Boy Scouts

Dictator countries have stressed their youth movement as a part of their combined force for strength. Here in tines. this country we have a group of youths that are called a Valentine box next Monday. The Man Lincoln

Today with events pointing to great figures of the past who have met wars and helped win them, the mind draws instantly to the man Lincoln. Can we deny that human nature is different than those 80-odd years ago when a nation was making a desperate struggle? Man may have different or four out because of illness of print by the end of this six ferent reasons, different policies, varied attacks, but man's and we hope they will be back weeks. nature is the same as when Lincoln piloted the ship. He soon. had more difficult time preparing for war. He fought appeasers and arm-chair strategists. There was the war program which is to be given at profiteer who puts today's gouger to shame. The draft bill he issued caused a terrible bout. Politics and the army was so intertwined that they were one. The spoils system was a professional game compared to our amateur standing today. Inflation ran wild. His foes were many from bonds and stamps are Wanda political-minded laymen through scheming Congressmen, Crume, Jack Jamieson and Gad some of his cabinet members, his generals and too many of Garland, June Vaughn, Wanda his party members.

We speak of Lincoln as the symbol of democracy. We quote him on keeping intact our freedom. We refer to him ald Wright, Eddie Vernon and as the man for the ages. Consider him and the extent of his wisdom. His birthday is not needed to remind us of the immeasurable good of the man, his understanding and moved here from California. We Donald Wills, Charlie Wright, his predictions. He proves democracy and its possibilities as he went from cabin to Capitol. He practiced democracy in every act, every idea, every word and plan conceived.

What would Lincoln do today? Perhaps he puzzled mightily and not really know, but inasmuch as his own life had taught him the lesson of living it is certain his wisdom and patience, gained from personal defeats, with his disregard for personal glory, would work us through a trial today as of yesterday.

Small Town Business

So much attention is given big industrial organizations that we might lose sight of the fact that the great bulk of all business enterprise in this country is in the hands of the small business man. For instance, the small towns account for 50% of the gasoline sold, 60% of Cadillac cars sold, sends a larger percentage of youngsters to colleges per thousand population than the city, that a little over 99% of the manufacturing companies in our country employ less than 1,000 people each. This is why we stress small business, the importance of appealing to the small town sentiment. Look to what field a man eventually appeals for his vote getting, for your proof is the power of the small town market. Let us keep it free, unhampered and unprejudiced.

"Navigator to pilot . . . near the coast now, watch for enemy fighters . . . let's get home!"

"Pilot to navigator . . . don't you like it here?" The intercom buzzed off.

Cold sweat popped unnoticed on John Smith's forehead. Fighters! One Focke-Wulf would be enough-all ammunition spent, two motors gone ...

Thoughts again. "We can't go down now-this is the year that's going to turn the trick, the one that countspitch in now and we'll all get home sooner-come on, baby, take us home!" The intercom crackled. "Bandits at one o'clock, Focke-Wulfs-lots of them!" The communique merely said, "One

of our bombers failed to return." Over there, they know this is the

year of climax-they won't fail uswill you fail them? Your job is simple -work to win the war, buy War Bonds regularly-and buy more War Bonds, at least one extra \$100 Bond now. You'll get your money back, with interest. But right now you've got to lend it \$200,

\$300, \$500, all you can, for this is the climax year! The committee where you work is counting on you to do your part-don't fail!

In your heart, can you tell John Smith of a sacrifice that should stop you from

buying more Bonds?

An Average Church In The United States

It has often been asked, What Is An Average Church? This is a question that is open to a number of interpretations, but at least any one of them points out the fact that the greater part of all of the work must be done by the membership.

Statistics show that there are approximately 50,000,000 people in the United States who are members of some church. About 20 million are Roman Catholics, 5 million Jews, 24 million Protestant Christians and the remainder subscribe to other than Christian beliefs.

There is one minister for each 1100 people in the United States, so that each active minister would have a church, on the average, of 400 members, and a constituency of 1100 people

It is easily seen that there is far more work to do in caring for 400 members and 700 unchurched people than any one individual can do. An analogy might be drawn between the work of a minister and a school teacher. The teacher has less than 40 pupils, who are required to attend regularly on time and teacher works five days a week

Applique Is Keynote Of Remodeled Room

COLOR is important in making harmonious rooms from odds and ends, and nature is the best source for color inspiration. The soft golden color of wheat, the orange-red of poppies and the blue of cornflowers were worked into

the charming applique design you see here over the desk.

Stretched over a piece of cardboard to fit an unused picture frame this piece of applique work became the keynote for the interesting furniture group you see here. The top of the old desk was cut away and it was boxed in between book shelves. The padded stool was made of a box. The sketch shows how the applique colors were repeated in paint and fabric. The desk accessories also repeat these colors.

