# Will Build Plains-To-Fort Worth Rail Connection Soon

### Purchase Of G. T. & W. Said to **Be Approved By Texas Commission**

That the Plains of Texas, through the Floydada gateway is to have direct rail connection to Fort Worth and Dallas soon, as well as the di-where they went to be at the bed-Dallas soon, as well as the direct rail service to the north side of Mr. Harris' father, D. E. Harris' who died December 28 follows and east already in effect, through the purchase of the G. T. & W. by the Frisco and old on Christmas day. He is sur-

Made in the cemetery at Key.

The children are: John Harris, of Scholastics for the new school, and the approval of the Texas Railway Commission and is expected to be approved by the Interstate Commerce Commission, is one of the outstanding bits of well-founded of railroad gossip in the southwest. Frank Knox manager of of railroad gossip in the southwest. Frank Knox manager of the G. T. & W., is quoted in the daily press of Tuesday, as telling of the sale of his line to the Frisco in negotations completed recently, and C. H. Sommer, president of the Q. A. & P. is given credit for effecting the sale. Mr. Sommer in

According to the plan which is scott. Operating arrangements over the Rock Island lines from the eastern terminus of the G. T. & W. already known to have been perfected, would make the short haul line into Fort Worth complete.

At or about the same time the application for the line to Paducah is made, an aplication will also be filed asking an extension of the Erised's Oklahoma branch now at cockerels, 50c; pullets, 50c; capplete the improvements which represent a cost of about \$1500.

All firsts: Cocks, \$1.50; hens, \$1.50; capplication for the line to Paducah is made, an aplication will also be filed asking an extension of the cockerels, \$1.00; ccokerels, \$1.00; pullets, \$1.0

Well founded rumor has it that the purchase of the G. T. & W. by the Frisco's president was effected only after a hot race for the piece of rall line that has been an orphan for years, but for which as many as five systems have been making overtures for a number of years. The Santa Fe had been the most recent prospect for the purchase of the purchase of the purchase of the purchase of the G. T. & W. by the Frisco's president was effected only after a hot race for the piece of rall line that has been an orphan for years, but for which as many as five systems have been making overtures for a number of years. The Santa Fe had been the most recent prospect for the purchase of the purchase of the purchase of the city have asked for the course in foods which will be given by the scarlet fever epidemic has not best solid color pollet. \$2.00; best solid color cockergive.

# Simplicity of cooling system is a feature of the new Ford

A COMPLETE water plant is a part of every automobile as it is a part of every mod-

The purpose of this water plant is to keep the engine cooled to a temperature that will make it efficient in operation. If it were not for this, the cylinder walls would become overheated and the pistons refuse to operate.

The cooling system of the new Ford is particularly interesting because it is so simple and reliable.

When the radiator is full of water, the engine of the new Ford will not overheat under the hardest driving. Yet the water is so regulated that it will not impair engine operation by running too cold in winter.

The cooling surface of the Ford radiator is large, with four rows of tubes set in staggered position so that each receives the full benefit of the incoming air. The fan is of the airplane propeller type and draws air through the radiator at the per minute at 1000 revolutions per minute of the motor.

The hot water around the cylinder head is drawn to the radiator to be cooled by a centrifugal water pump of new design.

The entire cooling system of the new Ford is so simple in design and so carefully made that it requires very little attention.

The radiator should be kept full, of course, and drained once each month so that sediment will not collect and retard the free passage of water. In cold weather, a reliable anti-freeze solution should be added.

As owner and manager of this important water plant you should also see that the water pump and fan shaft are properly lubricated and the packing around the pump shaft kept in adjust-

Hose connections may also need replacement after long service. For those little adjustments, it pays to call on the Ford dealer.

He works under close factory supervision and he has rapid rate of 850 cubic feet been specially trained and equipped to do a

thorough, competent job at a fair price.

### FORD MOTOR COMPANY

# To The Merchants of Floydada

As we begin a new year, may we take this opportunity to express a word of appreciation for your loyalty and patronage during the twelve months of 1928.

Without the active interest and support of its advertisers, no newspaper could long survive. On the other hand a good newspaper is of inestimable value to the business interests of any city.

Your loyal patronage, therefore, has been the means of giving to this community a much better Hesperian than it could possibly have been without your patronage, and we are sure that our readers, one and all, will join us in this expression of appreciation.

> May the coming year bring genuine prosperity to every business house in Floydada.

and there one day it will be returned along with its author, never to deceive the nations and wreck human lives again forever. The Lesson Proper

This reminds us of the other John who declared that he was only, "the voice of one crying in the wilderness." Darkness is the symbol of sin, and light the symbol of righteousness. "God is light, and in-Him is no darkness at all," is simply any of saying that God. y another way of saying that God is perfectly holy and in Him is no sin at all. This is also said of Jesus whose kingdom is called a kingdom of light, and He is termed the king of day. For this reason shadowy conduct on the part of any studies at Tech College, after spending the spending of the control of t professed believer is inconsistent.

