Wednesday afternoon this community had the honor of welcoming a new pastor at the First Methodist church, Rev. P. G. Hightower and his family have moved here from Lee Street Methodist Church in Greenville where they have had a very pleasant and profitable pastorate.

Brother Hightower lived in Franklin County, South of Mt. Vernon before entering the ministry and Brother DeVore pastored his family and his wife's family there several years ago. He was admitted into this conference in 1927 and has served pastorates in Petrolia, Talco, and McKinney Ave. in Dallas before going to Greenville.

Brother Hightower served in the army a few months in the first World War, but the war was almost over before he was old enough to enter the service. He is a member of the Lion's Club in Greenville and has been very popular and widely known in the city there.

Brother and Mrs. Hightower have one son in the Armed Service and another expecting to enter the service soon. They have a daughter and two younger boys in school.

Seven Years Pastor

Sunday morning will be the beginning of the eighth year for Rev. Otto C. Perry as pastor of the local Nazarene Church. Although the church has not had a phenomenal growth it has done well. When Bro. Perry came as pastor November 1st 1937 there were only 18 members, at present there are 55. The church property is easily worth three times the amount it was then and there is no indebtedness.

In addition to pastoring the church, the pastor works regularly, only stopping when conducting revivals out of town. Having held from one to four meetings each year and yet makes as many calls in a year as many pastors who never work at manual labor. This past year 350 calls and a number of funerals were recorded.

The Perry's have ten children. The 5 oldest are high school graduates. Three from E. H. S. One has done work in Wayland Baptist College, Plainview, Texas; another took a business course in Draughton's Business College at Dallas and has two years music, another took post graduate work one year. The oldest boy is a Sergeant and has been in England since February. The second son is a corporal stationed at Selman Field, Monroe, La.

Paper Salvage Campaign Going Along Well

Salvage of waste paper here is progressing well. Each Friday afternoon at 4:00 trucks leave the City Hall and make every street and avenue in town. The amount of paper gathered is increasing each week.

Every home in Burkburnett has some paper that could be put out each week. No matter how small the package, put it out near the curb where the Scouts and Cubs can pick it up. It should not be long before a car load of paper is ready for shipment. Money received for the paper will be divided between the Scouts, Cubs and Camp Fire Girls.

Business houses in town are co-operating in this campaign. Paper cartons, the highest priced waste paper, has been gathered from the stores in great quantities. In the business section, paper is picked up twice each week, Tuesday and Friday afternoons.

Rev. DeVore And Family Moved To Greenville

REV. DEVORE

After a happy pastorate of four years Rev. DeVore and family have been moved from Burkburnett to a new pastorate in the Wesley Methodist Church of Greenville. The local community extends appreciation and congratulations on the fine promotion. They have been active in the community life and the church interests of the community.

Rev. Paul Stephenson came from Wesley Church Greenville to Floral Heights Church in Wichita Falls. Rev. M. L. Hamilton moved from Burkburnett, after leading in the building of the church and parsonage here and built the \$125,000 building at Wesley. Dr. Hamilton stayed until the debt on the building there was liquidated. Six years ago a large and beautiful brick parsonage was built. Kavanaugh and Lee St. Churches have been organized and started by the members of Wesley Church.

During the four years Rev. DeVore has pastored the local congregation the church and parsonage have been repaired extensively and redecorated. 267 new members have been received into the church, 194 average attendance has been maintained in the Church School and about \$30,000 has been raised for all purposes.

Brother DeVore served pastorates at Princeton, 30 miles West of Greenville and Pickton, 50 miles North East of Greenville before coming to Bryson and then to Burkburnett. He has been a member of the conference eleven years and received about 700 new members in the churches he has pastored. He worked in Mission work and organizing churches since he was seventeen.

Mrs. DeVore is a native of San Antonio, Texas, and has completed six years work at S. M. U. with the highest honors to be received. She has been beloved in the church and community. She has received a number of first prizes on her oil paintings at the County Fair each year, and has been very active in giving book reviews and leading worship services. The two older children have been good students and active in Cub and Camp Fire work.

The large attendance Sunday morning and overflow Sunday night were evidences of the fine appreciation of the community for the work of this pastor.

Rev. and Mrs. DeVore wish to thank their many Burkburnett friends for the thoughtful gifts they received just before leaving for their new home in Greenville.

Don't Forget To Vote Amendments State Constitution

CHILLICOTHE, Tex., Nov. 1—"The Presidential election has overshadowed the two amendments, to the State constitution, which will be on the ballot Nov. 7," said Sen. George Moffett today, "these amendments deserve careful consideration."

