## POPPY SALE BEST IN YEARS

The women of the American Auxiliary wishes to thank those who helped make Saturday, November 10th the best poppy sale Burk Burnett has had in years. \$204.86 was contributed, a penny of which goes to the welfare of our boys.

The Auxiliary also wishes to thank the Camp Fire girls who worked so diligently and never tired until the last red poppy in the lapel of some citizen. The business houses were lent in giving space in their windows for posters made by the seventh grade children who we wish to thank for their splendid work.

The Texas Hardware was most helpful in lending their windows to a display symbolizing the veteran making poppies in the field where his buddies lie at rest.

Last but not least we wish to thank the Burk Star for its splendid cooperation in giving space for advertising the meaning of the little poppy worn by many millions each year.

Again we say thanks to all of you who helped, by giving your pennies, dimes, and dollars for this splendid cause.

## Lions Club

Lloyd Nichols presided Tuesday night in the absence of President Harrison.

Lion Wayne Chambers and Dick Chambers had charge of the program. After a talk by Lion Wayne Chambers he introduced the club's most versatile Lion, P. G. Hightower, who gave two beautiful vocal solos. Lion Hightower has spoken to this and other clubs a number of times and always handles the session well.

Lions will entertain their ladies with a banquet and entertainment on the night of Nov. 27th. A number of the Lions will attend the Zone meeting in Vernon tonight. Lion Roy Magers of the local club is Zone Chairman.

Program committee for next Tuesday night will be Lions Bruce and Clifford Dodson.

## Sophomore News

The Sophomore Class of 1945 met in the High School Auditorium Tuesday, November 6, for the purpose of this meeting was to choose the prettiest girl, best looking boy and class favorites.

Bonnie Perry, our class president, had withdrawn from our class to move to Yukon, Oklahoma, so our vice-president, Fayne Key called the meeting to order.

We chose the following: Prettiest girl, Verna Maney; best looking boy, Virgil Klinkerman; favorite girl, Peggy McCluskey; favorite boy, Jerry Brookman.

We are a little worried about W. Hothan. No one seems to know why he is missing school much. If he doesn't turn up soon, we must get in touch with the "Missing Person's Bureau."

Joyce Mills visited relatives in Dallas over the week-end.

Gene Clark spent the week-end out of town. He went duck hunting. According to him he caught a few.

## BETWEEN THE DEADLINES

(by H. C. D.)

Fun is like insurance. The older you get the more it costs and the harder it is to get.

Some people are already talking about easing up on the Japs, but Mike Begun sums the situation up pretty well with: "When you show sympathy with a rattlesnake, he bites you anyway." Mike is up in years but he is still spry as can be. Recently he finished building a home for himself, driving every nail and wielding the paint brush. Not a bad job, either. Among other property, Mike owns a half block just North of Cicero Smith Lumber Co., which he says would be an ideal location for a factory, and he may have something there.

He sends the Star to his daughter in California and his son in Canada. They always remember him on his birthday and other special occasions also throughout the year with letters, which he enjoys very much.

The following is a true incident. Late one evening two men were going down to the river to make preparations for their night's work, which was running a still, an occupation they had followed for years, with frequent changes in locations. As they neared the river they passed a small lake covered with ducks. One of the men said: "Tomorrow I am going to bring my shotgun and kill me some ducks." To which the other exclaimed: "Why you darn fool, do you want to break the law, duck season won't be open for two more weeks."

## Rotary Club

Last Tuesday noon, the Rotarians were well entertained by Captain Clyde Fillmore who told the club about his many experiences while in Japanese prison camps.

The credit for having Captain Fillmore appear before the club goes to Walter Riley.

George Byerly who has been carried as an honorary member since his induction into the army was welcomed back into the club as an active member by President George McClarty.

George McClarty introduced ten visiting Rotarians from Wichita Falls and three guests.

Next Tuesday Dr. H. C. Sullivan will have charge of the program.

