EVERY
THING
AND
NOT MUCH ABOUT ANYTHING

AN EDICT from Postmaster General Farley is to the effect that postmaster appointed by Hoover and confirmed, whose terms have not expired, will be allowed to hold office the full four years, provided, they handle the duties of the office in an efficient and honest manner. Farley doesn't care to break-down the precedent of appointing postmasters through the civil service route.

While this columnist is not in possession of the facts to substantiate the statement, yet he is close enough to it, that some appointments are made regardless of the grade they made under civil service examinations.

Appointments do not stray far away from the old rule, "to the party belongs the spoils. Appointments are found to be a good way for Congressman to pay political debts.

TAKING the gold away will be no new deal for us. We have had it removed from us so frequently and so thoroughly we have yet to experience the thrill of being denied it.

We are informed if the United States goes off the gold standard, it means cheapening the dollar. That being the case there may be some chance for us to get hold of a dollar or two, as well as some of our subscribers who report they haven't a dollar now to pay on subscription, but want the Reporter to continue to come to them—they'll pay some day.

The sum of five hundred million dollars seems to be the popular figure. It stands out in large type in two different connections. That much gold is said to have been turned into the Treasury by the people who had Congress to appropriate that amount it salted away, and it is proposed in to help the states out of their various woes. It is a good thing, however, that each person in the United States does not need a lift. He would get \$4.07.

SOME millions of dollars have been placed in the hands of President Roosevelt to employ idle labor, the money to be spent in reforestation work. That being the case Texas will not participate to any great extent in the expenditure of this vast sum, as there is not much reforestation work to be done—most of the timber lands being owned by individuals, and most of that land is in East and South Texas.

But there are many miles of good roads that need building in Texas, especially, in West Texas. Through this means is about the only plan this section of West Texas has to offer that would place it in a position to participate in the government loan project.

The writer has in mind a road in Martin county, over which there is a lot of travel, yet in such a deplorable condition as to make it almost a disgrace to a civilized public. That road is the one that leads out of Stanton to Lamesa. As we understand the manner of loaning the government's money, for every one dollar spent locally the government will match it with three dollars. Were the government to allow some of its funds to build good roads, it would require only a small amount from Martin county to make the Stanton-Lamesa road a hard-surfaced one, employ a number of idle labor in West Texas, and result in untold worth to the farmers and ranchmen of Martin county and to the tourists in general.

WE NEED MORE MONEY in this country, if more money will bring us higher prices. Other things being equal, more money in circulation does mean higher prices for commodities. We want higher prices. We must have higher prices. So we don't care how much we get more money in use, if we only get it. Can you see any harm in having the government issue a billion dollars, say, of "Prosperity" five and ten and twenty dollar bills, to be good for all debts, both public and private, for the new building construction now going on or to be started? It's not any more of a strain on our credit than to issue a billion in bonds, is it? Besides, the bonds bear interest while the dollars don't. Couple this with a thirty-hour

COLORADO BEATS STANTON SAND BELT GOLFERS

DEFEAT WAS ADMINISTERED TO THE LOCALS BY A SCORE OF 24-16, BUT THE VISITORS WERE GIVEN A SURPRISE.

Shooting a consistant game of golf Stanton took 16 points from Colorado Sunday on the local links.

First Flight

Scott, Colorado, shot 74 to defeat Hayney's 78.
Nix, Colorado, shot 80, to defeat J. H. Burnam's 82.

The visitors won the low ball in this foursome with a low score of 70, 2 under par.

Second Flight

Jones, Colorado, shot 79, to defeat King's 83.
Billingsley, Colorado, shot 83, to defeat Adams' 87.

Colorado won the low ball in this foursome.

Third Flight

Palmer, Colorado, shot 85, to lose to Purser's 78.
Austine, Colorado, shot 90, to lose to Hardin's 82.

Stanton won the low ball in this foursome.

Fourth Flight

Richardson, Colorado, shot 77, to beat C. Burnam's 84.
Slaton, Colorado, shot 87, to lose to Simpson's 86.

Colorado won the low ball in this flight.

There was a very nice crowd of fans out to see the boys perform. Some of our fans talk too much while a player is preparing to make a shot. We want you to come out but remember don't talk or make any noise until after the ball has been played. It bothers a player when some fan tells another just what that particular player is going to do to the ball. And remember, this game takes the deepest kind of concentration and rythm in the body movement to get a shot off perfectly. So come out and enjoy the game with us but please keep quiet until after the ball has been shot.