One would permit Commissioners Court to re-allocate but not increase county property tax rates—after the people at a county-wide election approve such re-allocation. For instance if the court desired to increase the county general fund tax rate, at the same time, a decrease must be made in the jury fund tax rate. Under the terms of the proposed amendment, this re-allocation would continue for only six years, unless further approved by another vote of the people.

"The second constitutional amendment would authorize that so desire, to set up retirement systems for their employees, if the people approve same at a city wide election."

Senator Moffett, who has been chairman of the committee on constitutional amendments in both branches of the Legislature, helped write one of the above amendments, and endorses both of them.

OUR HEALTH

Working under a nervous tension has affected the general health of many in the pressure pattern of modern life. Medical sources inform us that we live too hurriedly, go to extremes in too frequent cases to be healthy. One of our most detrimental health factors is the popular habit of worry, which seems to be one of the hardest things to overcome. We are advised that to give the best to work, we must not overwork, proving one of the reasons for inefficiency. Whatever the age, excitement and temperamental display has the effect of burning us out, of lessening our energy and leaving us with a depressed state of mind. Well, the medical fraternity has not told us anything that most of us in Burk Burnett didn't already know but couldn't dominate.

HOW ABOUT YOU?

The country editor finds the part of his paper which directly appeals to most readers is that section he reserves for news from servicemen and women. The activities in camps at home, letters from overseas, attract the notice and interest in Burk Burnett readers. Soldier news is practically sacred news, here and everywhere. The large daily papers have columns of soldier news, for even when one might not be known to individuals, the matter is still attractive in action and human interest. Your newspaper tries to keep up with the local boys in service, through personal letters and consideration of the boys parents and friends, who give items. We appreciate this concern and since our subscribers find these contributions good reading, they too testify to the thoughtfulness.

FACTS AND FANCY

The sponsoring of settlements for returning soldiers and sailors to produce farmers for after the war, is appearing prominently in print. Inasmuch as there is widespread interest among the boys in the field of agriculture, it might help solve some of the readjustment problems.

but even this wholesale farming isn't entirely satisfactory. Because one has a desire to farm or wants the land as a way out of unemployment, doesn't mean a farmer. To come from cities into rural areas and qualify for agriculture is not as simple as it sounds. Some are suited in temperament for farmers, others would never make a success, if they stuck to it all their lives. This should be kept in mind in any discussion of moving veterans into cultivation. Training and experience count for much. Advise them that farming is bed rock husbandry.

Burk Burnett History

As revealed by the files of the Star 17 years ago.

Mrs. J. A. Simmons, residing three miles west of Burk Burnett, was injured when the car in which she and her husband were riding struck soft dirt and overturned. X-Ray revealed a broken shoulder and bruises. She is recovering at her home.

Neeley R. Vaught and family returned last week from a short trip to East Texas, visiting home folks. His mother Mrs. J. L. Fletcher, returned with them for a weeks visit here.

Miss Betty Jane Hill, entertained a few friends with a lovely Halloween party Monday afternoon, at her home on Van Avenue.

Mrs. Wid Philips, representing the Current Literature Club, and Mrs. J. M. F. Gill, the Universi-

ty Study Club, will leave Saturday for El Paso, as delegates to the Texas Federation of Clubs convening in that city next week.

The Oscar Frye Post held its first entertainment in the new Legion Home, Friday night, in the form of a Halloween party.

The City Hall Building, will be headquarters as information bureau and rest center during the bridge opening Saturday. Mrs. Ed Lewallen and Miss Eoline Word will be in charge.

The Community Fair will open Friday morning at nine o'clock continuing through Saturday. It is under the management of the Burk Burnett Poultry Association. Many fine specimens of Chickens and Rabbits will be on exhibit.

The wives of two of Texas most famous fighting men have called on the people of the Lone Star State to support the National War Fund campaign which opened in every Texas county and community this week.

They were Mrs. Dwight D. Eisenhower, wife of the supreme Allied commander in Europe, and Mrs. Chester W. Nimitz, wife of the Texas Naval commander whose fleets are blasting the Japs in the Pacific.

There is little doubt that the people of Texas will respond to

the call, for this state has sent more than its share of soldiers and sailors to war, and Texans everywhere are anxious to give every possible home-front support.

But more than wishes will be required if the Texas campaign for approximately \$5,000,000 is to go over the top. Thousands of volunteer leaders and campaign workers are giving their time to the drive, and every man, woman and child in Texas must join in the effort if it is to succeed.

War fund dollars go to the support of our fighting men and their allies, and to alleviate suffering among war victims throughout the world.