## Correct Account Number Essential In All Cases S-S

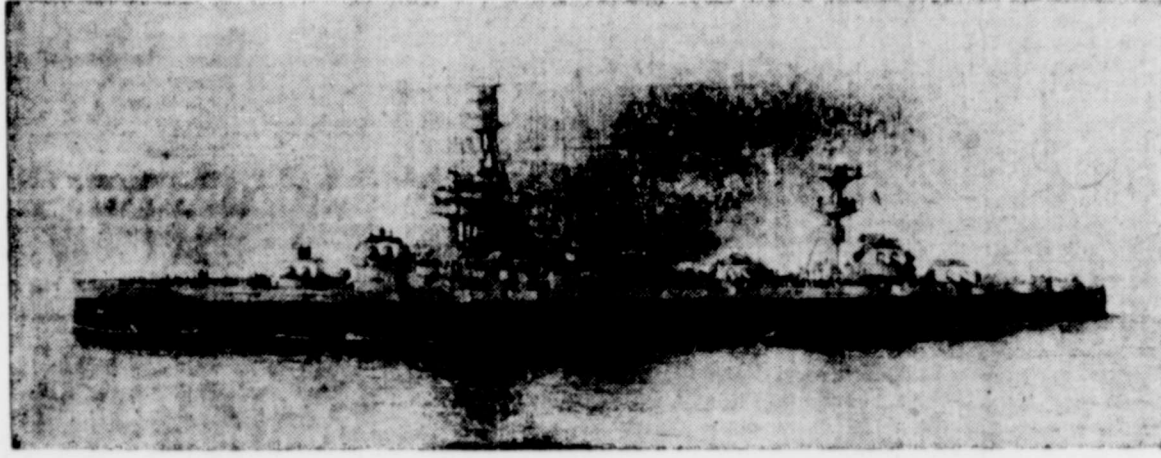

In case a worker gives his account number to an employer and it proves to be incorrect he is jeopardizing his protection under the old age and survivors insurance program under the Social Security law, according to R. L. Surles, Manager of the Wichita Falls Social Security Board office. It is equally as dangerous for a worker to give his employer his name incorrectly, such as the wrong initial or first name.

He may be depriving his widow and children of monthly benefits, in case of his death, if these errors are not corrected. It will prove of much benefit to the employer in aiding him to keep his wage record if employees will cooperate with him in checking a second time on the name typed on the account card and the one on the payroll under which he is working. The employer must make reports based on the information given him by the worker. He consequently should be provided with correct and accurate data.

Ross Lynn Jacobs, MM 2/c, has received his discharge from the Navy at Norman, Oklahoma. He was on the USS Knudson and spent 24 months overseas.

Ralph O. Brookshier, AOM 1/e was discharged from the Navy at Norman, Okla., on Oct. 20th. Ralph was on the VPB-213 and spent 17 months overseas.

## U. S. S. TEXAS . . .

—OFFICIAL U. S. NAVY PHOTOGRAPHER

Shown riding at anchor is the battleship U. S. S. Texas, one of the Navy's oldest men-o-war. Her age did not prevent her from piling up one of the war's most enviable combat records. The Texas was the only American battleship that fought off three continents—Europe, African and Asia.

## Airport Gossip

Cross countries this week: Jim Still to Frederick; Vernon Thornton to Frederick; Doc Morrison to Grandfield; and Jim Still to Fort Worth and Dallas.

## Hardin Jr. College Offering Training To Future Printers

Hardin College at Wichita Falls is offering training for the printing trade, which includes instruction from text books and also practical experience in the modern printing department, located at the college. The course is designed to give the student a practical and working knowledge of all phases of the printing trade.

Veterans are especially invited to investigate the advantages offered at Hardin College. Equipment in the printing department includes Linotype, Intertype, automatic presses, hand presses and photoengraving. Students learn to do by doing. Men with many years' experience give individual instruction to students while they are actually doing the work.

James F. Burnham is head of the Graphic Arts Department. Lloyd Terry is head of the Printing Department.

### U. S. O. Open 1 to 10 P. M.

The U. S. O. is now open Monday through Saturday of each week from one 'til ten P. M. and Sundays from one 'til 7 P. M. with regular dances every Wednesday night from eight 'til eleven, with the Sheppard Field Orchestra providing the music.

The hall has been completely remodeled with all new furniture in the lobby and new lighting system has been installed.

The Legionnaires of Oscar Frye Post worked endlessly Monday to clean and rearrange the furniture so that a more comfortable atmosphere might be provided for the boys still in uniform. They also cleaned the dance floor in order that dances may be held regularly at the USO instead of the Town Hall, where they have been held since the USO has been undergoing redecoration.

## Freshman News

The Freshman Class of 1945-46 elected the most beautiful girl who was Jimmie Sue Lane; the best looking boy, James King; favorite girl, Carolyn Reynolds; and favorite boy, George Kilpatrick.

We all regret the loss of a classmate, Harry Tracey, who has moved to Wichita Falls.

After this week and three days we will have a two day vacation for Thanksgiving, but as the saying goes "Business before pleasure." I know you couldn't forget those little six weeks tests coming up Monday, so prepare yourself classmate.

Mr. and Mrs. Will Teal are moving to Edna, near Victoria, Texas. Mr. Teal owns a store there and will be assisted in the business by his son Wayne, who was recently discharged from the Army, after more than three years' service, including several months in Europe. Mr. and Mrs. Teal own their home here on fourth street and plan to come back to Burk Burnett in a year or so.

