Texas University Offers G. I. Course

Approximately 225 World War II veterans—two of whom are women—have enrolled in the University of Texas for the winter term which began Nov. 1.

Some 150 "G. I." students, that is, those without vocational handicaps, have registered, according to B. G. Lahr, training officer for the Veterans Administration. Seventy-one vocational rehabilitation students are registered, he said.

The majority of the returned veterans have signed for degree courses.

Free Barbecue At Legion Hall

The American Legion wishes to thank the contributors for responding so graciously to their request for help in financing a Legion Home. They know of no better way to say, "Thank You" to the donors than to treat them to a free barbecue at their new Legion Home. Everyone who has contributed or will give before Tuesday night is invited.

The Legion has bought the USO building for a permanent Legion Home. It will be open and waiting for our boys as they return from service in World War 2. A framed permanent Honor Roll will hang in the Legion Hall, with all the names and amounts of contributions given by each donor. If you wish to have your name on this honor roll, give your money to any Legionnaire and enjoy the barbecue with the other contributors next Tuesday night, November 14 at 8 o'clock at Legion Hall.

Members of American Legion urge everyone to pause for a silent prayer at 11 o'clock Saturday, November 11th, in honor of the boys who gave all in World War One.

Dear Madam:

We want you to know about the wire we received from the Area Office today regarding the writing of messages to be taken to P. O. W. and civilian internees in the Philippine Islands. With The Boys IN SERVICE

Cpl. Guy J. Williams of Burkburnett, who is now in Italy, writes his little niece, Sandra Lafon Williams of Mt. Pleasant, Mich., the following poem:

Oh, how I wish that you were near
So I could kiss you, my dear,
I'd hug and maul you around
And wipe away your every frown.

When your bedtime rolled around
I'd dress you in your little gown
And tuck you in your little bed
Then say this prayer O'er your head:

Dear Lord, please don't let me down
Help me keep her safe 'till the world is sound.

Thoughts of home are uppermost in the minds of all our boys. Pfc. Donald W. Shaffer, stationed at Camp Shelby, Miss., puts his thoughts in verse:

It's just a little town,
That Burkburnett of mine,
But the nice people there,
Make it strong and fine.

They're friendly and kind
And very sincere
In things they believe
And hold so dear.

After this conflict is over
And our boys come home again
Let's make them proud of Burk
With a gladness from within.

Flight Officer Fred R. McPherson is now located at Barksdale Field, La., taking advanced training.

Officers Elected To Operate USO

At a recent meeting of the directors of the USO, officers for the coming year were elected: J. Brookshear was re-elected chairman, H. R. Hayes, vice-president; Secretary, Harrison Goble; treasurer, Leo Dudley.

Mrs. W. P. Sims, who has given about 8,000 hours work to the USO program in Burkburnett, offered her resignation as house director. It was largely the efforts of Mrs. Sims that a USO was secured for Burkburnett, and she has worked tirelessly at the job since its organization here. The local USO has a large patronage of men in uniform. Last year an average of 5,000 boys visited the Hall each month.

Miss Crystal Waddell will continue as Hostess at the Hall.

Rotary Club

Alvin Hill, program chairman, presented a very interesting and timely program on the subject of "Rat Control" a campaign on which is now underway in our county and in the near future will include Burkburnett. Startling facts were presented thru talks by Major Scarlett and Henry Nabors, both men are from our County Health Dept. Also present for the meeting was Mitch Aboussie, State Chairman who is working through the Jr. Chamber of Commerce of Wichita Falls, which organization with the help of local interests is making the campaign possible. An impressive picture was run, showing the habits of rats in going about their destruction in and under buildings and the unbelievable speed in which they multiply. (A one month-old rat is capable of bearing young.)

Rats have litters of 8 to 12 every 30 days. If unhindered by death, a pair of rats will have 945 billion descendants in five years.)

Besides being destructive rats carry some of man's worst diseases, such as Typhus-Fever, Bubonic Plague, Infectious Jaundice, and Food Infections.

