Burkburnett, Texas, January 30, 1945.

Burkburnett Star, Burkburnett, Texas.

As you doubtless know I have been a continuous resident of Burkburnett for more than three years past and now reside at 314 East Fourth Street, in such City. I have just paid my Poll Tax for 1944, as I have paid same each year of my residence here, which poll tax on its face says that I am a legal voter in Burkburnett Precinct Wichita County, Texas. My right to vote here has never been questioned but one time and that was at the last wet and dry election here when Mr. R. H. Henry denied me the right to vote, because, as he said I was in the United States Army and because of such fact I could not acquire the right to vote any where.

A Burkburnett fellow was in Oklahoma City recently and had a few hours to while away. He noticed a line extending down the side walk, and just for curiosity's sake, he fell in. An hour or so later he had worked up to a counter in a drug store where he was told "Sold Out". The lucky ones had bought a package of chewing gum.

WHO SAID TIRES

This time last year we were pretty confident that at this time this year we would be riding around with four new tires on our autos. Well, here we are with retreads and fortunate to be able to back out of the garage. We are told that most of us are going to have to go another year before the rubber situation will release those tires to us. Can we make it? Recapping will continue and be the only way out for many car owners for some long time, we are informed. Many civilians have been receiving tires this past year while an enormous amount has been continually furnished for military needs. Priority has made this so. It means that the rest of us must drive a little slower, a little less frequently and be sure and have the tires we do own, checked regularly.

BE CALM

It seems to have been the general policy to hazard a guess as to why the reversals on the fighting front, to place the blame on any name that entered into the discussion and figure out a more satisfactory military strategy from our home front armchairs. Since wars are unpre-

dictable in movements, since we are so far from the scene of battle here in Burkburnett, since we have very competent generals in charge, let us rest our opinions and wait to see what develops later. Let us leave the matter to General Eisenhower, feeling pretty sure he will handle the reverses with his superior knowledge of military matters and we will stick to our printing presses and know the matter couldn't be in better hands.

HOW ABOUT RATIONING?

The Administration in Washington constantly tightens its grip on food, fuel, manpower and all civilian necessities, systems and conditions. You might just as well make up your mind that there will be no relaxations of these policies until firing ceases on the battlefronts.

ARTICLES OF FAITH

Supporting the contention that every American citizen, looking ahead to days after the war, should be ready and willing, through education, experience and work, to make a social contribution in proportion to any social reward he expects to receive, C. E. Wilson, president of General Motors, recently voiced what he termed "simple articles of faith."

He recited these at the conclusion of a brief talk to the National Association of Manufacturers. They will bear repeating. Here they are:

Faith in America and America's future—a future of expanding, useful productivity and even higher standards of living.

Faith in the rightness and benefits of individual freedom and individual enterprise.

Faith in the principle that there can be no rights without responsibilities, no privileges to enjoy without duties to perform.

Faith in work as the forerunner of reward—in incentive as the kindling spark of productive energy, in opportunity to serve a need, as the first requirements to provide a job.

Faith in the American way of doing things, by which each person, each organization, each industry, each business must take its place—and be granted that place, according to ability and capacity—in one great, coordinated, inter-gear system of living, working and contributing to the national welfare.

Faith in America's progressive instinct and in the things which serve it—science, research, engineering, technical knowledge and skill.

Faith in the rights of great and small alike—and in the importance of each to a free, peaceful and productive nation.

First Methodist Church

Methodists of Burkburnett are being called by the Rev. P. G. Hightower, minister of the First Methodist Church, to take part in raising \$25,000,000 for world relief and reconstruction. The first phase of the denomination's nation-wide Crusade for Christ program of post-war service.

The local appeal, for which the goal is \$1900.00, will begin Feb. 1, 1945. Mr. Hightower announced. The Methodist congregation here is part of nearly 8,000,000 members of 41,000 churches in the United States who are participating in the four-year five-fold Crusade.

Expenditure of the Crusade fund by the regular, general agencies of the Church will provide for "feeding the hungry, clothing the destitute, and freeing the minds and spirits of the ignorant, the underprivileged, the driven and the dispossessed," Mr. Hightower said. Three-fifths of the fund has been allocated for the rebuilding and rehabilitation of human life in foreign countries, nine-tenths in war-devastated areas and the rest in other mission fields. The balance will be used for emergency, war-caused needs in this country.