Mr. and Mrs. Jack E. Williamson are visiting this week in the home of Mr. and Mrs. Stewart Ross enroute from San Francisco, Calif., to their new home in Pittsburgh, Pa. Mrs. Williamson will be remembered here as Miss Juanita Ross.

Mr. J. W. Jackson, of the Devotional community, attended the funeral of his brother, S. B. Jackson in Wellington Wednesday afternoon. S. B. Jackson was a resident of the Clara Community several years ago.

## Three Burk Men Reenlist In Service

The following is an item of interest to you and your community:

Within the past week three men from your city reenlisted in the Regular Army with this office. These men are the first to reenlist from Burk Burnett.

Andy L. Reese reenlisted the 5th of November in the grade of Pfc with the Army Air Forces for three years with the 448th Bomb Group.

Wendell McBride reenlisted in the grade of Pvt. with the Coast Artillery for a three year period. He has chosen the ETO for overseas service. McBride has previously served for six years with the 108th AAA Gun. Battalion.

Dewey T. Nichols reenlisted in the grade of Pfc. for service as a Medical Aidman. Nichols has previously served for five years in the medics.

It might be of interest to all discharged Veterans in your community to know that they may keep their rating in the Regular Army if they reenlist before the 21st of November.

Yours very truly,  
James D. Hammond.

## "Angel Street" to Play At Wichita Falls Nov. 26th

Gas lights which dimmed and brightened recurrently with ghostly implications in the screen's famous "Gaslight" will go up and down again in reality when the Broadway original of that play, "Angel Street," is presented Monday night, November 26, in the Memorial Auditorium in Wichita Falls.

Having played a record breaking engagement of three and a half years on Broadway, plus extended and successful periods in Chicago, Baltimore, Washington, and Pittsburgh, "Angel Street" comes to Wichita Falls under the management of Mrs. Hal Yeager, P. O. Box 1082. Mail orders now are being filled in order of receipt. Box office Ramey Drug Store, Nov. 19.

"Angel Street" typifies a new maturity in the writing of mystery-melodrama. In earlier days, there were "The Bat," "The Cat and the Canary," and "Dracula," which had audiences sitting on the edges of their chairs. But there was no attempt at subtlety. The play struck with primitive instruments—clutching hands, supernatural creatures, screams, trapezoids and masks.

Today the psychological mystery drama is the thing in the theatre. Emphasis now is on the inner workings of man's mind. In this celebrated category falls "Angel Street." Written by Patrick Hamilton, it has been directed by its producer, Shepard Traube. It carries unique setting and lighting for use of the suave fiend who gradually is driving Mrs. Manningham towards madness.

Heading the cast is Viola Keats of the Mrs. Manningham of the sensational New York run. She is supported by Brent Sargent, John Adair, Viola Roache and Vicki Marsden. The play is named after a street in London which is anything but a haven for saints. It has been heralded as one of the most unusual psychological thrillers of our time.

As presented on the screen under the title "Gaslight," the play employed the talents of Charles Boyer and Ingrid Bergman.

## Senior News

The Seniors had a class meeting Wednesday afternoon and devoted the time to elect the favorite for the Derrick. Those chosen were Bertie Williamson, favorite girl; Leon Duke, favorite boy; Wanda Estes, best looking girl; Eugene Cypert, best looking boy.

Beverly Perry has moved to Yukon, Oklahoma, and is missed by everyone. She was editor of the Groll and we were compelled to choose another. Billie Marie Nolan was chosen.

This Friday is the last day to bring the money for the Derrick. The last half of the money must be brought by December the sixteenth.

Mrs. Eddie Luna of Marietta, Oklahoma, is visiting her mother, Mrs. Mildred Jones, of this city this week.

## Sister Kenny Is Coming to Texas

Sister Elizabeth Kenny is coming to Texas. Famous for successful method of treating Infantile Paralysis, she has accepted an invitation extended to her by Governor Coke R. Stevenson in charge of the campaign for the Kenny Foundation Fund, which will be held in this state and throughout the Nation November 22 through December 8, it has been announced by Geo. C. Francisco, Jr., general chairman of the State Committee.

Bing Crosby is chairman of the national campaign. The quota for the Texas campaign is \$250,000 and committees are being organized throughout the state to direct the fund raising. Every cent raised in the campaign will be used in the fight against polio. One-half of the funds raised in Texas will be used to make available the Kenny Method of treatment to all victims of the disease. Sister Kenny will be the guest of the State Committee at a date to be announced later. She will appear at a public meeting in Austin, and will have as her guests, several of the Texas boys and girls who have been successfully cured of the effects of the disease at the Kenny Institute in Minneapolis.