Incidentally the help and cooperation of every one will be needed when the campaign starts.

The following Rotarians from Wichita Falls were present: Roy Broadway, Scotty Scott, Luther Hoffman, E. A. Beb, C. J. Tucker, and J. M. Isbell.

James Norman Beaver, 1942 graduate of Iowa Park high school, and the son of Mr. and Mrs. Joe F. Beaver of Iowa Park, Texas, had his name placed on the honor roll for the first six weeks at Abilene Christian College, Abilene, Texas, as a result of his making a grade of "Superior" in I subject. Norman is a junior in Abilene Christian College and is majoring in Bible.

D. C. Dodson left Tuesday morning for Dallas to spend a couple of days at the market buying men's clothing.

ARMISTICE DAY 1918

Peace Came To Europe 26 Years Ago
November 11th

The intoxicating news of peace, came to Europe 26 years ago, the 11th of this month, quieting the guns of bloody world conflict that extolled the lives of eight and one-half million men, wounded twenty-one million more, spread ruin, anguish, pain and scars to millions of others.

It came November 11th, 1918, at the eleventh hour, on the eleventh day, in the eleventh month, when 60,000,000 men had been mobilized, more than half of which were casualties, counting prisoners, and those missing.

America alone had 4,000,000 men mobilized, and 2,000,000 on foreign soils.

At the time Germany surrendered, the hard fought peace was won for the four great powers—America, Great Britain, France, and Italy, and in the Pacific Japan too shared in the victory, without hardly any aid in the Orient, winning as spoils island bases, later to become fortresses spawning new destruction.

Germany of course was the last of the Central Powers to capitulate. Gone from her ranks are her satellites Aus-

tria, Turkey, and Bulgaria. Fallen from the ranks of the Allies, are Russia, where revolution, overthrew Czardom.

Again today, as then, the Allied peoples of the world look hopefully, and confidently to another armistice, ending a far greater war.

But it appears still stern hard months away. Prime Minister Churchill predicts the climax in Europe in 1945, after bloody invasions, and after battles more bloody than Waterloo, and Gettysburg. The Prime Minister is not confident of a victory in the Orient before 1946.

Casualties in other wars have been slight indeed compared to the giant struggle now being fought. It is estimated that over 70,000,000 have been killed, including civilians, but not those wounded, sick, homeless, or starving.

Oposing us now are Germany and Japan, her satellites are gone, Germany will be beaten in the next months, and Japan although strengthened by World War I faces the death of her empire.

Mr. and Mrs. Buddy Morris, had as their guests during the visit of Cpl. and Mrs. Chris Morris and son of Neb. Mr. and Mrs. L. P. THE OLD JUDGE SAYS...

"Now that you mention it, Judge, I can see this really has been a 'war of jobs'."
"Yes it has, Fred, and the biggest job of all is the one being done by our armed forces across the sea...the actual physical fighting that is bringing victory closer day by day."
"And here at home, Judge, our job has been to supply our men abroad with the ammunition and equipment they need to finish their job. And to provide the money to buy these supplies through our purchase of War Bonds. By and large, I think we've taken our job seriously, too."
"You're right, Fred, we have. But there's one more big job we've got to do for our men over there. That is to abide by their wishes that this country should be kept the same way it was when they left it...not changed around while they're away and can't express their opinions."
"In all fairness, Judge, that's a simple request no one can afford to disregard."

WOMAN'S PILLS

EISENHOWER'S BRILLIANT PLANNING

When the inside story of General Eisenhower's European war planning is finally told, the American public will be amazed at some of the things he has put across.

Long before D day Eisenhower had timed every operation down to the last minute. The most important maneuver was to break through the Germans' Atlantic wall and wedge an opening through which other troops could pour.

He had each move so carefully timed and planned that, after 45 minutes, other ships, supplies, men would be piling up on the beach, would have no place to go unless the break-through was accomplished in the time allotted.

Before the invasion a full-scale replica of German fortifications was constructed in England, built from aerial photographs. And day after day, American troops rehearsed their break-through.

