VOLUME 67

BURKBURNETT, WICHITA COUNTY, TEXAS 76354

NOVEMBER 21, 1974

NUMBER 12

by Raymond Greenwood

The first weekend of deer season has come and gone, which is easy to see. If you traveled this past weekend then you no doubt noticed the unusually large number of pickups and various camping rigs on the highways.

The best way to tell if the occupants were deer hunters is to take a close look at them on Sunday night as they made their way back to their homes. If they had a full beard an inch long, had on bright heavy clothing that looked as if it had been worn for over two days and had never been taken off, then you can be certain they were deer hunters.

Now I'm not making fun of those that deer hunt, because it's a great sport. The "average" deer hunter I described above is a fairly accurate one. I know, because that's the way I look when I hunt as well as the other hunters around me.

Last season I heard of a young man that went deer hunting for his first time. He spotted a very small south Texas spike that just had buttons instead of antlers. At best the deer weighed 50 lbs.

He drew a steady bead, and squeezed off a round just as he'd been told to do. The deer dropped to the ground, and the hunter smiled. But what if the deer gets up and runs off, what if I didn't get a good solid hit on him, thought the hunter. He fires a couple of more rounds into the small deer—just for insurance. Then he decides maybe a couple more won't hurt. By the time he reaches the deer he has fired a total of seven rounds from a high powered deer rifle into a 50 lb. deer.

His friends and neighbors didn't have to worry about getting some bad quality venison, though, 'cause there wasn't enough of that deer left to make three good hamburger patties!

Bulldog basketball season will get underway tonight as the Bulldogs travel to Childress. Both the A and B teams will play with the first game beginning at 6:00.

The Bulldogs will have their first home game Tuesday night as they host Wichita Falls in a 6:00 contest for the A & B teams. Make plans to attend the games and give them your support. They have their eyes set on the district crown, but they need the support of local fans.

I ran into a fellow on the street the other day that was walking on cloud nine. It seems that he had just received an advisory letter from Reader's Digest that he had been chosen to receive (Absolutely Free) six chances to win the Sweepstakes.

What delighted him the most about the letter was that in the past six years, he had only received 3,672 changes from this organization!

The fellows were sitting around the coffee shop and shooting the breeze when the talk got around to the origins of different dance crazes. One ole-timer claimed he was there when the Charleston got its start. "It was at a national convention," he recalled, a twinkle in his eye. "During the parade our drum and bugle corps had to march right behind a bunch of mounted cowboys."

LOOK OVER RULES—Members of the newly formed board of directors of the satellite branch of Boy's Clubs of Wichita Falls, Robert Nixon, T.M. Cornelius, Pat Norris and Lonnie Padron (left to right) are shown as they look over the rules for the Midget Basketball program of the Club.

## SATELLITE IN BURK

# Boys Club To Begin

In the near future there will be a satellite facility of the Boy's Clubs of Wichita Falls located in Burkburnett if progress continues as it has in the past two weeks.

A group of Burkburnett citizens, headed by Burkburnett Mayor T. M. Cornelius, presented a request for the satellite facility to the board of directors of the Boy's Clubs of Wichita Falls recently. The board approved the request.

Ronnie London, assistant executive director of Boy's Clubs of Wichita Falls states that although the Burkburnett club will be affiliated with Boy's Clubs of Wichita Falls, future plans will depend on the support of citizens of Burkburnett and will take three to four years to complete.

Burkburnett has already been greatly involved with the Boy's Clubs as it has had over 130 midget football players and cheerleaders in the Clubs Midget Football Program. Also this year there will be two Midget Basketball teams and a boxing program.

Nine local persons have been named as a board of directors for the local club. They include Lonnie Padron, Stan DeGreve, Jim Phillips, Overton Ray, Sonny Robertson, Robert Nixon, Gary Bean, Bob Carpenter and Pat Norris. The purpose of the board is to act as a steering committee to help with the organization of the facility.

In speaking of the project, Cornelius related that the Central Boy's Club has received additional money this year from the United Way to help with a Satellite facility here. "With the help of the Central Boy's Club in terms of expertise, guidance and some financial assistance plus the support of some of the local people that are vitally interested in this project, I feel we will soon see a Satellite facility of the Boy's Club located here in Burkburnett," stated Cornelius. He went on to say that he thought in the next three, four or maybe five years that a building could be constructed that could house a gymnasium, plus game tables as well as the many other pieces of equipment available at a club facility.

