

MAKING VALENTINES is serious business for a first-grader, as Melissa Jones of Central Elementary School discovered as she worked on one for her mother, Mrs. Melinda Jones.

OH NO, that's not going to work. Melissa laments as she toils with scissors, paste and pencil in an effort to produce a paper heart.

AH, THAT'S BETTER, after a session of tedious work and success seems to be just around the corner, and just in time, too, for Valentine's Day.

I DID IT. Melissa beams as she surveys the finished product, a Valentine made with her own hands, the type that mothers of all first graders like to receive. (SDN Staff Photos By JoAnn Nunley)

Commissioners Indicted

CANYON (AP)—Randall County commissioners Jim Fletcher and Dee Griffin Sr. have been indicted on aggravated perjury charges by a grand jury investigating "gross deficiencies" in county fiscal planning.

Griffin, a two-term commissioner, was indicted Wednesday on two counts of aggravated perjury and two counts of official misconduct. Fletcher, who is leaving office to run for the Texas Legislature, was named on one count of aggravated perjury.

The panel also released an eight-page report critical of a county budgeting process containing "gross deficiencies and lack of judgment which have caused Randall County citizens to pay many unnecessary tax dollars."

Explosion Levels Block

ESSEX, Ontario (AP)—A natural gas explosion leveled a city block in this small Canadian town early today, demolishing seven businesses and shattering windows in a blast that was heard 10 miles away.

"To our knowledge there are no fatalities, but everyone and everything in the town has been affected," said Constable Neil McWhinney. "Every building has major or minor damage."

Two men were hospitalized—a gas company worker who tried to disconnect a leaking gas meter before the explosion, and an unidentified man who was pulled from the rubble of his upstairs apartment. The man was found "up to his armpits" in debris, a firefighter said.

The SDN Column

Breaking habits is a tough job. The Department of Public Safety Driver License office has been in its "new" location at the county jail for a full year now, but a lot of people still look for it at its old address, reports Jessie Scarbrough.

So, if you need to renew your drivers license, or get one for the first time, go to the new jail building at the corner of 26th St. and Ave. M, where you will find the DPS offices along with those of the sheriff. If you go to the former DPS address at 1912 37th St., you'll find yourself at Travis Flowers.

★ ★ ★

There's still some ginning going on in the county, although for the most part the cotton harvest is over. But much of the 1979 crop was put into modules, or ricks, and some of these got soaked, which slowed the ginning pace. This has been especially true at Fluvanna, we are told.

Speaking of Fluvanna, Charlie Bley, who has seen a few crop seasons come and go in that community, has some advice for new farmers: "If you didn't make any money on your 1979 crop, you had better get into some other business because you are not likely to see another year that good for farming."

★ ★ ★

We notice that Col. Jim Adams, the new commander of the DPS, has announced plans to crack down on speedsters on the highways. He may even put some officers in unmarked cars.

This, of course, would be for the purpose of catching violators rather than merely slowing them down. There's nothing like the sight of a DPS car to take the pressure off the accelerator.

Like the wife who was supposed to meet her husband downtown, but showed up late. She had a ready explanation:

"Traffic was terrible. A police car was right in front of me all the way!"

But the 55 mph speed limit still has its critics, despite the fact that it saves fuel and lives. We are told that there is a bumper sticker that says "Even a hockey puck goes faster than 55." It gets knocked around a lot, too.

To Change Insurance Policy...

Say Funds Offered Labor Leader

By ROB WOOD
Associated Press Writer
HOUSTON—An attorney for a labor leader said today his client was offered "a substantial sum" by Houston Port Authority Commissioner John Garrett to change the union's insurance policy.

Attorney Michael J. Hinton said Garrett had met twice with James Middle-

ton, secretary-treasurer of Laborers International Union Local 18.

Hinton said Middleton rejected the offers.

Hinton said, "There was one small offer to Mr. Middleton and one large one."

When asked to specify the amount, Hinton said, "I can't tell you, but it was extremely large, it was up there."

The union did not change any of its insurance cov-

erage, Hinton added.

Hinton's remarks came this morning after his client, Middleton, had concluded testifying before a federal grand jury in Houston investigating the FBI's Operation Bri-lab. Middleton refused to answer questions from reporters following the grand jury appearance, referring all queries to Hinton.

Another Houston labor leader said Wednesday he accepted money from un-

dercover FBI agents in operation "Bri-lab," but claims the funds were used for his public relations firm.

"I received fees and commissions from Joseph Hauser and the FBI for services of my company," Harold Grubbs, education director for the Pipe Fitters Local 211

Joint Apprenticeship and Training Committee, said Wednesday.

While refusing to say how much money he received or what he did with it, Grubbs added that if he was doing business with the FBI, "they owe me my commission for February, and I wish (See Report, Page 11A)

Shaw Reception Here Tomorrow

LARRY DON SHAW

concern."

Shaw, 27, an agricultural communications graduate of Texas Tech University and a Big Spring cotton farmer and cattle raiser, has stated that he intends to emphasize personal contact with the voter. "Only when we engage in one-on-one conversation," he says, "can we perceive the voter's needs and proceed to take the proper action."

Sales Tax Rebate Has Big Increase

Scurry County supporters of Democrat Larry Don Shaw, newly announced candidate for State Representative of the 63rd District, will host a come-as-you-are candidate's reception at 9 a.m. Friday at the Las Palmas Restaurant.

Marvin Standefer, Shaw's district campaign coordinator, said that Shaw will discuss issues individually with all who attend.

"Everything will be kept informal," Standefer said. "We will have refreshments, of course, but especially a chance to get acquainted. What counts is that voters will have the opportunity to speak personally with a prospective legislator on matters of

Snyder's retail sales tax rebate for the period ending Jan. 31 this year amounted to \$41,256, a 24 percent increase over last year, Bob Bullock, state comptroller, has announced.

The rebate for the corresponding period last year was \$32,485. This year's total to date is \$58,319, compared to a total for the year of \$46,786 at this time last year.

Snyder led area cities in its population bracket in sales tax rebates during the latest period and also leads for the year. The state comptroller collects the city sales taxes along with the state sales taxes and then rebates the one percent to the cities.

The latest rebates to

Ask Us

Q—Why did SCAT take channel 39 from Dallas off the cable and put CBN on?

A—Mel Gilbert, executive vice president of Snyder Community Antenna Television (SCAT), says that since Channel 39 is owned by CBN (Christian Network) which has indicated that it will gradually change its programming to CBN offerings exclusively, SCAT decided to go ahead and schedule CBN full time now. The cable company had some requests for additional religious programs also, which influenced the decision.

Two Ira Youths Injured

Two men were injured this morning in a two-vehicle accident south of Snyder.

Taken from the scene to Cogdell Memorial Hospital were Wendell Clay Wilbourn, 19, and Jeffrey Lynn Murry, 17, or Ira. Hospital personnel reported Wilbourn was admitted for observation and that Murry will be transferred to Methodist Hospital in Lubbock.

Highway patrolmen who investigated the wreck said preliminary indications show Wilbourn was driving a 1967 Chevrolet that was northbound on an unnamed county road when a head-on collision occurred with a southbound Datsun driven by Murry.

The accident occurred about 6:20 a.m. today, approximately 7.2 miles south of Snyder.

Both vehicles were destroyed.

WTC's Energy Curbs Studied

Energy conservation measures at Western Texas College will be outlined for the board of trustees at its April meeting in reports from the campus Energy Committee.

Dr. Ben Brock, committee chairman, appointed two new groups to study phases of the conservation program, at a meeting of the committee Wednesday. Rex Hopkins, maintenance director, will chair the committee to study efficient energy use in the operation of the campus. Dr. Jim Palmer, social science division chairman, will head a scheduling committee.

This group will consider such proposals as a four-day class period rather

than the present five-day period and other methods of conserving energy both for the college and for students who commute to the campus.

Dr. Robert Clinton, WTC president, pointed out that the college has a dual obligation in finding ways to conserve energy. The college must operate as economically as possible while still serving the community, and must also concern itself with energy conservation because of developing shortages.

Kenneth Levens, student body president, told the committee that students were aware of the increasing costs of leaving the (See WTC, Page 15A)

teddy's easy plan

Teddy Kennedy, desperate to shore up his foundering presidential campaign, is offering to take away freedom in order to provide the public with a sense of security.

His solution of American dependence on foreign oil is no less a threat to freedom. More frightening than this attempt to play to the fears of the mob is the realization that public opinion experts likely advised Sen. Kennedy on what he should say to achieve maximum support.

State controls always appear to be an easy way out of a bad situation. Unfortunately, they don't work. If the American people have learned any lesson over the last two decades it should have been that politicians offering the easy answers are suspect.

The Massachusetts Democrat, essentially, is blaming the American people for nearly 15 percent inflation ravaging this country. This man has done more to stimulate inflation than the accumulation of every wage earner who asked for a raise during the nearly 20 years he has held public office.

The call for gas rationing is no less repulsive. Economist after economist has pointed out that government policy attacking the power of the oil companies is actually encouraging the use of foreign oil.

The things Kennedy suggested in his speech at Georgetown University would dramatically alter the American economy for the worse. Does anyone believe that peacetime gasoline rationing will ever end once the government hires the bureaucracy necessary to administer the program?

There have been few times in this country's history that our economic problems have seemed so perilous. It is no time to junk an economic system that worked in the past; it is time to examine why the economy of the United States used to work and why it is not working now.

my turn

by john long

Why is it that a man is rarely satisfied with owning one of anything? Owning one article, thing, or item should be enough to satisfy a person's desire for an acquisition in any given field. But it rarely does.

I once owned a single wheat penny. But I wasn't satisfied with owning only one. I wanted more, so I bought another one. Then I had two, but even owning two didn't satisfy me.