War fund dollars provide USO centers for our troops in training camps at home, and send USO Camp Show troupes abroad to entertain our fighting men near every battlefield—often within the sound of the guns.

War fund dollars provide rest and recuperation camps for our merchant sailors, through United Seamen Service, serving the many men injured while sailing their ships to assault beaches or through war zones.

War fund dollars send games, books, study courses, athletic equipment, musical instruments and many other supplies to our men in enemy prison camps, to help combat the dread "barbed wire sickness" that threatens their morale.

War fund dollars send food to the helpless orphans of China, whose parents have been killed and whose land has been ravished by the Japanese.

War fund dollars send medicine, food, clothing and other supplies to the aged and the helpless in areas liberated by our armies, giving new hope to the oppressed peoples while helping our own fighting men restore the areas they have freed from the enemy.

War fund dollars help bring earlier victory, through services to our fighting men and their allies.

War fund dollars give new hope to the entire war-stricken world, and carry the message of Freedom to every remote section of the globe.

Texans, always generous in the forefront of every fight for freedom and decency among nations, are responding enthusiastically to the call on behalf of Humanity. There is little doubt that in every county and every community, the National War Fund drive will go over the top. For Texans everywhere are

THE OLD JUDGE SAYS . . .

"Mary and I were just saying, Judge, how lucky we are here in America that we have so many natural resources to help win the war."
"That's right, Jim. When war broke out we had oil, we had steel, we had food, lumber, aluminum...practically everything we needed. There's one thing we didn't have...rubber. The enemy had that."
"But that didn't bother us for long. Soon American brains and industry had synthetic rubber by the tons rolling out of plants. That filled a critical need...you can't win a war without rubber."

"I was very much interested the other day in reading a statement made by a high government official on synthetic rubber. In it he said 'It is fair to regard the rubber manufactured to date as being almost solely the product of the beverage distilling industry.'"
"He also said that, in his estimation, the tremendous contribution of distillers' industrial alcohol to the synthetic rubber program had not received the recognition which it deserves."
"We certainly learned something today, didn't we Mary?"

SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D., Of The Moody Bible Institute of Chicago, Released by Western Newspaper Union.

Lesson for November 5

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE CHRISTIAN AND THE RACE PROBLEM

LESSON TEXT—Acts 10:9-16, 34, 35; 17:24-28.
GOLDEN TEXT—Of a truth I perceive that God is no respecter of persons; but in every nation he that feareth Him, and worketh righteousness, is acceptable to Him.—Acts 10:34, 35.

Now is the time to really face the race problem. It must be met, or America will see more of the regrettable hatred and violence which has already showed itself.

The only satisfactory answer—the only right answer—can be found in the Word of God. On its principles we must build in solving any problem, and that is especially true with regard to the vital matter of human relationships.

How to Solve the Race Problem I. Pray (10:9).

So often we struggle and plan and work, and last of all we pray. That should be the first thing, not the last. It was as Peter prayed that he saw clearly the need of a changed attitude toward the Gentiles.

Doubtless some Gentiles would also have a changed attitude toward the Jews, if they really prayed about it. In fact, all of our prejudices based on race, creed, financial or social position would look cheap and untenable if we prayed.

Conferences, efforts toward mutual understanding, education of children (and grown-ups), tolerance, all these are good; but let us not forget to pray, and to do it first.

II. Listen to God's Word (10:10-16).

Peter had a special vision, an unusual revelation from God. We no longer need such a direct communication of God's plan and purpose, for we have the written Word of God, and the Living Word has come in the person of Christ.

What we need now is to read and to hear the truth of that Word—and then to heed it. Everywhere in the Bible we find the declaration of man's equal rights. We learn that God hates discrimination or prejudice, that no nationality is unclean (v. 15) or unworthy of His grace and of our fellowship.

We know these things are in the Book; why do so many of us fail to listen to its message? We are bound by it whether we listen or not, so had we not better listen and obey?

III. Be Governed by God's Principles (10:34, 35).

"God is no respecter of persons." Why are we? The expression literally means "receiving a man's face," that is, judging or evaluating him not by what he has proved himself to be, but by his outward appearance, the look on his face.

God is interested in man's heart and what is in it (I Sam. 16:7). We should do well to follow His leading and not be controlled by the dress, the race, or the position of a man.

Note the basis of acceptance with God (v. 35), namely, a right attitude toward Him. No matter what a man's color or race may be, the grace of God in Christ Jesus can reach him, and bring him into acceptance with God.