Purser and Harding are tied with 5 points to lead the local golfers in points won.

Next Sunday the Sand Belt players go to Midland, and the Kat Klaw team will play here.

STANTON KAT KLAVERS DEFEATED BY LAMESA TEAM

Members of the Kat Klaw Golf association, journey from Stanton, Sunday, to Lamesa where the team was taken out of the Klaw on Stanton, by a score of 14 to 26 in favor of Lamesa.

The golfers going from Stanton were Horace Blocker, Dr. Bristow, Poe Woodard, Bob Hamilton, (captain), Lad Laws, Buck Henson, Hall Kennedy, Printice Bristow.

Poe Woodard shot the low ball for the tournament, turning in a 76.

LAYING TILE TO SUB-IRRIGATE FRUIT FARM WEST OF TOWN

A few days of last week French Grey, at the Higginbotham-Bartlett Lumber Co., was as busy as two hunting dogs in the midst of a scattered covey of quail, making hollow tile in foot lengths to be placed on his fruit farm west of Stanton for sub-irrigation. When seen by a representative of this newspaper French had moulded out 120 blocks, with his tongue, pipe, and shirttail, all three out.

Mr. Grey has one of the coming fruit farms of West Texas, and what's more, he knows how to operate it.

LOCAL LUMBER CO. RECEIVES CAR OF WIRE AND TIN CANS

Ushering in on the first days of spring, the Higginbotham-Bartlett Lumber Co., shipped in a car of wire and a car of tin cans and sealers. The latter shipment was received for use by the home garden makers to preserve the vegetable crop that is expected to come from the home-owned gardens this year.

A week plan on this public work, and prices are bound to go up.

The club starts out with a membership of nineteen, and the next meeting will be held at the court house, the date to be announced later.

THIS WEEK MARKS CLOSING STANTON SCHOOLS

A SUCCESSFUL TERM WILL HAVE BEEN COMPLETED IN FACE OF A CONDITION NEVER BEFORE EXPERIENCED.

Monday, May 1, marks the closing of the 1932-33 term of the Stanton schools—that evening is the scheduled date for holding the commencement exercises. Following this program, there will be held on the evenings of Tuesday and Wednesday, May 2 and 3, the programs of Mrs. Gibson's music pupils and the recital of the Expression class of Miss Mary Helena Price. These events will end all the entertainment features of the school for the term.

The Senior play, "Engaged By Wednesday," was given Wednesday night. The members of the cast performed

SCHOOL CLOSING PROGRAM

Friday evening the Grammar School will have its graduating exercises. This is an important event in the lives of these young people and in the history of the school.

The commencement sermon will be delivered by N. L. Clark, of Fort Worth. The local congregation of the Church of Christ, will have charge of this service. The music will be furnished by the singers from the different churches of Stanton. Services will be held at the High School Auditorium at 11:00 o'clock Sunday morning, April 30.

All Grammar School activities will close Friday.

High School activities close Monday evening with the Senior graduating exercises, beginning at 8:15.

Reserved seats are provided for parents of the Seniors. Please let the parents be present early. Official ushers will be from the members of the Junior class, for both Senior exercises.

Members of the Senior class are: Raymond Anderson, Glen Bloomer, Harry Branton, Arlie Eubanks, Rosa Lee Cross, Audie Mae Currie, John Hawkins, Bonnie Lee Hay, Eldora Henson, Marie Henson, Ocie Henson, Grady Hogue, Pegues Houston, Zona Lee Jones, Imogene Kelly, Vernice Liles, Mildred Martin, Lindley Metcalf, Artelia Minton, J. W. Orr, Margie Richards, J. P. Ruggles, Ernest Reynolds, Marjorie Smith, Robert Swain, Doris Thornton, Addie Turner, Lula Turner—twenty-eight in all.

Not in history have the schools witnessed a condition like the prevailing one. The treasury that holds the finance to carry on the expense of operation was depleted from the very beginning of the term—that is to say, so far as the hard cash went—none with which to pay the salaries of the teachers. They have been compelled to accept vouchers for their hard-earned labor, which, in turn has been converted in cash by them at less than the face value of the warrant.

