

SNOOTER KNOWS

LITTLE ABOUT
EVERY
THING
AND
NOT MUCH ABOUT ANYTHING

GEORGE BAKER, editor and owner of the Devil's River News, Sonora, has sold a half interest in that newspaper to Bob Jacobs, formerly business manager of the Big Spring Daily Herald. Baker, was formerly advertising manager on the Herald, and was a good one, too. But Baker a young man, ambitious, had his sights elevated over the head of a "hired man" always, so a couple of years ago, he bought the Sonora newspaper, obligating himself to pay a handsome price for the plant. From the very initial step in taking hold of his new undertaking, "success" was spelled out in big bold letters along the path of his journalistic career. He made good at Sonora, but his success in piloting the News through the worst depression ever known is not laid solely at the feet of Mr. Baker. He had Mrs. Baker, his charming wife, full of ambition, too, to assist him in his business venture.

Last week Mr. Baker closed a deal whereby he became the owner, lock, stock and barrel, of the Fort Stockton Pioneer, a newspaper that boasts an age of 27 years old, and accredited with having been one of the best weekly newspapers in West Texas as well as the sprightliest and newest publications in this area.

In the course of events, newspapers meet up with obstacles that if not pushed aside, sometimes plays havoc with an otherwise splendid business. There is always someone one that comes along to "crum" the deal, so to speak, and unfortunately, the Pioneer suffered just such a situation. It met a hurdle that proved too high to clear without badly crippling its running gears. Consequently, the Pioneer moved along on crutches, as it were. With the purchase of the Pioneer by Mr. Baker it means that soon the infirmity has met a permanent cure, and the Pioneer will regain its former rank among the top-notch weekly publications in West Texas.

Mr. and Mrs. George Baker will bring the Pioneer out of the "dumps," if the Fort Stockton citizenship so desire, and we know they do. Our experience with the business interests of Fort Stockton, the short time we were in their midst, revealed to us the liveliest, most progressive, and affable set of business men we ever came in contact with. They were loyal supporters of their newspaper, not only did this support come from liberally patronizing the paper, but they talked about it in highest terms to the stranger. The personal contact with the business men and the lady folk of Fort Stockton and Pecos county, by Mr. and Mrs. Baker, will win for them such support that we predict the Pioneer will grow and blossom like the rose.

Mr. and Mrs. Baker will move to Fort Stockton March 10th to assume charge of the Pioneer. But Mr. Baker will still retain a half interest in the Devil's River News. To the people of Fort Stockton, whom the writer lived among a short time, we wish to recommend Mr. and Mrs. Baker, as a type of young manhood and young womanhood in whom the utmost confidence can be placed, and are deserving of the loyal support of the entire citizenship of the town and county who will be paid back three fold in giving the people the kind of a newspaper they deserve—a newspaper to which explicit confidence can be attached.

THERE are few older service clubs and scarcely any of the younger organizations, that have accomplished as much good for their town as has the Stanton Service Club. Some two months old the local club has launched a monthly trades day for the town, and perhaps the greatest movement launched and brought to a successful close, was that of securing trees to be set out in Stanton and Martin county, and along the highway through town. The individual club member charged with instituting the tree campaign rests on the shoulders of Rev. W. S. Garnett, pastor of the Baptist church. The Methodist preacher, Rev. Jim Sharp, retailed by seconding the motion, and you know what happens when Methodists and the Baptists agree on any one thing. It means the success

STANTON, MARTIN COUNTY, TEXAS FRIDAY, MARCH 9, 1934

NUMBER TWENTY-FOUR

FRANK STUBBEMAN ANNOUNCES FOR DIST. ATTORNEY

Frank Stubbeman of Midland today announced his candidacy for District Attorney of this the 70th Judicial District of Texas, subject to the action of the Democratic primary.

Stubbeman is State Representative and has in his district a larger territory than any other person in the Texas House of Representatives. He represents thirteen counties, including Martin county on the east and Jeff Davis county on the west. He has just returned from a recent session of the Legislature at Austin. In that body he was one of the active sponsors of the pink boll worm bill and helped secure passage of that measure, as a result of which the farmers of this area will eventually be reimbursed for money spent for fumigation of their cotton and for sterilization of their cotton seed. He also voted for the bread bonds, the moratorium legislation and the bills for the control of hot oil in East Texas.