But with his advance into France timed to the hour and day, Eisenhower, after the original breakthrough, ran into difficulty.

Lieut. Gen. Omar Bradley kept right on schedule in penetrating south into Normandy. And Maj. Ben. Joe Collins was on schedule or ahead of it in penetrating Cherbourg.

Thus General Collins surprised the Nazis and the world, ignoring Nazi machine-gun nests, forgetting about supplies and forging right into Cherbourg before its defenders knew what was happening.

Eisenhower's chief trouble, however, was with General Montgomery, whom Winston Churchill once described as "magnificent in defeat, insufferable in victory."

General Montgomery had been given Caen as his objective. But days passed and nothing happened. The offensive-minded Eisenhower kept hammering at Montgomery, urging an advance. But nothing happened.

Finally, Air Intelligence showed that German resistance behind the Allied lines was a mere shell. He could tell from air observation that the Nazis were able to bring up only about 25 per cent of their needed supplies.

So Eisenhower, tired of waiting for Montgomery and already behind schedule, gave the order for General Bradley to ignore Montgomery and break through the Nazi lines to the south.

DEMobilizing Older Men

War department officials are under heavy pressure to make one very important change in the army's plan for demobilization.

The demobilization plan did not consider servicemen's age. However, men overseas, particularly those in the European theater, have been angrily pointing out that the British demobilization program gives each man a specific number of points for age, thus assures older men a better break.

Veterans' administration studies reveal that the cost of keeping older men in uniform is greater than for younger men, since the army pays out large sums for dependency.

Capital Chaff The danger of a new crime wave as a result of letting returning war heroes keep captured revolvers and machine guns is worrying officials.

Ernie Pyle's Slant on the War: Officer Won Lasting Respect of His Soldiers

Wounded GI Artist Becomes Most Popular Cartoonist to Soldiers

By Ernie Pyle

(Editor's Note: Pyle retells some of his experiences while he was with the Doughboys during the Italian campaign. He is now taking a long-needed rest in New Mexico.

AT THE FRONT LINES IN ITALY.—In this war I have known a lot of officers who were loved and respected by soldiers under them.

Captain Waskow was a company commander in the 36th division. He had led his company since long before it left the States.

Finally he put the hand down. He reached up and gently straightened the points of the captain's shirt collar, and then he sort of re-arranged the tattered edges of the uniform around the wound, and then he got up and walked away down the road in the moonlight, all alone.

The rest of us went back into the cowshed, leaving the five dead men lying in a line end to end in the shadow of the low stone wall. We lay down on the straw in the cowshed, and pretty soon we were all asleep.

Sgt. Bill Mauldin appears to us over here to be the finest cartoonist the war has produced. And that's not merely because his cartoons are funny, but because they are also terribly grim and real.

Mauldin's cartoons aren't about training-camp life, which you at home are best acquainted with. They are about the men in the line—the tiny percentage of our vast army who are actually up there in that other world doing the dying. His cartoons are about the war.

Mauldin's central cartoon character is a soldier, unshaven, unwashed, unsmiling. He looks more like a hobo than like your son. He looks, in fact, exactly like a doughfoot who has been in the lines for two months.

His maturity comes simply from a native understanding of things, and from being a soldier himself for a long time. He has been in the army three and a half years.

Bill Mauldin was born in Mountain Park, N. M. He now calls Phoenix home base, but we of New Mexico could claim him without much resistance on his part.

Bill has drawn ever since he was a child. He always drew pictures of the things he wanted to grow up to be, such as cowboys and soldiers, not realizing that what he really wanted to become was a man who draws pictures.

He graduated from high school in Phoenix at 17, took a year at the Academy of Fine Arts in Chicago, and at 18 was in the army. He did 64 days on K. P. duty in his first four months. That fairly cured him of a lifelong worship of uniforms.

Mauldin belongs to the 45th division. Their record has been a fine one, and their losses have been heavy.

Mauldin's typical grim cartoon soldier is really a 45th division infantryman, and he is one who has truly been through the mill.