In this respect the Stanton schools suffered no greater than most of the schools in the state. The present faculty has discharged the duties imposed upon it in a most creditable manner, even though it had to contend with the handicaps that grew from a "mole hill to a mountain."

The school board has not as yet selected teachers for the next term. It has on its hands rather a colossal problem to solve. With its treasury as bare of money as the proverbial cupboard of Old Mother Hubbard, with the likelihood that the state apportionment for schools dropping from \$14 per capita to the low ebb of \$8.50, and the further discouraging aspect that the tax payments next year will not reach an increased amount over the past year, the board is so wrapped in a tangled skein as to compel it to act with caution.

Mrs. J. W. Schroder and Mrs. J. A. Wilson, were in Midland, Wednesday afternoon.

A FLAGRANT ERROR
CORRECTED

In due justice to the company that builds Chevrolet cars, the Parks Auto Co., local distributors for Chevrolets, John Poe, and the public in general, we hasten to correct a flagrant error that was made in this column last week. We stated that John Poe was Fordin-it around in one of Henry's late model coupes, when it should have been a late model Chevrolet coupe.

We hope that John lays aside that .45 he has been carrying with the expectations of wasting a cartridge on the editor if he found him.

The following shipments of cattle made this week from Stanton: Barney Hill, 4 cars to Kansas City; W. T. Flanagan, 4 cars to Fort Worth; W. T. Badgett, car fat steers to Fort Worth; Ad Neal, Glasscock county, 25 cars to pasture in Kansas.

This from the Top Of the Windmill in the San Angelo Standard: L. C. Proctor, Midland cattleman and a sheepman, who runs about 3,000 head of ewes and sells his wool through San Angelo warehouses, was here yesterday. He was seeking to buy a ranch and lease additional lands in this section.

White Brothers of Brady, McCullough county, sold last week wool from the backs of 20,000 lambs, a part of a half million clip, for 17 1/2 cents per pound. Buyers were offering 17 cents at two or three points in that district but found most of the ranchmen had taken their wool off the market. It is reported that with currency inflation wool may reach 20 cents or better. There will be several thousand pounds of wool clip in Martin county and with a price range of from 17 to 20 cents paid for it, Martin county sheep raisers may not feel greatly disappointed.

That every move made today seems to be directed to economy, if the sheepmen would adopt the method of the Soviet, Russia sheepmen, their economic problems, so far as sheep-shearing entered into the picture, would be solved. The Soviets do not shear

their sheep. The animals are given a small dose of a preparation of heavy mineral salts. This is said to act on the synthetic nerve system and to cause the wool to become loose that it can be picked off easily by hand.

Bert Kincaid, is one of the prominent Pecos county ranchman, living south of Fort Stockton, presented the city marshal, Jimmy Hartzell, of the Pecos county capital, with five fox puppies, the mother having been killed. To find a mother for the puppies was a problem. Sheriff Will Rooney, had a mother cat who had lost her kittens, and as an experiment the puppies were given to the cat. Last reports were that the feline was feeding and bathing them regularly.

I. H. Robinson, county trapper of Nolan county, reported last week that during the first three months of this year he caught 14 bob cats and 5 coyotes on one ranch in the Mulberry canyon. The three years he has been trapping in Nolan county he has trapped 62 coyotes. He has been trapping 16 years in that county.

ALMA HEZOG AND LEONARD CONRAD MARRIED TUESDAY

A marriage of interest to their many friends, was that of Miss Alma Herzog to Leonard Conrad.

The wedding was solemnized Tuesday morning, at nuptial mass, 7:00 A. M., at St. Joseph church, by Rev. J. A. Sirois, O. M. I., officiating.

Mrs. Conrad is the daughter of Mr. and Mrs. H. J. Herzog, of this city, and has been reared here. Mr. Conrad is the son of Mr. and Mrs. Theodore Conrad of Groom, Texas.

The bride was charmingly dressed in a white crepe dress, white hat, and other accessories to harmonize. She was attended by her sister, Miss Cecilia Herzog, who wore a blue dress, white hat, and other accessories to match.

The groom wore a brown suit and was accompanied by his twin brother, Mr. Leo Conrad, of Groom.

After breakfast which was served at the home of the bride's parents, the young couple left for Groom where they will make their home.