State headquarters are at Driskill Hotel in Austin. Cramer Francisco has appealed to the entire state to help in the campaign, and to those who are not solicited, to mail their donations to the State Headquarters. "We can use workers in every part of the State," Mr. Francisco said. "Write me and we'll put you to work."

## Junior News

The members of the Junior class, celebrated last Saturday party at the Light Plant. The refreshments were good old red beans and corn bread with buttermilk. Though it was a cold night, the party got under way at a little after seven.

We kept warm by playing several games in which the teachers, Mrs. Benton and Mrs. Griffith, took part. After "Three Deep" and "Flying Dutchman," everyone was warm.

Everyone had a good time and hoped another Junior party would be soon.

THE AMERICAN TRADITION OF REWARDING INDIVIDUAL INITIATIVE AND ENTERPRISE HAS ENCOURAGED THE CONSTRUCTIVE RISK-TAKING WHICH LEADS MEN TO ASSUME THE CHANCE OF GAIN OR LOSS IN DEVELOPING A NEW FARM OR STARTING A NEW BUSINESS—STEPS THAT MEAN PROGRESS. BEYOND THIS, IT HAS ENABLED AMERICANS THROUGH CHARACTERISTIC THRIFT AND FORESIGHT TO BUILD SECURITY AND INDEPENDENCE FOR THEMSELVES AND THEIR FAMILIES THROUGH WAR BONDS, LIFE INSURANCE AND SAVINGS.

has reached a point where the farmer can't even find the proper rigging for his scare crow. He would hate to substitute the rustic garb for a sweater and skirt. Maybe, says a Burk Burnett ruralite, the Secretary of Agriculture can persuade collegians to dress in keeping with their calling so a farmer can dress in keeping with his.

## BACK TO THE LAND

Congress has set aside 25 million dollars to lend to veterans returning from the war, for buying farms during the 1945-46 fiscal year. Any veteran who has had experience in farming, or can show that he has ability to operate a suitable farm is held eligible to apply for one of these loans. Loans to veterans are subject to approval of committees of local farmers.

The Department of Agriculture offers a word of warning that "successful farming requires skill and experience and business judgment," and cautions the would-be farmers to be careful about saddling themselves with a debt and a farm that couldn't be made to pay. These loans by the Government, or through banking houses and approved by the Government, should be sufficient for work stock and farm machinery essential for successful farming operations and needs of a family. To aid the new farmer the local Federal agent will furnish every assistance and help to the veteran, in order to make reasonably sure that he will be successful, and able to meet his loans.

## Burk Burnett . . . . History

As revealed by the files of the Star 10 years ago.

Crashing into a bridge after being blinded by approaching lights, two Burk Burnett men were injured Sunday evening near Randlett. A. L. Bilyew received a fracture of the skull, and R. P. Bilyew received cuts about the face and head. The two men were riding in a car being pushed by a friend, and when another car approached them on the highway the lights of the approaching car blinded the driver so that he did not see the culvert. The car hit the culvert and turned over into the ditch.

Jess Griffin, local barber, was the first person in this precinct to pay the county and state poll tax, according to the report from the local tax office at the Chamber of Commerce. Mr. Griffin placed his one dollar and six bits

**ADEQUATE VENTED**  
**AUTOMATIC GAS HEATING**  
*Means* HEALTH · COMFORT · ECONOMY

We may not have severe winters, but we do have quick temperature changes and plenty of dampness. Perhaps you don't realize what damage dampness can do to the interior of your home unless you enjoy the benefits of ADEQUATE, VENTED, AUTOMATIC heating equipment.

**"HOUSE SWEATING" Causes Property Damage**  
"House sweating" is the direct result of nonvented and inadequate heating equipment. Deterioration of your walls, floors, furniture, and furnishings, leading to costly repairs, is all due to this destructive dampness.

**How To Do Away With "HOUSE SWEATING"**  
First, you must have VENTED heating equipment because absence of a vent on a heater allows the moisture, which is a product of all combustion, to remain inside the home. VENTED heating equipment eliminates this dampness by carrying it out of the home through flues, reducing "house sweating."

Second, to do away completely with "house sweating," the heating unit must be ADEQUATE. Inadequate heating leaves corners, walls, and furnishings cold. When warm air comes in contact with a cold surface, condensation, or "house sweating," takes place. ADEQUATE heating equipment, by warming the entire room or house evenly, removes all cold spots, and therefore prevents "house sweating."

