Airport Gossip

This week Kathryn Johnson obtained her private license. She is the first student to receive all of her training and private license from the local airport. Kathryn had just completed the minimum flight requirements, 30 hours solo, and did a very nice job according to the examiner.

New solo students during the past two weeks are Don Dodson, his father, Cliff Dodson; Edward Story, Rex Tuel, Hal Mabry, and Jan Sullivan.

Students who have not soloed include Phyllis Meyers of Wichita Falls; Paul Cory, Sheppard Field; Marjorie Hofacket, Paul Lovelace, Oscar Emerson, Dillard Vaughn, R. J. Story, Walter Fleming, Byers, Texas; Vernon Thornton, and Dan Mills.

Veteran stick jugglers are Paul "Bunyan" Edwards, Howard Jennings, Andy Thomas, Kathryn Johnson, Doc Sullivan, Doc Morrison, Leroy Reed, Jim O'Strander, Sheppard Field, who will be ready for his private license next week; Mary Frances Kelly, Jim Enert, Wichita Falls, and Jim Still.

Several students are afflicted with the airline approach, perfected by Paul Bunyan.

Since the rain it appears a landing chute will have to be built to keep Andy out of the water hole on the runway.

One of the youngest students, Ed "Tailspin" Story, isn't helping the go of the old heads by consistently practicing spins in plain sight of everyone on the field.

Oscar Emerson and Gorge inflicted three casualties on the pigeon flock that insists on monopolizing the runway early each morning.

Hal Mabry's attempt to climb with one-third throttle, on his first solo, didn't add over ten years to Curley's youthful age.

Construction of the hangar has been stopped since corrugated iron is not available. It is hoped the weather will realize this.

Last week's visitors included Clay Johnson, Airport Operator from Lawton, Okla.; Bud Scott, Archer City, ditto, Wichita Falls and Jack Holman, Wichita Falls.

Home Nursing Course to Begin

Home Nursing course will begin October 16 in the basement of the Church of Christ.

The new streamline method assures knowledge of 32 fundamentals of nursing upon completion of the 12 hour course. Individual instruction may be given. Classes will be limited to ten women.

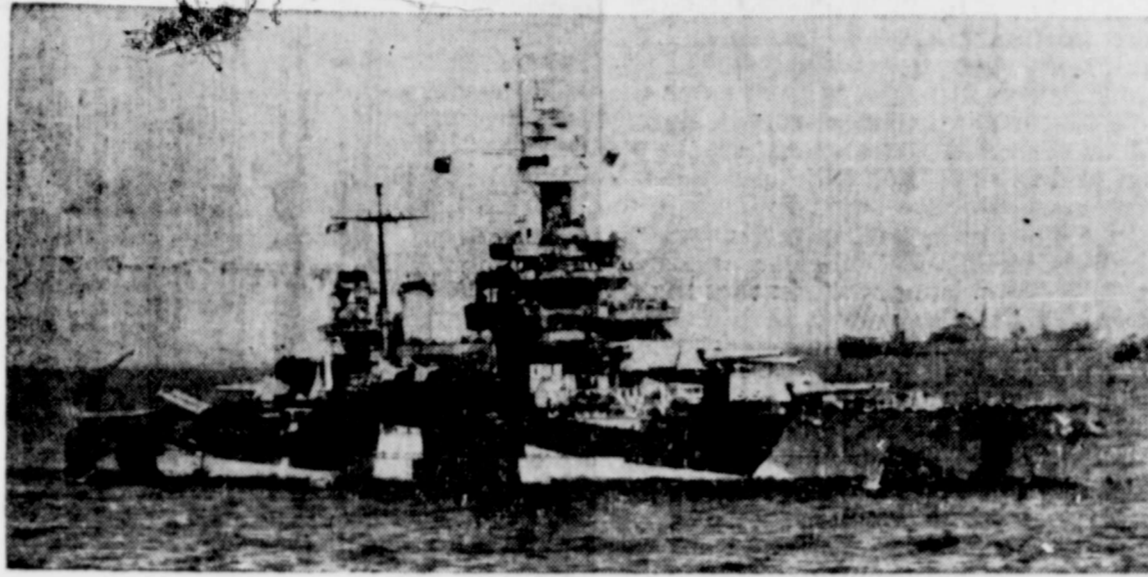

Persons interested in attending call Mrs. Carlton Royce, telephone 19; Mrs. A. C. Houser, telephone 399; or Mrs. W. L. Minor, telephone 86R.

Boyd I. DeVore Visited Here Tues.

Rev. Boyd I. DeVore, pastor of the Wesley Methodist church at Greenville, was here Tuesday for a visit with friends and to attend the weekly meeting of the Rotarians. Bro. DeVore and family moved from Burk Burnett last November to Greenville. He served the local Methodist church as its pastor for four years. The pastor was looking good and enjoyed the visit here with his friends.

Capt. and Mrs. Ted Crosthwait left recently to spend a 30 day leave in Morehead, Ky. Capt. Crosthwait served 17 months in the European Theatre of Operations as a Meteorologist for fighter group. He will report to Tampa, Fla., for discharge or reassignment. Mrs. Crosthwait and Karen have been making their home with her parents, Mr. and Mrs. S. S. Reger on Park St.

Burkburnett Boy Aboard the Colorado

Otis R. Stiggins, 20, storekeeper, third class, USNR, son of Mr. and Mrs. James H. Stiggins, Rt. 1, Burk Burnett, Texas, steamed into Tokyo Bay aboard this ship to support the occupation of Japan.

