Miss Waddell Resigns Position As USO Hostess

Miss Crystle Waddell, who has been active in the work of the local USO organization since it was started in Burkburnett, has resigned her position as hostess, effective this week. Miss Waddell has given generously of her time to this work and she deserves much credit for keeping the organization going forward during the past year. She succeeded Mrs. W. P. Sims as hostess about a year ago. Miss Waddell resigned to devote all her time to other interests and work.

Mrs. W. W. Palmer has been appointed to succeed Miss Waddell. Wednesday night Virgil Brookshear, USO Council chairman, Leo Dudley and others active in USO work here, interrupted the service men's dance at Town Hall long enough to present Miss Waddell with a large bouquet of flowers in appreciation for the fine work she has done. The flowers, given by citizens of the town, were presented by the chairman, Virgil Brookshear.

Hereafter, the regular Wednesday night dance will be held at the American Legion Hall. While remodeling of the hall was under way, the dances were held at Town Hall. Work on the hall has been completed, new lighting installed, and new furniture gives the place a very inviting appearance.

Captains who have assisted in the work of the USO the past year are: Messdames Jim Pogue, Joe King, John Shields, W. J. Gibson, B. L. Turner, C. E. Royce, Leo Dudley, Horlis Goodwin, E. H. Preston, Travis Fields, C. H. Berry, women of the American Legion Auxiliary, and many, many others. These workers are urged to continue their fine work.

Airport Gossip

Cross countries this week: Vernon Thornton to Walters and Frederick; Doc Morrison to Electra; Leroy Reed to Electra; and Curley to Marlow.

Visitors: Harry Creel in a Ryan from Wichita Falls and Auvern Yeargan in a Waco from Wichita Falls.

There will be an air show at Holman Airport on the Jacksboro highway Sunday, November 11. It is a benefit show for the Wichita C. A. P. Squadron and Curley has been asked to do a few aerobatics.

Lions Club

Tuesday night Lion Boyd and Caffee had charge of the program. Lion Boyd introduced Jimmie Williams, discharged veteran of world war II, who gave an interesting talk on his experience, particularly the mode of living in the Holy Land which was very interesting.

November 27th will be Ladies night. November 15th a Zone meeting will be held at Vernon in charge of Lion chairman Roy Magers. Program for next week will be in charge of Chambers and Chambers. Scrap paper pick-up committee for Friday, November 9th, Lions Jim Ady, Wylie Browning, Bill Bean and Jim Boyd. Vice-President Loy Nichols was in charge.

Wild West Party

Shortin' broncs, and buckin' steers, You can't beat this in a thousand years; Come dressed as cowgirls and buckaroos, Be on time for a big "wahoo." Yes, there's going to be a wild west party at the Methodist Church on Friday, November 16, at 7:30 p. m. Western games and singing and singing and a chuck wagon supper are planned. The young people of the Methodist Church invite all young people of the town to be present.

Mrs. C. C. Gilbert was a business visitor in Dallas this week.

Rat Poison Put Out Thursday

The local Chamber of Commerce is sponsoring a rat killing campaign here, the poison being put out in the business district only, yesterday.

This work is being done by the Wichita County Health Unit, in an effort to destroy as much of the rat population as possible.

Corner Drug Moves For Building To Be Remodeled

George McClarty started moving his drug store across the street Tuesday, to the building formerly used by Ten Town, next door to Majors Variety Store. By Wednesday most of the stock was moved but there was plenty of straightening up to be done.

Workmen are already at work on the corner location, which will be enlarged to include the building next door formerly occupied by Garland Furniture Company. The wall between the two buildings will be torn out to make a store with a fifty foot front. Modern lighting will be installed throughout to add to the attractiveness of the new quarters.

Mr. McClarty hopes to have the remodeling finished by the first of the year and his stock moved in and on display ready for the public. While he is in his temporary location no fountain service will be offered, but other services will be available, same as at the old location.

Company C., 25th Battalion of the Texas State Guard officers and enlisted men and their families attended a venison barbecue given by the Battalion Commander, Col. Floyd Dean, at the Battalion headquarters located in the Municipal Auditorium at Wichita Falls Tuesday evening, November 6th.

United War Chest Drive Lagging

Those in charge of the United War Chest Drive in Burkburnett report that this community is some \$1,800 behind the goal set. Many of the workers have made their final report, but there are others who have not made contact with the persons in the area they were working.

Those who have not been contacted by a worker are urged to mail a check to Alvin Hill at the First National Bank, where proper credit will be given the contributor.

With the Victory Loan drive getting under way and some of the same workers being asked to participate in both drives, it is urgent that the War Chest drive be completed.

Do your part. A worker has probably made a number of attempts to see you and found no one at home. They are giving their time and money too. Please cooperate.

Legion Members to Decorate Graves

R. C. Tevis, Commander of the local Legion Post, announces that Legionnaires will meet at the Palace Safe Sunday morning at 6:30 and go in a body to the cemetery for the purpose of decorating the graves of their fallen comrades.

Each November 11th Legion members pay a like tribute.

Poppy Poster Winners Named

The pupils of the seventh grade have made some very interesting posters in honor of Poppy Day. The judges have had considerable trouble deciding which posters should receive the prizes. A decision has finally been reached, with the first prize going to Bill Browning, second, Joyce Wood; third Beverly Spivey; fourth, John Alan Brookman, with Leslie Landers as honorable mention.