Mauldin was detached from straight soldier duty after a year in the infantry, and put to work on the division's weekly paper. His true war cartoons started in Sicily, gradually gaining recognition.

Mauldin works in a cold, dark little studio in the back of Stars and Stripes' Naples office. He wears silver-rimmed glasses when he works. His eyes used to be good, but he damaged them in his early army days by drawing for too many hours at night with poor light.

He averages about three days out of 10 at the front, then comes back and draws up a large batch of cartoons. If the weather is good he sketches a few details at the front. But the weather is usually lousy.

"You don't need to sketch details anyhow," he says. "You come back with a picture of misery and cold and danger in your mind and you don't need any more details than that."

Mauldin still just a kid. He married in 1942 while in camp in Texas, and his son was born last August 20 while Bill was in Sicily.

SUNDAY SCHOOL LESSON

Lesson for November 12

LESSON TEXT—Matthew 5:43-48; Romans 13:1-7.

LESSON TEXT—Matthew 5:43-48; Romans 13:1-7.

Everywhere men are talking about the coming peace. They are concerned lest having won a war we may lose the peace through the selfishness or the indifference of men.

Why is it then that the most important factor in assuring a just and friendly settlement of the problem is left out of men's deliberations? Why is there so little (if any) thought of God and prayer to Him for the needed guidance and wisdom?

We know that there can never be an abiding peace until Christ comes to establish His kingdom, but in the meantime, we should seek to bring Christian principles to bear on the relations of men and nations. We are to show:

I. A Higher Measure of Love (Matt. 5:43-48).

The world has established its own principle of conduct based on selfish advantage. It pays to be polite to those who can favor you, so cultivate their good will by acts of courtesy and kindness.

But an enemy—what can you gain from kindness to him? Hate him, and treat him like an enemy.

Christianity knows nothing of such a spirit. Even though it be necessary to fight against wicked men in order to hinder their evil plans, we need not lose our love for them.

Consider Him that endured such contradiction of sinners against Himself (and went right on loving them, "lest ye be wearied") in your own love for those who bear the sad name of enemies (see Heb. 12:3).

This is admittedly a high standard, but it is not too high for those who know the love of Christ.

II. A Higher Degree of Loyalty (Rom. 13:1-4).

An intelligent Christian is the best citizen. He knows that all government is based on the power and authority of God, and hence he recognizes the legality and authority of duly constituted governmental agencies.

No matter how much man has perverted or degraded government, yet it is in essence the expression of a ministry of God (v. 4). How deeply ashamed that should make those who regard political office as a means of personal gain and advantage, or who use their authority to permit or promote that which is against God.

Every public official should recognize God as the giver of his authority and seek the Lord's special grace and guidance in the discharge of his duties.

Every citizen should highly regard the one who rules as having a power ordained of God (v. 1), for the good of the nation (v. 4).

Here then is the solution of the political problems which are causing upheaval all over the world, namely, a revival of Christian testimony and faith, for it will lead to a loyalty on the part of the people which is quite unknown where Christianity does not bring its true influence to bear.

That kind of love for men and loyalty to government necessarily brings about:

III. A Higher Standard of Patriotism (Rom. 13:5-7).

There is more to real patriotism than flag waving and high-sounding oratory. There must be a conscientious willingness to serve the nation in willing obedience to the command or the request of proper authority.

The Christian gives just that kind of patriotic support to his country (v. 5). His enlightened conscience demands it, and he responds.

Then too, there must be support of the government by the payment of taxes. Think of the thousands who are engaged in the business of evading their just share of the cost of government.

The Christian has no share in such things, for he is ready to pay his share of the expense of government as a ministry of the Lord (v. 6).

No government can function properly nor long endure which does not have the respect and confidence of those governed. There can be nothing but criticism, discontent, and disobedience in such an atmosphere.

We have said it before, but we say it again—the best thing that could happen to America politically is a revival of Christianity. Our national leaders ought to set the example and encourage the people to follow in repentance, restitution and God's blessing. Read II Chronicles 7:14.