The Colorado, whose crew had taken her through ten invasion operations to help bring the final capitulation of Japan, had been near Tokyo before. She sailed with the British warships into Sagami Bay, 18 miles from Tokyo to support the first landings of airborne troops at Atsugi airfield. That operation was in preparation for the arrival of General of the Army Douglas MacArthur to make the occupation official.

The Colorado poured thousands of tons of hot steel into Jap shore installations in pre-invasion bombardments that gave Allied forces bastions on Japan's outer rim. She helped at Tarawa, the Philippines, Okinawa, and in other lesser operations for four years.

Monday Night Rain and Wind Caused Damage

A hard wind accompanied by a rain Monday night caused damage in several parts of town. The velocity of the wind is not known, but it was sufficient to cause uneasiness.

Possibly the greatest damage was to the 60x100 foot tent across from the Cicero Smith Lumber Yard, where the Calvary Church revival was in progress. The tent was torn to shreds, seats were blown over and the piano was overturned and got a good soaking.

The awning in front of the City Grocery and Market was split and most of it hurled back beside the building.

A number of residences suffered roof damage from the wind and water damage from the rain that followed.

No personal injury has been reported.

Another hard rain came Tuesday night, followed by still another Wednesday evening.

Men's Bible Class Elects Officers

The Men's Bible Class at the First Methodist Church elected officers and teachers last Sunday for the coming year. The following were elected: President, Luther Caffee; 1st Vice-President, Henry Prinzing; 2nd Vice-President, Lige Chrestman; Teacher, Jimmie Boyd; Assistant Teacher, R. H. Henry and Virgil Brookshear; Secretary and Treasurer, Blake Browning; Song Leader, M. C. Tucker; Assistant Song Leader, Dr. C. J. Morrison; Pianist, Mrs. J. D. Majors.

Under the leadership of our teacher our class has grown to be the largest Men's Bible class in town. Our average attendance for this year has been 50 men each Sunday. We welcome visitors and anyone not attending Sunday School elsewhere, we will be glad to have you join our class. Mr. J. V. Brookshear will teach the class next Sunday. Be out to hear him.

Get out your best bib and tucker. Cousin Herald is coming to town.

REVIVAL MEETING IN PROGRESS AT FIRST METHODIST CHURCH

Land Mine Victim

In performance of duty on Mindanao in the Philippine Islands, Tech. Sgt. Howard Anderson Leith, 32, was killed June 8, his parents, Mr. and Mrs. Leith of Thrift, have been informed. The sergeant was working with a bomb disposal group on the removal of enemy land mines when an explosion occurred.

Revival Continues At Calvary Baptist

Cyclones, flood, cold and wind, but the revival goes on. The big blue tent on Ave. B and 2nd St., where hundreds heard Rev. Loys Vess preach the word of God in power, was destroyed in the storm Monday night, while the choir was singing "Footprints of Jesus," the storm struck, and by the grace of God no one was injured, though the tent was a total loss.

However, the revival has been moved to Calvary Baptist Church building at Ave. B and College, and preparations have been made to take care of the crowds which will be coming. You will not want to miss hearing Loys Vess expound the word of God, and Homer Hutto lead the choir and congregation in soul-stirring singing. Services begin promptly each night at 8:15.

Friday is fellowship day at Calvary Baptist, and numbers of visiting preachers will be on hand. Among whom we are expecting Dr. J. Frank Norris of Fort Worth, Dr. Dearmore and Dr. Fred Donnellson, our missionary who plans to return to China soon. Welcome all. Ray C. Morrow, Pastor.

No Blondes Taken But Local Officers Have Busy Week

Last week was one of the busiest weeks local peace officers have experienced in many months.

A 1942 model Buick stolen in Dallas on August 30 was recovered here and returned to the owner.

A 1936 Ford stolen in Wichita Falls was found here and turned over to the owner who lives at Holliday.

George Willingham, night policeman, caught a soldier in the act of taking an automobile belonging to Tollie Sykes who lives at Devol. The soldier, who had the motor running and was preparing to back away from the curb, was taken in custody and turned over to MP's.

Two arrests were made for affray, and two for drunkenness.

Readers of the Star, some of them in distant places, won't let Chief Green forget about the blondes he didn't keep a week or so ago. One fellow from Orange, Texas, wants to know when they will be recaptured. A letter from Guam asks the Chief if he has found any more atomic blondes.

Captains and Lieutenants will cooperate with the chairmen in selecting their workers.

"Give A Texan's Share" is the slogan of the drive. Burk Burnett's quota has been set at \$4,600, which includes some local projects, such as Boy Scouts, Girl Scouts and Teen Town. The fund covers some twenty agencies in all.

Next Tuesday noon Kindel Paulk of Wichita Falls will appear before the local Rotary club with a pep talk in support of the drive. Another speaker Woody Featherston will appear before the Lions Club Tuesday night.

Mr. Thomas plans to open the drive on Thursday, October 4, and hopes to complete it in two days. With all workers cooperating, the drive should go over the top in that time. DO YOUR PART!

Book Review At Junior University Study Club

Monday evening, members of the Jr. University Study Club met at the home of Mrs. Blanche Johnston.

Mrs. LaRene Davis, president, conducted a short business session and heard reports of standing committees. Members voted to continue keeping the Burk Burnett Library open Thursday and Saturday afternoons.