Other pupils who entered posters were: Cleo Askins, James Hightower, Herschel Walker, Patsy Morgan, Lucille Dethloff, Pearl Gracey, Beatrice Vernon, Eddie Copher, Roy Wood, Elwanda Pruet. Each poster has been placed in a downtown store window. The prizes will be awarded Friday morning in the class rooms.

The members of the American Legion Auxiliary wish to thank the teachers and the pupils who have so earnestly given their time, in order that these posters, could aid in the publicity for Poppy Day.

Joel Green, Pvt. in the Marine Corps, is here for a 30 days' visit with his parents, Chief of Police and Mrs. W. M. Green. Joel was overseas 8 months on Guam, and reported to a camp in Oregon before coming home.

Business Houses Close Monday November 12th

Merchants met at the Chamber of Commerce Wednesday afternoon to vote on whether or not the majority wanted to close Monday, November 12, since Armistice Day comes on Sunday.

A majority of those present voted by secret ballot to close so Burkburnett will be closed tight next Monday. Grocery buyers, are reminded to stock the pantry to carry over to Tuesday.

Supt. Ralph Davis announces that the schools will NOT dismiss on Monday.

SATURDAY IS POPPY DAY

The women of the American Legion Auxiliary and the Camp Fire Girls, will be on the streets all day Saturday, November 10, offering the poppies made by disabled veterans to the public.

A window has been decorated in honor of poppy day at the Texas Hardware. A booth will be set up inside the store, where mother Majors, a charter member of the auxiliary and Mrs. Bertha Cypert, the poppy chairman, will issue the poppies to each of the volunteers.

Little Miss Wardie Virginia McConnell, whose daddy, is a casualty of World War two will serve as mascot for the auxiliary and will be on the streets Saturday afternoon, to help in this worthy cause of selling poppies.

"When you wear a poppy, you are saluting the War's dead and doing your bit for the War's living victims." Buy a poppy and remember the little boys pennies and the business man's dollar are equally acceptable.

Rotary Club

In the absence of George McClarty, Vice President I. C. Evans presided at the club meeting last Tuesday.

The program was presented by Walter Riley who introduced Pvt. Arnold Chaloupska. Pvt. Chaloupska who was, before entering the army, a music teacher in Chicago for four years rendered the following selections on his accordion: Viennese Waltz Group, Donkey Serenade, and Tico, Tico.

George Bryerly who has been carried an honorary member for the past two and one half years during which time he has been in the military service was present at the luncheon, and will take his place back in the club as an active member.

The following guests were present: Mrs. Walter Riley, Colly Fields, who was a prisoner in Japan for two years and nine months, William Kimberly, and Sgt. Gene Schneider, a brother of George Schneider.

Five Rotarians from Wichita Falls were present.

ARMISTICE DAY, 1945

We have written the usual editorial for this memorial service each year, trying to put the deep feeling of the nation's heart into each word that hopes to pledge lives to courage in battle. But those of us who remain can say so little to those who have gone, of promise, prayers and proclamations. Let us, this year, borrow the words of higher wisdom, words that have held through the centuries for the benefit of man would he but read them and learn. Peace for a war-sorry world, tribute to the dead who gave up life, as a promise for a tranquil, godly life among brothers.

"And many nations shall come, and say, Come, and let us go up to the mountain of the Lord, and to the house of God of Jacob; and he will teach us of his ways, and we will walk in his paths; for the law shall go forth of Zion, and the word of the Lord from Jerusalem."

And he shall judge among many people, and rebuke strong nations afar off; and they shall beat their swords

into plowshares, and their spears into pruninghooks; nation shall not lift up a sword against a nation, neither shall they learn war any more.

But they shall sit every man under his vine and under his fig tree; and none shall make them afraid; for the mouth of the Lord of hosts hath spoken it.

For all people will walk every one in the name of his god, and we will walk in the name of the Lord our God for ever and ever."

Holy Bible, Micah: 2-5.

SURPLUS PROPERTY

The taxpayer hears that Congress estimates the loss on surplus war goods as a 50-billion dollar one. That is, on the goods that will be disposed of through sale. In the listing, a good bit of the stock is stored overseas and in many instances is already obsolete. The point is, it cost us 60 billions, is estimated to be worth 100 billions but won't bring more than 10 billion—and we mean dollars. War costs money, that we will have to accept a loss is certain, but it would appear to most Burk thinkers that something could be done to realize more than the above figure. It sounds like too much waste. Many nations will need cargo ships, nations enlarging airlines. We should sell our surplus ships and planes, not give them away. Waste in government spending is recognized, but war was to have taught us thrift, utilizing salvage, and this works for government the same as private individuals.

Burkburnett . . . History

As revealed by the files of the Star 10 years ago.

The cotton crop of this section totaled 3,132 bales according to the report of the Farmers Co-operative Gin and Burkburnett Gin Wednesday afternoon. This number represents 1,200 increase over last year's total crop. With fair weather more than 4,000 bales will be reached during the next two months in the city.

Leonard Kendrick, foreman of the Barrow-Grace Chevrolet Co., has returned from a two days schooling for Chevrolet auto mechanics conducted in Dallas.

Washing Woodwork
When washing woodwork, use dry
brush on whipped soap jelly to pre-
vent streaking walls. Use a strip of
cardboard to protect the wall next to
frames and baseboards from being
splashed.

