove as pleasant to you as they have to us.

PROGRESS—POWER—PROSPERITY

These things we wish for you in the years to come, and if we can in any way help you to attain these, we wish that high privilege also.

It is our wish that the dawn of the New Year has lightened your path to Happiness and Prosperity.

NOTICE

Of Order for School Election in Common School Districts Nos. 18 and 32, For the Purpose of Consolidation.

THE STATE OF TEXAS, County of Floyd.

Whereas, on the 26th day of November, A. D. 1928, a petition was presented to me for an election to be held in Common School District No. 18, of this County, and whereas on said date a petition was presented to me for an election to be held in Common School District No. 32, of this County, on the question of consolidating said districts for school purposes, both of said petitions bearing the requisite numbers of signatures of legally qualified voters of the respective districts, and being in every respect in conformity with law; and—

It appearing that Floyd County contains a population of 9758, according to the last United States census; and—

It further appearing that said Common School Districts No. 18 and No. 32, have heretofore, to-wit on the 21st day of July 1917, School District was reestablished and re-bounded by the County Board of School Trustees by order which is of record in Book 1, page 9, Minutes of County Board; and—

It further appearing that said districts are contiguous in their territory; Now, therefore, I, Wm. McGehee, in my official capacity as County Judge of Floyd County, Texas, do hereby order that an election be held in each of said districts on the 8th day of January, A. D. 1929, the election in said district No. 18, to be held at Mayview School-house in said District, and the election in said District No. 32 to be held at the Newland School house in said District; as said Districts were established by the respective orders here-in-above referred to, to determine whether a majority of the legally qualified voters of each of said Districts desire that said Districts be consolidated for school purposes.

T. J. Campbell is hereby appointed presiding officer of the election to be held in Common School District No. 18, and H. D. Bloodworth is hereby appointed presiding officer of the election to be held in Common School District No. 32; and each of them shall select two judges and two clerks to assist them in holding said elections, and the said T. J. Campbell and H. D. Bloodworth shall, within five days after holding said elections, make due return thereof to the Commissioners Court of this County as is required for holding a general election.

All persons who are legally qualified voters of this State and County and who are residents of the respective school districts aforesaid shall be entitled to vote at the election held in the district of which they are residents, and all voters who favor the proposed consolidation of the aforesaid districts shall have written or printed on their ballots the words: "FOR CONSOLIDATION OF SCHOOL DISTRICTS" and those opposed to the proposed consolidation shall have printed or written on their ballots the words: "AGAINST CONSOLIDATION OF SCHOOL DISTRICTS" The Sheriff of this County shall

give notice of said Elections by having this order published for four weeks prior to said elections in some newspaper of general circulation that has been continuously and regularly published for more than one year previous to the date of this order, in Floyd County, Texas. Dated this 3rd day of December, A. D. 1928. (Seal) Wm. McGehee, County Judge, Floyd County, Texas 415tc.

Now on Display in our Showroom!

Today you can see the most sensational automobile ever introduced—The Outstanding Chevrolet of Chevrolet History, a Six in the price range of the four!

Today, this amazing new automobile is on display in our showrooms and we cordially invite you to come in for a personal inspection!

When you lift the hood and see the new six-cylinder valve-in-head engine you will realize that a new era has dawned for the buyers of low-priced automobiles. Representing four years development and testing, this new power plant is a marvel of advanced design. At every speed it operates with that delightful smoothness which everyone demands today in a modern automobile. It develops approximately 32% more power than any previous Chevrolet engine. It displays sensationally greater speed and faster acceleration. And yet, despite this brilliantly improved performance, it maintains Chevrolet's worldwide reputation for economical transportation by delivering better than an average of twenty miles to the gallon of gasoline!

Great Array of New Features

Matching this spectacular advance in performance is the greatest array of new features Chevrolet has ever announced.

The big, new four-wheel brakes are exceedingly quiet in operation. The new two-beam headlamps with foot control dimming device were never before available in Chevrolet's price class. And so on throughout the entire chassis, you will find feature after feature previously demanded in the finest of automobiles and now offered on the Outstanding Chevrolet in keeping with Chevrolet's policy of constant progress.

Distinctive New Beauty

But, however impressed you may be by the mechanical superiority of the Outstanding Chevrolet, your admiration will reach even greater heights when you study the car's distinctive beauty—

—the marvelous new Fisher bodies represent a masterful example of artistic coachwork. Never have beauty, comfort, convenience and staunch construction been more skillfully combined in the bodies of any automobile! So we urge you to come in today and inspect this outstanding new car.

No Disposition Made Of Surpluses In Funds

(Continued from page one) By that presented by Hanna on the following Tuesday and which failed for lack of second. The motion was made in the forenoon before the new court members had been inducted into office.