IV. Recognize God's Authority (17:24-28).

God made the world. He rules the world and all that is in it. He is above man, and it is He who gives man the very breath of life.

That being the case, we all stand on the same level—we are equal before Him.

Everything God made was (and is) very good (Gen. 1:31). That means that He knows nothing in His nature of one group being despised and persecuted by another group self-designated as a master race.

All men are of one family (v. 26). It is God's Word. Let us believe it, and be thoughtful and kind toward the members of our own "family." We all know how disgraceful family fights are, and how they hurt. Could it possibly be any different in the family of God? Let's quit the bickering, and together work for God's glory. We can do it—for we may—

V. Count on God's Nearness (17:28).

Sometimes children fight and quarrel because they know father and mother are away and will not hear or punish. Well, God is not far away. He is "nearer to us than breathing, nearer than hands and feet." In Him we (and that means all of us) "live and move and have our being."

He is here; let us not act as though He were far away. But above all, let us recognize His nearness as our life and strength, the One who enables us to live as we should with one another. Let us need His grace for that purpose. Let us count on it. "We are all His offspring," that is, by creation. Then by our sin and rebellion we made ourselves the "children of disobedience" (Eph. 2:3; Titus 3:3). But we may (and many of us have) become the true children of God by faith in Jesus Christ our Lord (John 1:12). As such, we are all brethren beloved, eager for our fellow's good and for God's glory.

AROUND THE HOUSE

When ribbons need pressing, remove the lid from a hot teakettle, and draw the ribbon back and forth over the steam, holding the ends firmly.

A bag of salt may be used in place of a hot water bottle in a pinch. Heat the salt on a skillet, then pour it back into the bag and use.

Once food has started to boil, turn down the flame. It does not need a large flame to keep it boiling.

A pair of tweezers is a wonderful help in ripping seams in garments. They will pull the shortest threads without hurting the fingers and the job can be done much more quickly.

That long-outdated curling iron makes an excellent gripping rod to use in dyeing garments. You can grip the material firmly and swish it about in the dye bath without its slipping.

When hanging up the wash, hang one pillow slip with the open end up. When taking down wash put all small pieces in that pillow slip, then when sprinkling clothes you will not need to sort out small pieces.

Place brown sugar in a mason jar while it is still soft, and it will keep that way.

Low temperature is the secret of tender eggs. Too high temperature or extended cooking time toughens the protein in the egg.

Blimps Hunt Japs and Fish Off Our West Coast

The blimp patrol off the coast of California hunts fish as well as Japs. It cooperates with fishermen by notifying vessels when schools of fish are sighted on moonlight nights.

In the dark of the moon, echo sounders on submarines tell when fish schools are around. It's all to the aid of the fishing industry which has been asked to produce a million and a quarter more pounds of fish this season than last.

Some Ideas for Making Bathroom In Your Home Bright, Gay, Efficient

By Ruth Wyeth Spears

HERE are a number of ideas for making the bathroom gay and efficient. There are the shelves over the tub for extra towels and the corner shelves for bath salts or lotions; then there is the extra shower curtain to protect the wall and the shelves; with roses everywhere—on the shower curtains, the towels and the bath mat.

The shower curtains as well as the window curtains are made of blue sail cloth with roses cut from a remnant of chintz and appliqued with the machine zigzagger, as shown at the lower left. The same chintz was used for rose appliques for both bath and hand towels as well as the bath mat. Here a quarter of an inch was allowed all around in cutting out the flowers.

Aerial Gunners Use Various Gloves to Ward Off Cold

To keep their hands from freezing at high altitudes, gunner cameramen use three pairs of gloves—an outer pair for warmth; another, made of chamois, for use while firing a gun or performing less detailed work on the camera; and the third, of finely woven silk, for delicate work.

To oil the lock on your door quickly and easily, dip the key in the oil, and turn it in the lock several times. This accomplishes the oiling with the least mess, and the least effort. But, of course, taking the lock apart and oiling it completely is still the better way.

When it is necessary to send small coins in an envelope, Scotch or adhesive tape is very convenient. Lay coin on paper and put tape over it both ways. Then it cannot slide around or wear its way out of the envelope.

Paraffin used for covering jelly should never be heated to the smoking point. This causes it to shrink from the side of the glass.

If canned molasses is hard to pour in cold weather, heat it for several seconds by placing the can over low heat. The molasses then will run freely. To prevent molasses from sticking to a measuring cup, rinse the cup in warm water just before using it.

CHRISTIAN SCIENCE SERVICES

"Adam and Fallen Man" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 5.

