have been bothered by the past few days it is probably your own fault. The fountain of youth is the hard work. Jimmy is 77 years young, he has not noticed the heat he has been busy. Jim after the City Hall, Town Hall, lawn, etc. He also cleans up offices in town. According to Jimmy work never anyone. He should know, has been at it ever since a small lad in Canada. On the best days Jimmy may be mowing the grass, tending the cool of the evening. And he is still wearing his underwear. Says he is going to change in August when the hot.

common sight the past few days has been Chief of Police Green wrestling with the mowing machine. Chief is clipping the grass and along the streets all over there is not much difference in the size of the machine man operating it, but the time Chief has managed to be on top in the wrestling. When the jail doors are open for lack of custom, Chief has to do something and Green is doing a comely service.

July 29, members of the Lutheran Church will have their services out-of-doors on Gilbert Creek. Church members have been laboring all clearing a spot for this occasion. And by the way, Burk does not have a public where out-of-doors lovers gather. Mighty good opportunity for some civic club to see and put it in condition several years ago the Lions maintained a park out of town which served the very well. Everybody get out-doors now and find where can they go?

Commissioner W. T. Holman and his crew men have been working on street this week, grad-up and getting it ready for coat of blacktop. Many streets in Burk Burnett to be hard surfaced, and it is hoped that some arrangement be made to get this done in the near future. Park, our neighbor to the west, has recently had practically every street paved. Can't we work out an arrangement?

presume those were friends that zoomed over town Wednesday afternoon, since didn't drop any block bust incendiaries. But do they come over so low?

orders are always rewarded by another. Two packages of cigarettes carefully hidden in desk drawer came to end. Mice riddled both packages and ate holes in the paper of each cigarette. I did know they chewed. Thank there were no matches they might have burned down.

From the Aleutians

Burk Friends: I receive the Star regularly and enjoy it very much. When coming. As for the 120 there, I could use quite a bit of myself. I have not the sun a whole day since the States. I am getting tired of wearing long handles all the time. I have charge of the equipment shops and am not in the cold very much, but too disagreeable. Tell body hello.

Burk Air Port Has Temporary Approval

Final Approval Must Come From Washington

Temporary approval of the air port East of Burk Burnett came this week on application to have the site officially approved. The Civil Aeronautics authorities have designated the field as a landing area which means that final approval is certain. Final approval must come from Washington, but so far no approval from the C. A. A. has been rejected.

With designation of the field almost a certainty, plans are now under way to build hangers where planes may be kept at all times. Heretofore no planes were permitted to remain on the field over night.

Mrs. Kathryn Houser Johnson made her first solo flight from the field this week, the second Burk Burnett student to do so. Several students have just about enough hours to make their first solo flight and in the next few weeks a large number of those now taking instruction will make their first solo.

Lions Club

Program in charge of Lions Harrison and Hicks. Rev. Harrison introduced Dick Knight, manager of the Wichita Falls Chamber of Commerce, who brought a very interesting talk on the relation of the expenditure for education and economic well-being. Mr. Knight illustrated his talk with maps and charts, using figures compiled by the United States Chamber of Commerce from each state in the union. States which spend the most per capita on education show the largest income per capita. Texas is in the middle bracket on expenditure for education per capita also per capita income.

Arthur Houser had as his guest Jess Goodwin.

Program next week will be in charge of Hightower and Hill. Lions on the next scrap paper pick-up, next Friday week will be Foster, Gilbert, Goodwin and Harrison.

37th Annual Session IOOF-Rebekah Ass'n. At Crowell Aug. 16th

The 37th annual session of the Lower Panhandle IOOF and Rebekah Association will be held Thursday, August 16, at Crowell. G. H. Richie, Vernon, president, will be in charge of the meeting which will open at 9 o'clock with the registration of delegates. A program will be presented during the morning, and the business session will be featured during the afternoon.

Memorial services, installation of officers, fancy drills for Rebekahs and competitive work for the Odd Fellows will be held during the evening session. Other officers of the association include Mrs. Iyvl Byrket, Seymour, first vice-president; O. G. Burnett, Burk Burnett, second vice-president; Mrs. Kathleen Moore, Wichita Falls, secretary; Miss Nora Fancher, Seymour, treasurer; Jimmie Franklin, Crowell, chaplain; Miss Myrtle Russell, Electra, junior past president, and reporter.

The district is composed of Rebekah and Odd Fellow lodges with their respective encampments and cantons in Baylor, Cottle, Foard, Hardeman, Hall, Motley, Knox, Wichita, Wilbarger and Young counties.

Mike Begun, Burk Burnett is a member of the committee to select a meeting place. Mrs. Mary Cecil, also of Burk Burnett, is on the resolutions committee.

What a man stands for isn't everything; what he falls for is also important.

Mr. and Mrs. Ross Reagan of Electra, were business visitors in Burk Burnett Tuesday.

Roderick Funeral Rites Read Sunday

Funeral services for Grady W. Roderick, 53-year-old resident of Burk Burnett and surrounding communities for 17 years, were held Sunday at 3 p. m. in Owens & Brumley Chapel with Rev. P. G. Hightower, pastor of the First Methodist Church, officiating.

Survivors include four daughters, Mrs. Opal Hall, Denton; Mrs. Ozelle Grable and Miss Louise Roderick, both of Los Angeles, Calif., and Miss Roderick Iowa Park; six sons, A. G. Roderick, Jolly; Woodrow Roderick, stationed with the Seabees in Alaska; B. F. Roderick, in army service at Okinawa; Bobby Joe and Royce Ray Roderick, both of Iowa Park; and E. W. Roderick, Burk Burnett; and five grandchildren.

LABOR ON MOVE CAN GET TIRES

Passenger car owners using their automobiles for bona fide change of residence for which they were issued special gasoline ratings will be eligible beginning July 16, 1945 for Grade 1 passenger tire purchase certificate, subject to quota and other restrictions, OPA announced. This extension of eligibility is particularly needed now that increasing numbers of persons are moving from one city to another, OPA explained. It will allow the following groups to apply for new tires if they have a tire failure while making a change of residence.

War workers moving from one city to another as production shift from one type of war goods to another and to civilian commodities.

Members of the armed forces to a new post.

Discharged war veterans returning home or moving to another city to accept a job.

Legion To Hold Joint Memorial Service Aug. 12th

Members of the local American Legion would like to get the names of all members of the armed forces from the Burk Burnett area that have paid the supreme sacrifice.

These names are needed for the purpose of holding a joint Memorial service on August 12. Please turn in names at the Burk Star office, H. D. Mabry, at the Famous, R. P. Thaxton at Thaxton Hardware, or J. T. Brady at the Post Office.

Social Security Representative Calls At Star Office

On Tuesday of this week, R. L. Surles, manager of the Wichita Falls Field Office of the Social Security Board, visited our office and furnished us with considerable information in regard to the Old-Age and Survivors Insurance program. We are glad to give our readers the benefit of this information.

Wage earners residing in this county who have become 65 years of age, especially those who are not now working should call on or write to the Social Security Board, Wichita Falls, Texas, in regard to filing claim for monthly benefits—delay might mean the loss of payments.

Widows or children, or dependent parents who are over 65 years of age, of insured deceased wage earners may be entitled to monthly payments. Such relatives should call on or write the Social Security Board in regard to filing claim for payments for a long delay may mean the loss of benefits.

In case where there is no surviving relative entitled to monthly payments, a lump-sum payment may be due certain relatives or others provided they file their claim within two years from date of the death of the wage earner.

Mr. Surles assures us that he will be glad to answer any correspondence and assist all claimants in preparing their claims. This service is free. The Social Security Board Field Office is located in Rooms 412-417 of the Post Office Building in Wichita Falls.

Veterans' Families Can Get War Housing

Distressed families of returning veterans and of men in service have been made eligible for vacant privately financed war housing on the same terms as immigrant essential civilian war workers, Administrator John B. Blandford Jr., of the National Agency announced. Distressed families are those who cannot find suitable accommodations at rents they can afford in housing built without wartime priorities, Mr. Blandford said.