For the program, LaRene Davis very ably reviewed "Papa Was A Preacher" by Alyene Porter. The book is an intimate picture of life in Methodist parsonages of the local of West and Northwest Texas. It was an enjoyable story well told.

Refreshments were served to Mesdames Opal Royce, Mildred Counter, Marion Ragsdale, Madalyn Hill, Florence Vaughn, Lora Jamieson, Gwinn VanLoh, Jean Garrett, Jan Sullivan, Bennie Lee Dodson, LaRene Davis, Wilma Douglas, Lois Bean, and the hostess, Blanche Johnston.

A BIG JOB

Congress has its problems at any time but the Seventy-ninth Congress of today is confronted by questions grave and far-reaching. Peace adjustments are to be made and these matters are serious since the public welfare is at stake, the same as in war.

The first issue should be the settlement of demobilization plans, whether draft is needed, how many if so, how soon other men in uniform can be back in mufti again. There is the manner of disposing of billions of dollars of surplus government property with decisions affecting national business. What about using or selling government-owned plants. With Lend-Lease ended, what way and how much do we direct to our Allies and others? There are the subjects of checks and controls on prices to prevent inflation, Social Security returns, tax relief, future of War Boards, employment for returning servicemen and those civilians who served faithfully in war. These are just some of the major points in question and all of them influenc-

ing lives in Burkburnett. The responsibility of Congress to meet the issues squarely and decide fairly, will bring an answer to economical problems that could throw us into a panic of depression and unemployment.

The fact that the American high standard of living demands goods that should keep factories going at full tilt turning out the needs, is a hopeful sign for employment. We place our trust in Congress to successfully lead us into a sane and substantial peace.

ADVERTISING AND HOW

We seem to never run out of slogan ideas in America. No matter the cause, how large the unit, to express a purpose we invent a catch phrase and attack. Some of the chants are good. Bond drives during war, kept us in practice and now, in peace, we will catch the public eye or ear with bigger and better ones. All slogans aren't true, useful or desirable, but slogans are to publicize and advertise, and as such the public uses them. We are the market of slogans, produce them. It is up to us to find out what they stand for beyond advertising.

Take radio and hear the salesmanship of the air waves. It is the opinion of many that the singing commercials place the listening public in the class of nine-year old children. To appeal to an adult with a jingle in "do-re-mi" to advertise a product, causes an insulated snort in numerous groups. Advertising can so belittle the intelligence of the buyer that the ad kills the goods. There is that commercial that believes repetition is the key note of selling, so the voice goes over and over and over again, while you, in revenge, swing in favor of a competitor. We only hope it isn't true that advertising with simple persuasion and force in an adult manner, is lost on the majority of the buying public. The old argument of appeal to the market through advertising has a broader range since the printed ad has the spoken "or sung" one to augment it. Of one thing we may be sure, the medium of advertising in such a juvenile vein may raise an argument but won't raise the I. Q.

Burkburnett History

As revealed by the files of the Star 10 years ago.

The formal opening of a new grocery store will be in Burkburnett Saturday when the L and M Grocery owned by Lige and Marshall Chrestman will be ready for business in this city. The store will be located next door to the Elite dress shop, and will carry a complete line of staple and fancy groceries, fresh and cured meats and fresh vegetables in season. They invite the citizens of the city to visit them at the location.

The community by spending their money in Burkburnett. The rumor is that many pickers are being imported, and the committee urges the farmers to cooperate with them.

A group of cotton pickers met in Burkburnett Friday and discussed the cost of living and wish to make an appeal to the cotton raisers of this section for a fair price in cotton pulling and picking. The price that the pickers will ask is 65c for pulling and 90c for picking. The cotton pickers discussed at great length the fairness of using only local men for the gathering for this year. The committee maintains that the local men will assist

A new 1935 demonstrator, belonging to one of the salesmen of the Barrow-Grace Chevrolet company was stolen from the East side of the company building, some time between 10 and 12 o'clock. The car had been parked after a demonstration and left. Some persons evidently had it spotted and drove off without protest or notice by any possible passers-by. The theft was reported to the Chief of Police at noon, but so far no trace has been found of the stolen vehicle.

Future of Cotton

WHAT is going to happen to
King Cotton, mainstay of more
farmers than any other crop? And
more farmers are affected by what
happens to cotton than by what
happens to any other crop. Up to one-
third of all farm residents in the
country live on cotton farms and
they're the lowest income group in
agriculture.

Not only these cotton farmers, but
every farmer, every resident of the
thousands of home towns from the
East to the West coast and from top
to bottom of the country, is interest-
ed in cotton. For cotton in peace-
time accounts for four-fifths of our
total textile yardage.

According to recent statistics re-
leased by Secretary Clinton P. An-
derson of the department of agri-
culture, the gross average farm in-
come of cotton farmers in the 10
years ending in 1942 was only \$865
a year, as against more than \$2,000
in other parts of the nation.

Why, then, with cotton an all-im-
portant crop and selling at prices
well above parity should income of
these cotton farmers, a third of all
farmers, be so much lower than the
average of other farmers? The answer
is found in the agricultural
practices of the South for the past
hundred years, and includes (1) a
one-crop system of farming, (2) lack
of conservation practices which has
driven the center of the cotton king-
dom from the southeastern states
across the Mississippi to the South-
west and (3) cotton surpluses which
have in the past demoralized the
market.