The Golden Text is: "Sin shall not have dominion over you: for ye are not under the law, but under grace" (Romans 6:14).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "In the beginning God created the heaven and the earth—And God saw every thing that he had made, and behold, it was very good" (Genesis 1:1, 31).

The Lesson Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "The substance, Life, intelligence, Truth, and Love, which constitute Deity, are reflected by His creation; and when we subordinate the false testimony of the corporeal senses to the facts of Science, we shall see this true likeness and reflection everywhere" (page 516).

U. S. Inspection Of State Guard

Burkburnett unit, Company C of the Texas State Guard, was inspected Thursday, October 26th by Lt. Col. J. L. Ballard of the U. S. Eighth Service Command. Following the inspection Colonel Ballard declared, without reservation, "that Burkburnett Company C was the best drilled State Guard Company that he had inspected in Texas." This is a high tribute and recognition paid to Burkburnett by a veteran officer of the U. S. Army, Infantry. It is an honor to each Guardsman who made such a tribute possible by his interest and regular attendance to drill each week.

At this inspection Colonel Ballard stressed the importance of the Guard, declaring that "the value of the Texas State Guard's contribution to internal security is great. You men are going a step farther in your patriotism than the others here on the home front with no compensation for hours of training." Colonel Ballard further stated "that Company C's Gas Mask drill was performed with excellence."

Major Floyd Dean, Battalion Commander and Capt. W. H. Carnes, Headquarters Detachment, both of Wichita Falls, were present at the inspection. After the remarks of Colonel Ballard addressed to Company C, Major Dean and Capt. Carnes congratulated the Company for their good work and its proficiency as observed by the inspector.

The officers and enlisted men of Burkburnett's Company are very proud of this report. Each man has had a part in making this excellent record possible, a copy of which is sent, through channels, to the War Department in Washington, D. C. The War Department furnishes each Company with clothing, rifles, field equipment and ammunition. Perhaps there are some more men in and around Burkburnett that would like to share this good record by enlisting in the Guard. The training is very interesting and is not severe as all of us have regular jobs at which we make our living. One evening each week at drill is good recreation and benefits each individual in a type of training that is not available anywhere else on the home front.

Additional men are needed in our Company, which is permitted to have 71 men, for full strength. The men who have gone into the armed services and were members of the State Guard are writing back to us that their training in Company C has been worth a lot to them and has made their basic training very easy, in fact, they are promoted at once to squad leaders and instructors for men who have not had previous training. Some of them even say that they have to instruct some of the Army's new instructors.

Come on in and sign up for the State Guards all of you able-bodied men from 16 to 60 years of age. Set Thursday night aside each week and drill with your home town Burkburnett Company.

We have notice that S-Sgt. Louis D. Williams, whose wife lives on Route 3, Grandfield, Okla., is returning from seven months service overseas with the U. S. Air Forces. He was a crew member of a B-24 and made 35 combat missions in the European theatre of operations.

"THE SECURITY AND ELEVATION OF THE FAMILY AND OF FAMILY LIFE ARE THE PRIME OBJECTS OF CIVILIZATION AND THE ULTIMATE ENDS OF ALL INDUSTRY AND TRADE." - CHARLES W. ELIOT

EVER SINCE THE FIRST SETTLERS BUILT THEIR CABINS, STORED THEIR FOOD AND FUEL, IT'S BEEN TYPICAL OF THE NEW WORLD TO REGARD THE SECURITY AND ELEVATION OF THE FAMILY AS PRIME OBJECTS.

THAT'S ONE BIG REASON WHY OUR DEMOCRACY IS WHAT IT IS TODAY - WHY SO MANY OF US OWN OUR HOMES, HAVE MONEY PUT ASIDE IN WAR BONDS AND SAVINGS ACCOUNTS, FAMILY SECURITY IN LIFE INSURANCE - WHY OUR COUNTRY IS THE FINEST IN THE WORLD. - HEART OF OUR CIVILIZATION.

WEEKLY NEWS ANALYSIS

MacArthur's Forces Close In to Cut Off Japs' Pacific Empire; Set Up Military Rule for Reich

Released by Western Newspaper Union.

EUROPE: Press Through Mud

As American forces extended their holdings about rubble Aachen, and other Allied units pressed against the reich through fall mud, the U. S. and Britain laid down regulations for strict military government of occupied German territory and Adolf Hitler called on every able-bodied male between 16 and 60—and "if need be, women and girls"—for guerrilla warfare against the conquerors.

Focal point of fighting continued around Aachen, where Doughboys routed out German defenders house by house in the once proud, now shattered, city of 165,000, and strong enemy units assembled to the east of the metropolis in an effort to prevent the Americans from bursting into the vital Rhineland.