At one time, my coin collection, the whole of it, fitted inside a medicine bottle. From there it grew until I needed a three-by-five-inch index card box to house it. Now my safety deposit box at the bank is bulging over.

Consider the case of the Carson City silver dollars that went on sale last week. At first I pooh-poohed the idea of buying even one of them. Then I got to thinking that owning one might be a good idea. From there, my reasoning went, if owning one of them might be good, then owning two would be twice as good.

It is that same type of reasoning that permeates my thinking in almost everything. I have noticed that same kind of avarice logic in other people, too.

Have you ever noticed how a man is said to be poor if he doesn't have two nickels to rub together? Why should he need two? Couldn't he be just as poor if he had only one thin dime to his name? If a

poor man had a dime I suppose he would trade it in for two nickels. He would be just as poor as before, but he could rest more easily in knowledge that he had two of something.

A person's appetite is never glutted in anything he does. I wouldn't go so far as to call it mere greed. That would be too simplistic an explanation. A person's appetite seems only whetted by the start of anything. There comes a point at which people seem to become obsessed with the idea of collecting. It is akin, I think, to hoarding.

I started out my coin collection with a wheat penny. I now have thousands, and the ridiculous thing is I don't know where it will all end.

Owning only one of something never really sates a person's thirst for squirreling things away. We all should know.

BARBS

Phil Pastoret

There's a great difference between reaffirming something and merely repeating yourself.

Some people think on a high plane, while a greater percentage spend their time at 51,000 feet being quietly terrified.

The only person more offensive than a boorish smoker is his nonsmoking, fanatic counterpart.

paul harvey

american pie

Socialist governments seek to feed everybody equally by slicing the pie in identical slices.

Our capitalist system prefers to feed everybody better by baking a bigger pie.

At least, we used to. Last year for the first time ever we baked a smaller pie.

The productivity of American workers - the output per manhour - last year declined nine-tenths of a percent.

Always theretofore permanent-hour productivity in the United States had increased each year. Not last year. Last year it decreased almost one percent.

And the problem was not strikes; there were fewer work days lost to strikes last year than any year in several.

The problem was less efficient production facilities and less efficient workers.

While the great American pie was getting larger every year, we all enjoyed more of it and paid less for it.

But when workers are

paid more while turning out less goods and services, naturally the goods and services we turn out cost more.

So the lack of productivity becomes a major factor in inflation.

Let's not imagine that lazy workers are the whole problem.

You give an average worker a machine to assist him and he can turn out more. Give him a better machine and he can turn out more yet.

Nobody has demonstrated this fact better than the American farmer who, with efficient machinery, can produce enough for himself and 50 other people.

The Japanese are instinctively and by tradition industrious. They have been further aided in their productivity, however, by steel mills that are more modern than most of ours.

As an aside, our government, in helping defeated Japan back to its feet following World War II, assisted the Japanese in developing steel-making

capacity which now is eclipsing our own.

Japan leads the world in per-worker productivity - and West Germany is close behind - because both came out of the Big War with a come-from-behind spirit and with newer and better and more efficient industrial equipment.

The average factory in the United States is using machinery that's 20 years old. In Japan the average production machine is 10 years old.

Americans have further curtailed productivity with environmental restrictions which other nations ignore.

There are those who believe that "a military war would be good for us," that a national emergency would "put the spurs to us."

What an awful price to pay for increasing pro-

ductivity. But if ours continues to decrease we may lose an economic war and reap a whirlwind almost as devastating.

(c) 1980, Los Angeles Times Syndicate

Homeless Bull Waits For China To Beckon

HOUSTON (AP)—Mister Sugarato 806 was an eager 13-month old, 900-pound purebred Brahman bull a year ago when his owner presented him as a gift to Chinese vice premier Teng Hsiao-ping during a visit to Texas.

John Joyce, managing partner of the Seaberg Ranches at Boling and Dayton, saw the gift as a way of opening trade with mainland China and Mister Sugarato 806 may have seen a chance for

world travel and to be among the few of his breed to see China.

Alas, neither dream has come true.

Joyce has spent the past year trying to find out from both governments how and when he can deliver Mister Sugarato 806 to mainland China.

Meanwhile, Mister Sugarato 806, famous at the time he was made a gift to the vice premier, now languishes on a pasture 30 miles south of Houston, pondering his fate and forlornly munching on oats with the common cattle.

"He's two years old now and weighs 1,400 pounds and he may die of old age before he ever gets to China," said Joyce. "I just want someone to tell me if they still want him. I wouldn't have any trouble selling the bull to someone."

After receiving approval of both governments to make the presentation, Joyce said he gave the bull to the vice premier Feb. 2, 1979 when Teng attended a rodeo at Simonton, 30 miles west of Houston.

"They told me they would get in touch with me as to how I was to get the bull to China," Joyce said.

But no one ever called and Joyce has been unable to get an answer after calls to the Secretary of Agriculture's office in Washington, Texas

another major buyer of Middle East oil, whose substantial demands would increase upward pressure on already soaring prices. At worst, it could lead to an attempted Soviet military or political takeover of one or more oil-producing nations.

Carter's embargo of 17 million-metric tons of feed grains that the Soviets had contracted to purchase poses a very real danger of increased taxes, higher inflation and larger federal budget deficits in this country.

Although both future and cash grain prices have been temporarily stabilized following a brief but precipitous drop, the vast surplus that the federal government has agreed to buy will continue to overload the market posing a constant threat of economic disruption.

The price the government must pay for storage facilities, price supports and other grain embargo costs currently is estimated at \$2.5 billion to \$3 billion - and those figures do not include the cost of a greatly expanded "set-aside" or diversion program under which farmers will be paid in the future not to grow corn and other crops.

An already weakened dollar will be adversely affected by an expanded balance-of-payments deficit. Other nations may become chary about relying upon imports from the United States that are susceptible to politically motivated embargoes.

Carter's response to Soviet adventurism in Afghanistan undoubtedly is more acceptable than this country's reaction to the USSR's earlier military repression in Hungary and Czechoslovakia - occasions on which the United States did little more than send condolences and a funeral corsage.

But when the occasion demanded a rational policy carefully crafted to produce a desired result, Carter only reacted impulsively and irrationally to the time-honored cry of "don't just stand there, do something."

letter to editor

To The Daily News: The proposed Equal Rights Amendment is neither un-American nor immoral. I wonder how many people have actually read it.

Below is proposed Equal Rights Amendment in its entirety.

1. Equality of rights under the law shall not be denied or abridged by the United States or by any State on account of sex.

2. The Congress shall have the power to enforce by appropriate legislation the provisions of this article.

3. This amendment shall take effect two years after the date of ratification.

The above is all the Equal

Rights Amendment says. I for one am tired of "put down the ERA" articles and the sexist jokes I often see in the SDN column.

Because of the push for equal rights for women, I have a more fulfilling life than my mother had before me. Hopefully, with the passage of the Equal Rights Amendment, my daughters-in-law will have even more opportunities in life than have been available to women of my generation.

I firmly believe the Equal Rights Amendment is their chance for a better future.

Spring Toy Show Planned At Dallas

DALLAS, TEXAS—“Double the amount of show space will be available for the permanent and temporary display of toy products during the Dallas Spring Toy Show, March 23-27,” said Paul Lentz, Dallas Market Center vice president and show manager.

With the completed expansion of the World Trade Center, more temporary and permanent space will be available on the seventh and eighth floors, doubling the amount of previous square footage used during the show. Additional permanent showrooms are located on the first and second floors of the Trade Mart.

The Dallas Toy Show is the largest regional toy show in the United States with representation by every major toy manufacturer. According to Lentz, exhibitors are looking forward to the expanded toy show and the opportunity to show an increased number of products.

“The March Toy Show will be our biggest toy show to date,” said Lentz. “And with the attraction of larger and better facilities and more lines, we are expecting an increase in attendance from store owners and buyers from the southwestern portion of the United States.”

Over 250,000 square feet of show space in one location will be used for the display of hundreds of lines of toys, dolls, plush, hobbies and crafts, wheelgoods, holiday decorations and more during the five-day show.

For more information or hotel reservations call the Dallas Market Center toll free at 1-800-527-9065 or 1-800-442-7111.

Hair Fashions Demonstrated At Sorority

Lawanna Vincent of The Cuttery presented the program, “Personal Beauty,” at the recent Beta Sigma Phi meeting held at Martha Ann Woman's Club. She demonstrated current hair fashions on models Valerie Wilson, Debbie Burney and Jan Harrell.

Mrs. Vincent stressed the necessity of healthy hair and good hair care as the basis of any style a person might choose. She used fashionable combs, ornaments and feathers, which according to Mrs. Vincent, are fashionable this season, in her demonstrations.

Mickey Baird, ways and means chairman, reported the Annual Valentine Dance held Feb. 2 was a success.

Paula Middleton was appointed secretary for the remainder of the year. Bonnie Hollis, former secretary, will be moving to Lubbock soon.

Hostesses for the evening were Sharon Hazalik and Mary Lou Scott.

Heart Fund's Rock'n Roll Day Friday

Leisure Lodge residents will be rocking, rolling and walking for pledges and donations for the American Heart Association, Feb. 15. The activities will begin at 9 a.m. and conclude at 8:30 p.m. The day's events will include the crowning of a king and queen chosen by the residents.

Funds raised will be used in research, public education, CPR education classes and purchasing of new equipment, according to Helen Munoz, activity director.

Juanell Coats, administrator of the lodge and holder of the CPR certificate, says, “Help us do our part in battling heart attacks and strokes.”

Several volunteers are making contacts for pledges and donations. Those who have not been contacted and wish to should call Mrs. Munoz or Ms. Coats at 573-6332.

Valentine's Busy For Valentine

VALENTINE, Texas (AP)—There are only 180 boxes to tend in the little post office, but as you might expect Valentine Postmaster Doris Kelley gets a lot busier about this time of year.