Other phases of the Crusade for Christ program call for continued education in and expression of opinion for co-operation among nations in the post war world, renewed evangelism efforts with special emphasis in 1946, education for Christian stewardship of ability, time and money, and improvement of Sunday School enrollment and attendance.

The Crusade for Christ is Methodism's organized response

for assuming its part in meeting the unsettled conditions and vast staggering needs created by the second World War." Mr. Hightower stated. Having proved its will to live in the face of all enemies, the Church is now ready to give practical and spiritual food to the hungry both of its own household and others throughout the world without distinction of race, creed or color.

The pastor will speak on the

Crusade Sunday for a theme, "Will God." Special music, direction of Mr. M. will be provided for the evening. At the evening again discuss-Evangelism its place in our church. The public is cordially invited to worship at these

Ernie Pyle's Slant on the War: Digging Ditches Becomes A Welcomed Job to G.I.s Foxholes Offered Protection Against Nazis' Continued Attack

By Ernie Pyle (Editor's Note): This dispatch was written and first published when Pyle was with the G.I.s at the African front. He is now on his way to cover the boys in the Pacific war zones.

WITH TROOPS IN AFRICA:—When our Sahara salvage expedition found wrecked airplanes far out on the endless desert, the mechanics went to work taking off usable parts; and four others of us appointed ourselves the official ditch-diggers of the day.

We were all afraid of being strafed if the Germans came over and saw men working around the planes and we wanted a nice ditch handy for diving into. The way to have a nice ditch is to dig one. We wasted no time. Would that all slit trenches could be dug in soil like that. The sand was soft and moist; just the kind children like to play in. The four of us dug a winding ditch 40 feet long and 3 feet deep in about an hour and a half.

The day got hot and we took off our shirts. One sweating soldier said: "Five years ago you couldn't get me to dig a ditch for \$5 an hour. Now look at me."

"You can't stop me digging ditches. I don't even want pay for it; I just dig for love. And I sure do hope this digging today is all wasted effort. I never wanted to do useless work so bad in my life."

"Any time I get 50 feet from my home ditch you'll find me digging a new ditch, and brother I ain't joking. I love to dig ditches."

Digging out here in the soft desert sand was paradise compared to the clay-like digging back at our base. The ditch went forward like a prairie fire. We measured it with our eyes to see if it would hold everybody.

"Throw up some more right here," one of the boys said, indicating a low spot in the bank on either side. "Do you think we've got it deep enough?"

"It don't have to be so deep," another one said. "A bullet won't go through more than three inches of sand. Sand is the best thing there is for stopping bullets."

A growth of sagebrush hung over the ditch on one side. "Let's leave it right there," one of the boys said. "It's good for the imagination. Makes you think you're covered up even when you ain't."

That's the new outlook, the new type of conversation, among thousands of American boys today. It's hard for you to realize, but there are certain moments when a plain old ditch can be dearer to you than any possession on earth. For all bombs, no matter where they may land eventually, do all their falling straight at your head. Only those of you who know about that can ever know all about ditches.

A Soldier's Letter. While we were digging, one of the boys brought up for the thousandth time the question of that letter in Time Magazine. What letter, you ask? Why, it's a letter you probably don't remember, but it had become famous around these parts. It was in the November 23 issue, which eventually found its way over here. Somebody read it, spoke to a few friends, and pretty soon thousands of men were commenting on this letter in terms which the fire department won't permit me to set to paper.

To get to the point, it was written by a soldier, and it said: "The greatest Christmas present that can be given to us this year is not smoking jackets, ties, pipes or games. If people will only take the money and buy war bonds... they will be helping themselves and helping us to be home next Christmas. Being home next Christmas is something which would be appreciated by all of us boys in service!"

The letter was all right with the soldiers over here until they got down to the address of the writer and discovered he was still in camp in the States. For a soldier back home to open his trap about anything concerning the war is like waving a red flag at the troops over here. They say they can do whatever talking is necessary.

"Them poor dogfaces back home," said one of the ditch-diggers with fine soldier sarcasm, "they've really got it rugged. Nothing to eat but them old greasy pork chops and them three-inch steaks all the time. I wouldn't be surprised if they don't have to eat eggs several times a week."