Celery Soup
Chopped celery tops flavor soups,
bread stuffings. To make a

Cleaner Eggs
Less work will be required in
washing eggs if the laying house has

nests are deep enough to contain
bedches of nesting material.

Avoid Stickness
Before melting chocolate in a dish
of hot water, rub inside of dish

is eliminated.

Mrs. MARY MAJOR
STOPS STICKY IRON

WYDENNIS, KANSAS. — Mrs.
Mary D. Major has discovered one
of the secrets of Faultless Starch,
according to a letter she wrote re-
cently. She said,
"The last time I was in town,
I purchased a box of Faultless
starch, and used it on my
starch. I surely was pleased
with the results, when I ironed
my clothes. My iron just slid
along. There was no sticky
starch on my iron. The starch
well named. It is all you
need. It is absolutely fault-
less."

STOP YOUR STICKY IRON

If you have to fight a "sticky
iron" every time you iron, change
to Faultless Starch and see the
difference. It's no fun to iron with
"sticky iron." It's hard work to
starch when the iron seems to stick
to the end of each stroke. Your
back, your neck, your
ache with strain when you
starch a "sticky iron."

STARCH-MAKING TIME
Another wonderful thing about
Faultless Starch is that you can
starch perfectly hot starch WITH-
OUT COOKING! And in barely a
minute! Just cream the starch
with a little cool water and add
water while stirring. That's
all that easy?

Change to the starch that
Major says, "It is all you
need. It is absolutely fault-
less." FAULTLESS STARCH—at
grocery store.—Adv.

The Business of Being an American

It means saying to the ambitious boy, "we can give you your year or two
of medical school, anyway."

By KATHLEEN NORRIS
EVERY woman who man-
ages a house and a fam-
ily knows the value of
a plan.

No matter how tangled the
problem is, if she can sit
down with a pencil and pa-
per and plan it all out, she
feels a great relief in her
troubled soul, and she knows
all will go well.

Perhaps her plan runs
something like this. "Dave
and Mary come down with
Joe in his car. Susan is com-
ing with Aunt Alice. The Fos-
ters will have the guest room.
Alice comes in with me, the
two children on cots in the old
playroom—" and so on.

Or perhaps, it is this sort of plan-
ning; "I'll combine celery and have
a good soup—that's Saturday night,
and with the corned beef hash and
cabbage and biscuits that'll do for
supper. That leaves all those
sausages for Sunday morning—and
a picnic lunch. Well, now I have only
to make a dessert or two and I'm all
fixed."

And so with the children's school
outfits. And so with the proposed
visit to the mountains or the
seaside. Think it all out, settle the
details, tell everyone just what he
or she has to do—and all anxiety
and uncertainty are gone.

World Problems to Solve.
Now we have a bigger job than
week-end meals or picnic and house-
party plans to work on. Now we
have world problems of feeding and
housing to settle.

"World problems!" We are accus-
tomed to this phrase now, and we
dismiss it as too big to handle. It
dimly means straitened markets
at home, great ships loaded with
medicine and food moving to for-
eign ports, hordes of hungry, fright-
ened, homeless folk waiting for
that food.

We have nervous sense that this
winter will be hard on us all, but
that we'll weather it. And then
afterward—

The "then afterward" is what
ought to concern us now. We'll get
through this winter on limited meat
and fuel; we'll get through the next
and the next, and we'll slowly work
our way out to that prosperity and
plenty that nothing can keep away
from us.

But then? Then comes the time
when everyone will want a little
money. Ten thousand, 12 thousand,
20 thousand dollars in 1950 are going
to spell the simple word "fortune."
Opportunities will be everywhere;
you may have what you want in
1950, if you plan for it today.

To buy things now—homes, furni-
ture, rugs, cars, is not thrifty, be-
cause of high prices and scarcities.
Also, qualities are not what they
were, and what they will be again.
But to get through these next few
years quietly, thriftily, means that
you can buy that hillside farm, with
the oaks and the creek, some day. It
means saying to the ambitious boy,
"we can give you your first year
or two of medical school, anyway."
It means an investment in some
growing industry that will bring
you and your husband a comfortable
and secure old age. It may mean

FOR A HAPPY FUTURE

Although the war is over,
many grave problems remain
with us. We can't do much
about the hardships of Europe
or Asia, excepting to contrib-
ute what we can to relief
agencies. But in our own
sphere, we can do a lot.
Shortages will be with us
for some time. Fuel and cloth-
ing will not be plentiful this
winter. Some foods will still
be hard to get. Nevertheless,
there should be no real suffer-
ing in this country, and we
can look forward to a better
year than we have had in a
long time.

This is a time to think of
the future. Right now most
people have considerable
money saved up and they have
good jobs. There is a great
temptation, now that the re-
strictions of war are being
removed, to go out and buy all
those things you have had to
do without for so long, even
though prices are high and
quality poor. The time for
sacrifice and doing without is
not yet over, Miss Norris
warns. This is the great op-
portunity to put away a tidy
sum for the next few years.

The best investment, aside
from any patriotic motives, is
in government bonds. Miss
Norris says. For safety and
high yield these victory issues
cannot be rivaled. Every one
should buy all he can to as-
sure a happy future.

travel. It may mean helping a be-
loved daughter through the hard
years when her nursery is small.
Money is going to be just as im-
portant to you in 1950 as it is to-
day, and worth twice as much.