Stubbeman says that for a long time he has considered entering the race for District Attorney, but has announced sooner for the reason that he has until now been busily engaged in his duties as a legislator.

Stubbeman maintains a law office at Midland and his law practice extends over a wide area in Texas. He at present has cases in court from El Paso to Austin. After receiving his training from the University of Texas law school, he began the practice of law in San Angelo with Judge Charles Giggs, well known in this area. Stubbeman moved from San Angelo to Midland four years ago to become associated with B. Frank Hang and was still Haag's law partner at the time of Haag's death in an automobile accident last July. Stubbeman has in his law office one of the best law libraries in this section of the State. He is 28 years of age and married.

In seeking the District Attorney's office at the hands of the people of Ector, Glasscock, Howard, Martin and Midland counties, Stubbeman feels that he is qualified through training and experience to fill the place.

He says he is deeply grateful to the people of Martin county for the support given him as the State representative and would point out that in asking for the District Attorney's job he considers he is seeking advancement. If elected he pledges devoted application of his time and energy to the end that the duties of office be faithfully and efficiently administered.

Yater for Sheriff, Assessor, Tax Collector

In the announcement column of The Reporter this week will be found the name of Milt Yater, as a candidate for Sheriff, Assessor and Tax Collector. In making his announcement he had the following to say:

"I thank the people of Martin county for their support and cooperation throughout these past trying years of service.

"I attempted to serve you in a fair and impartial manner. Efficiency in every phase of the work has been my aim.

"My services in France during the World War and my years of experience as your sheriff have given me an acquaintance with the needs of the office, and I feel more competent than ever before to render service in these distressing times.

"If re-elected I pledge the same faithful attention to the duties of the office that I have given in the past."

SUPT. LIMMER RE-APPOINTED

At a recent meeting of the board of the Stanton Independent School district, A. M. Limmer was re-appointed superintendent of the Stanton schools.

The new contract will call for an increase in salary.

Keep your temper; no one else wants it.

OLD CLOTHES NEEDED BY THE RED CROSS

Every time the Red Cross has needed old clothes an appeal has been published in this paper and the public has responded nobly so do not turn them down this time. They need clothes for the children of school age and of all sizes. Look over your supply and divide with those who are in worse condition than you. Every article of clothing will be appreciated.

CANDIDATES WARMING UP TO MAKE THE CAMPAIGN

County candidates for the various offices in Martin county are commencing to warm up preparatory to "beating the bushes" for votes. Some have announced and several others have signified their intentions of shying their bonnets in the political ring.

Last week the Reporter job department turned out a large number of cards for candidates to distribute to the "dear people." Social community gatherings being held at various points in the county getting ready to participate in the Interscholastic League events to be held in Stanton this month are calling for the presence of candidates, and that's a mighty good place to hand out cards announcing for office.

NEW CONOCO STATION OPENED TO THE PUBLIC

Last Thursday Harry Haislip, was checked out as agent for the Conoco service station at the old stand up town and transferred to the new station for the company on the new highway just east of the Gulf Service Station. At the same time of Haislip's transfer, Clark Hamilton was checked in as agent for Conoco at the old stand.

Mr. Hamilton is one of Stanton's most progressive and likeable young men, and the Reporter predicts that he will make the company an ideal representative.

Mr. Haislip needs no introduction, as he made many loyal friends while stationed at the old stand.

ONE PART OF STATE TOO WET WHILE THE OTHER TOO DRY

March was ushered in with a quarter of an inch of rainfall over Martin county. The rain fell slowly with every drop soaking into the ground. It was of material benefit to plowed fields, but not sufficient to warrant much preparation of land for crops.

This month and next will solve the problem whether there is to be a crop harvested in this county this fall.

It was noted in a Dallas newspaper, where the county agent of Dallas county was lamenting the fact that the time was at hand to plant crops and the fields were too wet for the farmers to get in them.

It looks like the State of Texas would get its "hose in order. Instead of one section of the state crying for rain and the other complaining of too much, equalize the difference.

