## Half of Sixth War Loan Quota Reached

### Sale Of "E" Bonds Lagging

Although one-half of Burk Burnett's quota of \$165,000 for the Sixth War Loan Drive has been raised, Clifford Dodson, Chairman, announces that the sale of "E" Series Bonds is far behind what had been expected. The quota for "E" Bonds is \$65,000. "E" Series Bonds, purchased by individuals and kept, not only aid the war effort now, but will be one of the decisive weapons for fighting inflation after the war is won.

Those who have not already done so, are urged to buy all the Bonds possible.

Mr. Dodson states the committees appointed to help with the drive are giving excellent cooperation. If a committeeman has not contacted you, purchase your Bonds at the Post Office or the First National Bank.

### Donations To Teen Town Appreciated

Most thankful indeed will be the mothers and fathers of the sons who will be able to join them in the intimacy of the family circle on Thanksgiving Day this year. But there will be many homes in which service flags hang, where vacant chairs will be mute evidence of the fact that sacrifices must continue—sacrifices that are making it possible for us to give thanks now that our cities have not been bombed, that our people have suffered no starvation, that our children are safe. Yes, there is much for which we can give thanks, this year, and especially to those who have given their lives that we may continue free.

### THE LITTLE THINGS IN LIFE

He was a good dog of the Rat Terrier type. He never howled at night or chased cars. He was just a pup who had so much energy he had to play with the other neighborhood dogs and dogs having a fenced in yard, the other dogs helped him eat his food. So when he got hungry he made the mistake of eating elsewhere. The two little girls where he lived loved him dearly, the smaller girl, only three years old thought it was alright to even kiss him. The little dog found a tempting morsel, which the devil himself had evidently left or placed for him, he did not play with the little girls very long before the deadly strychnine took its effect. To these little girls watching their dog writhing in agony, he was human to them, even though a little thing in life, and best friend of man. —Two Unhappy Girls.

Mrs. S. E. Eidson, has received word from her son in France Jerrel, who has been wounded. He states he is fine and is still in the replacement pool. Another son J. F. Eidson, landed November 20, in Oakland, Calif., at the Naval hospital, he is expected to be home in a few days on sick leave. His wife is with his mother here.

### P.-T. A. News

Those who attended "Dad's Night" at the Parent-Teacher meeting Friday night reported a very enjoyable evening. About 100 parents and children enjoyed the showing of the pictures, one on "First Aid" and one on "Colonial Days."

During the business session a report was made showing that the committee has gone far toward the purchasing of a slide and see-saw. This playground equipment may soon be a reality in our playgrounds. Mr. Buckner reported that the foot lights for the stage were expected to arrive soon. The president urged everyone who could do so attend the "School of Recreation," which is to be held at Denison, November 28th. The counting of Dad's and Mothers showed Miss McGinnis room to have the largest number present, and the P.-T. A. prize of one dollar will go to her room.

Coffee, cookies and punch was served and many enjoyed a so-sialable chat during the refreshment period. You are the loser if you do not attend the P.-T. A. meetings monthly.

## THANKSGIVING DAY

The early refugees to these shores, thankful for a haven from dangers past, grateful for those blessings of opportunity found in this new land, gave us our first Thanksgiving Day as far back as 1621. Not just for a successful harvest, the proud results of their labor, but for many other reasons did they raise their prayers. They had come from various countries to a strange soil, hopeful of building new lives, determined to conquer this vast wilderness where, with the help of God, they would freely and steadfastly erect a foundation for the house of government to come. Their Thanksgiving was devoted to faith. This has outlived them and today, at a time when comforts and safety, even such blessings as hope and courage are strained, Burkburnett again comes to the observation of Thanksgiving Day, and considers the bounteous harvest in its individual lives. Inasmuch as those Pilgrim Fathers laid the cornerstone for this democracy, we who followed, are certainly continuously grateful for the privilege and are surely willing to guard the rights invested, most diligently. This is a blessing no war can erase, we shall see to that ever faithfully.