Mrs. Kelley, postmaster in this West Texas town for the past 25 years, says each year the load of valentines get a little heavier. Last year, she received more than 2,000 from people who wanted her to postmark them and send them on. This year, she hasn't had time to get an exact count—but it's a little higher than last year.

Some of the valentines have come from as far as Australia and Saudi Arabia, she said. “Quite often they even put one in for me.”

Dear Abby

8th Commandment Includes Bibles

By Abigail Van Buren

DEAR ABBY: Someone signed STOLE ONE asked how you thought God would feel about a person who steals a Bible out of a hotel room, and you replied, "Nobody needs a Bible as much as the person who would steal one."

Well, Abby, you sure goofed on that one. You should have pointed out that taking a Bible is not stealing! The Bible societies feel they have won a great victory when someone takes a Bible with them. That's the purpose of putting the Bible there in the first place. It is the duty of all good Christians to spread the gospel throughout the world.

I always feel sad when I see an old Bible, good as new, lying in the same place for years, unopened, unread, serving no one.

Please print my letter so the person who took the Bible will know that he is not guilty of stealing.

I took a Bible once and I feel real good about it.

C. M. IN MICHIGAN

DEAR C.M.: I've seen many a Bible in many a hotel room, but I've yet to see a sign saying, "Help yourself." Read on for an authoritative view of the subject:

DEAR ABBY: As a regular reader of your column in the Wenatchee (Wash.) Daily World, and a representative of The Gideons International, may I add to your logical reply to STOLE ONE.

The Gideons International is a society of Christian business and professional men—all members of most evangelical churches of which there are at 80,000 in 124 countries throughout the world.

Every 17 days we place about one million Bibles (or 20 million a year) in the rooms of hotels, motels, hospitals, jails, and other public places in an effort to serve mankind by making the Scriptures available to as many people as possible.

These Bibles are the property of The Gideons, and are paid for by the free-will gifts and offerings of concerned Christians of all denominations.

Of course, we neither encourage nor condone taking the Bibles, but many do, which necessitates replacing a good number of Bibles annually at our expense.

We receive letters from people who confess having taken one of our Bibles; most send a donation along with their apologies.

The current cost of the Bible is \$2.85. Abby, you would be doing us a great service to let your readers know that anyone who has taken a Gideons Bible and wishes to make restitution may send his donation to:

The Gideons International
2900 Lebanon Road
Nashville, Tenn. 37214

ED. S. KNOWLES

CONFIDENTIAL TO YOU? Today is St. Valentine's Day, so be a sweetheart and call someone who's alone and say, "I'm thinking about you." Take some flowers to someone in a nursing home. Put all your discarded clothes in a box for Goodwill. Donate some blood. Pay your dentist bill. Take a homely girl to lunch. Listen to your teenager. Tell your parents you think they're great. Tape a love note on his (or her) mirror. Forgive an enemy. Send a donation to CARE or the Salvation Army. If you love someone, tell him (or her) now; don't wait until next Valentine's Day to be a sweetheart again.

Love ABBY

Do you feel left out? There are secrets in developing the art of making yourself popular. You're never too young or too old to learn. Get Abby's booklet: "How To Be Popular: You're Never Too Young or Too Old." Send \$1 with a long, self-addressed, stamped (25 cent) envelope to Abby, 132 Lasky Drive, Beverly Hills, Calif. 90212.

LAFF - A - DAY

"That's what I hate to see... a dedicated person going commercial!"

Egypt Admits Training Of Afghans

By The Associated Press
Egypt is training Afghan rebels, as charged by the Soviet Union, and will arm them before sending them home to fight Soviet intervention in their nation, Egyptian Defense Minister Kamal Hassan Ali said.

He did not disclose the size or location of the camps of how many Afghans were involved, but told reporters in Cairo on Wednesday, "Egypt is training some of them to some extent," and that President Anwar Sadat had approved the project last month.

Diplomatic sources in London, meanwhile, said Moscow had advised key Asian, European and African nations that it will start pulling some of its

estimated 90,000 troops out of Afghanistan and open talks with Pakistan as soon as the situation stabilizes along the Afghan-Pakistan border.

A Pakistani government spokesman said such talks would be welcome, but only after a complete withdrawal of Soviet troops from Afghanistan, Pakistan's neighbor to the northwest.

However, Indian officials said Soviet Foreign Minister Andrei A. Gromyko had given them little or no hope for an early troop withdrawal from the landlocked Central Asian country on the Soviet Union's southern flank.

Gromyko, attending a New Delhi banquet to honor his Indian counterpart, warned Pakistan it

must end "intrusions into the territory of Afghanistan" if it wants peace along the border. He returned to Moscow today after a 40-minute meeting with Indian Prime Minister Indira Gandhi.

Indian spokesman J.N. Dixit said the two nations had different interpretations of the Soviet intervention, but that Gromyko had "taken note" of the Indian position "that there should be non-interference in the internal affairs of sovereign countries and that frontiers should be inviolable."

However, their joint communique made no reference to Soviet action in Afghanistan. It said only that Russia and India had "reviewed the international situation including

the developments in the region and around it. The two sides expressed their agreement to maintain the exchange of opinions between the two countries on issues of mutual interest on a continuing basis."

An Indian envoy sent to Afghanistan as part of Mrs. Gandhi's efforts to avoid further superpower confrontation in the region said Afghan officials told him they would "invite" the Soviets to withdraw when they received assurances there would be no "outside aggression."

Previously the Kremlin has charged that Afghan rebels, aided by the United States, Egypt, China and Britain, were launching attacks from Pakistan into Afghanistan. Before Ali's disclosure, the govern-

ments of those countries had denied the Soviet charges.

President Carter, at a Washington press conference, reiterated his call for a U.S. boycott of the Moscow Olympics this summer if Soviet forces do not leave Afghanistan. The International Olympic Committee this week

overrode the U.S. protest and voted to hold the Olympics in Moscow as planned.

British novelist Aldous Huxley worked on the scripts of a number of movies, including the 1940 version of "Pride and Prejudice."

Carter Okays Iran's Grievance Panel Request

By BARRY SCHWEID
Associated Press Writer
WASHINGTON (AP)—
President Carter, in a
move to gain release of
some 50 American hos-
tages, is endorsing an
international commission
to explore Iran's long-fes-

tering grievances against
the shah and the United
States.
His declaration, at a
news conference Wednes-
day, appeared to mark a
policy change. Carter said
there were "some positive
signs" toward ending the

13-day impasse but refus-
ed to go into details.
His announcement cap-
ped day-long rumors and
political duels between his
administration and Sen.
Edward M. Kennedy, his
chief challenger for the
Democratic presidential

nomination.
The Massachusetts sen-
ator had sought to take
credit for the latest move.
But Carter called Ken-
nedy's claim—and the
senator's litany of alleged
U.S. foreign policy mis-
takes—"damaging to

our country."
The president's endorse-
ment of "an appropriate
commission with a care-
fully defined purpose"
contrasted with his doubts
at a news conference Nov.
28 that any forum would
listen to Iranian com-

plaints, justified or not.
Carter was careful not to
proclaim a breakthrough
in the tedious and still
unsuccessful negotiations
over the Americans seized
by militants on Nov. 4.
Reflecting past disap-
pointments, he said "ex-

perience has taught us to
guard against excessive
optimism."
The president did not
spell out the kind of com-
mission he had in mind,
although he said any
settlement must be "con-
sistent with our goals and

our essential international
principles."
Sources said he wants a
neutral commission con-
ducting a balanced inquiry
into past U.S. support for
the deposed Shah Moham-
mad Reza Pahlavi.

Carter's approach clearly
rules out a show trial
designed merely to assess
guilt against the United
States, the sources said.
Kurt Waldheim, the U.N.
secretary general, and
other intermediaries have
been at work for some
time on a number of plans
keyed to creation of a
commission and freeing
the hostages.

However, a spokesman
for the militants who
occupy the U.S. Embassy
in Tehran reiterated Wed-
nesday their initial and
unwavering precondition—
return of the shah to Iran
to face trial as a war
criminal.

Abolhassan Bani-Sadr,
the new Iranian president,
stressed three demands in
a broadcast interview. He
said the United States
must acknowledge its
"crimes," accept Iran's
right to extradite the shah
and recover his wealth and
promise not to inter-
fere in Iranian affairs.

Stiff as his proposals are,
Bani-Sadr did not insist on
extradition of the shah
from Panama, but simply
Iran's right to bring him
back.

The key to the crisis
may be held by Ayatollah
Ruhollah Khomeini,
whose position U.S.
officials said privately is
not clear. However, Bani-
Sadr said Wednesday that
Khomeini had accepted
his proposals.

For his part, Carter
struck a conciliatory
stance. He did not casti-
gate Iranian authorities or
the militants, as he had in
the past and he did not
insist that the Americans
be set free before the
commission could begin
its inquiry.

And yet, the president
refused to accept blame
for the U.S. role in
restoring the shah to the
Peacock throne in 1953.

"That's ancient history,"
he said, "and I don't think
it is appropriate or helpful
for me to go into the
propriety of something
that happened 30 years
ago."

He also drew a line at
home against Kennedy,
who has questioned
Carter's tactics in the
hostage situation and
charged that weakness in
foreign policy prompted
the Soviet thrust into
Afghanistan.

"His statements have not
been true, they have not
been accurate and they
have not helped our coun-
try," Carter said.

Campaigning in New
Hampshire, Kennedy said
his criticism was "obvi-
ously not directed to the
country, but directed to
Mr. Carter and his hand-
ling of foreign policy."

Kennedy likened Carter
to former President Rich-
ard M. Nixon under at-
tack. "We heard similar
kinds of allegations and
charges and I would hope
that the country has learned
that the country has learned
it well," Kennedy said.