Petition Filed With Court The actual result of the passing of the order recommended by the judge would be the transfer and re-division of approximately \$9,500 now in special funds that belongs to the county road and bridge fund. The fund of Commissioner W. W. Payne, of Precinct 4, would be the hardest hit of any of the special funds. \$1135.61 would have been

transferred from Hanna's fund, none from E. H. Rankin's fund, \$975.13 from Wood's fund and \$7,740.34 from Payne's fund, a total of \$9,551.05. Transfer of these amounts, it was learned by the reporter, would not affect any of the special 15 cent funds belonging exclusively to the respective precincts. The position of the opposition to the proposed change in handling the general road and bridge fund is stated briefly in a petition, signed by 202 citizens of the county which was filed with the court Tuesday morning by Mr. Payne. It recites: "We find from the records that Precinct 4 has a nice sum of money to carry over, of which any taxpayer would be proud. We feel that this accumulation was brought about by strict economy by W. W. Payne, Commissioner of Precinct 4.

It is being rumored that the court contemplates placing Payne's accumulation back into the road and bridge fund and divide it or give it to Precincts 1, 2 and 3; therefore, we the undersigned taxpayers of Floyd County believe this to be unfair and unjust and respectfully ask that it be not done." Signers to this petition are more numerous from Precinct 4 than any others, however, a considerable number of them reside in Precinct 1, and some in 2 and 3.

Business Leaders See Good Outlook For 1929

(Continued from page 1) Company is especially well pleased with the amount of business received at Floydada and while we have not been operating in your city a great length of time we are looking forward to a record business from that section in 1929 due to the wonderful territory surrounding Floydada."

GENE HOWE Editor Amarillo News-Globe "Amarillo has observed with interest the growth of Floydada in recent years. Floydada is considered one of the most progressive cities in West Texas and with the city's new railroad and the immigration movement into the plains territory the News-Globe predicts for your city continued development and prosperity during 1929. "The News-Globe wishes the people of Floydada and Floyd County the fulfillment of all their dreams of progress and happiness during the new year."

J. B. SCOTT Manager Texas Utilities Company "Our business at Floydada has been particularly pleasing and during the past three years has annually shown an increase of twenty per cent and Floydada citizens may rest assured that the Texas Utilities Company is willing to make any expenditures in order to keep our service up to the growth of your city. "Our company recently acquired the Southwestern Public Service Company at Canyon and we are now serving forty-two Plainhandle-Plains towns, with headquarters at Plainview. "Our management has attempted to give you the best of service and we are certainly appreciative of the business given the firm."

J. A. GILLES Santa Fe Division Superintendent "Although our business at Floydada has been somewhat short due to what I believe to have been a short crop in that territory there are possible improvements contemplated for Floydada by our company this year. There has been nothing definite lined up in regard to a new Santa Fe station in Floydada but the advisability of constructing a new station there is under consideration. There is some plan however to move the present station from its present site to one more desirable. "A recent visit to Floydada was my first for eleven years and the growth of the city was a pleasant surprise. The advantageous position in which Floydada is located has every indication of continued growth. "As to any extensions planned by the Santa Fe Railroad system in this section I am not in a position to be acquainted with their plans in this regard."

ALFRED F. HUNT Manager Floydada Compress & Warehouse Company "Actual pressing by the Floydada Compress and Warehouse Company will likely start in earnest next week. Although to-date we have compressed only a few bales of cotton we have received 5363 bales and of this amount have shipped out 4,046. From ginners reports I would estimate that the total would probably reach 9,000 bales and is about two-thirds gathered. "Our first season in Floydada although the indications are that the crop will be considerably short. The Floydada plant is owned by the Texas Compress and Warehouse Company and was constructed at a cost of approximately \$50,000."

J. B. PATTERSON District Manager Southwestern Bell Telephone Co. "The growth of Floydada in 1929, as estimated by our company, will be greater than that of 1928 and 1927 combined although both of those years showed a substantial development and a nice increase in the number of subscribers using our service in Floydada. This growth will demand a considerable amount of extensions and improvements in your local telephone system. "The present population of Floydada, based on our estimate which regarded by many as much more accurate than the usual estimate for the reason that it is based on the number of telephone users in the city, is 4,032. Taking our figures as a basis for the increased population of 1929 there should be more than 5,000 inhabitants in your city by the close of 1929. Our figures also show that at the close of the three year period, 1927-1928 and 1929, the increase in population in Floydada will be approximately 1104."

Mrs. J. H. Green returned Saturday from El Paso, where she spent the holidays with her parents, Mr. and Mrs. J. S. Key and her sister, Mrs. J. P. Miller. She reported a delightful trip and was very much impressed with auto trips over the paved highways of that section and the mildness of winter there.

Mr. and Mrs. Earl Blanton of Vinson, Okla., were guests Christmas of her sister, Mrs. M. W. Ellis and family.