Car Wreck Injured Burk People Friday

Last Friday morning at 7:20, a car-wreck just around the corner outside the city limits on the Wichita pavement, caused injury to three Burk Burnett people. All were occupants of a car driven by Walter Duval.

The Duval car was headed toward Wichita Falls. A Govt. water tank truck was coming in to Burk Burnett closely behind a car which made a turn off onto a side street. When the brakes of the truck were applied, it swerved out of control into the side of the Duval car.

Walter Duval was driving his car and received possible fractures of the pelvis and hip. He was discharged from the hospital Wednesday and seems to be doing all right.

Tom Duvall, riding in the front seat with his brother received several bruises but no broken bones. He did not require hospitalization.

Virginia Laney, who was riding in the back seat, received the most serious injuries. She received a pelvic fracture and a slight brain concussion. Last reports from the Clinic Hospital in Wichita Falls where she was taken are that she was resting well and no complications have developed. She will probably be in the hospital another two weeks.

Margaret Creel, who usually rode in the Duval car to Wichita Falls, was not along last Friday morning. All are employed in Wichita Falls.

Occupants of the truck were shaken up but no serious injuries.

Damage to the car was heavy.

Old Time Revival At Church of God

An old time revival is now in progress at the Church of God, located at 121 Avenue E. Interest is growing with each service.

Each morning a prayer service is held at the home of one of the members.

Evening services begin at the church at 8 o'clock. Rev. L. L. Green of Galveston is doing the preaching.

Rev. C. F. Meador, pastor of the church, invites the public to attend the services.

Disabled Veterans

Information, guidance, and emergency help are available to disabled service men or service women at any Red Cross chapter throughout the country. And American Red Cross hospital workers at Army and Navy stations are equipped to give information on claims and benefits.

Red Cross Home Service workers in chapters all over the nation are prepared to help the disabled veteran prepare his claim. If he needs hospitalization, they will help him secure it through the Veterans Administration. If temporary financial assistance is needed while claim is pending or payments are delayed, the Red Cross will provide it.

Dependents of a deceased veteran receive similar assistance.

There would be fewer accidents if drivers would keep their eyes on the car behind the car in front of them.

HONESTY PAYS OFF

Wednesday morning Joe Randal Bryant, small son of Mr. and Mrs. Joe Baily Bryant was in Boyd Bros. store and came upon a large roll of bills. He took the money and turned it over to Mr. Tom Boyd. The total came to \$132.00. Not long after the money was found a colored woman came into the store with tears streaming down her cheeks and said she had lost \$132.00. After answering a few questions it was decided the money rightfully belonged to the colored woman and tears turned to smiles as she was handed the money. She inquired who had found the money and left \$5.00 as a reward for Joe Randal. Both the colored woman and Joe Randal left the store happy. His father is a member of Uncle Sam's fighting forces.

Schools To Benefit In Lunch Program

The community school lunch agreement between the United States Department of Agriculture and the State Department of Education has been extended through the next school year, Dr. L. A. Woods, Superintendent of Public Instruction, announced.

Latham White, acting regional director, Commodity Credit Corporation southwest regional office of supply, USDA, co-signed the Texas agreement with Woods.

Local sponsors now can proceed with school lunch plans through the next fiscal year ending June 30, 1946, Woods said, explaining additional information may be received from any of the four CCC-USDA district offices of supply in the state. They are located at Dallas, Austin, Amarillo and Houston.

Under a similar agreement last year, 2,168 Texas schools served noon-day lunches and according to present trends the figure for the coming year will go over the 2,459 mark, he said. The year before 1,770 schools operated with USDA assistance. Up to June, 1945, USDA reimbursements to cooperating schools under last year's program totaled \$2,918,000.

Men And Boys To Get More Work Clothing

New fabric controls to insure increased production of 15 items of men's and boys' work clothing are announced by WPB. The 15 items include men's and boys' overalls; men's and boys' jumpers or coats and blanket lined overall jumpers and coats; mens and boys dungarees and waist-band overalls; one piece coveralls; cossack jackets; work coats; work aprons; work and shop caps; men and boys work pants and breeches; men and boys work shirts and washable service material including gowns, suits or coats for doctors, dentists, internes, orderlies, druggists, and coats and apron sets for bakers, butchers, fish handlers and dairy workers.

Mr. and Mrs. Horace Gotcher of Rockcrossing are visitors here this week. While here Mr. Gotcher subscribed for the paper.

Billy Earl Askins Gone to Philmont Boy Scout Ranch

Billy Earl Askins, Eagle Scout from Troop No. 35 of Burk Burnett left Wednesday morning from Wichita Falls for a months outing at Philmont Boy Scout Ranch in New Mexico.

Scouts who make the trip each year from this district are selected on merit and achievement in Boy Scout work. The district pays \$50.00 toward defraying expense of the trip. Ray Hill, manager of the local Chamber of Commerce, raised another \$48.00 by contacting merchants in town.

Next year Burk Burnett will be entitled to send two boys to the ranch with part of the expenses paid by the district. To be eligible boys must be 15 years of age and a First Class Scout. The trip is highly educational and any boy is fortunate who gets to make the trip.

Scout, Scouters Of Troop No. 35 Meet Next Monday

Boy Scouts, Scoutmasters and Assistant, and committeemen of Troop No. 35 will meet at the Methodist Church basement next Monday night at 8:30. This Troop sponsored by the Chamber of Commerce, has recently been reorganized with Dr. Carl Morrison committee chairman.

Homer Garrett is Scoutmaster and will be assisted by Jack Cagle. Committeemen under Dr. Morrison are P. A. Johnson, secretary-treasurer; Harry Dodson, Advancement and Training; Dave McNeill, Transportation and Camping; Rev. P. G. Hightower, Parent Contact Man and Chaplain.

Charter of this Troop expires July 31st, therefore all Scouts are asked to bring their registration fee next Monday night. Scouts who wish to make advancements will be reviewed at the meeting.

Committeemen have pledged their best efforts to the Troop and it should become one of the strongest in the district.

Mrs. Dezzie Kemp of Randlett, Okla., visited her daughter-in-law, Mrs. Skeets Kemp, here Saturday.

STAYING HOME

There are always folks in Burkburnett who feel that an order never means them. Consider the travel on transportation lines and see just what we mean. The Army informs railroads it means to transport 3,000,000 men between now and next May. This doesn't mean just men moved from the European area to the Pacific, but wounded transported to hospital centers, boys going home with discharges, others going to camps in the states. January is cited as the peak of transportation movement. It isn't as simple as loading men on trains in the East and transporting them West, to go overseas. These men are getting furloughs en route to the West coast. A railroad expert figures that each man redeployed makes a minimum of six to seven train trips. From disembarking in the East, to a staging area for grouping, to a personnel center near home, on home. After furlough returning to personnel center, going to a staging area of overseas transportation and then to the ship at embarkation point. So when the government asks us to stay home and give the boys room, why don't we do it unless the trip is necessary. This appeal doesn't mean the fellow next door, the man across the street, but it means YOU.

JAP MORALE

It has long been regarded as the duty of each Japanese, to smile. He found this to be a Jap custom of long standing, and no matter what his station, he must muster up a smile even if it is only just to be polite. Living in Japan today has put a damper on the smile and so the radio puts out programs to advocate smiling, to appear

cheerful and thus not allowing the enemy to detect any unhappiness among the Japanese people. With the already slim diet reduced further by 20 per cent, the difficulty in smiling is apparent. Japanese don't have heavy meals in normal times. Clothing is rationed and coal for fuel is taken away entirely, for civilian use. Amusement houses are almost all closed. Travel is out for the private individual for any journey over 60 miles and he has to get an official priority for even that. Every worker, every citizen is now under government order, which force can move him any place at any time. There are no rest periods in industry and all males from 12 to 60 have to work, females from 12 to 40. Women are preparing to fight when invasion comes. It is understood from returnees, that the Japanese people are like the Germans when they too were definitely sure the end was coming and victory lost, that they would like to give up, to have peace. But, in order to live they are forced to fight to the bitter and disastrous end. When you consider their hopeless life, the day to day struggle, just to keep face before the enemy by smiling is ridiculous. They are not happy about the situation, in any way. Tears are more appropriate than smiles.