"Besides sports there are arts and crafts and many other areas that will be offered our local youth by a Boy's Club. I feel it is important that every kid in the town have something of interest to do," related Cornelius.

In the midget basketball program now underway, local teams will be working out in the local school gyms and then will travel to Wichita Falls to the Boy's Clubs there for the games.

At present there is one team for youngsters in the 9-11 year-old age bracket with Greg Williams, T.M. Cornelius and Francis Cadwalter as coaches. The team will be known as the Oilers.

An Eagle midget basketball team for youngsters ages 11 and 12 will be coached by Michael Strahan and Gilbert Garcia.

There is some discussion at present as to enlarging the basketball program to more teams.

The boxing program, which will be headed by Robert Nixon, will get underway the first of December.

## Youth Wins I/S Contest

The Informer/Star closed out a very successful football contest season this past week as a sixth grade student topped all entries. He was closely followed by a former contest winner.

Les Schroeder predicted a total of 18 correct games for the \$15 first prize, while Karen Brightman edged out 7 other contestants that had 17 correct predictions for second place.

Tied with Mrs. Brightman were Mrs. M. Nixon, Mike Watts, Chleota Russell, Donnie Bowles, Ronald Chapman, Ronald Jantzen and Mike Strahan, Jr.

The upset of the week seemed to be Green Bay over Minnesota as only Robin Hatcher, Chleota Russell, Jerry Boren, Melody Boren, Loy Inman, Ruth Bozeman, and John Cardin predicted Green Bay to win.

Other games that gave entrants a lot of trouble were Aspermont over Crowell, Colorado over Okla. St. and Houston over Cincinnati.

Results of the last contest games included: Rider over WFHS 27-0; Weatherford 54, Vernon 27; Iowa Park 28, Stephenville 13; Bowie 20, Nocona 7; Jackboro 28, Bridgeport 12; Decatur 39, Northwest 14; Aspermont 14, Crowell 13; Archer City 40, Muenster 0; Holliday 42, Callisburg 0; Throckmorton 7, Goree 6; Baylor 17, Texas

# Two Local Organizations Receive Over \$7,000 In United Way Funds

The Youth Center and the Senior Citizens Club in Burkburnett will receive over \$7,000 in United Way funds this next year due to the actions this past week of the Executive Committee of the United Way of Greater Wichita Falls.

The committee's Thursday meeting capped three weeks of budget committee hearings that allocated over \$800,000 to 27 United Way agencies. Jack Aaron and Jeep Elliott of Burkburnett were members of the budget committee, while Burkburnett's T.M. Cornelius, Pat Norris and Alvin Hill served on the executive committee.

A special fund was also created and more money than usual was included in reserve primarily because some Burkburnett agencies seeking funding for the first time this year were not thoroughly checked out in

time for the budget committee to approve requests, according to Bill Link, United Way executive director.

In a local meeting of United Way workers held Monday, recent campaign chairman Jack Aaron explained the need for an advisory committee for Burkburnett and asked for nominations of persons to that committee.

The United Way's executive committee had earlier approved formation of a Burkburnett advisory committee to review the needs of the community, check types of services offered and assure agencies asking for allocations meet the United Way guidelines.

In speaking of the extremely successful campaign in Burkburnett, Aaron stated, "It far exceeded our expectations and this great success is due to the efforts

of our campaign workers and the warm attitude of our local citizens." He also expressed thanks to the news media and especially the Informer/Star for its coverage of the local United Way campaign.

The local Youth Center will receive \$5,500 from the United Way and the Senior Citizens Club \$1,968.50. The American Red Cross also received extra money this year to provide services in Burkburnett. This agency has been conducting a separate campaign in Burkburnett, which will not be conducted this year. The Boy Scouts and Girl Scout organizations also received extra United Way funds for Burkburnett.

Other agencies in Burkburnett are expected to become a United Way agency as soon as the criteria

has been met.

Aaron praised the leaders of the Senior Citizens and the Youth Center for their outstanding work in having everything in order for the United Way budget committee.

Looking toward an even larger campaign next year it

was the consensus of this year's workers that if persons would only visit some of the United Way agencies and see the work they were doing the local portion of the Greater Wichita Falls United Way campaign would again exceed all expectations.

# Films Available At Burk Library

Burkburnett High School sports films are now available for public viewing at the Burkburnett Library thanks to the coaching staff of the local high school.