Aspirin Gains Stature As Preventive Medicine

EDITOR'S NOTE—A recent report disputing aspirin's value after a heart attack created controversy among doctors, but another report due out soon may redeem the drug. This is the second of a three-part series.

By KEVIN MCKEAN
AP Science Writer
NEW YORK (AP)—It used to be simple: you had a headache, you took two aspirin.

But today, Americans are increasingly reaching for the aspirin bottle for the ounce of prevention rather than the pound of cure—and for some unexpected ills, like heart attacks and strokes.

In fact, many doctors are worried by the prospect of millions of Americans taking daily aspirin to ward off these diseases.

"Any time millions of people do something you're bound to see some side effects you hadn't noticed before," says Dr. Philip Majerus of Washington University, one of those whose work has showed why aspirin might be helpful in blood vessel disease.

The U.S. Food and Drug Administration is expected soon to approve aspirin for helping prevent strokes among men who have had so-called transient ischemic attacks. These temporary black-outs are sometimes precursors of a stroke.

But a recent \$17 million, three-year study of 4,600 persons who survived heart attacks suggested aspirin was worthless in preventing a second attack.

The results of at least one other study of aspirin—this one more favorable to the drug—are due to be released at a two-day conference at the institute beginning Feb. 20.

The excitement over aspirin comes from a new understanding of how it works.

Doctors have long known that aspirin prolongs bleeding, but in the last decade they learned it does so by blocking the production of clot-promoting prostaglandins in blood cells called platelets.

Blood clotting is a natural response to injury, and hemophiliacs who lack it can bleed to death from small cuts.

But when the interior of a blood vessel is damaged by atherosclerosis, diabetes or other diseases, dangerous clots can form even though the vessel is not ruptured.

This is believed to contribute to heart attacks and strokes, which occur when blood is cut off to portions of the heart or brain.

One of the first to notice

the effect of aspirin was the late Dr. Lawrence Craven of Glendale, Calif. He wrote in 1953 that patients who took an aspirin a day seemed to get fewer heart attacks.

But it was not until 1974 that two studies emerged with good scientific evidence for this. The Boston Collaborative Drug Surveillance Program noted that heart attack victims tended to use less aspirin. And a British epidemiologist, Dr. Peter Elwood, said deaths were reduced 25 percent in the first year after a heart attack among people who took an aspirin a day.

Two studies—one in Canada and one in the United States—showed clear benefit from aspirin for men with transient ischemic attacks. And Elwood published a new study last December showing 17 percent better survival for those taking aspirin among 1,682 men and women who had survived heart attacks. Unfortunately, in both Elwood's studies the benefit did not reach statistical significance—that is, it could have been due to chance.

British and American physicians are now being recruited into a study of whether daily aspirin can prevent vascular disease in people who do not already have symptoms of it.

In another study, National Eye Institute researchers are enrolling 3,000 diabetics to see whether daily aspirin can prevent the retinal damage that causes 15 percent of new cases of blindness.

"Aspirin makes good scientific sense and good biochemical sense," says Dr. John A. Colwell of Charleston, S.C., who heads a 10-center study of aspirin in diabetes for the Veterans Administration. "But the bottom line is going to be whether platelets are involved in the small blood vessel disease of diabetes. We certainly are not promoting the general use of aspirin in diabetics yet," he said.

Several researchers have noted that aspirin taken before or just after exposure to the sun reduces the redness of sunburn.

Sunburn is an inflamma-

tory reaction to skin damage from the ultraviolet rays of the sun. By blocking the prostaglandins that promote inflammation, aspirin can slow this reaction—but cannot, of course, prevent the damage or heal it.

Other doctors have reported complete cures using a blood plasma transfusion and anti-platelet drugs like aspirin and dipyridamole in a rare disease called thrombotic thrombocytopenic purpura, which was once almost always fatal.

A small study done by doctors at the universities of Michigan and North Carolina found migraine attacks declined 75 percent in patients who took daily aspirin, even though aspirin does little to help a migraine once it is started.

Some researchers think aspirin's anti-prostaglandin action may even help block the spread of tumors. Others believe it could prevent the rejection of transplants, or increase the effectiveness of birth control by blocking prostaglandins that promote sperm production.

But doctors are also worried that too many people will begin taking regular aspirin prematurely.

"You're talking to a man who takes one tablet twice a day and has for 10 years," says Dr. William Fields, 66, of the University of Texas at Houston, who headed the American study of aspirin in stroke.

"But I don't feel that in good conscience I could recommend that for everyone. What I do for myself is at my own personal risk."

A series of earthquakes struck the New Madrid, Mo., area in 1811-12 and sent shock tremors over more than a million square miles of the continental United States. No other earthquake in U.S. history affected so extensive an area, according to National Geographic.

HEALTH

Lawrence E. Lamb, M.D.

Stress affects her colon

By Lawrence Lamb, M.D.

DEAR DR. LAMB — Do you have a diet for spastic colon? I've been having pain for years and every time I went to the family doctor he sent me to get kidney X-rays. One time when he checked me over I was so bound up he couldn't even touch me because of the pain. He said that I had had a spastic colon all the time.

I haven't had this pain for awhile but then my husband has been sick and he's been in the hospital. Now I've got the pain in the lower left side

again. My doctor said that when I get upset or nervous, this would happen. I don't know if it's because my husband is sick or if it's brought on because I really haven't been eating right. With all this

running around with my husband in the hospital and the kids, the pain is really bad right now so if you could help me, I'd really appreciate it.

DEAR READER — Anyone who is having a lot of abdominal pain deserves a medical examination rather than deciding on his or her own exactly what the problem might be.

It's probably true that you are having trouble with a spastic colon since you've been diagnosed as having that problem in the past. And you can probably tell from your bowel habit whether this is so or not.

Constipation. It will include information that you might be able to use to help you develop a lifestyle to avoid such problems. Other readers who want this issue can send 75 cents with a long, stamped, self-addressed envelope for it. Send your request to me, in care of this newspaper, P.O. Box 1551, Radio City Station, New York, NY 10019.

Also I would like to suggest that you stop drinking coffee, tea, colas and chocolate. All of these beverages may be irritating to a person who's having digestive problems. Also, they all contain caffeine which can add to your anxiety and nervousness at a time when you're already having too much stress.

If you can adjust your lifestyle in accordance with the recommendations in The Health Letter I'm sending you, you might be able to control a lot of your symptoms although it may not eliminate them entirely.

One of the most important aspects of the program I'm sending you is to include an adequate amount of bulk in your diet. One of the best sources for this is bran as obtained in whole wheat cereals. It may cause you to have an increased amount of gas the first few weeks after you've switched to your diet to include more bulk.

The larger amount of bulk in the colon may cause it to contract in a more rhythmic

fashion and be less prone to create spasms for you. But remember I still feel that if you're having a lot of abdominal pain that you deserve a medical examination. To illustrate the problem, some people who appear to have a spastic colon really have an intolerance to milk. These people have the same symptoms as you often get from a spastic colon.

Incidentally, you can't just switch from regular coffee to decaffeinated brands since even those brands may be irritating to a sensitive colon. It is not just the caffeine that is the problem for some people.

Two Escapees Recaptured

IRVING (AP) — Two Texas prison inmates who drove away from a truck driving assignment were apprehended here early today.

Keith Wall, Texas Department of Corrections spokesman, said the men were supposed to drive an 18-wheel flatbed truck from the Coffield Unit near Palestine to the Wynne Unit near Huntsville.

The prisoners were identified as David Leroy Chapman, 36, serving a

5-year term from Crane County for theft over \$200, and James Robert Richards, serving an 8-year term for burglary in Taylor County.

When the men did not arrive on schedule, a search began at 3 a.m. today, Wall said. The men were arrested by Irving police about 5:30 a.m. he said.

The two men were taken to the Dallas County Jail, Wall said.

ASTRO·GRAPH

Bernice Bede Osol

Your Birthday

February 15, 1980

Your perspectives and horizons will be greatly expanded this coming year through a desire to gain new knowledge and expertise. What you learn will be used wisely.

AQUARIUS (Jan. 20-Feb. 19) There's a possibility you could do something today contrary to your better judgment and deprive yourself of a reward that is within your grasp. Heed past experiences. Find out more of what lies ahead for you in the year following your birthday by sending for your copy of Astro-Graph Letter, Mail \$1 for each to Astro-Graph, Box 489, Radio City Station, N.Y. 10019. Be sure to specify birth date.

PISCES (Feb. 20-March 20) Someone who has great respect for you may take you into his or her confidence today. Suppress temptations to reveal to others what you are told.

ARIES (March 21-April 19) Be prepared for some unexpected contingencies in an important relationship today. Your ally might do something surprising to throw things off balance.

TAURUS (April 20-May 20) Be prepared to go it alone today. Persons you can normally count on may not be able to assist you. Fear not, you'll manage by yourself.

GEMINI (May 21-June 20) For things to work out as you'd like today, it will be necessary to pay attention to every detail. Don't let your concentration stray from the task at hand.

CANCER (June 21-July 22) Springing unexpected changes on others today could create a raft of needless problems. Before making alterations you should notify everyone.

LEO (July 23-Aug. 22) Normally you're your own person, but today you may be too easily influenced by outside opinions. Stand by ideas you believe to be good.

VIRGO (Aug. 23-Sept. 22) Your possibilities for gains are very good today, but you may not exploit them fully. This could be a mistake. Your opportunities may be fleeting ones.

LIBRA (Sept. 23-Oct. 23) Most things you're able to manage with considerable skill, but again today you may be a shade too careless or extravagant in handling your resources.

SCORPIO (Oct. 24-Nov. 22) Get an early start today. Your persistence could wane with the hour and you might be tempted to leave something half-finished.