NOTE—Now is the time to start a really interesting piece of hand work that will fit into that room that you expect to remodel next spring. A stamping pattern, color guide and directions for all the stitches in the graceful applique design shown here may be obtained for 15 cents.

Allied Nations Are Stunned by Stories Of Jap Atrocities to War Prisoners; Reds Surge Forward Below Leningrad; Fifth Army Continues March to Rome

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Beauty Parlor-Just like that, T-4 Joseph Drescher of Leavittsburg, Ohio, dropped into this chic little salon on Bougainville in the Solomons for a haircut, shine and manicure.

JAP ATROCITIES: 'Death March'

"Death March on Bataan."

In these four ghastly words, the late Lieut. Col. William Dyess, who told a still more ghastly story of horror and atrocity committed against the heroic U.S. and Philippine defenders of Bataan by the enemy.

On 85 miles of road leading from Bataan to San Fernando, Colonel Dyess related in a war and navy department release, U. S. and Filipino troops plodded along from dawn to dusk for six days, thirsting under a piercing sun. Sick and delirious were dragged from the straggling columns and cruelly put to death. In one instance, prisoners were forced to bury three Americans and Fili-

pinos alive at bayonet point. Conditions in prison camps were equally atrocious, the army and mavy report revealed. At one camp, the death rate was 20 Americans and 150 Filipinos a day in the first week. In the second week the rate jumped to 50 Americans and 500 Filipinos through starving and overwork.

In raising \$1,000,000,000, the legislators recommended a 25 per cent tax on cosmetics and toilet articles; 1 cent tax on every 5 cents of amusement admissions; 30 per cent tax on cabaret or night club bills, and \$20 annual tax on pool tables and bowling alleys.

It was also recommended that air mail postage be boosted to 8 cents and locally delivered mail to 3 cents.

CIVILIAN TIRES:

Because chemical difficulties have been encountered in processing oil into synthetic rubber ingredients and military requirements have increased, a cutback in civilian tire production from 30 to 20 million casings for 1944 loomed.

A legend in Cuba (the home of the famed Bacardi rum) is this. The rum was originally owned by ten brothers. Only two survive. Every time one of the Bacardi brothers passed on he was buried with a case of the rum-"knowing the brothers in Heaven were waiting for some!"

Pod'n the Round Shoulders: Margie Holliday tells of the chap who took out a lovely looker, who was unbelievably dumb. When he delivered her home after an endless eve'g he sighed: "You're very beautiful, but so stupid!"

"If you think I'm stupid," she gaga'd, "you should see my mother, She's all bent over!"

Yes, Indeedy!: In the newsreels from the war fronts our brave commanders are usually photo'd leading their men to the attack. We saw a closeup like that last night. The General facing the camera. Willie Collier is dead. There was a comic. He had wit and showmanship and a style of offhand clowning that you hardly ever find in the days of stun-the-peasants technique. You remember him best from one of the first Music Box Revues, teamed up with the late Sam Bernard. That was where Willie popularized the word "nifty." A couple of seasons later he produced a show for himself and Bernard, called "Nifties." It died, but nothing of Collier's deserved to.

Another time Collier was a last cent of their rated minute replacement-for Lew Fields it seems. On his first entrance he will be manufacturned to the audience and exhibited tured this year. > THE "shock troops" of your Government's 4th War Loan Drive—a drive that must raise \$14 billion to put the punch behind the punch that may make 1944 the date of doom for the Nazis-will soon call on you to buy your personal quota of Bonds. For, of the \$14 billion that must be raised in this Drive, \$5.5 billion worth must come from individuals.

Welcome these American men and women-5 million of them—who are not only buying their share of Bonds but are giving their time to call on you, personally.

Every office, every plant, every home, every individual in America has a quota to meet. Your personal quota is at least one extra \$100 Bond. That's above your regular Bond buying.

If possible, buy your extra Bonds during this drive at the plant or office where you work. A volunteer Bond worker will sell you there. Otherwise; welcome him to your home when he calls. Or find one in the thousands of retail stores all over the United States. They want to find you—you must help see that they do.

If you are unable to make your purchases from a soldier of victory be sure to go to one of these other special War Bond stations to buy your extra Bonds:

STUDENT COUNCIL

The members of the High School Student Council met in regular session, Wednesday, Feb. 2, 1944.

The publication of a school newspaper was discussed. It was decided that the council would have charge of the paper, and would complete an edition every two weeks. James McDonald, Hugh Cole Preston and Noel Duke were appointed to write up the High School sports news. Treva Lane, Billie Marie Nolan and Wanda Gale Cruce are to be in charge of the society and gossip column. Jean Boyd is to write the editorials.

The Council has decided order sterling silver pins for all of the members who want them. The order will be turned in and mailed this week.