One reel of film for each year of football and basketball will be placed in the Burkburnett Library. The 16 mm films may be checked out of the library by patrons for use with their own movie equipment. The library does not have a projector.

Mrs. John Strayhorn, local librarian, explained how this idea came about. "Jack Aaron, chairman of the Trustees of the Burkburnett Library, recently was offered one reel of film for a year during which his son, Randy, played basketball. He thought other parents and

interested fans would enjoy seeing similar films. Thus, the idea of making some film available to the community was suggested and readily endorsed by the coaches."

Football films available at the library at present are the 1970 game with Burk over Hirschi 16-0; 1970 Burk over Weatherford 14-0; 1970 Burk over Duncan 25-14; 1968 Burk over Breckenridge 22-6; and 1967 Burk over Crooked Oak 41-6. Other football films are expected to be available later.

The basketball films will be available in the next few weeks as soon as the coaches' files can be gone through and films selected.

Accepting the large clock on behalf of the city at the councilmen's regular meeting was Mayor T.M. Cornelius.

In the city manager's report to the council it was noted that the Civic Center was paying about 1/2 its way in expenses. Also noted was the city's budget being hit hard by inflation and that probably the year's expenses will run higher than anti-

ciated.

Councilmen approved the city's accounts payable in the amount of \$15,064.

In other action members gave approval for a right of way easement to Texas Electric for a service line at the new city park.

**Does a 60-watt bulb use 40% less electricity than a 100-watt bulb?**

It does indeed. It also lasts longer. But it produces less light.

If you aren't concerned about lighting an area brightly, like in a hallway or entrance, you'll use less electricity by using a 60-watt bulb.

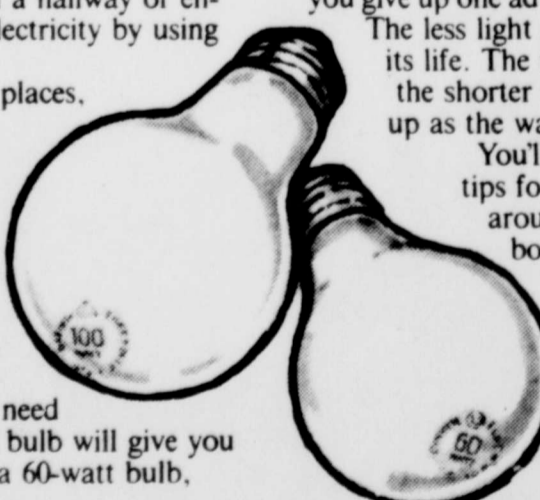

For hard-to-reach places, a smaller wattage bulb will be a help to you. Since it lasts a lot longer, you won't have to bother with changing it as often.

When it comes to reading, studying, sewing or working, you'll undoubtedly want and need more light. A 100-watt bulb will give you twice as much light as a 60-watt bulb, but it uses two-thirds more energy and has one-fourth less life.

The rule of thumb in lighting is that you give up one advantage to gain another. The less light a bulb gives, the longer its life. The more light a bulb gives, the shorter its life. Energy use goes up as the wattage goes up.

You'll find lighting and other tips for using electricity wisely around your house in a free booklet we're offering.

To get a copy, call or come by Texas Electric, or request one on the comment portion of your electric service bill.

Home care and maintenance is of the utmost importance to today's families. I hope you are watching the weekly series "You Can Do It". The television series shows how you can save the expense of calling a repairman by doing repairs yourself.

Viewers will learn how to paint home exteriors during Saturday's "You Can Do It!" program on KFDX-TV, Channel III.

It will be shown at 1:00 p.m. "This week's program will teach selection of paint and materials, as well as surface preparation and paint application." "For example, viewers will learn that a good paint brush is essential to a satisfactory paint job." "In choosing a paint brush, the do-it-yourselfer will need one with full-bodied bristles—it should feel full-bodied.

"Also, it should have bristles or filaments of different lengths, which will create a tapered shape. And nylon brush filaments should be tipped or flagged (split) at the tip," the agent said.

"You Can Do It!" is a 13-part educational series which will run through Jan. 11, 1975, is sponsored locally by the Wichita County Family Living Committee

and KFDX-TV. It is currently seen in Wichita and surrounding counties.

Created and produced by home economics specialists with the Texas Agriculture Extension Service, The Texas A&M University System, the weekly series was funded through a special grant from the United States Department of Agriculture.

Programs in upcoming weeks will include lessons on wall repairs, interior painting, care and maintenance of wood finishes, carpets, ranges and refrigerators along with a program on how to make storage space.