Tough Competition
While the department of agricul-
ture is not pessimistic over the fu-
ture of cotton in the immediate post-
war years, it is obvious, they point
out, that great care will be neces-
sary for cotton to hold its own in an
increasingly competitive field.

In the first place cotton produc-
tion in this country has decreased,
whereas foreign production has in-
creased. In 1920 for instance, we
produced 13 million of the 21 mil-
lion bales of cotton produced in the
world. In 1940, the last year for
world statistics, we produced only
12 out of 29 million bales, and our
production in 1943 dropped to 11 mil-
lion bales. In spite of this drop in
production other competitive com-
modities have soared in common
usage replacing cotton. Rayon, nylon,
spun glass and other newer de-
velopments of textiles are boring
into the cotton market. U. S. rayon
production 10 years ago amounted to
only 10 million pounds, whereas last
year rayon had grown to 734 million
pounds or the equivalent of 1,700,000
bales of cotton. Paper products en-
tering the market formerly held by
cotton . . . towels, tissues, napkins,
window shades, plastic and twine,
in 1929 was equivalent on a pound-
for-pound basis of a million bales
of raw cotton.

The Commodity Credit corpora-
tion in the department of agricul-
ture is the godfather of the cotton
crop and the haven of cotton crop
farmers. It is the Commodity Credit
corporation which supports the mar-
ket price for cotton, by buying up
surpluses, and providing substitutes
for cotton exports. Through August
18, 1945, the CCC had purchased on
its Cotton Purchase Program (sup-
port price program) 2,465,087 bales
of cotton of the 1944 crop at an av-
erage price of about 22.31 cents a
pound, involving approximately
\$550,000,000. In addition it had pro-
vided a 4-cent per hundred pound
subsidy for its export program in-
volving 592,176 bales of the 1944
crop.

Favorable Outlook
Secretary Anderson in a recent
address before the New York Cot-
ton Exchange pointed out, however,
some favorable factors in behalf of
the postwar future of cotton. He
pointed out that during the war thou-
sands of cotton farmers had started
soil conservation practices and di-
versified farming; there are con-
stantly being discovered new uses
for cotton; the department has just
announced discovery of a new cot-
ton fabric which will not mildew nor
rot which will be used extensively in
yards, threads, packaging and bag-
ging; demand for cotton in other
countries will be at a new peak, al-
though world carryover is at an all-
time high; in the U. S. despite a
cancellation of 80 per cent of war
orders for cotton products, slack
will be taken up by the tremendous
backlog of civilian demands.

"American cotton will face not
only large stocks on hand. . . it will
face as well the need for better farm
practices if it is to hold its place
in the world market." Secretary An-
derson warned. He said, however,
that he is depending on co-operation
and American "know-how" and an
increased export market to bring
cotton "marching home from war."

In this connection it will be in-
teresting for cotton farmers to note
that the Commodity Credit corpora-
tion has been placed under the new

tration in the new U. S. D. A. set-up

Kathleen Norris Says:
When a Serviceman Wants a Divorce

Bell Syndicate.—WNU Features.

If he comes home greet him affectionately, with the usual home meals and friendly gatherings, and as soon as you are alone, ask him in so many words, "What is this about a divorce, Joe?"

HELL GET OVER IT

The misery and loneliness of
war do strange things to a man.
Many happily married soldiers
and sailors who have been
away for two or three years
somehow decide that the wives
they once thought were
the loveliest women on earth are
no longer satisfactory. Fre-
quently they have met some
younger girl while on occupa-
tion duty in Europe or the Pa-
cific area. She is flattered by
attention, not used to luxuries,
so she makes a big hit with the
lonely serviceman.

Presently he is persuading
himself that his wife at home
is not so much, compared with
this foreign woman. He even-
tually gets up nerve to ask his
wife for a divorce so that he
can marry this new love.

Miss Norris tells wives who
receive these heart-breaking
letters to try to ignore them,
or at least to take them as
lightly as possible. A weary
serviceman, far away, endur-
ing discomfort and abuse, can
easily convince himself that he
wants a divorce. It isn't that
he actually has stopped loving
his wife, but that the girl at
hand is so sweet, so comfort-
ing, and his wife is so far away.

Perhaps they are going to send Joe
to the Pacific for occupation duty, in
which case your argument must be
that it would be folly to get a
divorce, send for Vera and under-
take the maintenance of you, your
child, and his new wife, to say noth-
ing of her traveling expenses. Ask
him to write her that everything
must wait until Joe comes back for
good.

Joy of Getting Home.
This reasonable attitude must win
for Joe won't be too anxious, espe-
cially in the pleasantness of getting
home, to break off all his old asso-
ciations and friendships, as well as
his relations with you. After all, it
isn't likely that Vera is going to of-
fer him a good job in some other
city, and support him until he is
self-supporting again.

If, on the other hand, he is dis-
charged from service, then help him
in every way you can to get re-
established, without dwelling on his
proposed change. Be as cheerful
and natural as you can. Remember
that thousands of these men come
back whole in body, but sadly
twisted in mind, and that only time
can cure them. A few months—
perhaps even a few weeks of home
life, of good meals, of movies and
malted milks and swims and con-
tacts with old friends, will be all
the cure Joe needs. He will suddenly
come to his senses, and although he
may never apologize, never say that
he feels himself a fool to have writ-
ten that letter, he will be only too
glad to sink back into his old nor-
mal, happy, American ways.