Invest in Government Bonds.

My answer to this problem is to
invest in the last government bonds;
the bonds that mean victory, re-
habilitation, the beginning of a
new world. This is not government
propaganda; I have not been asked
to do it. I am saying it because I
consider it an extraordinary oppor-
tunity. If in the dark war years
there was ever a question as to
how America was going to come out
of this world agony, there is no
question now. She has emerged
gloriously, convincingly, unequivocally
on top. We who bought bonds
when German buzz bombs were be-
sieging London, when Japanese
suicide planes were sinking our ships,
may have shown some little faith
and patriotism in the act.

But not now. Now there is no
doubt that an investment in Ameri-
ca, as she makes her last great ef-
fort to clean up the remains of the
war ruins everywhere, and get her
own wheels started again, is the
safest investment in the world.
When I say save, and scrimp if
you must, and cut down, and sacri-
fice—but lay away victory bonds,
and bonds, and bonds." I am talk-
ing not for America, not even for
the soldiers and sailors and airmen
for whose benefit this great drive
is opened, but for you—yourself—
and those you love, and your bright
er tomorrow.

TASTIER SCHOOL LUNCHES

School days mean lunch-box days.
Here are some suggestions to make
lunches "go over in a big way."
Use enough waxed paper to cover
sandwiches, fruit and cake com-
pletely so that the food does not dry
out. And use paper cups with lids
to keep raw vegetables crisp.
To keep lettuce from wilting long
before lunchtime, wash the leaves,
dry them well, and wrap them sep-
arately in waxed paper. Then the
leaves can be added to the sandwich
just before eating.

THE FRUITS OF PUBLIC
WORSHIP

LESSON TEXT—Isaiah 6:1-8; Ephesi-
ans 5:15-21.
GOLDEN TEXT—Praise ye the Lord.
I will praise the Lord with my whole
heart, in the assembly of the upright,
and in the congregation.—Psalm 111:1.

The center of every community
should be the church. The house
set aside for the worship of God
is the gathering place of His people.
There they find fellowship as they
meet their Lord. He is in their
midst exalted and mighty, but ready
to enter every humble and contrite
heart.

Our lesson shows us how the wor-
ship of God brings blessed results
as His people meet.

I. Recognizing God's Presence
(Isa. 6:1-8).

King Uzziah, who had begun well
but had forgotten God, was at the
end of his life a leper because of
his sin and dying in disgrace. Is-
rael which had known unprecedented
prosperity under God's blessing
now hardened its heart nationally
against God and was also about to
go into eclipse. God needed a man
to speak for Him in such an hour,
to bring to His people a message of
judgment and also of blessed invita-
tion. To prepare that man, the
great Isaiah, God gave a remark-
able manifestation of His glory and
power.

It is essential that the man who
speaks for God should first see the
Lord high and lifted up and to hear
of His holiness and glory. The nega-
tive tone of the present-day mes-
sage, the lack of enthusiasm and
interest in holy things, the low
standards of personal holiness, the
failure to preach boldly the truth re-
garding God's holy standards are to
be explained by the fact that there
has been no vision of the eternal hol-
iness and glory of God.

II. Renewing by God's Power (vv.
5-8).

To see the holiness of God is to
be immediately conscious of one's
own sin and unworthiness. The ob-
vious conclusion which one draws
from that fact is that anyone who
is proud, who is not concerned about
his own sins and the sins of his peo-
ple, is living far from God and has
either never known or has forgotten
about His divine holiness.

Isaiah spoke of the pollution of
his lips, thereby confessing that his
heart was not right. Whereof the
heart is full, thereof speaketh the
mouth, for we read that "out of the
abundance of the heart the mouth
speaketh" (Matt. 12:34). Remem-
ber that even though Isaiah was a
believer he recognized the need of
cleansing.

"Then" (v. 6)—what an important
word! When Isaiah called out in
humble confession, "then" he was
cleansed. The turning point is right
at that place for any life. Only when
we come to the place of confession
and contrition which Isaiah knew,
can we expect the Lord to send the
cleansing fire and the enabling
power.

Reformation, turning over a new
leaf, character development, all
commendable in their place, are not
sufficient. There must be a divine
cleansing of the life if there is to
be a commission to service.

III. Realizing God's Will (Eph. 5:
15-17).

The ministry of the Church of God
can serve no greater purpose than
helping men and women to know
the will of God. That wisdom (v.
17) comes through the teaching of
God's Word and through the min-
istry of the Holy Spirit, both in the
church and in the individual.

The Church (and that means every
member) is to recognize that the
evil day in which we live is a
challenge to holy and effective liv-
ing. Time is not to be wasted, or
casually used. It is to be redeemed
—every moment to count for God.
The walk of the believer is to be
circumspect, that is, with "pains-
taking attention to details, under a
sense of their importance," not a
foolish walk, but a wise one.

IV. Receiving God's Spirit (5:18-
21).

God wishes to fill His children
with the Holy Spirit in such mighty
overwhelming power that they are
entirely under His control. Such
Spirit-filled believers find their joy
and satisfaction in the fellowship of
those who sing the praises of God
from the heart.

Being a Christian is not a depres-
sing, sorrowful business. It makes
you glad. It is God's people who
sing and make melody. Some of us
who have failed to appreciate this
truth should begin now to "get hap-
py" about our religion.