"How To" booklets explaining each of the thirteen topics covered in the series are available from your county extension office. You may call 766-0131 or write to 1626 Midwestern Parkway, Wichita Falls, Texas for bulletins at no charge.

## Bill Lucas Reports

Extension Director

**Walters**  
Bagworms, spider mites and pine tip borers are the major pests of coniferous evergreens. But, old conifers under stressing conditions can develop borers and diseases depending on their species.

Pine tip borers appearing mainly on young pines can be prevented for an entire season by applying Di-Syston as recommended on the pesticide package.

To determine the quantity of pesticide needed, figure the diameter of the tree by measuring around the tree at 4 1/2 feet above the ground. Divide the number by 3.14 to get the diameter.

Place Di-Syston granules in shallow trenches or in several holes under the canopy or drip line of the tree. Cover the trenches or holes with dirt and water the area thoroughly to get the pesticide into the root system of the tree.

Ten percent Di-Syston should be applied only by a commercial applicator. Applying Di-Syston in November will give best control of pine tip borer.

It is a good time to apply an anti-desiccant to both the broad-leaved and narrow-leaved (coniferous) evergreens. This is especially wise on newly transplanted stock or shrubs under stress resulting from old age, weather, etc. Two commercially available are "Wilt Pruf" and "Foligard". For further information ask for Fact Sheet 6404.

Old pines and cedars in low vigor may be helped to be invigorated by applying a 1 to 4 inch layer of well-rotted manure as a mulch under the tree canopy. The manure may be composted first to reduce the weed population but the manure should be applied soon enough to disintegrate before spring.

Application of an anti-desiccant will help an old pine under stress. \*\*\*\*\*  
When planting trees and shrubs, make the holes a minimum of one foot wide and six inches deeper. Be sure to check for drainage in hardpan and clay soils first. Correct the drainage before planting.

Do not apply a winter mulch until the ground has actually gotten cold. A winter mulch is not to prevent freezing so much as it is to keep the soil temperature more constant which prevents plant growth stimulation during the mild winter periods.

**BEEF FOR THANKSGIVING**--Tired of traditional holiday meals? Beef Wellington, a fillet inside a buttery pastry, will make this Thanksgiving dinner one to remember. The beef is served with fresh tomatoes topped with horseradish cream. For additional beef recipes write Commissioner John C. White, Texas Department of Agriculture, P.O. ## White: Fewer Lambs Mean Higher Prices

AUSTIN--"A decrease in the number of lambs being raised has created a healthy financial market for sheep producers," Agriculture Commissioner John C. White said recently.

Feedlot lambs have been selling at 42-43 cents a pound and dressed animals at 84-85 cents.

"Everything is based on supply and demand," White said. "The sheep market used

to be erratic, but it has leveled out because we no longer have a big supply."

The commissioner blamed a predator problem for forcing many Central Texas sheep raisers out of business. He also said that rising labor costs have played a role in cutting down competition. An advantage in raising lambs is that they can be grazed to slaughter weight without going to feedlots.

### A WORD FITLY SPOKEN

Eighty-seven-year-old Dorsie Willis had a dishonorable discharge from the Army changed to honorable sixty years later. New facts caused officials to reverse the injustice just before Willis died. Willis' last words were: "I'm very grateful, but it's many years too late."

Great painters and poets have died in poverty, unknown and unsung, only to become greatly revered and respected later. How many marriages have ended in bitter divorce, which, later were seen in a new light as having been precious and priceless? But it's too late to turn back.

How many lives could have been salvaged by a kind and merciful God if he had turned to Him sooner, but it's too late. The art of saying thank you, of bestowing gifts of love and honor now, is one of life's richest and most satisfying gifts.

Life is filled with regrets for some of our friends, because we arrive too late, with too little! The Psalmist said: "A word fitly spoken is like an apple of gold in a picture of silver."

## Dogs Lose 59-52 In Scrimmage

Basketball season opened last Friday for the Bulldogs as they played Rider in a scrimmage. The 'Dogs played hard but bit the dust as the Raiders won, 59-52. It was mostly a case of Burk Burnett's fast break against Rider's full court press. The score was 35-20 Rider midway through the second quarter, but by the end of the third quarter, the Bulldogs had pulled to within four points, 45-41. Midway in the fourth period, the Bulldogs pulled ahead 47-45 on a bucket by Curtis Williams and a steal and score by Williams. Then

with 3:38 left, Paul Taylor made good on a three-point play to move Burk ahead 50-49. But Rider ran off with it from third with a couple of quick baskets. Tim McMahon led Burk scorers with ten points, while Paul Taylor netted nine and Chris Burg made eight.