Humility has not been professed by enough, but such was necessary in formulating the original colonies. Universal love has not been indulged in enough by the majority, to have proven itself effective, since man has permitted intolerance through prejudice to overcome his good judgement. This was another of the attributes of the early Pilgrims. Harmony and unity they found must be added to make a nation great, to work for the good of all.

## Burkburnett . . . . History

As revealed by the files of the Star 17 years ago.

The mounted head of a buffalo, from Goodnight ranch, was received this week by the First National Bank, a gift from J. I. Staley, owner of the ranch and a director of this bank.

where they attended the state convention of the Texas Federation of Women's Clubs.

Grady Ragsdale of this city entered the Draughon Business College at Wichita Falls, this week.

J. W. Duke and George Kent have returned from a trip to Harlingen, Texas.

Mrs. Travis Fuller, has returned from the General Hospital in Wichita Falls, and is making a rapid recovery from her recent serious operation.

The wind and hail storm Monday night, destroyed a number of oil derricks in the Northwest field, and lifted several dwelling houses from their foundations in this neighborhood, and the block adjacent to the Hardin school building on the west side.

Mesdames Wid Philips and J. M. F. Gill, returned Monday from an overland trip to El Paso

None of these conditions have changed since 1621. Have the people themselves?

There is a great significance to today's Thanksgiving Day, since the evils of bigotry, cruelty and poverty have been felt by a sorry world this past year. But for these things which we can not help, we will not aggravate by adding to them through lack of appreciation of the profound blessings enjoyed by this nation, by the people of Burkburnett, and our deep gratitude we are determined to maintain through the year. Thanksgiving every day, since every hour we should be aware of those material and spiritual goods offered each of us.

## THE CHRISTMAS SEALS ARE NEEDED

Christmas Seal time is here again. This heartwarming practice of buying cheery little seals to help combat tuberculosis, began just forty years ago and has since become a world-wide tradition. The Christmas Seals are sold in 46 countries. This year, as usual, they make their appearance. In a war-torn world they are reassuring reminders that we live in a civilized world after all and humanity has a streak of goodness in it that will not be put down.

This year, as never before, the Christmas Seals are needed. Tuberculosis is on the increase. The steady progress of medical science in the treatment of the disease has not been sufficient to stem the debilitating inroads of war. Over crowded war production centers, overwork and nervous exhaustion have been an open invitation to tuberculosis. The great tragedy is that too many persons don't realize it when the unwelcome guests has found its way into their homes.

Yes, the Christmas Seal has new significance this year. It is one means by which all of us can take part in the fight against the renewed threat of man's ancient enemy—the white plague.

### First Baptist Church Announcements

Sunday School, 9:45. Preaching at 11.  
Training Union, 6:30. Preaching at 7:30.

Old man "jack frost" stepped in the last few days and took a few from the services the last Sunday. We have been having such pretty weather for so long it will be hard to make ourselves brave the disagreeable weather and be faithful to the church.

Most of the Sunday Schools and preaching services were off slightly, but we wonder if for a justifiable reason?  
The hour for the evening services has been changed. This means we will have to get around a little faster, and sooner, or be late.

Sunday morning the pastor speaks on, "Christ, the Matchless Master," and Sunday night on the "Way of Trouble." If you are a member we are urging you to find your place in the Sunday School, preaching services, and also the Training Union and evening services. The training Union has gone over the 100 mark now for several Sundays. Many of our parents are robbing themselves and also their children of the spiritual blessings. God has placed here for them.

To these non members of our church we give you a Great Big Welcome to all the services. We have a place for the entire family, from the infant to the father-Mother.

**Lutheran Church Announcements**

All war is a result of sin. It is a calamity and visitation of God. The only ray of hope is that every war brings greater opportunity for the Church. A greater church will emerge from this war.

Moreover, the future of the church depends on just how the world will react to this punishment from God, and when this war is over, the church must be ready to grasp its greatest opportunities.

Go to church Sunday. Find your place there and fill it.