SISTER-IN-LAW TO HOSPITAL

Mrs. J. W. Maggart and Shirley and Miss Liola Fae Everett, left Thursday for Lubbock where they were guests of J. W. Maggart and Mr. and Mrs. Del Morgan. While there Mrs. Morgan, who has been ill for some time, was so much worse that her mother and brother, who is a physician, came over from Quanah and took her to a hospital in Galveston. Mrs. Morgan is a sister-in-law of Mrs. O. S. Maggart.

COUNTRY CORRESPONDENTS

The Reporter is much appreciative of the number of country correspondents it has in the rural sections of the county. This week a new one has been added from Flower Grove community.

The Reporter wants every community in Martin county represented in the news columns of this newspaper. If you are not represented in the Reporter why not? We are willing to aid you by providing stamps and stationery.

COUNTY SANITATION CAMPAIGN STARTED IN MARTIN COUNTY

SANITARY TOILETS BEING INSTALLED AT SCHOOL HOUSES AND HOMES IN THE RURAL SECTION.

Through the State Health Department there is now in progress a county-wide health movement going on in Martin county under Dr. J. E. Moffett, county health officer and Jno. F. Priddy, county supervisor of sanitation.

In conversation with Mr. Priddy he gave the Reporter the following information:

"An economic health and sanitary status of two-thirds of the homes in Martin county has already been made and will be completed at an early date.

"Sanitary toilets as recommended by the State Health Department, are being installed at this time at a large number of homes in the county and orders are on file far ahead of our ability to fill them.

"People of Martin county are late getting in on the sanitary movement which has been in progress in practically all other counties in the State for several months.

"The sanitation project like all others is carried on by CWA laborers, all necessary materials being paid by the person having the toilet installed. If you want a sanitary toilet now is your opportunity to save at least two-thirds of the cost because all labor is furnished and all that is required of you is to pay for the cost of the material. The cost of the toilet alone is \$6.00. We will build you a new building or repair you old one if you want us to, you pay for the material.

"You will find men building toilets at the Higginbotham-Bartlett Lumber Co. Call and have them explain in detail all about our project.

"The object of the sanitary project is to install at every home and school house a sanitary toilet to prevent flies and mosquitoes from breeding in out door toilets, feeding on human excreta and carrying same into the house on the table and to baby's cradle. Help swat the fly and mosquito, for by doing so you will not only protect the health of your family but that of your neighbor's."

Mr. Priddy states that some 55 orders are now in for sanitary toilets.

Nine Months Old Son Midland, Killed

(Special)
Edward Lee, 9-months-old son of Mr. and Mrs. F. E. Mason of Midland, was instantly killed Wednesday morning when he fell from an automobile driven by Johnnie Carr. A rear wheel crushed his skull.

The child was dropped from the arms of Mrs. Carr as she and the child fell out of the car when the right front door opened as Carr turned off West Missouri into South Pecos. Carr was able to catch his wife momentarily, in time to prevent her from falling under the car, but it is believed that the arrested motion caused her to drop the child. The child's mother was riding in the tonneau and witnessed the tragedy.

Carr is a relative of the Masons, who have one other child, a three-year-old girl. Mason is employed by the CWA.

STANTON WELL REPRESENTED AT MINERAL WELLS

Mr. and Mrs. W. M. Wilkinson, returned Thursday from Mineral Wells. Mrs. Sam Wilkinson and her mother Mrs. George Tom drove down for them. Mrs. J. E. Kelly and daughter Mrs. Doc Moore with Franchelle and Jimmie, returned Friday. J. L. Hall and Sam Stamps came in Sunday afternoon.

Stanton was well represented at Mineral Wells and all the bunch gathered at the Crazy Water Hotel to drink of that fine water, and each returned home greatly improved by the trip.

Mrs. Ladd Laws returned Saturday from Rile with Mr. and Mrs. Jim McCoy after a two weeks' visit in the McCoy home.

STANTON'S FIRE RECORD REDUCED FROM 15 TO 12%

FOR THE NEXT TWELVE MONTHS, STANTON MUST STAND A THREE PER CENT RAISE IN INSURANCE RATES.

During the month of February of each year the Texas Fire Insurance Department publishes the fire record credit or penalty to which each town in the State is entitled for the next twelve months following the first of March. This credit or penalty, as the case may be, is based on the loss ratio of the respective towns for the three years immediately preceding.

