Burk Is Clean Lets Keep It So On Eve of Entering Military Service

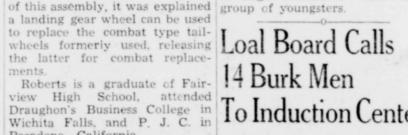

In the recent clean-up campaign much improvement is evident, with the alleys of the town all clean and graded. We must all feel proud of the more sanitary condition which exists and certainly we want to keep it that way. Let don't empty trash and cans to be scattered to the four winds. Let's put them in containers that will keep them intact until they are picked up again. Your corporation is solicited according to the city management.

THE RACKETEERS NEED YOU

Editorial by Peal Gallies

Have you done your hit for the Gamiline Market today? Then hurry, Hurry down to the nearest chiseling garage or unscruptions filling station and get pour extra fine or ten gallion quota of available gasoline, because the criminal scam of the country is hungry. It's been a long time between Juicy rackets.

"Will that make as intestranger who had "more than he could use," stand the thief, the counterfeiter, the gauguter; the fence, the hijacker, the racketeer, the Big Fellow, the murderer. They need you. They're organized and waiting. There hasn't been as sweet a racket as this since the days of prohibition or as deadly a bunch of thugs running it. But they depend upon you. Without your help and convence the entire crimital encients under to the homes, and find action, still-life, animal, surstructure would collapse oversight. Are you going to disappoint them?

BIRDS AND BEASTS

We consider the protection of humans and rally to the causes of man when he is abused. It is being civilized and necessary, if we call ourselves humane. Then consider the cause of man's friends, the birds and beasts and of their need for protection and consideration. Observe "Be Kind to Animals Week" and sponsor National Bird Day, and implant upon your mind the importance of both to the human race. Birds, animals, fish, are undeniably necessary as they furnish us with food, clothing and transportation as well as giving us pleasure through certain companionship. Man owes much to the dumb creatures and no one in Burkburnett should refuse to protect them.

You can't understand why it is that some Burkburnett folks can't realize that whatever helps their town helps them as residents.

Consumers Paying Debts

There are increasing signs that American consumers are paying their debts. Latest figures show that the total consumer credit outstanding at the end of 1941 has been marked by the sharp decline of 51 per cent. The greatest portion of this drop is accounted for by the shrinkage in installment credit.

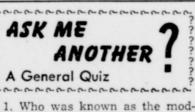

The shrinkage is said to indicate that a large postwar market will open for autos, refrigerators, furniture and household equipment frequently sold on the installment plan.

Burk Students To Attend State Meet At Austin

More than 1,000 aspirants for state honors in literary and athletic events, including track field, debate, declamation, commercial, dramatics and writing contests, will go to the University of Texas campus May 4-5 for the 24th annual University Interscholastic League meet, Roy Bedichek, director, has announced.

In pre-war years, approximately half a million Texas school children entered the League's 20 events. This organization is the largest inter-school competition in the county, both from a standpoint of number of partiipants and range of events. Last year, approximately 340,-

000 participants enrolled. "Although the number of participants in the League program

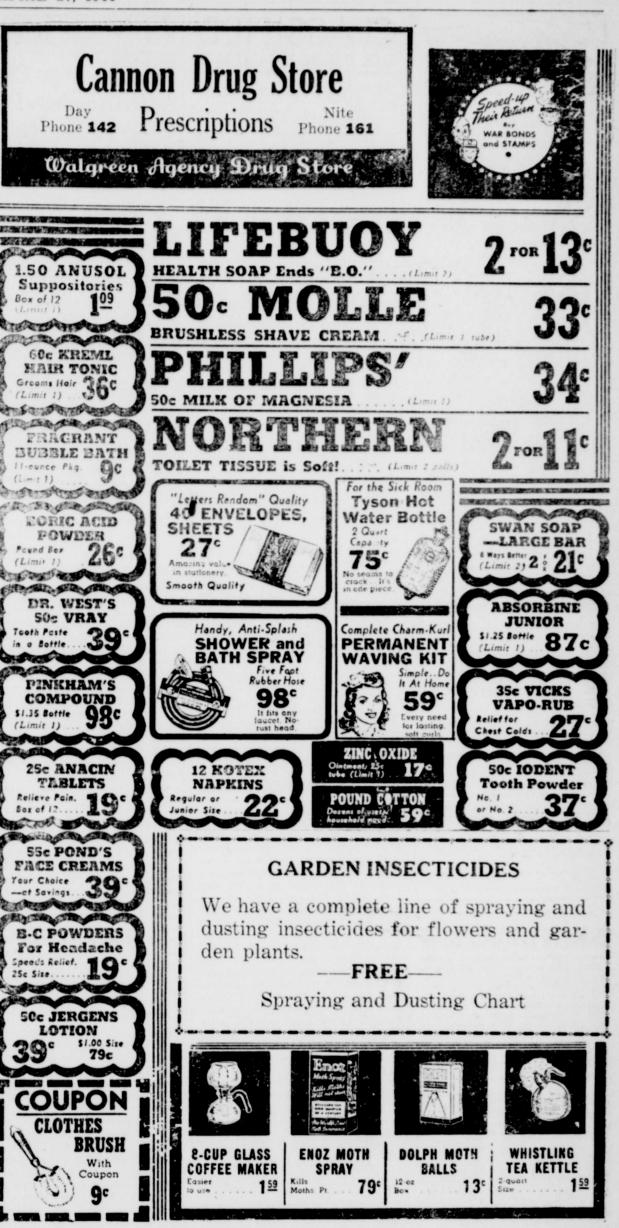

in the initial brackets of competition-in the counties-is substantially smaller than in prewar years, we look for no appreciable decline in the number of championship contenders who will come to the state meet,' ventured Mr. Bedichek.

Child Health Day Set For May 1st

Dr. Geo. W. Cox, State Health Officer, indorsing the president's proclamation that May 1 be set aside as Child Health Day, has ssued an urgent appeal to all Texans to cooperate in this health conservation program.

One of the difficulties encountered by the house wife is the discoloration of peaches that takes place between the time fruit is prepared at home and finally placed in the sharp freezer at the locker plant. This discoloration and off taste can be avoided by a simple treatment before peaches are packed in the containers. Peaches are peeled (without scalding if desired) and sliced quartered, or halved. As soon as enough fruit has been prepared to fill a container it is dipped in a solution containing 1 level teaspoon of thiocarbomide in 1 gallon of water. Surplus solution is drained off and the fruit packed in containers.