We want our dear friends and neighbors to know that we are deeply grateful for their kindness to us at the time of the death and funeral of our husband, father, son and brother, Mr. G. E. Woods. We are thankful for your friendship and loyalty to us during this sad time. We appreciate every act of kindness and each word of sympathy and the beautiful floral offerings. We're slugging it out with the horrendous Japanese—and we're going to stay right in there fighting until they're beaten into an understanding of the kind of world the people want! ## Methodist Church Announcements

The pastor, Rev. P. G. Hightower, will preach Sunday morning on "The Spirit of Gratitude." Many are asking today "do we have anything for which we can be thankful?"

There are many things for which we should be grateful that we could spend this Thanksgiving in the spirit of joy and gladness. The pastor hopes to point out some of those things Sunday morning.

At the evening hour he will speak on "Where Can We Find God". One of old said "Oh that I knew where I might find Him! that I might come even to His seat!" If there were ever a time when we needed to come even to His seat, it is today. There is a place where we can find Him. The speaker promises to show where this place is.

The church school meets at 9:45. There is a class for you. Worship with us at these services Sunday.

Fast Passenger And Cargo Vessels Needed To Hold Supremacy on Seas

Prospects that substantial employment of shipyard workers will continue after the war were heightened this week by the disclosure that President Roosevelt had ordered the Maritime Commission to go ahead, with plans for large-scale ship construction in the post war period.

Vice President William A. Calvin of the Boilermakers hailed "F. D.'s" decision as a "wise and necessary move, not only to assure jobs for shipyard employees, but to maintain this nation as a great maritime power after the war."

Calvin pointed out that, at one recent national conference of Boilermakers' officials and representatives in Chicago, a detailed program for expansion of America's post-war maritime position was drawn up and copies were ordered sent to the White House and the Maritime Commission.

Mustn't Slip Back  
"We stressed the necessity of America resuming the position it held many years ago as a leading power on the high seas," Calvin said. "As everyone knows, America's position in shipping deteriorated badly in the years prior to this war."

"Only 10 per cent of this nation's passenger traffic and 30 per cent of its freight was carried in American bottoms. All the rest was handled by foreign ships. We feel the nation must be on its toes to prevent us from slipping back to that low position."

"To achieve the position we should have, we must build fast passenger ships, and fast cargo vessels. The thousands of Liberty ships we constructed during the war will not serve the purpose. They are too slow."

Workers Are Ready  
"We have more than enough skilled shipyard workers to turn out the sufficient speedy vessels to make America the world's dominant maritime power. We're happy to note that the Administration sees eye to eye with us on this proposition."

Admiral Land, who made public the orders from President Roosevelt, revealed that the Chief Executive had directed the commission "to prepare a bold and daring plan for improving the American merchant marine and maintaining its future position."

"The President recognizes that a program for orderly replacement of present vessels over a period of time with improved and more efficient models will be necessary to maintain a proper merchant marine," Land said.

He explained that the President urged immediate inauguration of the program so that the

Sunday School, 10 A. M. Sunday School lesson, John, Chapter 16 "The Holy Spirit, Who is Comforter, Advocate, and What His Work Is." We don't study about the Bible, but we study the Bible itself. Many Christians know very little about the Holy Spirit, or Holy Ghost, and who have sought to major on this subject, have confused it and distorted it rather than taught it. Because of stepped-up demands for assault transports and cargo vessels, Manpower Chief Paul V. McNutt this week appealed to workers in shipyards producing such craft to "stay on the job." These ships are needed in ever-growing numbers for the offensive against Japan, McNutt said. Turnover rates among workers must be reduced to meet production schedules, he declared.

# The Story of West Texas' "Lost Battalion"

(By Mrs. Clyde C. Fillmore)

The day was November 11th. The year was 1941. The hour was four A. M., and the last train had pulled out of Camp Bowie, carrying with it the men of the 131st Field Artillery. Armistice Day—signifying peace and the end of wars—yet our husbands and sons had just left, under sealed orders, for the West Coast.

That was 1941. November 11th, 1944—these men, 131st Field Artillery, 2nd Battalion, are prisoners of the Japanese in Java, March, 1942.