For several years prior to and including 1931, 1932 and 1933, Stanton enjoyed a 15 per cent good fire record credit. This good fire record credit has recently been reduced by the Texas Fire Insurance Department to 12 per cent, which means simply that the final fire rate has been raised 3 per cent in Stanton for the next twelve months at least.

When this bulletin was received by W. A. Kaderli, local insurance agent, he immediately called for an explanation, in-as-much as Stanton had a 15 per cent good fire record credit last year with no fires reported. He was informed by the Insurance Department that the net premiums reported from Stanton were \$4,626.01 less for the years 1931, 1932 and 1933, than they were for the years 1930, 1931 and 1932, which decrease in premiums reported together with the fire losses reported for 1931 and 1932 accounted for the reduction in the credit. He was further informed that the mutual insurance concerns had made no reports at all for 1931, 1932 and 1933, and that a report from them at this time would not be in order.

Mr. Kaderli states that he has no way of knowing how much money in premiums has been paid to mutuals during the past three years but that, from the number who are known to be buying out-of-town mutual insurance, he feels sure that the amount is well over \$4,626.01, and that Stanton would not have suffered the 3 per cent increase in rate if the mutuals had reported.

Sell 1,090 MUTTON LAMBS

Bill Blocker and Milt Yater, sold last week 1090 head of mutton lambs to the John Clay Commission Co., of Fort Worth, to be shipped to Wisconsin.

It is said these gentlemen realized a nice profit on the deal after keeping the lambs only a short time.

Blocker and Yater also sold 16 head of registered bucks to Wesley Williams.

As the market looks today Martin county sheepmen are due to receive a good price for their sheep and wool.

ARCH MORGAN ACQUITTED OF THE DAWSON KILLING

Midland, March 6.—Arch Morgan was acquitted today by a jury which heard evidence in his trial on murder charges for the shooting of Phil Dawson, Midland business man, on a street here last October 7.

Witnesses testified that Dawson took Morgan's wife and children to San Angelo, that Morgan asked Dawson to return the children and Dawson refused, threatening Morgan's life.

Morgan testified he shot Dawson when the latter reached inside of his coat, as though to get a pistol, when they met on the street here. His testimony was corroborated by that of several other witnesses.

The jury deliberated only 15 minutes before returning a verdict of acquittal.

ATTEND FUNERAL SISTER-IN-LAW

Mr. and Mrs. G. B. Shelburne went to Westbrook Sunday to attend the funeral of Mrs. Jim Shelburne. The deceased and her husband, a brother of G. B. and who met such a tragic death from poisoning several years ago, formerly lived in Stanton.

The remains were brought to Westbrook from Denver, Colo., where Mrs. Shelburne had been in an army hospital. She is survived by a 13-year old son.

CONG. THOMASON INTRODUces BILL TO MATCH TEXAS

URGENT PLEA MADE TO PINK BOLL WORM AREA TO SUPPORT THE CONGRESSMAN IN HIS UNDERTAKING.

(Special to the Reporter)
(HAL BURNETT)

Within the next few months the farmers of West Texas will receive a portion due them of the money they have been forced to pay by a Federal regulation caused by a pink bollworm quarantine, and we are very grateful to our legislature of this state for setting aside this appropriation. The present appropriation is to cover only four years or such a portion as the \$5000,000 appropriation will take care of. The heavy part of this quarantine cost was back of 1929, (back of an existing law which governed the Legislature in making this appropriation. Mr. Thomason's bill that is now pending in the Congress of the United States, if passed, will match the State of Texas and other states appropriations to refund such monies. And I feel that if this bill becomes a law that we will participate in it at once to the extent of one half million dollars to match the present appropriation made by this state. And believing this to be an honest, fair and just debt and that the proceeds of such an appropriation will go direct to those who have honestly earned it. I am again urgently requesting every citizen interested in the welfare of these farmers to exert every possible effort in bringing this matter promptly to the attention of our law makers in Washington.

Here are some reasons why we believe the farmers of the pink bollworm quarantine area should be remunerated for actual cost of fumigation of cotton seed, and why every interested party in this zone should do something to assist our Congressman Hon R. E. Thomason in his efforts to secure the passage of a measure authorizing the appropriation of \$5,000,000,000 to match state funds for this purpose through the years of 1921 through 1932.