The Holy Spirit leads believers into
a life of humility and self-denial (v.
21). Pride and self-exaltation are
definitely ruled out.

Do not neglect the note of thank-
giving found in verse 20. The Church
of Christ has so infinitely much for
which to be thankful that actually
ingratitude is a sin. How much
blessing is lost because of it! Let
us "give thanks always for all things"

Jr. University Club Met With Jan Sullivan

"Federation and Parliamentation" was the topic theme of the program brought to members of the Jr. University Study Club Monday evening. The background and purpose of Federation was ably presented by Madelyn Hill, who also brought an interesting story of the history of Burkburnett.

The business meeting was conducted by the president, LaRene Davis. Plans were made to hold a sale of old clothes next Saturday.

A delicious refreshment plate was served to Miss Virginia Allen, Mesdames Mattie Dell Auld's Lois Bean, Mildred Counter, LaRene Davis, Wilma Douglas, Jean Garrett, Madelyn Hill, Lora Jamieson, Blanche Johnston, Helen Lyles, Faye McClarty, Marian Ragsdale, Opal Royce, Gwinn Van Loh, Florence Vaughn and the hostess, Jan Sullivan.

Mrs. A. A. Morris of Springtown, Texas, is visiting her daughter, Mrs. Bob Dalton here this week.

Mr. and Mrs. Harry Dodson and Jean visited friends in Hamlin over the weekend.

Acidity - Heartburn - Pain After Eating

TRY DRINKING HOT WATER PLUS - RIGHT AFTER MEALS

Never have you found faster relief. It's new - it's different. Neutracid is the formula of a well known west coast physician and for use whenever excess stomach acid causes gas, sour stomach or heartburn—Neutracid contains no bicarbonate of soda—and is very agreeable to take.

Here's all you do: Stir one teaspoonful in half a glass of hot water and drink when distressed after eating, take right after meals. Relief usually comes promptly in a very few minutes. Adams Drug Store and all good druggists have NEUTRACID—the new and remarkable formula for excess stomach acid.

Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes.

Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly relieves the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

Grace Women's Missionary Society

The Women's Missionary Society of Grace Lutheran Church met last Thursday afternoon at the home of Mrs. Paul Schroeder.

Mrs. Loy Nichols, vice-president of the society, presided. Following the customary opening devotional exercises and the adoption of the minutes, reports of the various committees were heard.

The group decided to purchase folding chairs for use by the various organizations of the church.

A topic discussion was led by Mrs. Arthur Evert on the subject "The Missionary Challenge in the Post-War World."

The meeting adjourned with the singing of the common doxology and with prayer by the assembly, after which delicious refreshments were served by the hostesses, Mrs. Anna Schroeder and Mrs. Paul Schroeder, to twenty-six members and guests.

The next meeting, planned as a Christmas party, will be held at the home of Mrs. Louise Lohoefer.

Unity Garden Club Met With Mrs. F. B. Hughes

The Unity Garden Club met Wednesday, October 17 with Mrs. F. B. Hughes with Mrs. Ora Ratliff as co-hostess.

Mrs. H. A. Goodwin, president presided over the business session.

Two new members were welcomed into the club, Mrs. V. C. Skipwith and Mrs. C. R. Cahmbers.

The subject for the day was Strawberries. Roll call was answered by each member giving one interesting fact about strawberries.

Mrs. Danforth, leader for the day, presented Mrs. Goodwin who gave a very interesting talk. Mrs. H. C. Gilbert gave a demonstration on Flower arranging.

Refreshments were served to Mesdames B. H. Alexander, C. W. Boyd, W. H. Cross, B. Danforth, H. C. Gilbert, H. A. Goodwin, J. B. Grace, J. M. Hayworth, R. D. Laney, F. M. Murtry, W. D. Phillips, Jerry Miller, V. C. Skipwith, C. R. Chambers, F. B. Hughes, and Ora Ratliff.

The next meeting, which will be the Thanksgiving Luncheon, will be November 14 in the home of Mrs. W. H. Cross.

Louis Littlefair, manager of the theatres in Burkburnett, spent Tuesday and Wednesday in Dallas on business.

Mr. and Mrs. J. Thomas visited friends in Burkburnett Sunday. They have both been discharged from the service and Mr. Thomas has entered Texas University at Austin.

The end of the war has not brought an end to our troubles. On the contrary, it is the beginning of a task even greater than that of winning the war. Together with other nations we are committed to the task of extending over all mankind the basic freedoms of a free people—freedom of expression, freedom of religion, freedom from want, and freedom from fear. This is by far the greatest and noblest task ever imposed upon itself by any nation or group of nations.

But we need more than an earthly and temporal freedom. We need a spiritual and eternal freedom, which is the only freedom.

As we Americans look to the future and prepare to rebuild a ruined world, we can do nothing more important than to pray daily, "Lord, make us free."

ASSEMBLY OF GOD

New interest is being shown in the revival that is in progress at the Assembly of God church. The evangelist, J. D. Birge of Lakeview, Oregon has been delivering outstanding messages each night. The congregation has been thrilled as the Word has been preached under the anointing of the Spirit.

The public is cordially invited to attend these meetings that are being held each evening at the local church on the corner of Ave. B, and E. College street. The time of the service is 7 o'clock.