Burkburnett History

As revealed by the files of the Star 17 years ago.

R. H. Henry & Co. has installed in their meat market department a new twelve-foot Ed Fredrich Freezer Counter, equipped with Frigidaire. This counter is very convenient for handling and displaying meats and other market products.

Paul B. Browning, Cline Pope and Charley Grace were initiated recently into the Elks Club. The organization announced a change in its meeting which will be every two weeks instead of each week.

H. D. Smith and Brooks Robertson, owners of the Smith and Robertson Water Co., have purchased the business of the Burkburnett Electrified Water Co. They were already distributors of the Ozarka water from Eureka Springs, Ark., and are now handling both lines.

City Officer E. F. Gilbow and Constable N. P. (Dad) Sanders, working on the case of the theft

of the water keg at Peoples Ice Co. Sunday night, where an attempted entrance to the building was made, located the keg at a residence a short distance south of the business district Monday.

According to the officers, the lock on one of the doors at the ice company building had been tampered with and damaged to the extent that the employees were unable to unlock it with a key Monday morning when they went to open for business.

A man was fined in connection with the keg, but no one has been arrested for attempting to enter the building.

The fire department was called to the alley in the rear of the Owens & Brumley Furniture Co. warehouse Friday morning to extinguish a blaze which had originated in a trash pile. The back doors of the building were damaged, but the fire was stopped with a small loss.

"Why must we raise as much money this year as in 1944? Why, with the European war over, can't the National War Fund budget for the coming year be cut?"

Those are natural questions—questions which every good business man and war chest worker can be expected to ask. They are simple but important questions and, fortunately, can be answered simply and directly.

Here, briefly are the answers: With more than two million troops left on duty in occupied zones, USO has doubled the number of USO-Camp Show units, to entertain men now idle who formerly were sustained by the excitement of battle action. Similarly, more USO Camp Show units are being sent to the Pacific, where constantly-increasing numbers of men are fighting on lonely, uncivilized islands.

USO Camp Shows now entertain more than two million American fighting men each week.

With more and more wounded men being returned to U. S. military hospitals, USO also has increased the number of units playing the Hospital Circuit, staging shows in hospital wards, among the beds and cots of our wounded heroes.

USO also has expanded another service to the wounded, thru USO recreation centers established at all military and naval hospitals.

The Pacific war is a shipping war. Thousands of merchant ships, and increasing numbers of merchant seamen, carry the munitions, equipment and men required for the war against the Japs. Still others continue to serve the European front, carrying supplies and transporting troops home or to new battle areas.

United Seamen's Service follows the ships to all parts of the world, to provide off-duty recreation for the millions of seamen at the end of their voyages through battle zones. Submarines, bombs and suicide planes are forgotten, at least for a few hours, as the heroic seamen relax in facilities provided by this great National War Fund agency.

In the Pacific, the needs or relief agencies are constantly increasing, as new islands and new lands are liberated. The people

of the Philippines, who fought the Japanese throughout the years of occupation, are in pitiful condition, as are Chinese in areas newly liberated from the invader. Thousands of children and helplessly aged people must be fed and clothed—and quickly.

The people of the Philippines are loyal Americans. China has suffered more and fought longer against the Japs than any other United Nation. Both deserve and must have continued and expanded assistance from the people of America.

For years the people of Europe suffered under the heel of the Nazis—and for years we were unable to help them. Now we can get in and give them a helping hand—lift them to new hope and eventual self sufficiency—save them from starvation and despair.

Dire need among liberated slave workers and other displaced persons has brought about a demand for additional services by refugee relief agencies. Plans call for these agencies to do a fast, immediate emergency job, and then to move quickly to liquidation as governmental agencies become able to take over. Three agencies—Russian War Relief, American Denmark Relief and

British War Relief already have voluntarily removed themselves from the roster of agencies supported by the war fund. But until immediate suffering is ended, other refugee relief agencies must carry on, in the interest of humanity.

For the first time in months, representatives of War Prisoners Aid are being permitted to visit prisoner-of-war camps in Japanese territory, to serve American and Allied prisoners. While the end of the European war permitted a 40 per cent cut in the budget of this great agency, there can be no thought of curtailment of service to our men held by the Japanese as long as a single man remains behind enemy barbed wire.

In simple terms, national, state and local quotas remain the same as last year because the NEED remains the same. No funds are being wasted. Every dollar given in the war fund drive is a dollar that will help our fighting

men and helpless war. More than 61 per cent of funds raised by the National War Fund is used for service to our own fighting forces. So more than 30 per cent goes to United Nations and refugee relief. About six per cent goes in an emergency fund, to unexpected demands during the year, and only approximately ONE PER CENT is spent for administration and campaign

GAS REFRIGERATION can give MORE for LESS, and here's why:

- First, the gas refrigerator needs no machinery to make ice and to provide the proper temperature to preserve foods. All that is needed is a small gas flame, and that is supplied by dependable, low-cost natural gas.
- Second, there are no moving parts . . . nothing to wear out.
- Third, the gas refrigerator is SILENT because it has no moving parts. And it stays silent!
- Fourth, LOW COST OF OPERATION—there is no refrigerator made that is as economical to operate as the gas refrigerator, when it is operated by low-cost natural gas.

GOD'S PROMISE OF A NATION

GOLDEN TEXT—Genesis 17:1-10. GOLDEN TEXT—I will establish my covenant between me and thee and thy seed after thee in their generations for an everlasting covenant, to be a God unto thee and to thy seed after thee.—Genesis 17:7.

God keeps His promises. It may have appeared that God had forgotten, but He had not, and in our lesson we find Him ready to fulfill His promise.

We need to learn the lesson of patience, of awaiting God's time for the carrying out of His purpose. He is not in any hurry, but He always arrives on time. If we travel life's way with Him, all will be well.

Abram found the fullness of God's blessing because he sought His will for life and service. We find him

I. Walking in God's Plan (vv. 1, 2). The place of blessing is not in some cloistered refuge where the circumstances of life and its problems cannot disturb us. It is out in the daily walk with God, in the home, the office, the shop.

What is God's plan for the life of the believer? Just what He told Abram: "Be thou perfect." Nothing less will do, for He is a perfect God. His law is perfect (Ps. 19:7). He requires a perfect obedience to the perfect law (James 2:10). This was His standard for Abram, and it can be no less for us.

How shall we attain to it? Only in Christ can we meet and fulfill God's plan of perfection.

That means that as followers of the Lord we are to seek His power for the outworking of His grace in our lives. We are not to be content with a Christian life on a low standard or lacking any of the graces which God can give us.

We, too, must recognize that if God is to give us His full measure of blessing, we must walk in accord with His will, walking in the light as He is in the light (1 John 1:7). Much of the failure and impotence of present day spiritual life is explained by the willingness of Christians to live imperfect lives.

II. Talking of God's Purpose (vv. 3-8). Abram fell on his face in adoration and worship. In reverence and humility, he put himself in the place of subjection and service.

What happened? "God talked with him" (v. 3). This man was ready for a holy conversation with the Lord. His attitude of body was only the outward expression of an attitude of heart which was right. So God and he talked about the purpose of the Lord for Abram's life.

He had been Abram, which means, "exalted father," that is, of a family or a tribe; now he became Abraham, "the father of a multitude."

This is the first of many instances in Scripture where a name was changed by God to mark an important event, or a change of heart. For example, Jacob "the supplanter" became Israel, "a prince with God" (Gen. 32:28); Simon became Peter, "a rock" (Matt. 16:17, 18).

The letter to the church at Pergamos speaks of the one who overcomes in Christ's name as having a new name written which no man knows save he that receives it (Rev. 2:17). The believer on Christ is a changed man, a new creature, whether his name be changed or not. God wants to change men—has He changed you?

The promise is renewed to Abraham. It was to his "seed," that is, his descendants. He took the blessing from God's hand, accepting things that as yet were not, as though they were. God is able to make them come to pass (cf. Rom. 4:16-18).