Violet's case is a little different.
Her husband, in the service two
years, has only recently left
America. He came home after about
six months and told her he was
tired of her, he did not think that
theirs was a successful marriage.
He stayed home a few days, grew
affectionate and kindly again, and
went away with the usual wrench
of parting from wife and daughter. A
few weeks later he wrote her a
letter saying that theirs had not

BRING YOUR OWN SILVER

There was a time when table
silver was so precious that even the
wealthy did well if they had enough
to go around for the family. People
of fashion who were invited out to
dine sent an attendant ahead with a
knife, fork and spoon, and their po-
sition at the table was determined by
the quality of their table utensils.
If your flatware was pewter you
would have been seated below the
salt containers— which meant in no
uncertain terms that you were of low
position or modest means!

THE ISRAELITES
IN A FOREIGN LAND

LESSON TEXT—Genesis 47:1-12.
GOLDEN TEXT—Lord, thou hast been
our dwelling-place in all generations—
Psalm 90:1.

Preparation of a great nation
takes time. God wanted Israel to
have opportunity to develop from a
family to a nation so He arranged for
them to have a place of refuge and
of abundant provision while they
grew. He had already made ready
for them by sending Joseph into
Egypt, and now the whole family
of Jacob moved down.

Jacob's fears had been overcome
by the vision of God (Gen. 46:1-4),
in which he was assured that this
was the outworking of God's pur-
pose to make of him a "great na-
tion." The promises to him and
his forefathers were now in process
of fulfillment. The man who be-
lieves God is privileged to see Him
work. We find the family of Jacob

I. In Egypt, but Separated (vv.
1-6).
As he presented the representa-
tives of his brethren to Pharaoh,
Joseph made known that he had set-
tled them in the land of Goshen, a
favored spot well suited to their life
as shepherds.

It is worthy of observation that
while they were now in Egypt there
was no thought of mingling with
the Egyptians. They were to be a sepa-
rated people living in a strange
land. Only thus could the purity of
the nation be maintained and a peo-
ple suited for God's service be kept
and made ready.

The application to the life of the
Christian lies right at hand. In
Scripture Egypt is a type of the
world, where fleshly appetites are
satisfied and where strange gods
are worshipped. The Christian is to
"come out from among them" and
to be separate (II Cor. 6:14-18).

The tendency in our time is to
minimize the importance of separa-
tion from worldliness and to regard
those who preach and practice it as
being narrow and old-fashioned. Say
what you will, it is a fact that
worldliness has robbed the Church
of its spiritual power and of its real
testimony for Christ.

As a matter of fact, the Christian
is not narrow. He is as broad as
the counsels of God, and the
worldling who boasts of his broad-
mindedness has often mistaken su-
perficial flatness for real broad-
ness.

II. Blessed, but Blessing (vv.
7-10).
Jacob and his family received
many mercies at the hands of
Pharaoh and his people, but they
were not in the land just to be
blessed but also to bring a blessing.

The patriarch Jacob was brought
by Joseph into the presence of
Pharaoh. That noble son was not
ashamed to bring his aged Hebrew
father into the presence of the king.
There he gave witness concerning
his life. But he did something else—
he blessed Pharaoh.

That scene speaks volumes to us
as Christians. We are not of the
world but we are in the world (John
17:15-17). We are to be a separated
people for the glory of God, but that
does not mean that we are not to
bring blessing to those round about
us. We are in the world not just to
enjoy ourselves, but to make
Christ known to others—to touch
lives that are needy and saddened
and sin-sick.

It is also of interest that the bless-
ing of Jacob was given to the man
on the throne. We are apt to think
of the poor and the underprivileged
as needing the gospel and forget
that the rich man in the house on
the hill may be the most spiritually
hungry in town.

III. Preserved, but Preparing (vv.
11, 12).
God sent His chosen people down
into Egypt that they might not per-
ish in the famine. He wanted them
kept and nourished while they grew
into the great people which He ul-
timately led out toward the Prom-
ised Land.

That was important, for had they
not been preserved the promise of
God could not have been fulfilled.
But all the time they were being
prepared for the great day of deliv-
erance and blessing which was to
come.

Applying the truth once again to
the Christian believer, it is not
enough just to be safe in Christ.
That is precious but it is not enough;
there must be growth in grace.
Some Christians are saved and
kept all right, but it is just a mat-
ter of being "preserved" and put on
a shelf. They are of no earthly use
unless it is to be exhibited, and that
kind of a Christian is not really
worth showing off.

Valley of Decision Palace Sun.-Mon.

In M-G-M's "The Valley of Decision," her first picture since she was voted America's leading film actress in the Photoplay-Gallup Poll survey, Greer Garson adds another distinguished portrayal of the gallery already containing those of "Mrs. Miniver," "Madame Curie," "Random Harvest" and "Mrs. Parkington."

The film version of Marcia Davenport's best selling novel finds Miss Garson at her best as the feminine half of a grand new starring team. This time her leading man is Gregory Peck, who has scored so sensationally in "Keys of the Kingdom and Spellbound."

From the moment she meets Paul (Peck), who returns from Europe just as Mary is hired by the Scotts she falls in love with him—and he with her. More than he does, she fights against this, in the belief that her station in life does not permit her to think of marrying Paul.

The picture mounts to a stirring climax that you will long remember, with the two stars and such sterling supporting players as Lionel Barrymore, Donald Crisp, Marsha Hunt, Dan Duray, Preston Foster and Gladys Cooper, among many others turning in outstanding performances.