Third, AUTOMATIC gas heating equipment is important for convenience, comfort, and health. With its simple, inexpensive thermostatic control, there's no more need to worry about quick changes in temperature, which cause winter colds and otherwise endanger the health of your family.

**Buy Wherever You Please**  
The ADEQUATE, VENTED, AUTOMATIC method of gas heating is not expensive. It is within the reach of every homeowner. There is a place in your home for this type of heating which gives you the opportunity of making full use of the world's finest fuel. It may be placed in the attic, closet, in the floor, or in an adjoining garage. Buy your gas heating equipment from any dealer you choose. BUT insist, for your own protection, that it be ADEQUATE . . . VENTED . . . and AUTOMATIC.

Mr. Coats reports that the shoe outlook is very promising but scarcity in certain types of shoes will be felt for some months to come. Lester reports that many of the large Boston, New York and St. Louis manufacturers had assembled their post war samples of representative stock, and that the shoe business will be humming soon.

**Washington News Letter**

WASHINGTON, D. C., Nov. 9.—Most of the work of Congress this week has been done in Committees. Many important problems are now receiving serious attention and debate in the various committee rooms on Capitol Hill. The House Military Affairs Committee has three particularly hot potatoes, namely, demobilization, universal military training, and the atomic bomb.

On Thursday of this week I attended a meeting of Senators and Congressmen who listened to several of the eminent atomic scientists attack the proposed Johnson-May bill pending before the Military Affairs Committee. Most of the scientists want to pool all knowledge concerning atomic energy and make it available to all nations. The Johnson-May bill proposes to set up a commission in this country to restrict the use of atomic energy and to preserve such secrets as may now be in our exclusive possession.

Secretary of Labor Schwelienbach appeared before one of my committees this week. Expenditures in Executive Departments, to testify in support of the so-called full employment bill. On cross-examination I asked Secretary Schwelienbach if he did not

feel that Congress should pass some law or laws giving him more authority and power to settle labor disputes and to prevent strikes that were particularly against the public interest. The Secretary dodged the commitment on this point by saying he wanted first to see if the important Labor-Management Conference now going on in the City of Washington could not work out amicable settlements of these industry-labor controversies.

**WEEKLY NEWS ANALYSIS**  
**Crises in China and Indies Threaten Peace in Far East; Foresee Substantial Wage Gains**

Released by Western Newspaper Union.  
EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.

Given noisy welcome by populace, marines arrive in Tientsin, China, to occupy port after Jap surrender. As crowds cheer, this leatherneck enjoys spin in bicycle rickshaw.

**PACIFIC: No Peace**

Though Japan has laid down her arms, peace has not yet come to the Pacific, what with Chinese nationalists and communists at swords points and Indonesians seeking their independence from Dutch rule.

U. S. troops stood in the middle as Chinese nationalists squared off against the communists, with marines guarding the vital coal mines and rail route around the shipping port of Chinwangtao in the troublesome northern zone.

Heretofore, the communists have considered this territory their special domain, and until Chiang Kai-shek's troops set foot upon it after disembarking from U. S. vessels, no nationalist forces had ever challenged Red control there. While the communists withdrew in the face of nationalist landings at Chinwangtao, they remained active to the west, cutting rail routes over which Chiang could deploy his armies.

With the U. S. supporting the nationalists and the Russians having recently promised to keep hands off of Chinese politics, Chiang has enjoyed every advantage in his effort to extend his domination over the country. While his representatives have haggled with the Reds over terms in Chungking, Chiang has cleverly pressed his edge in the north.

Meanwhile, natives of the East Indies, led by President Soekarno of their recently established republic, looked to conferences with Allied authorities to clear their claims for independence. Strongly organized early this year when the fortunes of their Jap conquerors began falling, the Indonesians presently represent a formidable force hoping to browbeat the Dutch into terms.

President Soekarno

The Mr. Big of the independence movement, Soekarno was kept busy trying to quell Indonesian hot-heads whose outbreaks threatened his control of the situation and promised to weaken his hands in dealing with the Dutch.

**WAGE POLICY: Labor Sees Gain**

Though President Truman left the way for reconversion wage settlements up to the collective bargaining of employers and unions, labor looked to the administration program to pave the way for substantial pay increases within the stabilization structure.

By appealing for maintenance of high wartime "take-home" pay, and declaring business well able to absorb the added costs, or eligible for moderate price increases, Mr. Truman was seen to apply pressure on management at a time when attention is being focused on the all-important wage negotiations in the automobile, oil and steel industries.