SAGITTARIUS (Nov. 23-Dec. 21) Be patient with your prospects if you're doing anything requiring salesmanship today. They may not grasp what you're trying to sell if you tell your story too quickly.

CAPRICORN (Dec. 22-Jan. 19) In dealing where material issues are at stake you should fare quite well today. Handling friends on a social level may not turn out so nifty.

Speaker Caucus Takes Steps To 'Avoid A Blitz'

By LEE JONES
Associated Press Writer
AUSTIN (AP)—House Speaker Bill Clayton still holds his powerful job, but 23 representatives conferred Wednesday about avoiding a "blitz" from speaker candidates if he resigns.
Leaders figure the "Uncommitted Independent

Caucus" could eventually attract 40 or more members.
"Any candidate will have to deal with this group," said Rep. Bill Caraway, D-Pasadena, who organized the closed-door meeting in a downtown hotel.
Most of those attending were conservatives or moderates.

The 150 House members elect the speaker, whose dominance over legislation makes him one of the three most important state officials.
Clayton appears Friday before a federal grand jury in Houston about receiving \$5,000 during a conversation with a Houston labor leader and a

man posing for the FBI as a Prudential insurance agent.
Some legislators and lobbyists believe Clayton would resign as speaker if he is indicted.
If Clayton resigned, House members would elect a new speaker at the special session of the Legislature that Gov. Bill

Clements says he will convene in August.
Caraway said he was not a candidate for speaker if Clayton quits but added, "You never say 'never' in politics."
Rep. Gene Green, D-Pasadena, walked out of the meeting because, he said, some spoke against speaker candidate John

Bryant, D-Dallas.
"I think if you are uncommitted, you are uncommitted toward everybody," said Green, who told reporters "if the election were held today, I'd probably vote for Johnny Bryant."
Caraway said the group would "activate our communication system" if

a speaker's race emerges and would gather here to interview candidates.
"The biggest fear of our members is being caught in a blitz and not know how our colleagues are responding," he said.
Reps. Lynn Nabers, D-Brownwood, and Gib Lewis, D-Fort Worth, are seeking votes to succeed

Clayton. Both revved up their campaigns when news that Clayton was the target of an FBI "sting" broke over the weekend.
Rep. Wayne Peveto, D-Orange, who has talked of running for speaker himself, acknowledged the likelihood of a "blitz" if Clayton gives up the speakership.

"Candidates should make their candidacies known now, because when the moment comes, it will be over in a matter of hours," he said.

Others attending the meeting were Reps. Dan Kubiak, D-Rockdale; John Sharp, D-Victoria; Emmett Whitehead, D-Rusk; Walter Grubbs, D-Abilene; Bill Messer, D-Belton; Bob Maloney, R-Dallas; Don Rains, D-San Marcos; Lloyd Criss, D-LaMarque; Gerald Geistweid, R-Mason; George Pierce, D-San Antonio; Bob Simpson, D-Amarillo; Jay Gibson, D-Odessa; Bob Bush, D-Sherman; Bill Blythe, R-Houston; Leroy Wieting, D-Portland; Gary Thompson, D-Abilene; Lanny Hall, D-Fort Worth; Carlyle Smith, D-Grand Prairie; Ray Keller, D-Duncanville; Jim Rudd, D-Brownfield; and Tip Hall, D-Denton.

The meeting list also included these members who did not show up: Bill Harrison, D-Corpus Christi; Hector Uribe, D-Brownsville; Bob Hendricks, D-McKinney; Mel Chavez, D-Harlingen; Gerald Hill, D-Austin; Bo Crawford, D-Beaumont; Buck Florence, D-Hughes Spring; and Mary Polk, D-El Paso.

Insulation Can Raise Fire Risk

WASHINGTON (AP)—Insulating homes, an energy-saving measure encouraged by President Carter, can increase the risk of fire unless done carefully, federal safety experts say.

The warning comes in written reports of an investigation by the Consumer Product Safety Commission staff. The staff was scheduled to discuss its findings with the commissioners.
Insulation increases the danger of fire if it is installed around home wiring that already has a tendency to overheat, the staff reports say, adding that many homes, particularly older ones, have inadequate wiring.

The staff suggested that the commissioners issue warnings to consumers, advising them to have their home electrical system checked by professionals and to make any necessary repairs before installing insulation.
But a staff memo acknowledged that the recommended action "would be counter to existing state and federal insulation programs, and to the current desire by many consumers to conserve energy and save on income taxes by insulating their homes."

Former Nazi Gestapo officer Adolph Eichmann was sentenced to death by an Israeli court in 1961.

Sentences Upheld For Hi Fi Killers

SALT LAKE CITY (AP)—Utah's Supreme Court has upheld the death sentences for the men convicted in the torture-slayings of three people during the 1974 robbery of the Hi Fi Shop in Ogden.

The case now moves to U.S. District Court, where defense attorneys have preliminary documents filed for appealing the sentences imposed on William Andrews of Dallas and Pierre S. Dale, who formerly was called Dale S. Pierre but had his name changed.

Assistant Attorney General Craig Barlow said the state could seek to have new execution dates set,

but federal court would nullify them.

The Supreme Court upheld the sentences in separate 4-1 decisions Wednesday.

Justice Gordon R. Hall said the defendants failed to raise issues of significant weight to warrant changing the outcome.

Justice Richard F. Maughan dissented in both cases.

Do not wash or hull berries until they are ready to be used. Store them in a flat container—so that they will not be crushed—in the refrigerator.

EXPO TICKETS GO-ON SALE—Tickets to the Boy Scouts 1980 Exposition to be held in Towle Park April 19 go on sale at 1 p.m. Friday. Displaying the tickets above are, Thelma Deere, ticket chairman; Dick

Shaw, and Doc Griffin, expo chairmen; and Cub Scout, Gary Gunset of Pack 36 and Boy Scout Ricky Romero of Troop 27. (SDN Staff Photo)

Private Services Due For Janssen

HOLLYWOOD (AP)—Actor David Janssen, who ended his long-running series "The Fugitive" with an episode that drew one of the biggest audiences in television history, will be buried next week in private services.

The 48-year-old Janssen died Wednesday after he suffered a heart attack while sleeping in his Malibu home. Friends said he had no previous history of heart trouble.

Abner Greshler, Janssen's agent and manager for 21 years, said Janssen's doctor "is in just as much of a state of shock as we are."

The death of the Nebraska-born actor came after

his wife, Dani summoned paramedics who tried to revive him.

Actor Stuart Whitman, a longtime friend, said he happened to drive by the Janssens' home about 4:30 a.m. on his way to his ranch. He went inside when he saw an ambulance and a fire truck parked nearby.

"They (paramedics) had taken him out of bed and they were working on him," Whitman said. "It must have been half an hour altogether. One of them then said, 'I think I've got a heartbeat,' and they took him to the hospital."

they would arrange to pay me." He said he was willing to tell his story "for a price. We're in trouble when they can send the FBI with a sack of money to entrap legitimate business people." A federal grand jury spent Wednesday hearing testimony from Grubbs and other labor leaders, but the key Texas political figure, House Speaker William Clayton, apparently will not appear until Friday. Clayton's attorney is tied up with another case and was not able to appear Thursday. U.S. Attorney A.J. "Tony" Canales has agreed to the delay. Another key figure in the probe — union official L.G. Moore — may not testify at all if his law-

yers are successful in their appeals to the U.S. 5th Circuit Court of Appeals. Moore, regional director of the Operating Engineers International Union, was originally scheduled to appear Tuesday, as was Clayton. But Moore's lawyer went to court asking that the grand jury subpoena be quashed. U.S. District Judge Carl O. Bue Jr. denied the request, but attorney Michael Ramsey then took the case to the appeals court. Judge Reynaldo Garza granted a temporary delay Wednesday only moments before Moore was to begin his testimony. Ramsey said the appeals court can now either erase the temporary stay or agree to hear oral

arguments why the subpoena should be withdrawn. Ramsey said the U.S. Justice Department purposely leaked accusations about Moore's alleged involvement in Briab. "So much damage can be done to a citizen when only the secret police version is made public," the lawyer said.

Unfinished House Burns

A house under construction southeast of town was razed by a fire early this morning. The house, which appeared to be in the early stages of construction, was leveled in a fire reported at 12:20 a.m. approximately 2 1/2 miles from town. Snyder firefighters reported the structure was owned by Junior Ingram. A car fire was also reported early today. It occurred about 12:55 a.m. in Hermleigh. Firefighters reported the car, a 1968 Ford Mustang, was extensively damaged. It was owned by Welton Coff. Use Snyder Daily News Classified Ads 573-5486

Central Observes Black History

Teachers and students at Central Elementary School are observing Feb. 11-15 as Black History Week with activities ranging from films to guest speakers. Black music and literature are also included in the awareness project. Speakers have included, Earl Pearson, officer of the Texas Department of Public Safety, Mrs. Elizabeth Jenkins, second grade teacher at Central and Nolan Richardson, basketball coach of Western Texas College's top ranked Westerners. Officer Pearson spoke about black history in the DPS. The first black patrolman was commissioned in 1968, he said. There are currently 72 officers in Texas and more are being

recruited, he said. Mrs. Jenkins, stressed **BIRTHS** Shelby and Lisa Hillis are parents of a 7 lb. 1 oz. baby girl born Feb. 13 at 1:42 a.m. at Cogdell Hospital. The Hillises' reside at 3106 40th. Mr. and Mrs. Kenny Wilson, 4006 Ave. R., are the parents of a daughter born Feb. 7 in Medical Arts Hospital in Lamesa. Marissa Kay was born at 9:56 a.m. and weighed 8 lbs. 4 ozs. Grandparents are Mr. and Mrs. Bruce Light of Mineral Wells, formerly of Snyder, and Mrs. Maurine Burchell of Big Spring and Kenneth Wilson of Vealmore.

black history in education. She told of problems she encountered while attending and then going on to teach in all black schools. She began teaching in integrated schools in 1966. Coach Richardson stressed to the children that all people are alike. He told them to put their love for their fellow citizens above

their own desires and to replace bad habits with good ones.