Everyone will deeply enjoy "The Valley of Decision."

Sgt. Harris attended the airplane mechanics school at Sheppard Field, and the Gunnery School at Tyndall Field, Fla.

Prior to entering the service Sgt. Harris was a student at the Burk High School.

Grace Lutheran Church

Of late the signs of the times have been occupying a prominent place in the conversation of men. The purpose of the signs is not to give the exact day and hour of the Lord's return, but the certainty thereof.

Jesus stated that the exact day and hour will remain in the secrets of God. Date setters are trying to outwit God, and they are doing endless harm.

Instead of anxiously pressing our noses against the windows to see if the sky is getting red, God wants us to discern the times soberly, to read His warnings carefully, to follow His instructions faithfully, and to prepare confidently.

Plan as though Christ were not coming for years; live as though He were coming in ten seconds.

WEEKLY NEWS ANALYSIS Japan Now Fourth Rate Nation, Says MacArthur; Banner Harvest Depends on Favorable Weather

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Seared ground and fragmentary remains of base of tower from which atomic bomb was set off in test mark experimental site near Carrizozo, New Mexico. Viewing scene are Prof. J. R. Oppenheimer (left), who was in charge of technical construction of explosive, and Maj. Gen. Leslie Graves, over-all supervisor of project.

JAPAN: Fourth-Rater Even as former Premier Hideki Tojo lay quiet and ash in an American army hospital with an ugly self-inflicted bullet wound below the heart, conqueror Douglas MacArthur told newsmen that the once proud country which the stricken war lord had led into conflict now was a fourth rate nation.

Regarding the Emperor, MacArthur explained that he was both a religious and temperal leader, and that while America would not interfere with Japan's spiritual life, the mikado was subject to U. S. dictates in political affairs. By surrendering, the Emperor furnished evidence of a reversion from the military clique which had encompassed him to a new liberal influence.

Formulation of a peace treaty for Italy headed up the agenda of the council of foreign ministers of the Big Five meeting in London to lay the groundwork for the reshaping of the map of Europe. In dealing with Italy, disposition of her former African colonies and Mediterranean islands poses the most difficult problems, though settlement of Yugoslavia's claim to Trieste also abounds with complications.

Regarding the Italian colonies, the U. S. reportedly favors the establishment of an international trusteeship over the territories, with administration left in Italian hands. Thus, while being given an opportunity of redeeming itself, Italy also would bear the administrative expenses and utilize her colonists to reconstruct war damage.

At the gateway to the Dardanelles straits leading to the Black sea, Italy's Dodecanese islands in the Mediterranean loom as a strategic key in near eastern geopolitics. Friendly to Britain, which possesses heavy interests in the region, Greece has sought to regain the vital islands at the same time Russia has striven to neutralize the entrance to the Black sea.

CROP INSURANCE: With cotton leading the list of insured commodities, a total of 164,444 applications covering 199,300 farms was written by the Federal Crop Insurance corporation on 1945 crops, according to the department of agriculture. Over 95,000 applications covering 113,183 farms in the 18 producing states were received for cotton.

Assails 30-Hour Week Declaring the first step in the downfall of France was the 30-hour week, Senator Byrd (Dem., Va.) attacked the proposal for a similar government work week. Asserting that all industry would have to follow suit, Byrd said that America cannot afford to become a nation of drones without impairing its economic stability. Adoption of a 30-hour work week by the government would increase costs by two billion dollars a year, Byrd said.

OIL: Foreign Concession

With an eye upon the development of his country through foreign investment, Emperor Haile Selassie granted the Sinclair Oil corporation of the U. S. sweeping oil concessions in Ethiopia.

Under terms of the agreement signed in New York, Sinclair received exclusive development rights to the country for five years, when 50 per cent of the territory will be released. After a further exploratory period of five years, Sinclair will relinquish another 25 per cent. In northwestern Africa, Ethiopia equals Texas, Oklahoma, Massachusetts and Rhode Island in size.

In return for the broad concessions, Sinclair will pay production royalties to the emperor, build one or more schools and hospitals, clinics and research foundations. In addition, the corporation agreed to pay for the education of Ethiopians in the U. S. for the next 10 years.

NAVY: Speeds Discharges To the 327,000 men eligible for discharge under original plans, another 423,000 were added by the navy in a revision of its point system for release. In all, one out of every two men will be released within six months, with over 2,700,000 out within a year.

Following the army's pattern, the navy established credit for overseas service, allowing one-fourth of a point for each month of such duty. Other credits include one-half point for each year of age, one-half point for each month of service, and 10 points for dependents, with enlistment men requiring 44 points, male officers 49, doctors 60, WAVES 29 and WAVE officers 35.

British Seek Funds Asserting that they have emerged from the war heavily in debt and with their export trade and foreign investments seriously crimped, the British opened negotiations with U. S. officials in Washington, D. C. for extensive postwar financial assistance.

As the conversations got underway, with Ambassador Halifax and Economist Keynes advancing the British interests, U. S. officials were expected to turn thumbs down on suggestions for making outright

gifts instead of loans. Aid most likely will take the form of long term credits at low interest rates to enable Britain to rebuild its industrial machine and acquire materials to resume large-scale exportation.

With U. S. officials holding the upper hand, the conferences also were expected to ring in Britain's overall imperial trade policies and their effect upon this country, and Britain's participation in international cartels restricting production and distribution of such strategic raw materials as rubber and tin.