Here's a metric measurement from the Texas Department of Agriculture. One acre equals 100 square meters.

## Burkburnett 8th Grade Posts Two Big Wins

The Burk Burnett 8th grade football team closed out its regular season last week on a winning note as it downed City View by the score of 50-18. The game seemed to be a complete run-away as the first unit for the Bulldogs only palyed the first half. The third unit scored two touchdowns and the fourth Bulldog unit drove the ball to

the one foot line before being stopped. **BULLDOGS SLAP VERNON 20-12** In a hard fought game the week before, the Bulldogs romped over previously unbeaten Vernon by a score of 20-12. "Our kids dominated that whole game," stated Bulldog Coach Tex Yeager. "It was no doubt who had the best

ball club." In the scoring column for the 'Dogs were Eric Shirley who scored two touchdowns, Ronnie Woods who rampled for a total of 60 yards during the game and one touchdown; and Darrell Ray who scored a PAT on a pass from Mike Bapostette. Burk was down 12-8 at the half but the defensive unit came through to hold the

Lions scoreless in the second half while the Bulldogs added two touchdowns. Tony White, Vince Bledsole, Earl Thomas, Darrell Ray, Eric Shirley and Robert Wernossky were cited as defensive standouts for the Bulldogs. Mark Schmidt was the leading ground gainer as he carried for 70 yards on 14 carries.

## Women Telling Story Of Texas Agriculture

AUSTIN—Renee Barsalou and Linda Farrell, special assistants to Agriculture Commissioner John C. White, travel the state telling the story of Texas agriculture. The women trained in various agriculture centers around the state learning about the department's divisions and duties and the problems of today's farmer. They speak to schools, civic groups and clubs on such subjects as consumer

education and agricultural careers. Slide presentations often accompany their talks. Ms. Barsalou has a bachelor of education from the University of Texas. She taught elementary school in Houston before joining TDA. Ms. Farrell has a bachelor of science degree in home economics from Texas Tech University. She was home economist for Pioneer Natural Gas in Lubbock before joining the department.

## Are Natural Gas Curtailments Going To Affect Me?

During cold days in the winter, when the demand for natural gas is really high, some industrial users are asked to cut back their consumption of natural gas. But we want to assure our residential and other high priority customers that it's highly unlikely their natural gas service will be interrupted.

The pipelines used to deliver natural gas can only hold so much gas. And during extremely cold winter days, there's sometimes more demand than we can supply. Some people ask, "Why not build bigger pipelines?" But that would be like building a church for the Easter or Christmas attendance, rather than the weekly congregation. The cost would be tremendous and gas rates would be much higher.

Instead we developed a "curtailment" program many years ago. Our industrial customers have signed contracts agreeing to "curtail" their use of natural gas during these peak times. And in return, they pay a lesser rate reflecting the probability of being interrupted.

If you were considering replacing an existing gas appliance or purchasing a new one, be assured that Lone Star can provide the energy. We have the natural gas, and our residential and other high priority customers may continue to rely on Lone Star's dependable service now as in the past.

Weekly Health Tip  
from Joe Gillespie

To your children, never call medicine candy. If deceived in this way, children may search out the bottle and eat or drink its contents. This can cause serious illness or poisoning. Also avoid taking medication in the presence of children, as they tend to imitate their elders.

To your children, never call medicine candy. If deceived in this way, children may search out the bottle and eat or drink its contents. This can cause serious illness or poisoning. Also avoid taking medication in the presence of children, as they tend to imitate their elders.

## Local Realtor Speaks To Burk VOE Class

The Vocational Office Education Class of Burkburnett High School heard Doss Hamilton of Pioneer Real Estate Friday. As a part of the effort to expose the students to the business world, Mr. Hamilton presented "real estate" as a career choice, describing the requirements of the "sales" personality, the knowledge of law, the mathematics of real estate, and the ethics of the business. He also presented the consumer side of buying a home.

Pioneer Real Estate employs a V.O.E. student, Miss Paula Crumpler, in a part-time training program as a receptionist through the Office Education Program in the High School.

## Postal Unpaid Delivery Policy

RANDLETT, Oklahoma -- Postmaster V.L. Bentley today reminded customers that effective last Sunday, the U.S. Postal Service intends to discontinue delivering mail on which there is no postage.