In enunciating his reconversion wage policy to a radio audience estimated at 32,000,000, the President did so only after administration consultations with both big business and labor leaders. As a result of one of these conferences with Henry Ford II, government officials expressed confidence a satisfactory settlement could be arranged in the

**FARM PRICES:**

Substantial gains in prices received by farmers for truck crops, grains and cotton were primarily responsible for a two-point upturn in the general level of prices received by farmers to 199 per cent of its August, 1909-July, 1914 average in mid-October, the department of agriculture reported. October parity prices reached another new 25-year high as prices paid by farmers for commodities, interest and taxes, advanced.

**Warn of Traffic Hazards**

As chairman of the National Safety council's committee on winter driving hazards, made up of 30 experts in fields of traffic and transportation, Prof. Ralph A. Moyer of Iowa State college warned that the coming snow and ice season may cause one of the worst "traffic accident winters" in history.

With a study of recent years showing traffic accident death rates for 36 northern states 24 to 53 per cent higher in the winter than in the summer months, Moyer said, the combination of more and older cars, more gas and more "restraint weary" drivers may result in the worst season in history. Drivers in snow belt states must consider dangerous road conditions and should immediately check their brakes, tire chains, windshield wipers, defrosters, and headlights.

Concerning future auto and truck models, Professor Moyer said manufacturers are giving more consideration to safety and practical fender styling for easier installation of anti-skid chains without impairing streamlining. New windshield and window designs, defrosters and headlights also improve winter visibility.

**GERMANY: Foresee Trouble**

Because of widespread unemployment, food and fuel shortages and murder and looting by displaced persons, serious outbreaks may occur in Germany over the winter, General Dwight D. Eisenhower reported.

Eisenhower's statement followed disclosure of a survey that the Germans generally had praise for the occupation of the British, were irked by seeming American indifference to conditions and fostered a deep hatred for the Russians. The statement also came on top of demands in some circles that the Allies lay down a clear-cut economic policy for Germany so that normal activity may be restored to relieve the widespread chaos.

German youths and returned soldiers presently constitute the largest trouble-making element, Eisenhower said, with much of their ire directed against foreigners fraternizing with Allied troops and displaced persons. Such discontent could well lead to organized resistance against occupation forces, Eisenhower warned.

**On Road to Life**

As a result of latest medical wonder, 7-month-old Sandra Evans of Los Angeles, Calif., may soon be cured of formerly fatal cystic pancreatic disease, doctors say. Whereas tiny Sandra was not expected to live beyond half-year, physicians predicted complete recovery after treatment under plexi-glass, requiring inhalation of vaporized penicillin diluted in saline solution.

**JAP NAVY: Remnants Doomed**

Once proud possessor of the imperial fleet, Japan will be reduced to zero as a sea power following Allied plans for the destruction of Nippon's remaining capital ships and the division of the smaller craft and auxiliaries.

Because differences in design prevent their efficient use by the U. S., Britain, Russia and China, one battleship, three cruisers, four aircraft carriers and 51 submarines will be sent to the bottom, with the battleship expected to serve as a target for an atomic bombing test. Indicative of the differences of bigger Jap warships, space between decks is 3 inches shorter than in other navies, thus cramping their use by taller people.

Some 38 destroyers built according to usable specifications will be divided among the Big Four along with coastal and auxiliary vessels. In constructing their destroyers, it was learned, the wily Japanese solicited plans from shipbuilders, copied them and then returned them as unsatisfactory, escaping payment for their use.

**BEVERAGE TAXES:**

Federal revenues from distilled spirits have increased steadily from the \$163,998,710 recorded in 1934 to \$1,408,368,230 in 1944, the New York Trust company points out. Although state revenues from distilled spirits cannot be totaled as accurately as the federal because of the complexity of state revenue regulations and the manner of collection, there is little question but that the sale of distilled spirits forms a substantial part of state income, the company found.

The 24 million American passenger automobiles that survived the war need 50 million new tires, according to Government estimates. New passenger tires will continue to be all-synthetic for some time to come. It takes 450 rubber trees and two men a year, working full time, to produce a ton of natural rubber. The work of inscribing names on headstones has been made easier by development of a rubber sandblast stencil sheet. The first commercial application of B. F. **Try Making Cough Syrup at Home. Quick Relief**

Saves Big Dollars. No Cooking. No matter what you usually use for coughs due to colds, you'll be more than surprised when you make up this simple home mixture and give it a trial. You'll wonder why you never used it before. It certainly does the work in a hurry. Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed—it's no trouble at all. Or you can use corn syrup or liquid honey, if desired. Get from your druggist 2 1/2 ounces of Pinex. Pour this into a pint bottle and fill up with your syrup. This makes a full pint—a family supply—and gives you about four times as much for your money. It tastes fine, and never spoils. Children love it. And for quick action, you've never seen its equal. It loosens the phlegm, soothes the irritated membranes, eases the soreness, makes breathing easier, and lets you sleep. Pinex is a special compound of proven ingredients, in concentrated form, a famous reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.—Adv.