The 36th Division was mobilized, November 25, 1940; Battery D, composed of Wichita Falls men under the command of Captain Leroy Zeigler, was mobilized and quartered in the City Auditorium, and Headquarters Battery under the command of Major Winthrop

Rogers was quartered in the old Bailey-Moline building in Wichita Falls, Texas, awaiting completion of Camp Bowie, Brownwood, Texas. January 11th, 1941 found them at Camp Bowie ready for their year's training with the rest of the 36th Division. They took part in the Nation's greatest Sham Battle, the Louisiana Maneuvers, fighting with make-shift equipment. Fighting through dust, rain and mud and they did a good job. They, the 131st Field Artillery, 2nd Battalion, were chosen as a crack unit and shortly after maneuvers were on their way to the West Coast.

The 131st Field Artillery, 2nd Battalion was composed of West Texas men. Battery D, Wichita Falls, Texas; Battery E, Abilene, Texas; Battery F, Jacksboro, Texas; S & A Battery, Plainview and Lubbock, Texas; Medical Detachment, Amarillo, Texas. There are 68 families represented in Wichita Falls; 6 officers and 62 enlisted men.

On November 21st, 1941 the 131st Field Artillery 2nd Battalion, sailed from San Francisco—their destination unknown—their address was "Plum" care Postmaster San Francisco. They reached Pearl Harbor, November 28th, 1941. December 7th, 1941, Pearl Harbor was bombed and the fate of the 131st Field Artillery was unknown until January 17th, 1942 when Telephone Calls and Cablegrams began coming in from them and it was learned that they were with the American Forces in Java. It was later learned that they were pulled into Brisbane, Australia, the first American forces to land there, and 10 days later were sent into Java. We learned, also, that these men had never received any word from their families since leaving the United States and did not up until the time of the fall of the island. The Island of Java fell the first part of March, 1942 and with it went the men of the 2nd Battalion, 131st Field Artillery. For months after the island fell it was believed that the 131st F. A. was evacuated or that they were holding out in the mountains of Java. After waiting three months, June 6th, 1942, the next kin was notified, by the War Department, that these men were "Missing in Action, presumed to be Prisoners of War." In the Fall of 1943 word began to slowly come in, in the form of Prisoner of War Cards, that these men were being held Prisoners by the Jap-

anese. Some were being held in Japan, others in Burma and Thailand, and a very few left in Java. One death was reported, Gordon Griffin, Battery D, Wichita Falls, Texas. Very few of these men were officially reported to be prisoners by the Japanese Government and the fate of some of the men is still unknown. An occasional card adds a new name to the slowly growing list.

Today, November 11th, 1944, we pause to pay tribute to our men of the "West Texas Lost Battalion." The first man to see action on Foreign soil and under a foreign flag. Let us not forget these men who were expendable. Today—Let us remember them proudly—our men who sailed from the American shores, under a peaceful sky, and who, four months later were taken prisoners of a treacherous enemy.

There are Texans fighting all over the world and they are giving a good account. Our "Lost Battalion" lived up to its tradition—it gave a good account. Our men had little chance, they had little equipment and our planes were not there to help them. They will go down in history with the men who fought at the Alamo. Those men in Java wrote another glorious chapter for the pages of history.

Clark Lee of Associated Press tells more than we could of their bravery and courage when he told this in his article about our Texas boys.

"Java was bleeding profusely from the Jap thrust and the show was about over. Correspondents and radio men hurried through the jungle to reach an airdrome where flight to Australia awaited them. The Japs weren't far behind. Out of the jungle came a feeble sound. It grew louder and drowned the chatter of monkeys as the correspondents hurried down the trail. Finally it struck them—men were singing! Down the trail swung 800 unmistakably American men. The guys were headed straight for a terrific Jap force, singing out there in the jungle, mused Lee. Drama! Bravery! Hell, those correspondents won't see the equal of it in this war. Singing, yeah! Singing, 'The Eyes of Texas Are Upon You.'"