RELIGION: Attacks Instruction Religious education programs in 46 states may be affected as a result of a suit brought in the circuit court at Urbana, Ill., against such instruction in public school property by Mrs. Yashti McCollum, wife of a University of Illinois professor and an avowed atheist.

In bringing the suit against the Champaign board of education, Mrs. McCollum charged that her 10-year-old son was embarrassed because he was the only pupil of his class not attending the voluntary 30-minute per week courses sponsored and financed by the Protestant, Jewish and Catholic faiths.

In pressing Mrs. McCollum's suit, which both sides promised to carry to the Supreme court if they lost, Attorney Landon Chapman declared that indirect pressure from fellow students and teachers virtually forced a child into such classes on the constitution providing for separation of church from state.

MEAT: Lift Bans Despite the government's withdrawal of controls over meat slaughtering and distribution, officials refused to forecast an early end to meat rationing, reiterating that such action would be taken once there was assurance of a balance of supply and demand.

Set up last April to steer more cattle from local to federally inspected packers qualified to ship meat to the army and between states, the slaughter program was lifted as military orders dipped and a heavy run of cattle was expected this fall.

Notes of a New Yorker: Don't be disappointed that Halsey didn't ride Hirohito's horse. . . . That was just the colorful Old Boy's way of saying he'd get to Tokyo. . . . Final Guffaw Dep't: The foot a newsmag once used to kick this columnist is now in its mouth. We were booted because one of our predictions fizzled. . . . The Aug. 24th (1945) issue of the same critic contained this gem: "Last week Russia was not ready—if ever she would be—to go to war with Japan." . . . Russia went to war with Nippon on Aug. 8th. To make the revenge sweeter—this broadcaster was first to accurately forecast Russia's positive entry into the war.

The House Ways and Means Committee has been giving a frosty reception to Pres. Truman's request for greater jobless benefits, with Rep. Knutson of Minnesota asking: "If we pay a man \$25 a week for not working, what will we have to pay to get him to work?"

"The answer to that," commented the politico, "is that you'll have to pay him a living wage, that's all."

Sallies in Our Alley: In the Cub Room Fanny Ward, the 76-year old doll-face, swapped howdodos with her friend, Supreme Court Justice Frank Murphy. . . . "Frank," she asked, "how do you keep so young?" . . . Looking at his charming companion alongside him, Mr. Justice replied: "Courtin'."

"Polonaise," the new Chopin-inspired operetta, the principals are all European-born. . . . Kieperth is Hungarian or Austrian. . . . Kurt Bois, the new comedian, is from mittel-Europa, and other foreigners include David Lichine, the ballet master, and Tanya. . . . "Who's the most important person in the show?" inquired a clown. The nationalist group has adopted another rodent for a pet: Traitor Petain. . . . The boo-hooey consists of sobbing about Petain's age and blubbering that he was merely trying to save France. Nutz! When Petain was in Vermyn's hip-pocket he was an accessory to Nazi crimes committed against Frenchmen of all ages including children. Petain sent 35,000 French children to work in Germany as slave laborers!

When the six Americans were arrested on State Dep't orders recently front pages whooped about the espionage angle. . . . This reporter pointed out that the spy hoopla was merely the gimmick used by some diplomats in an attempt to muzzle journalistic criticism of State Dep't policies. . . . A few days ago a Federal Grand Jury refused to indict three of the accused, and the other three were not indicted for espionage but merely for "purloining" government documents. . . . It is about time Congress probed the striped-britches boys responsible for the whole shameful affair.

QUISLING: End of Run With the court rejecting his claims of having fought the extension of communism, of having worked for Norway's interests and of having spared the country from becoming a battleground, big bluff Vidkun Quisling was found guilty of both military and civil treason and sentenced to death before a firing squad. Denied appeal, he was given the right to ask for a lightening of the punishment.

In finding his defense wanting, the court countered his claim of having fought communism by stating that he had actually volunteered to organize a militant Red group in Norway before turning against it; that rather than advancing Norway's interests, he had injured them by consenting to German occupation, and instead of preventing Norway from becoming a battleground, he had brought the country into the theater of war.

With Quisling's own checkered career finished after 25 years of involvement in national and international politics, including representation of British interests in Russia, his cabinet ministers were next scheduled for trial in October.

RETURN PLANES: More than 4,500 aircraft have been returned to the United States, or deployed to the Pacific theater by the United States army air forces in Europe since the end of the war with Germany, the war department announced.

Among the aircraft remaining in Europe, according to present plans, will be heavy and light bombers, P-47 Thunderbolts, P-51 Mustangs, C-47 and other transport planes, night fighters, and training and liaison planes.

MRS. DYE MAKES OVERALLS LAST

PITCHER, OKLAHOMA.—Mrs. L. E. Dye has had a lot of experience in washing overalls for five boys and her husband. She has found out how to make them last longer. Here is what she says in a letter to Faultless Starch.

"I cannot wash without Faultless Starch. You bet I think it will make overalls last longer and look ten times better. I know. We raised five boys, so I know what Faultless Starch means to overalls. Have used it as far back as I can remember and my mother used it, too. I can't say enough for Faultless Starch."

Now there is an important message for anyone who has overalls in her wash. Mrs. Dye says that Faultless Starch makes overalls wear longer (that's mighty important, today) and look "ten times better" (and that's important, too).