NOW IS THE TIME

If you were going to invest in the stock market you would, of course, watch the substantial stocks and buy at the lowest price quoted, expecting to profit by the rising market.

So it is with young people in making their plans for their future. Now while we are, as the economists say, at the bottom of the depression, there is only one logical direction to go—that is upward. Wouldn't it be a sensible thing to prepare so that when the wheels of industry do start to humming you will be ready to take advantage of the opportunity that seems to face you?

With good high school training supplemented by good business training, you will have something readily marketable that will place you far in the lead of the unprepared or the ones with only a general education. Surely this is the day of specializing and business offers quicker rewards than almost anything at this time. President Roosevelt is inaugurating some sound legislation which will, no doubt, stimulate business and make far better times.

Why not write Tyler Commercial College and School of Business Administration, Tyler, Texas, for their catalog and find out how easily you can get a business training and what it will mean to you?

CORRINE WILSON ENTERTAINS YOUNGER SET

The younger set in Stanton are having more fun than any one, which is only right. With school almost behind them for a time they are sitting up nights to decide how they will spend their vacations. They swim, dance, play bridge, and "42," skate, in fact time never goes by with dragging feet for them.

On last Friday evening, Corinne Wilson, had the bunch of twenty-four, over to her home for an evening of fun. Among the diversions was an Easter egg hunt.

The refreshment plate of ice cream and cake held tiny chickens for favors.

NEW GROCERY LOCATING IN PRICE-BRISTOW BUILDING

O. B. Bryant, of Andrews, is moving a stock of grocery in the Price-Bristow building facing the new highway.

Mr. Bryant is a son-in-law of J. R. Richards, who was a former resident of Stanton.

Shelving and fixtures are being moved in the building, preparatory to arrangement for the stock which will arrive in a few days.

Ollie Cook, Earl Eubank and Ellis Zimmerman, left Tuesday for a trip through West Texas and New Mexico. Mr. Cook had business and the boys accompanied him for a pleasure trip. L. N. Williamson is at the Toggery during the absence of Earl Eubank.

Renew Your Health By Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Perfect Health." Why not rid yourself of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calobac—once or twice a week for several weeks—and see how Nature rewards you with health. Calobac purify the blood by stimulating the liver, kidneys, stomach and bowels. In 10 cts. and 35 cts. packages. All dealers. (Adv.)

Willingham and children of Woodard, were also present.

Misses Mary and Fern Adrain and Brack Foreman, attended the singing convention Sunday in Big Spring.

Brack Foreman made a business-trip Tuesday to Big Spring.

A large number of people from Tarzan, attended singing here Sunday night.

The Cottonwood Inn baseball team met the Stanton Mexicans on the Cottonwood Inn diamond Sunday and defeated them.

Mrs. Virgil Jackson and daughters, Zorita, Lavera, and Reva Maude, spent Wednesday afternoon and night with her mother, Mrs. H. A. Moore, near Odessa.

HARRIS CASH STORE MOVED AND WILSON'S MOVING

The Harris Cash Store is now comfortably located in their new location on the new highway. This store has added a line of dry goods to their line of shoes and groceries.

The Wilson's 5 cent to \$1.00 Store, is moving into their new quarters in the Ebersol building, and the entire stock will be moved by Thursday.

By first of next week Morris Zimmerman hopes to be moved into the building the Wilson store is vacating.

The Reporter office and the J. H. Earnam Funeral Home will be the only live occupants left in the Guitar block.

POISON
in Your bowels!

Poisons absorbed into the system from souring waste in the bowels, cause that dull, headachy, sluggish, bilious condition; coat the tongue; fad the health; sap energy, strength and nerve-force. A little of Dr. Caldwell's Syrup Pepsin will clear up trouble like that, gently, harmlessly, in a hurry. The difference it will make in your feelings over night will prove its merit to you.

Dr. Caldwell studied constipation for over forty-seven years. This long experience enabled him to make his prescription just what men, women, old people and children need to make their bowels help themselves. Its natural, mild, thorough action and its pleasant taste commend it to everyone. That's why "Dr. Caldwell's Syrup Pepsin," as it is called, is the most popular laxative drugstore sell.