Washington News Letter

WASHINGTON, D. C., Nov. 3. House this week passed a bill recommended by Adm. Chester W. Nimitz and other naval commanders fixing size of our peacetime Navy minimum of 1,082 ships, exclusive of auxiliaries.

erty. In accordance with a bill offered by me some two years ago, and with an amendment offered by me to the Surplus Property Act, former owners of agricultural land will be given the first opportunity to buy it back when this land is declared surplus.

A bill introduced by me last week, if passed, will provide veterans a first opportunity to buy personal property up to \$2500 in amount which is surplus. Such purchases could be made from the Army or Navy before the property is declared surplus, or after it reaches the disposal agency. About the only persons making any real sacrifices during the war have been those in the armed forces and their families. Any preferences now afforded through government should be given to those who suffered most because of the war.

Out-of-State License May Be Illegal

Hundreds of Texas residents are operating their automobiles illegally with license plates secured in other states where the plates may be obtained at a lower rate than in Texas. Colonel Homer Garrison, Jr., Director of the Texas Department of Public Safety, has advised that there will start immediately an enforcement program to see that all persons who are residents of Texas properly register their automobiles. Thousands of dollars are going into the revenue of other state treasuries when it should be going into the Texas treasury for the maintenance of Texas highways.

Iowa Park Fair All Set For '46

Members of the executive committee of the Wichita County Fair meeting in Iowa Park Tuesday night set the dates for the 1946 County Fair as October 14-19.

Next year's fair will be opened at 5 p. m. Monday afternoon with a big parade.

Since several counties have indicated a desire to participate, the fair will be expanded to include the counties of Southern Oklahoma and Northern Texas. The enlarged fair will be temporarily called the "Southern Oklahoma and Northern Texas Fair." A contest will be held later to determine the permanent name of the Fair.

Inspiration for enlarging the fair was the highly successful exposition held this year, and the indication by several neighboring counties that they would like to participate in next year's event.

Members of the executive committee include Allen Krohn and Leo Moore of Electra; G. R. McNeil and W. H. Hammon, Wichita Falls; Paul Browning, Burkburnett; and M. L. Hines, Dr. C. J. Simpson, C. E. Birk, Taylor George, Dr. Gordon Clark and Fred Thompson, Iowa Park.

S/Sgt. Alvie D. Simpler has been discharged from the Army at the Fort Douglas, Utah Separation Center, and is here visiting his brother, J. T. Simpler. Simpler has 5 battle stars for campaigns in Egypt-Libya, Tunisia, air offensive over Europe.

When they come back...

United Gas employees, serving in our armed forces, have been notified that we have jobs for them, when they return. . . . In reply to a questionnaire sent them, hundreds of answers already received indicate a deep appreciation of the Companies' interest, and practically all of them want to come back to us.

We asked if they thought their military experience had fitted them for special work in our organization. Many indicated a preference. We will do everything possible to give them the work they desire. . . . To all of those who have served or are serving in our armed forces, we all owe an everlasting debt of gratitude.

### CHICK CHATS

#### IS YOUR HEN HOUSE A HAVEN FOR RATS?

Rats are very destructive not only to feed and forage but also to chickens and smaller fowls. Rats may also carry disease germs and in some cases they are known to be the specific carriers of diseases. For instance trichinosis in hogs.

Every poultryman should carry on a definite anti-rat campaign at least twice a year. An easy way to get rid of rats is to use a red squill preparation which is one of the safer and more effective types of rat poison. To get best results mix the preparation with several types of feed at the same time. Mix it well with meat and chicken entrails, mix it with grains, gruels and other types of feed that the rats will eat. If all of this is done at the same time, the rat will not suspect poison as quickly as if it is put in only one at a time.

#### Ratproof Your Floors

Poultry houses are generally a favorite haven for rats. Feed must be kept tightly covered at all times. One of the major mis-

takes is poor poultry house floors. Wooden floors become damp, are hard to keep clean and make it easier for rats to gain entrance. Concrete is better and can be made ratproof when properly laid on a good foundation stone with one ply roll roofing between.

#### How To Lay A Floor

When wooden floors are used, they should be 18 to 24 inches above the ground. Concrete floors are placed directly on the ground sloping to one corner to insure drainage. Lay a layer of coarse gravel, crushed stone or cinders about six inches deep. Cover this with 1 ply roll roofing. Mix one part cement, three parts sand and one part rock or gravel, using only enough water to get a workable mix. Trowel this smooth for easier cleaning and greater sanitation. Wet it occasionally for the first week. This hardens the cement.