"And they're so lonely," said another. "No entertainment except to rattle them old dames around the dance floor. The USO clubs at 10 o'clock and the night clubs at 3. It's mighty tough on them. No wonder they want to get home."

"And they probably don't get no sleep," said another, "sleeping on them old cots with springs and everything, and scalding themselves in hot baths all the time."

"And nothing to drink but that nasty old ten-cent beer and that awful whisky," chimed in another philosopher with a shovel.

"And when they put a nickel in the box nothing comes out but Glenn Miller and Artie Shaw and such trash as that. My heart just bleeds for them poor guys."

"And did you see where he was?" asked another. "At the Albuquerque Air Base. And he wants to be home by next Christmas. Hell, if I could just see the Albuquerque Air Base again I'd think I was in Heaven."

Improved Uniform International SUNDAY SCHOOL LESSON

Lesson for February 4

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JESUS' CONCERN FOR ALL LESSON TEXT—Matthew 9:1, 9:13, 18:26.

GOLDEN TEXT—Therefore all things whatsoever ye would that men should do to you, do ye even so to them: for this is the law and the prophets.—Matthew 7:12.

What is a man worth? Well, say we, that depends, and then we are prone to undervalue him. Jesus had (and taught) a high regard for the inherent value of man. He saw possibilities in all men. He had a love for them. He was concerned about their welfare, and they responded by an interest in Him.

Jesus showed by His dealings with men how wrong are most of the standards and attitudes of the world. With Him there were:

I. No Social Barrier (vv. 1, 9, 10). The caste system of some lands, dividing people into social strata which separate men and hinder fellowship, does not exist in our land. Yet, in practice, we have such levels which are a formidable barrier in the thinking of many (perhaps most) people.

Jesus knew nothing of social barriers. He ignored them and went straight to the one in need. In our lesson it was a man of position and wealth who was an outcast among his people because he was a hated gatherer of taxes for Rome.

Jesus saw in him a man of faith and a useful witness for Him. And He not only talked with him, but called him to be His disciple. Then He went further and, to the astonishment of His critics, went in to a great feast where many such men were gathered.

He ate with publicans and sinners, not because He approved of their manner of life, but because He wanted to change it as He changed them.

II. No Fear of Criticism (vv. 11-13). Many a kind and noble impulse has died a-borning because of the fear of criticism. "What will people say?" has kept many a Christian from speaking to some sinner about his (or her) soul.

"The world is too much with us—" and we all too often guide our lives and service by the possible reaction we may receive from those round about us. We did not learn such an attitude from Jesus.

His answer to His critics made it clear that there will be no self-righteous, "good enough" people in heaven. The Lord is not even calling them, so long as they trust in their own goodness. He came to seek and to save sinners (v. 13, and Luke 19:10).

We, too, may go forward without fear of our critics. That doesn't mean that we "don't care what people think" about us. We ought to care, but if their opinion is based on unbelief and self-righteousness, it should certainly not deter us from our all-important business of soul-winning.

III. No Limitation of Time and Place (vv. 18-22). Often the help of man to those in need is circumscribed by so many regulations that those who most deserve help cannot get it. There are times and places for application forms, and tests must be completed, etc. Doubtless much of this is needed, but one wonders at times whether our charitable impulses have not disappeared under a mountain of red tape.

Be that as it may, how interesting it is to see that Jesus met the need when and where it appeared. He was already on one errand of mercy when the sick woman touched His robe. He was not too busy nor too preoccupied to stop and give her a word of help and comfort (v. 22).

Is there not a significant lesson here for us in the church? The need is reason enough for the extension of our help. The place is anywhere that men are in sadness or sorrow, and the hour is now—when they need our help.

IV. No Lack of Power (vv. 23-26). How often the human heart is prompted to help, and willing hands are ready to follow its promptings in loving action, yet we find that we cannot do anything. The need is too great for our meager resources. Our strength does not suffice. We have no money, or the situation is one beyond human help.

How wonderful it is then to remember the Lord Jesus! A touch on the hem of His garment in faith made the woman whole (v. 22). A word from Him brought the dead little girl out to face the scornors of Jesus, in the bloom of life and health.