III. Trusting God's Promise (vv. 9, 10). Down through the ages every man in the great host to descend from Abraham was to bear the outward token that he belonged to the covenant people. This was to be a symbol of and to lead the recipient into that attitude of heart which would bring outward rite into fulfillment as an inward reality.

Observe that after Abraham, it was always the parent who thus brought the son into the covenant. This speaks of the parental responsibility to bring the little children to the Lord, and it also gives us the precious assurance that God is interested in the children and ready to receive them at the hands of parents, taking them into His own tender care.

Thus down through the generations, Israel was to show their faith in God, their assurance that He would keep His promises to them, and their consequent eagerness that their families should be counted into the covenant with God.

Christ is ready and eager to undertake for our children. His grace is sufficient, not only for us, but also for those who come after us. His promise is to our "children's children" (Ps. 103:17, 18), "of such as keep His covenant." Let us trust Him, and put ourselves and our children in that place of obedience where He may bless us and them.

Kathleen Norris Says: Don't Be Someone Else

By KATHLEEN NORRIS. Bell Syndicate.—WNU Features.

She never saw the beauty of the rolling waves or the brilliance of the happy crowd of soldiers and sailors and their girls streaming up and down the board walk.

By KATHLEEN NORRIS

DON'T spoil your life longing for something just because someone else has it. This is a real fault in American women, partly because they have so much, and because their leisure time lets them think about their neighbors.

If life was a little more real for us, if grim necessity more often knocked at our doors, we would be cured of this weakness. The women of the Orient don't know it at all. They drive straight ahead, each one planning and working for the comfort and protection of her own little group, not embittered by the fact that luxury and leisure and all the prettiness of life are denied her forever.

But the days of many an American woman are darkened by constant watching and comparing her neighbor's fortunes to her own. She doesn't appreciate at all what she has—all that matters is that the Browns have more.

For example, I once knew a woman named Sally. She was healthy, beloved, a happy wife and mother. I met her when she had her three small children at the seaside. She and I had rented neighboring cottages for a fortnight's vacation. We were within a block of the shore and all the wild delights of childhood—merry-go-rounds, dog-dog-dogs, popcorn, slides, whirls, museums and sandy beach—were close at hand. Nobody could call it an aristocratic resort, but it was expensive, joyous and wholesome as only the shore can be.

Craved for Luxury Resort.

However, to Sally, the blight was that she had a friend who had taken her child to Tahoe—remote, refined and, in spots, very dull. But Tahoe is fashionable and Santa Cruz is not, and Sally kept comparing the two places until her vacation was ruined by fretting and discontent.

If Sally had been a child, how simple it would have been to say, "Now, not another word about Tahoe or what Nancy is doing. If I hear any more of this nonsense, Miss, you go straight to bed!"

But Sally isn't a child, so we had to put up with it. She never saw the beauty of the rolling waves or the brilliance of the happy crowd of soldiers and sailors and their girls streaming up and down the boardwalk. She never smiled when everyone was in the glorious salty surf, clinging to life lines, lying wet and breathless on the float. She didn't brighten when we gathered for a delicious hot breakfast in the coffee shop or took hamburgers and buns down on the beach. Not Sally! Nancy was at Tahoe, where everything was elegant and expensive, so there was no pleasure for Sally anywhere else.

Nancy, as it happens, came back with a bad case of hay fever and her little girl was sent off to camp, but that didn't interest Sally. She continued to remark frequently that she wished the holiday was over.

Ninety-nine women out of every hundred in the world would have thought her crazy. Some would have wondered why she wasn't struck dead for ingratitude, stupidity and blindness.

Had Almost Everything. For if there are 100 good things for a woman of 30 in this world, Sally surely had 98 of them. Sally had

health, youth, beauty, love, protection and plenty; she had a home, car, water, heat, clothes, food, pleasures, leisure, radio, telephone, gas stove, electric light, Sally had wifehood and motherhood, companionship, responsibility, a keen mind, an active body, bright eyes, good hearing, strong legs and clever fingers.

She had, even in this rented cottage, a comfortable bed and good books to read; she had white sheets and fresh blankets; she had a strip of garden, the sight of great trees, the nearness of that eternal miracle of healing, the sea, and that other miracle to which men have turned since the earliest days of Biblical history—the great line of rising dark mountains. But it is ridiculous to attempt to list what she had and it would be tragic to compare it, in detail by detail, with the bitter need that millions of women overseas are facing.

These women, frightened, destitute and desperate, have traveled dusty roads looking only for water first, rest and then perhaps a little dark bread and a few boiled turnips or cabbages. They have reassured terrified children, promised them security, shelter, milk and food, only to have the little feet falter, the little hearts break and the children lie down beside the road to rest, not even rating a grave. They have known that their men were gone for ever and with them all the dear old life of home, garden, kitchen, familiar stove and beds and home treasures—never to be found again.

One week with them might turn the mirror around for Sally and let her see not what she hasn't but what she has.

Handle Strawberries Carefully. Strawberries are scarce, so if you are lucky enough to have some on your menu, handle them with care. Do not wash them until ready to serve. Water clinging to the berries starts unnecessary spoilage. If you hull berries a long time before using, they may soften. If the strawberries must be held overnight, spread them on a flat plate and store uncovered in the refrigerator. Don't hesitate to can the berries, though, even though sugar is scarce. Can without it if necessary.

Watching the fortunes of her neighbors.

ENVY AND DISCONTENT

Foolishly longing for what others have blights the lives of many women. That yearning to "keep up with the Joneses" makes life miserable for women who have all the essentials for happiness. If they could only curb their childish envy of other people who may be a little richer, or more fortunate in some other way, they could be much happier.

Sally was one of these silly, discontented women. She had health, beauty, a loving husband, three children, and a middle-class family income. But these blessings were insufficient for Sally. Her friend Nancy could afford to go to an expensive and exclusive resort, for instance. Sally had to go to an ordinary seaside cottage colony. The only difference, as far as pleasure was concerned, was the social ranking of the two places. This distinction, nevertheless, bored into Sally's spirit and spoiled her vacation.

Miss Norris compares the lot of the average American woman with that of the European or Asiatic woman, for whom life is a constant struggle just to maintain existence in a war-torn world. How trivial would most of the American woman's difficulties appear in such a setting!

The Washington Merry-Go-Round

By DREW PEARSON

WASHINGTON QUIETEST IN YEARS

The District of Columbia looks more like a peacetime capital this summer than in many years. . . . For the first time since the war, the house is now planning a long recess. . . . This reflects increased congressional confidence in the new White House set-up, also the fact that many a legislator yearns for home. . . . The dollar-a-year men and brass hats who planned to check out after Germany's defeat haven't started their exodus. Instead they've been joined by hundreds of business men who've moved in to get their reconversion headaches unsnarled. . . . Thousands of returning officers and enlisted men from Europe have added to the housing and feeding problem. Parking spaces along the Potomac are crowded on hot nights with G.I. Joes and G.I. Janes and government workers searching for a cool breeze. Washington is more peaceful, but still jammed.

Adding to the crush are the Truman boys who have descended on Washington. . . . They fall into three categories: (1) The Missouri boys, friends of Truman and Bob Hannegan looking for jobs, patronage, and juicy political plums. . . . (2) The Pauley boys from Southern California—friends of former Democratic Treasurer Ed Pauley who've rushed into town to climb on the gravy train. They're brash and crude for the most part, have little respect for the taxpayers' money, and already have their eyes on the gilded dome of the capitol. . . . Third group are the "Battery K" men. These are the World War I vets who saw service with Harry Truman in 1917 and 1918. Most are satisfied with a brief "hello" and a handshake from their hero. Others cling to the wrought iron gates of the White House, think that their comradeship with the new chief executive is a guarantee of a soft government job.

Truman's own aides in the White House are still impressed by their new surroundings. . . . Some feel that Truman's rise gives them a blank check to use his power for their own ends. . . . Household Hints Grass stains on white materials can often be removed by sponging with ammonia and water. Scrub carrots with a stiff brush. It is easier than scraping or paring and saves vitamins and minerals as well. Resolve to go easy on the vacuum cleaner motor by emptying the dust bag after every use. Shake out the loose dirt, tie the bag inside out on the clothesline and let the breeze do the job thoroughly for you. When washing windows, use an up and down stroke on the outside, and the side to side stroke on the inside. This way, you can easily determine which side needs more polishing.