The pastor also extends an invitation, and urges that each attends Sunday School some where Sunday.

Congress Fashions 5 1/2 Billion Dollar Tax Reduction for 1946; Ponder Postwar Army Training

Released by Western Newspaper Union. Editor's Note: When opinions are expressed in these columns they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.

With freedom of speech assured under Allied orders, former Japanese political prisoner addresses gathering in Tokyo. Under proposed liberalized constitution, all Nipponese elements would be afforded opportunity for recognition in nation's governmental councils.

TAXES: Good News

Though the senate and house had yet to compromise their differences, John Q. Public could look forward to substantial reductions in income taxes in 1946, and American business was assured generous relief for the immediate postwar period.

No less than 2 1/2 billion dollars was expected to be lopped off of individual income taxes as a result of provisions for permitting \$500 exemptions for dependents before payment of the normal 3 per cent levy and the scaling down of surtax rates.

Close to another 3 billion dollars was scheduled to be pared from corporation income taxes through substantial reduction or total elimination of the excess profits assessment; repeal of the declared value excess profits and capital stock levies, and graduated decrease in surtax rates on companies with less than \$60,000 net return.

In addition to income tax reductions, the use tax on automobile and boats was expected to be dropped. Solons were divided on the question of wartime luxury levies, however, with the house for cutting present rates to prewar levels July 1 and the senate against the action.

With reserves well over 6 billion dollars, both houses were unanimous in freezing present social security payroll taxes at 1 per cent on employee and employer alike and forestalling an automatic increase to 2 1/2 per cent apiece January 1.

Under the tax relief bill drawn up by the senate, G.I.s would not be required to pay taxes on service compensation during the war years, and officers would be permitted to spread tax liabilities over a three year period interest free.

LABOR: Setting Pattern

With both Henry Ford II and United Automobile Workers' leaders expressing confidence in settlement of a wage adjustment at the company, government officials held high hopes that an agreement might result in the establishment of a postwar pay pattern and clear the way for speedy reconversion.

Government optimism was a welcome note in the dreary labor picture, pointed up by the deadlock in negotiations between the UAW and General Motors over the CIO union's demands for a 30 per cent wage increase to maintain wartime "take-home" pay and the corporation's resistance to the demands because of possible effects on prices.

Setting the pattern for other CIO unions, the UAW declared that General Motors was well able to dip into alleged huge wartime profits to carry over any losses accruing from higher wages until volume production reached big volume levels. Reflecting industrial sentiment for its own part, General Motors denied exorbitant wartime earnings and declared any withdrawal from reserves would crimp expansion plans.

As the companies and unions clashed, the administration worked on a reconversion wage policy designed to guide negotiations through the troublesome days ahead. Strongly influenced by labor, the government reportedly favored substantial wage boosts to maintain wartime "take-home" pay while freezing prices at prewar levels, except in hardship cases.

Giving both capital and labor its say in the formulation of a reconversion pay program, the government moved slowly in the establishment of policy. Hopes ran high that the forthcoming management-labor parley would result in the voluntary creation of machinery for settlement of important disputes.

MILITARY TRAINING: Await Response

Having received President Truman's recommendation for one year of postwar military training for American youth 17 to 20, congress adopted a cautious attitude on the question, with one ear perked for popular reaction and the other for military argument.

Personal congressional response to the President's request varied, with Senator Revercomb (Rep., W. Va.) declaring "... I am open minded—I want to hear both sides of this..." while Representative Celler (Dem., N. Y.) exclaimed "... We

President Truman asks congress for military training for youth.

Meanwhile, it was estimated that about 975,000 youth would be called up for training each year under the President's program, with 250,000 rejected for physical or mental deficiencies. Because of weather considerations, the largest number of camps undoubtedly would be located in the south, with regular army officers and non-commissioned officers in charge. Fewer routine tasks, such as kitchen police, would be in store for reservists, military sources said.

JAPAN: Reform Imminent

Her military machine smashed, Japan's highly developed economic monopolies, designed for foreign as well as domestic exploitation, also faced imminent dissolution as part of the Allied program to strip Nippon of her war-making potential and democratize the country.

The losers figured to be the five great financial-industrial families of Japan, which, as the dominant civilian powers, had exercised strong pressure on the nation's foreign policies. Backed both politically and financially by the government, the big five, known as the "zaibatsu," were heavy investors in overseas development.

By smashing the "zaibatsu," the Allies planned to loosen their grip over Japanese politics and permit more liberal and democratic elements to exert influence over government direction. At the same time, destruction of the great combines promised freer opportunity for economic development in the country.

As steps were taken for the dissolution of the "zaibatsu," the political transformation of Japan slowly gained ground with new parties in the development stage and more liberal political institutions impending in the rewriting of the national constitution.

Huge Postwar Market for Autos Looms

Potential demand for automobiles by domestic consumers next year should amount to 9,843,000 cars, after allowing for 331,000 cars to meet the increase in population, says the Alexander Hamilton Institute.

At the beginning of 1942, the number of passenger automobiles in operation in the United States was at a record peak of 27,364,000, results of an extensive survey showed. As the result of the stoppage of production during the war, the prospect is that there will be only 21,921,000 cars in operation at the beginning of 1946. Taking into account the increase in population since 1942, the number of passenger automobiles in operation at the beginning of 1946 will thus be 6,768,000 cars below the normal level and in addition 2,744,000 cars may be scrapped in 1946.