There is plain language in that sixth verse. A straight blow at hypothesis to be Mrs. E. B. Mayhew left Monday more to profess to be very conduct. Recently a murder-er was on trial for his life, and on the witness stand declared that he father, who is near 64 years of age, was not expected ±0 live. had a revelation from God which him to commit the murder. neither does He tempt men to sin. (See James 1:13-15.) Man is utterly foolish to try to blame the only perfect being in the universe with

proves us to be sinners, then by again to make this city his home. the same rule if we walk in the light, we are credited with being righteous. (Verse 7) Two blessings follow walking in the light. (1) We have fellowship with each other. This is not the least of the lowship with the best people in the community, to be a welcome guest His Son cleanseth us from all sin. This is a blessing beyond our imagination to conceive, much less our ability to describe.

"What can wash away my sin? Nothing but the blood of Jesus, What can make me whole again?

Nothing but the blood of Jesus." Nothing but the blood of Jesus."

If we have sinned what should we do about it? Verses 8-9-10.

Several things men have tried to do about it. Some would deny that they have sinned, in this they make God a liar and show that His word is not in them. Because He has said that we "have all sinned and come short of the glory of God."

Rom. 3:23. Again if we say that we have no sin we deceive ourselves, like a person dying with some terrible disease, yet denying that he has the disease at all. Still anothhas the disease at all. Still another class underestimate the power of sin to damn and destroy, ignoring the fact that the history of sin is a record of blood, tears, sorrow, disease, death and doom. The reasonable and Scriptural thing to do is to confess our sin, and experience the peace and joy that comes from the forgiveness of sin. Like the prodigal son, the world needs to sob out its confession upon the bosom of the Heavenly Father, and know the joys of reinstatement in His love

and favor.

We would be happier if we never sinned according to chapter two verse one, but if we do sin let us remember that we have an advocate with the Father, Jesus Christ the righteous, who will plead our cause for us. He has never lost a case before the supreme court of high

BARGAIN TIRES ARE REAL BARGAINS?

ISN'T it better to a paya little more for a tire you know is good than to ride in fear and trembling on a "bargain" tire?

The writer points out that radios on ships in those comparatively recent days were novelties which have now come into the most practical the market but how to prepare a light fluffy product. Likewise, uses. He cited several instances of whatever cut she buys to bring out its best qualities. Appetizing dishes a light fluffy product. Likewise, the writer says, heavy bread pudding or lumpy rice pudding can be made from all cuts of beef avoided. so that purchases may fit any bud-

> Recipes for a number of different cuts of beef have been worked out by the Bureau of Home Economics of the United States Department of Agriculture and published in a leaf-let for free distribution. The principal points in cooking the more tender cuts are: Searing the surface of the meat first at a high temperature for a short time or until a vell-flavored brown coating is formed, reducing the temperature so as to finish cooking at a moderate heat; in the case of roasts, using a roast-meat thermometer in the center of the roast to indicate when the meat is rare, medium, or well done. Beef is rare between the temperatures of 130 degrees and 150 degrees F., medium between 150 degrees and 170 degrees F., and well done at about 180 degrees F. As many people like mushroom sauce with their steak and Yorkshire pudding with rib roast of beef. these recipes are also given in the

The general method of cooking the tender and less expensive cuts of beef differs from the method for the more tender cuts. Heat, moisture, and slow cooking help to accomplish the desired result. meat is first seared in a small quantity of fat until it is browned, and then cooked with a little water in a tightly covered container. Pot roast of beef and Swiss steak are typical recipes for meats cooked by this method. Other recipes given in the leaflet are for stuffed flank steak, broiled Hamburg steak on onion rings, and beef croquetts.

CITATION ON APPOINTMENT OF TEMPORARY GUARDIAN

C. HANNA A CANDIDATE
FOR MAYOR OF FLOYDADA
THE STATE OF TEXAS,
To the Sheriff or any Constable of

The Hesperian this week is authorized to put the name of W. C. Hanna, for the past six years commissioner until January 1 for Precinct No. 1, as a candidate for the office of mayor of Floydada in the city election to be held the first Tuesday in April Tuesday in April.

"You can say if I am elected I will do my best to serve the people of the city faithfully and well," Mr. Hanna said Saturday, "And if elected, I will give the problems, as they arise, my careful consideration and make an effort to get the most possible for the money that comes into the treasury, working with the council to this end."

Mr. Hanna has resided in Floyd.