Has He lost any of His great power? No. He is just "the same yesterday, and today, and forever" (Heb. 13:8). Why not trust Him?

Do you need help—spiritual, mental, physical? He is able. He has no prejudice regarding your social position. He will meet you right where you are, and right now. He is seeking the sick and the sinful—"the lost, the last, and the least." Look to Him by faith.

The great Physician now is near. The sympathizing Jesus: He speaks, the drooping heart to cheer: O hear the voice of Jesus

SEWING CIRCLE NEEDLECRAFT Not Even One Yard Per Apron

7277

EACH of these aprons takes less than one yard to make. The colorful embroidery is so simple even a youngster just learning could do it.

Little material, easy stitching, make ideal hostess gifts. Pattern 7277 contains transfer pattern of motifs; patterns; directions.

Household Hints

When dyeing wearing apparel it is a good idea to run a few lengths of thread through an inside seam. When finished, these threads may be removed to furnish an exact match if repairs are needed.

Corduroy needs no ironing. Gently press out the water with towels, but don't wring or twist. Pin up skirt or pants by waistband. Brush against nap when dry.

Some types of artificial flowers may be renewed by placing them over steam for a few minutes.

Take a nice big, firm, rosy apple. Core it, and cut it crosswise. Make patties of your favorite ground meat mixture—make them the same size as your apple slices. Put an apple slice between two patties and press together. Bake in a shallow pan in a moderate oven until meat and apple are cooked.

If an enamel pan boils dry, do not plunge it from the hot range into cold water. Let it cool first, then soak before washing.

When wringer rolls begin to lose their grip, the glaze can be removed by roughening the rolls with coarse sandpaper. Wipe with a damp cloth. Use sandpaper with discretion, of course.

When discarding worn bath towels, save the best parts and use for making washcloths or bath mitts.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers. Send your order to:

IN SERVICE

Marine Capt. Hammett R. Vance, son of Mrs. W. T. Vance, has been assigned to the marine base at Cherry Point, N. C. The assignment followed a 30 day leave after his return from the South Pacific. Overseas Capt. Vance served as an officer with the First Marine Air Wing Photographic Squadron, which took the first pictures of the Jap stronghold at Truk. The squadron received the Presidential Citation. His wife will accompany him to Cherry Point.

Mary Ellen Friedels will accept a position as telephone operator in Wichita Falls Monday.

Sgt. L. Steinert in the Marines writes us: "In the twenty months I have been overseas, I have received the Burk Star regularly, and it has really been a welcome caller. Please note my change of address." He is somewhere in the Pacific.

A 7th AAF HEAVY BOMBER BASE IN THE PALAUS:

(Delayed) Bruce P. Davis, of Burk Burnett, Texas, gunner of a 7th AAF Liberator bomber, has been promoted to Staff Sgt.

Sgt. Davis' heavy bombardment group has flown more than 1,200 sorties and 6,000 combat hours against Japanese targets in the Palaus and Philippines, including several strikes over Manila.

Sgt. Davis' mother, Mrs. S. E. Gregory, resides at 117 Ave. E, Burkburnett.

S/Sgt C. C. (Boss) Hudson writes Mrs. B. M. Cropper a very interesting letter from Belgium dated an 3rd. Mrs. Cropper recently sent the Sgt. the Burk Star as a present and he was thanking her in the letter. Boss writes "As you have noticed it has been pretty hot over here—and I don't mean the weather either. I have seen a lot of country, but it hasn't exactly been a pleasure cruise. Like every one else over here I will be glad when this mess is over and we can come back to the best country of all. Thank you so much for your letter. In a place

like this, one really sweats out mail call. Kindest regards to you and your family, and all my friends around Burk. Boss."

Billy J. Roberts, MM3-c, writes in from the Pacific and wants some rubber stamps for himself and three of his buddies. Billy the stamps are on their way to you. Good luck, sailorboy.