Action also flared on the Dutch frontier to the north, where British troops pressed toward the German border below the pivotal Siegfried bastion of Kleve, gateway to the industrial Ruhr valley. So bitter was the fighting in this sector, that desperate Nazis made every house around the village of Venray a stronghold, with hand-to-hand struggles even carrying into the hallways framed with miniatures of Dutch masters.

Fighting was equally intense on the lower end of the 460-mile front, where the U. S. Seventh army edged up the foothills of the Vosges mountains guarding the Bavarian border, and lashed at approaches to the 25-mile-wide Belfort Gap to the south.

PACIFIC: Return to Philippines

Pursuing the tactics he employed in the Solomons, New Britain and New Guinea in separating enemy forces, General Douglas MacArthur struck at Leyte island in the center of the Philippines.

As the general's grand strategy shaped as the U. S. Sixth army, supported by the U. S. Third and Seventh fleets and carrier planes, not only were the Japanese on the main island of Luzon in the north divided from their units on Mindanao to the

Circle indicates region of U. S. invasion of Philippines.

south, but the Americans' foothold put them in position to threaten the enemy's supply lines farther to the west carrying vital raw materials from the Indies region up to the foe's home industries.

Under cover of an extensive air umbrella and the big guns of the U. S. warships, supplies were poured ashore to the American troops, who held a wide strip reaching southward from the principal port of Tacloban, and who girded for a showdown fight with an estimated 225,000 Japanese in the Philippines under Field Marshall Count Juichi Teruchi.

General MacArthur's invasion of the Philippines, fulfilling his pledge to return after the Japanese conquest of the islands less than three years ago, followed in the wake of the Third fleet's continued aerial attack on enemy shipping and aviation units in the Formosa and Manila regions, which prevented their free dispatch to counter the big invasion of Leyte.

The presence of substantial elements of the Third fleet in these waters, with warships as well as aircraft carriers in full array, also scared off the vaunted Japanese navy's incursion into the invasion waters, the enemy turning tail before large-scale action could develop.

General MacArthur's return to the Philippines was personal, the commander having directed the operation from a warship and then set up headquarters ashore.

FUEL: Warm Winter

Due to a combination of high production of coal and efficient transportation, U. S. homes will be well warmed this winter, even though the government continues to advise conservation to assure orderly consumption to meet wartime needs.

With production having passed the 500,000,000 ton mark so far, soft-coal output is running 25,000,000 tons over last year. Not only are rail deliveries moving up to snuff, but careful planning has permitted the transport of great quantities of coal over the Great Lakes for distribution to adjacent territories.

How much foreign countries may draw on U. S. coal supplies remains undetermined, with British production lagging and miners threatening to strike for higher wages, and uncertainty existing as to what extent output may be resumed in liberated nations to help meet some of their own needs.

Oil Output

Rich in coal, the U. S. is equally rich in petroleum, with oil production estimated at approximately 5,500,000 barrels daily.

With its western and coastal fields alone yielding over 1,000,000 barrels daily, Texas, with its seven producing areas, leads the U. S. in output with over 2,000,000 barrels. With almost 900,000 barrels daily, California runs second.

Other big producers with their approximate daily output include Louisiana with 360,000 barrels; Oklahoma 340,000; Kansas 265,000; Illinois 200,000; New Mexico 100,000; Wyoming 98,000 and Arkansas 80,000.

With 50 barrels daily, Florida is at the bottom of the list.

While casting in the west fork of the Chippewa river near Hayward, Wis., Frank Shriner of Chicago, Ill., drew on a 3 1/2 foot musky.

Twice the musky bumped into the spoon, then, enraged, really charged it a third time as Shriner pulled it in. Coming in hard, the musky crashed right into the flat side of Shriner's boat as he nailed the spoon and lay nearby belly up!

Then the musky rolled right side up, shook the spoon out of his jaws, and was off.

Massed Attacks

With the Russians attacking in force in East Prussia, driving into Czechoslovakia through the northern Carpathian mountain passes and battering enemy armored columns on the Hungarian plains, the Germans were hard pressed to hold their lines in the east.

Referring to the bitter fighting in East Prussia, where the Reds were employing upwards of 600 tanks, the Nazi radio exclaimed: "... The country is enveloped in smoke and belching flames and above it hangs the never ending din of battle. ..."

By Every Bush

In calling up the guerrilla army to operate behind Allied lines, Hitler said: "Just as in 1939 we are facing the enemy alone. In a first enormous effort of our German people's strength, we succeeded then; Germany's second all-out effort must and will succeed. Relying on our own force, we will not only break the enemy's will of destruction, but we will throw him back again. ..."