To pick up broken glass from the floor, wet a newspaper and gently wipe up the glass with it.

After baking always leave the oven door open to permit the moisture to escape and thus prevent the oven from rusting.

Economy in Hats Adds War Bonds

No well-dressed woman can have too many of them. Handbags and hats add just the right finish to her costume, especially when they are of brilliant colors to contrast with a basic suit. A set such as this, the crocheted pouch bag and beribboned cap, would make a perfect Christmas gift for the business girl or college girl. Hand-crocheted accessories are so inexpensive and easy to make that you will be able to buy more War Bonds with the money you save.

CHRISTIAN SCIENCE
"Mortals and Immortals" is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, November 12.

The Golden Text is: "As is the earthly, such are they also that are earthly; and as is the heavenly, such are they also that are heavenly" (1 Corinthians 15:48.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "For he that soweth to his flesh shall of the flesh reap corruption; but he that soweth to the Spirit shall of the Spirit reap life everlasting" (Galatians 6:8.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "As mortals begin to understand Spirit, they give up the belief that there is any true existence apart from God" (page 283.)

One of the key enlisted personnel at the Laurinburg-Maxton Army Air Base, glider installation of the 1st Troop Carrier Command is Cpl. Joseph A. Mero of Burkburnett, Texas. Cpl. each day at a very reasonable price. The cafeteria operates in the auditorium wing of the Grade school with I. C. Evans, principal of the Grade school at its head. Last week Lions Roy Magers and Harry Dodson visited the Cafeteria during the lunch period and enjoyed eating with the 374 students which were served that day. This is an average number of students and teachers that eat there every day. The largest number to be served any one day so far is 401.

The Cafeteria can seat 130 students at one time. Grade school students are served early, with the higher grades being dismissed at intervals so that no one will have to wait more than a few minutes any time.

One is impressed by the orderliness which prevails in the dining room with more than 100 small children eating spinach, etc., and drinking milk. Not that spinach is on the menu every day. It isn't. But milk or a milk drink is. During 45 minutes spent in the Cafeteria last Wednesday only one small girl was noted who did not drink her bottle of milk.

Menus are planned for at least a week in advance. Last Wednesday, the following was served: beans and pork, spinach slaw, cornbread, milk and iced chocolate cake. The servings are generous, and if, after eating all on the plate, a child is still hungry, he or she has the privilege of going back for seconds. Food

cost per meal to the cafeteria averages about 11c. This does not include kitchen help. The students pay 15c per meal.

Miss Dickson has charge of the kitchen and preparation and serving the food. She is ably assisted by Mesdames Bowman, Bryarly, Wilkerson, Smitch and Suttles. The kitchen cooking utensils, dishes, etc., are kept spotlessly clean. No left over food is served the next day. Each morning each room is canvassed to learn the number of students who plan to use the cafeteria. That way the number to prepare for can be determined accurately.

Pupils are encouraged to eat the variety of food on their plates, but no force or hard-boiled coercion is used. Children who never ate carrots or spinach at home soon develop a taste for them in the cafeteria, and plates are usually cleaned up by each student. The advantage of a hot meal cannot be overestimated. The energy burned up by growing children is enormous. 750 calories is the amount needed by each child at noon. Meals at the cafeteria run between 800 and 1,000 calories each.

A trip to the store rooms revealed a large quantity of provisions on hand. Cases of corn, beans, spinach, beets, fruits, etc. More than 200 cases of canned milk will be used for hot chocolate drinks when the weather is colder. Surplus products are bought off the market by the government and apportioned to schools on a per capita basis. Large quantities of onions and apples were recently received. In planning the menus, full advantage are taken of plentiful food products on the market.

A new room adjoining the kitchen is about completed for keeping refrigerators and ice boxes. Previously they were in the dining room.

Parents are encouraged to visit the cafeteria and observe the way the meals are prepared and served.