Mr. and Mrs. B. F. Rush are proud of a letter from their son, Pvt. Lloyd Rush, written on Christmas morning. Lloyd was with the 3rd Army, and has been on the front lines ever since they hit France. He has been overseas about a year, and has been in the army three years. This is the first letter received from Lloyd in 3 months. Lloyd has a brother, Cpl. Doyle Rush, who is some place in Belgium now, back with his original bunch after an injury which kept him in the hospital for a while. Part of the letter follows: "I have just come in off guard duty at 2 o'clock on Christmas morning and couldn't go to sleep until I had written you on this sacred day. I am proud of the outfit I am in and proud to fight for our great country. Every so often the Krauts throw over some shells, and we are hurling plenty right back at them. Had a letter from Doyle, and glad to know where he is. I haven't received my boxes (Christmas) yet, but hope to by New Years. Love and a Merry Christmas. Lloyd."

Pvt. James L. Pearson Jr., son of Mr. and Mrs. J. L. Pearson of Eletera, is stationed at Paris Island, South Carolina. He is with the United States Marine Corps and would like to hear from his many friends. His address is:

Pvt. James L. Pearson, 992363 USMC, Platoon 20, 5th Rec. Bn. Paris Island, South Carolina.

Pvt. Delmar S. England writes his wife from somewhere in the South Pacific, and states that the climate is really warm there. He says that they would really appreciate some of the cool weather of Texas.

We Owe Us
There is a five-year-old epigram that runs like this: "Who cares anything about the national debt? We only owe it to ourselves." It implies that we are sure to be very easy with ourselves on collection day, but a lot depends on whether we can afford to be lenient. We owe ourselves a lot of money and we never will be able to collect even the interest on it unless we work hard and pay our taxes.
The debts we owe ourselves are genuine debts, and bigger than most of us realize. I know some people who owe themselves new cars, or new tires for their old cars. Since they can't buy these items, they are spending their money for other things . . . things to enjoy now. Have you heard about the errand boy who needed shoes but had no stamp, so he spent \$6 for theatre tickets?

Tinkling Cymbals
Easy money that rattles in our pockets because there is nothing to buy is not prosperity. Actually it is bogus money. We must never forget that prosperity is born of work. If higher income can't help me live better, my improved income is phony. America is bleeding in war and suffering in want this very day. Our needs are no less real because certain items have been taken off the market.

National income figures for the United States illustrate the point perfectly. On paper, national income was 135 billion dollars in 1943, breaking all records, but much of the money our people received was "stage money." It wouldn't spend. Actually we Americans received 20 billion dollars less take-home money in 1943 than we did in 1929, call it 150 million dollars a day less. Add nine 0's to each of the figures in the following table, making them billions:

Figures in billions	1929	1943	Short
National Income	\$81	\$135	
Government Deficit	none	56	
Federal Taxes	3	21	
Net	\$78	\$58	\$20

The average 1944 wage is more cents per hour; the average salary is more dollars per month; our national income is more billions per year than in any previous boom, but we are in debt. It is plain from the figures that when the debt is subtracted from what we call our national income it is by no means large. The debt must be paid in money that represents constructive work, doing and making useful things for better living.

A Homely Story
On the morning of November 12, 1918, so the story goes, a dusky soldier in a U.S. labor battalion overslept two or three bugle calls and was waked at last by his sergeant gruffly ordering him to rise. "Y'all kan't boss me roum' no mo," he said, half-asleep. "Dis wah am ovah. I jes sign up fer de duration."
"How right you is, boy!" the sergeant replied. "De wah am ovah, sho 'nuff, but de duration . . . it have jes begin."

More Responsibility
Official accounts of military gains, one after another, can't help but build hopes for peaceful years to come. The foregoing anecdote is offered to suggest this:
When the fighting stops, it will not be a signal for everybody to commence sleeping late and trying to subsist on income from wartime earnings. Unless we are ready to tighten our belts and do our part to meet our national obligation, the duration will have just begun.

Be Quick To Treat Bronchitis
Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.
Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.
No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

National Social Hygiene Day February 7th

National Social Hygiene Day will be observed on Wednesday, February 7, and in Texas, according to Dr. Geo. W. Cox, State Health Officer, all local health agencies are planning to participate.

Throughout the past year the Texas State Department of Health has carried on a large scale persistent and effective campaign against syphilis and gonorrhea, the venereal disease enemies of national health.
These campaigns, Dr. Cox declared, have helped to keep venereal disease infections from spreading and have played a major part in aiding servicemen and civilian industrial workers to stay on the job. In fact, man-days lost through such infections, in the armed forces and in industry, have been brought to an all time low and Texas can list this gratifying result among its contributions to the nation's military and industrial achievements.