HOW TO STARCH OVERALLS Overalls, work pants, wash shirts—and children's play clothes usually get very, very dirty. Sometimes it takes a lot of rubbing on a scrub-board to take the dirt out. And everyone knows that rubbing wears out clothes as much as washing them does. But when you give them a LIGHT starching with Faultless Starch you save a lot of that rubbing. You see—Faultless Starch penetrates the fabric—so dirt can't grind in so easily. And Faultless Starch dissolves instantly in water and carries most of the dirt right out with it. So when you starch other things, be sure to give overalls, work pants, children's clothes, etc., a very light starching at the same time. You'll notice the difference when you wash them!

SO SMOOTH TO WEAR The men will really like it, too. The fabric feels smooth and slick—not scratchy and rough. They won't chafe as much around the neck and the arms. It's a wonderful relief to wear smooth, slick work clothes! Try it, this wash-day. And be sure to use Faultless Starch!—Adv.

What One Language Do All Speak?

YOU KNOW the answer to that one. They all speak the silent language of earth and weather—of crops and stock—of planting time and harvest. For they are farmers—blood brothers the world over.

Today, many of the farmers of other lands aren't doing so well. Their lands have been mined, fought over, ravaged. Their stock has been butchered. Their farm buildings burned. They have no seed to plant the soil.

They desperately need your help. And you can give your help—through the dollars you give to your Community War Fund.

Those dollars you wring from the soil, and give to a great and worthy cause, help more than the farmers of other lands. They help farmers' sons—and other men's sons—endure the tedium of prison camps. They help provide the blessing of entertainment to service people throughout the world. And they help solve war problems right here in your own community. The dollars you give to your Community War Fund go farther than any dollars you're apt to put anywhere else. And this year—they need to go farther than ever before. So give again—and generously—won't you? Give generously to Your Community War Fund Representing the National War Fund

STARTS THINGS MOVING

Your signature on a bank check sets people in motion.

For instance, take a check you send to another city. The postman picks it up; train or plane employees deliver it; the person who receives it takes it to his bank; the tellers and transit clerks start it on its way home; then, members of our staff examine, pay, cancel, post, and finally deliver the cancelled check to you as a receipt.

There's power in your pen to get things done. Open an account with us and use it!

PAYROLLS WORK FOR EVERYBODY...

OUR PAYROLLS OF MORE THAN FOUR AND A QUARTER MILLION DOLLARS IN TEXAS HELP SPEED NATURAL GAS FOR PEACETIME RECONVERSION.

United Gas payrolls in Texas amounted to more than four and a quarter millions of dollars in 1944 alone.

These millions of dollars, being put continuously into circulation in Texas, do this:

- Create still more and larger payrolls—more jobs for more people...
- Bring more and more dollars into circulation, ultimately ringing cash registers, large and small...
- Stimulate business and make for better living!

Yes, our payrolls, scattered over a large area of Texas, work for everybody... And low-cost, efficient, natural gas fuel speeds the day of complete reconversion to peacetime payrolls in Texas.

THANKS

Yes, it is we at the City Grocery and Market, Monroe, Roy, Bud and Henry, who want to thank all our good customers for their kindness, patience and thoughtfulness to us during the stress and strain of the past four years. Being short of help and overworked, we realize we often fell short of the qualities that make up a good grocer.

Those of you that brought in the empty sacks and in many other ways cooperated in trying to be helpful, we again say thank you. Those of you that so cheerfully carried your groceries unwrapped and arranged your delivery orders to lighten the burden on us, we say thank you.

Now that the war is over and we are all trying to adjust ourselves to a more normal mode of living and doing things, we shall make every effort to in a small way repay you for all your kindness by giving you better and more prompt service.

We feel that many of our short items will soon be on our shelves again, when we can take down those signs "One to customer, please," and you can buy in the good old fashioned way.

Again let us say thank you for being so swell.

MONROE, ROY, BUD and HENRY.

Rabbit Creek Baptist Church

Sunday School, 10 A. M.

Preaching, 11:30 A. M.

Evening Service, 8:30 P. M.

An invitation is open to everyone that is interested in God's word and his work to be with us every Sunday morning and evenings.

We have recently reorganized our church in this community and the Lord has blessed.

Our revival in August was conducted by Rev. A. E. Harrison, pastor of the First Baptist Church of Burkburnett. We are very grateful for Bro. Harrison.

Since the reorganization we have had 16 additions. Oh, what God can do with those that love him.

We ask the prayers of every Christian for our Church.

Rev. J. L. Barnett, Pastor.

Promotion Day First Baptist Church

Preaching Services, 11.

Training Union, 7:30.

Preaching Services, 8:30.

Another Sunday School year is history. Sunday ends the 1944-'45 year. The average for the year has been quite a bit of the 300 mark, which seems to be the best average attendance in a long time.

Sunday in every department we are to observe Promotion. This is always an interesting day. Youngsters are promoted from one class to another and from one department to another. All the adults will observe promotion.

Next Thursday and Friday the Wichita-Archer Association meets with the Southside Baptist church. A splendid program has been arranged.

The program will begin Thursday morning at 10 and close Friday afternoon about 4.

Next Sunday, October 7th our revival begins. Dr. Hankins will be with us to do the preaching. Mr. Edd Lovell will lead the music.

Every member will be notified personally and also urged to take part in the revival. We need a great revival, and the Lord is able to send us one if we will just pay the price.

Let's make Sunday, September 30th a great day for the Lord. Be in your place Sunday morning at 9:45 and each service throughout the day.

—Pastor.