Addressing the reich from a barracks in East Prussia, under siege of Russian forces driving in from the north, east and south, Home Front Commander and Gestapo Chief Himmler ordered the defense of Germany "... by every village, every house, every farm, every ditch, every forest and every bush. ..."

Churning through muddy roads, jeeps carry U. S. troops to rain-soaked battle-front.

wireless transmitting set, looting or pillage, destruction of records and sabotage. Further, travel within Germany will be forbidden except by special permission, and all political prisoners, Jews and foes of the Nazi regime will be released.

Pending establishment of Allied control, postal, telegraph and telephone service will be suspended. Radios will be permitted.

75 LBS OF NITRAGEN 12¢

It's a fact! The amount of nitrogen added to the soil by legume cover crops can be boosted as much as 75 lbs. per acre by inoculating the seed with NITRAGEN that costs about 12¢ an acre. Tests show well-inoculated legumes can add up to 125 lbs. of nitrogen per acre, but uninoculated legumes frequently rob the soil of this valuable plant food.

Do you have no help problem?"

Women are discovering that their dependable and useful electric appliances are helping a great deal to solve their home-making problems in these war days when help is scarce and there's so much to be done. A little time saved in preparing a meal or a light lunch, quicker and better cleaning with an electric cleaner, the convenience of an electric refrigerator, all add up to many minutes saved each day.

Now that your electric servants are more necessary than ever, be sure to give them the proper attention to make them last the duration. Keep them clean, tighten any loose screws and handle appliances carefully. When they fail to work properly, take them to an electric shop which specializes in appliance repairing.

TEXAS ELECTRIC SERVICE COMPANY

Hq. 1st Allied Airborne Army

"For outstanding attention to duty" Sgt. Louis E. Sims, son of Mrs. Helen O. Sims of Burkburnett, Texas, was recently commended by Lieut. Colonel Lawrence C. McMurtry, Pampa, Texas.

Sgt. Sims is the head of the sheet metal department in the Troop Carrier Squadron commanded by Colonel McMurtry. Sgt. Sims and his assistants worked tirelessly to keep in repair the squadron's planes during the airborne invasion of Sicily, Italy and France.

Which calls to mind an incident during Hoover's administration when there was a depression, too, as you perhaps recall. At that time, I was editor of a paper in West Texas and one day this letter was received from a farmer:

"I read in your paper about a year ago that Andrew Mellon, Secretary of the Treasury, was going to call in all the big paper money and substitute small paper money for it.

"Did he ever do it?"

And that reminds me of the story about President Hoover who, it seems, was walking down the street with Secretary Mellon and said, "Andy, let me have a nickel; I want to call up one of my friends." Mellon replied, "Here's two nickles; call up both of them."

Regarding the D-day assault on France, Colonel McMurtry wrote Sergeant Sims:

"It is the desire of the undersigned to commend you for your outstanding attention to duty during the periods immediately preceding, and subsequent to D-day."

"Your added efforts were very instrumental in keeping the aircraft of this squadron operational at a time when having a maximum of available aircraft was of the essence; it reflects great credit upon yourself and the military service of the United States."

During the fighting at the Salerno beachhead last September, Sgt. Sims and his helpers were flown in to repair a badly damaged C-47 of the Troop Carrier Command.

The beachhead was a hotly contested prize at that time and they had many anxious moments during the weeks they spent there.

"Doc" Sims has had his share of anxious moments since he joined his present squadron two years ago. While in Africa, aboard a C-47 he had a personal look at Pantellaria island after that fort had been conquered. When the Troop Carrier Command dropped paratroopers near Gela, Sicily on July 11, 1943, Doc was once again a passenger and had cause to regret it several times during the flight. The unarmed and unarmored C-47's were perfect targets and their speed at the drop zone prohibited evasive action on their part. However, the mission was a success, as all the

Troop Carrier invasions have been.

In 1935 the sergeant was graduated from Burkburnett High School and enrolled in Hardin Simmons University at Abilene, Texas, as a freshman. After two and a half years of college and a season's Hardin Simmon's left halfback during those years, Sgt. Sims left college.

A course in sheet metal at the Frye Aircraft Company, Dallas, Texas, fitted him for a job with the Douglas Aircraft Company at Long Beach, California. There he was layout man, working on the modifications that make DC-3 air line transports into the C-47 that has served so nobly all over the world.

In June 1942 Sims left Douglas to enlist in the Army Air Forces. Soon afterwards he was assigned to his present squadron, a unit of the IX Troop Carrier Command.