Mr. Hanna has resided in Floydada for the past three years. Prior to that time he lived in Harmony Smith was, by the County Court of Smith was, by the County Court of Community and still has a farm there. He is looked upon as a capa-Floyd County, Texas, duly appointed Temporary Guardian of the estate of said Minor, which appointment will be made permanent, unless the same shall be successfully contested at the next term of said Court, commencing on the 3rd Monday in January A. Cash Dealer In

SMART WEAR FOR MEN SINCE 1900 Floydada, Texas, Jan. 8, 1928.

TO OUR CUSTOMERS:-

We have finished another mile stone in our business in Floydada and again we've prospered and had an increase in business making many, many many years doing business with men and women in Floydada. You have been instrumental in making our financial success what ever it is. I thank

Year in and year out we have tried to do a clean cut fair business, promising nothing through large newspaper ads we did not believe we could live up to. We have never promised "Tom Moore dime cigars for five cents" to get you in this store. It can't be done. A ten cent cigar is a ten cent cigar and when a dime cigar is sold for a nickel, we believe there is something wrong with the cigar.

We have surprised ourselves in the number of suits we've sold—both ready made and made to measure during the past 1928. On the first day of one of the big sales held in Floydada we sold sixteen suits of clothes by offering only the best values we could buy and offer for the dollar. We believe we have sold good merchandise. We have no thoughts of changing our plans as to the class of merchandise we sell by dipping down in the bottom and securing sleeked over merchandise which deceives the public gets the money and leaves them wishing they had placed a dollar or two more on the purchase and selected fair merchandise in the beginning.

This last is being practiced more year in and year out by the "fly by night" merchants who do not make a specialty of wearing apparel and who pull people in by a Smashing something for nothing—then offering a few items, the world knows the price on, at actual cost—in other words making leaders to get you in their store with a view of making a profit on something you know nothing about the value of. We are frank to say, Our method will never be this. We believe a kid with fifty cents and knows nothing of values is entitled to the same treatment in our store as a man wort ha hundred thousand and knows clothing from A to Z. We have a string of customers who were kids and bought their first suits here—who have families now and continue making their selections here. In fact we marvel when we think of some of these fellows who have been coming back more than twenty years.

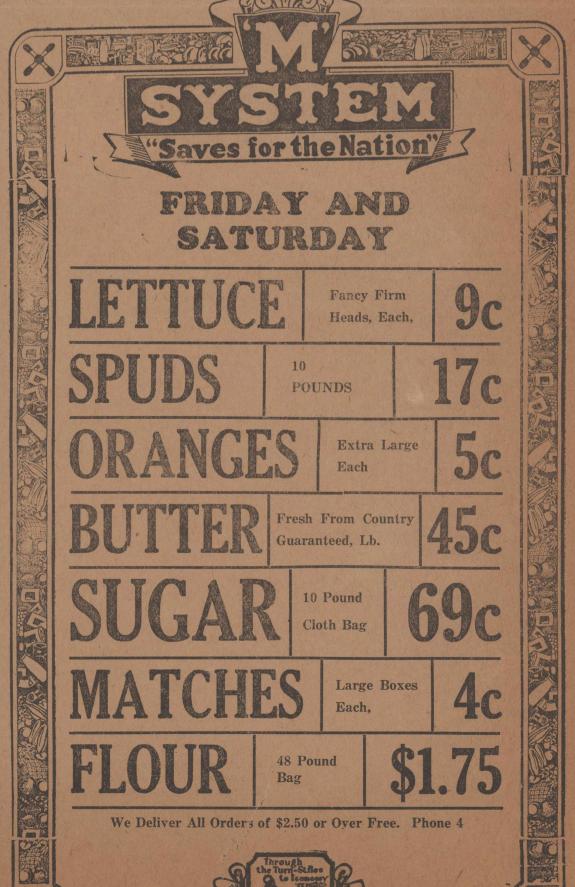

Our methods will not change. Today we have a spring shipment, the first one, seven hundred dollars—Stetson Hats. We started with Stetson Hats, Walk Over Shoes, Holeproof Hosiery. We think they are still the best buys for the money. We started with International Tailor Made clothing. We've been promised lots of seemigly good suits from other companies for seemingly nothing. We find we get about what we pay for and thereby deliver to our customers about what they pay for. We are never going to promise you something for nothing unless an out right donation

I personally appreciate the fact that these methods have met with your approval and you have shown me it does with a continue to come back year in and year out—in the face of a lot of ten cent 'Tom Moore cigars' for five

If we have no hard luck as to health, etc., we expect to make 1929 the greatest year we've ever had. If you can see your way "clear" to shop with us—we will again promise we will try to deliver you one hundred cents on the dollar for each dollar spent.

We offer no prizes—no leaders—but we are still studying the merchandise game and will buy the best we can, handing it on to you.