Postmaster Bentley said the new policy was instituted because of the high costs being incurred by the Postal Service in its attempt to deliver such mail. Officials estimate that such costs total approximately \$18 million annually.

In announcing the new policy last month, Postmaster General E.T. Klassen said, "It is unfair to burden the vast majority of mailers with costs created by the few who mail without prepay-

ment of postage."

After November 17, letters mailed without postage will be returned to the sender if there is a return address, or to the dead letter office, instead of being delivered to the address as postage due mail as has been the custom. Postal officials will attempt to find the sender of unpaid mail and return it for a slight fee, if there is no return address.

"Naturally we realize that someone could inadvertently forget to put a stamp on a letter or that a stamp could come off prior to cancellation so we urge mailers to be sure to include a correct return address on their mail," Postmaster Bentley said.

SPEAKER FROM INSURANCE WORLD--Doss Hamilton is shown above as he speaks to the VOE Class recently.

## Open Door Policy

It may be tempting on a chilly winter morning to warm your car engine with the garage door closed. But to do so, warns the Texas Safety Association, is to court death.

Carbon monoxide poisoning can quickly overcome you in a closed space. It is odorless, tasteless, colorless and difficult to detect.

## Quarter Century Club Members Banquet Honorees

WICHITA FALLS--Burl B. Hulsey Jr., president of Texas Electric Service Co., told company employees at a meeting last week honoring Quarter Century Club members that TESCO is in a strong position today and although it has solid, long-range plans for the future, carrying out those plans will be a big, tough job.

Hulsey said that TESCO is just beginning a major transition from using natural gas for virtually all its generating plants to using lignite coal and nuclear fuels.

"This transition is the most far-reaching and most expensive in the company's history," he stated. "To use these more abundant fuels, we must build new, more expensive power plants at a time when continued inflation increases their cost daily. This means hundreds of millions of dollars will have to be invested in new facilities. Our total investment is now approaching one billion dollars, and it will increase by more than \$700 million dollars in just the next five years."

"We have to depend on investors to supply most of this money we will need for new facilities in a fiercely

competitive money market at very high interest rates," Hulsey said, "and we have to earn earnings that are adequate to attract and to pay the cost of this additional money."

TESCO sold \$70 million in new securities at a rate of about 8 1/2% in April, he said, and plans to sell \$60 million of new bonds in December, expecting to pay about 10% for this money.

Hulsey said that several major utilities recently had been unable to find buyers for their bonds and stocks which forced them to make major cutbacks in their construction plans.

"It won't take long for these cutbacks to result in poorer service to customers," he said. "There is one basic reason why these companies are faced with serious financial crisis and a deterioration of their service. They have not been allowed sufficient earnings to stay financially strong and to keep a good credit rating."

TESCO has a strong financial position and an excellent credit rating at this time, he stated. "The only way we can keep this strong position, so that we can get the money we need, is

through rate increases like the one approved earlier this year."

Hulsey said that directly related to the company's financial strength is the effect the proposed state utility commission would have.

"Many of the problems faced by electric utilities in other states have been caused by oppressive, over-regulation by state utility commissions. Utility analysts now recognize that most state utility regulatory laws and methods are out of date, archaic and simply not working."

"When you look at the problems of many electric utilities in other parts of the country--when you look at the record--it's obvious there's something wrong with their system of regulation and something right with ours."

"Our present system of local, close-to-home regulation of our rates and service is working and is working well for our customers. It has resulted in quality service at some of the lowest rates in the country."

"Local regulation is more responsive to local needs and problems because local

people, who are themselves customers, can best judge the quality and value of our service."

"The proponents of a state utility commission suggest that a remote group in Austin could do a better job and could somehow reduce rates and reduce the need for rate increases. I can assure you that this defies the basic laws of economics."

"The increasing costs we face must be included in the price of electricity. A state utility commission cannot reduce these costs or solve any of the problems we face. It can't make new supplies of fuel available. It can't reduce construction costs. It can't make more capital available, and it can't reduce inflation."

Hulsey presented award timepieces to five employees who completed 25 years of service with the company during the year and became members of the Quarter Century Club.

The five are J.R. Priddy Jr. of the transmission division, D.B. Lesh of the power plant and A.L. Burge, W.R. Kimbler and H.M. Garrett Jr. of the distribution service center, all in Wichita Falls.