First—The money will go directly to the people who have paid it out and who have worked hard to earn it, and not to the speculators.

Second—The farmers in a large percent of this area are being penalized not for their own protection but to protect the more humid sections where the worm would really do harm should he be allowed to spread.

Third—In many instances other losses to the farmers have amounted to more than actual cost of fumigation and sterilization caused by this quarantine, such as having to sell their seed at designated mills, not being able to sell planting seed out of the bounds of quarantine zone, having to buy planting seed when not permitted to use their own seed, getting their seed too hot when sterilizing so they will not germinate or grow off well, waste of cotton seed at sterilization plant and many other small and large leaks that have caused direct inconveniences, expense and loss.

Fourth—These farmers have worked in good faith and have guarded back this menace from the cotton industry of their nation and have saved perhaps billions of dollars to this industry. You will find the following statement in bulletins put out by our State and Federal Entomologists, (we are told by these Entomologists that the loss in Egypt was from 25 to 50 per cent of the cotton, in Brazil from 30 to two-thirds percent of the crop. The loss in Mexico shows from 30 to 50 per cent, that in the Hawaiian Islands the pink bollworm has prevented the development of the cotton industry, shows that in East Africa they have caused the crop to be abandoned, shows the loss in Mexico to be 40,000 bales in 1917).

Fifth—Many of these farmers have paid more into this quarantine than their farm cost. In some sections of this zone this quarantine has cost the farmer more than the cost of cultivating the entire crop and in some cases this cost has amounted to more than planting and cultivating the crop.

The Legislature of this State has recognized this just claim, placed it upon the statutes a law that should

SNOOTER NOSE

(continued from page 1)

of the undertaking if the gallus buttons hold.

As a result of the tree campaign over 1600 trees were ordered, received and distributed, and many of that number, if not all, are standing in the ground as mute evidence of what co-operation among the business men will do.

The city council is sharing in the tree planting project by agreeing to furnish several thousand extra gallons of water to water the trees at a liberal discount from the regular rate charged, a service extended that means life to the trees.

No town of its size can boast of as pretty lawns and flowers as Stanton, when they are provided with plenty of water. The city fathers could do so more commendable act than to place a liberal supply of it at a rate every home owner can afford to use it.

TEXAS TECH, Lubbock, according to the college's newspaper The Tormentor, is setting up a "contrivance" that will "bottle up" the electricity which is "housed up" in sandstorms. If the plan proves successful it is thought enough electric power will be "snared" from one sandstorm to operate at several electric plants. It sure would be nice and convenient, and less expensive, say for a town like Stanton, to send up to Tech for a barrel of two of electrical juice, place a wire in the barrel and transmit electric juice to the populace.

We are hopeful the Tech plan works if we can reach out over this area and snatch the electricity from the sandstorms perhaps they will become wise to the "loot" taken from them and call a halt on their operations.

But speaking of sandstorms. This writer has had some personal experience several years ago in Southwest Oklahoma, at a time when these storms were sure enough bad. During one of these storms we undertook to comb our hair—just why, is not clear to us now—and our hair would raise up on end as the comb was pulled

through it as if the comb were a magnet. Accompanying this procedure was heard a popping noise like the striking of a bunch of matches. Raking the blade of a common jack-knife on a stovepipe brought forth a jingling sparks as if striking a couple of flint rocks together. Believe that or not!

CONG. THOMASON

(continued from page 1)

have taken this cost off the farmer, has appropriated monies and is now adjudicating a certain portion of the claims. This quarantine is a Federal regulation to protect other cotton growing states as well as Texas, and it is for this and the above mentioned reasons that is with no hesitancy whatever that I urge and insist that the farmers of the penalized area should be no more a party to this expense than any other farmers in any other section of the United States.

**SISTER PATRICIA McHUGH
BURIED HERE TUESDAY**

Sister Patricia McHugh, who had served with the Catholic church for more than 30 years, was interred

Tuesday morning here in the Catholic cemetery.

She succumbed Sunday evening in Amarillo after an attack of influenza developed into pneumonia. Her body was brought here Monday evening.

Sister Patricia taught in the Catholic in Big Spring for a number of years before coming here where until last September she taught in the Our Lady of Mercy Academy. From here she was called to Amarillo.