Ninth Troop Carrier Command led by Maj. Gen. Paul L. Williams, struck the first blow against Hitler's Europe.

REAL DEMOCRATS...GOOD REPUBLICANS... LET'S FIGHT THE NEW DEAL TOGETHER!

Here's the way to do it! Cross out the New Deal electors on the Democratic ticket. Cross out the other parties. But leave the Texas Regulars!

Loyal Democrats—here's the way to stay Democrats—and vote the New Deal OUT! Good Southern Republicans, and all you loyal Texans who have no party flag—we invite you to rally under the banner of the Texas Regulars—rally to the ticket that will win!

It's time for a change! Time to forget you're a Republican or a Democrat. Time only to remember that you are a Texan. An American. That you love your country and want it to stay just like it is.

Can it be free Texans believe one man is indispensable to the

future of our country? Can it be free Texans believe one man should stay in power for 16 years? Can Texans, Democrats, believe our great Party should be run by alien-born Sidney Hillman, by Communist ex-convict Browder, by the big city political bosses who would sell out the South for the Harlem negro vote?

But we must stick together! Remember, we vote by states—unless we WIN in Texas—every last vote we cast is LOST!

Join with us, you good Republicans! Join with us, you Independents—join a great crusade! We'll march to the polls together. We'll strike down the New Deal Communism that raises its terrible shadow over America. Vote with us—we'll lick the New Deal in Texas—and we'll keep America FREE!

Preaching Services, 8.
With beautiful weather through out the month of October our Sunday School has averaged a good deal better than 300.

Monday night—The Teachers and Officers Study course beginning promptly at 7:30—having two periods for five nights.

The books are here and can be secured. The books must be read, and at least three and one half periods in full must be attended before credit can be given.

Bro. Sid Martin, our District Missionary is to teach one of the books. Let's make this one of the best attended courses we have ever had.

The Training Union is running over the 100 mark each Sunday night now. Yet there is a place for you and we hate to see you miss the spiritual uplift, the mental broadening, and fine fellowship you can get by attending the Training Union.

For Wednesday evening instead of the regular prayer services we will have at 8:15 a brief meeting of all the people to be led by Brother Martin. Let's not stay away from prayer meeting because of the Study Course.

About 20 people visited last Sunday afternoon in the interest of the Sunday School, which was a good representative of the classes and departments.

Let's keep talking our Sunday School, Training Union, and every phase of the church—"It Pays To Advertise"—Welcome for all.—Pastor.

Mrs. J. C. Adams talked with her son over long distance last week, Corp J. C. Adams Jr. is stationed in Hawaii, his wife and baby reside in Tucson, Arizona.

Wm. T. McIntyre, who went into the Navy Oct. 23, has been stationed at San Diego, Calif. His mother, lives at Wichita Falls. His grandparents, Mr. and Mrs. W. D. Peyton, live at Burkburnett.

LUTHERAN CHURCH

The Reformation of the Church will be the subject of both sermons next Sunday. The blessings which have accrued to the Church through God's chosen instrument, Martin Luther, will be pointed out. The restoration of the Gospel, with the resulting freedom of conscience, naturally also lead to outward, political liberty. The French historian, Michlet, tersely expresses his opinion in these words: "It is not incorrect to say that Luther is the sester of liberty in these modern times."

You are invited to the services and to hear these messages for your enlightenment and comfort. Sunday School, 10:50 A. M. Morning services at the Clara church, 11:00 A. M. Evening worship at Town Hall, Burkburnett, 8:00 P. M.

A cordial welcome to all visitors.

Paul Kaiser, Pastor.

Pfc. Ray M. Dalton of 421 West Main St. with the 7th Medical Supply Depot on the 6th Army Group front in France has been commended for work done there recently.

Mr. and Mrs. Austin Varner of Electra, visited Mr. and Mrs. J. M. Matthews, Monday.

Mrs. Nina Russell, Miss Myrtle Russell and Mrs. Gus Gragnani of Electra were visitors in the John Brookman home over the week-end.

Mrs. Paul Kaiser is visiting her sister and brother-in-law, Mr. and Mrs. Wm. McKissick, at Beatrice, Nebraska, this week.

The services at the Clara Lutheran church were dismissed last Sunday to enable members to attend the 50th Anniversary services at St. Paul's Lutheran church in Wichita Falls.

Mrs. Irene Hullum Etier has returned from Kenston, N. C. to resume her work as operator at the Raylette Beauty Shop.

Will take orders for party favors at Star Office.