Tigers Tough For '80, Pitching Still The Key

Snyder High School baseball coach Albert Lewis leaves little room for doubt - if he can get his pitching staff to come around, the Tigers should celebrate another good season again in 1980.

"I'm very optimistic - I think we may surprise some people this season if we get some pitching," said Lewis, who has led the Tigers to three consecutive District 3-AAA championships.

"Of course you can never really tell from workouts alone, but I believe we'll have a strong team defense. It looks like we're further ahead this year than we were last year at this time, defensively. Our weak point is out pitching. We've got an unproven group of pitchers right now. How well we do this season will depend a lot on how that comes along."

The Tigers begin action 1 p.m. Saturday, scrimmaging Midland Lee in Midland. Two more scrimmages have been scheduled before the team begins non-district play March 1 against San Angelo Central. Eight of the 10 non-conference games - discounting tournaments - will be against class 4A opponents.

Snyder welcomes back six starters from last year's bi-district championship team, including three all-district performers and an honorable mention all-district pitcher.

Tony Degrate, a junior with a two-year record of 11-5, is the "only proven pitcher" the Tigers have returning. All-District outfielder Bobby Degrate returns, as do all-loop catcher Tony Neves, and the district's top designated hitter, Pete Willis, all seniors.

Neves is expected to receive again this year, while Bobby Degrate may also see action on the mound and Willis will take over first base duties.

Other returning starters, all seniors, include infielder Kyle Short, pitcher-outfielder Bryan Vincent, and centerfielder Ricky Gambol. William Robinson, another senior who played on the varsity team last year, will help as relief pitcher and utility player.

Other seniors on the team and their probable positions include Trussell Thane, first and third base; John Igo, second base; Shawn Ragnland, rightfield; second and third base; Paul Gafford, short stop; Steve

Tate, pitcher; and Gary Atwood, outfielder.

Juniors include Mike Roemisch, second and third base, pitcher-outfielder; Neil Evans, catcher; John Davis, pitcher; and Jeff Stewart, infielder.

Gary Don Edmiaston is the only sophomore on the team at present. Edmiaston plays the catcher position.

While Lewis has watched most of these players work out since November, he is quick to add that no positions have been solidified as yet.

"We're still very flexible. If someone comes along we'll give them a tryout. We're not set by any means. We don't want to discourage anyone," he cautioned.

Lewis, beginning his fourth year as head baseball coach, had taken the Tigers to three loop championships and two bi-district titles. He is aided by varsity assistant Jim Mavroulis and junior varsity coach Wes Poarch.

COACH ALBERT LEWIS

Westerners Vie Against NMJC

WTC Leads Poll Again

HUTCHINSON, Kan. - Western Texas College of Snyder, Tex. remained undefeated and held its number one ranking in the NJCAA weekly basketball poll.

Kankakee CC maintained its No. 2 rating while Broome CC moved up a notch to third. Casper College took over the fourth slot with Three Rivers CC dropping to fifth.

Northwest Mississippi remained in the No. 1 position of the women's poll with an undefeated record.

Texas schools in the rankings include No. 1 Western Texas, No. 7 Midland College and No. 16, Tyler College in the men's poll, and No. 13 Tyler, No. 18 Odessa, and No. 20 Amarillo in the women's poll.

Western Texas was left off the team offense standings, but should be No. 1 with a 100.1 average. McLennan Community College of Waco is in the top five with a 98.1 average.

The Men's NJCAA basketball poll, with records, points and first place votes.

too far down for a shot at the regional tournament, will try to play a spoiler role tonight as the nation's No. 1 ranked Western Texas College-Westerners come to town.

The Thunderbirds, 3-10, will host the 13-0 conference leading Westerners at 8 o'clock. NMJC is 8-17 on the season, while WTC is 25-0.

Leading the 'Birds is Ricky Serkin, averaging 18.6 points and 13.7 rebounds a game. He is aided by teammates Ricky Green, 15.3 points and 6.4 rebounds; Jeff Jeff Hanna, 12.4 points and 7.4 rebounds; and Jeff Roberson, 9.6 rebounds. Hannah has 31 blocked shots to credit this season. Guard Ronnie Rodriguez is second in the conference in assists, averaging 6.2.

The Westerners are led on the scoreboard by five players in double figures, Greg Stewart, 14.1; Paul Pressey 13.9; Bill Patterson, 13.6; Phil Spradling, 13.3; and David Brown, 11.5.

Officials Call Off 6-AA Tilt

District 6AA playoff games which had been scheduled for Scurry County Coliseum tonight between Wylie and Coahoma have been cancelled, according to school officials.

A makeup contest had not been scheduled as of this morning.

Wylie and Coahoma girls were to meet at 8 o'clock for a district playoff. Respective boys teams were going to meet in a regular district game at 6:30, in order to cut down on travel expenses.

Reports indicate that one of the two schools had already played two games this week. The UIL allows only two games per varsity team in one week.

Mustangs Host Felines In Crucial Tilt Tonight

SWEETWATER - Lake View High School waits in the wings tonight as Sweetwater and Snyder girls battle here for a trip to the District 3-AAA play-off.

Lake View's Maidens, which finished loop play with a 6-2 record, will take on tonight's winner - possibly Saturday - in a game to decide the district championship.

Both Snyder and Sweetwater are 5-2 in the campaign. The originally scheduled game between these two teams was so long ago, and the importance now so magnified, that few realize tonight's contest is a makeup game.

Lake View, Snyder and Sweetwater compiled 3-1 records in the first round of district play, throwing the scene into a three-way tie. In second half play, a Brownfield upset over Sweetwater and schedule-crumbling weather put a different light on the situation.

Snyder's Felines could have wrapped up a playoff berth on Tuesday by beating Lake View, but the Maids out-played the Felines and took a 56-50 victory to remain alive in the race.

Now Snyder finds itself in a must-win situation tonight - as does Sweetwater - for the loser can only dream of better times to come.

Snyder defeated Sweetwater in something of an upset during round-one play. That the Felines won the game was no shocker, but Snyder pounded the Mustangs 65-49, handing Sweetwater one of its worst defeats of the season at that time.

Tonight's game is expected to be a toss-up, with a slight advantage perhaps going to Sweetwater, which plays on home ground. Teresa West, 5-7, paces the 'Stangs, averaging in the low teens. Leticia Garrett, 5-8, aids with 11 points a game, while 5-8 Rayetta Dorman puts in an average of 8.

Jamie Hataway holds a 14-15 point average for the Felines, which have

Cats Entertain Lamesa Friday

Snyder's Tigers wouldn't exactly be able to lie back in an easy chair with a win over Lamesa here Friday night, but no one could blame them for sitting down a few moments.

Friday's 8 p.m. encounter with the Golden Tornadoes certainly appears to be the clutch game in District 3-AAA this season. No doubt Lamesa needs the win to remain alive in the loop race.

Snyder, the state's No. 2 ranked class AAA team, zipped through round-one of conference play with a 4-0 record. The Tigers had little trouble most of the way, though Lamesa rallied to make a close game of it after Snyder had built an 11-point lead late in the contest. Snyder won the game 55-49 in Lamesa.

Now 23-4 on the season and 1-0 in round-two play, it again seems that Friday's Snyder-Lamesa game could decide a second round champion, though the Tigers still have tilts scheduled with Brownfield and Sweetwater. Snyder defeated Lake View 54-48 on Tues-

day, and had stopped Sweetwater 70-56 and Brownfield 79-55 in round one.

Lamesa comes into the game with an overall 5-1 district record.

A boys' junior varsity will open the double-header at Scurry County Coliseum. Tickets are \$1.50 adults and .75 students.

Optimist Club Plans Events

Snyder Optimist Club will sponsor open house from 7 until 11 p.m. Saturday at the Scurry County Boys Club.

All area junior high and high school boys and girls are invited.

Activities available will be pool, racquetball, basketball, suffleboard, table tennis, bumper pool, music, television and more.

Trophies will be presented by the Optimist Club. In addition, Dr. Shel Hillis and his judo and aikido students from Western Texas College will put on a demonstration at 8 o'clock.

Olympics Have Begun; Top Events On Tap

LAKE PLACID, N.Y. (AP) - The color-coordinated-Olympics are under way, opened in a spectacular splash of rainbow patterns that lit up a dismal winter's day in this sleepy, picturesque little town.

A crowd of 23,000 spectators, creating a massive traffic tangle, huddled together in frigid temperatures under overcast skies Wednesday and watched the pomp and pageantry of the opening ceremonies highlighted by the spectacular parade of athletes.

Teams from 37 nations signalled the start of the Games by marching proudly through a small stadium on the outskirts of town. Their colorful winter gear, ranging from the bright red parkas of the Australians to the tan Texas rancher outfits of the U.S. team, seemed culled from a painter's palette.

Soviets Take First Gold

LAKE PLACID, N.Y. (AP) - Nikolai Zimyatov of the Soviet Union Thursday won the first gold medal of the XIII Olympic Winter Games by winning the men's 30 kilometer cross-country race in one hour, 27 minutes and 2.80 seconds.

His countryman, Vasily Rochev, finished second for a silver medal in 1:27:34.22. Ivan Lkebanov of Bulgaria won the bronze medal in 1:28:03.87.

into the pursuit of gold, silver and bronze - a medal chase that could be every bit as memorable as those colorful ceremonies for the United States.