"Even though medical science has produced new drugs and medical research has found new methods to combat these diseases," Dr. Cox stated, "they are still formidable enemies. Fortunately, we now have facilities available for diagnosis and treatment of venereal diseases for all citizens of Texas who cannot afford private care."
Through new awareness among community and health leaders and law enforcement authorities, there has been tremendous progress made in the control of venereal diseases in Texas, but it must be remembered that in our democracy a community will have no better control of venereal diseases and the repression of prostitution, than the citizens of that community want and are willing to support.

"Let us make Wednesday, Feb. 7, V-day in the war on venereal diseases," Dr. Cox urged. "It can be done if we want it done badly enough."

WEEKLY NEWS ANALYSIS
Germans Strive to Check Great Russian Break-Through in East; Congress Ponders Labor Draft

Released by Western Newspaper Union.
EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.

Evidencing cooperation given Yank forces in Philippines, native volunteers information of enemy activity on Mindoro island.

PACIFIC: Advance Inland

Moving deeper inland down the great central Luzon plain to Manila, with elements probing into the mountains on either side to secure their flanks, Americans of the 6th army under Gen. Walter Krueger proceeded with caution as the Japs held back on committing their major forces to the battle.

At the same time, U. S. carrier planes ranged far to the west to strike at enemy sources of supply and reinforcements along the south China coast, and U. S. army airmen swept up and down Luzon hammering at communications lines and airbases harboring the remnants of the Japs' air force.

Strongest opposition to the U. S. drive was encountered in the mountainous terrain on the east flank, where the Japs fought back hard from caves and entrenchments in an effort to hold open the country to the north of them.

NATION'S CUPBOARD: Well Stocked

With larger supplies in some foods offsetting smaller stocks in others, civilians should eat as much during the first three months of 1945 as during the preceding three months, the War Food administration said.

In comparison, the WFA said, more milk, eggs, cheese and citrus fruits will be available for civilians.

LABOR DRAFT: Push Bill

Spurred on by the President's insistence, congress gave increased attention to Rep. Andrew May's modified labor draft bill, prohibiting men between 18 and 45 from leaving essential work without their local Selective Service board's permission, or compelling them to accept jobs designated by such boards.

With the army calling for younger men for replacements, War Mobilizer Byrnes outlined procedure for the induction of registrants in the 26 to 29 group, with less important employees in essential and so-called critical war industries to be called up before key men. Probably half of the present 365,000 deferred farm workers between 18 and 25 now being examined prior to review of their cases can expect to be inducted, Draft Director Hershey said.

While the President said some sort of national service act was necessary to channel workers into necessary jobs, representatives of both labor and industry told congress that the present comparatively small manpower shortage could be met by voluntary recruiting.

BUILDING MATERIAL

Because it is looked as the largest single field of expansion, the building trade will have to employ 6 1/2 million workers if the postwar objective of 60 million jobs is to be attained. R. J. Thomas of the CIO Automobile Workers union told the American Home Builders convention in Chicago, Ill.

With 6 1/2 million workers, Thomas said, a minimum of 1,750,000 homes could be constructed each year, a small percentage of the new housing needed.

LEND-LEASE: Food Shipments

Showing a 4 billion pound drop under 1943, lend-lease food and agricultural products shipments during 1944 totalled over 7 billion pounds, with meats, dairy items and grain cereals composing the bulk of deliveries.

Of meat lend-leased, 708,627,733 pounds were cured, smoked and frozen pork products; 65,238,418 pounds of frozen pork loins; 60,762,243 pounds of lamb and mutton; 23,285,892 pounds of frozen veal, and 16,101,290 pounds of frozen beef. Of dairy products, 280,845,699 pounds of cheese were delivered, 23,886,449 pounds of butter, and 17,860,503 pounds of butter oil.

Other food and agricultural products lend-leased included 543,930,297 pounds of granulated sugar; 44,041,306 pounds of canned peas; 41,424,897 pounds of canned peaches; 28,059,988 pounds of canned green beans; 24,650,997 pounds of canned tomatoes; 21,868,310 pounds of soap, and 20,195,112 pounds of canned pineapple.