One of the most touching letters we have read in a long time came this week from Jack Abbott, with the Air Corps somewhere in New Guinea. Jack is a Burk boy, and like every other boy in the service, he longs for home and the things he left behind. The letter speaks for itself:

"Hi Gang! How are all my old buddies tonight? I hope you are well. I have been in the hospital here for about a week, but I am ok now, and ready to go back to the front lines. Well, it looks like we will have to be over here a long time, doesn't it? I have seen all of war that I want to. I am ready to come back any time now.

"The folks at home don't know anything about hardships. We have had our part over here. The food is a little better now than it was. We have plenty such as it is. Bully beef twice per day and C rations.

"I have run into several of the boys from home and we plan a party that won't Whoa when we return.

"Is old Wid Phillips still around? Tell him I surely get lonesome for the old days on the Riley Ranch.

"But the things I miss most are my brown eyed wife and babies and home. I know they must be as lonesome as I. You can't know until you have gone through what we have over here.

"We are going to leave a bunch of the gang over here, bad as we hate to. I am afraid my friends wouldn't know me. I have a lot of gray hair and my beard is spotted with gray. I only weigh about 130 pounds.
A lonesome Soldier Boy.
Jack Abbott."

Mrs. Garland Fewin, Josie Magee, Alice Goodwin and Jessie Jones, attended four days of grand chapter O. E. S. at Fort Worth, last week.

Mr. and Mrs. C. O. Walling and daughter Marjha Jean, spent several days last week in Dallas, where Mr. Walling attended the Scottish Rite Reunion.

Your Social Security Card The Key To Security Payments

Every person who works in private industry of commerce should have a Social Security Card. This was emphasized today in a statement to employees in this area by R. L. Surles, manager of the Social Security Board's field office at 412 Post Office building, Wichita Falls, Texas, where social security cards may be obtained. A social security card immediately establishes an insurance account with the United States Government and opens the door to eventual benefits under the Federal old-age and survivors insurance system.
The purpose of this insurance is to provide regular monthly payments for the family when the bread winner grows old or when he dies. Since benefit payments are based on the workers wages in employment covered by the law, it is important to have all wages correctly reported and recorded in your social security account.
Part time and temporary employment counts, too, and every dollar of wages from covered jobs up to \$3,000 a year helps to increase the protection.
The number of a worker's social security card is the same as that under which his account is set up in the Baltimore office of the Social Security Board. Many persons have the same, but no two persons have the same number.
Col A. L. Jewett, new Commandant at Sheppard Field, and Mrs. Jewett, will make their home in Burk Burnett at 508 Park street.

Baptist Church

A good day for the First Baptist Church in both Sunday School attendance and the preaching services. We went over the 300 mark and had a splendid crowd for the preaching hour. The Lord was good to us and led six down the isles to take their place in the church. One for baptism and the others by promise of letter.
We regret that many of our own members are robbing themselves of the spiritual blessings God has in store for them by not attending services.
Due to the study course in progress with the officers and teachers this week the Wednesday night choir practice was omitted. However, next week the regular week of activities.
Monday night is the regular meeting of the officers and teachers.
Tuesday night the community prayer services.
Wednesday night the regular prayer services at 8 and the choir practice at 8:45.
The pastor will be attending the State Baptist Convention meeting in San Antonio, Texas, but Brother Strange will lead our prayer services. Welcome to all these services. Lets take the advantage of the opportunities the Lord is giving us. Be present at all services. —Pastor.
Gad Garland, son of Mr. and Mrs. Truman Garland, is at home following an operation for the removal of his appendix at the Wichita General Hospital Wednesday, Oct. 27. He is recuperating rapidly.
Mr. and Mrs. Horace Chambers who had been making their home at Monahans, have moved to Kermit. The Star goes to them each week.
John Rigby Jr. of the North American Aircraft Corp. at Dallas, Texas, spent the week-end with his parents Mr. and Mrs. John Rigby Sr.
Mr. and Mrs. Laverne Rigby and daughter Phyllis Jan, of Wichita Falls, visited in the R. H. Rigby home here Saturday afternoon.