It started today with American Beth Heiden a clear threat in the women's 1,500-meter speed skating and skier Bill Koch, who stunned the world by winning a silver medal at Innsbruck four years ago, shooting for more metal in the men's 30-kilometer cross country race.

But the glamor event on today's schedule was the men's downhill skiing - a duel with Whiteface

Mountain's 3,009-meter Alpine course. Italian-Herbert Plank, bronze medalist at Innsbruck in 1976, had Wednesday's fastest training time - 1 minute, 43.91 seconds - a full second better than any other competitor. Peter Mueller of Switzerland, defending World Cup downhill champion, and Canada's Ken Read, winner of two of the last three World Cup downhill, shared his favorite's role in the event.

First runs of men's and women's luge competition were held Wednesday night, a few hours after the colorful opening ceremonies.

Carter Firm Concerning Summer Games Decision

WASHINGTON (AP) - President Carter says he sees "no possibility" of American participation in the Moscow Summer Olympics if the Soviets do not meet his Feb. 20 deadline for withdrawal from Afghanistan.

"To me, it is unconscionable for any nation to send athletes to the capital of a nation, under the aegis of the Olympics, when that nation is actively involved in the invasion and the subjugation of an innocent people," Carter said Wednesday.

Carter's has said that unless Soviet troops withdraw from Afghanistan

by next Wednesday, the United States would not take part in the Moscow Olympics.

Some administration officials had indicated there might be a softening of the U.S. position if Soviet troops withdrew from Afghanistan after the deadline has passed and in time for U.S. athletes to register for the Games.

But asked whether such a shift was likely, Carter snapped, "I see no possibility of that."

He noted the Russians have characterized participation in the Olympics as an endorsement of their "foreign policy and the peace-loving nature of

the Union." Without withdrawal of his deadline, he said, "Neither I, nor the American people, nor the Congress, will support the sending of an Olympic team to Moscow this summer."

Association Dedicated To Training Producers

The Scurry County Junior Livestock Association, which sponsors the annual Scurry County Junior Livestock Show each year, is dedicated to encouraging youngsters of the county to learn the livestock business "from the ground up," with the hope that the experience they gain in feeding out and showing their animals will be used when they become adult livestock producers.

GENERAL RULES AND REGULATIONS

FFA and 4-H Club members are requested to familiarize themselves with all the rules and regulations of the show and other rules in the class and department applicable to their exhibits.

RULE 1. To be eligible for competition, animals entered for competition must have been owned by the exhibitor for a period of not less than 90 days before the date of the show.

RULE 2. A weight certificate must be signed by the Superintendent or Assistant Superintendent and ear tags must be on all entries. (If an animal weighs within weight limits he may be weighed only one time. All re-weights will be last.)

RULE 3. Exhibits that have been erroneously entered may be transferred to their proper class previous to judging upon application to the Manager. If classes have been placed, however, they shall not be reopened.

RULE 4. Arrival of Animals: All livestock must be in place by Wednes-

day, Feb. 13, 1980 by 3 p.m.

RULE 5. All stalls, pens, and exhibition places must be cleaned before 8 a.m. each day.

RULE 6. Each exhibitor may bring, show and place animals as follows: Barrows - 7, Lambs - 7, Steers - 4.

RULE 7. The Sifting Committee reserves the right to accept or reject any entries unconditionally and does not guarantee space in the show to any entry, since it is intended that only such animals shall be entered and shown as have merit and will be credit to both the exhibitor and this show. There will be a classifier on lambs - his decision is final. Lambs that do not meet requirements will not be tagged.

RULE 8. The single judge system is the policy of this show and in every case his judgment is final.

RULE 9. All those exhibiting under the supervision of a Vocational Agriculture Teacher or County Agent must be a member of the local F.F.A. Chapter or Scurry County 4-H Club and enrolled in school. Exhibitors must be nine years old or older and not have graduated from high school and may exhibit in only one county livestock show.

RULE 10. In all cases where general rules conflict with special rules which are published for each department, the special rules will govern.

RULE 11. The management reserves the right to

interpret, change or annul these rules whenever in its judgment a change is for the best interest of the show.

RULE 12. Each exhibitor will be solely responsible for any consequential or other loss, injury, or damage to or occasioned by, or arising from, any animal exhibited by him for its description as given on entry form, and shall indemnify the Show, its officers or their agents, its manager or directors, against all legal or other proceedings in regard thereto, as well as damage or injury to any other person or property caused by the exhibition of any animal exhibited by him, or arising out of, or in any way connected with such exhibition of any of the animals so exhibited.

RULE 13. Sifted animals will be removed from Grounds immediately. Classified animals may remain in barn and sell on floor.

RULE 14. Barn will be closed at 10 p.m. and opened at 6 a.m. Night watchman will be on duty. No boy will be allowed to stay overnight at Barn.

RULE 15. Exhibitors will not be allowed to wear clothing identifying themselves or their club.

RULE 16. Exhibitors are responsible for their animals until sold in auction sale or until floor price set.

RULE 17. Any animal taken from barn must be checked out with division superintendent and President of Association or his designated representa-

tive.

PENALTY: Barment from show for one year will result in failure to abide by this rule.

RULE 18. The membership list will be limited to the \$10 or more donors.

RULE 19. The annual bar-b-que will be limited to members of the Scurry County Junior Livestock Show Association and 4-H and F.F.A. members exhibiting livestock.

RULE 20. All animals removed from auction sale and floor sale must be removed from the barn between the hours of 8 a.m. to 10 a.m. Saturday, Feb. 16.

RULE 21. Any exhibitors who exhibit at area or state shows must exhibit their animals under supervision of an FFA or 4-H teacher located in Scurry County to be eligible to exhibit in the Scurry County Jr. Livestock Show.

RULE 22. First and second place class winners must show for champion in all divisions.

Be wary of claims about so-called "Vitamin B15." It's really pangamic acid, and there is no proof it's a safe additive or diet supplement - or that it cures heart disease, diabetes, glaucoma or many other things promoters say it does, warns Mary K. Sweeten, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

WAITING—The waiting between events during livestock shows can be a drawn out affair, but these youngsters took it all in stride. The photo was taken Monday afternoon at the agriculture annex to the Scurry County Coliseum during the Snyder livestock show. (SDN Staff Photo)

Judging Begins Today In Scurry County Show

Judging begins this evening in the 36th annual Scurry County Junior Livestock Show, an event that has seen hundreds of top quality animals fed out by Future Farmers of America and 4-H Club members go into the arena over the years.

Swine go into the arena first, and the judging in that division is scheduled to begin at 4 p.m. The champion will be named sometime tonight after the judge looks over some 350 animals in the various classes.

Judging of lambs is scheduled for 1:30 p.m. Friday and the steer judging is set for 7 p.m. Friday. The annual Junior livestock event will close out Saturday with the annual auction sale beginning at 1 p.m.

All of the judging events and the auction sale will be held in the agriculture-livestock exhibit building on the Scurry County Coliseum grounds.

The auction sale will include 26 beef calves, 50 swine and 42 lambs. All grand champion and re-

serve champion animals must sell in the auction.

A number of prizes will be awarded in the show. The grand champion hog will receive a prize of \$15 and the reserve champion hog will receive \$10. First place animals in the various market hog classes will receive \$5, while second place hogs will receive \$4, third place \$2, fourth through 10th, \$2 and others \$1. Breed champions and reserve champions will receive rosettes.

In the lamb show, the grand champion will receive \$15, the reserve champion \$10, first place animals \$8, second place \$6, third place \$4, fourth place \$3, fifth through 15th \$2 and other \$10. Breed champions will receive rosettes.

Fat steer prizes will include \$25 for the grand champion, \$15 for the reserve champion, \$20 for first place, \$18 for second place, \$15 for third place, \$13 for fourth place and \$10 for fifth through last place. Breed champions will receive rosettes.

Showmanship trophies division for FFA and 4-H will be awarded in each exhibitors.

Scores Of Adults Involved In Show

Scores of adults are actively involved in planning and staging the Scurry County Junior Livestock Show, which has developed into one of the most successful county shows in the country.

The Scurry County Junior Livestock Association is headed by Jimmy Roemisch, president; Robby Robinson, vice president; Sonny Harrell, secretary-treasurer; John Ward and John Reed, directors.

Roemisch, Robinson and Harrell were re-elected this week to serve two year terms on the board. Reed and Ward were elected last year to serve two-year terms.

Superintendents of the three divisions of the show this year are Dr. Charles Church, calves; Bo Robinson, hogs; and Bob Traylor, sheep.

Technical advisors include Billy Roach, county extension agent; Randy Gillum, vocational agriculture teacher at Ira High School; Richard Smith, vocational agriculture teacher at Hermleigh High School; Billy Bob

McMullan and Floyd Colines, vocational agriculture teachers in Snyder Public Schools.

Many individuals, business concerns and organizations contribute trophies and participate in the annual auction sale, which concludes the event on Saturday every year.

Championship trophies are given by Mrs. Jesse Koonsman; reserve champion trophies are given by the Kiwanis Club (swine) and by Bob Watlington (steer), local insurance man; and showmanship trophies are given by the Scurry County Farm Bureau (swine); Hermleigh Young Farmers (steers); and Ernest Sears (sheep), local insurance man.

Winston Hereford Ranch contributes the Winston Award.

The sales committee this year is composed of Rex Robinson, Sonny Harrell, W.C. Hart and Raymond Robinson.

Judges for the 1980 show are Don Mitchell of Slaton, swine; Kyle Smith of Seminole, sheep; and Joe Wise of Lamesa, steers.

Show. He is the son of Mr. and Mrs. Morris Head and is a senior at SHS. (SDN Staff Photo)

Clayton Vows Innocence

HEREFORD (AP)—Calling his implication in a federal bribery investigation "political assassination," Texas House Speaker Bill Clayton promised backers he would vindicate himself.