Lint From a Blue Serge Suit:

Mr. I. Hoffman (the New York branch of the Hollywood Reporter) recalled the most costly comma in U. S. history. . . . Many years ago a tariff bill listed articles that were to be admitted free. One item was "all foreign fruit-plants." . . . But a careless clerk replaced the hyphen with a comma. . . . It caused oranges, lemons, bananas, grapes and other imported fruits to be admitted to the U. S. free of duty. . . . It cost the government an estimated million dollars plus.

Concrete example of journalistic jiu-jitsu (being thrown for the count) was the story which said that Dick Merrill, the famed transatlantic flier, had broken another record—flying from Seattle to Washington in six hours and three minutes. . . . The story was wired from the Capital by one of the news services. . . . One night later we grabbed Dick's paw and shook it hard as we congratulated him. . . . "I don't know what it's about," he said, "I just came in from Africa. How could such a story that never happened get started?"

SYNTHETIC RUBBER: 1944 Production

Built up almost overnight as a result of the severance of the nation's imports of crude rubber from the far east following the Japs' early conquests, the U. S.'s 700 million dollar synthetic rubber industry produced 763,000 long tons (of 2,240 pounds) last year.

Declaring that synthetic production can be boosted to 1,000,000 tons if necessary, Secretary of Commerce Jesse Jones said that the 1944 output was equal to the nation's annual peacetime rubber needs.

Because 60 per cent of the rubber was made from alcohol instead of petroleum, Jones said, production costs of the synthetic averaged 33 cents a pound, compared with about 19 cents for the crude.

Celebrities Stricken

On the same day, in mid-month, death came to three of the nation's celebrated figures:

In Meriden, Conn., 50-year-old Francis T. Maloney (Dem.) succumbed to a heart attack. Left to support four brothers and sisters at the age of 12, Maloney worked up to the senate from newspaper reporter, mayor of Meriden and congressman.

In Washington, D. C., to attend the President's inauguration, 57-year-old George D. Crowley, vice chairman of the division of finance of the Democratic National committee, and one of the founders of the 1,000 club during the recent campaign, died of heart trouble. A prominent Chicago insurance man and financier, Crowley was the son of an assistant secretary of the treasury under President Cleveland.

Creator of the famed "Frank Merriwell" fiction character, whose amazing exploits thrilled millions of readers, 78-year-old Gilbert Patten, who wrote under the name of Burt L. Standish, passed away in San Diego, Calif. Patten, who ran away from home at 16 because he didn't like school, wrote a 20,000-word adventure novel every week for 18 years, and was estimated to have written 40,000,000 words in his lifetime.

BASEBALL: Gets FDR's Nod

With the game having been given presidential approval provided it did not interfere with the conduct of the war, major league baseball magnates began laying plans for the 1945 season, with their chief concern being to scrape together teams from the dwindling manpower pool.

Although the clubs were expected to rely again on discharged or rejected army personnel, their plans were complicated by recent government regulations calling for re-examination of 4-Fs and work or light orders to men under 38. Some of these men, however, intend to enter essential industry and arrange for playing ball on the outside.

Because of the need for personnel, . . . kids about 17 . . . will have a wonderful opportunity to play in the big leagues," said Clark Griffith, owner of the Washington Senators.

U. S. NAVY: Greater Firepower

Its firepower increased five times since July, 1940, combatant ships, auxiliaries and coast guard vessels of the U. S. navy can now hurl 2,000 tons of steel in a 15 second firing run, the equivalent of 50 freight carloads of steel.

Packing a wallop 92 per cent greater than the pre-Pearl Harbor battleship, Texas, the modern Iowa is armed with nine six-inch guns mounted in three, twenty-five-inch double purpose guns in twos, and many smaller anti-aircraft guns.

Possessing 123 per cent more firepower than the 1930 heavy Pensacola, the modern Baltimore carries nine eight-inch guns in three, twelve five-inch anti-aircraft guns in pairs, and numerous smaller anti-aircraft weapons.

BRITISH CASUALTIES

With the United Kingdom of England, Scotland and North Ireland suffering 635,107 casualties alone, British Empire losses totaled 1,043,554 up to last November, Prime Minister Churchill told the house of commons.