SNAPPY FACTS about RUBBER. Ordered to take a German position so close to the lines that shooting would have brought them under direct fire, members of Company A, 175th Infantry, stretched an inner tube between two trees and hurled grenades slingshot fashion. It worked. B. F. Goodrich has developed a new rubber cement which in some cases can replace rivets or screws. French industry has begun to produce U. S. Army pneumatic tires, using American raw materials. Production in one plant has increased five times in three months of operation.

Grace Lutheran Church

America is called "the land of the free," and rightly so. We enjoy a freedom such as no other country offers.

But there is this pertinent fact to remember: One may be free under the laws of a benevolent government and yet not free under the laws of God. One may be free from earthly tyranny and yet be a slave of sin, and sin is the most terrible tyrant.

We have however, the assurance of Scripture in the words of St. Paul: "If the Son shall make you free, ye shall be free indeed."

And the best guarantee of earthly freedom is the possession of heavenly freedom.

As we Americans look to the future and prepare to rebuild a ruined world, we can nothing more important than to pray daily, "Lord, make us free."

Resolve to go to church Sunday for the securing of peace for your soul.

Grace Church will have its church picnic Sunday at Gilbert Creek, about three miles south of town. The morning service, beginning at eleven o'clock will be held at the picnic site. Dinner will be served on the ground. The afternoon will be spent in fellowship and recreation.

Calendar

Morning service at the picnic site, 11 A. M.

The evening service has been cancelled.

Calvary Baptist Church (Fundamentalist)

10 A. M. Sunday School, with all classes reviewing the entire book of Acts, with this subject in mind, "Witnesses For Christ."

11 A. M. Song and Preaching service, with pastor bringing the message from this subject, "He That Goeth Forth and Weeping Bearing Precious Seed, Shall Doubtless Come Again Rejoicing Bringing His Sheaves With Him or Sowing and Reaping."

The night service will be on the lawn next to the Church building. The service begins at 8:30 with an old time, rousing song service led by a visiting song leader. Sermon follows, with pastor using this subject, "The Prophecy of Christ's Second Coming in the Book of Daniel."

One thing the pastor wishes to call attention to: Lies, scandal, mud-slinging and gossip always have their effect for a short season, but truth always rises in triumph and victory in the end. The pastor holds no grudge against anybody, but rejoices in the same truth he has stood for ever since he has been on the field here in Burkburnett—over five years.

And those who said he was out of business and that Calvary was about to close its doors, are having to eat their infamous words without salt. We are nothing of ourselves, never have claimed to be, but the grace of God that set this pastor on this field and that has kept him through every storm, has not lost its power. By that same grace we move forward, and God is giving us new helpers. Three saved last week, and others are coming in. With new zeal and courage, and with old and new helpers, we are looking forward to new conquests for our God. Don't forget the Saturday night services at 8:30 near City Cafe—good singing and sin-exposing preaching. We extend a hand of greeting and welcome to you at all of our services.

Ray C. Morrow, Pastor.

Christian Science Services

"Truth is the subject of the Lesson-Sermon which will be read in all Churches of Christ, Scientist, on Sunday, July 29. The Golden Text is: "Oh Lord God of hosts, who is a strong Lord like unto thee?—Justice and judgment are the habitation of thy throne: mercy and truth shall go before thy face" (Psalms 89:8, 14.)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Study to shew thyself approved unto God, a workman that needeth not to be ashamed, rightly dividing the word of truth" (II Timothy 2:15.)

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Truth makes a new creature, in whom old things pass away and all things are become new" (page 201).

Mrs. Pauline McClain has gone to El Paso to meet her soldier husband, Jack McClain, who has been in India the past two years.

Mr. and Mrs. Raymond Teal of Houston, Texas, announce the birth of a baby girl weighing 5 lbs., 13 ozs. Born July 16, 10:03 p. m. at Herman Hospital, the new arrival is named Linda Rae. This is the first child born to Mr. and Mrs. Teal. Mrs. Teal will be remembered in Burkburnett as the former Miss Gladys Pinkston.

Donald Ray Mills writes his parents he likes the Navy fine and California, too, but give him Texas any time. He spent his first liberty visiting Seaman and Mrs. Wayne Roberts of San Diego, Calif. Wayne is the son of Mr. and Mrs. W. A. Roberts of this city.

Mrs. H. R. Garrett Home Scene of Family Reunion Sun.

The home of Mrs. H. R. Garrett, 510 E. Second street, was the scene of a family reunion on Sunday, July 22, as a climax of an unusual home coming of her children. All her children were present but two, one daughter, Mrs. Virgil C. Miller of Refugio, Texas, and Pfc. Levi Garrett, now with the armed forces on Northern Luzon. Those enjoying the occasion were: Mr. and Mrs. Harvey L. Garrett and children Gwendolyn, Ronny and Carolyn Sue, Mr. and Mrs. J. Ben Garrett and son, Glynn, of Archer City, Texas, Mr. and Mrs. Robert J. Elliott of Conroe, Texas, Mr. and Mrs. Ray Mills, Horace and Earl Wayne, Mrs. Donald Mills, Miss Betty J. Mills, Mrs. Levi Garrett, Mrs. Edward Kemp, and Homer Garrett, all of Burkburnett, Pvt. Bill White of Shepherd Field, and Erie, Penn., Mrs. M. A. Swinburne of San Angelo, Texas, mother of Mrs. Garrett, and the hostess for the day Mrs. H. R. Garrett.

New Air Conditioners In.

Something new—Air Conditioned Church—Next Sunday the audience will be blessed with the new Air-Conditioner installed in the First Baptist Church.

You are welcome to worship with us each Services of the Lord's Day.

Our Sunday School attendance was just a little under the 300 mark Sunday. Were you out of your place? Did you Rob the Lord of His day after He had given you the six preceding days?

Sunday night our Training Union was not quite up to par. With the new Air Conditioners, we are expecting many to attend these evening services.

O that God's people would remember the Sabbath does not end at 12 A. M.

In the sight of God it is no worse to take the Sabbath Morning to do what you want to do for yourself than it is to take the Afternoon.

Many Baptist have very little conscience on the Sunday afternoon and Sunday evening periods—just do as we please. The word admonishes us, "Remember the Sabbath, and keep it holy."

Come and worship with us Sunday morning and evening.

—Pastor.

Acute Gas Pains Stomach Distress
Try Hot Water To Which A Little Neutracid Has Been Added
At the first sign of distress smart men and women now know just what to do. They put a teaspoonful of Neutracid in half a glass of real hot water and drink it after meals, that's all. Neutracid is new—it's made especially for the symptomatic relief of gastric hyperacidity. Nothing quite like Neutracid to bring fast, quick relief to the sufferer of stomach distress, acid indigestion, gas pains, heartburn, burning sensation, and other conditions when caused by excessive stomach acidity.
Ask for Neutracid at Adams Drug Store and all druggists.

Scalloped Cupboard On Table or Chest

IF YOU have a wall space crying to be filled with an important piece of furniture, here is the answer. A breakfast cupboard effect to hold bright bits of pottery and china and perhaps a few books.

Cost a fortune? Not at all. You can have it and save money for a bond too.

You will need a base which may be a table that you have on hand or a chest of drawers made by taking the mirror off of an old dresser, also some short lengths of lumber and plywood. A simple box cupboard is made to place on this base. The next step is to mark the design for the scalloped front on the plywood and cut it out with a compass saw or take it to a woodworker to be cut with a jigsaw. Paint or stain the cupboard to match the base, and stretch fabric across the back to make a colorful background for your treasures.