"I am convinced there is some kind of plot. There is something big that I don't know yet, but I am going to get to the bottom of it."

French Hesitant To Resume Cold War

WASHINGTON (AP)—The Soviet occupation of Afghanistan is producing fresh strains in the Atlantic alliance as some Western European nations are showing a reluctance to rally behind the Carter administration's get-tough stance toward the Kremlin. The United States and France represent perhaps the two most divergent views within the alliance, although other European countries agree with France that the Soviet action in Afghanistan, however deplorable, need not lead to a resumption of the Cold War.

Cattlemen Reminded...

Beef referendum Vote Feb. 19-22

Cattlemen in Scurry County are reminded to vote in the upcoming referendum on the Federal Beef Research and Information Order, according to C.D. Gray, Jr. of Snyder, president of the Scurry County Farm Bureau. Eligible producers may vote anytime between Feb. 19-22 at the county ASCS office, the county farm leader said. Registration for the vote was held Jan. 28-Feb. 6. "Beef producers have a big stake in the Beef referendum," Gray said. "After all, it's their money that will be collected for use in beef research and promotion. We need a large turn-out of producers to get a consensus of thinking on this matter." Gray said the issue is whether or not cattlemen want a mandatory check-off program that is run by a quasi-governmental agency. The county FB president said the proposed Beef Research and Information Order, if passed, would: —Permit the deduction of up to 2 of 1 percent from the sales price of cattle for the first two years of the program. After that, the deduction could be raised up to 1/2 of 1 percent without another referendum of producers. —Require purchasers of cattle to make the deduction. Failure to comply would make the purchaser subject to a \$1,000 fine. —Require the deduction at each point of sale. The buyer would pay the purchase price minus the amount of the check-off to

each seller of cattle. The check-off money would be paid to the administering agency at the point of slaughter. —Exempt from assessment breeding cattle and cattle used for commercial milk production. —Raise about \$40 million annually at the 2 of 1 percent assessment, and some \$100 million annually at the 1/2 of 1 percent figure. —Provide for refund of assessment if demand is made within 60 days after the end of the month in which the transaction was made. —Establish a Beef Board (a quasi-governmental agency) composed of not more than 68 producers to administer the program. —Provide for appointment to the Beef Board by Secretary of Agriculture of up to five non-voting consumer advisors whose expenses would be paid by assessment funds. —Authorize the U.S. Department of Agriculture to hire new employees to

monitor the check-off program. All such expenses would be paid out of assessment funds. The county Farm Bureau leader said that, for the Order to be approved, ballots must be cast by at least 50 percent of producers registered to vote in the referendum, and a majority of those voting must favor or approve the issuance of the Order. Poet Giovanni Bocaccio died in 1375.

105 Animals In Ira Show

IRA—Forty FFA and 4-H students here displayed 105 animals Saturday in the annual stock show. There were 93 pigs, 11 sheep and one steer. Four steers were cancelled from the competition due to the inclement weather. Dirk Dunn had the grand champion hog and Barry Ezra earned the reserve champion spot. The grand champion steer belonged to Kerry Gardner. He also had the reserve champion lamb. Grand champion lamb was shown by Cathey Crowder. FFA sweetheart Sandy House, handed out ribbons, assisted by Marla Phillips. Randy Gillum is the agricultural teacher at Ira and the FFA advisor. Announcer for the show was Principal L.D. Monroe. Mrs. Donald Crowder was secretary. Complete results from each class follow:

Durocs—Lightweight—1. Dirk Dunn, 2. Kara Sterling, 3. Lisa Dunn, 4. Dee Dee Dunn, 5. Dirk Dunn, 6. Wade Pierson, 7. Kerry Gardner, 8. Jeff Melner.
Heavyweights—1. Barry Ezra, 2. Robert Mitchell, 3. Art White, 4. Keith Bryant, 5. Art White, 6. Kaila Barbee, 7. Jeff Murry, 8. Darryl Calley.
Hampshires—Lightweight—1. Danny Denon, 2. Kim Wilhite, 3. Steven Denon, 4. Cathey Crowder, 5. James Crowder, 6. Barry Ezra, 7. Shane Smith, 8. Kara Sterling.
Heavyweights—1. Jimmy Elam, 2. Lisa Dunn, 3. Jeff Kellner, 4. Dirk Dunn, 5. Dee Dee Dunn, 6. Chuck Barbee, 7. Steven Denon, 8. James Crowder.
Grand Champion Hampshire—Danny Denon. **Reserve Champion**, Jimmy Elam.
Crossbreds—Lightweight—1. Kim Wilhite, 2. Shane Smith, 3. Jana Burrow, 4. Jeff Murry, 5. James Crowder, 6. Rebel Royal, 7. Danny Denon, 8. Wendall Wilbourn.
Heavyweights—1. Dirk Dunn, 2. Jimmy Elam, 3. David Goodwin, 4. Kara Sterling, 5. Brent Withers, 6. Steven Denon, 7. Kara Sterling, 8. Kara Sterling.
Middleweights—1. Dee Dee Dunn, 2. Lisa Dunn, 3. Shane Smith, 4. Sandy House, 5. Sandy House, 6. Kaila Barbee, 7. William Cotton, 8. Rebel Royal.
Grand Champion Crossbred—Dirk Dunn. **Heavyweight**, Reserve Champion, Dee Dee Dunn. **Middleweight**, Other Purebreds—Lightweight—1. Kaila Barbee, 2. Kim Wilhite, 3. Brent Wilhite, 4. Jay Clark, 5. Cindy Stroud, 6. John Foster, 7. David Goodwin.
Heavyweights—1. Sandy House, 2. Kerry Gardner, 3. Chuck Barbee, 4. James Crowder, 5. Paul Farmer, 6. John Foster, 7. Chuck Barbee, 8. Cindy Stroud.
Grand Champion, Sandy House. **Reserve Champion**, Kerry Gardner.
STEEPS
Grand Champion, Kerry Gardner. **Maine-Anjou**

TOP STEER—Kerry Gardner won the steer show at Ira with this Maine-Anjou breed steer. (SDN Staff Photo)

IRA'S RESERVE CHAMPION—Barry Ezra's heavyweight Duroc won reserve champion of show in the swine competition at Ira Saturday. Barry is the sixth grade son of Mrs. Martha Ezra. (SDN staff Photo)

RESERVE CHAMPION LAMB—Kerry Gardner, a sophomore, also had the reserve champion lamb Saturday in the Ira FFA livestock show. (SDN Staff Photo)

Mexican Diesel Caused Costly Problem

Associated Press Writer HURLINGEN (AP)—Cheap Mexican diesel fuel created expensive headaches for bargain-minded South Texas drivers who filled their tanks south of the border. South Texas car dealers reported a rash of Mercedes, Cadillacs and Oldsmobiles being towed, in Tuesday with clogged fuel systems. And Mexican Highway 85, a main road into Mexico at Laredo, was littered Tuesday with tractor-trailer rigs left stalled in their tracks. The problems appeared to stem from a bad batch of diesel sold at stations operated by Pemex, the Mexican national oil company. Pemex sells diesel for about 20 cents a gallon, while American stations across the Rio Grande charge more than a dollar a gallon.

"They (Pemex) didn't put in an additive. It just jelled," said Volkswagen dealer Don Johnson of Brownsville. He was referring to paraffin, a wax found in crude oil that is either removed or neutralized in the refining process. Pemex officials in Nuevo Laredo and Matamoros, Mexico, refused comment except to acknowledge

receiving complaints about the shipment. Mexican drivers also suffered from the bad supply and in Nuevo Laredo, city buses were reported stranded all over town Tuesday. A check of car dealers along the Texas side of the border showed most problem vehicles filled up in Matamoros, across the river from Brownsville.

The cars died in an hour or less, they said. Some were towed the International Bridge by Matamoros wreckers and others came to Brownsville from as far away as South Padre Island, 25 miles northeast. Temperatures have dipped into the 40s at night this week in the Lower Rio Grande Valley, contributing to the problem, John-

son said. At Bill Mowbray Motors in Brownsville, 31 disabled diesel-powered cars and trucks have come through since Saturday. "We remove the fuel tank, clean it out, blow out the lines and the whole system and then replace the original filter," said service dispatcher Jerry Xagoraris.

Game Farms Offer Fenced In Hunting

By JOHN KUGLIN Associated Press Writer HELENA, Mont. (AP)—Hunters who want to bag an elk without much hunting can do it in Montana, where they can shoot a fenced one on a game farm for up to \$4,000 a head. Some hunters don't consider that a sporting proposition. It's commerce. And so is the "harvesting" of elk antlers, which bring a pretty penny in the Oriental drug market, where they're esteemed as aphrodisiacs, among other things. Some Montana Fish and Wildlife officials complain they have practically no control over Montana's 230 licensed

game farms, which range from a few cages to nearly 2,000 fenced acres. "All the law allows us is the opportunity to inspect the fences," says Robert Wambach, the state's Fish and Wildlife director. That suits game farmer Glen Childers, who sees no difference "between a domesticated animal like a cow and a domesticated elk. I'd like to ask the Fish and Game Department if they're going to tell me how to dispose of my worn-out saddle horse?" Hugh Zacheim, executive director of the Montana Wildlife Federation, doesn't care much for game farm hunting. "A

very non-sporting proposition," he says. "This sort of thing gives ample ammunition to the anti-hunting forces who want to characterize the sport as an unfair contest." Childers doesn't see it that way. "This is a sporting enough hunt for persons who want to finish out their trophy room and aren't capable of a strenuous hunt," he says.

"I say if they want that head, they're entitled to it." In 1914, Jacob Traum, a U.S. Department of Agriculture veterinarian, identified the organ in swine. This organism—Brucella suis—like other Brucella, can cause disease in humans and other animals.