This was the 131st Field Artillery, 2nd Battalion. The Japanese and Java will long remember the 131st Field Artillery whom the War Department "Presumes has been captured by the Japanese in Java." These men who fought in the green jungles of Java were expendable and they knew it.

In going back over the clippings of the past three years we find that Headlines tell a story, a story of wistful thinking, of high hopes, of uncertainty, of low morale for the families of the "West Texas Lost Battalion."

"Texas Artillery Unit Holds Java Front Line Town."

"Texas Artillery With Aussies and Tommies in Java."

"Battalion, Fared Lost in Java, Rough and Ready Lot."

"Artillerymen May Have Escaped Java."

"Artillerymen Helped Save Australia."

"Interest Grows in the Texas Lost Battalion."

"Petition Asks Fate of 131st F. A."

"Part of Lost Battalion Are Prisoners."

All these headlines tell a story, a story of brave Texas men, men who were made of the same stuff as Sam Houston, David Crockett, who will go down in history with them, and they, too, will merit the same praise and glory. It tells a story of brave American men who left the peaceful shores of America—War was then just a rumble in the distance—never once thinking that war would overtake them before they reached their destination. Of men who fought against great and over-whelming odds and, who proved first that they were AMERICANS, and second, that they were TEXANS. They tell a story not yet complete after three years.

As to their fate, all the information that we can gather, holds the view that they are prisoners of war. The battle for Java was another of "Too Little and Too Late". Some were able to get away, but the battle was swift and they had little or no chance of escape. Whether they were all captured, only time will tell. Our hopes and our prayers are that they will return before another Armistice Day, and that they will not have sacrificed in vain. We can work with speed to win this war as quickly as possible, every day counts for our men who are behind the Barbed Wire, to do everything in our power to bring a lasting victory. This we owe to our men!

Today let us remember, proudly that they, the 131st F. A., were well trained and fit. That they left long in advance of the remainder of the 36th Division. That they were a picked group. That they were given a hard task to do and that they proved themselves true Americans.

People are prone to forget so let us carry the torch for our men; let us keep our faith and our hope. You can rest assured that wherever our men are, they have not lost their faith nor their hope—of seeing their loved ones, a hope of having a free life and a home once more. You can be assured that they are making as brave and courageous a prisoner as they did a soldier.

They are called the Lost Battalion, but they will never be lost nor forgotten. Most of the members of the Battalion survive in Japanese prison camps; patiently waiting the day of their lib-

eration. They are dreaming of their home and longing for this —AMERICA! They gave everything for America; like the men of Bataan, Wake and Guam. They were worthy of America—forgive us this—we, the relatives, sometimes wonder if we, here in our peaceful homes, in America are worthy of them.

(Editors Note)—Mrs. Fillmore is the husband of Lt. Clyde Fillmore who was reported missing at Java. Latest reports are he is a prisoner of the Japanese.

THE JOB IN THE PACIFIC IS STILL TERRIFIC!

THERE ARE STILL MILLIONS OF TOUGH, BRUTAL JAPS TO LICK. EVERY JAP WE KILL MAKES MY CHANCES OF GETTING HOME BETTER, AND IT COSTS PLENTY TO KILL A JAP

Look into your heart and ask yourself honestly: "Have I stopped fighting? Have I stopped buying War Bonds because I think the war is about over?" You're not a quitter; your answer is "No!"

It costs billions of dollars a month to fight Japan

The fight in the Pacific calls for a highly specialized type of equipment. B-29 bombers that cost \$600,000 in War Bonds; M-4 tanks with bulldozer blades that cost \$67,417; "alligators" that cost \$30,000; millions of gallons of gas. We need more and costlier equipment than any war has ever called for. And that's the reason for the 6th War Loan Drive. Just as long as a single Japanese aims a gun at our men—we must continue to buy War Bonds.

Once again you are asked to buy at least one extra \$100 War Bond. Buy more if you possibly can. Not only is it for the final Victory—it's for your future. Your devoted loyalty and courage have given us the courage to carry on for these few years.

Our prayers and sympathy are extended to the Mothers and Fathers, sons and daughters who are in the armed services.