AGRICULTURE: Global Pact

First permanent body of the United Nations, the Food and Agriculture organization (FAO) came into existence in the grand ballroom of the Chateau Frontenac in Quebec, Canada, with 30 nations formally signing its constitution.

Though possessing no executive powers over member nations, FAO seeks, through voluntary interchange of information and effort, to improve agricultural production, raise nutritional standards and better the living conditions of rural populations. Indicative of the big job FAO has on its hands, two-thirds of the world's population is estimated to be ill-fed, with many facing periodic starvation.

Signatories to the FAO constitution include Australia, Belgium, Canada, China, Denmark, Dominican Republic, Egypt, France, Greece, Guatemala, Haiti, Honduras, Iceland, India, Iraq, Liberia, Luxembourg, Czechoslovakia, Mexico, Netherlands, New Zealand, Nicaragua, Norway, Panama, Peru, Union of South Africa, Philippines, England, United States and Venezuela.

FRANCE: Left Swing

With their fundamental platforms at variance, France's three great political parties—the Communists, Socialists and Popular Republican movement—prepared for the establishment of a new constitution as demanded in the recent election.

As the three major parties and a smattering of smaller organizations moved to write a new political charter for the country, the Popular Republican movement, backed by General De Gaulle, loomed as a counterweight between the Communists and Socialists. Known as a Catholic Liberal party, and led by Foreign Minister Bidault, the PRM's surprising demonstration of strength in the elections was indicative of the quick defense thrown up by moderate elements against the threat of extreme radicalism.

The new alignment found France's political picture characteristically mixed, with the Socialists joined with the PRM for a western bloc of European nations against Communist opposition; the Communists committed to a swift program of nationalization of industries; the Socialists favoring more study of such an undertaking and the PRM for a moderate course.

FIRE RAIDS: U. S. Vulnerable

Back from a tour of war-ravaged Europe, Anthony J. Mullaney, chief fire marshal of Chicago, Ill., and a noted authority on fires, declared that investigations showed that no great city could withstand concentrated explosive and incendiary raids and domination of the skies overhead was the only assurance of safety.

In making his disclosure, Mullaney cited the obliteration of Hamburg, Germany, where all walls were of brick, numerous firebreaks existed, no skyscrapers reared up and an efficient fire department operated. In a contrast indicative of the vulnerability of American cities, Mullaney cited localities dotted with frame buildings, wood lathe and plaster construction, tall buildings, and few empty spaces for allowing a sweeping fire to peter out.

In burning out Hamburg, Mullaney said, great squads of Allied bombers first dropped explosives to rip up structures, with incendiaries then being loosed upon the open wreckage. Towering flames licked up the oxygen to create a vacuum into which air from surrounding areas then rushed in, creating fierce "fire storms." With instruments recording temperatures of 1,400 degrees F., over 40,000 persons were said to have died from the flames heat inhalation or asphyxiation.

NAVY: Speed Releases

With nearly 300,000 enlisted men and officers already released since V-J Day, the navy planned for the demobilization of an additional 800,000 by the first of next year through a reduction in discharge scores.

Following establishment of lower scores November 1, the navy contemplated an even further cut December 1, with male officers' point requirements pared to 44; enlisted male personnel to 39; WAVE officers to 30, and enlisted WAVE personnel 24.

In cutting its discharge scores, the navy left its point computation unaltered, with one-half point for each year of age; one-half point for each full month of service; 10 points for dependents regardless of number, and one-fourth point for each month of service outside of the U. S. since September 1, 1939.

TURKEYS:

G.I.s and civilians alike are assured of ample supplies of turkeys for the Thanksgiving and Christmas holidays even though the size of birds may be smaller than usual due to growers' speeding up production upon government demand.

Purchasing turkeys as early as last August, the army quartermaster corps assured plentiful stocks for service personnel. Most of the birds already have been dressed and are stored in warehouses or are in process of shipment overseas.

In addition to jobs created through the construction of rural power lines, Wickard said that each dollar spent is more than matched by the dollars the consumer will subsequently spend for farm wiring, radios, refrigeration, chick brooders, ranges, motors, milking machines and milk coolers, toasters, freezer cabinets and water pumps. A survey of rural electrification made a year ago by REA indicates that within five years it should be possible to bring electricity to 3,655,000 additional consumers in rural areas.

The ten largest, representing estimated cost of \$59,443,434, include two government-owned plants of the Ford Motor company in Rouge plant at Dearborn, Mich. and one manufacturing aircraft engine and the other, tanks, engines, armored cars, steel and malleable castings and other items.

Most of the government-owned plants operating for the war department and not selected for immediate sale have been selected tentatively to be held in standby for national defense purposes or retained for storage facilities.

Selecting Your Winter Layers

In selecting the hens for your laying flocks you will want to choose birds that come into production early, that maintain a high level of egg production throughout the winter months, and that will lay well into the summer.

Pullets chosen for the laying house should be those that mature early, have a vigorous, well developed head, a long broad back, a long keel bone, and a well fleshed breast. Such birds will prove to be your best layers. The small, slow maturing, and poorly developed birds should be sold on the market after being placed in as good condition as possible by feeding and proper care.