NOTE—Pattern 204 gives large cutting diagrams and illustrated directions for making the box cupboard; also an actual-size pattern for the scalloped front. A list of materials is included. To get Pattern 204, send 15 cents with name and address direct to:

When Your Back Hurts

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

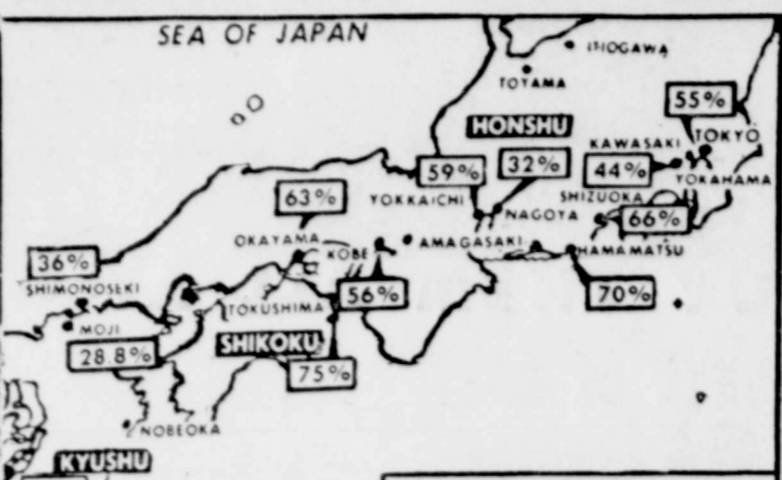

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

WEEKLY NEWS ANALYSIS

Big Three Study Peace Terms; Homecomings Beat Schedule; Allies Get Set on Rule of Berlin

Released by Western Newspaper Union
(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

BOMBER RECORD

4500 B-29 RAIDS IN JUNE—130 SQ MILES RAZED—36 SQ MILES WRECKED IN JUNE—42,000 TONS OF BOMBS DROPPED IN MONTH—36 B-29s LOST IN MONTH—139 ENEMY AIRCRAFT DESTROYED

After a lull of five months, more than 1,000 carrier planes from the Pacific fleet returned to direct attacks upon Tokyo. This map graphically illustrates what they had already been given. The data is based on ton taken by B-29s. Percentages show industries destroyed.

TRUMAN: And Big Three

Through chilled North Atlantic waters, President Truman arrived in Potsdam to keep his rendezvous with Prime Minister Churchill and Marshal Stalin.

It is believed that they will be concerned with problems dealing with control of Germany, planned on long-range basis; disposition of territories—Italian and some 30 disputed boundaries to be settled; political and economic questions, including Italy peace terms, what to do with Spain and other "neutrals," which might include Japan.

Diplomats say that the Big Three, while discussing the San Francisco conference, their present work will not tie in directly with the West Coast conference and United Nations charter.

Berlin Rule

The rule in Berlin has been split, and for the first time the American and British military governments have moved in and taken up their responsibilities in the German capital.

Rules and regulations established in American and British zones of Berlin, as established by the Red army, will remain in effect until General Clay and General Lyne and their staffs can formulate permanent methods of operation. Russian policy has been declared to be more realistic than those adopted by other Allies in other sections, and high sources seem to think there will be little change made in Berlin.

BIG HOMECOMING: Ahead of Schedule

When eight transports docked in New York one day in mid-month, they brought back 35,000 happy veterans of the European war—the largest number returned in a single day since V-E Day. Twenty-eight thousand soldiers were Americans, 7,000 Canadians. Five infantry regiments, a hospital unit, various groups of the 8th air force, and numerous smaller units were among the arrivals. The number of troops now back in the states is approaching the half million mark.

The giant Queen Mary carried more than 15,000 men, including 6,000 of the Canadian contingent. The West Point, which is the navy's largest transport, had 7,600 soldiers aboard, and the John Ericsson about the same number. Three thousand men came home on the James Parker, and four smaller transports returned a total of 1,500.

Aboard the West Point were 33 men who were not happy about the trip. They were Japanese diplomats taken into custody in Europe. An unlisted passenger was Natale Pivello, nine-year-old Italian orphan, who was smuggled aboard the General Bliss by soldiers of the 8th division. He was liberated from a German prison camp by American troops. He will be placed in a private home pending decision of immigration authorities.

'DIES' COMMITTEE: New Chairman

Representative Wood (Dem., Ga.) has been elected by the house to the chairmanship of the committee on up-American activities, succeeding Representative Hart (Dem., N. J.), who resigned due to ill health.

Representative Rankin, who has been acting chairman of the group since Hart resigned, called Representative Wood, outstanding and one of the finest Americans in the house.

JITTERY JAPS: Get More So

Japan homeland has become jittery over continued large-scale air assaults against Tokyo and other industrial centers of its islands. Broadcasts, changing from hour to hour, all indicate that Japan expects invasion of the mainland at any minute by Allies.

Military spokesmen for Japan admitted that to defend the islands it would be necessary for the Imperial government to devise some adequate defense of the homeland against continued air attacks.

Navy Score

The U. S. navy alone has destroyed more than 17,000 Japanese planes since Pearl Harbor, Undersecretary Artemus L. Gates of the navy has reported. During the same period the American fleet plane loss has been approximated at 2,700. It is believed that the army has accounted for as many Jap planes, considering the large number in the last few days.

Navy carriers now total nearly 100 with a tonnage of 1,250,000, the largest single portion of total combat tonnage. More than 26,000 aircraft built since Pearl Harbor were deployed to the fleet last year.

TYPHOON: Hits U. S. Fleet

Five weeks after a raging typhoon lashed Admiral Halsey's 3rd Fleet with 138-mile-an-hour winds virtually every damaged ship (there were 21 hit) was back in action. The havoc wrought by the storm was described as greater than any Jap blow ever administered to the fleet.

The cruiser Pittsburgh miraculously stayed afloat after its bow was torn off in the churning sea. It has now been refitted for action.

Among the damaged ships repaired and back in action were three fast battleships and two Essex class carriers. Only one life was reported lost.

Adm. Chester Nimitz' announcement of the incident did not specify where the typhoon struck but presumably it was in the western Pacific area between Okinawa and the Philippines. This area is known as the "typhoon cradle" where violent storms strike without warning.

JAP HOSPITAL SHIP: In Bad Shape

A Japanese hospital ship, boarded by an American naval party was found to be dirty and overrun with vermin. Food and medical supplies were entirely inadequate for the 1,000 patients, who had been removed from Wake Island under truce.

Many of the Japs appeared to be starving. A doctor admitted that many would die during the night. While the sick men were kept clean, the wards and galleys were filthy and insect-infested, and the standard of cleanliness on the ship was below par everywhere. A stench emanated from the ship that could be smelled 1,000 yards away.

CONVERSION POST: To Treasury

The Office of War Mobilization and Reconversion will become a part of the treasury department when Fred M. Vinson, present director, becomes secretary of the treasury, according to Washington.

Vinson has already indicated that he intended to keep his top OWMR personnel. Eventually treasury officials look for a further consolidation of some of the independent fiscal agencies into the treasury.

PLENTY POINTS: But Still In

Eighty-five points doesn't necessarily mean immediate release from the army, as all soldiers know. The trouble is, their families don't realize the catch. Thousands of men who have served long and valiantly are classed as "essential" and are being held indefinitely. In many cases they are having a hard time explaining to their wives just why they aren't coming home soon.

One captain stationed in Germany with an occupation unit has 127 points. His wife is so sure that he could return to the states if he wanted to that she is threatening divorce. She thinks that he wants to stay because he has fallen for some German woman. Chaplains report that dozens of such cases reach them every week. Morale is suffering seriously.

CHARTER: Moves Along

The United Nations charter, meeting with almost no opposition before the senate foreign relations committee, went to the senate for what is said to be certain acceptance without modifications. The committee ended its sessions by a parade of supporters of the charter, after listening to a few individual outspoken opponents.

Final witnesses before the committee included Philip Murray, president of the CIO and William G. Carr, president of the National Education association as well as Norman Thomas, Socialist party leader.

The speed with which the charter has been handled indicates that the United States will become the first nation to officially approve the charter or to pass on it in any form.

NEW WAC CHIEF: Hobby Resigns

Col. Westray Battle Boyce has been named director of the women's army corps, following resignation of Col. Oveta Culp Hobby, who was the first head and organizer of the service.