Of the other constituents, India's losses reached 152,597; Australia, 84,861; Canada, 78,985; New Zealand, 34,115; South Africa, 28,943, and other colonies, 28,946.

Including recent western front casualties, U. S. losses totaled 721,325.

Things like this are making Sec'y of State—tinus a very respected get around Washington. . . . The other day he invited Sec'y of Interior Ickes and his staff to meet with the State Dept's at a private dinner. . . . Mr. Ickes was asked to make a complete criticism of the State Dept. . . . The idea was to achieve better teamwork. . . . Ickes let them have a blistering attack, and plenty of State Dept's ears sizzled. . . . But the confab achieved its unique purpose. . . . It put the State Dept's lids on friendly, human relations with the Ickes bunch for the first time in a dozen years.

Here is good news for Texas relatives of men in Japanese prison camps:

The Japanese government has at last announced that a full shipment of U. S. relief supplies has been delivered to prisoner-of-war camps where American soldiers are held. If the announcement is true, it means that for the first time in many months our men in the hands of the Japanese are receiving recreational supplies, books, study courses, sports equipment and other material designed to ease their prison boredom, as well as food and cigarettes.

The ship carried a large shipment of supplies sent by War Prisoners Aid, the National War Fund agency which looks after the welfare of our boys in enemy prison camps. The supplies were purchased with contributions of millions of home-front patriots who gave to their County War Chest during the annual National War Fund campaign.

For months, the Japs have held up shipment of the relief goods. Persistent negotiations by War Fund and War Prisoners Aid representatives, however, finally forced delivery of the shipment. The War Fund agency is represented abroad by Swiss neutrals, who have done a good job in supervising delivery of relief to Americans in both Germany and Japan.

If the delivery reported this week indicates a new Japanese policy, National War Fund agencies will continue to send relief supplies to our men on a regular schedule.

A Marine officer recently dropped a tip as to why that famed corps has been able to set such a fine fighting record—a large proportion of the corps is made up of Texans.

At one time, 27 per cent of all Marine volunteers came from the Lone Star state. Even now, Texas contributes far more than its per capita share to the ranks of the fighting leathernecks.

Two residents of West Texas have recently been wounded in fighting abroad, but both are expected to recover. They are Pfc. Ernest Hutya, 22, who was hit while fighting inside Germany, and Pfc. Leo Klimitehek, 20, who was wounded in Luxembourg.

Burk Star Quoted In Texas Book

The Burkburnett Star has the distinction of being quoted in a book—a best seller at that.

The book is "Tall Talk From Texas," by Boyce House, and has run through nine printings, almost 40,000 copies, in only a few weeks, which is said to be a record for any book ever written by a Texan, for that length of time. The quotation appearing in the book follows:

"And then Fred Brookman in the Burkburnett Star comments 'The campaign slogan of the former President, 'A chicken in every pot and two cars in every garage' is being reversed in our day. It seems that the cars are going to pot and the chickens are in the garage.'"

Texas Press Ass'n. Postpones Meeting

The sixty-year old Texas Press Association has postponed its annual meeting for the first time in its history, George B. Peeler, publisher of the Taylor Press and president of the association announces.

The action of the officials of the association followed a poll taken of editors and publishers who are members. The vote was 10 to 1 in favor of postponing the meeting.

Ship Reading Material

In answer to the demand for something to read aboard hospital ships, in Red Cross tents near the front and even in fox-holes, the American Red Cross has sent 2,832,826 books and pamphlets overseas for the armed forces since July 1, 1943.

Nearly a million off-sale periodicals have gone overseas thru Red Cross channels since March and 85,000 pocket-size books are being shipped to the South and Southwest Pacific alone.

Christian Science Services

"Truth" is the subject of the lesson-Sermon which will be read in all Churches of Christ, Scientists, on Sunday, January 28.

The Golden Text is: "We can do nothing against the truth, but for the truth" (II Corinthians 12:8.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Lord, who shall abide in thy tabernacle? who shall dwell in thy holy hill? He that walketh

uprightly, and worketh righteousness, and speaketh the truth in his heart" (Psalms 15:1, 2.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Working and praying with true motives, your father will open the way. Who did hinder you, that ye should not obey the truth? (page 326.)"