Then, in order to keep your flock free of loafers, you'll need to know how to tell if a bird is laying or not. Birds that are laying will have bleached beaks

and short toenails, the vent will be large and moist, and the distance between the pubic bones and the keel bone will be greater than in the bird not laying. These distances will prove a reliable guide in picking out the birds that are laying.

Although there are additional characteristics and points experienced cullers may take into account in selecting pullets and culling a flock, the above culling suggestions are fairly reliable and simple enough for anyone to follow.

NOV. 21, 1945

AN IMPORTANT DATE FOR
 THOUSANDS OF ARMY VETERANS
 NOW IN CIVILIAN LIFE

Now and November 21, Army veterans will receive the new voluntary Army. Because they have been discharged before Nov. 12 and November 1 of 1945, they will be able to return to the Army with the same grade as when discharged.

HIGHLIGHTS OF THE NEW ENLISTMENT PROGRAM

- Enlistments for 1 1/2, 2 or 3 years. (1-year enlistments permitted for men with 6 months' service.)
- Men reenlisting retain their present grades, if they reenlist within 20 days after discharge and before Feb. 1, 1946. The same applies to men discharged between May 12 and Nov. 1, 1945, who reenlist before Nov. 21, 1945.
- An increase in the reenlistment bonus to \$50 for each year of active service since the bonus was last paid, or since last entry into service.
- 20% extra pay when overseas.
- Paid furlough, up to 90 days, depending on length of service, with furlough travel paid to home and return, for men now in the Army who enlist.
- Mustering-out pay (based upon length of service) to all men who are discharged to reenlist.
- Option to retire at half pay for the rest of your life after 20 years' service—or three-quarters pay after 30 years. (Retirement income in grade of Master or First Sergeant up to \$155.25 per month for life.) All previous active federal military service counts toward retirement.
- Benefits of GI Bill of Rights.
- Family allowances for the term of enlistment for dependents of men who enlist or reenlist before July 1, 1946.
- Choice of branch of service and overseas theater in Air, Ground or Service Forces on 3-year enlistments.

MONTHLY RETIREMENT INCOME AFTER: Starting Base Pay Per Month

Master Sergeant or First Sergeant	\$138.00	\$89.70	\$155.25

Now... telephone factories are working for you

More than 246,000 people in the Southwest have had to wait for telephone service for one reason:

Telephone factories were working for war. Now those factories are turning from war to peace. All the facilities and know-how that did the war job are beginning to produce the mountains of telephone equipment—switchboards, dial apparatus, cable, wire, and instruments—needed here at home.

The task ahead is not easy. In the next 12 months we expect to be able to add one telephone for every 10 now in service. They will serve most of those who are waiting. For others, in localities where heavy construction and installation is necessary, it may take longer.

But we've made a start; we're on our way. Now all our efforts are aimed at making the wait just as short as possible—to provide telephone service to all who want it, when they want it.

When this happens, it's a fruitless Victory!

VICTORY BONDS... I call them my SOIL-SAVING BONDS and you bet I'm buying plenty of them!

LIKE a lot of farmers I know, my erosion control program has suffered during the war years through lack of help. I've got to do something about that!

"How do Victory Bonds fit into a farm erosion control program? Of course I've got the money now without dipping into my Bonds, but say current income in some future year doesn't leave me enough ready-cash to do the job... will erosion on my farm wait for me to get the money?"

"You bet it won't! And that's one of the things a reserve fund of Victory Bonds will do for me—insure a backlog to take care of emergencies of all sorts."

"And I'm not forgetting, either, that my reserve of Victory 'E' Bonds will be drawing good interest all the time—at maturity those bonds will pay off \$4 for every \$3 I put in today!"

ALL CLOTHING AND EQUIPMENT MUST BE CHECKED IN

We were smart to buy plenty of bonds in every loan, and...

You bet we're going to buy more and bigger bonds in the great VICTORY LOAN!

"HERE'S WHY..."

1. They pay for the care and cure of our wounded... supply the finest of medical aid. They help to bring our boys back home... to pay for all the colossal cost of Victory.
2. Held by millions of Americans, Victory Bonds will provide a solid reserve of buying power to assure steady jobs for veterans.
3. Buying Bonds rather than scarce goods helps keep the lid on prices... prevents inflation and its follow-up of depression.

4. Bonds form a reserve for future repairs and replacements... for modern buildings, improved stock, better homes.
5. They hold dollars in store to pay for our children's education... right on through college.
6. E Bonds return \$4 at maturity for every \$3 you invest.
7. They give security to enjoy later years with peace of mind.

MAKE VICTORY SECURE!

There's a Ford in your future!

Highlight Surprises In The NEW FORD

More streamlined than ever, with a wider hood and massive, bright horizontal grilles. A real beauty.

Select your power! Two great engines: the new 100 horse-power V-8, the most efficient ever used in a Ford car—and the lively improved 90 horse-power Six... and new "silvaloy" bearings that last up to three times as long.

Two-tone interiors. Colorful, new fabrics, rich plastics, simulated leather trim.

New springing. Thinner leaves—and more of them—are used in these long, slow-action springs. They keep you on the level—assure a real luxury ride.

New extra-big brakes. They could stop a car twice the weight. These self-centering hydraulics give smooth, quiet stops with less pedal pressure.

Bigger savings on gas and oil. Four rings on each piston. Specially hardened inserts on both intake and exhaust valves. Dual automatic spark control suits the spark to the load—lets you burn standard grades of gas efficiently.