Rev. Theo. Francis of the St. Thomas church of Big Spring assisted Rev. J. A. Sirois of St. Joseph church of Stanton in the service. Rev. Tom O'Brien of Slaton and Rev. Ed-

ward Harrison of Midland also assisted in the service.

COMPLETED STUDY OF MANUAL

The following young people, members of the teacher-training class of the Baptist Sunday school, have recently completed their study of the Sunday school manual. This manual is a book of methods in Sunday school work, and is the first of a series of books recommended for study in preparation for efficient Sunday school teaching.

Those taking the course and receiving their diplomas are: Kathryn Scott, Zena Lee Jones, Robert Swain, Agnes Louder, Doris Thornton, Lorene Jones, Eudell Branton, Emma Jean Bassett, Isa Mae Robertson, Olive Marie Glazener, Mildred Martin. Mrs. Jim Sale is the teacher of this class.

**WHY GET UP NIGHTS
USE BUCHU AND GIN
Make This 25c Test**

It is as valuable to the bladder as castor oil to the bowels. Drives out impurities and excess acids which cause the irritation resulting in getting up nights, burning, frequent desire, leg pains and backache. On account of the alcohol use juniper oil from which gin is made. Ask for BUKETS, the bladder laxative also containing buchu leaves, etc. After four days, if not pleased your druggist will return your 25c. You are bound to sleep better after this cleansing. BUKETS guaranteed by J. L. Hall Drug Co.

READ THE ADVERTISEMENTS

FLOWER GROVE

The young folks of this community enjoyed a jarty at Ed. Oak's last Thursday night.

The program at the school house Friday night was well attended. Several from Flower Grove attended a musical at the Moore residence in the Soash community Saturday night.

Sunday school was well attended Sunday and Rev. Ed. McNew, preached at both the morning and evening services. Bro. Holden of Sparsburg delivered a good sermon that afternoon.

Don Sullivan and R. P. Mayfield made a business trip Monday to Stanton and Big Spring.

Farmers are listing some of their land following the rain of last week.

We are sorry to report that C. J. Ward had to give up his position as principal of the school here on account of his wife's health. Mr. Scott of Stanton has been appointed to take Mr. Ward's place as principal.

A. L. Fain was called last week to the bedside of his mother in Parker county because of her serious illness.

Rev. McNew and friends enjoyed a farewell dinner Wednesday at the home of Frederick Beckmyer, honoring the departure of Rev. McNew for New Mexico.

Mr. and Mrs. Tim Mitchell spent the week end with the latter's parents, Mr. and Mrs. D. E. Jeffcoat.

G. W. Bryson was taken suddenly ill at school Friday and was carried home but is better at this writing. Several from Flower Grove attended the big dinner Sunday at Five Mile.

There are a few cases of measles in our community, but they are not severe on any of the patients.

Miss Inez Dyer spent Sunday night with Miss Jessie Lee Ward.

LENGRAH

S. J. Foreman made a business trip Tuesday to Fort Worth.

Mr. and Mrs. Joan Williard of Merriker, visited Sunday with her parents, Mr. and Mrs. S. G. Gregg.

Mr. and Mrs. Orby Hull visited Monday at Courtney.

Mr. and Mrs. C. L. Gerald spent Sunday with her parents, Mr. and Mrs. Lee Donelson at Line.

John Pinkston and J. H. Bass were in Big Spring, Saturday.

Paul and Bud Jones of Stanton, were visiting in this community Tuesday.

Donald Adrian of Colorado, visited Sunday with his sister, Mrs. B. Foreman.

Mr. and Mrs. Dean Haines visited a few days with her parents, Mr. and Mrs. Randolph at Woodard.

Cecil Gerald made a business trip Saturday to Big Spring.

Several from here attended the party Saturday night, given by Mr. and Mrs. Reid at Valley View.

C. E. Willingham returned Thursday to Breckenridge after having spent several days with home folks.

MOTHER OF MRS. LIMMER, DIES

Mrs. J. D. Black, age 73, died at her home in Jarrell, Texas last Sunday. She was born and reared at Hardinsburg, Kentucky, and with her husband moved to Williamson county, Texas in 1883. Her husband preceded her in death some 18 months ago. She is survived by four sons, J. R.,

of Georgetown; Clyde of Jarrell; E. E., of Temple, and J. D., of Jarrell; and five daughters, Mrs. Dudley Foster, Waco; Mrs. J. R. Woodward, Kerrville; Mrs. J. E. Willerson, Lampasas; Mrs. Fred White, Jarrell; Mrs. A. M. Limmer, Stanton. Interment was made in the old Corn Hill cemetery.