Colonel Boyce was employed for eight years in federal agencies in Washington before she joined the WACs. She served as a company officer and in public relations work. In North Africa she was WAC staff director. During the last few months she has been chief assistant to Colonel Hobby.

Colonel Hobby, wife of former Governor Hobby of Texas, and mother of two children, says she wants to return to civilian life to make a home for her family.

CHINESE GAINS: On Mainland

Doggedly battling Chinese troops have recaptured two former U. S. air bases in Kiangsi province, it was announced by the Chinese high command. The important Jap base at Kanchow is being encircled, it was said, with fighting going on 12 miles outside the town. This communications center is about 254 miles north of Hong Kong. In another sector, the Chinese are approaching Wuchow, Japanese supply base 130 miles west of Canton on Sikiang river. Capture of this city is a major objective.

New advances are being made in Hunan province, where the Japs are pulling back toward Paoking. They are now only four miles outside the town, which guards the approaches to the Jap held rail junction of Hengyang.

AUTOS: Ration Free?

More autos will be available to the public by March 31 than originally planned—at least enough to bring announcement from Henry P. Nelson of the War Production board that they would be ration-free.

They will still be hard to get however due to a serious shortage of tin. The present quotas called for some 690,000 new cars by next March 31, which is not much more than 10 per cent of the market demands. Thus while cars may be placed on ration-free lists, little hope is held out that many will be able to secure the family car they have been saving for.

BEEF: Grass Fed

Cattle fattened on grass in Oklahoma and Kansas are beginning to enter the markets in sizable numbers. About 700,000 head have been put to graze on the blue stem grass lands. It is expected that the steers will gain from 200 to 350 pounds on the green feed.

Ordinarily beef from the grass country rates as B grade or worse. Animals that would come up to A grade if finished on corn are being grass fed because of the scarcity of grain. Commission men think the grassy beef will sell for 13 to 14 cents a pound.

MALARIA CONTROL:

Delily "delousing" of Manila by low-flying aircraft with DDT, the wonder insecticide, has resulted in a sharp decline in the fly, mosquito and other pests among its unwanted population, with a material lowering of the number of malaria cases reported.

The planes, mostly transports, fly at rooftop level, spraying the city with a fine mist composed of DDT. The same method has been used effectively on the New York City beaches. The supply is still limited.

Things You Know All Along: (But Which I Didn Know 'Til Now)

Scientists claim singing inspires robust health. Yodeling is supposed to invigorate the circulation, revitalize the tissues, eliminate toxins and strengthen the throat and lungs. (Oh sure. That's why Sinatra is the cave man type.)

Patrick Henry was one of the world's great orators, but he couldn't write a memorandum that made sense.

Verdi's biggest competitor was Enrico Patrella, who aped his style. Patrella penned twenty operas (now forgotten) and died in poverty. Famed Verdi died a millionaire. (Copycats, beware.)

Caligula, a Roman emperor, made guests pay for their meals.

Think double features are bad? A Buenos Aires movie house exhibits five different films daily. (A cure for insomnia?)

A Rajah in India has a billion dollar a year income. (He's almost as prosperous as the owner of a hot dawg stand on the road to ruin.)

Mozart was an enthusiastic billiard player. Much of his music was composed while awaiting his turn. (I don't believe it, either.)

A sneeze lasts about a tenth of a second. (Or just long enough to ruin the big scene.)

The first railroad tunnel in the U. S. was built in 1833 near Johnstown, Pa. (And you always thought the only famous thing about Johnstown was the flood.)

About sixteen million thunderstorms occur each year throughout the world. (That's what the man said.)

Poison ivy is most poisonous in the spring and early summer when the sap is most abundant. (So stay in the city and out of the bushes, you dope.)

The building of railways in England was at first forbidden by Parliament. Because it would interfere with fox-hunting. (You've probably heard this definition of a fox: He gets what a wolf goes after.)

You can't hide strong emotions from the tips of your fingers and toes. When you're excited they get cold.

Gobbling too much sweet food makes the body susceptible to colds. (Your medico would charge money for this kind of information, you lucky you.)

Oranges contain practically no starch. (Ain't that wonderful news, girls????)

Typing for 45 minutes burns up 100 calories. (Which makes this a 200 calorie colyum.)

In the 19th Century, Kalesnikoff, a Russian shoemaker, distinguished himself as a doctor and rapidly rose to the office of chief surgeon at the Kieff Hosp. He performed 600 major operations before his deception was uncovered. (Try and top that, Dr. Kildare.)

In Siam a man is allowed only one divorce, but he can sell his other wives.

"New" and "old" potatoes have about the same nutritional value. (So don't be so fussy.)

When Mount Pelee (a volcano on the West Indian island of Martinique) erupted some time ago, it killed all of the 26,000 inhabitants of the town of St. Pierre but one. That one was a prisoner in the town jail. (Make your own moral.)

The universe is one solid mass traveling at 180 miles per minute. (Correct, Prof. Einstein?)

This is the origin of the word "cop." London's first police force wore blue uniforms with large copper buttons. These buttons gave the police the name copper, later shortened to cop. (Ho-hum!!!)

Snapping turtles have been known to bite completely through an ear. (Ain't that awful?)

A halibut always lies on its left side, and both its eyes are on the right. (Gruesome, ain't it??)

Lack of common salt actually caused Napoleon's failure before Moscow. Because his soldiers didn't have sufficient salt in their diets, their systems were unable to repel disease. (Amazing what you can find in books.)

W. Va. has a law which makes it illegal for an alien to own a dog.

May is the only month in which a U. S. President has neither been born nor died.

Hindus Are Tricky in Reconditioning Elephants

Hindus have a trunkful of tricks to recondition secondhand elephants that are for sale. Body scars made by a poorly fitted howdah (elephant saddle) are covered with dyes; fancy chalk designs hide injuries on his head and face; foot cracks are filled with putty and even missing toes are glued on.

In fact this last is the most important part of the reconditioning. If an elephant does not have the proper number of toes his market value is seriously affected.

Personnel of Burkburnett Company C, 25th Bn.

J. E. Crews of San Antonio, Texas has written a poem entitled "The Call of Texas." We sons of Texas hear her call Wherever we may roam; Her diamond studded skies at night Are beacon lights of home, For well we love our native state Where brooks and rivers flow, And honor all the pioneers Who came so long ago.

No matter where our journey leads, No matter where we stray, We always hear that constant call From Texas, far away, And long for snow white cotton fields Where darkies work and sing— To hear the song of mockingbirds At midnight, clearly ring.

The scenes of childhood call to us, Where simple things abound, Where cabins nestle in the woods, With stillness all around; We hear an old red rooster crow In melancholy tone, Which tells as plain as spoken words, The folks are not at home.

We boast of lofty skylines in Our cities, that is true, But the scenes that really call to us, Such folks as me and you, Are old, adobe ranch houses, Low, rambling, plain and strange, And cowboys rounding up great herds Of cattle on the range.

The sight of some old mission wall, Beside a crystal stream, The crumbling ruins of old forts, Are monuments of dream; And live oaks veiled in Spanish moss Beside a still lagoon, Cast their enchanting silhouettes Against the southern moon.

Ah, long her hills have sheltered us Within her proud domain, Where sunset sheds its mellow glow Across the rolling plain. Her wonderful beauty and her charm Can never half be told, Nor painter's brush, nor poets song The picture half unfold.

He brushed his teeth twice a day with a nationally advertised tooth brush. The doctor examined him twice a year. He wore rubbers when it rained. He slept with the windows open. He stuck to a diet with plenty of fresh vegetables. He relinquishes his tonsils and traded in several worn-out glands. He golfed, but not more than 18 holes. He never smoked, drank, or lost

Leach have each been giving freely and unselfishly of their time for the past two years, and Captain Monroe, who was formerly connected with a National Guard unit, has been appointed as Medical Officer for Company D at Electra, Texas, which has just been recently organized.