#### Writes From Austria--

Major Floyd L. Jackson, son of Mr. and Mrs. J. W. Jackson who live just across the river in Oklahoma, writes one of the most interesting letters we have seen some from overseas. Major Jackson has been in the service three years, and at present is with a Claims Team in Austria. He did the same kind of work in Belgium for several months. Major Jackson was graduated from the Devol High School in 1922 and from Oklahoma University in 1927. After graduating from the University he came to Burkburnett and engaged in private law practice for awhile. Later he was County Attorney of Cotton Co., Oklahoma, then he went back to private practice at Walters, Okla., where his wife now awaits his return from Europe. According to his letter he doesn't hope to get to come back to the States until possibly next July or later.

The letter, which describes his journey through Belgium, France, Germany and on into Austria, is so descriptive that one feels they are actually making the trip with him as the scenery, people and towns are described. The trip had special interest for Major Jackson, for one of his grandparents was born at Ringsheim, Germany, and he passed through that town to make pictures of its winding streets, paved with bricks, stone buildings with low-hanging roofs, its cemetery and church. Some of the stones in the cemetery had the name of his ancestors, "Persons." He sent about 25 pictures of the little village of about 800 population.

At present the Major is stationed at Salzburg, Austria, about 20 miles from Hitler's hideout and a trip to that place was planned for the near future.

We wish it were possible to publish the letter in its entirety, but that would require more than two columns.

**SHEPPARD FIELD, TEXAS.** S/Sgt. Odie W. Sullivan, the son of Mr. and Mrs. O. W. Sullivan of 499 Magnolia, Burkburnett, Texas, has been honorably discharged from the AAF at the Separation Center here, after serving in the Army since March 1, 1944.

After attending Aerial Gunnery School at Kingman Army Air Base he served for 8 months in the ETO as a Gunner with the 8th AAF. He wears the Air Medal with 3 Clusters and the ETO Ribbon with 3 Stars.

A graduate of Wichita Falls High School, he was employed by the Coca Cola Co. prior to entering the Army.

#### Eighth Grade News

Crayton Awtry, Reporter

The 8th grade pupils are in full swing with all class work.

The three reading classes have returned from a trip to Mexico. The group went and returned by plane. Although this was an imaginary trip that we made through the pages of our readers everyone enjoyed it.

All 8th graders are anxiously waiting for the new library books which have been ordered.

Section 8-2 has a modern Rip Van Winkle. After dating his class papers October for several days, Ronnie Morris woke up and found it was November.

### American Legion Auxiliary News

The American Legion Auxiliary, Unit No. 264, met Thursday night, November 1, at the Legion home, with eleven members present.

The business session was presided over by the Unit president. A delightful musical program was presented by Mrs. M. E. Lewallen, Miss Arnelde Muller, gave a piano solo, LaPaloma and Miss Mary Jo Haley sang, Put Your Arms Around Me Honey, and Don't Sweetheart Me, accompanied by Mrs. Lewallen.

Delightful refreshments were served to Mesdames Bill Schroeder, Lucille Dudley, Mabel Johnson, Grace Brookshier, Selma Palmer, Opal Bookbinder, Jemima Brady, Martha Boese, Emily Houser, M. E. Lewallen and Virginia McConnell. Misses Arnelde Muller and Mary Jo Haley.

All members are urged to pay their dues and make this new year a real American Legion Auxiliary year.

W. A. C. Pvt. Patsy G. Edwards of Camp Shelby, Miss., is visiting in the home of her parents, Mr. and Mrs. W. A. Minick. She was accompanied home by her husband, Sgt. A. W. Edwards, who was recently discharged from the service after serving fifteen months overseas in the China-India-Burma Theatre of War.

Lt. C. W. Goins of the Navy Air Corps, writes his parents, Mr. and Mrs. W. E. Goins, from Oleta, Kansas, that he expects to receive his discharge in the near future and will be home for Thanksgiving.

#### Try Hot Water Plus If Stomach Pains You after Eating--

Thousands of unfortunate people suffer from so-called dyspepsia, acid indigestion, food fermentation, sour stomach, acid stomach, flatulence, gas pains and other stomach distress brought on by excess acid.

If these people would try drinking slowly after each meal half a glass of real hot water containing a spoonful of Neutracid, they can usually get blessed relief from distress within a very few minutes.

Neutracid will quickly help to neutralize this excess acid, and thus help more rapid digestion. You get quick relief from the acute distress and discomfort. --Adams Drug Store.