HARRY ALLEN BROWN PASSES AWAY WEDNESDAY

Harry Allen Brown, 56, died Wednesday morning at his home 13 miles southwest of Stanton. Mr. Brown had been in ill health for the past three years, but his ailment did not become of a serious nature until Monday, when he suddenly took a turn for the worse.

Mr. Brown came to this section 8 years ago. Burial was in the Westbrook cemetery, Thursday, the Burnam Funeral Home having charge of the body, who conveyed it to Westbrook Thursday morning.

The deceased besides his wife, is survived by six children, three sons and three daughters.

READING COUNTRY PAPER GIVES RENEWED FAITH IN LIFE

Turning from city newspapers to small town press exchanges that come to the editor's desk is like stepping from the slums, full of vice, into an

old-fashioned garden sweet with lavender and thyme and the scent of perennial flowers. The pages of the big dailies are so full of murder, thievery, immorality and selfishness that the better news is obscured by these glaring shatterings of the Decalogue. One puts the papers aside with a feeling of depression and heartache that the world is so full of terrible and unhappy things.

Then picking up the papers that record the happenings of the little towns around us, one gains renewed faith in life. Here are set forth only that which uplifts a community—the activities of the business men, the church items, the happy social gatherings of the people, the marriages,

births and deaths, farmers' items, and all the thousand and one daily occurrences that make up the simple annals of the great common people, who are really the foundation of this broad country of ours.

Sometimes people speak lightly of the country newspaper, but it is one of the most potent and uplifting factors in our national existence.—Christian Science Monitor.

"As a man thinketh in his heart, so is he." Right or wrong thinking makes the right or wrong man.

OPENING NEW FILLING STATION

Opening of Harry Haislip's Filling Station on next Saturday will be for the purpose of filling up in more ways than one for all day he will receive his friends and serve coffee and cake. The new station is improving daily and if hard work has anything to do with it there will not be a more attractive place in town.

The station is located on the new highway and with the customers gained while in the old location by Mr. Haislip with his share of the tourist travel we predict a success for the new business venture.

O'CONNOR-BLOOMER WED

Eud O'Connor and Willie Beth Bloomer were married Tuesday night by Justice of the Peace Jess Blackford.

Miss Maxine Hall came home from Andrews county to spend the week end.

Mr. and Mrs. Will McWhorter of Albany, were week end guests of their respective parents, Mr. and Mrs. S. D. McWhorter and Mr. and Mrs. Barney Hill.

Mr. and Mrs. Clyde Harris and Mrs. Clyde White and children left early Monday morning for Dallas and Shucana. Mr. and Mrs. Harris will visit his father who on several occasions has been in Stanton.

Mr. and Mrs. Jim McCoy and baby son, James Clayton, came Saturday from Rule to visit her parents, Mr. and Mrs. J. H. Burnam. Mr McCoy returned home Sunday afternoon.

GENE PARKS, Sta. Manager HILTON KADERLI, Sta. Salesman

HERBERT SMITH

(The Clothing Merchant) SAYS—

"Too Many Overlook Value In Clothes And Gas"

HERBERT SMITH, the clothing merchant, found for a long time that price and style interested his customers more than actual value. No matter how fine a piece of material went into a suit of clothes, some people expected him to sell at shoddy prices. Today Mr. Smith notices a change in the buying attitude of his customers. They ask, "How much wool is in it—will it wear—does it hold its press?" They have discovered that the biggest bargains are found when buying on value, as well as price and style.

Mr. Smith once complained about the price of gas but his business has shown him a new principle that applies to gas also. Now he realizes that fair compensation is necessary for the fine gas service he is receiving. And he is willing to pay for it because he has compared the value of gas with other fuels and finds it worth several times the highest amount that ever has been asked of him. Few of you who read this advertisement are in the clothing business, but most of you can appreciate conclusions reached by Mr. Smith. The new attitude of his customers will enable him to give better service and to hold his position as a stable factor in the community.