Bottom: First Lt. Cletus F. Johnson Sr., and Pvt. Cletus F. Johnson, Jr., the other being dressed in World War I uniform, of which he is a veteran and the son being dressed in World War II uniform. First Lt. Johnson is not only District Commander of the American Legion, but also a very capable officer in Company C, 25th Battalion, Burkburnett. The son, shown in this picture with him, is a former member of the Texas State Guard. He has another son, Dale Franklin Johnson, who has just recently been discharged from the State Guard and has joined the armed forces of the United States Army.

He did his daily dozen daily. He got at least eight hours sleep each night. The funeral will be held next Wednesday. He is survived by 18 specialists, 4 health institutions, 6 gymnasiums and numerous manufacturers of health foods and antiseptics. He had forgotten about trains at grade crossings. —Walnut Springs Hustler.

By an unknown writer. Dream not too much of what you'll do tomorrow, How well you'll work perhaps another year; Tomorrow's chance you do not need to borrow— Today is here.

Boast not too much of mountains you will master, The while you linger in the vale below; To dream is well but plodding brings us faster To where we go.

Talk not too much about some new endeavor You mean to make a little later on, Who idles now will idle on forever "Till life is gone.

Swear not someday to break some habit's fetter, When this old year is dead and passed away; If you have need of living wiser, better— Begin today.

Heart Disease Is Children's Enemy

Rheumatic heart disease is now the first cause of death among children aged 10 to 14, and is second only to tuberculosis at ages 15 to 25. Despite the importance of this disease its epidemiology is not completely established. No vaccine such as those that prevent typhoid, diphtheria, smallpox and whooping cough has yet been developed for its prevention or control. We do know, however, some of the danger signals and with the physician's accurate diagnosis some of the damaging results of the disease may be prevented.

Exposure of frequent chilling damp or overcrowded living quarters, a poor diet, an attack of scarlet fever, a bad cold or other infection caused by certain streptococcus germs are likely to be predisposing factors in the appearance of rheumatic fever. Dr. Geo. W. Cox, State Health Officer, points out that in general the danger signals of rheumatic fever are pain and swelling in the joints of the knees, ankles, elbows, or wrists. The pain usually is felt in one of these centers and spreads it to the others. Oftentimes a child will get irritable and cross without any visible signs of a good reason for this attitude; he may cry easily or develop habits of nervousness. A physician should be con-

sulted at once in such a situation, for these symptoms may be the beginning of rheumatic fever.

According to Dr. Cox the best safeguard against this disease are to have each child examined at least once a year by a physician, to have the right kinds of food and plenty of rest. When the disease is suspected of being present, a doctor should be consulted at once, and if he prescribes complete bed rest, his advice should be implicitly followed.

Used Fats From Kitchens Needed

Greatest untapped source of supply to off-set the national fats and oils shortage is the American kitchen. E. C. Munro, acting district representative, USDA-CCC office of supply, said this week while enlisting the aid of every housewife in the used fat program.

Dangerously low supplies and an all-time high demand for fats and oils makes every drop salvaged now doubly important, he explained.

More are needed for manufacture of munitions to fight the Japs, meet civilian demands for products containing fats and oils and for shipment to liberated

countries of Europe. A backlog of 250,000,000 pounds is needed this year for these purposes, he continued.

Cooperating with housewives in making the program a local success are the county agent, home demonstration agent and the fat salvage committee, who also are assisting in handling collection complaints.

For every pound of used fats housewives turn in, they receive two OPA red ration points and up to four cents in cash. The ration points, in turn, can be used for purchasing meats, fats and oils and other rationed commodities. Fats which are discolored, burned, highly flavored or strong in odor are just as satisfactory as clear fats, Munro emphasized.

Whenever possible, used fats should be delivered in tin containers since they can be handled more easily than glass jars, which require more handling and often are broken in shipment.

G. I. Bill of Rights

(Continued from last week)

General Eligibility Requirements

Who is eligible to apply? Every individual enlisted personnel and officers alike, who served in the Army, Navy, Marine Corps, or Coast Guard, at any time after September 16, 1940, and prior to the termination of the present war and who was discharged or released under conditions other than dishonorable after 90 days or more of active service because of injury or disability incurred in line of duty.

Are there any residence requirements?

Yes. Only veterans who are living in the United States, its territories and possessions are eligible for readjustment allowances.

Are women who served in the armed forces eligible?

Yes. WACS, WAVES, Marines, and SPARS are eligible on the same basis as any other member of the armed forces. Service in the WAAC does not constitute qualifying service.

Is more than one type of allowance paid?

Yes: (a) Weekly allowances are paid veterans who are totally unemployed, and to veterans who are part-time unemployed because fulltime employment cannot be found, if they meet certain requirements which are outlined in the following pages; (b) Monthly allowances are paid to selfemployed veterans if they meet requirements which are also outlined in the following pages.

What are the requirements for receiving weekly allowances?

There are two general requirements:

- (a) Requirements relating to length of active service.
- (b) Requirements relating to ability to work and availability for suitable employment.

Requirements Relating To Active Service

Whom should the veteran contact to find out if he is eligible to receive allowances?

He should contact the Unemployment Compensation Commission office nearest his home; such office will determine whether the veteran has served long enough in the armed forces to be eligible to receive readjustment allowances. Such a finding is known as Determination of Entitlement.

Is application for Determination of Entitlement made at the Unemployment Compensation Commission office?

Yes. At any Unemployment Compensation office or at any point which is served once each week or two weeks on an itinerant basis by a Commission representative. The locations of Unemployment Compensation offices and offices of the United States Employment Service are listed on the back of this booklet.

How many weeks of allowances will be paid to veterans?

A veteran is entitled to eight weeks' allowances for each of the first three months (90 days) of active service after September 16, 1940, and four weeks' allowances for each subsequent month or major fraction. However, no veteran can receive allowances for more than fifty-two weeks.

What papers or evidence should the veteran present when he first makes an application for a Determination of Entitlement for readjustment allowances?

He must present his original discharge papers, certificate of service, or the separation letter ordering him to inactive or retired status. If it is impossible to bring the original discharge papers, the Commission will accept an authenticated photostatic copy of those papers.

Is it advisable for a veteran to apply for readjustment allowances immediately upon discharge?

He should consider his readjustment allowances a saving account. He should use it as such. The veteran should consider all of the provisions of the GI Bill of Rights in determining whether or not he shall apply for readjustment allowances.

(Continued next week)

Mrs. W. H. Chambers and daughter, Phyllis and Mrs. McCarty of Kermit, Texas and Mr. and Mrs. Paul West and children of Borger, Texas, and a grandson, Gary D. Howard of Midland, Texas, all returned home after a 2 weeks visit with their parents Mr. and Mrs. H. D. Smith.

Realism and Authenticity Are All Important in Hollywood

They go to a lot of trouble in Hollywood for authenticity's sake. The customers beef if they win on points that aren't rationed.

For example one of the big moments in Republic's current "Flame of Barbary Coast" coming to the Palace Theatre Wednesday and Thursday is a roistering scene in the Silver Dollar Cafe. Ann Dvorak is the conflagration of the title. The San Francisco fire and earthquake are merely incidental.

The researchist boys dug up realistic scenic and atmospheric effects. They had plenty of photographs of the old Barbary Coast from which to build sets. Borden Chase, who wrote the original story, had history at his finger tips.

Then along came Larry Ceballos, the former dance director, to take care of the stage business in the Silver Dollar joint.

Why I've got the very thing, he announced joyfully. We'll do the old Texas Tommy dance—the one I got from Tommy Purcell back in 1909.

It developed that Ceballos first saw the Texas Tommy danced at Purcell's famous little spot on the Barbary Coast. He took it back to New York where he taught it to Vernon and Irene Castle.

Vernon and Irene fell in love while we were doing that show, Larry added. They got married while we were playing at the old Broadway Theatre at Forty-fourth street. They danced to the melody of a number called King Chanticleer—I can hum it yet.

That's the number to which Ann Dvorak and Virginia Grey are dancing it in the picture. Miss Dvorak, who is starring with John Wayne, appears as the Queen of the Barbary Coast, tagged the "flame". Virginia Grey is a beautiful blonde rival for the affections of Joseph Schildkraut, here from the New York stage.