Methodist Church Notes

W. B. VAUGHN, Pastor

The Sweetwater District Conference met in Big Spring last Wednesday and Thursday. Rev. O. P. Clark, president. The attendance was good from all charges in the district.

The following attended from Stanton: Arlo Forrest, Mrs. Arlo Forrest, Mrs. E. Clyde Smith, S. D. McWhorter, J. S. Lamar, Rev. and Mrs. W. B. Vaughn.

The conference next year goes to Snyder.

Rev. C. V. Williams, pastor of the Methodist church at Pecos, and a friend of the pastor, died last week.

The attendance upon the services last Sunday was good and we are glad to see all those who were present. Some of the members have not yet heard the pastor preach. Come, try it just once, anyway. Maybe you would come back.

Sunday school at 9:45. Be sure to be on time.

We will not have preaching at 11 on account of the school program at the school auditorium. The pastor will preach at 8 P. M., and invites all to be in that service.

You are always welcome at all the services.

STANTON ODD FELLOWS AND REBECCAS HONOR BIRTHDAY

The local membership of the Odd Fellows and Rebecca lodges will observe the 114th anniversary of the I. O. O. F. lodge, next Thursday night. There will be prominent speakers to address the assemblage, besides other important features on the program. Neighboring town lodges will be invited, and there will be plenty to eat.

Mrs. Ray Simpson, spent Friday in Midland with her grandmother, Mrs. Heatley and sister, Miss Margaret Parks. Margaret, who attended school in Stanton for some time, is a member of the graduating class of Midland high school for '33.

A LAW THAT BECOMES A BOOMERANG

Public Utilities. Fortnightly point-out that a fresh wave of proposed utility-merchandising legislation swept over the country during the 1932 legislative sessions.

In most instances the bills have been defeated. But they will put in an appearance again and there seems to be a good deal of public support behind them. It is an unfortunate fact that much of this support comes from a misunderstanding of actual conditions. The purpose of the bills is to aid the small town dealer and increase his business, but actual experience has shown that this is not accomplished.

The press of Kansas and Oklahoma, which states have these laws in effect, is overwhelmingly against them. They have not brought more business to the small dealers.

They have driven it away from the home community to large stores in cities and to mail order houses. They have materially cut the total sale of electric and gas appliances, and consequently narrowed the field for repairs and sale of parts, which is always a source of profit to the dealer. They have worked against lowering electric and gas rates, inasmuch as reductions usually come from increased sale of service, which is naturally stimulated by added use of appliances.

States should be careful, before taking a step that, in other states, has apparently failed completely in its purpose and actually harmed those it was designed to help.

Denton Record-Chronicle: Printers' Ink, weekly publication read by advertising men, contained in a recent issue a list of 322 national firms which are known to the public through their advertising in magazines and newspapers. After each name was a comparison of 1931 and 1932 profits, and it is interesting to note that of the firms which had a profit in 1931, and showed an increase, for 1932, practically all are noted for having conducted an aggressive and intensive sales and advertising program during these years.

Commenting on the above State Press in the Dallas News, says:

It is no longer a matter of dispute between advertisers and nonadvertisers as to which is the more profitable way of conducting business. It is accepted so unanimously that not to advertise is to be ignored by the purchasing public that even those who do not advertise directly, on account of their dignity or something, enjoy incidental advertising, which is usually free advertising. When one has a thing to sell the sooner he sells it the quicker he gets his profit. Profits, by the way, have become to be a matter of frequent turnover. Merchandise or professional services on the dealer's shelves pay no dividends. They are frozen assets. Not until a buyer has been found is a gain registered. Not until the money is paid does the cash register take any notice of what is going on, or isn't going on. To advertise is to inform and invite customers, old and new. Not to advertise is to wait for personal friends or casual drop-ins to come buy. No man in business gets rich serving only his personal friends. He hasn't enough of them, and must share those he has with his competitors. Advertising is directional and invitational. It solicits and informs. Ten years ago there were national distributors who really thought they didn't need advertising. Most of them are running deficits as big as henhouses today. They were not as well known as they thought they were, their wares not as indispensable as they supposed them to be.

A man was stranded on a desert island. He was afraid of cannibals, so he moved very cautiously. As he was climbing a small hill he heard voices—one said: "Who in hell trumped my ace?" The man lifted his eyes to the sky and said: "Thank Heavens there are Christians on this island."
